"All Things Considered," Monday-Friday, 5-6:30 p.m.; Saturday and Sunday, 5-6 p.m.; Morning Edition, Monday-Friday, 6-8 a.m.; Weekend Edition, Saturday and Sunday, 11 a.m.-1 p.m.; "Odyssey Through Literature," 12:30 p.m. Wednesdays, with S. Leonard Rubinstein.

Conferences

Continuing Education

Keller Building

Oct. 8-10. Elements of Underground Coal Mining. Christopher Bise, associate professor of mining engineering, director; Barb Impellitteri, coordinator.

Oct. 9. Pa. Bar Institute. Shirley Hendrick, assistant dean for continuing education, Smeal College of Business Administration, chair; Jeri Milson, coordinator.

Oct. 9-10. Visible Emissions Training Program.

Robert Heinsohn, professor of mechanical engineering, chair; Bill Stiermer, coordinator.
Oct. 9-11. Motor Fleet Trainer. Eric Loop, coordinator.

Oct. 9-12. National Organization of Test,

Research and Training Reactors. Marcus Voth, associate professor and director, nuclear reactor, chair; Norm Lathbury, coordinator.
Oct. 11-12. Statewide Educational Conference for Allied Health/Health Occupations Professionals. Beverly Richards, associate professor of vocational education, chair; Chuck Hersl, coordinator.

Seminars

Thursday, October 4

■ Economics/Policy Research, 2:30 p.m., 69 Willard. Robert J. Shiller, Yale, on "Popular Attitudes Towards Free Markets: The Soviet Union and the United States Compared."

Physics Colloquium, 3:30 p.m., 55 Osmond Lab. John Collins on "Perturbative QCD."

■ Agribusiness Education. Alan R. Warehne seminar, 3:45 p.m., 301 Ag Admin. John M. Dwyer, H.J. Heinz, on "The Competitive Position of U.S. Food Firms in International Markets."

Philosophy Colloquium, 4 p.m., 204 Keller. John Sallis, Vanderbilt Univ., on "The Place of Wonder."

Graduate Program in Acoustics, 4 p.m., ARL Classroom. Gerard Mangiante on "The IMC Method: Some Applications to Wave Reconstruction."

Gerontology Colloquium, 4 p.m., 106 Mitchell. Tomasz Letowski on "Identification of Satisfied Hearing Aid Users."

Friday, October 5

Polymer Science, 9 a.m., 301 Steidle. Pierre Lutz, Institut Charles Sadron, France, on "Synthesis and Solution Properties of Functional Star-Shaped Polymers."

Tuesday, October 9

Chemical Engineering, 2:30 p.m., Paul Robeson Cultural Center Aud. Alice Gast, Stanford Univ., on "Interfacial Behavior of Block Copolymers."

Geosciences Colloquium, 3:45 p.m., 301 Steidle. Robert Dietrich, Univ. of Rhode Island, on "Crustal Structure of Mid-Ocean Ridges: New Evidence on the Existence of Axial Magma Chambers."

Condensed Matter Physics, 4 p.m., 339 Davey Lab. Bruce Druk, AT&T Bell Labs, on "Chemisorbed Overlayers on Si(111)"

Wednesday, October 10

Accounting and MIS Research Colloquium, 3:30-4:30 p.m., 333 Beam. Lawrence Penomenon State Univ. of N.Y. at Albany, on "Auditor Underreporting and Moral Reasoning: An Experimental Lab Study."

Thursday, October 11

Polymer Science, 9 a.m., 301 Steidle. John Fitzgerald, Eastman Kodak, on "Photochemical and Dynamic Mechanical Properties of Polyimide/Polyacrylate and Liquid Crystalline Polyacrylate-Semi-IPNs."

Physics Colloquium, 3:30 p.m., 117 Osmond Lab. John L. Hall, National Institute of Standards and Technology, on "Precision Metrology Using New Ideas in Laser Technology."

Gerontology Colloquium, 4:55 p.m., 106 Mitchell. Leslie Morgan, Univ. of Maryland-Baltimore, on "Small Board and Care Homes for the Elderly: A Case of Social Marginality."

Friday, October 12

■ Political Science, seminar, 4 p.m., 124 Sparks. Kurt von Mettenheim, Univ. of Pittsburgh, on "The Brazilian Voter in Democratic Transition."

Exhibits

Chambers Gallery

Chet Davis, paintings, through Oct. 5

HUB Galleries

Browsing Gallery, Art Alley Panels Cases: ■ Biodiversity: Land and Water Management, through Oct. 27.

Formal Gallery:

■ Turkish Carpets: Art and History, through Oct. 27.

Palmer Museum of Art

Selections from the Permanent Collection, through Oct. 7.

The Presence of Absence: New Installations, through Oct. 14

■ The Machines of Leonardo da Vinci, through Nov. 4

Pattee Library

Rare Books Room: 1840-1928 a 150th anniversary exhibit, featuring photographs by Leslie Greenhill, through Oct. 12

Zoller Gallery

Book of the Seven Logos, Oct. 8-Nov. 4

Carpooler

Greg needs one or two people to carpool from Bellefonte to University Park. He leaves Bellefonte at 8 a.m. and leaves University Park at 5 p.m. Call 865-2180 or 353-9311.

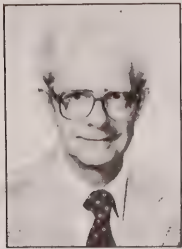

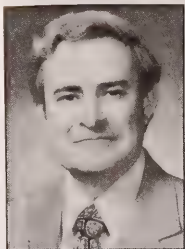

Pendulum testing facility

A mass weighing 5,300 pounds is directed toward a test bridge parapet at a force of 120,000 pounds at the College of Engineering civil engineering pendulum testing facility. A team of researchers, led by Andrew Scanlon and Richard McClure, professors of civil engineering, developed the facility for full-scale impact testing of structures. The largest such facility in the country, it has a 50-foot-high steel frame capable of swinging a mass weighing up to 10,000 pounds. Dr. Scanlon, left, and Abbas Aminmansour, instructor in architectural engineering, examine the damage to the bridge parapet after impact. The research team will use measurements from the test to evaluate the design. (Photos: Greg Grieco)

25-year award recipients

Observing 25 years service at the University are, from left, Gerald G. Eggert, professor of American history; Lowell L. Manfull, professor of theatre arts; Reinhard Graetzer,

associate professor of physics; S. R. Polo, professor of physics, and Louis Winkler, assistant professor of astronomy.

Faculty/Staff Alerts

Informational sessions

Details of several significant changes in healthcare coverage which are effective Jan. 1, 1991, will be discussed by members of the Employee Benefits Division at informational sessions on Oct. 18 and 23. The sessions will be held at 1, 2, 3 and 4 p.m. in Room 112 Kern Building at University Park.

Tuition reduction

This is to remind you that the 75 percent tuition reduction for graduate study for employees and spouses is taxable as ordinary income. Ordinary income is subject to withholding of all payroll related taxes. For the Fall Semester, these taxes will be withheld from the October, November and December monthly payroll checks and from the five bi-weekly pays beginning Nov. 2 and ending Dec. 28.

Healthcare coverage review

Regular University faculty and staff members are urged to review periodically the deductions being taken for their

healthcare coverage (hospital/surgical/major medical, dental and vision) to be certain that they are paying for the correct coverage.

A change in family status may affect your cost and your coverage. For example, when you get married, when you have a first child, or when your spouse stops working for the University, you run the risk of having inadequate dependent coverage, if you haven't taken steps to indicate the change in coverage desired.

Consideration should be given to changing coverage if any of the following circumstances arises: If you get married, you get divorced (or separated) and no longer wish to provide spouse dependent coverage; you become the parent of a first child (note: a baby is covered automatically for 31 days following birth; however, to provide coverage beyond that time for a child, a coverage form must be completed); your only dependent child reaches age 19 (or 23 in the case of a full-time student); your only dependent child gets married; your spouse begins or ceases working for

the University as a regular employee; you only dependent child begins or ceases working for the University as a regular employee; your spouse enters military service; your spouse dies; you only dependent child dies.

If you feel a change should be made, call, write or visit the Employee Benefits Division, Room 205 Rider Building, 865-

1473. Faculty or staff members located away from University Park may receive assistance by contacting the appropriate director of business services or human resource officer.

The University has no way of knowing whether a change should be made, so it is the responsibility of faculty or staff members to keep their records up to date.

Shenango executive officer search group

W. Murray Small, associate professor of metallurgy at the Penn State Shenango Campus, has been named chair of the Advisory Search Committee for Campus Executive Officer at Shenango.

Members of the committee are **Jane Muldoon**, adult counselor; **Joy M. Perrine**, acting director, Student Programs and Services; **Thaddeus R. Freisner**, assistant professor of biology, and **Margo Young**, Association of Student Government. Association, all at Shenango Campus; **Deborah F. Atwater**, associate professor of speech communication; **David B. Otto**, campus executive officer, Penn State Beaver Campus; **Jack P. Royer**, associate dean of

undergraduate education, and **Judith Vicary**, director of worksite health and assistant professor of health education.

Candidates for the position should have an earned doctorate, several years of experience in college and/or university teaching and substantial experience in academic administration.

Applicants should send two copies of resume to Richard E. Grubb, senior vice president and dean, Commonwealth Educational System, 111 Old Main, Department CHE, University Park. Applications and nominations will be received until a suitable candidate is selected.

Focus on the arts

Continued from page 4.

concert at 12:10 p.m. Thursday, Oct. 11, in the Eisenhower Chapel at University Park. The 20-minute concert is part of the Bach's lunch concert series, sponsored by the School of Music and the University Lutheran Parish.

The New Decade Quartet was formed in January 1990 to promote horn ensemble music. The group is part of the Penn State Horn Ensemble.

Artistic forgeries

Kahren J. Arbitman, director of the Palmer Museum of Art, will give the lecture "Fakes: The Experts Right and Wrong" at 8 p.m. Thursday, Oct. 11, at the museum at University Park.

Her talk will focus on two of the more

notorious occurrences in which paintings created centuries after the originals fooled both art connoisseurs and the public-at-large.

Her lecture is the second in this fall's Director Series and is free and open to the public.

Song recital

Tenor Richard Kennedy, an assistant professor in the School of Music, and pianist Betty Bullock will present a song recital at 8 p.m. Friday, Oct. 12, in the Recital Hall of the Music Building at University Park.

The pair will perform songs in English, German and French by composers Henry Purcell, Franz Schubert, Hugo Wolf, Richard Strauss and Francis Poulenc.

Pittsburgh Symphony

The Pittsburgh Symphony under the direction of world-renowned conductor Lorin Maazel will bring to life dragons, giants, heroes and heroines as they perform an adaptation of Wagner's epic masterpiece "The Ring" at 8 p.m. Monday, Oct. 15, in Eisenhower Auditorium at University Park. Mr. Maazel's "Ring," called "The Ring Without Words," is a 70-minute arrangement of Richard Wagner's four-part, 14-hour opera "The Ring of the Nibelungs." It was recorded by the Berlin Philharmonic in 1987 and had its live premiere this May in Pittsburgh.

At 7 p.m. the audience is invited to Artistic Viewpoints, a free lecture series. Barbara Yahr, past director of the Nittany Valley Symphony and now with the Pittsburgh Symphony, will speak.

Tickets are available through the Eisenhower Auditorium Ticket Center,

open Monday through Saturday 8:30 a.m. to 4:30 p.m.

Production wins award

An all-Penn State television production, "Best Friends," has received the Gold Award in Performance from the Corporation for Public Broadcasting.

Shot in only five days and using student talent in every aspect of its production, "Best Friends" was recommended for national airing after a local showing on WPSX-TV.

The quality of the writing, directing, cinematography, editing and acting in the program, along with its 30-minute length, combined to earn "Best Friends" national distribution. It was telecast Aug. 16 and was one of *People* magazine's "picks" for that week.

University Faculty Senate

The University Faculty Senate will meet, at 1:30 p.m. Tuesday, Oct. 9, in Room 112 Kern Graduate Building at University Park.

Items to be discussed

Oct. 9:

- Status of Construction Projects

- Report on the Implementation of the Cultural Diversity Requirement
- Faculty Salaries-Penn State vs. Similar Institutions
- Undergraduate Education Update: 1990
- Faculty Rights and Responsibilities Annual Report

Items discussed Sept. 11:

- Annual Report of the NCAA Representative
- Academic Requirements for the Big Ten
- Summary of Student Petitions by College, Unit or Location
- Status of Construction Projects
- Awards and Scholarships
- Summary of Petitions for Waiver of the 10-Credit Limit for Nondegree

- Conditional Students (Student Policy 14-00)
- Summary of Academic Renewal Petitions
- Blue Sheet of Aug. 17, 1990
- Status of the Pennsylvania College of Technology
- Joint Committee on Insurance and Benefits
- Presentation by the Office of Human Resources

Staff Vacancies

The following vacancies for positions classified as staff exempt or staff nonexempt have been listed with the University Employment Division for filling. The brief statements for each vacancy are illustrative. They are not complete position descriptions. APPLY BY CALLING THE EMPLOYMENT DIVISION, 863-0304 (NETWORK LINE 13.0304). Applications for these staff vacancies will be accepted until Oct. 11, DO NOT CONTACT THE AREA THAT HAS THE VACANCY. Applications for staff vacancies are considered in accordance with Fair Employment practices (FES-31) and in compliance with the University's Affirmative Action Compliance Program, without regard to race, color, religion, national origin, handicap or age (as provided by law) sex, or status as a disabled or Vietnam era veteran

***01003. Coordinator, Project Management, Division of Development and University Relations, Office of University Development.**

University Park Campus - Supervise and manage the development tracking of major gift LYBUNTS - pending funds, and gift publicity. Requires bachelor's degree, or equivalent, in business administration or computer science, or related field, plus one to two years of effective experience with data management. Proficiency in verbal and written communications skills and analysis required. STAFF GRADE 5

***01004. Data Retrieval Specialist, Division of Development and University Relations, Alumni Association, University Park Campus** -

Analyze code modify text, and submit computer program instructions for retrieval of data from Alumni/Development database: review and interpret requests for information from users of the Alumni/Development database; prepare appropriate test databases. Requires associate degree, or equivalent, plus one to two years of effective experience. Knowledge of COBOL and NATURAL programming language preferred. STAFF GRADE 4.

***01005. Program Assistant - Graduate Housing, Housing and Food Services, University Park Campus** - Responsible for the creation, implementation and evaluation of comprehensive social, cultural, educational and recreational programs for residents of graduate housing, along with periodic other housing supervisory responsibilities elsewhere on campus. Requires bachelor's degree, or equivalent, in student personnel, counseling or related field plus one to two years of effective experience STAFF GRADE 6.

***01006. Assistant Manager - HUB Production, Housing and Food Services, University Park Campus** - Responsible to the manager, HUB Food Service, for recipe development, purchasing, preparation, production quality and inventory control for all food products prepared in the HUB Eatery in support of the six retail operations and Penn State Catering. Requires bachelor's degree, or equivalent, in HRIM or graduate of accredited culinary school plus one to two years of effective experience in food production. Demonstrated ability to direct and

manage a high volume and quality food production facility is required. STAFF GRADE 6.

***01007. Research Engineering Assistant, College of Engineering, Mechanical Engineering - Center for Acoustics and Vibration, University Park Campus** - Responsible to the director, Center for Acoustics and Vibration, for performance and coordination of assigned research activities of the Noise Control and High Intensity Acoustics Laboratories. Requires associate degree in electronics or mechanical technology, plus two to four years of effective experience in analog and digital electronics, acoustics and acoustic instrumentation, and machine shop operations and practices. Excellent interpersonal skills and organizational ability required. STAFF GRADE 6.

***01008. Counselor, CES, Beaver Campus** - Responsible to the director of student programs and services for conducting personal, educational, career and placement counseling programs on Campus. Assist with the activities of other student programs and services and Campus divisions. Requires master's degree in clinical or counseling psychology, counselor education, or equivalent training, plus a minimum of two years of applicable professional experience in educational/vocational counseling or related experience. STAFF GRADE 7

***01009. Senior Technical Specialist (Economic Development), Senior Vice President for Research and Dean of the Graduate School, Office of Sponsored Programs, Technology**

Transfer and Industrial Liaison, Penn State-Behrend - Responsible, through the director of industrial programs, for serving as a resource person for clients interested in economic development and for organizations in Northwest Pennsylvania to assist in identifying and providing possible solutions to technical and economic development problems. Requires master's degree, or equivalent, in an engineering field or physical science, plus five to seven years of effective experience in an industrial setting, preferably in a plastics-related industry. THIS IS A FIXED-TERM POSITION FUNDED THROUGH JUNE 30, 1991. WITH STRONG POSSIBILITY OF RE-FUNDING. STAFF GRADE 9.

***01010. Drafter, Electro-Mechanical, Applied Research Laboratory, University Park Campus** - Responsible to the supervisor, Design and Drafting, for the accurate performance of a variety of drafting operations on all types of drawings for electronic, electro-mechanical, mechanical, hydraulic and acoustic equipment and devices. Requires associate degree, technical school training, or equivalent, in electro-mechanical drafting plus six to nine months of effective experience. U.S. citizenship required. STAFF GRADE 3.

***01011. Drafter-Designer, Electro-Mechanical, Applied Research Laboratory, University Park Campus** - Responsible to the supervisor, Design and Drafting, for the accurate performance of a wide variety of drafting operations, including layout and design work on all types of drawings for electronic, electro-mechanical, mechanical, hydraulic, and acoustic equipment and devices, and for

the "packaging" design of electronic equipment. Requires associate degree, technical school training, or equivalent, in electro-mechanical drafting plus two to three years of effective experience. U.S. citizenship required. STAFF GRADE 5.

***01012. Junior Engineering Aide, Applied Research Laboratory, University Park Campus** - Responsible to the project engineer or designated senior engineering aide for assistance in the fabrication, testing, installation, operation, and maintenance of non-standard electronic or mechanical parts, components, and equipment. Requires associate degree, or equivalent, in electrical or mechanical engineering technology program, and more than three months of effective experience. Position may require travel on field assignments including assignments abroad ships at sea. U.S. citizenship required. STAFF GRADE 3.

***01013. Engineering Aide, Applied Research Laboratory, University Park Campus** - Responsible to the project engineer or senior engineering aide for the layout, design, fabrication, and construction of standard electronic or mechanical components and equipment. Assist in conducting tests and with the collection, compilation and analysis of test data. Requires associate degree, or equivalent, plus two to four years of effective experience in the design and fabrication of experimental equipment. Position may require travel on field assignments including assignment aboard ships at sea. U.S. citizenship required. STAFF GRADE 3.

Arts and Architecture graduates scheduled to visit

Two graduates of the College of Arts and Architecture have been named Alumni Fellows and will visit the University Park Campus Oct. 16-18 to meet with students and faculty members.

Arthur Edwin Bye, international known landscape architect, and **Mary Louise Elliot Krumrine**, curator of a recent landmark exhibition on the art of Paul Cezanne, were selected for the most prestigious award given annually by the Penn State Alumni Association.

Mr. Bye is the head of his own landscape architecture firm based in Cos Cob, Conn. Since the establishment of the firm in 1951, he has worked on private, public and corporate commissions, and worked with some of America's most prominent architects, including Frank Lloyd Wright, Marcel Breuer, Edward L. Barnes, Abraham

Geller, John Hejduk, Davis and Brody, and Mitchell/Giurgola.

In addition to his practice, Mr. Bye has taught landscape architecture at Cooper Union in New York since 1951. He also has taught at Columbia University and the University of Pennsylvania and has served as a visiting design critic and lecturer at Penn State, Harvard and a number of other universities.

Dr. Krumrine is a part-time associate professor of art history at Penn State. Last year she served as curator of the landmark exhibition "Paul Cezanne: Die 'Badenden,'" held at the Kunstmuseum, Basel, Switzerland.

She has published extensively on the work of Cezanne, and currently is working on a postscript to the Basel exhibition in

Please see 'Alumni' on page 3.

Biodiversity and Landscape Week

Whereas, Human incursions into natural habitats, such as the rain forest, have brought many species to extinction or the verge of permanent displacement; and

Whereas, Increases in human population are leading to the degradation of the environment and biodiversity through non-renewable resource depletion; and

Whereas, Species extinction lowers the overall biological diversity of the planet, and decreases in genetic diversity leave species open to decimation by catastrophic events; and

Whereas, Extinction or loss of genetic variability frequently causes us to lose the option to explore the unknown benefits of uncataloged species; and

Whereas, Penn State will host Biodiversity and Landscapes; Human Challenges for Conservation in the Changing World, an international event in biodiversity

Therefore, I, Joab Thomas, president of Penn State, do hereby proclaim the week of Oct. 21-27 as Biodiversity and Landscape Week at Penn State. I urge everyone to consider the complexity and interrelatedness of the Earth's flora and fauna and the opportunities humanity is losing each time a species becomes extinct or biological diversity is reduced.

Joab Thomas

United Mine Workers to observe 100th anniversary at conference

The United Mine Workers, a pioneer organization in the U.S. labor movement, will celebrate 100 years of rich history while looking ahead to the 21st century at its UMW Centennial Conference, Oct. 18-20, at University Park.

UMW president Richard Trumka, a Penn State graduate and current member of the University's Board of Trustees, will present the annual Philip Murray Memorial Lecture at 7:30 p.m. Thursday, Oct. 18, in the Keller Conference Center.

In addition, there will be a showing of a video on the history of the UMW, which was produced to mark the 100th anniversary of the union's founding.

Several noted historians and industrial relations authorities will speak at the five sessions of the conference: David Brody, Melvyn Dubofsky, John H.M. Laslett, Robert Zieger, Joe W. Trotter Jr., Anthony Mazzocchi, James Green, Steve Brier, David Frank and Alan Derickson.

Several University faculty members have prominent roles in the conference. Paul F. Clark, associate professor of labor studies and industrial relations, and Harold W. Aurand, professor of history and director of academic affairs at the Penn State Hazleton Campus, will chair two of the sessions. Alan Derickson, assistant professor of labor

Please see 'UMW' on page 3.

Air Expo set for Oct. 20-21 at University Park Airport

The skies over State College will be filled with activity when Air Expo '90 comes to the University Park Airport Oct. 20-21.

Introducing today's younger generation to the world of flight is the goal of this year's Expo. Its theme, "Youth and Careers in Aviation," refers not just to piloting, but also to aircraft design and repair, air traffic control, stewardship and more.

Now in its fifth year, the Air Expo has been expanded to two days on Parents' Weekend, an away-football weekend. It will be held from 10 a.m. to 6 p.m. Saturday and from 10 a.m. to 4 p.m. Sunday in fair or foul weather at the airport on Fox Hill Road in State College. Admission will

be \$5 for adults age 16 and over, and no charge for young children.

Featured attractions will include the Holiday Inn Aerobatic Team, Manfred Radius' sailplane aerobatics, parachuting, and hot air balloons.

Military aircraft to be displayed include a vintage B-17 Flying Fortress, a PBX amphibious airplane and a TBM Avenger. Flight demonstrations will be given by modern A-10A Thunderbolt IIs, A-7 Corsair IIs and A-4 Skyhawks, as well as one of the only two F-9F Panther jets in existence.

A variety of military helicopters and experimental, corporate and commercial aircraft also will be on display.

Air Expo visitors are asked not to park at the airport. Free parking will be available at a designated lot on the east side of Beaver Stadium. Shuttle buses will transport visitors to and from the airport at no charge.

The International Lions Clubs of Centre County are co-sponsors of the event with Penn State. The Sight Loss Support Group of Central Pennsylvania and the Centre County Youth Services Bureau have been named as beneficiaries of Air Expo '90 proceeds.

Air Expo '90 also will host a challenging contest for visiting youths and a variety of historical exhibits and aviation industry booths.

Focus on Diversity

Black geologists and geophysicists will meet

Careers in geosciences for minority students will be among the topics at the ninth annual conference of the National Association of Black Geologists and Geophysicists Oct. 19-20 in the Keller Conference Center at University Park.

This year's conference, whose theme is "The Geoscientist's Role in Preserving the Environment: Education for the 21st Century," includes technical paper sessions and workshops as well as special activities for a group of Pittsburgh area high school students.

"We are expecting about 40 high school students and their teachers from the

Pittsburgh area and another 40 conference attendees," John Leftwich, graduate student and conference chair, said.

The National Association of Black Geologists and Geophysicists is a non-profit organization established in 1981 to inform students of career opportunities in geology and geophysics; provide scholarships and encouragement to students in geology and geophysics; and help minority students find summer employment.

Technical sessions will cover a wide range of topics in geology and geophysics including sedimentology, shallow aquifer pollution and water resources and

application of Earth Science Information.

Charles Brown, hydrologist with the U.S. Geological Survey, Reston, Va., will present the keynote address on the conference theme. Dr. Brown received his Ph.D. in 1977 from Penn State.

The high school students will attend special workshops in rocks and minerals, see films and visit Penn State's Mineral Museum to learn about career choices in the geosciences.

For further information, contact Mr. Leftwich, Department of Geosciences, University Park.

Minority career day being held in HUB

The University's seventh annual Minority Career Awareness Day is being held from 10 a.m. to 5 p.m. today in the HUB Ballroom and Fubball at University Park.

The career day is a multi-cultural event sponsored by the Career Development and Placement Center that last year attracted more than 1,200 students and 78 corporations, government agencies and non-profit organizations. It is designed to help African-American, Hispanic, Asian-American, Native American Indian and disabled students meet potential employers.

Underrepresented and disabled students from freshman to senior year in all majors are invited to meet professionals in their anticipated field and obtain career information from about 80 employer representatives. Those actively seeking employment should bring their resumes.

Rob Littlejohn, recognized speaker on job searches and business practices, will give a keynote address at 12:30 p.m. in the HUB Assembly Room.

Diversity series continues at Allentown

The film and discussion series Changing Cultures through the Centuries and Cultural Diversity in our World continues through the Fall Semester at the Penn State Allentown Campus.

The life of Jewel Lafontant will be chronicled in a film bearing her name on Wednesday, Oct. 17. Ms. Lafontant spent 40 years in the legal profession and achieved many "firsts" including being the first black and first woman to be deputy solicitor general of the United States. The second film on Oct. 17 will be "Japan: Society and Individual."

On Wednesday, Oct. 24, the film "New

Orleans Black Indians: A Case Study in the Arts" examines the Black Indian tribes as they celebrate Mardi Gras and create a living history of their folk art. The "Future of Humanity" also will be shown. The film explores whether cultural diversity is being lost in the movement toward a one-world culture or if a new cultural diversity and creativity will emerge.

The history and culture of the Middle East will be the topic of two films on Wednesday, Oct. 31. "The Middle East: Revolution-Iraq and Iran" explores the tradition of revolution that has emerged in the Middle East since World War II by

examining Iraq and Iran. "The Middle East: The Middlemen" explains the constant turmoil in the Middle East through culture, history, Western influence, geography, and environment.

The series will conclude with two panel discussions by Penn State Allentown Campus students. Students will discuss life in the Middle East on Wednesday, Nov. 7, and life in Vietnam on Wednesday, Nov. 14.

All films and discussions will begin at noon in the Academic Building.

Diversity Opportunities Calendar

Monday, Oct. 15

Women's Studies Student Affairs Committee 12:15 to 1 p.m. 12 Sparks. Students and faculty will discuss issues concerning women at Penn State

Tuesday, Oct. 16

Campus Life Assistance Center and Project Growth, 8 p.m. HUB Ballroom. "Let's Listen" panel presentation on "Homosexuality: Different Perspective."

Wednesday, Oct. 17

Center for Women Students noon to 1 p.m. 120 Boucke Brown Bag Lunch presentation, Paula Ann Pricken, on "The Wounded Daughter and the Adult Child of Alcoholics Syndrome."

Fulbright Internal Lecture Series, 3:30 to 4:30 p.m. 222 Boucke. Adarsh Sharma, visiting Fulbright scholar, on "The Girl Child in India."

Women's Studies, 3:30 to 5:30 p.m. 12 Sparks. Women's Studies Faculty Advisory Committee meeting. All faculty and students welcome.

Groove Phi Groove, 7 p.m. Paul Robeson Cultural Center. Film: "Right On: Poetry on Film."

Center for Women Students, 7 p.m. HUB Gallery. National Collegiate Alcohol Awareness Week Film/Discussion: emphasis will be on advertising's impact on women

Throughout October
Hindu and Jain Good over Evil holidays (exact dates dependent on lunar calendar).

October through November

Hindu and Jain Festival of Lights holidays (exact dates dependent upon lunar calendar).

Private Giving to Penn State

Mobil supports engineering, business programs

The Mobil Oil Corp. has given Penn State \$115,000 to support a variety of programs in engineering and business during the 1990-91 academic year.

Mobil designated five grants totaling \$35,000 for the College of Engineering. The funds will be used for faculty and laboratory support in the Department of Chemical Engineering, the student activities center in the Department of Civil Engineering, and college-wide recruitment and retention of minority students.

The College of Earth and Mineral Sciences received five grants totaling \$30,000 for general support, faculty research and for scholarships in the Departments of Petroleum and Natural Gas Engineering and Geophysics. The departments may apply general support to areas of greatest need.

Mobil designated \$35,000 for the College of Business Administration for general support, graduate fellowships, minority recruitment and retention, and

activities of student preprofessional organizations.

The Department of Chemistry in the Eberly College of Science received \$10,000 for general support.

A \$5,000 grant was made to Penn State Educational Partnership programs in Reading and McKeesport. Through the partnership programs, Penn State encourages minority students in urban secondary schools to stay in school and work toward going to college.

Atherton Hilton provides gift for new facility

The School of Hotel, Restaurant, and Institutional Management has received a \$100,000 commitment from the Atherton Hilton Hotel in State College to support three scholarship funds and a new facility planned at University Park.

P. Jules Patt, owner of the Patt Organization of Hollidaysburg, parent company of the hotel, said the school provides skilled people for his company and deserves support.

"I want to see the hotel's involvement

with Penn State grow as the hotel grows," Mr. Patt said. "Many of our finest people have graduated from the school, and it only makes sense to invest in continued excellence."

Construction costs for the 31,000-square-foot facility planned adjacent to Keller Building are estimated at \$5.4 million. The University has allocated \$1.5 million for the project, and private support will provide the remaining funds, according to Dean Anne C. Petersen. The College of Health

and Human Development also plans to raise \$1.5 million for equipment for the new facility, she said.

The Patt Organization, founded by Jules Patt in 1972, is a full-service real estate development company. It designs, develops, builds and manages hotels, resorts, shopping and office centers, mixed-use complexes, adult personal care and planned residential communities in seven mid-Atlantic states.

University featured during Nittany Lion telecasts

When the Penn State Nittany Lion football team plays on network television the University shares the national limelight.

As part of an agreement with the NCAA, the television networks must provide commercial time for institutional spots from the competing schools.

At Penn State, the 30-second network

spots are produced by the Department of Public Information.

"While the networks are required to provide the time, the institution is responsible for producing the spot," J. Arthur Stober, manager of electronic communications, said.

"Although many institutions hire outside

professional production companies to produce their spots, all of ours are written and produced in Public Information, with technical assistance and technical facilities provided by WPSX-TV.

"As a result, we have complete control over the spots and are able to produce them much less expensively."

In the past, the University's institutional spots have focused on a wide range of areas, including teaching and research, and outstanding Penn State corporate alumni.

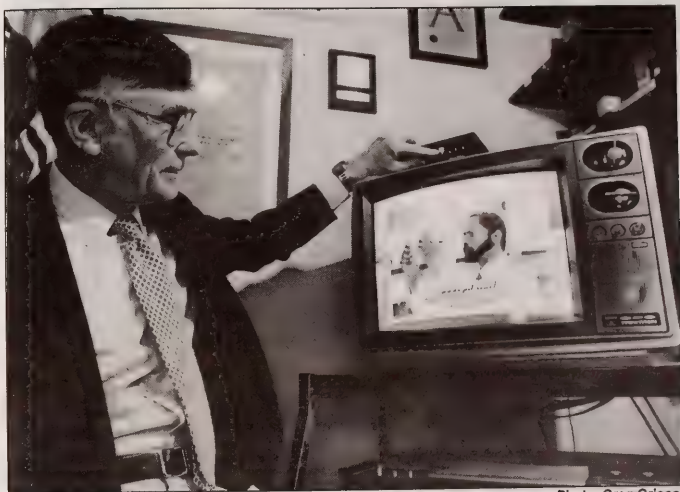

"The most famous spot," Mr. Stober said, "was the Homer Braddock spot shown during the 1986 Fiesta Bowl. The 30-second spot, commercial time for which would have cost \$400,000 on NBC, was estimated to have been seen by 70 million viewers."

The spot, which was narrated by actor Edward Binns, a Penn State graduate, focused on Homer Braddock, a 1900 graduate whose \$5.6 million bequest in 1984-85 created endowed scholarships and fellowships in the College of Science. It received a silver medal from the Council for Advancement and Support of Education (CASE) as the top spot of the decade.

This year, Public Information has produced seven new spots highlighting outstanding University faculty members and the Hershey Medical Center as an international center for heart research. The first of the new spots will be shown during the Penn State-Syracuse game on CBS.

The television spots have received a number of other awards from CASE. One honoring the four architects who designed the award-winning Korean War Veterans Memorial, and shown during last year's Holiday Bowl game, won a gold medal in this year's CASE competition. A 30-second version was shown on the ABC telecasts of the Penn State-Southern California game on Sept. 15.

"This year's gold medal," Mr. Stober said, "was the 22nd award the Department of Public Information has won for radio and television production. We're really pleased with the recognition our network spots have gotten."

addition to teaching at Penn State, she has been on the faculties of Lycoming College and Bucknell University.

Dr. Krumrine received all of her education at Penn State, including a bachelor of science in medical technology in 1953, a master's in art history in 1978 and a doctorate in art history in 1984.

UMW

Continued from page 1.

studies and industrial relations, will speak on the topic of black lung in the UMW's history.

On Oct. 19, a banquet at the Conference Center will include a performance of coal miners' songs by well-known country and bluegrass singer Hazel Dickens and her band, and Tom Juravich, assistant professor of labor studies and labor music performer.

UMW and coal-mining photographs, documents and memorabilia from Penn State's Historical Collections and Labor Archives will be on display at the Kern Graduate Commons.

United Way drives being held at all campuses

United Way charitable fund-raising drives are taking place throughout the Commonwealth this fall and at all Penn State locations.

United Way has been chosen as the only charitable fund-raising drive for which payroll deduction is authorized for University employees because it supports the greatest variety of human services in the communities where Penn State campuses are located. More than 37,000 different human service programs are funded in the United States.

Although United Way fundraising takes place typically in the fall, United Way agencies and volunteers meet year round. Each spring volunteers meet to consider agency funding requests. At that time, agencies that have received funding in the past submit detailed budgets, program information, service statistics and independent audits to United Way for review. The volunteer committees also review information submitted by organizations that want to become United Way-supported agencies.

United Way

It brings out the best in all of us.®

All requests are checked for accuracy and completeness.

Volunteers also may visit the agencies in person to see how they carry out their services, how accountable they are, and to examine their finances and management. These visits give volunteers information and an understanding in order to consider requests for funding, keeping in mind community needs, priorities and other available sources of support.

Face-to-face budget hearings are then scheduled with each agency to discuss funding requests. Volunteers then make specific funding recommendations which

are turned over to allocations specialists, and ultimately find their way into setting United Way goals and agency budgets.

To learn who the United Way volunteers are in your area who participate in agency funding, and who serve as members of United Way boards, ask your campus United Way volunteer or call the local United Way office. You also can indicate your willingness to serve or participate as a volunteer in United Way.

Understanding the process is the key to United Way's more than 100 years of success.

Focus on the arts

The arts on Channel 3

"The man who taught America how to sing," the late Fred Waring, is featured in *Fred Waring: America* airing on WPSX-TV at 9 p.m. Saturday nights, along with Waring's Pennsylvanians and guest stars. The 10-part series has been assembled from kinescope recordings of "The Fred Waring Show" which aired on CBS television in the early 1950s.

The first program in the series, airing Saturday, Oct. 13, spotlights "America: Our Heritage" in which Mr. Waring conveys his deep feelings of patriotism with rousing flag-waving songs including a medley of George M. Cohan tunes and a choral arrangement by Roy Ringwald.

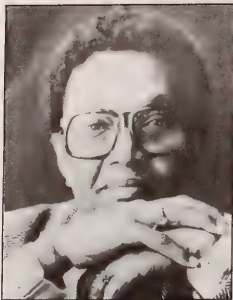

"The Ginger Tree," a poignant story about the life and loves of a young Scots girl in Manchuria and Japan at the turn of the century, airs on *Musket Theatre* at 9 p.m. beginning Oct. 14.

The four-part series tells the story of Mary McKenzie, who travels to Manchuria in 1902 to marry a British army officer. She soon finds herself isolated from family and friends, trapped in a war zone and disappointed in her plodding, lackluster husband. Disillusioned and lonely, she embarks on a passionate affair with a Japanese nobleman, which completely transforms her life.

Archaeology lecture

Halford W. Haskell, associate professor of classics at Southwestern University in Georgetown, Texas, will give the lecture "Problems of Chronology in Bronze Age Crete" at 8 p.m. Monday, Oct. 15, in 101 Kern Building at University Park.

Dr. Haskell will discuss the conflict among scholars on the date of the destruction of the Palace of Minos at Knossos, Crete. Sir Arthur Evans, who was responsible for the excavation, contended the palace was destroyed around 1380 B.C., whereas many other scholars believe it occurred as late as 1200 B.C. Dr. Haskell

Jazz great Billy Taylor will give the lecture "As I See It" at 2:30 p.m. Oct. 19 in the Recital Hall, Music Building.

believes Evans' date is correct and will present the supporting evidence in his lecture.

The lecture is sponsored by the Central Pennsylvania Society of the Archaeological Institute of America in collaboration with the Institute for the Arts and Humanistic Studies and the College of the Liberal Arts.

German television

"Heimat," one of the most popular German television series ever, will be shown from Oct. 15 to 19 in 105 Chambers Building at University Park for two hours on five consecutive nights, starting at 8 p.m. Sponsored by the German Department and free to everyone, the film will be shown in German with English subtitles.

The series, aired in 1984, traces the effect of Germany's post-war political changes from 1919-1982. It chronicles the life of a young woman living in Hunsrück, a poor rural community.

Thomas O. Beebe, assistant professor of comparative literature and German and

coordinator of the series, says: "The television series functions as the memory of a people and their changing culture through its reminiscent quality."

German-American lecture

Marion Lois Huffines, professor of German and linguistics at Bucknell University, will present a slide lecture on "The Plain and Fancy Pennsylvania Dutch: True Contributions and False Advertising" at 4 p.m. Tuesday, Oct. 16, in the Rare Books Room, W342 West Pattee Library, University Park.

Her lecture is for the German-American Lecture Series, sponsored by the Department of German.

Dr. Huffines investigates how the Amish and Mennonites are separate "from the world" and how the non-sectarian (Lutheran and Reformed) Pennsylvania Dutch have made special contributions "in the world." She also shows how the harsh commercialism "of the world" exploits all Pennsylvania Dutch.

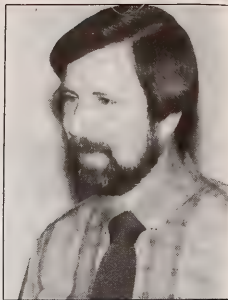

She has published extensively in the language of the Pennsylvania Germans. Her current research investigates the Pennsylvania German spoken in sectarian and nonsectarian Pennsylvania German communities.

Visiting scholar

Brian Cheers, lecturer in the School of Behavioral Sciences at James Cook University of North Queensland, Australia, will speak on "Social Support in Remote Areas of Australia" at 3:45 p.m. Wednesday, Oct. 17, in Room 124 Sparks at University Park.

Mr. Cheers is the author of numerous journal articles on rural social work in Australia and currently is completing a book on his research on the kinds of social support services needed by people living in isolated rural communities.

Currently a visiting scholar in Penn State's Social Work Program, he is co-teaching an international seminar on rural

Bernard Schultz will discuss "Leonardo da Vinci and the Mechanisms of Imagination" at 8 p.m. Oct. 17 in the Palmer Museum of Art.

social services and is collaborating on a research project on the structure of the social services in Pennsylvania's predominantly rural counties.

The talk, which is free and open to the public, is sponsored by the Social Work Program, the Department of Sociology, the Australia-New Zealand Studies Center, and the University Office of International Programs.

Museum lecture

Bernard Schultz, professor of art and chairperson of the Division of Art at West Virginia University, will discuss "Leonardo da Vinci and the Mechanisms of Imagination" at 8 p.m. Wednesday, Oct. 17, at the Palmer Museum of Art at University Park.

Counter to our 20th-century preoccupation with specialization, da Vinci's interests were broad. Dr. Schultz contends there are several common threads that link the diverse nature of his paintings, sculpture, anatomical illustrations and inventions.

Computers in music

Burt Fenner, professor of music, will discuss the use of computers in his composition of music at 10 a.m. Thursday, Oct. 18, in the Palmer Museum of Art at University Park. The lecture is part of the Careers in the Arts series sponsored by the museum.

One of the ways Professor Fenner uses computers is to define rhythmic patterns. "Computers are efficient in dealing with numbers," he says. "Rhythm and numbers are compatible; therefore, computers can assist the composer in fine-tuning patterns for their scores."

The lecture is free and open to the public.

Concert choir

The Penn State Concert Choir will perform in concert at 12:10 p.m. Thursday, Oct. 18. Please see "Arts" on page 7.

The arts at...

Altoona Campus

Fiber Expressions: Woven and Felted Surfaces, on display through Nov. 3 in the Sheetz and McAnahan Galleries at the Penn State Altoona campus, features woven and felted works created by Debra Anderson.

The galleries are open Mondays, Wednesdays, and Fridays from 9 a.m. to 5 p.m.; Tuesdays and Thursdays from 1 to 9 p.m.; and Saturdays from noon to 5 p.m. Visitors may park in the parking lot adjacent to the Arts Center.

Ms. Anderson explores textural contrast, color progression, rhythmic pattern, and bas-relief surfaces in the woven and felted works on display. Since her first fibers instruction in 1970, she has been fascinated with the variety of color mixtures and

textures that can be achieved by interlacing contrasting fibers.

A graduate of Millersville University, she earned an M.S. degree in art education from Penn State and an M.Ed. and M.A. from Indiana University of Pennsylvania. While studying at IUP, she taught classes in fibers, metals, and fine arts at the high school level and in community programs in Harrisburg, Carlisle, and Clearfield.

Beaver Campus

The Penn State Beaver Campus will present *The King and I*, the classic Rodgers and Hammerstein musical, at 8 p.m. Thursday, Oct. 25, and Saturday, Oct. 27, and at 2 p.m. Sunday, Oct. 28, in the Beaver High School Auditorium.

The play is being produced as part of a year-long celebration of the Beaver Campus' 25th anniversary. Campus faculty

members Harvey R. Kelly Jr., assistant professor of speech communication, and Emma S. Rocco, associate professor of music, are directing the musical, which is a joint effort of Beaver Campus Masquers, Chorale, alumni and community. A cast, crew and orchestra of more than 60 area students, campus faculty and staff, and tri-state residents will be featured.

Proceeds from *The King and I* will benefit the Harvey R. Kelly/Emma S. Rocco Arts and Communications Scholarship Fund at Beaver Campus. For more information or to obtain tickets by mail, call Beaver Campus at (412) 773-3898.

University Park Calendar

October 11--
October 21

Special Events

Thursday, October 11

Campus Bloodmobile, noon-5 p.m., White Lobby
Bach's Lunch, 12:10-12:30 p.m., Eisenhower Chapel, 12:10-12:30 p.m., Eisenhower
■ International Teleconferences, 2:30-4 p.m., 222 Bouck, Peter Randall, Univ. of Witwatersrand, on "Toward Post-Apartheid Society in South Africa."

Women's Studies, Six Feminist Scholars, 8 p.m., HUB Gallery, Deborah Gray White, Rutgers, on "The Cost of Club Work: The Price of Black Feminism."
Gallery Talk, 8 p.m., Palmer Museum of Art, Kahren J. Arbitman on "Fakes! The Experts Right and Wrong."

Friday, October 12

Geog. Coffee Hour, 4 p.m., 319 Walker, Andrew Kahren, Indiana Univ., on "The Role of Satellites in Synoptic Climatology."

Saturday, October 13

Shaver's Creek, Paper Making (grades 2-6), 1-3 p.m., Call 863-2000.

Sunday, October 14

Shaver's Creek, Fall Colors Walk, 2-4 p.m., Call 863-2000
Carnegie Hall Film Series, 7 p.m., *Now, Voyager* (1942), 9:15 p.m., *Sin in Paris* (1966).

Monday, October 15

■ Comp Lit Luncheon, 12:15 p.m., 101 Kern, Karl Josef Holgen, Universitat Erlangen-Nurnberg, on "Henry Vaughan's *Silks Scintillas*: Emblematic Tradition and Meaning."
■ German Dept. Film, *Edgar Reitz-Fest*, 8 p.m., 105 Chambers, *Himmel* (1984), two hours nightly for five consecutive nights.
Center for the Performing Arts, 8 p.m., Eisenhower Aud., The Pittsburgh Symphony.

Tuesday, October 17

Center for Women Studies, Brown Bag Lunch, noon-1 p.m., 120 Bouck, Paula Ann Fricken on "The Wounded Daughter and the Adult Children of Alcoholics (ACOA) Syndrome."
■ Fulbright informal lecture, 3:30 p.m., 222 Bouck, Dr. Adarsh Sharma, visiting Fulbright scholar, on "The Girl Child in India."

National Collegiate Alcohol Awareness Week, film/discussion, 7 p.m., HUB Gallery, "Calling the Shots: The Advertising of Alcohol."
■ Iranian Muslim Students' Assoc., talk, 7:30 p.m., 112 Kern, Zafar Bangash, *Present International*, on "Crises in the Persian Gulf."
■ Gallery Talk, 8 p.m., Palmer Museum of Art, Bernard Schultz, West Virginia Univ., on "Leonardo da Vinci and the Mechanisms of Imagination."

Thursday, October 18

Careers in the Arts, 10:11-10:30 a.m., Palmer Museum of Art, Burt Fenner on "Composing Music with Computers."
Bach's Lunch Concert, 12:10-12:30 p.m., Eisenhower Chapel, Penn State Concert Choir.
■ Brown Bag Luncheon, 12:10-1:08 p.m., Palmer Museum of Art, "Leonardo: To Know How to See."
Philip Murray Memorial Lecture, 7:30 p.m., Kellor Center, Richard Trumka, UMW president.

Friday, October 19

School of Music, 2:30 p.m., Recital Hall, Billy Taylor, jazz pianist.
Geog. Coffee Hour, 4 p.m., 319 Walker, Rudy

The lobby wall of the Washington State Convention and Trade Center in Seattle was designed by Angela Danadjieva, who will speak on "The Integrated Environment: Architecture and Landscape" at 5:30 p.m. Oct. 19 in 142 Walker Building.

Slingerland on "How Big Were Ancient Mountain Ranges?"

John R. Bracken Lecture, 5:30 p.m., 112 Walker, Angela Danadjieva, Danadjieva and Koenig Assoc., on "Recent Works."

School of Music, Medieval and Renaissance Entertainment, 8:30 p.m., Recital Hall

Saturday, October 20

Parents' Weekend, through Oct. 21.
■ "Tomorrow's Leonardos" Workshop 10 a.m.-2 p.m., Palmer Museum of Art.

Center for the Performing Arts, 8 p.m., Eisenhower Aud., Ramsey Lewis and Billy Taylor, jazz pianists

Sunday, October 21

Shaver's Creek, Halloween Trail Cast Training, 1-5 p.m., Call 863-2000.
Carnegie Hall Film Series, 7 p.m., 203 Willard, *The Wanderer* (1967); 9 p.m., *Last Year at Marienbad* (1961).

Public Radio

WPSU-FM 91.1

"All Things Considered," Monday-Friday, 5:30 p.m.; Saturday and Sunday, 5:00 p.m.; Morning Edition, Monday-Friday, 6-8 a.m.; Weekend Edition, Saturday and Sunday, 11 a.m.-1 p.m. "Odyssey Through Literature," 12:30 p.m. Wednesdays, with S. Leonard Rubenstein.

Seminars

Thursday, October 11

Polymer Science, 9 a.m., 301 Steidle, John Fitzgerald, Eastman Kodak, on "Photochemical and Dynamic Mechanical Properties of Polyimide/Polyacrylate and Liquid Crystalline Polyacrylate Semi-IPNs"
Physics Colloquium, 3:30 p.m., 117 Osmond Lab, John L. Hall, National Institute of Standards and Technology, on "Precision Metrology Using New Ideas in Laser Technology."

Graduate Program in Ecology Seminar, 3:45 p.m., 110 Wartik, Robert Ross, U.S. Fish and Wildlife Service, on "The Evolution of Sex-Change Mechanisms in Fishes."
Gerontology Colloquium, 4:5 p.m., 106 Mitchell Leslie Morgan, Univ. of Maryland-Baltimore, on "Small Board and Care Homes for the Elderly: A Case of Social Marginality."

Friday, October 12

Ecology/Statistics, 11:15 a.m., 106 Wartik, Roger H. Green, Univ. of Western Ontario, on "Design and Analysis in Pollution Studies: Integrating Chemical, Physiological, and Ecological Information."

■ Political Science, seminar, 4 p.m., 124 Sparks Kurt von Meiternheim, Univ. of Pittsburgh, on "The Brazilian Voter in Democratic Transition."

Monday, October 15

Entomology, 3:45 p.m., 204 Patterson, William Telfer, Univ. of Pa., on "How Moths Make Eggs."

EPF, 4 p.m., 339 Davey Lab, Phil Nelson on "Topological Couplings and Contact Terms,"
History Colloquium, 4:30 p.m., Memorial Lounge, Eisenhower Chapel, Lu Ann Jones, Smithsonian Museum of American History, on "If I Must Say So Myself: Oral Histories of Southern Farm Women."

Tuesday, October 16

■ Polymer Science, 9 a.m., 301 Steidle, E. Oleynik, U.S.S.R. Academy of Sciences, on "Plastic Deformation and Mobility in Glassy Polymers." Also Oct. 18
Chemical Engineering, 2:45 p.m., Paul Robeson Cultural Center Aud., Carol Hall, North Carolina State Univ., on "Equations of State for Hydrocarbons and Polymers."

Chemistry Colloquium, 3:30 p.m., 55 Osmond Lab, Orville L. Chapman, UCLA, on "Curved Surfaces, Novel Materials and Odd Properties,"
Geosciences Colloquium, 3:45 p.m., 101 Steidle, Dave Twitchell, USGS Woods Hole, on "New Insights to Deep Sea Sedimentary Processes Revealed by Side Scan Sonar Surveys of the Eastern Leg of Mexico."

Graduate Program in Ecology, 3:45 p.m., 110 Wartik, Charles Walcott, Cornell, on "Show

Me the Way You Can Home Cues, Home Pigeons Use for Orientation
Condensed Matter Physics, 4 p.m., 339 Davey Lab, Roy Yu, on "The Electronic Properties of Ge Clusters."

■ German American Lecture, 4 p.m., W142 Pattee, Marion Loe Hutches, Bucknell, on "The Plant and Fancy Pennsylvania Dutch True Contributions and Fake Advertising"
Biology, 4 p.m., 8 Mueller Lab, Brenda Cooper, Univ. of Pa., on "Post-Operational Selective Pressure, on Fixed Embryo Abortion in Cryptanthus Flava."

Graduate Program in Nutrition, 3:30 p.m., 55 Osmond Lab, Ronald A. Dye, Northwestern Univ., on "Assessing Standards: Legal Liability and Auditor Watch."

Wednesday, October 17

Accounting and MIS Research Colloquium, 3:30-5:30 p.m., 333 Beam, Ronald A. Dye, Northwestern Univ., on "Assessing Standards: Legal Liability and Auditor Watch."

■ International Seminar on Social Policy and Social Services, 3:45-5 p.m., 124 Sparks Brian Cheers, James Cook Univ., on "Social Support in Remote Areas of Australia: Implications for Human Service Provision."

■ International Center for Sport/Exercise Science seminar, 5:30 p.m., Freese Room, Nittany Lion Inn, John Lucas, on "Tokyo: The LOC Vote for 1996 and Virginia Forthright on "Asian Games Scientific Conference in Beijing, China."

Thursday, October 18

Medieval Studies Colloquium, 3:30 p.m., 124 Sparks, E. Tomlinson, Univ. of Manchester, on "Men and Thengs in Anglo-Saxon England."
Physics Colloquium, 4 p.m., 55 Osmond Lab, Fae Guesey, Yale.
Gerontology Center Colloquium, 4:45 p.m., 106 Mitchell, Gerald McClean, on "Hereditry in the Environment in Aging: An Update on the SATSA Project."

Appointments

Roger A. Dagen has been appointed administrative director of the MBA Program in the Sméal College of Business Administration.

Mr. Dagen served for five years as manager of financial analysis and strategic planning with C-Cor Electronics Inc., State College. Prior to joining C-Cor, he was vice president for finance with Radio Semiconductor Inc., State College, from 1983 to 1985, and worked in several managerial capacities with Evans Products Co., Ridge/Capp Homes Division, Milesburg, from 1976 to 1983.

He holds a bachelor's degree in accounting and marketing and an MBA degree, both from the University of Minnesota.

Within the past year, the Penn State MBA Program was cited in *Business Week's Guide to the Best Business Schools* and ranked eighth among public-school programs in a survey conducted by *U.S. News and World Report*.

Jean M. Dance has been named development officer and coordinator of alumni affairs for the College of Arts and Architecture

Jean M. Dance

In her position she will direct the development efforts of the Friends of the Palmer Museum of Art, Pennsylvania Centre State, the Center for the Performing Arts and Music at Penn's Woods. She also will coordinate all alumni activities and

programs for the College of Arts and Architecture/Performing Arts Constituent Society.

Most recently, Ms. Dance served as director of Campaign and Constituent Relations in the Office of University Development. For 15 years, she taught in the Department of Theatre Arts at University Park, on three Commonwealth Campuses and at the State Correctional Institution at Rockview. She recently completed a new general education in the arts course, which covers painting, sculpture, dance, theater, film, music and architecture, for Independent Learning.

Ms. Dance has served on the executive board of the Friends of the Palmer Museum of Art for six years, two as president, and also has served on the board of the Arts and Architecture/Performing Arts Constituent Society for the last three years.

She earned her bachelor's degree in English from Bowling Green State University and her master's in theatre arts from Penn State.

John R. Saunders has been appointed executive assistant to Lawrence S. Cole.

center executive officer at Penn State Great Valley. His appointment is part of Penn State's pilot Executive Assistant Professional Development Program which provides professional work experience to minorities with career goals in higher education.

Mr. Saunders joined the University in 1987 as a Pennsylvania graduate fellow and instructor. Most recently, he served as human resources specialist at University Park.

His experience in higher education has included administrative and faculty positions with Antioch University, Philadelphia, and Bucks County Community College. Previously, he was corporate staff human resources manager for ARA Services Inc., a director of human resources in New York City, and marketing representative with Xerox Corp. in Austin, Texas.

Mr. Saunders currently is pursuing a doctoral program in higher education at Penn State. He earned a master's in administration from Antioch University and B.A. in history and political science from the College of Wooster, Wooster, Ohio.

College will honor alumni, faculty and staff

The College of Health and Human Development will hold its Health and Human Development Day Oct. 19 at University Park.

The event will highlight recent research in the college and include faculty departmental meetings, a tour of the college facilities, a student-to-student information session and recognition of outstanding alumni, faculty and staff. All events are free to the public.

Dean Anne C. Petersen will present a

State of the College address at 10 a.m. in 301 Hetzel Union Building. Other speakers include Charles Hosler, acting executive vice president and provost, senior vice president for research and dean of the Graduate School, and Richard Grubb, senior vice president and dean for the Commonwealth Educational System.

College awards for teaching, advising, research, alumni and staff achievement also will be presented.

A college fair, showcasing the college's

undergraduate majors and career possibilities for graduates, will be held between noon and 3 p.m. in the Paul Robeson Cultural Center. The student-to-student information session will be held from 2 to 4 p.m. in 101 Health and Human Development Building East. Students learn about student life and majors in health and human development. A tour of the college also will be available.

Carpoolers

'Lisa would like to carpool from the Lewistown/Milroy area to University Park. Work hours are 7:30 a.m. to 4:30 p.m. Call 863-3250.

Carpoolers are needed from Philipsburg to University Park. Work hours are from 7:45 a.m. to 4:45 p.m. Call **Debbie** at 865-4991 or **Diane** at 865-6528.

Faculty/Staff Alerts

Courses for staff

The Human Resource Development Center has openings in the following courses. Call the Center at 865-3410 for registration information.

Making Successful Presentations

Designed to help participants develop an effective speaking style for clear, dynamic public speaking; meets from 9 a.m. to noon Mondays, Oct. 15 and 22; cost: \$55.

Making Meetings Work

Designed to increase meeting productivity and to increase leadership and membership skills at meetings; meets Monday from 1 to 4 p.m. Oct. 22; cost: \$35.

Time Management

Recognize time management as a primary element in effective performance, and improve your own management of time; meets from 9 a.m. to noon Friday, Oct. 26 (staff), and from 1 to 4 p.m. (clerical); cost: \$35.

Intergroup Relations I

Increase your awareness of personal values

related to minority groups; meets from 9 a.m. to 4 p.m. Monday, Oct. 29; cost: none.

Employment Interviews

Designed to provide practical training and pointers to individuals who are called upon to interview applicants for employment vacancies; meets from 1:30 to 4 p.m. Tuesday, Oct. 30; cost: none.

Basic English Grammar and Mechanics

A refresher course that focuses exclusively on such basic principles of grammar and mechanics as correct punctuation, spelling, and agreement; meets for six sessions beginning Thursday, Nov. 1, through Dec. 13, from 9:30 a.m. to noon; cost: \$75.

Managing Your Boss

Allows you to take a good look at your and your boss' work styles, evaluate each others' assets, and then design techniques for you to successfully meet each others' most critical needs; meets from 1:15 to 4:30 p.m. Thursday, Nov. 1; cost: \$35.

Weight Watchers AT WORK

An eight-week session of the Weight Watchers AT WORK Program offered by the Faculty Staff Health Promotion Office will be held at University Park starting Tuesday, Oct. 23. Based on the familiar Weight Watchers Program, the AT WORK program has been specifically designed to meet the needs of working people. A trained Weight Watchers group leader will deal with topics such as: Coping with coffee breaks and candy machines, brown bagging with style, beating the after work syndrome, business travel and stress-related eating.

The group will meet weekly on Tuesdays from 11:45 a.m. to 1 p.m. in Room 101 McAllister Bldg. The total cost of the eight week program is \$68, which must be prepaid. Cash, check, Visa or MasterCard are accepted. Interested staff and faculty may obtain pre-registration forms and additional information by calling

the Faculty Staff Health Promotion Office at 865-3685. The deadline for pre-registration is Thursday Oct. 18.

Fleet operations

Due to recent increases we have all felt in gasoline prices, Fleet Operations finds it necessary to raise the per mile charge for University Fleet Vehicles by approximately 10 percent over the published Fleet rate schedule. This is the result of a 52 percent increase, since July, in the price paid by the University for gasoline.

The price of gasoline will continue to be monitored, with future adjustments made to vehicle rates charges as gasoline prices rise or fall. Fleet Operations appreciates your support and regrets the necessity for this action.

Applications sought for Mont Alto post

Applications and nominations are invited for the position of director of academic affairs at the Penn State Mont Alto Campus.

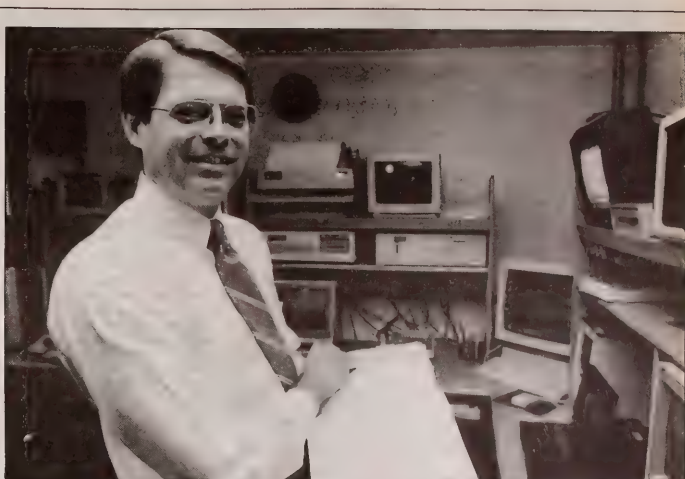

Qualifications include an earned doctorate, or equivalent, and a minimum of five years experience involving a combination of full-time teaching, leadership of faculty, research and scholarly pursuit.

Candidates also should possess strong interpersonal and communication skills and the academic qualifications of a tenured, senior ranked faculty member at Penn State. Experience in academic planning, faculty recruitment and development, budgeting, grantsmanship and faculty governance is desirable.

Send nomination and/or application, including resume, with the names of three references to Corinne A. Caldwell, campus executive officer, Department CHE, Penn State Mont Alto, Mont Alto, PA 17237. Application deadline is Nov. 30 or until a suitable candidate is selected.

Bookshelf

Jan S. Prybyla, professor of economics, is co-author with Franz Michael, Carl Linden, and Juergen Domes of *George Washington University and Saar University of China and the Crisis of Marxism-Leninism* which examines the effect on the economy and political system of China of the collapse of Marxist-Leninist ideology and institutional structures. The book is published by Westview Press, Boulder, Colo.

Penn State People

Jim McGinley

Jim McGinley, network systems coordinator in the Office of Telecommunications, joined the University staff two years ago after serving for seven years as telecommunications manager at Accu-Weather in State College. "Basically our job in the network center and operations department," he said, "is to trouble-shoot data connection problems on a day-to-day basis and to maintain and support connections between terminals and computers on the University's various networks." "I love my job," he added. "The pace is terrific. No two days are the same and we are working with a real good mix of up-to-date technology." (Photo: Greg Grileco)

Focus on the Arts

Continued from page 4.

in the Eisenhower Chapel at University Park. The 20-minute concert is part of the Bach's Lunch Concert series, sponsored by the School of Music and the University Lutheran Parish.

The group is directed by D. Douglas Miller of the School of Music faculty and includes 72 singers, both music and non-music majors.

Leonardo film

A film documenting the genius and accomplishments of renaissance master Leonardo da Vinci will be shown at 12:10 p.m. Thursday, Oct. 18, on the third floor of the Palmer Museum of Art at University Park.

The 58-minute film is being shown in conjunction with "The Machines of Leonardo da Vinci" exhibition, sponsored by IBM Corp., on display at the museum through Nov. 4.

Architect to speak

Architect Angela Danadjieva will present the second lecture in the 1990-91 Bracken

Lecture Series, sponsored by the Department of Landscape Architecture, at 5:30 p.m. Friday, Oct. 19, in 112 Walker Building at University Park.

Her lecture, "The Integrated Environment: Architecture and Landscape," will draw from more than 30 years of architectural experience in the United States and Europe.

Ms. Danadjieva came to the United States in 1967 as an associate and senior designer with Lawrence Halprin and Associates in San Francisco. In 1976, she co-founded the Danadjieva and Koenig Associates for the practice of all aspects of environmental design.

She holds a degree in architecture from the State University in Sofia, Bulgaria.

Organ and church music

The fourth annual Conference on Organ and Church Music will be held at University Park Friday, Oct. 19, and Saturday, Oct. 20.

The conference is a continuing education service of the College of Arts and Architecture and is designed for organists and choirmasters who want to perfect their art of hymn playing and expand their

knowledge of hymnody.

The conference will open with a public hymn festival led by John Ferguson at 8 p.m. Friday, Oct. 19, at Grace Lutheran Church on Beaver Avenue, State College. He will be assisted in the festival by a choir made up of Penn State students who are members of the University Choir, as well as members of the Grace Lutheran Church choir.

Mr. Ferguson, the Elliot and Klara Stockald Johnson professor of organ and church music and minister of music to the student congregation of St. Olaf College, Northfield, Minn., has earned national acclaim for his work as a church musician. He also will lead a workshop on improvisation during the conference.

W. Thomas Smith, executive director of the Hymn Society of America, will conduct two workshops, on developing a hymn repertory and on exploring your hymnal, at the conference.

For more information about the conference program, contact Jane Miller, 230 Music Building, 863-4403. To register, contact William Sterner, 410 Keller Conference Center, 865-9173.

Symposium scheduled

The Fourth Pennsylvania Symposium on Medieval and Renaissance Studies will be

held from 1 p.m. Friday, Oct. 19 to 12:30 p.m. Saturday, Oct. 20, in the Keller Conference Center at University Park.

The theme of this year's symposium is "Mind and Body in the Middle Ages and the Renaissance." The public is invited to attend.

Vivian Nutton, of the Wellcome Institute for the History of Medicine in London, will deliver the keynote address titled "The Anatomy of the Soul in the Sixteenth Century" at 1:30 p.m. Oct. 19.

Karl Josef Hoeltgen, head of the Department of English and American Studies at the University of Erlangen-Nuremberg, will give the second keynote address "Satire and Science in Robert Burton's *Anatomy of Melancholy*" at 9 a.m. Oct. 20.

The first performance in English of the French late Medieval farce "The Doctor's Prescription" will be presented at 8 p.m. Friday, Oct. 19, in the School of Music Recital Hall. Musical entertainment will be provided by the Nova Consort and Choral Society Madrigal Quartet.

Admission to individual events is free. Registration information is available from Jack Sinclair, conference coordinator, at 863-2035, and Gerhard F. Strasser, associate professor of German and comparative literature and symposium director, at 865-5481.

News in Brief

Meat Lab sale

The Penn State Meat Lab will not be conducting a sale on Friday, Oct. 19. The sale dates for the month of October will be Oct. 12 and Oct. 26, from 1:30 to 4 p.m.

Persian Gulf talk

Zafar Bangash, editor of *Gresnet International*, one of the largest English-language news magazines which chronicles the Islamic movement worldwide, will discuss "Crisis in the Persian Gulf" at 7:30 p.m. Wednesday, Oct. 17 in Room 112 Kern Building at University Park.

Mr. Bangash, educated at the University of London, is one of the founding members of the Muslim Institute in London. *Gresnet International*, a bi-weekly news magazine published in Toronto, Canada, specializes in Muslim world affairs.

The talk is being presented by the Iranian Muslim Students' Association.

Medieval arts demonstration

The Society for Creative Anachronism Inc., a non-profit, educational association dedicated to the re-creation of medieval times, will present a demonstration of selected arts and sciences on Sunday, Oct. 21, on the HUB lawn at University Park.

From 1 to 6 p.m., there will be an individual combat tourney; displays of period garb, weaving, spinning, calligraphy, and document illumination; music and dancing.

The demonstration is open to the public. For further information, contact Lisa May at 865-1851.

Call for program proposals

Program proposals are being accepted for presentations, workshops, and poster sessions for the 1991 Microcomputer Information Exchange Conference scheduled for March 15-16 at the Keller Conference Center at University Park.

The deadline to submit a proposal is Oct. 23.

The conference gives participants the opportunity to acquire and share up-to-date information about the use of microcomputers; it will be of interest to K-12 educators, school administrators, educators in higher education and business and home users. For a program proposal form and/or more information, contact Donna Ricketts, conference coordinator, 863-1743.

Books to Africa

Physicians at The Milton S. Hershey Medical Center are helping two universities in Africa receive modern medical books and journals.

John Dossett, associate professor of pediatrics, and the late Thomas V.N. Ballantine, who was chief of pediatric surgery, established a program to send medical publications to the University of Ghana in Accra, Africa, and to the School of Medical Science in Kumasi, Ghana.

The programs began in 1988 as separate efforts and were combined in

1989 to defray shipping costs. The Faculty Women's Organization at Hershey volunteered to pack the publications. To date, six tons of publications, including 8,300 journals and more than 700 textbooks, have been sent to the two facilities.

New publication

The supplement to the catalog titled *Media Restricted to Penn State* is now available from Audio-Visual Services. More than 100 programs are listed in this reference source, and each title is available for classroom use at no charge to University faculty members.

The publication has been mailed to University Park faculty and staff. Additional copies of the supplement and the original catalog are housed in 26 Willard Building and at Special Services Building off Fox Hill Road. To receive a catalog through campus mail, call 863-3103. At a Commonwealth campus, contact the campus instructional services specialist for more information.

Staff Vacancies

The following vacancies for positions classified as state exempt or State nonexempt have been listed with the University Employment Division for review. The brief statements for each vacancy are illustrative. They are not complete position descriptions. APPLY BY CALLING THE EMPLOYMENT DIVISION, 863-0304 (NETWORK LINE 433-0304). Applications for these staff vacancies will be accepted until Oct. 18. DO NOT CONTACT THE AREA THAT HAS THE VACANCY. Applications for staff vacancies are considered in accordance with Fair Employment practices (FES-1) and in compliance with the University's Affirmative Action Compliance Program without regard to race, color, religion, national origin, handicap or age (as provided by law), sex, or status as a disabled or Vietnam era veteran.

*01027, Assistant Coordinator of Contracts and Grants Management.

Senior Vice President for Research and Dean of the Graduate School, Sponsored Programs and Contracts Office, University Park Campus - Responsible to the contracts and proposals specialist for assisting in the administration of policies and procedures concerning the preparation and development of proposals and contracts for funding sponsored programs. Requires bachelor's degree or equivalent in business administration or related field plus two to four years of effective administrative experience. STAFF GRADE 7

*01028, Administrative Assistant, Senior Vice President for Research and Dean of the Graduate School, Materials Research Laboratory, University Park Campus - Responsible to the assistant director, Materials Research Laboratory for assisting in budgeting and accounting operations and for the supervision of laboratory

accounting clerical staff. Requires associate degree or equivalent in accounting plus two to four years of effective experience in a University accounting setting. STAFF GRADE 5

*01029, Applications Programmer Analyst, Computer and Information Systems, Library Computing Services, University Park Campus - Responsible to designated leader for conducting analyses of data processing and operational problems, determining detailed requirements to solve problems, formulating logical statements of systems problems, and preparing computer programs to satisfy desired end results. Requires bachelor's degree, or equivalent, in basic computer systems and one to two years of effective experience in computer programming and analyses. Experience with DEC VMS is preferred. THIS IS A FIXED-TERM POSITION FUNDED THROUGH JUNE 30, 1991

WITH EXCELLENT POSSIBILITY OF RE-FUNDING. STAFF GRADE 6

*01030, Technology Education Assistant, College of Engineering, Department of Nuclear Engineering, Limerick Community Education Program, Limerick, Pa. - Responsible to the program coordinator for assisting in the development, coordination, and presentation of various education programs on energy with an emphasis on nuclear energy and ionizing radiation. Requires bachelor's degree, or equivalent, in a science or related field, with up to one year of effective experience. Good communication skills required. THIS IS A FIXED-TERM POSITION FUNDED THROUGH DEC. 31, 1991, WITH POSSIBILITY OF RE-FUNDING. STAFF GRADE 5.

*01031, Clinical Nurse Specialist/CT Surgery, University Hospital, Nursing Administration, The Milton S. Hershey

Medical Center - Responsible to the director of nursing and/or assistant director of nursing for providing nursing expertise within one's clinical specialty. Functions in inpatient, outpatient and/or community settings. Requires master's degree in nursing plus one to two years of effective clinical experience in area of expertise and current licensure by Pennsylvania State Board of Nursing. Certification in specialty area is desirable. STAFF GRADE 7

*01032, Chief Physical Therapist, Student Services, University Health Services, University Park Campus - Responsible for directing all activities and functions of the Physical Therapy Department in University Health Services. Requires bachelor's degree, or equivalent, in physical therapy with current Pennsylvania licensure, plus two to three years of effective experience. STAFF GRADE 7

INTERCOM is published weekly during the academic year and every other week during the summer. It is an internal communications medium published for the faculty and staff of Penn State by the Office of Public Information, Room 312, Old Main, Phone 865-7517.

Funds released for Mont Alto multi-purpose building

After nine long years, the Penn State Mont Alto Campus is getting a multi-purpose building.

Lt. Gov. Mark S. Singel has released funds for the new facility, which will house a gym, an auxiliary gym, weight room, racquetball courts, locker rooms, several classrooms and staff offices.

The building was first approved in December 1981 along with three other Penn State projects, all of which have been constructed, including a similar structure at the Penn State Delaware County Campus.

"Everyone at Mont Alto Campus including our Advisory Board, our local legislators and people at University Park have been working very hard on this," Corinne A. Caldwell, campus executive officer, said. "It has been a genuine bipartisan effort to make our multi-purpose building a reality. And now the day has finally arrived. This building will be a tremendous asset to the whole community."

Lt. Gov. Singel presented a ceremonial

Artist's illustration of new multi-purpose building at Mont Alto

check for \$2,793,000, the bulk of the estimated \$3,491,000 cost for the building. Initial funds already were released for

design and other starting costs.

For years, the campus has rented other facilities for basketball and physical

education, according to Ronald R. Keiper, director of academic affairs.

Please see 'Mont Alto' on page 3.

Parents' Weekend set for Oct. 20-21

Parents' Weekerid, which offers activities to familiarize parents, especially those of freshmen, with life at the University, will be held Oct. 20-21 at University Park.

On Saturday, Oct. 20, beginning at 9 a.m., parents can visit the Welcome Center in Ray Lounge of the Hetzel Union Building, to pick up maps, view displays and get information about the University, State College, and events and attractions in Centre County.

Among Saturday's activities are open houses at the Breazeale Nuclear Reactor and Weather Observatory from 10 a.m. to 1 p.m. Campus museums and the football Hall of Fame also are open. Jazz musicians Bill Taylor and Ramsey Lewis will perform Saturday night.

Information on religious services and Sunday bus tours are available from the Parents' Welcome Center in Ray Lounge at the HUB.

Old Main's Bell Tower also will be open Sunday from 1 to 4 p.m. Parents also can tour Pattee Library, Holuba Hall and the Center for Academic Computing in Boucke Building.

Statement from President Thomas

As president of The Pennsylvania State University, it is my responsibility to speak clearly and directly on the tone and direction I believe appropriate for the University community. It is a responsibility I accept with humility and deep commitment.

I have been asked by the University Student Advisory Board to clarify in writing my statements on the matter of adding sexual orientation to the University's non-discrimination statement. This comes in concert with the fact that members of the gay and lesbian community and others have expressed concern to me that gay and lesbian people are not protected adequately at Penn State.

As I have stated publicly on a number of occasions, I am personally committed to ensuring that no member of the University community be subjected to harassment, assault, or abuse. Members of the University community include all students, faculty, and staff. Persons perpetrating harassment, assault, or abuse against members of this community must and will be sanctioned swiftly and appropriately.

Further, I am committed to the tenet that University decisions with regard to promotion, tenure, or other reward systems must be based on data related to performance. This tenet has as its

foundation respect for the value of the individual as reflected in the documents which founded our nation; a nation which defines truth as knowledge that all of us are created equal with inalienable rights, among which are the preservation of life and liberty and the pursuit of happiness. This is an historic, honest, straightforward, and, in my view, still legitimate approach to demanding issues that must not be made insoluble by immersing them in symbolic and political complexities.

Toward that end, it is my intent to ask the Board of Trustees at its November meeting to add the following clause to Penn State's non-discrimination statement:

"In addition, The Pennsylvania State University will take appropriate measures to protect all of its students and all of its faculty and staff from harassment, abuse, or assault, and bases all educational and employment decisions on an individual's abilities and qualifications without reference to personal characteristics that are not related to academic ability or job performance."

Following is the University's non-discrimination policy as it would appear with the addition of the clause I have developed:

The Pennsylvania State University, in

compliance with federal and state laws, is committed to the policy that all persons shall have equal access to programs, admission, and employment without regard to race, religion, sex, national origin, handicap, age, or status as a disabled or Vietnam era veteran. IN ADDITION, THE PENNSYLVANIA STATE UNIVERSITY WILL TAKE APPROPRIATE MEASURES TO PROTECT ALL OF ITS STUDENTS AND ALL OF ITS FACULTY AND STAFF FROM HARASSMENT, ABUSE, OR ASSAULT; AND BASES ALL EDUCATIONAL AND EMPLOYMENT DECISIONS ON AN INDIVIDUAL'S ABILITIES AND QUALIFICATIONS WITHOUT REFERENCE TO PERSONAL CHARACTERISTICS THAT ARE NOT RELATED TO ACADEMIC ABILITY OR JOB PERFORMANCE. Direct all affirmative action inquiries to the Affirmative Action Office, 201 Willard Building, The Pennsylvania State University, University Park, Pa. 16802: (814) 863-0471.

Focus on Diversity

Diversity Opportunities Calendar

Saturday, Oct. 20

Office of Minority Faculty Development, 9 a.m. to noon. Paul Robeson Cultural Center. Workshop for junior faculty members. Ronald Filippelli and James B. Stewart will present: "Junior Faculty Survival workshop." Reservations: Leah Witzig, 863-1663.

Monday, Oct. 22

Women's Studies, 8 p.m., HUB Gallery. Allan Berube, historian/activist, on "Coming

Out Under Fire: Lesbian and Gay Men in World War II."

Tuesday, Oct. 23

Student Counselors/Project Growth, 7 p.m., 112 Osmond. Program: "James-AIDS Today."

Wednesday, Oct. 24

Groove Phi Groove/Paul Robeson Cultural Center, 7 p.m., Robeson Center. Film: "Autobiography of Miss Jane Pittman."

Thursday, Oct. 25

Penn State Erie, The Behrend College, 8 p.m., Reed Hall. William Raspberry, syndicated columnist, on "Perspectives on America."

Throughout October

Hindu and Jain Good over Evil holidays (exact dates dependent on lunar calendar).

October throughout November

Hindu and Jain Festival of Lights holidays (exact dates dependent on lunar calendar).

'Minority Voices'

"Minority Voices: Strangers in Our Midst"—a program presented at the 51st annual convention of the Speech Communication Association of Pennsylvania—will take place at the Paul Robeson Cultural Center at University Park from 7 to 8:30 p.m. Friday, Oct. 19.

The panel, to be chaired by Deborah F. Atwater, senior faculty mentor, Center for Minority Graduate Opportunities and Faculty Development, includes presentations on "Women's Voices" by Mary Kenny Badami, Bloomsburg State University; "Asian Voices" by Akira Miyahara, Seinan Gakuin University and Fellow of the East-West Center, and "Black Voices" by James B. Stewart, vice provost at Penn State. A response will be delivered by Robert T. Oliver, professor emeritus and former department head of speech communication at Penn State and Fellow of the East-West Center.

Panelists will discuss issues involving women, gay and lesbian people, Asian business people interacting with Americans, and African-Americans. The public and University community are invited to attend.

African-American history highlights program

African-American/Black-American history through the arts of dance, theater and voice will highlight "Revelations" at 7 p.m. Friday, Oct. 19, in the White Building Dance Theatre at University Park.

Nommo, which is Swahili for "plant a seed," is an African-American performing arts group sponsored by the Paul Robeson Cultural Center. The program includes a poem by Langston Hughes, titled "African Fragments," and "A Bridge to my Children" written by Nommo's theater director Kim

Kendricks, as well as two selections from Sweet Honey and the Rock, "We All... Everyone of Us" and "We Are Whole," and "Sister" from the movie "The Color Purple."

Dance work by Myrna Munchus-Bullock and Stephanie Johns include traditional African dances and original pieces from the choreographers. "Threads" is a repertoire of two traditional pieces, "Fanga" and "Salimba," restaged by Ms. Munchus-Bullock and several contemporary Black

modern dances, including "Lament," "Motherless Child," "Many Rains" and "Soba." "Fire Dance" and "Homecoming," choreographed by Ms. Johns, Nommo's president, also will be performed.

Guest artists include Master Drummer Jumble Gilliam of the Afro-One Dance, Drama and Drum Theatre of Willingboro, N.J., leading the drum ensemble; Don Berinato of the Earthtones; and Aaron Rosenberg of Penn State.

Faculty/Staff Alerts

Flexible benefits

More than 7,500 faculty and staff members have discovered how to save money while contributing to the cost of healthcare and life insurance. They are taking advantage of the **Contribution Conversion** option available through the Employee Benefits Division.

Contribution Conversion results in

faculty and staff contributions for University-provided healthcare benefits and up to \$50,000 of group life insurance coverage to be converted from an after-tax deduction to a pre-tax deduction. The resulting tax savings can be considerable. For example, someone with \$48,000 of life insurance selecting family coverage in medical/dental/vision healthcare benefits

will (depending upon their tax bracket) eliminate between \$112.39 and \$176.90 in federal income tax and social security payments in 1991.

Contribution Conversion, introduced in January 1989, is just one of three tax-saving benefits all regular full-time faculty and staff may take advantage of through the University's benefits program. Two flexible spending accounts were introduced last October as additional benefit options.

With a Health Care Reimbursement Account, a faculty or staff member can set aside up to \$2,000 on a pre-tax basis from which reimbursements may be obtained for out-of-pocket medical, dental and vision care expenses. Out-of-pocket expenses typically consist of deductibles, copayments, or charges not covered or in excess of plan maximums.

The third option is the **Dependent Care Reimbursement Account**. Pre-tax salary dollars placed in a Dependent Care Reimbursement Account are used to reimburse up to \$5,000 in expenses such as for baby-sitting and day care centers that allow people with qualified dependents to go to work. This option is an alternative to the Child and Dependent Care Tax Credit available when filing the federal income tax return.

The annual election period for the three tax-saving flexible benefit options will take place during the month of November.

Election forms are due in the **Employee Benefits Division** no later than **Nov. 30**. Contribution Conversion continues from year-to-year without any action necessary

by the participant. However, both reimbursement accounts require an annual election form to be submitted during the annual election period for participation to continue. Questions should be directed to Ronald R. Rohde, Employee Benefits Division, 865-1473.

Nittany Lion Inn parking

On Oct. 17, the Nittany Lion Inn parking lot was closed due to the start of construction renovations at the Inn.

All parking adjacent to the Inn has been suspended, although access for registration and drop off will be maintained through the main entrance, with access via Atherton Street. Parking for overnight guests of the Inn will be accommodated in the Inn Overflow lot near the Keller Conference Center. Permits will be issued at guest registration.

Parking for meal and meeting guests will be provided in the upper level of the Parking Terrace. Permits for these guests will be issued from the parking booth directly in front of Keller Conference Center. Access is via North Allen Road by Business Administration Building.

Limited parking for faculty and staff attending functions at the Inn also may be accommodated in the upper level of the Parking Terrace. Permits issued from the parking booth in front of Keller will be required to authorize free parking. A parking fee of 80 cents per hour will be charged for those without validation, including visitors and faculty/staff.

VADD coverage

Since 1964, the University has offered a voluntary plan for accidental death and dismemberment insurance to all regular faculty and staff members. The plan provides optional amounts of insurance ranging from \$10,000 to \$300,000 and also provides accidental death and dismemberment coverage for dependents.

The month of October is the period when membership or coverage in this plan may be changed. One or more of the following actions may be taken during October: change the dollar amount of insurance coverage, change from individual coverage to family coverage or vice versa, enroll in the plan as a new member, or withdraw from the plan.

To accomplish any of the above changes, obtain a VADD change form from your personal representative or director of business services, complete it and send it to the Employee Benefits Division, 205 Rider Building, by Oct. 31. Changes will become effective Nov. 1.

No action is needed to continue your current coverage.

Because of continued good experience in the plan, the following rates will remain in effect:

Principal Sum	Employee Only		Employee-Dependents	
	Bi-weekly	Monthly	Bi-weekly	Monthly
\$ 10,000	\$.14	\$.30	\$.23	\$.49
25,000	.35	.75	.57	1.23
50,000	.69	1.50	1.13	2.45
100,000	1.38	3.00	2.26	4.90
150,000	2.08	4.50	3.39	7.35
200,000	2.77	6.00	4.52	9.80
250,000	3.46	7.50	5.65	12.25
300,000	4.15	9.00	6.78	14.70

Questions about VADD may be referred to Employee Benefits Division, 205 Rider Building, phone 865-1473 (Network: 475-1473).

University Park Campus is cited in national ranking

Penn State's University Park Campus has been ranked in the first quartile of national universities in *U.S. News & World Report's* annual ranking of "America's Best Colleges."

"We are pleased that Penn State has received this recognition," President Thomas said. "We will be working diligently to maintain and improve the quality of the University's academic programs for our undergraduate and graduate students."

In its Oct. 15 issue, *U.S. News* ranked 204 national universities on a combination of such items as academic reputation, average SAT scores for entering freshmen, freshmen ranking in the top 10 percent of their high school class, the acceptance rate

for applicants, the percentage of faculty with doctorates, student-faculty ratio and total spending per student.

The top half of the first quartile was judged to be the top 25 national universities, beginning with Harvard and ending with the University of Rochester. Only five public universities were ranked in this top group: the University of California at Berkeley and at Los Angeles, the University of Virginia, the University of North Carolina at Chapel Hill and the University of Michigan.

Michigan, a member of the Big 10, was joined in the top 25 by Northwestern University, the only private school in the Big 10.

Penn State, the newest member of the

Big 10, was ranked with 26 other schools in the "best of the rest" of the first quartile. These schools, listed alphabetically with no explicit ranking, include three other Big 10 universities: Illinois, Purdue, and the University of Wisconsin at Madison. Also included are Brandeis, Case Western Reserve, William and Mary, Georgia Tech, New York University, Rensselaer, Notre Dame, Tufts, Vanderbilt, several University of California campuses, and others.

Ranking among the 51 schools in the second quartile are Penn State's sister state-related universities, the University of Pittsburgh and Temple University. The second quartile includes four campuses of the State University of New York (SUNY), three University of California campuses,

and five Big 10 universities: Ohio State, Indiana University at Bloomington, Michigan State, Iowa, Minnesota.

Quartiles three and four contain the additional 102 national universities. Earlier this year, Penn State's graduate programs in engineering and business administration were ranked in the *U.S. News* survey of "America's Best Graduate Schools."

The MBA program of the Smeal College of Business Administration was ranked 20th overall and eighth among the public universities. The College of Engineering was ranked 18th overall and 10th among the publics.

Mont Alto

Continued from page 1.

"We always had to transport students, which was costly both financially and in students' time," Dr. Keiper said, pointing to the use of gymnastics at the old Mowery Elementary School in Quincy, the Quincy

United Methodist Home, the former East Junior High School in Waynesboro, the Waynesboro YMCA and Wilson College in Chambersburg.

The new building will be of masonry construction with a steel-framed roof and will have a red brick exterior to match buildings on the campus.

Environmental lectures are planned

Clean water and water purification processes are themes of the 1990 Kappa Environmental Engineering Seminar Series sponsored by the Department of Civil Engineering, Oct. 19 and Nov. 5 at University Park. The lectures are free to the public.

Internationally recognized experts on environmental engineering issues participate in the Kappa Seminar series each year.

Michael Collins, assistant professor of environmental engineering at the University of New Hampshire, will speak

on "Modifications to the Slow Sand Filtration Process to Improve Treatment Performance" at 3:35 p.m. Friday, Oct. 19, in 127 Sackett Building.

Jan G. Janssens, technical director of the International Water Supply Association, an organization of more than 100 member countries, will discuss the European experience in the treatment of water and wastewater at 3:35 p.m. Monday, Nov. 5, in 204 Sackett Building.

The Kappa Seminar series was initiated in 1988.

Water fountains undergo testing

The Office of Physical Plant currently is testing Halsey Taylor water fountains as a result of a Consent Order Agreement by the Consumer Product Safety Commission between the manufacturer, Halsey Taylor, and the Environmental Protection Agency.

A possible problem involving lead linings in the storage tanks of some Halsey Taylor water fountains manufactured prior to April 1979 has been identified. The lead content in the water may exceed prescribed standards, particularly if the fountain is not used for a period of time.

Since water from a refrigerated cooler represents a small part of most people's water consumption, the health risks are

minimal. Nevertheless, the University is committed to removing any possible risk immediately. All 150 water fountains at University Park and other locations are being tested, and the refrigerated water fountains will be replaced, as appropriate.

The Office of Physical Plant asks for your cooperation for any inconvenience caused during this process. The tap water in all buildings remains safe, since the problem, if any, exists only in the fountain storage tanks.

Again, this does not represent an immediate health hazard, but is a precautionary measure to insure quality drinking water.

At Penn State Harrisburg

Alumni Fellow visit scheduled

Ralph John Papa, president and chief executive officer of Mellon Bank Central, has been named an Alumni Fellow at Penn State Harrisburg. He will visit the campus Oct. 22 to 26.

The Alumni Fellow award is presented by the Alumni Association in cooperation with Penn State Harrisburg.

He completed a bachelor's of social science degree at Penn State Harrisburg in 1969 after earning his associate degree from Robert Morris College. He also studied at the Stonier Graduate School of Banking, Rutgers University.

"Capitol Campus, now Penn State Harrisburg, is where I got my head on straight. I grew up a lot there," Mr. Papa said.

Penn State Harrisburg was two years old when Mr. Papa arrived, and he was a member of the College's second graduating class. He is the sixth Penn State Harrisburg graduate to receive the Alumni Fellow award.

Ralph John Papa

Criteria developed for diversity courses

Criteria for developing diversity-focused and diversity-enhanced courses to meet the University's cultural diversity requirement are now in place.

Speaking at the Oct. 9 meeting of the University Faculty Senate, Felix L. Lukacz, chair, Committee on Undergraduate Instruction, and Louis F. Geschwindner, chair, Committee on Curricular Affairs, reported that their steering committee had developed the implementation procedures for the requirement.

The steering committee, chaired by Mary Dupuis, was formed from members of both standing committees and also included non-Senators. Working during the summer, members developed the criteria for evaluating diversity course proposals. Forms and other information relating to the course proposal process will be available soon.

In other action, the Senate received informational reports on faculty salaries, the status of undergraduate education and the activities of the Faculty Rights and Responsibilities Committee.

Gordon A. Hamilton, chair, Committee on Faculty Affairs, presented the first of two reports on faculty salaries. The second report, planned for a future meeting, will provide a statistical analysis of University

salaries by gender, location and minority status.

The Oct. 9 report compared 1989-90 salaries with those of members of the Association of American Universities and the Northeastern American Association of University Professors and with Big 10 and Pennsylvania institutions. The Office of Planning and Analysis assisted with the report.

"Faculty salaries and salary increases at Penn State have, in general, kept pace with the average of those at comparable institutions over the past few years," Dr. Hamilton said.

C. Gregory Knight, vice provost and dean for undergraduate education, reported on the activities of the Office of Undergraduate Education during the past year.

Dr. Knight noted that the Science, Technology and Society Program will be transferred to the College of Engineering and that the Black Studies Program is preparing an undergraduate major and working toward department status.

Paul R. Shellenberger, chair, Faculty Rights and Responsibilities Committee, reported on petitions received from faculty members during 1989-90.

Focus on the arts

The arts on Channel 3

WPSX-TV, Channel 3 will air two spectacular music specials back-to-back tonight starting with *An Evening with Andy Williams* at 7:30 p.m. and *Echoes of the Big Bands with Merv Griffin* at 9:30 p.m.

In a concert taped at London's Royal Albert Hall in May of 1978, Andy Williams sings "Moon River," "Days of Wine and Roses," "The Impossible Dream," and more, accompanied by the London Symphony.

Goodman, Miller, Calloway, the Dorsey, and Basie — just some of the names that conjure up memories of an era when swing was king.

A special tribute also is paid to the fabulous big band singers including Helen Forrest, Dick Haymes, Bob Eberly and Helen O'Connell. The stars are seen in film clips from the 1930s and 1940s as well as from some more recent performances.

Kern exhibit

An exhibition of hand-made jewelry by Christine Douglas is on display through Oct. 30 in the Kern Galleries at University Park.

Her designs feature unusual combinations of metal, crystals, feathers and other items. Some pieces include semi-precious stones believed to hold certain spiritual qualities. Some of her recent earring designs are constructed of rifle cartridge cases or fishing lures.

Ms. Douglas, who has been designing jewelry since childhood, operates Douglas Design Studio.

Craft classes

The HUB Craft Center, located in 312 Hetzel Union Building at University Park, is accepting registration for its second session of craft classes which start Oct. 20. The classes last from four to six weeks.

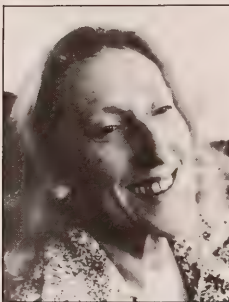

The Craft Centre offers a diverse selection of instruction for both adults and children. The children's classes are weekdays — after school and Saturdays. The adult classes are weekday evenings. There will be several workshops offered on Saturdays as well.

Classes offered include weaving, pottery, stained glass, basketry, watercolor, drawing, and quilting, plus a workshop on pottery decorating techniques. For schedule information, contact Isabel Farrell in the HUB Craft Centre at 312 HUB, or call 863-0011.

Folk singer in concert

Sympathy for the social underdog permeates the music of Martyn Wyndham-Read, an English singer of Australian folk songs, who will perform at University Park at 8 p.m. Saturday, Oct. 20. His concert, *On the Kern Graduate Commons*, is sponsored by the University's Australia New Zealand Studies Center.

Serving as master of ceremonies will be Dr. Robert Doyle, instructor of American studies at Penn State and a collector as well

Author Nina Cassian

as performer of folk music.

Mr. Wyndham-Read, a resident of Australia for seven years, has performed extensively in Australia and came previously to Penn State in 1988. He will present a collection of traditional ballads such as "Waltzing Matilda" and "Wild Colonial Boy," which preserve the flavor of the Australian bush and outback.

Many of the songs are adaptations of English or Irish folk melodies with Australian lyrics.

Chambers exhibit

An exhibition of prints and books done by undergraduate students from the printmaking and papermaking areas of the School of Visual Arts is on display now through Nov. 30 in Chambers Gallery at University Park.

Students from beginning, intermediate and advanced classes submitted works to be judged by visual arts faculty members Bruce Shobaken, Robin Gibson and Chuck Cave.

Chambers Gallery is located on the second floor of the Chambers Building and is open daily, Monday through Friday.

Jazz pianists

Two legendary jazz pianists, Ramsey Lewis and Billy Taylor, will team up in concert at 8 p.m. Saturday, Oct. 20, in Eisenhower Auditorium at University Park. The event is presented by the Center for the Performing Arts.

Mr. Lewis and Dr. Taylor, known for their own stylized renditions of classics, take turns playing solo and backup for each other, blending their individual styles into one harmonious sound.

The musicians have been touring together since 1986, but they have known each other for more than 30 years. They decided to join forces after each had successfully followed independent musical paths.

Mr. Lewis is best known for his association with the Ramsey Lewis Trio. He won two Grammy awards while with the trio. Since the '60s, he has collaborated

with Stevie Wonder and other performers.

Dr. Taylor is a well-known jazz authority with a doctorate in education from the University of Massachusetts. An accomplished pianist, composer, arranger, conductor, author and educator, he is considered one of the most respected and articulate spokesmen for jazz, which he calls "America's Classical Music."

As part of the new School of Music lecture series "Music Today," Dr. Taylor will hold a discussion at 2:30 p.m. Friday, Oct. 19, in the Recital Hall of the Music Building at University Park. His lecture, "As I See It," is the first of four in the series.

Concert tickets are available through the Eisenhower Auditorium Ticket Center, open Monday through Saturday, 8:30 a.m. to 4:30 p.m.

Holiday card

Penn State holiday cards may be ordered in advance at a special price from the Penn State Bookstore on campus. The card's message is: "Season's Greetings and Best Wishes for a Happy New Year."

By purchasing cards in quantities of 50 or more, departments will pay 35 cents per card, the net price (no further departmental discounts apply). Boxes of 10 Penn State holiday cards also will be available in the Bookstore.

Departments are encouraged to place orders early, using a standing order number or limited order. To receive cards by Nov. 16, the ordering deadline is Oct. 19.

For more information, contact Shirley Baney or Stephanie Luther at 863-2512 or 863-3558, or Elizabeth Wilson at 863-3250.

Museum exhibition

An exhibition that documents the ecological condition of a Yugoslavian river basin overrun by human development and pollution will open Oct. 21 at the Palmer Museum of Art at University Park. It will remain on display through Dec. 21.

The exhibition, titled "The Save River: A New History," is a production of Newton and Helen Mayer Harrison and uses

photographic panels, maps and narrative text to expose the plight of the Save River basin—the second largest alluvial wetland of its type in Europe.

The river's floodplain is threatened by farms and settlements, while the river itself is being polluted by paper mills, coal mines and nuclear energy plants.

The Harrisons, both artists and professors at the University of California at San Diego, have another exhibit, "The Book of the Seven Lagoons," which documents their work with a species of Sri Lankan crab, currently on display in the Zoller Gallery through Nov. 4.

Both of the Harrisons' exhibitions are free and open to the public.

Classics Colloquia

Matthew S. Santirocco, chairman of the Department of Classical Studies at the University of Pennsylvania, will present a lecture titled "Poets on the Palatine" in the Classics Colloquia series at 4 p.m. Tuesday, Oct. 23, in the Women Studies Lounge, 12 Sparks Building, at University Park.

Dr. Santirocco is the author of *Unity and Design in Horace's Odes* (Chapel Hill, 1986) and numerous articles on Roman poetry. His current research focuses on the "poetics of patronage" in Roman literature of the first century B.C. His lecture is free and open to the public.

Garden art lecture

John Dixon Hunt will give the lecture "Imitation, Representation and the Study of Garden Art" at 8 p.m. Tuesday, Oct. 23, in Room 112 of the Walker Building at University Park.

The lecture is part of the "Art of Interpreting" series sponsored by the Department of Art History and the Institute for the Arts and Humanistic Studies. Dr. Hunt is the director of the landscape architecture division of Dumbarton Oaks, Harvard University's Center for Byzantine Studies in Washington, D.C.

Soprano in concert

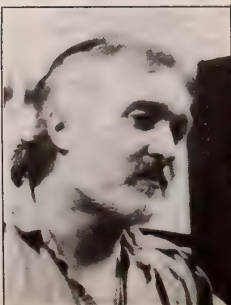

Soprano Suzanne Roy, associate professor of voice and vocal literature, will perform in concert at 8 p.m. Wednesday, Oct. 24, in the Recital Hall of the Music Building at University Park. Pianist Steven Smith, professor of music, will accompany her.

The program will include the first-ever University Park performance of "Das Buch der haengenden Gaerten" by Arnold Schoenberg. The song cycle was written in 1908 and set to poems by Stefan George. Also included are Robert Schumann's song cycle, "Frauenliebe und -leben," and six of Johannes Brahms 48 folk song settings.

Trombone quartet

The Avant-Garde Trombone Quartet, a group of undergraduate trombone majors from the School of Music, will perform in concert at 12:10 p.m. Thursday, Oct. 25, in the Eisenhower Chapel at University Park.

Please see 'Arts' on page 7.

English folk singer Martyn Wyndham-Read.

 October 28

Special Events

Thursday, October 18

Careers in the Arts, 10:11:30 a.m., Palmer
 Museum of Art. Burt Fenner on "Composing
 Music with Computers."

Bach's Lunch Concert, 12:10-12:30 p.m.,

Eisenhower Chapel. Penn State Concert Choir.

■ Brown Bag Lunch/ film, 12:10-1:08 p.m.,

Palmer Museum of Art. "Leonardo: To Know
 How to See."

Student Activities/Religious Affairs, 7 p.m., HUB
 Fishbowl. Dr. Lloyd Steffen, Lehigh Univ., on
 "America on Drugs: Reclaiming the Moral
 Model."

Friday, October 19

School of Music, 2:30 p.m., Recital Hall. Billy
 Taylor.

Geog. Coffee Hour, 4 p.m., 319 Walker. Rudy
 Stingerland on "How Big Were Ancient
 Mountain Ranges?"

John R. Bracken Lecture, 5:30 p.m., 112 Walker.
 Angela Danadjieva, Danadjieva and Koenig
 Assoc., on "Recent Works."

■ School of Music, Medieval and Renaissance
 Entertainment, 8:30 p.m., Recital Hall.

United Mine Workers Centennial Conference, 9
 p.m., Keller Aud. Hazel Dickens and Tom
 Juravich, coal miners' music and songs. Free.

Saturday, October 20

Parents' Weekend, through Oct. 21.

■ "Tomorrow's Leonards" Workshop, 10 a.m.-2
 p.m., Palmer Museum of Art.

Center for the Performing Arts, 8 p.m.,

Eisenhower Aud. Ramsey Lewis and Billy
 Taylor.

Sunday, October 21

Shaver's Creek, Halloween Trail Cast Training, 1-
 5 p.m., Call 863-2000.

Carnegie Hall Film Series, 7 p.m., 203 Willard.
The Windmiller (1967); 9 p.m., *Last Year at*
Marienbad (1961). Free.

Monday, October 22

■ Comp. Lit. Luncheon, 12:15 p.m., 101 Kern.
 Vivian Nulton, Welles Institute for the
 History of Medicine, on "Investigating the
 Case: From Hippocrates to Sherlock Holmes."

■ Spanish Dept., 8 p.m., 101 Kern. Luis Rafael
 Sanchez, Univ. of Puerto Rico, on "El escritor
 puertorriqueno entre dos mundos."

Contemporary Scholarship on Lesbian/Gay Lives,
 lecture, 8 p.m., HUB Assembly Room. Allan
 Berube on "Coming Out Under Fire: Lesbians
 and Gay Men in World War II."

Tuesday, October 23

Talk, 8 p.m., Kern Aud. Helen and Newton
 Harrison on "Human Ecosystem: Crossing
 Disciplinary and Geographical Boundaries."
 School of Interpreting, 8 p.m., 112 Walker. John
 Dixon Hunt, Dumbarton Oaks, on "Imitation,
 Representation and the Study of Garden Art."

Wednesday, October 24

■ Reading, 8 p.m., Zoller Gallery. Helen and
 Newton Harrison on "Book of Seven Lagoons."
 School of Music, 8 p.m., Recital Hall. Suzanne
 Roy, soprano.

■ URTIC, student preview, 8 p.m., Playhouse
 Theatre. "Merchant of Venice." Also Oct. 25.

Thursday, October 25

Bach's Lunch, 12:10 p.m., Eisenhower Chapel
 Avant-Garde Trombone Quartet.

Shaver's Creek, Pumpkin Carving, 7-9 p.m., Call
 863-2000.

Friday, October 26

Shaver's Creek, Halloween Trail, 7-10 p.m. Also
 Oct. 27, and Oct. 28, 6-9 p.m. Call 863-2000.

■ URTIC, 8 p.m., Playhouse Theatre. "Merchant
 of Venice," through Nov. 3.

School of Music, 8 p.m., Recital Hall. Penn State
 Philharmonic.

Saturday, October 27

Day of Dance, 9 a.m.-4:30 p.m., 132 White Bldg.
 Alumni panel discussion (morning), dance
 classes (afternoon).

Center for the Performing Arts, 8 p.m., Schwab
 Aud. Emerson String Quartet.

Sunday, October 28

Carnegie Hall Film Series, 7 p.m., 203 Willard.
Mildred Pierce (1945); 8:45 p.m., *Moulinrou*
Femme (1966). Free.

Public Radio

WPSU-FM 91.1

"All Things Considered," Monday-Friday, 5:30-
 6 p.m.; Saturday and Sunday, 5-6 p.m.; Morning
 Edition, Monday-Friday, 6-8 a.m.; Weekend
 Edition, Saturday and Sunday, 11 a.m.-1 p.m.

"Odyssey Through Literature," 12:30-3 p.m.
 Wednesdays, with S. Leonard Rubenstein.

"The Sound of Music," 3-4 p.m., 203 Willard.
Mildred Pierce (1945); 8:45 p.m., *Moulinrou*
Femme (1966). Free.

Conferences

Continuing Education

Keller Building

Oct. 21-26, Communications Workers of
 America-Local 13000. Richard Hindle, chair.
 Norm Lathbury, coordinator.

Oct. 22-23, Social Structure and Caregiving,
 Family and Cross-National Perspectives. K.
 Warner Schaie, chair; Barb Impelitteri,
 coordinator.

Oct. 23-24, Motor Fleet Accident Investigation,
 Eric Loop, coordinator.

Oct. 22-26, Underwater Acoustics and Signal
 Processing, Allan Stuart, chair; Kathy Karchner,
 coordinator.

Oct. 23, Pennsylvania Bar Institute. Shirley
 Hendrick, chair; Jerri Milom, coordinator.

Oct. 23-25, Probation and Parole Course. Bruce
 Bullington, instructor; Kathy Karchner,
 coordinator.

Oct. 24-26, Motor Fleet Advanced Accident
 Investigation. Eric Loop, coordinator.

An exhibition on "The Save River: A New History" by Newton and Helen Meyer Harrison will open Oct. 21 in the Palmer Museum of Art.

Oct. 24-26, Cooperative Vocational Education
 Program. Frederick Welch, chair; Chuck Herd,
 coordinator.

Oct. 26-27, The Spectroscopic Survey Telescope:
 Science and Instrumentation. France Cordova,
 chair; Donna Ricketts, coordinator.

Oct. 26-27, Lady Lion Basketball Coaches Clinic.
 Rene Portland, chair; Chuck Herd, coordinator.

Oct. 26-28, Peer Tutoring: Collaboration and
 Change. Ronald Maxwell, chair; Jerri Milom,
 coordinator.

Oct. 27-28, Psychological Aspects of
 Architectural Lighting. Craig Bernecker, chair;
 Norm Lathbury, coordinator.

Oct. 27-28, Psychological Aspects of
 Architectural Lighting. Craig Bernecker, chair;
 Norm Lathbury, coordinator.

Oct. 27-28, Psychological Aspects of

Faculty and staff members honored with awards

Staff award

Judy Aronson, Division of Undergraduate Studies (DUS) program coordinator and adviser for the College of Arts and Architecture, has been named the first recipient of the Arts and Architecture/Performing Arts Alumni Constituent Society staff award. The award was established by alumni to recognize outstanding contributions and services to the college.

Ms. Aronson has been the DUS adviser for the college since 1987. In that capacity she advises undergraduate students about their majors and occupational plans.

Ms. Aronson joined the University staff in 1974 in the Office of Continuing Education. She has served as a DUS academic adviser since 1982 and as a freshmen adviser/counselor since 1983.

She holds a bachelor of science degree in art education from Skidmore College and a master of education from the University of North Carolina. She also has done post-master's work in counselor education at Penn State.

Judy Aronson

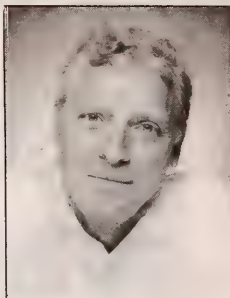

including "Porgy and Bess" at Royal Opera in Ghent, Belgium, and has more than 100 acting credits in academic, regional and summer theaters.

Dr. Manfull joined the University faculty in 1964. Currently he is artist-in-residence in the Theater Department. In addition to his plays, he is co-author of a major theater textbook, *The Stage in Action*, with his wife, Helen Manfull, also of the theater faculty.

He earned his bachelor's and master's degrees from the University of Utah and his doctorate from the University of Minnesota.

Career development

Thomas C. Vary, associate professor of cellular and molecular physiology at the Hershey Medical Center, has received the Research Career Development Award from the National Institute of General Medical Sciences, a division of the National

Lowell L. Manfull

Institutes of Health.

Dr. Vary is one of only two individuals in the nation to receive the award in the current funding cycle. The award, reserved for promising young investigators who have demonstrated ability to develop as independent researchers, is designed to free them from teaching and administrative duties so that they can devote their full energies to biomedical research.

Last year, Dr. Vary received a five-year NIGMS grant of \$610,000 for his study on the effect of sepsis and trauma on protein synthesis in muscle. The research effort is designed to determine the factor initiating the loss of muscle protein following severe trauma.

Dr. Vary earned his doctor of philosophy degree in physiology from the College of Medicine, his master of science in molecular biology from Lehigh University, and his bachelor of arts in natural science from The Johns Hopkins University.

Speech association holds convention

The 51st annual convention of the Speech Communication Association of Pennsylvania will be held at the Atherton Hilton Hotel in State College today through Saturday.

The convention draws speech communication teachers and professionals from throughout Pennsylvania and includes panel presentations and other activities on pedagogical, professional and social issues in communication.

A panel on "Communication Studies for the '90s" is scheduled from 9 to 10 a.m.

Friday, Oct. 19, in room Vanderbilt A. Presenters will discuss key issues for communication programs in the decade ahead.

A panel on "Minority Voices" is scheduled for 7 to 8:30 p.m. Oct. 19 at the Paul Robeson Cultural Center at University Park. Panelists will discuss communication-related diversity issues from the perspectives of women, gays and lesbians, international business people and African-Americans. (See related story on page 2.)

Teaching award

Lowell L. Manfull, professor of theater arts, has received the 1990-91 faculty teaching award presented by the Arts and Architecture/Performing Arts Constituent Society Alumni.

Carole Brandt, head of the Department of Theatre Arts, described Dr. Manfull as a "marvel," whose "passion, mind and commitment to students make the core of our graduate curriculum exciting."

Dr. Manfull also is an accomplished playwright with 25 plays of his own that have been produced in university and professional theaters. He has won two Samuel French playwrighting competitions. He also has more than 30 directing credits.

Carpoolers

Vanpool is looking for riders from Tyrone to University Park. Work hours are 8 a.m. to 5 p.m. Call Don at 865-1040 or 684-4868.

Diane needs a ride from the Boalsburg area to University Park (just for the winter months). Her work hours are from 6:45 a.m. to 3:15 p.m. Call 865-1991 or 466-7097.

Doris would like to carpool from the Reedsville/Milroy area to University Park. Her work hours are 8:30 a.m. to 5:30 p.m. Call 865-7669 or 667-3433.

News in Brief

Biodiversity conference

An international conference on "Biodiversity and Landscapes: Human Challenges for Conservation in the Changing World," organized by the Center for BioDiversity Research, Environmental Resources Research Institute, will be held Oct. 22-25 at University Park.

Larry D. Harris, professor of wildlife at the University of Florida, and Eugene Hargrove, chair of the Philosophy Department at the University of North Texas, will present keynote addresses at the 7 p.m. opening session Monday, Oct. 22.

A public forum on "Biodiversity Conservation and Human Destiny" will be held at 7:45 p.m. Thursday, Oct. 25, in 101 Kern Building. Faculty and staff members are invited to the opening session and the public forum.

International education

The Central Pennsylvania Collaborative

for International Education will hold a conference titled "Opening Our Windows on Asia" on Thursday and Friday, Oct. 25 and 26, at Juniata College in Huntingdon.

Penn State is a founding member of the collaborative, which is one of 10 regional Pennsylvania organizations devoted to promoting international awareness and understanding among the intermediate units, school districts, colleges and universities, business and industry, civic organizations and individuals in the Central Region.

University faculty and staff members and students are invited to attend the conference. For more information, contact Tannaz Rahman, University Office of International Programs, 222 Boucke Building, University Park, 865-7681.

Peer tutoring in writing

The University will host the seventh annual Conference on Peer Tutoring in

Writing Oct. 26-28 in the Keller Conference Center at University Park.

Kenneth Bruffee, a nationally recognized authority on collaborative learning and peer tutoring in writing, will be the keynote speaker. Some 300 undergraduates and 100 writing center administrators are expected to attend.

For program information, contact Ron Maxwell at 865-1841, and for registration information, contact Jerri Milson, 865-5141.

Recycling teleconference

Penn State Harrisburg, the Pennsylvania Department of Education and the Pennsylvania Department of Environmental Resources will present the first Municipal Waste Recycling teleconference in the state on Oct. 31, Nov. 1 and 2.

The teleconference, featuring 16 nationally known speakers in the field of recycling management, is designed for a wide array of participants, including county and municipal recycling coordinators, persons responsible for recycling in their place

of work, and those interested in initiating grassroots recycling projects in their communities.

For more information on the teleconference, contact Ronda Graby or George Sherman at (717) 948-6500.

Weight room orientation

The Recreational Sports Fitness Program is offering weight room orientations for faculty/staff at University Park interested in learning to use the weight rooms on campus.

Each orientation session is scheduled one-on-one at the employee's convenience. To receive a registration form or more information, call the Recreational Sports Office at 865-5401.

Faculty Women's Club

Local author James Morrow will discuss his latest novel *Only Begotten Daughter* at the October meeting of the Faculty Women's Club Book Review Group at the home of Betty Jayne, 119 Wildernest Lane, Port Matilda, at 1:30 p.m. Monday, Oct. 22.

Partings

Joseph Jordan, professor of chemistry in the Eberly College of Science, has retired with emeritus rank after 35 years service. An internationally known analytical chemist, Dr. Jordan is a pioneer in the fields of bioelectrochemistry and enthalpimetric analysis, the study of heat effects in chemical reactions.

During his tenure, he directed the research of more than 80 doctoral candidates and postdoctoral fellows. Recently, 30 of his doctoral and postdoctoral students returned to Penn State to attend a symposium honoring his retirement.

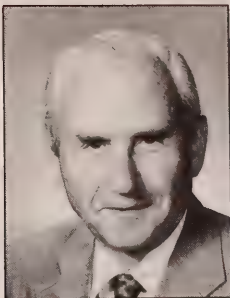

Although officially retired, Dr. Jordan plans to continue going to the office on a daily basis. "I've been asked to teach a chemistry course in the spring," he said, "and I plan to travel to Germany to attend the General Assembly of the International Union of Pure and Applied Chemistry - I still hold office in the Analytical Chemistry Division and am on the Committee on the Teaching of Chemistry."

Listed in "Who's Who in America," he was elected a Fellow of the American Association for the Advancement of Science in 1964, received the Benedetti-Pichler Award from the American Microchemical Society in 1978, and received year-long Senior Fulbright Professorships to France in 1968 and to India in 1986.

Born in Rumania, Dr. Jordan earned his doctoral degree at the Hebrew University in Jerusalem. He came to the United States in 1950 as a research fellow at Harvard University and joined the Penn State faculty as an assistant professor of chemistry in 1954.

He and his wife, Colina, who is a social worker at Ritenour and Centre Psychiatric Associates, live in State College.

Robert E. McNichol, supervisor of police services, has retired after 21 years service. Mr. McNichol joined the University in

Joseph Jordan

1969 with what was then called the Department of Security. His background included work with the Army Air Corps during World War II, the Pennsylvania Railroad Police and the State College Police, where he was sergeant until 1969.

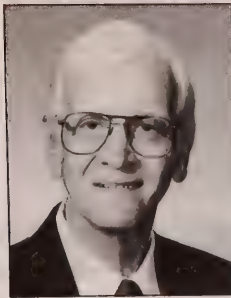

Serving as an investigator, supervisor of investigations and supervisor of crime prevention for the University, he saw the department change from a security to a full-service law enforcement agency.

During the past several years, he has supervised the crime prevention and community relations unit where he enjoyed the personal contact with students.

"Most of the students I met were a pleasure," he said.

Two of Mr. McNichol's children are Penn State graduates. He plans to keep busy during his retirement by working on his house.

Jeanne Christian, head secretary for Continuing Education at the Penn State Berks Campus, has retired after more than 30 years service.

Robert E. McNichol

She joined Penn State in December 1959, one year after the University opened Berks Campus' predecessor, the Wyomissing Center, in that neighborhood of Reading. She worked as a part-time assistant to the secretary for Continuing Education, and in November 1962 moved into that position.

Her tenure has seen three University presidents, three Berks Campus directors of Continuing Education, two Berks Campus executive officers and countless location and staff changes.

She says that while she "will not miss getting up at six o'clock in the morning," she misses her co-workers very much.

In her retirement, Ms. Christian will work part time for a local florist and "try my hand" as a tour escort for a local travel company. She also is enjoying the extra time she can now spend in her flower garden.

Ms. Christian, whose husband is deceased, has one daughter, Victoria, a management consultant in long-term health care.

United Way plans annual solicitation

The personal solicitation campaign on behalf of United Way will begin at University Park on Oct. 29 and run through Nov. 2. More than 8,000 full-time employees will be contacted by co-workers within their administrative areas.

The revised program initiated last year will continue with some refinements. Full-time employees will again receive a confidential payroll deduction form in a pre-sealed envelope. For previous contributors, the form will list contributions made.

The "blue" form gives employees the opportunity to initiate, conclude, decrease or increase contributions through payroll deduction as well as designate a particular agency. The form also should be used to make contributions by cash or check. Contributions also can be directed to United Way programs throughout Pennsylvania.

Persons wishing to continue the same contribution should indicate that on the card-a refinement made this year to the form to avoid any confusion.

Forms are to be returned directly to the Payroll Office in the envelopes provided. Employee responses are known only to the Payroll Office, as with salary information, and the United Way office.

As last year, campaigns will be tailored to each major administrative area's particular needs and will include training sessions for volunteers, and availability of national and local United Way information.

As members of the area's largest employer, Penn State employees have traditionally contributed more than one-fourth of the money raised for the 32 United Way agencies in the county. This year's goal is \$189,750, a 15-percent increase over last year's goal and consistent with the county goal increase. In 1989, Penn State employees contributed a record \$190,540, surpassing the goal by more than \$40,000.

Focus on the arts

Continued from page 4.

The 20-minute concert is part of the Bach's Lunch concert series, sponsored by the School of Music and the University Lutheran Parish.

The quartet was formed last fall and includes Mike Ketter, Bob Rizzo, Chris Graham, and Chris Hoffman. The group's repertoire ranges from Baroque to 20th century music.

'Emigres Voices'

Seven prominent writers from Central and Eastern Europe will give readings and lectures at University Park during the academic year as a part of the "Emigres Voices" readings series. All readings will be held in 112 Kern Building at 8 p.m. The writers, including two Nobel laureates, will read from their poetry and fiction and will discuss the role of the

writer in their native countries (Russia, Poland, Czechoslovakia, Romania and East Germany) - before and after the collapse of Communism.

Romanian Nina Cassian will present a reading on Thursday, Oct. 25. Ms. Cassian has published more than 50 books of poetry, fiction, children's books and translations.

Czeslaw Milosz, professor of Slavic literature at the University of California in Berkeley, will speak on Wednesday, Nov. 7. The recipient of the Nobel Prize for Literature, he has published six volumes of poetry, two novels, a history of Polish literature and *The Captive Mind*, a classic description of intellectual life under Communism.

On Thursday, Nov. 29, Czech emigre writer Josef Skvorecky will be featured. Editor-in-chief of the Sixty-Eight Publishing Corp., a Toronto-based Czech language

house, he has published six novels in English since arriving in North America in 1969, most recently *Dvořak in Love*.

The series is co-sponsored by the National Endowment for the Arts, the Pennsylvania Humanities Council, in conjunction with the Institute for the Arts and Humanities Studies, the Slavic-Soviet Language and Area Center and the departments of English, comparative literature, Slavic languages, history and political science.

Philharmonic concert

The Penn State Philharmonic will present its first concert of the season at 8 p.m. Friday, Oct. 26, in the Recital Hall of the School of Music at University Park.

The orchestra's program includes "Overture to Candide" by Leonard Bernstein, the "Roman Carnival Overture" by Hector Berlioz, and the Second Symphony of Jean Sibelius. The orchestra is conducted by Douglas Meyer.

'Merchant of Venice'

The University Resident Theatre Company (URTC) presents William Shakespeare's "The Merchant of Venice" at 8 p.m. Friday, Oct. 26, at the Playhouse Theatre at University Park.

Considered one of Shakespeare's finest and most popular works, "The Merchant of Venice" is a story of love, hate, revenge and justice. The play will run Oct. 26, 27 and Oct. 30-Nov. 3 at 8 p.m., with matinee performances at 2 p.m. Saturday, Oct. 27, and Saturday, Nov. 3.

The play is directed by Richard Nichols, head of the acting program at the University.

Additional performances will be held for local high school students as part of the Arts and Education Program. The play also will tour six of the Commonwealth Campuses in November.

For ticket information, call (814) 863-0255.

Mining Engineering is celebrating its centennial

The University's Mining Engineering Program is celebrating its centennial this academic year with a number of special events for faculty, students, and alumni. Mining Engineering and the Jefferson Energy Foundation will co-host the telecast of a national debate, "Coal: The Challenge of Abundance," to be held at 1:30 p.m. Thursday, Oct. 25, in the HUB Fishbowl at University Park.

The debate, to be moderated by Hodding Carter, is the fourth teleconference in a series, "Man, Energy and the Environment." Each debate is

filmed for immediate download to participating universities and for later use in a six-part series on PBS television.

A special panel presentation on "The Future of Mining Engineering Education" will be held at 9:20 a.m. Friday, Oct. 26, in Room 301 Steidle Building at University Park.

Panelists will include Thomas V. Falkie, president of Berwind Industries and former director of the U.S. Bureau of Mines; Howard L. Hartman, former dean of engineering at the University of Alabama; E. Morgan Massey, chairman and CEO,

A.T. Massey Coal Co., and Ivan H. Rahn, manager of manpower services, Consolidation Coal Co.

The University has one of the nation's best-known programs in mining engineering with research and instruction on all aspects of surface and underground mining. Creation of a Department of Mining Engineering in 1890 was the forerunner of the present College of Earth and Mineral Sciences.

Mining Engineering, which is now a section of the Department of Mineral Engineering, pioneered the teaching of

mine power systems, developed the earliest computer models of the underground mining system, and pioneered the application of an operations research approach to mining problems. The Mineral Engineering Management graduate program was the first of its kind.

Since the program was established, more than 1,680 degrees, including 55 doctorates, have been granted. It is estimated that one quarter of today's mining faculty in the nation's schools of mining hold degrees from Penn State.

Staff Vacancies

The following vacancies for positions classified as staff exempt or staff nonexempt have been listed with the University Employment Division for filling. The brief statements for each vacancy are illustrative. They are not complete position descriptions. APPLY BY CALLING THE EMPLOYMENT DIVISION, 863-0304. Applications for these staff vacancies will be accepted until Oct. 25. DO NOT CONTACT THE AREA THAT HAS THE VACANCY. Applications for staff vacancies are considered in accordance with Fair Employment practices (FEPS-1) and in compliance with the University's Affirmative Action Compliance Program without regard to race, color, religion, national origin, handicap or age (as provided by law) sex, or status as a disabled or Vietnam era veteran.

***01047, Employment Specialist, Office of Human Resources, Employment Division, University Park Campus**—Responsible to the manager, Employment Division, for recruitment, interviewing and placement of applicants with a wide variety of backgrounds and experience. Involves interaction with many levels of administrative, academic and professional staff members. Requires bachelor's degree, or equivalent, preferably in personnel administration or related fields plus a minimum of one to two years of related administrative experience. STAFF GRADE 6.

***01048, Classification Analyst, Office of Human Resources, Salary**

Administration and Classification

University Park Campus—Responsible for assisting in the implementation and maintenance of the University's wage and salary classification plans. Requires bachelor's degree or equivalent, preferably with some course work in personnel administration or industrial engineering, plus one to two years of effective experience, preferably in job evaluation and classification activity. STAFF GRADE 6.

***01049, Customer Service Representative, Office of Physical Plant, University Park Campus**—Responsible to the senior customer service representative for Physical Plant customer liaison. Obtain project details following project requests from customers, prepare estimates identifying manpower and materials necessary to complete a project. Requires associate degree or equivalent technical training such as an apprenticeship in a building trade plus two to three years of effective experience in estimating construction and maintenance work for the building trades. Public relations skills essential. STAFF GRADE 6.

***01050, Assistant Manager Food Services, Housing and Food Services, University Park Campus**—Responsible to the manager, Food Services, for all phases of a special dining community operation. The duties are to include the supervision of the daily functions of technical service employees and student employees. Requires bachelor's degree or

equivalent, plus one to two years of effective experience. STAFF GRADE 5.

***01051, Health Physics Assistant, Senior Vice President for Research and Dean of the Graduate School, Health Physics Office, University Park Campus**—Responsible to the University health physicist for conducting contamination surveys of isotope laboratories, radiation sources, nuclear reactor and related equipment and areas and for determining the proper handling of radioactive waste material. Requires bachelor's degree in a physical science, engineering, or mathematics with over one year up to and including two years of effective experience in laboratory work, preferably in radiochemistry, nuclear instrumentation or health physics. STAFF GRADE 5.

***01052, Applications Programmer/Analyst, Corporate Controller, University Park Campus**—Responsible to the manager, Financial and Payroll Information Systems, for conducting analyses of data processing problems determining detailed requirements to solve problems, formulating logical statements of systems problems and preparing computer programs to satisfy desired end results within the financial system. Requires bachelor's degree, or equivalent, in computer science and one to two years of effective experience in computer programming and analysis, preferably in a financial environment. Knowledge of COBOL, IMS, CICS, Natural, etc., plus financial and payroll

information systems is desirable. STAFF GRADE 6.

Hershey

For the following position vacancies, apply directly to The Milton S. Hershey Medical Center. Attach resume with contact number indicating the position vacancy code and forward to the Department of Human Resources, Hershey, or call the Hershey bid line at (717) 531-8331 by Oct. 25.

***17125, Manager, Food Services, Department of Food Services, Hershey Medical Center**—Responsible to the assistant hospital director for the planning, developing and administration of food service programs for patients, personnel and visitors. Requires a bachelor's degree in nutrition, food service management or equivalency, plus four to five years effective experience, preferably in a health care setting. Registered dietician preferred. STAFF GRADE 8.

***13494, Divisional Coordinator, Department of Surgery, Hershey Medical Center**—Responsible to the chief of the division for the performance of and assistance with a variety of administrative duties to include supervision of clinical employees, preparation of various documents and efficient operation of the division. Requires a bachelor's degree or

equivalent, plus one to two years of effective experience in the performance of administrative duties. Experience with personal computer applications desirable. STAFF GRADE 5.

***13666, Manager, Physician Billing Information Support, Department of University Physicians Professional Billing, Hershey Medical Center**—Responsible to the director, University Physicians Professional Billing, for the management of the systems computer operations of the department. Requires a bachelor's degree or equivalency in computer science or effective experience preferably with a computerized billing system. A working knowledge of various software programs such as Symphony, Lotus 1-2-3 and word processing. Management experience also desired. STAFF GRADE 7.

***01053, Assistant Manager, University Fitness, University Fitness Center, Hershey Medical Center**—Responsible to the manager, University Fitness Center, for assistance in administering the Center to include assistance with program development, organizing activities and maintaining schedules. Requires bachelor's degree, or equivalent, in physical education, recreation education or preventative and rehabilitative exercise plus one to two years of effective experience. Management and/or teaching experience desirable. STAFF GRADE 5.

INTERCOM is published weekly during the academic year and every other week during the summer. It is an internal communications medium published for the faculty and staff of Penn State by the Office of Public Information, Room 312, Old Main, Phone 865-7517.

College of Engineering shares in \$15 million grant

The College of Engineering is part of a coalition that received a \$15 million National Science Foundation grant to support innovations in engineering education.

Early introduction to hands-on engineering design and programs stressing leadership and management skills are primary objectives of the seven university Engineering Coalition of Schools for Excellence in Education and Leadership.

The five-year grant also focuses on increasing the numbers of women and underrepresented minorities in engineering as well as on improving retention of all engineering students.

ECSEL includes the schools of engineering at Howard University, City College of New York, Massachusetts Institute of Technology, Morgan State University, Penn State and the universities of Maryland and Washington.

During the first year of the project, Penn State will receive \$760,000 in NSF funds with a total of \$3.8 million over the five-year period. The College of Engineering will receive approximately \$650,000 of the yearly total. An additional \$112,000 is allocated to Penn State's Center for the Study of Higher Education for assessment and evaluation of the overall program.

"ECSEL provides an opportunity to bring

more excitement and relevancy to our programs by offering students engineering experience and leadership skills early in their academic careers, making engineering a more attractive course of study," John A. Brighton, dean of the College of Engineering and chair of the ECSEL Council of Deans, said.

ECSEL programs will introduce engineering early, through design courses, so that students can begin to integrate information from the very beginning of their education experience. In addition, ECSEL members will develop teaching and learning modules to import innovations developed within the coalition to other

institutions. The modules will allow teachers to supplement classroom instruction and students to pursue individual independent group learning.

ECSEL projects will be spearheaded by coalition members and addressed through inter-institutional task forces. Project leaders are Morgan State, critical curriculum review; CCNY, engineering preparatory programs; MIT, integration of design; Washington, module learning units; Penn State, student leadership and industry development and ongoing evaluation; Howard, outreach programs; and Maryland, ECSEL communications network.

Nobel scientist will give Althouse lecture

Nobel Prize winning scientist J. Michael Bishop will give the 10th annual Paul M. Althouse Memorial Lecture at 4 p.m. Thursday, Nov. 1, at The Milton S. Hershhey Medical Center.

Dr. Bishop received the 1989 Nobel Prize in physiology or medicine with his colleague Harold Varmus, for discovering in 1976 that the genes that can malfunction to cause cancer are present in normal cells.

Dr. Bishop, professor in the Department of Microbiology and Immunology and director of the G.W. Hooper Research Foundation at the University of California Medical Center, San Francisco, will discuss "Cancer Genes Come of Age."

Through his research on the retrovirus Rous sarcoma, which causes tumors in

chickens, Dr. Bishop helped show that viral oncogenes were altered genes present in normal cells, rather than the viral DNA. The genes, known as proto-oncogenes, appear to be necessary for normal cell functioning and growth, as well as for the uncontrolled growth of cancer cells when the genes are picked up by the retroviruses.

Born and raised in York, Pa., Dr. Bishop graduated from Gettysburg College as valedictorian. He received his M.D. from Harvard and trained for two years in internal medicine at the Massachusetts General Hospital. After a year of research in Germany, he joined the University of California and began his work on RNA tumor viruses in the early 1970s.

Dr. Bishop has been elected to the National Academy of Science, the American Academy of Arts and Sciences, and as a Fellow of the American Association for the Advancement of Science. He has received the American Association of Medical Colleges Award for Distinguished Research, the Albert Lasker Award for Basic Medical Research, the American Cancer Society Medal of Honor, and numerous other awards.

The Paul M. Althouse Memorial Lecture Series was established in 1974 to honor Dr. Althouse, provost of the University at his death in 1972. He had served earlier as professor of biochemistry, director of general education, and vice president for academic affairs.

J. Michael Bishop

Course seeks to link disciplines

"A prevalent weakness in higher education is the lack of linkages among disciplines," Margaret Cote said.

"We have good reasons for dividing knowledge into disciplines, but this segmentation sometimes results in many courses being devoted to a single topic or field. Linking is not often built into the curriculum," said Dr. Cote, interim associate dean for the Commonwealth Educational System, College of the Liberal Arts, and associate professor of English, Penn State Allentown Campus.

"It's frustrating to find that when students read a novel, they are not aware of the historical events that shaped the author's work. Our students are not making the connections between events in history and their impact on the people living during these times," she explained.

To help students make connections between disciplines, Dr. Cote and Eugene R. Slaski, associate professor of history and academic officer at Allentown Campus,

proposed teaching Women's Studies 001 and History 003 as a single six-credit course.

With funding from the United Federal Savings Bank Endowment for the Enhancement of Undergraduate Instruction, they taught the joint course last fall to 30 students in a twice-a-week, three-hour format.

The United Federal Endowment is administered by the Office of Undergraduate Education under the direction of Jerry B. Covert, associate dean for undergraduate education.

Both faculty members attended all class sessions, sharing in an interactive discussion format that focused on issues such as human relationships, civil disobedience, the origin and evolution of American cultural values relating to family, church, race, ethnicity, education and the work ethic. The course also dealt with social trends and responses to those trends in women's lives.

Please see "Course" on page 3.

Focus on Diversity

Program on sexual harassment available

The Wrong Idea (24405.VH), a cross-cultural training program about sexual harassment, is now available from Penn State Audio-Visual Services.

The 29-minute program uses a culturally diverse cast in nine vignettes to portray campus sexual harassment incidents, and it is designed to stimulate discussions of differing perceptions about each incident. The video attempts to sensitize U.S. and international students, faculty, and staff to

the cultural and gender issues surrounding sexual harassment, and informs them of their legal rights and responsibilities.

This title is available at no charge to University faculty and staff members for classroom use. At University Park, call 865-0913 to make arrangements for a preview showing. At a Commonwealth Campus, contact the campus instructional services specialist for ordering procedures.

Women of Color plan annual Winter Ball

Tickets are now on sale for the Winter Ball, sponsored by the Central Pennsylvania Women of Color set for 8 p.m. Dec. 1 at the Nittany Lion Inn.

Music will be provided by the Earthtones' band and DJ "The Doctor." There will be hors d'oeuvres and cash bar. Tickets are \$12.50 per person and \$10 per graduate student before Nov. 10. After

Nov. 10, all tickets are \$15 per person. No tickets will be sold at the door.

Winter Ball Committee chair is Chris Patterson and honorary chair is Grace Hampton.

Ticket contacts include Chris Patterson, 863-6081; Carolyn Napoleon, 237-8053; Ann Shields, 238-4608; and Vicki Fong, 865-7517.

Future geologists visit

Rachael Taylor, a member of the National Association of Black Geologists and Geophysicists, talks to Pittsburgh area high school students who attended the association's annual conference Oct. 19-20 at University Park. (Photo: Greg Grieco)

Diversity Opportunities Calendar

Monday, Oct. 29

Women's Studies Student Affairs committee, 12:15 to 1 p.m., 12 Sparks Building. Discussion about affairs concerning women at Penn State.

Paul Robeson Cultural Office and Office of Religious Affairs, 7:30 p.m., Robeson Center. "Eyes on the Prize" film followed by discussion led by Rev. Kenneth Clarke.

Women's Studies, 8 p.m., HUB Gallery. Walter L. Williams, University of Southern

California, on "Beyond Homophobia: Learning from American-Indian and Asian-Pacific Cultures."

Tuesday, Oct. 30

Campus Life's Student Counselors, 7 p.m., 112 Osmond. Pam Bona on "International Students-Experiencing Penn State."

Wednesday, Oct. 31

Center for Women's Studies, noon to 1 p.m., 120 Boucke. Film and discussion:

"Two Million Women: Domestic Violence," with Patricia Johnstone.

Groove Phi Groove/Paul Robeson Cultural Center, 7 p.m. Robeson Center. Film (to be announced).

Thursday, October

Hindu and Jain Good over Evil holidays (exact dates dependent on lunar calendar).

October through November

Hindu and Jain Festival of Lights holidays (exact dates dependent on lunar calendar).

WISE Forum

The WISE Forum will have a brown bag lunch and program at University Park from noon to 1 p.m. Friday, Oct. 26, in 301 HUB. The program will be a discussion about "Women in Scientific and Technical Graduate School," led by a panel of current Penn State graduate students.

WISE stands for Women in the Sciences and Engineering, and the forum is for anyone interested in supporting and encouraging women in science, engineering and technology.

To describe its broadened mission

Unit renamed Multicultural Resource Center

The Counseling and Academic Skills Development Office has been renamed the Multicultural Resource Center to better reflect the population of students it serves.

"The office now provides centralized counseling support services for all minority undergraduate and Educational Opportunity Program students. Its new name describes more accurately its broadened mission," Howard E. Wray III, assistant dean for undergraduate education and academic assistance programs, said.

"Our goal is to provide confidential counseling, tutorial services and numerous other educational services to students of all backgrounds."

The Multicultural Resource Center is one of seven University Academic Assistance Programs that provide special services and programs to improve the academic achievement of disadvantaged, minority, veteran, disabled and basic skills students.

The center provides a broad range of free services to minority and low-income students including counseling on life-style issues, interpersonal relationships with peers

and family, transitions to college, study skills, note-taking and test-taking strategies, career plans and goals and tutorial assistance. It is staffed by nine counselors and seven peer counselors.

Although developed primarily for minority students, the center serves all students who request help. During the 1989-90 academic year, the center had contact with more than 9,000 students, about 1,400 of whom were served on a continuing basis throughout the year.

Other units of the center include:

- The Learning Assistance Center, an academic support center in writing, math, reading, studying, learning computer skills and individual tutoring;

- The Developmental Year Program, a basic academic skills program;

- The Office of Veterans Programs, a comprehensive service center for veterans;

- The Office of Disability Services which makes individual accommodations to meet the needs of disabled students;

- The Basic Skills Program, a network of academic services and courses for students

weak in math, English and reading;

- Project Upward Bound, a program that helps disadvantaged high school students develop skills and motivation necessary for post-secondary education.

"We hope that the change in name to the Multicultural Resource Center will draw the attention of all students who need our services," Mr. Wray said.

Students to discuss education abroad

Students who have participated in Education Abroad Programs will talk about their experiences at 7:30 p.m. Tuesday, Oct. 30, in the Paul Robeson Cultural Center.

The presentation is jointly sponsored by the Office of Education Abroad Programs, Black Caucus and Multicultural Resource Center.

Forum will focus on new businesses

Financing of new business ventures will be the focus of the Third Mellon Bank Enterprise Forum to be held from 3 to 9 p.m. Wednesday, Nov. 7, at University Park.

The session, coordinated by the Center for Enterprise Creation and Growth in the Smial College of Business Administration, will provide entrepreneurs information about the options available to them as they seek support for their budding companies.

John Werner, president, Ben Franklin Technology Center, will discuss government financing; Paul Kelley, managing partner, Zero Stage Capital of Pennsylvania, will cover venture capital financing; Jerry Lessman, vice president and manager, Mellon Bank Central, will discuss bank financing; and Terry Collison, consultant, Venture Development, Wilmington, Del., will cover private support. A panel of entrepreneurs also will share their experiences with participants.

The Enterprise Forums were launched in 1989 through the support of Mellon Bank.

Penn State Press publishes history of the CIA

The early years of the Central Intelligence Agency are chronicled in the first official history of the CIA, to be published by Penn State Press in December.

The Central Intelligence Agency: An Instrument of Government, 1950 by Arthur B. Darling is the first document released through the CIA's Historical Review Program. Sanford G. Thatcher, director, Penn State Press, said.

"Publication of this history of the CIA symbolizes the new openness of the CIA and its willingness to provide the public with information about its past. The book also is an important historical document, because it is based on internal memoranda and records not hitherto available to anyone outside the government," Mr. Thatcher said.

Dr. Darling, the CIA's first historian (1952-54), wrote the history in 1953. The manuscript was classified from 1953 until November 1989, when it was released to the public. The Editorial Committee of the Penn State Press recommended publishing the public-domain document in January 1990, Mr. Thatcher said.

Arthur Darling's history is the first in what we hope to be a series of publications

by Penn State Press arising from the materials released through the CIA's Historical Review Program, he added.

A second volume, General Walter Bedell Smith as Director of Central Intelligence, October 1950-February 1953 by Ludwell Lee Montague, will be published by Penn State Press in 1991.

Since becoming director of the Press in 1989, Mr. Thatcher has worked to build a new reputation for the Press in history and the social sciences.

"Publishing the history of the CIA is a good way for Penn State Press to attract the attention of both historians and political scientists to what we are doing," he said.

Another new focus of the Press is in the area of international relations. In a cooperative arrangement with Polity Press in England, Penn State Press is co-publishing early next year *American Hegemony and World Oil* by Simon Bromley.

Among other changes that Mr. Thatcher said was the reorganization of the Press' Editorial Committee. The eight-member group now meets regularly in person to review projects.

Committee members are Ronald Filippelli, Jonathan Goldstone, Philip

Jenkins, Nancy Love, Charles W. Mann Jr., Ronald A. Smith, Daniel Walden and Stanley Weintraub.

Since June 1989, the committee has approved for publication 88 new books (38 in literature, 14 in art history, 15 in history, 13 in social science and eight in philosophy and religion).

Several forthcoming books are by University authors, including *The Origins of Federal Support for Higher Education*, George W. Atherton and the *Land-Grant College Movement* by Roger L. Williams, *The Rainbow Bridge* by Alistair Fraser and Raymond Lee, *The Photographic Experience* by Bridget and Heinz Henisch, and *Joseph Pulitzer II and the 'St. Louis Post-Dispatch': A Newspapersman's Life* by Daniel Pfaff.

The Press, which now has a staff of 15, has an entirely new marketing department dedicated to improving the Press' marketing program and also is in the process of fully computerizing its operations.

"Our goal is to build on the Press' strengths, while expanding into several new areas to enhance the Press' standing among scholarly presses," Mr. Thatcher said.

—Deborah A. Benedetti

Teaching award

Nominations are now being accepted for the 1991 Penn State Teaching Fellow Award.

Established jointly by the Alumni Association, Undergraduate Student Government and Graduate Student Association, the award honors distinguished teaching while providing encouragement and incentive for teaching excellence at the University.

One or more awards will be given. Awardees will be honored at the April Awards Convocation. Recipients receive a check and an inscribed memento and have their names added to a permanent plaque located in the Hetzel Union Building.

Nomination forms for the Teaching Fellow Award are available from the Alumni Association, 105 Old Main. Nominations are due by Nov. 1.

Proposals sought

Faculty from all University campuses are invited to submit proposals to the Penn State 1990-91 Research Initiation Grant (RIG) Program.

The RIG Program was established to support the initiation of research and other creative work in the sciences, engineering, social sciences, and arts and humanities by new faculty members. New faculty members are defined as faculty members with a service accumulation of two calendar years or less by September 1991.

The criteria for the program are scholarly merit of the proposal; potential benefits to the investigator and to the University; and contribution (direct or indirect) to the educational program. Special consideration will be given to research on diversity.

The 12-month awards will range from \$5,000 to \$10,000 and will be announced following a preliminary screening by the colleges and final recommendations from a University review committee selected from a variety of disciplines and appointed by the senior vice president for research and dean of the Graduate School.

Faculty members desiring further information should contact their research dean or campus executive officer. The proposal deadline for submission to the senior vice president by research deans is Jan. 31, 1991.

Space education

The University has formulated an agreement with TVOntario, the educational television network in the Province of Ontario, Canada, to collaborate in the production and distribution of programs and materials for space education. The agreement links Penn State and TVOntario in a dedicated effort to provide ongoing space education opportunities to school students and adults both on this continent and worldwide.

At Penn State, the University's Division of Media and Learning Resources, the National Space Grant College and Fellowship Program, the Center for Cell Research, and the College of Education will together pursue educational endeavors relating to space science, space exploration, technology, biology, and applications.

Marlowe Froke, general manager of the Division and WPX-TV, said that the agreement with TVOntario will facilitate improved space education via united production and research capabilities.

United Mine Workers conference

Richard Trumka, United Mine Workers president and University Trustee, participated in the Oct. 18-20 UNW Centennial Conference, presenting the Philip Murray Memorial Lecture. (Photo: Greg Grieco)

sharing the class time and interacting with each other and the students," Dr. Cote said.

"Given the combination of things we did in class -- the readings, discussions and movies -- there was a real increase in knowledge and appreciation of the differences between how the genders perceive each other and how they perceive themselves as individuals and as groups," Dr. Slaski said.

"The men and women students began to appreciate more the various subtle and not so subtle societal values that they were a part of, to the point that they became sensitive to instances of discrimination occurring around them that they had previously not noticed. The students also gained a greater appreciation of the role of women in American history and saw that women shared in that history, although often invisibly," he added.

"I found the team-teaching experience very,

enriching," Dr. Cote said. "I made a quantum leap in my own understanding of American history as it relates to women's studies."

Dr. Slaski agreed, noting that the experience had helped him to add to his knowledge of women's studies, enhancing his American themes course. He previously taught a women's studies course in the mid-1970s.

Both said that developing the joint course was one of the most cost effective professional development activities that they had ever been involved in. They taught the course as part of their regular course load.

Dr. Cote and Slaski intend to teach the course again. Dr. Cote, who is on administrative leave at University Park, also is interested in exploring the possibilities of similar ventures with sociology and psychology faculty members.

—Deborah A. Benedetti

Course

Continued from page 1.

They read all of the assigned textbooks and readings and developed and graded the three essay exams, arriving at a single grade for each student in the class, which was almost evenly divided between male and female freshmen. They also prepared study guides for students prior to each exam and jointly reviewed students' proposals for research papers.

The course gave students a mechanism for linking disciplines, showing them how it is done and giving them an insight into how they can integrate knowledge themselves.

"We treated this as one experience for our students.

News in Brief

Paul T. Baker Lecture

Luca L. Cavalli-Sforza, chairman of the Genetics Department at Stanford University, will be the speaker for the Paul T. Baker Lecture at 3:30 p.m. today, in 112 Kern Graduate Building at University Park. His lecture, "Genes and Archaeology," will focus on the methods used to gather information from genes for the study of human differentiation and evolution.

The lecture, sponsored by the Department of Anthropology, the Department of Biology, the Institute of Molecular Evolutionary Genetics and the Graduate School, is open to the public.

The Paul T. Baker Lectureship in Human Biology and Anthropology was established in 1987 by the Department of Anthropology and students of the former University anthropology professor. Recipients are recognized for their outstanding contribution to knowledge in human biology and biological anthropology.

Candidates' night

Women's Alliance begins its 1990-91 programming with a candidates' night focusing on women's and family issues at 7:30 p.m. Tuesday, Oct. 30, in 305 Hetzel Union Building, University Park. Candidates expected to attend are Lynn Herman, Doyle Corman, Mike Radis, John Elitski and Greg Stoicheff.

Lunchtime roundtable

William B. Lacy, assistant dean for research in the College of Agriculture, will lead a lunchtime roundtable sponsored by the Penn State Chapter of the National Association of Science Writers at 11:45 a.m. Wednesday, Oct. 31, in Room 313 Kern Building at University Park.

Dr. Lacy, who also is professor of rural sociology, will lead a discussion of "Public Opinion on Biotechnology."

The Penn State Chapter of the National Association of Science Writers meets for lunch and discussion on the last Wednesday of each month. The brown bag lunchtime roundtable series is open to anyone interested in science communication.

'Journey Through the Universe'

Robert Marande, associate professor of physics, Penn State Erie, The Behrend College, will explore the evolution of our solar system, our galaxy and the frontiers of space at 8 p.m. Tuesday, Oct. 30, in Reed Lecture Hall. He will use objects that can be viewed with small telescopes or binoculars.

"Journey Through the Universe" is free to the public. For more information, call (814) 898-6171.

Film showing

In recognition of Domestic Violence

Awareness Month, the Center for Women Students will present the film "Two Million Women: Domestic Violence" at noon Wednesday, Oct. 31, in 120 Bouck Building at University Park. A discussion will follow.

The film explores the problem of domestic violence in our society. Patricia Johnston, assistant director of the Center for Women Students, will lead the post-film discussion.

The one-hour program is part of the Center for Women Students' Brown Bag Lunch Series. For more information, call the center at 863-2027.

Child development lecture

Robert B. McCall, professor of psychology and director, Office of Child Development, University of Pittsburgh, will speak on "The State of Early Childhood Needs and Services in Pennsylvania" at 8 p.m. Thursday, Nov. 1, in the Keller Conference Center auditorium. The lecture is open to the public.

Ferraro to speak

Former vice presidential candidate Geraldine Ferraro will speak about opportunities for women in the 1990s at 8 p.m. Thursday, Nov. 1, in Eisenhower Auditorium at University Park.

The speech is part of Panhel's Women's Awareness Week and is sponsored by the Panhellenic Council and co-sponsored by other University units.

The event is open to the public, and admission is free. For more information, call 865-3701.

Early childhood conference

The Center for the Study of Child and Adolescent Development in the College of Health and Human Development will present a conference on "The Preschool Child: Recent Research and its Implications for Early Childhood Practice and Policy" at University Park, Nov. 1-2.

The conference will focus on specific practical applications of recent research on young children.

Speakers will discuss the implications of their recent work in cognitive and social development, the assessment of early childhood needs and services, and the challenges of effective communication between researchers and practitioners.

Professional Women at Penn State

Sabrina Chapman, director of the Center for Women Students, will speak on the "Status of Women in American Society" at a meeting of Professional Women at Penn State at 12:10 a.m. Tuesday, Oct. 30, in the Frizzell Room in the Eisenhower Chapel at University Park. The meeting will begin at 11:45 a.m. for informal networking.

Professional Women at Penn State is a

grass-roots group coordinated by University women in which participants can develop and maintain a communications network and serve as a resource for other Penn State women.

The group welcomes attendance from all classifications at the University.

Salvage and Surplus

Due to a recent policy change, bicycles are now available for sale at Salvage and Surplus Warehouse during its regular Friday Sales Stores.

These bicycles may be seen from 8 a.m. to 4 p.m. Monday through Thursday. Purchasing is done during sale hours, Fridays 9 a.m. until 3:30 p.m.

Programs re-accredited

The Penn State Fayette Campus has been notified that all of its engineering technology programs have been re-accredited by the Technology Accreditation Commission/Accreditation Board for Engineering and Technology. The programs include architectural engineering technology, electrical engineering technology, and building energy systems technology.

Penn College honored

Pennsylvania College of Technology's In-Plant Printing Production Operation has been named to the "Top 100 In-Plants in Colleges and Universities" list released by *In-Plant Reproductions* magazine. The College's reproduction and printing operation was honored in a recent issue of the national publication.

The Penn College In-Plant, which employs six full-time persons, produces approximately 3.13 million black and white and color impressions per year. The in-plant's full-scale production includes typesetting and composition, camera, press and bindery operations.

Fulbright program

Opportunities to host a visiting scholar from abroad for all or part of the 1991-92 academic year are available through the Fulbright Scholar-in-Residence Program. Institutions are invited to submit proposals for visiting scholars in the humanities and social sciences. Other fields focusing on international issues also will be considered.

A Fulbright scholar-in-residence may teach regular courses from a foreign area perspective, serve as a resource person in interdisciplinary courses, assist in developing new courses or participate in special seminars.

A copy of a successful University proposal for a scholar-in-residence is available for consultation in the Office of Education Abroad Programs. Contact Elizabeth B. Smith, University Fulbright program adviser, 222 Bouck Building, 865-7681. The deadline for receipt of proposals is Nov. 1. For more information, call Dr. Smith.

Obituaries

Joseph S. Thurston, county agricultural agent, Westmoreland County, died Aug. 22. He was 79.

Mr. Thurston retired June 30, 1972, after 35 years service with Penn State Cooperative Extension. Winner of numerous state and national awards for outstanding educational programs, including the USDA Superior Service Award, he earned his bachelor of science degree in dairy science from Penn State in 1934.

After three years as a dairy herd improvement association supervisor, he joined the Extension staff as an assistant county agent, serving in Westmoreland and Fayette counties. He was promoted to Westmoreland agent in 1950.

Frank G. Bamer Sr., retired professor and chairman of agronomy extension, died Oct. 10 at the age of 94.

He retired from the College of Agriculture faculty in 1961 after 25 years service. During his tenure, he initiated the Cooperative Extension soil conservation work and guided its development. He also helped to modernize the University's work in soil testing.

In addition, he developed fertilizer and seed recommendations in 1951 that became the University's "Agronomy Guide," one of the most widely distributed of the College of Agriculture's publications.

He earned a bachelor of science degree in agronomy from Penn State in 1920.

Patricia A. Meyer, data entry assistant programmer, Computer and Information Systems, from Feb. 1, 1957, until her retirement June 28, 1986, died Oct. 3 at the age of 58.

John A. Dunkel Jr., stockroom inventory clerk, Ebner College of Science, from May 8, 1958, until his retirement July 1, 1988, died Oct. 3 at the age of 60.

Genevieve E. Narehood, residence hall worker, Housing and Food Services, from Nov. 1, 1963, until her retirement April 21, 1976, died Oct. 5. She was 73.

John L. Ferencik, maintenance mechanic, Penn State Beaver Campus, from July 23, 1972, until his retirement Aug. 1, 1983, died Oct. 7 at the age of 72.

Carpoolers

Sharon would like to ride with anyone from Penn Hills during the winter months only. Her work hours are 8 a.m. to 5 p.m., and she can be reached at 863-1764.

Jeze will pay to ride from Philipsburg to University Park; work hours are 8 a.m. to 4:30 p.m. Call 342-5162.

Kathy would like one or two riders to carpool from Altoona or the Bellwood intersection of Route 220 or from Tyrone to University Park; work hours are 8 a.m. to 5 p.m. Call 865-7702.

Members of the Holiday Inn Aerobatic Team, above, perform for Air Expo '90 held Oct. 20-21 at the University Park Airport. At the right, Robert P. Dannaker, airport manager, directs operations from a temporary control tower. Below are two of the vintage military aircraft that were on display. (Photos: Greg Grieco)

Air Expo '90

Focus on the arts

Greek Sing

The theme for the Panhellenic Council's Greek Sing 1990 is "A World Collage on Stage." The theme encourages participating teams to depict world cultures, customs, historical events or recent changes.

This year's Greek Sing will be held at 7 p.m. Friday, Oct. 26, in Eisenhower Auditorium. The event will benefit the Gayle Beyers scholarship fund. Panhellenic women in financial need and displaying academic and leadership achievements are eligible for scholarship consideration.

Tickets are \$3 in advance and \$4 at the door. For more information, call 865-3455 or stop by 201B Heitzel Union Building University Park.

Mime to perform

Dan Kamin, a mime who has earned an international reputation with his unique approach to the art, will perform at 8 p.m. Friday, Oct. 26 in Room 102 Kern Building at University Park.

Seating for the performance, sponsored by the Kern Graduate Commons, a unit of the Office of Union Programs and Operations, is limited to the first 400.

Mr. Kamin combines the mystery and illusions of mime with a zany comic vision of life. His reputation as a master of the art has earned him invitations to perform at the White House, the American Embassy in London, and Lincoln Center. In addition, he has made four specials for the PBS network.

Mr. Kamin has been awarded grants and fellowships from the Pennsylvania Council on the Arts and the National Endowment for the Arts. A frequent performer on college campuses nationwide, he will visit Penn State's Commonwealth Campuses during the 1990-91 season.

Mime Dan Kamin

Day of dance

The University dance faculty will host a career day from 9 a.m. to 4:30 p.m. Saturday, Oct. 27, in 132 White Building at University Park.

Participants will have opportunities to talk with alumni who work in such diverse areas as dance therapy, studio ownership and management, education, choreography and performance.

From 9 a.m. to noon, there will be a panel discussion with alumni working in dance fields. In the afternoon, there will be three dance classes highlighting some of the career options, a dance therapy workshop, an intermediate modern technique class and a repertory class. The cost for the classes will be \$5 for one class, \$7.50 for two and \$10 for three.

For more information, call one of the dance faculty at 865-2720, 863-7368 or 865-7112.

Emerson String Quartet

The Emerson String Quartet, winner of two 1990 Grammy Awards for Best Classical Album and Best Chamber Music

Performance, will perform an all-Mozart concert with clarinetist David Shifrin at 8 p.m. Saturday, Oct. 27, in Schwab Auditorium at University Park.

Presented by the Center for the Performing Arts, it is the second in the series called Mozart 200, commemorating the composer's death 200 years ago.

In its 14th season, the quartet-Eugene Drucker and Philip Setzer, violins; Lawrence Dutton, viola; and David Finkel, cello-has appeared in virtually every major series and festival in the world and recently made its Carnegie Hall debut.

At 3 p.m. Oct. 27, members of the quartet will speak in the Greenroom of Eisenhower Auditorium as part of Artistic Viewpoints, a free lecture series for the

Peter Marshall and Patricia Harty star in the play 'Rumors' set for 8 p.m. Oct. 29 in Eisenhower Auditorium.

audience.

A limited amount of tickets are still available for this concert and others in the Mozart 200 series. Call the Eisenhower Ticket Center at (814) 863-0255 for more information.

Neil Simon's 'Rumors'

"Rumors," Neil Simon's latest Broadway hit starring television star Peter Marshall, will be performed at 8 p.m. Monday, Oct. 29,

in Eisenhower Auditorium at University Park.

Mr. Marshall, former "Hollywood Square" game show host and five-time Emmy Award winner, plays a lawyer who decides not to expose the facts but cover them up instead.

The play is directed by Peter Lawrence, who also directed the national tour of Mr. Simon's "Broadway Bound." Identical to the Broadway production, "Rumors" will use

Please see 'Arts' on page 11.

The arts at...

Ogontz Campus

Contemporary musician Dave Wopat, named "Coffeehouse Entertainer of the Year" by the National Association of Campus Activities, will appear at the Penn State Ogontz Campus at 12:30 p.m., Wednesday, Oct. 31.

Mr. Wopat, who defies conventional music categories, uses a computer-controlled eight-track sequencer, synthesizers and programmable drums in his stage performances. He produces a singular live sound for a solo artist, with up to nine separate instruments programmed to play simultaneously with his live guitar and vocals.

The Campus also will feature six award-winning artists in an exhibit of works addressing environmental concerns Friday, Oct. 26, through Friday, Nov. 16.

Invited artists include Maggie DeBaecke, metals; Steve Donegan, ceramics; Esther Rose Fisher, prints; Carolyn Lare, fibers; Barbara Lember, photography, and Kay

Wood, paintings. The display will be mounted in the Woodland Library.

York Campus

Country Current, the U.S. Navy's country bluegrass group, will perform at 7:30 p.m. Saturday, Nov. 10, in the Penn State York Campus gymnasium.

Formed in 1973, the seven-member group is recognized for its versatility in all aspects of country and bluegrass music. Country Current often features a five-member acoustic bluegrass ensemble and guitar-fiddle duo, both comprised of various group members.

Master Chief Musician Bill Emerson is Current's director and also performs on banjo and vocals.

Admission is by ticket only. Tickets are available free on campus on a first-come, first-served basis in the Office of Student Programs and Services or in the lobby area of the Main Classroom Building.

Penn State-Behrend

Two films in the "Swept Away: Women on the Edge" film series about women offered by Penn State Erie, The Behrend College will be presented in November.

"Vagabond" directed by Agnes Varda will be shown at 7:30 p.m. Thursday, Nov. 1, and "Desert Heart" directed by Donna Deitch will be shown at 7:30 p.m. Thursday, Nov. 8, both in Reed Hall.

Other upcoming events include a performance by French pianist Marylene Dosse of the School of Music faculty at 8 p.m. Tuesday, Nov. 13, in Reed Hall; the Eastman Opera Theatre's abbreviated version of "La Boheme" by Puccini as part of the campus' Music at Noon: The Logan Wintergarden Series on Monday, Nov. 5; and the Penn State-Behrend Matchbox Players' performance of "The Day Room" by Don DeLillo at 8 p.m. Nov. 6 to 10 and 13 to 17 and at 2 p.m. Nov. 11 and 18.

Special Events

Thursday, October 25

Bach's Lunch, 12:10 p.m., Eisenhower Chapel.
Avant-Garde Trombone Quartet.
Shaver's Creek, Pumpkin Carving, 7-9 p.m. Call 863-2000.

Friday, October 26

WISE Forum, brown bag lunch, noon-1 p.m., 301 HUB, Panel of graduate students on "Women in Scientific and Technical Graduate School."
Shaver's Creek, Halloween Trail, 7-10 p.m. Also Oct. 27 and Oct. 28, 6-9 p.m. Call 863-2000.
Kern Graduate Commons, 8 p.m., 103 Kern. Dan Kaman, mime.

■URTC, 8 p.m., Playhouse Theatre "Merchant of Venice," through Nov. 3.
School of Music, 8 p.m., Recital Hall, Penn State Philharmonic.

Saturday, October 27

Day of Dance, 9 a.m.-4:30 p.m., 132 White Bldg. Alumni panel discussion (morning), dance classes (afternoon).

Center for the Performing Arts, 8 p.m., Schwab Aud. Emerson String Quartet

Sunday, October 28

Carnegie Hall Film Series, 7 p.m., 203 Willard.
Muldrill Pine (1945): 8:45 p.m. *Miscellaneous* (1966), Free.

Monday, October 29

■Comp. Lit. Luncheon, 12:15 p.m., 101 Kern.
Caryl Emerson, Princeton, on "Mikhail Bakhtin: Major Concepts, Major Controversies." Also 8 p.m., 101 Kern, on "Bakhtin on Novels and Others."
Women's Studies Student Affairs Committee, 12:15-1 p.m., 12 Sparks.

Center for the Performing Arts, 8 p.m., Eisenhower Aud. Neil Simon's *Rainbow*.
■Contemporary Scholarship on Lesbian and Gay Wives, 8 p.m., HUB Gallery, Walter L. Williams, Univ. of Southern California, on "Beyond Homophobia: Learning from American-Indian and Asian-Pacific Cultures."

Tuesday, October 30

Brown Bag Lunch, 11:45 a.m., Frizzell Room, Eisenhower Chapel. Sabrina Chapman on "Status of Women in American Society."
■Education Abroad, panel discussion, 7:30 p.m. Paul Robeson Cultural Center. Students will discuss their experiences.

Women's Alliance, candidates' night, 7:30 p.m., 305 HUB.

Play, "Same Square of Dust," 8 p.m., Palmer Museum of Art. Also Nov. 1-3, 8 p.m.; Nov. 4, 2 p.m.

School of Music, 8 p.m., Recital Hall, Penn State Percussion Ensemble.

Wednesday, October 31

Penn State Chapter/National Association of Science Writers, roundtable, 11:45 a.m., 313 Kern. Dr. William B. Lacy on "Public Opinion on Biotechnology."

Brown Bag Lunch Series, film/discussion, noon-1 p.m., 120 Bouckie. *Two Million Women: Domestic Violence*.

Center for the Performing Arts, 8 p.m., Eisenhower Aud. Philip Glass Ensemble. "Koyaanisqatsi Live."

Thursday, November 1

Women's Studies, 7 p.m., Eisenhower Aud. Geraldine Ferraro on "Opportunities for Women in the '90s: Women as Leaders in our Society."

The Emerson String Quartet will perform at 9 p.m. Oct. 27 in Schwab Auditorium.

School of Music, 8 p.m., Recital Hall, Eric and Mary Ross.
Child Development, lecture, 8 p.m., Keller Aud. Robert B. McCall, Pitt, on "The State of Early Childhood Needs and Services in Pennsylvania."

Friday, November 2

Geog. Coffee Hour, 4 p.m., 319 Walker. Craig Humphrey on "Saving the Planet: What in the World is Happening?"
Shaver's Creek, Owl Prowl, 7-9 p.m. Call 863-2000.

Center for the Performing Arts, 8 p.m., Eisenhower Aud. Wynton Marsalis.

Saturday, November 3

Shaver's Creek, Cellar Holes and Stone Walls, 1-4 p.m. Call 863-2000.

Sunday, November 4

Carnegie Hall Film Series, 7 p.m., Lady From Singha (1948): 8:45 p.m. *Agathe, The Walls of God*, (1972), 203 Willard. Free.

Conferences

Continuing Education

Keller Building

Oct. 29-30, C.I.E. Conference. Craig Bernerke, chair, Norm Lathbury, coordinator.

Oct. 29-31, Coal Mining Production Engineering. Stanley Subolski, director, Barb Impellitteri, coordinator.

Oct. 29-Nov. 9, Police Executive Development Institute. James Horner, chair, Kathy Karchner, coordinator.

Oct. 29-Nov. 2, Institutional Facilities Management. James Myers, chair; Norm

Lathbury, coordinator.

Oct. 30-31, Lighting Research Institute. Craig Bernerke, chair, Norm Lathbury, coordinator.

Oct. 30-Nov. 1, Mammalian Cell Cultures Workshop. Jim Shilline, chair, Eric Loop, coordinator.

Oct. 31-Nov. 2, The Preschool Child and Recent Research. David Estes, chair, Eric Loop, coordinator.

Nov. 2-3, Town Gown Community Conference. Stanley Latta, chair, Jerri Milson, coordinator.

Seminars

Thursday, October 25

Polymer Science, 9 a.m., 301 Steidle. Alan English, Dupont, on "Molecular Dynamics in Crystalline Polyamides."

Economics/Institute for Policy Research and Evaluation, 2:30 p.m., 69 Willard. Maurice Obstfeld, UC/Berkeley on "Consumption Variability and International Risk-Sharing." Physics Colloquium, 3:30 p.m., 55 Osmond Lab. Alfred Mueller, Columbia, on "QCD at High Energies."

Paul T. Baker Lecture, 3:30 p.m., 112 Kern. Dr. Luca L. Cavalli-Sforza, Stanford, on "Genes and Archaeology."

Computer Science Colloquium, 4 p.m., 325 Whitmore Lab. John R. Gilbert, Xerox, on "Preordering for Sparse Matrix Factorization."

Friday, October 26

■Lentendy Pajeksi, 3:45 p.m., 204 Patterson. Mandy Lentendy Pajeksi on "The Effect of European Corn Borer on Nutrient Partitioning in Corn."

Monday, October 29

Agriculture and Artificial Intelligence. Lecture noon 1 p.m., 301 Ag Admin. Dr. Michael A. Foster on "Quality Control for Expert Systems Verification, Validation and Evaluation." FFE, 4 p.m., 150 Davey Lab. Ian Wo Qu Stony Brook, on "Power Law Corrections in QCD."

Tuesday, October 30

Chemical Engineering, 2:45 p.m. Paul Robeson Aud. 1 David Hellman, Rice Univ. on "Experimental and Mathematical Simulation of Transport in the Microcirculation."

Chemistry Colloquium, 3:30 p.m., 55 Osmond Lab. Peter G. Schultz, Univ. of Calif. on "New Approaches Toward the Design of Biological Catalysts."

Graduate Program in Nutrition, 4 p.m., 5:204 Henderson. Anita L. Owen, National Dairy Council, on "Consumer Trends in Nutrition and Health."

Biology, 4 p.m., 8 Mueller Lab. Janis Antonovics, Duke Univ. on "Plant Vernal Diseases."

Condensed Matter Physics, 4 p.m., 339 Davey Lab. Paul Cutler on "Detection of Infrared and Visible Radiation Using STM, and the Measurement of an Operational Tunneling Time."

Thursday, November 1

Polymer Science, 9 a.m., 301 Steidle. Hilary Hampch, Kodak/Purdue, on "Non-Linear Optics of Polymer Systems."

Physics Colloquium, 3:30 p.m., 55 Osmond Lab. Pierre C. Hohenberg, AT&T Bell Labs on "Nonequilibrium Patterns."

Accounting/MIS research colloquium, 3:30-5:30 p.m., 201 BAB. Marilyn Gascho Lipe, U. of Mich.

Gerontology Center Colloquia, 4:55 p.m., 106 Mitchell. Leslie Morgan, Univ. of Md., Baltimore, on "Small Board and Care Homes for the Elderly: A Case of Social Marginality."

Faculty and staff members are honored with awards

Staff achievement

H. Ann Harpster, Copy Center operator in the College of Health and Human Development, received the first annual Carol Clark Ford Staff Achievement Award.

The newly established award recognizes staff members who create conditions that make it easier for others to accomplish their objectives effectively and efficiently. The award was endowed by Donald H. Ford, former dean of the College of Human Development, in honor of his wife, Carol Clark Ford.

Ms. Harpster became Copy Center operator for the former College of Human Development in 1978. Previously, she was a mail services worker in the College of Agriculture.

She handles all facets of the center's operation, including inventory and employee supervision. She is also an invited lecturer in the School of Hotel, Restaurant, and Institutional Management, where she helps students with menu design and layout.

H. Ann Harpster

permanent Scholarly Excellence Award plaque in the Eberly Building. Professor Meredith has been involved with computer applications in the heating, ventilating and air-conditioning industry. With his students, he has developed software that will automate the design process.

Academic advising

John W. Moore, assistant professor of English and comparative literature, has received a 1990 Certificate of Merit Award from the American College Testing/National Academic Advising Association's National Recognition Program for Academic Advising.

The national award is given to those who demonstrate outstanding academic advising abilities.

"We are delighted that John Moore is being recognized nationally for his exemplary academic advising, although it comes as no surprise," Eric White, director of the Division of Undergraduate Studies, said. "Last year we chose John to speak at the annual DUS Fall Conference because he is dedicated to advising and recognizes the importance of advising in the educational experience of students."

Dr. Moore's past honors include winning the Liberal Arts Teaching Award in 1981, the Christian R. and Mary F. Lindback Award for Distinguished Teaching in 1983, and the University's Excellence in Advising Award in 1989. He has also been elected Teacher of the Year six times by English Department graduate students.

The author of *Edmund Spenser—An Annotated Bibliography of Recent Scholarship, 1973-1988* and numerous articles and abstracts, Dr. Moore now is serving as associate head of the English Department.

Scholarly excellence

David B. Meredith, assistant professor of engineering at the Penn State Fayette Campus, has received the Fayette Campus Scholarly Excellence Award.

The award is given to those who have developed new ideas/information in their professional discipline or field. Professor Meredith received a \$1,000 cash award and a certificate. His name will be placed on the

John W. Moore

research and publication.

Evelyn Hovanec, director of academic affairs, **Sherry Brusco**, secretary to the director of business services, **Tim Duvall**, technical service employee, and **Paul Shier**, maintenance foreman, received the Service Award.

Dr. Hovanec was cited for her tireless campus service and development of new programs, especially the EGNAS program. Title III, writing across the curriculum and faculty/staff involvement.

Ms. Brusco was cited for her helpfulness, caring, knowledge and resourcefulness.

Mr. Duvall was praised for his well-organized, helpful and courteous manner in solving problems in crisis situations. Mr. Shier was commended for his dedication and commitment to the campus.

Judy Kalich, director of university relations, and **Peter Kai**, assistant professor of military science, received the Leadership Award.

Ms. Kalich was recognized for her efforts on behalf of the Campus Scholarship Campaign, which ended a year ahead of schedule and exceeded its \$500,000 goal by \$150,000.

Maj. Kai was credited with building an ROTC program at the campus that is recognized as the "best in the state." Within three years, the program grew to an enrollment of 120 cadets.

Continuing Education

Ten awards were presented to Penn State Continuing Education staff members during a recent annual meeting of members of the Division from all University locations.

The presentation included seven awards under a new staff recognition program developed by the Division to highlight outstanding achievement in a variety of continuing education areas, and two awards from the National University Continuing Education Association.

Award winners included:

Donald A. Gogniat, director of continuing education at the York Campus, the Vice President's Award for superior leadership, vision and the highest standards of achievement in the performance of

professional duties and responsibilities; and the Service to the Profession Award.

Waverly Coleman, area representative at the Delaware County Campus, the Marybeth Reese Distinguished Service Award for outstanding service to the University and to the people of the Commonwealth, exemplifying commitment to the ideals of responsible citizenship.

Beatrice Landis, area representative at the Lancaster Center, the Emerging Continuing Education Professional Award.

Edward J. Donovan, director of continuing education at the McKeesport Campus, the Outstanding Marketing and Outreach Award.

Gale J. Siegel, adult education vocational counselor at the Ogontz Campus, and **Wendie C. Coble**, secretary to the director of administrative services, co-winners of Continuing Education staff awards.

Kenneth A. McGeary, director of continuing education at the Allentown Campus, the Creative and Innovation Award.

Awards from the National University Continuing Education Association went to **Charles R. Garolin**, assistant director of the Palmer Museum of Art, for development of the continuing education workshop "The Business and Politics of Collecting Art," **Andrew J. Pelka** and **J. Randall Baldini**, of the Continuing Education Department of Public Information and Publications, for their roles in producing marketing communications pieces for the Penn State sports camps.

Research award

Alegria Bendelac, professor of French and Spanish at the Penn State Schuylkill Campus, has received the 1990 Faculty Research Award presented annually by the campus faculty organization.

Dr. Bendelac has been a member of the campus faculty since 1976. Her main area of research has been involved with the collection of oral and written data on Jaquetta, the dialect of the Jewish communities of Northern Morocco, and a mixture of old Spanish, Hebrew and Arabic languages.

From the materials she has collected thus far, she has published four articles and a book, which highlights the cultural and spiritual portrait of this ethnic group through members testimonies and their language.

Teaching award

Wesley Rhodes, associate professor of physics at the Penn State Schuylkill Campus, is the 1990 recipient of the Schuylkill Teaching Award presented annually by the faculty organization on campus.

Dr. Rhodes, a member of the Penn State faculty since 1965, joined the faculty at Schuylkill Campus in 1969.

He received his bachelor's degree in physics from Temple University, his master's from Bucknell University and his Ph.D. in theoretical nuclear physics from Penn State.

Penn State People

Rick Baylotts

Rick Baylotts, sign painter apprentice with the Office of Physical Plant, uses paint and gold leaf to hand-letter an office door in Old Main. His work varies from painting doors, signs and vehicles to engraving plastic and brass signs to painting the grass on the end zones of Beaver Stadium football field. "I enjoy the job," he says. "There's a lot of variety in the kind of sign work we do." A staff member for 17 years, Mr. Baylotts is nearing completion of his five-year apprenticeship in sign painting. (Photo: Greg Grieco)

Penn Staters

Daryl Durran, assistant professor of music, gave a presentation titled "Just Intonation or Some Half-steps are More Equal Than Others" at the 19th annual meeting of the International Double Reed Society held at Louisiana State University, Baton Rouge.

Robert B. Eckhardt, associate professor of anthropology, delivered an invited lecture titled "Morphological Variation and Trans-Species Genetic Polymorphisms in Hominoid Primates" at the Institute der Anthropologie und Humangenetik of Johann Wolfgang Goethe Universität in Frankfurt am Main, Bundesrepublik Deutschland.

John Gamble, professor of political science, Penn State Erie, The Behrend College, has been invited as a visiting professor of the Faculty of Law, University of Victoria, Victoria, British Columbia, Canada.

Carl Kallgren, assistant professor of psychology, and **Robert Tauber**,

associate professor of education, both at Penn State Erie, The Behrend College, made a presentation on the advantages of conveying scientific information in poster format at the 22nd International Congress of Applied Psychology in Kyoto, Japan.

Howard G. Knutigen, director of the Center for Sports Medicine, has been appointed chairman of the Publications Advisory Committee of the Medical Commission of the International Olympic Committee.

Robert Lima, professor of Spanish and comparative literature and Fellow, Institute for the Arts and Humanities Studies, was awarded second prize for travel writing by the Cruise World Society of Hamburg, West Germany. His article, which will be published in *The Cruise World Society News*, described his 1989 visit to Greece and Turkey.

Mary Preuss, associate professor of Spanish, Penn State McKeesport

Campus, has completed a taping project on oral narratives from Maya Indians in Yucatan, Mexico. Dr. Preuss also presented the paper "Ah Tomohchi: Prophet of the Past and Future" at the VIII International Symposium on Latin American Indian Literatures.

Marshal W. Ratfel, professor of health policy and administration, spoke to the Hungarian Healthcare Management Foundation on the United States' experience in organizing and financing health services, and addressed the staff of the hospital in Nové Zámky, Czechoslovakia, on healthcare services management and quality assurance.

Michael A. Smyer, associate dean for research and graduate studies in the College of Health and Human Development, has been elected a Fellow in the Society for the Psychological Study of Social Issues.

Albert Stiehl, assistant professor of engineering, Penn State McKeesport

Bookshelf

Ronald L. Filippelli, professor of labor studies and industrial relations, is editor of *Labor Conflict in the United States: An Encyclopedia*, published by Garland Publishing (New York and London).

Labor Conflict in the United States examines more than 250 contentions between capital and labor in the United States from 1601 and 1988.

The accounts include all the major conflicts, as well as many lesser known strikes, lockouts and worker uprisings, arranged alphabetically from the Actors' Strike of 1919 to the Yale University clerical strikes of 1984 and 1985.

In addition to editing the book, Dr. Filippelli was the author of approximately half of the entries.

Robert Plomin, professor of human development and director, Center for Development and Health Genetics, in the College of Health and Human Development, has written *Nature and Nurture: An Introduction to Human Behavioral Genetics*.

The book, published by Brooks/Cole, provides a brief overview of the methods and findings of the field of behavioral genetics. It is intended to be especially useful to researchers in other fields.

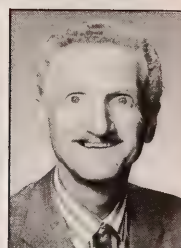

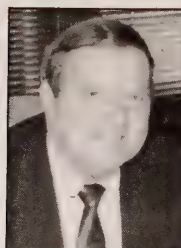

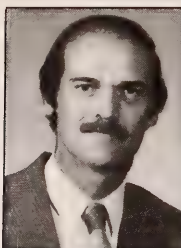

The book emphasizes the role that both heredity and the environment play in personality, IQ, memory, illnesses and other areas. Five broad topics are covered: the reasons why people differ; the ways heredity affects behavior; the methods of behavioral genetics; an overview of the evidence for genetic influence in intelligence, personality and psychopathology; and a behavioral genetics view of the "nature" or environmental side of the nature-nurture issue.

Campus presented a paper on "Computer Simulation of the Shock Induced Dynamic Response of a Coated Beam in Water with Cavitation, Stress Wave, Hysteresis and Strain Rate Effects" at the International Conference on Computer Use in Engineering of the American Society of Mechanical Engineers.

Ronald V. Bettig, assistant professor of communications, presented a paper, "Capitalism, the State and Intellectual Property: the Case of the Compulsory License for Cable," at the 17th Conference of the International Association for Mass Communications Research in Bled, Yugoslavia.

Frederick A. de Armas, professor of Spanish and comparative literature, presented a paper titled "Claromonte's New World: Representing the Other in 'El nuevo rey Gallinato'" (the new king Gallinato) at the XVII Congress of the International Federation for Languages and Literatures in Novi Sad, Yugoslavia.

25-year award recipients

Observing 25 years service at the University are, from left, Bonnie Bartley, secretary, Commonwealth Educational System; John Garell, assistant professor of mathematics at the Penn State Shenango Campus; Donald L. Patches, audiovisual technician,

Department of Educational Resources, Hershey Medical Center; James J. Staudenmeier, campus executive officer, Penn State Hazleton Campus; G. Thomas Tait, associate professor of exercise and sport science.

Promotions

Staff Exempt

Stephanie L. Barone to assistant director of Student Services.
James E. Bowen to manager, Housing and Food Services at Behrend College.
Dane R. Foust to assistant director in Student Services.
Wayne R. Haas to project coordinator in Agriculture.
Harold F. Hahn to supervisor trades in Physical Plant.
Jean M. Hughes to financial officer in Corporate Controller's Office.
Kathleen M. Lathbury to administrative assistant in Physical Plant.
William Piekielek to project coordinator in Agriculture.
Patricia A. Shaw to administrative head nurse at Hershey.
Martin S. Smith to senior applications programmer/analyst in C&S-Management Services.
Thomas Stapleton to assistant director of business services at Berks Campus.

Staff Non-Exempt

Diane L. Good to coordinator, cardiology services at Hershey.
Bonnie J. Meck to vascular radiology technician at Hershey.
Sharon L. McClinton to administrative aide in Education.
Jeffrey R. Novosel to senior drafter, electromechanical in Applied Research Lab.

Clerical

Lisa Armstrong to secretary C in Business Administration.
Ruth A. Brown to clerk B in Penn State Bookstore.
Carol A. Foster to secretary C in Research and Graduate School.
Rebecca Halpeny to secretary B in Science.
Marlene B. Hetrick to secretary B at McKeesport Campus.
Yvonne L. Hiner to secretary B in Commonwealth Educational System.

Catherine M. Houser to business office clerk in C&S-Telecommunications.
Richard S. Houtz to business office clerk in C&S-Telecommunications.
Susan E. Kelleher to secretary B in Agriculture.
Joanne M. Liner to secretary B in Academic Services.
Cathy E. Lutz to secretary A in Science.
Rosemary C. Mollura to accounting clerk at Great Valley.
Grace E. Neff to business office clerk in C&S-Telecommunications.
Kay Partenhimer to secretary B in Commonwealth Educational System.
Cheryl L. Reitz to secretary B in Student Services.
Mary E. Roy to accounting clerk in Engineering.
Tina Schall to secretary B in Academic Services.
Linnea L. Slaybaugh to secretary A in College of Agriculture.
Dianne K. Taylor to secretary A in Research and Graduate School.

Susan L. Taylor to business office clerk in C&S-Telecommunications.
Rita E. Tink to clerk, typist A in Division of Development and University Relations.
Sally B. Toner to senior business office clerk in C&S-Telecommunications.
Phyllis J. Alexander to secretary B in Arts and Architecture.
Janice Archey to kiosk receptionist B in University Safety.
Julie H. Billotte to clerk A in Applied Research Lab.

Technical Service

James R. Lobb to maintenance worker, utility in Physical Plant.
Michael S. McClure to mail clerk/security guard in Applied Research Laboratory.
Mary L. Seprish to residence hall utility worker in Housing and Food Services.
Alice L. Solt to food preparer A in Housing and Food Services.
Thomas Weaver to maintenance worker general B at Wilkes-Barre Campus.

Faculty/Staff Alerts

Courses for faculty and staff

The Human Resource Development Center has openings in the following courses. Call the Center at 865-3410 for registration information.

Proofreaders Designed to reduce errors in proofreading by teaching participants how to proofread through a series of scans rather than reading word for word. Meets from 1:15 to 3:30 p.m. Mondays and Thursdays, Nov. 5 through Nov. 19; cost: \$125.

Supervision Series/Interpersonal Skills-Supervisory Management II Teaches the interpersonal skills of supervision. All sessions emphasize practical application of new skills through role playing; meets every Tuesday and Friday for 11 sessions

beginning Nov. 6; cost: \$35 per session or \$275 for the entire series.

The New Supervisor The three main components of this program are the management of work, the management of others, and the management of self; meets from 1:30 to 4:30 p.m. Tuesday and Friday, beginning Nov. 6; cost: \$95.

Managing Stress Through Assertiveness Focuses on specific assertive techniques to use in reducing your stress level; meets from 9 a.m. to 4 p.m. Wednesdays, Nov. 7; cost: \$55.

Defensive Driving-4 Designed to help you save your time, money, and life by showing you how avoid the needless pain of accidental injury and the needless expense of traffic tickets; meets from 9 a.m. to noon Wednesday, Nov. 14; cost: none.

Healthpass growth continues

As of Sept. 30, 8,665 faculty and staff members enrolled in Healthpass. The University's preferred provider for healthcare coverage. This represents an increase of 617 since last year.

Healthpass was introduced on Nov. 1, 1986, and is available to faculty and staff at University Park, Penn State Harrisburg, The Milton S. Eisenhower Medical Center and the Altoona and Berks campuses. Efforts continue to expand the network to other locations.

Individuals who are not members of Healthpass, but who would like to become members, are reminded that they may make the change as of Jan. 1, 1991. Also, full-time employees who are members of Healthpass and wish to change to the

conventional coverage, Plan A, may do so on the same date. Anyone desiring to make a change must notify the Employee Benefits Division in writing prior to Dec. 31.

Visitor parking fees

Visitor parking fees will increase from \$2 a day to \$3 a day, effective Jan. 1, 1991. Meter fees will increase proportionally from 25 cents an hour to 25 cents for 40 minutes. Half-day visitor parking permits will be \$15.00. Short-term meter fees will stay at 25 cents for 30 minutes. The booklets of 10 visitor parking permits will increase from \$10 to \$15. Faculty/staff booklets of parking permits will remain at \$5 for open lots and \$4 for part-time lots.

Promotions

Staff Exempt

Michael J. Beam to associate research engineer in Applied Research Laboratory.
Gregory L. Fredericks to system program coordinator in Applied Research Lab.
Donna M. Lahay to nurse specialist at Hershey.
Robert H. Malte to director, inpatient services at Hershey.
Beth Mark to supervisor, surgery research animal lab at Hershey.
Philip N. Mowrey to research support associate at Hershey.
Jill M. Paige to microcomputer systems consultant in Center for Academic Computing.

Staff Non-Exempt

Susan M. Achenbach to vascular radiology technician at Hershey.
Karen J. Mays to coordinator, residency program at Hershey.
Sharon L. Menzies to research technician at Hershey.
Tina M. Rutherford to research technician at Hershey.
Robert A. Sattazahn to staff nurse, radiology at Hershey.
Kathleen J. Smith to research technician at Hershey.
Brian S. Snyder to research technician at Hershey.
Linda A. Stine to research technician at Hershey.

Hershey.
Michele B. Wetzel to administrative head nurse at Hershey.

Sally M. Walters to clerk, periodicals check-in, University Libraries.

Technical Service

John T. Enigh to maintenance worker, utility in Office of Physical Plant.
Leon P. Fetterolf to electronics laboratory technician in Engineering.
Linda D. Hyde to utility worker at Hershey.
Maria Keeskes to environmental health worker, group leader at Hershey.
Craig S. Kreider to farm machinery and facility mechanic A in Agriculture.
Jeffrey R. Pernesky to maintenance worker, general A at DuBois.
Kevin M. Slippey to carpenter A in Office of Physical Plant.
Joe W. Zimmerman to lead painter in Office of Physical Plant.

Focus on the arts

Continued from page 6.

the original lighting designs of Tharon Musser, scenic designs of Tony Straies and costume designs of Joseph G. Aulisi.

Tickets are available through the Eisenhower Auditorium Ticket Center, open 8:30 a.m. to 4:30 p.m., Monday through Saturday.

Russian literature

Caryl Emerson of Princeton University, a leading expert on Russian literary theory and literature, will deliver two lectures at University Park on Monday, Oct. 29.

She will speak on "Bakhtin: Major Concepts, Major Controversies," focusing on the works of the leading Russian literary theoretician Mikhail Bakhtin, at 12:20 p.m. in 101 Kern Building during the Comparative Literature Luncheon. She also will lecture on "Bakhtin on Novels, Selves and Others" at 8 p.m. in 101 Kern.

Her visit is co-sponsored by the Slavic, English and Comparative Literature departments.

The arts on Channel 3

Tom Foral, assistant professor of theater arts, gives a chilling performance as a psychopath with an unpleasant telephone manner in an encore presentation of *Eveing Inquires*, a 60-minute Penn State Drama Group production airing at 10 p.m. Monday, Oct. 29.

The teleplay, which also features Peg French, a faculty member in the Theatre Arts Department, was co-produced and co-directed by Bob Leonard, associate professor of the theatre arts, and Gary Perdue, senior producer/director at WPX-TV. It was videotaped at various locations around State College.

As the first telecast of its 1990-91 season, *The Metropolitan Opera* will present Franco Zeffirelli's production of Mozart's "Don Giovanni" at 8 p.m. Wednesday, Oct. 31.

James Levine conducts, and the cast includes Carol Vaness as Donna Anna, Karita Mattila as Don Elvira, Samuel Ramey as Don Giovanni, Ferruccio Furlanetto as

Leporello, Philip Cokorinos as Masetto and Kirk Moll as the Commendatore.

'Same Square of Dust'

A play based on the true story of the first trans-Pacific airplane flight will open at 8 p.m. Tuesday, Oct. 30, at the Palmer Museum of Art at University Park.

"Same Square of Dust" by Australian playwright Mary Gage tells the story of the friendship between Australian pilots Charles Kingsford Smith and Keith Anderson. Mr. Kingsford Smith made the first trans-Pacific flight in 1939, one year after Charles Lindbergh crossed the Atlantic.

Performances are scheduled nightly at 8 p.m. from Oct. 30 through Nov. 3, with a 2 p.m. matinee on Saturday, Nov. 4. Admission is free, but tickets are required. Tickets are available at the museum store on the first floor of the museum. For more information, call 865-7672.

Percussion Ensemble

The Penn State Percussion Ensemble will perform in concert at 8 p.m. Tuesday, Oct. 30, in the Recital Hall of the Music Building at University Park.

The program spans four decades of percussion music including "Toccata" by Chavez, written in the early 1950s before percussion ensembles gained notoriety. Other works in the program include "Ritmica No. 6" by Roldan, "Creation and Rebirth" by LaRosa, "Life-Off" by Peck, "Extremes" by Mancini and "Waltz from Eugene Onegin" by Tchaikovsky.

The ensemble is under the direction of John Ruck, former percussion instructor at Susquehanna University.

Radio 'Odyssey'

On "A Public Conversation," the next episode of "Odyssey Through Literature," social critic Ivan Illich argues that a radio interview is not a conversation, but an act of prostitution.

Clerical

Katherine Ekingner to secretary B at Capital.
Linda D. Heefner to senior patient unit secretary at Hershey.
Sandra E. Hoover to secretary A in Office of the President.
M. Jane Kinsey to secretary A at Capital.
Claire E. Markham to secretary B in Education.
Monica L. Nachman to secretary B in Office of the President.
Rebecca A. Spear to senior patient unit secretary at Hershey.
Sandra L. Stoner to clerk, data and statistical at Hershey.

"Technically, this is intellectual intercourse of two people locked into this lonely studio with a glass window separating us from the listeners, and a machine which looks through the keyhole seeing how they do it," he says.

He will be interviewed by host Leonard Rubinstein.

"Odyssey Through Literature" is produced by the Department of Comparative Literature and airs Wednesdays at 12:30 p.m. on WPSU, 91.1 FM.

'Koyaanisqatsi'

Philip Glass and his ensemble will perform his award-winning soundtrack for the film "Koyaanisqatsi," which will be shown on a giant screen overhead during the performance, at 8 p.m. Wednesday, Oct. 31, in Eisenhower Auditorium.

Presented by the Center for the Performing Arts, the multimedia event includes Mr. Glass' original music. The film, which has no plot, characters or dialogue, is named for the Hopi Indian word meaning "life out of balance."

Burt Fenner, professor of music, will discuss Mr. Glass' work at 7 p.m. immediately before the concert/film, as part of the free lecture series Artistic Viewpoints.

Tickets are available from the Eisenhower Auditorium Ticket Center, (814) 863-0255.

Multimedia artists

Eric Ross, musician and composer, and his wife Mary, photographic, video and computer artist, will combine their talents to perform a multimedia concert at 8 p.m. Thursday, Nov. 1, in the Recital Hall of the Music Building at University Park.

The concert, sponsored by the schools of Music and Visual Arts, will present original works that combine electronic and acoustical music with video synthesis.

The concert, which is free to the public, is supported by "Meet the Composer," a national composer service organization.

Chamber Singers

The Penn State Chamber Singers will perform in concert at 12:10 p.m. Thursday, Nov. 1, in Eisenhower Chapel at University Park.

The 20-minute concert is part of the Bach's Lunch Concert series, sponsored by the School of Music and the University Lutheran Parish.

The group is directed by D. Douglas Miller of the School of Music faculty and includes 16 singers selected from within the Concert Choir.

One-man show

Richard Cordery, an internationally known Shakespearean actor, will perform an original one-man tribute to the legendary dramatist at 7:30 p.m. Thursday, Nov. 1, in Kern Auditorium at University Park.

Titled "Can such Things Be Without our Special Wonder," the show takes the audience on a journey through Shakespeare's life, beginning with his birth in plague-ridden Stratford to his death after a heavy drinking session with fellow dramatist and rival Ben Jonson. Mr. Cordery, who spent a year studying at Penn State in 1970, will be on campus for a week-long residency. The performance is free to the public. The performance and residency are sponsored by the Institute for the Arts and Humanistic Studies and the departments of English, Theatre Arts and Integrative Arts.

Wynton Marsalis

Eight-time Grammy winner Wynton Marsalis will perform in concert at 8 p.m. Friday, Nov. 2, in Eisenhower Auditorium at University Park. The event is presented by the Center for the Performing Arts.

The jazz trumpeter's performance will include many selections from his albums. Also on stage will be his six-piece band with grand piano, drums, trombone, bass, alto and tenor saxophones.

Tickets are available at the Eisenhower Auditorium Ticket Center, (814) 863-0255.

Students to earn academic credits for community work

A new program that allows students to earn academic credit for performing community service will begin in the College of Health and Human Development.

Called **SERVE** for Students Enrolled in Relevant Volunteer Education, the program allows students to integrate community service into an existing course for one additional credit.

It is one of several community service programs being implemented at Pennsylvania colleges and universities.

Gannon University, Lafayette College and Wilson College also are beginning programs this year, all with grants from the Pennsylvania Campus Compact of the Pennsylvania Association of Colleges and Universities.

"Students in our college have had many opportunities for volunteerism in the past, but now they can earn credit for it," according to Anne C. Petersen, dean of the College of Health and Human Development.

"We think that this program will add

relevance and responsibility to education. It can be a way to stimulate student interest in volunteering and to develop a pattern of civic pride and values that we hope will continue throughout life."

The **SERVE** option currently is available in six courses offered by the college: two in human development and family studies, and one each in health education, exercise and sport science, nutrition and leisure studies.

Staff Vacancies

The following vacancies for positions classified as staff exempt or staff nonexempt have been listed with the University Employment Division for filling. The brief statements for each vacancy are illustrative. They are not complete position descriptions. **APPLY BY CALLING THE EMPLOYMENT DIVISION, 865-0304.** Applications for

these staff vacancies will be accepted until **Nov. 1. DO NOT CONTACT THE AREA THAT HAS THE VACANCY.** Applications for staff vacancies are considered in accordance with Fair Employment practices (PS-1) and in compliance with the University's Affirmative Action Compliance Program without regard to race, color, religion,

national origin, handicap or age (as provided by law) sex, or status as a disabled or Vietnam era veteran.

***01067, Technical Illustrator, Applied Research Laboratory, ARL Administration, University Park Campus** - Responsible to the manager Communications Support Services, for conceiving, designing and illustrating various artwork and charts for use in technical publications, reports, brochures and presentations. Requires bachelor's degree or equivalent, in art, engineering, graphics or related field, plus one to two years of effective experience, including working knowledge of computer illustration and graphics. U.S. citizenship required. **STAFF GRADE 5**

***01068, Assistant to the Assistance Vice President, Customer Service, Office of Physical Plant, Assistant Vice President for Physical Plant, University Park Campus** - Responsible to the assistant vice president for the customer service liaison between OPP and other segments of the University. Requires bachelor's degree or equivalent, in business statistics liberal arts, communications or related field plus one to two years of effective experience. Excellent written and oral communication skills are necessary. The ability to apply statistical and quantitative analytical techniques preferred. **STAFF GRADE 6**

***01069, Medical Assistant, Women's Health Department, Student Services, University Health Services, University Park Campus** - Responsible to the physician-in-charge for providing clinical and nursing support services in the Women's Health Department. Requires high school graduate or equivalent with

completion of certification as medical nursing assistant, plus three to six months of effective experience. Experience in medical setting desired. **THIS IS A NINE MONTH, FIXED TERM APPOINTMENT FUNDED THROUGH JUNE 30 1991. WITH VERY GOOD POSSIBILITY OF RE-FUNDING. STAFF GRADE 2.**

***01070, Conference Services Assistant, Nittany Lion Inn, University Park Campus** - Responsible for scheduling conventions and conferences, maintaining liaison with various departments concerning existing and potential business, assisting in developing and maintaining departmental budget, and supervising assigned employees in the sales and catering department. Requires associate degree, or equivalent, plus three to 12 months of effective experience, preferably in hotel sales and catering. **STAFF GRADE 4**

***01071, Coordinator, Graduate Admissions, Administrative Operations, Penn State Harrisburg** - Responsible to the associate provost for administrative operations for the graduate admissions process. Manage graduate admissions functions: counsel and interview prospective students, develop and implement recruitment strategies. Requires master's degree, or equivalent, in counseling, psychology or closely related field, plus two years of effective experience in higher education. Supervisory experience and experience with office automation preferred. **STAFF GRADE 7.**

***01072, Technical Writer/Editor, Applied Research Laboratory, ARL Administration, University Park**

Campus - Responsible to the manager, Communications Support Services, for writing, editing and coordinating the preparation of administrative and technical reports and publications for external and internal distribution. Requires bachelor's degree, or equivalent, in physical sciences, engineering or related fields with courses in scientific/technical writing, plus one to two years of effective experience. Familiarity with computers and their use in word processing and document production... preferred. U.S. citizenship required. **STAFF GRADE 6.**

Hershey

For the following position vacancies apply directly to The Milton S. Hershey Medical Center. Attach resume with cover letter indicating the position, vacancy code and forward to the Department of Human Resources, Hershey, or call the Hershey bid line at (717) 531-8531 by Nov. 1.

***17104, Operations Center Coordinator, Department of Physical Plant, Hershey** - Responsible to the assistant director of physical plant, utilities and energy, for monitoring adjustment and change functions for the automatic temperature control systems; serve as department representative at night. Requirements include a high school education plus training in air conditioning, heating and ventilation equipment, and pneumatic and electronic temperature controls. No less than two to three years effective experience, preferably in a supervisory capacity. **STAFF GRADE 5**

In addition, there are a number of positions that, because of the frequency with which they become vacant, are still available after employees in the work unit have been considered. Some such positions are available on a fairly regular basis. They are not announced each time they are open. Instead, they are announced periodically to a pool of interested candidates can be developed. Applications for such positions may be made at any time, and you are welcome to make your interest known to the Employment Division for further consideration when such vacancies occur. These positions are:

Position title	Location
01014 Assistant Research Engineer	ARL
01015 Associate Research Engineer	ARL
01016 Research Engineer	ARL
01017 Senior Research Engineer	ARL
Cardiology Technician	Hershey
Clinical Laboratory Assistant	Hershey
Clinical Laboratory Technologist (HEW)	Hershey
Clinical Nursing Specialist	Hershey
Cyto Technologist	Hershey
Hemodialysis Technician	Hershey
Licensed Practical Nurse	Hershey
Medical Technologist	Hershey
Nuclear Medicine Technologist	Hershey
Ophthalmic Technologist	Hershey
Perfusionist	Hershey
Pharmacist	Hershey

Expert in travel scheduled to visit as an Alumni Fellow

Sandra S. Hillman, an international expert in travel and tourism, will visit University Park Nov. 7-9 as an Alumni Fellow of the College of Health and Human Development.

The Alumni Fellows program, sponsored by the Penn State Alumni Association and academic colleges, is designed to promote links between prominent Penn State graduates and the University's students, faculty, and administrators.

Ms. Hillman, who received a bachelor's degree in arts and letters from the College of the Liberal Arts in 1962, was director of promotion and tourism for the city of Baltimore from 1979-84. During that time, she played a major role in the revitalization of Baltimore's Inner Harbor.

She now is executive vice president of Trahan, Burden and Charles, a Baltimore-based advertising, public relations, and marketing firm. She oversees urban-related, consumer-related, and hospitality industry clients, political candidates, and non-profit organizations.

Ms. Hillman has served as a consultant to a number of cities, including Miami, New York, Pittsburgh, San Diego, and Edinburgh, Scotland; and the Caribbean island of Curacao.

Among the boards and committees on which she serves are the Baltimore Symphony Orchestra, the Baltimore Center for the Performing Arts, and the Baltimore and Ohio Railroad Museum.

Sandra S. Hillman

Minority enrollment at all-time high University's fall enrollment sets record

Enrollment at Penn State for fall 1990 has risen to a record 70,978, with minority enrollments increasing to an all-time high of 4,977.

Contrary to trends found in many parts of the nation, Penn State again this year experienced a growth in student enrollment -- 947 students more than last year.

University Park observed the single largest growth, with 38,364 students this fall -- up by 843 from fall 1989.

"Penn State remains an attractive choice for students in Pennsylvania and around the nation," President Thomas said.

"The growth in students that has been observed during the 1980s and that is continuing into the 1990s is a reflection of the quality educational experience we are able to offer our students," he said.

Despite the University's concerted efforts to recruit and retain more minority students, however, the total number of African American students at Penn State decreased this year. This is the second such decrease in the past eight years.

"The University continues to be concerned about enrollment figures for African Americans," Dr. Thomas said. "We know the high school graduation rates for African Americans, as well as white students, have been on the decline, but we still think we should be able to overcome that declining pool in the African-American community."

Part of the decline in overall African American enrollment is due to a record number receiving degrees at Penn State last year. There were 408 African American graduates at Penn State for 1989-90, compared to 340 in 1988-89 and 256 in 1987-88.

That marks the fifth year in a row that the number of African American graduates at Penn State has increased. Overall, the number of African American students

Please see "Enrollment" on page 3.

Reservations still being accepted for Renaissance dinner

Reservations can still be made for the 14th annual Renaissance Scholarship Fund dinner to be held Nov. 7 at the Elks Country Club in Boalsburg.

This year's dinner honors University Board of Trustees vice president and community leader Marian "Mimi" Coppersmith Friedman of State College. Proceeds benefit financially needy

students who show academic promise.

A reception will begin at 6 p.m. and dinner is at 7 p.m. Speakers will include President Thomas and Renaissance Board President Barbara Palmer. For reservations or more information, call the Office of Annual Giving at 863-2052, or stop by the office at 17 Old Main.

Focus on Diversity

Grant will support minority undergraduate scholars

The National Science Foundation has awarded a five-year, \$444,000 grant to the College of Engineering to establish the Center for Undergraduate Research Opportunities for Minority Engineering Students (CURO).

CURO, which encompasses more than 25 Penn State engineering research centers and laboratories, will support 120 minority engineering and science undergraduate research scholars over a five year period. The director of the new center is Daniel Davis, associate professor of engineering science and mechanics and director of the Minority Engineering Program in the College of Engineering. Dr. Davis is an expert in materials engineering, specializing in creep and fatigue of metals, with extensive experience in industry.

CURO, housed in the Minority Engineering Program, initially will recruit 20 outstanding minority engineering and science students to work with engineering faculty in participating research centers and

laboratories.

A primary goal of CURO is to keep talented minority students in engineering and science by bringing them into the mainstream of college life through participation in research teams, according to Dr. Davis.

"The quality of faculty/student interactions can have a great impact on student retention and performance. Unfortunately minority students are less likely to interact with faculty than their majority student counterparts. CURO provides a framework for more and new interactions," he said.

"Through research, students develop independence, self-esteem and an interest in graduate education. CURO will be an important component of our recruitment and retention efforts."

The undergraduate research appointments will be available to Penn State students as well as students at selected universities and colleges. Participating

institutions are the Lincoln University of Philadelphia, Harrisburg Area Community College, the Community College of Philadelphia and the Howard University School of Engineering.

Students must have a 3.0 grade-point average and must be U.S. citizens to qualify for the research appointments. All undergraduate research scholars will take a course in research methodology as well as write a report on their research activity. The reports will be included in the CURO annual report to NSF.

After 1995, CURO will continue to support undergraduate research experience opportunities for at least 30 minority students each year. Continued funding will be obtained through corporate contributions, college and university contributions plus research contracts.

Individuals or research units interested in more information about CURO should contact Dan Davis, 101 Hammond Building, 863-4944.

Daniel Davis

Sexual assault awareness week

The Center for Women Students will present a week of lectures and activities in recognition of Sexual Assault Awareness and Prevention Week, Nov. 5-11.

"Since education is the key to prevention, we have planned activities that present a variety of perspectives on the issue," Patricia Johnstone, assistant director of the center, said.

Robin Morgan, feminist scholar, political activist and editor of the *N.Y. Ms. Magazine*, will discuss violence against women at 8 p.m. Monday, Nov. 5, in the HUB Ballroom.

Other include:
— Tuesday, Nov. 6, at 7 p.m. in the HUB Fishbowl: A discussion on the relationship between black men and black women in the community, led by Larry Young, director of the Paul Robeson Cultural Center, and Cynthia Merrinweather-DeVries, graduate student.

— Wednesday, Nov. 7, at noon in the Center for Women Students Dining in 120 Boucke: A discussion on the "After-Effects

of Rape: Post Traumatic Stress Disorder," will be led by Alycia Chambers, clinical psychologist at the Stress and Anxiety Institute in the Department of Psychology.
— Thursday, Nov. 8, from 2:30 to 4:30 p.m. in 120 Boucke: An assertiveness workshop focusing on learning to communicate one's needs in and out of personal relationships will be led by Joyce Illfelder-Kaye, a clinical psychologist at the Center for Counseling and Psychological Services.

At 7:30 p.m. in the HUB Assembly Room, a mock trial will explore attitudes toward acquaintance rape.

— Sunday, Nov. 11 from 2 to 4 p.m. in 126 White Building: A self-defense workshop for women will be presented.

Sexual Assault Awareness and Prevention Week concludes with a candlelight vigil on the steps of Old Main Nov. 11 at 7:30 p.m. For more information about Sexual Assault Awareness and Prevention Week, contact the Center for Women Students at 863-2027.

Diversity Calendar

Thursday, Nov. 1

Women's Studies, 7 p.m., Eisenhower Auditorium. Geraldine Ferraro, former vice presidential candidate, on "Opportunities for Women in the '90s: Women as Leaders in our Society."

Roman Catholic observance of All Saints Day.

Monday, Nov. 5

Women's Studies, 8 p.m., HUB Ballroom. Robin Morgan, feminist scholar and political activist, to speak at part of Sexual Assault Awareness and Prevention Week.

Wednesday, Nov. 7

Groove Phi Groove/Paul Robeson Cultural Center, 7 p.m., Robeson Center. Film: "Cornbread, Earl and Me."

Project Growth, 7:30 p.m., HUB Assembly Room. Presentation: "Let's Talk: The Asian Student...Facts and Myths." Center for Women Students, 8 p.m., HUB Gallery. Joanna Frueh, University of Nevada-Reno, to speak about gender and representation.

Advising conference scheduled Nov. 7-9

Advising in context is the theme of the fall advising conference sponsored by the Division of Undergraduate Studies (DUS) from noon Wednesday, Nov. 7, to noon Friday, Nov. 9, at the Atherton Hilton in State College. University faculty and staff are invited to attend.

Two sessions on Thursday, Nov. 8, will be of special interest to the University community: the DUS Advising Forum with Joseph DiGregorio, associate dean for Commonweath and continuing education and international programs, College of Engineering, and Manfred Keune, associate professor of German, will be held from 8:30 to 10 a.m.

Faculty Perspectives on Advising will be provided by Donna Kuga, instructor in exercise and sport science at the Penn State Beaver Campus, Charles P. Thornton, professor of geosciences, and William C. Uricchio, associate professor of film and video, from 10:30 a.m. to noon.

Faculty/Staff Alerts

Software Defined Network

The University has implemented an AT&T Software Defined Network (SDN) which is able to optimize the high capacity, long distance telecommunications resources of public-accessed carrier networks and a variety of switched and private-line facilities to provide functions that are traditionally associated with private network.

Enhancements in SDN allow calls to be established at a faster rate. An advantage

that University callers will see includes fewer busy tones when calling other Penn State locations.

Penn State users will see little or no difference in the dialing patterns for long distance calls. Several University locations have been using the standard 10-digit pattern (three-digit area code plus the seven-digit telephone number) for placing long distance calls. The SDN change provides more locations with this standard dialing pattern.

The 10-digit dialing pattern will be used to place calls between all Penn State locations **except** when placing calls to Delaware, Mont Alto, and Ogonitz. To call these three campuses, users should consult their specific campus dialing instructions. University Park users will continue to dial the access number "8" plus the existing seven-digit telephone numbers to call these three locations.

Prescription drug plan

Faculty, staff and retirees who have prescriptions filled at the Ritner Health Center pharmacy under the Maintenance Prescription Drug Plan (MPDP) are reminded that the pharmacy will be closed

for several days over the Thanksgiving and Christmas holidays.

The pharmacy will not be open from Thursday, Nov. 22, through Sunday, Nov. 25, and from Saturday, Dec. 22, through Tuesday, Jan. 1.

Individuals who need prescriptions filled in November and December are urged to request the service in advance of these dates, as prompt service cannot be guaranteed at the last minute.

MPDP users also are reminded that interface and U.S. Mail services may be used when ordering prescription drugs. Prescription refills may be ordered by calling the pharmacy (865-9321).

Enrollment

Continued from page 1.

enrollment Penn State has increased 42 percent since 1982.

At the Commonwealth Campuses, some locations experienced a decline in students this year, but a number of those reductions were planned because of over-crowded conditions. Other campuses recorded enrollment increases.

Enrollment increases at Penn State consisted primarily of continuing students. Total University first-time freshmen actually decreased by 308 and first-time degree graduates decreased by 119 students.

An area that observed significant growth was in the College of Medicine at Hershey, where an additional 32 medical students helped to boost enrollments in the College by 9.2 percent.

Minority student enrollments observed an overall increase of 0.4 percent over fall 1989 figures.

A breakdown by specific categories reveals:

-- American Indian: 100 students, or 0.1

percent of the total, compared to 109 in 1989.

-- Asian/Pacific Islander: 1,770 students in 1990, or 2.5 percent of the total, compared to 1,584 in 1989.

-- Black, Non-Hispanic: 2,248 students in 1990, or 3.2 percent of the total, compared to 2,424 in 1989.

-- Hispanic: 859 students in 1990, or 1.2 percent of the total, compared with 840 in 1989.

Among the campuses that observed strongest growth this year are Berks, with 176 additional students; Penn State Erie, The Behrend College, with 149 additional students; Penn State Harrisburg with 140 additional students; DuBois with 109 additional students; and Wilkes-Barre with 69 more students than last year.

Other locations, such as Altoona, observed a planned decrease in student population.

For the first time in recent years, the proportion of total University non-Pennsylvanian students decreased slightly, from 12.2 percent to 12.1 percent for undergraduates and from 33.9 percent to 32.7 percent for graduate and medical students.

Senate will review proposed amendment

President Thomas has referred his proposed amendment to the University's non-discrimination statement to the University Faculty Senate for review and comment.

"The leadership of the Faculty Senate communicated to me that members of the Senate consider my proposal an appropriate matter for Faculty Senate consultation," Dr. Thomas said. "Because this is a matter that impacts the faculty, I respect their wish for consultation and, therefore, will not bring the amendment to the Board of Trustees in November."

November."

"My principal goal is to protect all members of the University community against invidious discrimination, including members of the Penn State lesbian and gay community as well as members of other underrepresented groups," the President said. "My hope is to establish this protection in a manner that should attract the support of the entire community and will not result in further divisiveness at Penn State."

Management Development's anniversary

Penn State's Management Development Programs and Services, which helps business, industry and public agencies throughout the state improve their efficiency and productivity, is celebrating its 75th anniversary.

Created by the University's Board of Trustees in 1915, the continuing education office has been providing programs to help organizations increase efficiency, reduce costs and improve management.

"We tailor educational programs to meet an organization's specific needs in areas such as communications, time management, employee motivation, problem solving, leadership, statistical process control, team building, employee involvement and others," Sam DeWald, director of the service, said.

The programs are provided at any location a company chooses, on a plant site or in a community or campus location.

The unit has 17 faculty members at 15 Penn State campuses, all of whom have both management experience and academic qualifications.

In its 75 years of operation, Management Development Programs and Services has served more than 5,000 organizations throughout the state, including some of the largest such as IBM, Bell Atlantic, Borg-Warner, DuPont, General Electric, Koppers, RCA, Rockwell and Westinghouse, to help

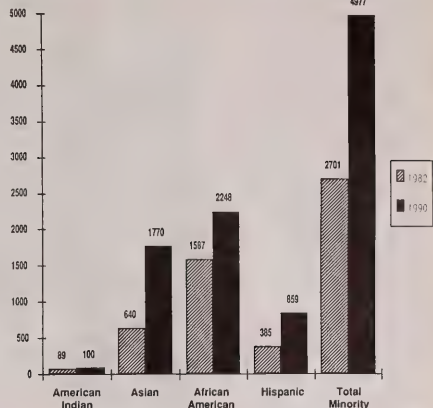

Sam DeWald

boost the Pennsylvania economy.

Other clients include healthcare and social service organizations, financial institutions, government, utilities, retail and service firms, newspapers, public schools, universities and insurance companies.

In the average year, the Penn State service designs and implements more than 160 original management programs for client organizations to help them meet the changing times.

Minority Enrollments 1982 vs. 1990

Bookshelf

Parris H. Chang, professor of political science and director of the Center for East Asian Studies, has written the third edition of *Power and Policy in China* (Dubuque, Iowa: Kendall Hunt Publishing).

The book analyzes recent political developments in China, including the June 4, 1989, massacre of demonstrators in Tiananmen Square by the "People's Liberation Army."

Dr. Chang concludes that "in the wake of Tiananmen, the Chinese Communist Party leadership has put primary emphasis on political stability; at the present and for the foreseeable future, political reform will not be a priority."

Emilia E. Martinez-Brawley, professor of social work, is the author of *Perspectives on the Small Community: Humanistic Views for Practitioners*, published by NASW Press, Washington, D.C.

Incorporating a unique combination of social science text and excerpts from a variety of literary and journalistic works, *Perspectives on the Small Community* is intended to help human service students and beginning practitioners come closer to the small community and experience it as those who live in it do.

The book is divided in three parts. The first part covers Community Theory for Practitioners. The second examines the Community in Fiction and the Press, while the third part looks at Future Directions for the Field.

Faculty Senate News

The University Faculty Senate will meet at 1:30 p.m. Tuesday, Nov. 6, in Room 112 Kern Graduate Building at University Park.

Items to be discussed at the Nov. 6 meeting:

- Summary of Reserved Spaces Data at University Park
- Summary of Penn State's Continuing Education Activities
- Annual Report on Extended Degrees
- Proposed Changes in Travel Service Policies
- Annual Report of the President's Planning and Budget Advisory Committee

Committee

- Summary of the Work of the Presidential Search and Screen Committee
- Comments Concerning Work of the Trustees' Selection Committee

Items discussed at the Oct. 9 meeting:

- Status of Construction Projects
- Report on the Implementation of the Cultural Diversity Requirement
- Faculty Salaries--Penn State vs. Similar Institutions
- Undergraduate Education Update: 1990
- Faculty Rights and Responsibilities Annual Report

Focus on the arts

'Same Square of Dust'

"Same Square of Dust," a play by Mary Gage, is being performed in the Palmer Museum of Art at University Park at 8 tonight through Nov. 3 and at 2 p.m. Nov. 4.

The play tells the true story of Charles Kingsford Smith, an Australian who became a national hero for being the first man to fly the Pacific Ocean, and his partner, Keith Anderson.

"Same Square of Dust" is being produced in conjunction with the "Machines of Leonardo DaVinci" exhibition on view through Nov. 4. The performance is free, but tickets are required and may be picked up at the museum store Tuesday through Sunday from 10 a.m. to 4:30 p.m.

The arts on Channel 3

George Balanchine's long love affair with America is recalled in two of his most enduring works on *Great Performances* "Balanchine in America" airing at 10 tonight on WPSX-TV.

Danced to Tschakovsky's Serenade in C Major, "Serenade" is the first work the choreographer created in America (1934). "Western Symphony," his "cowboy ballet" is set to Hershey Kay's arrangements of popular songs of the American west.

"Hamlet" is generally considered to be the ultimate test of a classical actor. One of America's most popular movie stars is also one of our greatest classical actors: Kevin Kline takes on the role of the Prince of Denmark in Shakespeare's great tragedy of revenge on *Great Performances* airing at 9 p.m. Friday, Nov. 2.

Lincoln Center's television series *Live from Lincoln Center* will present New York City Opera's new production of Stephen Sondheim's musical "A Little Night Music" at 8 p.m. Wednesday, Nov. 7.

Pattee exhibits

The Lending Services Gallery of Pattee Library currently is hosting a show of collagraph prints titled "Spacial Allusions" by Jody Balderson, through Nov. 16.

Ms. Balderson is a Penn State student

concentrating in printmaking. The show is all collagraphs—a form of intaglio process developed in the 1950s. Unlike engraving and etching that use a subtractive method, collagraphs add, like a collage, to the plate.

The West Lobby Gallery has an exhibit of antique watercolor, through Nov. 9.

The artist, Annie Gooding Sykes, was born in Brookline, Mass., in 1855. She was a student at the Boston Museum School and moved to Cincinnati, Ohio, in 1882 after her marriage to G.S. Sykes. She died in Cincinnati in 1931.

On display outside the Penn State Room is the "National Space College Program Exhibit," featuring artifacts and objects from NASA research projects conducted by faculty members and students throughout the University.

On display in the Penn State Room is the "Penn State Landmark Exhibit."

Dutch painting

Roland Fleischer, professor of art history, will give the lecture "Dutch Painting in the Age of Rembrandt" at 8 p.m. Wednesday, Nov. 7, in the Palmer Museum of Art at University Park.

Dr. Fleischer will discuss the realistic style of 17th century Dutch artists and the Italian influence in their art.

Roland Fleischer

Concert Choir

The Penn State Concert Choir and Chamber Singers will present their annual fall concert at 8 p.m. Saturday, Nov. 3, in the Recital Hall of the Music Building at University Park.

The choir's program will include a wide range of works from the Renaissance to the 20th century. In addition, the choir will perform a group of Afro-American spirituals arranged by William Dawson, who died last May.

The Chamber Singers, made up of 16 selected members of the choir, will perform separately a number of works, including Renaissance selections and English madrigals.

The 72-member choir is directed by D. Douglas Miller of the School of Music. He is assisted by Alex Hill, assistant conductor, and William Tilgham, accompanist.

The concert is free to the public.

Percussion ensemble

The University of Oklahoma Percussion Ensemble will perform in concert at 8:15 p.m. Monday, Nov. 5, in the Recital Hall of the Music Building at University Park.

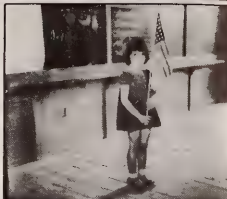

The program will include four works commissioned by the ensemble, including *Dipych No. 2* by Gordon Stout, "Chameleon Music" by Dan Welcher, "Diabolic Variations" by Raymond Heible and "Phantom Dances" by Michael Hennagin.

Odyssey on WPSU

The literary establishment is unwilling to give horror writer Stephen King the respect that he deserves, argues Jim Smith on the next episode of "Odyssey Through Literature," and greets Dr. Smith's scholarly analyses of Mr. King with "contemptuous derision or downright academic snobbery."

Talking with guest host Tom Beebe, Dr. Smith, associate professor of English and American studies at the Penn State Osgood Campus, defends his right to teach and study Mr. King's works as literature.

"Odyssey Through Literature" is produced by the Department of

This 1946 photo of a Puerto Rican child with a U.S. flag is part of the "Contrasts: 40 years of Change in Puerto Rico" exhibit opening Nov. 3 at the HUB Formal Gallery.

Comparative Literature and airs Wednesday at 12:30 p.m. on WPSU, 91.1 FM.

Slovak dance suite

The Penn State International Dance Ensemble will acquire an original Slovak dance suite for its repertoire when two members of Zelenzár, a folklore ensemble from Kosice in the Czech and Slovak Federative Republic, visit University Park in November.

Elizabeth Hanley, founder and director of the 13-year-old Penn State ensemble, will host Rastislav "Rocky" Ondec and Milan Benko from Nov. 7 to 14. An all-day workshop will be held on Saturday, Nov. 10, in Room 133 White Building.

Anyone desiring to meet the visiting dancers, or to observe the teaching and choreography of the Zemplin suite (in Slovak), is invited to contact Professor Hanley at 863-3467.

Dramatic reading

Joanna Frueth, assistant professor of art at the University of Nevada-Reno, will present "Mouth Piece" at 8 p.m. Wednesday, Nov. 7, in the HUB Gallery at University Park.

In a dramatic reading, Professor Frueth explores the significance of using one's voice for personal and social empowerment. She has written extensively on contemporary art and has taught at Oberlin College, the University of Arizona and Rochester Institute of Technology.

The lecture is sponsored by the Women's Studies Program and co-sponsored by the School of Communications, the Institute for the Arts and Humanistic Studies and the Center for Women Studies. For more information call 863-4025.

Emigre Voices

Nobel prize winner in literature Czeslaw Milosz will give a reading at 8 p.m. Wednesday, Nov. 7, in 101 Kern Graduate Center at University Park as part of the English Department's Emigre Voices lecture series.

Professor Milosz, a professor of Slavic Please see "Arts" on page 7.

The arts at...

Hazleton Campus

The Nittany Trombone Brass Quartet will perform in a program of classical and contemporary music in the Penn State Hazleton Highcamps Commons at 7:30 p.m. Wednesday, Nov. 7.

The quartet performs music of all styles, including standard quartet literature, choral and orchestral transcriptions, and jazz.

Altoona Campus

An exciting, contemporary version of *Anigone*, one of the world's great tales of courage, will be performed by the Penn

State Altoona Campus Theatre Department during the next two weeks. *Anigone* is the story of a young woman who risks her life when she defies the will of Creon, her uncle and the dictator of Thebes.

The adaptation from the play by Jean Anouilh opens at 8 p.m. Nov. 9 in the Paul R. and Margery Wolf Kuhn Theatre in the Community Arts Center. The play runs through Nov. 16, with performances on Nov. 9, 10, 14, 15, and 16 at 8 p.m. There also will be a 2 p.m. matinee on Sunday, Nov. 11. The public is invited and general admission tickets are \$3.

An exhibition of students' art work

opens Tuesday, Nov. 6, in the Sheets and McLanahan Galleries in the Community Arts Center.

The student work displayed comes from two art courses taught at the campus this fall: Roger Zellner's Art Education 3 class and Art 220, a figure drawing class taught by Michael Lucas. The student exhibit will be on display through Nov. 21.

Penn State-Behrend

Penn State Erie, The Behrend College's Concert Choir will present the "Lord Nelson Mass" at 8 p.m. Tuesday, Nov. 20 in Reed Hall.

University Park Calendar

November 1--
November 11

Special Events

Thursday, November 1

Women's Studies, 7 p.m., Eisenhower Aud.
Geraldine Ferraro on "Opportunities for Women in the '90s: Women as Leaders in our Society."
School of Music, 8 p.m., Recital Hall. Eric and Mary Ross.

Friday, November 2

*Geog. Coffee Hour, 4 p.m., 319 Walker. Craig Humphrey on "Saving the Planet: What in the World is Happening?"
Shaver's Creek, Owl Prowl, 7-9 p.m. Call 863-2000.
Center for the Performing Arts, 8 p.m., Eisenhower Aud. Wynton Marsalis.

Saturday, November 3

Shaver's Creek, Cellar Holes and Stone Walls, 1-4 p.m. Call 863-2000.

Sunday, November 4

Carnegie Hall Film Series, 7 p.m., *Lady From Shanghai* (1948); 8-45 p.m., *Agua, The Wrath of God* (1972); 203 Willard. Free.

Monday, November 5

*Comp. Lit. Luncheon, 12:15 p.m., 101 Kern. Robert Louy on "Noises, Bearded Women and Shakespeare's Legs: Reading, Comedy and Bodies in Dickens' *Martin Chuzzlewit*."
Bloodmobile, 1:17 p.m., Simmons.

Women's Studies, 8 p.m., HUB Ballroom. Robin Morgan, feminist scholar/political activist.

Tuesday, November 6

Bloodmobile, 1:17 p.m., Redifer.

Wednesday, November 7

Bloodmobile, 1:17 p.m., Pollock.
*Lecture, 7:30 p.m., HUB Assembly Room. Dr. Ivan M. Havel, Charles Univ., on "Velvet Revolution."

Women's Studies, 3 p.m., Feminist Scholars Lecture Series, dramatic reading, 8 p.m., HUB Gallery. Joanna Frueh, Univ. of Nevada-Reno: "Mouth Piece."

*Talk, 8 p.m., Palmer Museum of Art. Roland Fleischer on "Dutch Painting in the Age of Rembrandt."

Thursday, November 8

Trustees meet at University Park, through Nov. 9.
Careers in the Arts, 10-11:30 a.m., Palmer Museum of Art. Stephen Porter on "Designing Sculpture on a Computer."
Bloodmobile, 1:17 p.m., Findlay.

Friday, November 9

Geog. Coffee Hour, 4 p.m., 319 Walker. Robert Proctor on "What is the Political Philosophy of Science?"

Center for the Performing Arts, 8 p.m., Eisenhower Aud. The King's Singers.

Saturday, November 10

Shaver's Creek, Paper Making (Grades 2-6), 1-3 p.m. Call 863-2000.

Sunday, November 11

Shaver's Creek, Tracks n' Traces, 2-4 p.m. Call 863-2000.
Center for the Performing Arts, 3 p.m., Eisenhower Aud. "Wright Brothers."
Carnegie Hall Film Series, 7 p.m., *Kiss Me Deadly*

The King's Singers will present a concert at 8 p.m. Nov. 9 in Eisenhower Auditorium.

(1955); 9 p.m., *The Sudden Wealth of the Poor People of Konohchi* (1971).

Public Radio

WPSU-FM 91.1

"All Things Considered," Monday-Friday, 5-6:30 p.m.; Saturday and Sunday, 5-6 p.m.; Morning Edition, Monday-Friday, 6-8 a.m.; Weekend Edition, Saturday and Sunday, 11 a.m.-1 p.m. "Odyssey Through Literature," 12:30 p.m. Wednesdays, with S. Leonard Rubinstein.

Conferences

Continuing Education

Keller Building

Nov. 4-6, Pennsylvania Junior Science and Humanities Symposium. Paul Bell, chair; Jack Sinclair, coordinator.

Annual blood donor challenge scheduled

The Centre Communities Chapter of the American Red Cross, including Penn State faculty, staff, students groups, alumni, and community volunteers, is preparing for the 8th annual Pitt-Penn State Blood Donor Challenge, which runs from Nov. 5 to 21.

Last year, the match between the two universities to collect the most blood generated nearly 10,000 pints of blood for Johnstown Regional Blood Services of the American Red Cross and Central Blood Bank of Pittsburgh. Of that, 1,800 pints came from the University Park Campus and the State College community.

The "Challenge," which takes the Pitt-Penn State rivalry off the gridiron, comes at a critical time of the year and is intended to boost the community's blood supply before the holidays, when blood shortages are often experienced.

The 10-day blood drive results from months of hard work by campus and community sponsors. Their goal is a total collection of 2,000 pints of blood.

Giving blood is a simple, vital way of helping someone else. Donors must be 17 years old, weigh at least 100 pounds, and be in generally good health. The entire blood donation process takes about one hour and should be preceded by a good meal.

Potential donors with questions about donating should call the Centre Communities Chapter of the American Red Cross at 237-3162. Following is the schedule for the free shuttle provided by Fleet Operations and the schedule for the blood drive.

Shuttle schedule: Physical Plant Building, on the hour, 20 minutes past the hour, 40 minutes past the hour, Shields Building, 2, 22, 42; Old Main, 7, 27, 47; Rider Building, 12, 32, 52; Kern Building, 13, 33, 53; Creamery, 15, 35, 55; Business Services Building, 17, 37, 57.

Steve A. Garban, senior vice president for finance and operations, and Penny A. Garban, coordinator, program support activities, Alumni Association, prepare to give blood for the Pitt-Penn State Blood Donor Challenge. (Photo: Greg Grieco)

Blood drive schedule

Thursday	Nov. 20	Red Cross, 121 1/2 E. Beaver	10 a.m.-4 p.m.

News in Brief

New Zealand seminar

The Penn State Australia-New Zealand Studies Center is sponsoring a seminar on "New Zealand and the United States: Small Nation, Large Nation, in Pacific and Global Context" at 3:45 p.m. today in the Eisenhower Chapel Memorial Lounge at University Park.

It will be presented by Denis McLean, a Carnegie Fellow and formerly New Zealand's secretary of the Department of Defense, and Dora Alves, on staff of the institute for national strategies at the National Defense University.

Relationship enhancement

A relationship enhancement weekend seminar will be held from 9 a.m. to 5 p.m. Nov. 3 and 4 in Henderson East Room 101 at University Park.

Relationship enhancing strategies and skills will be taught that enrich relationships and prevent or resolve

conflicts and problems which may stem, for example, from different backgrounds, values, attitudes or the pursuit of dual careers.

Couples and single persons of all ages are welcome. The fee is \$100 per person. Enrollment is limited and reservations may be made by calling Joanne Kemper at (814) 865-1751 as soon as possible.

The seminar is offered by the Individual and Family Consultation Center of the College of Health and Human Development.

Library wing closing

The East Wing of Pattee Library will be closed on Sunday, Nov. 4, until 4 p.m. so that an upgrade may be made to the library's electrical system. Access to the Arts Library, Life Sciences Library, and General Reference-services and collections-will be unavailable during the shutdown.

In addition, LIAS will be down at all locations until 6 p.m. Central and West Pattee will maintain regular hours on that day, noon to midnight.

Research in Conflict and Negotiation
Jon Elster of the Department of Political Science, University of Chicago, and the Institute for Social Research, Oslo, will speak on "Bargaining and Social Norms" at 2:30 p.m. Monday, Nov. 5, in 115 Beam Business Administration Building at University Park.

The seminar is sponsored by the Center for Research in Conflict and Negotiation. For more information, contact Mary Tien, 310 Beam, 865-0197.

Evening workshop

"Researching the Prospective Employer," an evening workshop on gathering information about companies, industries, and career opportunities, will be held from 7 to 9 p.m. Wednesday, Nov. 7, in the West Wing Staff Lounge, W311.

'Velvet Revolution' participant to speak

Ivan M. Havel, a participant in the 1989 "Velvet Revolution" in Czechoslovakia, will discuss the political, social and intellectual roots of the movement at 7:30 p.m. Monday, Nov. 5, in the HUB Assembly Room at University Park.

Dr. Havel, whose brother is Vaclav Havel, the current president of Czechoslovakia, also will discuss some of the problems currently facing the people of Czechoslovakia, now the Czech and Slovak Federal Republics, including the environment, restructuring the economy and understanding the essence of democracy.

Dr. Havel is the current director of the Center for Theoretical Study, an international institution affiliated with Charles University in Prague, where he also teaches mathematics and physics. Before the collapse of the communist regime, he was involved in dissident activities and was harassed and detained by police.

Dr. Havel graduated in 1966 from the Czech Technical University and received his doctorate in computer science from the University of California at Berkeley in 1971.

The lecture is sponsored by the Slavic-Soviet Language and Area Center and co-sponsored by the University Office of International Programs. For more information, call Vernon Aspatarian at 865-0436.

Carpooler

Tammy needs one more person to share a ride from Phillipsburg to University Park. Her work hours are 8 a.m. to 5 p.m. Call 865-7521.

Pattee Library at University Park.

The workshop is sponsored by the Penn State University Libraries Black Studies Room Committee and General Reference Section, the Career Development and Placement Office, Black Caucus, and Black Studies Program.

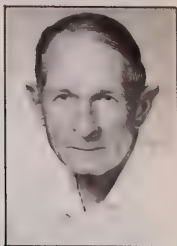

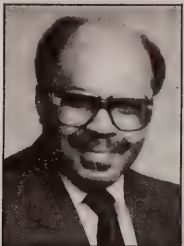

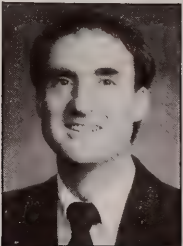

Visiting scholar to speak

Adarsh Sharma, internationally recognized authority on early childhood development, will speak about "The Indian Experience with a Nationwide Early Childhood Intervention Program" at 2:30 p.m. Thursday, Nov. 8, in 124 Sparks Building, University Park.

The talk, part of an International Seminar Series on Social Policy and Social Services, is sponsored by the Social Work Program, Department of Sociology and University Office of International Programs.

Currently, Dr. Sharma is a visiting Fulbright Scholar in the Social Work Program.

25-year award recipients

Observing 25 years of service at the University are, from left, Robert Hosteller, associate professor of mathematics; Roger Sweeting, associate professor of physical education, and Eva Tucker, assistant professor of geoscience, all at Penn State Erie, The Behrend

College; Jane Galas, head health nurse, Emergency, Ritenour Health Center; Miles E. Huffman, dining hall worker A, Housing and Food Services.

Promotions

Clerical

Judy A. Boone to membership recorder in Division of Development and University Relations.

Jacqueline Cowler to clerk, records A in Engineering.

Wicki L. Davis to secretary B at Shenango Campus.

Marion S. Deck to clerk B in Penn State Bookstore.

Cara L. Dugan to senior clerk in Academic Services.

Ladawn Dutrow to secretary B in School of Communications.

Irene T. Elliott to clerk, bookstore A in

Student Services

Yvonne A. Hicak to secretary A at Hershey.

Patricia Ishler to senior accounting clerk in Earth and Mineral Sciences.

Colleen A. Roessler to secretary A in Academic Services.

Debra J. Shelow to senior clerk in University Libraries.

Geraldine L. Slear to technical secretary A in Applied Research Lab.

Carol E. Whitbread to secretary B in Behrend College.

Technical Service

Janet L. Culhane to patient service aide at Hershey.

Robert Gottlieb to maintenance mechanic,

vehicle at Ogonitz Campus.

William C. Hughes to maintenance mechanic, utilities, plumbing and piping in Office of Physical Plant.

Ricky T. Kasubick to maintenance worker, area landscape in Office of Physical Plant.

Edward T. Kern to painter A in Office of Physical Plant.

Rita A. Laughlin to patient care assistant at Hershey.

Gerald R. Lucas to maintenance worker, utility in Office of Physical Plant.

Jeffrey L. Monsell to maintenance worker, asbestos removal in Office of Physical Plant.

Janice M. Rine to patient care assistant at Hershey.

John Saxman to maintenance worker, utility in Office of Physical Plant.

Stephanie A. Shutter to environmental health, group leader at Hershey.

Richard A. Vickroy to incinerator operator, group leader at Hershey.

Robert G. Warden to senior instrument process aid at Hershey.

Mark E. Weikel to laundry operator at Hershey.

James L. Zerke to utility worker at Hershey.

Joseph I. Peters, to truck driver, janitorial in Office of Physical Plant.

Richard A. Rougeux, to truck operator, waste sludge in Office of Physical Plant.

Joseph A. Shafraichik, to farm machinery operator in Agriculture.

Robert E. Shirk, to senior instrument processing aide at Hershey.

Focus on the arts

Continued from page 4.

languages and literature at the University of California at Berkeley, has published six volumes of poetry, an autobiography and two novels, a history of Polish literature and "The Captive Mind," a classic description of intellectual life under Communism.

He will meet students, faculty and the public in a question-and-answer session at 3:30 p.m. Wednesday, Nov. 7, in Room 112 Kern.

The Emigre Voices lecture series includes seven prominent writers from Central and Eastern Europe, who will read from their works and discuss the role of writers in their native countries of Russia, Poland, Czechoslovakia and East Germany both before and after the collapse of Communism.

Computers in sculpture

Stephen Porter, associate professor of art, will discuss the use of computers in the design of sculpture at 10 a.m. Thursday, Nov. 8, in the Palmer Museum of Art at University Park. The lecture is part of the "Careers on Art" series sponsored by the museum.

Singing Lions

The Singing Lions, a show choir that specializes in 20th-century popular music from the United States, will perform in concert at 12:10 p.m. Thursday, Nov. 8, in Eisenhower Chapel at University Park. The 20-minute concert is part of the Bach's lunch concert series, sponsored by the School of Music and the University Lutheran Parish.

The Singing Lions includes 20 singers, four instrumentalists and a technical crew, and is directed by Peter Kiefer, a part-time instructor in the School of Music.

'Wright Brothers'

On Nov. 11, history comes alive when the Center for the Performing Arts presents "The Wright Brothers" at 3 p.m. in Eisenhower Auditorium. The event is sponsored by Peoples' National Bank.

Part of Wide-Eyed Wonders, the center's new children's series, "The Wright Brothers" is a musical comedy biography that traces Wilbur and Orville Wright's development of the first working airplane. The story follows the two brothers from the time they begin to work on the

problems of flight, through disappointments that nearly make them abandon their dream, to their final triumph more than seven years later.

Tickets are available through the Eisenhower Auditorium Ticket Center, (814) 863-0255.

Browsing Gallery exhibit

An exhibit of paintings by Rosemary Geseck is on display until Dec. 1 in the HUB Browsing Gallery at University Park.

"I like to grab the viewer's attention and hold it in my work," the artists says. "I like people to react to the art works emotionally, sometimes humorously."

She says her seven-foot arched shape paintings are to be viewed as doorways, doorways into one's own imagination.

The King's Singers

The King's Singers, an internationally famous ensemble from England, will perform classical selections at 8 p.m. Friday, Nov. 9, in Eisenhower Auditorium at University Park.

The King's Singers perform almost 150 concerts a year and appear regularly on PBS with John Williams and the Boston Pops.

Tickets for the performance are available

at the Eisenhower Auditorium Ticket Center. For additional information contact the ticket center at (814) 863-0255.

Bandorama '90

The Penn State Blue Band will present its annual review show, Bandorama '90, at 8 p.m. Saturday, Nov. 10, in Eisenhower Auditorium at University Park.

The program, which reviews the 1990 football game halftime shows, is a cooperative performance of Penn State's marching band, majorettes and flag corps.

The Blue Band will be joined on stage by the Blue Band silks (flags) and Touch of Blue (majorettes). The performance also will feature twirlers Lori Branley and John Mitchell, as well as drum major Mike Harrell.

The program will open with several selections performed by the Symphonic Band. Penn State school songs also will be performed.

Tickets, which are now on sale in Eisenhower Auditorium box office, are \$6 for adults and \$3.50 for students. Tickets also will be available immediately after the Penn State-Maryland football game and at the box office the evening of the performance.

New center to help students resolve disputes

The Center for Conflict Management has been created to help students resolve disputes.

"We are seeing an increase in the number of students with dysfunctional behavior patterns and psychological problems who solve their conflicts through violence," said Donald T. Suit, director of the new center. "We are also seeing more cases of intolerance and more students with a variety of legal problems."

In response the Division of Campus Life

has created the Center for Conflict Management, which includes Mediation Services, Legal Services and the Office of Conduct Standards. These services have been reorganized to make them more visible and convenient to users. The center is located in 101 Boucke Building at University Park.

"Mediation and other forms of conflict resolution are offered to members of the University community on and off campus who may have disputes with roommates,

landlords, friends, spouses, instructors, and acquaintances," Deborah Hamilton, conflict management specialist, said. "Our volunteer mediators have had considerable success helping people in conflict reach lasting agreements."

Mediation is an informal process that uses neutral third parties who help disputants find their own solutions. Agreements are not legally binding, but more than half of the mediation sessions result in an agreement that is carried out.

Mediation and other forms of alternative dispute resolution often involve counseling, referrals for psychological services, educational programs and community service. Since last year, the staff has handled 40 discipline cases and another 40 mediation cases.

In cases of racism, sexism, homophobia and other intolerant acts, students are assigned to educational programs to learn more about the issues and to explore their attitudes. Community service also may be assigned to those who have committed intolerant acts, vandalism or other destructive behaviors.

Staff Vacancies

The following vacancies for positions classified as staff except for C-1, noncompetitive have been listed with the University Employment Division for filling. The brief statements for each vacancy are illustrative. They are not complete position descriptions. APPLY BY CALLING THE EMPLOYMENT DIVISION, 863-0304. Applications for these staff vacancies will be accepted until Nov. 8. DO NOT CONTACT THE AREA THAT HAS THE VACANCY. Applications for staff vacancies are considered in accordance with Fair Employment practices (PSS 1) and in compliance with the University Alternative Action Compliance Program without regard to race, color, religion, national origin, handicap or age (as provided by law) sex, or status as a disabled or Vietnam era veteran

■01084, Assistant Superintendent, Golf Courses, Auxiliary Recreation Services, University Park Campus - Responsible to the superintendent, Golf Courses, for the day-to-day supervision and coordination of golf course operations, including grounds and equipment repair and maintenance. Requires associate degree or equivalent, in agronomy, turf management or related field plus two to three years of effective experience in supervising golf course operations. STAFF GRADE 5

■01085, Admissions Counselor II, Undergraduate Education, Undergraduate Admissions Office, University Park Campus - Responsible to the director, Division of Minority Admissions and Community Affairs, for

general assistance in the handling of the more complex admissions matters in an assigned functional area. Requires bachelor's degree, or equivalent, plus one to two years of effective experience in educational administration or in related field such as industry or military service. STAFF GRADE 6

■01086, Program Director, Academic Services, Partnership Program, University Park Campus - Responsible to the Partnership director for directing and overseeing the operation of assigned partnership program. Requires master's degree or equivalent, and one to two years of effective experience in developing and supervising the implementation of educational programs. A demonstrated ability to work with low-income and under-achieving students, and strong communication skills also are required. Fluency in Spanish oral and written communication skills preferred. POSITION LOCATED IN READING, PA. THIS IS A RE-ANNOUNCEMENT. PREVIOUS BIDDERS NEED NOT RE-APPLY. STAFF GRADE 7

■01087, Project and Data Specialist, Pennsylvania State Data Center, Penn State Harrisburg - Responsible to the director, Pennsylvania State Data Center, for performing a variety of activities including computer programming, data base management and collection, statistical analysis, and report writing. Requires bachelor's degree, or equivalent, in urban and regional planning and up to one year of effective experience. Experience in computer applications,

programming, languages (i.e., FORTRAN, COBOL) and statistical software packages (i.e., SAS, SPSS) highly desirable. THIS IS A FIXED-TERM POSITION FUNDED THROUGH JUNE 30, 1991, WITH EXCELLENT POSSIBILITY OF RE-FUNDING. STAFF GRADE 4

■01088, Coordinator, Educational Opportunity Program, Opportunity Program, University Park Campus - Responsible to the director of academic affairs for the development, coordination, and administration of the Campus Educational Opportunity Program. Provide support for a variety of services and programs in the Academic Affairs area as assigned. Requires master's degree, or equivalent, in student personnel, counseling or related field plus up to and including one year of effective experience, or bachelor's degree with over one up to and including two years of effective experience in admissions, counseling, EOP, etc. STAFF GRADE 6

■01089, Affirmative Action Specialist, Academic Services, Affirmative Action Office, University Park Campus - Responsible to the Affirmative Action director for providing technical research support through extensive use of a microcomputer based information system. Requires bachelor's degree, or equivalent, plus one to two years of effective experience in research methodology, computer applications in the social sciences, affirmative action, and human relations. Familiarity with investigative techniques and knowledge of affirmative action/equal opportunity laws and regulations preferred. STAFF

GRADE 6

■01090, Senior Technical Specialist (Economic Development), Senior Vice President for Research and Dean of the Graduate School, Associate Vice President for Research and Technology Transfer, University Park Campus - Responsible to the associate vice president for research and technology transfer through the director, Industrial Extension Office. For serving as a resource person for clients interested in economic development; for visiting public and private sector organizations to assist in identifying and providing possible solutions to technical and economical development problems. Requires master's degree, or equivalent, in an engineering, field or physical science, plus five to seven years of effective experience in an industrial setting. STAFF GRADE 9

■01091, Assistant to the Dean and Personnel Coordinator, School of Communications, Office of the Dean, University Park Campus - Responsible to the dean for all personnel administration of the School, for the supervision and daily administration of the Office of the Dean, and for providing assistance and advice to the dean on matters such as administrative policy, promotion and tenure, planning, and financial management. Requires bachelor's degree, or equivalent, in business administration or related field and two to four years of effective experience. Supervisory and administrative/personnel related experience highly desirable. STAFF

GRADE 7

■01092, Assistant Group Supervisor, Health and Human Development, Human Development and Family Studies, University Park Campus - Responsible for planning and supervising activities for preschool children, ages 2 1/2-4; planning and coordinating a parent involvement program; and overseeing and directing the work of University practicum students and classroom assistants. Requires bachelor's degree, or equivalent, in an appropriate field plus a minimum of three months of effective experience or associate degree, or equivalent, plus over one year of effective experience. STAFF GRADE 4

Hershey

For the following position vacancies, apply directly to The Milton S. Hershey Medical Center. Attach resume with cover letter indicating the position vacancy code and forward to the Department of Human Resources, Hershey, or call the Hershey bid line at (717) 331-8531 by Nov. 8

■17157, Mental Health Program Aide, Department of Psychiatry, Hershey Medical Center - Responsible to the chiefs, Division of Community Mental Health and Research, and the coordinator, Mental Health Program, for assistance in the administration of departmental statewide mental health program and research protocols. Requires a bachelor's degree or equivalency plus three to six months of effective experience. STAFF GRADE 3

INTERCOM is published weekly during the academic year and every other week during the summer. It is an internal communications medium published for the faculty and staff of Penn State by the Office of Public Information, Room 312, Old Main, Phone 865-7517.

President's remarks to University Faculty Senate

I would like to devote my remarks today (Tuesday, Nov. 6) to matters related to Penn State's 1991-92 appropriation request, my program to develop a budget plan for the 1991-92 academic year, and the need to focus on the academic priorities that are critical to the continued vitality of the University.

I expect that securing the University's 1991-92 appropriation request will take us down a very long road this year. You are, of course, aware that the Board of Trustees approved that request in September. I will not reiterate the details of the request this afternoon. I want instead to observe that the request addresses only the University's most pressing needs. The Board approved appropriation increase of 13.1 percent focuses primarily on basic operating needs.

These include unavoidable cost increases such as those in the area of health care. They include funds for keeping salaries competitive. And they include areas where the University has fallen far behind areas such as deferred maintenance, library operations, scientific and engineering equipment, and departmental allotments.

The elements of this proposal were put in place before I arrived at Penn State, but it is a fiscal plan that I studied, endorsed, and presented to the Board at its last meeting. It is based on the premise that Pennsylvania must reorder its own budget priorities to bring state funding for public higher education to near the national average. Currently, as most of us know, Pennsylvania ranks 47th among the fifty states in funding per student for public higher education. We have no choice but to pursue the long road toward change in this essential measure of support.

As we travel down that difficult path in Harrisburg, we

will between now and the end of the current fiscal year, put in place a budget plan internally. The President's Planning and Budget Advisory Committee, a broadly based group to which the deans and unit heads present their needs each year, is the mechanism I intend to use to develop what will be my first Penn State budget. Toward that end, I plan to attend every meeting of the President's Planning and Budget Advisory Committee this year.

For the first time this year, deans and unit heads will bring to that Committee not only funding requests for program needs as outlined in their strategic plans, but also their needs for space and physical facilities. The Committee's work, clearly, will press us to our limits. But that difficult and time consuming process will yield for me the information and the perspective I will need to establish priorities and direction for the 1990s and beyond.

Let me say again that the work of the President's Planning and Budget Advisory Committee will be the major force in the alignment of planning and budget decisions for this administration.

The academic needs of the University will be the motor that drives our efforts in this process, and the academic mission will always be the central focus of our energy and our resources. At Penn State, that mission is a tripartite one of teaching, research, and service. These are the matters that create sleepless nights in our toils to keep Penn State strong.

As I look ever closer at this university community, I am increasingly persuaded that facilities - and their lack thereof - are compounding negatively on the academic enterprise: in teaching, research, and service. In part, this is a problem that comes from the success this university

community has experienced in recent years: success in research, in undergraduate and graduate student enrollment, in building endowed faculty positions, in demonstrating leadership and competence in the complex area of economic development, and in persuading the state and federal governments and granting agencies that an investment in Penn State is an investment in a better future for everyone. We must continue to do all this and more, knowing that it will put increasing pressure on our facilities.

The deans have expressed repeatedly to me the troubling concern that we have reached the point where new research grants are being sacrificed for lack of adequate space. They also have conveyed to me the serious need for instructional space, not only to catch up with enrollment growth, but also to meet the special requirements of individual programs.

I share these concerns, particularly as they relate to the academic quality of the University. We will use every means available to us to secure funding for new facilities, while planning aggressively to open up existing facilities for Penn State's academic enterprise. We are going to give this problem serious attention.

As many of you know, some \$163 million in new state-funded capital projects were approved for Penn State by the Commonwealth in 1988. Among these is an addition to Pattee Library, an engineering research facility, and the convocation center at the University Park Campus, as well as several new academic facilities for other Penn State Campuses. While funding approval for these projects has

Please see "President" on page 3.

Former vice presidential candidate Geraldine Ferraro meets with reporters prior to her talk Nov. 4 in Eisenhower Auditorium at University Park. The speech, sponsored by the Panhellenic Council, was part of the 10th annual Women's Awareness Week. (Photo: Greg Grieco)

Martin Luther King speaker named

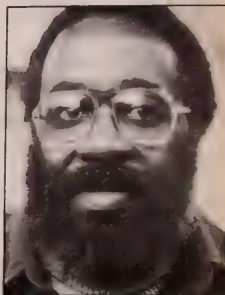

The Rev. Dr. Vincent Harding, Iliff School of Theology professor of religion and social transformation, will be the keynote speaker for the University's observance of the holiday honoring the birthday of the Rev. Dr. Martin Luther King Jr.

He will speak in Eisenhower Auditorium at University Park at 4 p.m. Monday, Jan. 21.

Dedicated to humanity and civil rights, Dr. Harding and his wife, Rosemarie Freney-Harding, worked in various capacities as full-time teachers, activists and negotiators in the Southern freedom movement from 1961 to 1964.

In 1968, after several years as chairman of the History and Sociology Department at Spelman College in Atlanta, he became director of the Martin Luther King Memorial Center and chairman of the nationally televised "Black Heritage" series. Dr. Harding was one of the organizers and the first director of the Institute of the Black World, founded in 1969 in Atlanta.

The author of several books on the Black

Vincent Harding

struggle for freedom. Dr. Harding and his wife recently were senior advisers to the PBS television series "Eyes on the Prize."

Focus on Diversity

McKeesport students DARE to strive for excellence

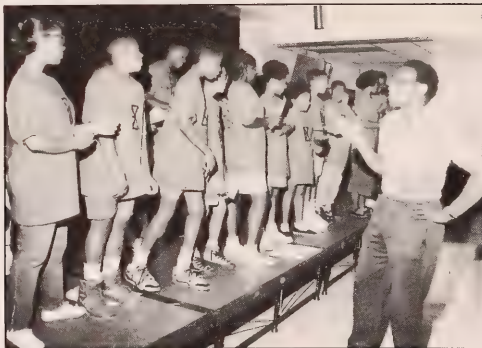

Students from three McKeesport area middle schools spent their summer vacations improving their academic skills in a new University program that may serve as a model for similar activities at other campuses.

The program, "DARE to Excel," was sponsored by the Division of Continuing Education and the Penn State Educational Partnership. The students stayed in the residence halls on the McKeesport Campus for the week and participated in such activities as lectures, discussions and field trips. Instructors and guest speakers urged the students to DARE—Dream, Aspire, Reach and Excel.

"We want to let them know they absolutely must strive for excellence," said Darrell G. Thomas, director of the Penn State Educational Partnership. The pilot project, which attracted 30 students, was administered by Mr. Thomas and by Tony Mitchell, director of continuing education at the Pittsburgh Center.

"DARE" is a concept that helps them develop their fundamental skills and form habits to be good students. It's an athletic concept transferred to an academic environment," Mr. Thomas said.

Students selected for the program had

Don Sheffield, special assistant to the dean for undergraduate education, leads his students in the "Dare Rap."

strong academic records and leadership abilities. Because it was directed toward black students, the curriculum also explored African-American history and social issues

in various after-class activities and events.

The cultural awareness component was designed to help students build their self-confidence and self-esteem. "We wanted to

encourage their aspirations and dreams," Mr. Thomas noted.

Organizers hope the experience will motivate participants to stay in school and to consider post-secondary education.

"We must empower our students with the study and learning skills to be successful in any career path they choose," Don Sheffield, special assistant to the dean for undergraduate education and director of the academic component of the program, said.

"All you have to do is look at the mediocre accomplishments of many college freshmen and you understand how 'out of shape' our students are," he added. "We've trained them for a sprint, when they need to be prepared for a marathon."

During their week on campus, students learned how to take notes and prepare outlines, how to use libraries and computers, and other organizational skills. The curriculum emphasized methods for retaining information instead of memorizing facts just to pass an exam.

Field trips took the students to special exhibits at a local radio station, the University of Pittsburgh and the Penn State Pittsburgh Center, at 337 Fourth Ave., Pittsburgh.

Diversity Calendar

Wednesday, Nov. 8

Center for Women Students, 2:30 to 4:30 p.m., 120 Boucke. Assertiveness workshop: "Learn to Communicate Your Needs and Wants Clearly—Both in and out of Personal Relationships," with Alycia Chambers.

Center for Women Students, 7:30 p.m., HUB Assembly Room. Mock trial: Acquaintance Rape.

Saturday, Nov. 10

Office of Minority Faculty Development, 9:30 a.m. to 12:30 p.m., 114K Kern Building. Emilia Martinez-Brawley on "The Process of Being Published." Reservations: Leah Witzig, 863-1663.

Sunday, Nov. 11

Center for Women Students, 2 to 5 p.m., 126 White Building. Self-defense workshop provided by Penn State Karate Club. Advance registration required: 102D Boucke or HUB basement.

Monday, Nov. 12

Women's Studies, 12:15 to 1 p.m., 12 Sparks Building. Women's Studies Student Affairs Committee discussion.

Paul Robeson Cultural Center/Office of Religious Affairs, 7:30 p.m., Robeson Center. Film: "Eyes on the Prize," followed by discussion by Rev. Kenneth Clarke.

Tuesday, Nov. 13

Central Pennsylvania Men of Color, noon to 1 p.m., Nittany Lion Inn Writing Rooms 3 and 4. Regular monthly lunch meeting.

Nov. 13 to 17

Center for the Performing Arts, 8 p.m., Eisenhower Auditorium. Negro Ensemble Company will perform four "WE" plays written by Charles Fuller: Nov. 13, "Sally"; Nov. 14, "Prince"; Nov. 16, "Jonquil" and Nov. 17, "Burner's Frolic."

Wednesday, Nov. 14

Groove Phi Groove/Paul Robeson Cultural Center, 7 p.m., Robeson Center. Film: "Sounder."

Pennsylvania College of Technology, 8 p.m., Capital Theatre, Williamsport. Harry Belafonte in concert.

Throughout November

Hindu and Jain Festival of Lights holidays (exact dates dependent on lunar calendar).

Paul H.B. Godwin, professor of national security policy, National War College in Washington, D.C., will lecture on "Sino-American Strategic Relations in the 1990s" at 7 p.m. Tuesday, Nov. 13, in 111 Boucke Building at University Park. A reception will follow in 222 Clarke

Sesame Street to improve race relations

Sesame Street, which has taught preschoolers about everything from letters and numbers to ecology and emotions, takes off its 22nd season at noon and 4 p.m. Monday, Nov. 12, on WPSX-TV, Channel 3 with an important new curriculum goal: improving race relations.

The award-winning series from Children's Television Workshop has modeled harmony from the start with its racially mixed cast and messages about diversity and cooperation. Now it is tackling the issue head-on, according to executive producer Duely Singer.

Through happenings on the block as well as animated and live action films, viewers will learn that all children share similar feelings whatever the color of their skin, and that a person who has a different skin color or eye shape can become a good friend.

"*Sesame Street* continually updates its curriculum, to meet changing needs," Ms. Singer said, "and it is especially timely that we deal now with race relations. We'll present both physical and cultural differences, emphasizing the similarities that make us all human as well as an appreciation of cultural differences."

Lecture on Philippine culture scheduled

Carolina Paciencia Salas McCluskey, assistant professor of computer science at the Penn State Allentown Campus, will present the talk, "Philippine Culture and History: The Melting Pot of the Orient" at noon Monday, Nov. 12, in the Academic Building at the Campus.

Dr. McCluskey, a native of the

Philippines, will trace the history and reflect on the culture of the country.

She joined the Penn State Allentown Campus faculty in the fall of 1985. She holds her doctoral degree from Lehigh University, her graduate degree from Ateneo de Manila University, Philippines, and her undergraduate degree from St. Scholastica's College, Manila.

Building.

Dr. Godwin, who received his Ph.D. in political science from the University of Minnesota in 1967, is a well-known specialist in Chinese military and strategic affairs. During fall 1987, he was visiting professor at the Chinese

People's Liberation Army National Defense University in Beijing.

His lecture is free to the public. It is sponsored by the Center for East Asian Studies and the East Asian Studies Society. For more information, call 863-0970.

Lecture to examine strategic relations

Education exchange

The College of Education has received a University Affiliations Award from the United States Information Agency's (USIA) Bureau of Educational and Cultural Affairs to facilitate an education exchange between Penn State and the University of Khartoum in the Sudan.

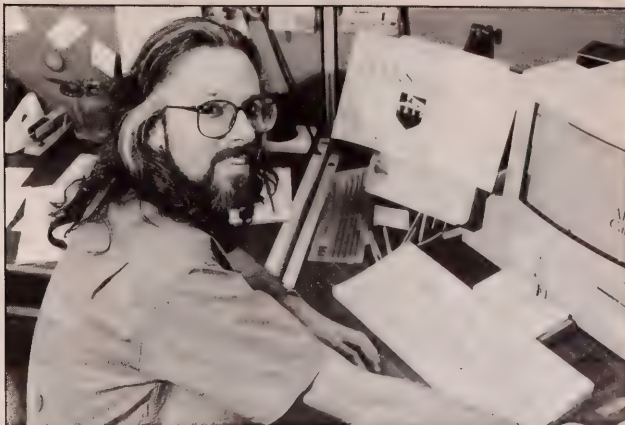

In a joint effort between Penn State and University of Khartoum officials, a proposal was put forth to USIA to establish an official link between the two universities and their faculty.

"Faculty in our college have had a long-standing relationship with the University of Khartoum," Rodney J. Reed, dean of the college, said. "In fact, in September, Ambassador Abdalla Ahmed Abdalla visited the college to discuss future affiliations."

"The College of Education has many faculty who will benefit from the research opportunities provided by a country such as the Sudan," Frances McKenna, professor of education and project director, said. "For example, the Sudanese are very good at rural distance education. Beyond sustaining their people they are re-educating them to be self-sufficient. There are tremendous opportunities for us to learn from their distance education system."

The first exchange will occur this month when Dr. McKenna will make the trip to the Sudan to set final schedules and arrangements for the three-year project.

"This project will help to solidify our commitment to an increased international role in education," Dean Reed added. "University affiliations grants are few in the field of education. We hope that this project will set the stage for additional projects to be funded within our college."

Penn State People

Keith R. Diehl

A photographic reproduction processor for the Department of Printing Services, Keith R. Diehl works on a wide variety of University printing projects. He is involved in designing and typesetting University stationery, brochures, posters, booklets and other printed materials for all campus locations. Most of his work is done on Macintosh computers using Mac-based desktop publishing software. "Working with the new technology is a lot of fun, and desktop publishing is very interesting," he says. A staff member for three years, Mr. Diehl also enjoys working with University clients and seeing the results of his efforts become finished products. (Photo: Greg Grieco)

President

been secured, the actual release of funds for most of them has not been accomplished.

I have made the release of design funding for these facilities, particularly the library addition and the engineering research facility, one of my early and urgent priorities in Harrisburg. These high priority projects simply must begin to move forward. I am happy to say that a number of the campus projects already have begun to do so. We want to see similar progress at the University Park Campus, which has not seen a new building funded by the State since the construction of the Walker Building in 1974.

In response to this situation we are, between now and January 1, fact tracking a program to create space at University Park for the most critical space needs. We will be working with deans and unit heads to make some early decisions on what I regard as crisis needs. The longer range needs, which we know will be more costly -- but also critical to the University -- will be addressed through the President's Planning and Budget Advisory Committee, as I noted a moment ago.

However committed we may be to resolving the inadequacy of Penn State's facilities. It would be less than honest to overlook the larger fiscal environment in which that progress must occur. Unfortunately, the fiscal outlook for the near term is not encouraging. There is more uncertainty than ever before in the global economy as the situation in the Middle East continues to unfold. While we

may now be certain that we have a federal budget for the next year, there is nonetheless great uncertainty about a national economy anticipating the impact of government cutbacks, new taxes, and even recession. There also is some fiscal anxiety in Pennsylvania, as the Commonwealth faces its own budget difficulties and awaits the outcome of today's election.

In the midst of all this uncertainty, I am certain of only one thing: that the area of funding will continue to challenge Penn State in the years ahead. We will not stand alone in addressing that challenge.

Colleges and universities nationwide have begun to experience a decline in state support. The Chronicle of Higher Education reported two weeks ago that increases in state support are at a thirty-year low.

These trends may be discouraging to some, because they seem to suggest that public higher education has entered something less than banner years for public support. They suggest to me that we must work even harder to improve Penn State's funding from the Commonwealth. In a fiscal environment, it is more important than ever for the University to articulate with greater clarity, greater frequency, and to wider audiences the critical role that Penn State can and must play in solving our various problems.

In this connection, I am using the opportunities provided by my visits to campuses (five thus far) to build a broader and stronger political and support base for the University. I am encouraging grass roots support from the various constituencies, including students, faculty, staff, alumni, and advisory committees. Overcoming the serious underfunding that we have experienced will require the

best efforts of all of us in the Penn State community in its broadest and most comprehensive sense.

With hard work and a little luck, I am confident we can get our fair share of available resources -- and our definition of what is our fair share will be a moving and growing target.

In closing, let me acknowledge that the work we have ahead of us will not be easy. My long-time colleague, Derek Bok, summarizes our challenges well in his new book, "Universities and the Future of America."

Mr. Bok argues that our increasingly troubling search for a better society involves, and let me quote, "questions of quality and productivity that stem from problems reaching far beyond the strength of our scientific research ... to a considerable degree, our economic travails are also an outgrowth of many of our greatest shortcomings as a nation -- the defects of our public schools, the deficiencies of our government, the persistence of poverty and the related misfortunes of joblessness, drugs, illiteracy, crime, and disintegrating families."

Mr. Bok accurately describes the milieu in which we exist, in which we must lead, in which we must succeed. A university such as ours has the capacity and the will to thrive at the leading edge of our society in ways that I believe surpass the opportunities available to my alma mater.

If we are creative, thoughtful, and rigorous in our work, we will find the ways to take Penn State to a higher plateau of service and academic achievement. I look forward to the days when we will come together to celebrate the fruits of our labor in the enterprise we share.

Thank you.

Joab Thomas

Frost Entomological Museum

Frost Entomological Museum is home to 15,000 different kinds of insects and more than 333,000 specimens, according to John C. Luhman, research assistant and manager of the museum. Located in 102 Patterson Building at University Park, the museum has a representative collection of Pennsylvania insects, as well as specimens from many other states and Central and South America and China. The collection includes specimens gathered by University entomologists and others. A few museum inhabitants, such as the tarantula and Madagascan hissing cockroaches shown on this page, are living examples of their species, while others, such as the butterflies, are mounted in display cases. Dr. Luhman, a native of Minneapolis, came to the University last January. In addition to giving tours, he teaches and does research on parasitic wasps. The museum is open 8 a.m. to 5 p.m. Monday through Friday. (Photos: Greg Grieco)

Bookshelf

John W. Bagby, associate professor of business law, is the co-author of *Legal Aspects of the Management Process: Cases and Materials*.

Released by West Publishing Co., St. Paul, Minn., the book was written with Frederick G. Kempin Jr., emeritus professor of legal studies at the Wharton School, University of Pennsylvania, and Jeremy L. Wiesen, associate professor of business law and accounting at the Stern School of Business, New York University.

Now in its fourth edition, *Legal Aspects* has been updated substantially and contains new information on mergers and acquisitions, securities professionals, social responsibility and franchises. The cases covered include those involving insider trading, takeover tactics and legal constraints. A new international chapter covers business organizations and securities regulations on a global scale.

Historical, political, economic and social materials also are included to help readers fit business law into accounting, finance and strategy courses and a management perspectives chapter allows readers to gain a management decision-making perspective.

Judy Dunn, distinguished professor of human development and director of the Center for the Study of Child and Adolescent Development, and **Robert Plomin**, professor of human development, are co-authors of *Separate Lives: Why Siblings Are So Different*, published by Basic Books Inc.

Using examples from their research as well as accounts of famous authors and their siblings, the authors challenge the prevailing wisdom on the roles of nature and nurture in children's development. They show how heretics can explain many of the similarities, but not the vast differences between siblings.

In particular, they dispute the assumption that each child experiences the same family environment. Drs. Dunn and Plomin show that chance events, interactions with siblings and friends, and differences in the way the parents treat their children all combine to create "separate lives" for children within the same family.

Drs. Dunn and Plomin also examine the implications of their work for researchers, clinicians, and parents.

Gerald M. Phillips, professor of speech communication, is the editor of *Teaching*

How to Work in Groups, published by Ablex Publishing Corp. of Norwood, N.J. The book examines the problems individuals encounter when trying to perform as a group.

In a group working environment, Dr. Phillips says, members are traditionally expected to be open-minded and avoid commitment to a position. The consensus process assumes each person's ideas are equally worthy of expression and consideration within the group.

Teaching How to Work in Groups explores group dynamics from what to teach and how to teach it to finding the connections between individual performances and group outcome.

University contributors to the book include: **Dennis Gouran**, professor and head of speech communication; **Susan Jarboe**, assistant professor of speech communication; **Bill Mahon**, director of Public Information; **Mary McComb**, doctoral candidate; **Gerald M. Santoro**, supervising consultant in microcomputing at the Center for Academic Computing; **Hal Wittens**, assistant professor of speech communication; and **Nancy J. Wyatt**, assistant professor of speech communication.

Marshall M. Wilcher, assistant professor of political science at the Penn State New Kensington Campus, is the author of *The Politics of Acid Rain*, published by Gower Publishing Group. The book examines policies on acid rain in Canada, Great Britain and the United States.

While Britain and Canada govern more by consensus, the confrontational nature of American politics has slowed down the process of acid rain legislation, Dr. Wilcher notes.

In the United States, the separation of powers, lack of political party discipline, private ownership of major industries, the adversarial posture of interest groups, and the large number of governmental units all have contributed to a policy stalemate, he says.

In Britain, environmental regulations tend to be more broadly worded, and agencies are left to set goals and target dates.

In Canada, policy decisions are eased by the fusion of executive and legislative power at federal and provincial levels; the jurisdictional overlap between federal government and provinces, especially in regard to environmental matters; the tradition of extensive administration; and the governmental control of key industries.

News in Brief

Historian to speak

Historian James Mace, director of the Congressional Famous Cause, will speak on "The End of Denial: New Soviet Perspectives on the Ukrainian Kholodny Yar 1930s" at 3:30 p.m. Friday, Nov. 9, in 101 Kern at University Park.

His talk is sponsored by the Department of Slavic Languages, the Woskold Fund for Ukrainian Studies and the Penn State Ukrainian Club. A reception will follow in commemoration of the traditional Ukrainian November celebration of independence.

As part of the Slavic Center seminar, Mr. Mace will speak on "Coming to Grips with Stalinism in Ukraine" at noon Friday, Nov. 9, in 124 Sparks Building at University Park.

Hazleton symposium

The second International Affairs Symposium at the Penn State Hazleton Campus will feature a panel discussion on the subject of "Nationalism, Perestroika and Political Reform in the Soviet Union" at 7:30 p.m. Tuesday, Nov. 13, in Room K-1 of the Kostos Classroom Building.

The monumental changes that have occurred within the Soviet Union and Eastern bloc countries during the past 18 months will be discussed by Eugene Miller, assistant professor of history at the Penn State Hazleton Campus; Eric S. Rubin, bilateral relations officer of the U.S. State Department Office of Soviet Union Affairs; and Alexander Shalnev, senior Soviet reporter from *Izvestia*.

Visiting lecturer

Jiqian Zhang, Department of History at Princeton University, will speak on "The Influence of the American Revolution on 19th Century Chinese Intellectuals" at 4 p.m. Nov. 15 in the Memorial Lounge in Eisenhower Chapel at University Park Campus.

The event is sponsored by the Department of History and co-sponsored by the Center for East Asian Studies.

Classical rhetoric series

John Poulakos, associate professor of speech communication at the University of Pittsburgh, will present "Towards a Rhetoric of Possibility" 4:30 p.m. Thursday, Nov. 15, in Room 111 Chambers Building at University Park.

Sponsored by the Speech Communication Colloquium Classical Rhetoric Lecture Series, the lecture is open to the public and will be followed by a reception in 12 Sparks.

Dr. Poulakos is a specialist in the rhetoric of the Sophists and is a former speech communication faculty member at the Penn State Delaware County Campus. He has published two books and more than 15 articles and essays in such journals as the *Western Journal of Speech Communication*, *Philosophy and Rhetoric*, and *Communication Monographs*.

Russian journalist to visit

Russian journalist Evgenia Albals, who writes on Soviet topics for the *Chicago Tribune*, will speak on "Soviet Journalism before and after Glasnost" at 7:30 p.m. Thursday, Nov. 15, in Room 110 Wartik Laboratory at University Park. The talk will focus on her main areas

of interest, including Russian feminism, the status of women in the USSR, the KGB, AIDS, and religion in the USSR. Her visit is co-sponsored by the School of Communications and the Department of Slavic Languages.

Worksite wellness

Howard Kraft, manager of health services for Champion International Corp., will speak on "Promoting Wellness at the Workplace: How Does It Affect a Company's Bottom Line?" at 7 p.m. Nov. 15 in S-209 Henderson Building at University Park.

Mr. Kraft will discuss the "Champions for Life" program, a wellness program which promotes health and fitness among Champion International employees. As the third largest wood and paper products manufacturer in the world, Champion employs 22,000 workers at some 200 locations.

The presentation is co-sponsored by the Penn State Chapter of the Association for Fitness in Business and the University's Center for Worksite Health Enhancement.

Campus security teleconference

A teleconference on "Effective Approaches to Campus Security" will be presented from 2 to 4 p.m. Thursday, Nov. 15, in Room 112 Kern Building at University Park.

The teleconference, sponsored by the National Association of Student Personnel Administrators, in conjunction with Oklahoma State University and the National University Teleconference Network, is being presented by the Human Resource Development Center.

For registration information, call the center at 865-3410.

Project Renew Grant

The State College Branch of the American Association of University Women sponsors the Lucretia V.T. Simmons Project Renew Grant each year. The award is named for Dr. Simmons, a past president of the State College AAUW Branch, who, in 1918, was the first woman on the Penn State faculty to become a full professor.

Purpose of the award is to support women who have interrupted their academic work for at least three years and wish to resume or continue their studies at this time. A grant of up to \$1,500 will be awarded to a woman resident of Centre County who has completed a minimum of one-fourth of the degree requirements for a baccalaureate or master's degree.

Members of the grant committee are Barbara Grubb, chairperson; Gwen Bunnell, Virginia Eisenstein, Susan Garis and Susan Whitaker. Applications are available from Susan Whitaker, 512 Hillcrest Ave., State College, Pa. 16803. The deadline for submission is March 1, 1991.

Poultry Salesroom

The Poultry Salesroom will be open from 10 a.m. to 3 p.m. Wednesday, Nov. 21, and will have available for sale chicken roasters, fryers, stewing chickens and fresh eggs. For more information, call 865-3765.

Focus on the arts

Featured author

The Penn State Bookstore on campus will host Hank Nuwer, author of the newly released *Broken Places: The Deadly Rite of Hazing* (Longstreet Press, \$18.95), from noon to 2 p.m. Friday, Nov. 9. The book is the first in-depth, hard-hitting look at a bizarre social ritual endemic to American culture.

Mr. Nuwer, an investigative journalist and freelance writer who has researched hazing for the past 12 years, uncovers permanent physical and/or mental trauma in victims of hazing incidents involving fraternities, sororities, high schools, military institutions, athletic organizations and professional societies. *Broken Places* unveils long-protected secrets and facts for students, parents, school administrators, sociologists, psychologists and legislators seeking to understand a dangerous social practice that affects millions of Americans.

The Penn State Bookstore on campus is offering a 20 percent discount on *Broken Places* during the time of the book signing session.

Piano recital

Pianist Steven Smith, professor of music, will present a solo recital at 8 p.m. Sunday, Nov. 11, in the Recital Hall of the Music Building at University Park.

The program features the original piano version of Mussorgsky's "Pictures at an Exhibition," considered one of the most important works of the Russian Nationalist School of the late 19th century. The recital also will include performances of Schubert's Fantasy-Sonata in G, Opus 78, and J.S. Bach's Prelude and Fugue in E flat, W.T.C. II.

The arts on Channel 3

When Victor Hugo's "Les Misérables" was published in 1861, critics panned it, but it went on to outsell all other books of its day. History repeated itself in 1985 when the stage adaptation of "Les Misérables" opened at London's Barbican Centre, home

Von Deren Coke will give an illustrated lecture titled "The New Vision" at 7:45 p.m. Nov. 12 in 111 Kern Building.

of the Royal Shakespeare Company. A one-hour documentary special *Les Misérables: Stage by Stage* will air at 2:30 p.m. Saturday, Nov. 10, on WPSX-TV.

Providing some comic relief is "Jeeves and Wooster," a new five-part series based on the stories by P.G. Wodehouse airing at 9 p.m. Sunday, Nov. 11, on *Mystery Theatre*. Starring two of Britain's top comic actors, Hugh Laurie and Stephen Fry, the series follows the misadventures of the scrape-prone gentleman Bertie Wooster and his valet, Jeeves. The series also stars Mary Wimbush, Brenda Bruce, Richard Gannett and Adam Blackwood.

Visiting lecturer

Art and photo historian Van Deren Coke, of Santa Fe, N.M., will give an illustrated lecture titled "The New Vision," at 7:45 p.m. Monday, Nov. 12, in Room 111 Kern Building at University Park. The lecture is sponsored by the Institute for the Arts and Humanistic Studies and the Department of Art History.

The lecture will deal with the stylistic development of photography between

1914-46, including the work of Duchamps, Strand, Man Ray, Picasso and Ernst and their influence on what is now called modern art.

Faculty exhibit

The annual School of Visual Arts faculty exhibition will open Monday, Nov. 12, in the Zollner Gallery at University Park. It will be on display through Dec. 7.

University faculty members, from both University Park and the Commonwealth Campuses, will exhibit recent work in ceramics, sculpture, metals, painting, drawing, photography, printmaking, papermaking, fibers and graphic design.

A reception for the artists will be held from 7 to 9 p.m. Monday, Nov. 12, in the Gallery. Music will be performed by jazz Royale.

Zollner Gallery is located in the Visual Arts Building and is open from 9 a.m. to 5 p.m., Monday through Friday; 11 a.m. to 4:30 p.m. Saturday, and noon to 4 p.m. Sunday.

The 'We' plays

The award-winning Negro Ensemble Company will present a week-long residency, Nov. 12 through 17 at University Park, giving lectures and workshops, and performing a four-play cycle titled the "We" plays.

The "We" plays are the work of playwright Charles Fuller who won a Pulitzer Prize for his drama "A Soldier's Play." They depict America's past from an African-American perspective, beginning with the emancipation of the slaves in 1863 and ending at the turn of the century.

The series, directed by Douglas Turner Ward, a founding member of the company, chronicles the struggles of freed black slaves as they seek to build new lives.

The first play in the series, "Sally," tells the story of a black soldier torn between his commitment to the military and to the woman he loves. The second piece, "Prince," focuses on freed slaves as they adjust to new lives after emancipation.

"Jonquil," the third play, follows the characters introduced in the previous plays as they witness the rise of the Ku Klux Klan. "Burner's Frolic" concludes the series with the story of a successful black businessman who struggles against prejudice in the political arena and with the Ku Klux Klan.

The "We" plays will be presented at 8 p.m. Tuesday and Wednesday, Nov. 13 and 14, and Friday and Saturday, Nov. 16 and 17, in Eisenhower Auditorium.

Mr. Ward will speak at 7 p.m. Tuesday, Nov. 13, and Friday, Nov. 16. The talks will give audience members an opportunity to learn more about the background of that evening's performance.

The program is supported, in part, by grants from the Mid Atlantic Arts Foundation and the Commonwealth of Pennsylvania Council on the Arts, as well as a grant from the University's Equal Opportunity Planning Committee.

Skip Gray will present a tuba recital at 8 p.m. Nov. 15 in the Recital Hall of the Music Building.

It is co-sponsored by the Institute for the Arts and Humanistic Studies, the Paul Robeson Cultural Center, the Center for Women Students, and the departments of English, History, Black Studies, Women's Studies, Sociology, Theatre, American Studies and Administration of Justice.

Art history lecture

David Freedberg, professor of art history at Columbia University, will give a lecture titled "Art and Natural History in the 17th century" at 8 p.m. Tuesday, Nov. 13, in Room 112 Walker Building at University Park.

The lecture is part of the "Art of Interpreting" series sponsored by the Department of Art History and the Institute for the Arts and Humanistic Studies.

Dr. Freedberg received his doctorate from Oxford University in England. He is widely published on the subject of 17th-century Dutch art.

Odyssey on WPSU

"Translation is interpretation -- and in some cases, a fairly radical departure from the original," agrees Johann Pillaio on the next episode of "Odyssey Through Literature."

Mr. Pillaio, a graduate student in comparative literature at SUNY/Buffalo, discusses with host Leonard Rubinstein the unique relationship between a written work and the translation and interpretation of that work, citing Edgar Allan Poe's poem "The Raven" as an example.

"Odyssey Through Literature" is produced by the Department of Comparative Literature and airs Wednesdays at 12:30 p.m. on WPSU, 91.1 FM.

'Music Today' series

Robert P. Morgan, professor of music at Yale University, will give the lecture "What Please see 'Arts' on page 11.

The arts at...

Hazleton Campus

Students at the Penn State Hazleton Campus Society for the Arts are presenting the Benny Velour Show, a comedy revue, at 8 p.m. on Nov. 8, 9 and 10 in Highcases Commons.

Written, directed and starring students of the Society for the Arts, it consists of 15 comedy sketches hosted by lounge comedian Benny Velour.

For information about tickets, call (717) 450-3134.

Penn State-Behrend

The Penn State-Behrend Matchbox Players are presenting "The Day Room" by Don

Delillo in the Little Theatre now through Nov. 10 and Nov. 13 to 17 at 8 p.m., with 2 p.m. Sunday matinees Nov. 11 and 18.

"The Day Room" is a black comedy that deals with the fine line between sanity and insanity. The lunatics take over the asylum and one never knows who are the real patients and who are the real doctors.

Call (814) 898-0016 or 898-6331 for more information and reservations.

French pianist Marylene Dosse will perform a selection of classical works from the 18th to 20th centuries at 8 p.m. Tuesday, Nov. 13, in Reed Lecture Hall.

Professor Dosse's performance is free to the public. For more information, call (814) 898-6000.

University Park Calendar

November 8-- November 18

Special Events

Thursday, November 8

Trustees meet at University Park through Nov. 9

Careers in the Arts, 10:11-30 a.m., Palmer Museum of Art Stephen Porter on "Designing Sculpture on a Computer."
Bach's Lunch, 12:10 p.m., Eisenhower Chapel Singing Lions.

Bloodmobile, 1:7 p.m., Findlay Center for Women Students, 2:30-4:30 p.m., 120 Boucke, Joyce Illfelder, Kaye: Assertiveness Workshop: Learn to Communicate Your Needs and Wants Clearly--Both in and out of Personal Relationships.

Sexual Assault Awareness/Prevention Week Mock Trial: Acquaintance Rape, David E. Grune and Eileen Tucker, 7:30 p.m., HUB Assembly Room.

Friday, November 9

Geog. Coffee Hour, 4 p.m., 319 Walker, Robert Proctor on "What is the Political Philosophy of Science?"

Center for the Performing Arts, 8 p.m., Eisenhower Auditorium, The King's Singers.

Saturday, November 10

Shaver's Creek, Paper Making (Grades 3-6), 1-3 p.m., Call 863-2000.

Sunday, November 11

Shaver's Creek, Tracks in Traces, 2-4 p.m., Call 863-2000.

Center for the Performing Arts, 3 p.m., Eisenhower Auditorium, "Wright Brothers."

Carnegie Hall Film Series, 7 p.m., Kresge-McDonald (1955), 9 p.m., The Sidel's Wealth of the Poor (1971), 11 p.m., The Sidel's Wealth of the Poor (1971).

Monday, November 12

Comp. Lit. Luncheon, 12:15-1:20 p.m., 101 Kern, Linda Ivanits on "Myths of Dualistic Creation in the Russian Village of the 1890s."
Bloodmobile, 1:7 p.m., Waring Hall.

Tuesday, November 13

Bloodmobile, 1:7 p.m., Warnock Hall Shaver's Creek, Tracks in Traces, 2-4 p.m., Environmental Shopping, 7:30-8:30 p.m., Call 863-2000.

Center for the Performing Arts, 8 p.m., Eisenhower Auditorium, Negro Ensemble Company Also Nov. 14.

School of Music, 8 p.m., Recital Hall, Mozart Chamber Orchestra.
Dept. of Art History, 8 p.m., 112 Walker, David Freedberg, Columbia, on "Art and Natural History in the 17th Century."

Wednesday, November 14

Bloodmobile, 10 a.m., 4 p.m., HUB Ballroom.
Music Lecture Series, 8 p.m., Recital Hall, Robert P. Morgan, Yale.

URTC, 8 p.m., Pavilion Theater, "Butterfingers Angel, Mary and Joseph, Herod The Nut, and the Slaughter of 12 Hill Carols in a Pear Tree." Student preview, Also Nov. 15.

Thursday, November 15

Bloodmobile, 9 a.m., 3 p.m., 101 Kern; 11 a.m.-5 p.m., HUB Ballroom.

Women's Studies, 10:30 a.m., Eisenhower Auditorium, Negro Ensemble Company.

Dept. of Architecture, Brown Bag Lunch/Lecture, 12:10-1 p.m., Palmer Museum of Art.
"Conceptions of the Museum's New Wing by Students of the Department of Architecture."

Bach's Lunch, 12:10 p.m., Eisenhower Chapel, Penn State Mallet Ensemble.

The Wright Brothers, a musical comedy, will be performed at 3 p.m. Nov. 11 in Eisenhower Auditorium.

NASPA, teleconference, 2-4 p.m., 112 Kern.
"Effective Approaches to Campus Security."
Lecture, 7 p.m., 5:209 Henderson-Howard Knott, Champion Int'l. Corp., on "Promoting Wellness at the Workplace: How Does it Affect a Company's Bottom Line?"
Gallery talk, 8 p.m., Palmer Museum of Art, Karen J. Arbitman on "Pen, Ink and Genius: The Drawings of Rembrandt and Rubens."
School of Music, 8 p.m., Recital Hall, Skip Gray, tuba.

Spanish, lecture, 8 p.m., 101 Kern, John Degenais, Northwestern Univ., on "Reading as Supplement in Ramon Llull's *Book of Composition*."

Friday, November 16

Commission for Women meeting, 10 a.m.-noon, 101 Kern.

Geog. Coffee Hour, 4 p.m., 319 Walker, Wilbur Zelensky on "The Twinning of the World: Sister Cities in Historical and Geographic Perspective."

Shaver's Creek, Adventure Series: Animals in Winter (Grades 2-4), 9:30 p.m.-10:30 a.m. Also Nov. 17, Call 863-2000.

Center for the Performing Arts, 8 p.m., Eisenhower Auditorium, Negro Ensemble Co.

URTC, 8 p.m., Pavilion Theater, "Butterfingers Angel, Mary and Joseph, Herod The Nut, and the Slaughter of 12 Hill Carols in a Pear Tree" through Dec. 1.

Sunday, November 18

Shaver's Creek, Adventures of the Monarch Butterfly, 2-3 p.m., Call 863-2000.

Carnegie Hall Film Series, 7 p.m., Orpheus (1949); 8:45 p.m., Chinese Roulette (1976), 203 Willard, Free.

School of Music, 8 p.m., Recital Hall, Opera workshop.

Nov. 12-15, Industrial Hydraulics, Donna Ricketts, coordinator.
Nov. 12-16, HEC-2 Floodplain Hydraulics, Arthur Miller, chair, Barb Impellitteri, coordinator.
Nov. 15-17, Polarized Cold-Weather Shop, Steven Heppelmann, chair, Norm Labhury, coordinator.

Seminars

Thursday, November 8

Lecture, 2:30-4 p.m., 124 Sparks, Dr. Adarsh Sharma, New Delhi, India, on "The Integrated Child Development Services: The Indian Experience with a Nationwide Early Childhood Intervention Program."

Physics Colloquium, 3:30 p.m., SS Osmond Lab Donald R. Hamann, AT&T Bell Labs, on "Many-Body Simulations: Toward Real Materials."

Engineering Science and Mechanics, 3:35 p.m., 315 Hammond, Donald W. Rethke, United Technology on "Engineering Design of Space Toilet."

Graduate Program in Ecology, 3:45 p.m., 110 Wartik Lab, Dr. Gordon Kirkland on "Responses of Temperate Forest Small Mammal Communities to Ecosystem Disturbances: Clearcutting and Surface Mining."

Computer Science, 4 p.m., 325 Whitmore Lab, Gerard J. Holzmann, AT&T Bell Labs, on "Trains, Planes and Protocol Design."

Graduate Program in Acoustics, 4 p.m., ARL Classroom, Lance Bischoff on "Multi-Channel Adaptive Vibration Control of a Mounted Plate."

Gerontology Center Colloquia, 4:45 p.m., 106 Mitchell, Carla Walls on "The Effects of Religiosity and Informal Support in the Black Church on Elderly Well-Being."

Friday, November 9

Slavic Center Brown Bag seminar, noon, 124 Sparks, James Mace, Harbinian Institute, on "Coming to Grips with Stalinism in Ukraine." Also 3:30 p.m., 101 Kern, The End of Denial.

New Soviet Perspectives on the Ukrainian Killer Famine of the 1940s.
Accounting/MIS Research Colloquium, 3:30-5:10 p.m., 335 Beam, Robert Libby, Cornell, on "Audit Review as a Control for Budget Recall of Evidence in Decision Making."

Monday, November 12

Entomology, 3:45 p.m., 204 Patterson, Ron A. Prestidge, Ruakura Agricultural Centre, New Zealand, on "Progress in Control of New Zealand's Major Pasture Insect Pest."
EPH, 4 p.m., 138 Davey Lab, David Quarrie, CBAF, on "Progress Towards a Distributed Object Oriented Data Acquisition System at CBAF."

Prestidge Lectures in Chemistry, 8 p.m., 110 Wartik Lab, Ronald Breslow, Columbia, on "Double Bonding in Biomimetic Chemistry and in Chemistry." Also Nov. 13, 8 p.m., 110 Wartik, "Mimics of Ribonucleic Acids."
Nov. 14, 4 p.m., 5 S Osmond Lab, Mimics of Enzyme Coenzyme Systems, Nov. 15, 12:15 p.m., 5 S Osmond, Imitating Selective Biological Functions/Enzymes.

Tuesday, November 13

American Statistical Ass'n., State College Chapter, fall meeting, 3-5 p.m., 112 Buckhout.

Geosciences, 3:45 p.m., 301 Steidle, Al Hine, Univ. of S. Florida, on "Tectonic Control on Carbonate Platform Development, Northern Nicaragua Rise, Caribbean Sea."

Biology, 4 p.m., Mueller Lab, Robert Wyatt, Univ. of Georgia, on "Of Mosses and Milkweeds: Plant Parenthood."

Condensed Matter Physics/MRL, 4 p.m., 139 Davey Lab, Dr. P. Fleury, AT&T Bell Labs, on "Spin Fluctuations in the Oxide Superconductors."

Graduate Program in Nutrition, 4 p.m., 5:209 Henderson, Robert P. Heaney, Creighton Univ., on "Nutrition and Bone Health in an Aging Population: Controlling Problems." Also 7 p.m., 111 Wartik, "Nutrition and Bone Disease."

Wednesday, November 14
Special Physics Colloquium, 3:30 p.m., 101 Osmond Lab, Sara Solla, AT&T Bell Labs, on "Neural Networks: Learning and Generalization."

Accounting/MIS Research Colloquium, 3:30-5:30 p.m., 331 Beam, Armin Amerni, Univ. of Minnesota.

History Colloquium/East Asian Studies, 4 p.m., Memorial Lounge, Eisenhower Chapel, Dr. Jigang Zhang, Princeton, on "The Influence of the American Revolution on 19th Century Chinese Intellectuals."

Thursday, November 15
Polymer Science, 9 a.m., 301 Steidle, Dr. Robert Kempt, Mobay, on "A Novel Route to Aromatic Polyether Block Copolymers."

International Lecture Series, 2:30-4 p.m., 222 Boucke, Ruth Leventhal on "The Status of Women in Russia Today."

Physics Colloquium, 3:30 p.m., SS Osmond Lab, Michael Turner, Univ. of Chicago, on "Formation of the Stars in the Universe."

International Lecture Series, 3:45 p.m., 110 Wartik, Dr. Melanie Slansky, American Museum of Natural History, on "Fishes of the Highlands of Madagascar: A Study of an Endangered Fauna."

Computer Science, 4 p.m., 325 Whitmore Lab, Stavros A. Zenos, Univ. of Pa., on "Massively Parallel Network Optimization with a Financial Application."

Classical Rhetoric lecture, 4:30 p.m., 111 Chambers, John Poulakos, Pitt, on "Towards a Rhetoric of Possibility."

Reflects an international perspective

Conferences

Continuing Education

Keller Building

Nov. 13-15, Graduate Builders Institute, Eric Loop, coordinator.

Private Giving to Penn State

Heinze family gift to support new building

A Penn State alumnus and members of his family have committed \$50,000 to a new building planned by the College of Health and Human Development.

John J. Heinze president of The Allenberry resort, Bowling Springs, with his mother, brother, and sister—MaryLu, Jere and Jane Heinze Taylor—made the gift in honor of his father, the late Charles A.B. Heinze.

Construction on the 31,000-square-foot building, part of the expansion and renovation plans of the college's School of Hotel, Restaurant and Institutional

Management (HRIM), is expected to begin next spring.

John Heinze graduated from the school in 1957 with a bachelor's degree in hotel administration. "This gift is to honor my father and his role in helping to establish this outstanding school," he said.

Charles A.B. Heinze, a 1929 Penn State graduate, became a national leader in the hotel and inn-keeping industry. He developed The Allenberry resort and was Penn State's first distinguished Alumnus in the hospitality field. His were among the earliest efforts to establish HRIM, which was formally created in 1937 and is now

the fourth oldest program in the nation.

The Charles A.B. Heinze Administrative Suite in the new facility will be named in recognition of the family's gift. The building, designed as a two-story structure adjacent to Keller Building on the University Park Campus, will house a dining room, production and research kitchens, classrooms, a library and multimedia resource center.

Construction is estimated to cost \$5.4 million. The University has allocated \$1.5 million for the project, and private support will provide the remaining funds.

Ford Motor grant to assist research

Ford Motor Co. has given \$250,000 to support engineering programs at the University.

The auto maker designated \$100,000 for building renovations in the College of Engineering, \$75,000 for the college's research program in the Department of Acoustics and \$75,000 for acoustics research at the Applied Research Laboratory.

The donation for building renovations is part of \$2 million in private gifts the college needs to modernize the Mechanical Engineering Building and the Electrical Engineering West Building. Private funds will be added to a \$9.48 million state appropriation and a \$2 million allocation from the University.

Ford's donations for acoustics research are aimed at ways to decrease automotive noise pollution.

The company's support of the Department of Acoustics further the investigations of Jiri Tichy, professor of architectural engineering, into methods of noise control for motor vehicles.

The gift to the Applied Research Laboratory will assist Professor of Acoustics Gerald C. Lauchle's work in controlling noise in automotive heater and air conditioning systems.

Grant aids Peace and Conflict Studies Program

A \$10,800 grant from Pennsylvania Quakers will assist in pursuing a Peace and Conflict Studies Program at the University.

The grant, made by the Philadelphia Yearly Meeting of the Religious Society of Friends through the State College Friends Meeting, will help support a visiting professor to teach courses and to guide the development of the new program.

"We would welcome a bequest of this nature at any time, but it is particularly relevant today," President Jordan said. "We are entering a new era of peace, and giving

students an opportunity to study these issues adds a great deal of meaning to their education."

The grant will be matched by funds from four Penn State colleges—Arts and Architecture, Engineering, Health and Human Development, and the Liberal Arts—as well as the School of Communications and the Graduate School.

Andrew Murray, chaplain and associate professor of peace and conflict studies and director of the Baker Institute of Peace and Conflict Studies, Juniata College, has been

appointed visiting professor in Penn State's Science, Technology, and Society Program for the Fall 1990 Semester. The STS program will house the Peace and Conflict Studies initiative on a provisional basis.

The Peace and Conflict Studies Program stems from efforts by a faculty committee of the Commonwealth Educational System and a more recent volunteer committee initiated by the State College Friends Meeting and composed of faculty administrators and community members.

Penn Staters

Robert Lima, professor of Spanish and comparative literature and Fellow of the Institute for the Arts and Humanities Studies, was invited by Spain's Consejo Superior de Investigaciones Científicas to present a paper at the recent symposium on "Valle-Inclán y la crítica: Recepción de su obra."

Mel Seesholtz, assistant professor of education at the Penn State Ozontz Campus, was a featured speaker at the CyberArt Conference in Vienna and at Ars Electronica in Linz, Austria. He also spoke at conferences in Frankfurt, Heidelberg, Mannheim and Hamburg in West Germany, at the Third International Cybernetics Symposium in Amsterdam, and at Humboldt University in East Berlin.

Robert Tauber, associate professor of education, **Mari Treanle**, coordinator of academic affairs, and **Cathy Mester**, instructor of speech communication, all at Penn State Erie, The Behrend College, made a panel presentation on "Nurturing the Next Generation of College Students" at the 10th annual Conference on Teaching and Learning in Higher Education at McGill University, Montreal, Canada.

George M. Enteen, professor of Russian history, presented a lecture, "A New Tendency in American Historical Scholarship," before the All-Union Academy of Sciences to the Historiographical Section of the Institute of History of the U.S.S.R. in Moscow.

Dennis A. Gioia, associate professor of organizational behavior, was an invited speaker at the International Conference on Artificial Intelligence and Organization Theory in Amsterdam, The Netherlands.

William T. Hughes, coordinator of the Division of Undergraduate Studies Program at the Penn State Mont Alto Campus, has received the 1990 Outstanding Contribution to the Pennsylvania College Personnel Association Award.

Linda J. Iwanits, associate professor of Russian, delivered invited papers at the Irish Slavists' Association Conference in Dublin, Ireland, and the fourth World Congress for Soviet and East European Studies in Harrogate, England.

Gerald G. Johnson Jr., associate professor of computer science, gave an

invited talk titled "XRD-A Series of Integrated Computer Programs for the Analysis of Powder Diffraction Data" at KFA/Julich, BDR, and Shell Research Laboratory in Amsterdam, the Netherlands.

G. Gregory Lozier, executive director of planning and analysis, and **Dennis D. Hengstler**, of the University of Houston, presented a paper titled "Projected Faculty Shortages in the United States: Implications for Europe" at the 12th International Forum of the European Association for Institutional Research in Lyon, France.

Linda Miller, associate professor of English at the Penn State Ozontz Campus, served as seminar leader for "Teaching Hemingway's *Farewell to Arms*" at the Fourth International Hemingway Conference at the John F. Kennedy Library in Boston.

Michael M. Naidan, associate professor of Slavic languages, presented invited papers at the Irish Slavists' Association Conference in Dublin, Ireland; the fourth World Congress for Soviet and East European Studies in Harrogate, England, and the First World Congress

of Ukrainian Studies in Kiev, the Soviet Union.

Richard Nelson, interim head of the Department of Exercise and Sport Science and director of the Biomechanics Laboratory, delivered the keynote address, "Sport Biomechanics at the Olympic Games," at the 1990 Beijing Asian Games Scientific Congress.

Clifford H. Wagner, associate professor of mathematics and computer science, Penn State Harrisburg, presented a talk titled "Insights from Sampling" at the Third International Conference on Teaching Statistics in Dunedin, New Zealand.

Brian Winston, dean of the School of Communications, presented a paper, "Against a Certain Tendency in Interpreting U.S. Telecommunications and Media Events," at the International Institute of Communications in Dublin, Ireland.

William L. Duke, assistant professor of geology, has been appointed associate editor of the *Journal of Sedimentary Petrology* for a nominal four-year term.

University faculty and staff members receive awards

Research awards

Mary Frances Picciano and Alexander von Eye have received the Evan G. and Helen G. Pattishall Outstanding Research Achievement Awards, sponsored by the College of Health and Human Development. Both will present lectures next spring in connection with the awards.

Dr. Picciano, professor of nutrition, is internationally recognized for her research in maternal and infant nutrition. Her research focuses on the nutrient composition of human milk and on infants' requirements for key nutrients, including iron, folate, protein, and selenium.

She has earned two national awards for her research: the 1984 Borden Award and the 1987 Lederle Award in Human Nutrition.

Dr. Von Eye, professor of human development and psychology, is well regarded internationally as a developmental methodologist with expertise in adult development and aging.

Since coming to Penn State in 1985, he has published six scholarly books on statistical methods for developmental research, and his publication record has established him as an authority on categorical statistical methodology in developmental research.

The Pattishall Outstanding Research Achievement Award honors faculty members for outstanding research contributions occurring or culminating within the past several years. It was awarded by Evan G. Pattishall, dean emeritus of the former College of Human Development, and his wife, Helen, who earned a bachelor's degree from the college.

Mary Frances Picciano

Continuing Education won the majority of the awards presented, capturing seven of the 13 honors.

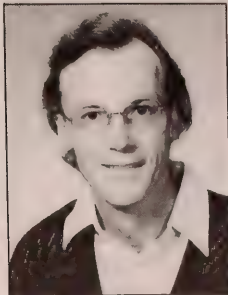

Winners included:
 -- **Ronda R. Stump**, continuing education representative at Penn State Harrisburg, for development of a program in conjunction with the Department of Environmental Resources, on solid waste recycling management.

-- **Thomas L. Schaefer**, Continuing Education office, York, for development of a noncredit program to help York County residents learn critical issues related to land use, quality of life and growth management.

-- **Ron Workinger**, York, for a program developed in conjunction with the College of Earth and Mineral Sciences, to help train workers at the Caterpillar Co. in the principles of metal plating and coating technology.

-- **Jane Keath and Beth Gill-MacDonald**, York, for development of a credit program that taught teachers how to build self-esteem in children, a factor that helps learning achievement and social skills.

-- **Leslie A. Curtis**, continuing education, Penn State Erie, The Behrend College, for direction of a quality methods and

Alexander von Eye

management certificate program that addressed the "continuous process improvement effort" which has become a manufacturing emphasis.

-- **Donald A. Gogniat**, director of continuing education, York, and **Terry L. Riley**, director of the Lancaster Center, for a program to provide manufacturing firms in Southcentral Pennsylvania with the managerial and technical skills necessary to improve their production capacity.

-- **Janet Patterson**, director of continuing education at Penn State-Behrend, formerly director at Mont Alto, for development of a workshop at Mont Alto designed to help regional students in the Cumberland Valley stay in school and go on to college.

Chemistry award

Barbara Garrison, professor and head of the Department of Chemistry, is the winner of the American Chemical Society's 1990 Akron Section Award.

A theoretical chemist who uses supercomputers to understand the behavior of solids and surfaces, Dr. Garrison is, perhaps, best-known for her models of the bombardment of solids by energetic

particles. Her work is important in such diverse areas as semiconductor device fabrication, structural determinations of molecules on metal surfaces, and determination of solar wind action on extraterrestrial surfaces.

Dr. Garrison received an engraved plaque and a \$1,000 honorarium.

The award is presented each year to a chemist 45 years of age or younger who demonstrates exceptional promise for making significant contributions to the chemical sciences.

Earlier this year, Penn State honored Dr. Garrison with the Faculty Scholar Award for Outstanding Achievement in the Physical Sciences and Engineering.

A graduate of Arizona State University, she earned a doctorate in chemistry at the University of California at Berkeley.

Emerging professional

Frederick "Rick" W. Schulze of Williamsport, who develops education and support programs for people with AIDS, has received the 1990 Emerging

Professional Award from the College of Health and Human Development. The annual award, co-sponsored by the college and its alumni society, recognizes graduates of the previous six years who have shown professional excellence or exemplary community involvement in the health and human development professions.

Mr. Schulze, one of 75 people chosen as an "American Who Cares" by the National AIDS Network in Washington, D.C., is an HIV Public Health Program Representative with the North Central District of the Pennsylvania Department of Health. He has developed and coordinated an 11-county volunteer "buddy" system for people with AIDS.

He is a volunteer AIDS educator for the Regional Family AIDS Federation of Parents and Friends of Lesbians and Gays (Parents FLAG).

A part-time Penn State health education instructor, Mr. Schulze holds a bachelor's degree in communications from Mansfield University and earned a master's degree in health education from Penn State in 1985.

Continuing Education

Penn State Continuing Education received seven major awards at the annual meeting of Region II, National University Continuing Education Association. The awards were for several non-traditional educational programs assisting business, industry, and municipalities and for a credit program helping a school district build pupil self-esteem.

Letter to the Editor

To all my good friends across the University whose kind words, prayers, flowers, were so deeply appreciated...thank you. You should understand how much your messages encouraged me to carry on in the face of darkest adversity.

I hate the impersonality of anonymous letters, cards, notes and prayers which refresh treasured thoughts of friends when my fading brain strives to recall within a montage of family, friends, colleagues, secretaries, parochial staff from myriad sources such as the academic colleges at University Park and the Commonwealth Colleges affiliated with these colleges. Colleagues from a number of other institutions, including The State University of New York at Albany; The University of Wisconsin (Madison), Columbia and Columbia Teachers College, also wished me

speedy recovery from my incurable illness.

Everyone whom I knew from these colleges, universities, and affiliates sent cards and epistles. Would that I could spend the time to reply to each of these wishes in the manner and tone which generated your thoughts. But the time is short-lived, so I must seek the help of my friends who edit university, college and professional newsletters.

Again, many thanks to you, your families, your friends, for wishing me well in this battle. I love your thoughts and I regret my inability to supply the long telegrams which your kind thoughts so warmly deserve. God Bless Live long, happy, and healthful lives.

Edward R. Fagan
 Professor Emeritus of Education

Bookshelf

Words for My Daughter, the third collection of poetry by **John Balaban**, professor of English, has won selection in the National Poetry Series, one of the most prestigious annual contests open to American poets. Of the 1,400 manuscripts submitted to the contest, five were chosen by distinguished judges. Professor Balaban's manuscript will be published by Copper Canyon Press in June 1991.

One of the poems in his book also won selection in the 1990 Pushcart Prize XV anthology; another was selected for *Harper's* magazine Reprint section.

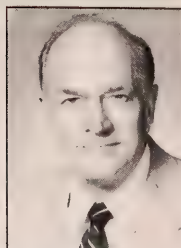

Robert F. Schmalz, professor of geology, E. Willard Miller, professor emeritus of geography, and S.K. Majumder of Lafayette College are co-editors of *Environmental Radon*:

Occurrence, Control and Health Hazards, published by the Pennsylvania Academy of Science.

This book of 30 chapters and 30 authors provides a comprehensive survey of environmental radon. Radon, the silent killer, is now recognized as a worldwide threat to health. The volume is divided into six parts beginning with an historical perspective followed by the geological aspects of radon, the detection and measurement of radon, health problems and the regulation and policies of radon control, legal aspects and economic impacts.

Besides the co-editors, other Penn State authors of chapters are **Arthur W. Rose**, **John W. Washington**, **Daniel J. Greenman**, geosciences; **William A. Jester**, **Bonnie C. Ford**, **James Livingston**, nuclear engineering; and **Benjamin N. Henszey**, business law.

25-year award recipients

Observing 25 years of service at the University are, from left, John V. Cooney, campus executive officer at the Penn State Allentown Campus; Marilyn Eastridge and Elizabeth Wenrick, assistant professors of exercise and sport science, and Margaret Wenrick,

secretary A, administrative services, Dean's Office, all in the College of Health and Human Development; Douglas Sampson, professor of astrophysics, Eberly College of Science.

Faculty/Staff Alerts

Job announcements

The Employment Division reminds University faculty and staff that, in addition to the *Penn State Intercom*, University employment opportunities are listed on WPSX-TV, Pennarama, CNet, and through the Penn State Job Information Service TIPS Telephone Service (865-JOBS).

"This extension of the Penn State job announcing program has been very successful," Milt Trask, manager of the Employment Division, said. "We have received many positive comments about these services."

Here is the schedule of air time for each announcing program: WPSX, Thursday, 7 and 11 p.m.; Pennarama, Monday, Wednesday, Friday, 6 a.m., 6 p.m., noon and midnight; and Tuesday, Thursday, Saturday, 8 a.m., 8 p.m., 2 a.m., and 2 p.m.; CNet, listed periodically throughout the day from Friday through Tuesday of each week the *Intercom* is published. This information is available to viewers in Centre County who are subscribers to TCI of Pennsylvania.

The Telephone Job Information Service may be accessed by dialing (814) 865-JOBS.

Software bundling policy

The University recognizes that the majority of personal computers purchased are used for the manipulation and preparation of text. In order to enable us to reduce the cost of the software which is purchased to support these functions for the vast majority of microcomputers sold, we will begin bundling a word processing software package with every microcomputer sold to faculty, staff, students and departments.

This policy also demonstrates our commitment to respect the intellectual property rights of others and to reduce the opportunity for faculty, staff and students to knowingly or unknowingly engage in illicit software copying, thereby placing the University at risk.

On Nov. 12, we will begin by bundling a word processing software package with each Macintosh sold to the University

community. A similar program for IBM microcomputers will be implemented in the near future as soon as we complete negotiations with word processing suppliers.

Each Macintosh purchased will include Claris MacWrite II. The purchaser may choose to substitute another word processing software package offered by the Microcomputer Order Center at an additional cost. Personal purchasers may make the substitution at time of order. Departmental systems will be delivered with the Claris MacWrite II software. It may be exchanged, if unopened, at the Microcomputer Order Center (MOC) located in 12 Willard Building at University Park.

Current word processing software selection options for Macintosh Computers are Claris MacWrite II and Microsoft Word.

If an individual (or department) already has word processing software that can be legally used on a newly purchased microcomputer, the purchaser must present the original software program distribution disk and the licensing page from the software manual for marking and registration by the Microcomputer Order Center as proof of previous purchase.

'Leave the Pack Behind'

On Thursday, Nov. 15, Penn State, along with colleges and universities around the country, will recognize the annual Great American Smokeout sponsored by the American Cancer Society.

This 24-hour break from tobacco provides a chance for smokers and non-smokers alike to work as a team to encourage good health and support those trying to stop smoking cigarettes or using smokers tobacco. Faculty, staff and students are invited to join the Smokeout by either quitting their tobacco habits for the day or "adopting" a friend or co-worker who is trying to quit.

During last year's Great American Smokeout, approximately 10.5 percent of

the nation's smokers were able to quit for 24 hours. One to three days later, 3.9 million still were not smoking.

At University Park, the Faculty/Staff Health Promotion Program and student Office of Health Promotion and Education will provide survival kits, snacks and information on quitting.

For information about how to participate in the Great American Smokeout at other University locations, contact the campus health center or the Faculty/Staff Health Promotion Program Office at (814) 865-3085.

Holiday card purchases

The Penn State Bookstore on campus wishes to clarify the method by which departments purchase the Penn State holiday cards.

General funds should not be designated for this purchase; unrestricted departmental gift funds should be used instead. Departments are advised to contact their financial officers if they have questions about this type of purchase. Call Shirley Baney or Stephanie Luther (863-2512) at the bookstore to order Penn State holiday cards.

Courses for faculty and staff

The Human Resource Development Center has openings in the following courses. Call the Center at 865-3410 for registration information.

Intergroup Relations II Introduces practical skills to improve interactions with culturally diverse individuals; prerequisite: Intergroup Relations I; meets from 9 a.m. to 4 p.m. Monday, Nov. 26, cost: none.

Satisfying more than one Boss The interactive program will allow participants to analyze their current situation, develop goals and action steps to improve it, and to evaluate the success of the alternatives chosen; meets from 1:15 to 3:15 p.m. on three Tuesdays, Nov. 27 to Dec. 11, cost: \$55.

Conflict Resolution Focus is on theories of anger, different reactions to anger and

implementation of techniques and skills to use in conflict resolution; meets 9 a.m. to 4 p.m. Wednesday, Nov. 28, cost: \$55.

Affirmative Action Learn about the University's affirmative action goals and objectives; meets 1:15 to 4:30 p.m. Thursday, Nov. 29, cost: none.

Career Planning This course will assist participants in developing career goals, job search strategies; resume writing and interview skills; meets 8:30 to 11:45 a.m. Mondays, Dec. 3 and 10, cost: none.

Organizational Team Building This workshop will help work units decide on the applicability of team building for their units; meets from 8:30 to 11:45 a.m. Wednesday, Dec. 5, cost: \$35.

Burnout This workshop will explore possible alternatives and solutions to burnout; meets from 9 a.m. to 4 p.m. Wednesday, Dec. 12, cost: \$55.

Managing Cultural Diversity Practice decision-making related to cultural diversity, and challenge and develop managerial skills; meets from 9 a.m. to 4 p.m. Monday, Dec. 17, cost: none.

The One Minute Manager Learn how to increase staff productivity and morale through Ken Blanchard's video "The One Minute Manager." Participants will receive a software copy of the book; meets from 9 a.m. to 4 p.m. Wednesday, Dec. 19, cost: \$55.

Parking at Rider Building

There is no loading zone or available University parking at Rider Building for pick up or deliveries. Burrows Road in front of the Rider Building is posted no parking. The Borough of State College is issuing parking tickets to those parking in the no parking area.

Faculty and staff members should park at metered spaces or at the Fraser Street parking garage. In addition, the campus shuttle has a stop at the corner of Burrows Road and College Avenue, and the town loop bus which originates at Shields Building has a stop at Rider Building.

Appointments

Kenneth I. Clarke has been appointed assistant director of religious affairs.

In his new capacity he will be responsible for Eisenhower Chapel's educational programming and will especially focus on issues of religion and cultural diversity.

Mr. Clarke earned his bachelor of arts degree in English in 1980 from Morgan State University, Baltimore, Md., and his master of divinity degree from Colgate Rochester Divinity School, Rochester, N.Y., in 1986.

An ordained minister, Mr. Clarke comes to the University from Third Baptist Church, San Francisco, Calif., where he was an assistant pastor and administrator. He formerly held positions as a youth pastor and an at-risk counselor.

Charles R. Enis has been appointed the first Coopers and Lybrand Faculty Fellow of Accounting at the University.

Created in 1989 through a gift of \$100,000 from the partners, staff and

Kenneth I. Clarke

foundation of Coopers and Lybrand, a major accounting firm, the fellowship

recognizes an outstanding member of the Department of Accounting and Management Information Systems at Penn State.

Dr. Enis, whose research interests are in taxation, public policy and human information processing, joined the University faculty in 1981.

An associate professor of accounting and management information systems, he holds bachelor of science degrees in accounting and finance/economics, an M.B.A. and a D.B.A., all from the University of Maryland. He also is a licensed certified public accountant in Maryland.

Three new administrators have been named to the staff of the Penn State Wilkes-Barre Campus.

Cintia Harbold, a recent graduate of Cornell University with a B.S. in human development and family studies, has been appointed student activities director.

As an ALERT Peer Counselor at Cornell,

she received extensive training for drug and alcohol education. She served as a relief counselor for Concern Inc., Bethlehem, Pa., where she encouraged positive social interactions and appropriate behavior by children and adolescents in professional foster homes.

Diane Myers, development assistant, formerly served as the director of the Volunteer Action Center, a division of the United Way of Wyoming Valley.

She is a graduate of Beaver College, Glenside, Pa., with a B.A. in history, and of Drexel University, where she earned her M.S. in library science.

Joann Masili, assistant for public information and alumni relations, received a B.A. in speech communications/broadcasting from Penn State.

She has extensive experience in advertising, marketing and public relations, holding positions as a copywriter for a local radio station; associate producer and public relations coordinator at Media Productions/Videolink, Scranton; and as a marketing coordinator for Eagle Lake, a Pocono resort.

Focus on the arts

Continued from page 6.

is Music Today" at 8 p.m. Wednesday, Nov. 14, in the Recital Hall of the Music Building at University Park.

The lecture is sponsored by the School of Music and is part of the inaugural "Music Today 1990-91" lecture series.

Mallet ensemble

The Penn State Mallet Ensemble will perform in concert at 12:10 p.m. Thursday, Nov. 15, in Eisenhower Chapel at University Park. The 20-minute concert is part of the Bach's Lunch Concert series, sponsored by the School of Music and the University Lutheran Parish.

The program will consist of arrangements of music by Tchaikovsky, Humperdinck and Johann Strauss performed with marimbas and xylophones. The group is conducted by John Rack, percussion instructor in the School of Music, and includes Chad Francis, Krista Lundvall, Joseph Parker, Timothy Smith, Jessica Stehr and Kevin Tutt.

Tuba soloist

Skip Gray, associate professor of music and low brass teacher at the University of Kentucky, will present a tuba recital at 8 p.m. Thursday, Nov. 15, in the Recital Hall of the Music Building at University Park.

Caryl Conger, head of accompanying and chamber music at Radford University in Virginia, will accompany him. The program includes works by Handel, Hindemith, Bozza and Frank Lynn Payne. In addition, Mr. Gray and Ms. Conger will perform their own arrangement of Ravel's "Mother Goose Suite."

Museum discussion

Kahren J. Arbitman, director of the Palmer Museum of Art, will discuss "Pen, Ink and Genius: The Drawings of Rembrandt and Rubens" at 8 p.m. Thursday, Nov. 15, at the museum at University Park.

Her talk will focus on Rubens' and Rembrandt's use of drawings, from brief on-site sketches that served as preliminary design, to highly detailed drawings that were works of art themselves. She also will discuss the range of media the artists used, from red chalk to sepia and bistre ink.

Holiday musical

The University Resident Theatre Company presents "The Butterfingers Angel," a fun-filled holiday musical, opening at 8 p.m. Friday, Nov. 16, in the Pavilion Theatre at University Park.

The play is a straightforward telling of the nativity story with just enough humor to make it fun for the whole family.

"It tells of the birth of Christ but in very contemporary human terms," director Helen Mansfull explained. "It deals with the human faculties of the people involved in that important story."

Additional performances will be given Nov. 16-17, Nov. 19-20 and Nov. 27-Dec. 1, with a special matinee performance on Nov. 17. For ticket information, call (814) 863-0255.

Formal Gallery exhibit

"Contrasts: 40 years of Change and Continuity in Puerto Rico" is on exhibit until Dec. 2 in the Formal Gallery of the Hezel Union Building at University Park.

The exhibit, which is the culmination of

40 years of work by photographer Jack Delano, is part of the Smithsonian Institution Traveling Exhibition Service (SITES).

Mr. Delano's purpose was not just to track down the same people for before and after portraits, but to compare whole lifestyles and attitudes, as well as faces and places.

New department

A cross-disciplinary general arts degree program is the fastest growing major in the College of Arts and Architecture and is the center of the new Department of Integrative Arts.

"The new department provides a permanent home for the program that has grown 125 percent since 1987, and is now the primary academic unit for all arts and architecture faculty members at the 'Commonwealth Campuses,'" William Crocken, head of the new department, said.

Students enrolled in the general arts degree program develop individual and multidisciplinary arts programs from courses in the College of Arts and Architecture as well as other colleges in the University. The programs balance the fine and applied arts with internships in the student's area of professional interest.

The Department of Integrative Arts also has been designated as the home for the interdisciplinary general arts courses that fulfill basic degree requirements for all students at the University.

The Board of Trustees approved the formation of the Department of Integrative Arts at its May 1990 meeting, creating a home for the general arts major. It is the first new department in the college since it was created in 1963.

Power of the word

The six-part PBS series *The Power of the Word* with Bill Moyers is now available on videotape from Audio-Visual Services. The segments present poetry as a dynamic, deeply personal process that speaks to common human experience and the sorrows and joys of everyday life. Such contemporary poets as Stanley Kunitz and Octavio Paz are featured, and readings at the 1988 Geraldine R. Dodge Poetry Festival are shown.

The programs are available at no charge to University faculty and staff members for classroom use. At University Park, call 865-0913 for more information and to make arrangements for a preview showing. At a Commonwealth Campus, contact the campus instructional services specialist for ordering procedures.

Anti-apartheid musical

The Market Theatre of South Africa, and Broadway, will present "Sarafina!" a musical about black South African students and their rebellion against apartheid at 8 p.m. Tuesday, Nov. 27, in Eisenhower Auditorium at University Park.

Despite its political basis, "Sarafina!" prefers to distinguish itself as a musical celebration. The 30 South African teenagers in the cast celebrate as they leap and skip to the beat of South Africa's native music, called mbaqanga. Combining jazz, rock, gospel and rhythm and blues, mbaqanga creates the intense, driving sound also called "music of liberation."

The audience is invited to a pre-show discussion with a member of the "Sarafina!" touring company as part of the Artistic Viewpoints lecture series at 7 p.m. in the Eisenhower Auditorium Greenroom.

Priestley lectures in chemistry are scheduled

Ronald Breslow, S.L. Mitchell professor of chemistry at Columbia University, will present the 1990 Joseph Priestley Lectures in Chemistry Nov. 12-15 at University Park.

The four-lecture series, titled "Biometric Chemistry," is sponsored by the Eberly College of Science and is open to the public, free of charge.

Dr. Breslow will lecture on: "Double Binding in Biometric Chemistry and in Chemotherapy," 8 p.m. Monday, Nov. 12, Room 110 Wartik Laboratory; "Mimics of Ribonuclease Enzymes," 8 p.m. Tuesday, Nov. 13, Room 110 Wartik Laboratory; "Mimics of Enzyme-Coenzyme Systems," 4 p.m. Wednesday, Nov. 14, Room 5-5 Osmond Laboratory, and "Limiting Selective Biological Functionalizations," 12:15 p.m. Thursday, Nov. 15, Room 5-5 Osmond Lab.

Dr. Breslow is a Fellow of the American Association for the Advancement of Science (AAAS) and an elected member of the National Academy of Sciences, the American Academy of Arts and Sciences,

and the American Philosophical Society.

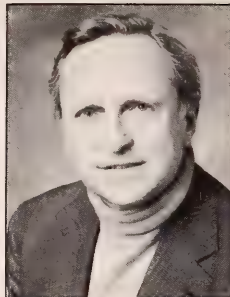

He has won numerous awards, including a Sloan Research Fellowship, the American Chemical Society Award in Pure Chemistry, and the Centenary Medal of the British Chemical Society.

A member of the Rockefeller University Board of Trustees since 1981, he has been chairman of the Organic Division of the American Chemical Society, chairman of the Division of Chemistry of the National Academy of Sciences, and chairman of the Chemistry Section of the AAAS.

Dr. Breslow joined the Columbia University faculty as a chemistry instructor in 1956. He was promoted to associate professor in 1959, professor in 1962, and was named S.L. Mitchell professor of chemistry in 1967. From 1976 until 1979, he was chairman of the university's Department of Chemistry.

He holds a bachelor's degree in chemistry, a master's degree in biochemistry, and a doctoral degree in organic chemistry from Harvard University.

The Priestley Lectures are named in

Ronald Breslow

honor of Joseph Priestley, the 18th century chemist who discovered oxygen, and were established by the late Professor Wheeler P. Davey in 1926.

Division head sought

Penn State Harrisburg announces an internal search for the position of head, Division of Public Affairs. Reporting to the associate provost of the College, the division head serves as chief administrative officer and academic leader for the Division.

Candidates must have an earned doctorate, be tenured at Penn State at the rank of associate professor or professor (the latter is preferred), be a senior member of the Graduate Faculty with a substantial research record, and have teaching experience in public affairs, administration, or policy.

Candidates also should have a demonstrated commitment to affirmative action and to a collegial management style that fosters and facilitates the accomplishments of faculty and staff.

Appointment to the position will begin as early as January, 1991. Closing date for applications is Dec. 8. Applicants are invited to submit a letter of application and a resume to: Professor Christopher K. McKenna, chairman, Public Affairs Search Committee, Penn State Harrisburg, Middletown, Pa. 17057.

Staff Vacancies

The following vacancies for positions classified as staff exempt or staff nonexempt have been listed with the University Employment Division for filling. The brief statements for each vacancy are illustrative. They are not complete position descriptions. APPLY BY CALLING THE EMPLOYMENT DIVISION, 863-0304. Applications for these staff vacancies will be accepted until Nov. 15. DO NOT CONTACT THE AREA THAT HAS THE VACANCY. Applications for staff

vacancies are considered in accordance with Fair Employment practices (FEPS) and in compliance with the University's Affirmative Action Compliance Program without regard to race, color, religion, national origin, handicap or age as provided by law, sex or status as a disabled or Vietnam era veteran.

*0109. Food and Beverage Service Supervisor, Nittany Lion Inn, University Park Campus - Responsible

to the assistant manager, Food and Beverage, for the operation of the main dining room and special food and beverage service operations, and for the selection, training and supervision of food and beverage service personnel to ensure efficient and high quality service. Requires associate degree or equivalent, in food service or related field plus over two up to and including three years of effective experience in supervision of personnel in a similar food service operation. STAFF GRADE 6.

*0110. Intake Specialist, Student Services, Center for Counseling and Psychological Services, University Park Campus - Responsible to the director Counseling and Psychological Services for intake interviewing and evaluation of students with psychological concerns. Requires master's degree or equivalent in clinical or counseling psychology or social work, plus one to two years of effective experience, or bachelor's degree

in nursing with psychiatric specialty including current licensure and two to four years of effective experience. Experience in a hospital or university student clinic desirable. STAFF GRADE 7.

*0111. Area Representative, Continuing Education, Penn State Harrisburg - Assist in establishing program goals and objectives, assume administrative responsibility as assigned for planning, scheduling, staffing, conducting evening school class operations, workshops, conferences and contracting services with clientele. Develop an efficient and effective marketing plan for programs to be administered; assist in the identification and analysis of educational needs of individuals, groups or institutions; maintain contacts with the colleges of the University and process necessary forms. Plan and conduct student registrations. Requires bachelor's degree or equivalent

plus two to three years of effective experience in business, industry or education. STAFF GRADE 7.

Hershey

For the following position vacancies, apply directly to The Milton S. Hershey Medical Center. Attach resume with cover letter indicating the position vacancy code and forward to the Department of Human Resources, Hershey, or call the Hershey bid line at (717) 531-8531 by Nov. 15.

*14684. Administrative Head Nurse, Department of Nursing Services, Hershey - Responsible to nursing manager, main operating room complex for implementation of the operating room schedule and coordination of activities. Also responsible for non-professional FTEs. Bachelor of science

degree in nursing from an accredited school of nursing plus one to two years of effective experience and currently licensed to practice as a registered nurse by the Pennsylvania State Board of Nursing.

*14657. Administrative Head Nurse, Department of Nursing Services.

Hershey - Responsible to nursing manager, Ambulatory Operating Room, for implementation of the operating room schedule and coordination of activities with physicians and other departments involved with the care of the surgical patient. Bachelor of science degree in nursing from an accredited school of nursing plus one to two years of effective experience and currently licensed to practice as a registered nurse by the Pennsylvania State Board of Nursing. Operating room and medical-surgical experience required.

Susan Welch is appointed dean of Liberal Arts

Susan Welch, the Carl A. Hoppold Professor in the Department of Political Science at the University of Nebraska, has been named dean of the College of the Liberal Arts.

Her appointment, effective July 1, 1991, was approved by the Board of Trustees at its meeting Nov. 9 at University Park.

"Dr. Welch is an outstanding choice for the deanship," President Thomas said. "She brings not only an outstanding record in research, teaching and administration, but also the ability to direct the College of the Liberal Arts into the future."

Dr. Welch has authored or co-authored 10 books and monographs, including *A Dream Deferred: Black Attitudes on Race and Inequality* (University of Cambridge Press, forthcoming in 1991) and *Urban Reform and*

Its Consequences: A Study in Representation in 1988 (University of Chicago Press).

She has published extensively in numerous scholarly journals such as *American Political Science Review*, *Journal of Politics* and *American Journal of Political Science*. Her articles, which exceed 120, focus on a variety of topics, including women and minorities in politics and government.

She has received several grants from the National Science Foundation and other federal agencies.

Other accomplishments include serving as editor of *American Politics Quarterly* and on the editorial boards of eight publications, including *American Political Science Review*, *National Political Science Review*, *American Journal of Political Science*, *Social Science Quarterly* and *Women and Politics*.

Among her numerous professional achievements, she also has been active in the American Political Association, serving in many executive positions.

Dr. Welch joined the University of Nebraska in 1970 as an assistant professor of political science, was named associate professor in 1973 and became a professor in 1977. Among her many university activities, she was the chair of the Department of Political Science from 1977 to 1985 and currently is chair of the Chancellor's Commission on the Status of Women.

Her degrees are an A.B. in history (1963), M.A. in political science (1966) and a Ph.D. in political science (1970), all from University of Illinois at Urbana-Champaign.

Susan Welch

Playground dedicated

President Thomas helps a youngster off a slide following dedication ceremonies Nov. 9 for the new **Edna Peterson Bennett and C. Eugene Bennett Playground**, located adjacent to **Henderson Building South** at University Park. Construction of the playground, part of the **Child Development Laboratory** in the College of Health and Human Development, was made possible by a \$100,000 gift from the **Bennetts of Wilmington, Del.** Edna Bennett earned a degree in home economics with an emphasis in child development from Penn State, where she met her husband, who was a graduate student in chemistry. (Photo: Greg Grieco)

Report indicates retention rate gap has been narrowed

Penn State has narrowed the gap in one-year retention rates between White and African American/Black American students, the Board of Trustees has learned.

"The University has provided a considerable array of support to those students who need assistance," Jerry Covert, associate dean for undergraduate education and chair of the President's Council on Undergraduate Recruitment and Retention, said.

"It has been an important goal to increase retention rates of all students and eliminate the retention rate differences between White, African-American and Hispanic undergraduate students through support programs such as counseling, advising, tutoring, special courses and special course sequencing."

Of 309 African-American freshmen from fall 1989 about 81 percent, or 249, have remained in a degree program. This compares to 85 percent retention rate for fall 1989 White freshmen, or 6,883 out of 8,135 students.

There is a difference of only 4 percentage points between White and Black freshmen who stayed after one year, a decrease from 0 to 7 percentage points of previous years," Dr. Covert noted.

The one-year retention rate for fall 1989 Hispanic freshmen is 74 percent, or 121 students out of 163.

The two-year retention rate for fall 1988

Please see "Retention" on page 5.

Focus on Diversity

Advisory committee to focus on internationalizing curriculum

An International Resources Advisory Committee has been appointed by **C. Gregory Knight**, vice provost and dean for undergraduate education, and **W. LaMar Kopp**, deputy vice president for international programs.

The committee will focus on internationalizing Penn State's undergraduate curriculum and will serve as a resource base for curricular enhancement and for the global perspectives component of the cultural diversity requirement. The committee also will assess the potential for an interdisciplinary International Studies Program at the undergraduate level.

The range of expertise of the Committee members assures comprehensive and enthusiastic support for expanding international concerns in the undergraduate curriculum," Dr. Knight said. "The role of the committee will evolve over time to meet the curricular challenges afforded Penn State by increasing global educational, political, and economic interdependence."

"In this global age, we cannot afford to be ignorant of the rest of the world," Dr. Kopp added. "Students need to be aware of the influence on their everyday lives of other cultures and countries. It is the committee's challenge to provide a resource for developing the cultural diversity requirement and an international studies component in the undergraduate curriculum."

Max King, coordinator of academically superior student recruitment and selection officer, University Scholars Program, will chair the Committee.

Members include **Micela Amateau**, assistant professor of art; **Paul Axt**, professor of mathematics; **John D. Burke**, associate provost/senior associate dean,

Penn State Erie. The Behrend College; **Charles Cantalupo**, associate professor of English, Penn State Schuylkill Campus; **Arlen Etling**, assistant professor of agricultural and extension education; **Diane L. Garner**, head of documents and maps, Pattee Library; **George Heitmann**, professor of management science and director of international programs, Smeal College of Business Administration.

Glenda Laws, assistant professor of geography; **Michael M. Nayan**, associate professor of Slavic languages; **Joseph Prewitt Diaz**, associate professor of education and bilingual program specialist; **Scott Reed**, Undergraduate Student Government; **Robert A. Walker**, senior research associate, Science, Technology, and Society Program; **Vernis M. Welmon**, assistant to the dean for minority relations and international programs, Smeal College of Business Administration; **Vasundara V. Varadan**, distinguished alumni professor of engineering science and electrical engineering, and **Lucy C. Yu**, associate professor of health policy and administration.

Jerry B. Gower, associate dean for undergraduate education, and **Tannaz Rahman**, associate director of international programs, will serve as resources to the Committee. **Patricia A. Ellenberger**, Undergraduate Education, will serve as staff support.

"There is great importance in emphasizing throughout the undergraduate curriculum the multicultural international world," Dr. King said. "The committee's work on internationalizing the curriculum contributes to student and faculty discourse on diversity issues."

Contributors to the volumes include several University faculty members: **Clifford C. Clogg**, professor of sociology and statistics; **Paul A. Games**, professor of human development; **John R. Nesselrode**, distinguished research professor of human development; **Michael J. Rovine**, assistant professor of human development.

William F. Walsh and **Edwin J. Donovan**, assistant professors of administration of justice, are the authors of *The Supervision of Police Personnel: A Performance Based Approach*, published by Kendall/Hunt.

The authors cite the increased emphasis on professional, research and experimentation in law enforcement.

"They note that future police supervisors will receive comprehensive training that reflects the changing nature of their role as human resource managers and community crime prevention specialists. This training will prepare them to be facilitators, problem preventers and problem solvers.

Faculty art exhibit

Richard Mayhew, minority artist-in-residence in the School of Visual Arts, lectures to minority students about art at the Zoller Gallery prior to the opening of the annual faculty exhibition. The exhibition runs through Dec. 7. (Photo: Greg Grieco)

Bookshelf

Eugene N. Borza, professor of ancient history, is the author of *In the Shadow of Olympus: The Emergence of Macedonia*, published by Princeton University Press.

Dr. Borza's work traces the ancient Macedonian kingdom from its origins as a Balkan backwater to its status as a major European and Asian power.

Drawing heavily on new archaeological discoveries and his own research in historical geography, he suggests that the Macedonians, while heavily influenced by the Greek city-states, maintained their own ethnicity as a Balkan people, and may have developed Europe's earliest national state.

Stephen J. Cimbala, professor of political science at the Penn State Delaware County Campus, is the author of *First Strike Stability: Deterrence After Containment*, published by Greenwood Press.

Dr. Cimbala notes, "Drastring American

and Soviet force reductions, German reunification and speculation about the realignment of NATO and the Warsaw Pact all cast a shadow of apparent irrelevance over the entire question of nuclear escalation and conventional war in Europe."

He points out, however, that the current realignments of power in Europe do not preclude the possibility of war as a way to settle disputes, disarm opponents or anticipate a perceived aggressor.

Geoffrey Godbey, professor of leisure studies in the College of Health and Human Development, is the author of *Leisure in Your Life: An Exploration*, third edition, published by Venture Publishing Inc., in State College.

The book examines leisure from historical, sociological, and philosophical perspectives. It covers such issues as changes in leisure during the Industrial Revolution, leisure patterns in daily life, and the relationship between leisure and other aspects of life such as health,

education and the economy.

New material covered in the third edition includes tourism, wellness, women's experiences of leisure, and the rise of serious and specialized forms of leisure behavior in society.

The book has become a widely used textbook in introductory courses dealing with the role of leisure in society.

Alexander von Eye, professor of human development, is editor of two volumes in the "Statistical Modeling and Decision Science" book series from Academic Press Inc.

Dr. Von Eye is editor of *Statistical Methods in Longitudinal Research*, volume one (Principles and Structuring Change) and volume two (Time Series and Categorical Longitudinal Data).

The books are designed for researchers, graduate students and upper-level graduate students in a variety of disciplines, including the social sciences, economics, biology and medicine.

From the Trustee Docket

Building plans

The Board of Trustees has approved proposed sketch/preliminary plans for new buildings at two Commonwealth Campuses and final plans for the Pennsylvania Coal Center for Desulfurization Research at University Park.

The proposed sketch/preliminary plans are for an academic building at the Berks Campus and a library at the Schuylkill Campus.

The one-story, 17,100-square-foot academic building will be located west of the library at Berks. It will contain six classrooms, faculty offices and the offices of Counseling, Continuing Education, Finance and the Registrar. The budget for the project is \$2,586,546, including approximately \$300,000 for renovations to the Luerssen Building on campus.

The Schuylkill library will be located adjacent to the existing multi-purpose and classroom buildings on campus. In addition to the library facilities, the 22,600-square-foot building will include a learning center with a computer-assisted writing lab. The budget for the state-funded three-story building is \$2.6 million, \$1 million of which was raised locally.

The Pennsylvania Coal Center for Desulfurization Research at University Park will be used for state-funded research on ways to eliminate sulfur by-products created from the use of Pennsylvania coal.

The 20,675-square-foot building will be located between and connected to the existing Academic Activities and Academic Projects Buildings on Bigler Road. It will have two two-story sections connected by an area of offices forming a second-story link between them. The budget for the state-funded project is \$3.46 million.

In other action, Trustees named Ewing, Cole, Cherry, Parsky of Philadelphia to design a proposed multi-level parking

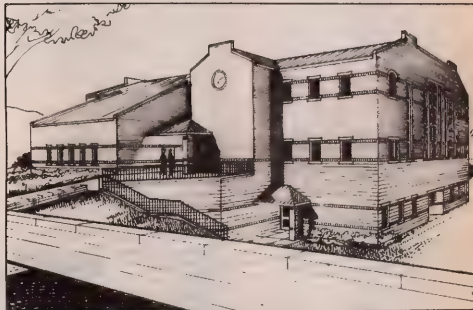

Artist's illustration of new academic building at Berks Campus

garage at University Park.

The parking garage, which is planned to accommodate 800 vehicles, will be built east of Eisenhower Auditorium on a portion of the existing parking lot. The garage will add significantly to available faculty/staff parking within inner campus as well as support theater arts events in Eisenhower Auditorium.

The building will most likely have a brick facade to make it compatible with other surrounding buildings. Construction is scheduled to begin next summer with occupancy slated for late summer 1992.

The new garage is part of a five-year University parking development plan prepared by the University Parking Committee consisting of faculty, staff and student representation. The new structures are funded by faculty/staff parking registration fees. The first parking structure funded from the parking registration fee was the Keller Terrace.

Sketch of new library at Schuylkill Campus

Name changes

The Board of Trustees has approved a program transfer and name changes for two departments.

The Science, Technology and Society Program will move from the Office of Undergraduate Education to the College of Engineering. The transfer will not affect the interdisciplinary character of the program and is expected to enhance graduate education and research.

In the College of Agriculture, the Department of Agricultural Engineering will now be known as the Department of Agricultural and Biological Engineering. This change reflects more accurately the scope of department programs in instruction and research.

In the College of Medicine at The Milton S. Hershey Medical Center, the Department of Anatomy will be called the Department of Neuroscience and Anatomy. The new name encourages an integrative curriculum for the study of the anatomical sciences and the neurosciences.

Trustees earlier reviewed the creation of two new graduate programs, a doctoral

degree in biobehavioral health and a master's degree in hotel, restaurant and institutional management, both in the College of Health and Human Development.

The name of the agricultural mechanization major in the College of Agriculture will change to agricultural systems management and technology.

Trustees also reviewed the elimination of three associate degree majors in the College of Engineering: chemical engineering technology, highway engineering technology and railway engineering technology. All were dropped because of low enrollment.

Financial report

The Board of Trustees has received a report on the University's 1989-90 audited financial statements.

Total assets of the University as of June 30, 1990, were \$2,301 billion, before depreciation," Kenneth S. Babe, corporate controller, said.

Revenue received by the University in

1989-90 was \$1,152 billion. This is a 162 percent increase over the \$439 million received in 1979-80.

State allocations in 1989-90 accounted for 21.5 cents of every dollar, or 21.5 percent of total revenue, Mr. Babe explained. In 1979-80, state allocations were the largest single source of revenue for the University, accounting for nearly 30.0 cents of every dollar.

Tuition and fees are now the largest single source of revenue. They accounted for 20.1 percent of total income in 1989-90. In 1979-80, these accounted for 21.8 percent of total revenues.

The annual independent audit was performed by Deloitte and Touche. In addition, Mr. Babe said, the University's own internal auditing staff prepared 34 separate reports for the 1989-90 fiscal year.

Carpooler

Rita is looking for one rider to carpool from Philipsburg to University Park; work hours are 8 a.m. to 5 p.m. Call 863-0302.

Obituaries

J. Stanley Hummer, retired Columbia County agricultural agent, died Oct. 17. He was 84.

A member of the Penn State Cooperative Extension staff for 38 years, he retired June 30, 1967. He joined the Columbia County extension service in 1929 following graduation from Penn State with a bachelor of science degree in dairy husbandry. From 1934-43, he worked in both Columbia and Luzerne counties. He was promoted to county agent in 1955.

He pioneered the establishment of conservation practices on Columbia farms and initiated farm radio news coverage on two Bloomsburg stations.

Helen S. Stewart, production and stores supervisor, Department of Continuing Education, from Sept. 20, 1928, until her retirement March 1, 1971, died Nov. 1 at the age of 83.

Private Giving to Penn State

Cook gift supports scholarships, teaching, Libraries

A Penn State trustee and his wife have given the University \$500,000 for student and faculty support.

Donald M. and Virginia M. Cook of Cherry Hill, N.J., designated \$300,000 to be evenly divided between a scholarship endowment and a teaching fund, both in the College of Health and Human Development. The Cooks designated the remaining \$200,000 for the Special Collections of the University Libraries. The Cook scholarship will benefit

financially needy students who show academic promise and whose ethnic, cultural or national background contributes to the diversity of the student body.

The teaching endowment will support the college's teaching consultant program, established in 1983 to help faculty improve the quality of instruction.

The gift to the Libraries will be used to acquire manuscripts, correspondence and other materials related to the writings of award-winning novelist Paul West.

Mr. Cook is president of SEMCOR Inc., an engineering services firm based in Mount Laurel, N.J. He previously spent 27 years with the RCA Corp., retiring as president of RCA Service Co., a technical services unit.

He was elected to the Board of Trustees by the alumni in 1985 and was re-elected in 1988 for a second three-year term.

He also is past president of the Penn State Alumni Association, a 1985 Alumni Fellow of the College of Health and Human Development and chair of the

University Libraries development advisory board. He earned a bachelor's degree in recreation and parks and in 1960 received a master's degree in counseling from Penn State. From 1955 to 1960 he served as the University's director of placement services.

Mrs. Cook, a former teacher, earned both bachelor's and master's degrees in education from Penn State. Two of the Cooks' children, Kim Cook Smith and Debra Cook Billings, are Penn State graduates.

Company funds Hungarian health care seminars

Johnson and Johnson, manufacturer of health-care products, has given \$500,000 to fund two seminars on the reorganization and finance of health care in Hungary. This gift comes in the wake of the disintegration of Central European governments that once controlled health care systems for their people.

Marshall W. Raffel, professor of health policy and administration, will lead two six-member American teams of health policy experts to Budapest. The groups will meet with Hungarian government officials and medical professionals to help share their new model for the delivery and financing of health care. They also will provide

advice on how to establish a new system of health insurance and how local health boards can run their reorganized system.

"Johnson and Johnson has taken a forward step in providing the means for us to give assistance to the Hungarians as they move into the western democratic fold," Dr. Raffel said.

He noted that the seminars will include sessions on such topics as capitalizing an insurance program, establishing premium rates, competition in a health insurance system, mechanisms for payment for medical and hospital services, controlling costs and the proliferation of technology, assuring quality care given limited resources

and administering an insurance program. Dr. Raffel said that the Hungarians foresee the development of private health insurance and private hospitals.

"The sessions on the role and administration of local boards of health are vital because Hungarians have no tradition of health being supervised by local boards of health," he said.

Dr. Raffel added that other nations, including the Czech and Slovak Federal Republic (formerly Czechoslovakia), Lithuania, Bulgaria and Romania, also have requested similar consultations from Penn State.

Gift to establish Schiller lectures

Hershey Foods Corp. has committed \$60,000 to establish the William F. Schiller Lecture Series at the Hershey Medical Center.

The series will support lectures by outstanding physicians and others involved in orthopaedic research and education at the College of Medicine.

Mr. Schiller, a former chairman of the board of the Hershey Foods Corp., died earlier this year.

The Hershey Foods Corp. and its subsidiaries manufacture a variety of food products, including chocolate, pasta and confectionery.

Firm provides steel for SST telescope

Carpenter Technology Corp. of Reading has donated \$52,000 in specialty steel for construction of a unique telescope designed by two University astronomers.

The \$8.2 million Spectrographic Survey Telescope (SST) consists of 85 small mirrors arranged in a large, lightweight framework to form one mammoth reflective surface. The Invar 30 steel bar from Carpenter will be used in the mirror support structures.

"We're extremely excited about this project," Adolph Lena, company president and chief operating officer, said. "Carpenter Technology steel was used in the Wright brothers' flight at Kitty Hawk and on several other historic machines and products. We are pleased to be a part of the SST, which is equally revolutionary."

Mr. Lena, who was instrumental in securing the gift, earned a bachelor's degree in metallurgy from Penn State in 1948. He was named an Alumni Fellow of the University in 1982.

The SST, developed in conjunction with astronomers at the University of Texas at Austin, will be devoted exclusively to spectrographic analysis. It will have more than twice the light-gathering power of any current telescope at one-fourth the cost of other new-technology instruments being developed. It is being built at the MacDonald Observatory in west Texas.

Renaissance Fund dinner

More than \$62,000 was raised at the Renaissance Scholarship Fund dinner held Nov. 7 at the Elks Country Club in Boalsburg to honor Trustees vice president and community leader Marian "Mimi" Coppersmith Fredman, shown here with her husband, Samuel G. Fredman. Six Renaissance scholarships will be established in her name to assist financially needy students who show academic promise. Some 430 people attended the event, which raised the third-highest total since the dinners began 14 years ago. (Photo: Greg Grieco)

Gift from alumnus to support building

The School of Hotel, Restaurant and Institutional Management has received a donation of \$50,000 from an alumnus to support the new Mater Building planned for University Park.

Hugh Walsh, senior director of national accounts for Marriott Hotels and Resorts, is a 1960 Penn State graduate in hotel administration. A classroom will be named for Mr. Walsh in the new facility.

"We are delighted to receive this commitment from Hugh," Anne C. Petersen, dean of the College of Health and Human Development, said. "He always has been very supportive of the HRIM program, and a great Penn State promoter."

The proposed 35,000-square-foot building will be adjacent to Keller Building and will house a computer center, technology center, dining room, production and research kitchens, classrooms, a multimedia resource center and administrative and faculty offices.

Construction costs are estimated at \$5.4 million and equipment is estimated to cost more than \$2 million. The University has allocated \$1.5 million for the project, according to Dean Petersen.

Groundbreaking is scheduled for the late spring of 1991.

Penn State People

John Kwiatkowski

John Kwiatkowski joined the University as a teaching assistant in the Department of English and for the last two years has been working wage payroll with the Auxiliary Recreation Department as a groundskeeper at the golf courses. He says he enjoys the variety in his job and takes a lot of pride in what he does. "My supervisor, Rick Bupp, demands a lot of perfection in what we do. I have a streak of perfection in me and I enjoy responding to his challenge." (Photo: Greg Grieco)

Promotions

Senior Research Assistant

Stanley R. Gryczuk

Staff Exempt

Lydia P. Abdullah, to senior budget planning specialist in Office of Budget and Resource Analysis.
Mark Amsler, to supervisor, Dairy Production Research Center in Agriculture.
Evette E. Bazemore, to information systems assistant II in C&IS-Center for Academic Computing.
Stephanie A. Berback, to transportation coordinator at Hershey.
James E. Bowen, to manager, Housing and Food Services, at Penn State Erie, The Behrend College.
Debra F. Brown, to supervisor, bakery production in Housing and Food Services.
Mary Jane Drake, to supervisor, clerical support services in Office of Physical Plant.

Wilma M. Heiser, to supervisor, library services in Applied Research Lab.
Frances A. Hrenko, to transplantation coordinator at Hershey.
Judith J. Kalich, to regional director, development and university relations at McKeesport Campus.
Audrey K. Korman, to administrative assistant in research and Graduate School.
Thomas S. Lawton Jr., to senior associate director, University Health Services, in Student Services.
David J. Lieb, to development officer, Smeal College of Business Administration, in Division of Development and University Relations.
Daniel A. Macaluso, to development officer, Eberly College of Science, in Division of Development and University Relations.
Pamela K. Miller, to infectious disease program coordinator at Hershey.
Tracy B. Nichols, to database development analyst at Hershey.
Sandra J. O'Brien, to staff development instructor at Hershey.

Retention

Continued from page 1.

Black freshmen is 58 percent and, for fall 1988 Hispanic freshmen, 67 percent. This is compared to 71 percent for White freshmen entering the same year.

"Within five years, the graduation rate for White fall 1984 freshmen and for fall 1985 freshmen remained stable at 57 percent per year," Dr. Covert said. "The graduation rate for African-American students rose 11 percentage points, from 28 percent for fall 1984 freshmen to 39 percent for fall 1985 freshmen."

The changes in the African-American rates can be partly attributed to students who transfer to another college or university, he added.

"Penn State helps many Black students to start on the road toward achieving a four-year degree. The critical result for society is that these young people obtain an education."

Dr. Covert analyzed data on African-American and Hispanic students who entered the University between 1984 and 1987. His study involved African-American and Hispanic students who left Penn State and who were state PHEAA grant recipients. About 29 percent of that group went on to complete their education at another institution, or 228 out of 797. "Sixty percent of the total group were enrolled at Commonwealth Campuses, where only the first two years are offered," he said. "Therefore, I suspect that Penn State is educating many more African-American and Hispanic students than we get credit for. But they transfer in their junior year to other colleges and universities that may be located physically closer to their homes and that offer the last two academic years such as Temple University."

"We will continue to work through various retention efforts to improve the retention rates of all students."

Biologist to give Russell Marker Lectures Nov. 19-21

John Maynard Smith, professor emeritus of biology at the University of Sussex School of Biological Sciences, will present the first Russell Marker Lectures in Evolutionary Biology Nov. 19-21 at University Park.

The series of four lectures, titled "Problems in Evolution Theory," is sponsored by the Eberly College of Science and is open to the public free of charge.

The lecture schedule is: "The Major Transitions in Evolution," 8 p.m. Monday, Nov. 19, Schwab Auditorium; "The Evolution of Sex," 11:15 a.m. Tuesday, Nov. 20, 402.03 Keller Conference Center; "The Evolution of Bacteria: Does Sex Matter?" 8 p.m. Tuesday, Nov. 20, 117 Osmond Laboratory; and "Further Problems in Biological Evolution," 11:15 a.m. Wednesday, Nov. 21, 5-5 Osmond Laboratory.

A Fellow of the Royal Society, Professor

Maynard Smith also is a foreign member of the American Academy of Arts and Sciences, the U.S. National Academy of Sciences, and the American Philosophical Society.

He was honored with the Darwin Medal in 1986, and since 1983 he has received honorary degrees from the University of Kent, Oxford University, the University of Chicago, and the University of Sussex.

Since 1958, he has published 11 books, including *Mullerian's Ideas in Biology: The Problems of Biology: Sex, Games and Evolution*, and *Evolutionary Genetics*.

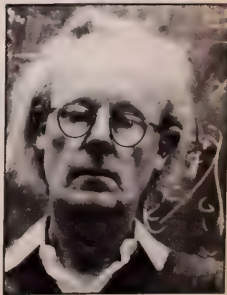

After earning a bachelor's degree in engineering from the University of Cambridge in 1941, Professor Maynard Smith worked as an aircraft engineer for seven years. He went on to earn a bachelor's degree in zoology from the University College, London, where he later

was employed as a lecturer and a reader.

In 1965, he joined the University of Sussex faculty as a professor of biology and was appointed the first dean of the university's School of Biological Sciences, a position he held until 1972. He was named professor emeritus in 1985.

The Marker Lectures series was established in 1984 through a gift from Russell Marker, professor emeritus of chemistry, whose pioneering synthetic methods revolutionized the steroid hormone industry and opened the door to the current era of hormone therapies, including the birth control pill.

The Marker endowment also allows the Eberly College of Science to present annual Marker Lectures in astronomy, the chemical sciences, genetic engineering, the mathematical sciences, and the physical sciences.

John Maynard Smith

Focus on the arts

Casting discussion

Actors from New York's Negro Ensemble Company, which is in a week-long residency at University Park, will discuss the controversial non-traditional casting of minorities and non-minorities in movies and plays at 7:30 tonight in the Pollock Cultural Lounge at University Park.

Featured author

The Penn State BookStore on campus will host author playwright J.T. Elias from noon to 2 p.m. Friday, Nov. 16.

Mr. Elias will sign and discuss his new novel *The Sho Nink*. The story is set in a small town and the story line is interwoven with suspense and romance.

A 20-percent discount is being offered on *The Sho Nink* during the book signing.

The arts on Channel 3

A revered Oliver-like actor reviews his life and work in "Sir Norbert Smith: A Life," a delicious send-up of the respectful British TV biography airing at 9 p.m. Friday, Nov. 16, on *Great Performances* on WPSX-TV.

Cult comedian Harry Enfield, 29, known to British viewers for his popular alter egos Stavros and Loodsamoney, portrays the 80-year-old thespian and all the characters he's ever played.

Harry Connick Jr. brings his standing-room-only, cross-country concert "Harry Connick Jr. and His Orchestra: Swinging Out With Harry" to *Great Performances* at 9 p.m. Friday, Nov. 23. The telecast, featuring the phenomenal 23-year-old pianist/singer with his newly formed 16-piece orchestra, promises the same night he opens on Broadway.

Palmer exhibit

An exhibition of work by Penn State alumna Florence Putterman will be on display from Nov. 18 through Jan. 13, 1991, at the Palmer Museum of Art at University Park.

"Florence Putterman: A Twenty-Year Survey, 1970-1990" includes paintings, prints and sculpture by the 1973 graduate of Penn State. The exhibition focuses on Ms. Putterman's interest in symbols and how they have influenced the development of her art over the past 20 years.

The International Holiday Artifact Sale begins Nov. 19 in Kern lobby. See the story on this page.

"My symbols and signs must be universal representations of specific places, actual things, genuine human experiences and emotions, and historic and prehistoric monuments and markings," she said.

Ms. Putterman will be on campus Dec. 5 to discuss her work. For more information, contact the museum at (814) 865-7672.

Holiday artifact sale

The 17th Annual International Holiday Artifact Sale will be held Nov. 19 to Dec. 7 from 9 a.m. to 4 p.m. in the lobby of Kern Graduate Commons at University Park.

"This is the largest sale we've ever handled," said Nancy Jordan, co-coordinator for the event since it began. "The nicest, most interesting artifacts I've ever seen will be here."

The holiday sale features 350 different original handmade crafts such as different brass items, jewelry, children's toys and baskets, representing the work of artisans from various developing regions of the world.

Countries represented include Bangladesh, Bolivia, Chile, Ecuador, El Salvador, Guatemala, Haiti, India, Kenya, Korea, Mexico, Nepal, Peru, Philippines, Sri

Lanka, Taiwan and Thailand.

The event is sponsored by the Kern Graduate Commons in conjunction with a non-profit program called SERRV. The program's purpose is to promote the social and economic progress of developing regions of the world by purchasing and marketing their handicrafts. It is administered by the Church of the Brethren General Board in Elgin, Ill.

New musical review

A new musical revue titled "At the Movies" will be performed by the Opera Workshop at 8 p.m. Sunday, Nov. 18, in the Recital Hall of the School of Music at University Park.

The program consists of the great show tunes from MGM musicals from the 1930s through the 1950s and an original storyline about the life and times of the staff of a failing classic movie house in southern California. Featured songs include, "Hooray for Hollywood," "Lullaby of Broadway" and "Varsity Drag."

The performance is free and open to the public.

Pennsylvania Quintet

The Pennsylvania Quintet, Penn State's wind faculty chamber ensemble, will perform in concert at 8 p.m. Monday, Nov. 19, in the Recital Hall of the School of Music at University Park.

The program will include "Kleine Kammermusik" by Paul Hindemith and Quintet, Op. 95 by Joseph Bohuslav Forster. Also on the program are works by J. Guy Ropartz and Malcolm Arnold.

The members of the quintet, all faculty members of the School of Music, include, Eleanor Duncan Armstrong (flute), Barry Kroeker (oboe), Smith Toulson (clarinet),

Lisa J. Bontrager (horn) and Daryl Durrant (bassoon).

Odyssey on WPSU

Ukrainian poet Lina Kostenko and her translator, Michael Naidan, associate professor of Slavic languages, join host Leonard Rubinstein on the next episode of "Odyssey Through Literature."

"A lot of people from the Ukraine say that the language is songlike, sweet to the ear, melodious," Ms. Kostenko says. "But I write in a different language. I write in that Ukrainian language which has a dramatic quality, which contains the entire essence of the soul."

Writing, says poet, novelist, and essayist David Slavitt is "playing all the games on the midway."

On the Nov. 28 episode of "Odyssey Through Literature," he and host Leonard Rubinstein discuss the differences between genres of writing and debate the trying question of whether or not the writing can be taught.

"I've now published something like 47 or 48 books," he says, "so it's not a big deal any more for me to think, Oh, gee, I could write a book. The question now is, Why should I bother?"

"Odyssey Through Literature" is produced by the Department of Comparative Literature, with audio-production services by WPSX-TV. It airs Wednesdays at 12:30 p.m. on WPSU, 91.1 FM.

Jazz concert

Five different jazz groups from the jazz program in the School of Music will perform in concert at 8 p.m. Monday, Nov. 26, in the Recital Hall of the Music Building at University Park.

Four small student ensembles will make up the majority of the program, performing jazz standards and featuring a variety of soloists. The fifth group to perform will be the Jeff Kunkle Trio.

Art history lecture

Peg Weiss, research associate professor at Syracuse University, will give a lecture titled "Kandinsky as Ethnographer and Shaman" at 8 p.m. Tuesday, Nov. 27, in Room 112 Walker Building at University Park.

The lecture is part of the "Art of Interpreting" series sponsored by the Department of Art History and the Institute for the Arts and Humanistic Studies at Penn State.

Dr. Weiss received her doctorate from Syracuse University. She has served as chief curator of the Everson Museum of Art in Syracuse, and guest curator at the Guggenheim Museum in New York City.

Flute ensemble

The Penn State Flute Ensemble will perform in concert at 12:10 p.m. Thursday.

Please see 'Arts' on page 11.

The arts at...

Hazleton Campus

Nine paintings of artist Shoro Nagano are on display in the library at the Penn State Hazleton Campus through Dec. 12.

The exhibit features Mr. Nagano's acrylic works on shaped canvases. In these canvases, he synthesizes the classic and the contemporary in finely wrought acrylics that emerge from that mythic dimension that is home to us all.

Altoona Campus

The University Resident Theatre Company will perform William Shakespeare's *The Merchant of Venice* at the Penn State Altoona Campus on Tuesday, Nov. 20.

The performance begins at 7:30 p.m. in the Paul R. and Margery Wolf Kuhn Theatre in the Community Arts Center.

University Park Calendar

November 15- November 25

Special Events

Thursday, November 15

Bloodmobile, 9 a.m.-3 p.m. 101 Kern, 11 a.m.-5 p.m., HUB Ballroom.

Women's Studies, 10:30 a.m., Eisenhower Aud. Negro Ensemble Co.: "WE Plays."

Dept. of Architecture, Brown Bag Lunch/Lecture 12:10-1 p.m., Palmer Museum of Art. Conceptions of the Museum's New Wing by Students of the Department of Architecture.

Bach's Lunch, 12:10 p.m., Eisenhower Chapel.

Penn State Mallet Ensemble.

NASPA teleconference, 2-4 p.m., 112 Kern.

"Effective Approaches to Campus Security," Lecture, 7 p.m., S-209 Henderson. Howard Kratt, Clampton Int'l. Corp., on "Promoting Wellness at the Workplace: How Does it Affect a Company's Bottom Line?"

■ Discussion with Negro Ensemble Co. actors, 7:30 p.m., Pollock Cultural Lounge.

■ Dept. of Slavic Languages, School of Communications, 7:30 p.m., 110 Wartik Lab. Evgenia Alibab, Soviet journalist, on "Soviet Journalism before and after Glasnost."

■ Gallery talk, 8 p.m., Palmer Museum of Art. Kahren J. Arblman on "Pen, Ink and Genius: The Drawings of Rembrandt and Rubens."

School of Music, 8 p.m., Recital Hall. Skip Gray, tuba.

■ Spanish, lecture, 8 p.m., 101 Kern. John Dagenas, Northwestern Univ., on "Reading as Supplement in Ramon Llull's *Book of Contemplation*."

Friday, November 16
Commission for Women meeting, 10 a.m.-noon, 101 Kern.

■ Geog. Coffee Hour, 4 p.m., 319 Walker. Wilbur Zelensky on "The Twining of the World: Sister Cities in Historical and Geographic Perspective."

Shaver's Creek, Adventure Series: Animals in Winter (Grades 2-4), 6:30 p.m.: 10:30 a.m. Also Nov. 17. Call 863-2000.

Center for the Performing Arts, 8 p.m., Eisenhower Aud. Negro Ensemble Co.

URTC, 8 p.m., Pavilion Theatre. "Butterflies Angel," through Dec. 1.

Sunday, November 18
Shaver's Creek, Adventures of the Monarch Butterfly, 2-3 p.m., Call 863-2000.

■ Carnegie Hall Film Series, 7 p.m., *Orpheus* (1949); 8:45 p.m., *Clouseau* (1976), 203 Willard Free.

School of Music, 8 p.m., Recital Hall. Opera workshop.

Monday, November 19
Comp. Lit. Luncheon, 2:15-2:30 p.m., 101 Kern. Christiane Makward on "Helene Cixous and the Myth of Feminine Writing."

School of Music, 8 p.m., Recital Hall. Pennsylvania Quintet.

The musical 'Sarafina!' will be presented Nov. 27 in Eisenhower Auditorium.

■ German Dept., film, 8 p.m., 111 Wartik. *Film des dritten Reiches* (1941).

Tuesday, November 20

■ Dept. of German, lecture, 8 p.m., 124 Sparks. Dr. Peter Hasbueck on "Weil Die Farce Soeben Von vorne Beginn..."

Thursday, November 22

Thanksgiving Holiday—no classes through Nov. 25.

Public Radio

WPSU-FM 91.1

"All Things Considered," Monday-Friday, 5-6:30 p.m.; Saturday and Sunday, 5-6 p.m.; Morning Edition, Monday-Friday, 6-8 a.m.; Weekend Edition, Saturday and Sunday, 11 a.m.-1 p.m.

"Odyssey Through Literature," 12:30 p.m. Wednesdays, with S. Leonard Rubinstein.

Conferences

Continuing Education

Keller Building

Nov. 19-20. Coal Cooperative Research Program. Alan Davis, chair; Jack Sinclair, coordinator.

Seminars

Thursday, November 15

Polymer Science, 9 a.m., 301 Steidle Dr. Robert Kumpf Mobay on "A Novel Route to Aromatic Polyether Block Copolymers"

■ International Lecture Series, 2:30-4 p.m., 222

Boucker, Ruth Leventhal on "The Status of Women in Russia Today."

Physics Colloquium, 3:30 p.m., S5 Osmond Lab. Michael Turner, Univ. of Chicago, on "Formation of the Structure in the Universe."

■ Graduate Program in Ecology, 3:45 p.m., 110 Wartik Dr. Melanie Stansky, American Museum of Natural History, on "Fishes of the Highlands of Madagascar: A Study of an Endangered Fauna."

Computer Science, 4 p.m., 325 Whitmore Lab. Stavros A. Zenios, Univ. of Pa., on "Massively Parallel Network Optimization with a Financial Application."

Classical Rhetoric lecture, 4:30 p.m., 111 Chambers. John Poulakis, Pitt, on "Towards a Rhetoric of Possibility."

Monday, November 19

Astronomy/Astrophysics, 11 a.m., S-5 Osmond Lab. Dr. Carolyn Porco, Univ. of Arizona, on "An Explanation for Neptune's Ring Arcs."

■ Australia-New Zealand Studies Center, 3:45 p.m., Eisenhower Chapel Memorial Lounge. Jeff Doyle, Australian Defense Academy, on "Disemembering the Anzac Legend: Australian Popular Culture Representations of the Vietnam War."

Entomology, 3:45 p.m., 204 Patterson. Michael Foster on "Moths, Molds, Microbes and Matrices: Gypsy Moth-NPV-LEF Chemistry Models."

EPF, 4 p.m., 339 Davey Lab. Dr. Marcello Gleiser, ITP, Santa Barbara, on "Metastability in the Early Universe."

Tuesday, November 20

Chemical Engineering, 2:45 p.m., Paul Robeson Aud. James B. Anderson on "Monte Carlo Simulation of Chemical Reaction Systems."

Geosciences, 1:45 p.m., 301 Steidle. Ken Sakake Michigan Univ. on "Tsunami Generation and Propagation."

■ Graduate Program in Nutrition, 4 p.m., S-209

Henderson Nurge W. Jerome USAID, on "Nutrition and Development Programs at USAID."

Condensed Matter Physics, 4 p.m., AM Davey Lab. Dr. Michael Drake, Exxon, on "Porous Vycor Glass: The Role of Structure in Determining the Dynamics of Confined Molecules."

Graduate Program in Acoustics, 4 p.m., ARL Classroom III. Allan D. Pierce on "Structural Intensity in Shells."

■ Computer Science, 4 p.m., 325 Whitmore Lab. Kresimir Veselic, Fern Universitat Gesamthochschule on "The Relative Accuracy of the Eigenvalues"

Exhibits

Chambers Gallery

Undergraduate Prints and Books, through Nov. 30

HUB Galleries

Browsing Gallery:

Rosemary Geesek, through Dec. 1

Art Alley Panels/Cases:

Seminar for the Professional Development of Visual Artists, through Dec. 1.

Formal Gallery:

■ Jack Delano, Contrasts, 40 Years of Change and Continuity in Puerto Rico, through Dec. 2.

Palmer Museum of Art

■ The Save River: A New History, through Dec. 21.

Pattee Library

Rare Books Room:

■ Body and Mind in the Middle Ages and the Renaissance, through Nov. 21.

■ Biodiversity: How to Tell the Birds from the Flowers, through Nov. 21.

Carpooler

A carpool from Phillipsburg to University Park needs a fourth participant. Hours are 7:45 a.m. to 4:45 p.m. Call Linda at 865-0436 or Valerie at 865-2165.

counselors, and four-year college admissions counselors.

The research also generated a number of recommendations which could strengthen the relationship between the professionals involved in the college admissions process and assist students and their families in the college decision-making process.

Bookshelf

Scott F. Healy, director of undergraduate admissions; John O'Reilly, Mark Lafer, Mark Meckstroth and Katie Lane of the Undergraduate Admissions staff, and Katie Scalise, counselor at the State College Area High School, are authors of a monograph in a series on Admissions Practices. Extensive research for the study on

school/college articulation, which was commissioned by the College Board, was conducted with counseling professionals from throughout the nation.

The monograph offers a description of the state of articulation between and among high school guidance counselors, community college admissions and transfer

News in Brief

Robert Tauber, associate professor of education, Penn State Erie, The Behrend College, conducted a season on "Montessori Education," and **Carl**

Kallgren, assistant professor of psychology at Penn State Behrend, presented a lecture on "Social Psychological Wisdom: Lessons for Speech Therapy in the 21st Century" at Nagoya Bank Gakuen in Japan.

C. Dale Therrien, associate professor of biology and plant pathology, presented a lecture titled "Genetic and Plasmid Variation in the Potato Late Blight Fungus, *Phytophthora infestans*" at the Potato Research Institute in Warsaw, Poland, and at the German Democratic Republic Academy of Sciences' Potato Research Institute, Rostock.

Sidney E. Barnard, professor of food science, and **Rodney A. Smeltz**, senior research technologist in food science, presented papers at the 77th annual meeting of the International Association of Milk, Food and Environmental Sanitarians Inc., in Arlington Heights, Ill.

Cengiz Camci, assistant professor of aerospace engineering, presented a paper titled "Effect of Incidence on Wall Heating Rates and Aerodynamics of Film Cooled Turbine Blades" at the 35th International Gas Turbine Aero Engine Conference and Exhibition in Brussels, Belgium.

Michael De Rosa, associate professor of chemistry at the Penn State Delaware

County Campus, has received a \$140,000 grant from the National Science Foundation for studies on the mechanism of electrophilic aromatic substitution.

Gennady Gildenblat, associate professor of electrical engineering, presented an invited paper, "Device Applications of Homoeopitall and Polycrystalline Diamond Films," at the 1990 International Conference on Electronic Materials in Newark, N.J.

Harold R. Jacobs, professor and head of mechanical engineering, presented a paper, "An Experimental Study of Mass Transfer on Packed Beds as an Analog to Convective Heat Transfer," at the 9th International Heat Transfer Conference in Jerusalem.

Budagur Lakshminarayana, Evan Pugh professor of aerospace engineering, presented a paper titled "Prediction of Cascade Performance Using an Incompressible Navier Stokes Technique" at the 35th International Gas Turbine Aero Engine Conference and Exhibition in Brussels, Belgium.

R. Thomas Leskovic, assistant professor of engineering at Penn State Beaver Campus, has been appointed a member of the Application of Surge Protector Devices Subcommittee of the Institute of Electrical and Electronics Engineers (IEEE) Surge Protective Devices Committee.

John A. Lucas, professor of exercise and sport science, made a presentation titled "A History of the U.S. Olympic Committee 1894-1990" at the Asian Games Scientific Congress in Beijing.

Mary S. Mander, associate professor of communications, presented a paper, "Subjectivity, Representation, and the Public Sphere," at the International Institute of Communications in Dublin, Ireland. She also presented a paper on U.S. network news coverage of the Vietnam War from August through December 1968 at the International Association of Mass Communications Research conference in Bled, Yugoslavia.

Michael Modest, professor of mechanical engineering, presented "Laser Processing of Materials - The Present and the Future" and "Single and Multiple Plan Cutting of Ceramics with a Moving CW Laser" at the 22nd Symposium of the International Centre for Heat and Mass Transfer in Dubrovnik, Yugoslavia.

Richard R. Partek, professor of geology, presented an invited paper titled "The Canadian-U.S. Ecosystem Approach to Pollution Control in the Great Lakes" at the first U.S.S.R./U.S.A. Joint Conference on Environmental Hydrology and Hydrogeology in Leningrad, U.S.S.R.

John H. Pazur, professor of biochemistry in the Department of Molecular and Cell Biology, gave a

series of lectures on the preparation and synthesis mechanisms of anti-carbohydrate antibodies and on the relationships of the anti-carbohydrate antibodies to immune deficiency diseases at Chengdu University of Science and Technology, Chengdu, China.

Allan Pierce, holder of the Leonard Chair in Acoustics and professor of acoustics and mechanical engineering, has been elected to the Executive Council of the Acoustical Society of America.

Virendra Puri, associate professor of agricultural engineering, presented papers titled "Finite Element Model for Predicting Static and Thermally Induced Loads in Bulk Solids Storage" and "Elastoplastic and Elastic/viscoplastic Constitutive Models for Grain En Masse" at the CHISA '90 conference in Prague, Czechoslovakia.

Fred W. Vondracek, professor of human development, presented a paper titled "Decision Status and Work Value Orientation in American and Japanese Students" at the International Congress of Applied Psychology in Kyoto, Japan. He also presented "Dealing with Normative and Non-Normative Influences on Career Development: Career Counseling as Human Development Intervention" in Montreal at the World Congress of the International Association for Education and Vocational Guidance.

Penn Staters

Interest schedule

Because of the Thanksgiving holiday, there will be no *Penn State Edition* on Thursday, Nov. 22. The next issue of *Intim* will be published Thursday, Nov. 29.

New telephone numbers

The new telephone numbers for the Department of German main office are 865-5381 and 865-5482.

Other Department numbers are: Ernst Schurer, 865-0131; Manfred Keune, 863-7482; Barton Browning, 863-7483; Vickie Ziegler, 863-7484; Gerhard Strasser, 863-7485; Ernst Ebbinghaus, 863-7486; Rio Preiner, 863-7487; C. Jane Rice, 863-7488; Stanley Townsend, 864-7489; Graduate Assistants, 863-1155.

Office move

The Alumni Records Office has moved from 12 Old Main to 102 Waring Hall on a temporary basis because of building renovations. There is no change in the telephone number.

Seminar speaker

Jeff Doyle of the Department of English at the Australian Defense Force Academy in Canberra, Australia, will present "Disemembering the Anzac Legend: Australian Popular Culture Representations of the Vietnam War" at 3:45 p.m. Monday, Nov. 19, in Eisenhower Chapel Memorial Lounge at University Park.

The seminar is sponsored by the Australia-New Zealand Studies Center.

Professional women

Two personnel representatives, **Trudy Smith**, assistant to the dean for human resources, Small College of Business Administration, and **Greg Ingram**, assistant to the director, Business Services, will address the duties and responsibilities of a personnel representative at the next meeting of Professional Women at Penn State at 11:45 a.m. Tuesday, Nov. 27, in the Fritzel Room of Eisenhower Chapel at University Park.

Professional Women at Penn State is a

grass-roots group coordinated by University women in which participants can develop and maintain a communications network and serve as a resource for other Penn State women.

The group welcomes attendance from all classifications at the University.

Children's Book Week

The Penn State Bookstore on campus will observe National Children's Book Week through Nov. 18.

Children's Book Week is an annual celebration which draws attention to the importance of books for children and the vital nature of literacy for all ages. In honor of the celebration, the Bookstore is offering a 20-percent savings on all children's books.

Science writers

Robert H. Ashley, executive editor of the *Centre Daily Times*, will lead a luncheon roundtable sponsored by the Penn State Chapter of the National Association of Science Writers at 11:45 a.m. Wednesday, Nov. 28, in 313 Kern

Building at University Park. He will lead a discussion of "Science Reporting in the Centre Daily Times."

The Penn State Chapter of the National Association of Science Writers meets for lunch and discussion on the last Wednesday of each month. The brown bag luncheon roundtable series is open to anyone interested in science communication.

Brown Bag Lecture Series

"Spirituality and Social Justice Issues for Women" will be discussed at noon Wednesday, Nov. 28, in the Center for Women Students' Lounge, 120 Boucke Building, University Park.

Anne Ard of the United Ministries at Penn State will discuss ways in which spirituality informs and inspires work on social justice matters pertaining to women.

The lecture is sponsored by the Center for Women Students and is part of the center's Brown Bag Lecture Series. For more information, call 863-2027.

Appointments

Gerald E. McClearn, Evan Pugh professor of health and human development, has been appointed head of a new graduate program in Biobehavioral Health in the College of Health and Human Development.

The new Ph.D. program is based on the idea that human development, health and illness result from multiple factors—including biological, behavioral, sociocultural, and environmental. The factors studied at Penn State include hormones, genetics, addictions, tobacco use, nutrition, exercise and stress, among others.

"Increasingly, we're coming to see health as the product of variables that interact with one another," Dr. McClearn said. "As a result, preventing and treating disease may require combinations of medical, behavioral, sociocultural, and environmental strategies."

"There is growing demand for scholars and professionals who can bring this integrated perspective to bear in health care settings."

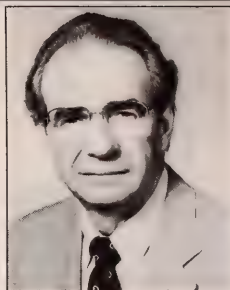

Graduates of the new program will pursue research, teaching and policy roles in a variety of settings, including health care, research laboratories, government agencies, universities and medical schools.

Dr. McClearn was appointed head of the program following a national search. He had been director of the college's Center for Developmental and Health Genetics, and until this year he also was head of the intercollegiate graduate program in genetics.

His research spans animal and human studies of genetics, drugs, and aging. In the past two decades, he has been principal investigator or co-investigator on grants totalling more than \$10 million. Among his current projects are long-term collaborations with the Karolinska Institute in Stockholm and the Gerontology Institute in Jonköping on major studies of elderly Swedish twins.

Dr. McClearn is past president of the Behavior Genetics Association and has been elected to membership in the Academy of Behavioral Medicine Research. He has served on several review boards and advisory panels for the National Research Council, Social Science Research Council, Alcohol, Drug Abuse, and Mental Health Administration, and National Institutes of Health.

Evan Kozlowski, an international authority on drug use who joined the University faculty this fall, is professor-in-charge of graduate studies for the new program. He had been a senior scientist and

Gerald E. McClearn

head of behavioral research on tobacco use at the Addiction Research Foundation in Toronto, and professor of preventive medicine and biostatistics and professor of psychology at the University of Toronto.

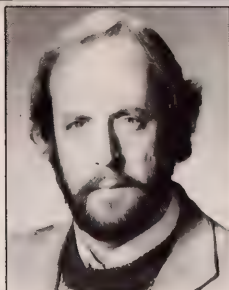

Robert Plomin, professor of human development, has been appointed director of the Center for Developmental and Health Genetics in the College of Health and Human Development.

He replaces **Gerald McClearn**, the center's founding director, who has been chosen to head the college's new graduate program in Biobehavioral Health. **Guy Barabato**, associate professor of poultry science, has been named associate director of the center.

Dr. Plomin, a behavioral geneticist, is past president of the Behavior Genetics Association and was the nation's top-ranked faculty member in a 1980 study of family science programs published in *Family Science Review*. He was a recipient of the 1988 Faculty Scholar Medal from Penn State.

A faculty member in the Department of Human Development and Family Studies he studies the role of both heredity and environment in behavioral development, such as personality and mental abilities.

He was co-founder of the Colorado Adoption Project, which has followed 250 adopted children and their families and 250 matched non-adoptive families for more than 10 years to explore the genetic and environmental influences on children's development.

Robert Plomin

His current research also involves applying molecular genetic techniques to the analysis of behavioral development.

The Center for Developmental and Health Genetics, established in 1988, fosters research and graduate training in developmental and health genetics among departments within the college. It also encourages collaborative research with other departments at Penn State and other institutions, and serves as a resource for faculty who are interested in using genetic theories and methods in their research.

Reginald K. Brooks, of Dallas, Texas, has been appointed coordinator of minority student services in the College of Education.

Mr. Brooks attended the University of Akron, where he earned a bachelor of arts degree in comprehensive social studies in 1971 and a master of arts degree in urban studies and planning in 1973. Additional education includes study at the Annual Institute of Atlanta University's Martin Luther King Jr. Center.

He served as a social studies teacher and supervisor in the Akron Public Schools for 10 years. As an adjunct faculty member in both Cedar Valley Community College and the University of Akron, he taught such subjects as Black history, human relations, political science, and sociology. In 1981, he was named director of the City of Akron's Human Relations Commission, advising the mayor on human relations issues, administering the budget, and representing

Reginald K. Brooks

the mayor at the local, state, and national levels.

Relocating to Dallas in 1984, Mr. Brooks worked as a research specialist and consultant with Associate Image Makers Inc., where his responsibilities included research, analysis, and conducting seminars/workshops on managing conflict, minority business entrepreneurship, and equal opportunity awareness.

In 1987, he established R.K. Brooks and Associates, a private consulting firm specializing in writing affirmative action plans for private corporations, government, and non-profit social service agencies.

His professional affiliations include the Martin Luther King Institute and the United Neighborhood Centers of America.

Two key administrators in the Penn State Executive Programs have received new appointments.

Albert A. Viceri has been appointed assistant dean for Executive Programs with policy-level responsibility for the Smeal College of Business Administration's internationally recognized executive education programs. Dr. Viceri also holds the rank of associate professor of business administration.

Vignita T. Freeman has been appointed director of the Penn State Executive Programs and will serve as the unit's chief operating officer. In addition to her administrative position, she also is an assistant professor of business administration.

Search group for academic officer named

A search committee to identify candidates for the half-time position of academic officer in the Office of Education Abroad Programs (OEAP) has been appointed by W. LaMar Kopp, deputy vice president for international programs.

Michael Smyer, chair of the International Council and associate dean in the College of Health and Human Development, is committee chair.

Elizabeth Smith, who has held the

position for the last three years, is returning to full-time teaching and research in the Department of History.

"Dr. Smith has done a superb job of helping us maintain the highest academic standards in our programs abroad," Dr. Kopp said. "Furthermore, she has been instrumental in helping Penn State achieve its number one national ranking in the number of Fulbright awards."

Responsibilities of the OEAP academic

officer include: overseeing the University's involvement in the Fulbright program; coordinating with appropriate academic units in maintaining an effective level of quality control over the Education Abroad Programs; selecting qualified participants and ensuring that appropriate standards are maintained in evaluating their performance abroad; and providing an academic perspective to OEAP's strategic planning and program development activities.

The academic officer will be

responsible to the deputy vice president for international programs on a half-time appointment within OEAP while maintaining a half-time appointment with his/her academic unit. The position will be on a fixed-term basis for three years with the opportunity for review continuation.

Applications and nominations should be addressed to Dr. Smyer, Office of Education Abroad Programs, 222 Boucke Building, University Park. The deadline for submission of applications is Dec. 14.

Faculty members and alumni are honored with awards

Fulbright grant

Gideon Golany, research professor of urban design planning in the Department of Architecture, has been awarded a nine-month Fulbright Research Grant to study modern Japanese below-ground shopping centers, starting this December.

The award will enable Dr. Golany to continue his pioneering research in below-ground spaces, which has covered indigenous spaces in Tunisia, China and Turkey.

Since the 1950s, the Japanese have built large-scale underground shopping centers in almost every medium and large city in the country. One in Tokyo accommodates as many as 800,000 people daily.

Dr. Golany will study three aspects of these centers. He will look at the design of the centers to determine how efficient they are and what aspects designers can apply to future developments in the West. He will study the building phase to determine the problems encountered during construction, and he will research the maintenance aspects of the finished centers.

Dr. Golany hopes to determine the principles of successful underground design, combining his previous research on ancient below-ground spaces with that of the modern Japanese designs.

Teaching and service

Two faculty members in the College of Health and Human Development have been awarded for teaching and service to students.

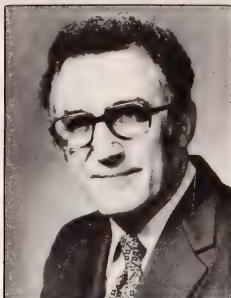

Sponsored by the college and its alumni society, the awards were presented at Health and Human Development Day at University Park.

Deborah Kerstetter, assistant professor of leisure studies, is the 1990 recipient of the Evelyn R. Saubel Faculty Award, which recognizes a faculty member whose students value as an adviser and who shows a commitment to human service. The award was named for Ms. Saubel, a 1935 Penn State graduate in home economics and longtime assistant to the dean in the former Colleges of Home Economics and Human Development.

Dr. Kerstetter is professor-in-charge of the department's undergraduate program and specializes in commercial recreation and tourism. The award nominations describe her as "extremely committed to the student, always available as an adviser" and "an excellent resource for students in making career decisions."

Dorothy Blair, assistant professor of nutrition, is the 1990 recipient of the Dorothy Jones Barnes Teaching Award, which rewards excellence in teaching and outstanding contributions to the art of teaching. It is supported by an endowment from Dorothy Jones Barnes, a 1944 Penn State graduate in home economics, and her husband, William T. Barnes.

Dr. Blair was cited for developing and carrying out innovative undergraduate and graduate courses. One faculty member wrote that she has received "acclaim and enormous respect for her insight and creativity in the classroom."

Gideon Golany

Deborah Kerstetter

Dorothy Blair

College of Education

The College of Education has honored seven alumni who have distinguished themselves in their careers.

Martha A. Burns received the excellence in Education Award; **Joan Y. Williams**, **Robert E. Mount** and **James W. Burns** received Outstanding Teaching Awards; and **Ralph N. Pacinelli**, **James E. Seitz** and **Ann Jones Zahora** received Leadership and Service Awards.

Martha A. Burns, professor of education at George Washington University, earned her master's and doctoral degrees from Penn State in counseling and higher education, respectively. She received a bachelor's degree in elementary education from the University of Bridgeport.

Joan Y. Williams holds a bachelor's degree in education and a master's degree of education from Penn State and currently teaches sixth grade social studies at North Penn School District in Lansdale.

Robert E. Mount is a veteran math teacher with more than 30 years experience in the Twin Valley Junior-Senior High School in Elversen. He holds a bachelor's degree in education from Penn State and a master's degree of education from Temple University.

James W. Burns from Kalamazoo, Mich., is director of the Western Michigan University Reading Recovery Project. He earned a master's degree of education in educational administration and a doctorate in elementary education, both from Penn State. His bachelor's degree in early childhood education and elementary education was completed at Central Connecticut University.

Ralph N. Pacinelli has served in many capacities during his 30-year career in the field of rehabilitation, most currently as regional commissioner for Region III of the Rehabilitation Services Administration in Philadelphia. He holds a master's degree of education degree and a doctor of education degree from Penn State, both in counselor education, and a B.S. degree from Villanova University.

James E. Seitz is president emeritus of Edison State Community College in Piqua, Ohio. He served as the college's first president, from its charter in 1973 until his

retirement in 1985. He holds a B.S. degree in industrial education and science from Millersville State College, an M.Ed. in administration of education from Penn State and a Ph.D. in administration of higher education from Southern Illinois University.

Ann Jones Zahora, a B.S. degree graduate in education, is the executive director of the Cape May County Department of Aging, Cape May, N.J. She also holds a certificate in planning in gerontology from Syracuse University and a certificate in urban planning from Rutgers University.

Alumni awards

The College of Health and Human Development has presented its 1990 Alumni Recognition Awards to **Merle Best**, a clinical dietitian at Passack Valley Hospital, Westwood, N.J., and nutritional consultant to professional athletes.

Lawrence R. Brawley, associate professor of kinesiology at the University of Waterloo, Ontario; and **Sarah M. Wilder**, professor of dietetic technology at Cuyahoga Community College, Cleveland.

The awards, co-sponsored by the college and its alumni society, honor graduates who have shown professional excellence or exemplary community involvement in the health and human development professions.

Ms. Best earned a master's degree in nutrition from Penn State in 1961. She is

the nutritionist for the New York Giants of the National Football League and has done consulting for other sports teams, including the National Hockey League's New Jersey Devils, as well as various corporate programs.

She is co-founder of the National Dietetic Practice Group of Sports and Cardiovascular Nutritionists, or SCAN, and received the 1985 SCAN National Recognition Award.

Dr. Brawley earned a Ph.D. in physical education from Penn State in 1980. He is associate professor in the Department of Kinesiology at the University of Waterloo, Ontario, and is considered an international scholar in group dynamics and exercise adherence.

Author of nearly 100 publications, he is president of the Association for the Advancement of Applied Sport Psychology, an organization in which he holds fellow status.

Dr. Wilder earned a Ph.D. in community systems planning and development from Penn State in 1988. She is professor of dietetic technology at Cuyahoga Community College, Cleveland.

She developed Ohio's first health-oriented, two-year associate degree program for dietetic technicians and served as its first department chair. She organized and served as the first president of the Network of Blacks in Dietetics and Nutrition, a national organization.

Partings

Charles T. Townley, head librarian at Penn State Harrisburg, from Sept. 1, 1979, until Aug. 31.

Douglas C. Woolley, assistant professor of family and community medicine at Hershey, from July 1, 1977, until Aug. 26.

Anne M. Hensch, clinical laboratory assistant at Hershey, from Oct. 16, 1979, until Aug. 31.

Peggy L. Cinsy, licensed practical nurse at Hershey, from Sept. 8, 1980, until Sept. 13.

Frances S. Bowser, residence hall worker, Housing and Food Services, from Sept. 5, 1974, until Sept. 29.

Clyde T. Perkins, plumber A at Penn State Harrisburg, from June 2, 1980, until Oct. 1.

Frances M. McCool, secretary A, Division of Development, from Jan. 2, 1973, until Sept. 26.

Lawrence H. Rottner, counselor, Undergraduate Programs, from Sept. 4, 1979, until Oct. 10.

Michelle J. Bachmann, staff pharmacist, dispensing, Hershey, from Oct. 6, 1980, until Oct. 13.

Katherine L. Silver, administrative aide, Agriculture, from Nov. 23, 1977, until Oct. 17.

Elzada F. Spruck, food service worker, Housing and Food Services, from Nov. 7, 1980, until Nov. 10.

Faculty/Staff Alerts

Friday, Nov. 23, parking

On Friday, Nov. 23, the day after Thanksgiving, faculty/staff parking rules and regulations will be modified to allow any area parking for vehicles displaying current faculty/staff parking permits.

Vehicles must be parked in bona fide parking spaces. Regulations concerning reserved spaces, limited time spaces and metered spaces will remain in effect. This change of faculty/staff parking regulations is authorized for Nov. 23 only. It is not expected that modification of faculty/staff parking regulations will be authorized at any future time.

The parking kiosks will be open from 7:30 a.m. to 4:30 p.m. Nov. 23. Visitor parking regulations will not be changed for Nov. 23.

UTS final exam hours

The Fall Semester final exam period runs from Monday, Dec. 10, through Saturday, Dec. 15. University Testing Service will be open to receive work from 8 a.m. to 5 p.m. on Monday through Friday. On Saturday, Dec. 15, hours will be 9 a.m. until 1 p.m.

Please submit recording rosters before finals, if possible. Recording rosters submitted during finals receive a lower work priority than jobs on answer sheets.

Winter parking regulations

Parking is prohibited in faculty/staff parking areas from midnight to 7 a.m. when snow falls or when there is predicted snowfall in the evening or night.

Signs stating "no parking, midnight to 7 a.m., if snow" are posted at the entrance to all faculty/staff parking areas. When there is no snow or no predicted snowfall, the regulations will not be in effect.

Faculty and staff members should not leave their vehicles parked overnight on campus when a snowfall occurs. If the vehicle must be parked on campus

overnight, for personal safety reasons, it must be moved to a designated emergency faculty/staff overnight parking area.

Three parking lots are designated emergency faculty/staff parking lots and may be used for vehicles displaying a current faculty/staff parking permit: west section of Red C, northeast section of Blue A near Mitchell Building, and east section of Orange F at the Sports Complex.

Physical Plant will give high priority to salting and/or applying anti-ice materials during a snowfall to all roads and parking lot entrances that are on a grade.

Vehicles that remain on campus beyond midnight when there is snow, other than in the designated emergency overnight parking areas, will be cited for snow restriction, which carries a \$15 penalty.

The lower level of the parking terrace will not be posted as a restricted area when snow accumulates; however, the lower level is not designated as an emergency parking area. Any vehicle parked overnight at the lower level must be moved to the assigned parking area by 7 a.m. the next workday morning unless the vehicle has a Green B parking permit displayed.

Flexible benefits plan

Several provisions of the federal government's fiscal year 1991 budget directly affect tax savings available through the University's flexible benefits plan.

The FICA tax paid by faculty and staff and matched by the University consists of two parts, social security and Medicare. In 1990 the FICA tax totalled 7.65 percent of the first \$51,300 of earnings. For 1991, the social security rate of 6.2 percent will be payable on earnings up to \$53,400. The 1.45 percent Medicare portion will be applied against the first \$125,000 of earnings.

In addition, a new top income tax rate of 31 percent will apply to income levels

above approximately \$82,050 for joint filers and \$49,200 for single individuals. The impact of this new tax rate and the increases in the FICA ceilings will be less significant for individuals taking advantage of the Penn State flexible benefit program. Participation in Contribution Conversion avoids payment of federal income and FICA taxes on the amounts contributed for medical/dental/vision benefits and group life insurance coverage.

Additional tax savings also are available to faculty and staff with out-of-pocket health care expenses and/or work related dependent care expenses who take advantage of either or both of the reimbursement accounts. The new federal budget also affects the Health Care Reimbursement Account. Beginning with the 1991 tax year reimbursements for nonreconstructive cosmetic surgery will no longer be permitted. No changes were made to the dependent care account limits.

A complete description of these accounts along with 1991 Flexible Benefits Election forms were mailed at the beginning of November to all regular full-time faculty and staff. The deadline for returning the 1991 forms to the Employee Benefits Division is Nov. 30.

Payroll changes

The University will distribute the Dec. 28 bi-weekly and Dec. 31 monthly payroll checks prior to the December closing.

The Dec. 28 bi-weekly payroll checks will be dated Dec. 28 and the Dec. 31 monthly payroll checks will be dated Dec. 31 and will not be negotiable for cashing or depositing until those dates.

However, again this year as a convenience to employees, the Dec. 28 bi-weekly and Dec. 31 monthly checks will be available for early distribution on Friday, Dec. 21. Automatic payroll deposits for Dec. 28 bi-weekly checks and the Dec. 31 monthly checks will be on the payday.

Reminder on W-2 mailing

If your payroll check is deposited, your W-2 will be mailed to the office address shown on your payroll deposit slip. If your payroll check is not deposited, the W-2 Form will be mailed to the address shown on the payroll check.

If either the office address or home address is incorrect as shown on your payroll check or deposit slip, please correct by completing one of the following forms and forwarding to the Payroll Office, 307 Rider Building.

The office address can be changed by submitting a new Office Address and Telephone Information Form. The home address can be changed by submitting a new W-4 Form.

Dual career employment

It is important to be aware, when recruiting new faculty and staff, that the Office of Human Resources' Dual Career Employment Assistant Program is available to provide assistance with dual career employment situations.

Jan Davison, program coordinator, works with the applicant's partner to help him/her assess the employment opportunities in the Central Pennsylvania area. Contacts both within the University and with community employers are made on the partner's behalf. Ms. Davison provides lists of major businesses and industries in the area and can serve as a contact, as appropriate.

The program provides individualized assistance to each applicant's dual career partner from the beginning of the recruitment process. The success of the program is based largely on early contacts with Ms. Davison.

Brochures describing the program are available from Ms. Davison. She can be reached at the Rider Building, 120 S. Burrows St., telephone 863-1218.

Focus on the arts

Continued from page 1.

Nov. 29, in Eisenhower Chapel at University Park. The 20-minute concert is part of the Bach's Lunch concert series sponsored by the School of Music and the University Lutheran Parish.

The C flute, alto flute and piccolo, which represent a wide range of register, will be featured in the performance. The program will include Etudes by H. Griem, "Changes," by L. Maury, Prelude by Zanevelli, "Quatuor," by Dubois and "Flute Cocktail" by Simeone.

The ensemble includes 11 flutists, 10 music majors and one non-major, and is conducted by Eleanor Duncan Armstrong, assistant professor of music. Elizabeth Sharp, a graduate flute performance major, is the assistant conductor.

Philharmonic orchestra

The Penn State Philharmonic Orchestra will present its annual Christmas concert at 8 p.m. Friday, Nov. 30, in Schwab Auditorium at University Park.

The program will include the first movement of Rachmanninov's Second Symphony and the Overture and "Sound an Alarm" from Handel's "Judas Maccabaeus." Also included in the program are the traditional Christmas carols.

The orchestra is directed by Douglas Meyer, associate professor of music and music director of the philharmonic. Richard Kennedy, assistant professor of music, is the soloist.

Tickets are \$3 for students and \$5 for adults and are available at the Eisenhower Ticket Center (814) 863-0255, from 8:30 a.m. to 4:30 p.m. Monday through Saturday, or at the Playhouse Box Office in

the Arts Building, from 11:30 a.m. to 4:30 p.m. Tuesday through Friday.

Symphonic Band

The Symphonic Band, conducted by Ned C. Deihl of the School of Music, will present its first concert of the year at 7 p.m. Saturday, Dec. 1, in the Hetzel Union Building Ballroom at University Park.

The program includes Prologue and Dance by Del Borgo, "Fiesta del Pacifico" by Nixon, and the prologue to "West Side Story" by Bernstein, in honor of the great maestro/composer's recent death. It also features Herbert Clarke's trumpet trio "Three Acres" with Dan Klapproth, Lee Dash and Ken Oedemann.

The band is made up of both music and non-music majors, many of whom are also members of the marching Blue Band.

University Choir

The Penn State University Choir will present a Christmas concert at 8 p.m. Saturday, Dec. 1, in Eisenhower Auditorium at University Park.

The program will feature "Te Deum" by John Rutter, performed with the assistance of the Penn State Concert Choir and the University Brass.

The University Choir will perform selections by Clausen, Schuler, Christiansen, Aloetti, Brahms and many other traditional Christmas carols. The choir is directed by Daniel Dauner, assistant professor of music education.

In addition, the University Choir Chamber Ensemble, directed by Russell Shelley, a graduate student in the School of Music, and the Concert Choir, directed by D. Douglas Miller of the School of Music faculty, will perform selections.

Staff Vacancies

The following vacancies for positions classified as staff exempt or staff nonexempt have been listed with the University Employment Division for filling. The brief statements for each vacancy are illustrative. They are not complete position descriptions. APPLY BY CALLING THE EMPLOYMENT DIVISION: 863-0304. Applications for these staff vacancies will be accepted until **NOV. 23. DO NOT CONTACT THE AREA THAT HAS THE VACANCY.** Applications for staff vacancies are considered in accordance with Fair Employment practices (FEPS) and in compliance with the University's Affirmative Action Compliance Program without regard to race, color, religion, national origin, handicap or age (as provided by law) sex, or status as a disabled or Vietnam era veteran.

■**01125, Assistant Banquet Supervisor, Nittany Lion Inn, University Park Campus** - Responsible for banquet sales and service activities and for training and supervision of assigned employees to insure efficient and high quality service. Duties include hiring, scheduling, and supervising employees maintaining equipment and supplies, payroll, and other records. Requires associate degree, or equivalent, plus over three months up to and including 12 months of effective experience. STAFF GRADE 4.

■**01126, Administrative Aide, Agriculture, Veterinary Science, University Park Campus** - Develop, analyze, compare and summarize data for various departmental activities, administrative unit and committee functions. Establish and maintain the departmental grant program. Ensure preparation, expenditures and reporting systems deadlines are met and submitted in a timely manner. Provide support for the preparation of research resident instruction, extension and contract budgets. Requires bachelor's degree, or equivalent, with two to three years of effective experience or associate degree, or equivalent, with two to three years of effective experience in office management. STAFF GRADE 5.

■**01127, Assistant Director of the Instructional Development Program, Undergraduate Education, Instructional Development Program, University Park** - Responsible to the

associate dean for undergraduate education through the director of the instructional development program for coordinating and conducting curricular development programs for faculty, for providing consultation to departments and faculty in developing new courses, and for assisting in the administration of the Instructional Development Program. Requires master's degree, or equivalent, in curriculum and instruction or related field plus one to two years of effective experience in curricular development. A doctoral degree is preferred. STAFF GRADE 7.

■**01128, Counselor, Undergraduate Education, Academic Assistance Programs, University Park Campus** - Responsible to the counseling coordinator, assistant to the assistant dean, to provide various services to Hispanic/Latino students to enable them to effectively adjust and function within the University environment. Requires master's degree, or equivalent, in counselor education, psychology, social welfare, sociology, or related field. One to two years of effective experience in directly related activities are necessary. Fluency in Spanish and direct work experience with Hispanic/Latino students required. THIS IS A FIXED-TERM POSITION FUNDED FROM JAN. 7, 1991, THROUGH JUNE 30, 1991, WITH EXCELLENT POSSIBILITY OF RE-FUNDING. STAFF GRADE 7.

■**01129, Business Coordinator, Eberly College of Science, Molecular and Cell Biology, University Park Campus** - Responsible to the department head for supervision of business office clerical staff and stockroom technical-service personnel, and for coordination of accounting, budgetary, and facilities activities for the Department. Requires associate degree, or equivalent, in accounting or business management plus one to two years of effective experience in business operations, preferably in an academic environment. Effective experience working with computers required. STAFF GRADE 5.

■**01130, Textbook Specialist, Bookstore, University Park Campus** - Responsible to the director, Penn State Bookstore System for the new and used textbook operation of the Penn State Bookstore at University Park. Requires bachelor's degree, or equivalent, and one

to two years of effective experience or an associate degree, or equivalent, and from two to three years of effective experience. STAFF GRADE 5.

■**01131, Grants and Contracts Accountant, Corporate Controller, University Park Campus** - Responsible to the assistant director, Research Accounting, for auditing and accounting functions required by research contracts. Requires master's degree, or equivalent, in contract provisions and the resolution of problems associated with contract accounting. Requires bachelor's degree or equivalent, in accounting, plus over one and up to and including two years of effective experience in accounting work. STAFF GRADE 5.

■**01132, Programmer, Computer and Information Systems, Management Services, University Park Campus** - Code, test, debug and document data administration programs; coordinate control and code JCL for database modification utilities; maintain data dictionary and data definition module entries. Requires bachelor's degree, or equivalent, in computer science or related field, plus six to nine months of effective experience. THIS IS A FIXED-TERM POSITION FUNDED THROUGH JUNE 30, 1991, WITH PROBABILITY OF RE-FUNDING. STAFF GRADE 5.

■**01133, Senior Applications Software Designer/Programmer, CES, Management Systems, University Park Campus** - Responsible to the assistant manager, Applications Development, for leadership of major data processing development projects. Requires bachelor's degree, or equivalent, in computer science, MIS or related field and two to three years of effective experience in computer programming, systems analysis, management information systems, and/or fourth generation development environment. Experience in accounting financial management, budgeting, or other administrative areas is desirable. THIS POSITION IS FUNDED THROUGH JUNE 30, 1991, WITH GOOD POSSIBILITY OF RE-FUNDING THROUGH JUNE 30, 1992. STAFF GRADE 7.

■**01134, Producer-Director, Program Production, CES, University Division of Media and Learning Resources, University Park Campus** - Responsible

to the head, Program Production, for the planning and coordination of all phases of remote and field production for assigned projects. Work primarily with Penn State sports events. Requires bachelor's degree, or equivalent, in television/film production, broadcasting, journalism, or a related area plus one to two years of effective experience in television and film production. Experience with production of sports events is preferred as well as knowledge of production budgets and completing projects within specified timelines. STAFF GRADE 6.

■**01135, Senior Diversity Planning Analyst, President's Office, Office of the Vice Provost, University Park Campus** - Responsible to the vice provost for continuous monitoring of institutional research, planning, and analysis associated with the University's goal of promoting and enhancing cultural diversity. Requires bachelor's degree, or equivalent, in higher education or other educational field, public administration, or field related to policy analysis, plus two to three years of effective experience in higher education or cultural diversity planning activity is required. Excellent writing skills and a basic understanding of statistical techniques are essential. Master's degree, or equivalent, and from one to two years of effective experience is preferred. STAFF GRADE 7.

■**01136, Advising/Counseling Assistant, Dullos Campus** - Responsible to the director of academic affairs for conducting personal, educational and career counseling and advising programs and services as part of the campus Academic Development Center. Assist with activities of the Academic Development Center related to non-traditional, under-prepared, multi-cultural, provisional and other students as assigned. Requires master's degree, or equivalent, in counseling or related field, plus over three months of effective experience. STAFF GRADE 6.

Hershey

For the following position vacancies apply directly to The Milton S. Hershey Medical Center. Attach resume with cover letter indicating the position vacancy code and forward to the Department of Human Resources

Hershey or call the Hershey hot line at (717) 331-8531 by Nov. 22.

■**17182, Assistant Coordinator, Department of Radiology, Hershey Medical Center** - Responsible to the coordinator, Radiologic Technology Program, for assistance and coordination in the establishment and maintenance of a school of radiologic technology in accordance with applicable Joint Review Committee on Education in Radiologic Technology and Medical Center Standards. Minimum qualifications include a graduate from approved Radiologic Technology Program with registration and associate degree or equivalency, plus a minimum of three to four years of effective experience, one to two years of which must have been in radiologic teaching. STAFF GRADE 6.

■**17139, Child Life Specialist, Department of Nursing Services, Division of Inpatient Services, Hershey Medical Center** - Responsible to the manager, Child Life Program, for providing assistance in the implementation of an educational/recreational program for hospitalized children and clinic patients. Bachelor's degree, or equivalency, in psychology, child development, education or a related field with one to two years supervised experience in established Child Life Program. Master's degree preferred. Eligible for professional CLS certification. STAFF GRADE 6. THIS IS A TEMPORARY DOUBLE FILL POSITION WITH BENEFITS APPROXIMATELY SIX TO EIGHT MONTHS IN DURATION.

■**17169, 17169-17170, User Information Manager, Department of Information Systems, Hershey Medical Center** - Responsible to the assistant director, User Services, for providing consultation to assigned user departments concerning Information Systems evaluation and development, for monitoring Information Systems projects for providing training to users, and for serving as an advocate for user needs. Requires a bachelor's degree in computer science, management information systems, or related field, plus two to four years of effective Information Systems experience. STAFF GRADE 7. THREE POSITIONS ARE AVAILABLE.

INTERCOM is published weekly during the academic year and every other week during the summer. It is an internal communications medium published for the faculty and staff of Penn State by the Office of Public Information, Room 312, Old Main, Phone 865-7517.

Three faculty members named to Sparks Professorships

The College of the Liberal Arts has announced its first three Edwin Erle Sparks Professorships, endowed with a \$1 million challenge grant from the National Endowment for the Humanities.

The recipients are **Thomas W. Benson**, professor of speech communication; **Gerard J. Brault**, professor of French and medieval studies; and **William R. Schmalstieg**, professor and head of the Slavic Languages Department.

Dr. Benson is well-known for his studies of the rhetorical dimensions of film, television, autobiography, technology and political movements.

He is the co-author of *Reality Fictions: The Films of Frederick Wiseman* (Southern Illinois University Press: 1989). His essay on the rhetoric of the *Autobiography of Malcolm X* was a pioneering effort in linking the study of speech communication with ethnic diversity and alternate modes of discourse.

He currently is working on a history and criticism of American presidential ghostwriting.

Dr. Brault, a leading authority on Old French literature, edited the two-volume *Song of Roland* (1978), a critically acclaimed edition and analysis of the earliest and most famous chanson de geste. In 1979, Dr.

Brault received Penn State's first Faculty Scholar Medal for Outstanding Achievement in the Arts and Humanities for this book.

A former Guggenheim Fellow and twice a Fulbright scholar in Strasbourg, France, he is internationally known for his work on medieval heraldry and on the language and culture of Quebec. His seventh book, *The French-Canadian Heritage in New England*, earned him Penn State's Class of 1933 Humanities Award.

Elected a Fellow of the Medieval Academy of America and also of the Institute for the Arts and Humanistic

Studies in 1976, he was appointed Distinguished Professor of French and Medieval Studies earlier this year.

Dr. Schmalstieg co-wrote *An Introduction to Modern Lithuanian*, which has appeared in three editions (1960, 1972, 1980) and is the most widely used grammar text on that language outside of Lithuania itself.

He is known in the field of Slavic languages for his *Introduction to Old Church Slavonic* and in the field of comparative linguistics for his books: *Indo-European Languages: A New Synthesis* (1980) and *Beginning Hittite* (1988).

Please see 'Sparks' on page 3.

President Thomas has announced the names of a 14-member search committee charged with forwarding candidates to fill the position of executive vice president and provost at the University.

The committee will recommend individuals to Dr. Thomas to fill the position currently being filled on an acting basis by Charles L. Hosler. The committee membership includes faculty, staff and students.

Thomas L. Merritt has been appointed committee chairman. Dr. Merritt, previous chairperson of the University Faculty Senate and professor of animal science, chaired the University's presidential search and screen committee last year.

Other committee members are:

Robert D. Arbuckle, campus executive officer, Penn State New Kensington Campus; **Nancy M. Cline**, dean of the University Libraries; **Robert E. Dunham**, vice president and vice provost; **E. Emory**

Encore Jr., assistant department head and professor of industrial engineering; **Ronald W. Fischer**, undergraduate student and the Commonwealth Campus Student

Government representative to the University Student Advisory Board; **Gregory L. Geoffroy**, dean of the Eberly College of Science; **R. Scott Kreitchmar**, professor of exercise and sport science.

Herschel W. Leibowitz, Evan Pugh professor of psychology; **Alphonse E.**

Leure duPree, assistant dean for academic achievement and director of special programs and professor of anatomy at the Hershey Medical Center; **Helen A.**

Manfull, professor of theater arts; **Ken Martin**, graduate student and president of the Graduate Student Association; **James F.**

Smith Jr., associate professor of English and American studies, Penn State Ogontz Campus; **Elizabeth Walker**, undergraduate student and head of the State College chapter of the NAACP.

The search committee will advertise the search for a new executive vice president and provost of the University, and receive and screen applications and nominations.

Please see 'Search' on page 3.

Search committee is appointed for provost position

Shiffer named director of Child Care Program Services

Mary M. Shiffer has been appointed director of Child Care Program Services in the Office of Human Resources.

"We are pleased with the appointment of Ms. Shiffer to this important position. **Billie S. Willis**, assistant vice president for human resources, said.

"She brings to the program extensive administrative experience in a variety of child care-related systems throughout the state."

According to Dr. Willis, a University-wide Child Care Advisory Committee, chaired by Charles Surp, head of the Department of Human Development and Family Studies, will provide advice to the Child Care Program Services director.

She said the committee, made up of faculty, staff, and students, will provide assistance to the director on such issues as evaluation of on-campus child care programs, monitoring for effectiveness of programs, and oversight of the

implementation of a University-wide child care plan of action.

Support for program policy and direction will be provided by the University Child Care Executive Committee. The committee, comprised of **Carol Hermann**, vice president for administration; **Grace**

Hampton, vice provost; **William Asbury**, vice president for student services, and **James Wagner**, vice president for business and operations, reports to the president through the executive vice president and provost.

Ms. Shiffer earned a bachelor's degree in elementary education from Elizabethtown College and a master's degree in elementary education, with an emphasis in early childhood, from Penn State. Most recently, she has been the Central Region School Age Child Care Project director for the Central Intermediate Unit, responsible for implementation of school aged child care/extended day services within a 24-county

region of the state.

Previously, she was program administrator for the Mifflin County child care system and education coordinator for Cen-Clear Child Services.

In addition, Ms. Shiffer has been involved in the grass roots of child care services, having operated the Bellefonte Playschool for a number of years. She also served as a Head Start training officer for the Office of Human Development Services and has taught school at the elementary level.

Her professional credits include service as a member of the Child Care Advisory Committee for the Pennsylvania Department of Education, as a Child Development Associate Credentialing System representative, and as a consultant in human resources development. She has served on numerous task forces and review teams related to child care and Head Start programs.

Mary M. Shiffer

Focus on Diversity

Kelsey is named to national admissions post

Gary M. Kelsey, director of minority admissions and community affairs, has been elected vice president for human relations for the National Association of College Admission Counselors.

NAACAC is the nation's only professional organization established for high school and institutions of higher education guidance and admissions counselors.

"One of our primary goals is to continue to build on the organization's current focus on early intervention and concern for minority and economically disadvantaged populations," he said.

Other goals, he noted, include working to provide programs and services that seek the active involvement of parents and businesses in the delivery of quality educational programs to all students.

A member of the University staff since

1988, Mr. Kelsey coordinates the implementation of the University's comprehensive minority recruitment plan. He also organizes and directs the activities of the University's Regional Recruitment Centers in concert with members of the Penn State community and alumni.

He is a member of the National Association of Black Counselors, National Association of Admissions Counselors, American Association for Counseling and Development, Association for Multicultural Concerns, NAACP and Central Pennsylvania Men of Color. He is president-elect of the Forum on Black Affairs.

Before joining Penn State, Mr. Kelsey served in the Middle State Office (Philadelphia) of the College Board for three years.

Gary M. Kelsey

Christmas party

The Paul Robeson Cultural Center will host its annual International Children's Christmas Party from 1 to 3 p.m. Saturday, Dec. 1, in the center's auditorium.

Children up to age 12 of all ethnic backgrounds from the State College and University Park communities are invited to attend.

The Christmas movie "Santa and the Three Bears," free gifts for all children and Christmas songs are features for this year's party.

"The party has become quite a success over the years, would not have been possible without the donations and support of State College area businesses, several University departments and numerous volunteers," Sandra Edwards, assistant to the director, Paul Robeson Cultural Center, and event organizer, said.

In keeping with tradition, all children are asked to bring canned food donations for the State College Area Food Bank.

For more information, call 865-1779.

Programs dealing with diversity are available

Audio-Visual Services recently acquired three programs that deal with diversity issues.

Black and White America (36084.VH) tells the story of five students at Rutgers University — two black, two white, and one a child of a mixed-race marriage — and shows how they negotiate the routine of their lives based on what they feel about their own race and that of others, and how

they perceive others feel about theirs. *Pockets of Hate* (36089.VH) examines the increase in racial crimes, particularly those perpetrated against recent immigrants.

Racism in America (36090.VH) also looks at the resurgence of racially motivated violence during the early and mid-1980s. It examines the reasons why people vent anger against minorities, the social and economic implications of racist acts, and

how one community successfully responded to its racial problems.

The programs are available at no charge to University faculty and staff members for classroom use. At University Park, call 865-0913 for more information and to make arrangements for a preview showing. At a Commonwealth Campus, contact the campus instructional services specialist for ordering procedures.

WPSX-TV programs

Billy Crystal, Milton Berle and Joan Rivers headline "The World of Jewish Humor" at 9 p.m. Friday, Nov. 30, on *Great Performances*. The program celebrates the stand-up comedian, which producer-director Rex Bloomstein believes is virtually a Jewish invention, growing out of Yiddish vaudeville. "The humor has an underlying sharpness, an awareness of the pain present in all Jewish life," Mr. Bloomstein says.

Growing up in Stockton, Calif., in the 1940s and 1950s, Maxine Hong Kingston heard incredible tales of ghosts, demons, war, famine and adventure from her Chinese immigrant mother Brave Orchid. Today, Ms. Kingston has achieved international fame as a breakthrough writer.

The one-hour special *Maxine Hong Kingston: Talking Story* airing at 10:30 p.m. Friday is an intimate and personal look at the author's life and work.

Diversity Opportunities Calendar

Saturday, Dec. 1

Paul Robeson Cultural Center, 1 to 3 p.m., Robeson Center. Annual International Children's Christmas Party featuring Santa and the Three Bears. The University community is invited and asked to bring a donation for less fortunate children. Donations will be forwarded to the State College Area Food Bank.

Monday, Dec. 3

Women's Studies, 12:15 to 1 p.m., 12 Sparks. Women's Studies Student Affairs Committee discussion/lunch meeting. Office of Religious Affairs/Paul Robeson Cultural Center, 7:30 p.m., Robeson Center. Eyes On The Prize — Part II film/discussion. Film: "A Nation of Laws 1968-1971." Rev. Kenneth Clarke will lead discussion.

Wednesday, Dec. 5

Center for Women Students, noon to 1 p.m., 120 Bouck. Film/discussion: "Lifetime Commitment: A Portrait of Karen Thompson." Sabrina Chapman will lead discussion. Women's Studies, 3:30 to 5:30 p.m., 12 Sparks. Women's Studies Faculty/Advisory Committee meeting. All interested faculty invited.

ARL and Letterkenny Army Depot begin one-year study

The Applied Research Laboratory and Letterkenny Army Depot, Chambersburg, have begun a one-year, \$500,000 study of Letterkenny's painting facilities and parts manufacturing capability.

The Manufacturing Science Department of ARL will oversee the project that will use the expertise of five faculty members and four students from the Mechanical Engineering and Industrial and Management Systems Engineering departments. One of Letterkenny's main missions is maintenance, including maintenance of self-propelled howitzers, towed howitzers, the Hawk and Patriot missile systems, and trucks. The equipment is totally disassembled, blasted to remove paint and repair-welded. Engines, transmissions,

brakes, hydraulic systems, recoil and firing systems are completely rebuilt. The equipment is then reassembled and painted.

"Letterkenny does about 430 trucks, 100 self-propelled howitzers and 80 towed howitzers a year," says Mark Traband, ARL research associate, who is coordinating the program.

According to Mr. Traband, the Army currently is using special paint formulations called chemical agent resistant coatings, which are two-component catalyst paints. The paints use volatile organic compounds as solvents and emission of these VOCs are strictly regulated by the Pennsylvania Department of Environmental Resources and the U.S. Environmental Protection Agency.

"Letterkenny has reasonably modern equipment," says Andrew Vavreck, ARL research assistant and principal investigator of the project funded by the U.S. Army Material Commands READY 2000 Program. READY 2000's goal is to renovate U.S. Army depots.

"One goal of the project is to improve the painting operation and decrease VOC emission," Mr. Traband noted. "One way to decrease the VOC emission is to increase the transfer efficiency which decreases the amount of paint used per part."

"We also will be investigating the use of flexibly automated painting systems and the flow of parts through the painting operation to alleviate bottlenecks."

As part of the maintenance function,

Letterkenny also has extensive machine part capabilities. Penn State's engineering team will conduct a feasibility study for incorporating parts of the Navy's RAMP program at Letterkenny. RAMP, rapid acquisition of manufactured parts, is intended to provide a modern manufacturing facility the means to reduce the lead time in obtaining obsolete or hard to procure parts.

University faculty involved in the project are Robert J. Heinsohn, professor of mechanical engineering, and John W. Davis, associate professor; Inyong Ham, professor; Catherine M. Harmonious, assistant professor, and Deborah J. Medeiros, associate professor, Industrial and Management Systems Engineering.

Vice provost gets a new way of looking at Penn State

Harvard has given Vice Provost **Grace Hampton** a new way of looking at Penn State — not to mention the whole of higher education.

Dr. Hampton was selected as one of 95 senior administrators worldwide to participate in the Institute for Educational Management (IEM) this summer at Harvard's Graduate School of Education. "In addition to getting a good sense of what is happening nationally and internationally, what I came back with was a new way of thinking, a new way of analyzing issues, a new way of stepping back and looking at what people are saying," she says.

"After that experience, I carry an even higher regard for where I am and for the people with whom I work. I also realize that, although Penn State has issues to be addressed, there's no question that the University is regarded as a leader in American higher education."

Dr. Hampton was one of four persons selected by IEM faculty to make special presentations on strategic planning, cultural diversity, budgeting, and promotion and tenure.

Grace Hampton

"The IEM uses the case study approach, and it runs participants through the most intensive and stimulating intellectual gauntlet you can imagine," Dr. Hampton says.

Participants in the four-week session begin their group meetings at 7:30 a.m. and work through five to six case studies per day. Evenings are devoted to reading assignments, which are extensive.

This summer, IEM case studies focused on 11 broad areas: legal issues, curriculum, academic personnel policy, the balance between professional growth and private life, financial management, leadership and organization, marketing, negotiation and crisis management, cultural diversity, higher education and the political process, and trends, planning and evaluation in higher education.

One of the most useful exercises, Dr. Hampton says, was to compare the priority issues as determined by IEM participants to priorities listed by the Association of Governing Boards (AGB), the national association which represents some 30,000 college and universities regents and trustees.

"There was some interesting divergence," she notes. "Among external issues, the IEM ranked demographic trends first in importance; the AGB ranked it 17th. Among internal issues, the IEM ranked

strategic planning first; AGB ranked it sixth. The IEM ranked state funding fourth, AGB 11th."

"Clearly," she adds, "administrators and trustees view issues through a different set of lenses."

Dr. Hampton came to Penn State in 1985 as director of the School of Visual Arts and as professor of art and art education. Previously, she had been an assistant director of the Expansion Arts Program at the National Endowment for the Arts.

In 1986, she was promoted to vice provost of the University, with responsibilities for facilitating and monitoring academic personnel matters and liaison with the University Faculty Senate.

She joins a long line of Penn State administrators selected for the prestigious IEM in years past: John Lilley, provost and dean, Penn State Erie, The Behrend College; Richard Grubb, senior vice president and dean, Commonwealth Educational System; Nancy Tischler, director, Summer Sessions; Thomas Eakin, assistant vice president for student programs, and others.

Obituaries

Hai-Sup Lee, professor of electrical engineering, died Nov. 1. He was 60.

Dr. Lee joined the electrical engineering faculty in 1958 and was promoted to professor in 1971.

He received his bachelor's degree in electrical engineering from Meiji University, Tokyo, in 1953; his master's degree in electrical engineering from Penn State in 1958, and his doctorate in electrical engineering from Penn State in 1962.

He was a senior member of the Institute of Electrical and Electronic Engineers and a member of the International Union of Radio Science. A member of Sigma Xi and Pi Mu Epsilon, he was the author of numerous publications dealing with electrical engineering.

Memorial contributions may be made to

the H.S. Lee Memorial Scholarship Fund, 101 Hammond, University Park.

Kathryn C. Doland, secretary in the College of Agriculture, from Nov. 1, 1964, until her retirement May 1, 1981, died Nov. 3 at the age of 74.

The committee will submit a list of candidates to the president and participate in the final interview schedule. The name of the top candidate must be forwarded by President Thomas to the Board of Trustees for approval.

Nurses ratify new bargaining agreement

Nurses employed by the University at student health facilities at University Park and other campuses overwhelmingly have ratified a new collective bargaining agreement with the University. The Pennsylvania Nurses Association represents the bargaining unit consisting of approximately 45 employees.

The Association announced the decision Nov. 9 following a count of ballots submitted by nurses with their votes to accept or reject the offer made by the University.

The agreement extends the current contract through Sept. 30, 1992, and provides a 4.8 percent salary increases each year effective July 1 and July 1, 1991, plus some internal salary adjustments. Other negotiated conditions of the agreement provide the changes in the University's

health-care provisions and other modifications in working conditions that were extended to other University employees.

Billie Willis, assistant vice president for human resources, said that she was pleased that the negotiations had concluded successfully with the acceptance of the agreement by the nurses.

Carpooler

Tammy is looking for a fourth rider to join her carpool from Philipsburg to University Park. Work hours are 8 a.m. to 5 p.m. Call 865-7521.

Sparks

Continued from page 1.

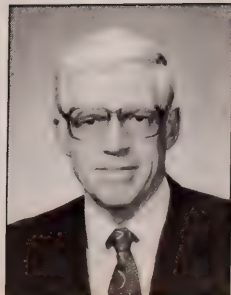

In 1986, Dr. Schmalstieg was an exchange Fulbright scholar at the Institute of Lithuanian Language and Literature in Vilnius, Lithuania.

The Sparks Professorships, named in honor of the University's eighth president (1908-1920), have been established in the disciplines of history, English, French, German, Spanish, ethics in philosophy, Slavic languages and rhetoric in speech communication. Each professorship requires \$250,000 to be endowed.

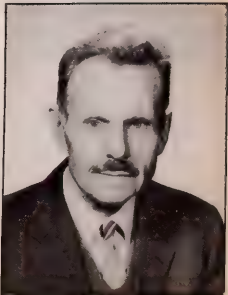

In 1985, the NEH pledged up to \$1 million to the College of the Liberal Arts for faculty endowments, provided the college could obtain \$3 million from private sources within four years.

Private Giving to Penn State

Scholarship endowed for physically disabled

An alumni couple, **Jason C. and Martha Lee Stone** of Wellesley Hills, Mass., have committed \$100,000 to endow a scholarship for physically disabled students at the University.

The award will benefit financially needy students who have serious mobility limitations or a loss or serious impairment of vision or hearing.

"This is the largest scholarship to be established at Penn State for physically handicapped students," Brenda Hameister, coordinator of the Office for Disability Services, said. "We're especially pleased

that the Stones have made students at all of our campuses eligible for these awards."

Ms. Hameister said the University has three other endowed scholarship funds for students with physical disabilities. About 800 identified disabled students are enrolled annually at 23 Penn State campuses.

The Stones said they were inspired to create the scholarship by the extraordinary life struggle of their close friends and fellow alumni, Solveig and Frederick Dietz of Yorba Linda, Calif. Mrs. Dietz contracted polio in 1956 and since that

time has depended on an electrically assisted breathing device.

Jason Stone, who graduated from Penn State in 1951 with a bachelor's degree in agricultural engineering, is a general agent with Northwest Mutual Life Insurance Co. in Boston. Martha Lee Stone earned a bachelor's degree in home economics in 1952.

Frederick and Solveig Dietz graduated from Penn State in 1951 and 1954, respectively. As undergraduates, Mr. Stone and Mr. Dietz were members of Sigma Chi fraternity.

Museum campaign

The Palmer Museum of Art has announced the start of a campaign to raise the final \$300,000 necessary to build the proposed addition to the museum.

Construction of the \$5.6 million addition that will nearly double the size of the museum is planned to begin in March, 1991. To date, \$5.3 million has been raised from private sources for the addition. The campaign's goal is to raise the remaining funds by the end of 1990.

The proposed addition was designed by Charles Moore of Austin, Texas, who is one of the founders of the post-modern movement in American architecture.

The addition will include 10 galleries, a 150-seat auditorium, an expanded receiving and shop area, art storage space, a new museum store, a kitchen and a two-story lobby that also can be used for receptions and other public functions.

Nine of the 10 galleries will house the museum's permanent collection with the 10th being used for temporary exhibitions. The permanent collection galleries will include art according to the following groupings: ancient to Renaissance, Baroque, 19th-century European, prints and drawings, non-Western, American, American works on paper, contemporary art and contemporary ceramics.

Opened in 1972, the Palmer Museum of Art is the largest art museum between Pittsburgh and Philadelphia.

Scholarship endowed

The Clark Construction Group, OMNI Construction Inc., and the George Hyman Construction Co., all of Bethesda, Md., have endowed an engineering scholarship at Penn State in memory of Charles A. Merica.

Mr. Merica, an associate professor of architectural engineering at the time of his death, had been a vice president at the George Hyman Construction Co. prior to joining the Penn State faculty.

The three companies provided initial funding of \$15,000 for the scholarship and will provide additional contributions annually to ensure full funding for scholarship recipients.

To buy geophysical data

Walkers make gift of \$100,000

Ray S. Walker, founder and retired president of Bradford Coal Co. of Bigler, and his wife, Louise, have given \$100,000 to the Earth and Mineral Sciences Library.

The gift will be used to purchase geophysical data in compact disc format for the library, a branch of the University Libraries.

Compact disks can store many times more data than regular floppy disks, making them extremely valuable for researchers in the geosciences, according to Salvatore Meringolo, assistant dean and head, collections and references services.

"We're facing a virtual explosion in digitized information," he said. "For example, the entire earth has been digitally mapped by satellite, giving us a tremendous amount of new data. The challenge to librarians is to make this data available to our patrons."

"The Walkers' generosity will help us to

meet that challenge. The additional data that we can offer on compact disks should be a significant asset to the Libraries and to the students and faculty in our College of Earth and Mineral Sciences."

Ray Walker, a Bigler native, earned a bachelor's degree in commerce and finance from Penn State in 1935. That same year he entered the coal business, first as a broker and then as a producer. Bradford Coal Co., which he established in 1940, is now one of the 10 largest bituminous coal producers in Pennsylvania.

He and Louise Walker also are well known for their interest in Clearfield County charitable and civic organizations, including the Boy Scouts, the YMCA and Little League baseball.

The Walkers are longtime friends of Penn State and have been significant benefactors of the arts and the Penn State DuBois Campus.

Amoco grants

The Amoco Foundation has made a series of grants totaling \$63,000 to support a variety of engineering and business programs at the University.

The Chicago-based foundation designated its largest grant, \$40,000, to support research at the C. Drew Stahl Center for Enhanced Oil Recovery. The center, in the College of Earth and Mineral Sciences, studies techniques for increasing the productivity of oil wells. The Amoco Foundation, which donated \$200,000 to the center over the last five years, is the center's largest corporate supporter.

The foundation also designated \$9,000 for a doctoral fellowship in polymer science and \$6,000 for graduate fellowships for master's degree candidates in petroleum and natural gas engineering.

It designated \$4,000 for scholarships for minority students in the fields of petroleum and natural gas, chemical or mechanical engineering. Students must be U.S. citizens and show academic promise to be eligible for any of the awards.

The remaining \$4,000 will support activities at the Center for Issues Management Research in the College of Business Administration.

Endowment created

Paul M. Kossman, president and director of Kossman Development Co. et al. of Pittsburgh, has given \$100,000 to the Department of Architecture to create the Paul M. Kossman Endowment for Excellence.

The endowment makes possible the continuation of the Paul M. Kossman Senior Design Award, which has been given annually since 1985 to a graduating architecture student for design excellence in the fifth-year thesis project. The \$2,500 award is for domestic or international travel to support a student's continued study of architecture.

The endowment also creates The Kossman Lectures, an annual series for architecture and architectural engineering students and faculty. The series will bring to the University Park Campus outstanding researchers, practitioners, scholars and teachers who are experts of reputation in their fields of architecture.

"I was convinced by the architecture faculty that the lecture series is important in the education of young students going into architecture," Mr. Kossman said. "It's beneficial to the profession of architecture."

The first Kossman Lecturer will be Francesco Del Co., director of the Venice Biennale in Venice, Italy, who will be at University Park Nov. 2 and 3.

Mr. Kossman is a 1949 Penn State graduate with a degree in architectural engineering. His firm specializes in construction and real estate development and provides complete services to clients from design to construction to rental management.

New Creamery courtyard

Construction of a new Creamery courtyard, a gift of the Class of 1990 to the University, is under way on the east side of the Creamery building at University Park. The gift of the Class of 1991 will be a cafe-style seating area on the west side of the Creamery building. (Photo: Greg Grieco)

News in Brief

U.S.-China relations lecture

Thomas Fingar, director of Analysis for East Asia and the Pacific at the Bureau of Intelligence and Research, U.S. Department of State in Washington, D.C., will lecture on "The State of Play in Chinese Politics and U.S.-China Relations" at 7 tonight in 214 Boucke Building at University Park.

The lecture is sponsored by the Center for East Asian Studies and the East Asian Studies Society.

WISE Forum

The WISE Forum will hold a brown bag lunch and roundtable discussion on "What's Happening to Support Women in the Sciences and Engineering" at noon Friday, Nov. 30, in 301 Hetzel Union Building at University Park.

WISE stands for Women in the Sciences and Engineering. The Forum is for anyone interested in supporting and encouraging women in science, engineering, and technology. It offers an opportunity where people (especially women) in scientific/technical professions and majors can meet each other, network, discuss issues, and share ideas.

Sigma Xi initiation ceremony

The Penn State Chapter of Sigma Xi will hold its annual initiation and promotion ceremony at 4 p.m. Friday, Nov. 30, in the Assembly Room of the Nittany Lion Inn at University Park, with a reception to follow in the Fireside Lounge. The featured speaker will be Robert K. Selander, Eberly professor of biology. All members are welcome.

Phi Beta Kappa Founders Day

All faculty and staff who are members of Phi Beta Kappa are invited to attend Lambda Chapter's annual Founders Day reception from 4 to 6 p.m. Sunday, Dec. 2, at the Atherton Hilton Hotel.

Phi Beta Kappa Honors Thesis Awards will be presented to four University Scholars during the reception. For more information about the chapter, contact chapter officers: Carol Gay, president; Martha Kolln, secretary; Gabriele Michels, treasurer; Catherine Carter, historian; and Judy Kelly and Judd Arnold, directors.

Lecture series

Award winning writer and journalist R.W. Apple Jr. will continue the 1990-91 Penn State Harrisburg Lecture Series at 8 p.m. Sunday, Dec. 2, at the Hershey Theatre.

Brown Bag Lunch Series

The Center for Women Studies concludes its fall lecture series with the film "Lifetime Commitment: A Portrait of Karen Thompson" at noon Wednesday, Dec. 5, in 120 Boucke Building at University Park.

The film explores the relationship of

Ms. Thompson and her struggle to care for Sharon Kowalski, who was injured and disabled. The film traces Ms. Thompson's transformation from a closet lesbian to a leading activist for gay couples and the disabled.

The lecture is part of the Center's Brown Bag Lunch Series. For more information, call 863-2027.

Returning Adult Student Center

The Returning Adult Student Center is sponsoring a program for adult learners titled "Financial Empowerment-Gaining Control Over Your Personal Finances" at 6 p.m. Wednesday, Dec. 5, in 329 Boucke Building at University Park.

The program will focus on awareness of spending/saving patterns; tips on budgeting; overview of investments, insurance, home buying programs, and automobile purchase plans; discussion on adjusting to and surviving with a limited income.

For further information, contact the Returning Adult Student Center at 863-3887.

Educational Office Personnel meeting

Charles M. Super, head of the Department of Human Development and Family Studies, will speak on "Completing the Circle: Staff Evaluation of the Office Climate" at a meeting of the Penn State Chapter of Educational Office Personnel at 12:10 p.m. Thursday, Dec. 6, in Room 110 Henderson Building at University Park.

The Penn State Chapter of Educational Office Personnel is a professional organization whose membership consists of staff, staff non-exempt, clerical and technical services employees. For information, call Sharon Rolley, president, or Lois Summers, membership chair, at 863-2211.

Research in Conflict and Negotiation

Howard Raiffa of Harvard University will speak on "International Negotiations on Global Climate Change" at 2:30 p.m. Friday, Dec. 7, in 115 Beam Business Administration Building at University Park.

The seminar is sponsored by the Center for Research in Conflict and Negotiation and the Department of Management Science, Smeal College of Business Administration. For more information, contact Mary Tien, 310 Beam, 865-0197.

Pattee Library entrance

In order to improve handicapped services and relieve congestion at the entrance of Central Pattee Library, the entrance at the ground floor, West Wing of Pattee Library, has been reopened. The hours of operation for this entrance will be Monday through Friday from 10 a.m. to 5 p.m., when classes are in session.

Penn State People

Jackie Peagler

Since August 1989, Jackie Peagler has been the Earth and Mineral Sciences library assistant. Located in 105 Delke Building at University Park, the EMS Library is a branch of the University Libraries. Ms. Peagler manages all of the technical operations of the library and supervises a staff of 27 two full-timers, two part-timers and 23 students. The library has an extensive reference collection, including more than 800 periodicals. "It's challenging trying to find answers to the questions people ask," Ms. Peagler says. Working with the public - solving problems and answering questions - makes the job enjoyable, she adds. A member of the Libraries staff since 1984, she previously worked in the Bibliographic Resources Services Division in Pattee Library.

(Photo: Greg Grieco)

Faculty Senate News

The University Faculty Senate will meet at 1:30 p.m. Tuesday, Dec. 4, in Room 112 Kern Graduate Building at University Park.

Items to be discussed at the Dec. 4 meeting:

- NCAA Legislative Proposals-1991 Convention
- Status of Department of General Services Construction Programs
- Legislation to Establish the University Subcommittee on Cultural Diversity in the Curriculum
- Campus Crime Security Act
- Resolution on Travel Service Policies
- Progress Report on Task Force on Undergraduate Education

Items discussed at the Nov. 6 meeting:

- Summary of Reserved Spaces Data at University Park
- Summary of Penn State's Continuing Education Activities
- Annual Report on Extended Degrees
- Proposed Changes in Travel Service Policies
- Annual Report of the President's Planning and Budget Advisory Committee
- Summary of the Work of the Presidential Search and Screen Committee
- Comments Concerning Work of the Trustees Selection Committee

Focus on the arts

Diversity of Dance

At 8 p.m. on Nov. 29 and 30 more than 100 dancers will join together to present the second annual Diversity of Dance Concert at the Playhouse Theatre at University Park.

The performance, sponsored by the College of Health and Human Development and the Paul Robeson Cultural Center, will showcase six dance companies, all of them associated with the University and all focusing on different styles of dance.

Tickets are \$5 for students and \$7 for general admission and are available in advance at the Eisenhower Auditorium Ticket Center (863-0255) or at the Playhouse Box Office before the performances.

'A Christmas Carol'

The University Readers will present faculty adviser Tony Lentz in his 12th annual one-man performance of Charles Dickens' "A Christmas Carol" at 8 p.m. Friday and Saturday, Nov. 30 and Dec. 1, in the Nittany Lion Inn Fireside Lounge.

The free performance is co-sponsored by the Readers and the Speech Communications Department. Refreshments will be available before the performance.

The performance will be repeated at 8 p.m. Sunday, Dec. 9, in the Boal Mansion in Boalsburg, where donations for the mansion will be accepted.

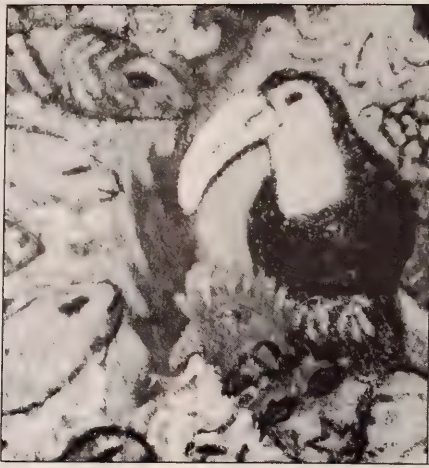

Dr. Lentz, who teaches the oral performance of literature and readers theater, was inspired as a freshman at the University of North Carolina by a reading of the classic Christmas story by Professor Earl Wynn. When he began teaching at Wingate College in 1978, he adapted his own two-hour version of the story and performed it in honor of Professor Wynn.

Dr. Lentz has performed the story at Penn State since 1980 with a dedication to the late Professor Wynn "and all the spirits of Christmas."

The arts on Channel 3

One hundred gifted young singers representing more than 90 cities in 38 states perform a program of all-American music in *Fred Waring's U.S. Chorus 1988: United We Sing* airing at 12:30 p.m. Sunday, Dec. 2, and at 10 p.m. Tuesday, Dec. 4.

The program includes a special tribute to Richard Rodgers (a long-time friend of Mr. Waring), songs about the joys of summer

'Encounter at Sea' by Florence Pufferman is on display through Jan. 13 in the Palmer Museum of Art.

such as "Under the Boardwalk," "Surfing USA," "Where the Boys Are" and "Summertime, Summertime," and Mr. Waring's favorite spirituals and patriotic tunes: "I Hear a Voice a' Praying," "Swing Low, Sweet Chariot," "You're a Grand Old Flag" and "God Bless America."

There are many famous streets in American music including 125th St. in Harlem, Maxwell Street in Chicago and Vine Street in Kansas City. In the South, the sound that would have the greatest impact on American popular entertainment was created in Memphis by musicians on Beale Street. *All Day and All Night* airing at 2:30 p.m. Sunday, Dec. 2, captures the lifestyles of musicians who performed on Beale Street from the 1920s to the 1950s, when being on Beale Street was like "living in paradise."

Pattee exhibit

An exhibit titled "The Essential West: A Collection of Photography 1988-1990" is on display in the East Corridor Gallery of Pattee Library through Dec. 15.

Mr. Peters is an authority on monotypes and is known throughout the Baltimore-Washington, D.C., area for his complex experimental works in this medium. He is a faculty member at the Maryland Institute College of Art in Baltimore where he teaches printmaking.

"The Essential West" display, a joint effort by Penn State juniors Jason Knievel and Mike Mutmansky, features both panoramic views and detail studies that are the photographers' interpretation of the western United States.

New video

Magnificat (51146.VH), a new video now available from Audio-Visual Services, captures the spirit of Bach's most joyous work, in an extraordinary contrast of styles featuring a traditional version performed by Tafelmusik and the Tudor Singers, crosscut with a jazz version featuring Bobby McFerrin, Ann Mortifee, and the New Swingle Singers.

The program is available at no charge to University faculty and staff members for classroom use. At University Park, call 865-0913 for more information and to make arrangements for a preview showing. At a Commonwealth Campus, contact the campus instructional services specialist for ordering procedures.

'Saint Nicholas'

Choral groups and instrumentalists from the School of Music will perform Benjamin Britten's Christmas cantata "Saint Nicholas" and other holiday selections at 7 p.m. Sunday, Dec. 2, in the Recital Hall of the Music Building at University Park.

Tenor Richard Kennedy, assistant professor of music, will sing the part of Nicholas and the Penn State Women's Chorus, Penn State Glee Club and members of the Knights and Squires will perform the

choral parts.

School of Music faculty members William Tilghman and Timothy Shafer, piano, June Miller, organ, Joanne Zagst, violin, Raymond Page, viola, and Leonard Feldman, violoncello, will perform as the orchestra.

In addition, the Women's Chorus, conducted by Elizabeth Hinkle, doctoral student in music education, and the Glee Club, conducted by Bruce Trinkle of the School of Music faculty, will perform seasonal selections by Kodaly and Tallis. The Keynotes, an ensemble from the Women's Chorus, also will perform.

Jazz ensembles

The Inner Dimensions and Outer Dimensions Jazz Ensembles from the jazz program of the School of Music will perform at 8 p.m. Monday, Dec. 3, in the Recital Hall of the Music Building at University Park.

The first part of the program will be performed by Outer Dimensions and will include selections by Bob Florence, Pete Christlieb and others.

The ensemble is under the direction of Howard Lamb, who was lead trombonist with the Navy Commodores Jazz Band, and features soloists Mike Pistone, Rob Ford and Keith Watson.

The latter half of the program will be performed by Inner Dimensions, under the direction of Jeff Kunkle. The ensemble will play selections by Bob McConnell and John Fedchock, among others.

German Christmas

The Department of German is sponsoring a Christmas celebration of traditional German Christmas songs, poetry and music at 8 p.m. Tuesday, Dec. 4, in the Hetzel Union Building Fishbowl at University Park.

The public is invited to participate in singing Christmas songs, including "Der Kinderlein Kommet," "O Tannenbaum," "Stille Nacht, Heilige Nacht" and "O du froehliche." The program also will include readings, in German, of poems and the Bible's account of the birth of Christ, as well as musical selections by vocal soloists Sue Stevenson and Barbara Hess, accompanied by Cynthia Mills on piano and Carl Volz on violin.

Odyssey on WPSU

In 16th-century France, two women poets addressed their poems to "the Ladies of Lyons," establishing a relationship between poet and writer that was "so intimate and mysterious that you have to call it communion," says Christine Clark-Evans on the next episode of "Odyssey Through Literature."

Poets Louise Labé and Perné Du Guillet wrote poems for other women who then became "the companion to that text, read that text, and as the Renaissance view of influence is expressed, 'digested' that text, and then wrote another one." The result,

Please see 'Arts' on page 11.

The arts at...

Penn State Harrisburg

Penn State Harrisburg will exhibit the art works of Sam Peters in the Gallery Lounge from Dec. 3 to Jan. 25. The exhibit features some of Mr. Peters' most recent works and will include 18 different monotype prints, collages and screen prints.

University Park Calendar

November 29--
December 9

Special Events

Thursday, November 29

Bach's Lunch concert, 12:10-12:30 p.m.
Eisenhower Chapel, Penn State Flute Ensemble
URTC, 8 p.m., Pavilion Theatre, "Butterfingers"
Angel, Also Nov. 30, 8 p.m.; Dec. 1, 2 and 8 p.m.

Friday, November 30

WISE Forum, Brown Bag Lunch/discussion, noon-1 p.m., 301 HUB, "What's Happening to Support Women in the Sciences and Engineering."
Geog. Coffee Hour, 4 p.m., 310 Walker, George Beatty on "Following Linnaeus' Path in Lapland."

Shaver's Creek, Owl Prowl, 7-9 p.m., Call 863-2000.
School of Music, 8 p.m., Schwab Aud. Christmas concert, Penn State Philharmonic.

Saturday, December 1

Shaver's Creek, wreathmaking workshop, 1-4 p.m. Also Dec. 2, Call 863-2000.
School of Music, 7 p.m., HUB Ballroom.
Symphonic Band concert.

School of Music, 8 p.m., Eisenhower Aud. Christmas concert, University and Concert choir.

Sunday, December 2

"Handel's 'Messiah' sing-along, 3 p.m., Eisenhower Aud.
School of Music, 7 p.m., Recital Hall, "Saint Nicholas" by Benjamin Britten, University Glee Club and Women's Chorus.
Carnegie Hall Film Series, 7 p.m., *The Redskins Moment* (1949); 8:30 p.m., *Wings of Desire* (1988), 203 Willard. Free.

Monday, December 3

"Comp. Lit. Luncheon, 12:15 p.m., 101 Kern. Seong-Kon Kim on "Recent Western Literary Theory and Oriental Philosophy."
Women's Studies Student Affairs Committee, 12:15-1 p.m., 12 Sparks.
School of Music, 8 p.m., Recital Hall, Jazz II and III.

Tuesday, December 4

Dept. of Art History, lecture, 8 p.m., 112 Walker, Richard Brilliant, Columbia Univ., on "A Guide for the Perplexed Interpreter."
Dept. of German, 8 p.m., HUB Fishbowl, Christmas celebration: traditional German Christmas songs, poetry, music.

Wednesday, December 5

Center for Women Studies, Brown Bag Lunch Series, film/discussion, noon-1 p.m., 120 Boucke, "Lifetime Commitment: A Portrait of Karen Thompson."

Women's Studies Faculty/Advisory Committee meeting, 3:30-5:30 p.m., 12 Sparks.
Gallery talk, 8 p.m., Palmer Museum of Art, Florence Puttermann, artist.
School of Music, 8 p.m., Recital Hall, Student Composers' Concert.

The Penn State Philharmonic Orchestra will present its annual Christmas concert at 8 p.m. Friday, Nov. 30, in Schwab Auditorium.

Thursday, December 6

Careers in the Arts, 10:11-11:30 a.m., Palmer Museum of Art, Pier Bandini on "Computers in Architectural Design."
Bach's Lunch Concert, 12:10-12:30 p.m., Eisenhower Chapel, Voice students of Suzanne Roy; Christmas music.

Penn State Chapter of Educational Office Personnel, 12:10 p.m., 110 Henderson, Dr. Charles M. Super on "Completing the Circle: Staff Evaluation of the Office Climate."
School of Music, 8 p.m., Schwab Aud. Holiday Sounds in Brass and Voices.

Friday, December 7

"Geog. Coffee Hour, 4 p.m., 319 Walker, Kris Kringle, United Nations Univ., on "Global Patterns of Reciprocity."
Center for the Performing Arts, 8 p.m., Eisenhower Aud. "The Nutcracker" Pittsburgh Ballet Theatre. Also Dec. 8, 3 p.m.

Saturday, December 8

School of Visual Arts, 9 a.m.-4 p.m., Chambers Gallery, Saturday morning art school open house.

Sunday, December 9

Shaver's Creek, members holiday party, 2-4 p.m., Call 863-2000.

Public Radio

WPSU-FM 91.1

"All Things Considered," Monday-Friday, 5:30-6:30 p.m.; Saturday and Sunday, 5-6 p.m. Morning Edition, Monday-Friday, 6-8 a.m.; Weekend Edition, Saturday and Sunday, 11 a.m.-1 p.m. "Odyssey Through Literature," 12:30 p.m. Wednesdays: with S. Leonard Rubinstein.

Conferences

Continuing Education

Keller Building

Nov. 29-30, Building a Better Bottom Line: Cost

Estimate Analysis and Control, Deborah Klevans, chair; Donna Ricketts, coordinator.
Nov. 30-Dec. 1, "The New Europe and U.S. Interests," Trond Gilberg, chair; Jack Sinclair, coordinator.

Dec. 3, Arts in Education Conference, Carole Brandt, chair; Jerri Milsom, coordinator.
Dec. 3, Well Control Refresher Course, Stanley Supon, chair; Norm Lathbury, coordinator.

Seminars

Thursday, November 29

Physics Colloquium, 3:30 p.m., S5 Osmond Lab, Allons Weber, National Institute of Standards and Technology, on "High Resolution Spectroscopy: Dimers, Trimers, and Tunneling."

Ecology, 3:45 p.m., 110 Warkit, Kay Shuttleworth on "Toxicity and Sorption of Heavy Metals to Filamentous Bacteria."
Gerontology Colloquia, 4:45 p.m., 100 Mitchell, Louis Burgio, Univ. of Pittsburgh, on "Behavioral Interventions for Urinary Incontinence in the Nursing Home."

Friday, November 30

Polymer Science, 9 a.m., 301 Steidle, Russell Compoto.
Computer Science, 4 p.m., 325 Whitmore Lab, Nancy Lynch, Massachusetts Institute of Technology, on "Some New Results in the Theory of Real-Time Computing."

Monday, December 3

Center for Acoustics and Vibration, 3:45 p.m., 232 Hammond, Vibrations and Machinery Noise Technical Group seminar.
EPF, 4 p.m., 339 Davey Lab, Dr. George Hou, Switzerland, on "Direct CP Violation in Charmless B Decays."

Tuesday, December 4

Chemical Engineering, 2:45 p.m., Paul Robeson Cultural Center Aud. J.L. Duda on "A Chemical Engineering View of Tribology"
Condensed Matter Physics, 4 p.m., 339 Davey

Lab Dr. Eric Mazur, Harvard, on "Light on Surfaces and Monolayers."

Wednesday, December 5

Accounting and MIS Research Colloquium, 3:30-5:30 p.m., 333 Beam, Robert Lipke, Univ. of Michigan, on "Additional Evidence on the Relation Between Stock Returns and Accounting Earnings Given Alternative Information."

Condensed Matter Physics, 4 p.m., 339

Davey, Dr. Young Kuk, AT&T Bell on "Carrier Dynamics on Silicon and/or Silicide Surface and Interface."

Thursday, December 6

Physics Colloquium, 3:30 p.m., S5 Osmond Lab, Paul Stenhardt, Univ. of Pa. on "The Inflationary Universe."

Friday, December 7

"Center for Research in Conflict and Negotiation, 2:10 p.m., 115 Beam, Howard Ratliff, Harvard on "International Negotiations on Global Climate Change."

Exhibits

Chambers Gallery

Undergraduate Prints and Books, through Nov. 30.

HUB Galleries

Browsing Gallery, Rosemary Geseck, through Dec. 1.

Art Alley Panels/Cases

Seminar for the Professional Development of Visual Artists, through Dec. 1.

Formal Galleries:

"Jack Delano, Craftsman: 40 Years of Change and Continuity in Puerto Rico, through Dec. 2. Central Pennsylvania Village Crafts Inc., Dec. 3-Jan. 3.

Palmer Museum of Art

"The Save River: A New History, through Dec. 21. Florence Puttermann: A 20-Year Venture, 1970-90, through Jan. 13.

Pattee Library

East Corridor Gallery: The Essential West: A Collection of Photography 1988-90, through Dec. 15.

Rare Books Room:

Christmas Materials from the Allison-Shelley Collection, through Jan. 1.

*Reflects an international perspective

Bookshelf

Libby Goodman, assistant professor of special education at Penn State Great Valley, is the author of *Time and Learning in the Special Education Classroom*, published by State University of New York Press.

Her book focuses on elementary special education, where there has been far less published on the effective use of

instructional time than in regular education.

"Time is a limited resource," she says. "People have been aware of the time factor in learning for a long while, but time was often thought of only as a background variable. Today, instructional time and how it is used are understood to be essential and

key variables related to student achievement and performance."

Dr. Goodman earned her master's and doctoral degrees in special education from Temple University. Prior to joining Penn State, where she has taught for 10 years she spent 15 years in special education in Radnor and Philadelphia school districts.

Holiday Shopping Guide

'Horatio's'

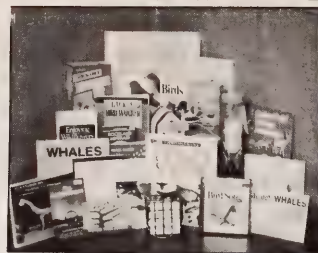

Shaver's Creek Environmental Center, nestled in the woods of Rothrock State Forest, has more than 25 miles of hiking and skiing trails to explore while discovering the wonders of the natural world. The Center also offers another item to be discovered, "Horatio's," a unique book and gift shop which carries nature-related items for all ages on your holiday gift list.

For individuals who enjoy watching birds and providing winter food for them, "Horatio's" offers a wide variety of birdfeeders and bird accessories which provide hours of close-up bird watching. Choose from both Droll Yankee and Aspect models. Blue Devil bird bath heaters, blue bird houses, hummingbird feeders, and metal and mesh suet feeders.

Once the feeder is in place, a perfect gift to accent its use would be an identification guide. "Horatio's" carries *The Peter-on First Guide to the Birds: Peterson's Eastern Birds*, *The National Geographic Society Field Guide to North American Birds*, *Donald Stokes's A Guide to Bird Behavior*, and many more.

"Horatio's" also carries books on natural history topics: wildflowers, fish and oceans, reptiles and amphibians, insects and spiders, mammals, astronomy, geology and environmental issues.

For the individual on your list who enjoys outdoor activities, you'll discover books about hiking, canoeing,

non-competitive games and how to share nature with children. Gardeners can pick up a bushel of helpful hints about creative gardening, herbs, wild edibles, composting and effective use of space. Classic books by environmental educators and philosophers also can be found at the store.

For educational gifts for children, choose from a wide variety of field guides, coloring books, storybooks, activity books and question and answer books.

Other holiday gift ideas include: bug boxes, hand lenses

to observe insects, water dwellers and wildflowers; Shaver's Creek and Raptor Center T-shirts, bird song recordings, compasses, bird mobiles and dinosaur model kits.

Shaver's Creek offers a nontraditional gift idea: choose from both our membership or Adopt-A-Bird programs.

The Center is dedicated to education, service and research in the fields of recreation and parks and environmental education. Your membership dollars help to support the enhancement of the trails, expansion of the exhibit room and interpretive programs, internships for aspiring environmental educators and naturalists, and the operation of our Birds of Prey Rehabilitation facility.

As a member, you will receive: seasonal newsletter, Shavings: seasonal program guide; special member programs: reduced fees on public programs; discounts on purchases made at "Horatio's"; free admission to the Center; and the satisfaction that comes from expressing a personal environmental ethic.

Shaver's Creek is proud to have one of the few Birds of Prey Rehabilitation facilities in Pennsylvania. By adopting one of the resident injured birds of prey, you will be contributing to the food and care cost for the bird. You will receive a color photo of the bird you have adopted and an official adoption certificate.

"Horatio's" is open seven days a week from 10 a.m. to 5 p.m. The last day the store will be open before Christmas is Dec. 20.

Independent Learning

Give the one gift that's truly Penn State: knowledge. With a gift certificate from Penn State Independent Learning, you're offering the opportunity to choose from more than 300 credit and credit-free courses.

Stamp collecting, calligraphy, community theater, computers, plant cultivation, French and the history of Pennsylvania are among the courses available. Someone you know has a favorite subject, and you'll find it in the free Independent Learning catalog.

Faculty and staff and their eligible dependents receive tuition grants-in-aid (75 percent).

For details, stop by the Independent Learning office at 128 Mitchell Building, or call 865-5403 and ask about "The Gift of Knowledge."

White Golf Shop

The White Golf Shop will be open for Christmas shopping daily from 7 a.m. to 6 p.m. The shop will close at noon on Dec. 24.

The shop has everything needed for a round of golf.

There is a large variety of golf items to please any taste. Golf club assembly, club repair, gift certificates, memberships and other golf services will be available throughout the remainder of 1990, as well as in the new year.

As usual, there will be special sale tables, with many items discounted.

For more information, call the White Golf Shop at 865-6231.

In the interest of making holiday shopping easier, INTERCOM presents its 11th annual listing of gift ideas that are available at University Park. The holiday shopping guide was compiled by the INTERCOM staff and Carolyn Juskelis and Tricia Smith.

Blue Band

The following items are available from the Penn State Blue Band and can be purchased at the Penn State Bookstore on campus, the Student Book Store on College Avenue and McLanahan's Penn State Room on Garner Street:

Blue Band Video -- 30-minute cassette of Pregame, including the famous flip and halftime highlights; produced by WPSX-TV; \$25

New audiotape "Here's Big Blue" -- Includes school songs and halftime favorites; \$8.50

Postcards -- Five for \$1

Center for the Performing Arts

This holiday season, do your shopping with the Center for the Performing Arts and avoid the what-to-give blues. The Center has a creative gift idea that's perfect for everyone.

New this year, the Center is offering gift certificates that can be purchased for any amounts and used for any of the Center's spring performances.

To purchase gift certificates, call 863-0255 or stop by the Eisenhower Auditorium Ticket Center. Your gift, either cash, check or major credit card, is placed in an account for the recipient. You can either give the gift certificate and a season brochure to that person or have the Ticket Center mail them for you. Recipients can buy tickets from among 16 performances.

The shows range from the subtly dramatic to the boldly spectacular. Always popular and sure to be a sell-out, the New York City Opera National returns with Mozart's *The Marriage of Figaro*. Coming up in the Mozart festival are the Mozartean Players with Steve Lubin on fortepiano and renowned pianist Malcolm Bilson.

Music fans may favor a free-spirited session with Ladyship Black Mambazo, the 10-man, Grammy-winning group from South Africa. Later in the spring, listen for the hot sounds and driving beat of the Tito Puente Latin Jazz Allstars.

Classical music choices include the Philadelphia Orchestra, with Yuri Temirkanov as guest conductor. Christopher Parkening will add his classical guitar magic to the sounds of the Scottish Chamber Orchestra.

The Center also brings Broadway to University Park

with "Into the Woods." Steven Sondheim's musical that brings together fairy tale characters to explore what really happens "happily ever after," and "The Sound of Music." Rodgers and Hammerstein's timeless classic.

Also scheduled are an evening with Spalding Gray, preceded a day earlier by a showing of his film "Swimming to Cambodia," the choreography of Bill T. Jones/Air Zane and Co. dance troupe and the American Indian Dance Theatre. Other dance events include "A Midsummer Night's Dream" from the Pittsburgh Dance Theatre and the Feld Ballets from New York.

For children, there are shows like "The Little Prince," a musical based on A. de Saint Exupéry's book, and the Chestnut Brass Company's presentation of "Hot Air: The Story of Brass Instruments." The amount expires in June, and refunds will be given for unused amounts under \$10.

Christmas tree sale

The Penn State Forestry Society is having its annual Christmas tree sale. Scotch pine trees ranging from four to seven feet in height are available. The cost is \$4 per linear foot (\$24 for a six-foot tree), plus \$4 for delivery on and off campus.

Deliveries will be made as soon as possible after ordering begins. Trees also can be picked up at the Ag Arena from 1 to 5 p.m. on Dec. 2 and 9. Orders will be accepted through Dec. 4. Call 237-5673.

Gifts available at University Park

Palmer Museum of Art Museum Store

Located in the lobby of the Palmer Museum of Art on Curtin Road next to the University Creamery, the Museum Store specializes in unique and unusual gifts, and this holiday season its shelves are stocked with little treasures from around the world.

The Store is open 10 a.m. to 4:30 p.m. Tuesday through Friday, 11 a.m. to 4:30 p.m. Saturday and noon to 4 p.m. Sunday.

The Store will hold a 10-percent-off sale on all merchandise for the public, with 20 percent off for the Friends of the Palmer Museum.

Whether browsing for the child or the child at heart, consider what the Museum Store has to offer:

International gift ideas

Chinese cloisonne eggs, figurines, boxes, porcelain tea sets

Chinese cedar masks
Dutch sterling silver and Swarovski crystal rings, pins, earrings

Russian stone carvings
Russian nested Matryoshka dolls
East German nutcrackers and smokers (made prior to the reunification of the two German nations)

Denmark amber necklaces, rings, bracelets and earrings
Sri Lankan wooden carved masks
Kenyan baskets, fertility figures and primitive

instruments
Mexican ceramic figures and pre-Columbian figures
Peruvian clay, brass and sterling silver jewelry, clay pots
Dollies made in Lichtenstein

Traditional gift ideas

1991 illustrated wall calendars
1991 Metropolitan Museum of Art Engagement Calendars

Turquoise jewelry from western United States
Native American Indian pottery
Anne Dick polished bronze jewelry from California
Brass chimes and bronze bells from Harmony Hollow

Boxed notes from Caspari
Windfield Homes by Henry Musser
Pottery by Rowe, Roger Zellner and Lester Breining
Bracelets and necklaces in semiprecious stones
Antique reproduction jewelry in pewter and goldplate
Handmade brass earrings and bracelets by Sausalito

Craftworks

T-shirts
Pewter bracelets and earrings by Raymond Pewter
Ceramic fish platters by Ann Elizabeth
Animal sculpture by Anderson

Children's items

Coloring books from the Smithsonian
Troll activity books
Kaleidoscopes, balance balls, dazors, suprint kits and spiral timers

Space tubes and key rings

Wood and cloth holiday figurines from Sweden
Crystal bells and eggs made in the United States

Nittany Lion Inn

The Nittany Lion Inn invites the public to "Celebrate the Season" on campus by planning to hold holiday office gatherings at the Nittany Lion Inn. The professional staff is available to assist with arrangements for groups from 10 to 300 guests. Call 231-7525 for reservations and information.

The Inn offers its Festive Holiday Sunday Brunch from 11:30 a.m. to 2 p.m. Dec. 2, 9, 16 and 23, with traditional music and decorations. The customer appreciation Holiday Luncheon Buffet will be served in the dining room from 11:30 a.m. to 2 p.m. Monday through Friday, Dec. 17-21. Complimentary Wassail Punch will be available in the lobby from 11:30 a.m. to 2 p.m. and from 5 to 7 p.m. during the week. Call 231-7515 for reservations and information.

The Inn also is offering a special holiday "Great Rates" package during the holiday recess from Dec. 23 through Jan. 1. Singles and doubles start at \$39 plus tax and include a continental breakfast each morning for overnight guests. Call 231-7505 for room reservations and information.

Gift certificates may be purchased in any amount at the Inn registration desk for such items as a dinner for two, a Sunday brunch, a gift package.
During the Inn's expansion and renovation, the Park Avenue entrance is closed, but the Atherton Street drive is open for guest registration and dining guests. Parking for all Inn patrons is available on the upper level of the Parking Terrace.

Forum on Black Affairs

The Forum on Black Affairs is selling Christmas cards with an African-American theme. In addition, the Forum will have cards that commemorate the celebration of Kwanzaa, an African-American tradition.

The cards will be sold individually or in boxed sets with prices ranging from \$1.50 through \$12. The cards are on display at the Paul Robeson Cultural Center and can be ordered from any FOBA member. The Cultural Center is open from 8 a.m. until 10 p.m. Monday through Friday and 1 to 4 p.m. on weekends. Call 865-1779 or 863-1663 for more information.

The Creamery Store

For this holiday season, patrons may purchase famous Penn State ice cream available in numerous flavors and packed in dry ice for keeping up to 12 hours. Penn State-made cream cheese, cheddar cheese and cream cheese spreads also are available in the Creamery store.

In addition, customers may want to purchase cheese gift boxes containing products manufactured by the University Creamery.

The Creamery is open from 7 a.m. to 10 p.m. Monday through Friday, 8 a.m. to 10 p.m. Saturday, and 9 a.m. to 10 p.m. Sunday.

The Weekly Collegian

Alumni, recent and past, will be kept up to date on happenings at the University with a subscription to *The Weekly Collegian*.

Published by the staff of *The Daily Collegian*, *The Weekly Collegian* makes a useful and informative gift for Penn Staters. The subscription price is \$14.52 for one year, \$27.06 for two years and \$36.03 for three years. Subscriptions outside of the United States are an additional \$11.88 per year (surface mail).

To subscribe, make checks payable to Collegian Inc., Dept. W, 123 S. Burrows St., University Park, Pa. 16801-3882. Subscriptions will begin upon receipt of order.

Poultry sales

The Poultry Salesroom will be open from 10 a.m. to 3 p.m. Thursday, Dec. 20. Items available for sale include chicken roasters, fryers, stewing chickens and fresh eggs. The Salesroom will be closed from Dec. 24 to Jan. 1 and will reopen on Thursday, Jan. 3. For more information, call 865-3765.

Holiday Shopping Guide:

Penn State Bookstore

The Penn State Bookstore on campus will celebrate the holidays with its 12th annual appreciation sale, starting Dec. 3 and continuing through Dec. 21.

The University community is invited to take advantage of the store-wide sale, which is designed to express appreciation to the bookstore's year-round customers. A 20-percent discount is offered on almost everything in the store -- from quality Penn State apparel and gifts to a large selection of general books, art and engineering materials, supplies and holiday merchandise.

The bookstore is open seven days a week, 8 a.m. to 8 p.m. Monday through Thursday, 8 a.m. to 5:30 p.m. Friday, 9 a.m. to 5 p.m. Saturday and noon to 4 p.m. Sunday. Some categories of merchandise are excluded from the sale, such as textbooks, black and white film supplies, calculators, sale items (already discounted more than 20 percent) and a few other items.

The bookstore offers a large selection of hardbound bestsellers at \$3.50 each; current *New York Times* bestsellers are discounted 25 percent every day, and selected items in several departments currently are offered at large reductions.

In the general book department, customers can browse through books by faculty and local authors, a large selection of paperback and hardbound bestsellers, classics, poetry, mysteries and science fiction, art books, humor, computer books, nature/life science, mathematics and engineering books (save up to 60 percent on selected Springer-Verlag titles through Dec. 31), reference books, biographies and cookbooks.

In addition, browse through more than 600 calendars and datebooks for 1991, illustrating a variety of subjects, in several formats to suit your needs, including desk/apartment style books, or word-a-day style calendars and Sierra Club calendars.

Whether the topic of interest is dinosaurs, myths and legends, different languages or cultures, fairy tales, scientific facts, exploration or contemporary social situations, you are sure to find treasures for children on your gift list in the Children's Book Department. Classics for children, a selection of Caldecott Honor Books and Newbery Award Winners, educational games and puzzles are also available.

The bookstore also carries a large selection of books on Pennsylvania and Centre County, including many titles from the Penn State Press and Keystone Books. During the week of Dec. 3, the bookstore will hold its annual

"Celebration of Authors" with daily book signings, featuring several local authors each day.

The Art and Engineering Department offers calligraphy and painting sets, a wide variety of sketchbooks and papers, Olympian drafting table set (including lamp and stool) sale-priced at \$129.95; Faber Castell Design color pencil set (60 colors) in a portfolio \$36 (reg. \$47.50); Staedler Mars ultrasonic technical pen cleaner \$78.40 (reg. \$98); pens, pencils, markers.

In the Supply Department, you will find custom-designed Penn State holiday cards and ornaments, quality stationery, Parker and Mont Blanc pens and Penn State insignia A.T. Cross pens and pencils. A large variety of desk accessories and quality leather and vinyl briefcases and attaches, reasonably priced photo albums, address books and other supplies are available.

The bookstore also carries the largest selection of Penn State emblematic clothing in traditional collegiate styles and contemporary fashions. The choices include sweaters and sweatshirts, T-shirts, hats, children's wear and knitwear.

An abundance of stocking stuffers can be found throughout the store, including colorful school supplies, pens and pencils (Penn State insignia pencil at 24 cents each -- regularly 29 cents), blank books, games, picture frames, maps, pocket address/date books and holiday items.

Alumni Association

It's Time to Get "Cookin' With the Lion"

Joe Cavinato's "Business Logistics Pound Cake," Bob and Pat Beam's "Walleye Encaseroles," Judy Morgan's "Pineapple Zucchini Bread," the Penn State Bakery's "Midnight Cake" and Evelyn Saubel's "Strawberry Lemonade Punch..."

These are just some of the 275 tested recipes featured in *Cookin' With the Lion*, the Penn State Alumni Association cookbook.

Published with the help of 1,400 alumni volunteers, the 8 1/2 x 11 inch hardbound book is illustrated with color photographs and cartoon lions and is filled with creative entertaining ideas, nutrition tips, tailgate specialties and Penn State food trivia.

It's a different kind of Penn State gift for anyone on your list who enjoys good food and good times. Best of all, as with all Alumni Association marketing ventures, a portion of the proceeds goes to student scholarships and fellowships as part of the Association's \$1 million pledge to the University's fund-raising efforts.

Priced at \$19.95 plus tax, *Cookin' With the Lion* is available at the Alumni Office, 105 Old Main, or at the Penn State Bookstore (all campuses), the Nittany Lion Inn, the Student Bookstore, University Book Centre, McLanahan's Self-Service, the Country Sampler in Boalsburg and Fashion Classics near the Nittany Mall.

Other Penn State gift ideas from the Alumni Association include Nittany Lion statuettes, armchairs and rockers, photoob, clocks and wrist watches, a brake light display, alumni license plates and memberships in the Alumni Association. Stop by 105 Old Main or call 865-6516.

Christmas ornament

The official 1990 Penn State Christmas ornament is available for \$14.95 at the Penn State Bookstore on campus.

The second in the five-year "Christmas at Penn State" ornament series, this year's design features the Nittany Lion. The ornament is minted in 24-karat gold over brass.

Ornament sales benefit two special causes: undergraduate scholarships at Penn State and the Easter Seal Society of Centre and Clinton counties -- whose mission is to help disabled persons realize their potential.

Countries represented include Bangladesh, Bolivia, Chile, Ecuador, El Salvador, Guatemala, Haiti, India, Kenya, Korea, Mexico, Nepal, Peru, Philippines, Sri Lanka, Taiwan and Thailand.

The event is sponsored by the Kern Graduate Commons, Office of Union Programs and Operations, in conjunction with the nonprofit program SERV. Its purpose is to promote the social and economic progress of developing regions of the world by purchasing and marketing their handcrafts.

Penn State Press

The Penn State Press is pleased to offer the entire list of titles to University faculty, staff and students at half price during the Christmas season. We hope this will encourage you to give books for Christmas. You'll find a sampling of books listed below at their sale price.

In addition, we are offering a free gift. When you purchase two or more books, you will receive a free copy of *Pennsylvania* 1776.

The sale begins Nov. 29 and ends Dec. 20.

Stop by the Press in Suite C, Barbara Building (also known as the Incubator Building), 820 N. University Drive, between 8 a.m. and noon and 1 and 5 p.m. If you need to shop between noon and 1 p.m., call ahead (865-1327), and we'll make arrangements for someone to be available to fill your order. There's plenty of parking available.

Among the books available are:

- Edith Wild Plants of Pennsylvania* - \$17.50 cloth, \$8.50 paper
- Baseball: An Illustrated History* - \$19.25
- American Baseball* (3-volume set) - \$45 cloth, \$25.50 paper
- The Central Intelligence Agency* - \$8.75 paper
- Michelangelo's Nose* - \$14.25
- Art of American Car Design* - \$17.25
- Pennsylvania Album* - \$10 cloth, \$6.25 paper
- Pennsylvania Prints* - \$10 cloth, \$6.25 paper
- Pennsylvania Clocks and Watches* - \$19.75
- History of Pennsylvania* - \$12.50
- William Warren Scrantom* - \$11
- Outboard Journals in Pennsylvania* - \$11.25 cloth, \$6.50 paper
- Fishes of Pennsylvania* - \$16.25
- Rivers of Pennsylvania* - \$8.50 cloth, \$6.50 paper
- Modern Wrestling* - \$7.50 cloth, \$4.50 paper
- Learning the Fiddler's Ways* - \$8 cloth, \$4.50 paper
- In Search of Italy* - \$12.50
- Clarissa on the Continent* - \$14.75
- Madness and Blake's Myth* - \$12.50
- Bernard Shaw on the London Art Scene* - \$25
- After the Fall* - \$11.75
- World Art* (3 volumes) - \$37.50
- Aegean Painting in the Bronze Age* - \$25
- Vergil's Aeneid* - \$14.50
- Key to the Keystone State* - \$6.50
- The Actor in History* - \$9.50
- Ezra Ripley on London and Paris* - \$16.25
- Carl Sandburg* - \$15

Holiday artifact sale

The 17th Annual International Holiday Artifact Sale in the lobby of Kern Graduate Commons runs from 9 a.m. to 4 p.m. Monday through Friday through Dec. 7.

The holiday sale features 350 different, original handmade crafts, such as items made of brass, jewelry, children's toys and baskets, representing the work of artisans from various developing regions of the world.

Faculty/Staff Alerts

SPEC Program

The Staff Position Evaluation and Compensation (SPEC) Program has entered the next project phase with the distribution of position information questionnaires (PIQs) to employees currently classified as staff exempt, staff nonexempt and clerical. These three categories will be combined into a single category called staff.

The purpose of the questionnaire is to gather information about duties, responsibilities, skills and qualifications required in each of the jobs within the University. This step is critical to ensure that the new Penn State compensation program, which will result from the SPEC project, accurately reflects the University's working environment as it exists today.

The questionnaire that all staff members are completing is the result of many months of planning, development and testing. It is to be completed by employees based upon their job duties, since the goals of the SPEC program is to evaluate jobs, not the performance of individuals who hold the jobs.

To assist employees in completing questionnaires, informational meetings are being conducted throughout the University. All staff members are encouraged to attend one of these meetings to ask questions and learn more about the SPEC program. It is hoped that these sessions help to ensure that questionnaires are completed properly.

To aid staff members who may have additional questions during the completion

of the PIQ, the Office of Human Resources is operating a SPEC telephone information line, 814-865-1313 (Network 475-1313). The line is open from 8 a.m. to 5 p.m. Monday through Friday.

Completed PIQs should be returned to each employee's supervisor. Supervisors play an important role in the questionnaire and data collection phase of the project since they review employees' responses and add comments that can enhance the analysis and understanding of the job. Supervisors will not change or delete responses made by the employees.

Once the questionnaires are reviewed by supervisors and returned to the Office of Human Resources, the SPEC team will begin the next phase of its work. Using the

information provided by employees, classification analysts from Penn State and William M. Mercer Inc. will begin to evaluate more than 5,000 jobs that exist within the University.

The Position Information Questionnaire is perhaps the most significant building block of the new program. It will provide the SPEC project team with job information from the most valid source—the employees who actually perform each job. The information provided will play a key role in creating a compensation system that fairly and properly rewards the work staff members perform.

All staff members are urged to complete the questionnaire and return it to their supervisors by Dec. 12.

Holiday schedule

University offices and operations, except for essential services and operations, will close at the normal end-of-business time on Friday, Dec. 21, and will resume at normal starting times on Wednesday, Jan. 2.

The official University holidays are Monday, Dec. 24; Tuesday, Dec. 25; Wednesday, Dec. 26; Thursday, Dec. 27; Friday, Dec. 28; Monday, Dec. 31; and Tuesday, Jan. 1, 1991.

Biweekly and monthly paychecks will be released on Friday, Dec. 21, but will not be negotiable before their respective effective date (biweekly paychecks will be dated Friday, Dec. 28; monthly paychecks will be dated Monday, Dec. 31). Automatic deposits will not be made early.

This schedule and payroll information is not applicable for the Hershey Medical Center, since employees there earn service holidays in lieu of the extra December holidays.

Questions regarding the above holiday information should be directed to the appropriate college or department personnel representative, or director of business services at a facility away from University Park.

Noon hour courses

The Human Resource Development Center and Continuing Education are offering the following three-credit courses for

University employees in Spring Semester 1991:

Economics 004 and Management 100 will meet from 12:10-1 p.m. Monday, Wednesday and Friday; B Law 243 will meet from 11:45 a.m. to 1 p.m. Tuesday and Thursday.

The courses are part of the Business Management and Business Administration Certificate Programs offered through Continuing Education. An academic counselor is available to help with course selection.

For information, contact the Human Resource Development Center at (814) 865-3410 or the Continuing Education Office at (814) 865-3443.

Obituaries

William C. Van Gorder, assistant professor of engineering research at the Applied Research Laboratory, died Nov. 12 at the age of 68.

He was a graduate of St. Louis University with a bachelor of arts degree in aerospace engineering. He joined the Applied Research Laboratory on May 16, 1960.

Marie L. Long, counter attendant, Housing and Food Services, from Feb. 1, 1950, until her retirement April 29, 1970, died Oct. 27 at the age of 86.

Focus on the arts

Continued from page 6.

says Professor Clark-Evans, was a precursor of modern feminist intertextuality: a circle of women poets and readers who guided each other to greater and greater achievements through exchanging what they had written.

"Odyssey Through Literature" is produced by the Department of Comparative Literature, with audio-production services by WPSX-TV. It airs Wednesdays at 12:30 p.m. on WPSU, 91.1 FM.

Art history lecture

Richard Brilliant, professor of art history at Columbia University, will give a lecture titled "A Guide for the Perplexed Interpreter" at 8 p.m. Tuesday, Dec. 4, in Room 112 Walker Building at University Park.

The lecture is part of the "Art of Interpreting" series sponsored by the Department of Art History and the Institute for the Arts and Humanistic Studies.

Dr. Brilliant received his doctorate from Yale University in 1960. He is the editor of the *Art Bulletin* and has published a number of books including *Arts of the Ancient Greek*

Culture and Rank in Roman Art and Visual Narratives.

Concert of new music

The School of Music will present a concert of new music composed by graduate and undergraduate students at 8 p.m. Wednesday, Dec. 5, in the Recital Hall of the Music Building at University Park.

Original music by graduate students Zhefu Xue and Karim Benamar and undergraduate students David Horan, Joseph Leluga, Christina Novak, Alexander Ruzanic and Mark Wurster will be performed by various ensembles and soloists.

The concert will include works for chorus, string quartet, voice, electronic instruments and other instruments.

Slide presentation

Artist and Penn State alumna Florence Putterman will give a slide presentation of her work at 8 p.m. Wednesday, Dec. 5, at the Palmer Museum of Art at University Park.

The presentation will be followed by a tour of Ms. Putterman's work in the

exhibition "Florence Putterman: A 20-Year Survey, 1970-90," currently on display in the museum's second-floor gallery through Jan. 13, 1991.

Graphic design lecture

New York-based designer Seymour Chwast will present a slide lecture of his work at 8 p.m. Wednesday, Dec. 5, in the Keller Conference Center Auditorium at University Park as part of the visiting artist program in the School of Visual Arts.

Mr. Chwast is a graphic designer and illustrator whose work has appeared on posters, magazine covers, books, advertisements, packaging and record albums, among others, and has been included in every prominent graphic design exhibition in the last 25 years. His clients include leading corporations, advertising agencies and publishing companies in this country and abroad.

His lecture is free and open to the public.

Christmas music

Seven student vocalists will perform holiday selections at 12:10 p.m. Thursday, Dec. 6, in the Eisenhower Chapel at

University Park. The 20-minute concert is the final performance in the Fall Semester Bach's Lunch Concert Series, sponsored by the School of Music and the University Lutheran Parish.

The program will consist of works by J.J. Niles, Herbert Fryer, Hugo Wolf, Regner, Cornelius and Korem.

Holiday concert

The University Brass ensemble and the Singing Lions will combine their talents for the concert "Holiday Sounds in Brass and Voices" at 8 p.m. Thursday, Dec. 6, in Schwab Auditorium at University Park.

The University Brass will perform a number of selections, including Alfred Reed's Symphony for Brass and Leroy Anderson's Suite for Corners. The trombone choir and other smaller ensemble also will be performing.

The Singing Lions will perform the medleys "Carols of the Season" and "Bells of Christmas Pop" as well as the traditional "Twas the Night Before Christmas." In addition, there will be a number of solo performances and a vocal quintet.

Staff Vacancies

The following vacancies for positions classified as staff exempt or staff nonexempt have been listed with the University Employment Division for filling. The brief statements for each vacancy are illustrative. They are not complete position descriptions. **APPLY BY CALLING THE EMPLOYMENT DIVISION, 863-0304.** Applications for these staff vacancies will be accepted until **Dec. 6. DO NOT CONTACT THE AREA THAT HAS THE VACANCY.** Applications for staff vacancies are considered in accordance with Fair Employment practices (PS II) and in compliance with the University's Affirmative Action Compliance Program without regard to race, color, religion, national origin, handicap or age as provided by law, or status as a disabled or Vietnam era veteran.

***01143, Director of Clinical Services, Student Services, University Health Services, University Park Campus** - Responsible to the associate vice president for student services for formulating medical policy for student health services and directing all clinical staff. Requires a doctor of medicine degree from an accredited medical school. Must be board certified/board eligible in family practice or internal medicine and eligible for licensure in the Commonwealth of Pennsylvania with over five years of previous effective experience. Applicants should have previous medical management experience and documented leadership ability and expertise in adolescent/young adult medicine. Current CPR certification is expected. **STAFF GRADE 10**

***01156, Supervisor of Snack Bars, Housing and Food Services, University Park Campus** - Responsible to the manager of vending and snack bars for direct supervision of late hour cash operations. Requires bachelor's degree or equivalent in HRIM, dietetics, or home economics with one to two years of effective experience in food service. Familiarity with microcomputer and software packages preferred. **MUST BE AVAILABLE DURING EVENING HOURS- 4:30 TO 11 P.M. NORMAL WORK SCHEDULE IS SUNDAY**

THROUGH THURSDAY, STAFF GRADE 5

***01157, Associate Director, Planned Giving, Division of Development and University Relations, Office of Planned Giving, University Park Campus** - Assist the director of planned giving in identifying and cultivating planned giving prospects and donors. Travel is required. Requires bachelor's degree or equivalent, plus four to six years of effective experience in major gift fund raising, preferably in higher education or financial planning. Working knowledge of planned giving techniques and relevant tax laws. Excellent written and verbal communication skills and interpersonal skills are essential. **THIS IS A FIXED-TERM POSITION FUNDED THROUGH JUNE 30, 1991, WITH GOOD POSSIBILITY OF RE-FUNDING. STAFF GRADE 8**

***01158, Director, Industrial Extension Office, Senior Vice President for Research and Dean of the Graduate School, Associate Vice President for Research and Technology Transfer, University Park Campus** - Responsible to the associate vice president for research and technology transfer for the management, coordination of related activities, and process evaluation of the statewide operation of an industrial extension program (PENNTAP). Requires master's degree, or equivalent, in a technical field or industrial experience, plus five to seven years of effective experience in negotiating working relationships with industry and/or universities. An extensive background in project management, administration, and technology-based economic development is desirable. Doctorate preferred. **STAFF GRADE 10**

***01159, Administrative Aide, Senior Vice President for Research and Dean of the Graduate School, Center for the Study of Higher Education, University Park Campus** - Responsible to the director, Center for the Study of Higher Education, for the preparation and maintenance of budgetary records and financial reports, processing of operational fiscal and personnel forms, and for supervision of clerical personnel.

Requires associate degree or equivalent in business or related field, plus two to three years of effective administrative experience. Experience with computerized project management and Lotus 1-2-3 spreadsheets and/or DBase III framework preferred. Strong organizational, interpersonal, and communication skills and demonstrated supervisory skills also preferred. **STAFF GRADE 5**

***01160, Applications Programmer/Analyst, Purchasing Services, University Park Campus** - Responsible for designing, coding, modifying, and testing new and existing computer programs for Purchasing Services systems needs. Requires bachelor's degree, or equivalent, in a business or computer-related field plus one to two years of effective experience in computer programming and systems design. Ability to communicate orally and in writing is required. **STAFF GRADE 6**

***01161, Janitor Foreman, Operations and Maintenance, Wilkes-Barre Campus** - Responsible to the director of business services for making work schedules, assigning jobs, providing instructions, maintaining a constant check on progress, quantity and quality of work, and insuring Union-University Agreement and other work rules are followed. Requires equivalent of a high school education, or equivalent, and plus two to four years effective experience in janitorial and custodial operations. Position requires supervisory experience in this field. **THIS POSITION IS THIRD SHIFT. STAFF GRADE 4**

***01162, Area Representative, CES, Berks Campus** - Responsible for the development, organization, operation and administration of Continuing Education programs and services at the Berks Campus. Plan, schedule, staff, conduct evening school class operations, workshops, conferences, and contract services with clientele organizations. Requires bachelor's degree, or equivalent, plus two to three years of effective experience in business, industry, or education. **STAFF GRADE 7**

***01163, Area Representative, CES, Penn State Great Valley** - Responsible

for the development, organization, operation and administration of Continuing Education programs and services at Great Valley. Requires bachelor's degree, or equivalent, plus two to three years of effective experience in business, industry or education. **STAFF GRADE 7**

***01165, Director of Development, Athletics, Division of Development and University Relations, University Park Campus** - Responsible to the associate vice president for development and university relations, working closely with Department of Athletics on priorities as established by director of athletics for fund-raising programs and related activities. Requires bachelor's degree, plus four to five years of effective experience in fund raising in a higher education environment with evidence of skill in verbal and written communication. Successful major gift experience also is required. **Travel required. THIS IS A FIXED-TERM POSITION FUNDED THROUGH JUNE 30, 1991, WITH EXCELLENT POSSIBILITY OF RE-FUNDING. STAFF GRADE 9**

***01169, Applications Programmer/Analyst, Office of Budget and Resource Analysis, University Park Campus** - Responsible to a lead applications programmer/analyst in the Decision Support Systems group for conducting analyses of data processing and customer data problems, determining detailed requirements to solve problems, formulating logical statements of systems problems, and preparing computer programs to produce desired results. Requires bachelor's degree, or equivalent, in computer science or related field, and from one to two years of effective experience in computer programming and analyses. **THIS IS A FIXED-TERM POSITION FUNDED FROM JAN. 1, 1991, THROUGH JUNE 30, 1992, WITH POSSIBILITY OF RE-FUNDING. STAFF GRADE 6**

***01170, Technology Education Assistant, College of Engineering, Department of Nuclear Engineering, University Park Campus** - Responsible to the coordinator of special programs

for assisting in the development, coordination, and presentation of various education programs on energy with an emphasis on nuclear energy and ionizing radiation. Requires bachelor's degree, or equivalent, in a science or related field, with up to one year of effective experience. Good communication skills required. **THIS IS A FIXED-TERM POSITION FUNDED FOR ONE YEAR FROM DATE OF APPOINTMENT WITH THE PROBABILITY OF RE-FUNDING. EXTENSIVE TRAVEL REQUIRED. STAFF GRADE 5**

***01171, Publications Editor, Division of Development and University Relations, University Park Campus** - Responsible to the director of publications and University editor for the review of University publications text to ensure that those publications are checked for accuracy, consistency with University criteria for style, clarity of message and consistency with University policies, objectives and image. Requires bachelor's degree in English, or equivalent, and one to two years of effective experience in editing. A strong command of the English language with a specialized knowledge of grammar and syntax also is required. **STAFF GRADE 5**

Hershey

For the following position vacancy, apply directly to the Hershey Medical Center. Attach resume with cover letter indicating the position vacancy code and forward to the Department of Human Resources, Hershey, or call the Hershey bid line at (717) 331-8531 by Dec. 6.

***14700, Surgical Head Nurse, Nursing/Operating Room, Hershey** - Responsible to a nursing manager, assistant director of nursing and/or an assistant patient unit coordinator for performing a variety of nursing duties, as well as providing leadership to nurse clinicians and other patient care personnel. A registered nurse with a current license to practice professional nursing in Pennsylvania, plus one to two years of effective operating room experience, six months of which must be at Hershey Medical Center.

INTERCOM is published weekly during the academic year and every other week during the summer. It is an internal communications medium published for the faculty and staff of Penn State by the Office of Public Information, Room 312, Old Main. Phone 865-7517.

Consortium to study college teaching and learning

A consortium of six universities headquartered at Penn State has received a \$5.9 million grant from the U.S. Department of Education for a new national center to study teaching and learning at the collegiate level and develop ways of improving the quality and effectiveness of undergraduate education.

Faculty members at Penn State and the University of Illinois at Chicago will direct the new National Center on Postsecondary Teaching, Learning, and Assessment, with scholars and administrators at Syracuse University, Northwestern University, North Carolina State University, and the University of Tennessee guiding major elements of the center's research, development, and dissemination effort. The new center began operations on Dec. 1.

The five-year grant was announced by Lauro F. Cavazos, U.S. Secretary of Education, as part of a \$125.3 million initiative to fund 17 new educational research and development centers across the nation. The Penn State-based consortium is the only center whose specific mission is to address issues in higher education.

Each of the centers has been developed to provide the kind of quality information America will need to meet our national education goals by the year 2000," Mr. Cavazos said. "These centers can help provide a road map for

moving from a failing education system to a vital and successful one."

According to **James L. Ratcliff**, professor and director of the Center for the Study of Higher Education and a co-director of the project, the new National Center will concentrate its efforts on four sources of influence on student learning: the curriculum, faculty and instruction, out-of-class experiences, and organizational structures, policies, and practices.

"A major portion of the new Center's energies will also go into finding ways in which the research and program ideas developed by the Center, and by other scholars and administrators around the country, can be shared with those in the best position to make a difference: classroom instructors and campus administrators," Dr. Ratcliff said.

Patrick T. Terenzini, professor of education and senior scientist, and the National Center's other co-director, said that the research and dissemination efforts will focus on three policy issues. The first of these will be how the learning styles and experiences of minority students differ from those of non-minority students.

"We know there are differences," Dr. Terenzini said, "but we don't really know much about how those differences affect student learning, or about how colleges

and universities can be most responsive to those differences."

The new Center's policy agenda also will concern itself with how student learning outcomes vary in different kinds of colleges and universities.

"Over the past 30 years, state and federal governments have made a sizeable investment in institutions designed to be accessible to most Americans," Dr. Terenzini said. "Yet considerable evidence suggests that students attending two-year and commuter institutions, or attending part-time, show smaller gains in a number of educationally important areas than do full-time students at four-year, residential colleges and universities. We want to explore ways that the college experience for this growing population of commuting and part-time students can be enhanced."

The center also will examine methods of evaluating student performance that can facilitate both improved teaching and learning for the individual student, as well as the improvement of institutional programs in general.

Growing public criticism of undergraduate education in America is pressuring faculty members and administrators, their institutions, and their states to provide credible evidence that publicly stated educational goals are in fact

University is ranked eleventh in R&D spending

Penn State ranks seventh among public research universities and 11th among all universities in total research and development spending, according to recently released National Science Foundation figures.

In fiscal year 1989, which ran from Oct. 1, 1988, through Sept. 30, 1989, the University spent more than \$219.9 million for research and development in science and engineering. During fiscal 1988 the University spent \$188.4 million and was ranked 15th overall and 10th among public universities.

"This ranking is a reflection of Penn State's standing as a public research University," President Thomas said. "It also reflects the fine quality of Penn State's faculty. And it frames the promise of exhilarating and relevant undergraduate and graduate student experience."

Johns Hopkins University was first in spending with \$648.4 million. The Massachusetts Institute of Technology was second with \$287.2 million and Cornell University was third with \$286.7 million.

Other Pennsylvania institutions ranked in the study are: University of Pennsylvania, 21st with \$173.7 million; University of Pittsburgh, 42nd with \$111.3 million and Carnegie Mellon University, 50th with \$101.6 million. (See related story on page 2.)

Focus on Diversity

University will host Upward Bound Center

The University will host an Upward Bound and Science Upward Bound Center on a nationwide, funded by a federal grant of \$125,000 from the U.S. Department of Education.

The program is designed to encourage high school students from low-income backgrounds to pursue math and science related careers.

As a regional center, Penn State's Upward Bound Math and Science program will provide an intensified math and science curriculum to 40 high school students from Pennsylvania, Maryland, West Virginia, Delaware and Washington, D.C.

"This is an exciting and innovative summer program that we are extremely enthusiastic about implementing," Gerri Weischer, director of the Upward Bound program, says. It may literally help change the course of some students' lives.

Nationwide, interest in science and math related careers by young people has been declining at an alarming pace, Howard E. Wray III, assistant dean for undergraduate education and academic assistance programs, says.

"But programs that show how attainable, exciting and important science and math careers can be, like this one, can make a difference," he notes.

The grant will fund each student for a six-week summer course and subsequent follow-up instruction from the University and a local scientist for one year.

Upward Bound is a federally funded program established to encourage students from disadvantaged backgrounds to attend college. The new grant has been awarded to the University's Academic Assistance Programs in the Office of Undergraduate Education.

"During those six weeks, the students will live on our campus to get a balanced view of attending college and learn about science and math related careers," Ms. Weischer says. "They will also get to participate in actual research in state-of-the-art labs, take English, math and science enrichment classes and attend social and cultural activities."

Students also must work with a mentor in their hometown at least once a month on continuing research and other science

and math activities started during their visit to Penn State.

The University will identify hometown mentors who will likely be scientists or professors, according to Mr. Wray. Professors from the summer program and the local mentors will work together to follow the students' academic progress.

The program is open to students from low-income families who have completed ninth grade and have the recommendation of their local school Upward Bound counselor and director.

In addition to Upward Bound, Penn State has numerous recruitment and retention programs for minorities and low-income students who are planning to major or who are majoring in science and math related programs.

Some include special orientation programs, free tutorial services, visits by minority professionals, academic monitoring and advising, scholarships and financial support as well as numerous summer high school student visits and summer research programs pairing undergraduates with faculty.

Committee appointed

A committee to review the concerns of lesbians and gay men who are faculty, staff, and students at the University has been appointed by **Robert E. Dunham**, vice president and vice provost, and **James B. Stewart**, vice provost for underrepresented groups.

William G. Tierney, associate professor of education, is committee chair. Members are **Estela Bensimon**, **Lisa Henderson**, **Mike Flam**, **James Locker**, **Sue Rankin**, **Lee Upcraft** and **Liz Walker**.

Dr. Dunham said the committee is charged to:

- Review the concerns of lesbian and gay faculty and staff, and report those which should receive further study and consideration;
- Review the climate for lesbian and gay students, faculty and staff, and recommend ways in which the climate can be improved;
- Review present advisory channels and recommend appropriate advisory and information mechanisms to Vice Provost Stewart.

Spirituals program featured on WPSX

Sopranos Kathleen Battle and Jessye Norman sing together in a gala performance of spirituals, taped live at New York's Carnegie Hall in "Kathleen Battle and Jessye Norman Sing Spirituals" airing at 3:10 p.m. Saturday, Dec. 8, on *Great Performances*.

The spiritual is the earliest and most influential expression of African-American culture in this country and is characterized by its flexibility of interpretation, allowing

a wealth of expression and ornamentation.

Miss Battle and Miss Norman found that they shared a common affinity for the spiritual songs they have heard and sung since childhood, and it was this bond that brought them together for this special concert. The 90-minute program features such well-known spirituals as "Swing Low, Sweet Chariot," "Great Day," "He's Got the Whole World in His Hands," and "Gospel Train."

Paul Simon is joined by South African artists Miriam Makeba, Hugh Masekela, Ladysmith Black Mambazo and others in *Graceland: The African Concert*, airing at 8:30 p.m. Sunday, Dec. 9. The powerful mix of musical styles combines tunes from Mr. Simon's Grammy Award-winning album, "Graceland," including "Diamonds on the Soles of Her Shoes," "Under African Skies," and "You Can Call Me Al," with what Mr. Simon calls "the music of South Africa."

University is ranked second in industry-sponsored research

Penn State ranks second in the nation among colleges and universities in industry-sponsored research and development expenditures for fiscal 1989, according to The National Science Foundation.

The Massachusetts Institute of Technology ranked first in industry-sponsored R&D with \$39.6 million. Penn State's industry-sponsored R&D amounted to \$30.3 million in the federal fiscal year 1989, which ran from Oct. 1, 1988, through Sept. 30, 1989. The previous year, Penn State also was second with \$24 million.

"These rankings reflect Penn State's national leadership and ongoing efforts in creating industry-university partnerships," President Thomas said. "Industry-sponsored research is an essential part of our effort to keep the United States competitive on a global level. And it helps us continue to

prepare qualified students for careers in industry."

The other Pennsylvania university in the top 10 was Carnegie Mellon University, ranked eighth with \$19 million. The University of Pennsylvania with \$9.6 million and the University of Pittsburgh with \$9.4 million were ranked 27th and 29th, respectively. Lehigh University with \$7.6 million was ranked 36th.

After Penn State, the University of Michigan ranked third with \$22 million, North Carolina State, fourth, \$21.7 million; Georgia Tech, fifth, \$21.3 million; Texas A&M, sixth, \$21.2 million; University of Washington, seventh, \$19.1 million; Cornell, ninth, \$16.0 million, and University of Illinois, 10th, \$15.8 million. Penn State's \$30.3 million in industry-sponsored research represented 13.8 percent of its total 1989 research expenditures of \$219.9 million.

Project proposals are being sought

One-page preliminary proposals are being sought for the United Federal Bank Endowment for the Enhancement of Undergraduate Instruction.

Purpose of the endowment is to enrich undergraduate instruction and to encourage the development of a diversity of academic interests among undergraduate students.

Jerry B. Covert, associate dean for undergraduate education, said several awards in the range of \$3,000 to \$5,000 will be made for the 1991-92 academic year.

Awards from the fund will generally be made for the development of new courses, minors and options, including honors sections and courses; innovative instructional methods and procedures; and courseware, both computer and audio-visual, for new or existing courses.

"Special priorities for 1991-92 are projects related to the integration of cultural diversity into the undergraduate curriculum," Dr. Covert said. "Proposals in this area are strongly encouraged."

He noted that construction of capital facilities and fundings for the normal requirements of classroom and laboratory instruction are excluded from support.

Faculty members from all colleges at all locations and staff members in academic support units may submit proposals. Recommendations will be made by a review committee comprised of members of the Administrative Council on Undergraduate Education and the Society of Teaching Award Recipients.

Preliminary proposals should be submitted to Jerry B. Covert, Associate Dean for Undergraduate Education, 207 Old Main, University Park, by Jan. 11. The proposals will be screened on the basis of criteria such as: potential impact on undergraduate education; applicability elsewhere in the University system; and possibility of cost-sharing components.

The one-page preliminary proposal forms are available in 207 Old Main or by calling 863-7035.

The review committee will screen preliminary proposals and recommend those to be prepared for further review.

'Tis the Season

Members of Penn State's labor crew carry a University evergreen tree up the steps of Old Main at University Park. The tree, erected in the lobby of Old Main, was decorated by members of the Lion Ambassadors. (Photo: Greg Gileco)

Grant awarded for computer-adaptive testing

The U.S. Department of Education has awarded a grant of \$46,073 to University researchers for the development of computer-adaptive tests of listening comprehension in English as a Second Language and Hausa, a West African language.

Computer-adaptive testing is a new form of evaluating students' proficiency in a given discipline. Programmed for a computer-adaptive test, a microcomputer can adjust the difficulty level of questions based on previous responses.

Patricia Dunkel, assistant professor of

speech communication, will serve as the project director. She will lead a team including co-principal investigators **Thomas A. Hale**, professor of African, French, and comparative literature at Penn State, and **Beverly Mack**, assistant professor of English at George Mason University.

The team will call on the services of language and testing specialists from Penn State's Testing Service as well as many other institutions and organizations. The Office of the Vice President for Academic Affairs at Penn State is providing additional financial support for the project.

Drawing on recent advances in computer sound technology and the availability of much larger microcomputer memory storage, the team will design a listening test using speech and images that will measure the student's ability to understand a language at 10 different levels of difficulty.

The methodology used to develop the computer-adaptive listening tests for English as a Second Language and Hausa will provide a framework for development of similar forms of evaluation in other disciplines that seek more accurate methods of measuring proficiency.

Consortium

Continued from page 1.

being achieved," Dr. Ratcliff said.

"Twenty years of research show that college does make a difference in the lives of Americans, and we want to work to enhance that positive effect wherever possible. We have much to learn, however, about how to do this most effectively and efficiently."

In addition to coordinating and facilitating the Center's research efforts, the University of Illinois at Chicago "will focus on a three-year longitudinal investigation of factors influencing the learning, cognitive development and educational progress of both minority and non-minority students in two-year and four-year colleges," said Ernest Pascarella, professor of educational psychology at UIC's College of Education and the Center's assistant director for research.

"We hope our study will provide valuable, policy-

relevant information regarding the curricular, classroom and non-classroom experiences that enhance student learning and cognitive growth," he added.

The research at Syracuse "will focus on the educational impacts of current efforts to actively involve college students in classroom learning," said Vincent Tinto, professor of cultural foundations and curriculum in Syracuse University's School of Education. "Of special concern is the manner in which those efforts help both majority and minority students in two- and four-year institutions succeed in college," he added.

At Northwestern University, the research program on faculty and instruction is directed by Robert J. Menges, professor of education and social policy.

Dr. Menges, who will supervise the research at Northwestern's Center for the Teaching Professions, said the studies of faculty will focus on how new professors learn to be effective as teachers.

"We want to understand how they balance the time they devote to teaching, research, service and to other

responsibilities -- and how those decisions are affected by type of college and mix of students.

"We also will study how faculty assess their own teaching and how they use information from students, colleagues, teaching consultants and other sources to improve their work."

The research focus at North Carolina State University will be "to examine learning and retention outcomes of community college students," said Laura I. Rendon, associate professor in the Department of Adult and Community College Education. "We also expect to assess the factors that affect learning for minority students who are differentially enrolled in two-year colleges."

At the University of Tennessee, said Michael Nettles, vice president for assessment, "Our research will focus primarily upon the policies and practices of assessment in the nation's colleges and universities. We will be seeking to identify the best practices and methods for measuring college student learning and development and for using these practices in both public policy and in institutional improvement."

Nominations being sought for faculty/staff awards

President Thomas will appoint a general committee chaired by Billie S. Willis, assistant vice president for human resources, to solicit nominations for the Faculty/Staff Achievement Awards – the McKay Donkin Award, the John E. Wilkinson Award for Administrative Excellence, the Barash Award for Human Service, and the Penn State Equal Opportunity Award.

Four subcommittees will screen nominations and prepare recommendations for the respective awards.

Nominations for the 1991 awards are encouraged from University and local community organizations and individuals. Nominators should contact the Office of Human Resources at 865-1412 to request a copy of a standardized format for

submitting nominations. Nominations should be sent to Billie S. Willis, Box 6 Rider Building, no later than Jan. 21. Supporting information which accompanies nominations should be as brief as possible.

The McKay Donkin Award was established in 1969 in honor of the late McKay Donkin who served as vice president for finance and treasurer of the University from 1957 to 1968. The award, which consists of a \$500 stipend and a certificate, is presented to the full-time member of the faculty or staff or the retiree who has contributed most to the "economic, physical, mental, or social welfare of the faculty" of the University. The contribution should be for duties or services which are above and beyond his or her regularly assigned duties.

The John E. Wilkinson Award for Administrative Excellence was established in 1970 by friends of Mr. Wilkinson, a lifelong Centre County businessman. The award, which carries a stipend of \$500, is made annually to a member of the staff of the University whose performance methods and achievements exemplify administrative excellence.

The Barash Award for Human Service was created in 1975 by the family of the late Sy Barash. It is an annual award, carrying a stipend of \$1,000, to a full-time member of the faculty, staff, or student body of the University at University Park who has contributed most, apart from regular duties, to human causes, public service activities, and organizations, or the welfare of fellow humans. These human

service activities must have been performed in University Park, the Borough of State College, College, Patton, Harris, or Ferguson townships.

The Equal Opportunity Award is designed to recognize a University faculty or staff member who promotes the concept of equal opportunity through affirmative action and/or contributes to enhancing the educational environment of the University through improving cross-cultural understanding.

To be eligible for the award, which consists of a \$1,500 stipend and a certificate, full-time University faculty and staff must have at least two or more years of active service.

Center for Applied Behavioral Sciences gets award

The Center for Applied Behavioral Sciences has received a competitive award from the Equal Employment Opportunity Commission to develop a policy statement regarding the feasibility of using tests to replace chronological age in making mandatory retirement decisions for public safety officers. The 12-month \$900,000 award has been given to a team of scientists who will prepare a report that EEOC will forward to Congress.

Congress specifically exempted three occupational groups from the Age Discrimination and Employment Act with

respect to mandatory retirement provisions: college professors, aviation personnel and public safety officers. The Penn State team will study the third group, including police officers, fire fighters and corrections officers.

The team is headed by Frank Landy, director of CABS. Other members include Warner Schae, Steve Zarit and John Nesselrode, all members of the Gerontology Center. In addition, Jim Farr, Bob Vance and Ed Fleschman will deal with industrial and organizational considerations such as job analysis and test validity.

Medical issues will be addressed by David Pryor, Duke University Medical School, and Bob DeBusk, Stanford University Medical School, who are cardiologists with extensive experience in occupational medicine. Debbie Gebhardt will consider the role of medical standards.

Exercise physiology will be covered by a group of nationally known experts in the physiology of work including Elsworth Buskirk, Larry Kenney and Jim Hodgson, all of the Noll Human Performance Laboratory, as well as Mark Sothmann of the University of Wisconsin at Milwaukee

and Peter Raven of the Texas College of Osteopathic Medicine.

Other Penn State members include Roger Garthwaite of the CABS staff, Irwin Feller of the Institute for Policy Research and Evaluation, MaryLee Taylor of the Sociology Department, and Ed Donovan of the Administration of Justice Department.

The project will require the careful integration of many basic and applied allied disciplines. The researchers encourage anyone aware of research related to the project goals to contact Dr. Landy at 863-1718.

Network center monitors University's communications

Keeping the maze of fiber optic and copper cables that link University Park by data, voice and video to all Penn State locations running smoothly is the responsibility of the Network Management Center of the Office of Telecommunications.

Located in the Telecommunications Building at University Park, the Center troubleshoots communications problems throughout the University, according to Emily Anselmi, senior operations coordinator for data communications and supervisor of the Network Center.

"Our goal is to keep people working," Ms. Anselmi added. "We do this by controlling and troubleshooting the University's communications networks."

The Center, started in late 1987, became fully operational for data communications in 1988. It recently has begun receiving voice and video communications trouble calls. Three network systems coordinators handle the trouble calls coming into the Center, which number approximately 300 to 350 per month.

The Center can help faculty members unable to connect their computer terminals to a University Park host computer or to one of the national computer networks, assist staff members having difficulty reaching the IBIS administrative computing system or LIAS (Pattee Library), and aid the

University Student Computer Labs when users are unable to access the Center for Academic Computing.

The Network Management Center staff also works with members of the College of Agriculture's computer services group to resolve problems that the Penn State Cooperative Extension offices may have in accessing the PENpages (College of Agriculture) system.

When communications problems occur, the faculty member, staff member or student should first check with the communications contact person at their campus location, their appropriate Help Desk or with the host computer center they are trying to reach. An example of a host computer contact point is the LIAS desk. If the problem is not resolved at this level, the contact person will call the Network Management Center.

Video troubles and University Park telephone problems may be reported to the Center by calling 863-HELP.

In addition to maintaining communications links between campus locations, the Center assists in the satellite distribution of a variety of programs, both educational and informational. Examples include the weekly Anthropology 45 class and Joe Paterno's football press conferences. These are just two of the many programs

Emily Anselmi

distributed to locations capable of receiving satellite signals, according to Ron Strouse, operations coordinator for video.

The Network Management Center is

staffed 7 a.m. to 11 p.m. Mondays through Fridays, 10 a.m. to 6 p.m. Saturdays and 1 to 11 p.m. Sundays.

Private Giving to Penn State

Minority student scholarships are endowed by Class of 1958

The class of 1958 has become the first of the University's graduating classes to endow scholarships for undergraduate minority students.

The class's \$100,000 gift commemorates the members' graduation from Penn State and their 25th and 30th year class reunion celebrations. The awards will benefit financially needy full-time undergraduates at the University Park Campus whose ethnic, cultural and/or national backgrounds contribute to the diversity of the student body.

"This gift is evidence that Penn State alumni care very much about the future of the University in an increasingly diverse society," President Thomas said. "It also is

welcome news for financially needy undergraduates and their families who face the problems of financing a college education."

Leading the fund-raising effort were Thomas Hollander of Pittsburgh, chair of the 25th class reunion gift committee, and James B. Miller, chair of the 30th class reunion gift committee, who lives in Mount Lebanon.

"I applaud the class of 1958 for its far-reaching commitment and for understanding that cultural diversity is everybody's business," James Stewart, vice provost for underrepresented groups, said.

Each award will be for one academic year and is renewable.

Hamer pledges gift for Museum addition

Donald W. Hamer, president of State of the Art Inc. of State College, has pledged \$55,000 toward the addition to the Palmer Museum of Art. His pledge is part of the \$5.3 million already raised for the \$5.6 million addition.

"I feel very strongly that the museum is a tremendous community asset," he said. "It is an important asset for the quality of life in Central Pennsylvania. A museum of this quality would be almost impossible for us if it weren't for Penn State."

Construction of the addition, which will nearly double the size of the museum, is scheduled to begin in March 1991. Upon its completion in the early winter of 1993, the museum will be able to install a complete exhibition of its permanent collection for the first time.

Mr. Hamer has contributed to academic areas of the University, although his primary interest is in areas that also are community assets such as WPXX-TV, Shaver's Creek Environmental Center, the summer professional theater and the University Libraries.

Following a six-part term as director of research for Eric Tech Products Inc., in State College, he founded State of the Art in 1969.

A native of Illinois, Mr. Hamer earned a

bachelor's degree in ceramic science from the University of Illinois, an M.B.A. from the University of Chicago and a bachelor's in electrical engineering from Penn State in 1968. He currently serves on the museum's advisory board.

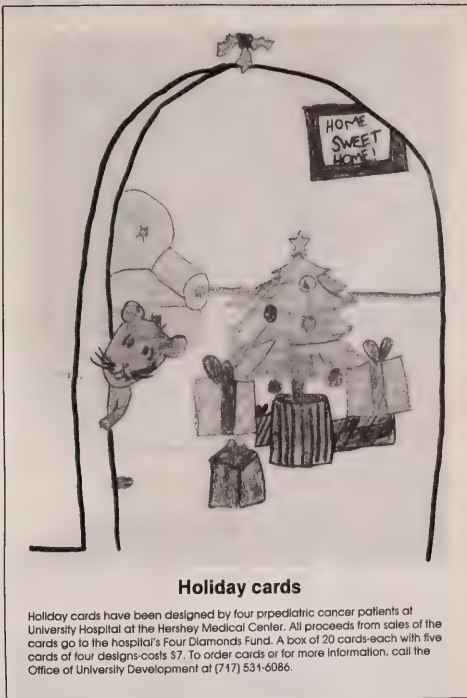

Exxon Corp. gift

The Exxon Corp. has given Penn State \$40,000 for a variety of academic programs in engineering, science and business.

"The amounts awarded to individual programs are related to Exxon's past and anticipated future hiring of Penn State graduates, with special emphasis on disciplines critical to our business," Terry L. Walker, Exxon's departmental grants program officer, said.

Departments receiving grants include chemical, civil, electrical, mechanical, mining and petroleum engineering; accounting; business administration; chemistry and computer science. The departments can use grants to meet the most pressing needs in research or instruction.

Over the past five years, the Exxon Corp., through its affiliated foundation and other companies, has given Penn State more than \$930,000 for academic purposes.

Holiday cards

Holiday cards have been designed by four predoctoral cancer patients at University Hospital at the Hershey Medical Center. All proceeds from sales of the cards go to the hospital's Four Diamonds Fund. A box of 20 cards—each with five cards of four designs—costs \$7. To order cards or for more information, call the Office of University Development at (717) 531-6086.

Ford Foundation

The Ford Foundation has awarded the University two grants totaling \$80,000 to support separate programs in graduate studies and agricultural research.

The award includes \$47,000 for two fellowships for faculty or students who are members of racial or ethnic minorities.

Christine Clark-Evans, assistant professor of French, received a postdoctoral fellowship. Miguel Diego DeOlivera of Carmichael, Calif., a graduate student in geography, received a predoctoral fellowship.

The remaining \$33,000 will support the work of the Center for Agricultural and Livestock Research for the Humid Tropics, a unit of the Department of Biology.

Libraries Development Advisory Board members named

As the Penn State Libraries begins its 1990-91 annual campaign, a new chairman, vice chairman and five new members have been named to the Libraries Development Advisory Board for a three-year term, which began July 1.

Donald M. Cook, president of SEMCOR Inc., Mt. Laurel, N.J., and a member of the University Board of Trustees, is serving as chairman. Mr. Cook has been very active in University affairs and currently is serving his second three-year term on the Board of

Trustees.

A.M. "Don" MacKinnon, chairman and chief executive officer of DNA Pharmaceutical Inc. of Connecticut, is serving as vice chairman.

The five new members are: Donald Devoritis, president of Blair Electric Service Co.; Blair Design and Construction Co. and Blair Sign Co., Altoona, recently has served as co-chair in the Altoona area for the effort to raise funds for an endowed faculty chair in

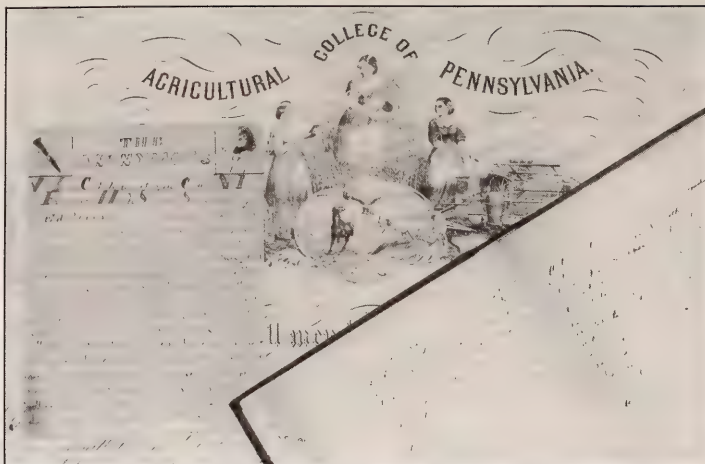

Jewish studies at Penn State.

Marvin Krasnansky, vice president of corporate relations for McKesson Corp., San Francisco, Calif., chaired The Campaign for Penn State's regional major gifts area in the San Francisco Bay area and Pacific Northwest.

John Lopez, a native of Long Island, is president and CEO of HRI Inc. State College, and has been instrumental in securing corporate support for the Libraries' Paterno Libraries Endowment fund.

Barry Robinson, attorney in private practice in Washington, D.C., is serving as a member of the Penn State Board of Trustees and the Alumni Council Executive Board.

Raymond Shibley, attorney and partner for Leboeuf, Lamb, Leiby and MacRea in Washington, D.C., was active in The Campaign for Penn State and served on the Executive Committee and chaired the Campaign's regional major gifts effort in the Washington, D.C., area.

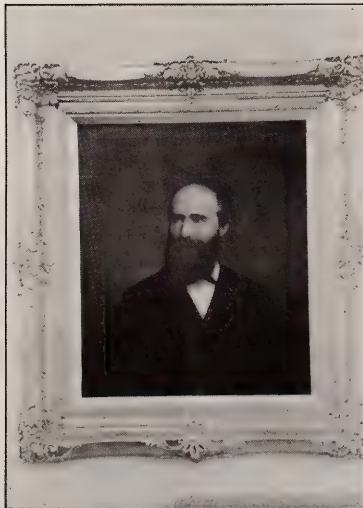

This montage of early Penn State historical documents includes the University's first printed diploma awarding a master of scientific agriculture degree to John Irwin Thompson, 1862; Volume 1, Number 1 of 'The Anonymus,' 1859, the first student publication; and Evan Pugh's travel diary of his trip through the Hartz Mountains of Germany in 1855.

Penn State Room

The University's history is documented in the University Archives/Penn State Room in Pattee Library at University Park. (Photos: Greg Grieco)

Lee Stout, University archivist and librarian, Special Collections.

This framed portrait of James Y. McKee hangs in the Penn State Room. He was professor of English literature and ancient languages (1867-91), vice president of the University (1870-91) and acting president (1881-82).

Adult learner population is on the increase

Fueled by previous work or military experience and often possessing first-hand parenting skills, the adult learner is becoming a more common sight on University campuses.

"Adults 24 years of age and older comprise 17 percent of the total undergraduate enrollment at Penn State," **Charlene H. Harrison**, acting director of the Returning Adult Student Center, said. "This student population is on the increase, particularly at campuses other than University Park."

At 10 locations (Berks, Delaware County, DuBois, Fayette, Great Valley, Harrisburg, New Kensington, Schuylkill, Shenango and York), adult learners comprise 30 percent or more of the undergraduate student population. At University Park, more than 8 percent of undergraduates fall into the adult-learner category.

"An adult learner at Penn State is defined as a student who has been away from formal, full-time education for at least four years, or is a veteran of the armed forces, or is 24 years of age or older," she explained. "It is also a student who assumes other adult roles, such as parenthood and employment."

Nationally, the National Center for Education Statistics projects enrollments of adult students will increase through the end of the decade, with the largest rise in the 35- to 44-age bracket.

While Penn State uses a student's date of birth as one criteria for defining his/her standing, the age characteristic alone does not adequately describe the variety found among adult learners.

Ms. Harrison said the Returning Adult Student Center works with adult learners who are single parents and young veterans of the armed service, as well as with

This article is part of an ongoing series on the classroom and out-of-classroom environment at the University.

people who have returned to school to enhance their job potential or prepare for new careers.

These students often are indistinguishable from the traditional-aged students, except for some gray hair and a more mature bearing. However, there are differences between the two groups.

"Adult learners perform better academically than traditional-aged students," Ms. Harrison said. "They are excellent students who are more concerned with getting value for their money than younger students. Often they have higher expectations and are more serious about their pursuits."

In a university-wide comparison of grade-point averages, she found that adult learners outperform traditional-aged students. For example, last fall semester's grades at Altoona Campus showed that the average GPA for students 24 years and older was 3.24, compared with 2.62 for students under 24. At University Park, adult learners posted an average GPA of 2.91, compared with 2.80 for students under 24.

Most undergraduate adult students (44 percent) are enrolled as nondegree students; 37 percent are enrolled in baccalaureate degree programs, 11 percent are in associate degree programs and 8 percent have

provisional status. Two-thirds study part time, and one-third study full time. Fifty-two percent are female.

"Most adult learners return to school as a result of some type of trigger, such as having a baby, being promoted, getting fired, having a heart attack, getting divorced, joining the military or retiring. This trigger causes a need for learning," Ms. Harrison said.

The University's Academic Renewal Program offers students who have been away from Penn State for a least four years an opportunity to start over with a clean slate, she noted. While all courses with C or higher grade can be applied toward graduation, students start with a new GPA.

"Academic Renewal is designed to give former University students a second chance," she said.

Ms. Harrison believes that the University is in a position to take advantage of changing demographics to recruit more adult learners.

"Some areas that need attention to attract larger numbers of adult learners are: more affordable housing options, better child care provisions, and an increased understanding and awareness of the differences in learning styles and expectations between adult learners and traditional-aged students."

"A lot of adult learners are persisting with their educational goals through some incredible circumstances. They are delaying income and gratification over long periods of time to reach something that they consider precious — education."

For information on programs and services available to adult learners, contact the Returning Adult Student Center at 323 Boucke Building, University Park, 863-3887.

—Deborah A. Benedetti

Awards for Excellence

Recipients of the first Commonwealth Educational System Awards for Excellence are, from left, Maria Russoniello, director of university relations, Penn State Worthington Scranton Campus, Best Alumni Relations Program; Charles Fehr, director of university relations, Penn State Berks Campus, Best Development Program; Denise Foran, director of university relations, Penn State Schuylkill Campus, Best University Relations Program. Mr. Fehr received the overall CES award for commitment in all three categories.

Nominations being sought for Graduate School associate dean

Nominations and applications are invited for the position of the associate dean of the Graduate School. The search will be conducted internally. The position is a full-time, 12-month appointment and will be available July 1, 1991.

The associate dean is the operations officer for the day-to-day management of the Graduate School and has academic oversight for graduate studies at the five graduate campuses of the University.

The Graduate School offers 18 academic and professional degrees in more than 130 fields. Penn State ranks 17th in the United States in the number of doctorates conferred.

Qualifications for the position include: rank of professor and senior member of the Graduate Faculty; significant scholarly and research accomplishments; demonstrated leadership and interpersonal skills; experience in the guidance of graduate student research and education; commitment to high-quality disciplinary and interdisciplinary graduate programs; understanding of the major issues and trends affecting graduate programs; ability to promote cooperation in a multi-campus environment, and understanding and support for the University's multiple missions and its commitment to cultural diversity.

Charles R. Krueger, associate dean for

research, College of Agriculture, has been named chair of a search committee appointed to identify candidates for the position. Other committee members are **Eunice N. Askov**, professor of education and director, Institute for the Study of Adult Literacy; **John D. Connor**, professor of pharmacology; **Lynne Feagans**, professor of human development; **Andrew Jackson**, graduate student representative; **Roy Hammerstedt**, professor of biochemistry; **Joseph Kockelmanns**, distinguished professor of philosophy; **George L. Mauner**, distinguished professor of art history and director, Institute for the Arts and Humanities Studies; **Philip J. Morris**, professor of aerospace engineering; **Robert E. Newham**, Alcoa professor of solid state science; **Howard Pickering**, distinguished professor of metallurgy; and **Matthew Rosenzweig**, director of academic affairs, Penn State Great Valley.

The search committee will begin to review applications in mid-January and continue to receive them until a candidate is selected. Women and minority faculty members are encouraged to apply. Letters of application, accompanied by a curriculum vitae, and nominations should be submitted to Charles R. Krueger, chair, Search Committee for the Associate Dean of the Graduate School, 201 Old Main, University Park.

Focus on the arts

'The Nutcracker'

This week, University Park will be the first place to see a new, million-dollar production of "The Nutcracker." The final touches are now just being completed on the Pittsburgh Dance Company's biggest and most costly show ever.

Before they begin their lengthy holiday run in Pittsburgh, the dance company members will perform two shows in Eisenhower Auditorium at 8 p.m. Friday, Dec. 7, and at 3 p.m. Saturday, Dec. 8.

The production combines the best of both old and new. With Tchaikovsky's score, the dancers will follow the choreography of the legendary George Balanchine. They are only one of four companies in the country performing this version.

Also new, the show welcomes to the stage 67 children from Altoona, Lewistown, State College and other towns in Central Pennsylvania who were selected from an open audition held in October.

Tickets are available through the Eisenhower Auditorium Ticket Center, open weekdays and Saturday 8:30 a.m. to 4:30 p.m. Call (814) 863-0255.

New Christmas cassette

Tous the Night before Christmas, the all-time best selling, gold record album by Fred Waring and the Pennsylvanians, is now available on cassette from Fred Waring's America. WPSX-TV, Penn State Television.

The album of Christmas favorites is no longer available in record stores, but a licensing agreement with MCA Records has made it possible for Penn State to again offer this popular album to the public, for a price of \$15.

The album includes such favorites as "Jingle Bells," "Rudolph the Red-Nosed Reindeer," "Santa Claus Is Coming to Town" and nine carols, including "Silent Night," "O Holy Night," "Carol of the Bells," and "Adeste Fideles."

Further information may be obtained from Peter Keifer, coordinator of Fred Waring's America and producer of the album, 220 Service Building, University Park, Pa. 16802. Phone (814) 863-2911.

The arts on Channel 3

Christmas with the Mormon Tabernacle Choir and Shirley Verrell, an hour-long concert of popular and traditional Christmas classics, airs at 10 p.m. Friday, Dec. 7, and at 2 p.m. Saturday, Dec. 8.

Metropolitan Opera star Luciano Pavarotti celebrates the spirit of Christmas in a commanding performance when WPSX presents *A Christmas Spirit* with Luciano Pavarotti at 10 p.m. Saturday, Dec. 8, and at 5 p.m. Sunday, Dec. 9.

From the majestic Notre Dame Cathedral in Montreal, the internationally acclaimed Pavarotti highlights this program of Christmas favorites, which includes performances by the Canadian boys choir, Les Petits Chanteurs du Mont-Royal, and the adult choir, Les Disciples de Massenet.

Ken Graves, associate professor of art, will have a month-long exhibit of collages at the O.K. Harris Gallery in New York City, opening Jan. 12.

Former conductor of the Montreal Symphony Orchestra Franz-Paul Decker leads the orchestra in this holiday special featuring Mr. Pavarotti performing solo and with the two choirs.

Art school works

A one-day multi-media exhibition of artwork created by students from the Saturday Morning Art School will be held from 9 a.m. to 4 p.m. Saturday, Dec. 8, in Chambers Gallery at University Park.

The Saturday Morning Art School is an eight-week program sponsored by the School of Visual Arts and under the direction of Robert Ott, art education professor and president of the Pennsylvania Art Education Association.

The works included in the exhibition were selected by the student teachers as those that best represented what each class was trying to accomplish.

Odyssey on WPSU

Russian poet Marina Tsvetaya writes suicide poetry that also is love poetry, says Michael Naidan, associate professor of Slavic languages, on the next episode of "Odyssey Through Literature."

"Essentially, it's love poetry," he explains, contrasting Ms. Tsvetaya's poems with those of Sylvia Plath.

On "The Spirit of the Gulf," the Dec. 19 episode of "Odyssey Through Literature," Vivian Thomlinson of Cameron University in Oklahoma discusses Kate Chopin's novel *The Awakening*.

Ms. Thomlinson and host Leonard Rubinstein, professor emeritus of English and comparative literature, find parallels in the development of the novel and in the legends of King Arthur, seeing in the novel's heroine, Edna Pontilard, a knight on a chivalric quest.

An artist doesn't have to be burdened by tradition. In fact, he can shift the burden backwards and influence his precursors." So

says Lois Parkinson Zamora, an English professor from the University of Houston, on the Dec. 26 episode of "Odyssey Through Literature."

Speaking of Latin American literature and art, Ms. Zamora and Professor Rubinstein discuss how tradition and technique combine to create "explosive" artwork.

"Odyssey Through Literature" is produced by the Department of Comparative Literature, with audio-production services by WPSX-TV. It airs Wednesdays at 12:30 p.m. on WPSU, 91.1 FM.

Holiday Gathering

A Holiday Gathering replacing the annual holiday exhibition "Festival of Trees" will be held from 7 to 9 p.m. Sunday, Dec. 16, in the Palmer Museum of Art at University Park.

Seasonal music and holiday food and spirits will be offered around a tree designed and decorated by State College artists Stuart Frost and Roger Zellner.

The museum's store will be stocked with unique holiday gifts, which will be sold at a 25-percent discount to those attending the gathering. Also, a Steuben glass treasure will be presented to one lucky guest.

Tickets are \$18 per person. Reservations must be made by Dec. 7. For more information or to make reservations, call the museum at (814) 865-7672.

Pattee exhibit

Recent art works by Jennifer Slick are on display in the Lending Services Gallery of Pattee Library through Dec. 21. The show includes abstract drawings done in pencil, ink, or watercolor.

Ms. Slick received her bachelor's degree in art from Penn State in 1981. She has taught a variety of art classes at the HUB Craft Centre and has exhibited at the Art Alliance in Lemont.

Printmaking exhibit

Michael Bischof's senior printmaking show is on exhibit in the West Corridor Gallery of Pattee Library through Dec. 21. The works are a collection of mostly lithographs and photo-etchings that voice concern for animal welfare in the agriculture industry and the hunting environment.

Village Crafts exhibit

The final exhibit of the Central Pennsylvania Village Crafts Inc., a non-profit crafts organization soon to be dissolved, is on display until Jan. 5 in the Formal Gallery of the Hetzel Union Building at University Park.

The work exhibited is the results of quilts and dolls designed by the organization's craftspeople in the past year through an education program funded by the expansion arts program of the National Endowment of the Arts and the Pennsylvania Council on the Arts.

Institute fellowships

The Institute for the Arts and Humanistic Studies has awarded research fellowships to nine faculty members for the period of January to June 1991. Recipients are:

■ **Phyllis Cole**, professor of English at the Delaware County Campus, to prepare a biography of Mary Moody Emerson, aunt and family mentor of Ralph Waldo Emerson.

■ **Ronald Ippell**, professor of labor studies, to prepare a book, *Cultural Cold War: The United States and the French Intellectuals, 1945-1950*.

■ **Charles Gibbons**, associate professor of art at the New Kensington Campus, to create a series of paintings of the aurora borealis.

■ **Paul Harvey**, associate professor of history, to complete a scholarly edition of Saint Jerome's "Lives" of Paul the Hermit, Malchus and Hilarion.

■ **David Lachternauer**, professor of philosophy, to prepare a monograph, *Mathematics, Method and Metaphysics from Maimonides to Maimon*.

■ **William Mahar**, associate professor of humanities and music at Penn State Harrisburg, to prepare a book on American Blackface minstrelsy.

■ **William Peterson**, senior research associate in religious studies, to complete a book on the "Diatessaron."

■ **William Uricchio**, associate professor of communications, to prepare a book on the development of German television through 1944.

■ **Paul Youngquist**, assistant professor of English, to prepare a book, *Romantic Melancholy: The Making and Unmaking of the Self from Blake to Freud*.

Carpooler

Joe needs a ride from Philipsburg to University Park. Work hours are 8 a.m. to 4:30 p.m. Call 865-6713 or 342-2745.

University Park Calendar

December 6--
January 13

Special Events

Thursday, December 6

Careers in the Arts, 10-11:30 a.m., Palmer Museum of Art. Pier Bandini on "Computers in Architectural Design."
Bach's Lunch Concert, 12-10-12:30 p.m., Eisenhower Chapel. Voice students of Suzanne Roy. Christmas music.

Penn State Chapter of Educational Office Personnel, 12-10 p.m., 110 Henderson Dr., Charles M. Super on "Completing the Circle: Staff Evaluation of the Office Climate."
School of Music, 8 p.m., Schwab Aud. Holiday Sounds in Brass and Voices.

Friday, December 7

Classes end 9:30 p.m.
■Geog. Coffee Hour, 4 p.m., 319 Walker. Kris Kringle. United Nations Univ., on "Global Patterns of Reciprocity."
Center for the Performing Arts, 8 p.m., Eisenhower Aud., "The Nutcracker" Pittsburgh Ballet Theatre. Also Dec. 8, 3 p.m.

Saturday, December 8

School of Visual Arts, 9 a.m.-4 p.m., Chambers Gallery. Saturday morning art school open house.

Sunday, December 9

Shaver's Creek. members holiday party, 2-4 p.m. Call 863-2000.

Thursday, December 13

Commission for Women meeting, 1:30-3:30 p.m., 101 Health and Human Dev. East

Friday, December 14

Bloodmobile, 9 a.m.-3 p.m., Physical Plant.

Saturday, January 5

Commencement, 10:30 a.m. and 2 p.m., Rec Hall.

Wednesday, January 9

Arrival day for new students

Friday, January 11

Trustees meet at University Park, through Jan. 12.

Registration deadline.

Neutron Activation Analysis Workshop, 8:15 a.m.-4:30 p.m., Breazeale Reactor.

Janet Popeleski and Steven Annegarn dance the roles of the Sugar Plum Fairy and the Cavalier in the Pittsburgh Ballet Theatre's production of "The Nutcracker." See the story on page 8.

Public Radio

WPSU-FM 91.1

"All Things Considered," Monday-Friday, 5-6:30 p.m.; Saturday and Sunday, 5-6 p.m.; Morning Edition, Monday-Friday, 6-8 a.m.; Weekend Edition, Saturday and Sunday, 11 a.m.-1 p.m. "Odyssey Through Literature," 12:30 p.m. Wednesdays, with S. Leonard Rubenstein

Seminars

Thursday, December 6

Physics Colloquium, 3:30 p.m., SS Osmond Lab.

Paul Steinhardt, Univ. of Pa., on "The Inflationary Universe."
Computer Science, 4 p.m., 325 Whitmore Lab. Jin-yi Cai, Princeton Univ., on "Games of Incomplete Information and Bounded Reward MIP."

Friday, December 7

■Center for Research in Conflict and Negotiation, 2:30 p.m., 115 Beam. Howard Raiffa, Harvard, on "International Negotiations on Global Climate Change."

Monday, December 10

Aerohydrodynamics Technical Group Seminar, Center for Acoustics and Vibration, 3:45 p.m., 232 Hammond.

Tuesday, December 11

Condensed Matter Physics, 4 p.m., 339 Davey Lab. Dr. Edward Conrad, Univ. of Missouri, on

"The High Temperature Structure of Low Index Metal Surfaces"

Monday, December 17
Particulate and Chemical Acoustics Technical Group Seminar, Center for Acoustics and Vibration, 3:45 p.m., 232 Hammond.

Exhibits

■Reflects an international perspective

New center on aging and health is established

The National Institute on Aging has awarded a \$750,000, three-year grant to the Institute for Policy Research and Evaluation for an exploratory center on the health and effective functioning of older rural populations.

The newly established Center on Aging and Health in Rural America brings four administrative units - Population Issues Research Center, Gerontology Center, Center for Health Policy Research and the Department of Agricultural Economics and Rural Sociology - together to conduct interdisciplinary research in issues of population, aging and health and rural America.

Principal investigator on the grant and director of the center is Dennis P. Hogan, professor of sociology and director of the Population Issues Research Center. Steven

H. Zarit, professor of human development and assistant director of the Gerontology Center, is the associate director of CAHRA.

Other members of the executive committee include C. Shannon Stokes, professor of rural sociology and head, Department of Agricultural Economics and Rural Sociology; Larry D. Gamm, associate professor of health policy and administration and director of the Center for Health Policy Research; and Diane K. McLaughlin, deputy director of the Center on Aging and Health in Rural America.

The new center will provide researchers with opportunities to form interdisciplinary teams that will generate new research ideas and approaches, foster a rural focus in existing research on aging and health; and encourage expansion of rural research programs to include aspects of aging and

health.

An advisory committee has been established to guide and monitor CAHRA's activities. The co-chairpersons are K. Warner Schaie, director of the Gerontology Center, and Irwin Feller, director of the Institute for Policy Research and Evaluation.

Other advisory committee members are Michael A. Smyer, associate dean for research and graduate studies, College of Health and Human Development; William B. Lacy, assistant dean for research and director of the Experiment Station, College of Agriculture; Melvin Horowitz, professor of medicine and coordinator of the Geriatric Program at the Hershey Medical Center, and Sherman A. James, professor of epidemiology and research scientist, University of Michigan.

Bookshelf

Kyle Peck and Elaine Yates-Hendrix, assistant professors of education, have published a new software package through Intellimation Library for the Macintosh. *Diagnosing Reading Abilities* consists of case studies to which are applied the central theories and concepts of informal reading assessment. Users administer many diagnostic instruments to a student's case, evaluate the results, take notes, and recommend appropriate courses of action.

The software presents a broad spectrum of diagnostic techniques, offers a thorough reference section with background information on instruments and ideas, provides extensive data-gathering abilities, and trains prospective teachers in assessment of reading ability, case analysis, identification of reading weaknesses, and prescription of instructional procedures.

German shepherd plays key role for University Police Services

One of the University's law enforcement officers is a breed apart.

Reicher, a 5-year-old German shepherd joined Police Services in 1988 as a tracking and drug detection dog. Since he joined the force, Reicher has played a key role in locating missing persons, tracking suspects and drug seizures.

One of his best performances was tracking a local woman who had overdosed on drugs and wandered away from her home. Reicher found the woman quickly, enabling her to get prompt medical attention.

Reicher also was involved in finding and apprehending a prison escapee, who was found sleeping in a parked car in Parking Lot 40 at University Park. The prisoner fled on foot, and Reicher was called to track him, later locating him hidden in a bush near Eisenhower Auditorium.

The Department of University Safety began researching the possibility of acquiring a dog in 1986, according to Tom Harmon, director of Police Services. The department researched other universities' canine programs, such as the University of Maryland, which led Mr. Harmon to the dog training program at Baltimore County Police Department.

Officer Paul Stamm, a 20-year veteran of the force, volunteered to work with a four-legged partner because "it was something different, a change of pace."

Officer Stamm's first dog failed, but the second time proved to be the charm with Reicher.

"When I first met him, I couldn't even get him in the car, but within a few hours, he warmed up to me," Officer Stamm said about his brown-eyed, black and tan companion.

The two completed a total of 30 weeks

of training in obedience, tracking and drug detection in Baltimore County.

"It is unusual for a dog to have the capacity to do both tracking and drug detection, but Reicher has an excellent sense of smell," Mr. Harmon said. "He is just outstanding."

Reicher does enjoy his job, especially riding in his specially designed cruiser, fitted with a cage instead of a back seat. He is the only police dog trained in tracking in Centre County and, therefore, often is used by local law enforcement departments.

In addition to his police work, Reicher also frequently visits local civic organizations. Although Reicher's 95-pound frame and loud bark appear intimidating, he is good with people, doesn't mind an occasional rub behind the ears and has never bitten anyone.

"He's always a hit," Officer Stamm said.

To keep his tracking and drug detection skills sharpened, Reicher, along with Officer Stamm, attend monthly two-day refresher courses in Baltimore County.

The team are partners off duty as well.

The program requires that the animal and officer live together, but at home, Officer Stamm considers Reicher the family pet.

"My wife spoils him," he said. "If we have steak, so does Reicher."

The canine program is funded by Penn State Police Services and a federal drug enforcement grant.

"Overall, we are pleased with the program and with Reicher," Mr. Harmon said. "We have made some good apprehensions because of him."

Officer Stamm agrees. "You can't be sure what would have happened if we didn't find the woman who overdosed, but one find like that makes the program worth it."

—Tricia Smith

Penn State People

Jo Anne Williams

A member of the University Libraries staff since March 1970, Jo Anne Williams is a periodical library assistant at Pottee Library. Her responsibilities include interviewing, hiring, supervising and training a staff for the periodicals room that includes three full-time clericals, four part-time nonstudent staff members and 18 student staff members. The periodicals room has current magazines and journals in the education and social sciences fields, general interest periodicals and current newspapers. Ms. Williams says, "The most enjoyable part of the job is working at the reference desk, answering questions from library patrons." She also enjoys training other staff members. (Photo: Greg Grieco)

Australian studies group established

The Australian Studies Association of North America, recently established at the University, will foster closer ties between the United States and its Pacific Rim counterpart, according to Henry S. Albinski, director of the Australia-New Zealand Studies Center.

"We feel it is important to enhance the quality of U.S. Australian relations," he said. "Australia shares a common culture with the United States and closely complements U.S. economic and political interests, without being a handmaiden of the United States."

A group of scholars from the United States, Canada, Britain and Australia met the University Park Nov. 16-17 and laid the groundwork for ASANA, with Dr. Albinski being named steering committee chairman.

Conference funding was jointly provided by the center, the University Office of International Programs and the Australian

Department of Foreign Affairs and Trade.

The first official ASANA conference is scheduled for the University of Oregon next year.

The Nov. 16-17 meetings were attended by Christopher Lamb, minister at the Australian Embassy in Washington, D.C., and the Hon. Christopher Hurford, Australian consul-general in New York City. Also attending were officers from the American-Australian Studies Foundation in New York, which mobilizes funding for Australian studies in the United States.

"ASANA is a natural outgrowth of the center at Penn State, the first of its kind, which was founded in 1982 and extended in 1987 to include New Zealand," Dr. Albinski said.

A second Australian center, established at the University of Texas in 1988, was among the units represented at the November meeting.

University Ambulance Service ready to respond

Ready to give service to every University Park student, visitor, staff and faculty member 365 days a year, the University Ambulance Service responds to more than 1,200 calls a year with an outstanding average response time of 90 seconds. This out-the-door time is considerably faster than the average in Centre County or in Pennsylvania as a whole.

Penn State's emergency medical service at University Park also routinely provides back-up service for regional community ambulance services.

So far this year they have responded 135 times in place of the Alpha Volunteer Ambulance Service and have responded an additional 85 times to requests from Bellefonte, Mifflinburg, Port Matilda, Pleasant Gap and Centre Hall, Pennsylvania law requires all ambulance services to have prearranged back-up agreements with neighboring services.

"It is an unusual service because on evenings and weekends, it is primarily operated by highly trained students and provides a combination of emergency medical services and educational program support," David J. Lindstrom, assistant director of University Health Services and the administrator in charge of the Office of Emergency Medical Services, said.

With a fleet of two ambulances and a staff of three professionals, 35 full-time students who are emergency medical technicians or paramedics certified by the Pennsylvania Department of Health and 12 trainees, Penn State's ambulance service emphasizes patient care and community service. It has been part of the University Health Service system since the 1950s and costs student patients approximately 30 percent less than similar public services since it is subsidized by the University.

The *Journal of Emergency Medical Services* called it an excellent model for rural emergency management services. The University of California at Los Angeles modeled its program after Penn State's, and the television series "Rescue 911" has discussed featuring the service largely because of the way the ambulance service educates and uses students.

In addition to the 126-hour certification program in emergency medicine to become technicians, students participate in programs to stay abreast of new developments in areas such as dispatch systems,

David Lindstrom left, assistant director of University Health Services in charge of the Office of Emergency Medical Services, discusses emergency procedures with student staff members Tom Wiggins, Art Jones and Chris D'Esposito. (Photo: Greg Grieco)

coordinating emergency medical services for sporting and entertainment events and responding to hazardous materials incidents like chemical spills.

The students also help the professional staff teach the emergency medical technician course, Health Education 403, offered in conjunction with the Seven Mountains Emergency Medical Service Council. They also help train agricultural accident rescue personnel in Pennsylvania and help plan educational and special event services at University Park and throughout the Commonwealth Educational System.

The out-of-class educational value of being a member of the organization is undeniable. In the last 10 years

University Ambulance Service graduates have become physicians, registered nurses, health administrators, paramedics, police officers, lawyers involved in health care, emergency medical technician instructors, and the service has produced more than 300 volunteer technicians and paramedics.

"Although they have different majors, backgrounds and outside interests, the students develop a strong professional commitment to EMS," Mr. Lindstrom said. "We've had some dynamic student leaders who will continue their concerns for patient care and emergency medical services in their careers and volunteer service to their communities."

- Carolyn Juskeles

Search committee for IRP director appointed

L. Raymond Hetche, director of the Applied Research Laboratory, has been named chair of a search committee to identify candidates for the position of director, Intercollege Research Programs (IRP).

Other committee members are **David R. DeWalle**, professor of forest hydrology; **Robert Gould**, graduate student representative; **Dennis P. Hogan**, professor of sociology and director, Population Issues Research Center; **June I. Medford**, assistant professor of biology; **Kant Rao**, associate professor of business administration; **Robert J. Santoro**, associate professor of mechanical engineering and acting director, Center for Particle Science and Engineering; **Walter B. Sevens**, professor of pharmacology; **William D. Taylor**, associate dean for research, Eberly College of Science; and **William B. White**, professor of geochimistry.

The search for the position, a full-time,

12-month appointment, will be conducted internally. The director reports to the senior vice president for research and dean of the Graduate School.

The director has management and budgetary oversight for 14 intercollege research units. Intercollege Research Programs accounted for over \$66 million in research expenditures in fiscal year 1989-90. Over 900 faculty, graduate students, and staff participate in these units, the largest of which are the Applied Research Laboratory, the Materials Research Laboratory, the Pennsylvania Transportation Institute, the Environmental Resources Research Institute, and the Institute for Policy Research and Evaluation.

Qualifications for the position include: rank of associate or full professor and senior member of the Graduate Faculty; significant scholarly and research accomplishments; commitment to high

quality interdisciplinary research; ability to develop strategic plans, cultivate innovation, facilitate collaboration, and manage resources; evidence of success in securing financial support for research purposes, and broad knowledge of issues and trends affecting sponsored research and understanding and support for the University's multiple missions and its commitment to cultural diversity.

The search committee will begin to review applications in mid-January and continue to receive them until a candidate is selected. It is anticipated that the successful candidate will assume the position in July 1991. Women and minority faculty members are encouraged to apply.

Letters of application, accompanied by a curriculum vitae, and nominations should be submitted to L. Raymond Hetche, chair, Search Committee for Director, Intercollege Research Programs, Box PSI, 201 Old Main, University Park.

Bookshelf

David A. Kurtz, pesticide analytical chemist in the College of Agriculture, is the author of *Long Range Transport of Pesticides*, published by Lewis Publishers of Boca Raton, Fla., a division of CRC Press.

"The study of how contaminants are transported throughout the world has become increasingly important as we are discovering the limits of the earth to absorb waste," Dr. Kurtz said.

The text explains how pesticides enter a transport system, are transported across international boundaries and are deposited in regions far from their starting point of application. It is based on a symposium held in conjunction with the American Chemical Society meeting and the Third Chemical Congress of North America in Toronto in June 1988.

Dr. Kurtz received his bachelor's degree from Knox College, and his master's and doctoral degrees from Penn State, all in chemistry. He recently marked 25 years in pesticide research at Penn State.

Penn Staters

Rustum Roy, Evan Pugh professor of the solid state, gave the opening talk at the International Conference on New Diamond Science and Technology in Arlington, Va.

Frank W. Schmidt, professor of mechanical engineering, presented a paper, "A Comparison of Turbulence Modeling Predictions to Experimental Measurements for High Rayleigh Number Natural Convection in Enclosures," at the 9th International Heat Transfer Conference in Jerusalem.

Alok Sinha, associate professor of mechanical engineering, chaired a seminar session and presented a paper, "Analytical Studies of Forced Response of a Mismatched Bladed Disk Assembly in Subsonic Flow," at the 35th International Gas Turbine Aero Engine Conference and Exhibition in Brussels, Belgium.

Martin L. Barrett, assistant professor of computer science, presented the paper "A Load Balancing Experiment for Parallel Ray Tracing" at Ausgraph '90, the Conference of the Australian Computer Graphics Society, in Melbourne, Australia.

Ramon Borges, assistant professor of engineering at the Penn State Altoona Campus, presented invited papers at the annual Conference of the American Society for Engineering in Toronto, Canada, and at the International Conference on Computer-Aided Training in Science and Technology in Barcelona, Spain.

A. Welford Casileman Jr., Evan Pugh professor of chemistry, organized and chaired the first Gordon Conference

held outside the United States in Volterra, Italy. He also delivered an invited talk on the reactions of metal cluster anions at the Fifth International Symposium on Small Particles and Inorganic Clusters held in Konstanz, West Germany.

Cordell Hatch, professor of agricultural communications, now on assignment in Pakistan, has received the 1990 International Award of Excellence sponsored by Agricultural Communications in Education in honor of his dedicated service and outstanding contributions to agricultural development through better information and technology transfer in third world countries.

Binh Le, assistant librarian at the Penn State Gontz Campus, presented the paper "The Literature of the Vietnamese-American Conflict" at the 33rd International Congress of Asian and North American Studies at the University of Toronto.

Norbert J. Mayr, assistant professor of history at the Penn State Worthington Scranton Campus, presented a paper on "Limits of Liberalism in Early 19th Century Bavaria" during the annual Day of Bavarian History (Tag der bayerischen Geschichte) at the Institute for Bavarian History (Haus der bayerischen Geschichte) in Munich.

Adrian O'Connell, professor of mathematics, gave an invited lecture titled "Quantum Symmetry: Classification of Subfactors and Quantum Field Theory" at the International Congress of Mathematicians in Kyoto, Japan.

James Smith, associate professor of English at the Penn State Gontz Campus, delivered the paper "Bugsy's Flamingo and the Modern Casino Hotel" at the Eighth International Conference on Risk and Gambling in London, England.

Gerhard F. Strasser, associate professor of German and comparative literature, presented an invited paper on "Mathematical-Combinatorial Languages at the Time of John Wilkins" at a symposium on "John Wilkins (1614-72): Language, Religion, and Science in the 17th Century" at St. Peter's College, Oxford, England.

Leslie Ellen Brown, director of academic affairs and associate professor of musicology at the Penn State Beaver Campus, presented a paper titled "The Common Sense School and the Science of Music in Eighteenth-Century Scotland: A Look at John Holden's *Essay Towards a Rational System of Music*" at the "Glasgow and the Enlightenment" symposium in Glasgow, Scotland.

Geoffrey C. Godbey, professor of leisure studies, has been elected a Fellow of the American Academy for Park and Recreation Administration.

Dennis S. Gouran, professor and head of the Department of Speech Communication, has been selected Speaker of the Year by the Speech Communication Association of Pennsylvania.

Philip A. Klein, professor of economics, has been designated as the 1990 recipient of the Veblen-Commons Award, the highest professional honor

in the Association for Evolutionary Economics.

Anne C. Petersen, dean of the College of Health and Human Development, has been invited to membership on the Expert Panel Advisory Board of the American Medical Association.

Harriet J. Rudolph, assistant professor of speech communication at the Penn State Hazleton Campus, has received the 1990 Distinguished Service Award of the Speech Communication Association of Pennsylvania.

Barbara W. Uncapher, assistant professor of speech communication at the Penn State New Kensington Campus, has been elected vice president of the Speech Communication Association of Pennsylvania.

H.L. Barnes, distinguished professor of geochemistry and director of the Ore Deposits Section, and **A.W. Rose**, professor of geochemistry, co-chaired a workshop on "The Geology and Geochemistry of Gold Deposits" in Minas Gerais and Bahia, Brazil.

L.G. Austin, professor emeritus of fuels and mineral engineering, presented a paper at the 2nd World Congress on Particle Technology in Kyoto, Japan. He also served as a professional fellow in chemical engineering at UMIST in the United Kingdom.

Hal R. Witteman, assistant professor of speech communication, has received the 1990 Emerging Scholar Award from the Speech Communication Association of Pennsylvania.

Promotions

Staff Exempt

Kenneth Rudy, to supervisor, RSEC support services in Engineering.
Gerald M. Santoro, to lead research programmer in C&IS: Center for Academic Computing.
Frank J. Schwab, to project manager in Office of Physical Plant.
Brian C. Tussey, to senior engineering aide in Applied Research Lab.

Staff Non-Exempt

Catherine F. Ashton, to clinical head nurse at Hershey.
June R. Daley, to clinical head nurse at Hershey.
J. Dwane Gehman, to research technician at Hershey.
Bonnie B. Griffith, to administrative aide in Corporate Controller's Office.

Marcella L. Immel, to IBIS training assistant in C&IS-Management Services.
Rebecca L. Roberts, to senior research technician at Hershey.

Clerical

Leann Anderson, to secretary C in Engineering.
Judith L. Bell, to secretary A in Education.
Dorothy S. Bennett, to clerk A in Undergraduate Education.
Judy I. Brown, to secretary A in Division of Development and University Relations.
Barbara M. Catherman, to accounting clerk in Agriculture.
Marian M. Cromer, to clerk A, data input in Undergraduate Education.
Michelle L. Diruscio, to clerk, insurance followup at Hershey.
Shirley Gates, to receptionist clerk A in Housing and Food Services.

June Y. Golletti, to clerk-typist A at Beaver Campus.
Daria J. Homan, to secretary B in Education.
Rachel L. Hoy, to clerk-typist A in Agriculture.
Joyce E. Ivicic, to clerk-typist A in Earth and Mineral Sciences.
Cheryl A. Keller, to secretary A in Agriculture.
Sarah E. Lehr, to clerk, records A at Hershey.
Mark Leskovansky, to senior clerk, Interlibrary Borrowing in University Libraries.
Ida M. O'Donald, to clerk-typist A in Agriculture.
Brenda L. Patterson, to budget clerk at Hershey.
Wendy L. Peck, to secretary B in research and Graduate School.
Melinda S. Zephery, to clerk, records A at Hershey.

Technical Service

Charles A. Addelman, to food preparer A in Housing and Food Services.
Sara C. Andrews, to group leader, Central Processing at Hershey.
Johnny L. Bloom, to storeroom assistant in Office of Physical Plant.
Sandra D. Boughter, to escort service aide at Hershey.
Kathy J. Foot, to residence hall worker in Housing and Food Services.
Henry A. Geyer, to stock clerk, truck driver in Housing and Food Services.
Bonnie Irvin, to utility worker at Hershey.
John P. Jenkins, to maintenance worker, general C at Berks Campus.
Robert J. Keller, to food preparer B in Housing and Food Services.
Kathy M. Lowery, to residence hall utility worker in Housing and Food Services.

Appointments

Irwin Feller

Irwin Feller, professor of economics and director of the Institute for Policy Research and Evaluation, has been named director of the Graduate School of Public Policy and Administration, effective Jan. 1, 1991.

The new school, approved by the Board of Trustees last November, is being created within the College of the Liberal Arts and the Graduate School from three existing units—the Graduate Program in Policy Analysis, the Department of Public Administration, and the Institute for Policy Research and Evaluation.

The restructuring was recommended as part of the University's strategic planning process.

Dr. Feller, who joined the University faculty in 1963, is professor of economics. He has been director of the Institute for Policy Research and Evaluation since 1978 and director of the Graduate Program in Policy Analysis since 1986.

He earned his bachelor's degree in economics from the City University of New York in 1959 and his Ph.D. in economics from the University of Minnesota in 1966.

A member of the American Economic Association and the Economic History Association, he also is a member of the Association for Public Policy Analysis and Management, International Joseph A. Schumpeter Society, American Association for the Advancement of Science, and the Cliometric Society.

William E. Crocken has been named head of the new Department of Integrative Arts in the College of Arts and Architecture. Created by the Board of Trustees last May, the department is the first addition to the College of Arts and Architecture since it was formed in 1963.

The Department of Integrative Arts offers a cross-disciplinary bachelor's degree program in the visual, performing and design arts. Students create their own degree programs based on personal interests and professional goals. The programs may be contained within the College of Arts and Architecture or can cross with another college in the University.

Mr. Crocken joined the Penn State

Susan Frandsen

faculty in the Department of Theatre and Film in 1971. He also served as general manager of the Pennsylvania Festival Theatre and University Theatre Productions from 1971 to 1976, when he was named director of university auditoriums.

In 1985, when the Artists Series and auditorium management were merged to form the Center for the Performing Arts, Mr. Crocken was named its first director. In 1987, he became director of general education in the arts for the College of Arts and Architecture, a post he held until the new department was created.

Prior to coming to Penn State, he was technical and musical director in the Department of Theatre Arts at UCLA and a lighting designer for numerous West Coast opera and theater productions.

Henry W. Durrwachter has been named director of the South Central Satellite of the Ben Franklin Technology Center of Central and Northern Pennsylvania Inc., a subsidiary of The Corporation for Penn State. The satellite is located at Penn State Harrisburg.

Mr. Durrwachter comes to the BFTC/CNP with more than 31 years of experience of progressive responsibility in systems engineering, programs management and marketing. He is a registered professional engineer in Pennsylvania and holds bachelor's and master's degrees in electrical engineering from Penn State.

In his new role, he will be responsible for matching technical capabilities and awarding Ben Franklin Partnership funds for area industry and economic needs to implement economic development partnerships.

Susan Frandsen has been appointed director of special events in the Division of Development and University Relations. She will work closely with the Office of the President, the Alumni Association and the Office of the Board of Trustees.

She has worked on the development of special programs and events for three University presidents, first as activities coordinator for the Office of the President

L. Stephen Hayes

and most recently as special events associate in the Division of Development and University Relations.

Her new responsibilities will include developing special programs and coordinating a variety of events relating to official University hospitality and entertaining.

Ms. Frandsen has either assisted or been responsible for such events as Distinguished Alumni dinners, Award Convocation luncheons, Alumni Fellow and Board of Trustees receptions, Old Main holiday parties and the buffet reception at the end of The Campaign for Penn State last spring.

She also has worked with the Smeal College of Business Administration and the Department of Meteorology. She earned her bachelor's degree from Washington State University in general studies with an emphasis on graphic and interior design and has been president of the Aaron Village Townhouse Association since 1984.

L. Stephen Hayes has been appointed human resources specialist in the Office of Human Resources.

A 1975 graduate of the University with a B.A. degree in arts and sciences, he served as a supervisor for Sera-Tec Biologicals in State College from 1975 to 1980 and was operations manager for Sera-Tec in Pittsburgh from 1980 to 1988.

Prior to joining the University staff, he was administrator at Unity Christian Ministries Inc., in State College.

Charles Schroen, director of Lehigh University's English-as-a-second language program, has been named director of the Intensive English Communication Program at the University.

An Indiana native, Mr. Schroen spent three and a half years in South Korea as a Peace Corps volunteer and also served as a visiting lecturer at Korea University in Seoul. He graduated from the University of Notre Dame in 1972 with a B.A. in English, and earned an M.A. in linguistics from Indiana University, Bloomington, in 1985. He is completing work on an Ed.D. in language education from Indiana as well.

Charles Schroen

The Intensive English Communication Program, which began in 1979, helps international students sharpen their English skills and prepares them for study at colleges and universities in the United States. It is a continuing education service of the College of the Liberal Arts and the Office of International Programs.

During the 1988-89 school year, the program attracted students from China, Colombia, Ethiopia, Indonesia, Japan, Poland, Saudi Arabia, Spain, Thailand, Turkey and a dozen other countries.

Mr. Schroen is a member of the National Association for Foreign Student Affairs and the Teachers of English to Speakers of Other Languages.

Katharine Quinn Vanderau has been named director of student affairs in the College of Medicine at the Hershey Medical Center.

Ms. Vanderau had served as assistant director of financial aid at Bucks County Community College, Newtown. Previously she was a financial aid officer at Rutgers University and admissions officer at Harcum Junior College in Bryn Mawr.

A Penn State alumna, she earned her bachelor of science in secondary social studies education in 1983. She earned a master's in education in counseling psychology and guidance from Rutgers in 1987. In 1982, she attended the University of Exeter, Exeter, England, through the foreign studies program at Penn State.

Ms. Vanderau fills the position vacated by the retirement of Geyer Sheffler who served as the director for 24 years.

Carpooler

Two employees are looking for one more person to join their carpool from Philadelphia to University Park. Work hours are 8 a.m. to 5 p.m. Call Rita at 863-0302, or Val at 863-2105.

Staff members honored for support of research

Twenty-two University staff members have been honored for their outstanding contributions, efforts and dedication in support of faculty and students in acquiring financing, executing the research, and administering the diverse activities that make up Penn State's scholarship and research efforts.

In citing these contributions, Charles L. Hosler, senior vice president for research, and dean of the Graduate School, said, "Penn State has moved into the ranks of the foremost research universities in the world. One of the reasons for this is that we have a dedicated and talented staff."

Special citations and cash awards went to Patricia Ishler, budget clerk in the College of Earth and Mineral Sciences, and John Raiser, administrative aide in the College of Engineering.

Ms. Ishler was cited for 27 years of "smooth interface between the research accounting system and the College's principal investigators."

Mr. Raiser was cited for "being a true innovator in establishing the methodology to relieve the administrative burden of individual researchers as well as the department as a whole."

Patricia Ishler and John Raiser (right) are shown with Charles L. Hosler, who presented awards to both staff members, as well as to 22 others for their contributions to the University's scholarship and research efforts.

Obituaries

Harmer A. Weeden, professor emeritus of civil engineering, died Nov. 10 at the age of 73.

A graduate of Cornell University, he earned a master of science degree at the University of Michigan and a doctorate at Cornell. He was an associate professor at Bucknell University before joining the Penn State faculty in 1955. He retired July 1, 1978.

Dr. Weeden received the Earl J. Fennell award in 1980 from the American Congress of Surveying and Mapping for outstanding contributions to surveying and mapping education. He also was the recipient of the 1986 Surveying and Mapping Award from the American Society of Civil Engineers and the 1988 Distinguished Service Award from the College of Engineering at Penn State.

Edward R. Fagan, professor emeritus of education, died Nov. 14. He was 66.

A graduate of the University of Wisconsin with a B.S. degree in English and sociology, he received his master's degree from the University of Wisconsin and his doctorate from Columbia University.

He joined the University faculty Sept. 1, 1962, and retired Jan. 1, 1988.

Prior to coming to Penn State, he taught English at the Wisconsin School for Boys and was associate professor of education at the State University of New York College of Education in Albany.

He was the 1978 recipient of the Christian R. and Mary F. Lindback Award for outstanding teaching, the 1986 Excellence in Teaching award, and the 1987 Barash Award for outstanding community service.

A life member of the Forum on Black Affairs, he was a member of the American Education Research Association, the National Council of Teachers of English and Phi Delta Kappa.

Harry V. Weaverling, retired area director of continuing education, died Nov. 14. He was 64.

A 1953 graduate of Millersville University with a bachelor of arts degree in social studies, he received his master's degree in counseling from Temple University in 1956.

Mr. Weaverling joined the University staff Aug. 1, 1963, and retired Jan. 1, 1987. Following retirement, he was employed with ERA Benchmark Realty, State College.

Louise K. Kelly, senior assistant librarian, University Libraries, from Nov. 1, 1962, until her retirement Jan. 1, 1974, died Nov. 4. She was 78.

Lester A. Auman, community service officer, University, from Jan. 16, 1967, until his retirement March 1, 1983, died Nov. 11 at the age of 72.

John C. Nearhoof, plumber-fitter, Office of Physical Plant, from June 4, 1973, until his retirement Jan. 7, 1984, died Nov. 11 at the age of 69.

News in Brief

Intercom schedule

This is the last *Penn State Intercom* for the Fall Semester. The next issue of *Intercom* will be published Thursday, Jan. 10, 1991.

Poultry Salesroom

The Poultry Salesroom will be open from 10 a.m. to 3 p.m. Thursday, Dec. 20, and will have available for sale chicken roasters, fryers, stewing chickens and fresh eggs. The salesroom will be closed from Dec. 24 to Jan. 1, 1991, and will reopen on Thursday, Jan. 3, 1991. For more information, call 865-3765.

Workshop scheduled

A one-day workshop on the use of neutron activation analysis will be conducted Friday, Jan. 11, at the Breazeale Nuclear Reactor at University Park.

The workshop is open to faculty, staff and students who want to learn more about neutron activation analysis, which is non-destructive, and for many elements, the most sensitive technique available for trace element identification and quantification.

There is no charge for the workshop, but the number of participants will be limited. Those interested in attending should register with Sue Ripka at 865-6352.

MRL hosts Soviets

The Materials Research Laboratory, which has become one of the world's

largest research centers on vapor-deposited diamond films, recently hosted the Soviet scientific group responsible for the discovery which made the field possible.

Academician Boris V. Derjaguin, of the Institute of Physical Chemistry in Moscow, and his colleague, D. Fedoseev, gave two lectures on campus: one on diamond films and the other on cold (nuclear) fusion by fracture of solid.

Professor Derjaguin, who is 89 years old and began his career as a colloid and surface chemist, has authored some 1,100 papers and has made major "breakthroughs" in a wide variety of fields.

Nuclear plant study

The Center for Applied Behavioral Sciences at Penn State has been awarded a two-year, \$600,000 grant by the Nuclear Regulatory Commission to examine the possible influence of organizational variables on nuclear power plant safety. The research will pay particular attention to issues of worker safety, plant and public safety, and regulatory compliance indicators.

The current project will examine issues such as the safety culture of the plant, work team composition, value systems of different departments in a nuclear facility, in an attempt to identify additional sources of influence.

The research team includes industrial and organizational psychologists and

nuclear engineers from Penn State, headed by Frank Landy, director of CABS, and includes two other industrial and organizational psychologists, Rick Jacobs and John Mathieu, as well as two senior nuclear engineers, Gordon Robinson and Tony Baratta, with extensive experience in the operation of domestic nuclear facilities.

'The Education Initiative'

At the annual meeting of EDUCOM, an education computing consortium of 600 colleges and universities, Digital Equipment Corp. celebrated the two-year anniversary of "The Education Initiative." (TEI) a set of education partnership programs that broke new ground in industry-education partnerships when introduced in 1988.

Digital presented a TEI Partnership and Innovation Award to Russ Vaught, director of the Center for Academic Computing, and Jim Forkner, Penn State TEI administrator, for sponsoring the First Regional TEI Administrator's Conference in May, 1989.

The regional meeting was the first of its kind specifically geared to the issues and concerns faced by the TEI academic administrative community. Representatives from Pitt, Carnegie Mellon, Washington and Jefferson, Johns Hopkins, West Virginia, and other institutions learned how Penn State has been able to achieve first-year savings in software licenses and maintenance fees amounting to more than \$4,500,000.

Faculty/Staff Alerts

SPEC Program questions

More than 7,000 Position Information Questionnaires (PIQs) have been mailed to staff in exempt, nonexempt, and clerical job classifications as part of the University's Staff Position Evaluation and Compensation (SPEC) Program.

Based on phone calls and the informational meetings conducted last week, there are certain questions that are common to many employees.

"The job description enclosed with my PIQ is not appropriate for the job I am now doing. What should I do?"

Copies of existing job descriptions were included in the PIQ packages to provide employees with quick access to information that could be useful for completing the questionnaire. If the description is no longer accurate, do not use it. State your duties as best you can.

One of the primary objectives of the project is to collect current, accurate information about the jobs being done

throughout the University. By completing the PIQ, with or without the help of an existing job description, employees and their supervisors play a critical role in this information collection process.

"Do I have to complete a PIQ?"

In order for the new SPEC Program to be implemented successfully, all affected jobs in the exempt, nonexempt, and clerical classifications must be included. That means that they must be described, evaluated, and assigned to a salary grade.

The University is committed to maximum participation in this process. The PIQ is an invitation to employees to participate in the collection of job information. Important evaluation decisions will be made based on this data. Jobs that are not documented from direct employee input will be analyzed by supervisors and job analysts from the Office of Human Resources without the employee input.

"What will happen to the PIQ after I complete it?"

also are excused from work starting at 3:45 p.m. so that they may attend the Eisenhower Auditorium event or watch it on television. Exceptions are made for persons in essential service areas, such as security.

At locations other than University Park, early class dismissal will be at the discretion of each campus executive officer.

Mail service

Mail Service to the University community will be suspended from 5 p.m. Friday, Dec. 21, until 8 a.m. Wednesday, Jan. 2, 1991, due to the holidays.

If your department requires delivery of incoming U.S. Mail, please contact Frank Sinclair at 108 Business Services by calling 865-4051 prior to Dec. 11 to make the necessary arrangements. Any requests

Supervisors and personnel representatives will review all completed questionnaires for comment prior to submitting them to the Project Team. Employee responses will not be altered, however.

Responses from all PIQs will be entered into a computer data base and analyzed by project staff to establish a job evaluation measurement for all job categories. Eventually, the job evaluation results will be the basis for jobs being assigned to a proper salary grade under the SPEC Program.

"What will happen to my pay as a result of the SPEC Program... will it be reduced?"

From the very beginning of the project last year, there has been a promise to all affected University employees that no one's current level of pay would be reduced as a result of the SPEC Program.

There is no promise, either, that there will be significant pay increases for most employees under the new salary structure.

The objective of the SPEC Program is to ensure that salary levels for staff jobs are determined in a manner that is fair and equitable and that responds to the way jobs are performed today in the complex University environment.

While it is likely that some jobs may increase in value as a result of the new program, and some may decrease, generally the University will continue to spend about the same amount of total dollars on staff salaries.

In order to keep the SPEC project on schedule, it is important that certain key deadlines be met. The Project Team is planning to begin the development of the PIQ response data base in early January. This will require that the completed and reviewed questionnaires be received in the Office of Human Resources by the December holidays. This schedule only will be possible if all employees complete their PIQs and submit them to supervisors by Dec. 12.

Martin Luther King celebration

Penn State will celebrate the birthday of Dr. Martin Luther King Jr. from 4 to 5 p.m. Monday, Jan. 21, in Eisenhower Auditorium at University Park. The event will be transmitted to the University's other locations via satellite dish and/or via PENNARAMA. Vincent Harding, professor of religion and social transformation at the Cliff School of Theology, will be the featured speaker.

In order that faculty members and students may participate in this important event, University Park classes will be canceled from 3:45 p.m. to 5:15 p.m. on Jan. 21. The only exception that will be made regarding the cancellation of classes will be for those where cancellation or rescheduling is impossible, such as certain laboratory sessions.

Similarly, University Park staff members

received after Dec. 11 will not be guaranteed special arrangements.

Holiday hours

The University Auxiliary Recreation Services has announced its holiday hours for facilities at University Park.

The White Golf Shop in Recreation Building will close at noon Dec. 24 and remain closed Dec. 25, 30, and 31, and Jan. 1. It will be open from 10 a.m. to 6 p.m. Dec. 26, 27, 28 and 29. For more information, call the White Golf Shop at 865-0231.

The Tennis Club will remain open from 9 a.m. to 9 p.m. throughout the holidays. The club will close at 3 p.m. Dec. 24 and Dec. 31 and be closed Dec. 25 and Jan. 1. For more information, call the Tennis Club at 865-1381.

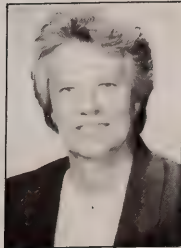

The Bowling Lanes in the Recreation

Building will be closed from Dec. 24 through Jan. 1.

The Ice Pavilion will be open throughout the holidays: Dec. 17, 8 a.m. to 10:30 p.m.; Dec. 18, 19, 20, 8 a.m. to 11 p.m.; Dec. 21, 8 a.m. to 10 p.m.; Dec. 22, 9 a.m. to 10 p.m.; Dec. 23 and 24, 9 a.m. to 5 p.m.; Dec. 25, closed; Dec. 26, 27, 28 and 29, 10 a.m. to 10 p.m.; Dec. 30 and 31, 9 a.m. to 5 p.m.; Jan. 1, closed. For more information, call the Ice Pavilion at 865-4102.

The Stone Valley Recreation Area will be open during the holiday for ice skating, depending on the ice conditions. The ski trails will be open for cross country skiing, depending on the weather conditions. The lodge will be available for group rental during the holidays. For more information, call the Stone Valley Recreation Area at 863-0762.

25-year award recipients

Observing 25 years of service at the University are, from left, Dale Albright, labor helper, utility piping, Office of Physical Plant; David E. Buft, associate professor of business administration and director of the academic communications program, Smeal College of Business Administration; Maryann Domitrovitz, assistant professor of exercise and sport science, College of

Health and Human Development; Frank Deusch, professor of mathematics, and G. Pat Pail, professor of mathematical statistics and director of the Center for Statistical Ecology and Environmental Statistics, both in the Eberly College of Science.

Staff Vacancies

The following vacancies for positions classified as staff exempt or staff nonexempt have been listed with the University Employment Division for filling. The brief statements for each vacancy are illustrative. They are not complete position descriptions. APPLY BY CALLING THE EMPLOYMENT DIVISION, 863-0304. Applications for these staff vacancies will be accepted until Dec. 13. DO NOT CONTACT THE AREA THAT HAS THE VACANCY. Applications for staff vacancies are considered in accordance with Fair Employment practices (FES 1) and in compliance with the University's Affirmative Action Compliance Program without regard to race, color, religion, national origin, handicap or age as provided by law, sex, or status as a disabled or Vietnam era veteran.

■01178. Nurse Practitioner – Women's Health, Student Services, University Health Services, University Park Campus – Responsible to the physician in charge of Women's Health for assessment, physical examination, health history evaluation and health counseling of women students' gynecological health problems and concerns. Requires graduation from an accredited school of nursing and a current Pennsylvania license for in the process of applying for reciprocity and graduation from a Family Planning Nurse Practitioner program plus one to two years of effective experience. Must be eligible for certification as a registered nurse practitioner in Pennsylvania. THIS IS A FIXED-TERM POSITION FUNDED THROUGH JUNE 30 1991. STAFF GRADE o.

■01179. Admissions Counselor II – Market Planning and Communications, Undergraduate Admissions

Office, University Park Campus – Responsible to the associate director of undergraduate admissions for general assistance in conceiving, planning, and organizing operational aspects of admissions procedures and activities which relate to market planning and communications. Participate in and administer admissions activities as assigned. Requires bachelor's degree, or equivalent in journalism or English or related field, plus at least two years of effective experience. STAFF GRADE o.

■01180. Coordinator, Center for Instructional Research and Development, College of Education, Associate Dean for Research and Graduate Studies, University Park Campus – Provide leadership, supervision and support for all activities of the Center. Coordinate Center activities with other units within the University. Provide overall leadership for the use of technology in the College. Requires master's degree, or equivalent in instructional systems design, computer science or a related field, strong supervisory skills and one to two years of effective experience with software and systems development. Strong knowledge of telecommunications: VAX, IBM and Apple computer systems desired. STAFF GRADE 7.

■01181. Textbook Assistant, Penn State Bookstore, University Park Campus – Responsible to the textbook specialist for the textbook operation. Maintain current pricing information on all titles purchased, develop and maintain list of universities and wholesale houses to both seek and sell used books. Requires high school graduation, or equivalent, plus one to two years of effective experience. Knowledge of bookstore policies, practices and operations is highly desirable. STAFF GRADE 4.

■01182. Assistant Supervisor, Stone Valley, Auxiliary Recreation Services, Stone Valley – Responsible to the supervisor, Stone Valley, for assisting in the coordination of staffing, scheduling maintenance and operation of auxiliary services at the Stone Valley Recreation Area. Requires bachelor's degree, or equivalent, preferably in recreation and parks with an option in park administration, plus up to one year of effective experience in waterfront operations. Employee must possess certification as a Red Cross Sailing Instructor, and in Water Safety and First Aid, or be willing to complete training within six months on the job. THIS IS A FIXED-TERM POSITION FUNDED THROUGH JUNE 30, 1991. WITH PROBABILITY OF RE-FUNDING. STAFF GRADE 4.

■01184. Technology Transfer Services Coordinator, RTAP, Penn State Harrisburg – Responsible to the project director, RTAP (Pennsylvania Local Roads Program), for coordination of the information services program of RTAP. Requires bachelor's degree, or equivalent, in public administration, communications, library science, or related field, plus one to two years of effective experience. Experience in coordination of a program or professional association is desirable. Master's degree preferred. THIS IS A FIXED-TERM POSITION FUNDED THROUGH JUNE 30, 1991. WITH EXCELLENT PROBABILITY OF RE-FUNDING. STAFF GRADE o.

■01185. Program Director, PEPP – Behrend, Academic Services, Partnership Program, Penn State Behrend – Responsible to the partnership director for directing and overseeing the operation of assigned partnership program and for assisting in planning local educational support programs. Requires master's degree, or equivalent.

and one to two years of effective experience in developing and supervising the implementation of educational programs. A demonstrated ability to work with low-income and under-achieving students, and strong communication skills also are required. STAFF GRADE 7.

■01186. Supervisor, Food Services, Housing and Food Services, Berks Campus – Responsible to the manager, Housing and Food Services – Commonwealth Campuses, for all phases of a specific dining commons operation. Requires bachelor's degree, or equivalent, plus one to two years of effective experience. SUPERVISOR-IN-TRAINING POSITION. APPLICANT MUST BE OPEN TO RELOCATE TO ANY COMMONWEALTH CAMPUS LOCATION. STAFF GRADE 5.

Hershey

For the following position vacancies, apply directly to The Milton S. Hershey Medical Center. Attach resume with cover letter indicating the position vacancy code and forward to the Department of Human Resources, Hershey, or call the Hershey bid line at (717) 531-8531 by Dec. 13.

■1206. Coordinator, Center for Biostatistics and Epidemiology, Department of Biostatistics and Epidemiology – Responsible to the director, Center for Biostatistics and Epidemiology, for the performance of and assistance with all administrative, budgetary and financial duties. Requires a bachelor's degree or equivalent in administration or management, plus one to two years of effective experience, preferably in an academic setting. Experience with microcomputing, especially spreadsheet applications such

as Lotus 1-2-3, Excel or Quattro is highly desirable. STAFF GRADE 5.

■1203. Supervisor of Hospital Billing, Department of Financial Management – Responsible to the manager, Hospital Billing, for the operation and supervision of Hospital Billing units in the preparation of claims to third-party payors. Requirements include a bachelor's degree in business administration or equivalency, plus one to two years of effective experience, preferably in a teaching hospital. STAFF GRADE o.

■1649. Ultrasound Technologist, Radiology Department – Responsible to the assistant chief technologist for the supervision and performance of those duties directly involved in the application of nonionizing high frequency ultrasonic waves to humans for diagnosis of disease. Requires high school graduate with two years of training in an approved school of radiologic technology with AART registration, plus completion of an approved school for diagnostic ultrasound or equivalent experience which is acceptable to the American Society of Ultrasound Technological Specialist, and two to three years of effective experience. STAFF GRADE 5.

■1648. Radiotherapy Technologist, Radiology Department – Responsible to the radiology senior staff nurse for the performance of duties involving a variety of technical procedures to apply prescribed ionizing radiation for treatment. Requires high school graduate plus two years training in an approved school of radiologic technology. AART registration and/or specialized training in the field of radiation therapy, plus two to three years of effective experience as a radiotherapy technologist. STAFF GRADE 5.

Fulbright scholar teaching, visiting at University Park

The year-long visit of Fulbright scholar Seong-Kon Kim to the University is helping to strengthen the Asian literature component in the Comparative Literature Department.

Dr. Kim is director for research of the American Studies Association of Korea and associate professor of English at Seoul National University. A specialist both in American literature and in comparative

East/West studies, he is teaching comparative courses in Asian literature and East/West literary relations this year.

During his stay at Penn State, Dr. Kim will be evaluating English translations of Korean works for accuracy and readability, so that comparative literature courses taught in English translation can include further Korean materials.

The visit of Dr. Kim, who holds a Ph.D.

from SUNY Buffalo, is made possible by the Fulbright Scholar-in-Residence Program, with support from the College of the Liberal Arts and the Institute for the Arts and Humanistic Studies.

Anyone interested in contacting Dr. Kim, or inviting him to speak, may call the Department of Comparative Literature at (814) 863-0589.

INTERCOM is published weekly during the academic year and every other week during the summer. It is an internal communications medium published for the faculty and staff of Penn State by the Office of Public Information, Room 312, Old Main, Phone 865-7517.

Governor authorizes funds for construction projects

Gov. Robert P. Casey has authorized more than \$100 million in construction projects requested in the University's 1990-91 capital budget.

At the same time, \$17,324,000 for original furniture and equipment for previously authorized construction projects was approved.

The governor authorized a total capital package of \$730 million for public institutions statewide, down from the \$2.1 billion that had been authorized by the General Assembly.

"Penn State is grateful to the governor for the capital projects that have been approved," President Thomas said.

The University received one of every seven dollars authorized by the governor this year, and that reflects very well on the Penn State's important role in the Commonwealth.

"However, we are disappointed that a number of our highest priority projects, including a library and classroom building at Penn State Harrisburg and a chemistry building and the Paul Robeson Cultural Center at University Park,

were not approved.

"Space for our academic programs continues to be of central concern. The University community can be assured that we will continue our efforts to secure funding in the future to address this critical need."

The authorization of funds for capital projects does not mean construction is imminent. Project design and/or construction cannot begin until the governor actually releases the authorized funds, and that process can take years. For example, the 1982 bill authorized \$39.2 million for Penn State, but the release of funds was completed only in 1989.

The \$17.3 million authorized for original furniture and equipment includes \$2.97 million for the University Libraries. Last year, the governor authorized a \$19.8 million addition to the library, but funds for construction have not yet been released.

According to Frank E. Forni, special assistant to the president for governmental affairs, the governor, in determining which capital program projects should be

approved, gave highest priority to life/safety projects. The second priority was utility and renovation type projects, while the third was new construction.

"The governor, to the extent possible, did follow Penn State's priority request and approved, among others, its number one requested project, the construction of central energy production and recovery facilities at a cost of \$71,500,000," Mr. Forni said.

"All of the other Penn State projects, with the exception of a classroom building at the Hazleton Campus," he added, "are renovation/utility type projects. The Hazleton Campus is using a \$1,500,000 local campaign fund effort as a match and the Casey Administration has rewarded those campuses that have provided matching monies for requested capital projects."

Penn State projects approved by Gov. Casey are:

- University Park:
 - Construction of central energy production and recovery facilities, \$71,500,000.

Please see 'Construction' on page 3.

Historical Marker

An historical marker commemorating longtime University faculty member Fred Lewis Pattee — the first instructor on any college campus to hold the title of professor of American literature — is installed by landscape workers Frank Lee, left, and Karola Dail. The marker is one of 20 at University Park that call attention to historically significant places, scientific and intellectual accomplishments, and faculty. The markers, an ongoing project of the Office of University Relations, are funded by the Penn State Alumni Association. (Photo: Greg Grieco)

Firm has been chosen to design first phase of research park

A renowned Philadelphia-based architectural firm has been chosen to design the first phase of the \$360-million Penn State Research Park.

Geddes Brecher Qualls Cunningham (GBQC) has been selected by Morlok Development Group principals William C. Morlok and Glenn A. Vernon. The Morlok Development Group has been retained by the University's Research Park Management Company to develop the first phase of the park.

"We are committed to creating a high quality environment at the Research Park in all respects, including design," Mr. Morlok said. "GBQC clearly demonstrates the ability to achieve our design objectives within all of the other goals established by ourselves, the University, the Research Park and the community."

GBQC's selection was made after reviewing the credentials of more than 50 architectural firms, and interviewing and reviewing detailed proposals from seven firms.

Geddes Brecher Qualls Cunningham recently has directed architectural projects for the University of Pennsylvania's mixed-use facility at 3401 Walnut St., as well as the Futures Center addition to the Franklin Institute Science Museum. The firm, founded in 1953, has received more than 50 major awards, including the American Institute of Architects' highest honor, the

National Architectural Firm Award.

"Penn State is pleased with this quality selection, and we look forward to the development of architectural drawings for this landmark project," President Thomas said. "This selection represents a major step forward in creating a facility that we believe will bring important benefits to Penn State, as well as to Central Pennsylvania."

The Penn State Research Park is designed to attract firms that would see advantages in proximity to the University in order to tap into its expertise and resources in science, engineering, technology, business, agriculture, communications and related areas.

The research park, sited on a 130-acre parcel two miles east of the University Park Campus, is expected to provide some 3,000 new jobs when it reaches maturity in 10 to 20 years.

The first phase of the project, now in the final planning stages, includes more than 300,000 square feet of space for a Penn State Research Laboratory, a technology center, a University conference center and a privately owned 150-room hotel.

Subsequent phases will be composed mainly of commercial research and development offices and laboratories. Total build-out of the research park is estimated at 1.5 million square feet over a 10- to 20-

Please see 'Research park' on page 3.

Focus on Diversity

Campuses plan programs for Martin Luther King Day

A number of University campuses are holding special programs in observance of Martin Luther King Day.

Among the programs being planned are:

Altoona – The King Celebration, a joint campus and community program featuring as speaker John Harris III, dean of the College of Education at the University of Kentucky and a native of Altoona, will be held at 4 p.m. Sunday, Jan. 20, in the Harry E. Slep Center. The Martin Luther King Jr. Celebration Committee also is sponsoring an essay contest at the campus and the Altoona High School. The campus will provide transportation to University Park on Jan. 21 for Martin Luther King Day programs.

Beaver – Harvey Adams, president of the Pittsburgh Branch NAACP, will be the featured speaker at a program at 3:30 p.m. Monday, Jan. 21, in the Laboratory Classroom Building auditorium.

Berks – The film "From Montgomery to Memphis" will be shown on Monday, Jan. 21. It will be followed by a special discussion with Judith Thomas, a lecturer at Lincoln University.

Delaware County – Father Paul Washington, a prominent community leader in Philadelphia, will speak on the contributions of Dr. King during the Common Hour on Wednesday, Jan. 16. The Morgan State Choir will perform in concert in the campus gymnasium on Thursday, Jan. 21. A film highlighting the career of Dr. King will be shown from 7:30 to 9:30 p.m. Jan. 22 and 23 in the student lounge.

DuBois – A Martin Luther King Day program is planned from noon to 1:30 p.m. Monday, Jan. 21, in Hiller Auditorium. Regency, a five-person a cappella group from Baltimore, Md., will perform at 7:30

p.m. Thursday, Jan. 24, in Hiller Auditorium.

Great Valley – Kenneth Hill, vice president of corporate relations, Sun Marketing and Refining, Philadelphia, will speak Monday, Jan. 21, at a luncheon program that also will feature the Paoli Baptist Church Youth Choir. Throughout January, there will be an exhibit of approximately 30 paintings of African-American artists, from the collection of Mr. and Mrs. W. Leon Bullock of Trevoze, Pa.

Penn State Harrisburg – A Gospel Jamboree, organized by a group of Penn State Harrisburg students to honor the memory of Dr. King will be held at 6:30 p.m. Thursday, Jan. 17, in the Capital Union Building.

Hazleton – The Rev. Barbara Shorter of the Mt. Zion Baptist Church in Wilkes-Barre will discuss the life and work of Dr. King on Monday, Jan. 21. The Mt. Zion Children's Choir will present a program of religious music and music of the civil rights movement. Films on Dr. King and the civil rights movement will be shown in the Highcross Commons Student Building, the

campus dining hall and the residence halls throughout the day on Jan. 21.

McKeesport – The Honorable Cynthia A. Baldwin, judge of the Allegheny County Court of Common Pleas and president of the Penn State Alumni Association, will speak at 2:30 p.m. Monday, Jan. 21, in the Buck Union Building.

Mont Alto – Dawn R. Person, assistant professor of higher education in the Department of Adult and Higher Education at Teachers College, Columbia University, will be the featured speaker at the campus celebration on Monday, Jan. 21.

New Kensington – A program at 7:30 p.m. Friday, Jan. 18, will feature musical selections by Some of God's Children, gospel choir of the University of Pittsburgh, and Eric Hawthorne, soloist, First Baptist Church of Ford City. A poetry reading competition will be held in conjunction with the program. The Office of Student Programs and Services will provide a dinner buffet at 6 p.m.

Ogontz – At 12:30 p.m. Friday, Jan. 18, Alvin Poussaint, professor of psychiatry

and associate dean of student affairs at Harvard Medical School, will be the featured speaker at a program which will include a formal academic convocation. Dr. Poussaint will be presented an inaugural award for accomplishments in promoting cultural diversity.

Schuylkill – "Colonial/Neo-Colonial: An Ode in Performance," a multi-media presentation written and produced by Charles Cantalupo, associate professor of English, will be showcased at 8 p.m. Tuesday, Jan. 22, in the John E. Morgan Auditorium.

Worthington Scranton – The following films will be shown in the Study Learning Center: "Dr. Martin Luther King Jr. – Amazing Grace," Jan. 22; "Great Americans," Jan. 23; "Martin Luther King Jr.: A Man of Peace," Jan. 24. The George Wesley reggae band will perform on Jan. 25.

Shenango – Robert L. Pitts, mayor of Wilkesburg, Pa., and first vice president, State Conference of NAACP Branches, will speak at 7 p.m. Monday, Jan. 21, at Farrell High School. The program is jointly sponsored with the Farrell Human Relations Commission.

University Park – The Rev. Dr. Vincent Harding, professor of religion and social transformation at the Bliff School of Theology in Denver, Colo., will speak at 4 p.m. Monday, Jan. 21, in Eisenhower Auditorium. His speech will be telecast live on PENNARAMA and on WPXS-TV, Channel 3.

Wilkes-Barre – A student program exploring the philosophy of Dr. King will highlight the campus celebration. The program will explore Dr. King's philosophy portraying it through students' personal interpretations, and the reading aloud of Dr. King's works.

Martin Luther King memorial banquet

The Forum on Black Affairs will hold its 13th Annual Dr. Martin Luther King Jr. Memorial Banquet at 6:45 p.m. Tuesday, Jan. 15, in the Hetzel Union Building Ballroom at University Park.

The banquet will feature presentations by members of the local community and the University. Award presentations will include the Forum on Black Affairs' Humanitarian Service Award, which has been a highlight of the memorial for the

past seven years.

The State College Area School District Awards, featuring student artistic endeavors that best reflect the life of Dr. King, also will be presented. The theme of this year's program will be "Dr. Martin Luther King Jr. The Legacy Continues."

Tickets are \$12 for adults and \$8 for children under age 12. For more ticket information, contact the Paul Robeson Cultural Center at (814) 865-1779.

Cultural diversity subcommittee established

A subcommittee to oversee cultural diversity curriculum issues has been established by the University Faculty Senate.

The University Subcommittee on Cultural Diversity in the Curriculum was approved at the Dec. 4, 1990, Senate meeting, following a debate on the composition of the subcommittee.

As proposed by the Committee on Committees and Rules, the membership was to include two faculty representatives from the Committee on Undergraduate Instruction nominated by that committee and selected by Committees and Rules, six faculty representatives nominated by the Committee on Curricular Affairs and selected by Committees and Rules, the chair or vice chair of Curricular Affairs, the vice provost and dean for undergraduate education, the deputy vice president for

international programs and the vice provost for underrepresented groups. The eight faculty members will serve three-year terms.

The proposed membership of 12 was reduced to 10 by an amendment proposed during the meeting to drop the administrative posts of deputy vice president for international programs and vice provost for underrepresented groups. The subcommittee, whose formation was mandated by the cultural diversity course requirement legislation approved by the Senate last March, will administer cultural diversity course development and oversee the review and approval process. It will begin its work Spring Semester.

The subcommittee will be responsible for: encouraging the development of proposals for "diversity focused" and "diversity enhanced" courses which address

such topics as race, ethnicity, religion, gender, sexual orientation and global perspectives;

Overseeing implementation of cultural diversity courses according to the criteria and guidelines set forth in the Oct. 9, 1990, Senate report on the issue; reviewing and recommending cultural diversity courses for approval by Curricular Affairs; examining petitions for experiential learning intended to satisfy the diversity requirement and making recommendations to Curricular Affairs.

Reviewing and editing extended diversity course descriptions for inclusion in the general education brochure; and assessing the quality of instruction and responsiveness of the cultural diversity requirement to the changing national and global community.

Bookshelf

E. Willard Miller, professor of geography and associate dean of resident instruction, emeritus, in the College of Earth and Mineral Sciences, and **Ruby M. Miller**, associate librarian and former map librarian, Pattee Library, are the co-authors of *Environmental Hazards: Radioactive Materials and Wastes*, published by ABC-CLIO, Santa Barbara, Calif.

It presents a survey on the nature of radiation, natural and man-made sources of radiation, reactor plant accidents, emergency planning and health effects of ionizing radiation. Five chapters facilitate convenient access to chronological highlights, laws, regulations, and treaties, directory of organizations, a bibliography of books, journal articles and government documents and a list of films and videocassettes. This reference book provides a survey of one of the major environmental problems of the day.

Penn State People

Connie J. Dunmire

Seated at her station in the Network Management Center, Connie J. Dunmire is able to monitor and troubleshoot problems on different computer networks. A network systems coordinator with the Office of Telecommunications for more than a year, Ms. Dunmire works with data switches and high-speed data backbones. She uses the computer monitoring equipment shown in the photo to help faculty, staff and students make connections from their computer terminals to other computer networks. "Solving a problem is a challenge, especially when I can solve it on my own. I also enjoy the interaction with the different people who call for help," she said. A University staff member for six years, she works different shifts along with two other network systems coordinators to keep the center open seven days a week. (Photo: Greg Grieco)

- Shenango Campus:
 - Renovations of Sharon Hall and Sharon Hall Annex. \$6,490,000.
- Projects **not approved** by the governor are:
 - New library and classroom building at Penn State Harrisburg. \$16,500,000.
 - New chemistry building at University Park. \$23,540,000.
 - New facility to house the Paul Robeson Cultural Center. \$4,400,000.

- New administration building at University Park. \$8,800,000.
- Renovation and construction of a new addition to the Music Building. \$6,710,000.
- Renovation of Sparks Building. \$4,950,000.
- Addition to Mitchell Building. \$4,620,000.
- Renovation of Borland Laboratory and Henning Building. \$5,775,000.
- Electrical distribution system, phase II. \$10,120,000.
- Steam distribution system, phase II. \$10,973,000.
- Renovation of and addition to Ferguson Building. \$7,770,000.
- New multipurpose building at Allentown Campus. \$2,222,000.
- New academic building at Berks Campus. \$4,180,000.
- Construction of North West Graduate Research Center at Behrend College. \$2,200,000.
- Renovations of Eberly and Engineering Buildings. \$2,250,000; renovation of gymnasium, \$850,000, and computer center addition to the library, \$1 million, at the Fayette Campus.
- New community arts center at the McKeesport Campus. \$1,153,000.

- Renovations of Conklin Hall, Wiestling Building and General Studies Building at Mont Alto Campus. \$6,710,000.
- New conference and communications center at Worthington Scranton Campus. \$3,800,000.
- Library expansion, auditorium and classroom building at York Campus. \$10,780,000.
- Diesel Technology Center addition, \$1,650,000, and new North Campus Technical Trades Center. \$4,950,000, at Pennsylvania College of Technology.
- Mr. Forni said that Penn State received more funding in the capital budget process than did the University of Pittsburgh, Temple University and the State System of Higher Education combined.
- For the State System of Higher Education, the final amount approved by the governor was \$71,257,000, down from the \$495,000,000 originally authorized.
- The final amount approved by the governor for Penn State was \$100,540,000, down from \$246,449,000 originally authorized by the General Assembly. For Pitt, \$16,070,000 was approved, down from \$39,070,000 originally authorized; for Temple, \$10,672,000 was approved, down from \$78,892,000 originally authorized.

Computer fellowships

The Office of Computer and Information Systems is seeking applications/nominations for its Academic Computing Fellowship program.

Since it was established in 1987, the program has funded seven doctoral students who have a background and interest in the computing applications of their disciplines.

The program is for students who have demonstrated significant computer-related abilities in their chosen area of study. Applicants must be U.S. citizens or permanent residents. Fellowship appointments will be for a maximum of four years.

Fellows will be awarded a minimum stipend of \$10,000, plus tuition and fees. An additional \$2,000 departmental grant will be provided to each Fellow to support travel and other expenses.

Faculty members are invited to contact prospective applicants and encourage them to apply for the fellowships. Departments and graduate programs may nominate up to two students.

The deadline for applications/nominations is March 15.

For more information, contact either James Kerlin, deputy director, Center for Academic Computing, 229 Computer Building, at 863-0425 or electronic mail at JNK@PSUVM; or Joan Schumacher, director, graduate student financial resources, 317 Kern, at 865-2514 or electronic mail at MIS2@PSUVM.

Research park

Continued from page 1.

year period.

Morlok Development Group, based in Philadelphia and Haddonfield, N.J., is a real estate development company specializing in partnerships with not-for-profit organizations and institutions. MDG was founded in 1985 by the shareholders of Ewing Cole Cherry Parsky, a full service architectural, engineering, planning and interior design firm.

University ranks first again in Fulbright scholars

The University ranks first in the nation for the second year in a row in the number of Fulbright scholars among its faculty.

"Penn State is committed to increasing international opportunities and exchange programs for faculty and staff, and I am delighted they have competed so well for the 1990-91 awards," W. LaMar Kopp, deputy vice president for international programs, said.

"Fulbright awards to travel, teach and conduct research abroad help faculty and staff add an international perspective to their work, and students benefit from that experience by developing a better understanding of other cultures."

Fulbright scholars are selected on the basis of academic and professional qualifications as well as their ability and willingness to share ideas and experiences with people of other nationalities and ways of life.

Elizabeth Smith, associate professor of art history and academic officer for the

Education Abroad Programs, is the University Fulbright adviser.

Penn State has 14 Fulbright scholars, 12 at University Park, one at Penn State Erie. The Behrend College, and one at the Penn State Berks Campus.

The University of Michigan and the University of Washington rank second with 11 Fulbright Scholars each.

Five universities rank third with 10 Fulbright Scholars each: the University of Maryland, Ohio State University, the University of California at Los Angeles, the University of Pittsburgh and Virginia Polytechnic Institute and State University.

Texas A&M has nine, and the following universities have eight each: the University of Arizona, the University of Hawaii, the University of New Mexico and the University of Southern California, Columbia University, Cornell University, the University of Florida, the University of Missouri at Columbia and the University of Texas at Austin each have seven Fulbright

Scholars.

The Council for International Exchange of Scholars has reported that 936 academics and professionals have been named as Fulbright Scholars. Faculty and staff at institutions in other countries also receive Fulbright Scholarships to lecture and conduct research at colleges and universities in the United States.

The council, an affiliate of the American Council of Learned Societies, cooperates with the U.S. Information Agency in administering the Fulbright program, which is designed "to increase mutual understanding between the people of the United States and the people of other countries." It was established in 1946 under congressional legislation introduced by former U.S. Sen. J. William Fulbright of Arkansas.

The University's Fulbright Scholars are: **James D. Boyer**, assistant professor of English at Penn State Berks, to Mexico; **Gideon S. Golany**, research professor of

architecture, to Japan; **Jay R. Stauffer**, professor of forest resources, to Malawi; **Hal B. Gregersen**, assistant professor of business at Penn State Behrend, to Finland; **Albert W. Castelman Jr.**, professor of chemistry, to Austria; **James S. Shortle**, associate professor of agricultural economics and rural sociology, to Ireland; **William L. Boyd**, professor of education, to United Kingdom.

Peter S. Cookson, associate professor of adult education, to Nicaragua; **Murry R. Nelson**, professor of education, to Norway; **2Daniel Maier-Katkin**, professor of administration of justice, to United Kingdom; **Raymond G. Ayoub**, professor emeritus of mathematics, to Syria; **Harold E. Cheatham**, associate professor of counseling and educational psychology, to India; **Julian E. Thayer**, assistant professor of psychology, to Norway; **Diana R. Dunn**, professor of leisure studies, in the U.S.-German International Education Administrators program.

Committee seeking awards nominations

President Thomas has appointed a general committee chaired by Billie S. Willits, assistant vice president for human resources, to solicit nominations for the Faculty/Staff Achievement Awards - the McKay Donkin Award, the John E. Wilkinson Award for Administrative Excellence, the Barash Award for Human Service, and the Penn State Equal Opportunity Award.

Four subcommittees will screen nominations and develop recommendations for the respective awards. The subcommittees and their members are:

McKay Donkin Award Subcommittee: Victor L. Dupuis, chairperson, James M. Elliott, Gordon A. Hamilton, Grace Hampton, Anne C. Petersen and Charlene Price-Holder.

Barash Award Subcommittee: Victoria Y. Fong, chairperson, Kimberly A. Brown, Sidney W. Friedman, Robert L. Kidder, David B. Lee and John D. Walker.

Wilkinson Award Subcommittee: Nancy M. Tschler, chairperson, David E. Brantigan, Nancy M. Cline, Rossann Sieminski, Gary M. Kelsey and Daniel L. Trevino.

Equal Opportunity Award Subcommittee: James W. Locker, chairperson, Bonnie Ortiz, Brenda G. Hameister, W. Terrell Jones, Alicia Bunnell, Stanley Nowak and Peter B. Weiler.

Nominations for the 1991 awards are encouraged from University and local community organizations and individuals. Nominators should contact the Office of Human Resources at 865-1412 to request a copy of a standardized format for submitting nominations.

Nominations should be sent to Billie S. Willits, Box 6 Rider Building, no later than Jan. 21. Supporting information which accompanies nominations should be brief and specific to the award criteria.

Marine Sciences committee is reconstituted

The Marine Sciences Program Committee has been reconstituted for a two-year term by **C. Gregory Knight**, vice provost and dean for undergraduate education.

"The Marine Sciences Minor provides unique opportunities for undergraduate students to study and prepare for careers in the various marine sciences," Dr. Knight said.

"Although Penn State does not award degrees in oceanography, a number of faculty members pursue research interests in marine sciences and a varied selection of

undergraduate courses in the marine sciences is available."

According to Dr. Knight, the Marine Sciences Program Committee is authorized to award a certificate for a Minor in Marine Sciences to any undergraduate student regularly enrolled in a degree program who, in addition to satisfying the degree requirements of his or her baccalaureate major, satisfies the requirements for the minor.

Lee R. Kump, assistant professor of geosciences, is chair of the Marine Sciences

Program Committee. Other members are **Michael Arthur**, professor and head of the Department of Geosciences; **William A. Dunson**, professor of biology; **Herschel A. Elliott**, professor of agricultural engineering; **Charles B. Fisher Jr.**, assistant professor of biology; **John J. Olivero**, professor of meteorology; **Robert F. Schmalz**, professor of geology, and **Frederick M. Williams**, associate professor of biology. Ex officio members are **Charles L. Bursley**, professor of biology at the Penn State Shenango Campus, and **Albert L. Guber**, professor of geology.

Faculty, staff and alumni are honored with awards

Humanities fellowship

Thomas A. Hale, professor of African, French, and comparative literature, is among 114 scholars nationwide awarded National Endowment for the Humanities Fellowships for University Teachers for 1991-92.

According to the Endowment, the fellowships enable individuals to pursue independent study to enhance their capacities as teachers, scholars, or interpreters of the humanities and to make significant contributions to thought and knowledge in the humanities.

Dr. Hale, a specialist in the study of West African bards, called griots, will conduct research for the first comprehensive examination of their social functions and verbal art. Best known for maintaining genealogies, singing praises, and chanting epics, griots are common to the Sahel, an area spanning 2,000 miles from Senegal to Chad.

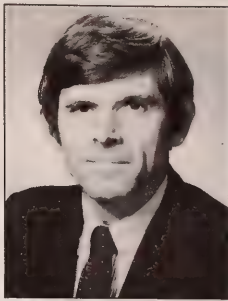

For his study, Dr. Hale will draw on 14th-century travel accounts, tales, oral epics, colonial reports, and his own fieldwork with griots.

An African literature scholar for two decades, Dr. Hale is a founder and past president of the African Literature Association. In 1980-81 he was a Fulbright senior lecturer at the University of Niamey, Niger. His most recent book, *Scribe, Griot, and Novelist: Narrative Interpreters of the Songhai Empire*, was published by the University of Florida Press in 1990.

Beaver Campus

Rajen Mookerjee, associate professor of economics at the Penn State Beaver Campus, has received the Beaver Campus Advisory Board 1990 Teaching Excellence Award.

Dr. Mookerjee, who was selected for the award by a committee of Advisory Board members and Beaver Campus students, earned a bachelor of arts degree in

Thomas A. Hale

economics from Wittenberg University in Springfield, Ohio. He holds a master of arts degree and a doctorate in economics from Northeastern University in Boston, Mass.

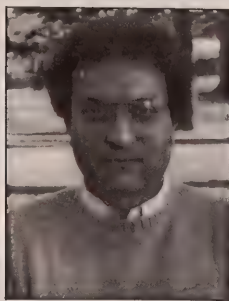

Prior to joining the Penn State faculty in 1986, he was a lecturer in the Department of Economics at Northeastern University. He currently is a consultant for the International Management Development Institute at the University of Pittsburgh.

Dr. Mookerjee is a member of the American Economic Association, American Finance Association, Eastern Economic Association, Indian Economic Association, Financial Management Association, and Omicron Delta Epsilon, an economics honor society.

Fayette Campus

Senate Minority Whip J. William Lincoln has received the 1990 Penn State Fayette Campus Outstanding Alumnus Award.

The award, established in 1985, honors former students of the Campus whose subsequent professional achievement

Rajen Mookerjee

warrants special recognition. Sen. Lincoln attended Penn State-Fayette for two years, majoring in pre-law/education.

He was elected to the Pennsylvania House of Representatives in 1973, serving until 1978, when he was elected to the Pennsylvania Senate.

In 1988, Sen. Lincoln was elected a member of the Penn State Fayette Campus Advisory Board and serves on its Academic Affairs Committee.

McKeesport Campus

Frank Neish, president of the Penn State McKeesport Campus Advisory Board, has received a special leadership award from the campus.

Mr. Neish, a 1947 Penn State graduate, has been instrumental in the Campus Scholarship Campaign and in securing matching monies from the E.R. Crawford Foundation for gifts to the campus. He serves as one of three trustees for the Crawford Foundation.

Mr. Neish's personal contributions to the scholarship campaign have allowed Penn

State McKeesport to establish a Frank E. Neish Renaissance Scholarship.

Penn State McKeesport's campaign currently stands at the \$650,000 mark—\$150,000 over the original goal for the five-year capital campaign.

Professional education

The Office of Continuing Professional Education, Division of Planning Studies, has received the American Association for Adult and Continuing Education's 1990 Continuing Professional Education leadership in providing a forum for issues facing continuing professional education.

The association cited three efforts coordinated by Donna S. Queeney, director of the Division of Planning Studies, and funded in part by the W.K. Kellogg Foundation.

First, the Association recognized the Office for convening the 1986 National Invitational Conference on Continuing Professional Education: A Call to Action. The first meeting of its kind, the conference gathered 150 continuing professional educators representing professional associations, employers, government, regulatory agencies, independent providers, and higher education to discuss pertinent issues and establish a network for further dialogue.

Second, the Association acknowledged seven continuing professional education focus groups formed and coordinated by the Office. Comprised of volunteers nationwide, the focus groups addressed issues identified at the 1986 National Conference.

Finally, the Association cited the Office for convening Continuing Professional Education Focus Groups: An Agenda for Action. At this 1990 meeting, the seven focus groups reported their findings and forged an agenda for continuing professional education through the 1990s.

Four selected as honorary alumni by Alumni Council

The Alumni Council of the Penn State Alumni Association has selected four to receive Honorary Alumni honors.

The Honorary Alumni Award was established in 1973 and honors people who, though not graduates of Penn State, have contributed toward the welfare, reputation or prestige of the University. The award is only given when the Alumni Association wishes to honor outstanding individuals.

To receive awards during a Reunion Weekend ceremony on Saturday, June 1, 1991 are:

— **John N. Coningham III** of Shavertown, vice president and co-owner of the Eastern Pennsylvania Supply Co. in Wilkes-Barre and chair of the Advisory Committee for the Penn State Wilkes-Barre Campus;

— **E. Willard** Miller of State College, associate dean emeritus for resident instruction in Earth and Mineral Sciences

and former head of the Department of Geology;

— **Ruby M. Miller** of State College, formerly the University's map librarian and library studies teacher, responsible for scholarly research; and

— **Joan L. Schreyer** of Princeton, N.J., member of the Planning Group and Executive Committee of The Campaign for Penn State.

Mr. Coningham, also a board member of Merchants Bank North, has served on the Advisory Committee for the Wilkes-Barre Campus since 1964 and as chairman since 1968.

The Coningham family gave a substantial gift to the \$2.5-million Center for Technology Campaign at Penn State Wilkes-Barre. A Yale graduate, Mr. Coningham is a past president of the Wyoming Valley United Way and YMCA

and is a member of the Mount Nittany Society.

Dr. Miller began his career at Penn State in 1945 as an associate professor of geography. In 1953 he became head of the department, and in 1972 became the associate dean of resident instruction.

He is the author of 30 books and more than 100 articles on geography, history, geology and economics. He is a past president of the American Society for Professional Geographers and the Pennsylvania Academy of Science.

Ms. Miller served for 30 years as the University's map librarian. She initiated building the map collection of Pattee Library in 1947 and also taught library studies.

She is a member of the Association of American Geographers and the National Council of Geographic Education. In addition, she and her husband, Willard

Miller, are the authors of several bibliographies and scholarly publications and editors of collections which promote the work of faculty colleagues across the University.

Ms. Schreyer was active in The Campaign for Penn State. In 1987 she and her husband, William Schreyer, a 1948 Penn State graduate and chairman and chief executive officer of Merrill Lynch and Co., in cooperation with the campus, gave \$1 million to endow the William A. Schreyer Chair in Global Management Policies and Planning in the Smell College of Business Administration.

She is a member of the Mount Nittany Society, which recognizes the highest level of philanthropy to the University.

The four Honorary Alumni bring to 32 the number of people who have received the honor.

Focus on the arts

Photography exhibit

An exhibition of works by undergraduate photography students in the School of Visual Arts opens Jan. 14 in Chambers Gallery at University Park. The exhibition will run through Feb. 8.

The photographs, which were taken by beginning, intermediate and advanced photography students, demonstrate a wide variety of subject matters and techniques.

The exhibition was juried by faculty members Marc Hessel, Gerald Lang and Ken Graves.

Chambers Gallery is located on the second floors of Chambers Building and is open two weekdays only.

Composer to speak

Pulitzer Prize-winning American composer William Bolcom will present a lecture titled "Americans and Music" at 8 p.m. Wednesday, Jan. 16, in the Recital hall of the Music Building at University Park.

His lecture is the third in the School of Music's inaugural lecture series "Music Today: 1990-1991." While at Penn State, he also will visit classes and speak with students.

Mr. Bolcom won the 1988 Pulitzer Prize in music for his composition "12 New Piano Etudes."

Bach's Lunch

The Penn State Tubas-Euphonium Ensemble will open the Spring Semester Bach's Lunch Concert Series with a performance at 12:10 p.m. Thursday, Jan. 17, in Eisenhower Chapel at University Park.

The 20-minute concert is part of the Bach's Lunch Concert Series sponsored by the School of Music and the University Lutheran Parish.

The program will include Berceuse and Fugue by Stravinsky and Quartet for Tubas by Frank Lynn Payne. The 20-member ensemble is conducted by School of Music faculty member Mark Lush. The tuba quartet is conducted by Jeff Parker, a graduate assistant.

'The Marriage of Figaro'

The New York City Opera National

A porcelain covered jar by Chris Stoley, assistant professor of art, will be included in an exhibition at the Garth Clark Gallery in New York City through Feb. 2.

Company will perform Mozart's most popular opera, "The Marriage of Figaro," at 8 p.m. Saturday, Jan. 19, in Eisenhower Auditorium at University Park.

The company will sing in the original Italian. English subtitles will be projected onto a screen suspended above the stage. The new production of "The Marriage of Figaro" is budgeted at more than \$1.5 million. The company consists of a 73-member ensemble, including 10 soloists and a 30-piece orchestra.

Bruce Trinkley, associate professor of music, will speak at 7 p.m. in the Greenroom of Eisenhower Auditorium before the performance as part of the free lecture series Artistic Viewpoints.

The event is supported in part by a grant from the Commonwealth of Pennsylvania Council on the Arts.

Violin recital

Lois Durrant, a part-time faculty member in the School of Music, will present a violin recital at 8 p.m. Saturday, Jan. 19, in the

Recital Hall of the Music Building at University Park.

She will be accompanied by Jill Olson for the performance. The program will include works by Beethoven, Wieniawski, Ben-Haim and Kreutzer.

Illustrated lecture

Two Egyptian funerary ships discovered beside the Great Pyramid at Giza will be the topic of an illustrated lecture by Paul Lipke at 8 p.m. Monday, Jan. 21, in Zollner Gallery at University Park.

He will show slides of the interior of both hulls and cabins of the two ships and explain the details that had revolutionary implications for Egyptian engineering, seafaring and cross-desert transport of merchant ships.

Mr. Lipke's lecture is part of the meeting of the Central Pennsylvania Society of the Archaeological Institute of America and is free and open to the public.

Brass quintet

Pennsylvania Brass Works, the brass quintet of the School of Music, will present a free concert at 8 p.m. Wednesday, Jan. 23, in the Recital Hall of the Music Building at University Park.

The program consists of works by Paul Hindemith written between 1932 and 1954.

Members of Pennsylvania Brass Works are faculty members and graduate students in the School of Music and include: Robert Howard and Nancy Frank, trumpets; Lisa Bontrager, horn; Mark Lusk, trombone; and Jeffrey Parker, tuba.

Recognition recital

Eight undergraduate students in the School of Music will present a special Jury Recognition Recital at 8 p.m. Friday, Jan. 25, in the Recital Hall of the Music Building at University Park.

The students were selected by the music faculty for their outstanding performances during the Fall Semester juries held in December. Students were selected from the keyboard, voice, woodwinds and brass areas.

Duquesne University. She earned a Ph.D. in ethnomusicology from the University of Pittsburgh.

Patrick W. Shannon, professor of education, is the author of *The Struggle to Continue: Progressive Reading Instruction in the United States*.

The book, published by Heinemann Books, describes the underlying philosophies and practices of alternative literacy programs in American schools using historical contexts for a sense of legitimacy. Additionally, the book seeks to build coalitions to improve the chances for success, and offers progressive ways to seek the future while looking at the past.

Zoller exhibit

An exhibition of unique and limited edition books from the United States, Canada and Mexico is on display through Feb. 3 in Zollner Gallery at University Park.

The exhibition, "Artists' Books," includes visual books, nontraditional books, nonfunctional books and books as art objects. Curated by faculty members Chuck Cave and Ken Graves, the books are from archives, small presses and book outlets.

Arts organizations loaning books to the exhibition include the Washington Project for the Arts, Washington, D.C.; Art Metropole, Toronto, Canada; El Archivero, Mexico; Artists Bookworks, Chicago; Franklin Furnace, New York City; Rare Books Collection, Pattee Library; Printed Matter Bookstore at DIA, New York City. Several private collections also loaned books.

Zoller Gallery is located in the School of Visual Arts adjacent to the Palmer Museum of Art. Gallery hours are Monday through Friday 9 a.m. to 5 p.m., Saturday from 11 a.m. to 4:30 p.m., and Sunday from noon to 4 p.m.

English music festival

A two-week trip to the famed Three Choirs Festival in England Aug. 15-26 will be hosted by James C. Moeser, organist and dean of the College of Arts and Architecture.

The trip will include six orchestral concerts, featuring the Royal Liverpool Philharmonic and other musical groups from the festival, and an organ concert by Dean Moeser and Susan Dickerson, a faculty member in the School of Music at the University.

In addition to the concerts, there will be trips to nearby sites, including Clouetier cathedral, the Royal Worcester porcelain museum and factory, Oxford and London.

The group will stay in Hereford at the Green Dragon Hotel, a restored hotel of the Trust House Forte group.

Reservations are limited to 30 and must be made by Jan. 15. For more information, call (814) 863-2142.

Bookshelf

Emma S. Rocco, associate professor of music at the Penn State Beaver Campus, is the author of *Italian Wind Bands: A Surviving Tradition in the Milleniums of Pennsylvania*, published by Garland Publishing Co. as part of its new series *European Immigrants and American Society: A 26 Volume Collection of Studies and Dissertations*.

Dr. Rocco's book examines the transfer of the "festa" band tradition of Southern Italy, an important social and religious force, to America. The relationship of those wind band traditions in the preservation of religious and civic functions central to

regional holidays also is discussed. The book reflects upon the social needs of a people for whom religion, recreation and regional pride were intertwined.

A major goal of *European Immigrants and American Society*, which makes available previously unpublished doctoral dissertations, is to trace the complex interactions between European immigrants and American society. Many of the studies were written by third-generation members of the communities which were focused upon.

Dr. Rocco, a native of Monaco, holds a bachelor of science degree in public school music and piano performance and a master of fine arts in theory and composition from

Paul West's 12th novel, *Lord Byron's Doctor*, recently published in French, has been shortlisted for three French literary prizes: the Femina, the Medias, and the Prix du Meilleur Livre Etranger.

Professor West, professor of English and comparative literature and Fellow of the Institute for the Arts and Humanistic Studies, was in Paris to give readings and appear on French television.

Le Maitre de Lord Byron is published by Les Editions Rivages and was published in New York by Doubleday and Co. The American paperback edition will be published by the University of Chicago Press this December. His next novel, *The Women of Whitchapel and Jack the Ripper*, will be published in March by Random House.

■ Reflects an international perspective

Michelle Seyedzadeh, to senior research
technician at Hershey.
Malgorzata Sudol, to research technician at
Hershey.

Clerical

Laura B. Appleyard, to senior clerk in
Office of Physical Plant.
Deborah A. Eckley, to secretary B in
Undergraduate Education.
Elizabeth G. Izenas, to secretary B at
Shenango.
Deborah E. Musser, to senior accounting
clerk at Hershey.
Susan M. Oswalt, to secretary C in Office
of Physical Plant.
Linda L. Porta, to secretary B in Student
Services.
Patricia L. Rossell, to secretary A in
Research and Graduate School.
Kelly Jo Rudy, to receptionist, typist in
Health and Human Development.
Ilidko Schall, to secretary B at Hershey.

Appointments

Clarence E. Chisholm

Clarence E. Chisholm has been appointed chief of access services at the University Libraries. Before coming to Penn State, he held the position of head of circulation and interlibrary loan, Ohio University in Athens, Ohio.

He also has held library positions at Cinch Valley College of the University of Virginia, Eastern Michigan University, Voorhees College in South Carolina, North Carolina A & T State University, Wilburforce University in Ohio, Columbus Metropolitan Library (formerly the Public Library of Columbus and Franklin County, Ohio) and the Martin Luther King Center for Social Change.

Mr. Chisholm received his bachelor's degree from Johnson C. Smith University with a major in English and a minor in education. He holds two master's degrees, an M.L.S. from Atlanta University and an M.A. in English/Afro-American literature from North Carolina A & T State University.

Maria M. Dominguez has been appointed program director of the Penn State Educational Partnership Program in Reading, Pa.

The University, Reading School District and Reading New Futures Project Inc. are

Maria M. Dominguez

collaborating to help minority students, beginning in the sixth grade, stay in school and work toward going to college. The Reading School District has nearly 12,000 students, including 18 percent Black-American/African-Americans and about 30 percent Hispanic-American youths. Four middle schools are participating in the partnership.

In her new position, Ms. Dominguez will direct and oversee the operation of the program and assist in the planning of local educational support programs. Her many responsibilities include coordinating programs and developing a cadre of student tutors.

Ms. Dominguez earned her bachelor's degree in mathematics/secondary education from Alvernia College. Her community commitment has included participation in numerous community bilingual and urban education programs in the Reading area.

The first of two partnerships, Penn State's Reading program was initiated in 1989. The University plans to explore similar partnerships with other school districts throughout the state, including the Philadelphia area.

Ingong Han, FANUC professor of industrial engineering and an international

Ingong Han

authority on group technology and manufacturing systems, has been named director of the Penn State Manufacturing Research Center.

Paul Cohen, associate professor of industrial engineering, has been named assistant director.

The MRC, established in 1988, coordinates manufacturing research at Penn State. Materials and materials processing, automation, computer-aided design, manufacturing systems and management of technology are research areas covered within the broadly based, interdisciplinary center. Other activities of the MRC include an international consortium and exchange of research fellows and a manufacturing research information center.

Dr. Han is one of the original proponents of applying group technology for effective implementation of computer-integrated manufacturing. He also has developed curricula on manufacturing systems as a core course in industrial engineering.

He was the recipient of a Senior Fulbright Professorship to the Soviet Union and is a Fellow of the Institute of Industrial Engineers, the Society of Manufacturing Engineers and the American Society of Mechanical Engineers. He served as an

Diane H. Smith

Endowed Chair Visiting Professor of Information Science at the Research Center for Advanced Science and Technology, University of Tokyo.

In 1986, Dr. Han received the SME International Education Award and has received the College of Engineering outstanding teaching and research awards.

Dr. Han is a member of the International Institution for Production Engineering Research and served as president of the North American Manufacturing Research Institution.

Diane H. Smith has been appointed chief of the Humanities and Social Sciences Department at the University Libraries.

She had been project leader for the Computer-Based Resources and Services Team at the University Libraries since 1989. Prior to serving as project leader, she held library positions as documents librarian, head of the Documents Section, and head of the Documents and Maps Section.

Ms. Smith completed her undergraduate studies at Mary Washington College in Virginia and holds two master's degrees: an M.L.S. from the University of North Carolina and an M.B.A. from Penn State.

Swedish professor to present Taylor lectures

Mals H. Hillert, professor of physical metallurgy at the Royal Institute of Technology, Sweden, will present the 1991 Nelson W. Taylor Lectures Jan. 15 and 16 at University Park.

He will speak on "Databank Impacts on Applied Thermodynamics" at 4 p.m. Tuesday, Jan. 15, in Room 112 Kern Graduate Commons, University Park, and on "The Cubic/Tetragonal Transformation in Zirconia-Yttria" at 4 p.m. Wednesday, Jan. 16, also in 112 Kern. An informal reception will be held in Kern Lobby before each lecture. All events are open to the public.

As a member of the faculty of Stockholm's Royal Institute of Technology

for 30 years, Dr. Hillert has made fundamental contributions to the study of materials. His more than 200 scientific papers have ranged over various aspects of phase transformations, force equilibria, and the thermodynamic properties of metal alloys. His current interests focus on the development and application of computer techniques to these areas.

Among the many awards recognizing Dr. Hillert's distinguished achievements are the two highest awards given in physical metallurgy: the Acta Metallurgica Gold Medal, and the R.F. Mehl Medal of the Metals Society of AIME. He also has received the Bakhus Roozeboom Gold Medal of the Royal Academy of the

Netherlands, the Murakami Gold Medal from Japan, and from Sweden, the Brinell Gold Medal and the Rinnman Gold Medal. He has been awarded honorary doctorates by the Chalmers Institute of Technology, Goteborg, Sweden, and the Grenoble Institute of Technology, France, and holds a number of other honorary titles.

The Taylor distinguished lecture series sponsored by the Department of Materials Science and Engineering, was established in 1968 to honor the memory of Nelson W. Taylor, head of the Department of Ceramics from 1933-43. It continues to be supported by his widow, Miriam Taylor.

Professional women

Sabrina Chapman, director, Center for Women Students, will provide a short presentation and show a film titled "Still Killing Us Softly: Images of Women in Advertising" at a meeting of Professional Women at Penn State on noon Wednesday, Jan. 16, in the Frizzell Room of Eisenhower Chapel, University Park.

Professional Women at Penn State is a grass-roots group coordinated by University women in which participants can develop and maintain a communications network and serve as a resource for other Penn State women.

All members of the University community are welcome to attend.

Program gives students research opportunities

A special academic advantage awaits undergraduate students interested in working one-on-one with faculty researchers.

"Research Opportunities for Undergraduates" is a program that links undergraduate students with faculty members involved in research," **Jerry B. Covert**, associate dean for undergraduate education and coordinator of the program's advisory board, said.

"This type of mentoring program at the undergraduate level is a tremendous retention tool. The knowledge students gain from the experience will help to build their confidence in independent inquiry, show them the value of critical thinking and prepare them for the challenges they will face in the 'real' world."

To date, faculty response has been very enthusiastic, Dr. Covert said. More faculty members are encouraged to join the program.

"Uniting undergraduate students and faculty in research projects ties together the University's dual missions of teaching and research and appropriately shows the connection between undergraduate learning and research."

He noted that many undergraduates already participate in projects with faculty

researchers through the University Scholars Program or on an informal basis. The Research Opportunities for Undergraduates program expands opportunities for more undergraduate involvement in research at all University locations.

Faculty participants are listed and their research interests are described in *Research Opportunities for Undergraduates at Penn State: A Reference Guide 1990-1991*, which is available at all campus libraries, as well as via the Electronic Bulletin Board (EBB). A brochure with details on the program and accessing EBB is available from the Office of the Vice Provost and Dean for Undergraduate Education, 207 Old Main.

Students can participate on a non-pay basis or receive remuneration through work-study or wage-payroll budgets. They also can elect to earn from one to 12 credits in Research Topics Courses (294, 494).

Research Opportunities for Undergraduates got its start in fall 1988, when Dr. Covert began gathering information about other universities' undergraduate research programs. He later organized a subcommittee of the Administrative Council on Undergraduate Education to develop a proposal to establish an Office of Undergraduate Research.

A universitywide advisory board, with wide representation from the colleges and academic units, was established to implement the proposal.

The board includes **Harold W. Aurand**, director of Academic Affairs, Penn State Hazleton Campus; **Dr. Covert**, John J. Coyle, professor of business logistics; **Wayne R. Curtis**, assistant professor of chemical engineering; **Richard Cyr**, assistant professor of biology; **William M. Farnsworth**, director, Office of Undergraduate Information and Communications; **Albert Guber**, professor of geology; **Ernest Harrison**, professor of chemistry, Penn State York Campus;

Allen T. Phillips, professor of biochemistry; **Howard G. Sachs**, professor of biology and associate dean, Penn State Harrisburg; **Robert A. Schlegel**, professor of molecular and cell biology; **Jay Stauffer**, professor of fishery science; **Frederick Stefon**, assistant professor of history, Penn State Wilkes-Barre Campus; **Robert M. Stern**, professor of psychology; **Santosh Varghese**, undergraduate student; **Helen S. Wright**, professor of nutrition.

For more information about the program, contact Dr. Covert at 863-7035 or any member of the advisory board.

News in Brief

Department to move

The Department of Entomology will be moving from 106 Patterson Building to the Agriculture Sciences and Industry Building, Effective Feb. 1, all department mail should be addressed to 501 Ag Sciences and Industries Building.

Deadline extended

The deadline for applications/nominations for the position of academic officer in the Office of Education Abroad Programs has been extended until Friday, Jan. 25. Applications/nominations should be submitted to Michael Smyer, chair, Search Committee, Office of Education Abroad Programs, 222 Boucke Building, University Park.

Macintosh workshops

The Returning Adult Student Center is sponsoring a series of Macintosh computer workshops for returning adult students.

The workshops will focus on: introduction to word processing; reduction of anxiety about computers, and how to write and edit papers. To enroll or for more information, call the center at 863-3887 or stop by 323 Boucke Building, University Park. Enrollment is limited, and reservations will be accepted on a first-come, first-served basis.

Sessions will be held in the Computer Learning Center, 220 Boucke, from 9 to 10 a.m. and from 6 to 7 p.m., Jan. 14, from 3:30 to 4:30 p.m. and from 6 to 7 p.m., Jan. 15, and from 12:30 to 1:30 p.m., Jan. 17.

Adult student award

The Returning Adult Student Center at University Park is now accepting nominations for its Outstanding Adult Student Award.

To qualify for the award, a student must have begun or resumed studies after the age of 21 and been enrolled at University Park as a full- or part-time undergraduate or graduate student within 12 months of nomination. Undergraduates must have completed 45 credits, taking at least 30 of them at Penn State, and graduate students must have earned a minimum of 15 graduate credits.

Nomination packets may be obtained by calling 863-3887 or visiting the Center at 323 Boucke Building. Completed packets must be returned to the Center by Friday, Feb. 15.

Radon test kits

The Low Level Radon Monitoring Laboratory provides radon test kits for individuals wishing to test their homes. The cost to analyze samples is \$25 per kit typically, only one kit is used to initially screen a residence for radon.

If you are interested in utilizing this service, contact the Low Level Radon Monitoring Laboratory at 863-2647.

American Red Cross blood drive

The Centre Communities Chapter of the American Red Cross kicks off its spring blood schedule at University Park on Tuesday, Jan. 15, at the Kern Graduate Center, from 10 a.m. to 4 p.m. While unscheduled donors are welcome at all campus drives, appointments to donate blood at Kern may be made by calling the Graduate Student Association office at 865-4211.

Spring 1991 campus blood schedule

Time	Day	Date	Location
10 a.m.-4 p.m.	Tuesday	1/15	101 Kern
noon-5 p.m.	Thursday	1/17	Paul Robeson Center
10 a.m.-4 p.m.	Tuesday	1/22	HUB
10 a.m.-4 p.m.	Wednesday	1/23	HUB
1-7 p.m.	Wednesday	2/6	Findlay
1-7 p.m.	Thursday	2/7	Simmons
1-7 p.m.	Friday	2/8	Waring
1-7 p.m.	Tuesday	2/12	Pollock
1-7 p.m.	Wednesday	2/13	Stephens
1-7 p.m.	Thursday	2/14	Warnock
noon-5 p.m.	Thursday	2/21	White Lobby
10 a.m.-4 p.m.	Wednesday	3/20	Wagner
10 a.m.-4 p.m.	Friday	3/22	Wesley Foundation
10 a.m.-4 p.m.	Tuesday	3/26	101 Kern
Monday		4/8	Findlay
10 a.m.-4 p.m.	Tuesday	4/9	HUB
10 a.m.-4 p.m.	Wednesday	4/10	HUB

Herbarium grant

The University's Mycological Herbarium, located on the Penn State Mont Alto Campus, has received a \$26,128 grant from the National Science Foundation.

C.B. Wolfe, professor of biology at Mont Alto and curator of the herbarium, said the grant funds will be used to purchase a high-density storage system for the mushrooms and other fungi specimens housed in the herbarium which will use less space but store nearly 40 percent more specimens. "The significance of the herbarium lies in its possession of 550 'type specimens,' specimens upon which the names of species are based," Dr. Wolfe said. "In addition, the herbarium holds 67,000 other specimens from around the Western Hemisphere collected by Penn State mycologists during the last 75 years."

Dr. Wolfe submitted the proposal for the grant money to the National Science Foundation in summer 1989 following the herbarium's move from University Park to Mont Alto.

"In order to receive an award, an herbarium must demonstrate that the collections have national and international scientific significance," Dr. Wolfe said. "This significance is evidenced by the fact that the national mycological community participated in a peer review process that examines all proposals. The grant was awarded based on the peer review process."

"While the National Science Foundation has contributed \$26,000 to purchase the storage system, the University has spent nearly an equivalent amount - \$23,000 - in moving the herbarium, renovating the facility and purchasing equipment and supplies, as well as contributing to the purchase of the new system."

Partings

Gregory F. Silver, executive producer, Agriculture, from Nov. 27, 1978, until Aug. 1.

Judith A. Lyter, research nurse at Hershey, from July 16, 1979, until Aug. 11.

Friedrich G. Helfferich, professor of chemical engineering, Engineering, from Sept. 1, 1980, until Sept. 1.

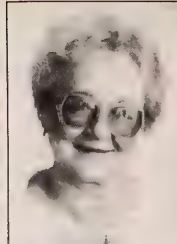

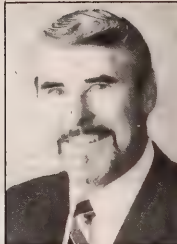

Marlin L. Matter, environmental health worker at Hershey, from Sept. 15, 1980, until Sept. 18.

Janice F. Glunt, data retrieval specialist, Division of Development, from March 5, 1971, until Sept. 8.

Carpooler

Joyce is looking for a ride from the Logan, Lock Haven, Lamar or Mill Hall areas to University Park. She works from 8 a.m. to 5 p.m. and can be reached at 863-1977 or (717) 725-3858.

25-year award recipients

Observing 25 years of service at the University are, from left, Robert K. Howard, assistant professor of health and physical education, and Donald Whitfield, financial officer, both at the Penn State New Kensington Campus. Ronald J. Harshbarger, associate professor

of mathematics, and Mildred Izzo, secretary in the Office of University Relations, both at the Penn State Beaver Campus; Grace Laubach, associate professor of nursing in the College of Health and Human Development at the Hershey Medical Center.

Penn Staters

John A. Brighton, dean of the College of Engineering and professor of mechanical engineering, has been appointed to an additional term on the National Science Foundation Advisory Committee for Engineering, a national group of approximately 21 experts.

Harold Groff, assistant professor of telecommunications at the Penn State Wilkes-Barre Campus, has received a grant for \$10,000 from the Cable TV Museum to develop an associate degree program in cable television technology.

William Horrocks Jr., professor of chemistry, gave an invited lecture titled "Europium (III) and Cerium (III) Luminescence as a Probe of Biomolecules and Coordination Compounds: Icosahedral Viruses and Aminophosphonate Complexes" at the First International Conference on the f-Elements at the University of Leuven in Belgium.

Bob Intieri, P.G.A. master professional at the Penn State Golf Courses, has been chosen as the 1990 Philadelphia P.G.A. Horton Smith Award Winner.

Patrick Moylan, assistant professor of physics at the Penn State Ogonitz Campus, presented a paper at the XVIII Colloquium Group Theoretical Methods in Physics in Moscow and delivered a lecture at the Fifth International Conference on Hadronic Mechanics and Non-Potential Interactions at the University of Northern Iowa.

Syedur Rahman, assistant professor of public administration, was an invited member of the Bangladesh Delegation to the Second United Nations Conference on Least Developed Countries in Paris.

Jean-Marc Bollag, professor of soil microbiology, has been installed as a

Fellow of the Soil Science Society of America.

J.L. Duda, professor and head of chemical engineering, has been elected to the governing board of the Council for Chemical Research.

Patrick Hatcher, associate professor of fuel science, and **Jean-Marc Bollag**, professor of soil microbiology were invited keynote speakers at the meeting of the International Humic Substances Society in Nagoya, Japan. Dr. Hatcher spoke on "Recent advances on the origin and structure of sedimentary humic substances made possible by NMR and analytical pyrolysis," and Dr. Bollag's topic was "Detoxification of aquatic and terrestrial sites through binding of pollutants to humic substances."

John R. Heilmann, assistant professor of ceramic science, and **Albert E. Segall**, research assistant, presented "Thermomechanical Performance of Ceramic Radiant Tubes" at the First International Conference on Ceramics in Energy Applications: New Opportunities, Sheffield, United Kingdom.

Elmer E. Klaus, professor emeritus of chemical engineering, presented "Chemical Reactions in Mixed Film and Boundary Lubrication" at the International Symposium on Industrial Tribology.

Gary Messing, professor of ceramic science and engineering and principal investigator with the Center for Advanced Materials, has been named a Fellow of the American Ceramic Society.

Michael F. Modest, professor of mechanical engineering and principal investigator with the Center for

Advanced Materials, presented "Laser Processing of Materials - The Present and Future" at the XXII ICHMT International Symposium on Manufacturing and Materials Processing in Dubrovnik, Yugoslavia.

Robert F. Newnham, Alcoa professor of solid state science, and **Richard E. Tressler**, professor of materials science and engineering and director of the Center for Advanced Materials, were invited speakers at "Contemporary Issues in Ceramic Science" at Ringberg Castle, Germany.

Carlo G. Pantano, professor of materials science and principal investigator with the Center for Advanced Materials, presented "Chemical and Compositional Analysis of Glass Surfaces" at the Union Scientifique Continentale du Verre, Fontainebleau, France.

Anne C. Petersen, dean of the College of Health and Human Development, gave an invited presentation on "Depression and Problem Behavior: Adolescent Development in Different Contexts" at a workshop, "Youth in a Changing World: A European Perspective," sponsored by Academia Europa and the Jacob Suchard Foundation in Marbach, Germany.

Laurence E. Prescott, associate professor of Spanish and black studies, presented a paper titled "Perfil historico del autor afro-colombiano" at the III Seminario de Cultura Negra hosted by the University of the Cauca in Popayan, Colombia.

Richard E. Tressler, professor of materials science and engineering and director of the Center for Advanced Materials, presented "Oxidation of Silicon Carbide-based Ceramics" to the Laboratoire Des Composites

Thermochimiques, University of Bordeaux, Bordeaux, France.

Leon D. Tukey, professor of pomology, and **Terry L. Salada**, undergraduate honors program student, presented a research paper titled "Apple Fruit Enlargement and Growth Substances Foliar Applied to Bearing Trees" at the 23rd International Horticultural Congress in Florence, Italy.

Nancy Wallace, cooperative extension agent in Westmoreland County, has been elected eastern region director of the National Association of Extension Home Economists.

Nancy Woods, director of the Adult Literacy Action project at the Penn State Beaver Campus, has been elected chairperson of the Pennsylvania State Coalition for Adult Literacy.

Julia Cuervo-Hewitt, associate professor of Spanish, presented an invited paper, "A Passage from Africa to the Caribbean and the Quest for the Origins of Identity," at an international symposium on "Islands in Time: Identity and Culture in the Caribbean," sponsored by the Iowa Humanities Board and the University of Iowa in Iowa City.

Robert B. Eckhardt, associate professor of anthropology, delivered an invited address titled "Hominid Evolution: Molecular and Morphological Perspectives" at the XIIIth Congress of the International Primatological Society in Kyoto, Japan.

H. LeRoy Marlow, director emeritus of the Pennsylvania Technical Assistance Program (PENNTAP), has been elected an honorary life member of the National Association of Management and Technical Assistance Centers.

Staff Vacancies

Continued from page 12.

academic support services and creation of various department publications. Requires master's degree, or equivalent, in student personnel administration, counseling or related field plus over one year up to and including two years of effective experience. This is a **FIXED-TERM POSITION** FUNDING UNTIL JUNE 30, 1991. WITH POSSIBILITY OF RE-FUNDING. STAFF GRADE 7.

*01229, Maintenance Foreman, CES, Beaver Campus - Responsible to the director of business services for planning, scheduling, and supervising maintenance, repair, and up-keep activities of the Beaver Campus physical plant and facilities. Requires high school graduate, or equivalent, with several years of trades training and two to four years of effective experience in such areas as heating/ventilating, electrical work, landscaping, plumbing, painting, carpentry and maintenance. Leadership qualities and experience in supervisory capacity highly desirable. STAFF GRADE 5.

*01230, Publications Designer, Office of Business Services, University Park Campus - Design and layout brochures, newsletters, posters, journals, and other University publications utilizing page layout, graphics, print, drawing, and image scanning computer software. Conceptualizing layout from minimal detail, provide design solution for client and modify according to specifications. Requires bachelor's degree, or equivalent, in plus one to two years of effective experience in graphic design or related field. STAFF GRADE 5.

*01232, Junior Engineering Aide, Applied Research Laboratory, University Park Campus - Responsible to the project engineer to conduct senior engineering aide for assistance in the fabrication testing, installation, operation, and maintenance of non-standard electronic or mechanical parts, components and equipment. Requires associate degree, or equivalent, in electrical or mechanical engineering technology program, and more than three months of effective experience. Position may require travel on field

assignments including assignments abroad ship at sea U.S. citizenship required STAFF GRADE 3

*01233, Engineering Aide, Applied Research Laboratory, University Park Campus - Responsible to the project engineer or senior engineering aide for the layout, design, fabrication, and construction of standard electronic or mechanical components and equipment Assist in conducting tests and with the collection, compilation and analysis of test data. Requires associate degree, or equivalent, plus two to four years of effective experience in the design and fabrication of experimental equipment. Position may require travel on field assignments including assignments abroad ships at sea U.S. citizenship required. STAFF GRADE 5.

In addition, there are a number of positions that, because of the frequency with which they become vacant, are still available after employees in the work unit have been considered. Some of such positions are available on a fairly regular basis. They are not announced each time

they are open. Instead they are announced periodically so a pool of interested candidates can be developed. Applications for such positions may be made at any time, and you are welcome to make your interest known to the Employment Division for further consideration when such vacancies occur. These positions are 01234, Assistant Research Engineer; 01235 Associate Research Engineer; 01236, Research Engineer; 01237, Senior Research Engineer, all at the Applied Research Laboratory.

Hershey

For the following position vacancies, apply directly to The Milton S. Hershey Medical Center, Attach resume with cover letter indicating the position vacancy code and forward to the Department of Human Resources, Hershey, or call the Hershey bid line at (717) 531-8551 by Jan. 17.

*1971, Speech Language Pathologist, Department of Speech Language Pathology - Responsible to the manager.

Speech and Language, for performing a wide variety of duties in the diagnosis, treatment and evaluation of persons with various speech difficulties and deficits. Requires a master's degree in speech pathology with certificate of clinical competence in speech pathology from the American Speech and Hearing Association, plus one to two years of effective experience. STAFF GRADE 6

*19018, Nursing Manager, College of Medicine, Department of Nursing - Responsible to the director of nursing services or the assistant director of medicine services as designated for the operation of the MICU and Medical Intermediate Care Unit, including nursing care activities, the coordination of patient care service, and maintaining acceptable standards of good patient care on a 24-hour basis. Requires BSN or equivalent plus three to four years of effective experience and license to practice as a registered nurse by the Pennsylvania State Board of Nursing. A MSN preferred, as well as previous ICU experience.

Nominations for provost being sought

The University invites applications and nominations for the position of executive vice president and provost of the University.

The executive vice president and provost reports directly to the president, acts on the president's behalf in his absence, and is the University's principal academic officer responsible for the administration of the University's resident instruction, continuing education and research programs and procedures, and for the general welfare of faculty and students.

Candidates for the position should have academic credentials appropriate for appointment as a tenured professor; a broad understanding of academic institutions; executive experience and proven leadership

capacity; understanding, and support for the University's multiple missions and its commitment to cultural diversity; evidence of experience in fiscal management; and the ability to attract human and financial resources to the University.

The search committee will review applications and nominations beginning immediately, and will continue to receive them until a candidate is selected. Nominations and applications, accompanied by a resume or equivalent information, should be mailed to:

Thomas L. Merritt, chair, Search Committee, Executive Vice President and Provost of the University, 205-Q Old Main, University Park, Pa. 16802.

STS director search being conducted

The University is conducting a national search for the position of director of the Science, Technology and Society Program, a University-wide, interdisciplinary program housed in the College of Engineering.

The Penn State STS program, nationally recognized for its leadership in the field, is composed of approximately 30 associated faculty members from agriculture, the natural sciences and engineering, humanities, social sciences, communications, and education.

Candidates should have an earned doctorate, demonstrated leadership in an STS-related field, scholarly achievement, and ability to administer and further develop a broad interdisciplinary program.

They must have qualifications for an appointment to an academic department. Experience with development of proposals for external grants and contracts is preferred.

Qualified candidates should submit a cover letter, curriculum vitae, and the names, addresses and telephone numbers of three references to Edward H. Klevas, chairman, STS Program Director Search Committee, Penn State, 231 Sackett Building, Box D, University Park, PA 16802.

Applications received by Feb. 22 will be assured of consideration. However, applications will be considered until the position is filled.

Obituaries

Fred V. Grau, a former Penn State extension agronomist and developer of Penngrit crownweeth, a perennial used worldwide to prevent erosion and beautify highway slopes, died Dec. 1 at the age of 88.

A 1931 graduate of the University of Nebraska with a bachelor of science degree in agronomy, he earned a master of science degree in 1933 and his doctorate in 1935 from the University of Maryland.

He joined Penn State in 1935 and served as extension agronomist in turf until 1945. At the time of his death, Dr. Grau was promoting the use of grass species that require low levels of water, fertilizer and pesticides, and athletic field maintenance and development to reduce injuries.

Amul Mun, professor of geochemistry and materials science, died Dec. 17 at the age of 67.

Born in Lokken, Norway, he received the diploma, chemistry, from the Technical University, Trondheim, in 1948, and the Ph.D. in geochemistry from Penn State in 1955.

He was appointed assistant professor of metallurgy in 1955, named professor of metallurgy in 1962, served as professor of mineral sciences from 1966 to 1970, and as special professor from 1970 until his death.

From 1966 to 1971, he served as head of the Department of Geochemistry and Mineralogy, and from 1971 to 1974 as head of the newly formed Department of Geochemistry. He served as associate dean for research for the College of Earth and Mineral Sciences from 1976 to 1985 and was acting dean of the college in 1985.

Dr. Mun was recognized worldwide for his studies of the fundamental response of materials to high temperatures. In a 40-year career, he built a coherent and multifaceted body of research on heterogeneous equilibria and thermodynamics and the application of these principles to

geosciences and in technologies where materials are used in high-temperature environments.

Peggy Hefkin, resident hall worker, Housing and Food Services, from Oct. 16, 1973, until her retirement May 31, 1980, died Nov. 15. She was 68.

William J. Leiss, retired associate professor of engineering in the Applied Research Laboratory, died Nov. 18 at the age of 68. He joined ARL Sept. 1, 1945, and retired July 1, 1977.

Hubert E. Williams, boiler repairman, Office of Physical Plant, from April 15, 1927, until his retirement Nov. 1, 1966, died Nov. 24. He was 84.

Clyde M. Maurer, houseman, Housing and Food Services, from Feb. 1, 1954, until his retirement, May 1, 1967, died Nov. 24 at the age of 89.

Raymond R. Byron, environmental system specialist, Office of Physical Plant, from

Jan. 1, 1967, until his retirement June 10, 1984, died Nov. 25. He was 68.

Alice M. Simpson, senior clerk, University Libraries, from March 1, 1967, until her retirement Jan. 1, 1979, died Nov. 25 at the age of 70.

Alvin P. Krebs, farm foreman, College of Agriculture, from May 1, 1922, until his retirement July 1, 1972, died Nov. 30. He was 83.

Harry T. Robins, clerk, former College of Health, Physical Education and Recreation, from Nov. 10, 1973, until his retirement May 1, 1984, died Dec. 1 at the age of 76.

Tammy Jo Welch, janitorial worker, Office of the Physical Plant, since June 25, 1990, died Dec. 3. She was 22.

Mervyn P. Heiman, assistant purchasing agent, Department of Purchases, from Feb. 18, 1946, until his retirement July 1, 1975, died Dec. 13. He was 75.

Staff Vacancies

The following vacancies for positions (classified as staff exempt of staff nonexempt) have been listed with the University Employment Division for filling. The brief statements for each vacancy are illustrative. They are not complete position descriptions. **APPLY BY CALLING THE EMPLOYMENT DIVISION, 863-0304.** Applications for these staff vacancies will be accepted until Jan. 17. **DO NOT CONTACT THE AREA THAT HAS THE VACANCY.** Applications for staff vacancies are considered in accordance with Fair Employment practices (PS 1) and in compliance with the University's Affirmative Action Compliance Program, without regard to race, color, religion, national origin, handicap or age (as provided by law) sex, or status as a disabled or Vietnam era veteran.

***01212. Accounting and Proposal Assistant, Senior Vice President for Research and Dean of the Graduate School, Pennsylvania Transportation Institute, University Park Campus** - Responsible to the director, Pennsylvania Transportation Institute, for providing administrative support in proposal preparation, budgeting, and accounting operations and for the supervision of accounting clerical staff. Requires associate degree or equivalent, in accounting plus two to three years of effective experience. Knowledge of University accounting procedures and expertise in computerized spreadsheets is highly desirable. **STAFF GRADE 5**

***01213. Admissions Counselor II, Undergraduate Education, Undergraduate Admissions Office, University Park Campus** - Responsible to the director, Division of Admissions, Services and Management for general assistance in handling of the more complex admissions matters in an assigned functional area. Requires bachelor's degree or equivalent plus one to two years of effective experience in educational administration or in related field such as industry or military service. **STAFF GRADE 6**

***01214. Senior Research Aide, College of Agriculture, Horticulture, University Park Campus** - Assist with all aspects of the establishment and maintenance of research and demonstration tree plots at the Horticulture Research Farm at Rock Springs, on campus, or at the sites of

cooperating nursery owners across the state. Requires bachelor's degree, or equivalent in horticulture or related field plus one to two years of effective experience. Must have passed test for Category 18 Public Pesticide License. **STAFF GRADE 5**

***01215. Research Aide, College of Agriculture, Entomology, University Park Campus** - Perform sensitive and complex analysis on a variety of samples by utilizing various techniques of extraction, clean up procedures and other analytical methods leading to qualitative and quantitative analyses of such samples for minute traces of materials. Requires bachelor's degree science, or equivalent, plus one to two years of effective laboratory experience. Good background in chemistry is desirable. **STAFF GRADE 4**

***01216. Computer Operator, Housing and Food Services, University Park Campus** - Responsible to the manager, Housing and Food Services Information Systems, for the operation and preparation of computers for program processing and for operation of peripheral equipment, including the residence hall security system. Requires associate degree, or equivalent, in computer operations or programming, plus one to two years of effective experience with data processing systems and equipment. **NOTE: HOURS 11 P.M. TO 7 A.M. STAFF GRADE 4**

***01217. College Health Nurse, Student Services, University Health Services, University Park Campus** - Responsible to nurse manager for providing nursing services in the Observation Unit and Urgent Care Clinic and assisting licensed physicians in patient care. Requires graduate from an accredited nursing program and current licensure in the state of Pennsylvania as a registered nurse plus six to nine months of effective experience. Past experience in an emergency room setting or an acute ambulatory care clinic. Proficiency in IV administration and physical assessment highly desirable. **NOTE: FULL-TIME 12-MONTH NIGHT SHIFT POSITION**

***01218. Student Insurance Assistant, Student Services, University Health Services, University Park Campus** - Responsible to the assistant director, University Health Services for

coordinating the activities of the Student Insurance program including contact with students, parents, insurance carriers, health care providers and University staff. Requires bachelor's degree, or equivalent, in business administration or related field, plus one to two years of effective experience in health or accident insurance. **THIS IS A FIXED-TERM POSITION FUNDED THROUGH JUNE 30, 1991, WITH EXCELLENT POSSIBILITY OF RE-FUNDING. STAFF GRADE 5**

***01219. Glass Blower, Eberly College of Science, Chemistry Department, University Park Campus** - Responsible for blowing and shaping scientific glass apparatus. Develop specifications from customers' sketches and oral instructions. Consult with and advise faculty, graduate students and postdoctoral fellows on design of specialized scientific glass apparatus. Requires associate degree, or equivalent, or two years of technical college-level training plus two to three years of effective experience. **STAFF GRADE 5**

***01220. Financial Analyst, CES, Office of Business and Financial Operations, University Park Campus** - Responsible to the director of finance, CES, and the assistant director of finance for assisting in expenditure reviews for financial reports and budget planning. Requires a bachelor's degree, or equivalent, in accounting or business administration plus one to two years of effective experience. **STAFF GRADE 6**

***01221. Area Representative, CES, Continuing Education, Towanda Center** - Responsible to the director of continuing education, Wilkes-Barre Campus, for the functions of client management, development, organization, operation, and administration of Continuing Education program and services and for linking University resources with community needs within the assigned geographic district. Requires bachelor's degree, or equivalent, plus two to three years of effective experience in business, industry or education. **STAFF GRADE 7**

***01222. Research Manager, Applied Research Laboratory, University Park Campus** - Responsible to the manager, Computer Facility for providing consultation to faculty on the

use of computing for research and instructional purposes, and for providing programming and network support for system and network applications running on UNIX workstations. Requires master's degree, or equivalent, in computer science or related discipline plus one to two years of effective experience in research applications on large scale computers and microcomputers using a wide range of languages, packages and databases. U.S. citizenship required. **STAFF GRADE 7**

***01223. Applications Programmer/Analyst, Corporate Controller, University Park Campus** - Responsible to the senior accountant for conducting analyses of data processing problems, determining detailed requirements to solve problems, formulating logical statements of systems problems and preparing computer programs to satisfy desired end results. Requires bachelor's degree, or equivalent, in computer science and one to two years of effective experience in computer programming and analysis, preferable in a student aid and student loan environment. Knowledge of IRS, ROSCOE, etc., and NATURAL language. **STAFF GRADE 6**

***01207. Team Physician, Intercollegiate Athletics, University Park Campus** - Responsible to the director of clinical services, Center for Sports Medicine, for providing medical care to student-athletes from the 28 varsity teams of the Intercollegiate Athletic Program at the University Park Campus. Requires physician with a doctor of medicine or equivalent degree from an accredited school of osteopathy. License to practice medicine in the Commonwealth of Pennsylvania and four to five years of effective experience in sports medicine required. **STAFF GRADE 10**

***01224. Senior Information Specialist, Institute of State and Regional Affairs, Penn State Harrisburg** - Responsible to the coordinator for performing a variety of activities including programming, statistical analysis, report writing and client training. Requires bachelor's degree, or equivalent, and one to two years of effective experience. A master's degree in public administration or a related field preferred. Experience in microcomputer application and graphics programs, mainframe programming

languages and statistical software packages is required. **THIS IS A FIXED-TERM POSITION FUNDED THROUGH JUNE 30, 1991, WITH A GOOD POSSIBILITY OF RE-FUNDING. STAFF GRADE 5**

***01225. Programmer, Pennsylvania State Data Center, Penn State Harrisburg** - Responsible to designated project coordinator to participate in analysis, program design, coding, testing, documenting and other programming tasks required to produce reports, create logic statements, and maintain information files. Requires bachelor's degree, or equivalent, in computer science or related field, plus six to nine months of effective experience in computer programming. **THIS IS A FIXED-TERM POSITION FUNDED THROUGH JUNE 30, 1991, WITH EXCELLENT POSSIBILITY OF RE-FUNDING. STAFF GRADE 5**

***01226. Assistant to the Director of Community Relations, Community Relations, Penn State Harrisburg** - Responsible to the director of community relations for implementing public information, publications, special events, and alumni affairs activities as part of a comprehensive University relations program for the entire campus. Requires bachelor's degree in journalism, or equivalent, plus one to two years of effective experience. **STAFF GRADE 6**

***01227. Manager, Facilities and Maintenance Operations, Penn State Harrisburg** - Responsible for the management of the operations and maintenance of physical plant. Manage and direct programs involving the maintenance, operations, alteration and repair of physical structures and mechanical and engineering systems. Requires bachelor's degree in mechanical, electrical, civil engineering or related field, or equivalent, and from five to seven years of effective experience in the management of physical plant planning and construction operations. Strong communication skills necessary. **STAFF GRADE 9**

***01228. Assistant Director of Student Programs and Services, CES, Mont Alto Campus** - Responsibilities include career and personal counseling, new student orientation, student retention and See "Vacancies" on page 11.

Marian U. Coppersmith elected president of Board of Trustees

Marian Ungar Coppersmith, president of The Barash Group and publisher of *Time and Town and Where and When* magazines, was elected president of the Board of Trustees at the board meeting Jan. 12 at University Park.

William Schreyer, chairman and chief executive officer of Merrill Lynch and Co. Inc., was elected vice president of the board.

Both were elected to serve one-year terms, which will expire in January 1992.

A 1953 Penn State graduate, Ms.

Coppersmith has been a member of the board since 1976, when she was elected by the alumni to her first three-year term. She has chaired and served on various board committees.

Past president of the board of the University Renaissance Scholarship Fund, she received the College of the Liberal Arts Alumni Society Service to Society Award

in 1984 and the Lion's Paw Medal Award in 1985.

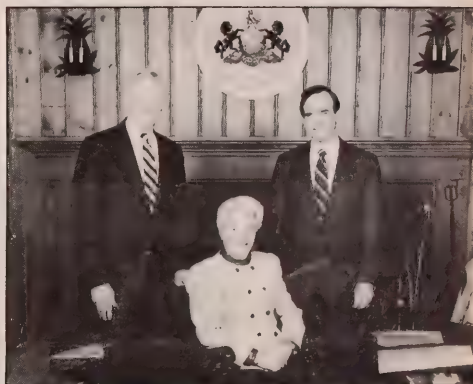

Among her honors are the Distinguished Daughter of Pennsylvania Award,

Pennsylvania Small Businessperson of the Year Award, the Award for Distinguished Service to State Government of the National Governors Association, and Distinguished Pennsylvanian Award of the Philadelphia Chamber of Commerce.

She also has served as chairperson of the board of governors for the Centre County Community Foundation and a member of the board of directors of the Pennsylvania Humanities Council, Pennsylvania Commission for Women and Pennsylvania Chamber of Commerce.

A founding member of Back the Lions, she also is a member of the Friends of the Palmer Museum of Art and a life member of the Alumni Association.

See "Coppersmith" on page 3.

Academic quality is a priority

Plans to accommodate cuts are implemented

The University plans to accommodate the cutback in state funding announced this week but will keep as a priority the academic quality of the University.

Speaking to the Board of Trustees at its meeting Jan. 12 at University Park, President Thomas said that in a University as lean as Penn State, a cut of this magnitude is very severe. A number of projects must be taken to deal with a projected \$12.6 million loss in state funds.

"Two basic principles are guiding our efforts to formulate a plan to address this situation," Dr. Thomas said. "The first is to protect the academic quality of the University. The second is to try to avoid a tuition increase for this semester."

He said specifics have not yet been made final in response to Gov. Casey's announcement of a 5 percent cutback in state funding for Penn State.

"It is particularly difficult to face such a cut seven months into the fiscal year, when so much of the budget has been spent or committed. However, we will do everything we can to meet the governor's challenge and make these cuts."

The basic elements of the plan put forward by President Thomas call for a reduction of planned expenditures and allocations, use of central reserves,

identifying all possible income, and recycling from operating units. Planned expenditures that will be foregone for the rest of the year include the installation of telecommunications cabling, the replacement of underground storage tanks and major maintenance projects.

The president told the Board that the University has been holding back allocations for these and other critically needed projects since the fiscal year began, in anticipation that a cut in state appropriations was possible.

"However, the cuts announced by Gov. Casey on Monday were much more severe than we might have expected."

All units within the University will be taxed, but President Thomas said academic units will not be asked to absorb as much of these assessments as non-academic support units.

"To help meet our goals here, we will be implementing immediately a temporary hiring freeze for all new appointments taking effect during this fiscal year," the president said. "The freeze will only pertain to appointments made with general funds, and not to those made with restricted funds or by self-supporting units."

It will also not apply to appointments

made for the next academic year.

The president also told Trustees that the University will implement a freeze on the purchase of new equipment and require budget officers to ensure that only the most necessary travel and other expenditures take place.

"These freezes will be in effect for any given unit until that unit can demonstrate that its recycling target will be met. At that point, the freeze would be lifted for that unit."

The cuts announced by Gov. Casey represent a 5 percent decrease in state funding for the University — \$8.5 million in operating funds and \$4.1 million in Tuition Challenge Grant monies. The 1990-91 state appropriation is now just under the amount Penn State received in 1989-90.

President Thomas noted that the cuts being faced in Pennsylvania's higher education community fit into a larger national trend. Maryland, Virginia and New York have all faced larger cuts than the ones recently announced by Gov. Casey.

"At a time when we are very short on money we need to be long on perspective if we are to weather the remaining months in this fiscal year," he said.

Medical Center gets patient care grant

The Milton S. Hershey Medical Center is the recipient of the first phase of a potential \$1 million grant to innovatively restructure patient care.

The medical center was selected as one of up to 20 hospitals in the nation to receive the funding as part of the \$26.8 million Robert Wood Johnson Foundation/Pew Charitable Trusts program "Strengthening Hospital Nursing: A Program to Improve Patient Care." Hershey is the only hospital in the mid-Atlantic region to receive an implementation grant as part of this program.

The medical center's Department of Nursing at University Hospital recently received the first phase of the five-year implementation grant — a two-year \$410,025 installment. The grant program is sponsored by the Princeton, N.J.-based Robert Wood Johnson Foundation, the nation's largest health-care philanthropy, and The Pew Charitable Trusts in Philadelphia.

The first national initiative to address institution-wide restructuring of patient care and nursing roles, the program is designed to encourage hospitals to find innovative solutions to the nation's nursing

See "Hershey" on page 3.

Focus on Diversity

Programs developed for minority and women students

To attract and educate more minority and women students, the College of Engineering has developed various programs and pursued government, corporate and private funding, the Board of Trustees has been told.

"During 1989-90, the college raised nearly \$200,000 as additional support for a vigorous drive to recruit and retain more minority students and faculty," John Brighton, dean of the College, said.

Since the founding of the Penn State Minority Engineering Program in 1985, the recruitment of undergraduates in the college has risen from 2.2 percent to 3.2

percent. In fall 1990, there were 299 minority undergraduates and 13 full-time graduate students.

"Our efforts at recruitment and retention range from several pre-college programs offering hands-on experiences to high school students to college academic course clustering and peer role model programs," Dean Brighton noted. "In addition, the college has established a \$500,000 Center for Undergraduate Research Opportunities for Minority Students to support minority engineering and science undergraduate research scholars."

Intensive efforts to hire minority and

women faculty members have resulted in an increased representation on the engineering faculty according to Dean Brighton. Since 1988, 12 percent of the new faculty have been minorities and 20 percent women.

The percentage of women in undergraduate majors in the college has risen from 12.6 percent to 13.4 percent since the inception of the Women in Engineering Program. The WEP emphasizes pre-college development as well as recruitment and retention of women students.

Female graduate enrollment has risen

from 10.9 percent to 13.8 percent during that time, according to director Sharon Luck. In fall 1990, there were 931 women in all engineering undergraduate majors and 221 graduate students.

MS WIZ, a new on-campus intensive summer program for girls 11 to 13 years old, will offer hands-on math and science experience as well as long-term mentoring. Funded by a \$402,000 NSF grant, MS WIZ is directed by Vasundara Varadan.

distinguished alumni professor, and Patricia Farrell, associate professor of leisure studies in the College of Health and Human Development.

WPSX-TV programs

Tony Brown examines two sides of entertainer Sammy Davis Jr. on *Tony Brown Journal* airing at 11:30 a.m. Sunday, Jan. 20. In this memorable tribute, Mr. Brown shows the evolution of Sammy Davis from "saloon singer," as he called himself, to a man with pride in his heritage.

Filmed live at London's Hammersmith Odeon, *The Temptations Get Ready*, airing at 8 p.m. Thursday, Jan. 22, combines slick vocal harmonies with dazzling dance moves, resulting in a classic display of their greatest hits.

For more than two-and-a-half decades the Temptations have set the standard by which other soul vocal groups are judged. With song material supplied by Motown's writers and producers like Smokey Robinson, the quintet forged an outstanding body of work in which soulful sound provide inspiration for their dynamic choreography, a hallmark of their live shows.

Martin Luther King Day plans revised

The scheduled appearance of the Rev. Dr. Vincent Harding as the keynote speaker for Penn State's observance of Dr. Martin Luther King Day on Monday, Jan. 21, has been canceled.

Instead, a program of selected readings by individuals representing the local and University communities will highlight the festivities, which begin at 4 p.m. in Eisenhower Auditorium at University Park.

Plans to telecast the event live on the cable system PENNARAMA and on WPSX-TV Channel 3 will continue. The event will be one of numerous Martin Luther King holiday activities scheduled at University Park and other University campuses throughout Pennsylvania.

According to Grace Hampton, vice provost and the University's Martin Luther King planning committee chair, Dr. Harding canceled his plans to speak at Penn State at the request of his doctors to curtail engagements because of illness.

Members of the selected readings panel include Peter Deines, professor of geochimistry and University Faculty Senate chair; State College Mayor Arnold Addison; Lu Walker, student and former NAACP student chapter president; L.A. Napier, Native American Indian Leadership Program director; and Lawrence W. Young, director of the Paul Robeson Cultural Center.

The readings will include quotes and statements about or by Dr. King. Other activities on that day include a memorial tribute and march by students, University and local community members beginning at 3 p.m. from St. Paul's Methodist Church at McAllister Street and College Avenue, and ending at 4 p.m. at Eisenhower Auditorium.

Thursday, Jan. 24

Fulbright Informal Lecture Series, 3:30 to 4:30 p.m., 222 Boucke Building, James L. West, professor of English and Fulbright award recipient, on "Fulbrighting in Belgium and Cambridge."

Program encourages more women and minorities to study forestry

Penn State, Delaware State College and the USDA Forest Service have initiated a cooperative program to encourage more minority and women students to study forestry.

"In 1989, only 2.6 percent of all undergraduate students enrolled in professional forestry schools nationwide were minorities, and 35 percent were women," Alfred Sullivan, director of the School of Forest Resources, said.

"Professionals in forest resources are looking for ways to increase cultural diversity in the work force. This new program is a key step toward achieving this goal."

Students who participate in the program will receive financial assistance from the Forest Service. They will spend two years at Delaware State, a land-grant college

originally founded to educate black men and women, following a preforestry program established with the help of the Forest Service.

The preforestry program includes introductory courses taught by Forest Service personnel and is designed to facilitate transfer into the four-year program offered by the School of Forest Resources in the College of Agriculture.

Participating students also will be awarded cooperative education positions with the Forest Service. The positions enable students to gain work experience and to become competitive for permanent jobs after they complete their undergraduate degrees.

For more information about the program, contact Ellen Rom at (814) 865-7541.

Variety of programs sponsored in Africa

Penn State sponsors a wide variety of programs and research in Africa. Trustees have learned.

About 120 students from 26 countries in Africa attended Penn State in 1990, about 5 percent of the total international student enrollment, according to W. LaMarr Kopp, deputy vice president for the Office of International Programs.

There currently are eight visiting scholars from African countries at Penn State: three from Nigeria, two from South Africa, one from Zaire and two from Ghana.

Penn State has long maintained a number of U.S. Information Agency-funded initiatives in Africa, including educational partnerships with Marien Ngouabi University in the Congo; the University of Yaounde, Cameroon; the University of Niamey, Niger; the University of Zimbabwe; and the University of Burundi.

The College of Agriculture has obtained U.S. Agency for International Development

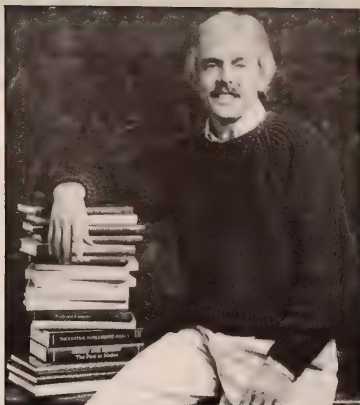

sponsorship for projects in Swaziland and Zimbabwe. Scholarship funds from Mobil and Shell support students from Cameroon, and grants from Tesaco support Penn State educational development in Ghana.

Penn State currently has international cooperative programs with universities in 12 African countries.

Bookshelf

James Levin, affiliate assistant professor of education, and James F. Nolan, assistant professor of education, are authors of *Principles of Classroom Management: A Hierarchical Approach*.

The book, published by Prentice Hall, focuses on case studies to illustrate classroom management principles and approaches to offer practical, eclectic approaches to classroom management based upon theory and practice.

Penn State People

Steven Kress

A designer/production assistant with Penn State Press, Steven Kress designs the jackets and interiors of most of the 35 to 50 books published annually by Penn State Press. After receiving the copyedited manuscripts, he decides on the appropriate type and then designs the interior of the book, which includes the title page and chapter openings, and he scales and designs any photographic sections. He uses an Apple Macintosh computer to do the rough designs. When the interior of the book has been typeset and proofed, he designs the jacket and specs the cloth for binding. The entire process from copyediting to printed book can take about a year. A member of the Penn State Press staff for two years, Mr. Kress enjoys designing art history books the most, because of the technical challenges they pose. "The acquiring editors work hard to obtain quality manuscripts for publication, so I feel it is my job to maintain that quality in the design," he says. (Photo: Greg Grieco)

Bookshelf

Derrill M. Kerrick, professor of petrology, is the author of *The Al₂SiO₅ Polymorphs*, published as Volume 22 in the *Mineralogical Society of America Series Reviews in Mineralogy*.

In the monograph, Dr. Kerrick reviews the chronological development of research on aluminum silicates and uses this mineral group, comprising the minerals andalusite, sillimanite, and kyanite, to illustrate a range of experimental, theoretical and field problems in metamorphic petrology.

Petrologists use aluminum silicates as both a "thermometer" and "barometer" of metamorphic rocks in the earth's crust and even use these minerals to calibrate other geothermometers and geobarometers.

The book, which is only the second monograph published in this series in 16 years, is based on a series of seminars presented at the University of Basel, Switzerland, in 1985 and a subsequent graduate course in the Department of Geosciences.

Coppersmith

Continued from page 1.

Mr. Schreyer has been a member of the board since 1980, serving his first term as appointee of Gov. Richard Thornburgh, and later being elected by industrial societies in 1990.

A 1948 Penn State graduate and Williamsport native, he has devoted his entire professional career to Merrill Lynch and Co. Inc., becoming president in 1982, chief executive officer in 1984 and

Carpooler

Judy and Dan are looking for riders to carpool from Altoona or Tyrone to University Park. Work hours are 8 a.m. to 5 p.m. Call 665-6301; Judy (home), 632-8462; or Dan (home), 942-7658.

Graduate students to exhibit research

Some 100 graduate students will show off their thesis research at the University's Graduate Research Exhibition to be held March 22-23 in the Kern Graduate Building lobby at University Park.

All departments enrolling graduate students have been notified of the exhibition and have application blanks. Deadline for completion of applications is Feb. 1.

The exhibition is co-sponsored by the Graduate Council and Charles Hosler, acting executive vice president and provost of the University.

Dr. Hosler pointed out that Penn State graduate students hold 10 of the prestigious NSF fellowships won in national competition and that the University ranks 11th nationally in research expenditures and second nationally in industrial support for research.

"Penn State is growing faster in research support than any other U.S. university, he said. "Our research growth last year was 16.6 percent."

Prize money of \$10,000 will be awarded, with awards announcements to be made at 4 p.m. March 23.

Last year's winners exhibited specialties such as platinum metal etching in microwave plasmas, laser welding, timber bridges, managing fungicide-resistant gray molds, acidification of headwater streams, and copper stress in microecosystems.

Ancient Mayan nutrition, behavioral styles of police officers, and a study of Pennsylvania and Ohio church murals represented thesis research from the arts, humanities, and social sciences.

"We expect an equally varied mix to be drawn this year from the 10,305 graduate students studying at University Park, the Hershey Medical Center, Penn State Erie, The Behrend College, Great Valley, and Penn State Harrisburg," Dr. Hosler said.

Robert Ott, who chairs the Graduate Council Research Committee, said that students may use prize money for their research.

Judges will select first, second, and third place winners within each of five categories," he said. "They will judge exhibitions on intellectual content and visual appeal as well as the verbal presentation of the student."

Hershey

Continued from page 1.

shortage. Experts predict a 10 to 12 percent decrease in the number of available RNs in the future. Nancy Kruger, director of the Department of Nursing, initiated the project at University Hospital in 1988.

The funding will be used at the medical center to implement an innovative model of organization, the circular design, a type of workplace democracy. It will be the first application of this model to a hospital environment. Three units at University Hospital have been chosen as pilot units: medicine, surgery and pediatric.

"We believe the medical center provides excellent care," said Joan Lartin, director of the Center for Nursing Research at the

medical center, who directed the planning grant project. "But as medical care has become more complex, with more specialists required, care can become somewhat fragmented. We have developed a method which we feel could better coordinate and integrate that care. The focus of this project is to underscore the treatment of patients as people - improving the structure to make sure the patient comes first."

To create a comprehensive solution to the problem of fragmentation of patient care, the project will implement a nurse-physician team approach to bedside rounds. In addition to the more direct involvement in information-sharing and decision-making, patients also will be included in weekly meetings with their entire primary health-care team.

chairman in 1985.

He was elected a director of the N.Y. Stock Exchange in 1985 and vice chairman of the board in 1987. He is a director of Schering-Plough Corp. and serves on several boards and commissions concerned with economics and international business affairs.

A Distinguished Alumnus of the University, Mr. Schreyer has served as national chairman of The Campaign for Penn State and as a member of the Board of Visitors of the Smeal College of Business Administration.

Other board officers include **President Thomas**, who serves as ex officio secretary of the board, and the following, who were elected to one-year terms:

Steve A. Garban, senior vice president for finance and operations; **Treasurer of the board: Raymond D. Nargi**, associate treasurer of the board; **David E. Branigan**, assistant treasurer of the board; **Grace T. Younginger**, associate secretary of the board; **Carolyn A. Dolbin**, administrative assistant to the president, and **Joseph E.**

William Schreyer

Krawiec, director of systems and administrative services, assistant secretaries of the board.

From the Trustee Docket

Terminal expansion

Construction for a proposed \$3.5 million expansion of the Airport Terminal Building at the University Park Airport could begin this spring, the Board of Trustees has been told.

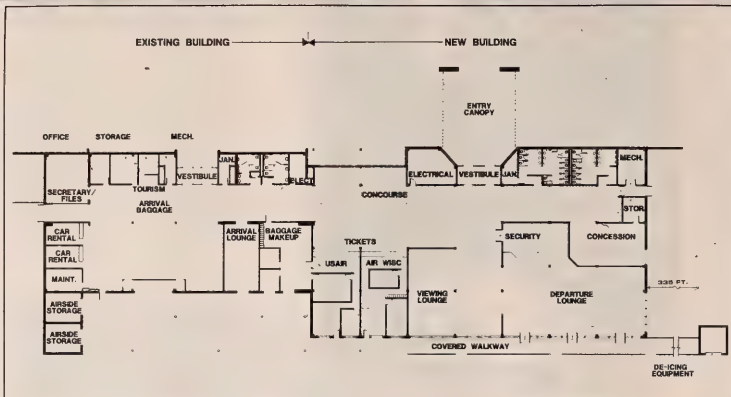

James M. Wagner, vice president of business and operations, said the work is planned to start in April and conclude in October 1992.

The Centre County Airport Authority is handling the planning, design and construction for the project, and has retained John C. Haas Associates Inc. of State College for the work.

The expansion will be to the east side of the building and will more than double its size to approximately 26,400 square feet from the present 9,700 square feet. It will include a new main entrance with a canopied drop-off area, a concession area, ticket offices, arrival and departure lounge, public restrooms and service and storage areas.

Work will be planned so that the activities of the present terminal will not be interrupted, Mr. Wagner said. The existing building will be converted to include a baggage retrieval area, administrative offices, car rental offices and storage room.

In other action, Trustees approved final plans and authorized the University to obtain bids for an academic building at the Berks Campus.

Floor plans of University Park Terminal Building.

The one-story, 17,100-square-foot building will be located west of the library at Berks. It will contain six classrooms, faculty offices and the offices of counseling, continuing education, finance and the registrar.

The budget for the project is \$2,586,546, including approximately \$300,000 to be used for renovations to the Luerssen Building on campus. The renovations will create new classrooms, offices, laboratory

space and an audiovisual room and conference room.

Berks Campus has recently conducted a successful capital campaign to raise funds for the new academic building.

Faculty honored

The Office of the President has announced the appointment of 17 Distinguished Professors. Trustees have learned.

The title, recommended by the Faculty Senate, recognizes a limited number of outstanding professors throughout the Penn State system. The first distinguished professors were named in 1990, and 45 faculty members now hold the title. Recommendations are made to the Office of the President by the college deans following a review of the nominations by a

college committee. Criteria for the title are that the recipients must have the rank of professor and display "an exceptional record of teaching, research and/or creativity, and service."

The colleges participating in the 1991 nominations were Agriculture, Arts and Architecture, The Eberly College of Science, Engineering, Health and Human Development, The Liberal Arts, Medicine, The Smell College of Business, Administration and Penn State Harrisburg.

The new recipients are:
Paul Baum, professor of mathematics;

Thomas D. Borkovec, professor of psychology; **Simon J. Bronner**, professor of American studies and folklore at Penn State Harrisburg; **Frederick A. de Armas**, professor of Spanish and comparative literature; **M. Elaine Eyster**, professor of medicine at the Hershey Medical Center;

Gideon Golany, professor of urban design and planning; **inyong Han**, professor of industrial engineering; **Gary L. Lilien**, professor of management science; **John D. Martz**, professor of political science; **Julian D. Maynard**, professor of

physics; **Masatoshi Nei**, professor of biology;

G.P. Patil, professor of mathematical statistics; **Eva J. Pelli**, professor of plant pathology; **Robert Plomin**, professor of human development; **C. Channa Reddy**, professor of veterinary science; **Satvir S. Tevethia**, professor of microbiology and immunology at the Hershey Medical Center; **M. Albert Vannice**, professor of chemical engineering.

Research park

The proposed Penn State Research Park moved forward substantially last week when the College Township Council adopted an innovative zoning district for the 130-acre park, called the Planned Research and Business District. Trustees have learned.

"Obtaining zoning approval for a project of this magnitude this quickly reflects the excellent cooperation between our planners and the township," Gary C. Schultz, assistant vice president for finance and operations, said. "We also are pleased to have recently completed two agreements with College Township."

Fulfilling a commitment made from the beginning of the project, the first agreement addresses the payment of in-lieu-of-taxes by commercial tenants on real estate leased from the University. The second addresses payment to College Township for the University's share of

services such as road maintenance and police, which will be provided by the township.

"Local support is extremely important in order to move a project like this forward," Mr. Schultz added. "We are very appreciative of the support provided by the various individuals and groups in the Centre Region."

The Centre County Industrial Development Corporation and the State College Area Chamber of Commerce have both passed resolutions supporting the development of the Research Park. The Pennsylvania Department of Transportation has cooperated in the overall planning and has committed to provide funding for design of the access road. The University also is working with the Pennsylvania Department of Commerce to identify funding for the construction of utilities and internal roadways.

The Research Park is expected to have a

significant impact on the economic development of the entire central Pennsylvania region as well as benefit the University and the commonwealth as a whole.

The Board also learned that the New York firm of Downey Weeks & Toomey, who developed the University's mark and visual identity program, is developing marketing materials in support of the Research Park and that a full-time marketing director will be hired shortly. That person will work with the faculty marketing task force and with the Governor's Response Team.

Approved by the Board in November 1989, the Research Park plan is being developed by the Morlok Development Group of Philadelphia, which is also responsible for developing the first phase of the park: a conference center, University research laboratory, technology center and a privately owned hotel.

Institute transfer

The Board of Trustees has approved the transfer of the Biotechnology Institute from the Eberly College of Science to

Intercollege Research Programs. The transfer, recommended by the University Faculty Senate Council, will increase the participation of faculty from many colleges and will strengthen research programs. William Taylor, associate dean for research, will continue as acting director until a new director is appointed.

The Bioprocessing Resource Center, which began operation last year, is part of the Institute. Michael Parker is acting executive director.

Trustees also reviewed the new graduate minor in women's studies offered by the College of the Liberal Arts. The minor had been approved by the Graduate Council at its November meeting.

This interdisciplinary minor is designed
See 'Institute' on page 5.

Selected by the Board of Trustees

Eight will receive Distinguished Alumni Award

The Board of Trustees has selected eight Penn State alumni to receive the University's highest award for an individual, the Distinguished Alumni Award.

The 1991 Distinguished Alumni, class year or years, current title and hometown, are:

— **Howard O. Beaver Jr.**, '48, director and retired chairman of the board of Carpenter Technology Corp., Wyomissing.

— **Charles J. Bierbauer**, '66, '70g, senior White House correspondent for CNN, Potomac, Md.

— **William A. Hiller**, '52g, president and CEO, Agway, Inc., Fayetteville, N.Y.

— **Harold C. O'Connor Jr.**, '52, retired president and CEO of Chemcut Corp., State College.

— **Dianne H. Pilgrim**, '63, director of the Cooper-Hewitt Museum, New York, N.Y.

— **Catherine A. Rein**, '65, executive vice president of Metropolitan Life Insurance Co., New York, N.Y.

— **Warren Washington**, '64g, director of the Climate and Global Dynamics Division, National Center for Atmospheric Research, Boulder, Col.

— **Helen D. Wise**, '49, '52g, '68g, deputy chief of staff for programs and secretary to the Cabinet of the Commonwealth of Pennsylvania, Spring Mills.

The Distinguished Alumni Award was established in 1951 to honor Penn State alumni who have made outstanding contributions to their professions and community service.

— Mr. Beaver, a member of Board of Trustees from 1978 to 1990, earned a bachelor of science degree in metallurgy in 1948. He graduated from the chemistry of steelmaking course at Massachusetts Institute of Technology in 1955 and from the management program for executives at the University of Pittsburgh in 1967.

Mr. Beaver began his career with Carpenter Technology in Reading as a metallurgist in 1948 and served as CEO for 10 years. He is active on many boards including Girard Bank, HERCO, Inc. and Mellon National Corp.

— Mr. Bierbauer, who earned a dual bachelor's degree in journalism and Russian and a master's degree in journalism from Penn State, is noted as a distinguished broadcast journalist.

His career spans more than 20 years, during which time he has covered the Kremlin as a Moscow bureau chief and served as a foreign correspondent in Belgrade, Vienna, Bonn and London.

Mr. Hiller received a bachelor's degree in biology from Upper Iowa University in 1950 and a master's degree in agricultural economics from Penn State in 1952.

He joined Agway in 1951 and served in many capacities, becoming president and CEO in 1981. Under his leadership, Agway has supported numerous research programs at Penn State and the College of Agriculture.

Mr. O'Connor received his bachelor's degree in physics in 1952 and joined Chemcut Corp. in 1957. He became president in 1960 and led it through a period of expansion. Retiring in 1987, he remains on the board of directors.

He also serves on the boards of other corporations including Mellon Bank Central, Tussey Realty Co., and Scientific Systems Inc. as well as on those of many civic organizations including the Music Academy, the Central Pennsylvania Festival of the Arts and the Centre County Community Foundation. For 12 years he was chairman of the Business and Finance Committee for Centre Community Hospital and has served as chairman of the Board of Trustees of Susquehanna University.

Ms. Pilgrim earned her bachelor's degree in art history in 1963, and in 1965 she received a master's degree from New York University and a certificate in museum training from NYU's Institute of Fine Arts and the Metropolitan Museum of Art. She was named director of the Cooper-Hewitt Museum in 1988, which is a branch of the Smithsonian Institution devoted to design and the decorative arts. She has served on many boards including the Friends of Clermont, the National Multiple Sclerosis Society, the Decorative Arts Trust,

the Victorian Society in America and the Society of Architectural Historians.

Ms. Rein received a bachelor's degree in labor management relations in 1965 and a J.D. degree from New York University in 1968.

A financial services executive and lawyer, Rein first became an associate at the Wall Street firm of Dewey, Ballantine, Bushby, Palmer and Wood. In 1985, she moved to Metropolitan Life Insurance Co., where she was named senior vice president of human resources and currently serves as executive vice president. She serves as a director for the Bank of New York Company, Inc., the General Public Utilities Corp. and Broadmoor Housing, Inc.

Mr. Washington received a bachelor's degree in physics in 1958 and a master's degree in meteorology in 1960 from Oregon State University and a Ph.D. in meteorology from Penn State in 1964. He became a research scientist at the National Center for Atmospheric Research in 1963 and in 1987 was named director of the Climate and Global Dynamics Division.

A supporter of minority participation in the sciences, he was chair of the American Association for the Advancement of Science panel on Black Scientists from 1973 to 1978, and in 1988 was featured in a national traveling exhibit highlighting Black achievement in science.

Ms. Wise, deputy chief of staff for programs and secretary to the Cabinet of the Commonwealth of Pennsylvania, received her B.A. (1949), M.Ed. (1952), and D.Ed. (1968) degrees at Penn State. She taught in the State College area schools for more than 20 years and was president of the Pennsylvania State Education Association in 1969 and of the National Education Association in 1973. She also has served as the executive director of the Delaware State Education Association.

In 1970, she was elected to the Pennsylvania General Assembly as the representative of the 77th legislative district. She was a member of the Penn State Board of Trustees from 1969 to 1990 and has been named trustee emerita.

Nominations of top students are being sought for awards

Nominations of outstanding seniors are being sought for the President's Awards, made annually in the name of three former presidents of the University—the Eric A. Walker Award, the Ralph Dorn Hetzel Memorial Award and the John W. Oswald Awards.

Nominations of graduate students also are being sought for the new Graduate Student Service Award.

All University seniors graduating Fall Semester 1990 and Spring Semester 1991 are eligible for the President's Awards.

The Walker Award recognizes a senior who has enhanced the public esteem and renown of Penn State.

The Hetzel Award recognizes responsible leadership in the University and promise of public spirited achievement in the future.

The Oswald Award recognizes outstanding leadership in one of several areas of activity, including scholarship, athletics, social services, religious activities, student government, journalism, speech, mass media, and creative and performing arts.

The Graduate Student Award recognizes a graduate student who has best combined high academic achievement with leadership in the University or other public activities. Graduate students who have completed a minimum of one full year of graduate studies are eligible.

Selection of award recipients will be made by a committee, chaired by J. Thomas Eakin, assistant vice president for student programs, and composed of representatives from Student Services, the University Faculty Senate and the student body.

Nomination forms for the awards are available at the HUB, Kern and Boucke information desks or the Division of Student Programs Office, 215 Eisenhower Chapel. Completed applications are due in the Division of Student Programs Office by Feb. 15.

Trustee Docket cont.

Institute transfer

to help graduate students enrich their individual majors through the study of the impact of women's experiences and feminist perspectives on their particular fields. Lynne Goodstein, director of the women's studies program, will administer the new minor.

Trustees also reviewed two name changes in undergraduate programs. The name of the astronomy major in the Eberly College of Science will change to astronomy and astrophysics, while the name of the general arts major in the College of Arts and Architecture will now be integrative arts.

The name of the graduate program in astronomy in the Eberly College of Science

will change to astronomy and astrophysics, reflecting the interdisciplinary nature of modern astronomical science.

Cardiovascular Center

The Penn State Cardiovascular Center will soon be established at the Millton S. Hershey Medical Center, according to Dr. C. McCollister Everts, M.D., senior vice president for health affairs and dean of the College of Medicine.

"In keeping with our mission of education, patient care, research and service, the Cardiovascular Center is an outstanding example of the many special health-care services that Penn State's Hershey Medical Center offers the

Commonwealth," Dr. Everts told Trustees.

The Cardiovascular Center will provide a continuum of cardiovascular clinical services, from prevention through rehabilitation, to the citizens of central Pennsylvania.

Dr. John A. Waldhausen, professor and chair of the Department of Surgery, will chair the center's interdisciplinary committees that coordinate some 12 different departments, areas and divisions involved with cardiovascular disease and research.

"To better serve patient needs, the center, through the patient committee, will promote a heightened emphasis on patient education, comfort, convenience and continuity of care," Dr. Waldhausen said.

"But what makes our center truly unique are research and educational opportunities here at Hershey Medical Center, which lead our investigators to an improved

understanding of the treatment and prevention of cardiovascular disease."

Dr. Leonard S. Jefferson, professor and chair of cellular and molecular physiology, and interim associate dean for academic affairs, research and graduate studies, will head a research committee of more than 50 investigators in cardiovascular physiology, diagnostic research and surgical and pharmacological intervention research. This involves more than 57 projects in 31 separate laboratories at Hershey. Hershey Medical Center investigators hold more than \$5 million in funded research projects for cardiovascular disease.

The cardiac transplantation program, initiated in 1984, is well established. In 1989, the heart transplantation program won approval by the federal Health Care Financing Administration, and is one of only 45 programs in the nation that qualifies for Medicare reimbursement.

Focus on the arts

Odyssey on WPSU

Ukrainian poet Lina Kostenko and her translator, Michael Naydan, associate professor of Slavic languages, join host Leonard Rubinstein on the next episode of "Odyssey Through Literature."

"A lot of people from the Ukraine say that the language is tongue, sweet to the ear, melodious," Ms. Kostenko says. "But I write in a different language. I write in that Ukrainian language which has a dramatic quality, which contains the entire essence of the soul."

Once banned in the Soviet Union, Ms. Kostenko's poetry is now praised there: Dr. Naydan's volume of translations, *Wandering at the Heart*, will be the first to make her work known to an English audience.

"Odyssey Through Literature" is produced by the Department of Comparative Literature in the audio-production studios of WPSU-TV. It airs Wednesdays at 12:30 p.m. on WPSU, 91.1 FM.

The arts on Channel 3

Metropolis Theatre celebrates its 20th anniversary this month on public television. Nine weeks of specially selected programs will be presented and introduced by Alstair Cooke, host of the series since its debut.

At 9 p.m. Sunday Jan. 20, an episode of

"The Flame Trees of Thika," starring Gregory Mills, Holly Aird and Ben Cross, takes viewers back to Africa where an appealing English youngster and her parents are transplanted onto a coffee plantation.

Filmed on location in Kenya, "The Flame Trees of Thika" pits the optimism of determination with the good will of the Grants against the frustratingly strange and frequently dangerous new milieu of Thika.

Saxophone quartet

Saxophobia, a saxophone quartet from the School of Music, will perform in concert at 12:10 p.m. Thursday, Jan. 24, in Eisenhower Chapel at University Park.

The 20-minute concert is part of the Bach's Lunch Concert Series sponsored by the School of Music and the University Lutheran Parish.

The program will include selections from Kurt Weill's "Three Penny Opera" and selections by J.S. Bach. The quartet consists of School of Music faculty member Dan Yoder and three of his students.

English trip

Due to the University's holiday schedule, the deadline for registering for a two-week trip to the famed Three Choirs Festival in England has been extended to Feb. 5.

The tour, hosted by James C. Moeser, organist and dean of the College of Arts

and Architecture, will be Aug. 15-26. The group will stay in Hereford at the Green Dragon Hotel, a restored hotel of the Trust House Four group.

The tour will include six orchestral concerts, featuring the Royal Liverpool Philharmonic and other musical groups from the festival, and a concert by Dr. Moeser and Susan Dickerson, a faculty member in the School of Music.

In addition, there will be trips to nearby sites, including Gloucester Cathedral, the Royal Worcester porcelain museum and factory, Oxford and London.

Reservations are limited to 20 and will be accepted until Feb. 5. For more information, write to the Alumni Office, 114 Arts Building, Penn State, University Park, Pa. 16802 or call (814) 863-2142.

Classical orchestra

The Mozartean Players Classical Orchestra, conducted by Steven Lubin, will perform at 8 p.m. Saturday, Jan. 26, in Schwab Auditorium at University Park a part of the Mozart 200 festival presented by the Center for the Performing Arts.

Instead of using a standard grand piano, strings and woodwinds, the 20-member ensemble recreates the classical sounds with a forte piano and original 18th-century violins, oboes, French horns and flute. The sound is much lighter.

Founded in 1981 by fortepianist and scholar Steven Lubin, the group made its debut in Alice Tully Hall and often plays at the Metropolitan Museum of Art in New York.

Their program for the Penn State concert will include two piano concertos and Mozart's Symphony in A major, K.201.

As part of Artistic Viewpoints, a free lecture series, Mr. Lubin will discuss Mozart and his work at 3 p.m. on the afternoon of the concert in the Greenroom in Eisenhower Auditorium.

Tickets are available from Eisenhower Ticket Center, open Monday through Saturday, 8:30 a.m. to 4:30 p.m. Call (814) 863-0255.

The arts at...

Berks Campus

Sculpture by artist David Cerulli will be on exhibit in the Freyberger Gallery from Sunday, Jan. 20, through Wednesday, Feb. 20. An opening reception will be held at 3 p.m. Jan. 20, with a collaborative dance performance at 4 p.m. by the Elysian Dance Company of Philadelphia.

Mr. Cerulli's sculptures speak of movement, change, nature's beauty and mysticism. The collaborative dance adds the human element as dance interpreters and expands consciousness of the sculptor's work.

Museum of Anthropology to be named in honor of Dr. Matson

The University's Museum of Anthropology will be named the "Matson Museum of Anthropology" in honor of Frederick R. Matson, professor emeritus of archaeology, who is internationally recognized as a founder of scientific ceramic archaeology.

Dr. and Mrs. Matson have provided generous financial support to the museum and have been instrumental in establishing the Museum of Anthropology as it exists today," said Dr. Theodore E. Kiffer, interim dean of the College of the Liberal Arts. The Matsons are members of the Mount Nittany Society.

The museum, part of the College of the Liberal Arts, houses one of the world's largest collections of folk art and material items from Afghanistan and one of the top collections worldwide of handmade folk pottery from the late 19th and early 20th centuries. It was moved to its current location on the second floor of Carpenter Building at University Park in 1987.

Dr. Matson, who retired in 1978, is especially known for the scientific study of ceramics and ceramic ecology, relating modern village ceramic techniques to ancient archaeological ceramics, particularly in Greece and the Middle East.

He was instrumental in Penn State's acquisition of the DeForest Collection, a major ceramic collection of 2,300 pieces that document in many cases the last stage

of village pottery production. He has also been instrumental in increasing support for the museum from foundations, friends and alumni.

Early in his career, he was on the faculty of the University of Michigan, an assistant ceramic engineer for the National Bureau of Standards and head of the glass section in the Armstrong Cork Co. research laboratories in Lancaster.

Dr. Matson joined the Penn State faculty in 1948 as professor of ceramics, was named professor of archaeology in 1953 and research professor of archaeology in 1966. From 1957 to 1966, he served as an assistant and associate dean for research and graduate study in the College of the Liberal Arts and as director of the University's Social Science Research Center.

He received his B.S. in ceramic engineering from the University of Illinois and his M.A. in anthropology and Ph.D. in ceramic archaeology from the University of Michigan.

President of the Archaeological Institute of America in 1975-76, he received their Pomerance Award for Scientific Contributions to Archaeology in 1981. He is a Fellow of the Society of Antiquaries, London, the American Anthropological Association, the American Association for the Advancement of Science and the American Ceramic Society.

University Park Calendar

January 17--
January 27

Special Events

Thursday, January 17

Red Cross blood drive, noon-5 p.m., Paul Robeson Cultural Center.
Bach's Lunch Concert, 12:10-12:30 p.m., Eisenhower Chapel, Penn State Tubaphonium Ensemble.
Student Counselors/Campus Life Assistance Center, panel discussion 7 p.m. HUB Assembly Room, "A Military Draft and Penn State: It Would Change Your Life! Let's Talk!"

Friday, January 18

Commission for Women, meeting, 10 a.m.-noon, 350 Hammond.

Geog. Coffee Hour, 4 p.m., 319 Walker Art Goldschmidt on "The Gulf: 3"

Shaver's Creek, 7-9 p.m., Owl Prowler. Call 863-2000

Saturday, January 19

Shaver's Creek, 12:30 p.m., Animals in Winter. Call 863-2000.

Center for the Performing Arts, 8 p.m., Eisenhower Aud. NYC Opera National Co., "The Marriage of Figaro." Also, 7 p.m., Greenroom. Artistic Viewpoints Lecture on the opera by Bruce Trinkle.

Recital, 8 p.m., Recital Hall, Music Bldg. Lois Dahan, violin

Sunday, January 20

Ebony and Ivory Week through Jan. 26.

Monday, January 21

Comp. Lit. Luncheon, 12:40-1:30 p.m., 101 Kern. Junko Matoba, College of the Sacred Heart, Tokyo.

Martin Luther King Jr. Day observance, 4 p.m., Eisenhower Aud.

Recital, 8 p.m., Recital Hall. Timothy Shafer, piano.

Contemporary Scholarship on Lesbian and Gay Lives, 8 p.m., HUB Assembly Room. Christie Balka, author, on "From Twice Cursed to Twice Blessed: Constructing a Jewish Lesbian and Gay Identity."

Wednesday, January 23

Late registration deadline, course drop/add deadline.

School of Music, 8 p.m., Recital Hall. The Pa. Brass Works.

Thursday, January 24

Bach's Lunch Concert, 12:10-12:30 p.m., Eisenhower Chapel. Saxophone quartet.

Friday, January 25

Geog. Coffee Hour, 4 p.m., 319 Walker Jerome Williams on "Ethnic Stereotypes in Advertising."

Saturday, January 26

Shaver's Creek, Wonders of Winter Walk, 1-3 p.m., Call 863-2000.

Center for the Performing Arts, 8 p.m., Schwab Aud. The Mozartean Players.

Sunday, January 27

Shaver's Creek, The Winged Hunters, 12:30 p.m., Call 863-2000.

The Graduate Research Exhibition will be held March 22-23 in the Kern Graduate Building lobby. See story on page 3.

Edition, Saturday and Sunday, 11 a.m.-1 p.m., "Odyssey Through Literature," 12:30 p.m., Wednesdays, with S. Leonard Rubinstein.

Conferences

Continuing Education

Keller Building

Jan. 22, Pa. Bar Institute. Shirley Hendrick, chair; Jerri Milson, coordinator.

Jan. 23, Dental Seminar. Carl Addis, coordinator.

Jan. 26, Greek Leadership Conference. Bill Sterner, coordinator.

Seminars

Thursday, January 17

Physics Colloquium, 3:30 p.m., SS Osmond Lab. David Pritchard, MIT, on "Atom Optics."

Gerontology Center Colloquium, 4-5 p.m., 100 Mitchell. Chris Himes on "Physical Health of the Rural Elderly: The Significance of Individual and Place Characteristics," and Dan Lago on "Medicine Use Among the Rural Elderly: Archival Research Strategies."

Monday, January 21

EPF, 4 p.m., 339 Davey Dr. Zvi Bern, Univ. of Pittsburgh, on "A New and Efficient Technique for Perturbative QCD Loop Computations."

Wednesday, January 23

History Department Colloquium, 4 p.m., Eisenhower Chapel. Dr. Eugene N. Borza on "Who Were the Macedonians? A Question of Balkan Ethnicity."

Thursday, January 24

Bright Informal Lecture Series, 3:30-4:30 p.m., 222 Bouckie Dr. James L. West on "Frustrating in Belgium and Cambridge."

Physics Colloquium, 3:30 p.m., SS Osmond Lab. Dr. John J. Hall, National Institute of Standards and Technology, on "Precision Metrology Using New Ideas in Laser Technology."

Mechanical Engineering, 4 p.m., 103 Mechanical Engineering. Dr. Oscar Manley, U.S. Dept. of Energy, on "Approximate Inertial Manifolds and Effective Viscosity in Turbulent Flow."

Gerontology Center Colloquium, 4-5 p.m., 100 Mitchell. Mary L. Ferrell, Larry D. Gamm, Diane Brannon on "Institutional Anchors in the Continuum of Care for the Rural Elderly," and Diane McLaughlin, Leif Jensen on "Employment Adequacy and Employment Transitions Among Metro and Nonmetro Elderly: Implications for Health Status, Retirement Paths and Post-Retirement Poverty."

Reflects an international perspective

Center opens at Penn State Harrisburg

The Penn State Harrisburg Center for Economic Education opened this month.

According to Ruth Leventhal, provost and dean of Penn State Harrisburg, the Center for Economic Education will increase understanding of the American economic system by providing programs and services for public and private school teachers, curriculum directors, and students in southeastern Pennsylvania.

Jacob De Rooy, director of the new center, said it "will focus on providing resources for teachers of classes from the kindergarten through the 12th grade who want to strengthen their own, and their students' knowledge of economics. Students are never too young to begin learning

about the businesses they see around them and about the businesses that will someday employ them."

The Center will eventually serve an eight county area. It will be one of ten regional centers in the state that are partially supported by the Pennsylvania Council on Economic Education.

One of the Center's services will be to maintain a library of books, booklets, videotapes, brochures, newsletters and other materials that can be used by teachers to help them design their classes. The Center also will provide a variety of workshops and credit courses for teachers, as well as consulting and information services.

"All Things Considered," Monday, Friday, 5-6:30 p.m.; Saturday and Sunday, 5-6 p.m.; Morning Edition, Monday-Friday, 6-8 a.m.; Weekend

Appointments

Rosanna M. O'Neil has been appointed chief of the Cataloging Department in the University Libraries.

Prior to joining the University staff, Ms. O'Neil was a marketing representative for OCLC, the Online Computer Library Center in Ohio.

Her professional experience includes library positions at the Georgia Institute of Technology, the University of Virginia, and Ohio State University. In addition, she was a visiting assistant professor, cataloging instructor for Kent State University, School of Library Science, Columbus Extension Program.

Ms. O'Neil completed her undergraduate studies at Gannon University, Erie, and holds an M.L.S. from the University of Pittsburgh, School of Library and Information Science.

Carl H. Wolgemuth, professor of mechanical engineering and associate dean for undergraduate studies in the College of Engineering, has been appointed acting

Rosanna M. O'Neil

director of the Leonhard Center for Innovation and Enhancement of Engineering Education.

Carl H. Wolgemuth

The Leonhard Center, a part of the College of Engineering and established with a \$4 million gift from William E. and

Wyllis Leonhard of Pasadena, Calif., promotes new approaches in the development and delivery of innovative engineering curricula and programs.

Dr. Wolgemuth, who is chairing the nationwide search for a permanent director, began his academic career as an instructor of mechanical engineering at Ohio State University in 1956. He was appointed assistant professor of mechanical engineering at Penn State in 1963 upon receiving his Ph.D. from Ohio State University.

He was promoted to professor in 1976 and became the College of Engineering associate dean for undergraduate studies in 1984. He also served as acting head of the Department of Mechanical Engineering (1983-84) and as associate dean for administration and planning (1987-88).

A recognized expert in thermodynamics, he is the author of numerous scientific papers and has co-authored a textbook.

Private Giving to Penn State

Penn State National Development Council appointed

Trutes have approved the appointments of initial members of the new Penn State National Development Council.

Members will provide volunteer leadership at the highest level for major philanthropic activities and assistance in attracting gifts from alumni, friends, corporations, foundations and other private sources.

The council succeeds the executive committee of the Campaign for Penn State as the University's chief fund-raising advisory body. The Campaign ended June 10, 1990 after raising \$352 million.

"Although we are no longer engaged in a capital campaign, these individuals will bring to Penn State a diversity of experience and talents that will help us to maintain the Campaign's momentum," President Thomas said. "They share a deep commitment to the University and an understanding of how private giving supports academic excellence."

The following appointments were approved:

— **Edward Anchel** of Milford, president of Sparkomatic Corp.

— **Cynthia A. Baldwin** of Pittsburgh, judge of Allegheny County's Court of Common Pleas

— **Richard H. Bard** of Denver, Col., chairman and chief executive officer of Computer Land International

— **Victor G. Beghini** of Houston, president of Marathon Oil Co.

— **Louis R. Benzak** of New York, president of the investment firm of Spears, Benzak, Salomon

— **Harvey F. Brush** of San Francisco, retired executive vice president of Bechtel Group

— **Marian U. Coppersmith** of State College, president of the Barash Group

— **Robert J. Day** of Chicago, retired board chairman of USG Corp.

— **William F. Dietrich** of Reading, president of Dietrich Milk Products

— **Galen E. Dreifelbis**, State College developer

— **Robert E. Eberly** of Uniontown, board chairman of Eberly & Meade Inc.

— **Lawrence G. Foster** of Westfield, N.J., public relations counsel

— **Sidney Friedman**, State College developer

— **William A. Gettig** of Spring Mills, president of Gettig Pharmaceutical Instruments Corp.

— **Bernard Hankin** of Exton, president of the Hankin Group

— **Edward R. Hintz**, president of the New York investment firm of Hintz, Holman, & Heckscher Inc.

— **Arnold S. Hoffman**, managing director of Middle Market Group Inc. of Philadelphia

— **J. Lloyd Huck** of New Vernon, N.J., chairman of the board of Nova Pharmaceutical Corp.

— **Michael J. Hudacek** of Plymouth, attorney

— **Melvin Jacobs** of New York, chairman and chief executive officer of Saks Fifth Avenue

— **James P. Jimirro** of Los Angeles, president of J2 Communications

— **Edward P. Junker III** of Erie, chairman and chief executive officer, Marine Bank

— **Robert E. Kirby** of Pittsburgh, retired board chairman and chief executive officer of Westinghouse Electric Corp.

— **Judith A. Klein** of Philadelphia, civic leader

— **William E. Leonhard** of Pasadena, Calif., retired chairman and chief executive officer of the Parsons Corp.

— **Anne Hallows Miller** of Salisbury, Md., trustee of the Hallows Foundation

— **Robert W. Moore** of Morristown, N.J., retired president of Financial Executives Institute

— **Arthur J. Nagle** of New York, chairman of Vestar Capital Partners

— **Barbara R. Palmer**, State College civic leader

— **Joseph V. Paterno** of State College, Penn State head football coach and professor of physical education

— **Suzanne Paterno**, State College civic leader

— **Ralph E. Peters** of Camp Hill, president and chairman of Benetec Associates

— **Henry D. Sahakian** of State College, chief executive officer of Unico Corp.

— **William A. Schreyer** of New York, chairman and chief executive officer of Merrill Lynch & Co.

— **Robert G. Schwartz** of New York, president, chairman of the board and chief executive officer of Metropolitan Life Insurance

— **Raymond N. Shibley** of Washington, D.C., attorney and partner in Leboeuf, Lamb, Leiby and Macrae

— **Samuel I. Sidewater** of Bensalem, executive vice president and director of merchandising for Charming Shops Inc.

— **Philip H. Sieg** of State College, chairman of the Sieg Financial Group

— **Frank P. Smeal** of New York, limited partner with Goldman, Sachs & Co.

— **Obie Snider** of Imbler, managing partner of Jennings, Brook Farms

— **Alvin L. Snowdens** of Lock Haven, partner in the law firm of Lugg, Snowiss, Steinberg & Faulkner

— **Cecile M. Springer** of Pittsburgh, president of Springer Associates

— **John T. Steimer** of Tidulou, retired president of Industrial Terminal Systems and Penn Glenn Oil Co.

— **David L. Tressler** of Scranton, chairman of Northeastern Bank of Pennsylvania

— **William L. Weiss** of Chicago, chairman and chief executive officer of Ameritech

— **Verne M. Willaman** of Sedona, Ariz., retired president and chairman of Ortho Pharmaceuticals

— **Quentin E. Wood** of Oil City, board chairman of Quaker State Corp.

— **Thomas P. Woolaway** of New Brighton, president of Tuscarora Plastics.

The council will hold its first meeting May 3 at University Park.

Books available

The Penn State Bookstore on Campus has several copies of 1989 editions of *Book-In-Print* available to donate to a department or individuals, on a first-come, first-served basis.

The editions are: *Paperbound Book-In-Print*, 1989, Title Index, *Books-In-Print* (hardbound), 1989, and *Publishers Index, Books-In-Print*, 1988-89. Interested parties are encouraged to come to the general book department at the bookstore.

New survey will measure campus safety

Police Services is mailing 5,000 surveys to students, staff and faculty at University Park to measure campus safety and unreported crime.

The survey is conducted about every five years to determine both the perception of safety that the public has about the campus, and to detect trends that may not be reflected in reported crimes.

Every 10th person at University Park has been selected to receive a survey. Management Services and the Registrar created a randomly selected mailing list of students, staff and faculty. The survey itself does not in any way identify the

respondent, but does ask age, sex,

affiliation, and other demographic information. The questionnaires were be distributed beginning Jan. 15.

The 30-question survey uses the standard test answer form provided by University Testing Services. A comment page is included for persons who wish to comment about crime and police service.

Police Services plans to publish the survey results, and make the data base available to the University community through the Computer Center's CMS SPSS-X statistics program.

Promotions

Clerical

Lisa D. Smith, to secretary B in Health and Human Development.

Penny Slaughter, to clerk A in Research and Graduate School.

Lois S. Stevens, to senior clerk, data processing in Office of Budget and Resource Analysis.

Carole A. Stoltz, to clerk, patient inquiry at Hershey.

Annette L. Struble, to receptionist-typist in Division of Development and University Relations.

Patrick K. Miller, to group leader, facility renovation at Hershey.

James E. Newman, to building services attendant in Engineering.

James I. Richtscheit, to operations and distribution technician A in Continuing Education.

Geraldine M. Rose, to foods lab and equipment attendant in Health and Human Development.

George K. Summy, to maintenance mechanic A at Hershey.

Raymond D. Tice, to groundskeeper, landscape A in Office of Physical Plant.

Jose A. Vicente, to maintenance worker/mechanic at Berks Campus.

James K. Lucas, waste water treatment plant operator in Office of Physical Plant.

Patrick K. Miller, to group leader, facilities renovation at Hershey.

Tammy J. Moeller, to utility worker at Hershey.

Gary P. Osborne, to maintenance worker, utilities piping in Office of Physical Plant.

Michael F. Perate, to maintenance worker, general B at Berks Campus.

Joseph A. Serafini, to mailing room assistant in Agriculture.

Brenda R. Snyder, to residence hall utility worker in Housing and Food Services.

Allan R. Thal, to food preparer B in Housing and Food Services.

Technical Service

Scott L. Bowes, to carpenter A in Office of Physical Plant.

Michelle Carapellotti, to food service worker B at Beaver Campus.

Leslie Carlson, to laboratory attendant A in Agriculture.

Mark B. Crowley, to storeroom clerk B in Office of Physical Plant.

Robert B. Gruver, to maintenance worker, at Wilkes-Barre Campus.

Jon D. Johnson, to receiving clerk at Hershey.

Daniel R. Mark, to sheetmetal worker A in Office of Physical Plant.

G. Edward Miller, to plumber A at Penn State Harrisburg.

Beaver Stadium expansion

Construction continues on the \$12.1 million expansion of Beaver Stadium. The expansion project, which will increase seating capacity of the stadium to approximately 94,000, is expected to be completed in time for the 1991 football season. (Photo Greg Grieco).

Obituaries

Donald W. Girouard, associate professor of landscape architecture, died Dec. 8 at the age of 57.

An Air Force veteran of the Korean Conflict, he was a graduate of the University of Wisconsin with a bachelor of science degree in landscape architecture, and a graduate of Harvard University with a master's degree in landscape architecture. He joined the University faculty Sept. 18, 1972.

A member of the American Society of Landscape Architects, he was a past president of the Pennsylvania Association for Children with Learning Disabilities, past vice president of Sigma Lambda Alpha, past secretary of the West Virginia State Board of Landscape Architects and past president of the West Virginia ASLA.

Kenneth V. Manning, professor emeritus of physics, died Dec. 18. He was 91. Dr. Manning joined the University faculty as assistant professor of physics in 1945 and was promoted to professor of physics in 1963. After his retirement in 1965, he taught physics at the University of Khartoum, Khartoum, Sudan.

From 1935 to 1941, he served as a member of the faculty at the University of

Wichita, and from 1929 to 1935 was a member of the faculty at Cornell University. A graduate of Park College, Kansas City, Mo., he received the master of science degree from the State University of Iowa, and the Ph.D. in physics from Cornell.

The co-author of four books, he was a member of Sigma Xi, Gamma Alpha, Sigma Pi Sigma, the American Physical Society, the American Association of Physics teachers, and the American Association of University Professors.

Bernard P. Taylor, retired executive director of the former Penn State Foundation, died Dec. 17 at the age of 80. He joined the University staff Aug. 1, 1952, and retired July 1, 1963.

Memorial service

A memorial service for **Dorothy V. Harris**, professor of exercise and sport science, will be held at 2 p.m. Friday, Jan. 25, in Eisenhower Chapel at University Park. She died Jan. 4. Members of the University and local communities are invited.

Faculty Senate News

The University Faculty Senate will meet at 1:30 p.m. Tuesday, Jan. 22, in Room 112 Kern Graduate Building at University Park.

Items to be discussed at the meeting:

- Proposed Changes in Senate Policy 67-00
- Comparisons of Student Retroactive Withdrawal Petitions
- Advanced Standing with Academic Renewal
- Deletion of Senate Policy 63-20-Exemption to Physical Education Requirements
- Instruction for New Graduate

Students in Teaching and the English Language

— Faculty Census Report—1991-92

Items discussed at the Dec. 4 meeting:

— NCAA Legislative Proposals—1991 Convention

— Status of Department of General Services Construction Programs

— Legislation to Establish the University Subcommittee on Cultural Diversity in the Curriculum

— Campus Crime Security Act

— Resolution on Travel Service

Policies

— Progress Report on Task Force on Undergraduate Education

News in Brief

Request for proposals

The Center on Aging and Health in Rural America is requesting proposals for the second round of pilot research projects it will fund.

The research projects should focus on issues related to the health and effective functioning of older rural populations in the United States.

The competition is open to all University faculty. Deadline for submission of a letter of intent is Feb. 28. Final proposals are due April 8. For a copy of the guidelines, call the center at 863-2848. Questions about the competition should be directed to Diane McLaughlin, 22 Burrows Building.

Financial aid workshops

The Returning Adult Center is sponsoring a program for returning adult students on "How to Apply for Financial Aid" at p.m. Jan. 23 and 12:30 p.m. Jan. 29 in 329 Boucke Building at University Park.

The program will focus on: overview of financial aid resources; overview of eligibility criteria; instructions on the application process. (Bring your financial aid application with you.)

To enroll or for more information, call the center at 863-3887 or stop by 323 Boucke. Reservations will be accepted on a first-come, first-served basis.

Daycare facilities

The spring 1991 edition of the State College Area Daycare Facilities listing is now available. Updated each semester, this publication includes information on about 30 different facilities which provide childcare in the immediate vicinity of University Park.

Information includes hours of service, ages served, cost, enrollment size, and services provided. A map also has been incorporated into the latest edition to show the relative location of the facilities.

The pamphlet, produced by the Graduate Student Association, is available free of charge from the GSA office in 111B Kern Building.

Parenting course

Through the Individual and Family Consultation Center of the College of Health and Human Development, a 12-hour parenting course will be offered for parents interested in learning how to discipline and communicate more effectively with their children ages 3 to 12 years.

The course, free of charge, will be offered at lunch hours on campus and in the evenings at several off-campus sites. For more information or to enroll, call the Consultation Center, University Park, 863-1751, 8 a.m. to 5 p.m. Classes will begin Jan. 21.

Postage rate increase

The U.S. Postal Service will raise the postage for all classes of mail effective Feb. 3. This increase will be approximately 20 percent for First Class Mail and 25 percent for Third Class Mail (bulk rate).

All University departments should plan accordingly when preparing to do any mailing, regardless of class. Mailing and Addressing Services will be happy to meet with your staff to discuss alternatives for processing your mail and may help reduce postage costs. Please call 865-4051 to make these arrangements.

Vehicle purchase reduction

While considerable uncertainty still exists to the situation in the Mid-East and the resulting impact on oil prices, gasoline prices have declined enough in the past month to allow Fleet Operations to reduce the Fleet Vehicle Surcharge, from 10% to 5% as of Feb. 1.

We are very pleased to be able to do this and are hopeful that if current trends in fuel prices continue we will be able to remove the remaining 5% surcharge within the next 30 to 60 days. We very much appreciate the understanding of University Fleet vehicle users and wish to thank them for their cooperation with this unfortunate but necessary program.

Personal leave policy revised

The University's change from mandatory to voluntary participation in medical coverage has made it necessary to revise the policy on personal leaves. Individuals who do not enroll or are not enrolled in medical coverage within 31 days of becoming eligible must provide evidence of insurability if enrollment is desired at a later date. This is necessary in order to guard against selection against the medical plan.

The practice of requiring proof of insurability will be extended to those individuals who take a personal leave of absence and elect not to be covered under the medical plan during the period of the leave. This change will apply with any leaves granted on Jan. 1 and later.

SERS Staff Office

The State Employees' Retirement System (SERS) has been opening, and will continue to open, field offices throughout the Commonwealth in order to better serve active and retired members of the retirement system. At the present time, field offices are located in Mountville, Wilkes-Barre, Seneca (northwest), Philadelphia and Pittsburgh.

A new field office, scheduled to open approximately April 1, will be located in State College, in the Hamilton Square Shopping Center on West Hamilton Avenue. Personnel in that office will serve SERS members who work in the following counties: Bedford, Blair, Cameron, Cambria, Centre, Clearfield, Fulton, Huntingdon, Juniata and Mifflin.

Faculty/Staff Alerts

The following services, which have been provided by the Employee Benefits Division of the Office of Human Resources, will be handled by the field office when it opens: Individual and group retirement counseling, retirement estimates and applications for retirement.

The Employee Benefits Division will continue to enroll new members in SERS, process beneficiary changes, handle withdrawal of retirement contributions for those not eligible for a pension, and process applications for purchase of prior service as well as military and out-of-state service.

The Employee Benefits Division also will continue to provide assistance and counseling to members of the Teachers' Insurance and Annuity Association (TIAA) retirement plan.

Occupational Privilege Tax

In order for the University to comply with the Occupational Privilege Tax regulations imposed by the various taxing districts, the \$10 tax will be deducted from full-time and part-time employees as soon as an employee's gross earnings exceed \$1,000 in 1991.

If, during the year, a person who has already paid the tax is hired, a copy of the payment receipt must be forwarded to the Payroll Office in order to avoid having the tax deducted again.

The Occupational Privilege Tax is not in force at all University locations.

Withholding reminder

The Payroll Office wishes to remind those employees who filed a Withholding Exemption Certificate - University Form W-4E - for 1990 that this certificate will expire Feb. 15 for taxpayers on a calendar year basis. The exemption claimed on Form W-4E must be renewed annually.

If you qualify and wish to continue your exemption, or if you are applying for the first time, you must file a new Form W-4E for 1991. You may claim exemption from withholding if you had no income tax liability for 1990 and if you anticipate no income tax liability for 1991. Forms are available from the Payroll Office, 307 Rider Building.

In general, the elimination of the withholding applies only to those working part time. The principal advantage is that it will eliminate the need to file an income tax return at the end of the year to obtain a refund of money withheld.

Courses for faculty and staff

The Human Resource Development Center has openings in the following courses. Call the center at 865-3410 for registration information.

Assertiveness Focuses on development of positive assertive behavior; meets from 9 a.m. to 4 p.m. on Wednesday, Jan. 30; cost: \$55.

Career Planning Participants will make a self-assessment of career-related interests,

values, and abilities with the use of various computer-based career planning assessment measurements; meets on Mondays, Feb. 4 and 11 from 8:30 to 11:45 a.m.; cost: none.

Burnout Explores possible alternatives and solutions; meets from 9 a.m. to 4 p.m. Tuesday, Feb. 5; cost: \$55.

Telephone: Putting Your Best Voice

Forward Designed to improve your telephone communications skills. Applicable to anyone who answers or deals with people on the telephone; meets from 9 a.m. to noon Wednesday, Feb. 6; cost: \$35.

Writing Skills for Secretaries Designed to open new opportunities for secretaries and clerical personnel through an increased awareness of the importance and functions of the communications process and the development of improved writing skills. class meets for eight sessions; meets from 9:30 a.m. to noon Thursdays, starting Feb. 7 to March 28; cost: \$95.

Performance Appraisal For supervisors of staff exempt and staff non-exempt employees. The program will cover the objectives of performance appraisal at the University; meets for one Thursday, Feb. 7, 14, 21, or 28; cost: none.

Essentials of Management-Supervisory

Management I An AMA video/workbook program designed for supervisors with first-line management responsibilities, suitable for any supervisor; meets for six sessions, Tuesdays and Fridays, starting Feb. 12 to March 1, from 8:30 to 11:45 a.m.; cost: \$125.

Success Series

Formerly the Excel course, Utilizes American Management Association materials in a series of courses specifically designed with the clerical (support staff) supervisor in mind; covers every area of administration. Entire series meets for six sessions; cost: \$35 per course or \$150 per entire series.

The Success Series includes:

Working With Others Skill building related to establishing and maintaining working relationships; meets from 1:15 to 4:30 p.m. Tuesday, Feb. 12.

Working Effectively with Different Managerial Styles Learn how styles can influence work productivity; meets from 1:15 to 4:30 p.m. Friday, Feb. 15.

Making the Most of On-The-Job Changes Learn how to be positive and help others to do the same; meets from 1:15 to 4:30 p.m. Tuesday, Feb. 19.

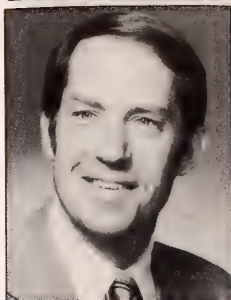

Developing On-The-Job

Communication Skills Improve your skills and learn to say what you mean and mean what you say; meets from 1:15 to 4:30 p.m. Friday, Feb. 22.

Using Managerial Techniques On-The-Job Learn and practice the implementation of up-to-date managerial techniques; meets from 1:15 to 4:30 p.m. Tuesday, Feb. 26.

Self-Development Learn to ensure that self-development occurs; meets from 1:15 to 4:30 p.m. Tuesday, Feb. 26.

Partings

Thomas B. Davinroy

Thomas B. Davinroy, associate professor of civil engineering, has retired after 26 years service.

A graduate of Princeton University, he earned his doctorate of engineering from the University of California in 1960. He joined the University faculty as assistant professor of civil engineering in 1964.

In the College of Engineering his area of expertise was airport planning and design, transport noise, traffic flow and effects of human behavior on design. Undaunted by a loss of hearing midway in his career, Dr. Davinroy continued full-time research and teaching responsibilities. He also served on the Penn State Learning Disability Advisory Committee and several departmental committees.

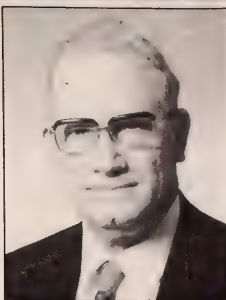

Dr. Davinroy is a member of American Association of Airport Executives and the American Society of Civil Engineers, having served as secretary on the Landing Area Facilities Committee and the ASCE National Technical Advisory Committee. He served on the Pennsylvania Statewide Aviation Systems Plan Advisory Committee for the Pennsylvania Department of Transportation. His civic activities included work as secretary for the Centre County Pa. Airport Authority and membership in the State College Area Chamber of Commerce.

Dr. Davinroy currently is traveling and living in California.

Roger Penneck Jr., professor of soil genesis and morphology in the College of Agriculture, has retired after 26 years service. The highlight of his Penn State career, he says, was teaching students.

Dr. Penneck has taught and advised students so well that he has received widespread recognition for his efforts. Among his honors are the Northeast Branch of Agronomy Society Teaching Award, the Penn State Amoco Foundation Teaching Award, the Golden Key National Honor Society Outstanding Faculty Award and the National Association of Colleges and Teachers of Agriculture Outstanding Fellow Teacher Award.

In 1986 he was the first recipient of the Penn State Alumni and Student Award for

Roger Penneck Jr.

Excellence in Teaching. He also won the 1990 Centre County Wally Thompson Memorial Conservation Award largely because of his teaching dedication.

Dr. Penneck joined the Penn State faculty in 1964. From 1967 to 1972 he and a team of Penn State scientists lived in Maharashtra, India, working to increase food production after a two-year famine.

He has been active in advising the Agronomy and Environmental Resource Management clubs and coaching the soil judging teams. A course begun by Dr. Penneck in 1986 to enhance the teaching skills of new faculty members and graduate students.

Dr. Penneck's retirement plans include travel, photography, gardening and woodworking. He also plans to practice gene cutting on some mineral specimens he collected during his residence in India.

Jane Pollock has retired from the Department of Microbiology and Immunology at the Hershey Medical Center after 21 years service.

One of the first persons hired in the department in July 1969, she applied for a job at the Medical Center after she and her husband Paul decided 14 years as houseparents at the Milton Hershey School was enough. "I really did not know what to expect (at the new job). I knew because I had no experience. I would have to train on the job," she recalls.

Today she is doing the training. She has served as media sterilization group leader since 1983. In the media room, they prepare solutions for cancer research. When she trains her staff, she emphasizes the importance of the work.

During her retirement, Ms. Pollock plans to continue her exercise program of water aerobics, walking, and stationary biking. She also plans to travel with her husband who also is retired.

Robert D. Shipman, professor of forest ecology, has retired with emeritus status after 27 years service.

Dr. Shipman has taught a wide variety of undergraduate and graduate forestry-related courses, has been an active supporter of

Jane Pollock

student organizations and has received numerous awards. Including the Pennsylvania Forestry Association's Joseph T. Rothrock Conservation Award this fall for his significant contribution to public recognition of state forest resources.

The Allegheny Society of American Foresters named him "Forester of the Year" in 1975 and recently honored him with the 1990 Outstanding Service to Forestry Award.

A native of West Virginia, he earned his bachelor's and master's degrees in forest ecology from the University of Michigan and his doctorate from Michigan State University. He was employed by the U.S. Department of Agriculture and served as an associate professor of forestry at Clemson University from 1958 to 1963.

Dr. Shipman and his wife, Louella, plan to remain in the State College area, and he looks forward to fishing, hunting and playing tennis.

Both of the Shipman's children are Penn State alumni. Their son, Karl, recently started working in Pattee Library. Their daughter, Nancy, who earned both her bachelor's and master's degrees at Penn State, is now working for Geisinger Medical Center in Danville.

Bruce Shobaken, professor of art, has retired with emeritus status after 32 years service.

A printmaker, Professor Shobaken came to the University in 1958. Since then, he has served as acting head of the Department of Art several times and served as head of printmaking from 1973-88. He also served as head of the graduate program in studio art from 1983-87.

His excellence in teaching has been recognized recently with three major teaching awards. In 1989, he received the Golden Key Outstanding Teacher Award and the Arts and Architecture/Performing Arts Constituent Society Faculty Teaching Award. In 1990, he received the George W. Atherton Award for Excellence in Teaching from the University.

Professor Shobaken was a visiting artist at Thiel College, in the School of Art at Thiel College, in the School of Art at the Art Institute of Chicago and in the

Bruce Shobaken

Department of Art at the University of Minnesota.

He has had 31 one-man shows in 12 states. His work has been selected for more than 100 juried and invitational exhibitions, including the National Print Exhibition at the Brooklyn Museum, the International Biennial Print Exhibition in Taipei, and the Society of American Graphic Artists Print Competition in New York.

Professor Shobaken received his bachelor's and his MFA degrees from the University of Minnesota. He also studied printmaking in Paris under a Fulbright grant.

Ronald W. Knight, patrol officer, Delaware County Campus, from May 19, 1980, until Oct. 2.

Margaret J. Sutton, nutrition advisor, Agriculture, from July 1, 1977, until Oct. 1.

Dorothy R. Wheeler, nutrition advisor, Agriculture, from July 1, 1977, until Oct. 1.

Zung-Ping Chang, research associate MRL/IRP, Research and Graduate School, from March 1, 1965, until Feb. 28, 1989, and from Aug. 1, 1989, until June 1, 1990.

Staff Vacancy

"01254, Administrative Assistant, Senior Vice President for Research and Dean of the Graduate School, Pennsylvania Transportation Institute, University Park Campus - Responsible to the director, Pennsylvania Transportation Institute, for assigned administrative duties related to the functioning of the Institute, including proposal preparation and (or) supervision of assigned staff and clerical personnel. Requires bachelor's degree or equivalent in business or related field plus over one year up to and including two years of effective administrative experience, including supervision. University budget and accounting experience required. proposal preparation experience preferred. STAFF GRADE 6

MBA program is cited by Business Week

The University's MBA Program is rated among ones that "could break through the top-tier barrier in the near future" by the latest edition of *Business Week's*, *Guide to the Best Business Schools*.

The MBA Program, part of the Smol College of Business Administration, was cited by *Business Week* writers for its good faculty-student ratio, ground-breaking communications program, toughness and strong record with corporate recruiters.

The *Business Week Guide* is an extension of the magazine's annual national ranking of MBA programs. It includes a "top 20" determined by surveys of MBA graduates and corporate recruiters; a second tier of 20 schools determined by the strength of their recruiter-survey showing and standing among business school deans and other experts; and a third tier this year a group of 11 institutions with strong regional reputations.

Penn State was grouped in the second tier, which had no rank order.

In its write-up, *Business Week* focused on the small size of the Penn State MBA program (160 per entering class, 320 total), which "allows administration and faculty to get to know students." What sets Penn State apart is its emphasis on communications, said *Business Week*, referring to a year-long multi-media communications course required of all MBAs.

Four Pennsylvania schools were among the 51 included in the *Business Week Guide*. Two private institutions, the University of Pennsylvania's Wharton School and Carnegie Mellon University, were second and ninth, respectively. In the top 20, The University of Pittsburgh's Joseph M. Katz Graduate School of Management, a public institution, was included among the second tier schools.

Registrar candidates sought

Warren R. Haffner has announced his retirement as University registrar effective June 30 after more than 33 years service.

Robert E. Dunham, vice president and vice provost, has praised the dedicated and effective service of Mr. Haffner and has appointed a Search and Screening Committee to conduct a national search to identify outstanding candidates for the position.

The committee chair is Gary Hile. Other members are Dennis Gougar, Janice Forrest, Melissa Kunes, E.R. Melander, Frank Miller, Ellen Perry, Lee Stout, James Stewart and a student to be designated. Gloria Briggs will serve as staff.

Qualifications for the position include: orientation and commitment to a large state university; demonstrated administrative competence; established professional

stature; demonstrated ability to communicate effectively with faculty, staff, students, parents, and alumni; an ability to work effectively with state, federal and institutional agencies and with University offices such as Admissions, Bursar and Student Aid; superior planning and budgeting skills; and a dedication to service.

Nominations and applications together with a letter of interest, curriculum vitae and three references should be sent to: Robert E. Dunham, vice president and vice provost, 417 Old Main, Box IC, University Park, Pa. 16802.

Applications received prior to Feb. 12 will receive first consideration. Dr. Dunham said he expected that it will be possible for the Search and Screening Committee to submit its recommendations before the end of March.

Staff Vacancies

The following vacancies for positions classified as staff exempt or staff nonexempt have been listed with the University. The brief statements for each vacancy are illustrative. They are not complete position descriptions. APPLY BY CALLING THE EMPLOYMENT DIVISION, 863-0304. Applications for these staff vacancies will be accepted until Jan. 24. DO NOT CONTACT THE AREA THAT HAS THE VACANCY. Applications for staff vacancies are considered in accordance with Fair Employment Practices (P9 1) and in compliance with the University's Affirmative Action Compliance Program without regard to race, color, religion, national origin, handicap or age (as provided by law) sex, or status as a disabled or Vietnam era veteran.

■01249, Construction Quality Representative, Office of Physical Plant, Construction and Design, Hershey Medical Center - Responsible to the project manager, Contract Administrator for the inspection of construction projects and day-to-day related coordination and monitoring of work, being performed by prime contractors and their sub-contractors.

Requires associate degree or equivalent plus two to four years of effective hospital construction and renovation experience at a supervisory level. THIS IS A FIXED TERM POSITION FUNDED THROUGH OCT. 30 1992. NOTE POSITION LOCATED AT HERSHEY MEDICAL CENTER. STAFF GRADE 0.

■01250, Coordinator, Undergraduate Academic Support Services, Eberly College of Science, Dean's Office, University Park Campus - Responsible to the associate dean for reading, instruction for providing advice on all matters affecting undergraduate students within the college. Oversee and coordinate delivery of academic advising services; develop training programs for faculty advisors and serve as resource for all college advising personnel. Requires master's degree, or equivalent, in counselor education or related field plus one to two years of effective experience in college-level academic advising, educational counseling, or student support services, preferably in a scientific field. STAFF GRADE 7.

■01251, Administrative Aide, Undergraduate Education, Black Studies Program, University Park

Campus - Responsible to director, Black Studies Program, for overall supervision of clerical employees, budget, programs course development, and program activities. Requires associate degree, or equivalent, plus over two years effective experience in related administrative and financial work. Excellent writing and communication skills required. STAFF GRADE 5.

■01252, Computer Operator, Computer and Information Systems, Management Services, University Park Campus - Set up computer for each program and operate keyboard. Requires high school graduate or equivalent with computer operator training, equivalent to two years of college, plus over one year up to and including two years of effective experience with data processing equipment. NOTE: THE OPERATIONAL SCHEDULE FOR THIS UNIT IS 24 HOURS PER DAY, SEVEN DAYS PER WEEK, INCLUDING HOLIDAYS. ASSIGNMENT TO ANY OF THE POSSIBLE SHIFTS SHOULD BE ANTICIPATED. STAFF GRADE 4.

■01253, Director, Computer and Information Systems, Computer Center, Penn State Harrisburg -

Responsible to the associate provost and dean of faculty for the management of computer systems planning, development, implementation operation as well as training in support of the academic needs of the campus. Requires master's degree or equivalent in a technical or managerial field relevant to computer systems and applications plus over three to four years of effective experience. Knowledge of programming languages, software packages, computer hardware including mainframe and micro computers as well as remote terminal operational and communications is essential. Instruction or training experience is desirable. STAFF GRADE 8.

Hershey

For the following position vacancies, apply directly to The Milton S. Hershey Medical Center. Attach resume with cover letter indicating the position vacancy code and forward to the Department of Human Resources, Hershey, or call the Hershey bid line at (717) 531-8531 by Jan. 24.

■16540-3, Surgical Technician,

Nursing/OR - Responsible to the RN circulating nurse/nurse manager for providing a sterile patient care operating room setting, for equipment and instrumentation set-up and operation, and providing surgical assistance during the operating room procedure. Must be a graduate of an approved school of surgical technology with up to and including 12 months effective experience. STAFF GRADE 3.

■16548, Nursing Manager Evening, Night, Department of Nursing Services - Responsible to the assistant director of nursing services for directing, supervising, coordinating and evaluating all activities of the Department of Nursing on assigned shift and/or area of responsibility. (Cover the house on the off shift). A master's degree plus one to two years of effective hospital nursing experience or bachelor's degree with two to four years of effective hospital nursing experience required. Registered professional nurse currently licensed by the Pennsylvania Board of Nursing also required. Medical-surgical nursing experience desired.

Additional vacancy is listed on page 11.

INTERCOM is published weekly during the academic year and every other week during the summer. It is an internal communications medium published for the faculty and staff of Penn State by the Office of Public Information, Room 312, Old Main, Phone 863-7317.

Two candidates to be selected for program

Administrative Fellows applications sought

Non-discrimination hearing scheduled

A public hearing to review an addition to the University's non-discrimination statement proposed by President Thomas will be held from 10 a.m. to 3 p.m. Thursday, Feb. 7, in Room 501 Keller Conference Center University Park.

The purpose of the hearing, called by the University Non-Discrimination Policy Review Committee of the University Faculty Senate, is to solicit testimony from University groups on the proposed addition to the University's non-discrimination statement, as well as to gather information on the appropriateness of adding a phrase to the statement prohibiting discrimination on the grounds of sexual orientation.

Based on the verbal and written testimony it receives, the committee will make a recommendation to the Senate for its deliberation.

The current non-discrimination policy, with President Thomas' proposed addition in parentheses, states, in part: The Pennsylvania State University, in compliance with federal and state laws, is committed to the policy that all persons shall have equal access to programs, admission, and employment without regard to race, religion, sex, national origin, handicap, age, or status as a disabled or Vietnam era veteran. (In addition, The Pennsylvania State University will take appropriate measures to protect all of its students and all of its faculty and staff from harassment, abuse, or assault; and bases all educational and employment decisions on an individual's abilities and qualifications without reference to personal characteristics that are not related to academic ability or job performance.)

Representatives of University groups may request time to testify at the hearing by contacting the Senate Office, Bigh Cottage at 863-0221 on or before Feb. 7.

Donald C. Rung is chairing the University Non-Discrimination Policy Review Committee. Members are: Janet Atwood, Shannon Burke, Donald Fahline, David Gold, Gordon Hamilton, Andrew Jackson Sr., Robert Pangborn, Robert Seeds, Paul Shellenberger and Nancy Tischler.

The Office of the President is pleased to request applications and nominations for the Administrative Fellows Program for 1991-92. Two Fellows are sought, one to serve under the mentorship of the executive vice president and provost of the University, and the other under the senior vice president for finance and operations-treasurer.

The Administrative Fellows Program provides career development opportunities for women and minority faculty and staff. By serving under the mentorship of a senior-level administrator, Fellows who are seeking the background necessary to compete at higher levels of administration will have an opportunity to broaden their perspectives and experience in higher education administration. Such an experience is designed to allow Fellows to become more effective in their existing positions within the University and to provide a base for them to consider advanced positions in the future.

Objectives of the program include:

- To identify women and minorities who have potential for effective leadership.

- To increase the Administrative Fellows' awareness of the complexity of issues facing higher education and to enhance

their understanding of the environment in which decisions are made

- To provide opportunities for Administrative Fellows to participate in a wide range of decision-making processes, learning activities, and program management so that they will be better equipped to understand the challenges of higher education administration upon completion of the fellowship.

Although completion of the program does not guarantee appointment to an administrative position at the University, persons who complete the program increase the pool of women and minorities interested in pursuing careers in University administration.

The selection criteria for Fellows are: full-time faculty or staff member; demonstrated success in their current position and interest in an administrative career; evidence of leadership experience and decision-making ability; ability to relate effectively with students, faculty, and staff, and an understanding and appreciation of cultural, ethnic and individual differences; willingness to accept a wide variety of assignments.

Women and minorities meeting these qualifications at all University locations

are strongly urged to apply. The successful candidate will be placed on leave of absence from her or his current position and continue to receive a regular salary. The starting dates of each fellowship may vary depending on the office and the Fellow's commitments.

The successful Administrative Fellow will develop a learning plan outlining activities for the year, in consultation with either the provost or the senior vice president for finance.

The Fellows program is competitive. A screening and interview committee will recommend candidates. Serving on the committee will be a representative from the Commission for Women, representatives from the offices where the Fellows will be placed, a past Fellow, and a representative from the Office of Human Resources.

Applications for the Administrative Fellows Program are available from the Office of Human Resources at 863-1387. Applications should be returned to Office of Human Resources, Box 0, Rider Building, as soon as possible, but not later than March 1.

Persons interested in more information may call Robert L. Kidder at 863-4606.

Martin Luther King Day observance

Marchers proceed through snowflakes to Eisenhower Auditorium at University Park where the University's observance of Martin Luther King Day was held. A program of readings by members of the local and University communities highlighted the celebration. (Photo: Greg Grieco).

Focus on Diversity

Martin Luther King Day observances detailed

Due to a computer error, the following were omitted from a roundup of Martin Luther King Day observances in the Jan. 10 issue of *Interim*.

Allentown—A program at noon Monday Jan. 21, will feature a panel discussion by three professionals from the local community. Panel members will discuss the significance of Dr. King to their professional lives and the work they do every day.

Penn State Erie, The Behrend College—A series of student vignettes commemorating Dr. King's

accomplishments will be presented from 4 to 5 p.m. Monday, Jan. 21, in Erie Hall. At 7:30 p.m. the college community will participate in a candlelight march. The Shiloh Baptist Church will present "Celebrating Through Song" at 8 p.m. in Reed Lecture Hall.

Fayette—The Fayette Campus observance, scheduled from 11 a.m. to 5 p.m. Monday, Jan. 21, will include a thematic panel discussion, black student achievement program, NAACP Youth Choir concert, and a specific exhibit. An all-faith ecumenical service, from 6:30 to 8 p.m.,

will feature the Laurel Highlands High School Choral. Theme of the day's program is "The Church and Society."

Wilkes-Barre—The Martin Luther King Jr. Committee of Wyoming Valley will host Rev. Deborah Moody, of the Pennsylvania Council of Churches, on Jan. 20 at Wilkes College. A student group exploring the philosophy of Dr. King will be held at noon, Jan. 21 in Fortinsky Auditorium at the Wilkes-Barre Campus. A discussion on "Minorities in the Media" will be held at noon, Jan. 23 in Fortinsky Auditorium.

Sexual orientation workshop scheduled

The College of Health and Human Development will sponsor a workshop on sexual orientation at 4 p.m. Monday, Jan. 28, in the Henderson Building Living Center at University Park.

The workshop is the second in a series of curriculum integration workshops developed by the college. The workshops are designed to provide college faculty with an opportunity to learn how cultural diversity issues can be integrated into the classroom.

Anthony R. D'Augelli, associate professor of human development, will give a slide presentation that traces lesbian and gay history. Faculty will participate in small group discussions on ways of making the classroom climate more accepting for gay, lesbian, and bisexual students.

The committee of Health and Human Development faculty who planned the workshop include **Dr. D'Augelli**, **Diane Brannon**, assistant professor of health policy and administration; **Marilyn Estridge**, assistant professor of exercise and sport science; **Patricia B. Koch**, assistant professor of health education; **Stanley P. Mayers Jr.**, associate dean for undergraduate studies; **Patrick Moreo**, associate director of the School of Hotel, Restaurant, and Institutional Management; and **Susan Youtz**, assistant director of the School of Nursing.

The workshop is scheduled to run from 4 to 6 p.m. in the Henderson Building Living Center.

WPSX program explores rap music origins

Rap City Rhymeology, airing at 11 p.m. Friday, Jan. 25, on WPSX-TV explores the origins, meaning and performance of rap music.

A video collage without narration, the program uses segments from rap music

videos and interviews with rappers, disc jockeys and writers. Together they create an up-to-the-minute portrait of the music that is emerging as the social statement of the 1990s, led by black urban youths.

Interviews include writer Ithamar Reed and "Davey D" Cook, and video segments include work by Tone Lock, MC Hammer, Public Enemy, Digital Underground, Queen Latifah and KRS-One.

The program delves into the musical world of "Hip-Hop," the African-American subculture from which rap was derived by Bronx and Harlem youths in the mid-1970s. *Rap City Rhymeology* depicts rap as a reflection of the broad spectrum of life in urban America: male/female relationships, police brutality, drugs, violence and black pride and self-respect.

Videotape available

The Multicultural Workplace (36151.VH), a new video now available from Audio-Visual Services, demonstrates the importance for managers to value cultural diversity, not to repress or avoid it.

The program shows the difficulties that usually result when people from differing cultural backgrounds interact in business and reveals how, because of misunderstanding and cultural assumptions, many employees are undervalued.

This title is available at no charge to University faculty and staff members for classroom use. At University Park, call 865-0913 to make arrangements for a preview showing. At a Commonwealth Campus, contact the campus instructional services specialist for more information.

Bookshelf

Joe F. Donaldson, associate professor of education is the author of *Managing Credit Programs in Continuing Higher Education*.

The book, part of the Guide Series in Continuing Education prepared by the University of Illinois at Urbana-Champaign, identifies problem areas likely to be encountered and the staff support needed to administer different forms, levels and modes of program delivery.

News in Brief

Professional Women at Penn State

The second Open Agenda program will be held at a meeting of Professional Women at Penn State at 11:45 a.m. Tuesday, Jan. 29, in the Frizzell Room of Eisenhower Chapel at University Park.

Professional Women at Penn State is a grass-roots group coordinated by University women in which participants can develop and maintain a communications network and serve as a resource for other Penn State women.

Educational Office Personnel

The Penn State Chapter of Educational Office Personnel is sponsoring a program "An Introduction to the PSECU (Pennsylvania State Employees Credit Union)" at noon Tuesday, Jan. 29, in Room 110 Henderson Building at University Park. Margaret Delmonico, a representative of PSECU will be the featured speaker.

The Penn State Chapter of Educational Office Personnel is a professional organization dedicated to increasing the level of professionalism of

the University's office personnel through continuing education.

For further program or membership information, call 863-4093, or 863-3086.

'Ethics in Advertising'

Joseph P. Mack, chairman and chief executive officer of Saatchi and Saatchi Advertising, will present the lecture "Ethics in Advertising" at 7:15 p.m. Tuesday, Jan. 29, in the HUB Assembly Hall at University Park.

Mr. Mack's appearance is hosted by the School of Communications under the auspices of the Ambassador Program of the Advertising Educational Foundation, a non-profit organization based in New York City.

Lecture by Jack Anderson

Syndicated columnist and nationally-known journalist Jack Anderson takes a look at "The News Behind the News" at 8 p.m. Tuesday, Jan. 29, in Erie Hall at Penn State Erie. The Behrend College.

Mr. Anderson kicks-off the Penn State-Behrend Speaker Series for spring.

For more information, call (614) 898-6159.

New television program

Helping teachers and school administrators to improve the nation's schools is the focus of a new television program "Touching the Future," hosted by Rodney J. Reed, Pennsylvania professor of education and dean of the College of Education.

The program will air on cable channel Mind Extension University, starting Tuesday, Jan. 29, at 1:30 p.m. The Mind Extension University cable channel is available to 12 million subscribers nationwide.

The monthly program is one of several joint projects by WPSX-TV/PENNARAMA and Mind Extension University. Its goal is to present leaders at all levels of education with dialogue about improving and preparing learning for the future.

Roundtable series

Karen Freeman, assistant professor of journalism, will lead a lunchtime roundtable sponsored by the Penn State Chapter of the National Association of Science Writers at 11:45 a.m.

Wednesday, Jan. 30, in 313 Kern Building at University Park. She will lead a discussion of "Biotechnology Reporting in Australia."

The Penn State Chapter of the National Association of Science Writers meets for lunch and discussion on the last Wednesday of each month. The brown bag luncheon roundtable series is open to anyone interested in science communication.

SAT course

Penn State Continuing Education, in cooperation with Horizons for Learning, Ltd., will offer high school students a three week, grade-free course to prepare for the SAT verbal and mathematics examinations.

Classes will meet from 6 to 9 p.m. on Mondays and Thursdays for three weeks, beginning Feb. 4 at the Keller Conference Center at University Park. The \$160 registration fee covers instructional costs and materials. Early registration is encouraged since class size is limited.

For registration information, contact: Penn State Continuing Education, 102 Wagner Building, University Park, Pa., or phone (614) 865-3443.

Partings

Theodora "Teddy" Hoover, senior data processing clerk in the Office of Budget and Resource Analysis, has retired after 32 years service.

Ms. Hoover began working for the University in 1958 in the Division of Instructional Services. She moved to Examination Services in 1960 and to the Office of Budget and Planning in 1965. She has held her current position since 1984.

Ms. Hoover collected instructional activities data, which kept her in contact with every department on every campus and made her aware of how much the University has grown.

Among the times she remembers most is when the Graduate Building was struck by lightning and her records were destroyed. "We spent weeks re-typing half-chart papers," she said. "It was horrible."

She is enjoying her retirement and catching up on her reading and needlepoint.

E. Lynn Miller, professor of landscape architecture, has retired with emeritus status after 30 years service.

Professor Miller received the Outstanding Teaching Award given by the student government, and earned many other awards, including two merit awards from the American Society of Landscape Architects for the Taliesin master plan. In addition, he served as the college's first assistant dean for research from 1973-76. In that capacity, he was involved with the 1976 Bicentennial Wagon Train Show, Pennsylvania's gift to the nation.

Professor Miller is widely published in his field and has maintained an active private consulting practice. He received his undergraduate degree from West Virginia University and his master's from Harvard. He is a registered landscape architect in Pennsylvania.

Professor Miller recently endowed the Humphrey Repton Award for Creative Writing in the Department of Landscape Architecture. A yearly competition, the award is a cash prize to undergraduate students in landscape architecture who exhibit outstanding creative ability in writing.

In retirement, he is spending the Spring Semester as a distinguished visiting professor at the University of Arkansas at Fayetteville, where he will launch a general education course on the natural and historic landscape.

E. Lynn Miller

Helen Miller, accounting clerk for Housing and Food Services at the Penn State Mont Alto Campus, has retired after 23 years service.

When Ms. Miller began her duties at Mont Alto on Jan. 2, 1968, she actually held two jobs -- one on campus and the other with her husband, Larry, during their operation of Miller's Nursery in nearby Quincy.

Active in music, Ms. Miller's retirement will allow her more time to lead the local AARP Chorus which recently made its concert debut.

J. Calvin Sammons, Penn State extension agent in Lawrence County, has retired after 34 years service.

Mr. Sammons began working for Penn State Cooperative Extension in 1956 after serving two years in the U.S. Army as a guided missile mechanic. He served four years in Washington County before joining the Lawrence County extension staff in 1960. He served as county extension director for more than 13 years and was responsible for various adult and youth education programs.

George Payette, assistant to the campus executive officer at the Mont Alto Campus, retired Dec. 31 after more than 24 years service.

Mr. Payette came to the University in 1962 as a graduate student after a previous 25-year career as a newspaper reporter and

J. Calvin Sammons

editor. He worked for the Associated Press in its Tokyo Bureau from 1955-56 and, as one of only three persons to edit both the Pacific and European editions, was news editor for the U.S. Government newspaper *Stars and Stripes* from 1955-62.

In 1960 he became an instructor in English and an instructor in political science at Mont Alto. Eventually, he taught for three additional departments: Journalism, History, and General Education.

He was appointed director of academic affairs in 1969 and served 10 years at Mont Alto in that position. During much of his time at the campus, Mr. Payette also was responsible for the functions of the director of university relations.

In 1988 he became assistant to the CEO Mr. Payette has served as president and vice president of the Pennsylvania Association of Two-Year Colleges. He was president of the Mont Alto Borough Council, the Franklin County Library Board, and the Mont Alto PTA, as well. He lives in Mont Alto.

Elen M. Marshall, associate extension agent, Agriculture, from Oct. 15, 1979, until Sept. 29.

John E. Hess, assistant to the farm superintendent, Agriculture, from Jan. 1, 1968, until Oct. 1.

LeAnn B. Lorenz, supervisor, water quality lab, Research and Graduate School, from June 1, 1980, until Nov. 1.

Spot Psychology and the first American sport psychology to be inducted into the International Society of Sport Psychology.

Memorial contributions may be made to the Dorothy V. Harris Lecture Series or the Dorothy V. Harris Libraries Endowment at the University.

Albert L. Spotts, janitor, Maintenance and Utilities, from June 6, 1951, until his retirement May 7, 1963, died Dec. 20 at the age of 92.

She was the first woman to serve as president of the North American Society of

Committee to revise handbook appointed

A committee to revise the Faculty Handbook has been appointed by the executive vice president and provost. Its charge is to update the publication last revised in 1984. The new edition should be ready for distribution to faculty members across the university in the fall of 1991.

The committee is being chaired by **Del Sweeney**, special assistant to the executive vice president and provost. The other committee members are:

Annette L. Carson, assistant professor of health education, Penn State Oquon Campus; **Caroline D. Eckhardt**, head, Department of Comparative Literature; **Jeffrey T. Hermann**, director, University Publications; **Nancy L. Herron**, administrative fellow, Office of the President; **Robert Killoren**, director, Office of Sponsored Programs and Contracts.

Shirley A. King, procedures specialist, Office of Human Resources; **Robert LaPorte Jr.**, professor of public administration; **Donald C. Rung**, professor of mathematics; **Rebecca A. Young**, assistant to the provost and dean for undergraduate education/personnel and administrative services.

The committee has held several focus sessions to determine how the handbook is being used and to better identify new areas of information of interest to faculty members. The committee welcomes suggestions relevant to improving the handbook. Send comments to Dr. Sweeney, 201 Old Main, or to any other member of the committee.

Awards established

The Graduate School and the Office of the Vice Provost and Dean for Undergraduate Education have established annual awards in four broad disciplinary areas (physical science and engineering, life sciences, social and behavioral sciences, and arts and humanities) to recognize excellence in teaching by graduate assistants. The 1991 award winners will be announced on March 8.

Students, staff, clerical, and faculty members are eligible to nominate a graduate student for this award. Guidelines and procedures for nominations and selection of awardees have been distributed University-wide. To be eligible for nomination a graduate assistant must have served in a teaching capacity for at least two semesters within the last two years.

All nominations will be sent to the dean of the Graduate School for preliminary review and screening for further evaluation. The screening committee will select nominees for further consideration. Their names will be sent to the appropriate college deans for preparation of more detailed dossiers.

The deadline for submission of nominations to the Graduate School is Feb. 1. Dossiers of finalists will be due in the Graduate School for final review on Feb. 22.

Obituaries

A memorial service for **Dorothy V. Harris**, professor of exercise and sport science, who died Jan. 4, will be held at 2 p.m. Friday, Jan. 25, in Eisenhower Chapel at University Park.

An internationally recognized figure in the field of sports psychology, Dr. Harris joined the University faculty in 1970 as an assistant professor and was promoted to professor in 1973.

A graduate of James Madison University, she received a master of science degree in

1958 from the University of North Carolina in Greensboro and her doctoral degree in 1965 from the University of Iowa. She also did postdoctoral work at Penn State between 1960 and 1969.

In 1970, at her urging, the University created the nation's first graduate program in sports psychology.

Dr. Harris was a member of the U.S. Olympic Sportsmedicine Committee on Sports Psychology and a 1988 recipient of a Fulbright Scholarship to study in Vienna, Austria.

She was the first woman to serve as president of the North American Society of

The following leaves of absence have been approved for 1991-92.

College of Agriculture

Stephanie Doeres, associate professor of food science, to conduct research on the microbiologically destructive effects of microwave heating in prepared foods and on biotechnological techniques for the recovery of injured microorganisms at the Pillsbury Co., Minneapolis, Minn.

Herschel A. Elliott, professor of agricultural engineering, to study interfacial relations of trace metals in aqueous systems, at the University of Newcastle, New South Wales, Australia.

Claire C. Engle, associate professor of animal science, to study the user group concept of research information transfer and its application to the forage/livestock industry at the New Zealand Department of Scientific and Industrial Research.

Arlyn J. Heinichs, associate professor of dairy and animal science, to conduct research on livestock epidemiology and economics, at the USDA National Animal Health Monitoring System, Fort Collins, Colo.

Larry A. Hull, professor of entomology, to study the dispersal behavior of an apple leafroller pest and its effect on control tactics, at Washington State University Tree Fruit Research and Extension Center, Wenatchee.

Elmore R. Hunter, county extension director (Philadelphia County), to complete a master of education degree in adult and continuing education, at Cheyney University.

Nancy M. Kadwili, county extension agent (Montgomery County), to pursue and complete a master of education degree in curriculum and instruction, at Penn State at Great Valley.

Ronald S. Kensing, associate professor of animal nutrition/physiology, to study contemporary techniques in molecular biology which can be applied to the study of fetal and neonatal development in domestic animals, at the University of California, Santa Cruz.

Joann E. Logan, associate extension agent (Westmoreland County), to complete a master of adult education degree.

Felix L. Lukacz, professor of plant pathology, to collect and screen bacteria antagonistic to leaf diseases of wild alfalfa, at Ondokuz Mayıs University, Samsun, Turkey.

Janet L. McDougall, associate extension agent (Mercer County), to complete a master of education degree in health education.

Gary W. Moorman, associate professor of plant pathology, to develop guidelines for the production of pest-free plants by secondary propagators of commercial greenhouse crops.

Dennis J. Murphy, professor of agricultural engineering, to conduct research and write a comprehensive reference work on agricultural safety and health.

Rune F. Price, associate extension agent (York County), to complete a master of education degree in training and development.

Patricia L. Sanders, associate professor of plant pathology, to investigate fungicide resistance mechanisms in plant pathogens, at Wageningen Agricultural University, The Netherlands.

Herbert S. Siegel, professor of poultry science, to conduct research on the effects of the environment and inheritance on the initiation of the immune function in chickens, at Wageningen Agricultural University, The Netherlands.

Richard A. Wilcox, professor of veterinary science, to conduct research on the endocrine and immune systems of calves, at the University of Veterinary Science, Budapest, Hungary.

Paul J. Wuest, professor of plant pathology, to write a reference text on integrated crop management for mushroom farming.

College of Arts and Architecture

Robin L. Gibson, associate professor of art, to study the dynamics of natural landscapes in Alaska and Australia through on-site drawings and paintings.

Eliza Penzabacker, associate professor of landscape architecture, to conduct research on taste and fashion in the design of landscapes in 16th-century England and 19th-century America, including travel to historical English parks.

Neil H. Porterfield, professor of landscape architecture, to conduct research and document land uses of the Dugal Estate in Kilmacolm, Scotland, for the period 1270-1940, in Kilmacolm.

Emma S. Rocco, associate professor of music (Beaver Campus), to conduct research on ethnic and American ensembles and music and on Slavic music traditions in America.

Mary L. Romanek, assistant professor of music education (McKeesport Campus), to examine the music content and activities in a variety of licensed nursery schools.

Elizabeth B. Smith, associate professor of art history, to conduct a study of the architecture and architectural sculpture of the Romanesque and Gothic periods in the Abruzzi, in southern Italy.

Stephen Stace, assistant professor of integrative arts and music (Zigzag Campus), to compose original music for publication and performance.

Roger R. Zellner, associate professor of visual arts (Altoona Campus), to create a body of functional production ceramic pieces for exhibition.

Penn State Erie, The Behrend College

Richard C. Bollinger, professor of mathematics, to study the properties and applications of extended Pascal triangles and to translate a Russian monograph on this topic.

Steven A. de Hart, associate professor of German and humanities, to complete an intermediate-level German textbook and a study of the comedies of Ludwig Tieck, including a translation of one of his plays, in Germany.

Diana H. George, professor of English and women's studies, to complete three manuscripts: *The Lonely Other*, *Phantom Breed*, and *A Gensis*.

James A. Kurek, associate professor of economics, to identify and quantify the determinants of variation in the cost of living from place to place.

Robert T. Tauber, associate professor of education, to investigate the role and effectiveness of Australian teachers and administrators in the establishment and maintenance of school/classroom discipline, at the University of Melbourne, Australia.

Smeal College of Business Administration

Terry P. Harrison, associate professor of management science, to investigate various computational aspects of large-scale production-distribution systems, at the University of Tennessee, Knoxville.

Stephen E. Jablonsky, associate professor of accounting and management information systems, to conduct cross-cultural research on the changing nature of financial management practices in major global firms in Japan and Germany.

Arnold F. Shapiro, professor of business administration, to investigate the feasibility of

developing a computer-based education laboratory for actuarial science, insurance, and related areas.

Penn State Harrisburg

Louise E. Hoffman, associate professor of humanities and history, to conduct research linking psychological studies of Germany and Nazism made during World War II with post-war psychological theories of social events.

Mehdi Khosrowpour, associate professor of information systems, to collect materials for a comparative study of information systems management practices in Yugoslavia, France, Jamaica, and Iran.

Robert F. Munzender, associate professor of public administration, to complete a book on the physical and mental health effects of burnout in organizations, at the University of Georgia, Athens.

School of Communications

Mary S. Mander, associate professor of communications, to write a cultural history of the American war correspondent, 1895-1972, and conduct archival research in Washington, D.C., and Boston.

Continuing Education

Walter F. Fullam, director of continuing education (Berks Campus), to complete a master of management degree.

College of Earth and Mineral Sciences

Alan M. MacEachren, associate professor of geography, to complete a book on the theoretical principles of map symbolization and design and to investigate the role of scientific visualization in geographic and earth science applications.

Alfred Traverne, professor of palynology, to pursue research on spore complexes in Devonian rocks, at the Senckenberg Natural History Museum, Frankfurt, Germany, and in Liege, Belgium.

Brenton M. Yarnal, associate professor of geography, to complete a book on synoptic climatology and begin research on integrating synoptic climatology and geographic information systems.

College of Education

Paul V. Bredeson, associate professor of education, to conduct research on leadership in restructured public schools.

Donald B. Keat II, professor of education, to study the multimodal approach to counseling of children at locations in the United States and the United Kingdom.

James W. Kelz, professor of education, to study the utilization of advanced technology in the rehabilitation of the severely disabled, at various rehabilitation services in the United States.

John D. Swisher, professor of education, to study new statistical approaches to longitudinal data involving theoretical variables that contribute to substance abuse.

Yoshiomitsu Takei, associate professor of education and sociology, to conduct research on the relationship between Japanese-American, Caucasian, African-American, and Hispanic

American adolescents and their parents in Los Angeles.

James W. Tawney, professor of special education, to conduct research on technologies for challenged individuals and to work on a book-length manuscript on technology, education, and the future.

College of Engineering

L. Eric Cross, Evan Pugh professor of electrical engineering, to assist in establishing a new ferroelectrics research and technology group at the Ecole Polytechnique in Lausanne, Switzerland.

Ronald P. Danner, professor of chemical engineering, to study the thermodynamics of polymer solutions, electrolyte solutions, and biological systems, at the Technical University of Denmark, Lyngby.

Paul T. Hulina, associate professor of electrical engineering, to serve as a program director in the Microelectronics Information Processing System Division at the National Science Foundation.

John S. Lamancusa, associate professor of mechanical engineering, to develop strategies for the optimal design of quasi-periodic structures at the Research Laboratory for Applied Structural Optimization, University of Siegen, Germany.

Raymond Luebbers, associate professor of electrical engineering, to conduct research on the extension of finite difference time domain methods to new applications and materials, at Tohoku University, Sendai, Japan.

Alvin Sinka, associate professor of mechanical engineering, to conduct research on the dynamics and control of intelligent/adaptive structures, at the Massachusetts Institute of Technology.

Hubert C. Smith, assistant professor of aerospace engineering, to participate in an exchange of approaches on methods of incorporating design into an aerospace engineering curriculum, at Embury-Riddle Aeronautical University, Daytona Beach, Fla.

Chi-Chung Yang, associate professor of electrical engineering, to conduct experiments on ultratrans phenomena in optical fibers and to pursue research on semiconductor lasers, at AT&T Bell Laboratories, Murray Hill, N.J., and the University of Central Florida.

College of Health and Human Development

Collins O. Airienhbuwa, assistant professor of health education, to conduct research examining beliefs and practices in African cultures relative to patterns of health knowledge acquisition and health seeking behaviors, at Johns Hopkins University and the World Health Organization, Geneva, Switzerland, and Brazzaville, Congo.

Diana R. Dunn, professor of leisure studies, to study the contemporary mission convergence and divergence of park and recreation management organizations in government agencies, and park, recreation and leisure studies programs in universities.

Patricia Farrell, associate professor of leisure studies, to conduct research on the role of leisure and the economic impact of tourism and leisure services, at the Soviet Union, at the Institute for Socio-Economic Problems, Leningrad.

Lynne V. Feagans, professor of human development, to complete studies on language and the transition to school, and on the health of children in day care.

Thomas A. Frank, professor of audiology, to conduct research on objective measures of hearing loss in the elderly and on the influence

Continued on the next page.

s of Absence

of background noise on hearing testing, at the University of Florida Gainesville

Wesley A. Olsen, associate professor of exercise and sport science (Ogontz Campus) to complete research on the quality of sleep by comparing methodologies which adjust time intervals between practice sessions.

Marshall W. Rafael, professor of health policy and administration, to conduct research for a book on health services in Central and Eastern Europe

Elwood L. Shaffer, professor of hotel restaurant and institutional management, to develop mathematical models to forecast the demand for nature-oriented and high-risk adventure tourism activities in the Caribbean.

Michael A. Smyer, professor of human development and associate dean for research and graduate studies, to study legal and social science perspectives on the competency of older adults at the University of Queensland, Australia.

Lucy C. Yu, associate professor of health policy and administration, to conduct research on aging using data from the National Center of Health Statistics Interview Survey, at Johns Hopkins University.

College of the Liberal Arts

Bernard Asbell, associate professor of English, to write a book-length narration of a major bioeconomics discovery.

Stephen J. Beckerman, assistant professor of anthropology, to write a book titled *The Ecology of the Bar*.

Thomas W. Benson, professor of speech communication, to investigate the rhetoric of the modern American presidency, with special emphasis on the role of speech writers and institutional routines.

Russell C. Brignano, associate professor of English (Beaver Campus), to conduct research on baseball fiction, autobiography, commentary, and literary criticism written in the 1980s and their relationship to American culture.

Robert E. Burkholder, associate professor of English, to complete manuscripts on Ralph Waldo Emerson's concept of history, the history of Emerson criticism, and a 10-year update of *Emerson, An Annotated Secondary Bibliography*.

Christopher Clausen, professor of English, to continue work on a series of studies on social and individual aspirations in Victorian England.

Frank Clemente, professor of sociology and head, Department of Sociology, to complete a monograph on the socioeconomic aspects of radioactive waste management.

Patricia Draper, associate professor of anthropology, to complete a book titled *Age and Aging in the Kikuyu*, and to continue an analysis of demographic data collected in Botswana.

Bill C. Ellis, associate professor of English and American studies (Hazletton Campus), to conduct research on the origins of satanic cult rumors in English and American culture from 1950 to 1980 at several sites in the United States and in London.

Earl E. Fitz, professor of Portuguese, Spanish and comparative literature, to complete a book on Brazilian author Clarice Lispector.

Joseph C. Flay, professor of psychology to develop a universal theory of spacetime which will apply not only to nature, but also to the psychological, social, and historical dimensions of reality.

Richard L. Garner, associate professor of history, to conduct research for a book titled *A Power on the Latin American Cultural Economy: at the Center for Latin American Research and Documentation*, Amsterdam.

Martha T. Halsey, professor of Spanish, to write a monograph titled *Abnormal Psychological Phenomena in the Theater of Adriano Bazzani Valente*.

Robert E. Harkavy, professor of political science, to prepare a book-length manuscript titled *Levens of Robert Marx in His Third World*.

Henry C. Harpending, professor of anthropology, to conduct analyses of mitochondrial DNA variation in Southern African populations, and to complete a collaborative project on the theory of evolution in the presence of heritable resources.

Irene E. Harvey, associate professor of philosophy, to continue work on the third volume of an historical treatment of exemplarity, at Ecole des Hautes Etudes en Sciences Sociales, Paris.

Gerard A. Hauser, professor of speech communication, to complete a book-length manuscript on the relation of rhetoric to the formation of politics.

Catherine A. Hebert, assistant professor of French (New Kensington Campus), to complete a bio-bibliographical study of two 18th-century French printers in Philadelphia.

Thomas F. Juravich, associate professor of labor studies and industrial relations, to examine the evolution of the concept of workers' culture in 20th-century America.

Manfred E. Keune, associate professor of German, to conduct a study titled "In Search of a Homeland: Gunter Kunert's Poetry and the Reconstruction of the Discourse of German Lyrical Poetry after World War II" at Princeton University and the Deutsche Literaturarchiv, Marbach, Germany.

Ellen A. Knott, associate professor of English (Ogontz Campus), to prepare an intercultural reader for students in developmental English and journal articles on critical thinking.

Richard Kopley, associate professor of English (DuBois Campus), to facilitate research and writing for the editing of Vol. 9 of *Collected Writings of Edgar Allan Poe*.

David R. Lichterman, professor of philosophy and classics, to complete research on a book titled *The Sovereignty of Consciousness: A Genealogy of Modernity Part II*.

Nancy S. Love, associate professor of political science, to complete a book which reconceptualizes the relationship between democracy and power.

Robert J. Maddox, professor of history, to complete a book-length manuscript on the dropping of atomic bombs on Japan at the end of World War II.

Christiane P. Makward, associate professor of French, to complete a dictionary of women writers in French and two projects on French-Swiss writer Corinne Billé in Paris.

Bruce A. Murphy, professor of political science, to complete research and write a biography of Supreme Court Justice William O. Douglas.

Keith E. Nelson, professor of psychology, to conduct research on children's communicative development, at Vanderbilt University and in Gothenburg, Sweden, and Brussels, Belgium.

Stanley J. Nowak Jr., assistant professor of Spanish, humanities, and social science (Allentown Campus), to conduct research and write a critical analysis of the *Escritos de Torres* in their pictorial new edition.

Robert E. O'Connor, associate professor of political science, to conduct research for a book on hazardous waste policy and the new federalism, in Washington, D.C.

Ernst Schauer, professor of German and head, Department of German, to conduct research for a book-length study titled *Bildet Literatur: Economy, Drama in the Modern German Stage* at the German Literary Archives, Marbach, Germany.

Mel Seesholtz, associate professor of English (Ogontz Campus), to conduct a study titled *The Technology of Evolution* on the literary sources and

cultural influences shaping the technology of virtual reality.

Thomas R. Smith, assistant professor of English (Schuylkill Campus), to complete a book-length manuscript *Translating Lucan: English-Latino* (from *Vulgate to Modern Times*).

Renee H. Steffenman, assistant professor of sociology (Allentown Campus), to compare work-family patterns for male and female childless justices in Pennsylvania.

Frederick J. Stefan, assistant professor of history (Wilkes-Barre Campus), to write a monograph on the history of the Thomas Indian School, an orphanage for American Indian children in Western New York.

Marlene B. Vallin, assistant professor of speech communication (Berks Campus), to write a collection of essays on Mark Twain's contributions to rhetorical theory, oral interpretation theory and public address.

Stanley Weintraub, Evan Pugh professor of arts and humanities, to conduct research on a biography of Benjamin Disraeli.

Beno Weiss, professor of Italian, to prepare a study of the life and contributions of Italian humanist Polydore Vergil, and a translation of *De Inventis*, Roman.

Kenneth M. Weiss, professor of anthropology and genetics, to complete a monograph on the genetics of human disease and to obtain additional training in molecular genetics, methods and data analysis.

Molly M. Wertheimer, assistant professor of speech communication (Hazletton Campus), to conduct a study titled *The Transformation from Debutante to Indulgent Forces of Reasoning in 18th-Century Britain and Austria*.

Monique Yayri, associate professor of French, to continue work on a book titled *Notes of Modern Art: Literature, Painting, Architecture, Film*.

J. Jerome Zolten, assistant professor of speech communication (Allentown Campus), to complete a book-length study on the impact of mass-media comedy on racial stereotypes.

College of Medicine

Mary K. Howett, associate professor of microbiology and immunology, to study the properties of normal and neoplastic epithelial cells, at the National Cancer Institute, Bethesda, Md.

Harriet C. Isom, professor of microbiology and immunology, to conduct research on the use of biliary epithelial cells to study neoplastic progression mediated by human oncogenes, at the Medical College of Virginia, Virginia Commonwealth University.

Lawrence I. Sinoway, associate professor of medicine, to study skeletal muscle afferent recording techniques in animals.

Richard B. Tenover, professor of medicine and microbiology and immunology, to conduct research on the expression of markers of neuronal and glial cell expression subsequent to injury, including after viral infection, at University College, London.

Clifford W. Zwillich, distinguished professor and chief, Pulmonary/Critical Care, to develop new methods of measuring the control of breathing in patients with obstructive sleep apnea.

Eberly College of Science

Michael G. Akritas, associate professor of statistics, to conduct research on robust bounded influence analysis of regression models in medicine and astronomy.

Joel Anderson, professor of mathematics, to conduct research on group theory and analytic aspects of operator algebras at the Berkeley and Santa Barbara campuses of the University of

California

G. Jørgen Babu, professor of statistics, to study the applicability of Edgeworth expansion to the bootstrap methodology.

Andrew G. Clark, associate professor of biology, to conduct research in the field of molecular evolutionary genetics at the University of California, Davis.

John W. Dawson Jr., professor of mathematics (York Campus), to write a scientific biography of Isaac Newton.

Lloyd M. Jackman, professor of chemistry, to perform dynamic nuclear magnetic resonance experiments at low temperature and high field, and to gain experience in the techniques of low-temperature cryoscopy.

J. Alfredo Jimenez, associate professor of mathematics (Hazletton Campus), to conduct research in the analysis, differential geometry and representation theory of Lie groups, at the Mathematics Institute University of Warwick, United Kingdom.

Ram P. Kanwal, professor of mathematics, to study the mathematical theory of generalized functions, at University of Innsbruck, Austria.

Jeffrey S. Lannin, professor of physics, to perform measurements of the atomic scale size and shape distribution of nanoscale clusters on surfaces, at the National Center for Electron Microscopy, Arizona State University.

Luen-Chau Li, associate professor of mathematics, to conduct research on integrable systems theory.

Levys Mikalofsky, associate professor of chemistry (Berks Campus), to study the role of stress in aging, at Jefferson Medical College, Philadelphia.

Yeeb Miller, professor of computer science, to improve and extend the software supporting the Food and Drug Administration's *E. coli* data base information, at National Library of Medicine, Bethesda, Md.

James L. Monroe, professor of physics (Beaver Campus), to study the properties of multi-layered interaction and lattice spin models, at Virginia Polytechnic Institute and State University, Blacksburg.

Adrian Oceano, professor of mathematics, to conduct research on operator algebras at research institutions in Europe and Japan.

Benedict Y. Oh, associate professor of physics, to participate in an experiment (ZEUS Collaboration) of electron-proton collisions at the highest energy available, in Hamburg, Germany.

G. P. Paul, professor of mathematical statistics, to conduct research on statistical ecology and environmental statistics, and on statistical distributions in scientific work.

Allen J. Phillips, professor of biochemistry, to engage in molecular genetics research regarding the regulation of amino acid biosynthesis, at Stanford University.

Stephen G. Simpson, Shibley professor of mathematics, to conduct research in mathematical logic and the foundations of mathematics, at the National University of Singapore, Concordia and McGill universities in Canada, and the University of St. Louis, Italy.

David M. Wells, assistant professor of mathematics (New Kensington Campus), to develop teaching materials utilizing graphing calculators and to explore methods of implementation, at Ohio State and Clemson universities.

University Libraries

Diane L. Garner, associate librarian and head, Documents and Maps, to investigate collection development and user services for electronic numeric data bases in large academic libraries.

Focus on the arts

The arts on Channel 3

Brilliant new wave artist Michael Moschen combines juggling, physics, movement and dance on *Great Performances* at 12:30 p.m. Saturday, Jan. 26. Working in tandem with art-rock composer David Van Tieghem and sculptor John Kahn, Mr. Moschen creates a world of balls, rings, hoops and spheres that fly, float and spin with grace, humor and haunting beauty.

Frederick Lonsdale became one of England's most popular playwrights with a series of sparkling comedies about British lords and their naughty ladies. One of his comedies is *On Approval*, about two unmarried upper-class British couples who test the marital waters by living together for a month before deciding whether to marry.

A Broadway and London stage hit in the 1920s-27' season, it was tagged "spicy and naughty," appellations which undoubtedly added to its box office success. Today's viewers, mired to much more explicit exercises, will probably not bat an eyelash when the TV dramatization reprises nationally on *Mistery Theatre* at 9 p.m. Jan. 27 as part of the "Twentieth Anniversary Favorites" celebrating two decades of the PBS drama series.

Photo exhibit

A photographic exhibition titled "Abstracting the Landscape: The Artistry of Landscape Architect A.E. Bye" opens Sunday, Jan. 27, and runs through March 30 at the Palmer Museum of Art at University Park.

Organized by the Department of Landscape Architecture in conjunction with the museum, it is the first interpretive exhibition to feature the work of a single design practitioner.

A 1942 graduate of Penn State, Mr. Bye received the 1982 Arts and Architecture Performing Arts Alumni Society Achievement Award. In 1980, he was named an Alumni Fellow by the Alumni Association and the Bracken Fellow by the Department of Landscape Architecture, an

Marylene Dosse will present her annual piano recital at 8 p.m. Jan. 30 in the Recital Hall, Music Building.

award that recognizes leading design professionals.

Bracken Lecture

"Keeping the Ground," a lecture by architect Sean West Sculley, opens the Department of Landscape Architecture's Bracken Lecture Series for the Spring Semester at 8 p.m. Tuesday, Jan. 29, in Zoller Gallery at University Park.

His lecture will focus on the work of landscape architect A.E. Bye and is presented in conjunction with the exhibition "Abstracting the Landscape: The Artistry of Landscape Architect A.E. Bye,"

currently on view in the Palmer Museum of Art.

Mr. Sculley is principal of Sean West Sculley and Associates, Architects, of New York City.

HUB Formal Gallery

Works of art, including lithographs, paper cuttings, and photographs, by Harriet M. Rosenberg are on exhibit at the Formal Gallery in the Hetzel Union Building at University Park until Feb. 3.

Ms. Rosenberg will give a public talk on her career as an artist at 7:30 p.m. Jan. 30 in the Gallery.

Piano recital

Marylene Dosse, professor of music, will present her annual piano recital at 8 p.m. Wednesday, Jan. 30, in the Music Building Recital Hall at University Park. The concert is free to the public.

The program will open with the premiere performance of *Fantasia* by Paul Miller, a faculty member at the Penn State Schuylkill Campus, followed by Brahms' *Variations on a Theme by Handel*. The second part of the program includes Chopin's *Nocturne in C sharp minor* and "Barcarolle" and Ravel's "Jeux d'eau" and piano transcription of "La Valse."

Odyssey on WPSU

"This is the Voice of Truth," the next episode of "Odyssey Through Literature," presents Ngugi Wa Thiong'o, Kenyan novelist, poet, and playwright, reading

from his work in Kikuyu and English and discussing why African writers must write in their native languages.

"Instead of being missionaries to the West," he tells host Leonard Rubinstein, "we should return literature to the people to whom it belongs."

"Odyssey Through Literature" is produced by the Department of Comparative Literature in the audio-production studios of WPSU-TV. It airs Wednesdays at 12:30 p.m. on WPSU, 91.1 FM.

Bach's Lunch

Janet Louise Smith will perform in concert at 12:10 p.m. Thursday, Jan. 31, in the Eisenhower Chapel at University Park.

The 20-minute concert is part of the Bach's Lunch Concert Series sponsored by the School of Music and the University Lutheran Parish.

The program will feature Ms. Smith playing a piece by Gluck for solo flute. She will be joined by several other flutists for a portion of the program.

The audience is invited to bring a brown bag lunch to eat in the Informal Lounge after the performance. Coffee and tea will be provided.

Dance company

The Bill T. Jones/Arnie Zane Co. will perform their latest and most controversial work at University Park on Thursday, Jan. 31.

"The Last Supper at Uncle Tom's Cabin/ The Promised Land" will be presented at 8 p.m. in Eisenhower Auditorium by the Center for the Performing Arts.

The dance explores hot topics: religion, racism, love, death and sex. They converge in a spectacle of movement, theater and music, which ends with a vision of hope in "The Promised Land."

Mr. Jones created the work after his partner, Arnie Zane, died of AIDS-related lymphoma in 1988. It had its premiere in November at the New Wave festival in New York City and is being performed on a national tour.

"The Last Supper" is set to original music by Julius Hemphill. He and his World Saxophone Sextet will play the jazz/blues piece live for the performance.

Mr. Jones will give a pre-performance lecture in the Eisenhower Auditorium Green Room at 7 p.m. on the night of the performance. A post performance discussion will be held at noon Friday, Feb. 1, in the Hetzel Union Building Fishbowl.

Carpooler

Employees are looking for a carpooler from Philipsburg to University Park. Hours are from 8 a.m. to 5 p.m. Call Rita at 863-0302, or Val at 865-2165.

The arts at...

Penn State Erie

Celebrated harpist Yolanda Kondonassis will demonstrate her dynamic range at noon Monday, Jan. 28, in the Wintergarden at Penn State Erie. The Behrend College.

The performance continues the college's new chamber music program "Music at Noon: The Logan Wintergarden Series," which is free to the public.

Altoona Campus

Ira Bernstein will present "Steppin' Time," a dynamic performance of several forms of clogging, tap dancing, and step dancing at

the Penn State Altoona Campus on Tuesday, Jan. 29.

The performance begins at 7:30 p.m. in the Paul R. and Margery Wolf Kuhn Theater in the community Arts Center. The performance is open to the public, and tickets are \$3.

Fayette Campus

The Penn State-Fayette Campus is dedicating the week of Jan. 28 through Feb. 1 to the works of William Shakespeare.

Highlighting this week of cultural events will be a performance of Shakespeare's *Much Ado About Nothing*, by the New York based National Shakespeare Company on Tuesday, Jan. 29.

Special Events

Thursday, January 24
Bach's Lunch Concert, 12:10-12:30 p.m., Eisenhower Chapel. Saxophone quartet.

Friday, January 25
Geog. Coffee Hour, 4 p.m., 319 Walker. Jerome Williams on "Ethnic Stereotypes in Advertising."
Pa. Dance Theatre. Gala performance, 8 p.m. Eisenhower Aud.

Saturday, January 26
Shaver's Creek. Wonders of Winter Walk, 1-4 p.m. Call 863-2000.
Center for the Performing Arts, 8 p.m., Schwab Aud. The Mozartean Players.

Sunday, January 27
Shaver's Creek. The Winged Hunters, 1-2:30 p.m. Call 863-2000.

Monday, January 28
Comp. Lit. Luncheon, 12:40-1:20 p.m., 101 Kern. Marcel Curran-Pope, Virginia Commonwealth Univ.
German Dept. Film Series, 8 p.m., 101 Chambers. *Hauptstadt Hotel*.
School of Music, 8 p.m., Recital Hall. Tuba-Euphonium Ensemble.

Tuesday, January 29
Professional Women at Penn State. Brown-Bag Lunch, 11:45 a.m., Fuzzell Room, Eisenhower Chapel.
Penn State Chapter of Educational Officer Personnel, noon, 110 Henderson Margaret Delmonico on "An Introduction to the PSECU."
Lecture, 7:15 p.m., HUB Assembly Hall Joseph P. Mack, Saatchi and Saatchi Advertising, on "Ethics in Advertising."
John R. Bracken Lecture Series, 8 p.m., Zoller Gallery. Visual Arts. Sean West Sealley architect, on "Keeping the Ground."

Wednesday, January 30
Science Writers Roundtable Series, 11:45 a.m. 313 Kern. Karen Freeman on "Biotechnology Reporting in Australia."
School of Music, 8 p.m., Recital Hall. Marylene Dose, piano.

Thursday, January 31
Bach's Lunch, 12:10 p.m., Eisenhower Chapel.
Janet Louise Smith, flute, and friends.
Center for the Performing Arts, 8 p.m., Eisenhower Aud. Bill T. Jones/Arnie Zane and Co.

Friday, February 1
Geog. Coffee Hour, 4 p.m., 319 Walker. Bob Newsham on "Smart Materials."

Saturday, February 2
Shaver's Creek. Ceteacan Cruise, 1-2:30 p.m. Call 863-2000.

Sunday, February 3
Shaver's Creek. The Unhuggables, 2-3:30 p.m.

Bill T. Jones/Arnie Zane and Co. will perform "The Last Supper at Uncle Tom's Cabin" of 8 p.m. Jan. 31 in Eisenhower Auditorium.

committee. Final awards will be recommended by Charles L. Hosler, senior vice president for research and dean of the Graduate School. Faculty desiring further information should call their research deans or IRP directors.

The proposal deadline for submission to F.G. Ferguson, Centralized Biological Laboratory, is March 22. Awards will be announced April 24.

Faculty/Staff Alerts

Conflict of interest

Bylaws of the University Board of Trustees require that the following be published at least once annually

Disclosure of Potential Conflict of Interest by Employees of the University

Employees of the University shall exercise the utmost good faith in all transactions touching upon their duties to the University and its property. In their dealings with and on behalf of the University, they shall be held to a strict rule of honest and fair dealings between themselves and the University.

They shall not use their positions or knowledge gained therefrom in such a way that a conflict of interest might arise between the interest of the University and that of the individual. Employees shall disclose to the administrative head of the college or other unit in which they are

employed, or other appropriate superior officer, any potential conflict of interest of which they are aware before a contract or transaction is consummated.

Tuition grant-in-aid

Due to a change in the IRS tax law, effective Jan. 1, tuition grant-in-aid amounts for graduate level courses for employees and their spouses will no longer be subject to income taxes up to a maximum of \$5,250. Amounts over \$5,250 will be subject to taxation at normal rates and withholding on these amounts will occur during the months of November and December, and will be included as income on the employees' W2 form.

Tax changes

Effective Jan. 1, the base salary on which the FICA Tax (Social Security Tax) is levied will change. The FICA tax of 7.65% is actually comprised of two parts: a social

security tax of 6.2% and a medicare tax of 1.45%.

Currently, the base salary is the same for each of these taxes at \$51,300. The base will change to \$53,400 for Social Security and to \$125,000 for Medicare. The maximum for Social Security Tax will be \$3,310.80 (\$53,500 x 6.2%), up from \$3,180.60; and the maximum for Medicare tax will be \$1,812.50 (\$125,000 x 1.45%), up from \$743.85.

The employee's W2 form shows only the FICA total, which is a combination of these two amounts. This is listed in a box titled "Social Security Employees Tax Withheld." The total maximum FICA amount for 1991 will be \$5,123.30.

Inn parking

On Oct. 17, the Nittany Lion Inn parking lot was closed due to the start of construction renovations at the Inn.

All parking adjacent to the Inn has been

suspended, although access for registration and drop off will be maintained through the main entrance, with access via Atherton Street. Parking for overnight guests of the Inn will be accommodated in the Inn Overflow lot near the Keller Conference Center. Permits will be issued at guest registration.

Parking for meal and meeting guests will be provided in the upper level of the Parking Terrace. Permits for these guests will be issued from the parking booth directly in front of Keller. Access is via North Allen Road by Business Administration Building.

Limited parking for faculty and staff attending functions at the Inn also may be accommodated in the upper level of the Parking Terrace. Permits issued from the parking booth in front of Keller will be required. Validation by the Inn will be required to authorize free parking.

Staff Vacancies

The following vacancies for positions classified as staff exempt or staff nonsupport have been approved by the University Employment Division for filling. The brief statements for each vacancy are illustrative. They are not complete position descriptions. APPLY BY CALLING THE EMPLOYMENT DIVISION, 863-0304. Applications for these staff vacancies will be accepted until Jan. 31. DO NOT CONTACT THE AREA THAT HAS THE VACANCY. Applications to staff vacancies are considered in accordance with Fair Employment Practices (FES) and in compliance with the University's Affirmative Action Compliance Program without regard to race, color, religion, national origin, handicap or age (as provided by law) sex or status as a disabled or Vietnam era veteran.

■01266, Medical Technologist, Student Services, University Health Services, University Park Campus - Responsible to the senior medical technician for the performance of a variety of standardized laboratory tests and procedures. Requires bachelor's degree and ASCP certification or equivalent plus three to six months of effective experience. Must be proficient in venipuncture technique. This is a

NINE MONTH APPOINTMENT
STAFF GRADE 4

■01267, Director of Student Affairs, Administrative Operations, Penn State Harrisburg - Responsible to the associate provost administrative operations for serving as chief student affairs officer and assuming responsibility for the overall operation of student affairs at Penn State Harrisburg. Requires master's degree, or equivalent in student personnel services, public administration, higher education or related field plus four to seven years of progressively responsible management experience in student affairs. A doctorate is preferred. STAFF GRADE 4

■01268, Training Specialist, CES, York Campus - Responsible to the area representative for coordinating and facilitating a variety of activities related to the implementation of the educational training program of the International Association of Machine and Aerospace Workers. Requires bachelor's degree or equivalent in education or related field plus one to two years of effective experience in training and educational services partnership administration. This is a FIXED TERM POSITION, FUNDED UNTIL JUNE 30, 1991, WITH POSSIBILITY OF RE-FUNDING. STAFF GRADE 5

GRADE 5

■01269, Assistant Director of Student Programs and Services, CES, Mont Alto Campus - Responsibilities include career and personal counseling, new student orientation, student retention and academic support services and creation of various departmental publications. Requires master's degree, or equivalent, in student personnel administration counseling or related field plus one year up to and including two years of effective experience. THIS IS A FIXED-TERM POSITION FUNDED UNTIL DEC. 31, 1991, WITH POSSIBILITY OF RE-FUNDING. THIS IS A RE-ANNOUNCEMENT OF THE POSITION ANNOUNCED ON JAN. 10. ALL PREVIOUS BIDDERS MUST RE-APPLY. STAFF GRADE 7

■01270, Admissions Counselor II, CES, Ogontz Campus - Responsible to the director of academic affairs for coordinating and implementing the campus recruiting and admissions programs. Requires bachelor's degree or equivalent plus one to two years of effective experience in college recruiting, student personnel administration counseling or related area. STAFF GRADE 6

Hershey

For the following position vacancies apply directly to The Milton S. Hershey Medical Center. Attach resume with cover letter indicating the position vacancy code and forward to the Department of Human Resources, Hershey, or call the Hershey bid line at (717) 531-4531 by Jan. 31.

■13405, Certified School Psychologist, Department of Pediatrics - Responsible to the clinical psychologist within the Department of Pediatrics, for providing psycho-educational testing, analysis and evaluation for a pediatric patient population between the ages of 5 and 18 years. Requires a master's degree in a directly related field. Person shall be certified by the Commonwealth of Pennsylvania as a school psychologist and have several years prior experience in psycho-educational evaluations for children with mental retardation, learning disabilities, autism and behavioral problems. STAFF GRADE 8

■17098, Division Coordinator, Department of Medicine, Division of Cardiology - Responsible to the chief of the division for the performance of and assistance with a variety of administrative

duties to include supervision of clerical employees, preparation of various documents and efficient operation of the division. Requires a bachelor's degree or equivalent, plus one to two years of effective experience in the performance of administrative duties. Experience with personal computer applications desirable. STAFF GRADE 5

■16526, Medical Assistant, Outpatient Services - Responsible to the clinical head nurse or manager for providing assistance in health care services and for participation in administrative functions. An associate degree or equivalent in related field; BLS certification and up to 12 months of effective experience required. STAFF GRADE 2

■16499, Computer Operator, Information Systems - Responsible to the manager of the Medical Computer Center, College of Medicine, for monitoring and controlling electronic computers on established routines and for assisting department staff members as required. Two years of college or equivalent with one to two years of experience in data processing required. STAFF GRADE 4

Governor releases funds for University projects

University officials have expressed thanks to Gov. Robert P. Casey after his announcement of a capital investment program to stimulate Pennsylvania's economy, which includes a number of Penn State projects.

The governor released the funds for the construction of a coal de-sulfurization research center, the renovation and construction of agriculture science and industry facilities; major improvements at the University Park Airport, and the planning and design of the convocation/athletic convocation and events center.

"We are very pleased and grateful to the General Assembly for authorizing these projects and to the governor for releasing the funds," President Thomas said. "These much needed facilities will provide an on-going boost to the economy of central Pennsylvania and throughout the Commonwealth as well."

The agricultural science facilities (\$10,834,000) have been completely designed and will upgrade the poultry, dairy and swine facilities at the University Park Campus. This construction funded by the state represents part of the matching requirement for the federally funded agricultural sciences building.

The airport projects of \$1,086,000 represent the local share toward major expansion of the airport terminal and enhancements of the overall airport

'We are very pleased and grateful to the General Assembly for authorizing these projects and to the governor for releasing the funds,' President Thomas said. 'These much needed facilities will provide an ongoing boost to the economy of Central Pennsylvania and throughout the Commonwealth as well.'

operation, with the largest share of the funding coming from federal sources.

The coal de-sulfurization center at \$2,884,000 is for a facility to house research programs dealing with making coal a more competitive fuel source for future generations.

In addition, Casey released \$16.8 million for design and planning of the convocation and events center. The total state authorization for that project is \$33.8 million. The total cost of this project, after gifts, is estimated to be between \$50-\$55 million.

"The role of University generated funds in capital projects such as the academic/athletic convocation and events center is

increasingly important in moving them forward," President Thomas said. "We have pledged similar joint funding packages to encourage the Commonwealth to release design funds for the addition to Pattee Library and the construction of an engineering building at University Park, both critical, needed capital projects at Penn State. We believe that such joint partnerships will allow us to keep the momentum moving forward at the University during what we all recognize to be very difficult financial circumstances."

The academic/athletic convocation and events center has been in the planning stages for more than five years and will be used, in part, to house many functions now

taking place in Rec Hall, a facility built in 1929 which seats approximately 800. But the new facility will be much more than a place for intercollegiate athletics.

"We have planned for a multi-purpose facility one which addresses the inadequacies of current University facilities for academic convocations, cultural events, athletic events, conventions, concerts, alumni functions and other such events," President Thomas said. "It will serve a wide range of needs, from graduation ceremonies to NCAA championship events impossible to schedule now because of the limitations of existing facilities."

University officials estimated that the process of design and construction will take several years. Studies indicate that the facility will host more than 200 events a year within five years of the construction of the facility.

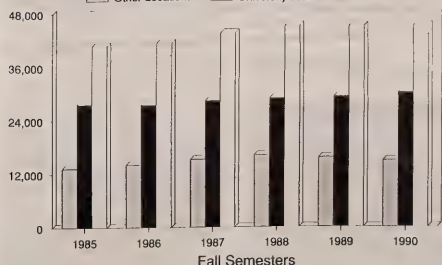

Once completed, the new center will be the largest such facility between Pittsburgh and Philadelphia.

The last state-funded building for Penn State's University Park campus, the Walker Building, was constructed in 1974. Penn State hopes that funding for other key projects will follow.

President Thomas also said the support and commitment that Penn State is receiving from the commonwealth will ensure the University's place as a leader in the higher education community.

BACCALAUREATE DEGREE ENROLLMENT

Other Locations University Park Total

President Thomas discusses budget recycling with Senate

All University units are being asked to recycle some budget funds to meet the budget cuts made by Gov. Robert Casey, President Thomas told members of the University Faculty Senate on Jan. 22.

"We must all work together to keep Penn State on course through this difficult situation," he said.

The impact of the governor's budget cuts on the University's operating budget, seven months into the fiscal year, is equivalent to a 12-percent reduction in funding, he added. Gov. Casey's blueprinting of the state's capital budget also has a severe impact on the University.

The war in the Persian Gulf is further clouding Pennsylvania's and the nation's economies, President Thomas said.

"In the face of these kinds of fiscal exigencies, planning becomes all the more

important." He noted that in spite of current budgetary constraints, some University programs will continue to grow and expand, while other new programs will have an opportunity to develop.

Budget recycling and other temporary measures designed to cope with the reduced state funding will not damage academic quality, he said.

In addition, President Thomas reported on the NCAA's approval of a package of reforms proposed by the President's Commission on Intercollegiate Athletics. He noted that much of the reform package will have no impact on the University's intercollegiate athletic practices.

He also updated the Senate on the progress of the searches for the executive vice president and provost and the senior

See 'Senate' on page 3.

Focus on Diversity

Dow grant assists young minority professors

The Dow Chemical Co. Foundation has committed \$150,000 to help the College of Engineering attract talented minority individuals to academic careers.

The gift establishes the Dow Young Minority Investigator award and provides \$50,000 a year for three years to support the research activities of young minority professors.

"The dilemma is that we are becoming a nation of scientific illiterates at a time when the need for technological expertise is accelerating," James Plonka, Dow Chemical's director of research and development, said.

"With the changing composition of the work force, it is increasingly important to educate minority engineers and scientists. It's a multifaceted problem that all segments of society have to work together to solve. Corporate support for institutions that teach

people science and for minority educators is an important piece of the puzzle."

The Dow award, modeled on the successful National Science Foundation Presidential Young Investigator program, helps Penn State to recruit and support minority faculty members.

Lance Collins, assistant professor of chemical engineering, is the first recipient of the Dow Young Minority Investigator award. He previously held a post-doctoral position at Los Alamos National Laboratory and specializes in fluid mechanics and combustion research.

"Dow's support was very much a part of my decision to move to academia," he said. "The Dow award allows me to pursue research and publishing more vigorously and, at the same time, to be involved in service-type activities."

Lance Collins

Diversity Opportunities Calendar

Thursday, Jan. 31

Contemporary Scholarship on Lesbian and Gay Lives, 8 p.m., Eisenhower Auditorium. Dance performance: "Last Supper at Uncle Tom's Cabin/The Promised Land."

Friday, Feb. 1

Contemporary Scholarship on Lesbian and Gay Lives, 7 to 9:30 p.m., 123 Chambers. Film: "Tongues Untied: Black Men Loving Black Men." A discussion will follow.

Paul Robeson Cultural Center, 7 p.m., Robeson Center Auditorium. Talent show: "Nite at the Apollo."

Saturday, Feb. 2

Office of Minority Faculty Development, 9-30 a.m., 114 Kern Graduate Building. "The Process of Being Published," first in a series of faculty development workshops. For reservations, call Leah Witzig at 863-1603.

Paul Robeson Cultural Center, 2 p.m., Robeson Center Auditorium. Communal dinner.

Paul Robeson Cultural Center, 8 p.m., Schwab Auditorium. Gospel concert.

Monday, Feb. 4

Office of Minority Faculty Development, 8 a.m. to 5 p.m., 114 Kern. "External Funding and Proposal Development," second in a series of faculty development workshops. Call Leah Witzig at 863-1603 for reservations and details.

Paul Robeson Cultural Center, 8 p.m., Robeson Center Auditorium. Presentation on correct usage of the Kente Cloth by Harriet Shiffer.

Achieving Women Project nominations sought

The Commission for Women is seeking nominations for the Achieving Women Project to recognize the accomplishments of women students, faculty, administrators, clerical, staff and technical service employees to be published in "Achieving Women at Penn State" and distributed on March 11 at the annual spring banquet.

"This project recognizes Penn State women at all levels," Dr. Mary DuPuis, chair of the commission, said. "We are

honoring a wide variety of achievement ranging from community leadership to academic honors."

Qualifications for recognition include: advocacy on behalf of women and children; appointments to a senior level position; artistic or creative endeavors; completion of 25 years of service at Penn State; or recipient of major fellowship or scholarship, among other criteria.

Application and recognition guidelines

are available at both the HUB and Kern information desks. Contact Trudy A. Smith, chair of the outreach committee, at (814) 865-1683 if you have further questions.

Nominations are no later than Feb. 8 and should be mailed to Achieving Women Project, Commission for Women, 405 Old Main, University Park, Pa. 16802. For more information on the banquet, call Ann Harpster at 863-0036.

Scholarship grant

The Office of Education Abroad Programs has received \$13,000 from the Equal Opportunity Planning Committee for minority scholarships for summer 1991.

The grant will help minority students who have been accepted for an Educational Abroad Program and who have financial need.

The deadline for applying for summer scholarships is March 1; for fall and academic year scholarships, Oct. 1.

Black History Month

WPSX-TV begins its celebration of Black History Month with the powerfully funny and controversial "The Colored Museum," airing at 9 p.m. Friday, Feb. 1, on *Great Performances*. George C. Wolfe's satirical comedy drama is an irreverent exploration of black stereotypes.

Eyes on the Prize, airing at 10 p.m. Monday, Feb. 4, through Wednesday, Feb. 6, and Monday, Feb. 11, through Wednesday, Feb. 13, documents the early years of the civil rights movement, in an encore presentation of the widely acclaimed six-part series.

Local productions highlighting this month's celebration include *Artworks* "Since the Harlem Renaissance: Fifty Years of African American Art" from the Palmer Museum of Art, airing at 1:30 p.m. Sunday, Feb. 3. This video exhibit focuses on the Harlem Renaissance of the 1920s, tracing the history of Black consciousness in American visual art.

Desmond Tutu at Penn State: Celebrating Our Freedom Together, airing at 2 p.m. the same day, will focus on Archbishop Tutu's 1989 visit to University Park.

Libraries award

Nominations are being sought for candidates for the 1991 University Libraries Award.

The award, consisting of a citation; a cash stipend, and a Nittany Lion Statue, is given in recognition of the achievements or performance of any person holding an academic or staff appointment in the University Libraries who meets one or more of the following criteria: Professional contribution which has a significant influence on the operations of the Penn State Libraries; significant professional contribution which earns the respect of the University community for the Libraries; significant contribution to the profession which reflects achievement in librarianship at Penn State; or outstanding service to the Libraries as shown by continuing leadership and innovation.

Nomination forms are available from the Libraries Administrative Office, E505 Pattee, or any Commonwealth Campus Library, and are due on or before Monday, March 4.

Cross-cultural counseling is conference focus

Some 115 counselors, advisers and administrators at University Park took part this month in a two-and-a-half-day conference focusing on cross-cultural counseling.

The "Training Conference for Cross-Culturally Effective Professionals," held at the Keller Conference Center, was co-sponsored by the offices of Career Development and Placement Services,

Counseling and Psychological Services, and the Division of Undergraduate Studies.

Featured speakers were Janet Helms, associate professor of psychology at the University of Maryland, who has researched, written and taught extensively on racial identity theory, and Paul Pederson, professor of education at Syracuse University, who has taught and written on cross-cultural counseling issues.

University faculty and staff members on the program included W. Terrell Jones, special assistant to the provost for underrepresented groups; Nancy Love, associate professor of political science and affiliate professor of women's studies, and Edwin Herr, distinguished professor and head of the department of Counselor Education, Counseling Psychology, and Rehabilitation Services Education.

Fleet Operations keeps traffic moving smoothly

Handling the more than 12,000 passenger vehicle trips made each year by University employees can be tricky logistically, but Fleet Operations keeps the traffic flowing smoothly.

"Demand for our service continues to grow," **Bruce Younk**, manager of Fleet Operations, said. "More employees are using University vehicles, rather than their own, because of rising fuel costs and other factors. We also like to think the quality of vehicles and service we offer has been a factor."

"As a result, the number of passenger vehicles dispatched has grown 35 percent since 1986," he said.

Since moving to new facilities behind the Physical Plant Building (off Park Avenue) in 1980, Fleet Operations is better prepared to meet growing University demands for its services, which involve daily and long-term rental of a wide variety of vehicles for University business, as well as chauffeuring and driver services for special University activities.

Fleet Operations dispatched 12,250 passenger vehicles last year at University Park. Passenger cars comprise most of the fleet of approximately 500 vehicles, which also includes passenger and cargo vans, police cars, mail trucks and

Campus Loop buses.

Mr. Younk explained that Fleet Operations, which is part of the Division of Business Services, purchases and maintains the largest fleet of vehicles used by faculty and staff members University-wide. It does not, however, control all University vehicles, some of which are owned outright by specific units.

"Centralization of the University fleet

services enables Penn State to save cost through volume purchasing and better control of maintenance costs. This centralized operation also allows the University to obtain better utilization of vehicles and provide a consistent policy for controlling the use of vehicles," he said.

In addition to handling short-term requests for vehicles, Fleet Operations assigns vehicles full time to departments

and other units which have completed its approval process.

Fleet vehicles are provided as a service to the University community, and the privilege should not be abused. Vehicles assigned to a unit for an extended period of time are authorized for use only in conducting University business. Mr. Younk points out. University travel policy prohibits their use for anything except University business. Vehicles are not to be used for shopping, personal errands, etc. This policy eliminates any appearance of impropriety in how these University-owned vehicles are used.

Short-term rentals can be scheduled from 7:30 a.m. to 4:30 p.m. Monday through Friday. Vehicles can be picked up and/or dropped off from 6:30 a.m. to midnight Monday through Friday and from 7 a.m. to 3 p.m. on weekends. Faculty and staff members can call Fleet Operations at 865-7571 or use campus mail to schedule a vehicle.

Vehicles provided to campuses are administered through the campus' financial office. He noted, for example, that the Hershey Medical Center has 30 Fleet Operations vehicles, and the Penn State Altoona Campus has 10 such vehicles.

Senate

Continued from page 1.

vice president for research and dean of the Graduate School. He has asked Charles L. Hostler to postpone his retirement until December 1991 to ensure a smooth transition when both posts have been filled.

Following the president's report, the Senate approved two legislative proposals dealing with academic policies.

Senators unanimously passed changes to Senate policy 57-00 involving readmission with academic renewal. The changes will enable students from Penn State and other institutions who have interrupted their academic careers for at least four years and who also had GPAs of less than 2.0 to petition to be readmitted to the University.

A small group of students who previously had had poor academic records were admitted to the University on a provisional basis in 1988. A majority of

these "special" provisional students have since attained GPAs of between 2.60 and 3.75. Their success led the Committee on Admissions, Records, Scheduling and Student Aid to extend academic renewal to more adult learners.

A second proposal by the committee to delete Senate policy 83-20 also was approved. The policy deals with special exemption procedures and advanced standing admission exemptions for physical education requirements.

Deletion of the Senate policy moves administration of physical education requirements to the General Education program, bringing current practice into line with General Education requirements. Exemption authority for physical education requirements will now reside with the dean of the college in which the student is enrolled, as is the practice for all other requirements.

University Libraries reduce hours

As a result of recent budget reductions across the University, the Libraries at University Park have announced a reduction in hours of service. Schedule changes took effect the week of Jan. 27.

The Libraries have made a concerted effort to minimize the impact on students by targeting these reductions for off-peak periods which include Friday evenings, portions of Saturdays, Spring Break, and Intercession. In addition, it has become necessary once again to close the entrance/exit of West Pattee.

In announcing the changes, Nancy Cline, dean of Libraries, emphasized that the 24-hour service in Pollock Library and the period of extended hours in Pattee and the branch libraries prior to final exams would not be affected by the budget cuts.

"We are keenly aware of the extent to which students and faculty depend upon the Libraries. It is unfortunate that hours must be reduced, but by announcing these changes early in the semester, we hope that

most users will be able to plan now to accommodate their research and study needs," she said.

Effective immediately and for the balance of the semester, Pattee and the branch libraries will close at 6 p.m. on Fridays. Saturday hours will be from 10 a.m. to 6 p.m.

During Spring Break, Pattee and the branch libraries will be closed on Sunday, March 3. On Monday, March 4, the hours will be 8 a.m. to 10 p.m. From Tuesday, March 5, through Friday, March 8, the hours will be 8 a.m. to 5 p.m. On March 9, hours will be 10 a.m. to 6 p.m. The regular semester schedule will resume on Sunday, March 10.

Intercession hours (May 12-June 7) for Pattee and the branch libraries will follow a schedule similar to that of Spring Break—Monday 8 a.m. to 10 p.m.; Tuesday through Friday, 8 a.m. to 5 p.m.; Saturday, 9 a.m. to 5 p.m.; and closed Sundays.

Statement from President Thomas

Much of the world is currently involved in conflict in the Persian/Arabian Gulf region. While emotions understandably run high, the response of the University community has largely been a positive one: an open exploration of the issues and honest expression of opinion.

For no groups do emotions run higher, nor are the anxieties greater than those far from home. Just as there are hundreds of Penn State students studying abroad, there are over two thousand international students on our campuses throughout the Commonwealth; many of them from nations involved on both sides of the conflict. This institution is represented well by the positive contributions to the dialogue made by these students, and by the acceptance of that diversity of opinion on the part of the University community. One hopes that our

students abroad are able to make the same contributions with similar results.

In such times of crisis, there are few things about which all parties can agree. One of these is that this conflict is a terrible development which we all hope will soon end. Another is that it will end, and that the imperative to build a peace will be enormously aided by the return to their native lands of those who have been exposed to other perspectives and who have been able to express openly their ideas in an atmosphere of open inquiry and shared humanity.

It is the earnest wish of The Pennsylvania State University that this conflict end soon, and that all of the members of our community continue to explore the issues it raises in a positive and constructive manner.

— President **Joab Thomas**

Focus on the arts

Kern Galleries

An exhibition of paintings by regional artist Jan Brenness is on display at the Kern Galleries at University Park through Feb. 6.

The arts on Channel 3

Corita Kent led a life of contradictions. She was a teacher and a revolutionary; an artist who symbolized hope despite her own tragedy: a nun who left the church at age 50 to find God—and herself.

Narrated by Eva Marie Saint, *Primary Colors: The Story of Corita*, airing at 12:30 p.m. Saturday, Feb. 2, probes the life of a uniquely gifted artist whose civil rights and anti-war statements became the voice of a generation.

The "Zeus, by Jove" episode of "I, Claudius" reprises on *Masterpiece Theatre* at 9 p.m. Sunday, Feb. 3, as part of "Twentieth Anniversary Favorites," a nine-week celebration of the drama series' two decades on PBS. Based on Robert Graves' two historical best-sellers, *I, Claudius* and *Claudius of God*, the TV series paints a portrait of limitless immoral and amoral political and social behavior.

Omnibus Quintet

The Omnibus Quintet from the Eastman School of Music will present a concert at 8 p.m. Saturday, Feb. 2, in the School of Music Recital Hall at University Park. The program will include quintets for winds and piano by Mozart and Beethoven.

Members of the quintet, which has performed in the "Concerts for Peace" at Eastman, include Mitch Imori, oboe; Christian Ellenwood, clarinet; Julie Pilant, horn; Erik Kibelsbeck, bassoon; and Jeff Swinkin, piano.

The Little Prince

"The Little Prince," Antoine de Saint-Exupéry's charming fable, will be performed at 3 and 5 p.m. Feb. 3 in Schwab Auditorium at University Park.

It is presented by the Center for the Performing Arts' Wide-Eyed Wonders, new children's series sponsored by People's National Bank.

With sets and costumes based on Exupéry's original drawings, the musical recounts the story of the Little Prince who comes from a tiny planet, no bigger than a house. He travels to Earth, where he meets

Harriet M. Rosenberg's lithographs, paper cuttings and photographs are on exhibit in the HUB Formal Gallery through Feb. 3.

a wise fox and learns what is essential in life.

Exhibit lecture

Reuben M. Rainey, associate professor of landscape architecture at the University of Virginia, will present the lecture "The Landscape Art of A.E. Bye" at 8 p.m. Tuesday, Feb. 5, in Zollner Gallery at University Park.

His presentation is the second in the Department of Landscape Architecture's Bracken Lecture Series.

Dr. Rainey will discuss the design principles in Mr. Bye's work and how the American and English landscape design traditions influenced it. Special attention will be given to Mr. Bye's respect for regional design precedent and his concern to work in harmony with the ecosystems of a particular site.

His lecture is presented in conjunction

with the exhibition "Abstracting the Landscape: The Artistry of Landscape Architect A.E. Bye," on view in the Palmer Museum of Art. The public is invited to view the exhibition following the lecture.

Odyssey on WPSU

"An artist doesn't have to be burdened by tradition. In fact, he can shift the burden backwards and influence his precursors," so says Lois Parkinson Zamora, an English professor from the University of Houston, on the next episode of "Odyssey Through Literature."

Ms. Zamora and host Leonard Rubinstein, professor emeritus of English and comparative literature, discuss how tradition and technique combine to create "expensive" artwork.

"Odyssey Through Literature" is produced by the Department of Comparative Literature in the audio-production studios of WPSU-TV. It airs Wednesdays at 12:30 p.m. on WPSU, 91.1 FM.

Toshika Akiyoshi.

Centre Dimensions is directed by Dan Yoder, associate professor of saxophone and director of jazz studies. The concert is free to the public.

Chamber Singers

The Penn State Chamber Singers will perform in concert at 12:10 p.m. Thursday, Feb. 7, in Eisenhower Chapel at University Park. The 20-minute concert is part of the Bach's Lunch Concert Series sponsored by the School of Music and the University Lutheran Parish.

The program will preview the Chamber Singers' fifth annual "Celebration of Love" concert to be presented in Old Main Feb. 15 and 16. The singers will perform Britten's "Five Flower Songs," with selections by A. Gabrieli, Monteverdi, Elgar and Vaughan Williams.

Zoller exhibit

"Gender and Representation," an exhibit of work by 19 nationally and internationally known artists from the United States and Mexico, opens Feb. 9 and will continue through March 4 in Zollner Gallery at University Park.

The exhibition is presented in conjunction with the Women's Studies speakers series on gender and representation, which will present lectures on the same theme by six well-known feminists from the arts, literature and history.

In their work, the artists respond to the issues of gender identity, gender relationships and the interaction of gender issues with those of race and class.

Jazz collection

A gift of early 78RPM jazz recordings, the Edward J. Nichols Jazz Collection, has been presented to the Penn State Music Collection by Eleanor Nichols in memory of her late husband, who served the University for many years as a professor of English until his retirement in 1964.

Mr. Nichols was a lifelong enthusiast and careful collector of jazz recordings. His great interest was in the early jazz of the Dixieland era, through the 1940s. Kathleen Hefflinger, music librarian in the Arts Library, said that the Nichols Collection is particularly valuable to the Libraries since it complements the Clarence I. and Almeda R. Noll Record Collection of big band recordings of the 1940s and 1950s that was given to the Music Listening Room in 1985 by Mrs. Noll.

"Combining the Nichols early jazz gift with the Noll gift means that Penn State now has a jazz collection of over 3,600 sound discs representing the best in various types of jazz from its earliest recorded representations up through the 1950s," she added.

The arts at...

Ogontz Campus

The Penn State Ogontz Campus will host a retrospective exhibit of the works of the late Delaware County artist Timothy Marks. A selection of his landscapes and wildlife paintings will be on display Feb. 1 through Feb. 21, at the campus' Woodland Library gallery.

Hazleton Campus

Gisela McBride of McAdoo will exhibit 37 of her pastels and water colors in the library of the Penn State Hazleton Campus from Feb. 3 through March 1.

Many of the paintings are landscapes and flowers, but the exhibit will include some abstract paintings as well.

Centre Dimensions

Centre Dimensions, Penn State's jazz band, will present its annual spring concert at 8 p.m. Wednesday, Feb. 6, in the School of Music recital hall at University Park.

Selections will include big band styles ranging from traditional swing to contemporary funk with pieces that have been performed by such notable bands as Count Basie, Woody Herman and

Appointments

John Barnes, admissions officer at the Penn State Wilkes-Barre Campus, since 1989, has been appointed assistant director of student programs and services at the campus.

Mr. Barnes, a Penn State alumnus, joined the University staff in 1984 as a counselor at the Penn State Hazleton Campus. He then served three years with the Counseling and Academic Skills Development Unit at University Park, and later as coordinator of the Office of Minority Programs for the College of the Liberal Arts.

Mr. Barnes holds three Penn State degrees, an associate degree in letters arts and sciences from the Wilkes-Barre Campus, a bachelor's degree in community

development and a master's degree in public administration.

He is in this year's class of Leadership Wilkes-Barre. He received an Outstanding Young Men of America Award in 1986 and has been recognized for establishing the Penn State Chapter of the National Association for the Advancement of Colored People (NAACP).

Anna M. Griswold, director of the Office of Student Financial Aid at Washington State University, has been named assistant vice president for student financial aid, effective March 18.

Ms. Griswold will oversee a \$182 million student financial aid program at 20 campuses, including the supervision of a

professional and clerical staff of 61, liaison and coordination with federal, state and institutional agencies, and the development of institutional policies and procedures. She will report directly to Robert Dunham, vice president and vice provost.

She has served as director of student financial aid at Washington State University since 1988, having joined the office in 1980. Prior to that, she had been employed at several colleges and the U.S. Office of Education in the field of student financial aid.

A resident of Colton, Wash., she earned a B.A. degree in sociology from Siena College and a master's degree in education, guidance and personnel services with an emphasis in higher education administration

from Memphis State University.

Among her activities, Ms. Griswold is a past president of the Washington Financial Aid Association and an active member of the Western Association of Student Financial Aid Administrators and National Association of Student Financial Aid Administrators. At Washington State, she served on many committees, including the Division of Minority Affairs Advisory Committee and the Enrollment Management Committee.

Lorraine M. Mulfingher has been named coordinator of the Office for Regulatory Compliance.

Her major responsibility is to see that all University campuses comply with governmental policies and regulations for use of human subjects in research and instruction, care of laboratory animals, and use of radioactive isotopes and biohazardous agents in the laboratory or classroom.

Dr. Mulfingher holds a Ph.D. in veterinary science, with a minor in biochemistry, from Penn State. From 1982 until joining the University staff, she worked as quality control coordinator at Vespa Laboratories, Spring Mills, Pa., the only producer of insect venoms in the world. At Vespa, she conducted research into a peptide in bee venom that may improve antibiotic performance and is co-holder of a patent on that process.

From 1978 to 1982, she was a research aide in biochemistry at Penn State and from 1978 to 1979, she served as laboratory instructor in microbiology.

News in Brief

Inn food service

During the next four months of construction and renovations, the Nittany Lion Inn is continuing to offer food services to hotel guests and the general public.

The dining room is open as usual Monday through Friday from 7 to 10 a.m. for a continental breakfast buffet. The weekday luncheon buffet features hot and cold dishes from 11:30 a.m. to 1:30 p.m., and hotel guests may order dinner from a special light fare menu, served from 6 to 8:30 p.m.

For breakfast or lunch reservations, call dining room supervisor Janet Brannan at 231-7515.

Education Abroad Programs

The deadline for applying for spring 1992 Education Abroad Programs is March 1.

Education Abroad Programs are offered in a variety of disciplines in Australia, Egypt, England, Germany, Greece, Israel, Italy, Kenya, Puerto Rico and Spain.

For more information, stop by 222 Boucke Building or call 865-7681.

Smokers Anonymous

The State College Smokers Anonymous group meets at noon Thursdays at the Senior Center, 131 Fraser St.

Those who can't "just do it alone" and who have trouble "staying quit" are invited to attend.

Josephine Rhea Lecture

Robert J. Di Pietro, professor of linguistics at the University of Delaware, will speak on "Italian Americans and the Concept of the Hero" at 8 p.m. Tuesday, Feb. 5, 101 Kern Building at University Park.

His lecture is sponsored by the Department of Spanish, Italian and Portuguese as part of the Josephine J. Rhea lecture on Italian Letters and is open to the public.

Healthy Loving Week

The Office of Health Promotion and Education, University Health Services, a

division of Student Services, is sponsoring its annual Healthy Loving Week Feb. 4-8.

The highlight of the week's activities will be the visit of Lauren Burke, a young woman infected with HIV, the virus which causes AIDS. She is scheduled to speak at 8 p.m. Thursday, Feb. 7, in Schwab Auditorium.

Education Abroad Day

The Office of Education Abroad Programs is sponsoring an Education Abroad Day from 1 to 5 p.m. Thursday, Feb. 7, in the Hetzel Union Building at University Park. The event is open to anyone interested in study-abroad opportunities.

Pattee cassette tour

The University Libraries now offer a self-guided audio cassette tour of Pattee Library, developed by **Henriette Nixon**, assistant librarian and the project's coordinator, with **Lynne Stuart** and **Irene Weiner**, assistant librarians.

The 45-minute, self-guided tour was developed as an alternative to the guided tours offered by library personnel at the beginning of each

semester. If you miss these tours, you can now take the Pattee Library self-guided tour anytime during regular library hours. A current student ID or driver's license is required to sign out the tour at the Information Desk located in the LLAS Catalog Room.

New Researcher Award

Primary and secondary school teachers, graduate students and college and university faculty members are invited to submit research papers in education for the annual Phi Delta Kappa New Researcher Award Competition.

Sponsored by the Alpha Tau Chapter at Penn State, the award recognizes new researchers in experimental, descriptive or historical studies in education. The award winner will receive \$250 and a certificate.

Candidates must have a bachelor's or master's degree or have received their doctorate within the past three years, but they do not need to be members of Phi Delta Kappa.

For more information, contact

William M. Farnsworth, (814) 862-0828, 216 Shields Building, University Park, Pa. 16802.

Partings

Robert T. Clappier

George A. Etzweiler

Joanne Zagst Feldman

Leonard Feldman

Richard Mayhew

Robert T. Clappier, director of student programs and services at the Penn State Gontz Campus, has retired after 24 years service.

Recognized for his rapport with and support of students, he was awarded their highest honor, being named Chief Gontz, in 1984.

Mr. Clappier earned both his bachelor's and master's degrees at the University of Pennsylvania, and for five years served as that institution's assistant dean of men. He accepted the position as admissions officer at the Gontz Campus in 1967.

George A. Etzweiler has retired as associate professor of electrical and computer engineering after 32 years service. Dr. Etzweiler began his career at the University in 1957 as an instructor in electrical engineering. Prior to coming to Penn State, he worked as an electrician for Lewistown Electric, an instructor for the U.S. Navy Fire Control School and an engineer for Litton Industries.

A three-time recipient of the College of Engineering Outstanding Advisor award, Dr. Etzweiler says the aspect of his job he enjoyed most is teaching. He also was the course scheduling officer in electrical engineering for 23 years from 1964 to 1987.

He earned a bachelor of science, a master of science, and a Ph.D. in electrical engineering from Penn State. He is listed in

Who's Who in Engineering, American Men of Science, Who's Who in the East and Who's Who in American Education. He is a member of numerous honor societies and served on the University Faculty Senate.

Dr. Etzweiler, who has consulted for the Pennsylvania Technical Assistance Program (PENNTAP) since its founding, will continue his work with PENNTAP and will continue to teach part-time for electrical and computer engineering.

He and Mary, his wife of 49 years, will remain in the State College area.

Joanne Zagst Feldman, associate professor of music, has retired after 27 years service. Professor Feldman, who taught violin and viola, came to Penn State in 1962 as a member of the Alard Quartet. She considered the quartet a service to the community and the University, saying that it provided a "variety of first-rate chamber music, with an emphasis on living American composers."

Professor Feldman has been a member of the Rochester Philharmonic and the Dayton Philharmonic Orchestra. She was a performer at the Bartok Seminars in Budapest, and performed a duo-recital tour of the USSR with her husband, Leonard. She also has performed with the Pennsylvania Ballet and been concertmaster of the Claremont Festival Orchestra in California, the Altona Symphony and the Nittany Valley Symphony.

She received her bachelor's and master's degrees from the Juilliard School of Music. After retiring, she plans to continue living in the area. She will continue to perform solo and with groups, including the Alard Quartet. She and her husband also plan to travel.

Leonard Feldman, associate professor of music, has retired after 27 years service.

A cellist, Professor Feldman came to Penn State with the Alard Quartet in 1962. He has toured with the quartet in the United States, Canada, Mexico, Europe and in the Pacific region.

"I think we turned some people on to chamber music and showed them what's available," he said. "The quartet has loyal supporters at the University and in the community who enjoy hearing us perform."

Professor Feldman has been a member of the Army Field Band, assistant principal cellist of the Rochester Philharmonic and soloist with the Pennsylvania Ballet. He served as president of the Pennsylvania String Teachers Association from 1988-90.

Professor Feldman studied at the Juilliard School of Music and received his bachelor's and master's degrees from the Eastman School of Music. In retirement, he plans to devote more time to solo and group performance. He also will continue to make limited appearances with the Alard Quartet.

Richard Mayhew, professor of art and Fellow of the Institute for the Arts and Humanistic Studies, has retired with emeritus status after 14 years service.

An internationally known artist, Mr. Mayhew has painted the American landscape throughout his career, creating works that convey the experience of a location rather than its appearance.

Mr. Mayhew was named the first artist-in-residence in the School of Visual Arts in 1989. Since then he has taught a seminar on survival in the arts for young artists, served as a resource for students and maintained an open-door studio on campus.

He studied at the Brooklyn Museum Art School, Columbia University and at the Accademia in Florence, Italy. He has won numerous awards and honors, including fellowships from the MacDowell Colony and Djerassi Foundation, a John Hay Whitney Fellowship and awards from the Tiffany Foundation and the Ford Foundation, as well as the Benjamin Altman Award from the National Academy of Design, among others.

In his retirement, Mr. Mayhew will maintain studios in California and State College and will present a series of lectures and workshops at universities around the country. He currently is working on a large body of works to be presented in two one-man exhibitions in the fall at the Midtown Payson Gallery in New York and the Sherry Washington Gallery in Detroit.

Faculty/Staff Alerts

International mail service

Due to the unrest in the Middle East, all International Mail has been slowed because of a reduction in the number of flights that carry International Mail. Significant delays should be expected for any mail destined to the Middle East. There is a complete embargo on mail to Iraq, Kuwait, and Liberia.

Mail Services will try to keep the University Community informed of any changes as they occur. For further information, contact Mail Services at 865-9171.

Major medical claims

March 31 is the last date on which

Prudential will accept charges for a 1990 major medical claim for University faculty and staff members or their dependents. A major medical claim is established when a faculty or staff member reports eligible charges to Prudential which exceed the deductible.

Charges that are acceptable for a major medical claim include doctors' office calls, prescribed drugs, private duty nursing (if medically necessary), local ambulance services, oxygen, physiotherapy, insulin and special equipment and appliances. Among charges not covered are routine physical exams, dental work, eye exams and lenses.

Itemized receipts should be obtained for eligible charges and submitted to Prudential with a claim form. In order to avoid delay of payment by the insurance company, all

questions in the employee's section of the claim form should be completed fully. Canceled checks and cash register receipts are not acceptable evidence of charges incurred.

Claim forms and additional information

Obituaries

Louise K. Kelly, former curator of the Penn State Collection in the University Libraries, died Nov. 4. She was 78.

A graduate of Skidmore College, she received her master's and doctoral degrees from Penn State. She taught at Elizabethtown College and was head of the English Department from 1957 through

on how to report a major medical claim are available at the Employee Benefits Division, Room 205 Rider Building, the Business Offices at locations other than University Park and the Human Resources Office at the Hershey Medical Center.

1962 when she joined the staff of the University Libraries. She retired Jan. 1, 1974.

She was a member of the American Association of University Women, Modern Language Association and the College English Association.

David W. Hodge, test driver II, Research and Graduate School, since Aug. 1, 1988, died Jan. 3 at the age of 40.

IDP search committee formed

A search and screen committee has been appointed to identify candidates for the position of director of the Instructional Development Program.

Jerry B. Covett, associate dean for undergraduate education and acting director of the Instructional Development Program, is committee chair. Members are:

Deborah F. Atwater, associate professor of speech communication and senior faculty mentor, Research and Graduate School;
Shannon L. Burke, member of the Academic Assembly, Undergraduate Student Government;
Mary M. Dupuis, director of teacher education and associate dean for undergraduate programs, College of Education;
Frank J. Kristine Jr., associate professor of chemistry, Penn State Mont Alto Campus;
Peirce Lewis, professor of geography;
Eugene R. Melander, assistant vice president for academic services;
Robert G. Melton, associate professor of aerospace engineering;
Marie J. Secor, associate professor of English; and **Cl. Bruce Sherbine**, director of academic affairs, Penn State Worthington Scranton Campus.

The IDP director is an academic administrative appointment that provides University-wide leadership in supporting

and encouraging faculty efforts in the maintenance and improvement of instructional quality.

The director appoints and supervises the staff in the preparation of instructional resources and materials for faculty. The director organizes, promotes, and presents workshops, seminars, and other

instructional programs to all University faculty and consults with individual faculty members, some of whom may be experiencing instructional difficulties. Qualifications include a doctoral degree and experience in faculty or instructional development. A knowledge of teaching and learning and instructional improvement strategies is required, in addition to library and research skills.

The position is available on or before June 1. The search and screen committee will begin reviewing applications on March 1.

Applications and nominations should be sent to Dr. Covett, chair, Search and Screen Committee, Instructional Development Program, 207 Old Main, University Park, PA 16802. Applicants should submit a letter of application and a current curriculum vitae, and arrange for three letters of recommendation.

To further biological research

New center has been established

The University has established a Center for Biomolecular Structure and Function with two major objectives: to investigate the relationship between the molecular structure of proteins and their ability to execute a specific function or task in the body; and to provide research opportunities for science students.

"We have one of the largest collections of scientists working in this research area at a single academic institution," **Joseph Villafra**, Evan Pugh professor of chemistry and director of the center, said.

The center brings together an interdisciplinary group of investigators from the Eberly College of Science's Department of Chemistry and Department of Molecular and Cell Biology and the College of Agriculture's Department of Veterinary Science.

In addition to furthering biological research, the center also provides an organizational structure for developing new courses, programs, seminars, and research facilities. Through special symposiums and workshops, the center plans to attract students and researchers from other academic and scientific institutions as well.

"We are dedicated to training the next generation of scientists in this critical area of research," Dr. Villafra said.

Center for Biomolecular Structure and Function investigators include: **Stephen Benkovic**, **Gregory Farber**, **Gordon Hamilton**, **William Horrocks**, **Juliette Lecomte**, **Robert Matthews**, **Kenneth Merz**, and **Dr. Villafra** in the Department of Chemistry; **Kenneth Johnson** and **Ming Tien** in the Department of Molecular and Cell Biology; and **C. Channa Reddy** in the Department of Veterinary Science.

Carpoolers

A ride is needed to the Physical Plant Building from Old Boalsburg Road in State College at o a.m. weekdays. Call **Ossie Parker** at 865-4731 or 238-6211.

Judy and Dan are looking for riders to carpool from Altoona or Tyrone to University Park. Work hours are 8 a.m. to 5 p.m. Call 865-6301; Judy (home), 632-8462; or Dan (home), 942-7658.

Staff Vacancies

The following vacancies for positions classified as staff exempt or staff nonexempt have been listed with the University Employment Division for filling. The brief statements for each vacancy are illustrative. They are not complete position descriptions. **APPLY BY CALLING THE EMPLOYMENT DIVISION, 863-0300.** Applications for these staff vacancies will be accepted until Feb. 7. **DO NOT CONTACT THE AREA THAT HAS THE VACANCY.** Applications for staff vacancies are considered in accordance with Fair Employment practices (PS-1) and in compliance with the University's Affirmative Action Compliance Program without regard to race, color, religion, national origin, handicap, or age as provided by law, sex, or status as a disabled or Vietnam era veteran.

■**01278, Coordinator, Playbill and Group Sales, University Arts Services, Center for the Performing Arts, University Park Campus** - Responsible for developing and maintaining prospective playbill client lists; coordinating and supervising telemarketing personnel; soliciting prospects, making presentations and selling advertising space; direct mail marketing and obtaining group ticket purchase commitments. Requires bachelor's degree, or equivalent in marketing communications or related field, plus one to two years of effective experience. Day travel required. Automobile necessary with compensation mileage. THIS IS A FIXED TERM POSITION FUNDED THROUGH JUNE 30, 1992. WITH POSSIBILITY OF RE-FUNDING. STAFF GRADE 5.

■**01279, Associate Director of Development and University Relations, Penn State Behrend** - Responsible to the director of development and university relations at Behrend College for a comprehensive alumni program. Coordinate annual giving program and support director in major gifts fund raising. Requires bachelor's degree, or equivalent, in marketing, communications or related field, plus three to four years effective experience in public relations, fund raising, etc. in a non-profit environment with evidence of skill in verbal and written communications. STAFF GRADE 8.

■**01280, Applications Programmer Analyst, Computer and Information Systems, Library Computing Services, University Park Campus** - Responsible

to designated leader for conducting analyses of data processing and operational problems, determining detailed requirements to solve problems, formulating logical statements of systems problems, and preparing computer programs to satisfy desired end results. Requires bachelor's degree, or equivalent, in basic computer systems and one to two years of effective experience in computer programming and analyses. Experience with DEC VMS is preferred. THIS IS A FIXED TERM POSITION FUNDED THROUGH AUG. 30, 1991, WITH EXCELLENT POSSIBILITY OF RE-FUNDING. STAFF GRADE 6.

Hershey

For the following position vacancies.

apply directly to The Milton S. Hershey Medical Center. Attach resume with cover letter indicating the position vacancy code and forward to the Department of Human Resources, Hershey, or call the Hershey bid line at (717) 531-6531 by Feb. 7.

■**1649, Medical Assistant, Department of Nursing, Outpatient Services** - Responsible to the clinical head nurse or manager for providing assistance in health care services and for participation in administrative functions. Requires an associate degree, or equivalent, in a related field; BLS certification and up to 12 months of effective experience also is required.

INTERCOM is published weekly during the academic year and every other week during the summer. It is an internal communications medium published for the faculty and staff of Penn State by the Office of Public Information, Room 312, Old Main. Phone 863-7517.

Dr. Pearman named to post at Wilkes-Barre Campus

William A. Pearman has been named campus executive officer at Penn State Wilkes-Barre. His appointment is effective immediately.

Dr. Pearman, who has been serving as acting CEO at the campus since July 1, 1990, was named to the position by President Thomas.

"We are pleased to be able to appoint Dr. Pearman to this position on a full-time basis," President Thomas said. "He has served quite ably as acting CEO since Jim Ryan left the campus to join us here at University Park last year to serve as vice president of continuing education for the Penn State system."

Prior to becoming acting CEO, Dr. Pearman served as director of academic affairs at Wilkes-Barre since August 1989.

"Bill Pearman has been a strong asset to the programs and efforts at Penn State

Wilkes-Barre since he stepped into the CEO position on an acting basis last summer," said Richard Grubb, senior vice president and dean of the Commonwealth Educational System.

"There were a number of excellent candidates for the CEO position who were considered by the search committee," Dr. Grubb said. "We found the best candidate was already working for us."

Dr. Pearman previously served as provost and vice president of academic affairs at Sacred Heart University in Fairfield, Conn. Prior to that he was academic dean and professor of sociology/anthropology at Millersville University for 14 years.

He has also held faculty positions at Virginia Commonwealth University, Loyola University and Fordham University.

Dr. Pearman earned his bachelor's degree

from LaSalle University in 1962 and received his master's degree at Fordham in 1964. In 1966 he received a doctorate in sociology from the University of Pittsburgh.

He has published extensively in journals such as *National Issues in Higher Education*, *American Sociological Association Teaching Newsletter* and *The American Journal of Public Health*.

His books include *Melancholy: A Handbook on the History and Issues of Health Care Services for the Elderly*, *Three Mile Island: A Sourcebook* and *In the Province of Sociology: Selected Readings*.

Dr. Pearman, who lives in Dallas, Pa., has been recognized for teaching excellence by the Danforth Foundation and received the first Pennsylvania Sociological Society Award for Research Excellence.

William A. Pearman

Students begin to collect donations for dance marathon

University students have begun "canning" in their hometowns, collecting donations for the Penn State Dance Marathon, the largest and most successful student-run philanthropy in the country, which will be held Feb. 15-17 at University Park.

For 48 hours, more than 1,000 feet will dance non-stop, while another 1,000 will provide support to help them keep the beat. Since 1977, the marathon has raised more than \$2.4 million, about 65 percent

of The Four Diamonds Fund operating budget.

The fund was established in 1973 to provide financial relief to families of children with cancer at the University Hospital at the Hershey Medical Center.

Creation of the fund was suggested by the parents of Christopher R. Millard, a courageous boy who died of cancer at the age of 14. The Four Diamonds Fund is named for an essay Christopher wrote

shortly before his death. The fund assists about 50 new families every year.

Canning and dancer pledges are the primary source of financial support for the Marathon, so if motorists see unidentified students canning in the middle of the street, they should not be alarmed. They are just students who have learned the most important lesson in life -- helping others.

Writing across the curriculum videoconference set

An interactive videoconference on writing across the curriculum will provide faculty members with information and examples from successful programs to aid them in creating their own writing-intensive courses, according to **Jerry B. Covert**.

The national videoconference and followup Penn State workshops will be held from noon to 5 p.m. Wednesday, Feb. 27, in 312 Keller Conference Center at University Park. Penn State Erie, The Behrend College plans to download the videoconference, which is available University-wide via satellite.

Sponsored by the Office of Undergraduate Education, in conjunction with the Instructional Development Program, the videoconference will "assist faculty members in developing course proposals and implementing the University Faculty Senate's writing recommendation." Dr. Covert, associate dean for undergraduate education, said.

The Senate recommendation states, in part: "...[Beginning in the summer of 1990, entering

baccalaureate degree students should complete at least three credits of writing-intensive courses as part of the graduation requirement. Each college or school will be responsible for the development of the writing intensive course(s) by which each baccalaureate degree student can fulfill this writing component."

"The national videoconference and three concurrent workshops facilitated by University faculty experts will provide assistance to faculty members and academic administrators in meeting this Senate recommendation," **Joan Parrett**, assistant director, Instructional Development Program, said.

A panel of national experts will discuss the current state of writing across the curriculum, including its theory, practice, purposes and future. Among the panelists is Anne Herrington, former University faculty member, now director of the University Writing Program and associate professor of English at the University of Massachusetts, Amherst.

Three workshops will be held following the

videoconference, from 3 to 5 p.m. in Keller. The same workshops will be available, along with a videotape of the conference, for use at a later date by three regional consortia comprised of University campuses in the Western, Northeastern and Southern parts of the state. Dr. Parrett said.

The workshops are: Step 1, Planning: How to Write a Proposal, with Paul R. Shellenberger, professor of dairy science, and R. Thomas Berner, professor of journalism; Step 2, Implementation: How to Use Writing Across the Curriculum as a Teaching/Learning Tool, with Marie J. Secor, associate professor of English; and Step 3, Evaluation: How to Grade the Papers, the Course and Yourself, with Margaret M. Cote, associate professor of English.

To preregister or for additional information, contact the Instructional Development Program, 401 Grange Building, 863-2599, by Feb. 13.

Focus on Diversity

Black History Month celebrations

Events at campuses

Numerous activities, including films, discussions, lectures and art displays, are being conducted at University Park during February in honor of Black History Month.

The theme of the month is "The Black Woman: Gifts, Goals and Glass Ceilings." Scheduled for Feb. 8 at 7 p.m. is a presentation titled "In Pursuit of Our Roots" in the Paul Robeson Cultural Center Auditorium.

At 8 p.m. on Feb. 12, the musical group Ladysmith Black Mambazo, known for its performance on the Paul Simon release "Graceland," will perform in Eisenhower Auditorium.

A tribute to the late Malcolm X is scheduled for Feb. 19-21, beginning with a film presentation from 1 to 5 p.m. in the HUB Fithbowl.

A panel discussion titled "The Life, Lessons and Legacy of Malcolm X" will be held at 7 p.m. Feb. 20 in the HUB Ballroom. Panel members will include James B. Stewart, vice provost for underrepresented groups; Laverne Gyant, interim director of the Black Studies Program; and Vernis Welmon, assistant to the dean for minority relations and

international programs in the Smeal College of Business Administration.

At 7 p.m. Feb. 21 in the HUB Ballroom, Zak Kondo, international studies program director at Bowie State University and author of several books on Black studies, will give a presentation, "The Assassination of Malcolm X."

The month-long activities will conclude at 5:30 p.m. Feb. 23 with a dinner, "A Touch of Africa," sponsored by Penn State's African Student Association in the HUB Ballroom.

The Penn State McKeesport Campus has organized a series of events to commemorate Black History Month.

Scheduled are: Black History Academic Bowl, 6 p.m. Feb. 14 and 21, in Buck Union Building; and a Black Achievement Banquet, 6:30 p.m. Feb. 26, in Frable Conference Center.

Black History Month events planned at the Penn State New Kensington Campus include a film series, Feb. 13, a one-act performance by African-American students at the campus, Feb. 20, and a performance by gospel singer Ethel Caffie-Austin, Feb. 28.

Penn State Bookstore

The celebration of Black History Month is taking place at the Penn State Bookstore on Campus with a large display of books by Black authors, books on Black history, arts and social issues, philosophy, photography, juvenile books and other books of Black interest.

"A Heritage in Print -- Black History Month Celebrated" involves a large collection of books of interest to all ages and of all cultures. The books will be available and on display throughout the month of February and are generally available year-round at the Penn State Bookstore on Campus.

The books of literature and non-fiction feature Black contemporary authors like Chinua Achebe, Maya Angelou and James Baldwin. Also featured are classic literature of the African-American experience such as *The Souls of Black Folk* and *Narrative of the Life of Frederick Douglass*.

In addition, there are poetry and short story anthologies as well as important and timely non-fiction examining the Civil Rights movement, racism, a changing Africa and the Black feminist movement.

WPSX-TV programs

Black History Month programming continues on WPSX-TV as Bill Moyers takes a journey of song and singing with Bernice Johnson Reagon, the founder and artistic director of the popular vocal group Sweet Honey in the Rock. *Moyers/The Songs Are Free* with Bernice Johnson Reagon, a documentary about the power of song, premieres at 1:30 p.m. Sunday, Feb. 10.

In her work with the capella singing group, and as a noted curator at the Smithsonian Institution in Washington, D.C., Ms. Reagon strives to preserve and share the rich musical heritage of the African-American community -- from songs of resistance, courage and pride to songs of determination and faith.

The life and story of Charlie "Yardbird" Parker is not unlike his mind-blowing sax solos: fast, brilliant, complex and completely original. *American Masters* captures this enigmatic musician, his vibrant times, and his unique talent in "Celebrating Bird: The Triumph of Charlie Parker," a one-hour profile airing at 2 p.m. Sunday.

Cultural diversity workshop series continues

Employees in the real estate and housing field in the community and on the University Park Campus will be the target audience for the fifth in a series of cultural diversity workshops aimed at creating a more hospitable environment for people of diverse ethnic and racial backgrounds.

The workshops will be held Feb. 19 and 21 from 8 to 11 a.m. in the Beaver Room of the State College Hotel.

According to workshop leader W. Terrell Jones, special assistant to the provost for underrepresented groups, the goal of the workshops is to help participants understand cross-cultural differences and provide new and better insights into dealing with people from a culturally diverse perspective.

"Particularly in the real estate and housing area, cultural differences can pose problems for both the renters and the landlords, and what might appear to be minor requests from the landlord can be totally the opposite of what someone from another culture may be permitted to do by religious law or mores," he said. "Language barriers can also pose problems."

"There are many cultures represented in the Centre Region. It's hoped that by keying this workshop specifically to those people responsible for housing, this segment of the population can be better accommodated in their physical housing needs and the amenities that make life more pleasant during their stay in our community."

The workshop can accommodate up to 25 persons and is offered free on a first-come basis. Interested persons from the community should call the Chamber of Commerce Office at 237-7644. University employees wishing to take part should call University Relations at 865-2501. Those who cannot be accommodated will receive early notification about future workshops.

The deadline for registration is Feb. 12. The workshops are planned and co-sponsored by the Office of University Relations at Penn State and the State College Area Chamber of Commerce. To date, more than 70 persons in the community and on campus have participated in the workshops.

International Festival

The 17th annual International Festival will be held from Feb. 8 to 12 at University Park.

An International Coffeehouse will be held at 7:30 p.m. Friday, Feb. 8, in Kern Graduate Building.

The International Fair, featuring food, arts and crafts, cultural exhibits and children's activities, will be held from 11:30 a.m. to 4:30 p.m. Sunday, Feb. 10, in the Hetzel Union Building.

The International Student Council will present a lecture by Jack Kalabinski, senior Polish correspondent of Radio Free Europe and senior U.S. correspondent for *Gazeta*, on "The Collapse of Socialism" at 7:30 p.m. Tuesday, Feb. 12, in 112 Kern.

Diversity Opportunities Calendar

Thursday, Feb. 7

Paul Robeson Cultural Center, 6:30 p.m., Robeson Center Auditorium. Movie: "Roots."

Paul Robeson Cultural Center, 8 a.m. to 5 p.m., Robeson Center Gallery. Kente cloth exhibit, through Feb. 22.

Friday, Feb. 8

Paul Robeson Cultural Center, 7 p.m., Robeson Center Auditorium. Presentation: "In Pursuit of Our Roots."

Saturday, Feb. 9

Office of Minority Faculty Development, 9 a.m. to noon, 114 Kern Graduate Building. Workshop: "External Funding and Proposal

Development," second in a series of faculty development workshops this year. Speaker: Baita Briedis, College of the Liberal Arts coordinator of grants and contracts. For more information, call Leah Witzig at 863-1663.

Sunday, Feb. 10

Office of International Studies, 11:30 a.m. to 4:30 p.m., HUB first floor. International Fair featuring foods, crafts, arts and cultural exhibits.

Tuesday, Feb. 12

Center for the Performing Arts, 8 p.m., Eisenhower Auditorium. Ladysmith Black Mambazo concert.

MBA students attend diversity session

University MBAs confronted the issue of business leadership in a culturally and ethnically diverse workplace in a daylong session yesterday in the Keller Conference Center at University Park.

Created by the Penn State MBA Association and supported by AT&T and Exxon Corp., the Managing Cultural Diversity Seminar gave students the chance to look at leadership and the new demographics of working America from a variety of ethnic and cultural viewpoints. Small-group sessions permitted a full exploration of the concerns involved.

Among the speakers and discussion leaders were: Vicki Fong, manager of the

News Bureau, Public Information Office, who discussed Asian-American perspectives; Alyson Korza, diversity manager with Ethicon Inc., who spoke on goals for managing diversity; Joe Prewitt Diaz, director of bilingual education programs, who offered the Hispanic viewpoint; Blonell Reynolds, executive director of the West Philadelphia Partnership, who addressed non-traditional information sources on diversity management; and Linda K. Trevino, assistant professor of organizational behavior, who led a discussion on intergroup relations. Also attending this year's session were corporate recruiters.

Penn State People

Janet Brannan

Janet Brannan, dining room supervisor at the Nittany Lion Inn, has been working part-time and full-time at the Inn since 1956. A full-time employee since 1981, she says she enjoys her job a great deal. "I like working with people, and I've met a lot of different people over the years, including a number of famous people who have come through here. I've also gotten to know the faculty, and I've particularly liked working with students." (Photo: Greg Grieco).

Catalog available

The second edition of the *Films and Video for Arts and Communications* catalog is now available from Audio Visual Services. More than 1,500 programs are listed in this reference source, and each title is available for classroom use at no charge

to University faculty members.

Copies of the catalog are housed in 26 Willard Building and at Special Services Building off Fox Hill Road. To receive a catalog through campus mail, call 863-3103. At a Commonwealth Campus, contact the campus instructional services specialist.

McCoy Natatorium fitness center is open

Faculty and staff members who want to keep in shape might try the new Fitness Center at the McCoy Natatorium at University Park.

The center, funded by the Department of Intercollegiate Athletics, has been established on a bridge overlooking the Natatorium pools. The facility features six Stairmasters, seven stationary bicycles, four rowing machines, two treadmills, two Nautilus stations and a Gravitron upper body machine.

"Response to the fitness loft has been tremendous," Tom Griffiths, manager of aquatic facilities, said. "Since our opening this semester, we've been averaging about 500 persons per day."

"And, because of interest from faculty and staff, we've established an exclusive faculty/staff fitness hour from 11:45 a.m. to 1 p.m. Monday through Friday. During that period, fitness consultants and exercise experts will be available for those who need them."

The new fitness loft is open to faculty, staff and students from 6:30 a.m. to 10 p.m. Monday through Friday and from noon to 10 p.m. Saturday and Sunday. A pass for faculty and staff members costs \$30 a semester.

For more information, contact Dr. Griffiths at 865-1432.

Promotions

Staff Exempt

Kathy L. Ashby, to supervisor, housing services in Housing and Food Services.
Patrick Boyle, to reactor supervisor nuclear education specialist in Engineering.
Judy M. Evert, to program manager in C&IS-Management Services.
Carol J. Hendershot, to records management supervisor in Continuing Education.
Michael J. Holland, to coordinator, research accounting in Corporate Controller's Office.
Pamela Kornasiewicz, to human resources officer in Office of Human Resources.
Mary Ellen Madigan, to assistant director of admissions-graduate admissions at Behrend College.
Marcia E. Myers, to accounting assistant in Undergraduate Education.
Tammy E. Myers, to registration services, supervisor in Continuing Education.
Carla K. Rossi, to manager, financial reporting in Corporate Controller's Office.
Patricia A. Tarbay, to secretary B in Office of Budget and Resource Analysis.
Paula J. Thompson, to administrative head nurse at Hershey.

Staff Non-Exempt

Gretchen M. Allison, to research technician at Hershey.
Merrilee L. Barner, to supervisor, accounts payable and files in Corporate Controller's Office.
Linda K. Bolton, to professional billing coordinator at Hershey.
Robin E. Deaver, to senior research technologist in Agriculture.
Constance A. Frank, to technical illustrator in Applied Research Lab.
Edwin N. McGarvey, to technical illustrator in Applied Research Lab.
Karen R. Müller, to executive assessment

program coordinator at Hershey.
Linda J. Moore, to senior computer technician radiological technologist at Hershey.
Linda F. Myself, to neurophysiology technician at Hershey.
Marsha M. Sauer, to administrative aide at Hershey.
Janet L. Smith, to computer support assistant in Education.

Clerical

Candace Albright, to secretary C in Liberal Arts.
Andrew Biggans, to clerk and end processing A in University Libraries.
Tammi M. Bowling, to clerk audit A in Purchasing Services.
Darlene P. Fike, to secretary B in Eberly College of Science.
Linda L. Flickinger, to secretary B at Hershey.
Betsy R. Hall, to secretary C in School of Communications.
Michele D. Hosterman, to clerk, records A in Undergraduate Education.
Brenda L. Jefferies, to clerk, insurance team at Hershey.
Carol E. McGaben, to accounting clerk in C&IS-Center for Academic Computing.
Elaine C. Miller, to secretary B in School of Communications.
Robin D. Renwick, to secretary C in Eberly College of Science.
Michelle M. Sheaffer, to secretary C in Student Services.
Shelly D. Stephenson, to accounting clerk in Eberly College of Science.
Patricia H. Teaman, to senior accounting clerk in Division of Development and University Relations.
Cynthia D. Tressler, to secretary A in Office of Human Resources.
Barbara D. Vanada, to clerk, stock control A in Office of Physical Plant.

Focus on the arts

Visiting author

The Penn State Bookstore on Campus will host Joe Schall, author of *Idiotism and Other Stories*, who will sign and discuss his book from noon to 2 p.m. Friday, Feb. 8.

Mr. Schall, a University faculty member and alumnus, has received the Elmer Holmes Bobst Award for Emerging Writers for *Idiotism and Other Stories*. The book is described as a "collection of nine stories ranging from the wildly funny and idiosyncratic to the downright bizarre."

Mr. Schall currently is a technical writing tutor for the College of Earth and Mineral Sciences. He also has taught writing courses for the English Department at Penn State and Juniata College.

The arts on Channel 3

The best and brightest young singing talent in America returns to public television in WPSX-TV's *Find Warnings: U.S. Chorus 1990*. *Discovering America* airing at 9 p.m. Friday, Feb. 8.

Hosted by Virginia Waring, the hour-long program is a dynamic combination of "Travel America" songs, a "West Side Story" medley, contemporary hits and Fred Waring's most beloved choral standards. *Great Performances* presents "Dance In America: The Alvin Ailey American Dance Theater: Steps Ahead" premiering at 12:30 p.m. Saturday, Feb. 9. The Dance Theater performs two works -- "For Bird With Love" and "Episodes" -- in a program introduced by Judith Jamison, one of Mr. Ailey's favorite dancers and the company's new artistic director.

Pittsburgh Ballet

The Pittsburgh Ballet Theatre will perform the romantic "A Midsummer Night's Dream" at 8 p.m. Saturday, Feb. 9, and 3 p.m. Sunday, Feb. 10, in Eisenhower Auditorium at University Park.

Based on William Shakespeare's comedy, the story ballet is set to the music of Felix Mendelssohn and choreographed by Bruce Wells, Pittsburgh's resident choreographer. In this love story, a mischievous elf named Puck delights in making everyone fall in love with the wrong person.

Choreographer Bruce Wells will speak before each performance as part of the free lecture series Artistic Viewpoints. His talks will be at 7 p.m. Feb. 9 and 2 p.m. Feb. 10 in the Green Room of Eisenhower Auditorium.

World premiere

The University will have the world premiere of a new ballet from the Pittsburgh Ballet Theatre.

In addition to performing "A Midsummer Night's Dream" on Feb. 9 and 10, the company will showcase "Sojourn" choreographed by Paul Abrahamson. The 20-minute piece is set to Benjamin Britten's "Four Sea Interludes" from the opera "Peter Grimes."

A. E. Bye, a landscape architect and 1942 alumnus, was on hand last week to open a photographic exhibit of his work on display at the Palmer Museum of Art. (Photo: Greg Grieco)

Mr. Abrahamson, a dancer in the company since 1986, was awarded the Creative Advancement Award in 1989 and invited to the prestigious Jacob's Pillow International Choreographer's Symposium.

Philharmonic concert

The Penn State Philharmonic, directed by Douglas Meyer, will perform at 3 p.m. Sunday, Feb. 10, in the School of Music Recital Hall at University Park.

The program will include Antonin Dvorak's Symphony No. 9, "From the New World," to commemorate the 150th anniversary of Dvorak's birth and to celebrate Czechoslovakia's new-found freedom.

Smith Toulson, faculty clarinetist, will perform Mozart's Clarinet Concerto as a memorial of the 20th year since the composer's death. Mr. Toulson is a founding member of the Pennsylvania Wind Quintet, in residence at Penn State, and conducts Penn State's Symphonic Wind Ensemble.

Jazz singing group

Ladysmith Black Mambazo, the 10-man jazz singing group from South Africa, will perform at 8 p.m. Tuesday, Feb. 12, in Eisenhower Auditorium at University Park.

The group burst into worldwide fame for its collaboration with Paul Simon on his popular "Graceland" album. They began their career in the early '70s singing the soulful harmonies sung by black South African miners.

Group members will perform both their traditional a cappella melodies and their newest songs, along with selections from Simon's "Graceland."

As part of Artistic Viewpoints, a free lecture series for the audience, the

company manager will speak at 7 p.m., immediately before the performance. In the Greenroom of Eisenhower Auditorium. Tickets are available at the Eisenhower Auditorium Ticket Office, open Monday through Saturday, 8:30 a.m. to 4:30 p.m.

Pattee exhibit

A collection of pen and ink drawings by Tara Johnson is on display in Pattee Library's Lending Services Gallery through Feb. 24.

Ms. Johnson is working toward a bachelor of arts degree in drawing and painting, with a minor in art history. Her work has been shown in a number of exhibits throughout Pennsylvania.

Odyssey on WPSU

On "Jack Mapanje and the Tattle" the next episode of "Odyssey Through Literature," Leslie Hazleton, a visiting professor of English and a member of the P.E.N. American Center's Freedom to Write committee, discusses with host Leonard Rubinstein the politics and poetry of Jack Mapanje, imprisoned without charge in his home country of Malawi.

Ms. Hazleton says, "His aim was always, under the conditions of censorship, to provoke as far as he could in his poems without actually getting caught and sent to jail -- which he realized, it is quite clear from some of what he's written, had to finally happen."

"Because not to provoke, not to fight against it is to allow the censors to control what you write, to control what is African culture."

"Odyssey Through Literature" is produced by the Department of Comparative Literature in the audio-production studios of WPSX-TV. It airs

Wednesdays at 12:30 p.m. on WPSU, 91.1 FM.

Clarinet ensemble

The Penn State Clarinet Ensemble will perform in concert at 12:10 p.m. Thursday, Feb. 14, in the Eisenhower Chapel at University Park. The 20-minute concert is part of the Bach's Lunch Concert Series sponsored by the School of Music and the University Lutheran Parish.

The program will include "Monochrome" by Peter Schickel, a work for clarinet choir. The concert features students from the studio of Smith Toulson of the School of Music faculty.

HUB exhibit

An exhibition of the sculpture of James Malone Beach is on display until March 31 in the HUB Art Alley Cases at University Park.

"Metal and Clay Talisman" features containers, ornamental knives, jewelry and medallions sculpted from metal and clay. Many of the ceramic vessels are treated with colored slips during firing to give them the look of a primitive firing.

Mr. Malone Beach received his bachelor's degree in art education from Bemidji State University in northern Minnesota, and a master's degree from the University of Iowa. His work has been shown at the National Silversmithing Competition in New York City and the Seventh Biannual International Craft Competition in Duluth, Minn.

There will be a reception for "Metal and Clay Talisman" from 7 to 9 p.m. Friday, Feb. 8, in the HUB Art Alley.

'Celebration of Love'

The Penn State Chamber Singers will present its fifth annual "Celebration of Love" concert at 7:30 p.m. Saturday, Feb. 16, in the Rotunda of Old Main at University Park.

The concert, started in 1987 as a tribute to the late Professor Emerita Viola Taylor, features poetic readings and vocal settings of love texts from the Renaissance to the 20th century.

The Chamber Singers will perform "Five Flower Songs" by Benjamin Britten and several selections by English composers Edward Elgar and Ralph Vaughan Williams. Other composers on the program include Claudio Monteverdi, Andrea Gabrieli, John Dowland, Giles Farnaby and Rene Clausen.

The 24 Chamber Singers are selected each fall from among Penn State's Choir members by D. Douglas Miller, professor of music and director of both groups. The readings will be presented by Lowell Manfull and Helen Manfull, professors of theater, and two acting students. A reception will follow the concert.

Tickets to the "Celebration of Love" are \$7.50 and may be purchased or reserved by calling 865-0432 or 863-2142.

University Park Calendar

February 7--
February 17

Special Events

Thursday, February 7

Bach's Lunch, 12:10 p.m., Eisenhower Chapel.

Penn State Chamber Singers

■ Education Abroad Day, 1:15 p.m., HUB.

Healthy Loving Week, 8 p.m., Schwab Aud.

Lauren Burke shares her experiences coping with the AIDS virus.

Friday, February 8

■ Geog. Coffee Hour, 4 p.m., 319 Walker. John Skelly on "A Closer Look at Forest Decline in Europe—A Need for More Accurate Diagnostics."

■ Shaver's Creek, Conservation of Tropical Rainforests, 7:30-8 p.m., Call 863-2000.

Marital arts seminar, 7-9 p.m., 126 White Bldg. Also Feb. 9, 10 a.m.-2:30 p.m.

■ International Festival, 7:30 p.m., Kern International Coffeehouse. Also Feb. 10, 11:30 a.m.-4:30 p.m., HUB, International Fair, and Feb. 12, 7:30 p.m., 112 Kern, lecture. Jack Kalabinski, journalist, on "The Collapse of Socialism."

Saturday, February 9

Shaver's Creek, Owl Prowl, 7-9 p.m., Call 863-2000.

Center for the Performing Arts, 8 p.m., Eisenhower Aud. "A Midsummer Night's Dream," Pittsburgh Ballet Theater. Also Feb. 10, 3 p.m.

Sunday, February 10

Shaver's Creek, Environmental Unexplainables, 1-2:30 p.m., Call 863-2000.

School of Music, 3 p.m., Recital Hall. Penn State Philharmonic concert.

Carnegie Hall Film Series, 7 p.m., *It Happened One Night* (1934), 9 p.m., *Porgy and Bess* (1900), 108 Wartik, Free.

Monday, February 11

■ Comp. Lit. Luncheon, 12:10 p.m., 101 Kern. Stephen Belcher on "Turbulent Children: A West-African Progression."

Tuesday, February 12

Center for the Performing Arts, 8 p.m., Eisenhower Aud. Lady Smith Black Mambazo.

Thursday, February 14

Bach's Lunch, 12:10 p.m., Eisenhower Chapel.

■ Penn State Chamber Ensemble.

■ Lecture, 5 p.m., 112 Kern. David Dean, former diplomat, on "Tapei, Washington, and Peking."

Friday, February 15

Geog. Coffee Hour, 4 p.m., 319 Walker. Stan Openshaw, Univ. of Newcastle, on "Siting and Safety of Nuclear Power Plants."

"Whisper, The Waves The Wind" by Suzanne Lacy is included in the "Gender and Representation" exhibit opening Feb. 9 in Zoller Gallery.

School of Music, 8 p.m., Penn State Symphony Wind Ensemble, Recital Hall. IFC Dance Marathon through Feb. 17, White Bldg.

Saturday, February 16

Shaver's Creek, Maple Sugaring Volunteer

Training, 10 a.m. to 4 p.m., Call 863-2000.

Center for the Performing Arts, 8 p.m., Schwab Aud. Malcolm Bilson, *Fortepiano*.

School of Music, 7:30 p.m., Old Main.

"Celebration of Love," Chamber Singers.

Sunday, February 17

Carnegie Hall Film Series, 7 p.m., *Mambo on the Bowery* (1935), 9:15 p.m., *Great Expectations* (1946), 108 Wartik, Free.

Public Radio

WPSU-FM 91.1

"All Things Considered," Monday-Friday, 5-6:30 p.m.; Saturday and Sunday, 5-6 p.m.; Morning Edition, Monday-Friday, 6-8 a.m.; Weekend Edition, Saturday and Sunday, 11 a.m.-1 p.m. "Odyssey Through Literature," 12:30 p.m. Wednesdays, with S. Leonard Rubinstein.

Conferences

Continuing Education

Keller Building

Feb. 13, Dental Seminar, Kent Addis, coordinator. Feb. 16, Softball Coaches' Clinic, Susan Rankin, chair; Kathy Karchner, coordinator.

Seminars

Thursday, February 7

Cene 590 Seminar Series, 11 a.m., 301 Stendle, E.A. Tomic, *Et du Pont de Nemours & Co., on "Crystallizable Glass Precursors from Aqueous Solutions."*

Physics Colloquium, 3:30 p.m., SS Osmond Lab. Dr. David Ceperley, Univ. of Illinois, on "Path Integral Picture of a Superfluid."

Gerontology Colloquium, 4 p.m., 106 Mitchell Jackie Worobey on "Health and Living Arrangement Transitions in Later Life."

Tuesday, February 12

Graduate Program in Nutrition, 4 p.m., 101 Altohouse Lab. Michael H. Green on "An Introduction to the Use of Compartmental Analysis in the Study of Vitamin A Dynamics."

Monday, February 11

■ International Programs in Ag, 2 p.m., 301B Ag Admin. Javier S. Jiggins and Niels C. Roling, Wageningen, Netherlands, on "Knowledge Systems Theory and Agricultural Development Futures."

EPF, 4 p.m., 339 Davey Lab. Dr. S. Shatahvil, Univ. of Chicago, on "Quantum Groups and Conformal Field Theory."

Tuesday, February 12

Chemical Engineering, 2:45 p.m., 140 Fenske Lab. Alan Jones, Clark Univ. on "Dynamics of Gases and Liquids Sorbed in Polymeric Glasses by NMR."

Chemistry Dept. Colloquium, 3:30 p.m., SS Osmond Lab. Kenneth D. Karlin, Johns

Hopkins Univ., on "Studies in Bioinorganic Copper Coordination Chemistry." Computer Science, 4 p.m., 325 Whitmore Lab. Martin Farach, Univ. of Maryland, on "Two Dimensional Dictionary Matching." Condensed Matter Physics, 4 p.m., 330 Davey Lab. Dr. James Glazier, AT&T, on "Bubbles: The Dynamics of Cellular Patterns." Institute of Molecular Evolutionary Genetics, 4 p.m., 317 Mueller Lab. Willem Ferguson, Pretoria Univ., S. Africa, on "Evolution of T-Cell Receptor Genes."

Thursday, February 14

Physics Colloquium, 3:30 p.m., SS Osmond Lab. Dr. H.K. Mao, Carnegie Institute of Wash., on "Metalla Hydrides."

Mech. Eng., 4 p.m., 105 Mech. Eng. Dr. Philip A. Thompson, Rosendall Polytechnic Institute, on "Microscopic Vortices, Nucleation and Fast Phase Changes."

Gerontology Colloquium, 4 p.m., 106 Mitchell Carol Gay on "Bone Cells and Osteoporosis."

Faculty/Staff Alerts

Courses for faculty and staff

The Human Resource Development Center has openings in the following courses. Call the center at 865-3410 for registration information.

Intergroup Relations II Introduces practical skills to improve interactions with culturally diverse individuals, including staff new to your work area; meets from 9 a.m.

to 4 p.m. Monday, Feb. 18; cost: none. **Coaching Your Employees to Improve Job Performance** Increase supervisory competence and skills in dealing directly with employees about workplace problems and work performance; from 9 a.m. to 4 p.m. Wednesday, Feb. 20; cost: \$55.

Performance Appraisal for supervisors of staff exempt and staff non-exempt

employees; it will cover the objectives of performance appraisal at Penn State, the appraisal form, suggestions for observing and recording performance, and performance appraisal interview techniques; meets from 1:15 to 4 p.m. for one Thursday, Feb. 21 or 28; cost: none.

Conflict Resolution Focus is on theories of anger, different reactions to anger, and implementation of techniques and skills to use in conflict resolution; meets from 9 a.m. to 4 p.m. Monday, Feb. 25; cost: \$55.

Lift Safety Learn why back injuries occur and how to avoid them; meets from 1:30

to 4:30 p.m. Wednesday, Feb. 27; cost: \$35.

The New Supervisor The three main components of this program are the management of work, the management of others, and the management of self; meets for five sessions Monday through Friday, March 4 to 8, from 1:30 to 4:30 p.m.; cost: \$95.

Customer Service Introduces the 10 fundamentals to becoming a service legend; meets for three half-day sessions—two Mondays and one Thursday—March 11, 14 and 18, from 1:15 to 4:30; cost: \$75.

Appointments

Michael A. Arthur has been appointed professor and head of the Department of Geosciences. He succeeds Shelton S. Alexander who has returned to full-time teaching and research after serving as department head since 1985.

Dr. Arthur had been professor of oceanography in the Graduate School of Oceanography at the University of Rhode Island. In addition to research and teaching experience at the universities of Rhode Island and South Carolina, he has experience as a petroleum geologist with the U.S. Geological Survey and as staff scientist for the Deep Sea Drilling Project under the auspices of Scripps Institution of Oceanography.

His research focuses on unraveling global climatic and ocean chemical changes over the past 120 million years, with specific interests in interpreting inorganic geochemical signals in marine strata.

Dr. Arthur is an elected Fellow of the Geological Society of America and has received the Editor's Citation for Excellence in Reviewing by the American Geophysical Union *Journal of Paleoclimatology*, and the President's Award of the American Association of Petroleum Geologists for best paper in the AAPG Bulletin.

He serves as a member of the National Research Council Committee on Paleoclimatology and Paleocceanography and the National Science Foundation. Submarine Geology and Geophysics Program Panel.

Michael A. Arthur

State-Fayette. As a member of the staff he also will provide support to the many community programs sponsored by the campus in its five-county service area.

Mr. Drozd previously was director of development for Penn's Southwest Association and is a former program controller for the world news operations of ABC Network News. He holds a master's degree from Duquesne University and did postgraduate work at New York University. He has been a faculty member at both Robert Morris College and the University of Pittsburgh.

Matthew J. Drozd

years as office manager at Penn State Harrisburg's Admissions Office where she served as the assistant to the director of enrollment planning, recruitment and admissions, supervised clerical staff and office operations and coordinated the College Level Examination Program (CLEP).

In 1986, she was appointed graduate and undergraduate admissions counselor at the College, a position she has held since that time.

Ms. Landis received her bachelor of humanities degree in 1980 and master of arts in humanities degree in 1990 from Penn State Harrisburg.

Millie J. Landis

She is a graduate of Indiana University of Pennsylvania with a B.S. degree in business administration and an M.A. in human resources management/labor relations.

Prior to joining the University staff, she was a supervisor with the U.S. Bureau of the Census in State College. Earlier, she had been assistant staff consultant with Mercer-Meidinger-Hansen, in Atlanta, Ga., and an accountant for Astrotech International Corp., Pittsburgh.

Millie J. Landis has been appointed coordinator of graduate admissions at Penn State Harrisburg.

Ms. Landis previously worked for 10

Marlene Wray has been appointed classification analyst in the Office of Human Resources.

Matthew J. Drozd has been appointed director of development and university relations at the Penn State Fayette Campus.

His primary duties will be to raise funds and develop new opportunities for Penn

Carpooler

Janet is looking for a ride from Pleasant Gap to University Park. Work hours are 8 a.m. to 5 p.m. Call 865-4641 (work) or 359-4143 (home).

News in Brief

Department moved

The Agronomy Department has moved from Tyson Building to 110 Agricultural Sciences and Industries Building.

Mont Alto fax number

The Penn State Mont Alto Campus has a new fax number: (717) 749-5215. The previous fax number, (717) 749-3933, is now for library use only.

Martial arts seminar

Grandmaster Choon Hwa Han, 8th degree black belt, and Master Joony Y. Kim, 7th degree black belt, will conduct a seminar from 7 to 9 p.m. Friday, Feb. 8, and 10 a.m. to 2:30 p.m. Saturday, Feb. 9, in Room 126 White Building at University Park.

The seminar includes instruction in special techniques for kicking, free fighting, breaking, self-defense and various weapons. Students of all ages and levels, beginner to black belt and from all martial arts styles are welcome.

Admission for spectators is \$2 on Friday and \$5 on Saturday. Participating

students pay \$10 Friday, \$20 Saturday, or \$25 for both days. For more information, call Don Schüle at (814) 400-2135.

Brown bag luncheon

Stephen Belcher, lecturer in the Comparative Literature Department, will speak on "Turbulent Centuries: A West-African Progression," as part of the Comparative Literature brown bag luncheon series at 12:15 p.m. Monday, Feb. 11, in 101 Kern Building at University Park.

The luncheon is co-sponsored by the Women's Studies Program, the Black Studies Program, the Center for Women Students, the School of Communications, the School of Visual Arts, the departments of English and History, and the Institute for the Arts and Humanistic Studies.

Those interested in attending the lecture only should arrive before 12:45 p.m. Coffee and tea will be provided to accompany a brown bag lunch.

Career planning program

The Returning Adult Student Center is offering a four-part program on "Career and Life Planning for Returning Adult Students" at 12:30 p.m. in Room 329 Boucke Building at University Park. Gretchen Erb and Marcia Pomeroy, of Career Development and Placement Services, are presenting the program.

Sessions remaining are Feb. 13, "Interviewing Skills," Feb. 20, "Effective Job Search," and Feb. 27, "Balancing Multiple Roles."

For more information, contact the Returning Adult Student Center at 863-3887.

Former diplomat to speak

David Dean, former senior diplomat to China and Taiwan, will deliver a lecture on "Taipei, Washington and Peking" at 5 p.m. Thursday, Feb. 14, in 112 Kern at University Park.

Mr. Dean was a foreign service officer from 1951-79. He served in Peking as deputy chief of mission, in Hong Kong and in Taipei as political counselor and charge d'affaires. He was counselor to the United States ambassador in Warsaw

(1940-60) during the U.S.-China talks.

His lecture, free to the public, is sponsored by the Center for East Asian Studies. For further information, contact Parris Chang at 865-1698.

Women's Alliance

Marion Gindes will present a workshop titled "Women as Managers: Myths and Realities" at a meeting of the Women's Alliance at 9:30 a.m. Saturday, Feb. 16, at the Best Western State College Inn.

Dr. Gindes will examine the roles women assume as managers, including queen bee, martyr, token, Everywoman, and mentor. She also will discuss competition and collaboration, communication styles, and conflict resolution.

A psychologist for more than 20 years, Dr. Gindes currently is an adjunct professor of psychology at Penn State and is a member of the faculty of the New School for Social Research.

Cost of the workshop is \$6. To make reservations, contact Gail Karon, at 863-1033, or 243K Hammond Building, University Park, no later than Feb. 11.

Partings

Robert E. Henderson, professor of mechanical engineering and assistant director of applied science at the Applied Research Laboratory, has retired after 32 years of service.

After a year as an aerodynamicist at McDonnell Aircraft, Dr. Henderson joined ARL in 1959. From 1964 to 1980, he directed the Propulsor and Turbomachinery Research Group. His joint appointment with the Mechanical Engineering Department started in 1974, when he began teaching courses in fluid mechanics and turbomachinery.

In 1983 he was appointed head of the Fluid Dynamics and Turbomachinery Department. Most recently, he has served as assistant director of ARL's applied science division.

Dr. Henderson earned his bachelor's and master's degrees in aeronautical engineering from Penn State in 1958 and 1962, respectively. He received his doctorate in mechanical engineering in 1973 from the Churchill College of the University of Cambridge.

Dr. Henderson is a member of ARL's Executive Committee, Sigma Xi, and numerous professional associations, and he is an advisory editor for the *International Journal of Heat and Fluid Flow*. He has received ARL's Distinguished Performance Award and was an Elected Fellow of the American Society of Mechanical Engineers.

Kenneth W. Holt, associate professor of engineering at the Penn State Delaware County Campus, has retired after 21 years of service.

Professor Holt, who joined the faculty when the campus opened in 1968, is a graduate of Penn State, a registered

Robert E. Henderson

professional engineer, and a registered architect.

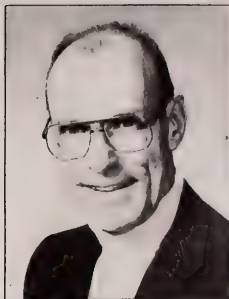

An avid reader and collector of Civil War material, he also is an accomplished photographer, with Civil War artifacts and architecture his frequent subjects.

Professor Holt also has worked for several engineering and architectural firms in the Philadelphia area and has taught structural engineering at Drexel University.

Lawrence E. Horner has retired as a warehouse worker in Purchasing Services after 37 years service.

Mr. Horner was responsible for setting prices for items in the sales store. The biggest change since he began working at Penn State in 1953 came when the University created the sales store and replaced the semi-annual auctions.

He said he liked his job because he was

James H. Prout

involved in all types of retail, and everyday was different. He plans to start an equipment buying and re-selling business during retirement.

A resident of Spring Mills since 1955, Mr. Horner and his wife, Mary, have three children, Sharon, Tammie and Laron.

Roslyn G. Levine, research assistant in the Department of Plant Pathology, has retired after 25 years service.

She conducted research with Felix Lukacz on tomatoes, alfalfa and other crops. She also directed the root disease and nematology labs in Buckout Building, helped graduate and undergraduate students with projects and conducted physiological tests on diseased plant specimens.

"My favorite part of the work was getting to know people," Ms. Levine says. "I've made lasting friendships with people I

worked with over the years."

Before joining the Plant Pathology Department in 1965, she worked as a medical technician at St. Francis Hospital in Pittsburgh, as a medical research technician in endocrinology at Philadelphia General Hospital and as a chemist and bacteriologist at the Fort Lauderdale Water Works in Florida.

Ms. Levine lives in Bellefonte with her husband, Leonard. She pursues her musical interests by playing cello. She plans to spend more time bowling, golfing and visiting her sons and grandchildren.

James H. Prout, associate professor of engineering research at the Applied Research Laboratory, has retired after 30 years of service.

In July, 1961, Mr. Prout joined ARL as an assistant professor of engineering research and was promoted to associate professor in 1967. From 1971 to 1980, he held a joint appointment with the Environmental Acoustics Laboratory. He specialized in acoustic instrumentation, data acquisition and analysis.

Mr. Prout has four patents, including one for a non-contacting ultrasonic electromagnetic transducer for material testing and inspection.

He earned his bachelor's degree in physics at Purdue University in 1952 and a master's degree in physics at the University of Michigan in 1958.

Mr. Prout is a member of the Acoustical Society of America and Sigma Xi. He has received an award as co-author of "Community Noise Fundamentals: A Training Manual and Study Guide." He was given a citation for developing a standard for an Occluded Ear Simulator for calibrating hearing aid earphones.

Obituaries

James P. Gallagher, professor of animal science, died Jan. 5 at the age of 63.

He earned his bachelor and master of science degrees from Penn State. On Jan. 1, 1959, he was appointed assistant county agent in Clearfield County and in 1963 he transferred to Cumberland County. In 1965 he transferred to University Park as an equine specialist for the Colleges of Agriculture.

He conducted the first interstate 4-H horse judging contest in the United States, which became the National 4-H Horse Judging Contest with the Eastern Seal Society, he organized the handicapped riding programs in Pennsylvania.

In recent years he coordinated the animal science extension program in the College of Agriculture.

At the time of his death he was involved in the planning for the founding of the Pennsylvania Center for Integrated Therapy and in the economic impact study of the equine industry in Pennsylvania.

Memorial contributions may be made to the Pennsylvania Council on Horseback

Riding for the Handicapped, Room 1, Armsby Building, University Park, Pa. 16802.

Morris G. Mast, professor of food science, died Jan. 9, he was 80.

He earned his bachelor of science degree in biology from Goshen College in Indiana, and his master's and doctoral degrees in food science at Ohio State University. Prior to receiving his advanced degrees, he was quality control manager for Victor F. Weaver in New Holland.

In 1971 he joined the faculty of the College of Agriculture as a poultry products processing specialist. During his 19 years at Penn State, he developed and taught several poultry and muscle foods courses in the Food Science Department.

His research activities involved the study of improving the quality of muscle foods, including poultry and fish.

He was a member of the Institute of Food Technologists, the Poultry Science Association, Extension Professors Association, Pennsylvania Poultry Federation, Council for Agricultural Science and Technology, Sigma Xi, Phi Tau Sigma, Gamma Sigma Delta, and American Men and Women in Science.

George F. Johnson, professor emeritus of agricultural extension, died Jan. 13 at the age of 92.

He joined the faculty Dec. 1, 1935, as a specialist in visual education and spent the following 27 years developing and directing the agricultural Extension program in visual aids and pictorial journalism. He had previously served as director of the bureau of statistics and information for the Pennsylvania Department of Agriculture and the Pennsylvania Farm Show in Harrisburg for 12 years.

He earned his bachelor of science degree at Ohio State University in 1910, his master of science degree at the University of Wisconsin in 1922 and his doctoral degree at the University of Wisconsin in 1926.

Dr. Johnson was a life member of the American Association of Agricultural College Editors and the Photographic Society of America.

Judy L. Swartz, area representative for continuing education at the Penn State York Campus, died Jan. 13 at the age of 49.

Ms. Swartz joined the campus staff in

1973 as public information coordinator. She later served as program assistant for continuing education before being named area coordinator.

A 1962 graduate of Shippensburg University with a B.S. degree in elementary education, she was a former elementary teacher for Central York Schools.

Doris Patrick, retired records clerk in medical records at Hershey Medical Center, died Dec. 21 at the age of 57. She had retired on disability Oct. 31, 1988, with eight years of service.

Mark F. DeGrasse, experimental propeller fabricator B at the Applied Research Laboratory, from Nov. 13, 1986, until his retirement Jan. 10, 1990, on disability, died Dec. 27. He was 44.

George A. Gardner, lead painter, Office of Physical Plant, from March 1, 1962, until his retirement Jan. 1, 1981, died Jan. 3. He was 73.

George L. Kardoley, maintenance worker utility, Office of Physical Plant, from May 13, 1974, until his retirement May 1, 1988, died Jan. 5 at the age of 68.

Bookshelf

Juan Fernandez Jimenez, professor of Spanish at Penn State Erie, The Behrend College, is co-editor of a volume of 38 essays titled *Utopías en la historia de Europa* (*Utopias in History of Europe*). The book's co-editors are José J. Labrador Herráiz of Cleveland State University and Teresa Valdivieso of Arizona State University. The book is published by the Association of Spanish Professionals in America.

Three professors of Spanish at University Park have contributed essays. **Frederick de Armas**, a specialist in the literature of the Spanish Renaissance and a Fellow of the Institute for the Arts and Humanities Studies, wrote "The Hippogriff as Vehicle: Layers of Myth in *La vida es sueño* (*Life is a Dream*)".

Martha T. Halsey, whose field is contemporary Spanish drama, wrote "Bucro

Vallejo and Velazquez," while **Robert Lima**, another specialist in modern Spanish literature and a Fellow of the Institute for the Arts and Humanities Studies, contributed an essay on "Supernatural Fantasy in Spanish Drama."

"Dr. Jimenez also contributed an essay titled "Apuntes sobre 'Faustino,' obra dramática de Emilio López," ("Notes on 'Faustino,' a play by Emilio López Medina").

A translation of Lina Kostenko's poetry, *Selected Poetry of Lina Kostenko: Wanderings of the Heart*, by **Michael Naidan**, associate professor of Slavic languages, has been released by Garland Publishers in New York.

The book translates more than 100 poems by the leading Soviet Ukrainian poet writing today and includes a critical introduction and notes by Dr. Naidan.

Director of clinical services being sought

A search and screening committee has been formed to seek candidates for the position of director of clinical services for University Health Services.

Stanley P. Mayers Jr., associate dean, College of Health and Human Development, will chair the committee.

The director of clinical services is responsible for formulating medical policy for student health services, supervising all clinical staff, including health promotion and education, and serving half-time as a staff physician. Candidates should be board certified or eligible in family practice or internal medicine, as well as be eligible for licensure in Pennsylvania. They should have previous medical experience in adolescent/young adult medicine.

Committee members include **University Health Services staff members Hattie Faison**, physician; **Jane Galas**, head nurse;

Pat Irwin, acting primary care coordinator; **Susan Kennedy**, associate director for health promotion and education; **David Lindstrom**, assistant director; **Joanna Moyer**, nurse practitioner; and **Janet Polansky**, physician.

Dennis Heitzmann, director, Center for Counseling and Psychological Services; **Abbas Aminmansour**, graduate student; **Kim Schriver**, president, Student Health Advisory Board; **Brent Watson**, Undergraduate Student Government/Student Health Advisory Board; **Susan Williams**, vice president, Advisory Board, USC.

Applications will be accepted until the position is filled. They should be sent to Stanley P. Mayers Jr., Chair, Search Committee, Penn State, Employment Division, Job No. N-1145, 120 S. Burrows St., University Park, PA 16801.

Staff Vacancies

The following vacancies for positions classified as staff exempt or staff nonexempt have been listed with the University Employment Division for filling. The brief statements for each vacancy are illustrative. They are not complete position descriptions. APPLY BY CALLING THE EMPLOYMENT DIVISION, 863-5004. Applications for these staff vacancies will be accepted until Feb. 14. DO NOT CONTACT THE AREA THAT HAS THE VACANCY. Applications for staff vacancies are considered in accordance with Fair Employment practices (FS-1) and in compliance with the University's Affirmative Action Compliance Program, without regard to race, color, religion, national origin, handicap or age (as provided by law) sex, or status as a disabled or Vietnam era veteran.

■01286, Assistant Financial Aid Coordinator, Academic Services, Student Aid, University Park Campus - Responsible to the director of client and campus services for assisting in designing creating, and maintaining Client Service procedures, working with students, parents and other offices and agencies with financial aid matters and assuming responsibility for other related aid administration functions. Requires:

bachelor's degree or equivalent, plus one to two years of effective experience in an area applicable to aid administration. Excellent interpersonal skills are required. STAFF GRADE 5.

■01287, Architect/Planner, Office of Physical Plant, Facilities Planning, University Park Campus - Responsible to the manager, Facilities Planning, for conceptual design of projects and planning studies. Requires bachelor's degree in architecture, or equivalent plus two to three years of effective experience in architectural design and campus planning in a college or a university environment. Professional registration as a licensed architect or planner is required. STAFF GRADE 7.

■01288, Marketing Manager, CES, Conference Center/Nittany Lion Inn, University Park Campus - Responsible to the director of the Conference Center and the general manager, Nittany Lion Inn, for the implementation of sales and marketing efforts to maximize the use of University conference, food, lodging, and hospital services and facilities. Requires bachelor's degree, or equivalent, in marketing or related field and two to four years of effective experience, preferably in the hospitality industry or

internal sales and marketing. Requires excellent interpersonal and organizational skills and frequent travel. THIS IS A FIXED-TERM POSITION FUNDED THROUGH JUNE 30, 1993. WITH GOOD POSSIBILITY OF RE-FUNDING STAFF GRADE 7.

■01289, Coordinator Residence Hall Programs, Student Services, Campus Life, University Park Campus - Responsible for assisting with the supervision and administration of a residence hall community and for supporting and promoting a diversified residential program. Requires bachelor's degree, or equivalent, plus over one year of prior effective experience. Candidates should possess a thorough understanding of the role and purpose of residence hall living as it applies to student development, human relations, and community awareness. THIS IS A CONTINUING, 16-MONTH, LEVELIN POSITION. FURNISHED APARTMENT AND MEAL PLAN AT A NOMINAL FEE. STAFF GRADE 6.

Hershey

For the following position vacancies, apply directly to The Milton S. Hershey

Medical Center. Attach resume with cover letter indicating the position vacancy code and forward to the Department of Human Resources. Hershey, or call the Hershey bus line at (717) 531-8531 by Feb. 14.

■11288, Speech Language Pathologist, University Hospital Rehabilitation Center for Children and Adults - Responsible to the manager, Speech and Language Pathology, for performing a wide variety of duties in the diagnosis, treatment and evaluation of persons with various speech difficulties and deficits. Requires a master's degree in speech pathology with Certificate of Clinical Competence in Speech Pathology from the American Speech and Hearing Association, plus one to two years of effective experience. STAFF GRADE 6.

■11289, Programmer Analyst, Department of Information Systems - Responsible to the manager, Information Systems, for the analysis of how data processing can be applied to specific user problems for the design of effective data processing solutions and for the development of effective efficient and well documented programs. Requires a bachelor's degree in computer science or

equivalent plus one to two years of effective experience. STAFF GRADE 6.

■11290, Draftsperson, Department of Physical Plant, Division of Engineering and Projects - Responsible to the project coordinator for the development of drawings and specifications for maintenance operations, alterations and selected new projects for the Medical Center mechanical systems, electrical systems, buildings and yards. Requires an associate degree in architectural drafting or equivalency plus two to three years of effective experience including electrical mechanical drafting. STAFF GRADE 5.

■11291, Manager, Publications/Public Relations, Department of Public Relations - Responsible to the director, Public Relations, for managing the approved publishing program including writing, editing, advertising, production and distribution of all publications. Requires a bachelor's degree or equivalency in journalism or related field plus one to two years of effective experience in writing and editing publications. Knowledge of printing procedures and news media practices is required. STAFF GRADE 6.

INTERCOM is published weekly during the academic year and every other week during the summer. It is an internal communications medium published for the faculty and staff of Penn State by the Office of Public Information, Room 312, Old Main, Phone 865-7517.

Project will begin at University Park

A Pennsylvania Department of General Services project will begin construction this spring to improve and enhance the water production, storage and distribution systems at University Park.

A new elevated water tank, which is the most visible portion of the project, will sit at the western edge of the Blue Golf Course.

"The project will address deficiencies in the distribution system and extend major lines to service facilities," James Wagner, vice president for business and operations, said. "Two wells, which were drilled several years ago, will be placed into service to provide a reliable supply and to answer increased needs for water."

"However, the University still urges all students, faculty and staff to continue conserving the use of this precious resource."

During the construction activities, some temporary traffic disruptions will occur on Pollock and Bigler roads on campus. Utility construction activity also will occur on North Atherton Street near the Pollock Golf entrance and on Corl Street in the golf course area.

Proposed budget suggests appropriations freeze

The 1991-92 budget proposed to the General Assembly by the governor last week suggests freezing the appropriations for Penn State and other state-related and state-owned universities for the next year.

The governor indicated the state faces another year of tight revenue resources. Under the proposal which now goes before the General Assembly, Penn State would actually have its budget cut by about \$1.5 million from the originally approved \$251.9 million for 1990-91. Last month the governor cut about 5 percent, or \$12.0 million, from this year's appropriation.

A zero increase budget from the state would put us even further behind in our multi-year plan for Pennsylvania to reach the national average in appropriations per full-time equivalent student for public higher education," President Thomas said.

Currently Pennsylvania funds public higher education at one of the lowest rates of any state in the nation.

"A zero increase budget also fails to recognize the significant and unavoidable cost increases that Penn State will face for 1991-92. Unless the General Assembly and the governor can find the means to provide

'We are disappointed that a higher priority was not placed on higher education in this proposed budget.'

'We will continue to press our case vigorously with the General Assembly this spring as the Commonwealth moves toward final budget resolution by June 30.'

—President Thomas

more support for the University, a larger tuition increase than we had planned for in our 1991-92 appropriation request will be required," he added.

Dr. Thomas said that because of the economic pressures on students and their families' every effort will be made to keep any tuition increase at a reasonable level.

State funds make up approximately 30 percent of the University's \$1.2 billion operating budget.

"We are disappointed that a higher priority was not placed on higher education in this proposed budget," Dr. Thomas said.

"We will continue to press our case vigorously with the General Assembly this spring as the Commonwealth moves toward final budget resolution by June 30."

Recommended appropriations for two line items have been reduced from the 1990-91 level. The budget proposes a reduction of \$2 million (10 percent) for agricultural research and \$250,000 (15 percent) for psychiatric education at the Hershey Medical Center.

"These cuts will seriously impair our ability to serve the Commonwealth in these important areas," Dr. Thomas said. University officials are scheduled to travel to Harrisburg to testify at a budget hearing before the Senate Appropriations Committee on Feb. 25. The House plans to hold a budget workshop on Feb. 27.

Penn State had requested the state increase the University's appropriation by 13.1 percent for 1991-92.

Inside Out

The clock on Old Main at University Park takes on a different perspective in this Greg Grieco photo from inside the Old Main tower.

Two CES divisions have new reporting lines

Two divisions within the Commonwealth Educational System now have new reporting lines, according to Richard E. Grubb, senior vice president and dean of CES.

Both the Division of Media and Learning Resources and the Division of Planning Studies, which had reported to the senior vice president and dean of the Commonwealth Educational System, now will report to the vice president for Continuing Education.

The changes follow recommendations made by a strategic study group which called for a major reorganization of Continuing Education and the creation of administrative structures to support market research, program development and the full utilization of instructional technology in the delivery of programs.

"By incorporating these units into an already thriving Continuing Education structure, the University enhances its responsiveness in program development and delivery," James H. Ryan, vice president of Continuing Education, said.

In a sense, this is a homecoming since both units had their origins in Continuing Education. We are pleased to have the talents and abilities of these two nationally recognized units returning to Continuing Education.

See "CES" on page 3.

Focus on Diversity

Number of activities conducted in honor of Black History Month

A number of additional activities are being conducted at University campuses during February in honor of Black History Month.

At University Park, an exhibit, "Educating America: Black Universities and Colleges, Strengths and Crises," is on display in the Black Studies Room in Pattee Library. The exhibit is from the Association for the Study of Afro-American Life and History, publishers of *New Africanist Bulletin*. A panel discussion and lecture on

"Malcolm X: A Life, Legacies and Lessons" will be held at 7 p.m. Wednesday and Thursday, Feb. 20 and 21, in the HUB Ballroom. The event, featuring Zak Kondo, of Bowie State University, is co-sponsored by the Office of Student Activities and Religious Affairs and the Black Caucus.

Two exhibits featuring the works of Black artists are on display at the Penn State Altoona Campus. The exhibit in the Sheetz Gallery, "Black Women: Achievement Against the Odds," is a traveling exhibit which focuses on the talents and achievements of more than 100 Black women. "From our View... A Black Perspective," a mixed media exhibit by the late James T. McDowell Sr. and James McDowell Jr., is on display in the McLanahan Gallery.

At Penn State Erie, The Behrend College, the Erie Bayfront Ballet will present "The Dream Lines On," the story of the struggle and triumph of Dr. Martin Luther King Jr., at 8 p.m. Friday, Feb. 15. Joe Clark, the

controversial New Jersey principal who inspired the film, "Lean on Me," will speak at 8 p.m. Tuesday, Feb. 19. Trumpet soloist Robert Howard, a member of the University music faculty, will present a concert at 8 p.m. Thursday, Feb. 21.

The Minority Students' Association at the Penn State Fayette Campus will hold its second annual Martin Luther King Jr. Achievement Banquet at 6:30 p.m. Saturday, Feb. 23.

As part of the "Shades of Black" presentation at Penn State Harrisburg, a panel discussion on Blacks and immigration to the United States will be held at noon Monday, Feb. 18. An art exhibit of works by Peter L. Robinson Jr. through Feb. 22 will conclude the series of events.

At the Penn State Schuylkill Campus, Edris Makward, professor of African languages and literature at the University of Wisconsin, Madison, will present a lecture titled "Black and African in Today's America" at 8 p.m. Thursday, Feb. 21.

Black History Month events at the Penn State York Campus include a lecture on "People and the Arts of West Africa, African American Artists" by Catherine R. Joslyn, associate professor of art at Clarion University, at 7:30 p.m. Tuesday, Feb. 26. At 7:30 p.m. Thursday, Feb. 28, Marilyn Mumford, professor of English at Bucknell University, will speak on "Images of Racial and Ethnic Children in American Children's Books."

Kente cloth

Stephen A. Mellish and Harriet Schiffer model kente cloth garments included in the "Kente: Cloth of the Asante Kings" exhibit on display at the Paul Robeson Cultural Center at University Park. (Photo: Greg Grieco).

Diversity Opportunities Calendar

Thursday, Feb. 14

Paul Robeson Cultural Center, 8 a.m. to 5 p.m., Robeson Center Gallery. Kente cloth exhibit.

Penn State Harrisburg, Intercultural Concerns, 12:15 to 1:30 p.m., W-117 Olmsted Building. Video: "Cold Water."

Saturday, Feb. 16

American Association of University Women, 1 p.m., Telford Hotel. Mary Gage on "Women as Playwrights."

Monday, Feb. 18

Office of Minority Faculty Development,

8 a.m. to 5 p.m., 309 Kern. Registration deadline for Feb. 23 "Promotion and Tenure" workshop. For more information, contact Leah Witzig at 863-1603.

Tuesday, Feb. 19

Black Caucus, Religious Affairs, 1 to 5 p.m., HUB Fishbowl. Malcolm X film presentation.

Wednesday, Feb. 20

International Lecture Series, 2:30 to 4 p.m., 222 Boucke, International Lounge. Albert R. Jarrett on "Water Development in the Ethiopian Highlands."

Black Caucus, Religious Affairs, 7 p.m., HUB Ballroom. Panel discussion: "The Life, Lessons and Legacy of Malcolm X."

Thursday, Feb. 21

Commission for Women meeting, 1:30 to 3:30 p.m., 256 Hammond.

Black Caucus, Religious Affairs, 7 p.m., HUB Ballroom. Zak A. Kondo, Bowie State University director, international studies program, on "Conspiracy: Unraveling the Assassination of Malcolm X."

Touch of Africa

The eighth annual Touch of Africa will be held from 5:30 p.m. to midnight Saturday, Feb. 23, in the Hetzel Union Building ballroom at University Park.

The Touch of Africa brings together African students to celebrate and share their culture with the University.

The night will consist of a banquet featuring African cuisine, representative of the different regions of Africa; a live band, "Moloko"; a fashion show featuring African fashion; singing, dancing and many other cultural performances.

Tickets are \$10 per adult and \$5 per child. They can be purchased from Dekote Woods (862-7905), Eno Inyang (867-4749), or by contacting the African Student Association office at the Paul Robeson Cultural Center (865-3776).

Women of Color Day luncheon scheduled

Tickets are now available for the fourth annual National Women of Color Day Luncheon at noon Wednesday, March 13, in the Nittany Lion Inn at University Park.

The special luncheon is sponsored by the Central Pennsylvania Women of Color to recognize the contributions of area women of color to Penn State and local communities.

Speakers include Women of Color members from each ethnic group. The 1991

WOC Professional and Humanitarian Achievement Awards also will be presented.

Tickets are \$10 per person and are available by contacting Puring MacDonald, Floyd Building, University Park, at (814) 865-2016. The deadline for reservations is March 1.

In keeping with the cross-cultural spirit of the occasion, a vegetarian menu will be served. Ethnic dress is welcomed.

WPSX-TV programs

At 9 p.m. Monday, Feb. 18, on WPSX-TV, *The American Experience* showcases a film about "Adam Clayton Powell." The film tells the rise and fall of the charismatic Black preacher from Harlem who at the height of his career was one of the most powerful and controversial politicians in America.

At 10 p.m. Monday, Channel 3 presents *King: A Filmed Record - From Montgomery to Memphis* - an unparalleled assemblage of motion picture footage, much of it never previously shown.

Carpoolers

Wayne would like to carpool from Lock Haven to University Park. Work hours are 8 a.m. to 5 p.m. Call 863-0837 or (717) 748-2640.

Jolene wants to carpool from Philipsburg to University Park. Work hours are 7 a.m. to 4 p.m. Call 865-4731 or 342-4286.

CES

Continued from page 1.

"As we look to the future and the forces driving higher education, such as the increase in adult students, cultural diversity, and the increased commitment to training and development in the workplace, the role of Continuing Education will take on new importance to Penn State. Both units will help us do a better job of meeting the needs of the Commonwealth and the nation."

The Division of Media and Learning Resources, headed by **Marlowe Froke**, is a University-wide media-based resource consisting of WPXS-TV, Independent Learning, Audio-Visual Services, Photo/

Graphics, and Materials Procurement.

The Division of Planning Studies consists of the Office of Institutional Research which provides information and data for various units within the University to help them address their planning needs, and the Office of Continuing Professional Education, which promotes continuing professional education throughout the University, higher education and the professions.

Wayne D. Smutz currently is acting director of Planning Studies, filling the vacancy created by former director **Donna S. Queeney's** promotion to director of research and external relations for Continuing Education.

See story on page 5.

Australian politics

Paul Achfeld, president of the South Australian branch of the Australian Labor Party, and Grahame Morris, deputy director of the Liberal Party Federal Secretariat in Canberra, will present a seminar on "Political Parties and Campaign

Strategies in Australia: Views from Opposing Practitioners" at 3:30 p.m., Thursday, Feb. 21, in Eisenhower Chapel Lounge at University Park.

The public is invited to attend the seminar, which is sponsored by the Australia-New Zealand Studies Center.

Faculty Senate News

The University Faculty Senate will meet at 1:30 p.m. Tuesday, Feb. 19, in 112 Kern Graduate Building at University Park.

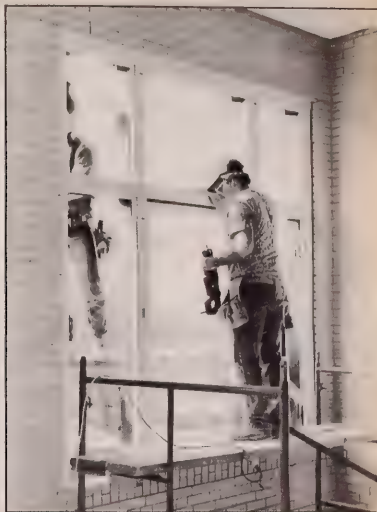

Items to be discussed at the Feb. 19 meeting:

- Patterns of Usage of General Purpose Classrooms at University Park
- Status of Construction Programs
- Late Adding of Courses
- Revision to the *Senate Constitution, Bylaws, and Standing Rules*
- Change in *Constitution, Article II, Section 5*
- Guidelines for Submitting Writing Intensive Course Proposals

- Faculty Salaries - Analysis of Gender, Location and Minority Status Differences in Salaries
- State of the Libraries

Items discussed at the Jan. 22 meeting:

- Comparisons of Student Retroactive Withdrawal Petitions
- Advanced Standing with Academic Renewal
- Deletion of Senate Policy 83-20 - Exemption to Physical Education Requirements
- Instruction for New Graduate Students in Teaching and the English Language
- Faculty Census Report - 1991-92

Carnegie Renovation

Renovation of Carnegie Building at University Park continues as workmen install energy saving windows specifically selected to maintain the historical integrity of the building. The interior renovation of Carnegie, which houses the School of Communications, is expected to be completed by the middle of the summer. (Photo: Greg Grieco).

Bookshelf

James G. Beierlein, associate professor of agricultural economics, is senior co-author of a new book titled *Agribusiness: Marketing The Management Perspective*. Published by Prentice-Hall, the text takes

a practical approach to managing the emerging global food and fiber system. The perspective is that of individual managers of agribusinesses and what they can do to make their firms succeed in today's highly competitive market. Topics range from market planning and product branding to commodity futures and options markets.

Children taught to write and illustrate folk tales

Teaching children to write and illustrate their own folk and adventure tales is a creative way to help them improve their reading, writing and thinking abilities, according to **Richard Ammon**, associate professor of education at Penn State Harrisburg.

"Advocates of process writing and writing-across-the-curriculum believe that reading teaches writing and writing teaches reading. Few teaching strategies achieve this two-fold objective as well as teaching children to write and illustrate their own folk and fairy tales. During the exercise, students learn the process of writing - drafting, revising, polishing, illustrating and publishing," Dr. Ammon noted.

In 1989, he had the opportunity to test this strategy. He applied to the United Federal Savings Bank Endowment for the Enhancement of Undergraduate Instruction for funding for a special topics course.

The United Federal Endowment is administered by the Office of Undergraduate Education under the direction of Jerry B. Covert, associate dean for undergraduate

education. Each year, faculty members are invited to submit proposals for funding of projects that enhance undergraduate education.

The special topics course would provide undergraduate education majors studying children's literature, art, writing and folk tales with a method for teaching children in middle school through high school how to write and illustrate stories modeled on traditional folk and adventure tales.

With funding from the endowment, he and several Penn State Harrisburg colleagues, along with noted children's book author/illustrator Molly Bang, taught 200 eighth grade students in Harrisburg area schools while University students observed.

Ms. Bang, a Caldecott Honor medalist and the author and illustrator of many children's books, served as consultant-in-residence for faculty development in the divisions of Education and Humanities at the campus as part of the special topics course.

The participating students included 60 from Dr.

Ammon's education class, who observed the teaching of the eighth grade students, and 20 each from **Linda Ross' art class** and **Donald Wolff's** writing class, who met with Ms. Bang in their classrooms.

She uses the folk/adventure tale teaching strategy because "this structure is one of the fundamental structures of Western literature." It is a structure that teen-agers can see in many stories and movies.

As they write their own folk and adventure tales, the process helps them to channel their often intense and fluctuating emotions into something meaningful, according to Ms. Bang.

Dr. Ammon, who has been a member of the Penn State Harrisburg faculty for 19 years, is working to have "Teaching Folk and Fairy Tales" adopted as a new catalog course.

"The number of spinoffs from this method of teaching young people how to read and write is infinite," he said.

—Deborah A. Benedetti

Human Resources seeks volunteers for focus groups

The Staff Position Evaluation and Compensation (SPEC) program will result in a new job evaluation and compensation program for occupations currently called clerical, staff nonexempt, and staff exempt. These three categories will be combined into a single category called staff.

The development of a new compensation program and methods of salary administration involve a number of topics which require study in the coming months. Many of these topics were held during employee meetings, held early in 1990 and published in *Intercom* in May 1990. Subjects requiring study include such issues as pay

for performance, salary management practices and performance appraisal.

The combination of clerical, staff nonexempt, and staff exempt classifications requires a study and revision of policies which will affect employees in the new staff category. These topics also were identified during the employee meetings of 1990 and include vacation earnings, paid and unpaid absences, employment practices, grievance procedures, and probationary periods.

The Office of Human Resources is seeking the assistance of faculty and staff to study these subjects and to react to ideas and proposals. The goal is to create a total

human resources program which will meet the values and needs of Penn State.

Focus groups will be formed in the coming months to react to a wide variety of human resources matters. Focus group members will be volunteers from all University locations interested in becoming a part of the process. Groups will be formed at locations away from University Park to assure input from the total University community.

The focus group process continues Penn State's human resources philosophy of increased employee involvement in subjects which will affect the lives of staff members." Billie S. Willis, assistant vice

president of human resources, said. "The efforts of these groups will help shape Penn State's human resources program for the future."

Members of the clerical, staff nonexempt, and staff exempt classifications, and faculty members are encouraged to volunteer for this effort. Interested individuals should indicate their interest by completing a form which is available in the office of each Human Resources representative or Director of Business Services. Forms also are available by calling the SPEC telephone information line. (614) 865-1313.

News in Brief

Returning adult student program

The Returning Adult Student Center is sponsoring a program for returning adult students titled "Finance Empowerment: Gaining Control Over Your Personal Finances" at 12:30 p.m. Tuesday, Feb. 19, and 6 p.m. Wednesday, Feb. 20, in 329 Boucke Building at University Park. If you are interested in attending and would like further information, contact the Returning Adult Student Center at 863-3887 or stop by 323 Boucke.

Radio Australia

Penn State radio station WPSU (91.1 FM) has begun a regular, hour-long weekly broadcast of Australian news stories. The program, called "Radio Australia in America," is aired Mondays from noon to 1 p.m. and is produced by Radio Australia for use by American PBS stations. WPSU is operated by students in the School of Communications and volunteers.

Model United Nations

The International Affairs Association of Penn State Harrisburg will hold its 19th Annual Model United Nations Feb. 21, 22 and 23.

There will be 350 participants including students from 19 Central Pennsylvania high schools. The purpose of the event is to increase student understanding of the United Nations.

Professional Women at Penn State

Kathy J. Plavko, senior office information specialist, Management Services, will speak on "Computer Structure at Penn State," at a meeting of Professional Women at Penn State at 11:45 a.m. Tuesday, Feb. 26, in the Frizzell Room, Eisenhower Chapel. Professional Women at Penn State is a grass-roots group coordinated by University women in which participants can develop and maintain a communications network and serve as a

resource for other Penn State women.

The group welcomes attendance from all classifications at the University.

Chemistry society wins award

The Eberly College of Science's Nittany Chemical Society, a Penn State student affiliates chapter of the American Chemical Society (ACS), has received special recognition as a Commendable Chapter.

Research proposals sought

The College of Agriculture is soliciting research proposals that encourage intercollege and interdisciplinary research. An internal grants program will be used to fund a limited number of new proposals. Approximately \$430,000 is available for allocation.

This limited funding should be considered "seed" money. It is expected that investigators will establish creditable working relationships or teams that can compete successfully for external support in the future.

An original and 12 copies of each proposal should be submitted through the appropriate academic unit leaders and research deans to 329 Agricultural Administration Building by April 1. Announcement of awards will be made by June 1. For more information, call the Office for Research at 865-5410.

Tree restoration grant

The Metropolitan Edison Company (Met-Ed) has contributed \$40,000 in continued support to the Municipal Tree Restoration Program, a cooperative effort of Penn State, the Pennsylvania Bureau of Forestry, power companies and local communities to improve the appearance, safety and health of street trees. The U.S. Forest Service also has provided support for the program.

In addition to research, the program offers workshops and assists communities in developing plans for

planting, pruning and removing trees. A collection of "Street Tree Factsheets" are available to help municipalities select appropriate trees for different types of environments.

Science lesson plans

Peter Rubba, associate professor of science education, and David Klindienst, science curriculum coordinator for the State College Area School District, have published a set of computer software disks, as Apple Works files, titled "Teacher-Developed Elementary Science Learning Cycle Lesson Plans."

These diskettes contain 76 learning cycle science lesson plans developed and field-tested by elementary teachers from Central Pennsylvania.

Funded by the National Science Foundation and the Pennsylvania Department of Education, the lessons are free and may be obtained by sending seven, 5 1/4" disks and a pre-addressed disk mailer with appropriate postage to: Learning Cycle Lesson Plans, Penn State University, 165 Chambers Building, University Park, Pa. 16802.

Summer day camps

Stone Valley Recreation Area will offer two types of day camp programs for children this summer.

Youth sailing day camps will be offered 9 a.m. to 4:30 p.m. Mondays through Fridays. Transportation from University Park and return is included. The emphasis of this program is sailing instruction for beginners.

The second program, Stone Valley Recreation Area Day Camp, will be held 7:45 a.m. to 5:15 p.m. Mondays through Fridays. Transportation from University Park and return is included.

The emphasis of this program is recreational, providing children with the opportunity to sample a variety of recreation/sport activities.

For additional information, call 863-0762.

Dr. Gregersen gets Fulbright Award

Hal Gregersen, assistant professor of management at Penn State-Behrend, has received a Fulbright Award for 1990-91 from the Council for International Exchange of Scholars.

He will use the award to teach in the Turku School of Economics and Business Administration in Finland. Dr. Gregersen's latest research efforts include working for Ford, Kodak, Citicorp, American Express, and other multinationals to learn why American executives living and working on assignments overseas are often unsuccessful.

His next book titled *Global Competition: Strategic Advantage Through People* will be published in 1992.

Hal Gregersen

Obituary

Howard F. Hartman, maintenance worker, New Kensington Campus, from Jan. 10, 1965, until his retirement Nov. 1, 1983, died Jan. 29. He was 69.

Appointments

Andrea Christopher has been named acting director of student programs and services at the Penn State Mont Alto Campus.

Ms. Christopher, who earned a bachelor's degree in sociology from the State University of New York at Cortland and a master's degree in counselor education and student personnel services from Penn State, began her career at the Mont Alto Campus in 1975 as assistant to the director of student programs and services. As assistant director of student programs and services since 1988, she has been responsible for career development and job placement, retention, the Academic Enhancement Program, new student orientation, parent and family orientation, counseling, and the student handbook.

A member of the American Association for Counseling and Development and the American College Personnel Association, Ms. Christopher serves as treasurer of the Pennsylvania College Personnel Association. She is actively involved in a number of campus organizations, including her tenure as chairperson of the Penn State Mont Alto Liaison Committee to the Penn State Commission for Women from 1987 to 1989, and membership in Alpha Sigma Lambda, the National Honor Society for Students in Continuing Higher Education.

A number of appointments and reassignments in Student Services have been announced by William W. Asbury, vice president for student services.

Barbara A. Copland has been appointed special assistant to the vice president for student services. Dr. Copland, a graduate of Western Michigan University, received the master of education degree from the University of Missouri, Columbia, and a Ph.D. in higher education from Penn State. She previously served at Penn State Great Valley and the Penn State Shenango Campus.

Judi Curley, student development coordinator, received a B.A. in Spanish literature and a M.Ed. in counselor education at Penn State. She currently is a doctoral student in counselor education.

Robert Godlove, attorney in the Center for Conflict Management, received a B.A. degree from St. Bonaventure University and a J.D. from the State University of New York at Buffalo. Prior to joining the University staff, he was in private practice in Buffalo for six years.

Ellen Johnson, psychiatrist in the Center for Counseling and Psychological Services, received her B.S. and M.D. degrees from Georgetown University. She previously worked for three years in general

Donna S. Queene

psychiatry for a community health organization in Wellsboro, Pa.

Mariza Ledee has been appointed counselor in Career Development and Placement Services. A graduate of Catholic University of Puerto Rico with a B.A. degree in social work, she received a M.Ed. in counselor education at Penn State. She has served as a vocational counselor with the Labor Rights Administration.

Jill S. Morgan has been named staff psychologist/coordinator of graduate assistant programs in the Center for Counseling and Psychological Services. She received her Ph.D. from Duke University and served as staff psychotherapist, Mental Health Services, the University of Massachusetts, from 1988 to 1990.

Diane Resides, counselor in the Returning Adult Student Center, received B.S. and M.Ed. degrees at Penn State. Previously, she was a coordinator in Residence Life.

Ann Shields, has been appointed assistant director for special programs and projects in the Division of Student Programs. One of her primary responsibilities will be coordination of exhibits in the HUB Galleries.

A member of the University staff for 19 years, she had been coordinator of alumni and minority relations and special events in the College of Arts and Architecture and previously was a producer and director at WPSX. In 1988 she was honored by the National Institute of Women of Color for her leadership in establishing a local Women of Color group.

Margaret E. Spear is physician-in-charge of women's health, University Health Services. She earned an M.D. in 1977 from

Lynn Weber

Mount Sinai Medical School, CUNY; served her residency in internal medicine at Highland General Hospital, Oakland, Calif., and was staff physician, Cornell University Health Services, from 1989 to 1990.

Joy Steel, pharmacist in University Health Services, is a graduate of the University of Pittsburgh School of Pharmacy. She had been with the Veterans Administration in Altoona for six years.

Donna S. Queene, director of Planning Studies, has been named director of research and external relations for the University's Division of Continuing Education.

As a member of Continuing Education's central administrative staff, Dr. Queene will initiate and coordinate a variety of applied research and development projects and program activities, according to James H. Ryan, vice president for Continuing Education.

She will be responsible for establishing institutional relationships with corporations, professional associations, and other higher education institutions, and will serve as Continuing Education's principal liaison with various University colleges, departments, and research centers. She also will develop grant and other funding opportunities.

Dr. Queene has been active in the National University Continuing Education Association, recently serving as a member of its board of directors and executive committee. She is editor of *The Journal of Continuing Higher Education*, and is a member of the editorial board of *Continuing Higher Education Review*.

Phyllis E. Hooven, to secretary A in Office of Physical Plant.

Judith A. Markley, to clerk, typist A in Research and Graduate School.

Pat K. Michael, to accounting clerk in Housing and Food Services.

April J. Sherry, to correspondence typist A in Health and Human Development.

April R. Smith, to secretary B in Earth and Mineral Sciences.

Andrea R. Willard

Dr. Queene joined Planning Studies in 1978. She earned a B.A. degree in liberal arts and M.S. and Ph.D. degrees in human development from Penn State.

Wayne D. Smutz, associate director of Planning Studies, has been named the unit's acting director.

Lynn Weber has been appointed director of development and university relations at Penn State Erie, The Behrend College. Ms. Weber formerly served as associate director of development and university relations.

As director, she is responsible for the College's fund-raising activities, focusing on the cultivation of major gifts, annual and planned gifts, and corporate and foundation gifts. She also supervises alumni relations and public information programs.

She earned her bachelor of science degree in education from Penn State. She is a member of the board of directors of the United Way of Erie County and of the Boys and Girls Club of Erie. In addition, she serves as a corporator for Hamot Health Systems and is a sustaining member of the Junior League of Erie.

Andrea R. Willard has been appointed undergraduate admissions counselor at Penn State Harrisburg.

Ms. Willard will counsel students in the humanities, behavioral science, elementary education and public policy programs and will recruit for Penn State Harrisburg in Pennsylvania, New Jersey and Maryland.

A 1989 graduate of the University, she previously worked as a graduate school admissions counselor for Penn State Harrisburg.

Promotions

Staff Exempt

Mark A. Hinish, to counselor/special support services coordinator in Undergraduate Education.

Staff Non-Exempt

Roberta A. Brough, to financial counselor at Hershey.

Clerical

Kimberly K. Beard, to clerk, insurance team at Hershey.

Technical Service

Konnie M. Fisher, to dining hall worker A in Housing and Food Services.

J. Ronald Harter, to test driver II in Research and Graduate School.

Robert C. Owens, to campus bus driver in Office of Business Services.

Michael J. Surovec, to maintenance worker, utility in Office of Physical Plant.

Focus on the arts

Pianist to perform

Pianist Jonathan Scherer, a student at the Oberlin Conservatory, will give a guest recital at 8 p.m. Wednesday, Feb. 13, in the School of Music Recital Hall at University Park.

The program will include Bach's Toccata in C minor, Beethoven's Sonata in E-flat major, Op. 81a, "Excursions for Piano" by Samuel Barber and Prokofiev's Third Piano Sonata.

Winner of Oberlin's Arthur Dann Piano Prize, Mr. Scherer is sponsored on a series of concerts throughout the United States.

Featured author

The Penn State Bookstore on Campus will feature **Kenneth R. Beitell** from noon to 2 p.m. Friday, Feb. 15, to sign and discuss his new book for children, co-authored with Joan Beitell, *Ralph and Dino in Vermont*. Dr. Beitell also will sign copies of his book *Zen and the Art of Poetry* (Weatherhill, 1989).

Dr. Beitell is the Department of Art Education for 31 years. He is professor emeritus of art education and a fellow emeritus of the Institute for the Arts and Humanistic Studies.

Ralph and Dino in Vermont and *Zen and the Art of Poetry* will be offered at a 20 percent discount during the book-signing session.

Fortepiano concert

Fortepianist Malcolm Bilson will perform a selection of Mozart's piano sonatas at University Park Saturday, Feb. 16. The concert, part of the Mozart 200 festival presented by the Center for the Performing Arts, will be held at 8 p.m. in Schwab Auditorium.

For 20 years, Mr. Bilson has been considered the leading interpreter of Mozart, Haydn and Beethoven on early pianos. His instrument, an authentic replica of an 18th-century fortepiano, is reminiscent of the one Mozart used.

Mr. Bilson currently is the director of keyboard studies in the 18th-century historical performance doctoral program at Cornell University.

As part of Artistic Viewpoints, a free lecture series for the audience, he will speak at 7 p.m. immediately before the performance, in Schwab Auditorium.

Tickets are available at the Eisenhower Auditorium Ticket Office, open Monday through Saturday, 8:30 a.m. to 4:30 p.m.

Bach's Lunch

The Hi-Lo's from the Penn State Glee Club will perform in concert at 12:10 p.m. Thursday, Feb. 21, in Eisenhower Chapel at University Park. The 20-minute concert is part of the Bach's Lunch Concert Series sponsored by the School of Music and the University Lutheran Parish.

The program includes selections from madrigal, folksong and spiritual literature. The group consists of around 12 singers from the Penn State Glee Club and is directed by Bruce Trinkle of the School of Music faculty.

This clay vessel with colored slip application by James L. MaloneBeach will be on exhibit at the HUB Gallery through March 3.

China exhibit

About 80 photographs from the archive of sociologist Sidney D. Gamble (1890-1968) will be presented in "China Between Revolutions: Photographs by Sidney D. Gamble 1917-1927" on exhibit through March 10 at the HUB Union Building Formal Art Gallery at University Park.

The exhibition is organized by China Institute of America and Sidney D. Gamble Foundation for China Studies in cooperation with the Smithsonian Institution Traveling Exhibition Service. Major funding was provided by the Henry Luce Foundation.

The exhibition is traveling nationally through 1991 under the auspices of SITES. Nancy Jervis, anthropologist and director of the China Studies Program at China

Institute in America, is the exhibition curator.

A reception will be held at the HUB Formal Art Gallery from 5 to 7 p.m. Tuesday, Feb. 19. Refreshments will be provided.

Wind ensemble

Guests Douglas Meyer, conductor of Penn State's Symphony Orchestra, and Mark Lusk, trombone, will join the Symphonic Wind Ensemble in celebrating its 25th anniversary at 8 p.m. Friday, Feb. 15, in the Recital Hall of the Music Building at University Park.

Mr. Meyer, who also is conductor of the Penns Wood's Music Festival, will lead the Ensemble in a performance of *Jupiter*, one of the movements from Gustav Holst's *The Planets*. Mr. Lusk, a member of the music faculty, will perform Donald Whittels *Tetra Ergon*.

Conductor Smith Toulson will lead the Symphonic Wind Ensemble in Leonard Bernstein's *Diablenotte*, a piece written in 1980 in celebration of the Boston Symphony's Centennial. Completing the program will be Ron Nelson's *Rocky Point Holiday* and *Grand Serenade* for an *Awful Lot of Winds*, a humorous and farcical parody by the inimitable P.D.Q. Bach (Peter Schickele).

The arts on Channel 3

WPSX-TV, Channel 3 celebrates the anniversary of two classic programs this week.

Oscar-winner Glenda Jackson stars as "Elizabeth R.," one of England's most colorful queens, in an encore presentation on *Masterpiece Theatre*, at 9 p.m. Sunday, Feb. 17.

To salute *Masterpiece Theatre's* 20th anniversary, the first episode of the original six-part series about the Virgin Queen was chosen for "Twentieth Anniversary Favorites," the nine weeks of special programming celebrating two decades of the drama series on public television.

Dazzle and sizzle come center stage on WPSX-TV when *Champion-Ship Ballroom Dancing* celebrates its 10th anniversary at 9 p.m. Wednesday, Feb. 20. Hosting the show for the second time is Rita Moreno, a veteran dance enthusiast.

Brown bag luncheon

John Malmstad, professor of Russian at Harvard University, will discuss "Russian Avant-Garde in Literature and Art," as part of the Comparative Literature brown bag luncheon series at 12:15 p.m. Monday, Feb. 18, in 101 Kern Building at University Park.

Those interested in attending only the lecture should arrive before 12:45 p.m. Coffee and tea will be provided to accompany a brown bag lunch.

Chambers exhibit

An exhibition of recent works by undergraduates in the graphic design and metals programs in the School of Visual Arts will be on view Feb. 18 through March 15 in Chambers Gallery at University Park.

The graphic design exhibit features student work using techniques such as xerography, photolithography, silk screen and mixed media. Faculty members from graphic design chose the pieces exhibited from projects students submitted.

The metals exhibit features work by
See 'Arts' on page 9.

The arts at...

Berks Campus

The Penn Players present Thornton Wilder's "Our Town" in the Student Center Theatre at 8 p.m. Friday, Feb. 15, and Saturday, Feb. 16.

The production features two Penn State alumni. The play is directed by John Gancar, who earned a master's degree in theatre in 1969. Playing the role of the state manager is Richard Bradbury, who has just earned a bachelor's degree in theatre.

Penn State Erie

Erie Bayfront Ballet will perform at 8 p.m. Friday, Feb. 15, in Reed Building Wintergarden.

The dance troupe will present "The Dream Lives On" to kick off the College's Black History Month celebration. The production, which focuses on the arrest of Rosa Parks, the famous march on Washington, and the assassination of Dr. King, plays homage to the man who revolutionized the civil rights movement

and inspired the principles behind the dance company.

The performance is free to the public.

Altoona Campus

Sukay, a quartet performing music from the South American Andes, will present a concert at the Penn State Altoona Campus at 7:30 p.m. Tuesday, Feb. 19.

Sukay plays both traditional music and dynamic new folk music of Bolivia, Peru, and Ecuador. In these countries, which once formed the Inca empire, the native Quechua and Aymara cultures are still very much alive. "Sukay" is the Quechua word meaning to open up the earth and prepare it for planting.

Penn State Great Valley

"That Fragile World of Things," an exhibit of photographs by Emanuel Antis, is on display during February. The exhibit is part of the "Celebrate Our World" Cultural Heritage Series, being held through May.

Photographs by Emanuel Antis are on display at Penn State Great Valley.

University Park Calendar

February 14-- February 24

Special Events

Thursday, February 14

Bach's Lunch, 12:10 p.m., Eisenhower Chapel
Penn State Chant Ensemble
■ Lecture, 5 p.m., 112 Kern, David Dean, former diplomat, on "Taipei, Washington, and Peking."

■ Fulbright Informal Lecture Series, 3:30-4:30 p.m., 222 Boucke, Dr. Harold Walton on "Cyprus and its Agriculture."

Friday, February 15

Geog. Coffee Hour, 4 p.m., 319 Walker, Stan Openshaw, Univ. of Newcastle, on "Siting and Safety of Nuclear Power Plants."

School of Music, 8 p.m., Penn State Symphonic Wind Ensemble, Recital Hall.

IFC Dance Míration through Feb. 17, White Bldg.

Saturday, February 16

Shaver's Creek, Maple Sugaring Volunteer Training, 10 a.m.-4 p.m. Call 863-2000.
Center for the Performing Arts, 8 p.m., Schwab Aud., Malcolm Bilson, fortepiano.

School of Music, 7:30 p.m., Old Main.
"Celebration of Love," Chamber Singers.

Sunday, February 17

Carnegie Hall Film Series, 7 p.m., *Malina on the Beach* (1935), 9:15 p.m., *Great Expectations* (1946), 108 Wartik, Free.

Monday, February 18

■ Comp. Lit. Luncheon, 12:15 p.m., 101 Kern, Catharine Theimer Nepomnyashchy, Barnard Columbia, on "Andrei Sinyavsky's *Struik's Will* Problem: Profaning the Sacred."

■ German Dept., film, 8 p.m., 108 Wartik, *Das Testament des Dr. Mabius* (1932).

Tuesday, February 19

Returning Adult Center, 12:30 p.m., 329 Boucke.
"Financial Empowerment: Gaining Control Over Your Personal Finances." Also Feb. 20, 9 a.m.

Lecture, 8 p.m., HUB Aud. Edwin Diamond, *New York Magazine* on "Down and Dirty: Political Advertising, 1900-92."

School of Music, 8 p.m., Recital Hall, Penn State Percussion Ensemble.

Wednesday, February 20

■ Slavic Center, lecture, noon 1:30 p.m., 12 Sparks, Roman Cakon on "Parliamentary Elections in Czechoslovakia."

■ International Lecture Series, 2:30-4 p.m., 222 Boucke, Albert R. Jarett on "Water Development in the Ethiopian Highlands."

URTC, 8 p.m., Playhouse Theatre, *Prudes of Presmer*, Student preview. Also Feb. 21.

Thursday, February 21

Bach's Lunch, 12:10 p.m., Eisenhower Chapel
The H&S's from the Penn State Glee Club Commission for Women, meeting 1:10-3:30 p.m., 250 Hammond.

Friday, February 22

Geog. Coffee Hour, 4 p.m., 319 Walker, Alan Block on "The Geography of Organized Crime in New York City."

Center for the Performing Arts, 8 p.m., Eisenhower Aud., American Indian Dance Theatre.

URTC, 8 p.m., Playhouse Theatre, *Prudes of Presmer*, through March 1.

Saturday, February 23

Shaver's Creek, Bird Breakfast/Winged Hunters, 8:10 a.m.-11:30 p.m. Call 863-2000.

■ Touch of Africa, 5:30 p.m. to midnight, HUB

This 1918 photo of a Chinese shoemaker is included in an exhibit of Sidney D. Gamble's photos on display in the HUB Formal Gallery.

Ballroom

Sunday, February 24

School of Music, 1:30 p.m., Recital Hall, Organ recital.

Carnegie Hall Film Series, 7 p.m., *Six Days Him* (1933), 8:15 p.m., *Hairs V* (1945), 108 Wartik, Free.

Friday, February 15

Agronomy, 3:35 p.m., 107 Ag Science and Industries, Dr. Dan Fritton on "Using Instructional Objectives."

Tuesday, February 19

Geosciences, 3:45 p.m., 112 Walker, Chris Harrison, Univ. of Miami, on "The Balance Between Erosion and Mountain Building."

Graduate Program in Nutrition, 4 p.m., 101 Allhouse Lab, James R. Connor on "Iron Regulatory Proteins in the Brain: Alteration in Alzheimer's Disease."

Condensed Matter Physics, 4 p.m., 319 Davey Lab, Dr. John Macther, Univ. of Massachusetts on "Phase Transitions in Fractal Porous Media."

Institute of Molecular Evolutionary Genetics, 4 p.m., 8 Mueller, Richard Meagher, Univ. of Georgia on "Divergent Genes and Functions for Plant Amino."

Public Radio

WPSU-FM 91.1

"All Things Considered," Monday-Friday, 5-10 p.m. Saturday and Sunday, 5-6 p.m. Morning Edition, Monday-Friday, 6-8 a.m.; Weekend Edition, Saturday and Sunday, 11 a.m.-1 p.m.

"Odyssey Through Literature," 12:30 p.m. Wednesdays, with S. Leonard Rubinstein.

Seminars

Thursday, February 14

Physics Colloquium, 3:30 p.m., \$5 Osmond Lab, Dr. H.K. Mao, Carnegie Institute of Wash., on "Metallic Hydrogen."

Geosciences, 3:45 p.m., 112 Walker, Thore Cerling, Univ. of Utah, on "CO₂ Content of Mesozoic and Cenozoic Atmospheres Using Paleosols."

Mech. Eng., 4 p.m., 103 Mech. Eng. Dr. Philip A. Thompson, Rensselaer Polytechnic Institute on "Microscopic Vortices, Nucleation and Fast Phase Changes."

Gerontology Colloquium, 4 p.m., 106 Mitchell, Carol Gay on "Bone Cells and Osteoporosis."

Inaugural issue of journal published

The Institute of State and Regional Affairs at Penn State Harrisburg has announced publication of the inaugural issue of *Pennsylvania: Economic Development*.
Pennsylvania: Economic and Community Development Journal

Irving Hand, Institute director and editor of the new journal, explained that the objective of the publication is to provide a forum for exchange of information and ideas among economic and community development practitioners in Pennsylvania.

A long-standing problem in the field of economic development in Pennsylvania has

Wednesday, February 20

■ History Colloquium, 4 p.m., Memorial Lounge
Evenhower Chapel, Dr. Sally A. McMurtry on "Women's Work in English Agriculture: The Case of Tharying, 1800-1930."

Thursday, February 21

Physics Colloquium, 3:40 p.m., \$5 Osmond Lab, Dr. Daniel Gershwinsky, IBM on "Materials Studies with Subplex Teralli Beams."

■ Australia-New Zealand Studies Center, 3:30 p.m., Eisenhower Chapel Lounge, Paul Atchell, Labor Party and Graham Morn, Liberal Party, on "Political Parties and Campaign Strategies in Australia: Views from Opposing Practitioners."

Friday, February 22

Agronomy, 3:45 p.m., 107 Ag Science and Industries, Dr. Craig Humphrey on "Environmental Sociology: International Politics of Population and the Environmental Consequences."

Partings

Robert C. Bealer, professor of rural sociology, has retired after more than 30 years service.

Throughout his career at Penn State, Dr. Bealer was recognized for his outstanding contributions to the field of rural sociology. He is a former president of the Rural Sociological Society (RSS) and served as editor of both professional journals, published by the society: *Rural Sociology* and *The Rural Sociologist*.

Dr. Bealer served on numerous RSS committees and was active in several other professional and academic societies. In 1988, the RSS honored him as a Distinguished Rural Sociologist. He has written and published extensively. He is credited with hundreds of articles, papers, reviews and monographs.

A native Pennsylvanian, Dr. Bealer joined the University faculty in 1958. He holds bachelor's and master's degrees from Penn State. He earned his Ph.D. in sociology and anthropology from Michigan State University in 1962.

Alda Covert, an auditor for the Department of Purchasing Services, has retired after 21 years of service.

Her older son, Steve, is a Penn State alumnus, and she has now retired to Parrish, Fla.

Jeanne M. Lutz, assistant professor of speech communication, has retired after 24 years service.

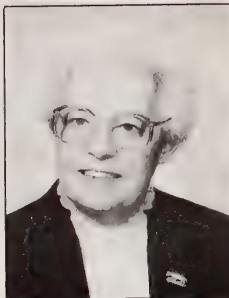

Ms. Lutz, who joined the University as an instructor of speech communication in 1967, previously was a speech teacher at John Harris High School in Harrisburg and Cedar Cliff High School in Camp Hill.

As director of the Pennsylvania High School Speech League for 23 years, she also served as speech education adviser to the Pennsylvania Department of Education from 1967 to 1970 and director of forensics for the Penn State Speech Communication Department from 1972 to 1976. Ms. Lutz received the Speech Communication Association of Pennsylvania Distinguished Service Award in 1981 and was elected to the Pennsylvania High School Speech League Hall of Fame in 1986. In 1986, she received the College of the Liberal Arts Outstanding Faculty Adviser Award.

A native of Harrisburg, Ms. Lutz received her master's degree from Penn State in 1967. She and her husband, William E. Lutz, live in State College. Her immediate post-retirement plans are to travel with her husband, then resume playing golf when the weather permits.

Ira B. Jacki McMaster, research assistant and deputy director of the Broezeale Nuclear Reactor, has retired from the College of Engineering after 33 years of service.

Mr. McMaster started his career in 1957 as an engineering aide at the nuclear reactor. He was appointed acting director in March 1977. In September 1977, he was named deputy director, serving in that position until his retirement.

Jeanne M. Lutz

Mr. McMaster and his wife of 36 years, Gordene, plan to return to their hometown area of Clarion County to enjoy their retirement.

Josephine Rimmey, a lab assistant for the Department of Veterinary Science in the College of Agriculture, has retired after 24 years service.

Ms. Rimmey began working at the University in 1966 and spent nine years working in Findlay and McElwain dining halls. She then spent 12 years working in the College of Agriculture's duplicating center, which is now a copy center for Printing Services. She has been a lab assistant for the past three years.

A resident of Milesburg, she has three children. She plans to continue her volunteer work with the Milesburg Community Park and to travel to California to see her son.

Robert J. Rugaber, director of Penn State Cooperative Extension in Butler County, has retired after 35 years of service.

Mr. Rugaber was instrumental in developing numerous educational programs, including seminars on farm safety, farmland taxation, land use planning and strip mining reclamation.

He received a National Association of County Agricultural Agents (NACAA) Distinguished Service Award in 1979 for his outstanding educational contributions to Pennsylvania agriculture.

He began his career in extension immediately after graduating from Penn State in 1955 with a degree in dairy science. He was named assistant agent in Centre County, then extension poultry specialist. In 1959 he was named associate Dauphin County agent and was promoted to Butler County agent in 1962.

When asked about his future plans, Mr. Rugaber says, "I primarily plan to be retired. I want to stand back for a year or two and leave the people who are carrying on at the extension office to carry on. I started to work when I was 12 years old. Now I'm going to do things work has always prevented me from doing."

An avid outdoorsman, he plans to fish,

James W. Sampsell

hunt, hike, bird-watch and work on projects with livestock.

James W. Sampsell, assistant coordinator, Department of Contracts and Grants Management, Commonwealth Educational System, has retired after 26 years service.

He previously served in the College of Education's office of the associate dean for research and graduate studies as coordinator of research funds from 1983 to 1986 and as administrative assistant from 1973 to 1982.

He also was an accountant from 1970 to 1973 and an accounting assistant from 1964 to 1969 with Research Accounting. During his tenure there, he supervised accounting personnel and was responsible for handling expenditure reports and invoices.

Mr. Sampsell graduated from Bellefonte Area High School in 1962. He earned an associate degree in business administration from Williamsport School of Commerce in 1964 before joining the University staff.

He is a member of several Centre County associations and has served as a girls softball coach and an umpire for the Centre Region Parks and Recreation Girls Softball League.

He and his wife, Beverly, secretary with the Pennsylvania Commission on Sentencing in the Department of Sociology, have two daughters: Kirsten, who resides in Olympia, Wash., and Lisa, a junior in high school.

Robert A. Wood, associate professor of finance, Business Administration, from Sept. 1, 1976, until July 1.

Ruth A. Basehore, clerk typist A at Hershey Medical Center, from Aug. 28, 1975, until July 21.

Linda M. Krobath, vascular radiology technologist, Hershey Medical Center, from Sept. 2, 1980, until Sept. 8.

Paul E. Nowlen, environmental health worker at Hershey, from July 25, 1977, until Sept. 14.

Nancy F. Rossi, college health nurse, inpatient and emergency room, Student Services, from Sept. 15, 1975, until Oct. 7.

Ronald V. Deith, supervisor, accounting files and multith, Corporate Controller's Office, from Sept. 19, 1967, until Oct. 17.

Diane M. Kurtz, clerk, end processing A, University Libraries, from July 5, 1978, until Oct. 2.

Evelyn M. Darr, nutrition advisor, Agriculture, from March 1, 1971, until Dec. 1.

Chan Wai Ming, food service worker, Housing and Food Services, from Aug. 31, 1979, until Jan. 1.

Roderick E. Barnaby, mailing room assistant, Agriculture, from Oct. 4, 1976, until Jan. 1.

Mary A. Cimino, nutrition advisor, agriculture (Lackawanna County), from Feb. 4, 1969, until Nov. 1, 1990.

Mary A. Perriello, secretary B, New Kensington, from Feb. 22, 1971, until Dec. 1, 1990.

William S. Kammerer, associate professor, Hershey, from June 15, 1973, until Jan. 16.

Lucille M. Guthrie, janitorial worker, McKeesport Campus, from April 23, 1973, until Dec. 6.

Romayne H. Bernitt, secretary C, Science, from Sept. 4, 1979, until Jan. 1.

Madge C. Byrne, shift supervisor, bibliographic processing, University Libraries, from Dec. 1, 1975, until Jan. 1.

Marian J. Reed, secretary B, Earth and Mineral Sciences, from Feb. 1, 1974, until Jan. 3.

Vera H. Carson, secretary B, Earth and Mineral Sciences, from Feb. 15, 1950, until Jan. 15, 1952, and from July 1, 1974, until Jan. 1.

Martin N. Turnbaugh, intramural equipment and facilities worker, Intercollegiate Athletics, from Dec. 13, 1971, until Jan. 3.

Wawa M. Grove, teller, Corporate Controller's Office, from Oct. 13, 1975, until Jan. 1.

Amy B. Bates, table attendant, Nittany Lion Inn, from Aug. 12, 1979, until Jan. 1.

Robert H. Martin, craft foreman, Hershey Medical Center, from Sept. 23, 1974, until Jan. 1.

Zita C. Miller, clerk A, Altoona Campus, from Jan. 3, 1972, until Jan. 1.

Beatrice V. Simco, correspondence secretary B, Student Services, from Sept. 1, 1976, until Jan. 1.

Jeanne E. Garrett, tray assembler, Hershey Medical Center, from July 23, 1979, until Jan. 4.

Marilyn T. Downing, administrative aide, Research and Graduate School, from Jan. 9, 1978, until Jan. 12.

N. Elene Keller, operating room assistant, Hershey Medical Center, from Sept. 5, 1978, until Jan. 15.

Anna M. Sharp, patient care assistant, Hershey, from Nov. 1, 1971, until Jan. 19.

Foster E. Rowe Jr., environmental health worker at Hershey, from July 28, 1980, until Jan. 17.

Peter L. Strecker, general helper-repairer at Penn State Erie, The Behrend College, from March 24, 1977, until Jan. 7.

25-year award recipients

Observing 25 years of service at the University are, from left, F. Lynn Christy, assistant director of academic affairs and registrar; Frank Melone, director of the Career Development and Placement Center, and Gordon Moore, professor of chemistry, all at

the Penn State Ogontz Campus; Robert Divany, research assistant, Ionosphere Research Laboratory; John H. Wyckoff, assistant director of the Division of Undergraduate Studies.

Obituaries

Albert S. Hunter, professor emeritus of soil fertility, died Jan. 22 at the age of 82.

A graduate of Utah State Agricultural College, he received a master's degree from Washington State College and a doctorate in soil chemistry from Rutgers University.

He joined the faculty in the Department of Agronomy Sept. 1, 1957,

and retired June 22, 1974. In 1979 he was named Man of the Year by the Pennsylvania Plant Food and Protection Education Society for his contributions in the areas of soil fertility, soil moisture and crop management.

In addition to his many memberships in honor societies, including Sigma Xi and Gamma Sigma Delta, Dr. Hunter was an elected Fellow to the American Association for the Advancement of Science, the American Society of

Agronomy, and the Soil Science Society of America.

Enos W. Winck, food preparer A, Housing and Food Services, from Sept. 1, 1938, until his retirement Oct. 25, 1971, died Jan. 12. He was 84.

Kenneth D. Haney, former manager of General Stores Office of Business Services, died Jan. 10 at the age of 67. He joined the University staff Aug. 15, 1955, and retired April 4, 1986.

Bookshelf

Jan S. Prybyla, professor of economics is co-author with Franz Michael and Carl Linden of *George Washington University, and Juergen Domes of Saar University, of China and the Crisis of Marxism-Leninism*.

The book, which examines the effect on the economy and political system of China of the collapse of Marxist-Leninist ideology and institutional structures, is published by Westview Press, Boulder, Colo.

Focus on the arts

Continued from page 6.

students in the introductory and advanced metals arts classes of Leslie Leupp. The works include jewelry and sculptural objects of metal and non-metal materials.

Chambers Gallery is located on the second floor of the Chambers Building and is open 9 a.m. to 5 p.m. daily.

Percussion ensemble

The Penn State Percussion Ensemble will present a concert at 8 p.m. Tuesday, Feb. 19, in the School of Music Recital Hall at University Park.

The 13-member ensemble will perform Sonatina, by Tull; "Six Reflections," by Frank; "Knock on Wood," by Blank; "Night Songs," by Skarecky; "Bacchanale," by Hovhannes; and Concerto for Percussion Ensemble, by Brand.

Odyssey on WPSU

New Zealand writer Janet Frame, one of the "exiles in their own lands" discussed on the next "Odyssey Through Literature," makes her point by using "nonsense language -- by breaking the language itself up into new constituent sounds, and moving it around."

"The purpose," explains Murray Martin of Tufts University, "is to show that we have reached the edge of language as we know it."

"Odyssey Through Literature" is produced by the Department of Comparative Literature in the audio-production studios of WPSU-TV. It airs Wednesdays at 12:30 p.m. on WPSU, 91.1 FM.

New Video

Throughout history the Catholic Church has commissioned a continuing stream of great art from such masters as Michelangelo, da Vinci, Raphael, Bernini, and Caravaggio. *The Pope and Their Art: The Vatican Collection* (\$194.95), a video available from Audio-Visual Services, examines the art collection that is the popes' legacy and documents the work necessary to maintain the collection against the effects of modern pollution and age.

The title is available at no charge to University faculty and staff members for classroom use. At University Park, call 865-0913 to make arrangements for a preview showing. At a Commonwealth Campus, contact the campus instructional services specialist for more information.

'Pirates of Penzance'

The Penn State University Resident Theatre Company, in collaboration with the School of Music, will present an updated version of Gilbert and Sullivan's classic opera "The Pirates of Penzance." The show opens

at 8 p.m. Friday, Feb. 22, in the Playhouse Theatre at University Park and will run through March 1.

Originally presented on Broadway by the New York Shakespeare Festival, this version takes advantage of modern innovations for a contemporary audience.

Young Frederic, apprentice on a pirate ship since age 8, finds himself free of indenture and falling in love for the first time. In this new life, he vows to exterminate the pirates of Penzance until fate intervenes and he becomes a member of the pirate band again.

For ticket information, call (814) 863-0255.

Watercolor exhibit

The watercolors of Robert O. Sherman are on exhibit until March 15 at Kern Gallery at University Park.

Mr. Sherman received his A.B. degree at Michigan State University. He has had exhibitions of his work at the Detroit Art Institute, Michigan State University, the University of Delaware and Bucknell University, among other places.

After working in oils for more than 20 years, he turned to watercolors because of "an increased interest in the overall spirit of the work, rather than minute, realistic details. I want to convey a sense of mystery and peace and to provide strong emotion to the viewer."

Dance theatre

The American Indian Dance Theatre will perform at 8 p.m. Friday, Feb. 22, in Eisenhower Auditorium at University Park.

It is the first performing company of this kind to depict authentic Native American songs and dances. Currently on tour, the dance theater is presented by the Center for the Performing Arts.

As part of Artistic Viewpoints, a free lecture series for the audience, Mike Charleston will speak at 7 p.m. in the Greenroom of Eisenhower Auditorium immediately before the performance. He is associate professor of education and director of the American Indian Leadership Program at Penn State.

The event is supported in part by a grant from the Mid Atlantic Arts Foundation and the Pennsylvania Council on the Arts.

Tickets are available at the Eisenhower Auditorium Ticket Office, open Monday through Saturday, 8:30 a.m. to 4:30 p.m.

Organ recital

Six students from the studio of June Miller of the School of Music faculty will present an organ recital at 1:30 p.m. Sunday, Feb. 24, in the School of Music Recital Hall at University Park.

The program will include works by J.S. Bach, Walther, Widor, Brahms and Messiaen.

Penn Staters

John R. Hellmann, assistant professor of ceramic science and principal investigator with the Center for Advanced Materials, presented "Interface Characterization in Continuous Fiber Reinforced High Temperature Composites" to the Physics Department at the University of Warwick, United Kingdom.

Michael F. Modest, professor of mechanical engineering and principal investigator with Center for Advanced Materials, has been named a Fellow of the American Society of Mechanical Engineers.

Laurence E. Prescott, associate professor of Spanish and black studies, presented a paper titled "A Colombian Pilgrim in the Caribbean World: Juan Coronel, Alias *Un pifreño*" at the XII Annual Conference of the Association of Caribbean Studies in Santo Domingo, Dominican Republic.

Richard E. Tressler, professor of materials science and engineering and director of the Center for Advanced Materials, and Douglas Pyscher, doctoral candidate, Center for Advanced Materials, presented "Mechanical Behavior of Ceramics Fibers at Elevated Temperatures," the opening lecture at the 7th CIMTEC World Congress on Ceramics in Montecatini, Italy.

C.R. Rao, holder of the Eberly Family Chair in Statistics and professor of statistics in the Eberly College of Science, has been named an honorary member of the Finnish Statistical Society.

Bernard Badiali, assistant professor of education, has been elected president of the Pennsylvania Staff Development Council, an affiliate of the National Staff Development Council.

Aida Beaupied, assistant professor of Spanish, presented an invited paper titled "Paradise in the Goddess' Island: Spiritual Incest in the Poetry of Jose Lezama Lima" at the XII Annual Conference of the Association of Caribbean Studies in Santo Domingo, the Dominican Republic.

Scott F. Healy, director of undergraduate admissions, presented College Admissions and Financial Aid Workshops to Department of Detention Dependents Schools in Frankfurt, Wiesbaden, Ramstein, Kaiserslautern, Heidelberg and Hahn, Germany.

Harriet J. Rudolph, assistant professor of speech communication at the Penn State Hazleton Campus, has received the 1990 Carroll C. Arnold Distinguished Service Award from the Speech Communication Association of Pennsylvania in recognition of

outstanding teaching and research in the field of speech communication, as well as contributions to campus and community.

Paul D. Simkins, professor of geography, has received the Distinguished Teacher Award from the Pennsylvania Geographical Society.

Brent G. Wilson, professor of art education and head of the art education program in the School of Visual Arts, has been selected to serve on a new national committee designed to set standards for art teachers who work with students age 11 and older. The committee is part of the National Board for Professional Teaching Standards (NBPTS).

Ali Borhan, assistant professor of chemical engineering, is one of 36 new faculty members throughout the United States to receive a 1990 Engineering Foundation Initiation Grant. The grant is titled "The Evolution of Microstructure in Melt Processing of Bimetallic Composites Materials."

Stephen H. Browne, assistant professor of speech communication, has received the Speech Communication Association's Karl R. Wallace Memorial Award which is given annually to a young scholar in the area of rhetorical studies who exhibits early signs of intellectual promise and scholarly achievement.

Charles E. Brueggemann, director of facilities planning and university architect, has been elected president of the Middle Pennsylvania Chapter of the American Institute of Architects.

Roy Hammerstedt, professor of biochemistry in the Eberly College of Science, has won an Outstanding Paper Presentation Award from the American Oil Chemists Society (AOCS) for his abstract proposal "Fractionation of Lipid Classes Using SPE Columns."

S.I. Hayek, professor of engineering mechanics, presented a paper on structural intensity with laser vibrometry at the Third International Congress of Intensity Techniques in Senlis, France.

Katherine Hostetler, director of Penn State Cooperative Extension in Cambria County, has received the National Association of Extension Home Economists' Continued Excellence Award.

Robert Lima, professor of Spanish and comparative literature and Fellow of the Institute for the Arts and Humanistic Studies, has been appointed as outside evaluator of grant programs for the Pennsylvania Humanities Council.

Bruce A. McPherson, assistant professor of entomology in the College of Agriculture, presented an invited paper titled "Recent Advances and Future Direction in Tephritid Population Genetics" at the International Symposium on Fruit Flies of Economic Importance in Antigua, Guatemala.

Stanley Rosen, Evan Pugh professor of philosophy, delivered two talks as the first American philosopher to be invited to lecture at the University of Belgrade, Yugoslavia, since World War II. He also delivered invited lectures at Bonn University in Germany, Uppsala and Stockholm universities in Sweden and the University of Paris XII in France.

Patrick T. Terenzini, professor and senior scientist in the Center for the Study of Higher Education, and Ernest T. Pascarella, professor of educational psychology at the University of Illinois at Chicago, have been named to receive the Association for Institutional Research's Forum Best Paper Award for their paper titled "Twenty Years of Research on College Students: Lessons for Future Research."

Patricia C. Ryan, contract negotiator, presented a five-day seminar titled "Opportunities for Increasing University Fiscal Resources" to the Executive Administration at the Universidad de Monterrey, Mexico.

Monty Christiansen, associate professor of recreation and parks, has received the National Distinguished Professional Award from the National Recreation and Parks Association as "a professional who, through inspiration, incentive and leadership, has made noteworthy contributions over a period of time to the recreation, park, and conservation movement."

Anthony Cutler, research professor of art history and Fellow of the Institute for the Arts and Humanistic Studies, delivered an invited paper titled "Aspects of Political Art in 10th- and 11th-Century Byzantium" at the Second International Congress for the Study of Byzantine Art in Rome.

Diana R. Dunn, professor of leisure studies, has been elected secretary of the American Academy for Park and Recreation Administration.

Richard L. Frautschi, professor of French, presented a paper titled "Toward a Quantitative Pragmatics of Representation: Historical and Fictional, Verisimilitude" to the Society for Conceptual Analysis by Computer in Seigen, Germany, and another paper titled "The Emerging Notion of Nationalism in French Prose Fiction of the Enlightenment" was presented to the

International Society for the Study of European Ideas in Louvain, Belgium.

Geoffrey Godbey, professor of leisure studies, has received the Distinguished Fellow Award of the Society of Park and Recreation Educators.

Gideon Golany, research professor of urban design/planning, presented the keynote address titled "The Contribution of Belowground Space to Modern Urban Design" at the national symposium sponsored by the Japanese Belowground Space Center, the Japanese Civil Engineering Society and the subcommittee for research on belowground space in Japan.

Stanford M. Lembeck, associate professor of rural sociology, has been named the 1990 Professional Planner of the Year by the Pennsylvania Planning Association.

A paper by **Michael J. Long**, professor of health policy and administration, titled "Were Hospitals Selective in Their Product and Productivity Changes? The Top 50 DRGs After PPS," has been named "Faculty Publication of the Year" by the American Academy of Medical Administrators.

James F. Lynch Jr., director, Office of International Studies; **Masume Asaf**, foreign student adviser, Office of International Students; and **Michael Laubscher**, director, Office of Education Abroad Programs, have received special awards for their significant contributions to the National Association of Foreign Student Affairs Association of International Educators.

Sebastian Martorana, professor emeritus of education, traveled to Poland and Russia as part of a national 16-state delegation of community and technical college educators. Organized by the People-to-People Citizen Ambassador Program, delegates visited with government officials in education ministries, polytechnic universities and technical schools in Moscow and Leningrad, Soviet Union, and in Gdansk and Warsaw, Poland.

Russell F. Messier, associate professor of engineering science and mechanics, served as chairman of the Organizing Committee of the International Conference on New Diamond Science and Technology in Washington, D.C.

C. Terry Morrow, professor of agricultural engineering, made two presentations titled "Automated Inspection of Fruits and Vegetables" and "Overhead Irrigation for Frost Protection in Strawberries" at the AGENE 90 Conference, an international meeting of agricultural engineers, in Berlin, Germany.

Plastic

University researchers create new compound that conducts electricity

Telephones, military field structures, underwater wiring and containers for all kinds of electronic devices may be manufactured one day from a silicon-based plastic that conducts like a metal and shields electronics from electromagnetic interference, according to the University developers.

The material, which can be prepared in many forms, is an intrinsically conductive polymer that is easily and inexpensively manufactured.

"In 1984, researchers in this field said that creating an intrinsically conducting polymer was impossible, because it would be an unstable compound," Vijay K.

Varadan said. Dr. Varadan is distinguished alumni professor of engineering science and electrical engineering and co-director of the Research Center for the Engineering of Electronic and Acoustic Materials.

"The compound we have created can be extruded as a thin, flexible wire or an o-ring type gasket, prepared as a malleable putty, mixed with thermoplastics and molded, or mixed with a solvent and sprayed as a coating."

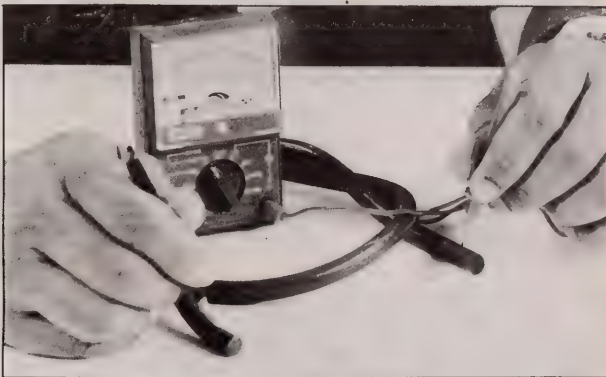

He developed the plastic with Vasundara V. Varadan, distinguished alumni professor of engineering science and electrical engineering. They have applied for a patent.

All electronic equipment needs to be shielded from electromagnetic interference and from leaking electromagnetic energy that might interfere with other devices.

"For example, the power packs used behind high-intensity automobile headlights frequently leak electromagnetic energy in the one kilohertz to one gigahertz range," V.K. Varadan said. "This radiation can interfere with other electronic devices in the automobile."

As more electronics are used in automobiles, shielding becomes important. Conventional plastics do not shield against EMI, so metals are usually used. However, sealing cracks and corners in metal containers is difficult, and leaks frequently occur. The putty-type version of this new material could be used to seal metal seams and joints, and because the compound does not contain a solvent, it will remain flexible.

"EMI from your headlight power packs might interfere with FM or even AM radio reception, which is an inconvenience, but, EMI from any source might

Vijay K. Varadan tests conductivity of an extruded cable of intrinsically conducting polymer. (Photo: Greg Grieco)

trigger the airbag in your steering column, because it is microprocessor activated," he said.

Not only the source of EMI can be shielded using this polymer, but also those electronic devices affected by EMI.

The Varadans suggest that mixing the intrinsically conducting polymer with the plastics usually used to manufacture computer housings would supply EMI protection. The naturally gray substance can be colored for aesthetic effect.

"The U.S. military currently uses composite shelters constructed of aluminum and polyurethane foam as field locations for battlefield electronics," V.K. Varadan said. The aluminum is light and shields from EMI.

Varied forms of the new intrinsically conducting plastic developed at the University are (clockwise from bottom) extruded flexible wire, flexible sheets, tiles and plastic sheeting. (Photo: Greg Grieco)

Thermoset or thermoplastic composites using this intrinsically conductive polymer would be light, mechanically strong and shield from EMI. These composites would be a good choice for battlefield electronic installations and other sensitive military applications.

According to the Varadans, something like Kevlar fibers could be incorporated into the composite to provide ballistic strength.

Another use for this material is in waterproof wiring. Because the polymer is silicon-based and not a metal, it is waterproof and will not corrode. This is especially important in marine environments where the higher salt content increases the corrosion rate.

Although thin, wire-like strands of the material have not yet been extruded, the Varadans believe they can be manufactured. Because the material conducts electricity throughout its structure, these plastic wires would need to be insulated like copper wire, using a non-conducting plastic.

As an EMI shield, coatings or plastic housings using this material could shield telephones and other communication devices not only from interference, but also from eavesdropping.

The Varadans also work on chiral materials, handed materials that also shield against EMI.

"If an application requires an extremely high amount of shielding, greater than that provided by this intrinsically conducting polymer, then chiral inclusions can be incorporated into the material to increase the shielding," V.K. Varadan said.

—A'ndrea Elyse Messer

Flu virus hits University campuses

The flu has hit University Park and other campus locations.

Students, faculty and staff are experiencing the symptoms of Influenza Virus B, which may include fever, chills, headache, hacking cough, fatigue and severe joint and muscle aches. Most cases of symptomatic flu are mild.

Once the diagnosis of flu has been made, there is little a health care provider can do to speed recovery, because viruses do not respond to

antibiotics. Only rest, fluids, Tylenol to control fever and treat the aches and pains, and cough suppressants taken in the evening to help produce a good sleep can aid recovery. University Health Services is encouraging students who have the flu to stay home.

In accordance with University policy, written excuses for class absence and missed exams are not given by University Health Services staff. The Medical Records Department can only

confirm a visit to the Outpatient Department or a stay in the Observation Unit if a student completes a "release of information" form. Faculty members requesting such confirmation should call the department at 863-1974 at University Park, or the campus health service at other locations.

For more information, call the Office of Health Promotion and Education at 863-0461 or the campus health service at other locations.

Advertising lecture

Edwin Diamond, contributing editor, critic and columnist with *New York Magazine*, will speak on "Down and Dirty: Political Advertising 1960-1992" at 8 p.m. Tuesday, Feb. 19, in the HUB Auditorium at University Park.

Mr. Diamond is the author of eight books including *The Spot: The Rise of Political Advertising in Television* (1984), which received the Sigma Delta Chi Frank Luther Mott Award for one of the "Best Books of 1984."

His lecture is sponsored by the School of Communications.

Staff Vacancies

The following vacancies for positions classified as staff exempt or staff nonexempt have been listed with the University Employment Division for filling. The brief statements for each vacancy are illustrative. They are not complete position descriptions. APPLY BY CALLING THE EMPLOYMENT DIVISION, 863-0304 (NETWORK 433-0304). Applications for these staff vacancies will be accepted until Feb. 21. DO NOT CONTACT THE AREA THAT HAS THE VACANCY.

Applications for these staff vacancies will be considered in accordance with Fair Employment practices (FET) and in compliance with the University's Alternative Action Compliance Program without regard to race, color, religion, national origin, handicap or age (as provided by law), sex, or status as a disabled or Vietnam era veteran.

■01297, Assistant to the Dean for Alumni Relations, The Smeal College of Business Administration, Office of the Dean, University Park Campus—Responsible to the dean for planning, implementation and overall effective and efficient management of various alumni programs and other external relationships. Act in liaison with the Penn State Alumni Association. Require bachelor's degree or equivalent in business or related field plus two to three years of effective experience. Previous campus relations and communication preferred. Master's degree is desirable. THIS IS A FIXED TERM POSITION.

FUNDED THROUGH JUNE 1991 WITH GOOD POSSIBILITY OF RE-FUNDING. STAFF GRADE 7.

■01298, Graduate Program Representative, CES, Great Valley—Responsible to the director of graduate programs administration, Great Valley, in collaboration with academic departments and faculty, for the administrative tasks involved in identifying, planning, developing, marketing, administering and coordinating the graduate educational offerings of the Great Valley Center. Requires master's degree, or equivalent, plus one to two years of effective experience in business, industry or education or a bachelor's degree plus two to three years of effective experience in business, industry or education. Master's degree preferred. STAFF GRADE 7.

■01299, Area Representative, CES, New Kensington Campus—Responsible to the director of continuing education for the functions of client management, development, organization, operation and administration of continuing education programs and services and for linking University resources with community needs within the assigned geographic district. Requires bachelor's degree or equivalent plus one to three years of effective experience in business, industry or education. STAFF GRADE 7.

■01300, Advising and Counseling Specialist, New Kensington Campus, Student Departments and Services—

Responsible to the director of student programs and services for organizing and conducting a comprehensive student centered career development and placement service and marketing program for the entire campus involving linkage with industry and the Allegheny Valley schools and community. Requires master's degree, or equivalent, in counseling or related field, plus one to two years of effective experience in counseling or a closely related area. STAFF GRADE 7.

Hershey

For the following position vacancies, apply directly to The Milton S. Hershey Medical Center. Attach resume with cover letter indicating the position vacancy code and forward to the Department of Human Resources, Hershey, or call the Hershey bid line at (717) 531-6531 by Feb. 21.

■00957, Project Manager, Department of Nursing Research—Responsible to the project director for the implementation and effective day-to-day management of the RWJ/Pew Program Project. Requires master's degree in business administration, social systems science, health care administration or equivalent, plus one to two years of effective experience in organizational planning and change. STAFF GRADE 7.

■01046, Administrative Head Nurse, Department of Nursing/Gyneciatric

Psychiatry—Responsible to the nursing manager, assigned nursing unit, for assistance in handling the day-to-day administration of the unit. Requires bachelor of science in nursing from an accredited school of nursing plus 1-2 years of effective experience and current license to practice as a registered nurse by Pennsylvania State Board of Nursing. STAFF GRADE 6.

■01047, Administrative Head Nurse, Department of Nursing/Medical Intermediate Care Unit—Responsible to the nursing manager, assigned nursing unit, for assistance in handling the day-to-day administration of the unit. Requires bachelor of science in nursing from an accredited school of nursing plus one to two years of effective experience and current license to practice as a registered nurse by Pennsylvania State Board of Nursing. ICU or intermediate care experience preferred. STAFF GRADE 6.

■01048, Administrative Head Nurse, Department of Nursing/Medical Intermediate Care Unit—Responsible to the nursing manager, assigned nursing unit, for assistance in handling the day-to-day administration of the unit. Requires bachelor of science in nursing from an accredited school of nursing plus one to two years of effective experience and current license to practice as a registered nurse by Pennsylvania State Board of Nursing. ICU experience preferred. STAFF GRADE 6.

■01295, Utilization Review Specialist, Department of Healthpass—

Responsible to the medical director and director of Healthpass for the review of hospital admission and discharge, as well as the documentation of the patterns of utilization for physician and hospital providers. Requires a bachelor's degree or equivalency, in an allied health field (medical technology, pharmacy, respiratory therapy, etc.) or in nursing, with a minimum of two years effective clinical hospital experience, preferably in a utilization review setting. STAFF GRADE 6.

■01316, Systems Analyst, Department of Information Systems—Responsible to the director, Information Systems, for implementing the payroll and accounting procedures for the College of Medicine with the various departments to determine their information requirements and operational needs. Requires a bachelor's degree in accounting or equivalency, with a knowledge of third generation programming language plus a minimum of four years data processing experience. STAFF GRADE 7.

■01640, Medical Assistant, Outpatient Services—Responsible to the clinical head nurse or manager for providing assistance in health care services and for participation in administrative functions. Associate degree or equivalent in related field, BLS certification and up to 12 months of effective experience required. STAFF GRADE 2.

INTERCOM is published weekly during the academic year and every other week during the summer. It is an internal communications medium published for the faculty and staff of Penn State by the Office of Public Information, Room 312, Old Main. Phone 865-7517.

Richard E. Grubb

Vice President Grubb announces his retirement

Richard E. Grubb, senior vice president and dean of the Commonwealth Educational System, has announced his retirement from the University, effective Sept. 30.

"Dick Grubb has had a long and distinguished career at Penn State," President Thomas said. "I will personally miss the perspective, wisdom and skill he brings to the administration of the University."

Dr. Thomas also said he will soon name a committee to conduct a national search for Dr. Grubb's successor.

Dr. Grubb began his career at Penn State in 1961 as coordinator of continuing education conferences and served in numerous positions before being named senior vice president for administration in

1979. He served in that capacity until 1985, when he was named Pennsylvania Secretary of Agriculture by former Gov. Dick Thornburgh. He returned to Penn State as senior vice president for administration in 1987.

In 1988, he was named acting vice president of the Commonwealth Educational System. In that capacity, and holding his other administrative responsibilities, Dr. Grubb conducted a thorough analysis of the Commonwealth Educational System's administrative structure, continuing education programs and structure, and fiscal operations. In July 1989, he was named senior vice president and dean of the Commonwealth Educational System.

"It has been my privilege and honor to serve Penn State for 30 years," Dr. Grubb said. "And I am particularly pleased to have had the opportunity to work with the CES during the last few years. I was involved in the development of the Commonwealth Campuses and know how important they are to Penn State and to the communities they serve. They will continue to be so, in large part because of the dedication and commitment of their faculty and staff."

His professional memberships include the Association for Institutional Research, the American Association for Higher Education and the National University Extension Association.

He and his wife, Barbara, will reside in State College following his retirement from the University.

Edward Hintz to lead effort to raise convocation center funds

A New York investment firm executive who helped to lead the \$352 million Campaign for Penn State has been named chairman of the effort to raise private funds for the University's \$50 million Academic Athletic Convocation and Events Center.

Edward R. Hintz, president of Hintz, Holman and Heckler, a Wall Street firm specializing in investment management for individuals, was named to the post by President Thomas.

"Ed Hintz is a dedicated Penn State with the experience and leadership essential to the success of this project," Dr. Thomas

said. "His acceptance of this leadership position is another major step toward making the convocation center a reality."

Dr. Thomas noted that Gov. Robert P. Casey recently released \$16.8 million in state funds for the center, part of \$33.8 million that the legislature has authorized for the project. Private gifts will provide the remaining funds for the structure, which is expected to cost at least \$50 million.

Mr. Hintz served as a vice chairman of The Campaign for Penn State, a six-year effort that concluded June 30, 1990, and raised \$352 million for academic programs. He also headed the Campaign's leadership gifts and regional major gifts committees, which accounted for some \$49 million in contributions nationwide.

"What especially excites me about the convocation center is the many ways in which it will benefit Penn State students, faculty, alumni and the surrounding area," Mr. Hintz said. "It will give our University a modern facility that can accommodate crowds for a wide range of academic, athletic and entertainment events."

The convocation center is projected to have about 16,000 seats. It will house many events that now take place in Rec Hall, which was built in 1929 and seats about 6,800. Within five years of its construction, studies indicate, the center will be hosting more than 200 events annually.

Mr. Hintz said his primary task in the immediate future is to recruit other

See 'Hintz' on page 3.

Dance Marathon

Dancers keep things moving at the 1991 Penn State Dance Marathon which raised a record \$785,835 for the Four Diamonds Fund at the Hershey Medical Center. The total represents a 17 percent increase over last year's \$671,573. The Four Diamonds Fund provides financial relief to families of children with cancer at the University Hospital. Focus on Diversity

African-Americans urged to teach their history

It can get particularly lonely for **Cyril Griffith** during Black History Month.

Dr. Griffith, associate professor of history, says he is part of only a small group nationwide of African-Americans/Black Americans who teach African history in higher education. But he would like to see that change.

During Black History Month in February, he is urging African-Americans to take more interest in learning about and teaching their history.

"The majority of people in higher education who teach African history are White," Dr. Griffith says. "And most of the publishing companies that produce learning materials about African history are owned by Whites. This has to change."

Too many Blacks have been conditioned to develop a negative view about

themselves because of a miseducation about their history. That conditioning can be so strong that some Blacks aren't even interested in learning their history. But if they can learn more about their history, they will gain a higher self-esteem, Dr. Griffith says.

"Most of my colleagues think that because I am Black and I teach African history, a subject about Blacks, that most of my students are Black. But that is not true. If it's important for Whites to know White history, it should be important for Blacks to know Black history, and I think that's the point Carter G. Woodson had in mind when he started Black History Week in the 1920s."

"The spirit of Black History Month should be expanded year-long," he said. "Black history should be taught to African-

American children as part of their regular education. And African-Americans have to take responsibility for teaching it."

The University educator recommends that Black-American parents take more initiative in teaching Black history to their children at pre-school ages. He also urges Black-American fraternal and other organizations to organize more workshops, contests and other educational opportunities.

African-American parents should pressure local schools to incorporate more Black history into existing African-American history courses and help churches and Sunday schools teach more Black history, according to Dr. Griffith.

"It will take a lot of hard work and a concerted effort, but the results will be well worth it."

Cyril Griffith

Commission for Women to hold annual banquet

The Commission for Women will hold its sixth annual banquet on Monday, March 11, in the Hetzel Union Building at University Park. The reception is at 6 p.m. and dinner is at 6:30 p.m. The cost is \$10 for students and \$15 for non-students. Dorothy F. Cotton, director of student activities at Cornell University, will be the guest speaker. She has spoken at several universities, addressing issues such as multiculturalism, communication, personal

and spiritual growth, and human relations.

From 1960 to 1972, she was the education director for the Southern Christian Leadership Conference. In that capacity, she worked closely with Dr. Martin Luther King Jr. as the only female member on his executive staff in designing and conducting leadership training programs and strategies for promoting social change using non-violent means.

She also has served as the vice president for field operations for the Martin Luther King Jr. Center for Non-Violent Change in Atlanta.

From 1978 to 1981, Ms. Cotton was the southeastern regional director of ACTION, the federal government's agency for volunteer programs, coordinating day care programs, house support services, health and education services and programs for the elderly.

Invitations are being mailed to all women employees at the University, but additional information is available in 405 Old Main,

Dorothy F. Cotton

at 865-1683. Reservations are due by March 4.

Diversity Calendar

Thursday, Feb. 21

Paul Robeson Cultural Center, 8 a.m. to 5 p.m., Robeson Center Gallery. Kente cloth exhibit, through Feb. 28.

Friday, Feb. 22

African Student Association, 5:30 p.m. to midnight, HUB Ballroom. "A Touch of Africa" dinner and dance.

Saturday, Feb. 23

Office of Minority Faculty Development, 9 a.m. to noon, 114 Kern Graduate Building. "Promotion and Tenure" workshop by Grace Hampton.

Tuesday, Feb. 26

Professional Women at Penn State, 11:45 a.m. to 1 p.m., Eisenhower Chapel, Frizzell Room. General meeting.

Center for Women Students, 1 to 4 p.m., 112 Kern. Violence and dating teleconference.

Friday, Feb. 27

Center for Women Students, noon to 1 p.m., 120 Boucke. Brown bag lunch discussion: "Academic Counseling Needs and the Single Parent Student."

Women in India

The student organization Parivartan will present a documentary film on the position of women in India at 7 p.m. Monday, Feb. 25, in 214 Boucke Building at University Park.

Showing of the film will be followed by a panel discussion on "The Status of Women in Rural and Urban India in the Past 20 Years."

Dance theatre to present authentic dance and music

In the United States alone, there are more than 250 Indian tribal groups. The American Indian Dance Theatre, coming to Eisenhower Auditorium at University Park at 8 p.m. Friday, Feb. 22, presents a sampling of authentic dance and music from their rich and varied traditions.

Founded in 1987, the company is comprised of members from many tribes: Apache, Assiniboine, Cherokee, Cheyenne, Cree, Chippewa, Comanche, Hidatsa, Kiowa, Navajo, Shoshoni-Bannock, Sioux, Warm Springs, Yakima and Zuni.

As the acting director of Penn State's American Indian Leadership Program (AILP), Laura A. Napier, assistant professor of education, said she was pleased the Center for the Performing Arts is bringing the company to the University.

The dance company is the only one of its kind. It has toured extensively worldwide and appeared in a television special for "Great Performances—Dance in America."

Although staged for theater with dramatic lighting and special effects, the dances retain their cultural integrity. Many, such as the Grass Dance from the Northern Plains, are ancient rituals that link their people to the earth. Others, such as the Hoop Dance and the Buffalo Dance from the Zuni Pueblo tradition, speak about the relationship between man and animals.

The songs, which are generally sung in the native languages, also reaffirm their heritage. None are written down and some can be traced back 600 years, passed on orally from generation to generation.

"Non-ethnic people tend to put ethnic dance into a

primitive category," explained Hanay Geigomah, a noted playwright and producer who directs the dance company. "That's totally wrong. It's highly sophisticated." The influence of Native American dance can be seen in the works of many American choreographers, notably Martha Graham, Erick Hawkins and Jose Limon.

The event is supported in part by grants from the Mid Atlantic Arts Foundation and the Pennsylvania Council on the Arts.

Mike Charleston, director of AILP, will speak at 7 p.m. immediately before the performance as part of a lecture series called Artistic Viewpoints. Dr. Charleston currently is on sabbatical directing the American Indian at Risk Task Force in Washington, D.C.

Travel Management Office offers new billing service

Employees who elect to make airline and rail travel arrangements through the University's designated travel agencies can have those costs directly billed to Penn State, according to the Travel Management Office.

"Working with Centre for Travel and Omega World Travel we have put into place a system which allows employees to have their airline and rail tickets billed directly to the University," said Marguerite Fink, coordinator of travel services. "This is an optional service, but one we think will help simplify the billing process in departments where employees take advantage of it."

The new service will begin on March 11 for tickets purchased for University business travel.

In addition to the two local travel agencies who can offer this service, Omega World Travel offices in Pittsburgh, and at the Hershey Medical Center can be used. "Direct billing also offers a convenient

method for purchasing air and rail tickets for faculty, staff and department sponsored visitors to the University," Fink said.

Those who opt to take part in the service will automatically be included in a \$200,000 air travel insurance program and 24-hour worldwide medical, dental and legal services for the traveler.

"This is just another benefit we have been able to establish for employees of the University through the Travel Management Office that was not available to the University through the previous system," Ms. Fink explained.

University Park faculty and staff choosing not to use direct billing may pay for their air or rail tickets using their American Express corporate card or a personal check or credit card. Reimbursement will occur after the conclusion of the trip.

Hotel and rental car expenses will be paid by using the American Express corporate card available at no charge to

University employees or they may use their own credit card or personal check. Cash advances will be made for food and incidental expenses.

"The new system simplifies the entire billing process for faculty and staff," says Donn Frazer, assistant controller.

Current cash advance travel procedures will continue for foreign travel while CES campuses, Behrend and Penn State Harrisburg have the option of the direct billing program by using the designated agencies. Otherwise, employees at those Penn State locations will use existing procedures regarding travel advances and reimbursement of travel expenses.

"The new programs are optional," Ms. Fink said. "We consulted with the Faculty Senate and other groups and believe this is a service many people will want to pursue."

The Travel Management Office plans to monitor the new services and, after a trial period, plans to renegotiate existing travel

agency contracts and increase the number of preferred travel agencies.

Several steps are being taken to help implement the expanded service.

Informational meetings are set for Feb. 25 and 26 in Room 404 Old Main for anyone who wishes to attend. These meetings will take place at 1:30 and 3:30 p.m. on Feb. 25 and at 8:30 and 10:30 a.m. and also at 1 p.m. on Feb. 26. Financial officers and human resources representatives, in particular, are encouraged to attend one of these sessions.

Also, a new EASY form, Authorization to Direct Bill Air and Rail Transportation (DRAE), has been designed for use in authorizing direct bill charges. The Travel Expense Account form has also been revised to reflect direct billings or reimbursable charges.

Revised travel policies will be distributed in early March.

Nominations sought for personnel award

The Penn State Chapter of Educational Office Personnel (PSEOP) is accepting nominations for the sixth annual Outstanding Office Personnel Award which is open to all faculty and staff throughout the University system.

PSEOP, now in its seventh year, pioneered the concept of giving recognition to University staff who have provided exceptional meritorious service on behalf of Penn State.

For a nomination form, contact your personnel representative or Rosalie Villanova, chairperson, Nomination Committee, PSEOP, at (215) 889-1300. Nominations should be submitted by April 7.

Workshop on early adolescence research is set

Research on early adolescence will be the focus of a one-day workshop sponsored by the College of Health and Human Development in the Keller Conference Center at University Park on Feb. 28.

Noted researchers and others active on a local, state, and national level will present research findings at the workshop titled "Forum for the Initiation of PRIDE."

The event will formally launch a university-wide, collaborative research effort called PRIDE (Policy, Research, and Intervention for Development in Early Adolescence). Funded by a two-year grant from the Carnegie Corp. of New York, and administered by the College of Health and Human Development, the research program focuses on issues of the 10-15 age group.

Anne C. Petersen, dean of the College of Health and Human Development, will provide opening remarks. Richard M. Lerner, professor of child and adolescent development, will give an overview of adolescence, titled "What do we know?" The moderator will be Ann C. Crouter, associate professor of human development.

Speakers on the panel include: Jane Quinn, director of the Project on Youth Development and Community Programs, Carnegie Corp. of New York; Joy Dryfoos, professor at the Columbia University School of Public Health; Patricia L. Best, director of planning, research and communications, State College Area School District; and Irwin Feller, professor of economics and director of the Institute for

Policy Research and Evaluation.

Details about the workshop are available by contacting Bea Mandel at 863-7594.

Obituary

William S. Loy, information systems coordinator, research in the Division of Undergraduate Studies, died Feb. 3 at the age of 56. He joined the University staff Aug. 1, 1956.

Engineering plans open house program

Tours of the NASA Propulsion Engineering Research Center laboratories, free Creamery ice cream, laboratory demonstrations and a luncheon for women in engineering are just a few of the offerings scheduled for the College of Engineering's 1991 Open House from 9:30 a.m. to 3:30 p.m. Saturday, Feb. 23, at University Park.

The annual event offers prospective and current students and their parents an overview of the college. Tours, demonstrations and information sessions will cover all 11 engineering majors as well as the nine engineering technology majors offered at the Commonwealth Campuses.

The luncheon, open to all prospective women students, is sponsored by the Society of Women Engineers and the Women in Engineering Program. Reservations are required.

Information booths in Kunkle Lounge and in Sackett Building will offer information on all aspects of the College of Engineering and the University, including financial aid, admissions and special programs.

For more information contact Jo Bright, 863-3044.

Hintz

Continued from page 1.

volunteers to help provide top-level leadership for the campaign. A specific campaign goal and timetable will be announced later this year.

Design and construction will take several years. The convocation center will be located near Beaver Stadium.

Mr. Hintz, a Reading native, graduated from Penn State in 1959 with a bachelor's degree in business administration. He was a member of Lion's Paw honorary society.

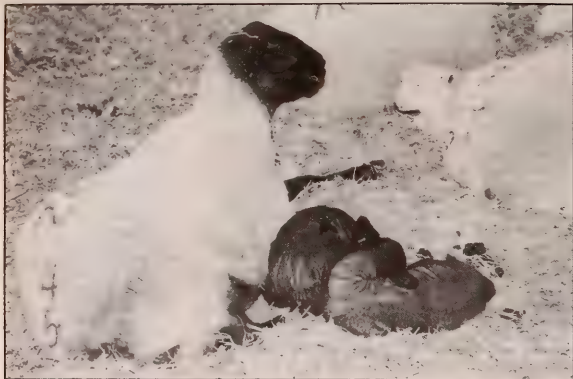

He earned a master's degree in business administration from Harvard University in 1963. He worked for firms in Indiana and New York in portfolio management until 1974, when he founded Hintz, Holman and Hecksher.

Mr. Hintz sits on the board of visitors of the Smeal College of Business Administration and is a member of the University's National Development Council, its chief fund-raising advisory board.

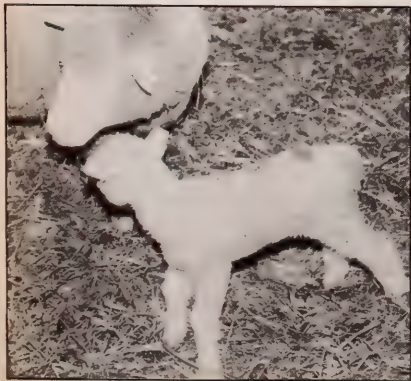

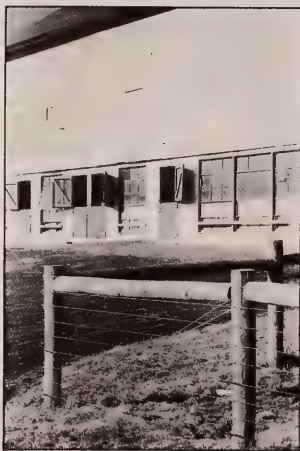

Balancing Act

Construction continues on a five-story classroom/office building at the intersection of Pollock and Shortridge Roads at University Park. The building, located in the southwest corner of the site, is scheduled for completion in May, 1992. (Photo: Greg Grieco).

Lambing Season

Photographer Greg Grieco visited the University's sheep barns to capture these shots of ewes and their newborns. There are about 250 ewes and 400 lambs at University Park, representing three breeds: Suffolk (with black heads), Dorset and a cross breed between Dorset and Columbia, according to Scott Snyder, student worker at the sheep barns. Mr. Snyder, a senior majoring in dairy and animal science, said each ewe gives birth to two to three lambs during lambing season, which runs from January through April. Within three days of birth, lambs are numbered with paint to identify which ewe bore them. Suffolk lambs' coats are black at birth, but change to white within three weeks. The University uses some sheep for research and sells others for meat and to promote the breeds raised at the University.

Appointments

Kimberlie A. Kranich has been appointed producer/director, Rural America Documentary Unit, at WFSX-TV.

Ms. Kranich is a 1987 graduate of the University of Wisconsin and holds a master's degree in journalism from the Medill School of Journalism at Northwestern University.

She previously was employed by WTAJ-TV, Altoona, where she was children's television producer and news producer. She also has worked as a reporter for the Medill News Service in Washington, D.C., and as a journalism instructor at the National High School Institute in Evanston.

Kevin Moore has been appointed coordinator of placement and internships for Penn State Erie, The Behrend College.

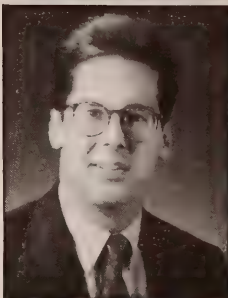

His responsibilities in this newly created position include developing a comprehensive on-campus employer recruitment program and assisting in the development of internships for students.

He received his master's degree in public administration from Penn State. He also was affiliated with the American Economic Development Council of Harrisburg.

Mr. Moore formerly served as demographic services coordinator at Penn State Harrisburg.

Joan L. Parrett, staff development and training specialist, Office of Human Resources Services, College of Agriculture, has been appointed to the newly established position of assistant director of the Instructional Development Program (IDP).

In announcing the appointment, Jerry B. Covert, associate dean for undergraduate education, said her responsibilities will include monitoring University-wide compliance with University Faculty Senate approved legislation related to curricular development, initially in the areas of general education, cultural diversity and

Kevin Moore

writing across the curriculum.

Dr. Covert also announced that **Maryellen Weimer** has resigned as IDP director to become associate director of a newly funded National Center on Teaching and Learning in Postsecondary Education housed in the Center for the Study of Higher Education.

"The excellent programming activities initiated under Dr. Weimer's leadership of IDP will continue," he said. "We are fortunate that her new appointment keeps her on the faculty of Penn State so that the University will have the continued benefit of her expertise."

Dr. Covert is serving as acting director of the Instructional Development Program while a national search is being conducted for a permanent director.

Dr. Parrett, a graduate of Millersville University, received a M.S. in education from Temple University, and a Ph.D. in curriculum and instruction from Penn State.

She was a social studies teacher in the

Joan L. Parrett

Elizabethtown Area Middle School, Elizabethtown, Pa., from 1971 to 1983 when she became a staff member in the Instructional Development Program. She served as a research project associate in the Office of Continuing Professional Education, Division of Planning Studies, from 1986 to 1988 when she joined the College of Agriculture.

An associate member of the Graduate Faculty, Dr. Parrett also is an affiliate assistant professor in the College of Education. Her publications include needs assessment research and complete curricula, as well as instructional guides and sourcebooks for faculty.

Dr. Parrett is a member of the Association for Educational Communication and Technology, American Society for Training and Development and Phi Delta Kappa.

Andrew Scanlon, professor of civil engineering, has been appointed acting

Andrew Scanlon

head of the Department of Civil Engineering.

He succeeds **Michael S. Bronzini, H.H. West**, professor of civil engineering, is chairing the search committee for a permanent head of Civil Engineering.

Dr. Scanlon joined the University faculty in 1987 as professor of civil engineering. He previously was professor of civil engineering at the University of Alberta. An expert in structural engineering, he has published more than 60 technical articles in this area and has extensive industrial experience as a design engineer and manager.

Co-editor of the *International Journal of Ferrous Engineering*, Dr. Scanlon also serves in leadership positions in the American Concrete Institute and the American Society of Civil Engineers.

He received his B.S. from the University of Glasgow, Scotland, and his Ph.D. from the University of Alberta, Canada.

Faculty/Staff Alerts

New IBIS release

IBIS, the new Integrated Business Information System, is being implemented as the result of a cooperative University-wide system development effort. It has included contributions of critical ideas and support from areas throughout the University to insure all needs are met, plus direct involvement from several pilot colleges and departments, Management Services, the Office of Human Resources, Budget and Resource Analysis, Management and Systems Engineering, Purchasing, Payroll and the Corporate Controller.

IBIS products have been made available in numbered groups of on-line applications, referred to as releases. Release 1 provided University offices with the capability to inquire about official information on University employees working within their area of responsibility. It also provided tools

so that basic ad hoc reports could be produced easily. Behind the scenes the Electronic Approval System (EAS), and a sophisticated security system were developed and implemented.

A second release (2.1) in October, 1990, provided products for position management, new appointment processing, reappointment processing, termination, and selected human resource transactions.

Release 2.2, the most recent set of on-line IBIS products, will be made available to University administrative users on Feb. 25. This set will allow human resource change actions, which previously were done on the Payroll Change Form, to be accomplished more quickly and completely via discrete forms using EASY.

Release 2.2 products will be used to process/record changes for both academic and non-academic persons. They will involve information processing for all filled

positions within the University. Pay and salary adjustments, data reflecting promotions and demotions, rank or employee class changes, transfer between positions, leave/off status changes, and scheduled step increases may be transacted using the new products.

Training in the use of release 2.2 products has been available from the past month from the IBIS Training Office in Management Services. Training representatives within each administrative area have received hands-on training and/or training materials as they have chosen, and are available to users who have questions. In addition, two HELP sessions for those who would like individual attention will be held from 1 to 3 p.m. March 7 and from 10 a.m. to noon March 13 in Room 31 Shields Building.

If you would like to attend one of these sessions, contact Marcella Immel in the Training Office by electronic mail (ML2@PSU/ADMIN) or by telephone at 863-4735.

The Emc2/TAO electronic mail system

which is on the Management Services computer has an electronic bulletin board called IBIS-NEWS, on which current IBIS information is posted. Users of IBIS are encouraged to review the entries on the Bulletin Board periodically.

SERS account statements

Annual retirement account statements have been distributed to faculty and staff members who are members of the State Employees' Retirement System (SERS). These statements provide information about retirement accounts as of Dec. 31.

Many of the statements contain either current retirement estimates (as of the end of last year) and/or projected retirement estimates to normal retirement age. The member's age, years of service and proximity to the normal retirement date determine the type of estimate(s) which are provided.

Faculty and staff members with questions about retirement account statements should contact the Employee Benefits Division at 865-1473.

Focus on the arts

Emigre Voices Lecture

Eva Hoffman, Polish-born author of *Lost in Translation: A Life in a New Language*, will speak as part of the Department of English Emigre Voices Lecture Series at 8 p.m. tonight in 101 Kern Graduate Center at University Park.

Ms. Hoffman, an editor of *The New York Times Book Review*, also has been editor of the *West in Review* and deputy editor of the *Arts and Leisure* sections of the *Times*. In addition to regular book reviews, she has written widely on literature, music, film, cultural topics and Eastern Europe for the *Times*, the *Atlantic Monthly*, *Vogue* and other publications.

Lost in Translation: A Life in a New Language, which poet Czeslaw Milosz has called "graceful and profound," was published by E.P. Dutton in 1989 and will be published in paperback by Penguin this spring.

The Emigre Voices Lecture Series includes prominent writers from Central and Eastern Europe, who read from their works and discuss the role of writers in their native countries of Russia, Poland, Czechoslovakia and Germany.

The arts on Channel 3

"Uncle Vanya," the classic play by Anton Chekov, will be presented by WPSX-TV on *Great Performances* at 9 p.m. Friday, Feb. 22.

Adapted for television by Pulitzer Prize-winning playwright David Mamet, this melancholy comedy is set on an isolated Russian estate at the turn of the century and revolves around a group of passionate and foolish middle class adults trying to make sense of their lives.

At 7 p.m. Sunday, Feb. 24, WPSX-TV will present *Odyssey: The Art of Photography at National Geographic*. The program features captivating views of the world's countries, creatures, and cultures in a one-hour presentation.

The program hosted by Richard Kiley, offers a rare glimpse into the creative processes that inspired top photographers of the past century to produce some of their most celebrated works.

Pattee exhibit

Craig Yarnell's exhibition, "Re-animate," is on display in Pattee Library's West Lobby Gallery through Feb. 28. The exhibit includes oils on canvas, black and white photography with screen manipulations, and moires.

Of the exhibition, which was previously

Lisa J. Bontrager and Daryl Durrant, both music faculty members, will present recitals next week. See the stories on this page.

shown at The Metropoli in Pittsburgh, Mr. Yarnell said, "ultimately, I'd like the pieces to generate a certain type of edge to people; an urgency to discover a nerve untapped."

Brown bag luncheon

John Balaban, professor of English, will give a talk on "A Visit to the Institute of Literature, Hanoi," as part of the Comparative Literature brown bag luncheon series at 12:15 p.m. Monday, Feb. 25, in 101 Kern Building at University Park.

Those interested in attending only the lecture should arrive before 12:45 p.m. Coffee and tea will be provided to accompany a brown bag lunch.

Bassoonist to perform

Daryl Durrant, assistant professor of bassoon, will present a recital at 8 p.m. Monday, Feb. 25, in the School of Music Recital Hall at University Park.

The program will include J.S. Bach's Sonata in D major (BWV 1028), Monodie for Solo Bassoon by Dieter Acker, Trois Nocturnes by Rene Ducas, Three Bagatelles for Oboe and Bassoon by Alexei Haeff and Variations on "Ich bin der Schneider Kakadu," by Beethoven.

Performing with Mr. Durrant will be faculty members Marylene Dosse, piano; Barry Kroecker, oboe; William Tighman, piano; and Smith Toulson, clarinet.

Opera producer to speak

Jonathan Miller of London, England, will present the lecture "Splendour" at 8 p.m. Tuesday, Feb. 26, in 112 Walker Building at University Park.

The lecture is part of the series "The Art of Interpreting," sponsored by the Department of Art History and the Institute for the Arts and Humanistic Studies.

Dr. Miller produced the BBC Shakespeare Series from 1979 through 1981, and currently is directing "Katya Kabanova" at the Metropolitan Opera. An associate director of the Old Vic from 1988-90, he was an Honorary Fellow of St. John's College, Cambridge, and a Research Fellow in Neurophysiology at the University of Sussex.

Odyssey on WPSU

"To be sure there are common features between the Easterner and the Westerner," says a character in Modarressi's novel *The Pilgrim's Rules of Etiquette*, "but in the end their encounters remain barren... like the quince-apple tree."

On the next episode of "Odyssey Through Literature," Nasrin Rahimieh of the University of Alberta discusses with host Leonard Rubinstein Modarressi and other Iranian writers in exile. "Odyssey Through Literature" is produced by the Department of Comparative Literature in the audio-production studios of WPSX-TV. It airs

Wednesdays at 12:30 p.m. on WPSU, 91.1 FM.

Concert choir

The Penn State Concert Choir will perform in concert at 12:10 p.m. Thursday, Feb. 28, in the Eisenhower Chapel at University Park. The 20-minute concert is part of the Bach's Lunch Concert Series sponsored by the School of Music and the University Lutheran Parish.

The program will include selections from Mozart's Requiem and works by Canadian composers.

The concert choir is a group of 72 singers, both music and non-music majors, directed by D. Douglas Miller.

Horn concert

Lisa J. Bontrager, assistant professor of music, will present a concert of music for the horn at 8 p.m. Thursday, Feb. 28, in the School of Music Recital Hall at University Park.

The program will include works for solo horn by Beethoven, Saint-Saens and Gilbert Vinter. Ms. Bontrager, who will be joined by pianist Steven Smith, also will play Beethoven's Sonata on the valveless hand horn, historic predecessor of the horn.

The New Decade Quartet, playing pieces by J.S. Bach, Mozart and Koetsier, will also be featured in the concert.

Art Alley exhibit

"Esprit: An Exhibit of Photographs" by Nina Melendrandi, a University senior, is on display through March 3 at the Art Alley Gallery in the Hertz Union Building at University Park.

At the heart of the exhibit is the belief that the essence of spirit permeates everything. Also important is the interaction between the human subject and the photograph.

"The photograph extracts something of the essence of the person," Ms. Melendrandi says.

The arts at...

Altoona Campus

As part of the celebration for Black History Month, Ethel Caffie-Austin, gospel artist extraordinaire, will perform at 7:30 p.m. Tuesday, Feb. 26, in the Paul R. and Margery Wolf Kuhn Theatre.

Dr. Richardson to be formally installed at Johns Hopkins

Former University President Bryce Jordan will attend the official installation ceremony of William C. Richardson as the 11th president of The Johns Hopkins University on Feb. 22.

Dr. Richardson, who assumed the post July 1, will be formally installed on the 115th anniversary of the founding of the University.

Dr. Richardson had served as executive vice president and provost at Penn State since 1984. Prior to that, he had been at

the University of Washington since 1971. His last position there was dean of the graduate school and vice provost for research.

A widely published health policy expert, Dr. Richardson is a member of the Institute of Medicine of the National Academy of Sciences and chairman of its Joint Panel on the National Health Care Survey, and co-chairman of the Pew Charitable Trusts' Commission on the Future of the Health Professions.

Presidents of other universities and colleges with which Dr. Richardson has been affiliated as a student, faculty member or administrator, also will attend the ceremony. They include Hanna Gray, president of the University of Chicago; William E. Gerberding, president of the University of Washington; and Tom Gerety, president of Trinity College.

University Park Calendar

**February 21--
March 3**

Special Events

Thursday, February 21

Bach's Lunch, 12:10 p.m., Eisenhower Chapel. The He-Lo's from the Penn State Glee Club.

Commission for Women, meeting, 1:30-3:30 p.m., 256 Hammond.

Sol Kramer Lecture, 8 p.m., 112 Kern. Dr. Robert B. Cairns, Univ. of North Carolina, on "Belated But Bedazzling: Genetic Influences Upon Social Development."

■ English Emigre Voices Lecture Series, 8 p.m., 101 Kern. Eva Hoffman, Polish-born author of *Leviathan in Translation: A Life in a New Language*.

Friday, February 22

Geog. Coffee Hour, 4 p.m., 319 Walker. Alan Block on "The Geography of Organized Crime in New York City."

Center for the Performing Arts, 8 p.m., Eisenhower Aud. American Indian Dance Theatre.

URTC, 8 p.m., Playhouse Theatre. "The Pirates of Penzance," through March 1.

Saturday, February 23

Shaver's Creek, Bird Breakfast/Winged Hunters, 8:10-30 a.m., 11:30-1 p.m. Call 863-2000.

■ Touch of Africa, 5:30 p.m. to midnight, HUB Ballroom.

Sunday, February 24

School of Music, 1:30 p.m., Recital Hall. Organ recital.

Carnegie Hall Film Series, 7 p.m., *She Done Him Wrong* (1933); 8:15 p.m., *Henry V* (1945), 108 Wartik Free.

Monday, February 25

■ Comp. Lit. Luncheon, 12:15 p.m., 101 Kern. John Balaban on "A Visit to the Institute of Literature, Hanoi."

■ Parivatan, film/pand discussion, 7:10 p.m., 214 Boucke. "The Status of Women in Rural and Urban India in the Past 20 Years."

School of Music, 8 p.m., Recital Hall. Penn State Percussion Ensemble.

Wednesday, February 27

Penn State Chapter, National Association of Science Writers, 11:45 a.m., 313 Kern. Dr. Richard J. Bord on "Risk Perception in Hazardous Facility Siting."

Audio-Visual Services, open house, 1:30-4:30 p.m., at its three University Learning Centers.

Thursday, February 28

Bach's Lunch, 12:10 p.m., Eisenhower Chapel. Penn State Concert Choir.

School of Music, 8 p.m., Recital Hall. Lisa J. Bontrager, horn.

Friday, March 1

Geog. Coffee Hour, 4 p.m., 319 Walker. Bob Beg, Indiana Univ. of Pa., on "Planning for Decline."

Saturday, March 2

Shaver's Creek, 7-9 p.m., Owl Prowl. Call 863-2000.

Public Radio

WPSU-FM 91.1

"All Things Considered," Monday-Friday, 5:30-6 p.m.; Saturday and Sunday, 5-6 p.m.; Morning Edition, Monday-Friday, 6-8 a.m.; Weekend Edition, Saturday and Sunday, 11 a.m.-1 p.m.

The American Indian Dance Theatre will perform traditional Indian tribal dances at 8 p.m. Feb. 22 in Eisenhower Auditorium. See the story on page 2.

"Odyssey Through Literature," 12:30 p.m. Wednesdays, with S. Leonard Rubinstein.

Conferences

Continuing Education

Keller Building
Feb. 26, Pa. Bar Institute: Child Custody. Shirley Hendrick, chair; Jerri Milson, coordinator.
Feb. 27-March 1. RTAP/Train the Trainer Program. James Miller, chair; Barb Impellitteri, coordinator.

Seminars

Thursday, February 21

Physics Colloquium, 3:30 p.m., SS Osmond Lab. Dr. Daniel Grischlow, IBM, on "Materials Studies with Subpicosecond Beams."

■ Australia-New Zealand Studies Center, 3:30 p.m., Eisenhower Chapel Lounge. Paul Acfield, Labor Party, and Graham Morris, Liberal Party, on "Political Parties and Campaign Strategies in Australia: Views from Opposing Practitioners."

Gerontology Colloquium, 4-5 p.m., 106 Mitchell. Phil Smith on "Trends in Health Status of the Elderly."

Obituary

Elizabeth J. Morrow, admissions counselor. Division of Admissions, Records and Scheduling, from April 1, 1954, until her retirement Oct. 1, 1979, died Feb. 2 at the age of 76.

25-year award recipients

Observing 25 years of service at the University are, from left, Michael Fetchu, assistant supervisor, Property Inventory, Controller's Office; Gerald G. Johnson, associate professor of computer science; Janet J. Reed, budget clerk, College of Education;

William R. Schmalstieg, professor and head of Slavic Languages; Al Zimmerman, stock delivery clerk, General Stores, Business Services.

In Pollock Undergraduate Library

New computer lab opened at University Park

The University continues to expand and enhance its computer services for students and faculty with a new lab containing 30 Apple Macintosh IIs computers in the Pollock Undergraduate Library.

One of three new microcomputer laboratories created during the 1990-91 academic year, this latest laboratory is a joint effort of the Center for Academic Computing and the University Libraries.

"We have been working for several years to secure funding for this facility and are pleased that even in these days of budget constraints, we were able to create this

laboratory," Nancy M. Cline, dean of the University Libraries, said.

Students at the University Park Campus now have access to more than 600 computers in 13 public laboratories, which are managed by the Center for Academic Computing and contain Apple Macintosh and IBM-type computers.

Students can run computer applications on the machines in the laboratories. If class assignments require the use of the University's IBM 600S mainframe, students can link to the mainframe for applications software, electronic mail and access to LIAS, the University Libraries' on-line

electronic catalog. Each of the labs has a lab attendant, and during certain scheduled hours, consulting services are provided to assist students with computing questions.

"The opening of the Pollock lab and others during this academic year is a recognition by the University of the importance that computing technology has to teaching and learning at Penn State," Russell S. Vaught, director of the Center for Academic Computing, said.

For more information, contact the Office of the Director, Center for Academic Computing, at 863-0425.

Sol Kramer Lecture

How genetics affects social behaviors -- including violence and delinquency -- will be the topic of the third Sol Kramer Lecture, sponsored by the College of Health and Human Development.

Robert B. Cairns, professor of psychology at the University of North Carolina, Chapel Hill, will discuss "Belated but Bedazzling: Genetic Influences upon Social Development" at 8 tonight in 112 Kern Graduate Building.

Dr. Cairns is an internationally respected researcher on the relationships among development, genes and social behavior.

The lecture series is named for the late Sol Kramer, research professor of ethology at the University of Florida.

News in Brief

National teleconference

Focusing on the problem of rising violence in dating on the nation's college campuses will be goal of a national teleconference from 1 to 4 p.m. Tuesday, Feb. 26, in 112 Kern Graduate Building at University Park.

The American College Personnel Association teleconference is presented nationally with the cooperation of several national college and higher education organizations. The event was brought to Penn State through special funding from the Office of the Vice President for Student Services and Center for Women Students.

Lunchtime roundtable series

Richard J. Bord, associate professor of sociology, will lead a lunchtime roundtable sponsored by the Penn State Chapter of the National Association of Science Writers at 11:45 a.m. Wednesday, Feb. 27, in Room 313 Kern Building at University Park.

Dr. Bord will lead a discussion of "Risk Perception in Hazardous Facility Siting."

The Penn State Chapter of the National Association of Science Writers meets for lunch and discussion on the last Wednesday of each month. The brown bag lunchtime roundtable series is open to anyone interested in science communication.

Academic counseling program

Pamela Evans, academic counselor in the College of Health and Human Development, will present a program titled "Academic Counseling Needs and the Single Parent Student" at 12:30 p.m. Wednesday, Feb. 27, in 120 Boucke Building at University Park.

The program is co-sponsored by the Center for Women Students and the Returning Adult Student Center. If you'd like more information or are planning to attend, contact the Returning Adult Student Center at 863-3887.

Learning Centers open house

Audio-Visual Services is sponsoring an open house for faculty and staff from 1:30 to 4:30 p.m. Wednesday, Feb. 27,

at each of its three Learning Centers at University Park.

Macintosh and IBM interactive video technology will be demonstrated in Room 6 Sparks Building; additional computing capabilities and video and audio equipment will be available in Room 1 Human Development East; and lecture recording and the dial-access system will be presented in 15 Pinchot Hall, in the East Halls dormitory complex.

The open house also will give faculty members a chance to discover how the Learning Centers can provide a place for supplemental class work to be done.

Fulbright Scholar Program

The Fulbright Scholar Program for 1992-93 will award some 1,000 grants for research, combined research and lecturing, or university lecturing. Opportunities range from two months to a full academic year; many assignments are flexible to the needs of the grantee. There are openings in more than 100 countries and, in many regions, multicountry research is possible.

Application materials are available beginning March 1. For more

information and applications, contact Elizabeth B. Smith, Fulbright program adviser, Office of International Programs, 222 Boucke, University Park, 863-7581, or call or write the Council for International Exchange of Scholars, 3007 Tilden Street, NW, Suite SM, Box NEWS, Washington, D.C. 20008-3009; (202) 686-7877.

Swimming hall of fame

Three persons will be inducted into the Pennsylvania Swimming Hall of Fame, located in the McCoy Natatorium at University Park, during ceremonies a 7:50 p.m. Friday, March 8.

The inductees are:

William "Willie" Crawford, who has compiled more than 30 years of coaching experience on the age group, high school, college, and masters level; Pat Madden, former Butler High School swimming coach who is now the head coach for both men and women at Slippery Rock University; Allan Gerald Rose, who has been the Pittsburgh YM and WHA coach for more than 30 years and has produced many outstanding swimmers.

Partings

Lois L. Boob

Lois L. Boob, accounting clerk in the Division of Housing and Food Services, has retired after 27 years service. Ms. Boob came to the University in 1964 as a production clerk in the bakery. She was responsible for placing bakery orders from the dining halls, pricing items and handling the payroll.

Since September 1977, she has worked as an accounting clerk. Her responsibilities included operating money machines for the vending machines, making deposits and balances for the day and checking-in vending machine operators.

She and her husband reside in Bellefonte. Of her three children, her son Larry graduated from Penn State in 1979.

Harry J. Charlesen, associate professor of business administration at the Penn State DuBois Campus, has retired after 22 years service.

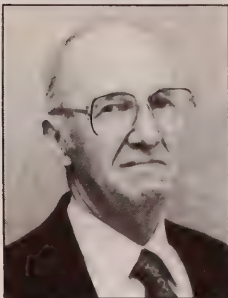

Professor Charlesen joined the campus faculty following 22 years with the United States Army. He holds a bachelor of business administration degree as well as an M.S. degree from the University of Alaska.

When he first came to the campus, he taught most of the business subjects, including accounting, statistics, and finance. The last several years, his concentration has been in the accounting field. He also was the program leader of the associate degree program in business administration.

In recognition for his years of dedication to the business curriculum at DuBois Campus, the annual business symposium held there has been renamed the Harry Charlesen Business Symposium. "I am extremely pleased," he said. "I was one of the people instrumental in getting the symposium started about 14 years ago. It's quite an honor. I couldn't be more pleased."

In retirement, Professor Charlesen will probably do some traveling and fishing. He also enjoys chess and woodworking. "I also would like to do some volunteer work and perhaps a little tax practice," he said, "just to keep busy."

John Harchak, assistant budget supervisor in the Department of Continuing

Harry J. Charlesen

Education, has retired after 26 years service.

Mr. Harchak was in charge of purchase orders, equipment inventory, wage payroll and interdepartmental mail. Before becoming budget supervisor, he was a cost accountant for Erie Tech and then an accountant in Research Contracts at Penn State.

His retirement plans include part-time work as a financial and investment adviser.

Barbara R. Kautz, research associate at the Computer Center in the Division of Computer and Information Systems, has retired after 34 years service.

Ms. Kautz began working at the University in 1956 doing mathematical calculations in the Ordnance Research Laboratory. From 1958 until 1961, she worked in the Department of Chemistry as a lab instructor and then became a systems programmer for the Computer Center. In 1971, she was promoted to technical editor.

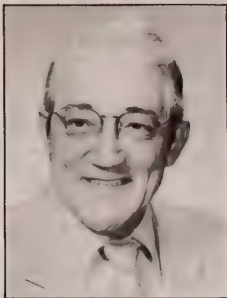

Her responsibilities included writing and editing and documentation about using the mainframe, the newsletter and completing data-based processing.

In retirement, Ms. Kautz plans to garden, redecorate her home, learn to use a personal computer and travel throughout Europe. She has one daughter and two grandchildren and has been a resident of State College for 34 years.

John S. Nisbet, distinguished alumni professor of electrical and computer engineering, has retired after 33 years service.

A former director of Communications and Spaces Sciences Laboratory, Dr. Nisbet began his professional career at the University in 1957 as a research associate and was named distinguished alumni professor in July 1986. Prior to coming to Penn State, he worked as an engineer for Nash and Thompson Ltd. and Decca Radar Ltd., England, and Westinghouse Corp., Canada.

After completing his undergraduate work at London University, Dr. Nisbet earned an M.S. and a Ph.D. in electrical engineering from Penn State. He was appointed Senior

John Harchak

National Academy Fellow at Goddard Space Flight Center and was a Fulbright Lecturer at Kharkov State University, the Soviet Union.

Dr. Nisbet is known for developing the Penn State MKI ionospheric model in 1971. This was the first large global ionospheric model that could be used by non-scientists to make ionospheric predictions.

The author of numerous books and publications, Dr. Nisbet's areas of interest include ionospheric communication theory, aeronomy and atmospheric electricity. A recipient of the College of Engineering Research Award, he served as a National Science Foundation Postdoctoral Fellow at the Institut d'Aeronomie Spatiale, Belgium.

In retirement, Dr. Nisbet and his wife, Valerie, plan to do some traveling, but will continue to call State College their home.

Patty L. Ruedy, data preparation operator in management services for the Division of Computer and Information Systems, has retired after 33 years service.

After graduation from high school, Ms. Ruedy came to the University in 1957, where her grandfather, Russell S. Chaffar, had worked as an electrician for 38 years. She was a key punch operator and worked on student registration and transcripts until 1975.

From 1975 until her retirement, she was a data preparation operator and was responsible for maintaining the bookkeeping and handling the payroll.

Ms. Ruedy plans to use her retirement to spend time with her husband Ken, garden, work with crafts and take care of her new house. She and her husband live in State College.

Norman H. Suhr, associate professor of geochemistry in the College of Earth and Mineral Sciences, has retired after 32 years service.

Mr. Suhr had been director of the college's Materials Characterization Laboratories (formerly Mineral Constitution Laboratories) since 1970, and assistant director of the Earth and Mineral Sciences Experiment Station since 1982.

He received two degrees from the

John S. Nisbet

University of Chicago: B.A. in liberal arts in 1950 and M.S. in geology in 1954. After serving as associate curator of mineralogy and petrology at the Chicago Natural History Museum, and spectrographer and geologist-mineralogist with the Heavy Mineral Co. in Tennessee, he came to Penn State in 1958 as a spectroscopist in the EMS Mineral Constitution Laboratories.

For the past 30 years, Mr. Suhr has worked closely with faculty members in their research investigations, and developed the Materials Characterization Laboratories in support of the college's research programs and as a professional service. His own research interests lie in the application of spectroscopy and instrumental analysis to geologic materials and problems, and he is author or coauthor of more than 30 research publications.

Mr. Suhr is a member of the American Association for the Advancement of Science, the American Society for Testing and Materials, and the Society of Applied Spectroscopy.

Nelson Catherman, supervisor of trades, Office of Physical Plant, from Sept. 12, 1960, until Jan. 1.

Norine A. Kirk, clerk typist A at Beaver Campus, from Nov. 1, 1979, until Jan. 1.

Edward A. Gazarik, maintenance worker, general A at New Kensington Campus, from Feb. 11, 1980, until Jan. 1.

Leo A. Corbett, assistant professor of general engineering at Wilkes-Barre Campus, from March 1, 1975, until Jan. 1.

Charles E. Glock, janitorial worker, Office of Physical Plant, from Dec. 4, 1967, until June 13, 1969, and from Jan. 12, 1981, until Feb. 1.

Carroll L. Olinger, central processing aide, Hershey Medical Center, from Jan. 19, 1981, until Feb. 1.

Barbara D. Sommers, senior records clerk, Health and Human Development, from May 30, 1972, until Feb. 1.

John Kosinuk, maintenance worker/utility at Delaware County Campus, from Nov. 17, 1980, until Jan. 12.

Penn Staters

Ennice N. Askov, professor of education and director of the Institute for the Study of Adult Literacy, has received the Keystone State Reading Association's "Celebrate Literacy" Award.

Amar Bhalla, senior scientist and professor of solid state science at the Materials Research Laboratory, has been elected a Fellow of the Optical Society of America "in recognition of distinguished service in the advancement of optics, particularly for the development of novel electro-optic and pyro-optic materials and techniques for infrared sensing and imaging."

Kenneth C. Blythe, director of Management Services, has been elected secretary/treasurer of the board of directors of CAUSE, the Association for the Management of Information Technology in Higher Education.

Jean-Marc Bollag, professor of soil microbiology, presented seminars at the University of York, England; at the Research Center of Jülich, Germany, and at the Swiss Federal Institute for Water Resources in Zurich, Switzerland.

Monty L. Christiansen, associate professor of recreation and parks, has been installed as a second vice president of the National Society for Park Resources.

Priscilla Cohn, professor of philosophy at the Penn State Ogontz Campus, delivered a paper titled "A Philosophical View on Fertility Control" at the Second International Conference on Fertility Control in Wildlife in Melbourne, Australia.

George Dulikravich, associate professor of aerospace engineering, gave invited lectures on "Aerodynamic Space Design" in Holland, Belgium, France and Germany and lectured on the "DMR Method for Acceleration of Iterative Algorithms" in Czechoslovakia and Germany. He also organized and lectured at a one-week short course on computational fluid dynamics in Ljubljana, Yugoslavia.

Linda Fehr, head nurse at the Penn State Schuylkill Campus, has received the 1990 Distinguished Service Award in the education category given by the National Commission Against Drunk Driving for her work at Schuylkill Campus in combating the problem of drunk driving.

An article titled "Vocationalism Revisited: The Role of Business and Industry in the Transformation of the

Schools" by **Kenneth Gray**, associate professor of vocational education, has been selected as the Outstanding Research Article in Volume 13 of the journal of the American Vocational Education Research Association.

Peter Hahn, assistant professor of history at Penn State Erie, The Behrend College, has won travel grants from the Lyndon Baines Johnson Foundation for research at the Johnson Library and from the John F. Kennedy Library to pursue research there.

James Hamilton, assistant professor of speech at the Penn State Mont Alto Campus, has won a first place in the Education Division of the 1990 "Take Pride in Pennsylvania" Program for his work with the Conservation Leadership School.

William Hartman, associate professor of education, presented a paper titled "Special Education Financing and Cost Control" at the Association of School Business Officials Annual Conference in Toronto, Ontario.

E.G. Heffner, professor emeritus of chemical engineering, chaired two sessions at the 6th International Symposium on Ion Exchange in Hungary. He also presented 10 lectures on topics including reaction kinetics, ion exchange and nonlinear wave propagation, at laboratories in the Soviet Union, Czechoslovakia, Italy, France and Germany.

John Jewett Henry, director of the Pennsylvania Transportation Institute, and **James C. Wambold**, director of the PTI Vehicle/Surface Interaction and Safety Program, have been named principal investigators of the 1992 International Experiment to Harmonize Skid Resistance and Texture Measurement Procedures.

James Herbert, assistant professor of education, has received the "Rehabilitation Educator of the Year" award from the National Council on Rehabilitation Education for "significant contributions of a rehabilitation educator."

Clarence D. Johnson Jr., police service officer/crime prevention specialist, Department of University Safety, Police Services, has been elected president of the Pennsylvania Association of Campus Crime Prevention Practitioners for a two-year term.

Sanjay Joshi, assistant professor of industrial engineering, has received the 1991 Robert B. Douglas Outstanding Young Manufacturing Engineer Award from the Society of Manufacturing

Engineers for "significant achievements and leadership in manufacturing engineering."

Kathryn Keams, assistant professor of exercise and sport science and coordinator of the dance program at the Penn State Ogontz Campus, discussed the possibility of exchanges in dance between Australian groups and Penn State at the New South Wales Department of School Education.

Philip A. Klein, professor of economics, gave an invited lecture titled "Monitoring Instability in the Modern World" at the University of Siena in Italy. He also gave the opening paper, "An Institutional View of 1992," at the Conference of the European Association for Evolutionary Political Economy in Florence, Italy.

William J. Kraemer, director of research for the Center for Sports Medicine, was an invited lecturer in a series on long-term development of the young, elite athlete held in Melbourne, Canberra, and Sydney, Australia.

Akhlesh Lakhtakia, assistant professor of engineering science and mechanics, was a visiting professor of physics at the Universidad de Buenos Aires, Argentina, during the 1990 summer term.

Budugur Lakshminarayana, Evan Pugh professor of aerospace engineering, has been named the 1990 Freeman Scholar Lecturer by the American Society of Mechanical Engineers.

Gary L. Lilien, research professor of business administration, has been elected to a two-year term in the office of the National Coordinator of the European Marketing Academy.

Michael Moore, associate professor of education, coordinated an intensive workshop titled "Research in Distance Education: Setting a Global Agenda for the Nineties" at the 15th World Conference on Distance Education in Caracas, Venezuela.

Robert E. Newnham, Alcoa professor of solid state science at the Materials Research Laboratory, was keynote speaker at the International Symposium on Fine Ceramics in Arita, Japan.

Larry K. Olsen, professor of health education, has been installed as president of the American School Health Association.

Jerry C. Olson, chairman and professor of marketing, presented a paper "Conceptualizing, Developing and Evaluating Advertising Strategy: The

MECCAS and STRATA Models," at a joint conference of the European Marketing Academy and the European Society of Opinion and Market Research in Athens, Greece.

David S. Palermo, professor of psychology and associate dean for research and graduate studies in the College of the Liberal Arts, gave the third annual James Dreyer Lecture in Psychology titled "Musing on the Meaning of Metaphor: Is Knowledge the Key?" at the University of Edinburgh.

David Passmore, professor of vocational education and professor of adult education, has received a 1990 research award from the Center for Education and Training for Employment at the Ohio State University "for outstanding contributions to research in the field of education and training for employment."

Gerald M. Phillips, professor of speech communication, has been named 1990 recipient of the Lambda Eta Phi national award for teaching excellence.

Joseph Prewitt Diaz, associate professor of education, has been appointed a member of the Executive Committee of the Pennsylvania Heritage Affairs Commission.

Della M. Roy, professor of materials science at the Materials Research Laboratory and the Department of Materials Science and Engineering, has been appointed to a special Committee on Highway De-Icing Chemicals of the Transportation Research Board of the National Research Council.

Rustum Roy, Evan Pugh professor of the solid state, served as chairman of the International Conference on New Diamond Science and Technology in Washington, D.C.

Barbara Shannon, distinguished professor of nutrition, has been awarded a major grant to study home-based dietary education for children who have elevated blood cholesterol levels. The \$2-million, interdisciplinary study is funded by the National Institutes of Health.

Russ Vaughn, director of the Center for Academic Computing, and **Jim Forkner**, research assistant and the University's administrator for The Educational Initiative have received a TEI Partnership and Innovation Award for sponsoring the first Regional TEI Administrators' Conference in 1989.

New crash test skull could save pilots' lives *Existing dummy skulls fail at high acceleration rates*

The aluminum skulls on crash test dummies used in aircraft ejection seat tests cannot meet the demands of testing new high-speed aircraft, according to University researchers.

Needed is a new dummy head that will allow measurements to be taken at high accelerations. David W. Jensen, assistant professor of aerospace engineering, and James A. August, graduate student in aerospace engineering, are developing a skull made of composite materials to replace the aluminum skull on ejection test dummies.

A complete manikin, patterned after automobile crash test dummies, is used to determine what happens when a pilot ejects. These manikins, however, were not developed for high acceleration ejection testing, Dr. Jensen said.

The skulls on the current manikins are manufactured of hollow aluminum and weigh 10 pounds. They are covered with an elastomeric skin to simulate the effects of skin and flesh.

Instrumentation is placed in the skull to monitor the accelerations of the skull, the forces transmitted from the skull to the neck and other parameters. Using these measurements, researchers can determine the effect of the forces on the human body.

"The aluminum skull works well at lower accelerations, but high acceleration rates cause the skull to resonate at a natural frequency, which interferes with data collection," Dr. Jensen said. "Basically, the aluminum skull rings and makes data collection impossible."

"As jets become more advanced and operate at greater accelerations, the pilot must be ejected from the cockpit in a shorter period of time. The time between a malfunction in the aircraft or damage to the aircraft by a weapon and destruction of the aircraft is becoming increasingly shorter."

"The acceleration forces as the body leaves the cockpit and comes into the high-speed air stream can

David W. Jensen is shown with three kinds of crash test dummy skulls, from left: elastomeric skin, which simulates skin and flesh, composite (developed by University researchers), and aluminum.

be many times the force of gravity," he added. "We need to know if the pilot is going to suffer damaged vertebrae and how the helmet, helmet mounted displays and instrumentation will react in the wind forces."

"With an ejection seat, the objective is to save the life of the pilot. However, there is a limit to what the human body can stand."

The first phase of the project is simply to prove that a skull can be made of composite materials; approach the stiffness, mass and other static and dynamic property requirements; and be reliably reproduced.

"If we can do that, then we can go back and change the composite materials to create any properties we want, making the skull more accurate, and still ensure that every skull will have the same properties," he noted.

"The problem with composites is that fabrication is complicated," said Mr. August, who is actually building plaster molds and working with fabrics and resins to develop the composite skull.

The researchers are exploring three different manufacturing methods — filament winding, hand lay-up and resin transfer molding — to determine the most reproducible method. Filament winding uses an

automated machine to wrap fibers around a form. In hand lay-up, sheets of fabric are hand-placed inside of a mold and draped in place.

In both these methods, epoxy resin is then applied to the carbon or glass fibers, and the fiber/resin composite is cured in an autoclave at 350°F and elevated pressure.

In resin transfer molding, after the fabric is placed in the mold, the resin is drawn into the mold using a vacuum and immediately cured in an autoclave.

"Eventually we will have a skull with 20 to 25 layers of fabric," Mr. August said. "This skull will be lighter than the aluminum one and will need weights to meet the mass requirement for the project."

"Besides meeting the static requirements, we must eventually meet a requirement for drop testing. It might be possible to meet this requirement by using tough aramid or polyethylene fibers like Kevlar or Spectra. We might also change the resin to a toughened plastic."

"All we are interested in now is proving that we can fabricate a repeatable skull. After that we will look at more advanced materials," Mr. August added.

Bookshelf

Libby Goodman, assistant professor of special education, is the author of a volume in the SUNY Series in Special Education titled *Time and Learning in the Special Education Classroom*.

The 320-page book, published by the State University of New York Press, focuses on the relationship between time use and learning results, exploring the instructional processes in special education classrooms. The text emphasizes teacher control of time resources at the classroom level instructional and management strategies that conserve and enhance instructional time and the efficient and effective use of learning time to enhance student performance.

John R. Gutierrez, associate professor of Spanish, and Martha Rosso-O'Laughlin of Tufts University, have co-authored the first in a series of three textbooks designed to change the way a new generation of secondary school students learn a foreign language. The series, titled *Ya verás (Now You'll See)* and published by Heinle and Heinle, is the first for high school Spanish students to be published since the 1970s.

Whereas older texts often emphasized grammar for its own sake rather than creative use of language, Dr. Gutierrez' text has as its goal free expression from the outset and effective linguistic functioning in real-life situations.

An important aspect of the text is its integration of cultural material dealing with Spain, Spanish America, and the Hispanic community in the United States into all of the materials or components of the program.

In addition to the texts, these components will include workbooks, laboratory tape programs, videos using authentic unscripted everyday language correlated to the materials in the textbook, as well as a methods manual for instructors.

William Bernard McCarthy, associate professor of English at the Penn State DuBois Campus, is the author of *The Ballad Maker*, published by Indiana University Press.

"*The Ballad Maker* examines one of the largest collections of songs gathered during the golden age of ballad collecting in Scotland, from 1780 to 1830," Dr. McCarthy said.

Dr. McCarthy is particularly interested in how traditional singers learn ballads and

how they change them. Agnes Lyle, the subject of his book, apparently lived in tumultuous times. The book shows how she changed ballads to reflect the political oppression and economic strain of the times.

"When we look at what was happening to poor people in Scotland in the 1820s," he said, "it is easy to see why she felt the way she did. But she's almost the only great ballad singer who made these kinds of changes."

Dr. McCarthy, who joined the DuBois Campus faculty in fall of 1989, earned his doctorate in folklore from Indiana University in Bloomington, Ind.

Allan Rodgers, professor emeritus of geography, is editor and contributor to *The*

Soviet Far East: Geographical Perspectives on Development, published in London and New York by Routledge.

In a series of 12 essays, 11 geographers and Soviet specialists explore the geographical and economic complexity of the Soviet Union's largest economic region and consider prospects for its successful development.

Remoteness, an inhospitable climate, primitive transportation networks, administrative inefficiency, and the inability to attract a suitable workforce are among the obstacles to development of the enormous natural resources of this vast region that stretches from Lake Baykal to the Arctic Ocean, the River Lena to the Pacific.

Head of Mathematics Department sought

The Eberly College of Science invites applications and nominations for the position of head of the Department of Mathematics.

Candidates for the position should have a distinguished record of mathematical research and teaching, and have demonstrated superior administrative or

leadership skills, qualifying them to play a leadership role in the further development of the department.

Applications and nominations will be reviewed during March, and should be sent to W. Dale Brownwald, chairman, Search Committee, 405 McAllister Building, University Park, PA 16802.

Staff Vacancies

The following vacancies for positions classified as staff exempt or staff non-exempt have been listed with the University Employment Division for filing. The brief statements for each vacancy are illustrative. They are not complete position descriptions. APPLY BY CALLING THE EMPLOYMENT DIVISION, 863-0304 (NETWORK LINE 423-0304). Applications for these staff vacancies will be accepted until Feb. 28. DO NOT CONTACT THE AREA THAT HAS THE VACANCY.

Applications for staff vacancies are considered in accordance with Fair Employment Practices (PS-1) and in compliance with the University's Affirmative Action Compliance Program without regard to race, color, religion, national origin, handicap or age (as provided by law), sex, or status as a disabled or Vietnam era veteran.

■01303, **Writer-Information Aide**, Senior Vice President for Research and Dean of the Graduate School, Research Publications, University Park Campus - Responsible to the director of research publications and information and to the research managing director for providing administrative support, copyediting, and performing tasks associated with research publications. Requires bachelor's degree, or equivalent, in communications or related field and nine to 12 months effective experience in office management. Working knowledge of office computers preferred. Written and verbal communications skills are required. STAFF GRADE 4.

■01304, **Assistant Marketing Manager**, University Arts Services, Center for the Performing Arts, University Park Campus - Responsible to the marketing manager for planning, developing, and coordinating marketing

campaigns and budgets for clients of the Center and representing the marketing department to University and external constituencies. Requires bachelor's degree, or equivalent, in communications, marketing, or related field and one to two years effective experience. THIS IS A FIXED TERM POSITION RUNNED THROUGH JUNE 30, 1992. WITH EXCELLENT POSSIBILITY OF REFUNDING. STAFF GRADE 6.

Hershey

For the following position vacancies, apply directly to The Milton S. Hershey Medical Center. Attach resume with cover letter indicating the position vacancy code and forward to the Department of Human Resources, Hershey, or call the Hershey bid line at (717) 531-8531 by Feb. 28.

■17316, **Systems Analyst**, Department of Information Systems - Responsible to the assistant director, Information Systems, for implementing the payroll and accounting procedures for the College of Medicine with the various departments to determine their information requirements and operational needs. Requires a bachelor's degree in accounting with knowledge of third generation programming language plus four years of data processing experience. STAFF GRADE 7.

■10053, **Nurse Manager**, Department of Nursing/Medical-Surgical - Responsible to the assistant director of nursing services as designated for the operation of the patient care unit, including nursing care activities, the coordination of patient care service, and maintaining acceptable standards of good patient care on a 24-hour basis. Requires a B.S. degree in nursing or equivalency,

plus three to four years of effective experience and licensed to practice as a registered nurse by the Pennsylvania State Board of Nursing. A master of science degree preferred. STAFF EXEMPT, GRADE 7.

■14700, **CT Surgical Head Nurse**, Department of Nursing/Operating Room - Responsible to a nursing manager, assistant director of nursing, and/or an assistant patient unit coordinator for performing a variety of nursing duties, as well as providing leadership to nurse clinicians and other patient care personnel. A registered nurse with a current license to practice professional nursing in Pennsylvania, plus one to two years of effective operating room experience. STAFF NON-EXEMPT, GRADE 5.

INTERCOM is published weekly during the academic year and every other week during the summer. It is an internal communications medium published for the faculty and staff of Penn State by the Office of Public Information, Room 312, Old Main, Phone 865-7517.

University Park United Way campaign exceeds goal

Contributions to the 34 agencies of the Centre County United Way by University Park employees totaled \$207,517, exceeding the goal of \$189,750 by more than \$17,000. The previous high total was \$190,541 raised in 1989.

In announcing the final results of the annual campus campaign, University Park United Way Chair Anne Petersen, dean of the College of Health and Human Development, said, "We in University administration are proud to lend our support to the annual United Way campaign and are grateful to the more than 2,000 employees who have contributed."

"However, even though we exceeded the financial goal, we are aware that, despite intensified efforts in informing Penn State's about United Way and its work, our second goal of increasing participation resulted in only 87 more donors."

Dean Petersen noted that the county campaign over all did not achieve its goal of a 15-percent increase, attributed in part, by campaign organizers to

general economic conditions.

"We will continue to work with the local United Way office and the member agencies to support their good works—many of which directly benefit Penn State employees. Currently, a study is being developed that will survey the community and Penn State employees on how various attitudes may affect giving."

"Everyone who works so hard for United Way, and certainly the people who are served by the agencies, needs to know what we are doing right and how to improve what is not working."

In commending University Park campaign workers for their efforts, Dean Petersen said special recognition will be given this year to the following areas:

Employee units with zero to 50 employees:

Highest Dollar Increase -- International Programs/President's Office -- Carol Herrmann, associate chair; Sharon Becker, assistant chair.

Greatest Participation Increase -- Main Office, Business and Operations,

James Wagner, associate chair; Dale Roth, assistant chair.

Employee units with 51 to 100 employees:

Highest Dollar Increase -- School of Communications, Brian Winston, associate chair; Christine Templeton, assistant chair.

Greatest Participation Increase -- University Safety/Business and Operations -- James Wagner, associate chair; Dale Roth, assistant chair.

Employee units with 101 to 200 employees:

Highest Dollar Increase -- Academic Services, Robert Dunham, associate chair; Gloria Briggs, assistant chair.

Greatest Participation Increase -- College of Arts and Architecture, James Moeser, associate chair; James Stephenson, assistant chair.

Employee units with 201 to 400 employees:

Highest Dollar Increase -- College of Earth and Mineral Sciences, John Dutton, associate chair; Everett Tiffany, assistant chair.

Greatest Participation Increase --

College of Health and Human Development -- Anne Petersen, associate chair; Ginny Adams, assistant chair.

Employee units with 401 or more employees:

Highest Dollar Increase -- College of the Liberal Arts, Theodore Kiffer, associate chair; James Winck, assistant chair.

Greatest Participation Increase -- College of Agriculture, Lamartine Hood, associate chair; Robert Sams, assistant chair.

University will be part of NCAA certification program

The University will be part of an NCAA pilot athletic certification program that will examine in-depth "specific aspects of the intercollegiate program as they relate to Penn State's mission."

The certification program, administered in concert by the University and the NCAA, will begin next month and take approximately three months to complete.

President Thomas said the self-study will concentrate in seven basic areas: institutional mission, governance and administrative issues, academic issues, finance, conduct of student-athletes and coaches, commitment to rules compliance and the student-athlete experience.

"Penn State has long been a proponent of some form of athletic certification program," Dr. Thomas said, "and we are delighted to take a leadership role in this important process. This extensive review of our policies and procedures will enable us to evaluate our program's strengths and weaknesses and identify means of enhancing the management and

'Penn State has long been a proponent of some form of athletic certification program, and we are delighted to take a leadership role in this important process.'

—President Thomas

perpetuating the integrity of our intercollegiate program."

The NCAA has established a two-year period to field-test the certification strategy. Penn State is one of 47 Division I-A member institutions that have voluntarily agreed to participate. At the end of the trial period, the NCAA membership will determine if the effort should continue and, if so, whether it should be made mandatory.

Dr. Thomas said the focus is on assisting institutions in self-study effort. The process, he added, "will help define operational standards for the athletic program in

comparison to University-wide policies and procedures."

"NCAA certification is a very visible statement that the University has thoroughly evaluated its academic and athletic standards in an effort to strengthen its commitment of institutional integrity," athletic director Jim Tarmann said.

The NCAA reported that neither punitive nor disciplinary actions will be imposed at the conclusion of the certification process. The "overriding goal" of the study, the NCAA said, "is to assist in evaluating the participants' conclusions concerning critical aspects of its athletic

program, identifying specific and realistic goals for improving areas of concern and formulating a plan of action to achieve stated objectives."

To assist in the NCAA certification process, Dr. Thomas appointed a self-study steering committee consisting of members from many different University constituencies inside and outside of athletics.

John J. Coyle, the University's NCAA faculty representative, will chair the nine-member committee, which also includes Maryann Domitrovitz, assistant professor of the athletic subcommittee of the University Faculty Senate Committee on Academic and Athletic Standards; Robert E. Dunham, vice president and vice provost; Kellie Goodman, an undergraduate in communications and member of the Lady Lion softball team; Edward G. Johnson, a graduate student in business and former Penn State football player; Diane L. Kenepff, director of the

See 'NCAA' on page 5.

Focus on Diversity

Engineering begins administrative fellows program

The College of Engineering inaugurates the Engineering Administrative Fellows Program with the appointment of **Laura E. Frye**, nuclear engineering administrative assistant, and **Cathy J. Kowalske**, electrical engineering student records secretary, as 1991 Engineering Administrative Fellows.

Modeled after the University's Administrative Fellows Program, the new program initially is limited to women and minority members of the engineering community. Fellows, who are appointed to half-time positions in areas of engineering administration for a six-month period, remain half-time in their existing positions. They choose an administrative area in which to work and develop an individual work plan.

The Engineering Administrative Fellows Program is designed to provide career development opportunities for engineering staff members by giving them access to skills and experience at different levels of administration throughout the College, according to John A. Brighton, dean of the College of Engineering.

Laura E. Frye

"Laura Frye and Cathy Kowalske, both outstanding long-term employees, are excellent individuals to initiate the

Cathy J. Kowalske

program," Dean Brighton said.

"The program offers staff members first-hand experience and an opportunity to

further personal career goals. It also gives the College the opportunity to involve more women and minority staff members in engineering administration," he added.

Ms. Frye is working with George McMurtry, associate dean for planning and administration. Her fellowship activities include planning and implementing professional development programs for clerical, technical-service and staff employees.

Ms. Kowalske is working with Richard G. Swails, director of development. She is interested in all areas of engineering development with an emphasis on alumni and public relations.

The Engineering Administrative Fellows Program is on-going, and Fellows will be named to six-month intervals. To be eligible, candidates must have had three years of continuous service in the College in a full-time clerical or staff position as well as have demonstrated leadership, interpersonal and management abilities.

Conference to focus on feminist issues

A University-wide conference on "the Politics of Sexuality: Multicultural Feminist Voices" will be held Friday and Saturday, April 5 and 6, in the Hetzel Union Building at University Park.

The conference will address contemporary feminist issues in sexuality and will include as keynote speakers Andrea Dworkin, author of *Intercourse* and

Porriography: Men Possessing Women, and feminist activist Bille Avery, president and founder of the National Black Women's Health Project in Atlanta, Ga.

The conference is supported by a grant from the Equal Opportunity Planning Committee.

Kathleen Barry, of the Department of Human Development and Family Studies,

will be the conference convener. **Sabrina C. Chapman**, of the Center for Women

Students, and **Kathryn Hood**, of the Department of Human Development and Family Studies, are the conference coordinators.

For further information, contact the Center for Women Students at 863-2027.

Workshops on diversity course proposals set

Workshops to assist faculty members in developing cultural diversity course proposals will be offered four times in March.

Focusing on "How to Write a Cultural Diversity Proposal," the workshops are the first in a series of practical, implementation-oriented seminars and workshops planned for faculty members. Subsequent sessions will address resources, multicultural

classroom dynamics and methods to incorporate cultural diversity into classes. These sessions will be held at University Park, as well as at regional locations across the state.

Sponsored by the Office of Undergraduate Education, the University Faculty Senate Subcommittee on Cultural Diversity and the Instructional Development Program, the workshops are open to faculty members at all University locations. All workshops will be held in 207 Grange Building, University Park.

The schedule is: 1 to 3:30 p.m., Tuesday, March 5; 9:30 a.m. to noon Wednesday, March 6; 1 to 3:30 p.m., Monday, March 11; and 9:30 a.m. to noon Thursday, March 14.

The workshops are in response to University Faculty Senate legislation approved in March 1990 mandating a cultural diversity graduation requirement for all undergraduates. The proposal submission deadline for summer 1991 is March 22.

The legislation, which takes effect with the 1991-92 academic year, requires that all baccalaureate degree students take either

three credits of focused cultural diversity courses or 12 credits of cultural diversity enhanced courses. All associate degree students will take either three credits of cultural diversity courses or six credits of cultural diversity enhanced courses.

To satisfy the cultural diversity requirement, courses must focus on race, ethnicity, religion, gender, sexual orientation and/or global perspectives. Diversity enhanced courses must devote at least 25 percent of their time to these issues.

The workshops are designed to help faculty members who are planning to submit a proposal this spring develop complete cultural diversity proposals for both new and existing courses. Those attending one of the March sessions must come prepared with syllabus, detailed course outline, diversity resources, textbook and activity/homework descriptions.

To register for the workshops, call the Instructional Development Program office at 863-2599 by March 4 with the following information: participant's name, department or campus, course name, number, status, and workshop date.

Diversity Calendar

Monday, March 11

Commission for Women, meeting, 1 to 3 p.m., 301 Hetzel Union Building.

Commission for Women, spring banquet, 6:30 p.m., HUB Ballroom. Reception at 6 p.m. For information, call Lynn Ryan, 865-1683.

Tuesday, March 12

Men of Color, lunch meeting, noon to 1 p.m., Nittany Lion Inn.

Wednesday, March 13

Women of Color, noon to 1 p.m., Nittany Lion Inn Colonial Room. National Women of Color Day luncheon.

Office of Religious Affairs, 7 p.m., Paul Robeson Cultural Center Conference Room. Film: "Eyes on the Prize Part II," followed by discussion by Rev. Kenneth Clarke.

Thursday, March 14

Center for Women Students/Women's Studies Program, 8 p.m., HUB Gallery. Coppelia Kahn, Brown University, on "Warriors, Wounds and Women in Shakespeare's Roman Works."

Speaker scheduled for luncheon series

Kay Waslohn, a Center for Women Students staff assistant, will speak on "Women and Spirituality: Implications of a Male Diet" at noon Wednesday, March 20, in the Center for Women's Students Resource Room, 120 Boucke Building at University Park.

The lecture is part of the Center for Women's Students' Brown Bag Lunch Series.

Focus on Diversity cont.

Commission to honor Mrs. Fredman, Dr. Brighton

John A. Brighton, dean of the College of Engineering, and **Marian U. Coppersmith**, **Fredman**, president of the Board of Trustees, will be honored at the sixth annual banquet of the Commission for Women on March 11.

Dorothy F. Cotton, director of student activities at Cornell University, will be guest speaker at the banquet, which begins at 6:30 p.m. in the Hetzel Union Building at University Park. The reception starts at 6 p.m.

"Each year, the entire University community comes together at the commission banquet to honor achievements of the women at Penn State and to recognize individual advocates for women's equity," Mary Dupuis, chair of the commission and associate dean of the College of Education, said.

"The on-going purpose of the commission is to promote the efforts of women of the University in their various roles and activities, and to serve as a forum for the exchange of ideas within the University.

"Mrs. Fredman was selected both as the first woman elected president of the Penn State Board of Trustees and as a successful businesswoman and citizen who is a role model for us all," Dr. Dupuis noted. "Dr. Brighton and the entire College of Engineering is being recognized for an outstanding record of working to include women in the field of engineering."

Ms. Cotton served as the education director for the Southern Christian Leadership Conference from 1962 to 1972. In that position, she worked closely with Dr. Martin Luther King Jr. as the only

female member on his executive group in designing and conducting leadership training programs and strategies for promoting social change using non-violent means.

She also has served as the vice president for field operations for the Martin Luther King Jr. Center for Non-Violent Change in Atlanta.

From 1978 to 1981, Ms. Cotton was the southeastern regional director of ACTION, a federal agency for volunteer programs, coordinating day care programs, house support services, health and education services, and programs for the elderly.

Tickets for the banquet are \$10 for students and \$15 for non-students. The reservation deadline is March 4.

For more information, contact the commission at 865-1683.

Advanced degree fellowships offered

The College of Education is offering advanced degree fellowships for Native American Indian students participating in the American Indian Leadership Program.

Graduate degrees are in educational administration, educational theory and policy, curriculum and instruction, adult education, school psychology, special education, counselor education, counseling psychology, educational psychology, secondary education, elementary education mathematics education and higher education. Preference will be given to those who apply for doctoral degrees.

The American Indian Leadership Program, which is celebrating 20 years of operation, has a distinguished record of service to Native American Indians nationwide. As of summer 1990, 32 participants have earned doctoral degrees and 113 have earned master's degrees. It has been successful in placing both men and women in important leadership positions.

Ninety-five percent of the program's graduates have returned to contribute to Native American Indian education as college presidents, professors, administrators and teachers. The American Indian Leadership Program has a graduation rate of 84 percent, compared to the national average of a 50-percent completion rate for Indian students in graduate school.

The deadline for submitting applications for fall semester 1991, which begins August 1991, is April 30, and for spring semester 1992, is Nov. 15.

For more information, write to L.A. Napier, American Indian Leadership Program, Penn State, 320 Rackley Building, University Park, Pa. 16802, or call the program office at (814) 865-1489.

Feminist Scholars

Coppelia Kahn, professor of English at Brown University, will discuss "Warriors, Wounds and Women in Shakespeare's Roman Works" at 8 p.m. Thursday, March 14, in the HUB Gallery at University Park. At 8 p.m. Tuesday, March 19, E. Ann Kaplan, director of the Humanities Institute, State University of New York, will speak on "Images of Sexuality in Recent Films and MTV" in the HUB Gallery.

The lectures are part of the Six Feminist Scholars Lecture Series, sponsored by the Women's Studies Program and co-sponsored by the Center for Women Students and other University units.

Invisibility blues

Michele Wallace, associate professor of English and women's studies at the City College of New York, will discuss "Invisibility Blues: Black Feminism and Cultural Resistance" at 7 p.m. Monday, March 18, in the Paul Robeson Cultural Center at University Park.

Ms. Wallace is a writer and cultural critic. Her talk is sponsored by the Black Caucus and co-sponsored by the Center for Women Students' continuing speaker series, "Interactive Discrimination: The Combined Effects of Racism and Sexism," funded by the Equal Opportunity Planning Committee.

WPSX-TV programs

At 8 p.m. Wednesday, March 6, the power of gospel shakes the rafters of Chicago's historic Quinn Chapel when Patti LaBelle leads a rousing musical tribute to some of the biggest names in gospel music. *Going Home to Gospel with Patti LaBelle* on WPSX-TV is a stirring salute to past and present stars of gospel and includes performance by The Mighty Clouds of Joy, Dewing Harkens, the Barred Sisters, and others.

At 9:30 p.m. Wednesday, *American Masters* presents "Aretha Franklin: The Queen of Soul."

Three faculty and staff members to speak at luncheon

Three University faculty and staff members will be among the four speakers for the fourth annual National Women of Color Day Luncheon at noon Wednesday, March 13, in the Nittany Lion Inn at University Park.

The speakers are **Laverne Gyant**, interim director and research associate with the Black Studies Program; **Madhuri Prakash**, associate professor of education; **Maritza Ledee**, a career counselor with Career Development and Placement Services, all at the University; and **Robert Johnson**, a physician from the Mill Hall area.

Since 1987, Dr. Gyant has taught Black studies and human relations courses and is responsible for developing new courses for the Black Studies Program. Her research interests are in African-American women's studies and the history, participation and contribution of African-Americans to adult education.

Dr. Prakash joined the University faculty in 1981 as an assistant professor of education and was named an associate professor in 1987. Between 1984 and 1987, she also served as a Spencer Fellow in the

National Academy of Education. Her research interests include educational policy, processes and philosophy.

Ms. Ledee joined Career Development and Placement Services in September 1990

shortly after receiving her master's degree in counselor education from Penn State. She has done rehabilitation counseling internships in correctional institutions in Puerto Rico and at Rockview. At

Rockview, she helped to found a support group for inmates with AIDS.

Tickets, which are \$10 per person, are available by contacting Puring MacDonald at 865-2016 by March 4.

Biology Greenhouse

Used primarily for teaching and research, the Biology Greenhouse of the Department of Biology offers a wide array of plants from the exotic to the common. The photographs on this page were taken by Greg Grieco and illustrate the range of plants on display in the greenhouse, which is attached to Buckhout Laboratory at University Park. Tony Ornes, greenhouse technician, says the 100-foot by 50-foot greenhouse has one large tropical room and eight smaller houses. It is open to the public weekdays from 8 a.m. to 3:30 p.m.

Platycerium (Elkhorn fern)

Anthurium andreaeanum (Wax flower)

Chlorophytum elatum vittatum (Spider plant)

Graduate students to exhibit research

Some 100 graduate students will showcase their research activities at the sixth Graduate Research Exhibition to be held March 22-23 in the Kern Graduate Lobby at University Park.

Prize money of \$10,000 will be awarded, with awards to be announced at 4 p.m. March 23.

Among exhibits this year will be those revealing bedrock fractures in New York's Appalachian plateau; improving the shelf life of fresh mushrooms and folding proteins in new ways.

Studies of negative racial stereotypes of learning; Penn State's athletic spirit in 1886-1907; the social perception of television viewing, and costume design and construction for the play *Reservoirs and Gullsters are Dead* are a partial representation of exhibits from the arts, humanities, and social sciences.

NCAA

Continued from page 1.

Academic Support Center for Student-Athletes; Ellen E. Perry, associate athletic director and primary women's administrator; W. Herbert Schmidt, associate athletic director; and athletic director Tarnan.

"The committee," Dr. Thomas said, "will play an essential role in the completion of the project, which has the highest of institutional priorities.

"We have every confidence this independent review will provide another visible manifestation of the University's commitment to an athletic program consistent with its educational mission."

Penn State People

David E. Snell

David E. Snell, curator of the College of Earth and Mineral Sciences Museum in Steidle Building at University Park, began in his position May 5, 1953. "I'm in the same place where I started," he says, "and I'm not tired of it. It's been very interesting." Mr. Snell estimates that 30,000 to 40,000 persons—"ranging from the very young to the quille elderly"—visit the museum annually. His pet projects are the push-button demonstration exhibits which he has created. Among them are a fluorescent mineral exhibit, "opposite effects" demonstration, flexible sandstone, radioactivity, magnetic separation, and piezo-electric exhibits. "I build them as sort of a hobby at work," Mr. Snell says. "There are a lot more to do than I haven't been able to get to yet." (Photo: Greg Grieco)

News in Brief

Intercom schedule

There will be no Intercom during the week of Spring Break. The next issue of Intercom will be published on March 14.

Penn College appointment

State Sen. Roger A. Madigan has been appointed to the board of directors of Pennsylvania College of Technology. He assumes the position previously held by Sen. J. Doyle Corman, who has resigned.

Sen. Madigan, of Towanda, represents the 23rd Senatorial District. A Penn State graduate, he is a member of the University's Board of Trustees, having served as an agricultural trustee since 1979.

March is Eye Donor Month

Organ and tissue donation is the last—and possibly greatest—gift that an individual can give. Eye donations give the gift of sight, and other donations give the gift of life.

The Lions Eye Bank of Central Pennsylvania at the Hershey Medical

Center is distributing new brochures containing uniform donor cards. If you would like a donor card or an organ donor sticker for your driver's license, contact the Lions Eye Bank of Central Pennsylvania at (717) 531-7184 or 1-800-533-3005.

Health Careers Open House

The Hershey Medical Center will host a Health Careers Open House from 1 to 4 p.m. Sunday, March 10, at the Medical Center's University Fitness Center. Anyone interested in pursuing a career in health care is invited to discuss careers with health-care professionals; tour facilities; obtain financial aid information; and register for a lottery drawing to win \$1,000 scholarships and other prizes.

Call (717) 531-8440 or 1-800-334-2975 for additional information.

Movement skills

The College of Health and Human Development will offer a free program

in basic movement skills and games for children ages 5 through 8, beginning March 12.

The program will be held in Room 126 White Building at University Park from 3:45 to 4:30 p.m. Tuesdays, through April 16. Registration is scheduled for 3:45 p.m. March 12 in 126 White Building.

Faculty Women's Club

Milton J. Bergstein, associate professor of marketing, will speak on "Old Definitions, New Realities" at a brown bag lecture sponsored by the Faculty Women's Club at noon Wednesday, March 13, in Room 301 Hetzel Union Building at University Park.

Help with war stress

War stress will be the focus of a panel discussion for students, faculty and staff from 9:15 to 11 a.m. Friday, March 15, in the HUB Fishbowl at University Park.

Ellen Johnson, staff psychiatrist with Counseling and Psychological Services in

Ritenour Health Center, will be among the panelists answering questions about war-related anxieties.

John Fredrickson of WMAJ will broadcast the program live. The campus community is welcome to attend throughout the morning, and the listening audience may call in with their questions.

Golf courses openings

At present, the Penn State Golf Courses openings will operate on the following schedule:

White Shop (Recreation Building) will be open from 7 a.m. to 6 p.m. seven days a week beginning March 15; White Course will be open for play from 7 a.m. to dark beginning March 15; Lighted Practice Range (located at the Blue Course) will be open from 7 a.m. to 9 p.m. beginning March 28; Blue Course will open for play from 7 a.m. to dusk beginning March 28. Openings are dependent on weather and turf conditions.

Focus on the arts

The arts on Channel 3

At 12:30 p.m. Sunday, March 3, WPSX-TV will present *Rogers and Hammerstein: The Sound of American Music*. The special profiles one of the most popular and successful musical theater duos — Richard Rogers and Oscar Hammerstein III.

Their extraordinary string of enduring musicals include "Oklahoma," "The King and I," "The Sound of Music," "South Pacific," "Flower Drum Song," and "Carousel." The late Mary Martin hosts the program, which tells their story through film clips, still photographs, and interviews.

At 2:30 p.m. Sunday, *Great Performances* spotlights "Julie Andrews in Concert." Filmed before an enthusiastic crowd and backed by a full orchestra, Ms. Andrews dominates the stage of the historic Wilshire Theater in Los Angeles where she concluded her standing-room-only national tour last summer.

Highlights from several of her notable performances alternate with lesser-known selections that showcase her acting ability, grace, and agility, in addition to her vocal talent. Ms. Andrews sings songs from "My Fair Lady," "Camelot," and "The Sound of Music," and performs some especially created pieces from her hit one-woman show.

Ceramics exhibit

The ceramics of Ann-Lise Deering will be on exhibit from March 4 through March 27

The Scottish Chamber Orchestra, conducted by Jukka-Pekka Saraste, left, and featuring soloist Christopher Parkening, will perform at 8 p.m. Friday, March 15, in Eisenhower Auditorium.

in the Art Alley Cases of the Hetzel Union Building at University Park.

The State College artist has been working in her studio since 1979, making pottery and sculptural ceramics.

"I have a very special feeling toward clay," she says. "It is such a willing medium, soft and pliable, but with a mind of its own. I think of my work as organic forms. It is as if the handle of a cup or the spout of a teapot just sprouted and grew out of its side."

Ms. Deering came to the United States

from Norway in 1954, shortly after finishing her science degree. She began studying art at Penn State in 1969 while raising her four children.

Odyssey on WPSU

In South Africa, Sidney Zotwana taught literature written in his native Xhosa language — literature that he came to regard as "treacherous."

On the next "Odyssey Through Literature" program, "An Instrument of

Alienation," Mr. Zotwana, a South African doctoral candidate in comparative literature attending the University on a SHARE fellowship, describes to host Leonard Rubinstein the creation of Xhosa as a written language and the literary uses to which that language is put.

On the March 13 episode, "Jefferson in Transylvania," Eniko Molnar Basi of the Library of Congress introduces host Leonard Rubinstein to the book *Journey in North America*, published in 1834 by the Hungarian writer Sandor Boloni Farkas. In 1984, Farkas's book was reprinted, with the editor's comment that "it tends to be republished at crucial times."

"Odyssey Through Literature" is produced by the Department of Comparative Literature in the audio-production studios of WPSU-TV. It airs Wednesdays at 12:30 p.m. on WPSU, 91.1 FM.

Brown bag luncheon

Phil Mosley, associate professor of comparative literature, will discuss "Guy Vae and Flemish Identity in Belgian Francophone Writing," as part of the Comparative Literature brown bag luncheon series at 12:15 p.m. Monday, March 11, in 101 Kern Building at University Park.

Those interested in attending the lecture only should arrive before 12:45 p.m. Coffee and tea will be provided.

The arts at...

Great Valley

Works from the Heartside Quilters will be displayed at Penn State Great Valley from March 1 through March 30.

The Heartside Quilters, a local chapter of the National Quilting Association based in Wayne, is devoted to the creation, collection and preservation of quilts. Members share a common love of quilting following guidelines and techniques established by their chapter.

Delaware County Campus

A major regional art show and sale featuring the works of 67 leading artists

will be held March 2-9 to benefit a fund set up to help aspiring artists.

Exhibit 1991 is sponsored by the Tim Mark Endowment Fund, which was established in memory of an artist and Penn State alumnus who died last year of cancer.

The exhibit in the Commons Building will feature art in a variety of media, including original sculptures, paintings, drawings and prints. For more information, call (215) 565-3300.

Hazleton Campus

From March 3 to March 22, eight oils by artist Dave Borghi will be on display in the

library at the Penn State Hazleton Campus.

The grouping, titled "2001," will demonstrate the unique vision of Mr. Borghi, a resident of Nesquehoning.

Penn State-Behrend

Penn State Erie, The Behrend College offers the following free events during March:

- Feminist theologian Rosemary Radford Reuther will discuss "Ecofeminism — The Symbolic and Social Domination of Women and of Nature in the Christian Tradition" at 8 p.m. March 11 in Reed Lecture Hall as part of the college's Women's History Month celebration.
- America's premier a cappella singing

group, Western Wind, will perform at noon March 13 in the Logan Wintergarden as part of "Music at Noon: The Logan Wintergarden Series."

- Judy Goldsmith will speak about "Women in America: The Invisible History" at 8 p.m. March 19 in Reed Hall for Women's History Month.

- The Baltimore Consort will give a performance combining art, music and popular song at 8 p.m. March 20 in Reed Hall.

- **Daniel Frankforter**, professor of history at Penn State-Behrend, will discuss "Condemned to Interesting Times" at 8 p.m. March 27 in Reed Hall as part of the Provost's Speaker Series.

AAAS recognizes faculty members as society fellows

Four University faculty members have been named Fellows of the American Society for the Advancement of Science.

John A. Dutton, dean of the College of Earth and Mineral Sciences and professor of meteorology; **Gregory L. Geoffroy**, dean of the Eberly College of Science and professor of chemistry; **David B. Geselowitz**, distinguished professor of bioengineering and professor of medicine; and **Sridhar Komarneni**, professor of clay mineralogy, were honored as AAAS

members whose efforts on behalf of the advancement of science or its applications are scientifically or socially distinguished.

Dr. Dutton was honored "for fundamental contributions to the theoretical understanding of geophysical flows, and for leadership, insight and extraordinary service in the development of community-wide vitality in atmospheric sciences."

Dr. Geoffroy was recognized "for research in organometallic chemistry, and for leadership in the Division of Inorganic

Chemistry of the American Chemical Society."

Dr. Geselowitz was cited "for important research in theoretical electrochemistry and the artificial heart, and for contributions to bioengineering education."

Dr. Komarneni was honored "for research in fundamental and applied clay mineralogy and geologic disposal of nuclear wastes, and for pioneering studies on design and synthesis of new materials."

University Park Calendar

**February 28--
March 17**

Special Events

Thursday, February 28

Brown Bag Lunch/Roundtable discussion, noon-1 p.m., 12 Sparks. Mary Frank Fox on "Research On Women in Science and Technology."
Bach's Lunch, 12:10 p.m., Eisenhower Chapel.
Penn State Concert Choir.
School of Music, 8 p.m., Recital Hall, Lisa J. Bontrager, home.

Friday, March 1

Geog. Coffee Hour, 4 p.m., 319 Walker. Bob Begg, Indiana Univ. of Pa., on "Planning for Decline."

Saturday, March 2

Shaver's Creek, 7-9 p.m., Owl Prowl. Call 863-2000.

Monday, March 4

Spring Holiday - no classes, through March 8.

Saturday, March 9

Shaver's Creek, 2-4 p.m., Bringing Wildlife to Your Back Yard. Call 863-2000.

Sunday, March 10

Shaver's Creek, 1-3 p.m., Pa. Trees. Call 863-2000.

Monday, March 11

■ Comp. Lit. Luncheon, 12:40-1:20 p.m., 101 Kern. Philip Mosley on "Guy Vass and Flemish Identity in Belgian Francophone Writing."

Tuesday, March 12

■ Art History and Institute for the Arts and Humanistic Studies, 8 p.m., 112 Walker. Martin J. Powers, Univ. of Michigan, on "Rhetorical Dimensions of Pictures in Early China."

Wednesday, March 13

Brown Bag Lecture for faculty women, their spouses, friends, noon, 301 HUB. Dr. Milton Bergstein on "Old Definitions. New Realities."

Thursday, March 14

Bach's Lunch Concert, 12:10 p.m., Eisenhower Chapel.

Friday, March 15

■ International Lecture Series, 2:30-4 p.m., 222 Boucke. Leszek Skibniewski, Adam Mickiewicz Univ., on "Cross-Cultural Considerations in English Language Instruction in Eastern Europe."

Saturday, March 16

■ Six Feminist Scholars, 8 p.m., HUB Gallery. Coppelia Kahn, Brown Univ., on "Warriors, Wounds and Women in Shakespeare's Roman Works."

Friday, March 15

Trustees meet at Hershey, through March 16.
Geog. Coffee Hour, 3:30 p.m., 319 Walker. Brian Harty, Univ. of Wisconsin, on "Carlogography as Text for 10th-Century America."

Saturday, March 16

■ Center for the Performing Arts, 8 p.m., Eisenhower Aud. Scottish Chamber Orchestra with Christopher Parkening.

Sunday, March 17

Shaver's Creek, 8-10:30 a.m./11:30 a.m.-12:30 p.m., Bird Breakfast/Vanishing Songbirds. Call 863-2000.

Monday, March 18

Center for the Performing Arts, 3 and 8 p.m., Eisenhower Aud. "The Sound of Music."
Carnegie Hall Film Series, 7 p.m., 108 Wartik. *The Adventures of Robin Hood* (1938); 9 p.m., Billy Liar (1963). Free.

The ceramics of Ann-Use Doering will be exhibited March 4-27 in the Art Alley Cases of the Hetzel Union Building.

Public Radio

WPSU-FM 91.1

"All Things Considered," Monday-Friday, 5-6:30 p.m.; Saturday and Sunday, 5-6 p.m. Morning Edition, Monday-Friday, 6-8 a.m.; Weekend Edition, Saturday and Sunday, 11 a.m.-1 p.m. "Odyssey Through Literature," 12:30 p.m. Wednesdays, with S. Leonard Rubinstein.

Conferences

Continuing Education

Keller Building

March 5, Student Athlete Diet/Diet Drugs. M.J. Rice, chair; Chuck Herd, coordinator.

March 6, Dental Seminar. Kent Addis, coordinator.

March 7-9, Metaphysical Society of America. Stanley Rosen, chair; Jack Sinclair, coordinator.

Seminars

Thursday, February 28

Seminar, 1:25-2:30 p.m., 301 Ag Admin. Dr. Rattan Lal, Ohio State Univ., on "Are Intensive Agricultural Practices Environmentally and Ethically Sound?"

Computer Series, 2 p.m., 325 Whitmore. Robert Paige, N.Y. Univ./Coursant Institute, on "More Efficient Bottom-Up Multi-Pattern Matching in Trees."

Whitfield Lecture, 3:30 p.m., 55 Osmond. Dr. Pierre C. Hohenberg, AT&T Bell, on "Nonequilibrium Patterns."

Friday, March 1

Aerospace Engineering Computational Fluid Dynamics, 11:15 a.m., 315 Hammond. R.W. Wleziem, Illinois Institute of Technology, on "Control of Noise from Supersonic Jets."

Agromony, 3:35 p.m., 107 Ag Science and Industries. Dr. Warren Parker on "Opportunities for Increased Pasture Grazing in Pa: A New Zealand's Perspective."

Computer Science, 4 p.m., 325 Whitmore. Gianfranco Ciardo, Software Productivity Consortium, on "Analysis of Large Stochastic Petri Nets."

Monday, March 11

Entomology, 3:45-4:45 p.m., 204 Patterson. David Denlinger, Ohio State Univ., on "Insect Diapause: The Physiology of Escaping in Time."

Tuesday, March 12

Chemical/Biochemical Engineering, 2:45-3 p.m., 140 Fenske. Henrik Pedersen, Rutgers Univ., on "Manipulating Alkaloid Production in California Poppy Cultures."

Chemistry Colloquium, 3:30 p.m., 55 Osmond. Graham R. Fleming, Univ. of Chicago, on "Ultrafast Spectroscopy in Condensed Phases."

Graduate Program in Nutrition, 4 p.m., 101 Althouse Lab. Doris Lennon-Thompson, Kraft General Foods U.S.A., on "Nutrition Opportunities in Industry: Translating Research and Regulation into Real Food."

Biology, 4 p.m., 8 Mueller. Misha B. Evgen'ev, Johns Hopkins Univ., on "Heat Shock Response in Organisms Inhabiting Arid Zones."

Conserved Matter Physics, 4 p.m., 339 Davey. Dr. David Janow, Pitt., on "Scaling and the Evolution of an Interfacial Stability."

Thursday, March 14

Physics Colloquium, 3:30 p.m., 55 Osmond. David Landau, Univ. of Georgia, on "Exploring New Frontiers of Physics with Computer Simulations."

Friday, March 15

Conserved Matter Physics, 10 a.m., 339 Davey. Dr. Martin Wybourne, Univ. of Oregon, on "The Coupled Electron-Proton Systems in Metallic Microstructures."

Agromony, 1:35 p.m., 107 Ag Science and Industries. Dr. Gary Petersen on "Statewide Evaluation of Agricultural Non-Point Source Pollution Problems in Pa Using a Geographic Information System."

Exhibits

Chambers Gallery

Graphic Design and Metals, through March 15.

HUB Galleries

Art Alley Cases

James Maloney, "Metal and Clay Talisman," through March 3.

Nina Meledandri, "Espirito: An Exhibit of Photographs," through March 3.

Formal Gallery

■ Sidney D. Gumble, photographs, "China Between Revolutions: 1917-27," through March 10.

Kern Gallery

Robert O. Sherman, watercolors, through March 15.

Palmer Museum of Art

Abstracting the Landscape: The Artistry of Landscape Architect A.E. Bye, through March 30.

Pattee Library

Lending Services Gallery: Tara Johnson, pen and ink drawings, through Feb. 24.

West Lobby Gallery

Craig Yarnell, "Re-animate," through Feb. 28.

Zoller Gallery

Gender and Representation, through March 4.

■ Reflects an international perspective

Two graduates cited for role in Gulf war

Two University graduates are profiled in the Feb. 11 issue of U.S. *News and World Report* as among the top six military field commanders involved in Operation Desert Storm.

Lt. Gen. John J. Yeosock, an ROTC graduate in 1959, is army commander of almost 300,000 U.S. ground troops in the Gulf region. Gen. Yeosock was named the 1990 outstanding alumnus by the College of Engineering.

The other Penn State graduate profiled in the magazine is Lt. Gen. William "Gus" Pagnon, who serves as the Army's chief logistician in Saudi Arabia.

Gen. Pagnon earned a bachelor's degree in 1964 and an MBA in 1970. According to U.S. *News and World Report*, since August his staff has served more than 88 million meals, delivered 152 million gallons of water, pumped 152 million gallons of fuel and distributed 236,300 tons of ammunition.

Appointments

Frederick R. Eisele has been named head of the Department of Health Policy and Administration in the College of Health and Human Development. He had served as acting head of the department since last May.

Dr. Eisele joined the University staff in 1973 as assistant professor in the former Community Development program and was promoted in 1980 to associate professor of health planning and administration. He previously served as special assistant in the Department of Medicine and Surgery at the Veterans Administration Central Office, Washington, D.C.

Dr. Eisele is best known for his research on marketing in long-term health care. His funded research includes grants from the Robert Wood Johnson Foundation and the U.S. Department of Health and Human Services.

He is a fellow of the Gerontological Society of America and chaired the Public Policy Committee of the American Society on Aging. He is a member of the Academy of Health Services Marketing and the Association for Public Policy and Management.

Dr. Eisele holds a bachelor of arts degree in history and philosophy from the

University of Santa Clara and a doctorate in political science from New York University. He was a post-doctoral fellow at the Duke University Medical Center, Center on Aging.

Dorothy Ikach has been named public information and media relations specialist in the University Relations Office at the Penn State McKeesport Campus.

Since 1985, Mrs. Ikach served as secretary to the campus executive officer. In her new position, she is responsible to the regional director of development and university relations for conducting an ongoing program of public information, writing copy and providing general assistance in publishing campus brochures. She will assist in public events and with alumni programs.

Mrs. Ikach received a bachelor of arts degree in media communications from the University of Pittsburgh and an associate degree in liberal arts from the Penn State McKeesport Campus.

She is a charter member of the Golden Key Honor Society at Pitt and received the Penn State McKeesport Outstanding Alumni Award in 1985. From 1983 to 1987 she served as school director of the McKeesport Area School District.

Judith J. Kalich has been named regional director of development and university relations in the Greater Pittsburgh area.

A member of the University staff at the Penn State McKeesport Campus for 12 years, Mrs. Kalich has been director of university relations since 1986. She will continue to devote time locally, while also serving regionally. Prior to her appointment as local director, she was an admissions officer from 1978-86.

Mrs. Kalich received a bachelor of arts degree in speech communication from Penn State and a master of arts degree in counseling/student personnel from Michigan State University.

A recipient of the campus Leadership Award in 1980 and 1990, she is a member of the Council for Advancement and Support of Education (CASE) and the College and University Public Relations Association of Pennsylvania (CUPRAP).

In her capacity as regional director, Mrs. Kalich is responsible for coordinating, supervising and providing leadership for development and university relations programs at the McKeesport, New Kensington and Beaver campuses in the Greater Pittsburgh area.

Forest B. Wortham, career counselor in Career Development and Placement Services since 1982, has been appointed coordinator of off-campus living.

He is responsible for orienting new students to off-campus living, is a liaison between the students and off-campus community and coordinates the annual housing fair. In addition, he works with apartment owners and managers to ensure quality off-campus living for students.

Prior to coming to Penn State, Mr. Wortham worked as an international student adviser and as an intake coordinator and counselor at Wayne State University in Michigan, Guadalupe Boys Home in California, and the Barstow House for Girls in Michigan.

He is a member of the American Society of Training and Development and the National Association of Student Personnel Administrators.

Mr. Wortham received a bachelor's degree in French from Schiller College in Paris, France, a master's degree in guidance and counseling from the University of Detroit and a certificate in school and community psychology from Wayne State University. He currently is completing requirements for a doctor of education degree in adult education from Penn State.

Faculty/Staff Alerts

Reimbursement accounts deadline

The grace period for filing reimbursement requests for 1990 out-of-pocket expenses under the flexible benefits plan ends March 31. The three-month grace period gives participants an opportunity to claim funds they contributed in 1990 to either a health care or dependent care reimbursement account.

To be eligible for reimbursement the expense must have been incurred in calendar year 1990. An expense is considered incurred at the time the actual treatment, service or purchase takes place.

Any 1990 funds remaining in a participant's account after March 31 will be forfeited. Faculty and staff electing participation for 1991 have until March 31, 1992, to claim expenses incurred in 1991.

A health care reimbursement account provides tax savings on money spent for medical expenses not paid for by the participant's medical, dental and vision benefits. A dependent care reimbursement account provides tax savings on expenses paid for the care of an eligible dependent, allowing the participant (and spouse, if married) to work. Contributions to and

reimbursements from reimbursement accounts are not subject to federal income taxes. An additional savings of 7.65 percent of the amount contributed is realized if the participant's FICA salary is less than the social security maximum (\$51,300 in 1990).

In 1990 more than \$1.1 million in pre-tax deductions were contributed to the two reimbursement accounts at Penn State. An annual election period for flexible benefits is held each November for the following calendar year.

Bookshelf

Michael Moore, associate professor of education, is the editor of *Contemporary Issues in American Distance Education*.

The book, with chapters and introductions by **Peter Cookson**, associate professor of education; **Joe Donaldson**, associate professor of education; **Allan Quigley**, assistant professor of education; **Frances Dwyer**, professor of education, and **William Toombs**, professor emeritus of education, attempts to draw together an overall picture of the rapid growth and achievements in the field of American distance education and the problems and issues that confront it.

Private Giving to Penn State

General Motors donates \$500,000 to University

The General Motors Corp. and Foundation has announced a \$500,000 grant to the colleges of Engineering and Earth and Mineral Sciences, and to the Penn State Educational Partnership Program.

"I am honored to accept this grant on behalf of the University," President Thomas said. "Penn State and General Motors have had a long and mutually beneficial relationship, and this commitment is evidence these ties will continue to grow."

The grant will be distributed as follows:

- The College of Engineering will receive \$320,000. Of the total, \$400,000 will support scholarships for minority engineering students, and \$140,000 will be used to create a teaching innovation program designed to provide innovative curriculum offerings and to attract

quality candidates to faculty careers. The remaining \$140,000 will be used to upgrade electrical and mechanical engineering facilities and for academic and research activities.

- The College of Earth and Mineral Sciences will receive \$130,000. This amount includes \$50,000 for a Minority Development Fund aimed at attracting and retaining minority students. The remaining \$80,000 will help to build and equip a \$1.5 million laboratory for the development of advanced materials techniques, such as the vapor deposition of microscopically thin ceramic coatings and the formation of thin-film polymers.

- The Penn State Educational Partnership Program will receive \$50,000. Through the program, the University works with school districts to encourage disadvantaged students in grades six to 12 to stay in school and go on to college.

Two programs are in place — in the McKeesport and Reading school systems — and four more are planned.

"General Motors is proud to support these outstanding programs," Jan E. Tannehill, general manager of GM's AC Rochester Division in Flint, Mich., said.

"We will continue to build on the excellent relationships that exist between our organizations."

Mr. Tannehill, who was instrumental in securing the grant, said General Motors employs more than 350 Penn State alumni worldwide.

Rockefeller Foundation funds researcher

A University researcher has received a \$49,000 grant from the Rockefeller Foundation to support his study of the effects of foreign DNA on the agronomic traits of rice.

Wolfgang Schuh, assistant professor of plant pathology in the College of Agriculture, said the project's goal is to see if foreign genes trigger undesirable changes in the plants' normal characteristics, such as height, days to

maturity, and leaf length.

"The project is part of a larger program aimed at developing virus-resistant strains of rice that produce well and have traits that farmers desire," he said. "Because viruses are really foreign invaders and cause harm by parasitizing the host organisms, the identification of virus-resistant strains of rice has tremendous implications for food production in developing countries."

Addition to Palmer Museum of Art receives funds

Lobby gets \$150,000

Katherine W. Christoffers of State College has pledged \$150,000 for the construction of a two-story lobby as part of the new addition to the Palmer Museum of Art. The dramatic lobby will create a new focal point for the museum and also will serve as a gathering place for University and community functions.

Mrs. Christoffers' pledge is given as a memorial to her husband, the late William F. Christoffers, vice president emeritus for fiscal affairs. Mr. Christoffers retired from the University

in 1976 after serving on the staff for 27 years.

"I think this is a very exciting time for the museum," Mrs. Christoffers said. "Things are changing. There is a lot of excitement there."

Mrs. Christoffers has been involved in the Friends of the Palmer Museum of Art since the group was formed in the early 1970s. She served as third president of the volunteer support group and has remained active in the years since. She will serve on the newly created museum advisory board during 1991.

In addition to being long-time

supporters of the museum, the Christoffers have been supporters of the university professional theater at the University. Mr. Christoffers served as chair of the Festival Theatre Company Committee in 1984, and they both have served on the board of trustees of the theater.

In 1982 the Christoffers established a scholarship for outstanding football players at the University.

Mrs. Christoffers is a graduate of Connecticut College. She has been active in community affairs in State College and now divides her time

between this community and a home in Florida.

Mr. Christoffers was a 1943 graduate of Penn State with a degree in finance. He served as chairman of the State College Board of Central Counties Bank, secretary of the board of directors of C-Cor Electronics Inc. and on the executive committee of the Centre County United Way.

Mrs. Christoffers' gift is part of the \$5.3 million already raised toward the \$5.6-million addition to the museum. Groundbreaking is scheduled for March, with a projected opening in early winter 1993.

American art to have largest gallery

Jean and Alvin Snowiss of Lock Haven have given \$350,000 for the construction of a gallery devoted to American art in the new addition to the Palmer Museum of Art.

Named in memory of Mr. Snowiss' parents, the Benjamin and Lillian Snowiss Gallery of American Art will be the largest of nine galleries in the \$5.6-million addition.

"We look upon the museum as enriching not only the lives of Penn State students, but also the lives of all Central Pennsylvania residents," Mr. Snowiss said, explaining the gift.

"We both feel that there is nothing more American than Central Pennsylvania and Penn State. It's appropriate that this museum stress American art."

The Snowisses, who are collectors of American art, both serve on the Palmer

Museum advisory committee. Mr. Snowiss also serves on the advisory committee for the Center Gallery at Bucknell University. He is an attorney in the Lock Haven firm of Snowiss, Steinberg and Faulkner.

Benjamin and Lillian Snowiss, both from long-time Central Pennsylvania families, were active members of the Lock Haven community until their deaths in 1966 and 1989, respectively. Mr. Snowiss perfected a process for using fur in the weaving of fine textiles. He manufactured the fur for shuttles at his Lock Haven company, B. Snowiss Fur Co., which was the largest manufacturer of fur for shuttles in the world.

The Snowiss' gift is part of the \$5.3 million already raised toward the museum's addition.

Contemporary art gallery planned

Geraldine and David Pincus of Wynnewood have contributed \$250,000 to the construction of a gallery devoted to contemporary art in the new addition to the Palmer Museum of Art at University Park.

The third largest exhibition space in the addition, the gallery will feature works in the museum's permanent collection by contemporary artists, such as Alexander Calder, Willem DeKooning, Richard Diebenkorn and Philip Pearlstein.

"Great art needs to be seen by young people, so they can learn from it," Mr. Pincus said concerning their decision to fund the gallery. "Penn State has the yearnings to be in the world of contemporary art."

The Pincuses are major collectors of contemporary art and have been collecting since the early 1950s. Mr. Pincus is the CEO and chairman of Pincus Brothers, a firm in the tailored men's clothing business for more than 80 years.

A 1948 graduate of Penn State, Mr. Pincus has many interests, ranging from the homeless in Philadelphia to Third World poverty to the Philippines and has spent a great deal of time in such countries as Ethiopia and Mozambique.

He is on the board of the Philadelphia Museum of Art and is involved in many other charitable situations.

The Pincuses' gift is part of the \$5.3 million raised to date for the addition, which will double the size of the museum.

Promotions

Staff Exempt

Jeffrey Bigler-Johnson, to financial aide coordinator in Academic Services.
Charles Cary, to janitor foreman at Wilkes-Barre Campus.
Catherine A. Hanson, to University Hospital facility coordinator at Hershey.
Dorothy Kach, to public information and media relations specialist at McKeesport Campus.
Tina R. Jenkins, to assistant coordinator, radiology technology at Hershey.
Stephen G. Newburg, to janitorial foreman in Office of Physical Plant.
Sharon A. Pishak, to senior research aide in Eberly College of Science.
Diane E. Shoop, to Harrisburg office coordinator at Penn State Harrisburg.
Gale J. Siegel, to assistant director of academic affairs at Gettysburg Campus.

Staff Non-Exempt

Keith R. Diehl, to assistant publications director in Office of Business Services.

Bonnie G. Felzer, to senior records clerk in Health and Human Development.
Michael J. Madar, to computer tomograph radiation technician at Hershey.
John R. Mantione, to research technician at Hershey.
Dennis J. Schenck, to senior research technologist at Penn State Erie, The Behrend College.

Clerical

Jo Anne Archery, to clerk A at Altoona Campus.
Marisa L. Aurand, to secretary B at Hershey.
Elizabeth M. Bowman, to senior clerk at Hershey.
Lindsey M. Estright, to secretary B in Applied Research Lab.
Judith A. Hand, to secretary B at DuBois Campus.
Karen R. Hepler, to accounting clerk in Research and Graduate School.
Colleen A. Hetrick, to senior clerk at

Penn State Erie, The Behrend College.
John R. Long, to patient inquiry clerk at Hershey.
Monalisa E. Shaw, to accounting clerk in Intercollegiate Athletics.
Debra L. Swauger, to senior clerk at Hershey.
Suzanne K. Worth, to correspondence secretary B in Student Services.

Technical Service

Harold E. Beers, to preventative maintenance worker in Office of Physical Plant.
William A. Decker, to preventative maintenance worker in Office of Physical Plant.
Jeffrey Fetterhoff, to maintenance worker, utility at Penn State Harrisburg.
Henry A. Geyer, to mixer, bakery in Housing and Food Services.
James E. Graves, to electronic technician, computer system in Office of Physical Plant.

Sheran A. Heagy, to central processing aide at Hershey.
Brian C. Hostetter, to maintenance worker, general B at Hershey.
Patricia Hutchings, to dining hall worker A in Housing and Food Services.
James E. Lewis, to maintenance worker, general A at New Kensington.
Harrison E. Rodkey, to carpenter/roofer at Penn State Harrisburg.
Richard A. Rougeux, to equipment operator, waste sludge in Office of Physical Plant.
Dean R. Shirk, to maintenance worker, general B in Office of Physical Plant.
Ronald E. Shirk, to preventative maintenance worker in Office of Physical Plant.
James I. Stem, to maintenance worker, general B in Office of Physical Plant.
William Weaver, to special relief utility operator in Agriculture.
Jerry E. Winn, to special relief utility operator in Agriculture.

Penn Staters

William J. Kraemer, associate professor of applied physiology, gave a keynote address titled "Anabolic Hormones, Sports Medicine and Behavior" at the 21st Congress of the International Society of Psychoneuroendocrinology in Buffalo, N.Y.

Barbara Shannon, distinguished professor of nutrition, is President-elect of the Society of Nutrition Education.

Paul D. Simkins, professor of geography, was one of two recipients of the Pennsylvania Geographical Society's Distinguished Teacher Award.

Edward V. Williams, associate dean for research and graduate studies in the College of Arts and Architecture, has received a Grant for Independent Short-term Research from IREX for work this summer in the collections of the Glinka State Central Museum of Music Culture in Moscow.

Barbara Wisch, assistant professor of art history, presented a paper titled "Confratelli or Cardinal-Protector: Who Selected the Artists to Decorate the Oratory of the Gonalfeone in Rome?" at the annual meeting of the Art Historians of Canada at the University of Montreal.

Wilbur Zelinsky, professor emeritus of geography, and **Ronald Abler**, executive director of the Association of American Geographers and professor of geography, were two of six recipients of the Pennsylvania Geographical Society's Distinguished Scholar Award.

Jack Hayya, professor of management science, has been named a Fellow of the Decision Sciences Institute.

Edwin L. Herr, distinguished professor of education and head, Department of Counselor Education, Counseling Psychology and Rehabilitation Services Education, has received the Visiting Scholar Award of the University Council of Vocational Education.

Iam-Choon Khoo, professor of electrical engineering, presented an invited plenary talk, "Temporal Dependences of Laser Induced Optical Nonlinearities in Liquid Crystal Mesophases," at the third International Topical Meeting on Optics of Liquid Crystals, in Cetraro, Italy, and gave an invited paper, "Polarization Switching and Beam Amplification in Birefringent Nonlinear Media" at the '90 International Conference on Lasers in San Diego.

Sridhar Komarneni, professor of clay mineralogy, presented an invited lecture on "Hydrothermal Processing of Fine Powders" at Kochi University and another on "Nanocomposite Sol-Gel Processing" at Okayama University in Japan.

Samuel H. Levine, professor of nuclear engineering, has been named a Fellow of the American Nuclear Society. He also presented an invited paper at the Nuclear Society of Israel annual meeting in Israel.

Patricia J. McLaughlin, senior research

associate in the Department of Anatomy at the Hershey Medical Center, presented an address titled "Opioids, Receptors, and the Ontogeny and Dysgenesis of the Mammalian Brain" at the 17th International Congress of C.I.N.P. in Tokyo, Japan. She also presented an address titled "Naltrexone, Brain Growth, and Clinical Implications" at the International Symposium of Neurobiology of Infantile Autism in Tokyo.

John Pazur, professor of biochemistry, presented a paper on new research findings on gum arabic antibodies at the 15th International Symposium on Carbohydrate Chemistry in Yokohama, Japan.

Allan Quigley, assistant professor of education, has been appointed by the Executive Committee of the American Association for Adult and Continuing Education to participate in a select Ad Hoc Advisory Committee to identify critical issues in the field of adult education and to develop and disseminate position papers internationally.

Della M. Roy, professor of materials science in the Materials Research Laboratory and Department of Materials Science and Engineering, has been elected to the Board of Trustees of the American Ceramic Society.

Jack C. Shannon, professor of plant physiology, presented a paper, "The Activity of Enzymes Responsible for the

Interconversion of F-6-P and F-1,6-P₂ in Normal and Mutant *Maize* Endosperm," at the Archdiopsis-Rice-Starch-Amylase Conference at Nagoya University, Japan.

John Salvia, professor of special education, has been selected to serve on an appellate panel of three review officers, as provided in State Board of Education Regulations for Special Education Services and Programs.

Joseph E. Schall, an instructor in English and writing tutor in the College of Earth and Mineral Sciences, has received the prestigious Elmer Holmes Bobst Award in Arts and Letters from New York University for his collection of nine short stories titled "Intentions" and Other Short Stories.

H. Paul Shuch, professor of electronics at Pennsylvania College of Technology, has received the 1990 Doctoral Thesis Prize from the Fannie and John Hertz Foundation for his predictive model of general aviation midair collision risk.

Ceramic artist **Chris Staley**, assistant professor in the School of Visual Arts, had a one-man exhibition of his work at the Garth Clark Gallery in New York City.

Andrew Stephenson, professor of biology, has been named a distinguished lecturer at the Carol von Linnaeus Institute for Systematic Botany at the University of Uppsala, Sweden.

Research

Desert clothing Military personnel in hot weather battledress can function in heat to 102°F

University researchers have found that most military personnel wearing a standard hot weather battledress uniform coat and trousers are safe in temperatures up to 102°F Fahrenheit, provided the humidity is very low, as it is in the desert.

A recently completed eight-month study focused on the restrictions that military clothing places on a person's ability to walk in a hot environment, while maintaining acceptable heart rates and body temperatures.

"Companies like W.L. Gore and Associates Inc. are designing clothing fabrics that keep out dust, chemicals and other substances, yet allow the evaporation of some sweat to keep body temperature and heart rate lower," W. Larry Kenney, associate professor of applied physiology and the study's supervisor, said.

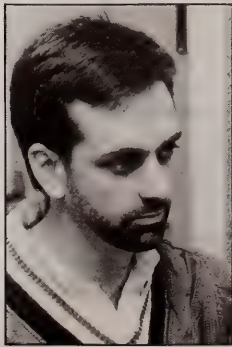

Study results are important to military officials, because personnel in Operation Desert Storm face a variety of weather and temperatures. Military personnel need outerwear that can protect them from the elements and allow them to function efficiently. This depends on the wearer's ability to maintain acceptable body temperatures and heart rates, he explained.

Usually, the first step in the testing process is putting the military uniforms on hot plates and on sweating copper mannequins to measure sweat evaporation and heat flow through the fabrics.

At the University, the researchers tested the garments on live participants. Five men and one woman participated in the tests at the Noll Laboratory for Human Performance Research.

"We put the uniforms on people who then walked on treadmills in a heat chamber with separate conditions that resembled a dry, desert area and a warm to hot jungle with high humidity," Dr. Kenney said. The bulk of the testing was done by Denise Mikita and John Yankovich, graduate students in physiology.

Two tests were conducted in each simulated weather condition, he said. In the "critical temperature" test, people clothed in the military garb walked on the treadmill for one-half hour. After that point, the temperature was increased by 2°F every five minutes, but the humidity was kept low. Subjects continued to walk for up to two hours.

W. Larry Kenney

Photo: Greg Glesco

John Yankovich puts the military's desert battledress to the test.

"As participants walked, it got hotter. We were monitoring their body temperatures and heart rate responses while looking for the point at which they could no longer maintain their body temperature," he added.

During the "critical vapor pressure test," the temperature was kept constant, and the vapor pressure was systematically increased until the point where participants could no longer maintain their body temperature, he said.

The researchers determined that a standard hot weather battledress uniform is safe to the wearer at temperatures up to 102°F and low humidity.

Adding an impermeable wet weather parka and trousers, currently being used by the military in Operation Desert Storm, lowers the safe critical air temperature to 84°.

A Gore-Tex lightweight compactible rainsuit, which can be folded to carry in a backpack, is safe in temperatures up to 94°, making it a favorable alternative to plastic rainwear, he said.

The study results are important to the military, because participants wore standard military garb. The results will help the military match the clothing ensemble to the environment and exercise conditions, Dr. Kenney said.

—Kimberley Yarnell

Students participate in extern programs with alumni

While many college students go south for spring break, some at the University are exploring the world of work, with a little help from University alumni.

"Extern programs are becoming a popular way college students nearing graduation can work alongside professionals for a few days to explore career opportunities,"

Catherine A. Simmons, assistant director for programming in Career Development and Placement Services, said.

"Our extern program not only gives students a chance to observe alumni professionals in a particular field, but also gives sponsors a chance to stay in touch with their college."

The University's program now has 65 sponsoring sites in Pennsylvania and the Northeast and is coordinated by Career Development and Placement Services with co-sponsorship by the Alumni Association and the colleges of the Liberal Arts, Arts and Architecture, Health and Human Development and the School of Communications.

Students apply through Career Services

to work with alumni in a range of professional settings from advertising and marketing, public relations, television production, museum arts management to social services, government, law firms and banking.

"Many alumni like to be extern sponsors, because it's a non-monetary way to give back to the University and a direct way to

contribute to a student's learning," Ms. Simmons said. "Some also find externships are an effective recruiting tool - several Penn State externs have received internships or full-time jobs as a result of the program," she added.

The program matches student interests to sponsors and provides students with background information about the site they

will visit. Sponsors receive information about their roles and responsibilities and the visiting student. Evaluations from both students and sponsors have been positive.

"The University is now in the process of expanding its volunteer alumni data base to increase alumni participation in particular career fields and to expand the geographic choice for students," Ms. Simmons added.

Center sponsors marital enrichment seminar

The Individual and Family Consultation Center will sponsor a weekend seminar on marital enrichment called "Relationship Enhancement," from 9 a.m. to 5 p.m. on March 16 and 17 in Room 101 Henderson Building East at University Park.

The seminar is designed to help couples build a more supportive and satisfying relationship, based on the ability to successfully deal with issues that arise from personal differences in values, needs, and opinions. Issues to be addressed include

disciplining children, spending money, communicating effectively, expressing affection and sexual needs, dividing household responsibilities, and coping with dual career issues.

Participants will learn relationship strategies and skills to help support a spouse while he or she is coping with problems at work, in the family, or with undesirable habits.

Anyone involved in a committed relationship is welcome to attend, and

couples are encouraged to come together. Satisfaction for the seminar is guaranteed. Those who feel they have not benefited can receive a prompt refund. The cost for the weekend is \$125 for an individual and \$200 for a couple.

For further information or to enroll, contact Joanne Kemper at (814) 865-1971 in the Individual and Family Consultation Center.

Staff Vacancies

The following vacancies for positions classified as staff (except on staff) are not exempt have been listed with the University Employment Division for filling. The brief statements for each vacancy are illustrative. They are not complete position descriptions. APPLY BY CALLING THE EMPLOYMENT DIVISION, 865-0304 (NETWORK LINE 433-0304). Applications for these staff vacancies will be accepted until March 6. DO NOT CONTACT THE AREA THAT HAS THE VACANCY. Applications for staff vacancies are considered in accordance with Fair Employment practices (PSS-1) and in compliance with the University's Affirmative Action Compliance Program, without regard to race, color, religion, national origin, handicap or age (as provided by law), sex, or status as a disabled or Vietnam era veteran.

■01309, Financial Officer, Corporate Controller, Berks Campus - Responsible to the director of finance, CES, and the

campus executive officer for maintenance and control of current general fund, restricted fund budgets and the interpretation and enforcement of budget policies and procedures. Coordinate financial and accounting matters with professional and clerical staff in assigned areas. Maintain liaison between Corporate Controller's Office and assigned area on all accounting matters. Requires bachelor's degree, or equivalent, in accounting with over two to four years of effective experience in accounting operations. STAFF GRADE 7.

■01310, College Health Nurse, Student Services, University Health Services, University Park Campus - Responsible to nurse manager for providing nursing services in the Observation Unit and Urgent Care Clinic and assisting licensed physicians in patient care. Requires graduation from an accredited nursing program and current licensure in the state of Pennsylvania as a registered nurse plus six to nine months

of effective experience. Past experience in an emergency room setting or an acute ambulatory care clinic is desirable. Proficiency in IV administration and physical assessment also is highly desirable. THIS IS A FULL-TIME, 10-MONTH NIGHT-SHIFT POSITION. STAFF GRADE 4.

■01311, Marketing Manager, CES, CE - Management Development Programs, Lancaster Center - Responsible to the director, Management Development Programs, for the development and implementation of sales and marketing efforts to maximize the use of Management Development Programs in the assigned territory. Requires bachelor's degree, or equivalent in marketing or related field and two to four years of effective experience preferably in marketing and selling educational programs. Frequent travel required. THIS IS A FIXED-TERM POSITION FUNDED FOR ONE YEAR

FROM DATE OF APPOINTMENT. STAFF GRADE 7.

■01312, Business Manager, University Park Campus, Center for the Performing Arts, University Park Campus - Responsible to the director, Center for the Performing Arts, and the financial officer of the College of Arts and Architecture for the financial management of both the Center for the Performing Arts and Pennsylvania Center Stage. Requires bachelor's degree, or equivalent, in business/accounting, plus two to three years effective experience in a position of comparable administrative and financial responsibility. MA or MBA degree preferred. STAFF GRADE 7.

■01313, Program Assistant, Office for Undergraduate Education, Instructional Development Program, University Park Campus - Responsible to the director, Instructional Development Program, to develop and coordinate instructional development

seminars and programs for teaching assistants. Provide consultation to departments interested in developing training programs. Requires master's degree, or equivalent, with some understanding of pedagogy. Prior college teaching experience as a teaching assistant is preferred. STAFF GRADE 6.

■01314, Research Coordinator, Development and University Relations, Development Research, University Park Campus - Responsible to the research manager for the coordination and implementation of prospect research programs supporting fund-raising activities. Requires bachelor's degree, or equivalent, preferably in humanities or library science with one to two years of effective experience in research activities. THIS IS A FIXED-TERM POSITION FUNDED THROUGH JUNE 30, 1991, WITH GOOD POSSIBILITY OF RE-FUNDING. STAFF GRADE 5.

INTERCOM is published weekly during the academic year and every other week during the summer. It is an internal communications medium published for the faculty and staff of Penn State by the Office of Public Information, Room 312, Old Main, Phone 865-7517.

Nobel laureate will give Marker lectures

Nobel laureate and University alumnus Paul Berg, Willson professor of biochemistry at Stanford University School of Medicine and director of the Beckman Center for Molecular and Genetic Medicine, will give the 1991 Russell Marker Lectures in Genetic Engineering, March 18 to 21 at University Park.

The four-lecture series, titled "Reverse Genetics: Molecular Studies of Gene Function," is sponsored by the Eberly College of Science and is free to the public.

The schedule is: "Genes and Disease," 7 p.m. Monday, March 18, 112 Chambers Building; "Targeting Modifications to Specific Mammalian Loci by Recombination," 1:30 p.m. Tuesday, March 19, 112 Buckhout Laboratory; "Nuclear Oncogene Analogues in Yeast," 1:30 p.m. Wednesday, March 20, S-5 Osmond Laboratory; and "How HIV-1 Infection May Paralyze the Immune Response," 1:30 p.m. Thursday, March 21, 112 Buckhout.

Dr. Berg, one of the principal pioneers in "gene splicing," and his colleagues Walter Gilbert and Frederick Sanger were honored with the 1980 Nobel Prize in Chemistry for developing methods that make it possible to map the structure and function of DNA.

Work on the genetic apparatus that directs the synthesis of proteins earned Dr. Berg the Eli Lilly Award in Biochemistry in 1959 and the California Scientist of the Year Award in 1963. He also has won the American Association for the Advancement

See 'Nobel' on page 3.

Faculty, staff campaign gifts to 'work harder'

Contributors to the 1990-91 Faculty and Staff Campaign will have more than the usual number of reasons to declare themselves "Penn State Proud," according to Ken Blythe, this year's chairman.

"Our gifts will have to work harder than ever before in the wake of recent budget cuts," said Mr. Blythe, who also is director

Ken Blythe

of the University's Management Services office.

"In one way or another, we dedicate ourselves to the ideals of higher education every day. Many of us take that dedication a step further and make a personal financial commitment."

Last year, he said, 3,300 faculty and staff members -- an increase of 8.2 percent over 1988-89 -- gave nearly \$900,000 to the colleges, campuses, departments or special projects, the University Libraries, scholarship funds or other areas of their choice.

The goal this year is to increase not only the total number of participants, but also the proportion of the total workforce --

currently about 18 percent -- that participates.

"The kind of support we get from faculty and staff members sets a tremendous example to alumni, friends and corporations who are asked to give to Penn State," he said. "They reason that, if a University receives significant financial help from its faculty and staff, it is the kind of place they want to help, too."

The campaign, held at the University since the early 1980s, is part of the new Annual Fund for Academic Excellence. In addition to the University Park Campus campaign, which runs until May, the University's other campuses and locations are scheduling similar efforts.

See 'Campaign' on page 3.

Special session on sexual harassment scheduled

President Thomas has invited members of the President's Administrative Policy Council, academic deans, campus executive officers and other administrators to attend a special session on the issue of sexual harassment at 11 a.m. Wednesday, March 20, in Keller Auditorium at University Park.

The session will kick off a three-day workshop focusing on addressing sexual harassment at the University.

Sexual harassment has been recognized as a problem on university campuses across the United States. Some surveys have reported that from 70 to 92 percent of women and up to 57 percent of men in the population have experienced at least one form of unwanted sexual attention and had reacted negatively to it.

Institutions also can incur substantial legal liability if problems of sexual harassment are not resolved quickly and fairly. One large midwestern university recently

paid fines and other costs of more than \$5 million as a result of a sexual harassment charge which had gone unresolved.

Stephen Anderson, a nationally recognized expert in this area, will conduct a training program at the University, under the sponsorship of the Affirmative Action Office and the Office of Human Resources.

Sexual harassment contact persons have been named in each academic and administrative unit, as well as for each campus location. This network is intended to provide prompt and knowledgeable access to a sexual harassment resource person.

The 85 individuals, located throughout the University, can help address sexual harassment concerns at the most immediate level. These contact persons will be attending sessions on March 20 and 21 to prepare them for their role in addressing problems which come to their attention

An additional 22 staff members will be attending another session lead by Mr. Anderson on March 22 to sharpen their skills as trainers on the issue of sexual harassment. These individuals will then be prepared to offer training programs, assisted by contact persons, throughout the University, upon request by individuals or units.

A new brochure defining sexual harassment and providing some examples of behavior which may constitute sexual harassment also has been developed. The brochure includes a listing of all contact persons and offers suggestions for those who may be experiencing problems.

Bonnie Ortiz, director of the Affirmative Action Office, will introduce the brochure March 15 at a meeting of the University Board of Trustees.

Focus on Diversity

Range of programs planned for Women's History Month

Women's History Month celebrations are taking place throughout the University during March. A wide range of programs has been arranged in honor of women.

Following is a list of campuses and events.

Allentown: Tuesday, March 19, Elizabeth Parr, Allentown/Bethlehem Birth and Midwifery Center, will discuss the history of midwives and the resurgence of the practice. Wednesday, March 27, film, "Emily Dickinson: A Certain Slant of Light," focusing on the poet's life. Both brown bag luncheon programs will be held at noon in the Academic Building.

Altoona: the art exhibit "A Woman's Journey" by San Francisco abstract painter Ethel Hersh is on display in McLanahan Gallery through March.

Penn State-Behrend: Tuesday, March 19, 8 p.m., Read Lecture Hall, Judy Goldsmith, former president, National Organization for Women, will discuss "Women in America: The Invisible History."

Great Valley: an exhibit of handmade American quilts by the Hearthside Quilters is on display through March; Tuesday, March 19, noon to 2 p.m., brown bag luncheon, Margot Badran, a Fellow at the Annenberg Institute, will discuss "Gender and War: A Look at Arab Women"; Friday,

March 22, 6 to 8 p.m., Penn State Internationale Dancers.

Hershey: Medical Center Library exhibit throughout March - "Nurturing, Tradition, Fostering Change," featuring artifacts used by early women physicians, by women in war and by women in nontraditional fields.

New Kensington: Thursday, March 14, 5:30 p.m., dinner program, "An Evening to Celebrate Women: A Tribute to Special Friends and Alumnae," featuring Lenore Cameron, director, Bureau of Women's Business Development, Pennsylvania Department of Commerce, and Marianne Cornetti, mezzo-soprano, Pittsburgh Opera.

Shenango: Friday, March 15, noon, Harriett L. Guido, mental health counselor, Associates in Mental Health, will speak on "Isues Women Face at Midlife". Cross-cultural photographic exhibit of more than 40 "women who have achieved" will be on display in the main administration building during March.

University Park: Penn State Bookstore on Campus has a display of more than 300 books written by and about women.

Thursday, March 14, 7:30 p.m., 101 Kern Building, Angharad Valdivia, assistant professor of communications, will speak on "Women in the Press in Revolutionary Nicaragua."

March 14, 8 p.m., Hetzel Union Building Gallery, Coppelia Kahn, professor of English, Brown University, will discuss "Warriors, Wounds and Women in Shakespeare's Roman Works."

Saturday, March 16, 9 a.m. to noon, 101 Kern, Jean Thiebaut, National Science Foundation visiting professor of meteorology from U.S. National Meteorological Center, will present a career workshop for undergraduate women in math, science and engineering.

Monday, March 18, 7 p.m., Paul Robeson Cultural Center, Michele Wallace, assistant professor of English and black studies, City College of New York, will discuss "Invisibility Blues: Black Feminism and Cultural Resistance."

Wednesday, March 20, 8 p.m., 101 Kern Building, E. Ann Kaplan, director, Humanities Institute, State University of New York, will discuss "Images of Sexuality in Recent Films and MTV."

Thursday, March 21, Chezia Thompson Gager, actress and poet, will read from her work "Jumping Rope on the Axis: A Collection of Poems, 1978-1988." Call 863-4025 for time and location.

Monday, March 25, 8 p.m., Hetzel Union Building Assembly Room, James T. Sears, University of South Carolina, will speak on "Growing Up Lesbian and Gay in

the U.S. South."

March 25, through April, Rare Books Room, Pattee Library, exhibit, "Women in the Middle Ages."

Tuesday, March 26, 8 p.m., Paul Robeson Cultural Center, Vinie Burrows will present a performance piece about women of color, "Daughters of the Sun," which will include Caribbean-American, Chicana-American, Native American and African-American women.

Wednesday, March 27, brown bag luncheon, noon, 120 Boucke Building, Wanda M. Davis, assistant director, Office of Conduct Standards, will present a video, photographs and memorabilia from her tour of three universities in Ghana, West Africa.

March 27, 7:30 p.m., HUB Assembly Room, Faith Ringgold, African-American mixed-media artist who creates painted quilts, will give a slide presentation and lecture titled "My Work, My Life."

Wilkes-Barre: Friday, March 15, noon, Commons Building, film, "Music Box," starring Jessica Lange; Tuesday, March 19, noon, Center for Technology, video, "Women, The New Immigrants," by Gloria Steinem; Thursday, March 21, noon, Center for Technology, panel discussion led by Phyllis Belk, director of marketing and university relations, on the Steinem video.

Program sponsors annual academic bowl

To celebrate African-American/Black-American achievements, six middle schools competed in the third annual Academic Bowl at the Penn State McKeesport Campus on Feb. 21. The games were sponsored by the Penn State Educational Partnership Program at McKeesport.

Each school was represented by five seventh and/or eighth grade students selected by the school's administration and/or faculty. The competition followed an elimination format, ultimately leading to a single winning team.

According to Darrell Thomas, PEPP director, the Bowl concept promotes teamwork, studying for retention, rewards for academic excellence, early intervention, and the importance of Black Americans' contributions to society.

"Additionally, I am very pleased that the

Middle School Academic Bowl has expanded to Harrisburg, sponsored by Penn State's Harrisburg Community Recruitment Center, and will soon be introduced in the Philadelphia area," Mr. Thomas said.

Mr. Thomas said he hopes to extend competition throughout Southwestern Pennsylvania. With the participation of the Aliquippa school district in the local contest this year, future plans are to include other Beaver Valley schools in a competition hosted by the Penn State Beaver Campus.

"Ultimately, I hope that the Academic Bowl develops into a statewide competition with a playoff system in which an Academic State Champion can be named." Prizes were furnished through Penn State McKeesport Equal Opportunity Program Committee grant funds. Each participant received a Penn State sweatshirt.

'Caribbean Experience' is scheduled

The Penn State Caribbean Students Association will celebrate its 14th annual "Caribbean Experience" with an evening of dinner, dancing and entertainment beginning at 5:30 p.m. Saturday, March 23, in the Hetzel Union Building Ballroom at University Park.

The dinner will include a six-course menu from which patrons can choose Caribbean dishes such as jerk chicken, curry goat, peas and rice, and Creole soup.

The Mighty Chalkdust, winner of the Trinidad and Tobago Carnival Calypso Monarch competition, will perform a calypso medley, and Ian Briggs will give a

solo performance on the steel pan. Skits and folk songs will be performed by members of the Caribbean Students Association. Reggae, calypso and soca music will be provided for dancing until midnight.

Tickets are \$10 for adults and \$5 for children. Part of the proceeds will help establish an annual scholarship fund. Tickets are limited and patrons are urged to purchase them in advance. For more information and to order tickets, contact Caribbean Students Association president Althea Williams at 867-4185, or call the Paul Robeson Cultural Center at 865-3776.

Graduate fellowships are being offered

The University is offering graduate fellowships to Native American Indian students interested in training to be special educators.

The deadline for submitting applications is May 15 for fall semester 1991 and Nov. 15 for spring semester 1992. Participants in the program receive a monthly stipend of approximately \$650, remission of tuition, and textbook, dependency, and relocation allowances.

The American Indian Special Education Teacher Training Program, established in 1983 through a grant from the U.S. Department of Education, offers a specific

course of study geared toward Native American Indian students. The program is designed to prepare American Indians to effectively teach children identified as having mental or physical handicaps requiring special educational programs.

Anna Gajar, associate professor of special education, is director of the program which is affiliated with the University's nationally recognized Native American Program. Applications are now being accepted. For more information, contact Dr. Gajar, 226B Moore Building, University Park, Pa. 16802, or call the program office at (814) 863-2284.

Diversity Opportunities Calendar

Friday, March 15

The Latin American Association, 9 p.m. to 1 a.m., Ag Arena Mezzanine. Latin American Dance Party featuring music by "The Passports."

Monday, March 18

Black Caucus/Black Studies, 7 p.m., Paul Robeson Cultural Center, Michele Wallace, City College of New York, on "Invisibility Blues: Black Feminism and Cultural Resistance."

Wednesday, March 20

Center for Women Students, noon to 1 p.m., 120 Boucke Building. Brown bag lunch presentation titled "Women and Spirituality: Implications of a Male Deity" by Kay Washlow.

Women's Studies Program, 8 p.m., 101 Kern Building, E. Ann Kaplan, State University of New York, on "Images of Sexuality in Recent Films and MTV."

University Faculty Senate report details salary gap

The gap between average salaries for male and female faculty members continues to widen, even as a greater percentage of the salary disparity can be "explained," according to a report presented at the Feb. 19 meeting of the University Faculty Senate.

At University Park, the average salary for male faculty members is \$49,505, compared with the average of \$33,475 for female faculty members. The difference, 47.9 percent as of fall 1989, has increased since a similar study was done in fall 1983. Then, the disparity in the average female salary was 40.1 percent.

All but 2.2 percent of the disparity can be explained by the distribution of males and females across ranks and departments; the distribution of department heads, Evan Pugh professors, endowed chairs and faculty initially appointed at the professor rank; the distribution of tenure, years of service and years in rank, among other factors.

Presented by the Senate Committee on Faculty Affairs, the report documents differences in faculty salaries based on gender, location and minority status. It continues earlier analyses, as well as expands into new areas. The Office of Planning and Analysis prepared the report.

President Thomas said he is committed to examining issues affecting salaries. He discussed the importance of looking at the differences that cannot or have not been explained and then working either to explain or eliminate some of them.

He also questioned the extent to which market forces should affect salaries, noting that further study is needed of the criteria and qualities other than market forces that are considered in salary decisions.

The committee's report also looked at average salaries for minority faculty members at University Park, the Commonwealth Campuses, Penn State Erie, The Behrend College, Penn State Harrisburg, Great Valley and Hershey

Medical Center. The average minority salary of \$42,383 was 2.33 percent higher than the average non-minority salary of \$41,395.

In addition, the report looked at salary differences between University Park and Commonwealth Campuses and found a gap of \$14,498, or 45.7 percent. Most of the disparity, 79.3 percent, can be explained by rank.

In other action:

The Committee on Academic and Physical Planning reported on patterns of usage of general purpose classrooms at University Park.

Since fall 1961, when there were 236 classrooms designated as "general purpose," the number of such classrooms has increased 12.3 percent to 265, while enrollment has grown 123 percent (from 17,407 to 38,799).

The completion of the Agricultural Sciences and Industries Building with its four classrooms and the new classroom/

office building (to be ready in 1992) with its 28 classrooms (four large and 24 small rooms) will help ease the squeeze on classroom space. However, these buildings will account for a net gain of only 15 classrooms, since classroom space in other buildings will be adapted for other uses.

The Senate approved legislation changing the signatures required for late adding of courses, which will be sent to the President's Office for consideration. Current policy requires the signatures of the course instructor and the dean of the college in which the student is enrolled or the director of the Division of Undergraduate Studies to add a course after the 10th calendar day of the semester.

The legislation would eliminate the dean and/or director's signature and require the student to get a signature from an adviser instead.

The Committee on Libraries invited Nancy M. Cline, dean of University Libraries, to report on the libraries.

GENDER DIFFERENCES IN FACULTY SALARIES FALL 1989

	University Park	CWC	Behrend	Capital	Hershey
Average Male Salary	\$49,505	\$32,875	\$40,575	\$41,621	\$48,511
Average Female Salary	\$33,475	\$29,675	\$31,093	\$35,781	\$38,187
Overall Gender Difference	\$16,030	\$4,200	\$9,482	\$5,840	\$10,324

Faculty Senate News

The University Faculty Senate will meet at 1:30 p.m. Tuesday, March 19, in 112 Kern Graduate Building at University Park.

Items to be discussed at the meeting:

- Proposed Changes in Senate Policy 67-00
- Women's Intercollegiate Athletics
- Clarification of the Three-Credit Writing-Intensive Requirement
- Affirmative Action Report: Center for Minority Graduate Opportunities and Faculty Development, Affirmative Action Office Report
- Ombudsman: The Concept of Ombudsman at Penn State
- Grade Distribution Report
- Report of the Special University Faculty Senate Committee to Review President Thomas' Proposed Amendment to the University's Non-Discrimination Policy
- Roster of Senators for 1991-92

- Senate Council Nominating Committee Report
- Committees and Rules Nominating Committee Report
- Revision to the Senate Constitution, Bylaws and Standing Rules
- Change in Constitution, Article II, Section 5

Items discussed Feb. 19:

- Patterns of Usage of General Purpose Classrooms at University Park
- Status of Construction Programs
- Late Adding of Courses
- Revision to the Senate Constitution, Bylaws, and Standing Rules
- Change in Constitution, Article II, Section 5
- Guidelines for Submitting Writing-Intensive Course Proposals
- Faculty Salaries - Analysis of Gender, Location and Minority Status Differences in Salaries
- State of the Libraries

Campaign

Continued from page 1.

Solicitation materials will be mailed to University Park faculty and staff on March 18. In order to save money and cut waste, Mr. Blythe said that the minimum amount of material was included in the packet.

"We know first-hand of the greatest needs. It's important to realize that we have the freedom to help to meet those needs through this effort. And, it's painless to give through a payroll deduction.

"We must, as President Thomas has said, do everything possible to protect the quality and integrity of Penn State's academic programs. Now, more than ever, we each need to consider our financial commitment to the University that gives so much to us," Mr. Blythe said.

Carpoolers

An employee is looking for a fourth person to join her carpool from Philipsburg to University Park. Work hours are 8 a.m. to 5 p.m. Call Valerie at 865-2165.

Tim is looking for two riders to join his vanpool from Philipsburg to University Park. Work hours are 8 a.m. to 5 p.m. Call 865-6524 or 342-3827.

Robert would like to carpool from Newry/Duncansville area to Altoona Campus. Work hours are 8 a.m. to 6 p.m. Call (814) 695-5215.

Eric needs a ride from Bellwood to University Park. Work hours are 7:30 a.m. to 4:30 p.m. Call 865-3405.

Nobel

Continued from page 1.

of Science Scientific Freedom and Responsibility Award, the National Medal of Science, and the National Library of Medicine Medal.

He earned his bachelor's degree at Penn State in 1948 and his doctoral degree at Western Reserve University in 1952. In 1974, he was named a Penn State Distinguished Alumnus, and in 1976, he served as an Alumni Fellow.

In addition to the Marker Lectures, he also has delivered the University's Paul Althouse Memorial Lecture and the 1978 Priesley Lectures.

The Marker Lectures were established in 1964 through a gift from Russell Marker, professor emeritus of chemistry.

Paul Berg

Career development open house to showcase new center

The University's Career Development and Placement Services (CDPS) will hold an open house on the fourth floor of Boucke Building at University Park from 2 to 6 p.m. Thursday, March 21.

Featured will be the new Interview Training Center, which is a gift of the State of 1988.

"We want to use the open house to showcase the Center, which is now being used by students," Jack Rayman, director of Career Development and Placement Services, said.

According to Dr. Rayman, the Center was made possible through the 1988 Senior Class gift of \$10,000, and also was supported by a Placement Services grant of \$15,000 from the Prudential Corp.

He said that the Center, located in 410 Boucke Building, has been designed to provide a multimedia approach to career development and implementation.

Among its features are a personal computer for direct student use of the DISCOVER and SIGI PLUS computer-assisted guidance programs; video playback units; and a permanent studio in which mock interviews are conducted.

"The studio has become a very important part of our facilities," Dr. Rayman said. "In our mock interviews, seniors majoring in

Julie Matijko (left) and Louise Schaffer conduct a mock interview in the new Interview Training Center. (Photo: Greg Grieco)

industrial organizational psychology act as interviewers. The interviews are taped and students can then play back the tape and assess their performance. The process has been very productive."

In addition to the interview training center services, CDPS offers a wide range of career/life-planning assistance for all students and alumni, including career counseling, computerized guidance and

assessment, career-planning courses, outreach programming, a career information center, on-campus recruiting, a placement library, education career services, and alumni career services.

During 1989-90, for example, CDPS:

- Provided counseling services to more than 10,000 students.

- Delivered a record number of 370 outreach programs to more than 17,000 students.

- Served a total of 10,022 clients.

- In the on-campus recruiting program, 5,433 students registered for interviews with 1,150 organizations, resulting in 28,162 interviews.

As part of the March 21 open house, members of Career Development and Placement Services' Student Advisory Board will conduct tours of facilities in Boucke Building, as well as the Interview Center located on the ground floor of McAllister Building. CDPS staff also will be available to discuss the office's programs and services.

"Since we rely on faculty and staff members to refer students to us," Dr. Rayman said, "we're hoping that a large number of them will take advantage of the open house to examine our services and facilities."

Bookshelf

Introduction to Seismological Research: History and Development by Benjamin F. Howell Jr., professor emeritus of geophysics and associate dean emeritus of the Graduate School, has been published by Cambridge University Press.

The book is divided into four periods: a

mythological period previous to the Lisbon, Portugal, earthquake of 1755; an observational period from 1755 until the development of recording seismometers late in the 19th century; an instrumental period during which the Earth interior was explored by studies of recorded seismic waves; and a modern, computerized period that began with the development of the digital computer.

William C. Tierney, associate professor and senior research associate in the Center for the Study of Higher Education, is editor of *Culture and Ideology in Higher Education: Advancing A Critical Agenda*, published by Praeger Publishers, New York, N.Y.

Culture and Ideology in Higher Education is an invitation to rethink some of the most basic assumptions of higher education. The essays demonstrate that researches have

often concentrated on issues of effectiveness and efficiency in academe, rather than issues of social justice and democracy.

Within the framework of the book, a number of chapters deal with how those in power insert their ideas into academe. Other chapters uncover a politics of hope, and of possibility.

Appointments

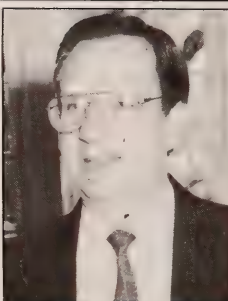

Dan Fitzgerald, Continuing Education area representative at the Penn State Ogonitz Campus, has been appointed assistant director of continuing education at the campus.

A graduate of Temple University, with a bachelor's degree in education and master's in social administration, Mr. Fitzgerald currently is pursuing work on a doctorate at the same institution. Prior to joining the staff at Ogonitz, he served as director of careers/counseling at Holy Family College, Philadelphia.

Mr. Fitzgerald began his career at Ogonitz in 1976 as a part-time Continuing Education vocational counselor and was promoted to area representative in 1983. In 1988 he received the Philadelphia Regional Award for managing the largest C.E. credit course account, and in 1989 was named Outstanding Area Representative.

Active in community affairs, he served as Ogonitz 1990 United Way campaign chair, and devotes many hours to volunteer work with local school and athletic associations.

Gerald I. Sussman, holder of the Robert and

Dan Fitzgerald

Judith Klein professorship in management, has been appointed to a four-year term as

Elizabeth Smith

chair of the Department of Management and Organization.

He succeeds Charles C. Snow, professor

of business administration, who is completing his second term as department chair.

Dr. Sussman is founder and director of the Center for the Management of Technological and Organizational Change, a research arm of the Smeal College of Business Administration.

Elizabeth Smith has been named librarian at Penn State Erie, The Behrend College.

She will be responsible for overall library administration, ensuring that the research and educational needs of Penn State Behrend faculty, staff and students are met.

A Ph.D. graduate of the University of South Florida, she holds two master's degrees - one in library science and one in zoology. She is a member of the American Library Association, the Association for Library and Information Science Education, the Polish Institute of Arts and Sciences of America and the Smithsonian National Association.

Dr. Smith formerly served as reference librarian at the University of South Florida in Tampa.

Vocational education center relocated at McKeesport

The Center for Special Vocational Education Services in Pennsylvania has been relocated at the Penn State McKeesport Campus. The Center previously was located at Indiana University of Pennsylvania.

The Center provides support services statewide to instructors, administrators and other personnel in vocational education who work with individuals with special needs.

The group's activities are funded through monies from the Carl D. Perkins

Vocational Education Act and are coordinated with the Pennsylvania Department of Education.

"We are pleased to have been selected as a Vocational Education Center to deliver the services funded by the grant," Cash J. Kowalski, campus executive officer, said. "This concept is in keeping with the Campus' strategic plans and commitment to extend our services to our community."

Eleanor Bicanich, project director, said the Center was initiated in 1980 to address the needs of students who are disabled,

academically and economically disadvantaged or who have limited-English proficiency. The Center trains instructors to meet the needs of these diverse special populations.

"The needs of our diverse population place increased demands on education and industry," Ms. Bicanich said. "We assist educators in vocational education as they train, assist and prepare individuals to become productive employees in the workplace."

These groups include 53 single parent/

displaced homemaker centers, 26 equity programs and 324 additional support programs for disabled and disadvantaged students conducted by area vocational technical schools, comprehensive schools and intermediate units throughout the Commonwealth.

"We are happy to be located at Penn State McKeesport and are excited about working with the campus to expand vocational education services and opportunities in this area," Ms. Bicanich said.

News in Brief

International Lecture Series

Leszek Skibiński, assistant professor, Institute of English, Adam Mickiewicz University, Poznań, Poland, will speak on "Cross-Cultural Considerations in English Language Instruction in Eastern Europe" from 2:30 to 4 p.m. today in the International Lounge, 222 Bouckee Building. His talk is part of the International Lecture Series.

Child care forum

The Returning Adult Student Center, in cooperation with the Graduate Student Association and the Office of Child Care Services and Programs, is sponsoring a forum on "Campus Child Care: Issues and Answers" at 7 tonight in 117 Henderson Building. Child care is available in 24 South Henderson.

Representatives from the Office of Child Care Services and Programs, the Centre County Child Development Council, the Pennsylvania Department of Public Welfare, student organizations, and other University offices will be present.

Panel discussion canceled

A panel discussion focusing on coping with war stress that was set for 9:15 to 11 a.m. Friday, March 15, in the HUB Fishbowl has been canceled.

Office move

The administrative offices and laboratories of the Energy and Fuels Research Center of the College of Earth and Mineral Sciences have moved to Research Building E and Academic Projects. The new address of the Center is 205 Research Building E. Telephone numbers will remain the same as those listed in the current Faculty/Staff directory.

'Pennsylvania Chronicle'

The political and human effects of the 1990 national census will be the topic of discussion on "Pennsylvania Chronicle," airing on PENNARAMA on Tuesdays and Fridays at 2 and 8 p.m./a.m.

Host Bill Welch discusses the ramifications of the latest national census with Gordon De Jong, an expert in

demographics with the Department of Sociology.

Computer conference

State-of-the-art computer technology will be featured at the Microcomputer Information Exchange Conference, educational tools exhibit and computer fair March 15 and 16 at University Park.

To register for sessions on desktop publishing, interactive video and creating animated instruction, call Donna Ricketts at 863-1743.

The free educational tools exhibit will be held both days in the Keller Conference Center lobby. The free computer fair also will run concurrently. It will be held at the Nittany Lion Inn Friday from 11 a.m. to 6 p.m. and Saturday from 9 a.m. to 3 p.m.

Penn College open house

"A World of Possibilities" is the theme of Pennsylvania College of Technology's Open House '91, set for noon to 4:30 p.m. Sunday, March 17, at the College's main campus in Williamsport, its Earth Science Center along Route 15 in Allenwood, and its Aviation Center, located at the Williamsport-Lycoming County Airport in Montoursville.

WPSU fund-raiser

WPSU, the University's public radio station, raised a record \$10,050 in a recent on-air fund-raising drive.

Pledges from listeners exceeded the station's goal of \$10,000. The money will be used for programming and new equipment purchases, and to supplement the station's operating budget, according to station manager David Drzikowski.

Gulf War lecture

Arthur Goldschmidt, professor of Middle East history, will discuss "The Gulf War: A Historic Look at the Future" at 7:30 p.m. Monday, March 18, in Room K-1, Kostos Classroom Building, at the Penn State Hazleton Campus.

Agricultural economy conference

The College of Agriculture will hold a conference on Pennsylvania's

Agricultural Economy: Trends, Issues and Prospects March 20 and 21 in the Keller Conference Center at University Park.

The conference will feature discussions on environmental issues related to agriculture, the effect of international trade agreements on the agricultural economy, food and health issues for consumers and other topics.

Beaver Campus lecture

Sandra Featherman, director, Center for Public Policy at Temple University, will present a lecture on "The History of Women and Body Image" at noon Wednesday, March 20, in the Library Seminar Room at the Penn State Beaver Campus.

Her lecture is part of the campus' ongoing 25th anniversary celebration.

Weight room orientation

The Recreational Sports Fitness Program is offering weight room orientations for faculty/staff at University Park who are interested in learning to use the weight rooms on campus. Each orientation session is scheduled one-on-one at the employee's convenience.

To receive a registration form or additional information, call the Recreational Sports Office at 865-5401.

Fulbright Informal Lecture

Kodangala Ramachandrarao, visiting Fulbright scholar and chairman, Department of Studies in Education, Karnatak University, Dharwad, India, will speak on "The Nature and Plight of Creativity" at 3:30 p.m. Thursday, March 21, in 222 Bouckee Building, University Park.

The lecture is part of the Fulbright Informal Lecture Series sponsored by the University Office of International Programs.

Faculty Technology Initiative

Faculty members are invited to submit proposals for teaching and learning technology projects for the spring 1991 cycle of the Faculty Technology Initiative Program sponsored by CREL Training and Learning Technologies

Group, a unit of the Center for Academic Computing.

Faculty members are encouraged to submit ideas for projects that focus on information technology integration into course materials, identification or development of software packages that support learning, or other technology projects that support teaching and learning.

For proposal packets, call 863-1654. The proposal deadline is March 25.

Max Kade visiting professor

The German Department is hosting Wulf Segebrecht from the Otto-Friedrich Universität Bamberg, Germany, as Distinguished Max Kade Visiting Professor for Spring Semester.

The visiting professorship is funded by the Max Kade Foundation, New York, and the College of the Liberal Arts.

Mozart lecture series

Cecilia Dunoyer, concert pianist, will present a series of three lectures titled "Discover Mozart" in conjunction with the "Mozart 200" concert celebration of the Center for the Performing Arts.

The lectures will be Wednesday evenings at the Keller Conference Center from 7 to 9 p.m. on March 27, April 10, and April 24. The cost per session is \$30.

For more information or to register, contact State College Area Office of Continuing Education, 102 Wagner Building (865-3443).

'Penn State Day in Harrisburg'

The third annual "Penn State Day in Harrisburg" is scheduled from 11 a.m. to 2 p.m. Friday, April 19.

Activities include an open house and tours of the Penn State Downtown Center, workshops for the returning adult student, and the "Penn State Fair."

Programs and departments are invited to have a display at the fair. There is no charge for display space. To participate in the fair, contact Nancy Kartik by Friday, March 29, at the Penn State Downtown Center, 234 N. Third St., Harrisburg, Pa. 17101, (717) 783-0433.

Focus on the arts

'Singing Lions'

The Singing Lions, a show choir specializing in 20th-century American pop music, will perform in concert at 12:10 p.m. today in the Eisenhower Auditorium at University Park. The 20-minute concert is part of the Bach's Lunch Concert Series sponsored by the School of Music and the University Lutheran Parish.

Guest artist

Classical guitarist Christopher Parkening will be guest artist with the Scottish Chamber Orchestra at 8 p.m. Friday, March 15, in Eisenhower Auditorium at University Park.

The concert, presented by the Center for the Performing Arts, fuses the talents of Finnish conductor Jukka-Pekka Saraste and the Scottish Chamber Orchestra with a featured performance by this American virtuoso.

As part of Artistic Viewpoints, a free lecture series for the audience, Taylor Greer, assistant professor of music, will speak at 7 p.m. in the Eisenhower Greenroom immediately before the performance.

'The Sound of Music'

"The Sound of Music," a new production from the New York City-based Music Theatre Group Inc., will be presented at 3 and 8 p.m. Sunday, March 17, in Eisenhower Auditorium at University Park. The event is presented by the Center for the Performing Arts.

Starring Mary Martin in 1959, "The Sound of Music" won eight Tony Awards, including Best Musical. It then became one of Rogers and Hammerstein's most popular musicals, with Julie Andrews starring in the film version (1965).

For tickets, call the Eisenhower Auditorium Ticket Office at 863-0255.

Piano recital

Pianist Koya Ohmoto will present a free

Tito Puente's ensemble will perform at 8 p.m. March 27 in Eisenhower Auditorium.

concert at 8 p.m. Sunday, March 17, in the School of Music Recital Hall at University Park.

She will be assisted on the program by Katsuko Ochiai, piano; Lois Durran, violin; and Claudia Koide, cello. The Sylvan Trio, consisting of Ms. Ohmoto, Ms. Durran and Ms. Koide, also will perform.

The arts on Channel 3

WPSX-TV celebrates opera and opera greats on Sunday, March 17, beginning with *Placido: A Year in the Life* at 11:30 a.m. The program follows the famed Spanish tenor Placido Domingo as he sings in the major opera houses of the world.

Luciano Pavarotti's powerful presence never falters in *Distint Harmony: Pavarotti in China*, airing at 12:35 p.m. The concert offers a repertoire of Italian opera, as well as a candid view of Chinese culture.

At 2:30 p.m., Mr. Pavarotti returns in *Great Performances* "Pavarotti Returns to Naples" with a trip to Italy to paint a

portrait in song of the crowded seaside city on the slopes of Mt. Vesuvius.

Pavarotti World Cup, airing at 7:30 p.m., presents a rousing concert before the World Cup Soccer Championship. The opera finale features Carreras, Domingo and Pavarotti in *Concert* at 9:15 p.m. in a U.S. television premiere. The grand ruins of Rome's Baths of Caracalla are the setting for the events. Zubin Mehta conducts the orchestra as Jose Carreras, Mr. Domingo and Mr. Pavarotti perform in concert.

Brown bag luncheon

Thomas Smith, associate professor of English at the Penn State Schuylkill Campus, will discuss "Joseph Conrad's *Autobiography and Ritual Violence*," as part of the Comparative Literature brown bag luncheon series at 12:15 p.m. Monday, March 18, in Kern Building at University Park.

Those interested in attending the lecture only should arrive before 12:45 p.m. Coffee and tea will be provided.

'Art of Interpreting'

Margaret Conkey, associate professor of anthropology, University of California at Berkeley, will speak on "Paleovisions: Interpreting the Imagery of Ice-Age Europe" at 8 p.m. Tuesday, March 19, in 112 Walker Building at University Park.

The lecture is part of "The Art of Interpreting" series sponsored by the Department of Art History and the Institute for the Arts and Humanistic Studies.

Book-signing

Londa Schiebinger, assistant professor of history and women's studies, will be the featured author at the Penn State Bookstore on campus from noon to 2 p.m. and discuss her book *The Mind Has No Sex? Women in the Origins of Modern Science* (Harvard University Press, 1989).

The Mind Has No Sex? will be offered at a 20-percent discount during the book-signing session.

University Readers

The University Readers will hold auditions for this semester's performances on Wednesdays, March 20 and 27, at 1:25 p.m. in 201 Rackley Building and at 7:30 p.m. in 3 Borland Lab at University Park. On March 20th, auditions will be held for three children's stories to be performed April 11 and 13 at Schlow Memorial Library.

On March 27, auditions will cast three stories for performances in the HUB Gallery Lounge April 19 and 20.

Auditions, which will consist of readings from scripts provided by the directors for each performance, are open to students and local residents.

Odyssey on WPSU

On "Betraying the Novel," the next episode of "Odyssey Through Literature," Lillian Furst of the University of North Carolina at Chapel Hill and host Leonard Rubinstein discuss how one should read -- and teach -- a novel.

"Odyssey Through Literature" is produced by the Department of Comparative Literature in the audio-production studios of WPSX-TV. It airs Wednesdays at 12:30 p.m. on WPSU, 91.1 FM.

Undergraduate art

A juried exhibit featuring the work of undergraduate students in the School of Visual Arts and at the Commonwealth Campuses will be on display from March 21 to 29 in Zoller Gallery at University Park.

James Gilroy and Gary Pelky, co-owners and directors of the Owen Patrick Gallery in Philadelphia, served as jurors for the exhibit. They selected 65 works, including paintings, drawings, ceramics, metals, sculptures, photographs, prints and graphic design.

An opening reception will be held from 2 to 4 p.m. Thursday, March 21.

See 'Arts' on page 8.

The arts at...

Ogontz Campus

The Penn State Ogontz Campus will host a showing of three-dimensional works by four featured Delaware Valley artists: Hugo Anderson, sculpture; Kris Parker, fibers; Betsy Miraglia, paper; and Annette Tannenbaum, mixed media, from March 15 through April 5.

Beaver Campus

The nationally recognized Central State University Chorus of Wilberforce, Ohio, will present a free concert at the Penn State

Beaver Campus at 7:30 p.m. Friday, March 15, in the gymnasium.

The concert is one in a series of Beaver Campus events designed to highlight the various dimensions of black heritage in our communities.

Penn College

Circuitry Circus, an educational puppet musical from Dinorock Productions, will be performed at 11 a.m. and 3 p.m. Saturday, March 16, in the Academic Center Auditorium at Pennsylvania College of

Technology. The show concludes Penn College's Spring Children's Series.

Altoona and Fayette

The Baltimore Consort will perform a concert of Elizabethan music at two campuses.

The group will perform at the Penn State Altoona Campus at 7:30 p.m. Tuesday, March 19, in the Paul R. and Margery Wolf Kuhn Theatre, and at the Penn State Fayette Campus at noon Thursday, March 21, in the J. Lewis Williams Building Auditorium.

Beaver Campus

Centre Dimensions, the University's award-winning big band, will perform at the Penn State Beaver Campus at 7 p.m. Wednesday, March 20, in the Laboratory Classroom Building auditorium. The concert is free and open to the public.

Hazleton Campus

A student production of "The Rainmaker" will be presented in the Hightches Commons at the Penn State Hazleton Campus at 8 p.m. March 21, 22 and 23 and at 2 p.m. March 24.

University Park Calendar

March 14-
March 24

Special Events

Thursday, March 14

Bach's Lunch Concert, 12:10 p.m., Eisenhower Chapel Singing Lions.
■ International Lecture Series, 2:30-4 p.m., 222 Boucke. Leszek Skibniewski, Adam Mickiewicz Univ., on "Cross-Cultural Considerations in English Language Instruction in Eastern Europe."
Returning Adult Student Concert, 7 p.m., 117 Henderson. Forum on "Campus Child Care: Issues and Answers."
■ Latin American Week, lecture, 7:30 p.m., 101 Kern. Dr. Angharad Valdivia on "Women and the Press in Revolutionary Nicaragua."
■ Six Feminist Scholars, 8 p.m., HUB Gallery. Coppola Kahn, Brown Univ., on "Warriors, Wounds and Women in Shakespeare's Roman Works."

Friday, March 15

Trustees meet at Hershey, through March 16.
Geog. Coffee Hour, 3:30 p.m., 319 Walker. Brian Harley, Univ. of Wisconsin, on "Cartography as Text for 10th-Century America."
■ Center for the Performing Arts, 8 p.m., Eisenhower Aud. Scottish Chamber Orchestra with Christopher Parkening.
■ Latin American Dance Party, 9 p.m.-1 a.m., Ag Arena Mezzanine.

Saturday, March 16

Shaver's Creek, 8-10:30 a.m./11:30 a.m.-12:30 p.m., Bird Breakfast/Vanishing Songbirds. Call 863-2000.
Marital enrichment seminar, 9 a.m.-5 p.m., 101 Henderson Bldg. East. Also March 17.

Sunday, March 17

Center for the Performing Arts, 3 and 8 p.m., Eisenhower Aud. "The Sound of Music."
Carnegie Hall Film Series, 7 p.m., 108 Warkit. *The Adventures of Robin Hood* (1938); 9 p.m., Billy Law (1963). Free.

Monday, March 18

Comp. Lit. Luncheon, 12:40-1:20 p.m., 101 Kern. Thomas Smith on "Joseph Conrad's Autobiography and Ritual Violence."
Talk, 7 p.m., Paul Robeson Cultural Center. Michele Wallace, City College of New York, on "Invisibility Blues: Black Feminism and Cultural Resistance."
■ German Dept. film, 8 p.m., 108 Warkit. *Unterwegs und Irdisch* (1977).

Tuesday, March 19

1991 Graduate Lecture, 10:45 a.m., 501 Keller. Jules B. LaPides, Council of Graduate Schools, on "The Profession of Scholarship."
■ Dept. of Art History, Institute for the Arts and Humanistic Studies, 8 p.m., 112 Walker. Margaret Conkey, Univ. of Calif., on "Paleovisions: Interpreting the Imagery of Ice Age Europe."

Wednesday, March 20

Brown Bag Lunch, noon-1 p.m., 120 Boucke. Kay Waslohn on "Women and Spirituality: Implications of a Male Deity."
■ Center Luncheon, noon, 12 Sparks. Angela Grigoriu, Univ. of Vilnius, Lithuania, on "Lithuania in the Contemporary World."
Six Feminist Scholars Lecture Series, 8 p.m., 101 Kern. E. Ann Kaplan, SUNY, on "Images of Sexuality in Recent Films and MTV."

Thursday, March 21

Bach's Lunch Concert, 12:10 p.m., Eisenhower

"The Sound of Music," the story of the Von Trapp family, will be performed at 3 and 8 p.m. March 17 in Eisenhower Auditorium.

Chapel. Mallet Ensemble.
Career Development and Placement Services, open house, 2-6 p.m., 410 Boucke.
■ Fulbright International Lecture Series, 3:30-4:30 p.m., 222 Boucke. Dr. Kodangula Ramachandrar, Karnatak Univ., India, on "The Nature and Plight of Creativity."
■ Center for the Performing Arts, Spalding Gray, film and discussion, 8 p.m., Schwab Aud. *Souvenirs to Cambodia*.

Friday, March 22

Geog. Coffee Hour, 4 p.m., 319 Walker. Gene Kelchke, International Conference Resorts Inc., on "Management of Native American Natural Resources."
Center for the Performing Arts, 8 p.m., Schwab Aud. Spalding Gray, "The Monologue: Terrors of Pleasure."

Saturday, March 23

Shaver's Creek, Maple Harvest Festival, 11 a.m.-4 p.m. Also March 24. Call 863-2000.
■ Caribbean Experience, 5:30 p.m., HUB Ballroom.
School of Music, 8 p.m., Recital Hall. Penn State University Choir, Univ. of Pittsburgh Choir.
School of Music, 8 p.m., Paul Robeson Cultural Center. Penn State Philharmonic Ball.
Sunday, March 24
Carnegie Hall Film Series, 7 p.m., *Young Mr. Lincoln* (1939); 9 p.m., *The Loveless of the Long Distance Runner* (1962). 108 Warkit. Free.
School of Music, 8 p.m., Recital Hall. Mozart Chamber Orchestra and Chamber Singers.

Conferences

Continuing Education

Keller Building
March 15-16, Microcomputer Information Exchange Program. Kyle Peck, chair; Donna Ricketts, coordinator.
March 16-22, Geometric Rigidity Program. Howard Weiss, chair; Norm Lathbury, coordinator.
March 18-22, Field Training Officer Program. John Sullivan, chair; Kathy Karchner, coordinator.
March 19-20, Pa. Highway Construction Claims

Jack Sinclair, coordinator.

March 20-22, Labor and Employee Involvement: Developing a Local Union Strategy. Chuck Herd, coordinator.
March 22, Marketing Your Architectural Services: The Professional/Client Relationship. Carolyn Ng-Bershad, chair; Donna Ricketts, coordinator.

Seminars

Thursday, March 14

Physics Colloquium, 3:30 p.m., 55 Osmond. David Landau, Univ. of Georgia, on "Exploring New Frontiers of Physics with Computer Simulations."
Gerontology Center Colloquia, 4 p.m., 106 Mitchell. Lou Milakovsky, Berks Campus, and Wolfgang H. Vogel, Jefferson Medical College, on "Aging, Stress and Metabolic Interactions."
Computer Science, 4 p.m., 112 Osmond. Jonas Mockus, Lithuanian Academy of Sciences, on "A New Approach to Global and Stochastic Optimization."

Friday, March 15

Condensed Matter Physics, 10 a.m., 330 Davey Dr. Martin Wybourne, Univ. of Oregon on "The Coupled Electron Proton Systems in Metallic Microstructures."
Computer Science, 4 p.m., 112 Osmond. F. Kenneth Zadek, Brown Univ., on "Analysis of Patterns and Structures."
Agronomy, 3:35 p.m., 107 Ag Science and Industries. Dr. Gary Petersen on "Sustainable Evaluation of Agricultural Non-Point Source Pollution Problems in Pa. Using a Geographic Information System."

Monday, March 18

Computer Science, 9 a.m., 325 Whitmore Lab. Richard E. Korf, UCLA, on "Linear-Space Best First Search."
Entomology, 3:45-4:45 p.m., 204 Patterson. James H. Lashomb, Rutgers Univ., on "Biological Control of Colorado Potato Beetle Employing the Wasp *Euclyptus pallipes*."
■ Australia-New Zealand Studies Center/Dept. of Economics, 4 p.m., 12 Sparks. Dr. Duncan Ironmonger, Univ. of Melbourne, on "Getting

into and coming out of Recession: The Australian Way."

Marker Lectures in Genetic Engineering, 7 p.m., 112 Chambers. Dr. Paul Berg, Stanford, on "Genes and Disease." Also March 19, 1:30 p.m., 112 Buckhout Lab. March 20, 1:30 p.m., 55 Osmond Lab; and March 21, 1:30 p.m., 112 Buckhout Lab.

Tuesday, March 19

Chemistry Colloquium, 3:30 p.m., 55 Osmond. Jerome A. Berson, Yale, on "Stereoelectronic Control of Stereogenicity Transfer in Thermal Reactions."
■ Geosciences, 3:45 p.m., 112 Walker. Tony Dahlen, Princeton, on "Mechanics and Thermodynamics of Mountain Building in Taiwan."
Graduate Program in Nutrition, 4 p.m., 162 Willard. Burnage Welkome Vining, Lecturer Dr. Samuel I. Fomon, Univ. of Iowa, on "Iron Absorption by Infants and Children."
Outstanding Alumni Lecture, nuclear engineering, 4 p.m., 127 Sackett. A. Edward Scherer, ABB Combustion Engineering Nuclear Power.

Biology, 4 p.m., 8 Mueller. James Frazier on "Insect Chemosensory Systems: An Emerging Molecular View."
Wednesday, March 20
Computer Science, 4 p.m., 325 Whitmore Lab. Juan Carlos Guzman, Yale, on "Expressing Mutations of State in a Functional Programming Language."

Thursday, March 21

Physics Colloquium, 3:30 p.m., 55 Osmond. Dr. A.M. Polyakov, Princeton.
History Colloquium, 4 p.m., Eisenhower Chapel. Steven Andrews on "Paracelsus and the Four Pillars of Medicine."
Mechanical Engineering, 4 p.m., 103 Mech. Engr. Dr. Fred Bowman, Harvard/MIT, on "Continuous Quantification of Perfusion Using Thermal Techniques."
Gerontology Center Colloquia, 4 p.m., 106 Mitchell. Pearl German, Johns Hopkins Univ., on "Current Health Services Research in the Elderly Population."

Friday, March 22

Agronomy, 3:35 p.m., 107 Ag Science and Industries. Barbara Pennypacker on "Analysis of Photosynthesis in Resistant and Susceptible Alfalfa Clones Infected With *Verticillium albo-atrum*."

Exhibits

Chambers Gallery

Graphic Design and Metals, through March 15. Art Education Graduate Students exhibition.

HUB Galleries

Art Alley Cases:
royce Rhyner, paintings, through March 27.
Vin-Lee Deering, ceramics, through March 27.

Kern Gallery

Robert O. Sherman, watercolors, through March 15.
Graduate Research Exhibition, 10 a.m.-4 p.m., Kern Lobby, March 22-23.

Palmer Museum of Art

Abstracting the Landscape: The Artistry of Landscape Architect A.E. Bye, through March 30.

Zoller Gallery

Undergraduate Juried Exhibition, through March 29.

■ Reflects an international perspective

Faculty/Staff Alerts

U.S. Savings Bond program

Annually faculty and staff are reminded of the benefits of purchasing U.S. Savings Bonds through payroll deduction. An information packet regarding U.S. Savings Bonds is being sent to all full-time Penn State faculty and staff members during the week of March 16.

Not only are bonds an investment of unmatched security, they are also -- thanks to a market-based interest rate -- highly competitive with other savings and investment vehicles. Earning interest at a rate based on 85 percent of the average yield on five-year Treasury securities, compounded semiannually, bonds are as profitable as they are patriotic.

The interest earned on Series EE bonds purchased after Dec. 31, 1989, already exempt from state and local taxes, may be completely tax free when used to pay tuition and fees at colleges, universities and qualified technical schools during the year they are redeemed. To qualify, bonds must be purchased by parents in their own names, and certain income limitations must be met at the time of redemption.

Payroll deduction offers an easy and convenient method of systematic saving. Bonds are mailed directly to the participant normally within three work days after the Payroll Division places an order with the Federal Reserve Bank. Bonds are available by payroll deduction in denominations of \$100, \$200, \$500, and \$1,000, each costing one-half of its face value.

Questions regarding the U.S. Savings Bond program should be directed to the Employee Benefits Division, 205 Rider Building, (814) 865-1473.

Courses for faculty and staff

The Human Resource Development Center has openings in the following courses. Call the center at 865-3410 for registration information.

Managing cultural diversity Practice decision-making relative to cultural diversity, and challenge and develop your managerial skills; meets 9 a.m. to 4 p.m. Friday, March 15; cost: none.

Time management Learn how planning and assertiveness can "make" more time. Session for support staff meets 9 a.m. to noon Tuesday, March 19; supervisors and managers meet 1 to 4 p.m. Tuesday, March 19; cost: none.

Communication skills for managers

Basic course in improving oral communication effectiveness for employees manage others; meets 9 a.m. to 4 p.m. Wednesday, March 20; cost: \$55.

Stress management Identifies stressors and their effects and develops a realistic individualized plan to cope with stress; meets 9 a.m. to 4 p.m. Wednesday, March 27; cost: \$55.

Plateauing Addresses the concept of career plateaus which often occur when competent employees choose to remain in a geographic area such as the Centre Region and continue employment in a large organization such as Penn State. But may have little opportunity for further advancement; meets 9 a.m. to 4 p.m. Friday, March 29; cost: \$55.

Penn State People

David Hill

Born in Dunfermline, Scotland, David Hill came to the Shaver's Creek Raptor Center in January 1990 to serve as an intern. He was named assistant director of the center last August. A biology graduate of the University of London (1989), he is responsible for caring for injured birds of prey and preparing them for return to the wild, as well as teaching children, University students and adults. Birds of prey who cannot return to the wild become permanent residents of the center and are used in the teaching program. "Shante," the barred owl shown with Mr. Hill, was sent to the Raptor Center for care by the Sharon, Conn., Audubon Naturalist Trust. Mr. Hill enjoys his work. "Teaching is an awful lot of fun. It's rewarding to teach students to make a major difference in our environment." And nursing badly injured birds and returning them to the wild "is the greatest thrill you can imagine," he says. (Photo: Greg Grieco)

Arts cont.

HUB exhibit

The paintings of Joe Royer, a University senior, will be on exhibit through March 27 in the Art Alley of the Hetzel Union Building at University Park.

Mr. Royer describes his work as investigations of the power of suggestion and the overt use of metaphor. They are intended to provoke ideas of disintegration, isolation and motion. His latest works have developed into more complex and subtle images and explore polarity.

WPSX membership drive

WPSX-TV has set a dual goal for its 1991 Membership Drive: to raise 3,200 pledges of financial support from area viewers and to plant a like number of trees at the Stone Valley Experimental Forest, managed by the School of Forest Resources.

The 16-acre section at Stone Valley has been designated as the "WPSX-TV Stewardship Forest," and for each membership pledge received during the Membership Drive, Channel 3 will have a tree planted in the name of the member.

Programming during the 19-day Membership Drive, which began March 2

and ends March 20, will showcase musical performances, viewing for the family, and a host of other program types.

Mallet Ensemble

The Penn State Mallet Ensemble will perform in concert at 12:10 p.m. Thursday, March 21, in Eisenhower Chapel at University Park.

The 20-minute concert is part of the Bach's Lunch Concert Series sponsored by the School of Music and the University Lutheran Parish.

Spalding Gray

Humorist Spalding Gray will deliver his newest autobiographical monologue "Monster in a Box" at 8 p.m. Friday, March 22, in Schwab Auditorium at University Park.

Presented by the Center for the Performing Arts, Mr. Gray will be on hand for two evenings in Schwab Auditorium. At 8 p.m. Thursday, March 21, there will be a showing of "Swimming to Cambodia," an OBIE award-winning film of one of his performances, followed by a discussion with Mr. Gray.

Graduate Lecture

Julie B. LaPidus, president of the Council of Graduate Schools, Washington, D.C., will deliver the 1991 Graduate Lecture at 10:45 a.m. Tuesday, March 19, in Room 501 Keller Building at University Park. He will discuss "The Profession of Scholarship."

The lecture is co-sponsored by the Graduate School and the Institute for Policy Research and Evaluation.

Dr. LaPidus was a member of the faculty in medicinal medicine at Ohio State for 26 years and served for a decade as dean of the Graduate School and vice provost for research.

In 1984, he left Ohio State to assume the presidency of the Council of Graduate Schools. In this position, he has become a prominent advocate and national leader in the area of graduate education.

He has served on numerous committees advisory to the Graduate Record Examination Board, the American Council of Education, and the American Association for the Advancement of Science.

Obituary

Donald E. Butts, livestock caretaker in the College of Agriculture since Sept. 22, 1965, died Feb. 21 at the age of 46.

Private Giving to Penn State

Several gifts benefit University Libraries

Healthcare information system to be created

Johnson and Johnson, manufacturer of healthcare products, has made a \$150,000 grant to the University Libraries to create a healthcare information retrieval system that will benefit students University-wide.

"There is a growing interest in health care careers," Nancy Cline, dean of the University Libraries, said. "This grant will help to better prepare students at University Park and all of the Commonwealth Campuses by providing access to some of the most current literature in the fields of medicine and health."

The Libraries will use the grant in two ways. The search capabilities of the computerized Library Information Access System (LIAS) will be enhanced in several ways, including the addition of a keyword search capability.

Secondly, it will be used to acquire several medical data bases — "Medline," a compilation of medical literature citations; "CINAHL," a listing of publications in nursing and the allied health disciplines; and "Current Contents," a listing of the latest citations from scientific and technical journals.

Lawrence G. Foster, immediate past chairman of the Libraries' Advisory Development Board and retired vice president of public relations for Johnson and Johnson, said corporate and foundation assistance for library programs has been increasing steadily.

\$50,000 gift to aid University Archives

Penn State alumnus Patrick Malloy and his wife, Candace, have given \$50,000 to establish a graduate assistantship in the University Archives.

It is the first endowed assistantship to be created in the Penn State Libraries, and it is believed to be the first such position for any university archives in the nation. It will support activities relating to the appraisal, acquisition, organization, and preservation of collections.

The University Archives, including Pattee Library's Penn State Room, contains historical materials about the University and is the central repository for official University records of permanent value.

The Malloys reside in Sag Harbor, N.Y., where Mr. Malloy is a principal in a number of real estate projects aimed at revitalizing eastern Long Island.

He is a Johnstown native and earned a bachelor's degree in accounting from Penn State in 1965.

Dedication ceremony

Nancy Cline (left), dean of University Libraries, was among administrators and library staff at the dedication ceremony for the VAX 9420 from Digital Equipment Corp. The mainframe computer system is part of a \$2.5-million gift to the Libraries from Digital. It will support LIAS — the Library Information Access System, an online computer catalog of libraries' holdings — at locations around the state. Shown in the photo on the right are, from left, J. Gary Augustson, executive director, Computer and Information Systems; Kenneth H. Olsen, president and chief executive officer, Digital; Eric Ferrin, director, Library Computing Services; and Dean Cline. (Photos: Greg Giesco)

Memorial fund created for University trustee

The University has received \$646,000 from the estate of Agnes R. Robb of Oakland, Calif., to endow an acquisitions fund for the University Libraries.

Miss Robb, a longtime staff member of the University of California at Berkeley, died in 1989 at the age of 94. The fund honors her father, James F. Robb, who graduated from Penn State in 1880 and served as a University trustee from 1890 to 1896.

"Miss Robb chose a wonderful way to memorialize her father, who helped to guide Penn State when it came of age as an institution of higher education," President Thomas said. "Her generosity will benefit countless students and faculty in the years to come."

Nancy Cline, dean of the University Libraries, noted that Miss Robb had a longtime interest in the Libraries.

"She began making some modest contributions more than 20 years ago to help buy books," Dean Cline said. "Her bequest is one of the largest gifts we have ever received, and we're extremely pleased that she remembered us in this way."

Dean Cline said that, in accord with the donor's wishes, the Robb fund will be used to acquire general materials that will benefit students and faculty University-wide, although some emphasis will be placed on acquiring materials relating to the study of law.

Mr. Robb was an attorney in his native Pittsburgh and in Washington, Pa., from 1884 until shortly before his death in 1899. He was elected to the University's Board of Trustees by the alumni and was a contemporary of such other board members as industrialists Andrew

Carnegie and Charles Schwab.

Miss Robb was still a child when her mother also died, and she went to Oakland to live with relatives. She graduated from the University of California at Berkeley with a bachelor's degree in Spanish in 1918 and a year later joined the UC staff. She became administrative assistant to Robert Gordon Spraul, who served as president of UC Berkeley from 1930 to 1958.

Following her retirement in 1962, she continued to be involved with the Berkeley campus, serving for eight years as a trustee of the UC Berkeley Foundation and contributing more than \$700,000 in gifts for UC programs. One of her gifts endowed a faculty chair in jurisprudence, ethics and social responsibility at the UC Berkeley Law School.

Mellon grant supports soil ecology research

The Andrew W. Mellon Foundation of New York has given the University a \$125,000 grant to support basic research into soil ecology.

Roger T. Koide, assistant professor of biology, whose research will benefit from the grant, said he is especially interested in what controls the structure of plant communities.

"By studying 'structure,' I mean

looking at what controls the presence or abundance of a certain species in a particular place," Dr. Koide said. "Included in any understanding of these controls would be how the soil's resources — moisture, nutrients or other factors — affect a community of plants."

He is concentrating on the role of the beneficial mycorrhizal fungus, which attaches to plant roots and helps the plant

draw more nutrients from the soil. The fungus seems to help some plants more than others, however, and understanding the nature of these differences is of keen interest to Dr. Koide.

"The Mellon Foundation's interest in basic scientific research is refreshing," he said.

Penn Staters

Guy H. Temple, Penn State Cooperative Extension agent for the sixty county area of Columbia, Lycoming, Montour, Northumberland, Snyder and Union counties, has been awarded the "Ruby Award" from Epsilon Sigma Phi, national honorary extension fraternity, for his outstanding work in using newspaper as animal bedding.

Bernhard R. Tittmann, Kunkle professor in engineering science, has been appointed by the National Research Council to a three-year term as a member of the Panel for the Materials Science and Engineering Laboratory.

Richard E. Tressler, professor of materials science and engineering and director of the Center for Advanced Materials, presented the keynote lecture titled "Tailoring the Microstructures of Structural Ceramics for Long Term Reliability" at the annual symposium of the Engineering Research Association for High Performance Ceramics in Tokyo, Japan.

Hana Van Campen, assistant professor of molecular virology in the Department of Veterinary Science, has become a Diplomate in the American College of Veterinary Microbiologists (ACVM).

Gary S. Webster, associate professor of anthropology, presented two papers titled "The Functions and Social Significance of Nuraghi" and "The Archaeology of Bronze/Iron Age Sardinia" at Uppsala University and the Society for Swedish Archaeology in Stockholm.

Gary Witmer, assistant professor of wildlife technology at the Penn State DuBois Campus, visited Costa Rica on a federal Title XII strengthening grant to undertake a survey of the current predator-livestock situation.

Monika Zechetmayr, assistant professor of exercise and sport science, spoke on "Sport Sociology in North America" to the Department of Sport Science at the University of Munich, Germany.

Stephen Browne, assistant professor of speech communication, has received the 1990 Karl R. Wallace Memorial Award from the Speech Communication Association.

On a visit to Eastern Europe, **Philip A. Klein**, professor of economics, gave a seminar at the Center for East and Central European Studies, Hungarian Academy of Sciences at the Budapest University of Economics (formerly the Karl Marx University), and a lecture at the Polish Academy of Sciences in

Warsaw on "Monitoring Economic Instability with Cyclical Indicators."

Kenneth K. Kuo, distinguished professor of mechanical engineering and director of the High Pressure Combustion Laboratory, served as chairman of the "Second International Symposium on Special Topics in Chemical Propulsion" at the Institute for Chemical Propulsion and Engineering in Lampoldshausen, Germany.

Edwin Masteller, professor of biology at Penn State Erie, The Behrend College, was elected chairman of Aquatic Insects for the Entomological Society of America.

Carlo G. Pantano, professor of materials science and engineering, presented a lecture titled "Surface Chemistry of Sol/Gel Thin Films" at the First International Conference on Molecular Design of Advanced Ceramics in Kyoto, Japan.

Loren D. Tukey, professor of pomology, and **Terry L. Salada**, undergraduate honors program student, presented a research paper titled "Apple Fruit Enlargement and Growth Substances Foliar Applied to Bearing Trees" at the 23rd International Horticultural Congress in Florence, Italy.

David B. Van Dommelen, professor emeritus of art education and fiber arts, had a one-man exhibition of his recent work in Shoemaker Galleries at Junata College in Huntingdon.

James Hamilton, assistant professor of speech communication at the Penn State Mont Alto Campus, has won a first place in the Education Division of the 1990 "Take Pride in Pennsylvania" Program for his work with the Conservation Leadership School.

Harold R. Jacobs, professor and head of mechanical engineering, and **C.I. Merkle**, distinguished alumni professor, have been awarded a \$50,000 NSF exploratory research grant. They will serve as co-principal investigators for the grant titled "Transverse Acoustical Wave Interaction with a Turbulent Boundary Layer."

Bodan Kulakowski, associate professor of mechanical engineering, and **Donald Streif**, assistant professor of mechanical engineering, will serve as co-principal investigators for a \$722,660 Federal Highway Association grant. The study titled "Dynamic Vehicle Forces on Pavements" will be conducted over three years.

Anil K. Kulkarni, associate professor of mechanical engineering, has received a \$51,000 one-year renewal grant from the National Institute of Standards and Technology to continue his work on upward flame spread on vertical walls under external radiation.

Samuel Levine, professor of nuclear engineering, and **Asok Ray**, professor of mechanical engineering, have been awarded a \$40,000 grant-in-aid from Pennsylvania Power and Light Co. They will investigate the application of expert systems for maintenance of boiling water reactor nuclear power plants.

Michael Modest, professor of mechanical engineering, presented two papers titled "Laser Processing of Materials—The Present and the Future" and "Single and Multiple Pan Cutting of Ceramics With a Moving CW Laser" (coauthored with S. Ramanathan) at the Symposium of the International Center for Heat and Mass Transfer in Dubrovnik, Yugoslavia.

Thomas G. Poole, director of student activities and religious affairs and affiliate assistant professor of religious studies and black studies, and **Kenneth I. Clarke Sr.**, assistant director of religious affairs, were named 1991 Crozer Scholars by Crozer Theological Seminary, Rochester, N.Y.

Andre J.M. Prevos, assistant professor of French, read an invited paper at a symposium organized by the Centre d'Etudes en Littérature et Civilisation de Langue Anglaise of the University of Rouen and held at the School of Letters of the University of Rouen in Rouen, France.

Peter Rogan, assistant professor of pediatrics at the Hershey Medical Center, received a travel award from the NATO Collaborative Research Grants Programme to present his project "Molecular Genetics of Ancient Human Remains from the Canary Islands" at the World Congress on Mummy Studies and International Mummy Exposition in Santa Cruz de Tenerife (Canary Islands).

Della M. Roy, professor of materials science, has been appointed to a special Committee on Highway De-icing Chemicals of the Transportation Research Board of the National Research Council.

Gita Talmage, assistant professor of mechanical engineering, has been awarded a David Taylor Research Center contract totaling \$96,000. The contract, "Liquid Metals as Sliding Electric Contacts for Homopolar Devices: Numerical Modeling Studies,"

concerns a viable form of energy conversion using hydrodynamic flows.

Peter R. Cavanagh, professor of locomotion studies, has been appointed to the research committee for the Foot Council of the American Diabetes Association.

Barbara A. Copland, special assistant to the vice president for student services, has been elected president of the Pennsylvania Association for Adult Continuing Education.

Sharon Dale, assistant professor of art history at Penn State Erie, The Behrend College, has been named an outside evaluator for projects funded by the Pennsylvania Humanities Council. She will serve a one-year term.

Joseph Dixon, professor emeritus of chemistry and former head of the Department of Chemistry, has been re-elected chairman of the American Chemical Society (ACS) board of directors for the second consecutive year.

Joseph Duich, professor of turfgrass science, has received a \$140,000 grant from the Pennsylvania Turfgrass Council for 1991.

Carl Fisher, chief engineer for WPSX-TV, has been elected a member of the PBS Engineering Committee for a three-year term.

Vicki Golich, assistant professor of political science, has been chosen as one of 12 members of a Transportation Research Board panel to select graduate students from a nationwide pool for fellowships.

James F. Lynch Jr., director, Office of International Programs, has been elected to the National Board of the National Association of Foreign Student Affairs Association of International Educators. His term begins in May.

John A. Miiner, head of the Nutrition Department, has been appointed to the Human Nutrition Board of Scientific Counselors.

Ronald A. Pursell, professor of biology, has been appointed research associate at the Missouri Botanical Gardens in recognition of "fruitful collaboration ...over the years in the area of bryology, particularly through...research on (tropical) fissidens."

Robert D. Shipman, professor emeritus of forest ecology, has been named a Distinguished Member of the Northeastern Weed Science Society, the highest honor the society awards.

New laboratory to develop communication techniques for non-speaking disabled

Great strides have been made to help disabled non-speaking people communicate, but more help is on the way from the University.

Because of an illness or injury, more than 1 million people in the United States are unable to use speech to communicate their daily needs. University researchers have opened a lab to find new ways to help them, according to **Janice Light**, assistant professor of communications disorders in the College of Health and Human Development.

"Until 20 years ago, non-speaking individuals had no options beyond unaided communication techniques such as sign language and gestures," Dr. Light said.

During the past two decades, researchers have developed augmentative communication techniques to enhance disabled persons' existing abilities, she noted.

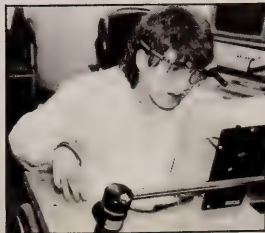

The non-speaking population includes individuals who have congenital disabilities such as cerebral palsy, autism or Down's Syndrome; individuals who have acquired disabilities from a traumatic head injury, stroke or severe illness, which leave their speech temporarily or permanently inadequate to meet their communication needs; and individuals who have progressive neuromuscular disorders such as amyotrophic lateral sclerosis, multiple sclerosis, muscular dystrophy or Parkinson's disease.

Augmentative communications systems range from simple picture boards for a youngster who has not learned to read to more complex computer-based systems for individuals with reading ability, she said.

"Without communication, physically disabled persons are severely limited in their abilities to explore the environment and to express emotions, needs and thoughts. Communication is vital to cognitive, academic and socio-emotional growth."

Researchers in the University's new lab will evaluate systems and assistive technologies that help maximize opportunities and enhance the quality of life for non-speaking individuals. The lab also will house clinical and educational programs for assessment, intervention and skill development for those who need augmented systems, as well as programs to educate professionals in the use of the systems.

An augmentative communication system is selected based on the needs and skills of the individual, Dr. Light said. As disabled persons develop new skills, they may need new devices.

Juanita Decker concentrates on learning to communicate with an electronic device designed for non-speaking people. Ms. Decker is a clerical worker in the College of Health and Human Development.

Photos by Greg Grieco

Janice Light (left) demonstrates for Juanita Decker one of the many keyboard-type devices available to people who are unable to use speech to communicate.

"One device doesn't fulfill their communication needs for an entire lifetime," she said, explaining that as an individual's skill level changes, so does their requirements for a communication system.

Currently, many adults are benefiting from the development of portable computer systems into which messages can be pre-programmed.

"One movement — even as slight as an eyebrow movement — can be used to control the whole system, so even a severely handicapped person can operate the system and communicate daily needs. Once the person makes a selection on the computer system, the message is then spoken via a speech synthesizer or is printed out.

"We want to continue to identify new technology to help persons with disabilities communicate. The devices will allow disabled persons to live as high a quality of life as possible and to participate fully in their educational and vocational pursuits," Dr. Light said.

—Kimberley Yarnell

Staff Vacancies

The following vacancies for positions classified as staff exempt or staff nonexempt have been listed with the University Employment Division for filling. The brief statements for each vacancy are illustrative. They are not complete position descriptions. APPLY BY CALLING THE EMPLOYMENT DIVISION, 863-0004 NETWORK LINE 433-03040. Applications for these staff vacancies will be accepted until March 21. DO NOT CONTACT THE AREA THAT HAS THE VACANCY. Applications for staff vacancies are considered in accordance with Fair Employment practices (P's 1) and in compliance with the University's Alternative Action Compliance Program without regard to race, color, religion, national origin, handicap, or age (as provided by law) or sex, status as a disabled or Vietnam era veteran.

■01327, Administrative Assistant, CES, Continuing Education, University Park Campus - Responsible to the vice president of continuing education for the overall supervision of the office and for handling a wide range of administrative matters for the vice president. Requires bachelor's degree and one to two years of effective experience in office program and project management. Excellent verbal, written, interpersonal and organizational skills required. STAFF GRADE 0.

■01328, Accounting Assistant, Student Services, University Health Services, University Park Campus - Responsible to the business office manager for budgeting and accounting control in a variety of financial reports and provide analysis and design of business office information system. Requires associate degree, or equivalent, in accounting or

related field, plus two to three years of effective experience. Familiarity with evaluating and implementing accounting systems within a university or a community healthcare setting is preferred. A strong background in computer operations is highly desirable. Bachelor's degree is preferred. STAFF GRADE 3.

■01329, Athletic Trainer II, Interscholastic Athletics, University Park Campus - Responsible to the coordinator of sports medicine for developing prescribed treatment programs and individual rehabilitation programs for student athletes in moderate to high risk sports. Requires bachelor's degree in health education, physical education, or equivalent; master's degree preferred and one to two years of effective athletic training experience in Division I Division IA football, or equivalent. Current certification with the National Athletic Trainers Association and certified with the state of Pennsylvania, or eligible. STAFF GRADE 0.

■01330, Environmental Analyst, College of Engineering, Department of Nuclear Engineering, University Park Campus - Responsible to the supervisor Low Level Radiation Monitoring Laboratory and faculty member for conducting low level radiation monitoring and neutron activation analysis and for performing various laboratory procedures. Requires bachelor's degree or equivalent in chemistry or related field and six months to one year effective experience in an analytical laboratory environment. STAFF GRADE 4.

■01331, Publicity Coordinator, University Arts Services, Center for the

Performing Arts, University Park Campus - Responsibilities include development and coordination of marketing campaigns and plans for Center programs and other client organizations, establishing and maintaining regular contact with editorial staff of print and broadcast media, coordinating publicity and media events, serving as editor of all performance playbills. Requires bachelor's degree in communications-related field and one to two years effective experience. This is a fixed-term position funded through June 30, 1992, with excellent possibility of re-funding. STAFF GRADE 0.

■01332, Director of Community Relations, Community Relations, Penn State Harrisburg - Responsible for organizing and conducting a comprehensive university relations program for the entire college. To include public information publications, public relations, special events, fund raising and alumni affairs. Requires bachelor's degree or equivalent, in relevant field plus a minimum of over four years of effective experience involving management experience and/or journalistic writing and public relations. Experience in higher education is highly desirable. Excellent oral and written communications skills essential. STAFF GRADE 8.

■01333, Coordinator, Student Support Programs and Student Affairs, Student Assistance Center, Penn State Harrisburg - Responsible to the associate director of student affairs for student assistance for the development, coordination, supervision and implementation of service-oriented programming which provides assistance to minority commuter, adult, disabled, international, EOP students, returning women, nondegree and other special student populations. Requires master's degree, or equivalent, in counseling, student personnel services, or a closely related

field, plus one to two years of effective experience. STAFF GRADE 7.

■01334, Computer and Information Systems Specialist, Computer Center, Penn State Harrisburg - Responsible to the director of computer and information systems for providing assistance to systems users concerning hardware, software or communications problems, for coordinating the repair of equipment, for ensuring that communications equipment and cabling are installed and maintained. Requires associate degree, or equivalent, in computer science, electrical engineering, technology, mathematics or related field and one to two years of effective experience in computer systems. STAFF GRADE 4.

■01335, Nursing Assistant, Student Services, University Health Services, University Park Campus - Responsible to the nurse manager for providing clinical and nursing support services in the Outpatient Department, Urgent Care Clinic and Observation Unit. Requires high school graduate, or equivalent, completion of certification as nursing assistant, plus three to six months of effective experience. This is a full-time, 10 month, night-shift position. STAFF GRADE 2.

■01336, Assistant Manager, Housing and Food Service, Penn State Harrisburg - Responsible to manager of housing and food services for assisting in supervising the overall operation of the Housing and Food Services units at the Commonwealth Campus to which assigned. Requires bachelor's degree, or equivalent, in institutional management, plus one to two years of effective experience in food service supervision. STAFF GRADE 3.

■01337, Nursing Assistant, Student Services, University Health Services, University Park Campus - Responsible to the nurse manager for providing clinical and nursing support services in

the Outpatient Department, Urgent Care Clinic and Observation Unit. Requires high school graduate, or equivalent, completion of certification as nursing assistant, plus three to six months of effective experience. This is a full-time, 12-month, day and evening rotating-shift position. STAFF GRADE 2.

Hershey

For the following position vacancies, apply directly to The Milton S. Hershey Medical Center. Attach resume with cover letter indicating the position vacancy code and forward to the Department of Human Resources, Hershey, or call the Hershey bid line at (717) 531-8531 by March 21.

■N065, Clinical Nurse Educator, Department of Nursing Services - Responsible to the assistant director of nursing, Nursing Education for the design, implementation and evaluation of orientation, basic and advanced education programs and specialized courses for all levels of nursing personnel. A master's degree in nursing, plus one to two years of effective clinical experience in area of expertise, and current licensure by Pennsylvania State Board of Nursing. Certification in specialty area is desirable. STAFF EXEMPT, GRADE 7.

■N062, Clinical Nurse Specialist - Acute Pain Management, Department of Nursing Services - Responsible to the assistant director of nursing, Surgical Division, and the medical director of Acute Pain Management Service for providing nursing expertise within higher clinical specialty. Serves as consultant, collaborator, educator, clinician researcher and change agent for specialty area. A master's degree in nursing, plus one to two years of effective clinical experience in area of expertise, and current licensure by Pennsylvania State Board of Nursing. Certification in specialty area is desirable.

Nuclear Engineering presents annual Alumni Lecture

A. Edward Scherer, vice president for nuclear safety at ABB Combustion Engineering Nuclear Power, Combustion Engineering Inc., in Windsor, Conn., will give the fourth annual Outstanding Alumni Lecture for the Department of Nuclear Engineering at 4 p.m. Tuesday, March 19, in 127 Sackett Building at University Park. A reception will precede the lecture. Both are open to the public.

Mr. Scherer is responsible for the

development, approval, implementation, maintenance and monitoring of the ABB quality assurance program. He also serves as chairman for the nuclear safety committee on site.

He serves on the College of Engineering Industrial Professional Advisory Council and also is a member of the American Nuclear Society, the American Society of Mechanical Engineers and Sigma Xi.

He earned a B.S. degree in mechanical

engineering from Worcester Polytechnic Institute, a master's in nuclear engineering from Penn State and an MBA in management from Rensselaer Polytechnic Institute.

The nuclear engineering Outstanding Alumni Lecture series, established by Edward H. Kleivas, professor and head of nuclear engineering, honors distinguished alumni from that department.

Dr. Thomas emphasizes quality and accomplishments

President Thomas told the Board of Trustees at its meeting March 16 at the Hershey Medical Center that he is emphasizing the quality and accomplishments of the University in his effort to persuade the state to adequately fund the institution.

The University requested an appropriation of \$284,985,000 for 1991-92 or 13.1 percent over the current fiscal year. President Thomas has testified in recent weeks before the Senate Appropriations Committee and the House Appropriations and Education committees regarding the need for increased funding for education in Pennsylvania.

"We also noted the difficulties we have faced in complying with the governor's \$12.6 million cutback in the appropriation for the current fiscal year," Dr. Thomas

said. "Imposing a 5 percent cutback almost seven months into the fiscal year on a University as underfunded as this one is difficult."

The governor's proposed budget recommendation for 1991-92 restores the cuts that were recently made, but he did recommend cuts in the agricultural research line and in the line supporting the Central Pennsylvania Psychiatric Institute at Hershey.

"We are working hard to convince the General Assembly and the governor that Penn State needs more than a zero increase budget," Dr. Thomas said.

University financial officers have indicated that a zero increase in state funding has the effect of a 4 percent reduction in the institution's appropriation.

Dr. Thomas expressed support for the

governor's proposal to fold the Tuition Challenge Grant Program funds into the base budget. "These funds, sitting outside of our base budget, would be an obvious target for budget cuts. We hope the legislature follows the governor's recommendation," he said.

"It is clear that the Commonwealth faces a very difficult fiscal situation," Dr. Thomas told Trustees. "However, after my first six months in Pennsylvania, it is my impression that people in the Commonwealth do not have a clear understanding of the value of investing in public higher education."

"We have calculations, for example, that expenditures by Penn State and its students generate a total economic impact of nearly \$1.9 billion annually, and we support over 89,000 jobs. This is a very respectable return on an investment of a state

appropriation to Penn State which this year was approved at \$252 million, prior to the \$12.6 million cut we have made in response to the governor's action."

Dr. Thomas told the Board that the University will continue to emphasize the contributions made by the University to Harrisburg and communities across the state.

"While we are in obviously difficult fiscal times, we must remind ourselves that the situation will not continue forever," Dr. Thomas said. "Better times will come. In the interim, we will devote all our energies to keeping the institution moving forward."

He also updated the Board on the governor's recent decision to release approximately \$33.8 million for capital projects.

See 'Dr. Thomas' on page 3.

Trustees approve room and board rate increase

The Board of Trustees approved rate increases for room and board for 1991-92 at its meeting March 16 at the Hershey Medical Center.

Room and board rates for the standard double room and meal plan 3 will increase 4.7 percent, beginning in fall 1991.

More than 78 percent of the

undergraduate on-campus population at the University is housed in the standard double room. Rate increases for other types of accommodations, which include singles, doubles, triples, single student apartments and suites, will vary from \$30 to \$55 a semester.

Family apartments will increase \$10 to \$20 per month, depending on the type

of apartment.

The University is anticipating higher costs in areas such as food, utilities, salaries and benefits," Steve A. Carlson, senior vice president for finance and operations and treasurer, said.

The Residence Hall and Dining Commons program is completely self-supporting," he noted. "State funds are

not used for the operation or the construction and maintenance of facilities."

The standard double room and board rate for 1991-92 will increase by \$80 per semester.

New double room and board rates per semester are: \$1,005 including Meal

See 'Trustees' on page 3.

Dr. Mortimer to give seventh annual Oswald lecture

Kenneth Mortimer, president of Western Washington University and the chair of a national study group on excellence in higher education, will present the seventh John W. Oswald Lecture in Higher Education at 8 p.m. Wednesday, March 27, in Room 112 Walker Building at University Park.

The title of his lecture will be "Higher Education in the '90s: More of the Same?"

The Oswald Lecture, created by the University Board of Trustees, is devoted to issues that concerned the 11th president of Penn State, John W. Oswald, who served from 1970-83.

Dr. Mortimer, formerly a vice president and vice provost at Penn State, is a nationally renowned scholar in higher education issues, such as academic governance and management and policy

development. Among his many achievements, he chaired the National Institute of Education Study Group, which resulted in the 1984 highly acclaimed report "Involvement in Learning: Realizing the Potential of American Higher Education."

The report extended the nationwide debate about the quality of U.S. education started in "A Nation at Risk."

"American higher education, the largest and most complex system of postsecondary instruction and learning in the world, has taken on so many functions in our society that its most essential roles have begun to suffer from neglect," according to the executive summary of the report.

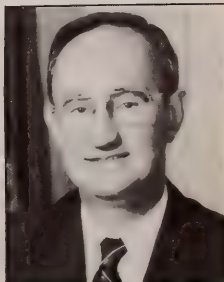

"American higher education needs to return to its own roots in order to realize its potential," the summary notes. "Our

colleges, community colleges and universities form a great national resource that can do better."

In addition, Dr. Mortimer has been president of the Association for the Study of Higher Education, chair of the board of directors for the National Center of Higher Education Management Systems, and an active member of the American Association of University Professors and the Association of Governing Boards.

At Penn State, he had served in many administrative roles since 1969, including executive assistant to the president for university affairs and director of the Center for the Study of Higher Education.

His degrees are an A.B. and an MBA from the University of Pennsylvania and a Ph.D. from the University of California at Berkeley.

Kenneth Mortimer

Focus on Diversity

Statistician serves in visiting professorship program

After years of practical application, H. Jean Thiebaut is sharing her knowledge of statistical analysis and preserving it for future generations.

Dr. Thiebaut is at Penn State as a visiting professor of meteorology and is on leave from the U.S. National Meteorological Center where she is a research mathematical statistician. Last semester, she taught a course on statistical inference in meteorology and is preparing a book on data analysis for atmospheric science and oceanography.

"The last book on statistics for meteorologists was written by Panofski and Brier in the 1960s," she says. "It is an excellent book, but it is out of date."

"In the 1960s, researchers were still doing desk calculator calculations and manipulating tables of numbers by hand. Methods are very different now that students have access to computers and specialized software."

The subtitle to the course Dr. Thiebaut taught was "uncertainty and inference in atmospheric science." The course teaches standard statistical methods, but emphasized a pattern which begins with a clear delineation of the research objective.

"My central theme is that a researcher starts out with a scientific question and continually rephrases it. Eventually ending

H. Jean Thiebaut (left) of the U.S. National Meteorological Center works with students Anne Walter, Corey Letkof and John Hennessey (right) in a meteorology classroom.

up with the question framed so that observations are interpretable in light of the question."

Dr. Thiebaut is at Penn State through the National Science Foundation's Visiting Professorships for Women program. She is

one of 23 women chosen for the 1990-91 year. One objective of the program is to encourage students, especially women, to pursue careers in science and engineering.

"I think any woman in a male-dominated field is a role model, and I see that as a rationale for the NSF program. If women students see female scientists at work, they will realize that they can also become scientists."

Dr. Thiebaut has participated in programs and informal discussions with women in science and engineering.

"Teaching classic statistics for use in scientific disciplines concerned with characteristics of continuous fluids, such as the atmosphere and ocean, has its drawbacks," Dr. Thiebaut said. "The basic tenets of classic statistics assume that data values are independent of one another, an assumption that does not apply to many of the variables used to study the coherent systems of meteorology and oceanography."

"The class, and the textbook that will come from teaching the class, should cover two semesters of work. Last semester I covered classic statistics and had only one day to discuss non-classical approaches to model verification and statistical analysis of observations of fields that are continuous in space and time. That one day should be an entire second semester."

Nominations open

All University faculty, staff (except non-employment, clerical, and technical service), and students are eligible for nomination to the Commission on Racial/Ethnic Diversity. The Commission is charged with advising the president on policies related to racial/ethnic diversity, and members of the Commission are appointed by the president.

Applications for nomination are available at the HUB desk, the Kern information desk, and the Commission office in 314 Old Main. Nomination deadline is March 28. For further information, call Minora Sharpe at 863-0405 or 863-7696.

Program on Native American Indians scheduled

The University's Student Hearing Board is celebrating its 20th anniversary by inviting the University community to join in learning about problems that Native American Indians face nationwide at 7:30 p.m. Wednesday, March 27, in the Kern Building Assembly Room at University Park.

The organization is sponsoring a presentation by Rayna Green, director of the American Indian Program for the National Museum of American History, Smithsonian Institution, about social,

educational and healthcare issues affecting Native American Indians.

Ms. Green, of Cherokee and German descent, is a widely known writer, researcher and lecturer in several fields including scientific and technical development in developing communities and nations, policy and program development for Indian tribes and emergent institutions, Native American Indian studies, folklore, American studies, women's studies and ethnohistory.

She also has taught and published widely on Native American Indian women,

women's expressive culture, American folk and popular material culture, applied folklore, folklore and obscenity, folklore and ethics, Native American Indian stereotypes and Native American Indian literature.

The Student Hearing Board has 28 student members and hears disciplinary cases involving incidents occurring in campus residence halls. The organization currently is recruiting new members for next year. For more information, call 865-0181.

Friday, March 22

Department of Exercise and Sports Science, noon to 1 p.m., 108 White Building. Faculty/staff workshop in African dance with Myrna Munchus-Bullock; live drum music by Don Berinato of The Earthtones.

Paul Robeson Cultural Center, 6 p.m., Robeson Center. Dinner and program: "Night out with the Folks."

Saturday, March 23

Caribbean Student Association, 6 p.m., HUB Ballroom. "Caribbean Experience" dinner and dance with music by The Mighty Chalkdust. For information, call Althea Williams at 867-4185 or the Paul

Robeson Cultural Center at 865-3776.

Monday, March 25

Center for Women Studies, 8 p.m., HUB Assembly Room. James T. Sears on "Growing Up Lesbian and Gay in the U.S. South."

Tuesday, March 26

Professional Women at Penn State, 11:45 a.m. to 1 p.m., Frizzell Room, Eisenhower Chapel. Mimi Copersmith-Fredman on "Penn State Trustees: A Woman's Perspective."

Black Studies/Women Studies, 8 p.m., Paul Robeson Cultural Center. Vinnie Burrows' dramatic presentation: "Daughters of the Sun."

University Concert Committee/Alpha Phi Alpha and Beta Sigma Beta, 8 p.m., Rec. Hall. Ebony and Ivory concert featuring rap artists Boogie Down Productions and Queen Latifah.

Wednesday, March 27

Center for Women Studies, noon to 1 p.m., 120 Boucke. Brown bag lunch, Wanda M. Davis on "Commentary on a Journey to Ghana, West Africa."

Office of Religious Affairs, 7 p.m., Paul Robeson Cultural Center. Film and discussion: "Eyes on the Prize Part II," with Rev. Kenneth I. Clarke.

Student Hearing Board, 7:30 p.m., Kern Assembly Room. Rayna Green presentation

on the social, educational and healthcare issues affecting Native American Indians.

Women's Studies, 7:30 p.m., HUB Assembly Room. Faith Ringgold, lecture and slide presentation: "My Work, My Life."

University Concert Committee, 8 p.m., Eisenhower Auditorium. Tito Puente and the Latin Jazz All Stars.

Thursday, March 28

Vice Provost for Underrepresented Groups office, 8 to 9 a.m., Paul Robeson Cultural Center. James B. Stewart invites students, faculty and staff for doughnuts, coffee and dialogue.

Diversity Opportunities Calendar

President Thomas scheduled to speak

President Thomas will address faculty, staff, and students in Eisenhower Auditorium at the University Park Campus at 4 p.m. Thursday, April 4.

The address will be open to the public.

"I have had the opportunity to discuss issues directly with Commonwealth Campus faculty, staff, and students in my ongoing visits to the campuses," Dr. Thomas said. "And although I have addressed the University Faculty Senate at University Park a number of times

during my first seven months at Penn State, I feel a need to address faculty, staff, and students at University Park."

Dr. Thomas is expected to share the goals and values he brings to the Penn State presidency and to outline the circumstances under which the University will continue to advance.

Although classes will not be canceled for Dr. Thomas's remarks on April 4, all faculty, staff, and students at University Park are encouraged to attend, schedules permitting.

Workshop will examine campus violence

With campus violence on the rise, student services personnel nationwide will meet at Penn State next month to develop strategies to combat it.

"College and university staff find themselves dealing with roommates who fight over the last hot dog, students who yell racial epithets out of their residence hall windows, threats and harassment of residence hall staff, and defaced posters advertising programs on gay and lesbian issues," Deborah Hamilton, conflict management specialist in the Center for Conflict Management, said.

In response, the American College Personnel Association and Penn State's Center for Conflict Management will hold a one-day workshop, "Campus Violence Redefined: A Workshop for Campus Leaders," for those who have responsibility for creating a nonviolent campus and intervening when violence does occur. It will be held April 12 at the Holiday Inn in State College.

To register, contact the Center for Conflict Management at Penn State, 101 Boucke Building, University Park, PA 16802, or call (814) 863-2918.

Dr. Thomas

Continued from page 1.

These funds include:
- \$10.8 million for agricultural science facilities. This will go toward significant upgrading in the poultry, dairy and greenhouse facilities and is part of the state matching requirement for the federally funded Agricultural Sciences Building, which recently was completed.

- \$1.1 million for airport projects. These funds represent the local share toward major expansion of the airport terminal and

enhancements of the overall airport operation.

- \$2.9 million for a coal de-sulfurization center. This center will house research programs dealing with making coal a more competitive fuel source for future generations.

- \$16.8 million for the initial phases of the academic/athletic convocation and events center. This will be a joint effort with the University. The state authorization for the long overdue project is \$33.8 million. The center is expected to cost \$50 million to \$55 million. Penn State has agreed to raise private dollars to help finance the multipurpose center.

Dr. Thomas said Penn State is very

U.S. Chamber president will serve on Smeal College board

Richard L. Leshar, president and chief operating officer of the U.S. Chamber of Commerce, has agreed to serve on the Board of Visitors of the Smeal College of Business Administration.

Formed in 1990, the board is an executive-level panel of distinguished individuals from the business community and the judiciary designed to provide counsel to the college. Frank P. Smeal, a limited partner with Goldman, Sachs Group Ltd., is chairman.

Dr. Leshar received a master's degree in business administration in 1960 and was named a Penn State Alumni Fellow in 1980. He also holds a doctoral degree from Indiana University and a bachelor's degree from the University of Pittsburgh.

He has served as U.S. Chamber president for more than 15 years, during which time he has been a leading advocate for business and the free-market system.

Dr. Leshar became president of the U.S. Chamber in 1975, having previously served as president of the National Center for Resource Recovery. Prior to that, he was a business consultant and, from 1964 to 1969, was part of NASA's top management

Richard L. Leshar

team. He also has been a member of the faculty at Ohio State.

The U.S. Chamber of Commerce is America's largest business federation, with more than 180,000 organizations and companies as members.

pleased to receive the capital project funds. He said the role of the University generated funds in projects such as the multipurpose center "is increasingly important in moving them forward. We

have pledged similar joint funding packages to encourage the Commonwealth to release design funds for the addition to Pattee Library and the construction of an engineering building at University Park."

Trustees

Continued from page 1.

Plan 1 (21,500 points): \$1,715 including Meal Plan 2 (26,500 points): \$1,765 including Meal Plan 3 (31,500 points): \$1,805 including Meal Plan 4 (35,500 points): \$1,835 including Meal Plan 5 (38,500 points).

Students may choose from five meal

plans offering from 21,500 to 38,500 points. Points are deducted from the plan based on each meal eaten in a dining hall or foods selected in other campus eateries.

Plan 1 translates into seven to eight meals a week. Plan 2 -- nine to 10 meals a week. Plan 3 -- 11 to 12 meals a week. Plan 4 -- 13 to 14 meals a week; and Plan 5 -- up to 16 meals a week.

Emotional healing

Chi Sigma Iota Counseling Academic and Professional Honor Society International and the Department of Counseling Psychology, Counselor Education and Rehabilitation Services Education are co-sponsoring a workshop titled "Voodoo vs. Valium: A Discussion of Emotional Healing Across Cultures" at 11:30 a.m. Friday, March 22, in the Fizzell Room of Eisenhower Chapel at University Park.

Keynote speakers are Clemmont Vontress of George Washington University, a noted scholar in the field of crosscultural counseling, who will discuss "Traditional Healing in Sub-Saharan Africa," and Edwin Herr, distinguished professor and head, Department of Counseling Psychology.

Counselor Education and Rehabilitation Services Education, who will discuss "International Perspectives on Counseling and Mental Health."

The workshop also will include a luncheon and initiation ceremonies for members of the Rho Alpha Mu chapter of Chi Sigma Iota. For preregistration forms, contact James Herbert at 863-3421. The workshop fee is \$10 in advance and \$12 at the door (space permitting).

Artist to lecture

Internationally known artist Faith Ringgold will present a slide lecture of her life and work at 7:30 p.m. Wednesday, March 27,

in the Assembly Room of the Hetzel Union Building at University Park.

Ms. Ringgold is one of the first African-American women artists in a position to bring black history and sensibility to cross-cultural public consciousness. Her work in painting, quilting and soft sculpture describes her life and relationships in the context of political and social commentary.

Ms. Ringgold is known for her innovative "story quilts," which include a painting and have a related story written on them.

Her lecture is sponsored by Penn State's Equal Opportunity Planning Committee, the School of Visual Arts, the Central Pennsylvania Festival of the Arts and Women of Color.

A reception for the artist will be held in the HUB Formal Gallery. The lecture and reception are free and open to the public.

Lecture series

James T. Sears, associate professor in the Department of Educational Leadership and Policies at the University of South Carolina, will speak on "Growing Up Lesbian and Gay in the U.S. South" at 8 p.m. Monday, March 25, in the HUB Assembly Room at University Park.

The lecture is part of the "Contemporary Scholarship on Lesbian and Gay Lives" lecture series which features pioneers in the development of lesbian and gay studies.

Dr. Sears' studies examine how reform and leadership can be used to address issues of homosexuality in educational environments.

The last lecture of the series, "In the Life: The Courage of Lesbians and Gay Men of Color," will be presented by Barbara Smith at 8 p.m. Thursday, April 11, in the HUB Assembly Room.

Faculty members honored for teaching and advising

Teaching fellow

George B. Kleindorfer, professor of quantitative business analysis in the Smeal College of Business Administration, will receive the 1991 Penn State Teaching Fellow Award at the University Awards Convocation April 7.

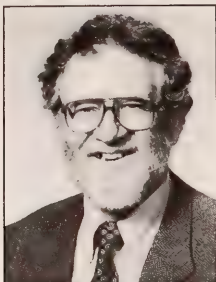

The award, jointly sponsored by the Penn State Alumni Association, the Undergraduate Student Government and the Graduate Student Association, recognizes and encourages excellence in the classroom.

In nominating him for the award, colleagues cited Dr. Kleindorfer for his creativity, breadth of knowledge and inquiry, commitment and sense of humor. Students cited his willingness to work with them one-on-one and his ability to make intricate topics understandable and exciting.

Dr. Kleindorfer, 55, has teaching and research interests that range from mathematics to the philosophy of science, the environment to education, the humanities to public policy.

"I look on teaching as a chance to have exciting conversations with bright people about interesting subjects," he said. "How could there be anything better than this?"

"In the give and take of conversation, there is the personal contact, the chance to joke or tease, the moment when something beautiful comes out of the subject being studied. There's also a chance to challenge and to bring ideas

George B. Kleindorfer

into relief that can slap an intelligent student between the eyes."

He was recognized for teaching excellence in 1987 with the AMOCO Foundation Award and, last year, received the J. Fred Brand Award as the Smeal College's outstanding faculty adviser.

He holds a bachelor's degree in electrical engineering from the University of Notre Dame, a doctor of laws from Georgetown University, a master of science in mathematics from Howard University and a doctoral degree in industrial administration from Carnegie Mellon University.

Excellence in advising

Paul R. Shellenberger, professor of dairy science in the College of Agriculture, is the recipient of the 1991 Penn State Excellence in Advising Award.

He will receive the award, which includes a plaque and cash gift, at the University Awards Convocation at 2 p.m. Sunday, April 7, in Eisenhower Auditorium at University Park.

The award was established by the Undergraduate Student Government's Academic Assembly and is sponsored by each college to encourage advising excellence. It is presented annually to honor full-time faculty members involved in helping students with academic and career guidance, decision-making and goal-setting. Another important criterion considered is the enthusiasm of the faculty adviser.

Known for his dedication to teaching and advising students, Dr. Shellenberger uses a personal approach in dealing with the 45 students majoring in dairy and animal science and animal bioscience he advises each year. He establishes a personal relationship with each student and lets them know he cares and is available and willing to talk with them.

One of his advisers says, "He is genuinely concerned about the welfare of his students. Whether it be a classroom setting or in an advising capacity, Dr. Shellenberger is always willing to answer questions or discuss concerns. As my adviser, he has taken

Paul R. Shellenberger

an active interest in my career aspirations and has discussed with me possible alternatives to my career goals."

An adviser to students in dairy production fields since 1967, when he joined the University faculty, he also serves as an adviser for the Summer Counseling Program for Entering Freshmen. He helps all students pursuing studies in the Department of Dairy and Animal Science register for their first semester.

Dr. Shellenberger earned bachelor and master of science degrees in dairy science-production from Penn State in 1957 and 1959, respectively, and a Ph.D. in animal nutrition from Iowa State University in 1964.

News in Brief

McKinley Conference

The 1991 McKinley Conference will be held Friday, March 22, in Room 115 Beam Business Administration Building at University Park.

Featured speaker will be Morris A. Cohen, of the Decisions Sciences Department at the Wharton School of the University of Pennsylvania. He will discuss "Global Manufacturing Strategy Analysis: Research Perspectives."

Healthpass anniversary

Healthpass IPA will celebrate its fifth anniversary on Friday, March 22, by hosting a medical conference at Tollfree Hotel, Resort and Conference Center in State College.

The afternoon conference will feature faculty members from the Hershey Medical Center speaking about a variety of timely medical subjects.

Professional Women at Penn State
Mimi Coppersmith-Fredman, president of the Board of Trustees, will discuss "Penn State's Trustees: A Woman's Perspective" at a meeting of Professional

Women at Penn State at 11:45 a.m. Tuesday, March 26, in the Frizzell Room at the Eisenhower Chapel, with an opportunity for informal networking.

Professional Women at Penn State is a grass-roots group coordinated by University women in which participants can develop and maintain a communications network and serve as a resource for other Penn State women. The group welcomes attendance from all classifications at the University.

Guest speaker

Helen Alvarez, spokeswoman on life issues for the National Conference of Catholic Bishops, will discuss "Social Policy for Women: The Life Issues in the Catholic Church" at 7:30 p.m. Tuesday, March 26, in Room 112 Kern Graduate Building at University Park.

Her talk is sponsored by the St. Thomas More Association and the Newman Catholic Student Association.

Roundtable series

John Milner, professor and head of the Department of Nutrition, will lead a

lunchtime roundtable sponsored by the Penn State Chapter of the National Association of Science Writers at 11:45 a.m. Wednesday, March 27, in Room 313 Kern Building at University Park. He will lead a discussion on "Garlic, Selenium and the Media."

The Penn State Chapter of the National Association of Science Writers meets for lunch and discussion on the last Wednesday of each month during the academic year. The brown bag lunchtime roundtable series is open to anyone interested in science communication. For more information, contact Barbara Hale, 865-2407.

Office personnel award

April 7 is the deadline for submission of nominations for the sixth annual Outstanding Office Personnel Award sponsored by the Penn State Chapter of Educational Office Personnel (PSEOP). PSEOP established the award to give recognition to University staff who have provided exceptional meritorious service on behalf of Penn State.

For a nomination form, contact your

personnel representative or Rosalie Villanova, chairperson, Nomination Committee, PSEOP, at (215) 889-1300.

Penn College enrollment

Pennsylvania College of Technology's spring semester enrollment figures show a 9-percent increase over last spring. The number of full-time equivalent students enrolled this semester is 3,012.

Since the spring semester of 1987, the College has achieved a cumulative spring semester enrollment increase of 39.5 percent.

Cooperative agreement

Penn State and Clarion University recently marked the inauguration of a cooperative agreement on a doctoral program.

Under the agreement, science education graduate students at Clarion can complete coursework beyond the master's degree, and have it apply toward a doctorate in curriculum and instruction at Penn State with an emphasis in science education.

From the Trustee Docket

Private giving

Seven months into the fiscal year, private gift support to the University totaled \$37 million and is almost even with last year's record pace, the Board of Trustees has learned.

Giving is up or virtually unchanged in all but one category through Jan. 31, according to G. David Gearhart, senior vice president for development and University relations.

"This is good news," Dr. Gearhart said. "In the face of a soft national economy, the war in the Persian Gulf and the historical tendency for private giving to decline

somewhat in the wake of a fund-raising campaign, we're pleased that private giving is doing this well."

At the same point last year -- in the final phase of the six-year Campaign for Penn State -- the University had raised \$38.3 million.

The University's private giving totals include only gifts actually received. Unpaid pledges are not included in the totals.

Alumni giving reached \$10.2 million as of Jan. 31, compared with \$7 million last year.

Foundation giving climbed to \$7 million, compared with \$4.3 million last year.

Gifts from associations and organizations increased to \$4.3 million, compared with \$3.5 million last year.

Giving by non-alumni friends of the University stood at \$4.6 million, the same total as last year.

The only area seeing a drop is corporate contributions, which are running about 43 percent behind last year's pace. As of Jan. 31, corporate philanthropy stood at \$10.9 million, compared to \$19 million at the same point the previous year. Last year's figure, however, included a \$6.6 million computer gift from IBM.

"There's no question the current

economic uncertainties are having an effect on corporate philanthropy," Dr. Gearhart said. "In an uneasy economy, corporate giving is typically one of the first things to be reined in."

Dr. Gearhart noted that the University will continue vigorous efforts to attract private funds.

"Given the economic picture in the Commonwealth of Pennsylvania and the budget cutbacks the University now faces, private gift support becomes more important than ever in maintaining academic quality," he said.

See related stories on page 9.

Construction projects

The Board of Trustees has approved the next steps for several proposed construction projects. Approved were:

- Sketch-preliminary plans for an expansion to the study and learning center at the Penn State Beaver Campus. The additional space is needed for student organization activities, student programs and services and conference space.

- Approximately 20,000 square feet will be added to the two-level structure, and 2,160 square feet of the existing building will be renovated. Among the additions will be a 406-seat sloped-floor auditorium on the ground floor. The total project budget is \$2,850,000.

- Sketch-preliminary plans for a four-level science and technology center at the

Penn State New Kensington Campus. The proposed facility will be attached to the south side of the existing library and will have approximately 14,230 square feet.

The new center will include a 150-seat lecture room, offices, study rooms, student lounge and audiovisual suite. The total project budget is \$1,650,000.

- Final plans for a new library at the Penn State Schuylkill Campus. The new 22,600-square-foot building also will house a learning center, which can be used independently of the library. The total project budget is \$2,600,000.

- Final plans and authorization for obtaining bids for the proposed Malet Building at University Park. The building will accommodate the Hotel, Restaurant and Institutional Management program.

The building will be connected to the

Keller Building by two corridors. The structure will have two floors and a partial basement with a total of approximately 39,400 square feet. The building will have a steel structure with a brick and glass exterior to harmonize with the adjacent Keller Building.

- In addition to classrooms, laboratories, kitchens and offices, the facility will include a dining area with seating for 150 people. The total project budget is \$6,000,000.

- Revised sketch-preliminary plans for the University Physicians Center II at the Hershey Medical Center.

The proposed facility will house physician and outpatient services separate from the hospital and academic areas. This phase will complement University Physicians Center I, which opened in late 1988.

The 137,000-square-foot building will have four floors plus a ground floor and large basement storage area. It will be connected to Center I by an enclosed pedestrian walkway and to the Hospital East Addition by an enclosed pedestrian bridge.

Program areas will include surgery, radiology imaging, pharmacy, pediatrics, dialysis, shared teaching and support services, medical records, endoscopy and bronchoscopy, neurology, hematology and oncology, support services and ancillary services.

- Authorization for the University to award contracts for the proposed addition to the Palmer Museum of Art at University Park and the Academic Building and student housing at the Penn State Berks Campus.

Education programs

Building on the strengths of its 50-year tradition in advertising, the School of Communications has developed its first graduate degree program in advertising.

The new advertising program and name changes for several other education programs have been reported to the Board of Trustees.

The School of Communications' proposal

for a master of arts degree in advertising was approved by the University's Graduate Council Jan. 16.

It is designed for students who have either an undergraduate degree in advertising or a degree in another field, coupled with professional experience in advertising. The graduate program will prepare students to advance the state of knowledge of advertising and its role as a social, cultural, economic and political force

in society.

Trustees also heard about name changes to three undergraduate programs and two graduate programs.

The College of Health and Human Development also has changed the name of its option in environmental interpretation to the option in outdoor recreation and environmental interpretation, making the name consistent with related changes in course requirements for the option.

The second name change for a graduate program involves the intercollegiate graduate program in solid state science, which has been renamed the intercollegiate graduate program in materials. The new name is more representative of the wide range of fields covered by the program, including ceramics, chemistry, chemical engineering, engineering science and mechanics, geosciences, geophysics, mechanical engineering, metals, physics and polymers.

Graduate Research Exhibition

Appalachian bedrock fractures, a zero-gravity locomotion simulator, attitudes toward television viewing and other research will be on display in the Graduate Research Exhibition from 10 a.m. to 4 p.m. on Friday and Saturday, March 22 and 23, in Kern Graduate Lobby at University Park.

Celebrate the Family

The seventh annual Celebrate the Family Conference will be held April 3-5 at the Keller Conference Center at University Park.

James E. Van Horn, professor of rural sociology and the conference chairperson, expects more than 500 professionals in fields dealing with family issues to attend the annual conference, sponsored by the College of Agriculture and Penn State Cooperative Extension and co-sponsored by the College of Health and Human Development.

David Olson, professor in the Family Social Science Department at the University of Minnesota and Penn State alumnus, is keynote speaker.

To register for the conference, call 865-8301.

Focus on the arts

The arts on Channel 3

American Playhouse, public television's award-winning weekly, drama anthology series, will launch its 10th anniversary season with a special premiere week in which two Broadway blockbusters will be broadcast: the Stephen Sondheim/James Lapine musical "Into the Woods" and the Steppenwolf Theatre Company's adaptation of John Steinbeck's "The Grapes of Wrath."

"Into the Woods," the 1988 Tony Award-winning musical co-starring Bernadette Peters and Joanna Gleason, will kick off the 10th season from 8 to 11 p.m. Thursday, March 21, on WPSX-TV.

"The Grapes of Wrath," the 1990 Tony winner for Best Play, starring Tony nominees Gary Sinise, Lois Smith and Terry Kinney, will air at 9 p.m. Friday, March 22. John Steinbeck's powerful story about the Joad family's flight from Oklahoma's dust bowl to California's promised land during the Great Depression was adapted for the stage by the Steppenwolf Theatre Company of Chicago.

Contemporary Dance Co.

The Contemporary Dance Company will present its 18th annual spring concert at 8 p.m. Friday, March 22, and at 2:30 and 8 p.m. Saturday, March 23, in Eisenhower Auditorium.

New pieces, as well as selected works from repertoire, will be presented. Tickets are \$6 for general admission and \$5 for students at the evening performances, and \$5 for general admission and \$4 for students at the matinee. Contemporary Dance Company is sponsored by the College of Health and Human Development.

Choir concert

The Penn State University Choir and the University of Pittsburgh Heinz Chapel Choir will present a free joint concert at 8 p.m. Saturday, March 23, in the School of Music Recital Hall at University Park.

The choirs will perform double choir selections by Gabrieli and Jakob Handl and other selections by Tchesnokov and Clausen.

The University Choir Chamber Ensemble, directed by assistant conductor Russell Shelley, also will take part in the program.

The arts at...

Schuylkill Campus

Post Maxine Kumin will lecture and recite several of her poems at 8 p.m. Monday, March 25, at the Penn State Schuylkill Campus.

Ms. Kumin was born in Philadelphia and received her bachelor of arts and master of arts degrees in English from Radcliffe College. Her appearance is part of the Schuylkill Lecture Series.

Philharmonic Ball

The Penn State Philharmonic will present its third annual Philharmonic Ball from 8 to 11 p.m. Saturday, March 23, at the Paul Robeson Cultural Center at University Park.

The ball is held annually to raise funds for the orchestra's European tours.

Tickets are available in Room 221, School of Music Building, from 10 a.m. to noon Monday through Friday, as well as at the door the evening of the ball. Call 863-0060.

Mozart orchestra

The University's Mozart Chamber Orchestra will perform in concert at 4 p.m. Sunday, March 24, in the School of Music Recital Hall at University Park.

The Mozart Chamber Orchestra, directed by Alex Hill, a master of music conducting candidate, was organized in fall 1990 and includes 10 to 25 music and non-music majors.

Brown bag luncheon

Monique Yaari, associate professor of French, will give a talk on "French Postmodernism: Art and Architecture," as part of the Comparative Literature brown bag luncheon series at 12:15 p.m. Monday, March 25, in 101 Kern Building at University Park.

Those interested in attending the lecture only should arrive before 12:45 p.m. Coffee and tea will be provided.

Jazz bands to perform

Penn State's Inner Dimensions and Outer Dimensions jazz bands will present their annual spring concert at 8 p.m. Monday, March 25, in the School of Music Recital Hall at University Park.

Outer Dimensions, directed by Howard Lamb, will open the concert with jazz classics such as Sammy Nestico's "Tall Cotton" and Bob Florence's "Wide Open Spaces." Featured soloists will include trombonists Tim McKay and John Davis.

The second half of the program features Inner Dimensions, directed by Jeffrey Kunkel. The group's performance will include John Fedchock's "Latin Import" and Mr. Kunkel's "Midnight Run." Featured soloists include saxophonists Greg Bloy and Brian Watson.

Art exhibit

An exhibition of work by graduate students in art education will open March 25 and continue through April 26 in the Chambers Gallery at University Park.

The show incorporates a variety of media and styles, including painting, photography, sculpture, ceramics, fiber art and drawing. Works in the exhibition were created by students from Canada, Egypt, Saudi Arabia and the United States.

Chambers Gallery is located on the second floor of the Chambers Building. The

Vinie Burrows will present a dramatic performance of "Daughters of the Sun" at 8 p.m. March 26 at the Paul Robeson Cultural Center.

gallery is open 8 a.m. to 5 p.m. Monday through Friday.

German rock music

The German Department is sponsoring an exhibit, "Gefühl und Harte: Zur Geschichte der deutschen Rockmusik" ("Tough and Tender: The History of German Rock Music"), in the Formal Gallery of the Hetzel Union Building at University Park from March 25 to April 28.

The exhibit, provided by Germany's Goethe Institute, consists of 27 posters, a videotape of rock performances, and accompanying lyrics, which together present an overview of the styles and stars of rock in Germany from the beginnings to the present. English translations are provided for all German materials.

"Outside the English-speaking world, the best and the most politically volatile rock has probably come from Germany," explains Thomas Beebe, assistant professor of comparative literature and German, and curator of the exhibit.

At 8 p.m. March 25, Dr. Beebe will kick off the exhibit with a lecture/demonstration titled "German Rock: Tough, Tender, and Timely" in the Formal Gallery in the HUB.

Art history lecture

Annabel Jane Wharton, associate professor of art history at the University of Chicago, will present "The Politics of Architecture: Architectural History as Politics" at 8 p.m. Tuesday, March 26, in 112 Walker Building at University Park.

The lecture is part of "The Art of Interpreting" series sponsored by the Department of Art History and the Institute for the Arts and Humanistic Studies.

Dr. Wharton is the Byzantine editor of *Greek, Roman and Byzantine Studies* and has

been president of the Byzantine Studies Conference.

The lecture is free and open to the public.

Odyssey on WPSU

"Translation is interpretation - and in some cases, a fairly radical departure from the original," agrees Johann Pillai on the next episode of "Odyssey Through Literature."

Mr. Pillai, a graduate student in comparative literature at SUNY-Buffalo, discusses with host Leonard Rubinstein the unique relationship between a written work and the translation and interpretation of that work, citing Edgar Allan Poe's poem "The Raven" as an example.

"Odyssey Through Literature" is produced by the Department of Comparative Literature in the audio-production studios of WPSU-TV. It airs Wednesdays at 12:30 p.m. on WPSU, 91.1 FM.

Tito Puente

Tito Puente, the 1991 Grammy Award winner, brings his spicy Latin jazz to the University at 8 p.m. Wednesday, March 27, in Eisenhower Auditorium at University Park.

His eight-member ensemble uses bongos, congas, piano, saxophone and other musical instruments to create its special sound. The performance is presented by the Center for the Performing Arts.

Tickets are available at the Eisenhower Auditorium Ticket Office. Call 863-0255.

Music lecture

Bennett Reimer, of Northwestern University, will present "What We Know When We Know Music: What We Teach When We Teach Music" at 8 p.m. Thursday, March 28, in the School of Music Recital Hall at University Park.

The lecture is last in the School of Music's inaugural lecture series "Music Today: 1990-91."

Dr. Reimer is the John W. Beattie Professor of Music and director of the Center for the Study of Education and the Musical Experience at Northwestern. He is widely known for his work in the area of aesthetic education.

The lecture is free and open to the public.

Bach's Lunch

Nine voice students from the studio of Suzanne Roy of the School of Music faculty, will perform Lent and Holy Week music in concert at 12:10 p.m. Thursday, March 28, in Eisenhower Chapel at University Park. The 20-minute concert is part of the Bach's Lunch Concert series sponsored by the School of Music and the University Lutheran Parish.

The program will include selections by Bach, Brahms, Handel and Mendelssohn.

See page 8 for more arts stories.

University Park Calendar

March 21-
March 31

Special Events

Thursday, March 21

Bach's Lunch Concert, 12:10 p.m., Eisenhower Chapel, Mallet Ensemble.
Career Development and Placement Services, open house, 2-6 p.m., 410 Boucke.
■ Fulbright Informal Lecture Series, 3:30-4:30 p.m., 222 Boucke. Dr. Kodangala Ramachandrarach, Karnatak Univ., India, on "The Nature and Plight of Creativity."
Center for the Performing Arts, Spalding Gray, film and discussion, 8 p.m., Schwab Aud. *Sweeney in Cambodia*.

Friday, March 22

McKinley Conference, 9:15 a.m.-4 p.m., 115 Beam Bus. Admin.
■ Workshop, 11:30 a.m., Frizzell Room, Eisenhower Chapel, "Voodoo vs. Valtum: A Discussion of Emotional Healing Across Cultures." Call 863-3421.
Geog. Coffee Hour, 4 p.m., 319 Walker. Gene Keluche, International Conference Resorts Inc., on "Management of Native American Natural Resources."
Center for the Performing Arts, 8 p.m., Schwab Aud. Spalding Gray on "The Monologue: Monster in a Box."
Contemporary Dance Co., spring concert, 8 p.m., Eisenhower Aud. Also 2:30 and 8 p.m. March 23.

Saturday, March 23

Shaver's Creek, Maple Harvest Festival, 11 a.m.-4 p.m. Also March 24. Call 863-2000.
■ "Caribbean Experience," 5:30 p.m., HUB Ballroom.
School of Music, 8 p.m., Recital Hall. Penn State University Choir, Univ. of Pittsburgh Choir.
School of Music, 8 p.m., Paul Robeson Cultural Center. Penn State Philharmonic Ball.
Sunday, March 24
Carnegie Hall Film Series, 7 p.m., *Young Mr. Lincoln* (1939); 9 p.m., *The Landlord of the Long Delta River* (1962), 108 Wartik. Free.
School of Music, 8 p.m., Recital Hall. Mozart Chamber Orchestra and Chamber Singers.

Monday, March 25

■ Comp. Lit. Luncheon, 12:15 p.m., 101 Kern. Monique Yaari on "French Postmodernism: Art and Architecture."
Contemporary Scholarship on Lesbian and Gay Lives, lecture, 8 p.m., HUB Assembly Room. James T. Sears, Univ. of South Carolina, on "Growing Up Lesbian and Gay in the U.S. South."
School of Music, 8 p.m., Recital Hall. Jazz II and III.
■ German Dept., 8 p.m., HUB Formal Gallery. Dr. Thomas Beebe on "German Rock: Tough, Tender and Timely."

Tuesday, March 26

Professional Women at Penn State. Brown-Bag Lunch meeting, 11:45 a.m., Frizzell Room, Eisenhower Chapel. Mimi Coppersmith-Fredman on "Penn State's Trustees: A Woman's Perspective."
Talk, 7:30 p.m., 112 Kern. Helen Alvarez, National Conference on Catholic Bishops, on "Social Policy for Women: The Life Issues in the new Catholic Church."
Art of Interpreting, 8 p.m., 112 Walker. Annabel Jane Wharton, Duke Univ., on "The Politics of Architecture: Architectural History as Politics."

Steven Kondra's paintings are on display in Pattee Library's East Corridor Gallery through April 12.

Wednesday, March 27

Luncheon Roundtable, 11:45 a.m., 313 Kern. Dr. John Milner on "Garlic, Selenium and the Media."
School of Visual Arts, lecture, 7:30 p.m., HUB Assembly Room. Faith Ringgold, artist, on "My Work, My Life."
■ Center for the Performing Arts, 8 p.m., Eisenhower Aud. Tito Puente and the Latin Jazz Allstars
Music Lecture Series, 8 p.m., Recital Hall. Bennett Reimer, Northwestern Univ., on "What We Know When We Know Music: What We Teach When We Teach Music."

Thursday, March 28

Bach's Lunch, 12:10 p.m., Eisenhower Chapel. Voice Students of Suzanne Roy: Lenken Music.

Friday, March 29

Geog. Coffee Hour, 4 p.m., 319 Walker. Vera Mark on "Cultural Pastiches: Intertextualities in the Monarchbait Lias' Festival Narratives."

Sunday, March 31

Carnegie Hall Film Series, 7 p.m., *The Women* (1939); 9:15 p.m., *The Hound of the Baskervilles* (1959), 108 Wartik. Free.

Conferences

Continuing Education

Book Building

March 15-16, Microcomputer Information Exchange Program. Kyle Peck, chair; Donna Ricketts, coordinator.

Seminars

Thursday, March 21

Physics Colloquium, 3:30 p.m., S5 Osmond. Dr.

A.M. Polyakov, Princeton.

History Colloquium, 4 p.m., Eisenhower Chapel. Steven Andrews on "Paracelsus and the Four Pillars of Medicine."

Science, 4 p.m., 325 Whitmore. Robert Schapire, Harvard, on "The Design and Analysis of Efficient Learning Algorithms."

Mechanical Engineering, 4 p.m., 103 Mech. Engr. Dr. Fred Bowman, Harvard-MIT, on "Continuous Quantification of Perturbation Using Thermal Techniques."

Gerontology Center Colloquia, 4 p.m., 106 Mitchell. Pearl German, Johns Hopkins, on "Current Health Services Research in the Elderly Population."

Graduate Program in Ecology, 3:45 p.m., 8 Mueller. Dr. Peter B. Reich, Univ. of Wisconsin, on "Leaf Life Span as an Integrator of Leaf, Plant and Stand Level Processes in Diverse Ecosystems and Biomes."

Friday, March 22

Agromony, 3:35 p.m., 107 Ag Science and Industries. Barbara Penzacker on "Analysis of Photosynthesis in Resistant and Susceptible Alfalfa Clones Infected With *Verticillium Alfabum*."

Monday, March 25

Entomology, 3:45-4:45 p.m., 204 Patterson. Elson J. Shields, Cornell, on "Predicting Long-Range Movement of Potato Leaf Hopper: Is it a Reality?"

Computer Science, 4 p.m., 325 Whitmore. Bruce Holmer, UC Berkeley, on "The Architecture and Design of Pipelined Microprocessors."

Tuesday, March 26

Chemical Engineering, 2:45 p.m., 140 Fenske. John E. Anderson, Union Carbide Industrial Gases Inc., on "Basic Studies and Applications of Oxygen Jets in Combustion."

Chemistry Colloquium, 3:30 p.m., S5 Osmond. William L. Jorgensen, Yale, on "Insights on

Molecular Recognition from Computer Simulations."

Geosciences Colloquium, 3:45 p.m., 112 Walker. Steve Mackwell.

Graduate Program in Nutrition, 4 p.m., 101 Althouse Lab. Mark I. Friedman, Monell Chemical Senses Center, on "Metabolic Control of Food Intake."

Biology, 4 p.m., 8 Mueller. David Kraus, Univ. of Alabama, on "Oxygen and Sulfide Binding by Clam Hemoglobins: A Division of Labor within a Symbiosis."

Condensed Matter Physics, 4 p.m., 339 Davey. Dr. Roger Haydock, Oregon, on "Quantum Conductance in the Presence of Border."

Thursday, March 28

Combustion and Propulsion, 11 a.m., 501 Keller. Dr. Nicholas E. Gallopoulos, General Motors Research Labs, on "Improving Internal Combustion Engines through Experimentation and Mathematical Modeling."

Physics Colloquium, 3:30 p.m., S5 Osmond. Robert W. Field, MIT, on "Dynamics Encoded in Eigenstate and Continuum."

Graduate Program in Ecology, 3:45 p.m., 8 Mueller. Dr. Michael Steele, Wilkes Univ., on "Termin and Partial Consumption of Acorns by Squirrels: Evidence for a New Mode of Seed Dispersal."

Friday, March 29

Agromony, 3:35 p.m., 107 Ag Science and Industries. Dr. Jay Harper on "IPM Adoption and Pesticide Use in Pennsylvania."

Exhibits

Chambers Gallery

Art Education Graduate Students exhibition, through April 26.

HUB Galleries

Art Alley Cases:

Joe Royby, paintings, through March 27. Ann-Lise Dearing, ceramics, through March 27.

Browsing Art Gallery:

Dept. of Corrections Inmate Art exhibit. "Impressions," through March 31.

Formal Gallery:

■ "Gefühl und Harte: Zur Geschichte der deutschen Rockmusik" ("Tough and Tender: The History of German Rock Music.") March 25-April 28.

Kern Gallery

Graduate Research Exhibition, 10 a.m.-4 p.m., Kern Lobby, March 22-23.

Palmer Museum of Art

Abstracting the Landscape: The Artistry of Landscape Architect A.E. Bye, through March 30.

Pattee Library

Lending Services Gallery:

Mark A. Dellert, "New Developments," through April 21.

East Corridor Gallery:

Steven Kondra, pastels, oils and watercolors, through April 12.

West Lobby Gallery:

Jennifer Nelson, photographs, through March 30.

Zoller Gallery

Undergraduate Juried Exhibition, through March 29.

■ Reflects an international perspective

Appointments

Mark D. Erstling, broadcast manager for WGBY-TV in Springfield, Mass., has been named manager of WPSX-TV, Penn State Television, and assistant general manager, University Division of Media and Learning Resources.

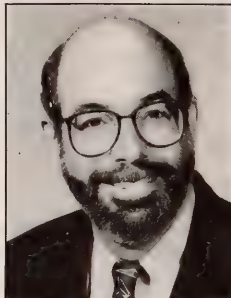

Mr. Erstling has worked in television for more than 18 years, serving the past 11 years as broadcast manager for public television station WGBY-TV. While there, he was responsible for broadcast scheduling, program development, and production services. He will begin his new responsibilities at WPSX-TV on April 14.

Mr. Erstling has been the recipient of numerous awards including an Emmy, an Ohio State Award, an Associated Press Award, and a Corporation for Public Broadcasting local program award.

Marylouise F. Martz has been named coordinator of health services at Penn State Harrisburg.

She provides health counseling, health services, and treatment of health related problems for students, staff, and faculty.

Prior to her appointment, Ms. Martz was a substitute health nurse at the college and

Mark D. Erstling

an adjunct staff member at the WOMANCARE Resource Center-East. She also was a national trainer for the SBI Corp. in Carlisle, where she trained Motherwell Fitness instructors in exercise technique and physiology.

Marylouise F. Martz

Ms. Martz is a 1977 graduate of the York Hospital School of Nursing. She holds a bachelor of science in nursing from Messiah College, where she had a double major in nursing and psychology.

Theresa A. Nagy has been appointed director of academic affairs at the Penn State Fayette Campus.

Dr. Nagy graduated with a B.S. in physics and mathematics from West Liberty State College. She also holds an M.S. in cosmic ray physics and mathematics from Texas A&M and a doctorate in astronomy/astrophysics from the University of Pennsylvania.

Dr. Nagy also has performed graduate work in nuclear physics at McMaster University. In 1990, West Liberty State College bestowed an Honorary Doctorate of Humane Letters on her.

Prior to joining the University, Dr. Nagy was employed by NASA in Washington, D.C., as acting branch chief for the Astrophysics Advanced Programs and Technology Division. From 1983 to 1987, she served as chairperson of the Department of Physics at Indiana State University.

Dr. Nagy is a member of numerous national honorary research and scientific societies and is listed in several "Who's Who" directories throughout the United States and Canada.

Arts cont.

Art exhibit

The 11th annual Department of Corrections Inmate Art Exhibit will be on display in the HUB Browsing Art Gallery at University Park through March 31. The exhibit titled "Impressions" will feature art from 14 correctional institutions in Pennsylvania.

Judges select the top 12 paintings in the exhibit for reproduction in the annual Department of Corrections Inmate Art

Calendar. Those selected receive a certificate from the commissioner and \$75.

Pattee exhibit

Works by Steven Kondra are on display in Pattee Library's East Corridor Gallery through April 12. The exhibition includes 28 pieces done in pastel, oil, and watercolor.

Mr. Kondra, born in Hungary, explains that he paints and sketches whatever is beautiful and captures his interest.

'New Developments'

Mark A. Dellert's exhibition "New Developments" is on display in Pattee Library's Lending Services Gallery through April 21.

"New Developments" is a group of 10 images from a larger body of work documenting the new housing and commercial developments that are consuming the remaining farm land in and around State College. This group of images focuses largely on the expansion of the

housing units of Foxdale Village Retirement Community.

Photo exhibit

Black and white photographs by Jennifer Nelson are on exhibit in Pattee Library's West Lobby Gallery through March 30.

Ms. Nelson's work has been recognized by *Photographer's Forum* magazine in its 1990 "Best College Photography" contest. She is majoring in art at the University with a concentration in photography and minors in Italian and art history.

Sexual harassment contact persons undergo training

Sexual harassment contact persons have been identified for each academic/administrative unit and each campus. The network is intended to provide faculty and staff members with prompt and knowledgeable access to a sexual harassment resource person.

The 85 contact persons listed below are undergoing training this week for their role in addressing sexual harassment problems brought to their attention.

Following are the sexual harassment contact persons for each unit:

Agriculture, Jeanne L. Price; **Arts and Architecture**, Judith Aronson; **University Arts Services**, Ok. Hi. Lee; **Business Administration**, Janet McGrew; **Earth and Mineral Sciences**, Carol Vonada;

Education, Anna Gajar (faculty), Toni Duchi (staff), E. Kepler Sones (students); **Engineering**, Laura E. Frye, Jo Ann Stephens; **Health and Human Development**, Pamela D. Evans (students), Mary E. Taylor-Nicholson (faculty/staff);

Liberal Arts, Patricia M. Miller, Ronald L. Filippelli; **School of Communications**, Susan Gars; **Science**, Norman Freed, Elizabeth Trimble;

Undergraduate Education, Michael H. Blanco; **Development and University Relations**, Maggie

Crispell; **Vice President of Academic Services**, Gloria Briggs; **Applied Research Laboratory**, Arlene Liddy, Janet Rockey;

Corporate Controller, Jon Nimberger, William Nogroski; **Commonwealth Educational System/University Park**, Angela Brodie, Susan Shuman; **Graduate School (Intercollege Research Programs, University Press)**, Grace Condo;

Rietnor Health Services, Jean Hoffman; **Housing and Food Services**, Jane McLaren, Sylvester E. Roy; **Management and System Engineering**, William Slacey; **Nittany Lion Inn**, Robert Dennehy;

Physical Plant, Dorothy Lyons; **President's Office**, Gabriele Michels; **Budget and Resource Analysis**, Gabriele Michels; **Computer and Information Systems**, Carolyn Brown, John Harwood, Margaret Gearhart;

Human Resources, Rosalie Bloom; **Brooks; Student Services**, Betty Moore; **Business Services and Purchasing Services**, Gregory Ingram; **University Safety**, Pam Gerber; **Intercollegiate Athletics**, Ellen Perry;

International Programs, Maureen Costello;

University Libraries, Cordelia Swinton; **University Bookstore**, Linda Kopp;

Altoona, Mary Jo Borden, Margaret C. Hopfl, W. Dennis Stewart; **Allentown**, Luci Wenczkowski; **Beaver**, Donald Hicks, Donna Kuga, Bob DeVitt, Regina Miller;

Penn State Erie, The Behrend College, Christopher Reber, Mary Beth Peterson; **Berks**, Susan Monk (faculty), Doris Fraser (clerical), Shirley Dautrich (staff);

Penn State Harrisburg, Betty Fortner, Donald R. Holzman; **Delaware**, Charles F. Coleman, Diane Jankowski, Diane Shorter, Nancy Wyatt;

DuBois, Janet Yates; **Fayette**, Patricia Hritz; **Great Valley**, Adele Bane; **Hazleton**, Maureen Gaffney, Cathy Salak;

Hershey Medical Center, Katharine Quinn Vanderau, Louise P. Sowers; **Mont Alto**, Andrea Christopher;

McKeesport, Elsie Boucek; **New Kensington**, Dianna Rumbaugh, Jay Schrader;

Ogontz, Dale Hollenback; **Schuylkill**, Everett F. Binns,

Kathryn M. Melusky; **Shenango**, Phyllis Whitt; **Wilkes-Barre**, Katherine F. Herstek;

Worthington Scranton, Maria Rusconiello, Mary Brown; **York**, Holly Gumke.

Private Giving to Penn State

Campaign for Hershey is announced

Biomedical research building planned for Hershey

The Milton S. Hershey Medical Center has launched the Campaign for Hershey to raise \$10 million in private gifts for a new Biomedical Research Building.

The campaign's chairman is J. Lloyd Huck of New Vernon, N.J., who is chairman of both Nova Pharmaceutical Corp., a development-state biotechnology concern, and Mutual Benefit Life Insurance Co. Mr. Huck also is past president (1988-91) of the University's Board of Trustees.

"Mr. Huck's experience in the pharmaceutical industry gives him insight into the importance of biomedical research, and his distinguished service as a trustee since 1977 has earned him the respect of all alumni and friends of Penn State," President Thomas said.

More than \$5 million has been raised so far, including a \$1 million lead gift from Clearfield newspaper and radio executive William K. Ulerich and his wife, Alethea, to create the Ulerich Ophthalmology Research Center. Mr. Ulerich is president emeritus of the University's Board of Trustees and chaired the board's Hershey Medical Center advisory committee from 1982 to 1985.

Serving with Mr. Huck on the Campaign for Hershey campaign committee are:

— **William H. Alexander** of Hummelstown, chairman of H.B. Alexander Enterprises and a prominent Central Pennsylvania business and civic leader.

— **Howard O. "Mike" Beaver Jr.**, director and retired chairman of the board and chief executive officer of Carpenter Technology Corp.;

— **Louis R. Benzak**, president of the New York investment firm of Spears, Benzak, Salomon and Farrell;

— **Elouise R. Eberly** of Uniontown, a registered nurse and trustee of Uniontown Hospital;

— **David M. Joyner, M.D.**, of Camp Hill, an orthopaedic surgeon and former all-American in both football and wrestling at Penn State;

Illustration of new Biomedical Research Building planned for the Hershey Medical Center

— **John A. Waldhausen, M.D.**, John Oswald Professor and chairman, Department of Surgery, Hershey Medical Center; and

— **Richard A. Zimmerman**, chairman of the board and chief executive officer, Hershey Foods Corp.

The new, \$47.6 million, 236,000-square-foot building is being built next to the College of Medicine. The College and University Hospital together compose the Medical Center.

The Campaign will finance about 20 percent of the Biomedical Research Building's total cost, including furnishings and equipment. The rest will be underwritten through a bond issue and the use of financial reserves. No public funds will be used.

The seven-story Biomedical Research Building will contain laboratories for the departments of anesthesia, medicine, microbiology and immunology, neuroscience and anatomy, ophthalmology, pediatrics, radiology and surgery — which will include further work on organ transplantation. It also will contain the first new student space

— seminar and activity rooms — to be constructed since the Medical Center was first built.

The project is part of a broad expansion of the Medical Center's physical plant. Other relatively recent buildings include the University Physicians Center to house outpatient services and University Hospital's south and east additions.

Contributions to underwrite the construction of these facilities also will be accepted as part of the Campaign for Hershey.

"Everyone has a stake in supporting basic biomedical research and the improvements it makes possible in health care," Mr. Huck said. "I'm honored to be involved in this campaign and believe that what we have embarked upon here today will lead to contributions of the most profound sort to people everywhere."

According to C. McCallister Evans, dean of the College of Medicine and senior vice president for health affairs, the Medical Center has a critical shortage of research space that is hampering efforts to expand already impressive

accomplishments.

"We are virtually bursting at the seams," Dr. Evans said. "There isn't a square inch of space that is not already in use, including in corridors and closets."

"The campaign will continue until we raise all \$10 million from private sources."

The Medical Center, which receives only a small percentage of its operating budget from state appropriations, raised a total of \$31.7 million in private funds during the Campaign for Penn State that ended June 30, 1990. These funds were used to support student scholarships, faculty endowments and facility renovations.

Biomedical research awards to Hershey scientists have grown nearly 33 percent in only three years, from \$17.7 million in fiscal 1987-88 to \$23.5 million in fiscal 1989-90. The University estimates that the new building will add nearly \$180 million to the economy of Southcentral Pennsylvania, create jobs in construction and service occupations, and permit the addition of 50 faculty positions.

Engineering alum endows Schell professorship

Harry and Arlene Schell of New City, N.Y., have given \$250,000 to the College of Engineering to endow The Harry and Arlene Schell Professorship in Engineering.

Mr. Schell is the chairman and chief executive officer of BICC Cables Corp. The 1956 civil engineering graduate led the management buyout of the Phelps Dodge Cable and Wire Co.'s power cable business to create Cables Corp. in 1984. He was instrumental in the company's

growth and its subsequent sale to BICC Group.

"Penn State has been good to us, and we're delighted to have the opportunity to play a small part, through this endowment, to ensure the continuation of the high standards and fine reputation of the College of Engineering," he said.

In 1961, Mr. Schell joined Phelps Dodge Corp. where he served in various managerial and executive positions. He was president and chief executive officer of Phelps Dodge Cable & Wire Co. (1974-

84) and Phelps Dodge Copper Products Co. (1980-84), which led to the management buyout and formation of Cables Corp. Since 1984, he has coordinated and effected a series of acquisitions, marketing agreements and reorganizations that established Cables as a leader among cable manufacturers.

He was named a Penn State Outstanding Engineering Alumnus in 1990.

Mrs. Schell is active in various church and community activities.

Promotions

Staff Exempt

David T. Gingham, to manager, HUB Food Service in Housing and Food Services.
Arthur E. Gover, to project associate in Agriculture.
Susan M. Hicks, to clinical nurse educator and affiliate clinical instructor at Hershey.
Mary L. Kanaski, to clinical nurse educator and affiliate clinical instructor at Hershey.
Kathleen M. Nagy, to clinical nurse educator at Hershey.
Sandra J. O'Brien, to clinical nurse educator at Hershey.

Staff Non-Exempt

Barbara L. Ail, to MRI technologist at Hershey.
Sherry Casamento, to administrative aide in Research and Graduate School.

Mary R. Frank, to administrative aide in Education.
Elaine C. Lutz, to external relations assistant in Eberly College of Science.
Kelli S. Martin, to senior research technologist in Agriculture.
Kendrick M. McCall, to research technician at Hershey.
Carrie L. Peters, to research technologist in Liberal Arts.
Dennis J. Schenck, to senior research technologist at Penn State Erie, The Behrend College.
Joyce L. White, to research administrative support aide in Eberly College of Science.

Clerical

Marisa L. Aurand, to secretary B at Hershey.
Corry Beck, to secretary B in Arts and Architecture.
Heather Benner, to senior clerk,

subscription in University Libraries.
Wendy J. Clark, to secretary B in Liberal Arts.
Trisha D. Hunter, to clerk, typist A in Engineering.
Joanne J. Hutton, to secretary B at Hershey.
Joseph P. Pilot, to clerk A in Continuing Education.
LeAnn S. Rossman, to accounting clerk in Corporate Controller's Office.
Elaine S. Smith, to conference secretary in Continuing Education.
Diane L. Southard, to secretary B in Liberal Arts.
Sheila F. Weaver, to secretary B at Penn State Harrisburg.

Technical Service

Robert M. Boboige, to group leader, maintenance worker-utility at DuBois Campus.
Dinnie Graves, to maintenance worker,

general B at Penn State Harrisburg.
Lynn L. Hepler, to environmental health worker, group leader at Hershey.
Lillian Ledesma, to central processing aide at Hershey.
Earl M. McCaleb, to truck driver II in Research and Graduate School.
Scott J. Shoemaker, to building maintenance worker in Student Services.
Kevin E. Spicer, to maintenance worker, truck driver in Applied Research Lab.
Julie M. Stefanowicz, to snack bar worker A in Housing and Food Services.
Brenda K. Struble, to residence hall utility worker in Housing and Food Services.
Donald C. Wolbert, to offset duplicator operator at Penn State Erie, The Behrend College.
Robert J. Wolfe, to electronics technician at York Campus.
Judith A. Yost, to snack bar worker A in Housing and Food Services.

Penn Staters

Robert D. Arbruck, campus executive officer of the Penn State New Kensington Campus, has received the Rotary Foundation of Rotary International's Citation for Meritorious Service "in recognition of his devoted efforts for the furthering of better understanding and friendly relations among peoples of the world."

Douglas Arnold, professor of mathematics, has won the first Giovanni Sacchi Landriani Prize ever awarded by the Lombardo Academy of Science and Letters in Milan, Italy. Dr. Arnold was honored for his "contributions in the field of numerical methods for partial differential equations."

Mary Gail Becker, assistant professor of educational and school psychology, gave an invited, one-day workshop on "An Overview of Child Neuropsychological Assessment" in the Department of Psychology of Gothenburg University, Sweden.

Paul V. Bredeson, associate professor of education, has been appointed to the editorial board of *Educational Administration Quarterly*.

Mary De Jong, associate professor of English and women's studies at the Penn State Shenango Campus, has been awarded a \$30,000 National Endowment for the Humanities Fellowship for College Teachers and Independent Scholars to work on her project "Heart Songs and Hymns," an historical study of 19th-century religious lyrics and their authors.

George S. Dulikravich, associate professor of aerospace engineering, has been named Associate Fellow of the American Institute of Aeronautics and Astronautics.

Peter D. Everett, associate professor of marketing, has been named to the National Research Council of the National Academy of Science project to develop a transportation quality index.

Robert M. Hendrickson, associate professor of education, was elected to the board of directors of the National Organization on Legal Problems of Education for a three-year term. He also was appointed chair of the organization's 1991 national conference.

Austin J. Jaffe, professor of business administration and research director of the Institute for Real Estate Studies, has been invited to serve on the editorial review board of the *Research in Real Estate Monograph Series*.

Maj. Peter J. Kai, assistant professor of military science at the Penn State McKeesport Campus, has been named the Department of the Army's most outstanding Senior Reserve Officers' Training Corps instructor in the Northeast, making him one of four finalists for the Army's top ROTC instructor award.

Gary Koopmann, professor of mechanical engineering and director, Center for Acoustics and Vibration, has been appointed to the editorial board of the *Journal of Applied Acoustics*.

William J. Kraemer, director of research for the Center for Sports Medicine, has been appointed editor-in-chief of the *Journal of Applied Sports Science Research*, an official publication of the National Strength and Conditioning Association.

Kenneth K. Kuo, distinguished professor of mechanical engineering, has been elected a Fellow of the American Institute of Aeronautics and Astronautics in recognition of his many outstanding contributions and acknowledged leadership in the professional aerospace community.

Samuel H. Levine, professor of nuclear engineering, has been elected a Fellow of the American Nuclear Society for his achievements in expanding experimental techniques in the Naval Reactor Program's critical assemblies and the Penn State Reactor, for his innovative research in nuclear fuel management theory and for his developments in dosimetry and neutron radiography.

Asok Ray, professor of mechanical engineering, has been appointed associate editor of the *International Journal of Flexible Manufacturing Systems*.

Steven S. Segal, associate professor of applied physiology, conducted research in Europe in conjunction with a national award from the Microcirculation Society. The Travel Award for Outstanding Young Investigators is given annually to encourage a promising young investigator to visit

other research laboratories and establish international contacts.

Adam J. Sorkin, associate professor of English at the Penn State Delaware County Campus, has been awarded a grant by the International Research and Exchange Board (IREX) to travel to Romania to pursue the continuation of a project of collaborative translation of contemporary Romanian poetry.

Vladimir S. Stubican, professor of materials science and engineering, has been elected to the International Board for the organization of NATO Conferences on "Transport Phenomena in Nonstoichiometric Compounds." He also presented an invited paper on "Hafnia Based Ionic Electrolytes" at the 5th International Meeting on Nonstoichiometric Compounds in Tokyo and served as distinguished lecturer at the Tokyo Institute of Technology, Keio University, Tokyo, and Nagoya University.

Thomas L. Watschke, professor of turfgrass science, has been named Innovator of the Year by the Northeastern Weed Science Society for his research on turfgrass effects on the movement of water, pesticides and nutrients through the soil.

Richard J. Weilmann, professor of horticulture at Pennsylvania College of Technology, has been elected secretary-treasurer of the Pennsylvania Nurserymen's Association Inc.

Shyness

Book explores history of Reticence Program

A quarter of a century ago the idea of targeting shy college students for special help in facing the sometimes overwhelming terror of public speaking was not on many academic minds.

It was, however, of particular interest to a young faculty member at the University, **Gerald M. Phillips**. And, much to the relief of the thousands of students who have passed through his classrooms since the mid-1960s, he did something about it.

In 1991, the 25-year-old Penn State Reticence Program running strong. Today, his early work has evolved into a theory supported by two and a half decades of research and results. The program is thought to be the oldest and largest in the country for modification of the performance behavior of shy people.

For the professionals who have followed in his footsteps and those preparing to further explore theories of modifying reticent communication behavior, Dr. Phillips has a new book: *Communication Incompetencies: A Theory of Training Oral Performance Behavior* (published by Southern Illinois University Press).

The book, his 35th, outlines the methods used in the Penn State Reticence Program, from the first interview of potential candidates to a comprehensive step-by-step approach to individual solutions.

He reviews the pedagogy of dealing with communication problems and how dealing with them

has been taught. In addition, he outlines the main components of the program, including skills training, cognitive restructuring and systemic relaxation technique work.

"I and my associates at Penn State have found that students who are communicatively reticent exhibit seven distinct behaviors," he said.

These include: difficulty asking and answering questions in class; avoiding speaking to professors and authority figures; apprehension about job interviews and communication on the job; inability to do committee work or participate in groups; difficulty meeting strangers and initiating friendships; manifest signs of stagefright; and self-diagnosed shyness.

The training offered through the Penn State Reticence Program "helps students become aware of the obligations and constraints that enforce a degree of formal order in our language and permit comprehensible discourse," he said.

To alter reticent behavior, students are taught to change their oral communications patterns and learn to say not what they want to say, but what they must say in order to achieve a specific goal.

"This method is unique in combating disorders, because it contradicts standard practices. With support from 25 years of work, I think the high success rate and singular approach make the book especially interesting

to educators looking for alternatives to current approaches," he adds.

The theory behind the Reticence Program is based on close attention to the quiet, withdrawn and nonparticipating students, and research on the effect that a formal body of instruction has had on improving their communications performances. One study of the program revealed 80 percent of the former students remembered the steps they were taught in the program and were still using them seven years later.

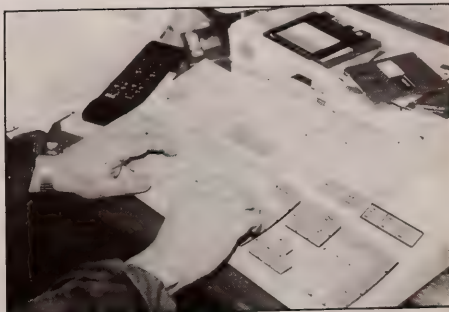

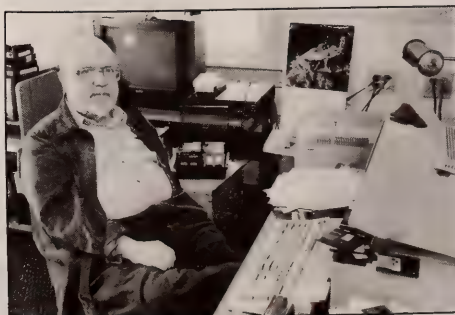

"The book gets to the very heart of the challenges facing the speech profession. Our mission is to study the performance of oral communication and learn how to modify it.

"*Communication Incompetencies* is offered as a first step toward the discovery of a theory about how to modify the way we speak begun more than 2,000 years ago by Aristotle, his teachers, his contemporaries and his followers," he says.

"A quarter of a century of experience with the Penn State Reticence Program has convinced us that these people are not so very different from those who do not report having problems. In fact, there are very few really effective communicators. Most people limp along as best they can.

"What distinguishes the people who come to us is their willingness to admit their problem and seek help," Dr. Phillips said.

Dr. Picciano to deliver Pattishall research lecture

Mary Frances Picciano, professor of nutrition, will deliver the Evan G. and Helen G. Pattishall Outstanding Research Achievement Award Lecture, "Infant Nutrition: A Lasting Foundation," at 8 p.m. Thursday, March 28, in the HUB Assembly Room at University Park.

The Pattishall Award, sponsored by the College of Health and Human Development, recognizes a faculty member for outstanding research contributions occurring or culminating within the past several years. The recipient presents an

evening lecture highlighting his or her research.

Dr. Picciano's program of research has attracted more than \$1.5 million in external funding. Her studies focus particularly on iron, folate, protein, selenium, and other nutrients required by infants. She also studies the nutritional differences between human milk and commercial infant formula, as well as the physiological consequences of these methods of infant feeding.

Her findings have served as a basis for nutritional recommendations for infants and

nursing mothers, and for the improvement of commercial infant formulas.

Dr. Picciano has received two national awards for her research: the 1984 Borden Award from the American Home Economics Association and the 1987 Lederle Award in Human Nutrition from the American Institute of Nutrition.

Before joining the University faculty in 1989, she spent 15 years on the faculty at the University of Illinois, where she earned the 1988 Paul A. Funk Recognition Award for Achievements in Maternal and Infant Nutrition.

The Pattishall Award was endowed by Evan Pattishall, dean emeritus of the former College of Human Development, and his wife, Helen, a graduate of the college.

This year's other Pattishall Award recipient, Alexander von Eye, professor of human development, will present a lecture April 25.

Mary Frances Picciano

Obituaries

Mary L. Miller, clerk, Student Affairs, from May 1, 1955, until her retirement April 1, 1978, died Oct. 10, 1990, at the age of 70.

Doris V. Brower, secretary in the College of Agriculture from Dec. 14, 1970, until her retirement Feb. 2, 1981, died Feb. 18. She was 71.

Staff Vacancies

The following vacancies for positions classified as staff exempt or staff nonexempt have been listed with the University Employment Division for filling. The brief statements for each vacancy are illustrative. They are not complete position descriptions. **APPLY BY CALLING THE EMPLOYMENT DIVISION, 865-0304 (NETWORK LINE 433-0304).** Applications for these staff vacancies will be accepted until March 28. **DO NOT CONTACT THE AREA THAT HAS THE VACANCY.** Applications for staff vacancies are considered in accordance with Fair Employment practices (PS-1) and in compliance with the University's Affirmative Action Compliance Program without regard to race, color, religion, national origin, handicap or age (as provided by law), sex, or status as a disabled or Vietnam era veteran.

computer science or engineering plus two to four years of effective experience in a related or similar field. Background in advanced digital systems and networking is highly desirable. This is a fixed-term position funded for a period of six to 10 months. **STAFF GRADE 7.**

■**01343, Math Specialist, Schuylkill Campus** - Responsible to the director, Learning Center, for providing instructional services in math and related areas through individual and small group instruction. Other duties include collecting data, preparing instructional materials, working with faculty, etc. Requires master's, or equivalent, in math and three to 12 months of teaching experience, preferably at the college level. This is a fixed-term position. **STAFF GRADE 6.**

■**01344, Director of Continuing Education, Continuing Education, Penn State Harrisburg** - Responsible to the associate provost and dean of faculty with regular interaction with the regional director for professional and technical performance in providing continuing education services in the Harrisburg area. Requires bachelor's degree, or equivalent,

plus five to seven years of effective and satisfactory experience, preferably as an area representative in Continuing Education. **STAFF GRADE 8.**

■**01345, Maintenance Foreman, Worthington Scranton Campus** - Responsible to the CEO for planning, scheduling, and supervising maintenance, repair and up-keep activities of the Worthington Scranton Campus physical plant and facilities. Requires high school graduate with several years of trade training and two to four years effective experience in carpentry, electrical work, landscaping, plumbing, painting and maintenance. Leadership qualities and experience in a supervisory capacity highly desirable. **STAFF GRADE 5.**

■**01346, Admissions and Minority Recruitment Counselor, Undergraduate Education, Philadelphia Community Recreation Center** - Responsible to the director, Community Relations Center/associate director, Minority Admissions, for minority recruitment activities and for general assistance in handling admissions

matters in an assigned geographical area. Requires bachelor's degree, or equivalent, plus one to two years of effective experience in educational administration or in related field such as industry, military service or the like. **STAFF GRADE 6.**

■**01347, Production Assistant/Design, Senior Vice President for Research and Dean of the Graduate School, University Park Campus** - Responsible to the production manager for assigned projects and tasks involved in the design and printing of various University Press publications. Requires bachelor's degree, or equivalent, in an art or related field plus over one up to and including two years of effective experience in an applied art situation. Knowledge of printing, binding, and typographic processes required. **STAFF GRADE 5.**

Hershey

For the following position vacancies, apply directly to The Milton S. Hershey Medical Center. Attach resume with cover letter indicating the position

vacancy code and forward to the Department of Human Resources. Hershey, or call the Hershey bid line at (717) 531-8531 by March 28.

■**1712, Foreman, Department of Environmental Health** - Responsible to the EHS shift supervisor for planning, scheduling and supervising the work of the housekeeping crews. Also assist in the training of janitors and evaluation of new materials, equipment and techniques. Requires a high school education with a minimum of two to three years of effective experience, including some supervisory experience in janitorial service or related area plus an indication of leadership qualities. Must also possess a valid driver's license. **STAFF GRADE 4.**

■**17336, Assistant Director, Department of Student Affairs** - Responsible to the director, Office of Student Affairs, for the day-to-day administration of the admissions process and for special programs administered by the Office of Student Affairs. Requires a bachelor's degree or equivalency plus two years admissions or related experience. **STAFF GRADE 6.**

INTERCOM is published weekly during the academic year and every other week during the summer. It is an internal communications medium published for the faculty and staff of Penn State by the Office of Public Information, Room 312, Old Main, Phone 865-7517.

University cited for hosting foreign scholars

The University ranks 11th among U.S. universities in attracting foreign scholars to teach and research within its system, according to a new survey.

Penn State hosted 851 foreign scholars during the 1989-90 academic year, according to the survey by the Institute of International Education. The total was up from 750 scholars during the previous year.

"The fact that so many international scholars choose to come to Penn State annually speaks well of the high regard in which our University is held around the world," W. LaMarr Kopp, deputy vice president for international programs, said.

The IIE survey defines foreign scholars as

non-immigrant, non-student academicians teaching and/or researching at U.S. universities. Results from the 176 institutions included in the poll were summarized in a recent issue of *Open Doors*, an IIE publication.

The scholars at Penn State came from more than 65 countries and were spread throughout the academic colleges.

"It's a marvelous program because it works both ways - the scholars gain from Penn State and Penn State gains from them," notes Rosalie Bloom-Brooks, a manager with the Foreign National Employment Services Program in the Office of Human Resources.

Penn State was the only Pennsylvania university listed among the survey's top 12. The University of Pennsylvania, with 655 foreign scholars, was the next highest institution in the state listed in the survey, followed by Carnegie Mellon University (269), the University of Pittsburgh (258), Temple University (200), Thomas Jefferson University (152) and Lehigh University (90).

The top five institutions nationwide were Harvard University, with 2,132 foreign scholars, the University of California at Berkeley (1,882), Stanford University (1,880), the University of California at Los Angeles (1,822) and the University of California at San Francisco (1,150).

President Thomas will speak at UP

President Thomas will address faculty, staff, and students in Eisenhower Auditorium at the University Park Campus at 4 p.m. Thursday, April 4. The address will be open to the public.

"I have had the opportunity to discuss issues directly with Commonwealth Campus faculty, staff, and students in my ongoing visits to the campuses," Dr. Thomas said. "And although I have addressed the University Faculty Senate at University Park a number of times during my first seven months at Penn State, I feel a need to address faculty, staff, and students at University Park."

Dr. Thomas is expected to share the goals and values he brings to the Penn State presidency and to put the circumstances under which the University will continue to advance.

Although classes will not be canceled for Dr. Thomas's remarks on April 4, all faculty, staff, and students at University Park are encouraged to attend, schedules permitting.

First 'Pennsylvania Career Day' is scheduled

The first "Pennsylvania Career Day" is scheduled at University Park on Thursday, April 11. More than 2,000 employers around the Commonwealth have been invited to participate in the inaugural event.

"The state, Penn State and the others in this partnership want to send a clear signal to our most talented, well-educated people that there are challenging and rewarding

career opportunities right here at home,"

Jack Rayman, director of Career Development and Placement Services, said.

Co-sponsoring the event with the University are the Commonwealth of Pennsylvania, the Pennsylvania Chamber of Business and Industry, the Pennsylvania Manufacturers' Association and the Hospital Association of Pennsylvania.

Dr. Rayman said one of the reasons for developing the idea, which has been supported by many sectors, is the realization that many educated Pennsylvanians have been leaving the state and looking elsewhere for work.

"Students and graduates from any Pennsylvania college or university who

See 'Career Day' on page 3.

Five faculty members will receive Atherton award

Five University faculty members will receive the George W. Atherton Award for Excellence in Teaching at the University awards convocation at 2 p.m. Sunday, April 7, in Eisenhower Auditorium at University Park.

Established in 1989, the Atherton Award honors excellence in teaching performance at the undergraduate level. Of the five

awards presented, three will be awarded to faculty members at campuses other than University Park. The award consists of a cash stipend of \$1,500 and a framed certificate.

This year's recipients are **Leonard J. Berkowitz**, assistant professor of philosophy at the York Campus; **Harvey B. Manbeck**, professor of agricultural engineering at

University Park; **R. Alan Price**, associate professor of English at the Hazleton Campus; **Marlene P. Soulsby**, assistant professor of German and humanities at the Worthington Scranton Campus; and **Paul Youngquist**, assistant professor of English at University Park.

Dr. Berkowitz joined the Penn State York faculty in 1972. One faculty

colleague calls him "as dedicated and as excellent a teacher as I have ever known." A former student writes of Dr. Berkowitz: "His willingness to work with me, to help me understand, was greater than any other professor that I had previously encountered, or encountered to this day. The interest he instilled in me soon grew to

Focus on Diversity

At University Park

Presidential assistant to speak

Sichan A Siv, deputy assistant to the president for public liaison, the White House, will speak on "The Importance of International Educational Exchange to International Understanding: Federal Initiatives" at 2:30 p.m. Monday, April 1, in 222 Boucke Building, University Park.

While at the University, Mr. Siv will interact with administrators, faculty, staff and students.

Born in Phenom Penh, Cambodia, he is a

graduate of the University of Phnom Penh and Teachers' Training College of Singapore. He also holds a master of international affairs from Columbia University, where he was a Maguire Scholar and an international Fellow.

Before assuming his current position in 1989, he was manager of Asia and Pacific programs at the Institute of International Education in New York. His visit is sponsored by the University Office of International Programs.

Number of events in April focus on issues of concern to women

The following events scheduled for April focus on issues of concern to women:

-- April 3, noon to 1 p.m., Hershey:

Barbara Hafer, Pennsylvania auditor general, will speak on "Women -- How to Get in the Game, Survive and Actually Set the Agenda." The Hershey Medical Center Committee for Women, a liaison to the Penn State Commission for Women, is sponsoring the lecture.

-- April 3 to 5, Keller Conference Center, University Park: Celebrate the Family Symposium.

-- April 5 to 6, "Matrons and Marginal Women in Medieval Society," sponsored by the Medieval Studies Program, includes Medieval banquet April 5.

-- April 5 to 6, Hetzel Union Building, University Park, "The Politics of Sexuality: Multicultural Feminist Voices," university-wide conference. Call Center for Women Students at 863-2027 for more information.

-- April 18 to 20, Keller Conference Center, University Park, "Challenges and Achievements: A Celebration of Women in Engineering," a conference for women alumnae, students and faculty in the College of Engineering. Eleanor Baum, dean, Albert Nerken School of Engineering, will give the plenary lecture at 1 p.m. April 19 in Keller Auditorium. John Lienhard, Anderson professor of technology and culture, University of Houston, will speak on "Women in Male Preserves: Getting There" at 10:15 a.m. April 20 in 26 Deike Building.

Diversity Opportunities Calendar

Thursday, March 28

University Scholars Program, 6:30 p.m., Atherton Hall, Grandfather Clock Lounge. Presentation about the history of jazz as it relates to the slave trade, racial discrimination and artistic expression, by Peter Klein.

Friday, March 29

Department of Exercise and Sports Science, noon to 1 p.m., 108 White Building. Faculty/staff workshop in African Dance with Myrna Munchus-Bullock. Live drum music by Don Berinato of the Earthtones.

Men of Color of Central Pennsylvania, 5:30 p.m., Days Inn Hotel. Monthly social.

Monday, April 1

Office of Minority Faculty Development, 8 a.m. to 5 p.m., 309 Kern Graduate Building. Registration deadline for April 6 workshop, titled, "A Funding Roundtable," by Barba Briedis, College of Liberal Arts coordinator of grants and contracts. The workshop will be held from 9 a.m. to 11 a.m. in 114 Kern Graduate Building. For more information, contact Leah Witzig, at 863-1063.

Thursday, April 4

Office of Religious Affairs, noon, Faith, United Church of Christ, College Avenue and Locust Lane. Interfaith memorial service to acknowledge the 23rd anniversary of the assassination of the Rev. Dr. Martin Luther King Jr.

Women of Color, noon, Hotel State

College. General Luncheon Meeting. Paul Robeson Cultural Center, 7 p.m., Paul Robeson Cultural Center. Play by Play Soul in Motion Players titled, "We Are Africa."

South African visitor involved in genetics research

The large number of population genetics researchers at the University is benefiting a South African visitor both professionally and personally.

"My biggest thrill was finding a large community of scientists at Penn State interested in or involved in the same line of research that I have been busy with in South Africa," Hima Soodyall says. "There are only three Ph.D.s in human genetics in my lab and only four or five universities in South Africa doing similar work."

Ms. Soodyall was selected as the University's seventh SHARE Fellow for Fall Semester 1990. Her visit was extended through Spring Semester with support from the University's Anthropological Genetics Laboratory and the South African Institute for Medical Research in Johannesburg, where she works as a medical scientist in Trefor Jenkins' Department of Human Genetics.

In addition to her responsibilities at the South African Institute for Medical Research, she is pursuing a Ph.D. degree at the University of the Witwatersrand. She is the recipient of two bachelor of science degrees -- in microbiology and biochemistry and microbiology (with honors) -- from the University of Durban-Westville and a master of science degree in biotechnology from Witwatersrand.

Born and raised in Durban, South Africa, Ms. Soodyall is of Indian descent. The SHARE Fellowship Program, established in 1985, is designed to provide additional educational opportunities for minority South African students like Ms. Soodyall.

(SHARE, which stands for Scholarship, Help, Academic exchanges, Review of equity holdings and Educational programs, was created in response to the South African government's system of apartheid, which, among other things, limits educational opportunities for

Hima Soodyall is shown with a rapid quenched apparatus used in enzyme kinetic studies.

non-whites.)

While at the University, she has been involved in

research related to human evolution and population biology. She is investigating human mitochondrial DNA (mtDNA) variation in southern African populations with the hope of refining existing theories on southern African population affinities.

Working with Kenneth A. Johnson, Paul Berg professor of biochemistry, Ms. Soodyall was involved in an ongoing departmental study on the fidelity of the T7 DNA polymerase enzyme.

"This was a completely new area of research for me," she says. "I learned several new techniques and concepts related to protein purification and enzyme kinetics."

Currently, she is working with Mark Stonking, assistant professor and director, Anthropological Genetics Laboratory, where she is involved with sequencing a 1.1-kilobase segment of the mtDNA molecule known as the control region on 120 native South African individuals.

Her associations with Dr. Stonking and Andrew Clark, associate professor of biology, have enabled her to expand the analysis of her data on 800 unrelated individuals. She had been limited in her analysis due to the lack of expertise and computer software in her native country.

"I have been most fortunate to have had interactions with various people who have helped me overcome these limitations. As a result, I am preparing some of this work for publication," she says. "It's been quite a productive stay, and the computer and statistical skills that I have acquired will greatly help me in the future."

She plans to return to her position at the South African Institute for Medical Research in April and continue working on her dissertation.

--Deborah A. Benedetti

Applications sought

Applications and nominations are invited for associate dean for undergraduate studies in the College of Arts and Architecture.

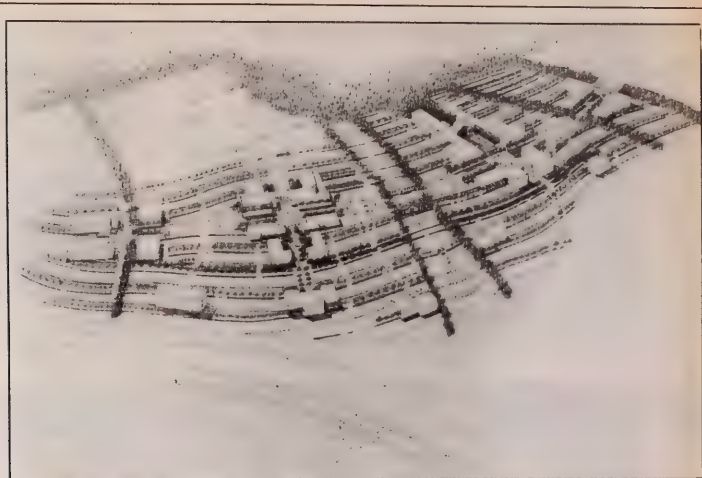

The associate dean, in collaboration with academic units, will provide leadership in the coordination and evaluation of all undergraduate programs for the College both at University Park and in the Commonwealth Educational System. The associate dean will coordinate undergraduate teaching improvement activities, oversee academic record keeping, and provide administrative direction and leadership for the College's Advising Center and the Office of Recruitment and Retention.

While the position is essentially full-time administration, special consideration will be given to persons who wish to continue teaching.

Candidates should possess a terminal degree and be tenured/tenurable in one of the represented disciplines of the College of Arts and Architecture and present evidence of successful experience related to undergraduate education for both traditional and non-traditional students. Administrative experience is desirable.

The search committee will begin screening candidates on April 8 and continue until an appointment is made. Employment begins Sept. 1.

Send resume with names of three references to: Lyle Merriman, chair, Associate Dean Search Committee, 111 Arts Building, University Park, PA 16802.

Penn State Research Park

Plans for the Penn State Research Park are moving forward quickly. College Township approved this master plan on Thursday, March 14, and, at it's March meeting, the Board of Trustees granted PennDot right-of-way to the site and to College Township for an interior street that will serve the first phase buildings. Design of the Phase A-1 facilities is by Architects Geddes Brecher Gualis and Cunningham of Philadelphia.

Science EXPO '91

The Eberly College of Science will introduce visitors to the world of science and research during its free open house, Science EXPO '91, from 10 a.m. to 5 p.m. Saturday, April 6.

Sponsored by the College's Student Council and Alumni Society, EXPO is designed to entertain as well as to educate. More than 50 exhibits, tours and live demonstrations allow visitors of all ages to see, touch and experience science.

This year's EXPO includes returning favorites such as the Nittany Chemical Society's Chemistry Magic Show and the Phabulous Physics Laser Show. Visitors can take guided greenhouse tours, attend planetarium shows, see a scale model of the universe, watch a wood-carving exhibit and participate in a skit about the birth of a globe.

Other activities include telescope and probe displays, slide shows, and plant and poster sales. The Penn State Biology Club will perform a skit called "The Biology of Life: Boy Meets Girl."

A relatively new addition to EXPO is Science Scholars '91. Sponsored by WFSX-TV, the Allegheny Educational Broadcast Council, and the Eberly College of Science, Science Scholars gives student finalists in grades nine through 12 the opportunity to exhibit their winning science projects during EXPO.

For more information about EXPO, write to: Science EXPO '91, 225 Pond Laboratory, University Park, PA 16802, or phone (814) 863-4693.

Atherton

Continued from page 1.

encompass my other classes."

Dr. Berkowitz has served as editor for the newsletter of the Association for General and Liberal Studies, a national organization dedicated to the advancement of liberal studies. He has presented professional papers on the goals of general education, the ethical posture of the teacher in the classroom and effective teaching techniques.

Since coming to Penn State in 1980, Dr. Manbeck has served as adviser or co-adviser to the University's Agricultural Engineering Club on six occasions. In 1988, he received the Teaching Award of Merit from the National Association of Colleges and Teachers of Agriculture, and in 1990 the Penn State Engineering Society bestowed on him its Premier Teacher Award.

A former student says, "Dr. Manbeck would challenge me like no other teacher, and yet he would never overwhelm me. Dr. Manbeck has the unique ability to challenge a student to this fullest potential without discouraging him by demanding too much." A colleague notes, "Dr. Manbeck truly loves to teach, which is reflected in his relationships with students."

Dr. Price joined the Penn State Hazleton Campus in 1966. In 1968 and 1979, the student body named him the Hazleton Campus Teacher of the Year. In 1984, he represented the College of the Liberal Arts

at the Master Seminars in Teaching at Bucknell University.

A colleague observes, "Dr. Price is always well organized, interesting and informative. In lecture he successfully intersperses personal anecdotes with professional scholarship so that students identify with the topic. In discussion he is adept at turning negative statements into positive take-off points."

A University faculty member since 1970, Dr. Souleby received the Outstanding Teaching Award at the Worthington Scranton Campus in 1989. She is faculty adviser to the Worthington Scranton Campus German Club, co-adviser of the Scholars and Honors Program and a frequent presenter on teaching techniques at professional meetings. She is editor of the newsletter for the International Society for the Study of Time.

A former student writes, "Dr. Souleby has the knack of putting people at ease while at the same time exhorting them to do better and better. Her energy is infectious, and her classes are interesting and entertaining. She makes it so easy to learn and to learn well."

Dr. Youngquist, only in his third year at Penn State, taught previously for one year at the University of Virginia. At Penn State, he has directed three senior honors theses in English, one of which won the 1990 Henry Sams Award for Excellence in Literary Analysis, the highest prize awarded by the English Department for undergraduate literary criticism.

A colleague remarks, "Time and time again, one reads that he is the best

instructor a student has ever had and that he has taught the most electrifying course. That response stems, it seems, from the self-discovery which occurs in his classes and the joy which students find both in expressing themselves without fear and in hearing others speak out with an equal freedom and verve."

Career Day

Continued from page 1.

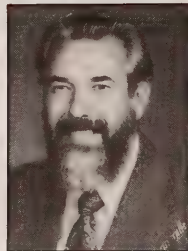

plan to work in the state are invited to participate," he said. "There is no fee for admission, no pre-registration and no parking fee. We want this opportunity to be as user friendly as possible."

The career day, scheduled from 10 a.m. to 4 p.m., will be held at the Intramural Building located at the intersection of University Drive and Curtin Road. The University's Career Development and Placement Services (865-2377) is coordinating the program. Employers interested in additional information should contact conference coordinator Jack Sinclair at 863-2035.

Carpooler

Danette is looking for a ride from Mt. Union to University Park. Her work hours are 8 a.m. to 5 p.m. Call 865-4757 or (814) 542-8723 (after 6 p.m.)

25-year award recipients

Observing 25 years of service at the University are, from left, Bonnie Bowers, janitorial worker, Office of Physical Plant; Gerard J. Braull, Edwin Erie Sparks professor of French and Medieval studies and fellow of the Institute for the Arts and Humanistic Studies;

James B. Hout, lead electrician, Office of Physical Plant; Robert Lima, professor of Spanish and comparative literature and fellow of the Institute for the Arts and Humanistic Studies; June Miller, associate professor of music.

News in Brief

Lecture on Japan

The Hon. Seigi Hinata, deputy consul general in New York and director of the Japan Information Center, will lecture on "Five American Misperceptions about Japan" at 7:30 p.m. Tuesday, April 2, in 101 Kern Graduate Commons at University Park. A reception will follow the lecture.

His lecture is free and open to the public. It is sponsored by the Center for East Asian Studies and the student-run East Asia Studies Society. For more information, call Parris Chang, director, Center for East Asian Studies, at 865-1698 or 863-0970.

Seminar about the elderly

Raymond Coward, associate director, Center for Health Policy Research, University of Florida, will speak about "Residential Differences in the Use of Formal and Informal Sources of Care" at 4 p.m. Thursday, April 4, in 106 Mitchell Building at University Park. The lecture will be transmitted live to Room L-7 Hershey.

The seminar is sponsored by the Center on Aging and Health in Rural America and the Gerontology Center. Dr. Coward's research focuses on the elderly in rural America. He is co-author (with Gary Lee) of the book *The Elderly in Rural Society*.

WPSX gets grant

Public television station WPSX-TV/Penn State has been awarded a \$25,000 grant from the Eastern Educational Network (EEN) for research and development work on a documentary that examines the preservation of historically significant Civil War battlefields.

Pending additional funding for production, the program, titled *The Vanishing Civil War*, is scheduled to air nationally on public TV stations in early 1992.

Annual used book sale

More than 85,000 books will be offered for sale in the Ballroom of the Hetzel Union Building at University Park during the Annual Used Book Sale sponsored by the State College Branch of the American Association of University Women from 3 to 9 p.m. Saturday, April 13, and from 9 a.m. to 9 p.m. Sunday, April 14, through Wednesday, April 17.

Many books will sell for a dollar or less.

Any items remaining on Tuesday will be sold at half price. On Wednesday, customers may fill a grocery bag full of books for only \$4. Bags will be furnished.

Proceeds from the sale will again benefit local educational projects and the Association's Educational Foundation. For more information, call 237-2262.

Ben Franklin proposals

Project proposals for Ben Franklin Partnership challenge grants in 1991-92 must be submitted to the Ben Franklin Technology Center of Central and Northern Pennsylvania Inc. by Friday, April 19.

Challenge grants, which are awarded on a competitive basis, provide matching funds for projects in research and development, education and training, entrepreneurial assistance, technology transfer, small business incubators, and centers of excellence.

For the current fiscal year, the BFTC/CNP allocated nearly \$4.5 million toward cosponsoring 105 projects in the 40-county service area.

PENNTAP gift

Bell of Pennsylvania has given \$10,000 to support economic development activities of the Pennsylvania Technical Assistance Program (PENNTAP), a free technical advisory service for business and industry.

PENNTAP facilitates the transfer of technical information to Pennsylvania companies. The program is based at the University and operates in cooperation with the state and federal economic development agencies.

The Bell of Pennsylvania gift will be used to make PENNTAP's services available to more companies and other clients statewide.

Database search program

The University Libraries has made enhancements to its "Do-It Yourself" database searching program.

The program enables anyone with a University ID to access subject databases located throughout the country. While the program has been available for some time, new database vendors have been added, so that bibliographic databases in virtually every major discipline are now represented.

For more information, contact the Pattee Information Desk or call Linda Friend, search service coordinator, at 865-0673.

Structural steel video

The Architectural Engineering Department, in conjunction with WPSX-TV, has produced a 33-minute teaching video, "Today's Structural Steel," which is being distributed to educators and practitioners throughout the country.

The video was produced by Penn State with the cooperation of the American Institute of Steel Construction Inc. and others in the steel industry. It was funded in part by the College of Engineering Quality Improvement for Undergraduate Engineering Education project.

Abbas Aminmansour, instructor in architectural engineering, wrote the script and acted as adviser and content coordinator for the project. Margaret Mohl was the WPSX-TV producer/director.

Obituaries

William F. Nydegger, retired assistant professor of anthropology, died March 2. He was 75.

He received his undergraduate degree at the University of Wisconsin-Madison, and his doctorate in anthropology from Cornell University. He taught at the University Park Campus from 1963 until his retirement in 1981.

Memorial contributions may be made to the Palmer Museum of Art, One Old Main, University Park.

Barbara A. Guziewicz, nutrition aide in the College of Agriculture from April 1, 1980, until her retirement on disability Oct. 1, 1988, died Jan. 9. She was 47.

George A. Spicer, stock truck driver in the Office of Physical Plant since Aug. 23, 1977, died Feb. 14 at the age of 31.

Wilhelm Kelm, janitorial worker at the Penn State Ogonz Campus from Sept. 1, 1954 until his retirement Sept. 1, 1973, died Feb. 15 at the age of 82.

Dorothy R. Bowman, assistant dean of admissions, Admissions and Registrar, from July 1, 1948, until her retirement Dec. 1, 1962, died Feb. 21. She was 85.

Madge Donahue, nutrition aide, College of Agriculture, from July 1, 1977, until her retirement March 1, 1984, died Feb. 27 at the age of 67.

T. Louise Greenawald, foods laboratory attendant, College of Health and Human Development, from Aug. 1, 1955, until her retirement Jan. 1, 1974, died March 1 at the age of 77.

Marie A. Alexander, coder, Admissions, from Jan. 1, 1964, until her retirement July 1, 1974, died March 2. She was 82.

Chrissie A. Millard, janitorial worker, Office of Physical Plant, since April 30, 1979, died March 4 at the age of 57.

Satellite technology used in teaching food science

For 70 students in classrooms in four states, a satellite, television and telephone are as necessary as their books to learn about food science.

"Satellite technology is enabling us to share our expertise with students across the nation," **Lowell D. Satterlee**, professor of food science and head, Department of Food Science, said.

He is teaching one of two courses offered nationwide for the first time by the AG*SAT Corp., a consortium of major U.S. agricultural universities. Penn State is a founding member of AG*SAT, headquartered at the University of Nebraska-Lincoln.

Introductory Food Science, a three-credit course, is being offered this spring to students at Tuskegee University in Alabama, the University of Nebraska and the University of Idaho, as well as at three Commonwealth Campuses (Allentown, Berks and McKeessport). In addition, employees at an Idaho food industry (Ore Ida/Weight Watchers) and five Idaho county agricultural extension agents are

enrolled in the course.

Iowa State University is offering the course Alternative Agriculture through AG*SAT.

The Penn State and Iowa State courses are the inaugural offerings of AG*SAT, which was founded a year ago to share instruction nationwide, as well as to provide opportunities for communication among researchers and agricultural extension personnel via satellite. Dr. Satterlee said.

"The initiation of the first course for credit via satellite for the AG*SAT project is truly a significant historical event," **Lamartine Hood**, dean of the College of Agriculture, said. Dr. Hood is a member of the AG*SAT board of directors and also is an officer of the corporation.

The course from Penn State is produced by the College of Agriculture in partnership with WPSX-TV, Penn State Television, under the direction of **Marlowe Frake**, general manager.

At sites receiving the course, classroom coordinators are on hand to assist students

Lowell D. Satterlee

in communicating directly with Dr. Satterlee via a telephone bridge. Introductory Food Science is broadcast live

from 6:30 to 9:15 p.m. EST on Thursdays. Three one-hour lectures are delivered at one time.

Medical literacy series being produced

Centre Community Hospital and the University are producing a five-part pilot series on medical literacy called "Doctors, Hospitals and You" that will be broadcast on C-Net, cable channel 24, from 7 to 7:30 p.m. every other Wednesday, beginning April 3.

Hosted by Lynn Hinds, associate professor of communications, the series is designed to help medical services clients effectively manage medical services for their families.

Alfred Jones, an internal medicine specialist in private practice in State College, and **Gerald M. Phillips**, professor of speech communication, who are co-authors of *Communicating with Your Doctor*; Rx

for *Good Medical Care*, are project advisers.

Each broadcast will combine on-the-street interviews about family medical issues conducted by University students in the School of Communications with explanations and discussions of those issues by medical specialists or panel of experts from Centre Community Hospital and Penn State.

The students are producing studio segments, interviews on and off campus and filming on location in the hospital. **Edward E. Faust**, assistant professor of communications, is the director of the programs, and **Mike Lutz**, a student majoring in broadcast and cable, is the producer.

Department receives research grants

The Department of Mechanical Engineering in the College of Engineering has received \$652,500 in research grants.

Brian J. Gilmore, assistant professor of mechanical engineering and co-director, High Speed Machinery Laboratory, received \$45,000 from AT&T toward the purchase of a high-speed video camera.

Kenneth B. Kuo, distinguished professor of mechanical engineering, received a \$63,000 "Collaborative Combustion Simulation Grant" from the Societe Nationale des Poudres et Explosifs, France, for modification of the ballistic equation used in most two-phase combustion codes.

Timothy Ovaert, assistant professor of mechanical engineering, received a

\$100,000 grant from Baxter Healthcare Corp. for a two-year project titled "Tribological Investigation of Separation Devices."

Domenic A. Santavica, associate professor of mechanical engineering, received a three-year, \$264,500 grant from the Power Generation Division of General Electric for research on the effects of mixing and turbulence on gas turbine emissions.

Donald A. Streib, assistant professor of mechanical engineering, received a \$180,000 Whitaker Foundation grant for a three-year study titled "Variable Gravity System for Locomotion Rehabilitation of the Elderly."

Senate approves adding 'sexual orientation' phrase

With a vote of 93 to 12, the University Faculty Senate approved the addition of the phrase "sexual orientation" to the University's non-discrimination policy.

The vote followed a one-hour debate on a motion proposed by the special Senate committee to review President Thomas' proposed amendment to the University's non-discrimination policy. In addition to the committee's proposal, the Senate debated a substitute motion, which was the amendment proposed by President Thomas.

In introducing the committee's motion, committee chairperson **Donald C. Rung** said, "This motion, if approved, is a declaration from the faculty of this University that we believe in a community that respects the differences among us, be they differences of gender, age, color or sexual orientation."

"Adding the phrase 'sexual orientation' to the University's non-discrimination policy will not immediately stop all such intolerance, but it is an important, and most visible, step in promoting a community living in harmony with one another."

Dr. Rung further urged the Senators to adopt the motion saying, "Now is our urgent to acknowledge that we need such a phrase to protect members of our community from

the hard edge of discrimination and prejudice they now endure."

The committee's motion states: "The University Faculty Senate commends the promise of President John Thomas that 'The Pennsylvania State University will take appropriate measures to protect all of its students and all of its employees from harassment, abuse or assault.' In addition, the University Faculty Senate recommends that the University's non-discrimination policy be amended to include the specific phrase 'sexual orientation.'"

The committee did not recommend excising wording for the non-discrimination policy, because federal law does not recognize the category of "sexual orientation" as a protected category, so the phrase "sexual orientation" cannot be added to the sentence in the policy listing federally protected categories.

State law, on the other hand, does prohibit discrimination on the basis of sexual orientation, as a result of Gov. Robert Casey's executive order of Jan. 20, 1988.

E. Emory Ensore Jr. proposed the substitute motion, which was defeated 68 to 25. He said he supported President Thomas' amendment, because the president's statement "is all-inclusive."

The Senate's vote in favor of adding the phrase "sexual orientation" to the non-discrimination policy in order to prohibit discrimination based on sexual orientation is the result of a request for advice from President Thomas.

Dr. Thomas proposed the following amendment to the non-discrimination policy: "In addition, The Pennsylvania State University will take appropriate measures to protect all of its students and all of its employees from harassment, abuse or assault; and bases all educational and employment decisions on an individual's abilities and qualifications without reference to personal characteristics that are not related to academic ability or job performance."

President Thomas plans to inform the Board of Trustees of the Senate's recommendation.

In other action, the Senate:

-- approved changes to Senate Policy 67-00 dealing with eligibility of athletes. The revised policy will conform with Big Ten eligibility policies. The changes were required before University teams compete against Big Ten teams. **Roger L. Sweeting**, chairperson, Senate Committee on Academic and Athletic Standards, said. The revised policy will be effective for new students enrolling this summer.

Focus on the arts

The arts on Channel 3

The Allentown Band, America's oldest concert band, salutes John Philip Sousa with a program of traditional concert band music in *The Allentown Band in a Tribute to John Philip Sousa* airing at 6 p.m. Saturday, March 30, on WPSX-TV.

Recorded live at Allentown's Symphony Hall, the program will feature music composed by Sousa such as "Semper Fidelis March," "Bullets and Bayonets," "The Bride Elect Selections," and "Stars and Stripes Forever," as well as songs by Sousa's favorite composers including Gomez, Filmore, Rimsky-Korsakov, and Tchaikovsky.

One of Pennsylvania's premier chamber orchestra ensembles, the Lehigh Chamber Orchestra, is featured in *L'Histoire Du Soldat* airing at noon Sunday, March 31. The concert features Stravinsky's "The Soldier's Tale" which tells the story of a soldier's temptations and decisions during his leave from the service to visit his fiancée. The music is accompanied by an English narration of the French classic.

Kern Gallery exhibit

The watercolors of Marlee Erwin will be on display at Kern Gallery at University Park from April 1 to May 3.

"Essentially iris" is a collection of eight abstract studies of the iris to represent, in the words of the artist, "the bold, natural and sometimes mysterious present in natural phenomena."

Ms. Erwin was attracted to the iris because of its significant cultural history. Originally, the iris was the Greek goddess of the rainbow, and would lead the souls of dead women from the earth to the gods. The purple iris was then planted on the woman's grave in tribute to her. For Ms. Erwin, the iris was traditionally been "a symbol of feminine power, love, intuition and hope."

An accredited member of the Pennsylvania Watercolor Society and the Art Alliance of Central Pennsylvania, Ms. Erwin has permanent collections at the Virginia Lippincott Gallery in Phoenixville and the Federal House in Boalsburg.

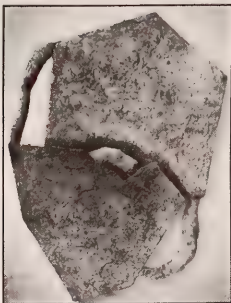

Persian paintings

Oleg Grabar, faculty member of the Institute for Advanced Study at Princeton University, will present "Books or Images: The Esthetics of Persian Painting" at 8 p.m. Tuesday, April 2, in 112 Walker Building at University Park.

The lecture is part of "The Art of Interpreting" series sponsored by the Department of Art History and the Institute for the Arts and Humanistic Studies.

Dr. Grabar was editor of *Art Orientalis* from 1956-69 and currently is editor of *Musarum*. His publications include "The Umayyad Dome of the Rock," "The Formation of Islamic Art," "Islamic Architecture and its Decoration," "The Alhambra" and hundreds of articles.

He received his Ph.D. from Princeton in 1955. From 1969-90, he was the Aga Khan

'Mixed Media on Canvas' by Milim Lim, master of fine arts degree candidate, is among recent work to be exhibited April 5-20 in Zoller Gallery.

Professor of Islamic Art at Harvard University, where he also chaired the Department of Fine Arts from 1977-90.

April Fools' concert

The School of Music will present an April Fools' concert at 8 p.m. Wednesday, April 3, in the School of Music Reital Hall at University Park.

The less than staid repertoire of the evening will include "Art of the Ground Round," the Concerto Handicappo, "Polcsy," "Last Tango in Bayreuth" and others.

Odyssey on WPSU

Russian poet Marina Tsvetaya writes suicide poetry that is also love poetry, Michael Naydan, associate professor of Slavic languages, says on the next episode of "Odyssey Through Literature."

"Essentially, it's love poetry," he explains, contrasting Tsvetaya's poems with those of Sylvia Plath.

"Odyssey Through Literature" is produced by the Department of Comparative Literature in the audio-production studies of WPSU-TV. It airs Wednesdays at 12:30 p.m. on WPSU, 91.1 FM.

Trombone choir

The Trombone Choir from the School of Music will perform in concert at 12:10 p.m. Thursday, April 4, in the Eisenhower Chapel at University Park.

The 20-minute concert is part of the Bach's Lunch Concert Series sponsored by the School of Music and the University Lutheran Parish. The program will include selected variations arranged from Bach's *Pasacaglia for organ* and "Nimrod" from Elgar's "Enigma Variations."

The choir is directed by Mark Lusk of the School of Music faculty and consists of 25 students, most of whom are music majors.

Graduate exhibit

Milim Lim and Lisa Fluegel, master of fine arts degree candidates in the School of Visual Arts, will exhibit recent work April 5-20 in Zoller Gallery at University Park.

Zoller Gallery, located in the Visual Arts Building, is open 9 a.m. to 5 p.m. Monday through Friday, 11 a.m. to 4:30 p.m. Saturday, and noon to 4 p.m. Sunday.

Slavic Folk Festival

The 13th annual Penn State Slavic Folk Festival will be held from 10 a.m. to 10 p.m. Friday and Saturday, April 5 and 6, and from 1 to 6 p.m. Sunday, April 7, in the HUB Ballroom at University Park.

The festival showcases cultural achievements of Pennsylvania's Slavic-American ethnic groups, featuring exhibits, demonstrations of folk art and live performing groups. In addition, there will be book and artifact booths, an ethnic snack bar and special events for children Friday morning.

Friday's events: folk dance demonstration and instruction by Elizabeth Hanley and members of the Penn State Internationale Dancers, 10 to 11 a.m.; dramatized folk tales, 11 a.m. to noon; Penn State Internationale Dancers, 7 p.m.; and Polka Players will present music for listening and dancing, 8 to 10 p.m.

Saturday's events: Czechoslovak-Moravian Club Dancers, 1 and 4:30 p.m.; Slaviane Folk Ensemble, 2 p.m.; Penn State Internationale Dancers, 3 p.m.; Louis Percis, accordion soloist, 4 p.m.; Barburk Folk Dancers, 7 p.m.; and folk dance party music by ZIMA - Eastern European Ensemble, 8 to 10 p.m.

Sunday's events: Kazka Ukrainian Folk Ensemble, 1 and 4 p.m.; Polonia Polish Folk Dancers, 2 p.m.; St. Nick's Polka Revolution Band, 3 p.m.; closing ceremonies, 4:30 p.m.

The festival is sponsored by the Department of Slavic Languages and the Penn State chapter of Dobro Slovo, the national Slavic studies honor society. Chapter adviser Lorraine Kapitanioff is coordinator of the festival, assisted by Anna Mary Smalley. The festival is free to the public.

University Readers

The University Readers will present three performances to the public during spring semester.

At 8 p.m. Friday and Saturday, April 5 and 6, in Room 112 Kern Building at University Park, the Readers will perform three winners of the Eddie Nichol Award for short fiction. These have been selected by the English Department as the best stories written by students in last year's fiction-writing classes.

The stories selected for performance are "The Signora Battaglia" by Daniela Bucilli, "The More Treacherous Path" by Robb Gilmore, and "A Night of Many Hunts" by Lael Hassinger.

Three children's stories will be performed

at Schlow Memorial Library at 7 p.m. Thursday, April 11, and at 2 p.m. Saturday, April 13.

Three stories by well-known short story authors will be performed in the HUB Gallery Lounge at 8 p.m. Friday and Saturday, April 19 and 20.

Readers theater performances rely on expressing vocal work by the performers and a suggestion of action to create stories in the imagination of a live audience. University Readers performances are presented without charge.

'Into the Woods'

Stephen Sondheim's musical "Into the Woods" answers the question of what comes after "happily ever after."

The 1988 Tony Award winner for best score of a musical will be presented at 8 and 8 p.m. Saturday, April 6, in Eisenhower Auditorium at University Park.

Tickets are available at the Eisenhower Auditorium Ticket Center, 863-0255.

'MANNY'

"MANNY," a one-act play by Gil Abeg, former staff member in the Office of Public Information, will be presented at 8 p.m. Saturday and Sunday, April 13 and 14, at the Jewish Community Center in State College.

The author, who also is directing the play, describes it as "a parable about moral choices in a time of terror."

Mr. Abeg wrote a variety of media programs for the Department prior to his retirement in 1976. He recently was awarded a Fellowship in Playwriting by the Pennsylvania Council on the Arts, in conjunction with the Theatre Association of Pennsylvania.

Tickets for "MANNY" are available at the JCC (620 E. Hamilton Ave.), the Corner Room (Hotel State College), or at the door.

Centre stage season

Carole Brandt, artistic director for Pennsylvania Centre Stage, has announced the 1991 summer season. This year's productions will include the inspiring drama "Driving Miss Daisy," the zany off-Broadway musical "Nurses," and the riveting three-character play "Orphans."

Pennsylvania Centre Stage, the regional professional theater located at University Park Campus, will begin its sixth season on June 19 and run through Aug. 3, with performances held in both the Pavilion and Playhouse theaters at University Park.

See 'Arts' on page 7.

The arts at...

Hazleton Campus

The Repertory Theater of America Alpha Omega Players will present "Same Time Next Year" at the Penn State Hazleton Campus at 7:30 p.m. Wednesday, April 10, in the Highcres Commons.

University Park Calendar

March 28--
April 7

Special Events

Thursday, March 28

Bach's Lunch, 12:10 p.m., Eisenhower Chapel.
Voice Students of Suzanne Roy. Lenten Music.

Friday, March 29

Geog. Coffee Hour, 4 p.m., 119 Walker. Vera Mark on "Cultural Pastiches: Intertextualities in the Monrebeau Lairs Festival Narratives."

Sunday, March 31

Carnegie Hall Film Series, 7 p.m., *The Women* (1939), 9-15 p.m., *The Hound of the Baskervilles* (1959), 108 Wartik. Free.

Monday, April 1

■Comp. Lit. Luncheon, 12:15 p.m., 101 Kern. Robert Edwards on "Desire and Signs in Trollop and Crisseyde."

■International Lecture, 2:30 p.m., 222 Boucke.

Sichan Siv. White House staff, on "The Importance of International Educational Exchange to International Understanding: Federal Initiatives."

Tuesday, April 2

■Center for East Asian Studies, 7:30 p.m., 101 Kern. Seiji Hinata, Japan Info. Center, on "Five American Misperceptions about Japan."

The Art of Interpreting, lecture, 8 p.m., 112 Walker. Oleg Grabar, Princeton, on "Books or Images: The Esthetics of Persian Painting."

Wednesday, April 3

Undergrad. Entomology Club and Dept. of Entomology, 7:30 p.m., 101 Ag Sciences and Industries. Charles Meck, flyfishing author, on "Entomology for Fly Fishermen."

School of Music, 8 p.m., Recital Hall. April Fool's concert.

Celebrate the Family Connection, Keller, through April 5. Register: 865-8301.

Thursday, April 4

Bach's Lunch, 12:10 p.m., Eisenhower Chapel.

Penn State Trombone Choir.
President Thomas will address faculty, staff and students, 4 p.m., Eisenhower Aud.

Friday, April 5

Geog. Coffee Hour, 3:30 p.m., 319 Walker.
Brent Yarnal on "Sex, Lies and Synoptic Climatology."

Conference, HUB. "Feminist Politics of Sexuality: Multicultural Voices," Also April 6.

Saturday, April 6

Eberly College of Science, XEPO '91, 10 a.m.-5 p.m.

Shaver's Creek, Bluebird Box Workshop, 1-3 p.m., Woodcock Walk, 5:30-7:30 p.m. Call 863-2000.

Center for the Performing Arts, 3 and 8 p.m., Eisenhower Aud. "Into the Woods."

Sunday, April 7

Shaver's Creek, Nature Guiding Workshop, 10 a.m.-4 p.m. Call 863-2000.

University Awards Convocation, 2 p.m., Eisenhower Auditorium.

Carnegie Hall Film Series, 7 p.m., *Rebecca* (1940): 9:15 p.m., *Performance* (1970), 108 Wartik. Free.

Conferences

Continuing Education

Keller Building

April 2-4. Maintenance of Commercial Vehicles
Kent Addis, coordinator.

The Kozka Ukrainian Folk Ensemble from Potsville will perform at the Slavic Folk Festival at 1 and 4 p.m. Sunday, April 7, in the HUB Ballroom. Ensemble members are, from left, Michael Duda, Sandra Minarchick, Paula Duda and Joseph Zucotski.

April 3. Dental Seminar. Kent Addis, coordinator.

April 5-6. Pa. High School Speech League. Jerri Milson, coordinator.

April 6. Leaders of the Future. Jerri Milson, coordinator.

Seminars

Thursday, March 28

Combustion and Propulsion, 11 a.m., 501 Keller.
Dr. Nicholas E. Gallopoulos, General Motors Research Labs. on "Improving Internal Combustion Engines through Experimentation and Mathematical Modeling."

Physics Colloquium, 3:30 p.m., 55 Osmond.
Robert W. Field, MIT, on "Dynamics Encoded in Eigenstate and Continuum."

Graduate Program in Ecology, 3:45 p.m., 8 Mueller. Dr. Michael Steele, Wilkes Univ., on "Tannins and Partial Consumption of Acorns by Squirrels: Evidence for a New Mode of Seed Dispersal."

Friday, March 29

Agronomy, 3:35 p.m., 107 Ag Science and Industries. Dr. Jay Harper on "IPM Adoption and Pesticide Use in Pa."

Saturday, March 30
Parivartan, regional seminar, on "Burning Indian Issues," 1-6 p.m., 112 Walker.

Monday, April 1

Entomology, 3:45-4:45 p.m., 204 Patterson.
David O'Brien, Univ. of Md., on "Genetic Modification of Insects: Insect Transposable Elements and Gene Vectors."

Tuesday, April 2

Forest Resources, 11:10 a.m., Conference Room. Land and Water Research. Dr. Winifred Kessler, U.S. Forest Service, on "The New Perspectives Program of the Forest Service."

Chemical Engineering, 2:45 p.m., 140 Fenske. Dr. Elmer L. Gaden, Univ. of Va., on "Bioprocess Technology: What it has and What it may be."

Chemistry Colloquium, 3:30 p.m., 55 Osmond.
Dietmar Seylerth, MIT, on "Silicon Ceramics with a Dash of Boron."

Geosciences, 3:45 p.m., 112 Walker. Randy Parrish, Geological Survey of Canada, on "U-Pb Geochronology and Tectonics of Orogenic Hinterlands: Examples from the Southern Canadian Cordillera and N.E. Canadian Shield."

Ruth Pike Lecture Series, 4 p.m., 501 Keller. William Blaser, Columbia Univ., on "The Role of Adipose Tissue in Retinol Storage and Metabolism."

Condensed Matter Physics, 4 p.m., 339 Davey. Dr. Chuck Bouldin, NIST.

Institute of Molecular Evolutionary Genetics, 4 p.m., Mueller. Clyde Hutchison III, Univ. of North Carolina, on "Mammalian Genome Evolution."

Thursday, April 4

Physics Colloquium, 3:30 p.m., 55 Osmond. Dr. H.K. Mao, Carnegie Institute of Washington, on "Metallic Hydrogen."

Graduate Program in Ecology, 3:45 p.m., 8

Arts

Continued from page 1.

The season starts off with "Driving Miss Daisy," written by Alfred Ury. It tells the story of Daisy, an elderly, white, Southern widow, who refuses to give up her independence when her son hires Hoke, a black man with enduring patience, to be her chauffeur. Despite initial conflicts, Daisy and Hoke teach each other to see beyond their differences throughout a 25-year companionship.

"Driving Miss Daisy" runs June 21, 22, 25-29 and July 2, 3, 5 and 6, with previews performance on June 19 and 20 in the Pavilion Theatre.

The award-winning musical "Nunsense," written by Dan Coggins, takes nuns out of the church and puts them onstage. In order to raise money to bury their fellow sisters who were accidentally served poisoned

Mueller, Dr. Elizabeth A. Newell, Hobart and William Smith College, on "Effects of Treefall Gaps on the Physiology and Growth of Tree and Shrub Species in a Costa Rican Rainforest." Gerontology Center Colloquia, 4-5 p.m., 100 Mitchell. Raymond Coward, Univ. of Florida, on "Residential Differences in the Use of Formal and Informal Sources of Care."

Friday, April 5

Agronomy, 3:35 p.m., 107 Ag Science and Industries. Dr. Doug Bergle and Dick Cox on "Penn State Agronomists in the USSR."

Exhibits

Chambers Gallery

Art Education Graduate Students exhibition, through April 26

HUB Galleries

Browsing Art Gallery: Dept. of Corrections Inmate Art exhibit. "Impressions," through March 31

Formal Gallery:

■Getulid and Harte. Zur Geschichte der deutschen Rockmusik ("Tough and Tender: The History of German Rock Music"), through April 28.

Kern Gallery

Marlee Erwin, watercolors, "Essentially Iris," April-May 3.

Palmer Museum of Art

Abstracting the Landscape: The Artistry of Landscape Architect A.E. Bye, through March 30.

Pattee Library

Lending Services Gallery: Mark A. Deller, "New Developments," through April 21.

East Corridor Gallery:

Jennifer Nelson, paintings, oils and watercolors, through April 21.

West Lobby Gallery:

Jennifer Nelson, photographs, through March 30.

Zoller Gallery

Undergraduate Junior Exhibition, through March 30.

Milim Lim and Lisa Flugel, MFA candidates, recent work, through April 5-20.

■Reflects an international perspective

vichyssoise, the runs of the Mt. Saint Helen's High School present a rambunctious variety show.

"Nunsense" runs July 5, 6, 9-13 and 16-20, with preview performances on July 3 and 4 in The Playhouse theater.

The season closes with "Orphans," written by Lily Kessler. The play explores the world of two brothers, one a prisoner in his own house, the other a petty thief.

The arrival of a stranger named Harold opens their eyes and changes their lives forever. The play contains adult language.

"Orphans" runs July 19, 20, 23-27, 30 and 31 and Aug. 1-3, with previews on July 17 and 18 in the Pavilion Theatre.

Season subscriptions are now available. For ticket information or reservations, call the Eisenhower Auditorium Ticket Center at (814) 863-0255, open Monday through Saturday from 8:30 a.m. to 4:30 p.m.

Partings

Isabel A. Carson

Isabel A. Carson, administrative assistant in the Graduate School, has retired after 31 years service.

She has been responsible for accounting, budgets, payroll and administration of research and general funds for the Materials Research Laboratory since 1963. Ms. Carson began working for Penn State in the Bookkeeping Department shortly after graduating from high school, but left for several years to raise a family.

She and her husband, Fred Carson, owner of Fred Carson Trucking, have a daughter who graduated from the College of Education, and a son who is in the family business. They also have three grandsons. In retirement, Ms. Carson plans to visit family, garden and enjoy other activities.

Melvin C. Getz has retired as assistant food service manager in the Department of Housing and Food Services after 25 years service.

He began working for the University in 1965 as assistant food service manager for the HUB Eateries. In 1985, he assumed the same position in Pollock Dining Commons.

He was responsible for ordering food and ensuring that operations ran smoothly. "My favorite part was working with the students. They were a lot of fun," he said.

Mr. Getz, a resident of Tyrone, plans to

spend his retirement fishing, hunting and traveling to find some new places to fish.

Laxman N. Mulay, professor of solid state science, has retired with emeritus status after 27 years service.

He joined the University faculty in 1963 as associate professor of solid state science, and was promoted to professor in 1967.

While at Penn State, he has been associated with various sections within the Department of Materials Science and Engineering and served for a five-year term as chairman of the interdisciplinary program in solid state science.

He is internationally recognized for his contributions to magnetism and magnetochemistry, focusing on fine metallic particles, complexes, polymeric systems and minerals.

Dr. Mulay received three degrees from the University of Bombay: B.Sc. (Hons) *magnus cum laude* in chemistry-physics, M.Sc. in organic chemistry, and Ph.D. in chemical physics. From 1950 to 1963, he held various research and teaching appointments at the Universities of Bombay and Cincinnati, and at Northwestern and Harvard universities.

He is an elected Fellow of the Royal Society of Chemistry, a senior member of the Institute of Electrical and Electronics

Laxman N. Mulay

William H. Patton

Engineers, and an active member of the American Chemical Society. He is author or coauthor of about 200 scholarly publications and three books.

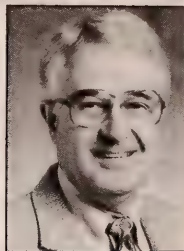

In retirement, Dr. Mulay is continuing his research and currently writing two books in the general area of magnetism.

William H. Patton, assistant professor of veterinary science, has retired from the College of Agriculture after 28 years service.

He taught methods of animal cell culture, biology of animal parasites and anatomy of animal livestock. He conducted research on coccidia of poultry, a parasitic protozoan, and was the first to cultivate the coccidia in cultured animal cells.

Dr. Patton coordinated the internship program in the Department of Veterinary Science and also served as a student adviser. In 1985, he was recognized by the Undergraduate Student Government Academic Assembly for excellence in advising.

He is a member of the American Association for the Advancement of Science, the Tissue Culture Association, the American Society of Parasitologists, the American Association of Avian Pathologists, Sigma Xi and the Helminthological Society of Washington. He earned his doctor of veterinary

Glenn E. Steyers

medicine at Michigan State University, his master of science in veterinary science and his doctorate in veterinary virology at the University of Wisconsin in 1960 and 1963, respectively.

Glenn E. Steyers, associate professor of horticulture, has retired from the College of Agriculture after 25 years service.

A registered landscape architect, he rejoined the College in 1987 as coordinator of the undergraduate major in landscape contracting. He started his teaching career at the University in 1957, when in the Landscape Architecture Department was part of the College.

Previously, he was associate professor of landscape architecture at the University and the senior adviser for undergraduates in the department. He worked with the College on a proposal to establish a university arboretum and represented the University with exhibits at the annual Philadelphia Flower Show from 1969 to 1986.

From 1960 to 1969, he taught at West Virginia University and started an academic program in landscape architecture.

He earned a bachelor of science degree in horticulture/landscape design in 1952 and a master of science in 1954 from Penn State.

In retirement, he will maintain studios in Florida and State College.

Faculty/Staff Alerts

Drug awareness training

Since fall of 1989, almost 300 administrators, human resources representatives and supervisors from all University locations have participated in the Office of Human Resources' Drug Awareness Training Program. Purpose of the program is to provide faculty and staff in supervisory positions with an orientation to the University's policies and procedures related to drug and alcohol use at work and an overview of interrelated health concerns.

The half-day seminar, coordinated by the Faculty/Staff Health Promotion Office and Human Resource Development Center, includes practical information about commonly used drugs, work-related signs

of abuse, and resources available for assistance in dealing with such problems.

Nancy Sassano, coordinator of Faculty/Staff Health Promotion, provides an overview of legislative requirements as well as workplace health and safety issues associated with alcohol and other drugs.

Bob Maney, manager of employee relations, guides the participants in effective use of Penn State employee relations services for intervention with employees. A visual display of various drugs and paraphernalia is presented by Officer Mike Teeters as he discusses the roles of the supervisor and police services in the legal aspects of drug use on campus.

This academic year's final offering of the

Drug Awareness Training Program will be from 1:15 to 4:45 p.m. Wednesday, April 17, in 319 Rider Building. The registration fee is \$10. For enrollment information, consult the Human Resource Development Center spring course schedule or call the HRDC at (814) 865-3410.

Courses for faculty and staff

The Human Resource Development Center has openings in the following courses. Call the center at 865-3410 for registration information.

Career issues for women Identifies internal and external barriers to advancement and strategies for overcoming them; meets 9 a.m. to 4 p.m. Monday, April 1; cost: none.

Employment interviews Provides practical training and pointers to individuals who interview applicants for employment

vacancies; meets 1:30 to 4 p.m. Tuesday, April 2; cost: none.

Managing change Program based on Ken Blanchard's video, which provides the framework for understanding the complexities of change; meets 9 a.m. to 4 p.m. Wednesday, April 3; cost: \$55.

Report writing Designed to give administrators, managers and other professional employees practical instruction in the fundamentals of report writing, including preparation and organization; meets for eight sessions, 9 a.m. to noon, Thursdays, April 4 to May 23; cost: \$95.

The one-minute manager Provides a practical guide to managing and developing people through goal setting, praising, redirecting and/or reprimanding, based on Ken Blanchard's video; meets 9 a.m. to 4 p.m. Friday, April 5; cost: \$55.

Private Giving to Penn State

Endowment established for Anglo-German chair

AEG Westinghouse Transportation Systems has given \$150,000 to help endow a faculty chair in Anglo-German Literary and Cultural Relations.

The gift will upgrade a professorship in German, one of eight created by a \$1-million grant from the National Endowment for the Humanities, Theodore Kiffer, acting dean of the College of the Liberal Arts, said.

"We now have a substantial basis for a chair in German-American literature and cultural relations," Dr. Kiffer said. "These prestigious positions aim to attract or retain eminent scholars and to offer outstanding opportunities for teaching and research."

"Although \$1 million is needed to endow a chair, we are almost halfway there already. We feel confident that AEG Westinghouse's generosity will spark further contributions. We are indeed grateful."

John R. Tucker, who was instrumental in securing the gift, is president of the Pittsburgh-based company and a 1969 University graduate with a degree in mechanical engineering.

"We're pleased to participate in the funding of this chair," Mr. Tucker said. "The position will enhance the understanding of Anglo-German

Viewing materials from the Allison-Shelley Collection in Pattee Library are, from left, Ernst Schurer, professor and head, Department of German; John Tucker, '69, president, AEG Westinghouse; Charles Mann, librarian and head, Rare Books Room, Pattee Library; and Emmett Meyer, vice president for human resources, AEG Westinghouse.

literature and culture, and as our world continues to shrink, we believe such

chairs will provide the basis for improved understanding and

relationships between Germany and America."

AEG Westinghouse Transportation is a manufacturer of electronic controls and components and urban transportation systems. The company is owned by Daimler-Benz, the German car and electronics manufacturer best known for the Mercedes-Benz line of automobiles.

Pennsylvania has a long and rich heritage of German settlement and has the largest population of Americans of German descent. The University's German Department was established in 1901, but German has been taught continuously here since 1864. Currently approximately 1,200 students take German courses each semester.

The chair in Anglo-German Literature and Cultural Relations will make possible, among other things, expanded research into the University's Allison-Shelley Collection. The collection has holdings spanning three centuries, including English translations of German literature, travelers' commentaries from both sides of the Atlantic, documents relating to the use of the Christmas tree, and children's literature.

The college has a chair in Jewish Studies and the Smeal Chair in Literary Theory and Comparative Criticism, which also are privately funded.

Alumnus' gift to increase potential for success

Penn State alumnus Arthur J. Nagle and his wife, Paige, have donated \$100,000 for the Penn State Educational

Partnership Program (PEPP) to help disadvantaged students succeed in school.

Mr. Nagle is chairman of Vestar Capital Partners Inc., of New York, a private investment firm.

Through partnership programs already in place in the McKeesport and Reading

school systems, Penn State works with the school district to encourage disadvantaged students as early as sixth grade to stay in school and go to college.

"When Paige and I were first thinking about becoming involved with PEPP, we were both attracted to the program's most important benefit, an increase in the potential for personal success in the American mainstream," Mr. Nagle said. "As we learned more, we believe that

PEPP can and will make a difference. We strongly encourage others to learn more about this exciting program and consider lending their financial support as well."

As part of the partnerships, the University offers workshops in science and writing, teacher workshops on cultural diversity, summer academic programs and information for families on the value of education. The first partnership program was initiated in

Reading and was followed by a new program in McKeesport last year.

The University plans partnerships with up to six Pennsylvania school districts.

Mr. Nagle earned a bachelor's degree in mathematics from Penn State in 1961 and an MBA in finance from Columbia University. The Allentown native now lives in Bronxville, N.Y., with his wife and two children.

College of Education receives scholarship funds

Eugene A. Larson, founder and former president of two Lewistown manufacturers, has given the College of Education \$100,000 to establish a scholarship in memory of his father.

The Burdett E. Larson Scholarship in the College of Education will benefit students who show the potential to be outstanding educators. Qualified students in Clearfield County will be eligible, with first preference given to graduates of the Morrisdale-based West Branch High School.

Burdett E. Larson received a master's degree in education from Penn State in 1938 and was a teacher and administrator for 37 years near his native Grassflat, Cooper Township. His first teaching job was in 1931, when he was an eighth grade teacher and principal of

the Winburne Elementary School.

He became supervising principal of Cooper Township School District in 1940 and continued in that capacity for 33 years. With the merger of Cooper and Morris Township schools, he became principal of West Branch High School.

"My father was a dedicated teacher and public education leader who loved his work and his students," Mr. Larson said. "This scholarship seeks to help young people who show promise of someday being a credit to this honored profession."

Mr. Larson is now a member of the Scientific Advisory Board of Westmark International in Seattle. From 1988 until last year, he was president of Advanced Technology Laboratories Inc., a diagnostic ultrasound

company in Bothell, Wash.

He ran three companies in Lewistown between 1965 and 1982, and he was founder, president and majority shareholder of Echo Laboratories Inc. from 1973 to 1982. He also was president and owner of a technical consulting firm, Blue River Laboratories, from 1972 to 1978, and Aerotech Laboratories from 1965 to 1972. Echo and Aerotech are developers and manufacturers of medical and industrial ultrasound electronics.

Between 1982 and 1986, Mr. Larson served with Johnson and Johnson, after it acquired Echo Ultrasound. During 1986-87 he held the position of professor of entrepreneurship and innovation in the College of Engineering. He maintains a home in State College, and two of his daughters are Penn State graduates.

Promotions

Staff Exempt

Darlene Fike, to conference service assistant in Nittany Lion Inn.
 George W. Hamilton, to supervisor, Landscape Management Research Center in Agriculture.
 Cheryl Kaplan, to area representative at Penn State Osgood Campus.
 Richard A. Kerten, to production director, program productions in Continuing Education.
 Patricia A. McMahon, to coordinator, health and wellness services at Penn State Erie, The Behrend College.
 Hendrik K. Meij, to project assistant in Senior Vice President for Research and Dean of the Graduate School.
 Frances E. Smith, to administrative head nurse at Hershey.
 Vicki L. Spadaccio, to assistant coordinator, Contracts and Grants Management in Research and Graduate School.

Staff Non-Exempt

Gary C. Gentzel, to network operator in C&IS-Management Services.
 Jill M. Kerschner, to research technician at Hershey.
 Zhanna Korsunsky, to senior research technician at Hershey.
 Zuzana G. Loring, to research technician at Hershey.
 Keith Shaffer, to senior research technician in Agriculture.
 Sherry L. Yocum, to administrative assistant in Research and Graduate School.

Clerical

Jolene A. Brown, to secretary C in Office of the President.
 Susan Clemson, to clerk, accounting A in Penn State Bookstore.
 Jennifer L. Conner, to clerk, typist A at Penn State DuBois Campus.
 Shelly L. Eby, to clerk, insurance followup at Hershey.

Pamela J. Kedzior, to accounting clerk at Penn State Erie, The Behrend College.
 Rosemary K. Manning, to secretary B in Eberly College of Science.
 Kim McClelland, to clerk, accounting A at Penn State Erie, The Behrend College.
 Karol M. McClintic, to accounting clerk in Corporate Controller's Office.
 Lisa J. Skishalle, to clerk, insurance followup at Hershey.
 Irene R. Spooner, to secretary B at Penn State DuBois Campus.
 Linda L. Walter, to clerk, accounting A in Penn State Bookstore.
 Jennifer L. Wellar, to secretary B in Engineering.
 Mary E. White, to clerk, typist A at Penn State Beaver Campus.
 Sandra J. Williams, to secretary B at Penn State New Kensington Campus.
 Linda R. Werner, to accounting clerk in Division of Development and University Relations.
 Joanne Zielinski, to clerk, accounting A at Penn State Great Valley.

Deborah L. Zimmerman, to secretary A in Engineering.

Technical Service

John Bessey, to community service officer at Penn State Worthington Scranton Campus.
 Douglas N. Fritz, to incinerator operator at Hershey.
 Kevin B. Hahn, to electrician A in Office of Physical Plant.
 Susan I. Kyle, to baker, utility in Housing and Food Services.
 Carolyn Schreffler, to media and sterilization attendant group leader at Hershey.
 Kathy J. Taylor, to campus bus driver in Office of Business Services.
 Charles F. Wendler, to maintenance worker, area landscape in Office of Physical Plant.
 Dorothy M. White, to patient care assistant at Hershey.

Penn Staters

John S. Bischoff, director of auxiliary services, has been installed as president and chief elected officer of the National Association of College Stores.

George S. Dulikravich, associate professor of aerospace engineering, presented lectures on computational fluid mechanics at research institutes in Santa Fe, Buenos Aires and Bariloche, Argentina, and a paper at the Pan-American Congress of Applied Mechanics in Vina del Mar, Chile.

Kenneth K. Kuo, distinguished professor of mechanical engineering, presented a lecture program for the National Science Council of the Republic of China in Taiwan. Topics were "Present Challenges in Solid Propellant Combustion Research," "Hot Fragment Conductive Ignition of Solid Propellants" and "Combustion, Flame Spreading and Mechanical Deformation During Dynamic Loading and Crack Propagation in Solid Propellants."

Samuel H. Levine, professor of nuclear engineering, presented a paper on "Using Optimization Techniques for Finding Potential Superior Reload Configuration for the TMI-2" at the Nuclear Societies of Israel annual meeting in Herzliya, Israel.

Diana Liverman, associate professor of geography, has been named a second place winner of the George and Cynthia Mitchell Prize for Sustainable Energy. Dr. Liverman, who also is an associate of the Earth System Science Center,

received a cash award of \$20,000 for her essay "The Regional Impacts of Global Warming in Mexico: Uncertainty, Vulnerability and Response."

Jerry Olson, holder of the Charles and Lillian Binder faculty fellowship, has been invited to serve on the editorial board of the new journal *Critical Perspectives: Culture, Consumption, Marketing and Organization*.

Laura L. Pauley, assistant professor of mechanical engineering, is a recipient of the 1991 Society of Automotive Engineers Inc. Ralph R. Teetor Educational Award for her "outstanding contributions as one of the nation's top engineering educators."

Michele V. Ronnick, assistant professor of classics, will present a paper on "The Aristocracy of Cicero's Fifth Paradox" during the Classical Association of the Middle West and South's spring meeting at McMaster University in Hamilton, Ontario.

Peter A. Rubba, associate professor of science education, has been appointed a member of the Assessment/Evaluation Committee, National Association for Science, Technology and Society; the Low-Level Radioactive Waste Information Network, Chem-Nuclear Systems Inc., a Pennsylvania public input group; and the Advisory Board, Pennsylvania Environmental Council. He also was named chair, Publications Committee, Association for the Education of Teachers in Science.

Kathy Ruhl, assistant professor of special education, was appointed a consulting editor to *Behavioral Disorders*, the journal of the Council for Children with Behavioral Disorders.

John Salvia, professor of special education and head of the Department of Educational and School Psychology and Special Education, was the keynote speaker for the first annual international conference of the Council for Educational Diagnostic Services held in New Orleans. He spoke on "Jazzin' Up Assessment."

Domenic A. Santavica, associate professor of mechanical engineering, has won the Forest R. McFarland Award for service as a Society of Automotive Engineers session organizer and as national vice chairman of Combustion for the Fuels and Lubricants Activities.

Andrew Scanlon, professor of civil engineering, has received a renewal grant of approximately \$8,250 from NATO for his project "Finite Element Analysis of Reinforced Concrete: Static and Dynamic Loading." As project coordinator, he is working in collaboration with D.V. Phillips, Glasgow University, United Kingdom.

Hoi Suen, associate professor of educational psychology, has been appointed a member of the Technical Peer Review Panel of the Law School Admission Council, which develops

and manages the Law School Aptitude Test.

N.S. Umanath, assistant professor of management information systems, served as chairman of the session "Rigor in Information Systems Research" for the conference on "The Information Systems Research Arena of the '90s," held at Copenhagen Business School, Denmark.

Susan F. Weis, associate professor of education, was named the 1990 recipient of the Outstanding Contribution Award of the Home Economics Division of the American Vocational Association in acknowledgement of her scholarship and service to the division.

Paul W. Welliver, professor of education, has received the Pennsylvania Association for Educational Communications and Technology Pioneer Award "for long and successful service in the field of educational technology."

Rami Zwick, assistant professor of marketing, has received the New Investigator Research Award from the Society for Mathematical Psychology for co-authoring the papers "Relative Gain Maximization in Sequential Three-Person Characteristic Function Games" and "Combining Stochastic Uncertainty and Linguistic Inexactness: Theory and Experimental Evaluation for Four Fuzzy Probability Models."

Focus on Research

Fish Food scientist focuses on fish in series of research studies

The taste of fresh, frozen, wild and farm-raised fish is keeping food scientist Joseph H. MacNeil busy in the laboratory and on the telephone.

In two separate studies, one on fresh and frozen cod and one on wild and farm-raised salmon, Dr. MacNeil's findings have stirred the interest of consumers, fishermen, academicians and professionals alike, and resulted in many phone calls about both research projects. Following are reports on the projects.

Fresh vs. frozen cod

Fresh fish may not always be the best buy when it comes to taste or cost, Dr. MacNeil, professor of food science in the College of Agriculture, found.

Frozen cod fillets, which were half the cost of fresh cod, beat the fresh cod in taste tests conducted at the University's Sensory Evaluation Laboratory.

"American consumers generally equate high quality with a fresh product; therefore, frozen seafood products often are perceived as having lower quality than so-called 'fresh' products. Frozen fish, if handled properly, can be an excellent buy and have excellent quality," he said.

In the study conducted by Dr. MacNeil and graduate student Chien-Hui Yang, the quality of frozen-at-sea cod was compared with the quality of fresh retail cod.

The frozen cod was frozen within four hours of being harvested at sea, while the fresh cod was obtained from two local supermarkets on the same day each week of the study.

A panel of 120 consumers participated in the sensory evaluations, comparing the overall acceptability, flavor and texture of the three types of cod used in the study: frozen, fresh and fresh 2.

"The frozen-at-sea cod rated higher than fresh cod samples in all three categories," he noted.

On a rating scale of one to nine, with nine being the best score, the frozen cod received a score of 6.77 for overall acceptability, 6.68 for flavor and 6.65 for texture.

Fresh 1 received scores of 4.87 for overall acceptability, 4.72 for flavor and 5.27 for texture, while fresh 2 received scores of 5.94 for overall acceptability, 5.68 for flavor and 6.21 for texture. (Scores in the 5.00 to 6.00 range are considered to be in the low end of the acceptable range.)

In addition to the taste tests, the researchers conducted physical and chemical analyses to determine if differences exist in quality between frozen and fresh cod. He plans further studies on the chemical reactions occurring within fish to learn more about how these factors affect quality.

Wild vs. farm-raised salmon

Farm-raised salmon beat out wild Atlantic and Pacific salmon in consumer taste tests conducted at the Sensory Evaluation Lab.

"Our findings surprised us," Dr. MacNeil said. "Alaskan salmon, one of the types of salmon we tested, is considered the best salmon available."

"In sensory evaluation tests, however, our consumer panelists selected Atlantic land-based salmon as the best tasting of four varieties of salmon. These findings lend support to the growing aquaculture industry, which raises fish on land."

"U.S. seafood consumption has nearly doubled since the 1970s, to a peak of 15.7 pounds per person in 1987," he said. At the same time, Americans have begun eating more fish for health reasons.

The two-year research project comparing Atlantic and Pacific ocean salmon with Atlantic land-based and pen-reared salmon was conducted by Dr. MacNeil and Gretchen E. Bartos, a food science graduate student.

Joseph H. MacNeil is shown at his office in Borland Laboratory. (Photo by Steve Williams)

The project is the first of its kind to compare differences in fish, he said. The researchers looked at physical and biochemical properties of salmon, as well as its consumer acceptability.

Wild ocean salmon were compared with salmon raised on land in concrete tanks (aquaculture method) and salmon raised in sea cages in ocean inlets (mariculture method). Method of cultivation and geographic location were taken into account along with factors such as moisture losses suffered during freezing and cooking, color intensity of the fish and omega-3 fatty acid content, he said.

Currently, aquaculture- and mariculture-raised fish account for 20 percent of total fish production.

Fifty consumer panelists drawn from the faculty, staff and student groups at the University made sensory evaluations of the salmon once at the

beginning of the project and again after the salmon had been frozen for six months. Strict testing procedures prevented the panelists from knowing which type of salmon they were evaluating. Their ratings of the four types of salmon remained the same during both evaluations.

Atlantic land-based salmon rated the highest in overall acceptability, texture and flavor; Pacific wild type was second. Atlantic pen-reared was third and Atlantic wild type was last.

Other aspects of the research looked at the amount of omega-3 fatty acids in each type of salmon. The highest amounts were found in Atlantic wild salmon. To compensate for a lower amount of omega-3 fatty acids, aquaculturists can manipulate the fatty acid content in their farm-raised salmon, Dr. MacNeil said.

— Deborah A. Benedetti

Staff Vacancies

The following vacancies for positions classified at staff exempt or staff nonexempt have been listed with the University Employment Division for filling. The brief statements for each vacancy are illustrative. They are not complete position descriptions. **APPLY BY CALLING THE EMPLOYMENT DIVISION, 863-0304 (NETWORK LINE 433-0304).** Applications for these staff vacancies will be accepted until April 4. **DO NOT CONTACT THE AREA THAT HAS THE VACANCY.** Applications for staff vacancies are considered in accordance with Fair Employment Practices (PS-1) and in compliance with the University's Affirmative Action Compliance Program, without regard to race, color, religion, national origin, handicap or age (as provided by law), sex or status as a disabled or Vietnam era veteran.

■01391, Administrative Assistant, CES, Continuing Education, University Park Campus—Responsible to the vice president of Continuing Education for the overall supervision of the office and for handling a wide range of administrative matters for the vice president. Requires bachelor's degree and one to two years of effective experience in administrative work, and project management. Excellent verbal, written, interpersonal, and organizational skills required. **STAFF GRADE 0**. This is a re-announcment. Previous applicants must re-apply.

■01392, Accounting Assistant, Student Services, University Health Services, University Park Campus—Responsible to the business office manager for budgeting and accounting control in University Health Services. Requires associate degree, or equivalent, in accounting or related field plus two to three years of effective experience. Familiarity with evaluating and implementing accounting systems within a university or a community health care setting is preferred. A strong background in computer operations is highly desirable. A bachelor's degree is preferred. **STAFF GRADE 5**. This is a re-announcment. Previous applicants must re-apply.

■01393, Athletic Trainer II, Intercollegiate Athletics, University Park Campus—Responsible to the coordinator of sports medicine for developing prescribed treatment

programs and individual rehabilitation programs for student-athletes in moderate to high risk sports. Requires bachelor's degree in health education, physical education or equivalent, plus one to two years of effective athletic training experience in Division I, Division IA football or equivalent. Master's degree preferred. Current certification with the National Athletic Trainers Association required and certified with the state of Pennsylvania or eligible. **STAFF GRADE 6**. This is a re-announcment. Previous applicants must re-apply.

■01394, Environmental Analyst, College of Engineering, Department of Nuclear Engineering, University Park Campus—Responsible to the supervisor, Low Level Radiation Monitoring Laboratory and faculty member for conducting low level radiation monitoring and neutron activation analysis and for performing various laboratory procedures. Requires bachelor's degree, or equivalent, in chemistry or related field and six months to one year effective experience in an analytical laboratory environment. **STAFF GRADE 4**. This is a re-announcment. Previous applicants must re-apply.

■01395, Publicity Coordinator, University Arts Services, Center for the Performing Arts, University Park Campus—Responsibilities include development and coordination of marketing campaigns and plans for Center programs and other client organizations. Requires bachelor's degree in communications, related field and one to two years effective experience. This is a fixed-term position funded through June 30, 1992, with excellent possibility of re-funding. **STAFF GRADE 0**. This is a re-announcment. Previous applicants must re-apply.

■01396, Director of Community Relations, Community Relations, Penn State Harrisburg—Responsible for organizing and conducting a comprehensive University relations program for the college. Requires bachelor's degree, or equivalent, in relevant field, plus a minimum of over four years of effective experience involving management experience and/or journalistic writing and public relations. Experience in higher education is highly desirable. Excellent oral and written

communications skills essential. **STAFF GRADE 0**. This is a re-announcment. Previous applicants must re-apply.

■01397, Coordinator, Student Support Programs and Minority Student Affairs, Student Assistance Center, Penn State Harrisburg—Responsible to the associate director of student affairs for student assistance for the development, coordination, supervision, and implementation of service oriented programming. Requires master's degree, or equivalent, in counseling, student personnel service or a closely related field plus one to two years of effective experience. **STAFF GRADE 7**. This is a re-announcment. Previous applicants must re-apply.

■01398, Computer and Information Systems Specialist, Computer Center, Penn State Harrisburg—Responsible to the director of computer and information systems for providing assistance to systems users concerning hardware, software or communications problems and for coordinating the repair of equipment. Requires associate degree, or equivalent, in computer science, electrical engineering, technology mathematics or related field and one to two years of effective experience in computer systems. **STAFF GRADE 4**. This is a re-announcment. Previous applicants must re-apply.

■01399, Nursing Assistant, Student Services, University Health Services, University Park Campus—Responsible to the nurse manager for providing clinical and nursing support services in the Outpatient Department, Urgent Care Clinic and Observation Unit. Requires high school graduate, or equivalent, completion of certification as nursing assistant plus three to six months of effective experience. This is a full-time, 10-month, night shift position. **STAFF GRADE 2**. This is a re-announcment. Previous applicants must re-apply.

■01400, Assistant Manager, Housing and Food Services, Penn State Harrisburg—Responsible to the manager of housing and food services for assisting in supervising the overall operation of the Housing and Food Services units at the Commonwealth Campus to which assigned. Requires bachelor's degree, or equivalent, in institutional management plus one to two years of effective

experience in food service supervision. **STAFF GRADE 5**. This is a re-announcment. Previous applicants must re-apply.

■01401, Nursing Assistant, Student Services, University Health Services, University Park Campus—Responsible to the nurse manager for providing clinical and nursing support services in the Outpatient Department, Urgent Care Clinic and Observation Unit. Requires high school graduate, or equivalent, completion of certification as nursing assistant plus three to six months of effective experience. This is a full-time, 12-month, day and evening rotating shift position. **STAFF GRADE 2**. This is a re-announcment. Previous applicants must re-apply.

■01402, Coordinator, Personal Counseling Programs, Student Assistance Center, Penn State Harrisburg—Responsible to the associate director of student affairs for student assistance for providing counseling and referral services to students requiring psychological assistance. Serve as resource person for personal counseling activities. Requires a doctorate in counseling psychology, educational psychology, or clinical psychology, plus up to one year of effective experience. Professional licensure/certification preferred. **STAFF GRADE 7**.

■01403, Graphics Programmer, Computer and Information Systems, Center for Academic Computing, University Park Campus—Responsible to the manager, visualization and workstations, for software development, software installation and maintenance, general consulting for faculty, staff and researchers. Requires bachelor's degree, or equivalent, in computer science or a

related field plus two to three years of effective experience in computer graphics. Familiarity with VM/CMS and Unix is desired. Familiarity with one or more of the following also is desired: SAS/Graph, the Precision Visuals software suite (DI-3000, Contour, PV-Wave, etc.), NCAR Graphics, PostScript, Sun and NextT Workstation. **STAFF GRADE 7**.

Hershey

For the following position vacancies, apply directly to The Milton S. Hershey Medical Center. Attach resume with cover letter indicating the position vacancy code and forward to the Department of Human Resources, Hershey, or call the Hershey bid line at (717) 531-8531 by April 4.

■17344, Supervisor, Cost Accounting and Reimbursement, Department of Financial Management—Responsible for supervising cost accounting functions and for conducting various financial planning studies and analysis concerning new and existing hospital services. A bachelor's degree (or equivalent) in a business related field with an emphasis in accounting and two to four years of effective experience. Some supervisory experience also is required. **STAFF GRADE 7**.

■17350, Employment Specialist, Department of Human Resources—Responsible to the associate director, Human Resources, for assigned recruiting campaigns. Requirements include a bachelor's degree or equivalent in business or related field plus over one year up to and including two years of effective experience. **STAFF GRADE 6**.

Regional seminar on India

The first in a series of "traveling" seminars focusing on problems besetting India today will be held from 1 to 6 p.m. Saturday, March 30, in Room 112 Walker Building at University Park. Representatives from several universities in the Northeast will participate in the seminar which is sponsored by Parivartan, a student, faculty and staff group at the University which is committed to supporting social, political and economic progress in India.

INTERCOM is published weekly during the academic year and every other week during the summer. It is an internal communications medium published for the faculty and staff of Penn State by the Office of Public Information, Room 312, Old Main, Phone 865-7517.

Convocation will honor students, faculty and staff

The annual Penn State Awards Convocation to honor outstanding students, faculty and staff will be held at 2 p.m. Sunday, April 7, in Eisenhower Auditorium at University Park.

The ceremony is open to the public and will feature **President Thomas** as guest speaker. He and **Charles L. Hosler**, acting executive vice president and University provost, will officiate and make presentations.

Dr. Thomas will present the faculty-staff

achievement awards: the Barash Award for Human Service, McKay Donkin Award, John E. Wilkinson Award for Administrative Excellence and the Award for Outstanding Contributions Improving Equal Opportunity and Cross-Cultural Relations.

Dr. Hosler will present the undergraduate scholastic awards: President's Freshman Award, President Sparks Award for sophomores and Evan Pugh Scholar Award for juniors and seniors.

In addition, he will present the John W. White Graduate Fellowship and a series of faculty teaching awards: the Christian R. and Mary F. Lindback Award for Distinguished Teaching, the George W. Atherton Award for Excellence in Teaching, and Penn State Teaching Fellow and Excellence in Advising awards.

Howard B. Palmer, associate dean of the Graduate School, will present faculty scholar medals for life and health sciences,

arts and humanities, and physical sciences and engineering.

William W. Asbury, vice president for student services, will present the following student achievement awards: the Ralph Dorn Hetzel Memorial Award, the Eric A. Walker Award, the John W. Oswald Award, the Ernest B. McCoy Memorial Award for Outstanding Adult Student Award for University Park, and the Graduate Student Service Award.

President's statement on Knight Commission Report

The Knight Commission Report issued recently calls for a welcome and needed return to standards in intercollegiate athletics across the nation. The report provides an excellent guide that should ensure a continuation of the reform movement under way in intercollegiate athletics. Particularly welcome is the Commission's recognition that intercollegiate athletics, conducted properly in the college and university setting, can be educational in the best sense of the word: they teach students

and fans about testing themselves, about the values of challenge and response, hard work and discipline. These lessons are worth preserving amidst what the Commission has identified as "patterns of abuse" that must be reversed in intercollegiate athletics.

The Penn State community can be proud of the leadership former President of the Board J. Lloyd Huck and President Emeritus Bryce Jordan brought to the Commission. We also can be proud that Penn State's tradition in

athletics -- where the scholar-athlete is at the center of the University's athletics program -- has been viewed as a model worthy of study and emulation.

The Board of Trustees at Penn State has traditionally supported presidential authority in the administration of athletics, both through the Board Chair and through the Board liaison to Intercollegiate Athletics. Penn State has been a leader in keeping faith with the student-athlete and will continue to do its part in making sure that the

important message the Knight Commission has advanced is supported. We will, of course, work with our colleagues in the NCAA to ensure that the appropriate follow-up to the Commission's recommendations occurs.

I am confident that the Board Chair, its liaison to Intercollegiate Athletics and its representative to the Knight Commission will discuss the report in detail at the Board's meeting in May.

President Thomas

Four faculty members will receive scholar medals

Four University faculty members will receive the 1991 Faculty Scholar Medals for Outstanding Achievement during the University Awards Convocation.

They are **Paul West**, professor of English and comparative literature, for the arts and humanities medal; **Terry D. Eiherton**, professor of animal nutrition, and **Kathryn F. LaNoue**, professor of cellular and molecular physiology at the Hershey Medical Center, for the life and health sciences medal, and **Barry Voight**, professor of geology and geological engineering, for the physical sciences and engineering medal.

Established in 1980, the Penn State award recognizes scholarly or creative excellence represented by a single contribution or a series of contributions around a coherent theme. A committee of faculty peers reviews nominations and selects candidates. The recipients are awarded by President Thomas.

The faculty members will receive engraved medals and \$1,000 checks. Drs.

Three faculty members will receive the Christian R. and Mary F. Lindback Award for Distinguished Teaching. See the story on page 5.

Eiherton and LaNoue will share the prize for the life and health sciences.

Professor West is nationally and internationally recognized for his novels, short stories, poetry, memoirs and scholarly investigations. He has received both popular and critical acclaim for his works. In 1986, he published his highly acclaimed novel *Rat Man* at Paris and, during the past three years, he has published six books.

Professor West joined the University faculty in 1962 as associate professor of English and comparative literature and became a professor in 1968. He has received the Best American Essay Award, a

Puehcart Prize, the Arts and Letters Award from the American Academy and Institute of Arts and Letters and has served as a fiction judge for the National Book Awards.

Dr. Eiherton's research on the endocrine control of adipose tissue metabolism has received international recognition. His research efforts in applying biotechnology and endocrinology to the swine industry, aimed at making pork leaner and healthier are at the forefront of the field.

Dr. Eiherton received his B.S. in agricultural science and M.S. in animal agriculture from the University of Illinois in

1971 and 1974, respectively. He received his Ph.D. in animal science in 1978 from the University of Minnesota and did a postdoctoral fellowship in endocrinology at Stanford University. He joined the University faculty in 1979 as an assistant professor and achieved the rank of professor in 1987.

Dr. LaNoue, a member of the College of Medicine faculty since 1974, pursues innovative research into the fundamental mechanisms of energy metabolism. The subject of her most recent work focuses on the mechanisms by which heart cells couple contractile work with the synthesis of ATP by mitochondria. ATP is required to fuel muscle contraction and in fact is the energy currency used in all living cells.

Dr. LaNoue received her A.B. in chemistry from Bryn Mawr College in 1956 and her Ph.D. in biochemistry from Yale University in 1960. She served as an associate in physical biochemistry and an assistant professor of physical biochemistry

See 'Medals' on page 3.

Focus on Diversity

Health issues for students of African descent to be discussed

Health issues for students of African descent will be addressed by two invited speakers at University Park during April.

At 7 p.m. Monday, April 8, Linda Carter of the Philadelphia-based organization B.E.E.A.S.H.I. (Blacks Educating Blacks About Sexual Health Issues) will speak on "Women and HIV/AIDS: The Reality" at 7 p.m. in Room 111 Boucke. She will address the social, physical, emotional, economic and medical issues women face when diagnosed with HIV or AIDS.

At 7 p.m. Tuesday, April 16, Suzanne Anderson, certified additions counselor with CCTI Inc. of Pittsburgh, will speak on "The African-American Student: We are the Creators of Our Self-Esteem" at 7 p.m. in 111 Boucke. Ms. Anderson has 17 years experience in the field of chemical dependency and family issues and is involved as a consultant and trainer to organizations in developing multiculturalism.

The speakers have been invited as part of Sigma Chi Phi Sorority's Black Health Issues Week. The week also is sponsored by: Support, Survival and Success (The "S"

Suzanne Anderson

Plan) for Students of African descent with funding from EOFC and the Office of Health Promotion and Education, University Health Services.

Nominations for membership being sought

The Penn State Commission for Women is seeking nominations for membership.

Nominations of others or self can be made by completing a nomination form which may be requested by calling the Commission Office at 865-1683.

The Commission for Women serves as an advisory group to the president on matters affecting women of the University. Its purpose is to promote the efforts of women of the University, and to serve as a forum for the exchange of ideas.

The entire women's community at the University is represented by the Commission for Women. Its membership includes clerical, staff, faculty, administrators and technical-service employees, and undergraduate and

graduate students. At least two members must be from Penn State locations other than University Park. Members are appointed to serve three-year terms.

The commission is actively seeking nominations including self-nominations, from all women and particularly those whose cultural, racial or ethnic backgrounds would enrich the understanding of the needs and concerns of women throughout the University. The commission values diversity in its membership and is actively seeking a broad base of nominations.

Nomination forms must be returned to the Commission for Women, 405 Old Main, no later than April 15. Further information may be obtained by calling the Commission Office.

WPSX-TV program

When Lionel Hampton returned to Detroit's Paradise Theatre at Orchestra Hall in January 1988, it was his first time to play the Paradise since it closed in 1951. Thirty-seven years later, Mr. Hampton's legendary vibraphone style once again came alive to thrill a packed house of 2,100

fans at the refurbished Paradise Theatre in Orchestra Hall.

Taped segments from this "return engagement" are among the highlights featured in *Lionel Hampton: Back to Paradise*, a one-hour special airing at 10 p.m. Friday, April 5, on Channel 3. Jazz singer Joe Williams joins Mr. Hampton in hosting and performing in this celebration of Mr. Hampton's 60 years in the music business.

Diversity Opportunities Calendar

Friday, April 5

Exercise and Sports Science, noon to 1 p.m., 108 White Building, Faculty/Staff Wellness Week in African dance with Myrna Munchus-Bullock; drum music by Don Berinato and Andrew Jackson of the "Earthtones."

Paul Robeson Cultural Center, 7 p.m., Robeson Center auditorium. Play: "Rape, What Every Black Woman Wants: A Look at Sexual Deviance and Mental Illness in our Community."

Center for Women Studies, conference, "The Politics of Sexuality: Multicultural Feminist Perspectives," Hetzel Union

Building, through April 6.

Saturday, April 6

Office of Minority Faculty Development, 9 to 11 a.m., 114 Kern. Workshop, "A Funding Roundtable," by Baiba Briedis, College of the Liberal Arts coordinator of grants and contracts. Attendance is limited to those who participated in a previous workshop lead by Ms. Briedis. For information, call Leah Witzig, 863-1663.

Paul Robeson Cultural Center, 10 a.m. to 5 p.m., 301 HUB. Symposium: "The Black Woman: Gifts, Goals and Glass Ceilings."

Monday, April 8

Paul Robeson Cultural Center, 8 a.m. to

5 p.m., Robeson Center Gallery. Photographic exhibit: "Women of Courage," through May 8.

Tuesday, April 9

Men of Color, noon to 1 p.m., Nittany Lion Inn. Monthly lunch meeting.

Office of Religious Affairs, 7:30 p.m., HUB Assembly Room. Seventh annual Martin Luther King Lecture by Delores Williams.

Thursday, April 11

Center for Women Students, 7 p.m., Paul Robeson Cultural Center Auditorium. Barbara Smith on "In the Life: The Courage of Lesbians and Gay Men of Color."

Medieval women are focus of conference

The curse of chastity. Viking wives, ruined maids and marginalized women will be the subjects of a conference on "Matrons and Marginal Women in the Middle Ages" on Friday and Saturday, April 5 and 6, at the Nittany Lion Inn on the University Park Campus.

The annual Medieval banquet, which is part of the conference, will be held on Friday, April 5. The banquet is open to the public and will feature Medieval cuisine, music of the period by the Nova Consort and a humorous play about complaining wives and beleaguered husbands by John of Lydgate.

"Some groups of Medieval women have attracted a lot of scholarly attention, but our conference wanted to focus on groups other than princesses and anorexic nuns," Vickie Ziegler, associate professor of German and Medieval studies chairman, says.

"In real life, Medieval women were made of sterner stuff. This year's conference is devoted to studying the lives of ordinary women -- housewives, guild workers, artisans, peasants, prostitutes, female criminals and the sick and crippled," she says.

Registration for the conference is open to the public for a fee of \$25. For more information, contact Judith L. Shawley, Department of History, 601 Oswald Tower, University Park, call (814) 865-1367.

Teaching about East Asia is theme of workshop

The Central Pennsylvania Collaborative for International Education will present a workshop on teaching about East Asia on Friday, April 12, at the Keller Conference Center at University Park. It will be presented by the Asian Outreach Center of the University of Pittsburgh.

The workshop, which will be held from 9 a.m. to 3:30 p.m., is designed to help participants integrate East Asia into their curriculums, gain new insights about Japanese education and society, learn about the Chinese language and practice calligraphy, examine new classroom materials about Japan and China including videos and slides, and hear about and discuss China's modernizations and the student demonstrations of 1989.

The University Office of International Programs is sponsoring the workshop.

For more information, write or phone Jack Sinclair, 409 Keller Conference Center, (814) 863-2035, or Linda Barton, 231-5069.

Workshop on African American issues set

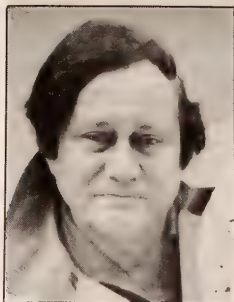

The College of Health and Human Development will sponsor a workshop on African American Black American issues from 4 to 6 p.m. Monday, April 15, in the Henderson Building Living Center at University Park.

The program is the third in a series of curriculum integration workshops developed by the college for its faculty and other interested persons. The workshops focus on campus climate and ways of

integrating cultural diversity issues into the classroom.

Daniel L. Trevino, director of minority programs for the college, will present the results of a survey in which the college's minority students shared their perceptions of the campus climate.

The workshop also will include resource materials and strategies for teaching, as well as a videotape, "Minorities in the College Classroom."

Medals

Continued from page 1.

at the Johnson Research Foundation in Philadelphia from 1970 to 1974 when she joined Penn State.

Dr. Voight's research over the past several years has culminated in development of a general law governing the onset of failure in many types of materials. His research in this area began with his award winning study of the Mount St. Helen's avalanche, but extends

to a mathematical formulation to predict catastrophic failures including volcanic eruptions, rockslides, tunnel collapses and metal creep.

He received a B.S. in geology, a B.S. in civil engineering and an M.S. in civil engineering from Notre Dame University in

1959, 1960 and 1961, respectively, and a Ph.D. in geology from Columbia University in 1965. He holds an adjunct appointment with the U.S. Geological Survey and is a consultant to the United Nations and other agencies for disaster prevention.

Faculty/Staff Alerts

Health care coverage review

Regular University faculty and staff members are urged to review periodically the deductions being taken for their health care coverage (hospital/surgical/major medical, dental and vision) to be certain that they are paying for the correct coverage.

A change in family status may affect your cost and your coverage. For example, when you get married, when you have a first child, or when your spouse stops working for the University, you run the risk of having inadequate dependent coverage, if you haven't taken steps to indicate the change in coverage desired.

Consideration should be given to changing coverage if any of the following circumstances arise: You get married, you get divorced (or separated and no longer wish to provide spouse dependent coverage); you become the parent of a first child (note: a baby is covered automatically for 31 days following birth; however, to provide coverage beyond that time for a child, a coverage form must be completed);

your only dependent child reaches age 19 (or 23 in the case of a full-time student); your only dependent child gets married; your spouse begins or ceases working for the University as a regular employee; your spouse enters military service; your spouse dies; your only dependent child dies.

If you feel a change should be made, call, write or visit the Employee Benefits Division, Room 205 Rider Building, 865-1473. Faculty or staff members located away from University Park may receive assistance by contacting the appropriate director of business services or human resource officer.

The University has no way of knowing whether a change should be made, so it is the responsibility of the individual faculty or staff member to keep his or her records up to date. No refunds for overpayment will be made, unless it can be shown that the University was in error.

Employment of minors

Supervisors are reminded that the Pennsylvania Child Labor Law requires that

an employment certificate (sometimes referred to as "working papers") be obtained before any minor begins working for the University. A minor is anyone under age 18 who has not graduated from high school, or who has not been declared by the high school as having attained maximum academic potential in lieu of graduation. Also, the minimum age for University employment is age 16.

The employment certificate is issued by the minor's high school. Employment certificates are maintained on file by the Employment Division, or appropriate business or human resources office at facilities away from University Park. When a minor ceases employment, the Employment Division, or appropriate business or human resources office, must be notified so that the certificate can be returned to the issuing high school, or to the minor, as appropriate.

Supervisors are asked to review University policy PS-2, Employment of Minors, before committing employment to a minor.

Tax deferred annuities

Regular, full-time faculty and staff members are reminded that one of many benefits available to them is the tax deferred annuity.

Section 403(b) of the Internal Revenue Code permits some employers, such as colleges and universities, to make these programs available. Tax deferred annuities make it possible for employees to save part of their salary for future needs and, at the same time, defer federal income tax. Contributions must be in the form of payroll deductions.

At the present time approximately 2,900 full-time faculty and staff members participate in the program.

Tax deferred annuities for faculty and staff at Penn State are available through the Equitable Life Assurance Society, Teachers' Insurance and Annuity Association (TIAA) and the Variable Life Insurance Co. (VALIC). Additional information may be obtained from representatives of the Equitable, VALIC or the Employee Benefits Division, 865-1473.

Institute awards 10 Faculty Research Fellowships

The Institute for the Arts and Humanistic Studies has awarded 10 Institute Faculty Research Fellowships for July to December. The recipients are:

— **Ying-Ying Chien**, assistant professor of comparative literature and women's studies, to prepare a book, *Metamorphoses of the 'New Woman': Western Feminism and Modern Chinese Literature*.

— **Thomas Hale**, professor of African, French and comparative literature, to complete research for a book on griots, keepers of the oral tradition in the Sahel

region of West Africa.

— **James Kalsbeek**, assistant professor of architecture, to examine the mnemonic method of Loci and its potential application to the understanding of architectural theory, history and design.

— **Gary Knoppers**, assistant professor of religious studies, to prepare a book on early Judaism, *The Politics of History: The Chronicle and the Restoration of Israel*.

— **Gerald Lang**, associate professor of art, to produce a limited edition suite of seven hand photogravure images related to

the horse.

— **Philip J. Mosley**, professor of English and comparative literature at the Penn State Worthington Scranton Campus, to prepare two studies of Belgian writer Georges Rodenbach as chapters in a book on francophone Belgian writers, which he also will edit.

— **Londa Schiebinger**, assistant professor of history and women's studies, to prepare a book on the role that gender played in shaping the substance and style of 18th-century views of nature.

— **Donald Sheehy**, assistant professor of English, to prepare a biographical-critical book on American poet Robert Frost.

— **Elizabeth Smith**, associate professor of art history, to conduct on-site research as part of a study of the architecture and architectural sculpture of the Romanesque and Gothic periods in the Abruzzi.

— **Beno Weiss**, professor of Italian, to study Polydoro Vergili's life and work (1470-1555) as an Italian humanist through his *De Inventivis Rerum*.

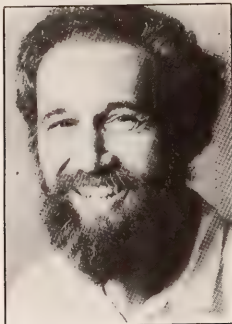

Mathematician will present Marker Lectures

Alain Connes, professor of mathematics at the College de France and long-term professor at the Institut des Hautes Etudes Scientifiques, will present the 1991 Russell Marker Lectures in the Mathematical Sciences April 8-11 at University Park.

The four-lecture series, titled "Non-Commutative Geometry," is sponsored by the Eberly College of Science and is free to the public.

The schedule includes: "On the Nature of Mathematical Reality," 8 p.m. Monday, April 8, 162 Willard Building; "Space-Time and Non-Commutative Geometry," 4:30 p.m. Tuesday, April 9, 117 Osmond Laboratory; "Discrete Group and Cyclic Cohomology," 4:30 p.m. Wednesday, April 10, 117 Osmond Laboratory; and "Entire Cyclic Cohomology," 4:30 p.m. Thursday, April 11, 117 Osmond Laboratory.

Dr. Connes, whose main area of research includes operator algebras, was honored with the 1982 Fields Medal, the mathematical sciences' equivalent of the Nobel Prize. He is recognized throughout the world for his classification of injective factors, which set the framework for much of today's work in operator algebras, and is

Alain Connes

one of the founders of cyclic homology, a very active area in current mathematical research. In addition, he is credited with creating the field of non-commutative

differential geometry.

Honored with the French Academy of Sciences' Aime-Berthe Prize in 1975 and Ampere Prize in 1980, he also has won the Peccot-Vimont Prize and the Silver Medal of France's Centre National de la Recherche Scientifique. The University of Kingston, Canada, presented him with an honorary doctorate in 1979.

In 1980, Dr. Connes was elected a corresponding member of the Academy of Sciences of Denmark and also became the youngest scientist in this century to be elected a member of the French Academy of Sciences.

The Marker Lectures were established in 1984 through a gift from Russell Marker, professor emeritus of chemistry, whose pioneering synthetic methods revolutionized the steroid hormone industry and opened the door on the current era of hormone therapies, including the birth control pill.

The Marker endowment also allows the Eberly College of Science to present annual Marker Lectures in astronomy, the chemical sciences, evolutionary biology, genetic engineering, and the physical sciences.

Bookshelf

Robert R. Edwards, professor of English and comparative literature, and Stephen Spector are editors of *The Old Dutch Love, Friendship, Sex and Marriage in the Medieval World*, published by the State University of New York Press.

Wolfgang E. Meyer, professor emeritus of mechanical engineering, is co-editor of *Surface Characteristics of Rindings: International Research and Technologies*, published by the American Society for Testing and Materials.

The technical publication includes forty peer-reviewed papers presented during the

First International Symposium on Surface Characteristics at University Park in 1988. The papers cover characteristics of pavement surfaces, methods of measuring and interpreting them, and application of data in pavement management. Dr. Meyer served as co-chairman of the symposium.

Engineering faculty members contributing to the publication, in addition to Dr. Meyer, are J.J. Henry and James C. Wambold, professors of mechanical engineering, and Bohdan T. Kulakowski, associate professor of mechanical engineering.

Co-editor of the publication is Jean Reichert, director of the Center for Road Research, Brussels, Belgium.

Dennis P. Hogan, professor of sociology and director of the Population Issues Research Center, Institute for Policy Research and Evaluation, and David Kertzer, Kenan Professor of Anthropology at Bowdoin College, have been awarded the 1991 Howard R. Marraro Prize for their book, *Family, Political Economy, and Demographic Change: The Transformation of Life in Casalechio, Italy, 1861-1921* (University of Wisconsin Press, 1989).

The Marraro Prize is awarded annually by the Society for Italian Historical Studies of the American Historical Association for the best work in any epoch of Italian history, Italian cultural history, or Italian-American relations.

MIT president will give engineering lecture

Charles Vest, president of the Massachusetts Institute of Technology, will give the 1991 Honorary Engineering Lecture on Tuesday, April 23, as part of the events surrounding the inauguration of the College of Engineering's Leonhard Center for Enhancement and Innovation of Engineering Education.

"Universities, The Public, and The Government: The State of the Partnership" is the title of the talk scheduled for 1 p.m. in Kern Graduate Building Auditorium at University Park. The lecture is free and open to the public.

Before coming to MIT, Dr. Vest was at the University of Michigan, Ann Arbor, for 27 years. He was dean of Michigan's College of Engineering from 1986 to 1989 and the provost and vice president for academic affairs prior to his appointment at MIT this fall.

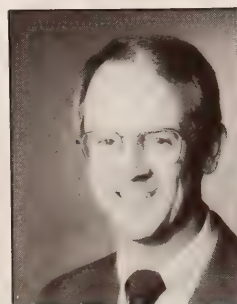

A specialist in three-dimensional imaging and image reconstruction, he has written numerous articles and a textbook.

Holography Interferometry. This discipline used optical holography to precisely measure thermal and mechanical movement.

Dr. Vest joined Michigan as a graduate student after receiving his BSME from West Virginia University in 1963. He earned his master's in mechanical engineering in 1964 and his Ph.D. in 1967. He was appointed assistant professor of engineering in 1968, associate professor in 1972, professor in 1977, and associate dean in 1981, all at Michigan.

The annual lecture, sponsored by the College of Engineering and the Penn State Engineering Society, this year is a part of the inauguration of the Leonhard Center and a two-day meeting of the Leonhard Center Advisory Board.

The Leonhard Center was founded by William E. Leonhard, a 1936 electrical engineering graduate, with a commitment of \$4 million to develop a national focus for improving engineering curricula and teaching methodologies.

Charles Vest

Appointments

Roxanne F. Price has been named county extension director for Penn State Cooperative Extension in York County. She will succeed Anthony Dobrosky, who retires on July 1.

Mrs. Price began her career with Penn State Cooperative Extension in 1974 as assistant extension agent in York County. Her main area of responsibility has been 4H/youth programs. She currently is 4H coordinator for the county.

In 1986, she received the Distinguished Service Award of the National Association of Extension 4-H Agents. She received her B.S. from Mansfield State College in 1975.

John H. Schwartz has been named county extension director for Penn State Cooperative Extension in Lancaster County. He will assume his duties on May 1 after the retirement of Jay Irwin.

Dr. Schwartz began his career with Penn State Cooperative Extension in 1970 as 4-H agent and coordinator in Chester County. From 1975 to 1982 he served as agriculture agent in Adams County, with program responsibility for poultry, farm management, agronomy, marketing and animal science. Since 1988, he has been an extension agent responsible for educational programs in commercial poultry production in Lancaster, Lebanon, York and Adams counties.

Dr. Schwartz earned his Ph.D. in animal science from Colorado State University in 1985. He also holds B.S. and M.Ed. degrees from Penn State. He served two years on the faculty at Clemson University and worked in agribusiness in Colorado in 1984-85.

William D. Weaver Jr. has been named head of the Poultry Science Department in the College of Agriculture, effective June 1.

Dr. Weaver has been a member of the poultry science faculty at Virginia Polytechnic Institute and State University in Blacksburg, Va., since 1966. His diverse background includes research, teaching and advising, but his primary emphasis is cooperative extension work.

Dr. Weaver joined the Virginia Tech faculty in 1966 as an instructor and extension specialist. He was named assistant professor in 1971 and associate professor in 1975. He attained the rank of professor in 1983. Since 1975, he has served as extension project leader for poultry programs.

Dr. Weaver earned B.S. and M.S. degrees in poultry science from Virginia Tech, and his Ph.D. in poultry science from Penn State. He has authored or co-authored dozens of abstracts and articles for refereed journals and trade publications.

He succeeds **Herbert S. Siegel**.

Carpooler

Robin would like to carpool from Reedsville to University Park. Her work hours are 8 a.m. to 5 p.m. Call (717) 667-2110 (after 6 p.m.).

Three faculty members to receive Lindback award

Three University faculty members have been chosen to receive the Christian R. and Mary F. Lindback Award for Distinguished Teaching at the University Awards Convocation.

They are **Priscilla F. Clement**, associate professor of history, Penn State Delaware County Campus; **Nancy S. Love**, associate professor of political science; and **Robert P. Marande**, associate professor of physics, Penn State Erie, The Behrend College.

The Lindback Award, presented annually since 1958, honors faculty members whose main responsibility is teaching undergraduate students. Each recipient receives a certificate and \$1,000.

Twice the recipient of Penn State Delaware's Outstanding Teaching Award (1972, 1990), Dr. Clement is a noted teacher-scholar at the campus. During her 24 years on the faculty, she has contributed to the scope and diversity of the campus' curriculum, incorporating multicultural perspectives into her women's studies, American studies and history courses.

"She is a master at creating a learning environment that enlists students to think critically. Critical thinking is at the heart of her classroom discussions and reading, and writing-intensive assignments," according to nomination materials.

Priscilla F. Clement

A Phi Beta Kappa graduate, Dr. Clement earned B.A. and M.A. degrees from Stanford University in 1963 and 1964, respectively, and a Ph.D. from the University of Pennsylvania in 1977.

Dr. Love's teaching is described by the Department of Political Science as "exemplary." "She represents the best in our profession of teaching." She also has been actively involved in curriculum integration efforts through her work with the Women's Studies and University Scholars programs.

Her teaching philosophy involves

Nancy S. Love

creating an atmosphere conducive to learning. Her approach is to use discussion, rather than lectures.

Dr. Love earned an A.B. degree from Kenyon College in 1977 and M.A. and Ph.D. degrees from Cornell University in 1981 and 1984, respectively.

Dr. Marande, coordinator of Penn State-Behrend's physics program, is considered an outstanding instructor at the college. A 1990 recipient of the Behrend College Council of Fellows Excellence in Teaching Award, he has received high ratings for his teaching

Robert P. Marande

from his students.

His philosophy of teaching focuses on helping his students to think independently and providing the tools necessary for them to excel. He combines lectures with homework assignments that reinforce the theoretical and thought process presented in class.

Dr. Marande earned a B.S. degree in physics and math from Saginaw Valley College in 1974, an M.S. in physics from the University of Akron in 1976 and a Ph.D. in physics from Kent State University in 1984.

News in Brief

Adult movement class

An adult movement class in African dance is being offered by Myrna C. Munchus-Bullock of the Department of Exercise and Sport Science. The adult class is being held every Friday through April 19, noon to 1 p.m. in White Building Studio 108 at University Park.

No previous dance experience is necessary - women and men are welcome. The class will be accompanied by Don Berinato and Andrew Jackson (both of the "Earthtones") on conga drums. Fee for the six weeks is \$45. Individual classes are \$8 each. For further information, call 863-3588, 863-0442, or 234-2370.

Spring blood drive schedule

The Centre Communities Chapter of the American Red Cross is conducting three blood drives at University Park in April: Monday, April 8, Findlay Union Building, noon to 6 p.m.; Tuesday, April 9, HUB Ballroom, 10 a.m. to 4 p.m.; Wednesday, April 10, HUB Ballroom, 10 a.m. to 4 p.m.

During the Persian Gulf crisis, weekly blood collections were suspended at the

Red Cross office in State College, but have now been reinstated. These will occur every Tuesday from 10 a.m. to 4 p.m., and the second Thursday of each month from 3 to 7 p.m. The office is located at 121 1/2 E. Beaver Ave., between Allen and Pugh streets.

Australian air marshal to visit

Air Marshal R.G. Funnell, chief of air staff, Royal Australian Air Force, will visit University Park on Friday, April 12, at the invitation of the University's Australia-New Zealand Studies Center, and in cooperation with the program in Air Force Aerospace Studies.

Air Marshal Funnell will deliver a public lecture titled "Australia and the United States in the Evolving Pacific Security Context" at 10:10 a.m. in 105 Chambers Building.

Prior to his present appointment, Air Marshal Funnell served as vice chief of Defense Force. He has held various staff college and exchange positions in the United States and in Britain.

Alumni Association merchandise

The Penn State Alumni Association has

engaged the Penn State Bookstores to be its sole distributor for several items of merchandise that could previously be purchased at the Alumni Office in Old Main at University Park.

These items include the Heinz Warneke Nittany Lion replica, the *Cookin' with the Lion* cookbook and apron, and the pictorial book of Penn State titled *For the Glory, Reflections of Penn State*. They can now be found exclusively in Penn State Bookstores, rather than in Alumni Association offices.

Labor Archives gets records

Officials of Local 14830 of the Communications Workers of America have donated the historical records of their original union to the Labor Archives in the University Libraries. The framed charter and 17-hour minute books and financial ledgers trace the development of International Typographical Union (ITU) Local 86 (Reading, Pa.) from its origin in August, 1885 to 1953. The ITU and its local unions recently merged with the Communications Workers.

Software package wins major award

The instructional software package "Diagnosing Reading Abilities: Case Study Simulations," developed by University faculty and staff members, has received the Outstanding Practice Award of the Division of Instructional Development of the Association for Educational Communications and Technology.

Developed in 1989-90 in cooperation with the University's Computer-Based Education Laboratory (CBEL) - Teaching and Learning Technologies Group, the software package was a group effort by College of Education faculty members **Elaine Yates-Hendrix**, assistant professor of curriculum and instruction, and **Kyle Peek**, assistant professor of adult education and instructional systems; and by **Carol Dwyer**, instructional designer, and **Lorinda Brader**, instructional programmer, CBEL, in the Center for Academic Computing.

The simulation presents student case studies which allow teacher education students to apply the central reading diagnosis theories and principles which are a part of informal reading assessment.

The software product was initiated by the faculty members through the Faculty Technology Initiative Program sponsored by CBEL. It has been published by Intellimation Library for the Macintosh.

Focus on the arts

The arts on Channel 3

"The Sunset Gang," a trilogy focusing on life in a south Florida retirement community, will be presented on *American Playhouse* on consecutive Friday nights — April 5 at 9 p.m. and April 12 at 9 and 10 p.m. on WPSX-TV.

Based on the 1976 anthology of short stories by Warren Adler ("The War of the Roses"), and adapted for television by Ronald Ribman, the trilogy features a cast headed by Harold Gould, Uta Hagen, Tresa Hughes, Anne Meara, Doris Roberts and Jerry Stiller.

She was a shy, sensitive young girl, completely under the thumb of her stern and domineering Victorian parents. She grew into a crusty, formidable but endearing old lady. In between, she became one of the world's best-loved writers of children's stories, peopling her square-shaped little books with a menagerie of imaginative creatures such as Peter Rabbit, Squirrel Nutkin and Mrs. Tittlemouse.

She was Beatrix Potter, whose life, almost as bizarre as her stories, is dramatized in *The Tale of Beatrix Potter*, "encoring on *Masterpiece Theatre* at 1 p.m. Sunday, April 7. The two-hour program is part of "Twentieth Anniversary Favorites" celebrating *Masterpiece Theatre's* 20th year.

Book signings

Wor **Y. F. Bohren**, distinguished professor of geology, will be the featured

Wor at the Penn State Bookstore on campus from noon to 2 p.m. Friday, April 5, when he will sign and discuss his new book *What Light Through Yonder Window Breaks? More Experiments in Atmospheric Physics* (Wiley, 1991).

On Monday, April 8, from noon to 2 p.m., **Eugene N. Borza**, professor of ancient history, will sign and discuss his

most recent book *In the Shadow of Olympus: The Emergence of Macedonia* (Princeton, 1990).

Dr. Bohren's book was selected as one of the "100 Best Products of the Year" by *Curriculum Product News*. It includes fun, easy-to-perform experiments, vividly illustrated.

In tracing the emergence of the Macedonian kingdom from its origins as a Balkan backwater to a major European and Asian power, Dr. Borza offers a revealing account of a relatively unexplored segment of ancient history.

The bookstore is offering a 20-percent discount on the authors' books during the booksigning sessions.

Emigre Voices

Andrei Codrescu, a Romanian emigre poet who is a frequent commentator on National Public Radio's "All Things Considered," will read his poetry as part of the Department of English Emigre Voices Lecture Series at 8 p.m. Saturday, April 6, in 101 Kern Graduate Building at University Park.

Mr. Codrescu also will talk about his recent visit to Romania at 3:30 p.m. in 101 Kern the same day. He is at University Park in conjunction with the Slavic Folk Festival.

Expelled from Romania in 1965 for writing a manifesto, Mr. Codrescu is the author of 15 volumes of poetry and prose, including *Selected Poems*, published in 1983, and two volumes of autobiography, *The Life and Times on an Involuntary Genius* and *Comrade Past and Mister Present*.

The Emigre Voices Lecture Series includes prominent writers from Central and Eastern Europe, who read from their works and discuss the role of writers in their native countries of the Soviet Union, Poland, Czechoslovakia and Germany.

Ithaca Wind Quintet

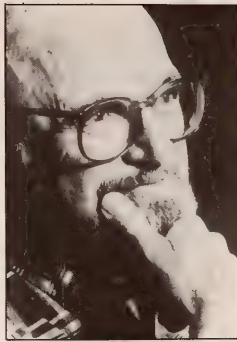

The Ithaca Wind Quintet, the resident faculty woodwind ensemble for the Ithaca College School of Music, will perform at 8 p.m. Monday, April 8, in the School of Music Recital Hall at University Park.

The program will include Allegro and Arioso for Five Wind Instruments by Ingolf Dahl, "Le Tombeau de Couperin" by Maurice Ravel, Suite by Gunther Schuller and Wind Quintet by Verne Reynolds.

Founded in 1963, the Ithaca Quintet is one of the oldest wind quintets in the country.

Brown bag luncheon

Kenneth Varty, Stevenson professor of French at the University of Glasgow, will discuss "Recovering Lost Literature Through Pictorial Evidence," as part of the Comparative Literature brown bag luncheon series at 12:15 p.m. Monday,

Novelist John Barth will speak during the *Borges Revisited* symposium at 1:30 p.m. April 12 in 112 Kern.

April 8, in 101 Kern Building at University Park.

Those interested in attending only the lecture should arrive before 12:45 p.m. Coffee and tea will be provided to accompany a brown bag lunch.

Art history lecture

George Mauner will present a lecture titled "Speculations on, and in, Manet's Olympia" at 8 p.m. Tuesday, April 9, in 112 Walker Building at University Park.

The lecture is part of the "Art of Interpreting" series sponsored by the Department of Art History and the Institute for the Arts and Humanistic Studies.

Dr. Mauner is director of the Institute for the Arts and Humanistic Studies and professor of art history at the University. The lecture is free and open to the public.

German songs

As part of the exhibit of German rock music on display in the Hetzel Union Building, Berlin "Liedermacher" Stephen Krawczyk will sing at 8 p.m. Tuesday,

April 9, in the HUB Formal Gallery. Admission is free.

Mr. Krawczyk gained recognition in East Germany in 1987-88 with his songs of political protest against the bureaucrats of the ruling Socialist Unity Party. Forbidden to perform in public by the government of the former German Democratic Republic, he continued to sing regularly in churches for political opposition groups until expelled in 1988.

Odyssey on WPSU

On "The Spirit of the Gulf," the next episode of "Odyssey Through Literature," Vivian Thomlinson of Cameron University in Oklahoma discusses Kate Chopin's novel, *The Awakening*.

Ms. Thomlinson and host Leonard Rubinstein find parallels in the development of the novel and in the legends of King Arthur, seeing in the novel's heroine, Edna Pontellier, a knight on a chivalric quest.

"Odyssey Through Literature" is produced by the Department of Comparative Literature in the audio-production studios of WPSX-TV. It airs Wednesdays at 12:30 p.m. on WPSU, 91.1 FM.

Flute ensemble

The Penn State Flute Ensemble will perform in concert at 12:10 p.m. Thursday, April 11, in Eisenhower Chapel at University Park. The 20-minute concert is part of the Bach's Lunch Concert Series sponsored by the School of Music and the University Lutheran Parish.

The program will include works by J.J. Quantz, F. Marconi, L. Zanelli, A. Reicha and von Dittersdorf.

Annual concert

The Penn State Philharmonic will present its 16th annual Concerto Competition Concert at 8 p.m. Friday, April 12, in the School of Music Recital Hall at University Park.

Three students were selected as
See Arts on page 8.

Singer William Warfield will perform with the Penn State Symphonic Band at 8 p.m. April 13 in Eisenhower Auditorium.

The arts at

Berks Campus

The Nittany Lion Juried Exhibition VII will open on Friday, April 5, in the Freyberger Gallery. It will run through Thursday, May 2.

Soprano Suzanne Roy and Baritone Richard Davis, of the School of Music, will sing in the Student Center Theatre at 7:30 p.m. Wednesday, April 10. They will present "Wanna Sing A Show Tune," a selection of vocal pieces from the American musical theater.

Penn State-Behrend

The 1927 silent film "Phantom of the Opera" will be shown at 8 p.m. Tuesday, April 9, in Penn State-Behrend's Reed Lecture Hall. The "flicker" will be accompanied by faculty pianists Marjorie Podolsky, senior lecturer of English, and David Stuntz, instructor of music.

The event is sponsored by the Office of Student Services and is free to the public.

University Park Calendar

April 4 —
April 14

Special Events

Thursday, April 4

Bach's Lunch, 12:10 p.m., Eisenhower Chapel.
Penn State Trombone Choir.

President Thomas will address faculty, staff
and students, 4 p.m., Eisenhower Aud.

Friday, April 5

■ Penn State Ukrainian Club/Dept. of Slavic
Languages, lecture, 3 p.m., 101 Kern. Natalie
Kononko Moyle, Univ. of Va., on "Kobzari
and Lirnyky, Performers of Ukrainian Epic."

Geog. Coffee Hour, 3:30 p.m., 319 Walker.
Brent Yarnal on "Sex, Lies and Synoptic
Climatology."

Conference, HUB, "Feminist Politics of
Sexuality: Multicultural Voices." Also April
6.

Saturday, April 6

Eberly College of Science, Science EXPO '91,
10 a.m.-5 p.m.

Shaver's Creek, Bluebird Box Workshop, 1-3
p.m.; Woodcock Walk, 5:30-7:30 p.m. Call
863-2000.

Center for the Performing Arts, 3 and 8 p.m.,
Eisenhower Aud. "Into the Woods."

■ English Emigre Voices Lecture Series, poetry
reading, 8 p.m., 101 Kern. Andrei Codrescu,
Romanian emigre poet.

Sunday, April 7

Shaver's Creek, Nature Guiding Workshop, 10
a.m.-4 p.m. Call 863-2000.

University Awards Convocation, 2 p.m.,
Eisenhower Auditorium.

Carnegie Hall Film Series, 7 p.m., *Rebecca*
(1940), 9:15 p.m., *Performance* (1970), 108
Wartik. Free.

Monday, April 8

Comp. Lit. Luncheon, 12:15 p.m., 101 Kern.
Kenneth Yarrow, Univ. of Glasgow, Scotland,
on "Recovering Lost Literature through
Pictorial Evidence."

School of Music, 8 p.m., Recital Hall. *Ithaca*
College Faculty Wind Quintet.

Tuesday, April 9

■ Peace and Conflict Studies Committee,
brown bag lunch, noon, 313 Kern. Brian
Winston on "The Gulf War: Instantaneity and
the Simulacrum of Information."

■ Education Abroad, 7 p.m., 222 Boucke.
Informational meeting on spring 1992
program in San German, Puerto Rico.

■ German Dept., 8 p.m., HUB Formal Gallery.
Stephen Krawczyk, Berlin "Liedermacher,"
will present songs of political protest.
Art on Interpreting, 8 p.m., 112 Walker.
George Mauner on "Speculations on, and in,
Manet's *Olympia*."

Thursday, April 11

Bach's Lunch, 12:10 p.m., Eisenhower Chapel.
Penn State Flute Ensemble

■ International Lecture Series, 2:30-4 p.m., 222
Boucke. Jill Findes on "Technology
Adoption and the Indian Farm Household."

■ Education Abroad, 7 p.m., 222 Boucke.
Informational program on work abroad
opportunities for students.

Lecture, 8 p.m., HUB Assembly Room.
Barbara Smith, author and co-founder of
Kitchen Table, *Women of Color Press*, on
"In the Life: The Courage of Lesbians and

Stephen Sondheim's musical "Into the Woods" will be performed at 3 and 8 p.m. Saturday, April 6, in Eisenhower Auditorium.

Gay Men of Color."

Friday, April 12

■ Lecture, 10:10 a.m., 105 Chambers. Air
Marshall R.G. Funnell, Royal Australian Air
Force, on "Australia and the U.S. in the
Evolving Pacific Security Context."

■ Spanish, Italian and Portuguese, symposium,
"Borges Revisited," 1:30 p.m., 112 Kern.
John Barth, novelist, on "Borges and I."

Shaver's Creek, Night Hike, 7:30-9 p.m. Call
863-2000.

■ German Dept., 8 p.m., play *HUB Fishowl*.
Romulus der Grosse. Also April 13, 2 p.m.

School of Music, 8 p.m., Recital Hall. Penn
State Philharmonic Concerto Concert.

Saturday, April 13

Shaver's Creek, Pledge-A-Bird, 9-11 a.m. Call
863-2000.

Phi Psi 500, noon-4 p.m.

American Association of University Women,
30th Annual Used Book Sale, 3-9 p.m., HUB
Ballroom. Also April 14-17, 9 a.m.-9 p.m.

School of Music, 8 p.m., Eisenhower Aud.
Penn State Symphonic Band.

Sunday, April 14

Shaver's Creek, Spring Walk, 1:30-3:30 p.m.
Call 863-2000.

School of Music, 4 p.m., Women's Chorus; 8
p.m., Penn State Horn Ensemble, Recital
Hall.

Carnegie Hall Film Series, 7 p.m., *The
Adventures of Sherlock Holmes* (1939); 8:45
p.m., *Time Bandits* (1981), 108 Wartik. Free.

Public Radio

WPSU-FM 91.1

"All Things Considered," Monday-Friday, 5-
6:30 p.m.; Saturday and Sunday, 5-6 p.m.;
Morning Edition, Monday-Friday, 6-8 a.m.;
Weekend Edition, Saturday and Sunday, 11
a.m.-1 p.m. "Odyssey Through Literature,"
12:30 p.m. Wednesdays, with S. Leonard
Rubinstein.

Seminars

Thursday, April 4

Physics Colloquium, 3:30 p.m., SS Osmond

Dr. H.K. Mao, Carnegie Institute of
Washington, on "Metallic Hydrogen."

■ Graduate Program in Ecology, 3:45 p.m., 8
Mueller. Dr. Elizabeth A. Newell, Hobart
and William Smith College, on "Effects of
Treefall Gaps on the Physiology and Growth
of Tree and Shrub Species in a Costa Rican
Rainforest."

Gerontology Center Colloquia, 4-5 p.m., 106
Mitchell. Raymond Coudart, Univ. of
Florida, on "Residential Differences in the
Use of Formal and Informal Sources of
Care."

Friday, April 5

■ Agronomy, 3:35 p.m., 107 Ag Science and
Industries. Drs. Doug Beegle and Dick Fox
on "Penn State Agronomists in the USSR."

Monday, April 8

Entomology, 3:45-4:45 p.m., 204 Patterson.

Dave Teulon on "Biology and Management
of Pear Thrips, *Taenioinsectus* (Uzel).
EPF, 4 p.m., 339 Davey. Dr. Stephen Braham,
Bern ITF, on "Quantum Cosmology, Prickly
Spacetime and Convergent Path Integrals."

Marker Lectures in Mathematical Sciences, 8
p.m., 162 Wildard. Dr. Alain Connes,
College de France, "On the Nature of
Mathematical Reality." Also April 9-11, 4:30
p.m., 117 Osmond Lab.

Tuesday, April 9

Aerospace Engineering Computational Fluid
Dynamics, 2:30-3:20 p.m., 232 Hammond.
D.M. Bushnell, NASA Langley Research
Center, on "Supersonic Aircraft Drag
Reduction."

Chemistry Colloquium, 3:30 p.m., SS Osmond
Marty Anne Fies, Univ. of Texas, Austin, on
"Designed Materials for Photoinduced
Electron Transfer."

Geosciences Colloquium, 3:45 p.m., 112
Walker. Steve Mackwell on "How does the
Mantle Move?"

Graduate Program in Nutrition, 4 p.m., 101
Althouse. Noreg W. Jerome, USAID, on
"Nutrition and Development Programs at
USAID."

Condensed Matter Physics, 4 p.m., 339 Davey.
Dr. Stephen Holloway, Liverpool.

Biology, 4 p.m., 8 Mueller. James Frazer on
"Insect Chemoreceptor Systems: An
Emerging Molecular View."

Wednesday, April 10

Engineering Science and Mechanics, 3:35-4:30
p.m., 315 Hammond. Dr. Andy Ruma,
Cornell, on "Stick Slip, Friction and the
Mechanics of Earthquakes."

Entomology, 14:5-4:45 p.m., 204 Patterson.
John Steffens, Cornell, on "Insect Defense
Mechanisms in the Epidermis of Tomato
and Potato."

Thursday, April 11

Forest Resources, 11:10 a.m., conference room.
Land and Water Resources. Dr. Thomas
McIn, Virginia Tech, on "Strength and
Reliability in Wood Products."

Aerospace Engineering Computational Fluid
Dynamics, 1:25 p.m., 118 Sackett. Dr.
Jaroslav Sabisky, NASA Langley Research
Center, on "A System Approach to Aircraft
Optimization."

Graduate Program in Ecology, 1:45 p.m., 8
Mueller. Doug Cottom on "Habitat
Selection by White-Tailed Deer."

Gerontology Colloquia, 4-5 p.m., 106 Mitchell.
Susan Paul on "Exercise and Bone Mineral
in Older Women."

Mueller Lectures, 8 p.m., 102 Forum. Dr. H.
Rohrer, IBM Research Lab, Zurich, on
"Science, Part of the Future." Also April 12,
11 a.m., SS Osmond. "Science and
Technology on the Molecular Scale."

Friday, April 12

Agronomy, 3:35 p.m., 107 Ag Science and
Industries. Douglas Miller on "GIS as an
Integrative Tool in Rural Systems Science."

Exhibits

Chambers Gallery

An Education Graduate Students exhibition,
through April 26.

HUB Galleries

Art Alley Panels and Cases:

Central Pa. Guild of Craftsmen exhibit,
through April 28.

Formal Gallery

■ Gelb and Harter: *Zur Geschichte der
deutschen Rockmusik*, "Tough and
Tender: The History of German Rock
Music", through April 28.

Kern Gallery

Marlee Erwin, watercolors, "Essentially Ins.",
through May 3.

Public Library

Lending Services Gallery:

Mark A. Dellert, "New Developments,"
through April 21.

East Corridor Gallery

Steven Kondrat, pastels, oils and watercolors,
through April 12.

Zoller Gallery

Milim Lam and Iva Fluegel, MFA candidates
recent work, through April 20.

■ Reflects an international perspective

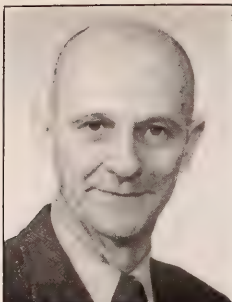

Partings

Peter Babin, a lead distribution maintenance mechanic in the Office of Physical Plant, has retired after 21 years service.

He came to the University in 1969 and worked as a plumber. In 1972, he joined the distribution crew as a lead maintenance mechanic responsible for the maintenance of all campus underground valves, such as steam, gas, water condensation and sewage. He also was responsible for maintaining the building valves and University water wells.

In retirement, Mr. Babin plans to spend time painting his home, repairing fixtures and visiting the Hidden Valley campgrounds.

He and his wife have two children. Their son, Gary, graduated from Penn State in 1976, and their daughter, Denise, currently is attending the University part-time.

Vernon A. Brose

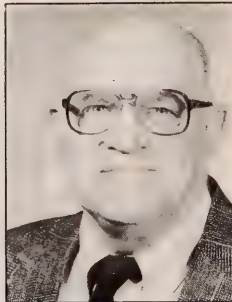

Vernon A. Brose, extension agent in Northumberland County, has retired from the College of Agriculture after 23 years service.

He conducted programs in farm management in Montour, Snyder, Northumberland and Union counties. In 1984, he received the Pennsylvania Agricultural Safety Council's award for outstanding contributions to agricultural safety in the state.

He conducted programs in farm, home and bicycle safety, as well as a program in farm tractor safety for women at Penn State's annual Ag Progress Days. He also organized several farm safety rescue training workshops for ambulance squads and fire companies.

He is a member of the Pennsylvania and National Associations of County Agricultural Agents and Epsilon Sigma Phi, a national honorary extension fraternity.

A native of South Dakota, he earned a

Roger H. Downing

bachelor of science degree in agronomy at South Dakota State University in 1958 and a master of science in agricultural economics at the University of Delaware in 1963.

Roger H. Downing, research associate with the Environmental Resources Research Institute, has retired after 25 years service.

Mr. Downing received his B.S. in agronomy in 1951 and his M.S. in agricultural economics in 1969 from the University.

In 1966 he was appointed research assistant at the Institute and was promoted to research associate in 1989. His special research interests have included property valuation, property taxation, computer simulation, data management and economic and environmental impact assessment.

Part of his work with the Institute was to develop a computer program, Pennsylvania

Assessment Uniformity Program (PAUP), to produce a set of assessment statistics from assessment and sales data collected by the state. This program produces many different statistics that can be used by county property assessors to help determine the common level of assessment, determine the degree of uniformity, and the amount of regressivity in an assessment jurisdiction.

In 1984 Mr. Downing received the Distinguished Research and Development Award for original research in property taxation and assessment techniques from the International Association of Assessing Officers.

Throughout his career he has been a consultant on property valuation and taxation for numerous county commissioners, citizen groups, law firms and private corporations. In retirement, Mr. Downing plans to continue his private consulting work.

Beatrice R. Swift, administrative assistant in the Office of the Senior Vice President for Research and Dean of the Graduate School, has retired after 31 years service.

Ms. Swift began working at the University in 1960 as an executive secretary for the defense contract auditors. In 1970, she became an administrative assistant responsible for the internal grants programs, which include the research initiation grants, Public Health Service Biomedical Research Support Grants and the Pennsylvania Research Corp.

For the last three years, she has worked with the assistant secretary for the Pennsylvania Research Corp.

She earned an associate degree in letters, arts and sciences from the University.

She looks forward to retirement, although she says she enjoyed her years at the University.

Rose Ann Williams, registrar at the Penn State Fayette Campus, has retired after 25 years service.

Prior to joining the campus staff in the Offices of Student Affairs and Academic Affairs, Ms. Williams was employed by the Pennsylvania Department of Transportation and the Laurel Highlands School District. On April 1, 1976, she was promoted to registrar.

A life-long resident of the Uniontown area, Ms. Williams plans to dedicate more of her leisure time to her family.

Deborah A. Schoppe, secretary C at Hazleton Campus, from Jan. 6, 1975, until Feb. 1.

Thomas J. McGlynn Jr., associate professor of medicine at Hershey Medical Center, from June 15, 1974, until Feb. 5.

Esther F. Bauman, residence hall worker, Housing and Food Services, from Jan. 7, 1975, until March 1.

Focus on the arts

Continued from page 6.

winners from among a highly competitive group of Penn State music students.

Hwa Young Kim, a student of Steven Smith, will perform music from Rachmaninoff's Piano Concerto No. 2. Christine Beyer, a student of Eleanor Duncan Armstrong, will play Poeme for Flute and Orchestra by Charles Griffes. Bruce Tyckinski, a student of Mark Lusk, will perform two movements of the David Trombone Concerto.

The philharmonic, under the direction of Dr. Douglas Meyer, also will perform Tchaikovsky's "Romeo and Juliet" and music by Mozart.

Symposium on Borges

The Department of Spanish, Italian and Portuguese will present a symposium titled "Borges Revisited," focusing on the Argentinean writer who visited the University in 1968 and 1974, on April 12 and 13.

Novelist John Barth, professor emeritus in the Writing Seminars at Johns Hopkins University, will present the keynote address titled "Borges and I" at 1:30 p.m. Friday, April 12, in 112 Kern Building at University Park.

Mr. Barth previously was professor of English at the University. He is the author of eight novels, including his most recent *The Last Voyage of Somebody the Sailor* (February 1991).

Organized by Martin Stabb, professor of Spanish, the symposium will feature lectures on Jorge Luis Borges' works. The lectures are free and open to the public. They will be held from 1:30 to 4:45 p.m. in 112 Kern on April 12 and from 8:30 a.m. to 12:30 p.m. at the Atherton Hilton Hotel on April 13.

Comedy to be performed

Students of the German Department will perform the "unhistorical historical comedy" *Romulus der Grosse* by the well-

known Swiss playwright Friedrich Durrenmatt in the HUB Fishbowl at 8 p.m. Friday, April 12, and 2 p.m. Saturday, April 13.

Mr. Durrenmatt, who died last December, wrote this play about the fall of the Roman Empire with a deep concern about the sacrifices of war and the question of heroism itself, but also with a lot of humor and irony towards German culture and education.

The play will be performed by German Department graduate and undergraduate students, and it carries on a long tradition of theater production in the department. *Romulus der Grosse* will be in German. Admission is free.

Symphonic band concert

The Penn State Symphonic Band, with internationally-renowned singer William Warfield, will present its annual spring concert at 8 p.m. Saturday, April 13, in

Eisenhower Auditorium at University Park.

The program will feature Dr. Warfield narrating Aaron Copland's "Lincoln Portrait" and singing "O! Man River."

Dr. Warfield, whose performance of "O! Man River" is legendary, has performed to audiences around the world. Besides his role in "Showboat," he is known for playing the lead role in "Porgy and Bess." He also has made six world tours for the U.S. Department of State, more than any other American solo artist.

After a 25-year entertainment career, he accepted a position at the University of Illinois, where he was chairman of the voice department until his recent retirement.

The program also will include Mark Weaver, senior music major and concert master, playing Concertpiece for Clarinet, Winds and Percussion, a new work by Cumow. The Symphonic Band is directed by Ned C. Deihl.

Private Giving to Penn State

Penn State Harrisburg receives \$2.7 million gift

Penn State Harrisburg has received a \$2.7 million gift — the largest in its history — from the **John Vartan** family of Pittsburgh.

President Thomas said the gift would create an unrestricted endowment at Penn State Harrisburg. The entire sum will be invested permanently, and the interest will be used to support programs and projects as determined by the institution's leadership.

"Penn State is delighted to receive this impressive vote of confidence from the Vartan family, and we are grateful for their generosity," Dr. Thomas said.

"Private gift support such as this is absolutely vital if the University is to meet the expectations of its many constituencies in greater Harrisburg and Southcentral Pennsylvania. We're especially pleased that the Vartan family has provided great flexibility to Penn State Harrisburg with their gift, allowing the income to be used wherever the need is greatest."

John Vartan

An entrepreneur and real estate developer, John Vartan is chairman of

Vartan Enterprises Inc. of Harrisburg.

Dr. Thomas noted that the \$2.7 million gift was the initial part of a \$5 million donation the family hopes to make in the foreseeable future.

Ruth Leventhal, provost and dean of Penn State Harrisburg, said Mr. Vartan has been a key figure in the institution's growth during the 1980s.

In addition to continuous support for many Penn State programs, previous Vartan gifts to Penn State Harrisburg include \$194,000 for the institution's Center for Technology; \$61,000 to the institution's recently completed major gifts campaign; a \$250,000 gift-in-kind to the Penn State Harrisburg Downtown Center; and \$10,000 to the Renaissance scholarship fund in honor of Ralph E. Peters of Camp Hill.

"John Vartan's involvement with Penn State Harrisburg goes well beyond his extremely generous philanthropy," Dr. Leventhal noted. "He has provided leadership, counsel, advice and

enthusiasm, and has helped us develop and realize our vision of how this institution can more fully serve all of Southcentral Pennsylvania."

Mr. Vartan has played leadership roles as a founding member of Penn State Harrisburg's board of advisers, with its fund-raising campaigns and in its alumni society. In 1987, he was named an Alumni Fellow of the University. He also is a member of the Mount Nittany Society, which recognizes the highest level of philanthropy to Penn State.

Of Armenian descent, Mr. Vartan emigrated to the United States in 1968. After earning his bachelor's degree in engineering, he arrived in Harrisburg in 1970, found employment as a civil engineer and, at night, completed work on his master's degree in engineering at Penn State Harrisburg.

He is chairman of the board of Dauphin National Bank and serves on the boards of numerous charitable organizations.

Palmer family funds gallery in museum addition

Members of the Palmer family have pledged \$150,000 for the construction of a gallery devoted to prints and drawings in the new addition to the Palmer Museum of Art.

Chuck Palmer of Boulder, Colo., and his sister, **Janet Palmer Lipcon** of Concord, Mass., with her husband **Eli** and their sons **Jacob** and **James**, have funded the Palmer/Lipcon Gallery in the museum named for their parents, **James R.** and **Barbara R. Palmer** of State College.

This museum and its expansion are very special for my parents," Mrs. Lipcon said. "Our contribution is a way for all of us to say thank you to them for everything they have done for us."

"It's difficult to do something for your parents," Chuck Palmer added. "They've done so much for me, and here's my way of doing something for them and for the community." Both Mrs. Lipcon and Mr. Palmer are graduates of State College Area High School.

Mrs. Lipcon is a graduate of Wellesley College and is an active volunteer in her community, including serving on several search committees for the First Parish Church in Concord and as president of the Parent Teacher Group of the Concord schools. She and her husband, who is vice president of sales and distribution systems marketing for the Digital Equipment Corp., are art collectors, as well.

Mr. Palmer is an independent consulting engineer based in Colorado. He worked in State College at **Locus** and **C-Cor** and at the Applied Research Lab prior to his move west. He earned his bachelor's and master's degrees in electrical engineering from the University of Colorado at Boulder.

The Palmer/Lipcon gift is part of the \$5.4 million raised toward the \$5.6-million addition designed by architect **Charles Moore**. The addition will allow the museum's collection to be permanently displayed for the first time.

Groundbreaking is scheduled for April with an expected opening of the addition in the winter of 1993.

Donor helps students in two colleges

Longtime Penn State benefactor **Marie Underhill Noll** has given \$100,000 for endowments in the colleges of Engineering and Health and Human Development.

Mrs. Noll designated \$50,000 to establish a fellowship for academically promising graduate students in engineering.

The remainder of the gift will endow an undergraduate research program in exercise and sport science. The program aims to expose students to a research environment and stimulate their interest in graduate education and advanced research. Both endowments will be named to honor the donor.

Mrs. Noll of Ithaca, N.Y., is a Cornell University graduate and retired high school teacher. Her husband, **A. Robert Noll**, earned a bachelor's degree in electrical engineering from Penn State in 1929. He was director of patents for IBM Corp. for many years and died in 1968.

Mrs. Noll has continued her husband's interest in Penn State by making numerous gifts for programs in health and human performance and engineering.

Alumnus endows professorship in agriculture

University alumnus **John B. Swayne Jr.** has given \$250,000 to endow a professorship in the College of Agriculture in honor of his father, a pioneer in Pennsylvania's commercial mushroom industry.

The **John B. Swayne Professorship** in Spavin School will strengthen research and teaching programs in mushroom science, especially as related to the needs of the nation's commercial mushroom industry.

Mr. Swayne is the former president of **J.B. Swayne and Son Inc.** of Kennett Square. The company was named for his father, who began growing mushrooms for commercial sale in America in the

1880s, under carnation beds in a greenhouse at his family's home in Kennett Square. Pennsylvania's commercial mushroom industry is now the nation's largest, with annual sales exceeding \$284 million.

As soon as Mr. Swayne graduated with a bachelor's degree in agricultural economics from Penn State in 1934, he joined his father's business and engineered a 25-year expansion of the company and its product — **Quaker State Brands** — into one of the most popular in the country.

He took over full control of the company in 1965 upon his father's retirement, and expanded the business

until it was one of the largest producers of mushroom spawn and had a national distribution network.

In December 1974, Mr. Swayne sold the entire operation to the **Clorox Co.** In 1981, **Clorox** sold all the mushroom houses and the canning plant to **Pia and Sons** and sold the mushroom spawn plant to Mr. Swayne's son **John**, a 1961 Penn State graduate.

Income from the endowment will be used to supplement the salary and the research, graduate assistant and professional travel expenses of the professorship's holder, who must be a full-time or visiting professor in the Department of Plant Pathology.

Penn Staters

Three faculty members, **Harry Alcock**, Evan Pugh professor of chemistry; **Rustum Roy**, Evan Pugh professor of the solid state, and **Robert E. Newnham**, Alcoa professor of solid state science, were invited speakers at the fifth International Conference on the Ultrastructure Processing of Ceramics, Glasses, Composites, Ordered Polymers and Advanced Optical Materials.

Peter J. Behrens, associate professor of psychology at the Penn State Allentown Campus, presented a paper, "The Beginning Point of Knowledge: Charles Peirce's Psychological Studies of Consciousness," at the ninth annual meeting of the European Society for the History of Behavioral and Social Sciences in Weimar, Germany.

Alegria Bendelac, professor of French at the Penn State Schuylkill Campus, gave talks at the Center for Sephardic Studies, Caracas, Venezuela, and at the Central University of Venezuela on the occasion of the publication in Caracas of her

second book on the dialect of the Sephardic communities of Northern Morocco: *Voices jaquetiques*.

N.K. Bose, Singer professor of signal processing, gave a lecture titled "Invariance of Interval System Properties" at the International Workshop on Robust Control in San Antonio, Texas.

Joseph L. Cavinato, associate professor of business logistics, presented the keynote speech, "General Management Challenges and Global Competitiveness," at the annual educational symposium of the Purchasing Management Association of Canada in Vancouver, British Columbia.

Margaret Cote, associate professor of English at the Penn State Allentown Campus, has received four grants for writing projects, including a \$40,000 grant from The National Writing Project and the Lehigh Valley School Districts to establish the Lehigh Valley Writing

Project at the Allentown Campus.

Faisal Fadul, assistant professor of electrical engineering at Penn State Erie, The Behrend College, presented a paper on "Automation of an Industrial Machine Through a Low Cost Stand-Alone Controller" at the International Society for Mini and Microcomputers in Las Vegas.

Taylor A. Greer, assistant professor of music, was awarded a fellowship from the American Council of Learned Societies for the 1991-92 academic year. He will pursue his research project titled "Charles Seeger's Search for the Musical Mind."

Helen A. Guthrie, endowed professor of nutrition, is one of 10 nationally distinguished nutritionists who have been honored with an American Institute of Nutrition Fellowship.

Donald W. Leslie, associate professor of landscape architecture, has received a

certificate of appreciation from the Pennsylvania/Delaware Chapter of the American Society of Landscape Architects for his contribution toward the advancement of the profession.

Gary L. Messing, professor of ceramic science and engineering, was co-organizer and gave an invited presentation at the fourth International Conference on Ceramic Powder Processing Science in Nagoya, Japan. He also gave the plenary lecture at the 12th Ceramic Process Meeting at Shonan Institute of Technology, Fujisawa, Japan, and gave an invited lecture at the Kumagaya Science Park, Tokyo.

Carlo G. Pantano, professor of materials science and engineering, has been awarded a Collaborative Research Grant through the NATO International Scientific Exchange Programme. He will investigate the Surface Catalytic Properties of Silicon-Oxycarbide Gels and Glasses in association with the University of Trento, Italy.

Promotions

Staff Exempt

Quang D. Bui, to research support associate at Hershey.
Daniel Fitzgerald, to research director of Continuing Education at the Penn State Ozone Campus.
Scott K. George, to project assistant in Education.
Steve Greenleaf, to advanced engineering aide in Applied Research Lab.
Jennie S. Hess, to assistant extension agent in Agriculture.
Brian L. Kline, to advanced engineering aide in Applied Research Lab.
Millie J. Landis, to coordinator, graduate administration at Penn State Harrisburg.
Kevin M. Moroney, to lead research programmer in C&S-Center for Academic Computing.
Edward A. Mulfinger, to assistant manager, HUB production in Housing and Food Services.
Robert D. Murawski, to advanced engineering aide in Applied Research Lab.
Naomi E. Nesser, to project associate at the Penn State Fayette Campus.
Amy J. Olenick, to assistant to the assistant vice president, customer service in Office of Physical Plant.
Donna J. Rhine, to supervisor, insurance service at Hershey.
Robert C. Scott, to chief technologist at Hershey.
Malorie H. Sirb, to admissions counselor II at Penn State Harrisburg.
Sharon M. Symanovich, to assistant to

the dean and personnel coordinator in School of Communications.

Ruth E. Wagner, to reimbursement analyst at Hershey.
Lynn T. Weber, to director, development/university relations in Engineering.
Joanna Williams-Dovi, to admissions counselor II, minority recruitment at Penn State Harrisburg.
Andrea R. Willard, to admissions counselor II at Penn State Harrisburg.

Staff Non-Exempt

Fayne M. Abel, to accounting aide in Engineering.
Ramona R. Brinkley, to MOH's technician at Hershey.
Galen R. Corl, to assistant engineering aide in Applied Research Lab.
Thomas A. Hoover, to senior drafter, electromechanical in Applied Research Lab.
Rex A. Sunderland, to drafter/designer, electromechanical in Applied Research Lab.
Margaret A. Weaver, to staff nurse at Hershey.
Connie L. Weirich, to program aide at Hershey.
Lawrence N. Yingling, to drafter/designer, electromechanical in Applied Research Lab.
Anna M. Zimmerman, to staff nurse at Hershey.

Clerical

Kathleen Bender, to clerk typist A at the Penn State Dubois Campus.
Bonita L. Chapman, to secretary B at Hershey.
Tami J. Cox, to secretary B in Eberly College of Science.
Carol Daughenbaugh, to secretary B in University Safety.
Pamela J. Dubbs, to clerk typist A in Research and Graduate School.
Susan L. Dyingser, to secretary B at Hershey.
Peggy Fosnot, to senior clerk at Hershey.
Maryann Gunta, to clerk, service desk in Office of Physical Plant.
Debra L. Huber, to clerk, accounting A in Education.
Bonnie L. Huffman, to secretary B in Eberly College of Science.
Lisa Kobalarek, to secretary C in Eberly College of Science.
Joan L. Lassman, to teller in Corporate Controller's Office.
Diane M. McClellan, to clerk, surgery registrar/coding at Hershey.
Cimberly A. Norris, to accounting clerk in Corporate Controller's Office.
Diane Roan, to secretary A in Liberal Arts.
Donna M. Roseberry, to secretary B in Continuing Education.
Chrystal A. Roiz, to secretary B at the Penn State Mont Alto Campus.
Idilko Schall, to secretary B in Smeal College of Business Administration.
Amy L. Stover, to secretary C in Eberly College of Science.

Janet Trosko, to secretary B at Penn State Harrisburg.
Eileen M. Williams, to secretary B in Office of the President.

Technical Service

Barbara E. Butts, to residence hall utility worker in Housing and Food Services.
Gregory A. Butts, to maintenance worker, steam traps in Office of Physical Plant.
Linda D. Copley, to media attendant at Hershey.
Kathryn L. Green, to central processing aide at Hershey.
D. Hutton-Anderson, to anesthesia technician at Hershey.
Donald B. Jones, to electrician A in Office of Physical Plant.
Douglas A. Keith, to maintenance worker, utility in Office of Physical Plant.
Jean Kirkpatrick, to anesthesia technician group leader at Hershey.
L. Catherine Lucas, to laboratory attendant B in Agriculture.
Leonard McElroy, to maintenance worker, general A at the Penn State New Kensington.
Gary L. Orner, to building maintenance worker in Student Services.
Gary E. Sheesley, to senior instrument process aide at Hershey.
Alvin L. Vincent, to maintenance worker, utility at Penn State Erie, The Behrend College.
John R. Zions, to maintenance worker, general B at the Penn State Hazleton Campus.

Music scene

Dean of Arts and Architecture predicts shortage of organists

The sound of music will soon be silent in many American churches if the critical shortage of organists continues, according to **James C. Moeser**.

"The scarcity of qualified organists threatens the very future of the art," Dr. Moeser, dean of the College of Arts and Architecture, said. "If we, as organ professionals, don't take the initiative, the handwriting is on the wall.

"Because fewer students are interested in the organ, a lot of programs could dry up, making it even tougher to attract new organ students."

As president of the American Guild of Organists and a well-known concert organist, Dr. Moeser has taught organ and has been a consultant to churches in the design of new organs.

He is one of only two organists invited to participate in the Irving F. Gilmore International Keyboard Festival being held April 27 to May 5 in Kalamazoo, Grand Rapids and Battle Creek, Mich. He will play the organ at the First Congregational Church in Battle Creek at 4 p.m. Sunday, April 28.

Dean Moeser links the declining interest in organs partially to the waning role of mainstream churches in American society.

"During the 1950s, the church and church music were important elements in American life. Now attendance is down in mainstream churches, as many have switched to Pentecostal or charismatic churches, which have responded more forcefully to widespread secularization.

"Unfortunately, these churches do not have a classical organ music tradition."

The church organist is no longer a role model for young people, he noted, although the position of organist has historically been prestigious and relatively well-paying.

"Because of television, video games and the quest of quick gratification, we have moved from a participatory to a passive, spectator society. The result is that music is increasingly a spectator art, instead of a participatory art."

Many young people have neither the motivation nor the discipline for piano and organ lessons, and parents are increasingly less willing to prod children into lessons. Furthermore, music education is being eroded in the schools, he said.

"Back-to-basics movements in the schools always regard music as a frill. When school boards cut back, the reductions always are in the arts. Music education in general is weakening all over the country.

"We in the profession realize that it's time to take decisive measures. We believe we can get young people excited about the organ if we work at it."

Last year an American Guild of Organists task force conducted weeklong organ workshops in Pittsburgh, Kansas City and Seattle. The State College chapter had a one-day workshop that attracted 22 students from throughout Central Pennsylvania.

"The problem is not with the organ sound, which is far more powerful than that produced by the synthesizer, regarded by many kids as the instrument of the future. The organ has a far greater color wheel than the synthesizer.

"The organ is a power trip, and kids, in particular, are turned on by power. Playing the organ is like being able to play a whole orchestra," he said.

The organ dates from Roman times, when it was used in the Roman amphitheater because of its huge volume. During the Middle Ages, the organ was widely used in churches because its sound could fill the great spaces of the Gothic cathedrals.

"We have many reasons to hope that the organ will again be an attractive instrument for young people," Dean Moeser said.

— Paul A. Blaum

James C. Moeser is seated at the organ in the Recital Hall of the Music Building at University Park. (Photos by Greg Grieco)

Staff Vacancies

The following vacancies for positions classified as staff exempt or staff nonsenior have been listed with the University Employment Division for filling. The brief statements for each vacancy are illustrative. They are not complete position descriptions. **APPLY BY CALLING THE EMPLOYMENT DIVISION, 863-0304 (NETWORK LINE 433-0304).** Applications for these staff vacancies will be accepted until April 13. **DO NOT CONTACT THE AREA THAT HAS THE VACANCY.** Applications for staff vacancies are considered in accordance with Fair Employment practices (FES-1) and in compliance with the University's Affirmative Action Compliance Program, without regard to race, color, religion, national origin, handicap or age (as provided by law), sex, or status as a disabled or Vietnam era veteran.

***01412. Computer Systems Specialist, Engineering, Electrical and Computer Engineering, University Park Campus**—Responsible to the department head for planning and coordinating the procurement, installation, security, and periodic upgrades of computer systems, networks, and accessories. Oversees the operation and administration of the department's computing facilities. Requires bachelor's degree, or equivalent, in computer engineering or closely related discipline plus two to four years effective experience in the operation and maintenance of computer systems. **STAFF GRADE 7**

***01413. Network Support Specialist, Office of Budget and Resource Analysis, University Park Campus**—Responsible to the associate director for decision support systems for installation and operation of computer network systems, training of support staff as well as hardware and software solutions for the office. Requires bachelor's degree, or equivalent, in computer science plus one

to two years of effective experience. A working knowledge of various software programs to include spreadsheets, word processing and data base software is required. **STAFF GRADE 6**

***01414. Instructional Publications Designer, CES/MLR, Independent Learning, University Park Campus**—Responsible to the assistant director. Instructional Publications, for instructional design activities related to distance education course development. Requires bachelor's degree, or equivalent, with a master's preferred, in a liberal arts discipline and one to two years effective experience in writing, textbook manuscript editing, and instructional design. Knowledge of distance education methodology and pedagogy highly desirable. **STAFF GRADE 5**

***01415. Supervisor, Housing, Housing and Food Services, Hazleton Campus**—Responsible to the manager, Housing and Food Services, for administering and coordinating housekeeping operational functions in assigned residence halls. Requires high school graduate, or equivalent, plus one to two years of effective experience. General knowledge of building maintenance and housekeeping functions desirable. **STAFF GRADE 4**

***01416. Supervisor, Housing, Housing and Food Services, Behrend College**—Responsible to the manager, Housing and Food Services, for administering and coordinating housekeeping operational functions in assigned residence halls. Requires high school graduate, or equivalent, plus one to two years of effective experience. General knowledge of building maintenance and housekeeping functions desirable. **STAFF GRADE 4**

***01417. Coordinator, Intramural and Recreational Programs, Behrend**

College—Responsible to the director of athletics and assistant dean of student services for coordination and supervision of all intramural athletic programs, organizing and supervising student groups in support of such coordinating club sports and general planning, supervision, and implementation of intramural and recreational programs for the college. Requires bachelor's degree, or equivalent, in physical education or recreation with one year of effective experience. **STAFF GRADE 6**

***01419. Area Representative, Continuing Education, Ogees Campus**—Responsible to the director for the development, organization, operation and administration of Continuing Education programs in an assigned Continuing Education service area. Requires bachelor's degree, or equivalent, plus two to three years of effective experience in business, industry or education. **STAFF GRADE 7**

***01420. Drafter, Electro-Mechanical, Applied Research Laboratory, University Park Campus**—Responsible to the supervisor, Design and Drafting, for the accurate performance of a variety of drafting operations on all types of drawings for electronic, electro-mechanical, mechanical, hydraulic and acoustic equipment and devices. Requires associate degree, technical school training, or equivalent, in electro-mechanical drafting plus six to nine months of effective experience. **U.S. citizenship required. STAFF GRADE 3**

***01421. Drafter/Designer, Electro-Mechanical, Applied Research Laboratory, University Park Campus**—Responsible to the supervisor, Design and Drafting, for the accurate performance of a wide variety of drafting operations including layout and design work on all types of drawings for electronic, electro-mechanical, mechanical, hydraulic, and

acoustic equipment and devices. Requires associate degree, technical school training, or equivalent, in electro-mechanical drafting plus two to three years of effective experience. **U.S. citizenship required. STAFF GRADE 5**

***01422. Junior Engineering Aide, Applied Research Laboratory, University Park Campus**—Responsible to the project engineer or designated senior engineering aide for assistance in the fabrication, testing, installation, operation, and maintenance of non-standard electronic or mechanical parts, components, and equipment. Requires associate degree, or equivalent, in electrical or mechanical engineering technology program, and more than three months of effective experience. Position may require travel on field assignments including assignments aboard ships at sea. **U.S. citizenship required. STAFF GRADE 3**

***01423. Engineering Aide, Applied Research Laboratory, University Park Campus**—Responsible to the project engineer or senior engineering aide for the layout, design, fabrication, and construction of standard electronic or mechanical components and equipment. Requires associate degree, or equivalent, plus two to four years of effective experience in the design and fabrication of experimental equipment. Position may require travel on field assignments including assignments aboard ships at sea. **U.S. citizenship required. STAFF GRADE 5**

Hershey

For the following position vacancies, apply directly to The Milton S. Hershey Medical Center. Attach resume with cover letter indicating the position vacancy code and forward to the Department of Human Resources, Hershey, or call the Hershey bid line at

(717) 531-8531 by April 11.

***17346. Data Analysis Assistant, Department of Nursing Center for Nursing Research**—Responsible to the project manager, Robert Wood Johnson Pew Strengthening Hospital Nursing Program, for assistance in the provision of research activities to include data collection, computerized data management and statistical analysis programming. Requires a bachelor's degree or equivalency in mathematics, statistics or related field, with a strong concentration in data management plus one to two years of effective experience. Experience in the use of statistical packages such as Minitab, SYSTAT or SAS and ability to use microcomputers and MS-DOS is required. **STAFF GRADE 5**

***17342. Programmer Analyst, Department of Information Systems**—Responsible to the programming supervisor for the analysis of how data processing can be applied to specific user problems for the design of effective data processing solutions and for the development of effective, efficient and well documented programs. Requires a bachelor's degree in computer science or equivalency plus one to two years of effective experience. **STAFF GRADE 6**

***19095. Nurse Manager, Department of Nursing**—Responsible to the assistant director of nursing for the operation of the pediatric ICU and intermediate care units, including nursing care activities, coordination of patient care service, and maintaining acceptable standards of good patient care on a 24-hour basis. Requires a bachelor of science degree in nursing or equivalency, plus three to four years of effective experience and licensed to practice as a registered nurse by the Pennsylvania State Board of Nursing. Master of science degree in nursing preferred. **STAFF EXEMPT, GRADE 7**

Bookshelf

Gerhard F. Strasser, associate professor of German and comparative literature: Ronald W. Walker, Colorado State University; and Erwin Tschirner and Brigitte Nikolai, both of the University of Iowa have co-

authored *Assoziationen: Deutsch für die Mittelstufe*.

The intermediate-level textbook for use at colleges and universities, published by Random House/McGraw-Hill, is the first new second-year book to reflect the changes in Germany brought about by the dismantling of the Wall and the 1990

unification.

It also is the first textbook to use a wide array of authentic reading materials ranging from magazine and newspaper articles, advertisements, polls, interviews and letters to poetry and excerpts from novels, radio plays and short stories. The readings integrate cultural materials from the two

former Germanies, Austria and Switzerland.

The *Assoziationen* program includes a detailed *Instructor's Manual* (also co-authored by Dr. Strasser), along with a workbook, a package of visual materials and activities for the instructor, a video program with guide book, color slides and the *McGraw-Hill Electronic Language Tutor*.

INTERCOM is published weekly during the academic year and every other week during the summer. It is an internal communications medium published for the faculty and staff of Penn State by the Office of Public Information, Room 312, Old Main, Phone 865-7571.

Economic impact of convocation center is detailed

The proposed Academic/Athletic Convocation and Events Center will have a total statewide economic impact of nearly \$100 million during the first five years of construction and operation, according to a new study by University researchers.

"The three-year construction effort itself will have considerable economic impacts totaling \$78 million, resulting in 1,125 jobs," said **William D. Anderson**, assistant director of the Center for Regional Business Analysis in The Smeal College of Business Administration and a co-director of the study. "That averages out to an economic impact of \$26 million and 375 jobs per year for construction alone."

"These impacts are likely to be felt statewide as contractors, sub-contractors and other suppliers throughout the Commonwealth are involved in constructing the new facility. Outlays for construction will result not only in direct impacts, but they also will have additional stimulative impacts as portions of these outlays are re-spent throughout the state's economy."

Total cost for the Academic/Athletic Convocation and Events Center is expected to range between \$50-\$55 million. The Commonwealth of Pennsylvania has authorized \$33.8 for the facility, with Gov. Robert P. Casey releasing \$16.8 million of that commitment in January.

The University is planning a fund-raising campaign to cover the remaining costs.

The study also examined the post-construction annual economic impact of the facility in the six Central Pennsylvania

Researchers in The Smeal College of Business Administration discuss the results of their economic impact study of the proposed Academic/Athletic Convocation and Events Center with members of the media. The study shows the center will have a total statewide economic impact of nearly \$100 million during the first five years of construction and operation. (Photo: Greg Grieco)

counties of Centre, Blair, Clearfield, Clinton, Huntingdon and Mifflin.

This impact would come not only from athletic events, including men's and women's basketball, other varsity sports, and tournament competitions, but also from exhibitions and conferences, commencements, special events such as world-renowned speakers and family entertainment.

"We constructed two scenarios, one

based upon 81 events per year and one based on 208 events per year when the convocation center is fully operational," Mr. Anderson said.

The "initial" scenario of 81 events annually would have a total economic impact of \$9.1 million, resulting in 191 jobs, he noted. The 81 events would attract about 561,000 attendees per year.

The "full-scale" scenario of 208 events annually would yield \$23.9 million in total

economic impact, resulting in 504 jobs. At this level of use, the facility would attract about 1.25 million attendees annually.

In addition to the Center for Regional Business Analysis, directed by **Rodney A. Erickson**, the study involved the Pennsylvania Economic Modeling and Forecasting Project at University Park and: — the Center for Travel and Tourism Research in the College of Health and Human Development with associate professors of leisure studies **Richard J. Gielson**, **Alan R. Graefe** and **Frank B. Guadagnolo**;

— the Department of Mineral Economics in the College of Earth and Mineral Sciences with **Adam Z. Rose**, professor of mineral economics, and **Shih-Mo-Lin**, research associate.

The researchers used an input-output analysis, a standard procedure that provides insights into economic interdependence, and the IMPLAN Model, one of the pre-eminent sets of regional input-output data developed and maintained by the U.S. Forest Service in conjunction with several other governmental agencies.

"Among our assumptions was that nearly all direct financial outlays for construction - 92 percent - will remain in-state," Anderson noted.

Anderson noted that all on-site construction will be done by in-state firms.

"We expect the construction costs for Penn State's convocation center to mirror the distribution associated with the recently completed Breslin Center at Michigan State University."

See 'Convocation' on page 14.

University Park address

President Thomas spoke to faculty, staff and students in Eisenhower Auditorium at the University Park Campus on Thursday, April 4. The text of the President's remarks is on pages 3-5. (Photo: Greg Grieco)

Week of young child is being celebrated

This year's Week of the Young Child celebration, April 7 to 13, features the theme: "Quality Child Care—good Beginnings Never End."

Noting an increasing awareness of the crucial need for a good child care service delivery system, **Mary Shiffer**, director of child care program services in the Office of Human Resources, said one way to begin to address the issue on the community level is a Child Care Referral Service.

"This type of service," she said, "tries to bridge the gap between the parents seeking care and those who provide it. In State College, the gap will soon be bridged by 'Connections for Kids,' a new and good

See 'Child Care' on page 14.

Focus on Diversity

Women in engineering is focus of conference/reunion

The first woman dean of engineering in the United States and a nationally known historian of engineering and technology are the featured speakers at the College of Engineering alumnae conference/reunion, "Challenges and Achievements: A Celebration of Women in Engineering," April 18-20.

Eleanor Baum, dean of engineering at Cooper Union in New York City, will give the plenary address: "A Portrait of the Woman Engineer," at 1 p.m. Friday, April 18, in the Keller Conference Center Auditorium at University Park.

Dr. Baum has been involved in groundbreaking tasks investigating the failures of student and faculty pipelines to attract a broadly based generation of students and educators into engineering. She is a well-known advocate of increasing the numbers of underrepresented populations in engineering schools.

John Lienhard, M.D., Anderson professor of technology and culture at the University of Houston, will speak on "Women in Male Preserves: Getting There" at 10:15 a.m. Saturday, April 19, in Mineral Science Building Auditorium.

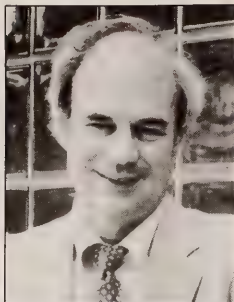

Dr. Lienhard is the creator and host of the popular National Public Radio program "Engines of Ingenuity," a daily, three-minute, program offering glimpses into the history of invention and technology. He also is the recipient of the American Society of Mechanical Engineering Ralph Coats Foe Medal for his contribution to a better public understanding and appreciation of engineering.

The conference/reunion also features seminar sessions on topics such as corporate glass ceilings, women in traditionally male professions, minority women in engineering, managing a demanding career and family, and sexual harassment on the job, facilitated by local and national experts.

Local presenters and their topics include Deborah Klevans, research project associate, Continuing Professional Education; A'ndrea Elyse Messer, science and research information officer; James B.

Eleanor Baum

John Lienhard

Stewart, vice provost and associate professor of labor studies and industrial relations; Louise Sandmeyer, manager, Human Resource Development; Sharon Jadnak Luck, director, Women in Engineering Program; Deb Hamilton, conflict management specialist, Center for Conflict Management; Patricia Johnstone, assistant director, Center for Women Students; Charles Garolan, assistant director, Palmer Museum of Art; John Mathews, professor of electrical engineering, director of the Communications and Space Sciences Laboratory, and director of the Engineering

Artist in Residence Program; Betty Moore, assistant director, Campus Life Assistance Center, and Vasundara Varadan, distinguished alumni professor.

The conference/reunion will close with a banquet Saturday evening in honor of the alumnae who graduated before 1970. A program "Portraits of the Past," will feature reminiscences by female engineering pioneers.

The conference is open to all, but requires registration. For information, questions, call Carol McCart, organizer and engineering alumni coordinator, at 865-9031.

Selection of books

A stall featuring a wide selection of books on women in science, engineering and technology; male and female management styles; career development, and gender communication will run concurrently with the College of Engineering Challenges and Achievements conference/reunion.

Sponsored by the Penn State Bookstore, the stall will be open 7:30 to 9:30 p.m. Thursday, April 18, in Kunkle Lounge (Hammond Building); Friday, Kunkle Lounge, 7:30 to 11:30 a.m., and Keller Conference Center, noon to 5:30 p.m., Saturday, Kunkle Lounge, 8:30 a.m. to 1 p.m.

Applications sought by women's group

Professional Women at Penn State, a grass-roots group whose participants develop and maintain a communications network and serve as a resource for other Penn State women, is seeking applications to replace five of its members whose terms expire in June.

Coordinating Council members interact with women from all areas of the University, providing them with an opportunity to experience an antidote to professional isolation; make new friends and professional contacts; and gain leadership experience, a greater understanding of the University, increased communication skills and self confidence. The council is comprised of 10 volunteers. Individuals from all cultural, educational and racial backgrounds are encouraged to participate on the Council so that it will represent well the diversity of the University.

The deadline for applications is May 10. For more information, contact Barbara K. Kennedy, chair-elect, 228 Pond Laboratory, University Park, telephone 863-4682.

Dick Gregory to speak at NAACP awards banquet

Activist, comedian and nutritionist Dick Gregory, will be the guest speaker at the Penn State NAACP chapter's Fourth Annual Achievement Awards Banquet on Sunday, April 14.

Mr. Gregory, who also is an author, businessman, recording artist, actor, philosopher and anti-drug crusader, will discuss how today's African-American college students can affect tomorrow's society at 5 p.m. at the Days Inn Penn State Hotel, State College.

The theme for the banquet will be "A

Mission to Lead," and its objective is to recognize students for their academic excellence and significant contributions to the Black-American/African-American community, local NAACP officials say.

Mr. Gregory used his talents and success in the entertainment world to bring attention to civil rights movement of the 1960s. He has participated in causes for world peace, against hunger and on the behalf of Native American Indians. Most recently his name has appeared in newspapers nationwide for his community

action approach to stamping out drugs.

Organized in 1909, the National Association for the Advancement of Colored People is an inter-racial, nonpartisan and social action organization. Chartered on July 5, 1987, the Penn State chapter has more than 200 members and has won numerous national honors.

Tickets cost \$10 for student NAACP members and \$15 for non-students. They will be sold in advance at the HUB ground floor desk. Tickets may be obtained by calling (814) 862-0757 or 863-7068.

Diversity Opportunities Calendar

Friday, April 12

Exercise and Sport Science, noon to 1 p.m., 108 White Building, Faculty/staff workshop in African dance with Myncha Munchillo-Bullock; drum music by Don Berinato and Andrew Jackson of the "Earthtones."

Paul Robeson Cultural Center, 8 a.m. to 5 p.m., Robeson Center Gallery. Photographic exhibit: "Women of Courage," through May 8.

Saturday, April 13

Paul Robeson Cultural Center, 8 p.m., Schwab Auditorium. Jazz festival. For information, call Robeson Center, 865-1779.

Wednesday, April 17

Commission for Women, 11 a.m. to 3 p.m., Founders Room, Science and Technology Building, Penn State Mont Alto Campus. (Bus trip to Mont Alto from University Park.) Call Lynn Ryan, 865-

1683.

Women's Studies Program, 8 p.m., Hetzel Union Building Gallery. Hortense Spillers on "In the Flesh: A Situation of Feminist Inquiry."

Thursday, April 18

Black Caucus, 7 p.m., Paul Robeson Cultural Center. Symposium featuring Grace Hampton, vice provost; Cynthia Baldwin, alumni association president; and Cecile Spring, board of Trustees member.

President Thomas' address

One of the greatest teachers that I ever had the privilege of studying under, William Howard Weston, a microbiologist, had a very special greeting that he always gave at every class that he taught; every public appearance that he made. I would like to borrow from him and begin by saying, "My dear colleagues." He began every class with that.

So, my dear colleagues, it is a pleasure and a privilege to stand before you today and to address what has become my favorite subject: The Pennsylvania State University. In the time we have together this afternoon, I want to share with you the goals and values I bring to the Penn State presidency, and to outline the circumstances under which we must work to maintain and advance this University.

First I would like to establish the frame of reference within which I see Penn State University in 1991. This University made great progress during the 1980s. There were expansionist opportunities and Penn State capitalized on those opportunities extraordinarily well under the superb leadership of former President Jordan, with the support of a distinguished and incredibly loyal Board of Trustees.

I am pleased to note, that during the same time frame, I plotted a course at The University of Alabama very similar to the one plotted by Bryce Jordan at Penn State. We focused on academic quality improvement, a strong research thrust, economic development initiatives, and a major capital campaign that doubled its original goal. The University also saw substantial growth during that period.

But success brings problems, and our most serious problem at Penn State is clearly the product of success. We have an enormous space problem, particularly at University Park, but elsewhere as well. Also during the past decade we have experienced a serious decline in the percentage of our support, both capital and operating, that is provided by the state. To offset that decline, Penn State has been forced to increase tuition by an average of approximately 10 percent per year, for the last twenty years. This, despite the fact that our state appropriation has included an increase for Penn State every year since 1977. This year the Governor's proposed budget recommends a small decrease for our University. Thus, the frame of reference for the early 1990s clearly shows a university with a record of substantial progress and momentum, but also one faced with serious fiscal problems that extend statewide and indeed nationally, serious space problems, and serious tuition concern and resistance.

Under different circumstances I would present a different agenda, but despite the looming difficulties, the agenda that I bring to you today is characterized by optimism, is forward looking, and, as I believe, appropriate for Penn State in 1991.

My goals are straightforward. They begin and end with academic quality. Penn State is an academic leader among the world's teaching and research universities. I want it to be even stronger academically when my successor moves into the President's Office in Old Main. Achieving that goal will depend primarily on the members of the faculty. The quality, imagination, and vigor of the administration are of minor significance as compared to the impact of the scholarship of the faculty. It is the job of the administration to create an environment at Penn State that supports the faculty's efforts and lets them know how deeply their contributions to this University are appreciated.

We are, I believe, fortunate to do our work in the setting of a contemporary land-grant university. It is a setting much preferable to the cloistered mission of the frequently elite private universities of this country. As the late Bart Giamatti noted in an essay on "Leadership

and Standards in American Universities," -- and I quote -- "The Harvards, Yales, and Dartmouths of the world are never going to serve a local or state function as much as they ought to; their mission is not the same as the state-supported school."

From my perspective, Giamatti's observation is good news for public higher education. We should celebrate our differences. As we consider Penn State's past and future, it is appropriate that we review some of the products, services, contributions, and related benefits that have come from this place. If we are able to judge a tree by the fruit it bears, I believe I can show anyone that this University has been fruitful beyond belief. Its founding and continued sustenance have proven to be wise investments. This can be shown by considering either the teaching, the extension and public service, or the research components of the splendid resource that surrounds us here at University Park and at our twenty-two other locations across the Commonwealth.

My conversations and meetings with Penn State family and friends suggest that not enough is known or understood about this great University, despite its extraordinary success in recent years.

Undergraduate education

Although there is great concern nationally over the emphasis on undergraduate education, Penn State has demonstrable strength in teaching and concern for quality undergraduate education.

The indicators of undergraduate excellence at Penn State are many and impressive. Vice Provost and Dean for Undergraduate Education Greg Knight advises me that:

"Penn State ranks fifth overall among the more than 3,000 colleges and universities in the nation in terms of graduating baccalaureate students who pursue doctoral degrees.

By discipline, in July 1990, Penn State ranked eleventh nationally in physical sciences; ninth in engineering; fourth in life sciences; ninth in social sciences; second in education; and ninth in the professions.

Another indicator ranks Penn State eighteenth nationally among public and private institutions chosen by National Merit Scholars.

Yet another reveals that last year, forty-three Penn State undergraduate seniors were honored in the National Science Foundation Graduate Fellowship Program.

Our efforts toward improvement of undergraduate education are likewise impressive. Penn State was recently designated as co-director of the National Center on Postsecondary Teaching, Learning, and Assessment. We were a founding member of the Alliance for Undergraduate Education -- an alliance composed of some of the most prestigious research universities in the nation.

Internally, a Task Force on Undergraduate Education, appointed by the Office of Undergraduate Education in consultation with the University Faculty Senate, has been working for several months and I am eagerly awaiting its report which is expected soon.

In addition to these efforts, I am proposing that we give significantly greater attention to the teaching-learning environment at Penn State, with particular attention to the complementarity between teaching and research.

In my commitment to ensuring the place of quality undergraduate education at Penn State, I want to reiterate my strong belief that the research university is the best model in existence for undergraduate education. At its very best, teaching and learning at the frontiers of knowledge open new worlds for students

and faculty. Evan Pugh Professor of Psychology Herschel Leibowitz addressed this topic eloquently before the Penn State Board of Trustees in 1982. He argued persuasively then that research and teaching are not antithetical functions. Rather, they are intimately related and mutually beneficial. Those who have experienced the relationships between teaching and research know what Dr. Leibowitz means when he calls this "mutual interdependence" remarkable.

New initiatives

To give additional encouragement to this thrust, I intend to put in place several new initiatives. Due to present financial constraints, some of these initiatives will have to be implemented in stages, but I intend to move immediately in some areas.

The first initiative will be to upgrade the awards, based primarily on teaching effectiveness, with additional increases in the financial rewards for the faculty members involved receiving University-funded awards.

Second, I plan to establish a small grant program for teaching improvement proposals with particular emphasis on programs that can be readily shared or adapted across departments and disciplines.

Third, a small grant program will be established for research support that will be available only to faculty members who are carrying heavy teaching responsibilities. I am thinking in terms of a minimum teaching responsibility of 3.2. Proceeds from this grant can be used to further a wide range of research activities, but cannot be used to buy time away from teaching.

Fourth, when funds become available, I intend to provide additional resources to encourage and support undergraduate participation in research. We have significant activity in this area at the present time, but it needs to be expanded.

Fifth, we have already initiated a new thrust to give greater encouragement to our undergraduate students in pursuit of Truman, Marshall, and Rhodes scholarships. Penn State has fared very poorly in this arena. I participated in the interviews this year for the finalists in the Truman scholarship program for students from Pennsylvania, New Jersey, and Delaware. There was not one representative from a public university among the finalists. With the initiatives underway, I am confident that we shall see improvement.

As we continue to evaluate our efforts to improve teaching and learning, and as the various centers and task forces help develop our future agenda, we must not only develop a broader and sharper vision of how teaching must change, we must use appropriately new resources and technologies; we must balance appropriately knowledge transmission and knowledge utilization. Most important, we must have the energy and the courage to respond to the agencies and demands for change that our new vision clarifies, and our technologies make possible.

Academic standards

An overriding concern that I have regarding the teaching-learning environment is for standards. As I have stated on numerous occasions, the deterioration of standards in our society over the last two decades has created the most serious problems we face. Unfortunately, academic standards in our universities have been subject to deterioration as well. Faculty will -- and must -- expect more of students. Consider that a 1989 national faculty survey reported:

Continued on next page.

President Thomas' address

Continued from page 3.

* Two-thirds of a sample of university professors felt that students are not well prepared.

* 60 percent said that they are teaching high school material at the college level.

* 55 percent said that students do just enough work to get by; and

* 75 percent said students are less willing to work hard now than they were a decade ago.

Another study completed recently by the American Council on Education suggested that the average university student studies less than sixteen hours a week outside of class. This is precisely the kind of situation I described some months ago in reference to my own experiences in the classroom last year. We must do better: faculty are justified in raising their expectations.

At the same time, it should be noted that student expectations of faculty also are on the rise. Here at Penn State, the Academic Assembly has moved to recognize quality advising, so necessary during the undergraduate experience. Also, the Undergraduate Student Government has expressed keen interest in a published form of teaching evaluation. These are indications that rising expectations and accountability are going to be with us, both faculty of students and students of faculty. We should welcome and encourage this healthy trend.

As we work to improve our undergraduate education programs, it is my hope that we can give additional attention to leadership development. This University has world class programs in areas that are of most serious national concern. These include food, energy, materials, health, environment, and others. But if we are to play a greater role in leadership development it will be essential for us to strengthen our programs and students' experiences in the liberal arts. We do have obvious strength in some areas of the liberal arts but this is an area that clearly needs additional support. Our record in receiving Truman, Marshall, and Rhodes scholarships is further evidence of a need for enhancement in this area.

There is a paucity of effective leadership in our country today for all our institutions: business, government, and academic. If land-grant universities are to assume or earn a greater role in the education of leaders, maintaining their academic complexity becomes of great significance. Meaningful and rigorous experiences in the arts and humanities becomes increasingly important. This is true not only for the added skills in communication and perception and the socializing influences, but more importantly for the broadened base of sensitivity to the range of human values, for a sharpening of the ability to see problems and issues from multiple frames of reference. Of particular importance will be the development of a comprehensive understanding of the historical and contemporary prevalence of ambiguity in all of human affairs. My experience as a university administrator leads me to suggest that tolerance for ambiguity may become one of the prime requisites for leadership responsibility, and we need to help our students understand and master such tolerance.

The liberalization of the mind - that ultimate goal of a liberal education - is so essential in the development of leaders. We can all recall leaders in various fields who showed a remarkable capacity to master realms of data and technical details but who fell short in the capacity to formulate broader perspectives or relevant insights. These leaders often fell short also in the qualities of humility, humanity, and humor - desirable qualities of leaders in any society.

Research is another example of success - probably the most prominent success story at this University over the past decade. Penn State is at the forefront of America's

research universities and its research enterprise is among the fastest growing in the nation. We must do everything necessary to protect that status and to reach ever higher. I am optimistic that we can accomplish this if we approach the task diligently. Federal research funding, even in this difficult fiscal environment, is targeted at areas of strength at Penn State. We must capitalize even more effectively on these opportunities and seek new sources of support for our research. Provost Hoesler and I are committed to doing all that we can to enable Penn State faculty to continue their astounding success in the competition for research funds at the national level. This will be an important assignment, too, for the person who replaces Dr. Hoesler as Provost later this year.

The most obvious and serious obstacle that we face in expanding our research activities is limited space. The last Department of General Services building constructed at University Park for academic purposes was the Walker Building, built in 1974. Our enormous space needs will obviously be a continuing concern for this University for several years, but I do intend to address this problem as vigorously as possible. As an emergency measure I propose to use the bonding capacity of the University along with private fund-raising activities to initiate a few projects immediately. Whenever possible we hope to use funds from bonds and private fund-raising activities to leverage additional dollars both from the state and from other sources.

New academic facilities

In addition to the new classroom building under construction and the addition to the art museum that is in the final stages of planning, in the near future we expect to move forward with three additional academic facilities:

- 1) a new engineering building that will be constructed west of Atherton Street;
- 2) an expansion of the Music Building; and
- 3) a new facility for the College of Health and Human Development.

We also plan to break ground in the fall for facilities in the Research Park to include a technology center, a research laboratory building, and a continuing education facility. Continuing Education is an area of great potential at Penn State. With this new center, along with the new convocation center, Penn State will, for the first time, have facilities that will make possible our hosting major regional, national, and international conferences and conventions.

These new buildings will lead to released space in several other buildings and we are making plans for renovations where necessary for other University units that will be moving into the released space.

Unfortunately, half of the departments on campus could use effectively the space opening up in the Keller Building. But we shall soon make the necessary and difficult decisions to allocate this and other space, knowing that we do not have enough to meet everyone's needs.

I have also made commitments of University resources in an effort to encourage the release of state funds to construct the addition to Pattee Library and to attract new state funds to construct the Robeson Cultural Center as a part of the expansion of the HUB. These commitments were made to provide not only additional leverage for the release of state funds, but also incentive to increase the generation of private dollars.

In the long term, we intend to work with the President's Planning and Budget Advisory Committee in the development of capital project priorities. Throughout this process, the academic needs of the

University will be our first priority, and we will continue to press vigorously and seek leverage for the release of state funding for these critical needs.

Within Penn State's mission of teaching, research, and service, the complexities are, I believe, infinite. Those outside the University community sometimes fail to understand the extent to which we are the place where debate and discussion of major issues must occur. As a former Vice President for Student Affairs, I advised students to seek the reverse of the three monkeys who pledged to speak no evil, see no evil, and hear no evil. Not that we should seek out evil, but students - and for that matter, universities - need to have all the data in debating and understanding issues. We must teach and learn in an environment which encourages both an openness to new ideas and the courage to speak the truth as one sees it. And we do this with an understanding that our ultimate goal is the building of unity and teamwork to support the forward momentum of the University community that we are privileged to serve.

No where is this more important than the area of diversity. Penn State's initiatives here are designed to complement, not compete with, its mission of teaching, research, and service. What we seek here is equity for women and minorities both within the Penn State community and in the larger world. Our commitment is long-term and dedicated to the core values of our nation: those inalienable rights of life, liberty, and the pursuit of happiness. Or stated more simply, the building of a playing field that is truly level in all respects for all participants. Our success - or failure - in this critically important area will have consequences on the quality of life of the next generations.

We must work to succeed not only within the boundaries of our nation, but also in our obviously interdependent world. Toward that end, we need to encourage increased participation in and support for internationalizing Penn State's programs. Ideally, in my view, every Penn State undergraduate would study at least one foreign language in depth and would spend at least one semester living and studying abroad.

Having worked within the current administrative structure for seven months now, I do not see a need for immediate substantial change in this structure. I do anticipate some administrative refinement in the foreseeable future and would expect this to continue as opportunities and needs arise.

The strategic planning and budget and planning programs we are working through university-wide will provide much of the basic data guiding management decisions for the University. The results of these processes, in part, will come together for the current year in late spring and early summer. I have attended every session of the President's Planning and Budget Advisory Committee - a time consuming but educational process for a new president. I can tell you now that we can expect the direction of our efforts here to be along the line of carefully targeted refinements as opposed to major new expansions. Our emphasis in planning and growth will be selective, with the major thrust being an increase in quality rather than size or number. This refinement move does not portend a slowing down. There must continue to be growth and change at Penn State, even if growth in one area requires retraction in another.

Role of CES

I also want to give special attention to the role of the Commonwealth Educational System. In addition to the strategic planning and budgeting process, I have initiated a series of workshops involving primarily the Academic Deans and the Campus Executive Officers. Through

Continued on next page.

President Thomas' address

Continued from page 4.

these and other activities, we must gain a better understanding of the obvious ambiguities in this system and address these ambiguities as we establish the appropriate role for this unique and enormously valuable component of Penn State.

Many of the ambiguities here center around standards — admission standards, retention standards, promotion and tenure standards for faculty, and standards for extended degree programs. We must develop clearer understandings of the role and mission of our various campuses, and of the expectations that we have for the faculty on the campuses.

State appropriations for higher education in Pennsylvania have a long and difficult history. Pennsylvania is near the bottom of the barrel — forty-seventh among the fifty states — in appropriation per full-time equivalent student for public higher education. As a newcomer to Pennsylvania, it is apparent that the General Assembly does not perceive that the people of this state regard public higher education as a high priority or as a wise investment of public funds. We need to work hard to change that perception. Once changed, experience tells me that investment will follow. In the seven months since I have been in Pennsylvania, I have visited with members of the General Assembly and the Governor and his staff more than any other group. I am persuaded that we need to do a better job of articulating the wisdom of investing in Penn State. My early impression is that we have done very well in delivering our message in Harrisburg. This message must be delivered convincingly throughout the Commonwealth in order to have the desired impact in Harrisburg. Delivering this message will be a high priority of my administration. My effort in this area began early and continues as I visit the many locations of Penn State and our various constituencies and support groups. This effort will obviously be a priority assignment for the new Senior Vice President and Dean for the Commonwealth Educational System, but we must all join in both telling Penn State's story and in impressing upon the people of Pennsylvania the need for greater support for public higher education.

Penn State's economic development activities are strong and powerful force in demonstrating the impact that Pennsylvania's premiere public research university has. Our success in this regard University-wide serves us well in these difficult times. The research park under way at University Park will, I believe, confirm Penn State's place as this state's flagship university. The park will act as a magnet for progress. Its primary beneficiaries will be scholars at Penn State, but the economic benefits to all of Pennsylvania and beyond will be enormous. In a period of five to ten years, the vision of the early planners of this activity will be applauded far beyond central Pennsylvania. For the peace of mind of any who might have concerns about this venture, let me reassure you by stating that in the entire phase I construction program, we are not building anything that is not presently a high priority need at University Park.

Another area of the University that is having an increasingly significant impact on the economy and the economic development of the Commonwealth is The

Hershey Medical Center. That Center will soon become the largest employer in Hershey and is poised to become a national leader in both academic and clinical research. Yet The Hershey Medical Center is ranked seventy-fifth out of seventy-five public medical schools in state support. In some classifications it is listed as a private school because it generates essentially its entire budget through tuition, private support, hospital operations, patient revenues, and research grants. This unit is among the greatest assets of this Commonwealth, and we must find a way to generate additional support to allow it to achieve its great potential.

Private support

It is vision and accomplishment rather than just need that attracts both public and private support. And in contrast to our record in state support, Penn State has been enormously successful in private fund-raising in recent years. During the 1980s and primarily associated with The Campaign for Penn State, annual private giving here increased from \$10 million to 562 million, more than a 500 percent increase. The Campaign ranked as one of the five largest of its kind and the University now ranks among the top ten in terms of private gifts received each year.

Even though the Campaign has concluded, we must and we will continue to be very active and very successful in private fund-raising. As I have noted on a number of occasions, University-generated dollars are increasingly important in the release of state dollars for capital projects.

In addition, and most importantly, private giving provides a margin of excellence in academic areas where state funding has not been sufficient. I refer to endowed faculty positions, undergraduate student scholarships, and graduate fellowships, among other things.

It pleases me to note that I recently appointed a new National Development Council of distinguished Penn State alumni and friends to provide critically needed volunteer leadership in this area. Continued major gift fund-raising in all academic areas is vital. I am personally committed to providing continued leadership in this area, which is so important to the University and its future.

The fiscal constraints and global political uncertainties we face at the beginning of this decade will obviously make our work more difficult. It is likely that within some categories we will have to do fewer things better. Yet I am mindful that during a time when colleges and universities nationwide are asked and expected to reduce expenditures, we must be careful to guard against becoming too narrow and losing those qualities that come only with complexity.

Scholars and university administrators will have to summon forth during the 1990s not only a new level of mental energy to find solutions to physical, economic, and social problems that confront us, they will also have to summon forth a new level of discipline.

Eric Hoffer, that marvelous self-educated critic of the establishment, in an article entitled "Beware the Intellectual" stated the following: "It is conceivable that if the exhaustion of raw materials and sources of energy make it imperative for a society to tap the creative energies of its people, it may in doing so tap a new source of social discipline, for the creative individual, no

matter how highly endowed, must be hardworking and disciplined if he (or she) is to accomplish much."

Major obstacles

More important than the work ethic discipline referred to by Hoffer will be the kind of discipline required to overcome two other major obstacles that confront us. First, is that many of the problems we must now deal with are large problems that will require major group efforts and cooperative programs. These will extend beyond traditional groups within academic or non-academic departments, and will involve, increasingly, cooperative programs between divergent groups — interdepartmental, interschool, interuniversity, or international in scope. The aggravations and territorial imperatives that arise from such programs are often as difficult as the problems themselves. There will be a special demand for those scholars and those university administrators who can rise above the frustrations and aggravations that accompany in abundance these large cooperative programs.

Special rewards should be made available to those who can make it work. As a southern politician once said, "There comes a time when you simply have to rise above your principles."

The second obstacle which is interrelated is the complex of all the minor obstacles, filters, and petty bureaucratic entanglements, mostly externally imposed, that scholars and administrators today must overcome. Indeed, I am not nearly so concerned about our ability to find answers to the major questions and puzzles that lie before us as I am of our ability to overcome somehow all of the petty obstacles that sap our physical and mental energy and keep us from doing our daily work. We must maintain our vigilance and increase our efforts at reducing or minimizing these problems, but in the near term there will be a great demand for persons who can maintain a high level of productivity despite the encumbrances. This will require a special kind of person and a special kind of discipline.

I pledge to you my commitment to make every reasonable effort to ease these obstacles internally as we seek ways to refine our administrative structure and to respond to new opportunities and initiatives.

The challenges are before us. The extent to which a particular university achieves greatness will be largely dependent upon the quality of scholarship coming from the university. The crises of the 1990s could well be the opportunities of the nineties. I am told the Japanese word for crisis, *wei-chi*, literally means a dangerous or threatening opportunity. We do indeed face a tremendously dangerous opportunity! Pogo approached this concept from a similar perspective in saying, "We are surrounded by unlimited and insurmountable opportunities."

Shakespeare's Brutus summarized it well in Act IV of *Julius Caesar*: "There is a tide in the affairs of men (and women) which taken at the flood leads on to fortune...on such a full sea we are now afloat, and we must take the current when it serves, or lose our ventures."

I welcome the opportunity to take the current with you.

Thank you.

Focus on the arts

HUB Art Alley

The Central Pennsylvania Guild of Craftsman Annual Member Show is on display until April 28 in the HUB Art Alley Panels and Cases at University Park.

The exhibit includes crafts in various media, including pottery, jewelry, woodcarving, stained glass, quilting, weaving and papermaking.

Pattee exhibit

On exhibit through May 12 in Pattee Library's West Lobby Gallery are works by students in the departments of Architecture and Landscape Architecture.

The exhibition, juried by faculty members in these departments, reflects a variety of student interests and experiences within and beyond their fields of study. It is sponsored by the Arts and Architecture Undergraduate Student Council.

Orchesis Dance Company

The Orchesis Dance Company will perform at 8 p.m. Thursday and Friday, April 11 and 12, and 2:30 and 8 p.m. Saturday, April 13, in the White Hall Dance Theatre at University Park.

Patricia Heigel-Tanner is artistic director of the company which is sponsored by the College of Health and Human Development.

Admission to the performance is \$3 for students and \$4 general admission.

Featured author

The Penn State Bookstore on campus will feature author William Joyce, who will sign and discuss his books of poetry and fiction — *Listen America, You Don't Even Own Your Name* (1989), *For Women Who Moon* (1989), *First Born of an Ass* (1989) and *Recorder of Births and Deaths* (1990) — from noon to 2 p.m. Friday, April 12.

Mr. Joyce is a Penn State journalism graduate. He has worked as a reporter for KDKA-TV News in Pittsburgh and as a magazine freelancer. He earned an MFA in fiction writing from the University of Iowa and has given readings of his work at colleges throughout the United States.

A 20-percent discount will be offered on his books during the booksigning session.

Mozart Jubilee concert

When Wolfgang Amadeus Mozart was commissioned in 1790 to write three works for a mechanical clock organ, he envisioned the richer sound of a true organ. Two centuries later Mozart's vision will become a reality at the Mozart Jubilee at 3 p.m. Sunday, April 14, at St. Paul's United Methodist Church in State College.

The concert, ending the Mozart 200

'Essentially Iris,' a watercolor by Marilee Erwin, is part of an exhibit of her watercolors on display in Kern Gallery through May 3.

series presented by the Center for the Performing Arts, features organists James Moeser and Susan Dickerson. They will be joined by the Pennsylvania Quintet and other local musicians.

Dr. Moeser, a professional musician and dean of the College of Arts and Architecture, opens the program on the organ with the Adagio and Allegro in F Minor, K. 594 and closes with the Fantasia in F Minor, K. 608.

When Mozart worked as the organist at the Salzburg Cathedral, he composed 17 Epistle Sonatas. The sonatas, functioning as interludes between the Epistle and the Gospel at high mass, are quite short. Susan Dickerson, assistant professor of music at Penn State, organ; Joanne Zagst Feldman, violin; Lois Durran, violin; and Leonard Feldman, cello; will perform five of the church sonatas.

The final piece on the program is Mozart's Quintet in E-flat major for Piano, Oboe, Clarinet, Bassoon and Horn, K. 452. The piece will be performed by Pennsylvania Quintet members Barry Kroecker, oboe; Smith Toulson, clarinet; Daryl Durran, bassoon; and Lisa O. Bontrager, horn; joined by internationally known pianist Steven Smith. All are School of Music faculty members.

Center for the Performing Arts Intimate Excursions subscribers are guaranteed seating until 10 minutes before the performance, at which time the public will be admitted free, depending on seating availability. St. Paul's United Methodist Church is at 250 E. College Ave., State College.

Women's choruses

The Penn State Women's Chorus will present its spring concert at 4 p.m. Sunday, April 14, in the School of Music Recital Hall at University Park.

The ensemble will perform a variety of

music written and arranged for women's voices. The Penn State Keynotes, a select 16-voice ensemble, will perform the Cole Porter tunes "Night and Day," "Begin the Beguine" and "You're the Top."

The Penn State Women's Chorus is a 56-voice ensemble directed by Elizabeth Sharp and Russell Bloom.

Horn ensemble

The Penn State Horn Ensemble will perform in concert at 8 p.m. Sunday, April 14, in the School of Music Recital Hall at University Park.

The program will include arrangements of "Elsa's Procession to the Cathedral" by Wagner, excerpts from Verdi's Requiem and excerpts from several Beethoven piano sonatas.

The ensemble, directed by Lisa Bontrager of the School of Music faculty, also will perform on campus in a Bach's Lunch concert at 12:10 p.m. Thursday.

Altoona Campus

A contemporary version of "Spring Awakening," by German playwright Frank Wedekind, will be performed by the Penn State Altoona Campus Theatre Department.

With such characters as Dr. Lemonade, Rev. Baldabell, and Professor Bonebreaker, Flyswatter, and Gutgrinder, Mr. Wedekind kicks at Victorian authority that symbolized a society filled with hypocrisy, misuse of power, and the repression of youth.

The play opens at 8 p.m. Friday, April 12, in the Paul R. and Margery Wolf Kuhn Theatre. The show runs through April 19 with performances at 8 p.m. April 12, 13, 17, 18, and 19, and at 2 p.m.

April 18, in Eisenhower Chapel. The program will include a work by Kerkorian and arrangements of works by Beethoven and Wagner.

Brown bag luncheon

Ying-Ying Chien, assistant professor of comparative literature and women's studies, will speak about "Chinese Feminist Literature" as part of the Comparative Literature brown bag luncheon series at 12:15 p.m. Monday, April 15, in 101 Kern Building at University Park.

Those interested in attending only the lecture should arrive before 12:45 p.m. Coffee and tea will be provided to accompany a brown bag lunch.

The arts on Channel 3

The intriguing story of Catherine Howard, fifth of "The Six Wives of Henry VIII," airs on *Masterpiece Theatre* at 1:30 p.m. Sunday, April 14, as the final program in the sampling of "Twentieth Anniversary Favorites" celebrating two decades of the drama series.

Keith Michell, hailed as "the definitive Henry" when "The Six Wives" first aired in January 1972, stars as the rambunctious king who married six women and then disposed of five (the sixth out-lived him) in his desperate effort to insure his dynasty with a male heir. Angela Pleasence plays the ill-fated Catherine, condemned to death by Henry when she fails to produce his hoped-for son.

Innovation, airing at 7:30 p.m. Tuesday, April 16, looks at kinetic art — art that moves — in "The Artist as Scientist." In this program, the history of technologically based art is explored, from the Dadaist movement to the incorporation of lasers, neon, strobes and computer graphics into contemporary art productions.

See more 'Arts' on page 12.

The arts at

Sunday, April 14. The public is invited, and general admission tickets are \$3.

Schuyllkill Campus

David Barto will bring Henry David Thoreau, philosopher, writer, naturalist and non-conformist, to life Wednesday, April 17, on the stage of the John E. Morgan Auditorium at the Penn State Schuyllkill Campus as part of the Schuyllkill Lecture Series.

During his performance, Mr. Barto will present Thoreau through his ability to answer questions as Thoreau, and to respond in character, using Thoreau quotations, facts and anecdotes that provide insight into the man and his unique philosophies.

University Park Calendar

April 11 -
April 21

Special Events

Thursday, April 11
Bach's Lunch, 12:10 p.m., Eisenhower Chapel.
Penn State Flute Ensemble.

■ **International Lecture Series, 2:30-4 p.m., 222 Bouckie.** Jill Findeis on "Technology Adoption and the Indian Farm Household."
■ **Education Abroad, 7 p.m., 222 Bouckie.**

Informational program on work abroad opportunities for students.

Lecture, 8 p.m., HUB Assembly Room.
Barbara Smith, co-founder of Kitchen Table: Women of Color Press, on "In the Life: The Courage of Lesbians and Gay Men of Color."

Orchestra Dance Company, 8 p.m., White Hall Dance Theatre. Also April 12, 8 p.m.; April 13, 2:30 and 8 p.m.

Friday, April 12

■ **Lecture, 10:10 a.m., 105 Chambers.** R.G. Funnell, Royal Australian Air Force, on "Australia and the U.S. in the Evolving Pacific Security Context."

■ **Seminars, Italian and Portuguese symposium, "Borges Revisited," 1:30-4:45 p.m., 112 Kern.** John Barth, novelist, on "Borges and I," 1:30 p.m.

Shaver's Creek, Night Hike, 7:30-9 p.m. Call 863-2000.

■ **German Dept. play, 8 p.m., HUB Fishbowl.** "Requiescat de Grosse." Also April 13, 2 p.m.

School of Music, 8 p.m., Recital Hall. Penn State Philharmonic Concerto Concert.

Saturday, April 13

Shaver's Creek, Pledge-A-Bird, 9-11 a.m. Call 863-2000.

Phi Psi 500, noon-4 p.m.

American Association of University Women, 30th Annual Used Book Sale, 3-9 p.m., HUB Ballroom. Also April 14-17, 9 a.m.-9 p.m.

School of Music, 8 p.m., Eisenhower Aud. Penn State Symphonic Band.

Sunday, April 14

Shaver's Creek, Spring Walk, 1:30-3:30 p.m. Call 863-2000.

School of Music, 4 p.m., Women's Chorus; 8 p.m., Penn State Horn Ensemble, Recital Hall.

Carnegie Hall Film Series, 7 p.m., The Adventures of Sherlock Holmes (1939); 8:45 p.m., Time Bandits (1981), 108 Warrick. Free.

Monday, April 15

■ **Comp. Lit. Luncheon, 12:15 p.m., 101 Kern.** Ying-ying Chien on "Chinese Feminist Literature."

Wednesday, April 17

Old Main open house, 9 a.m.-4 p.m.

Commission for Women, meeting, 7:15 a.m.-3 p.m., Mont Alto Campus. University community is invited.

Teleconference, "Caring for Older Adults: Turning Research into Practice for the Health Care Professional," 2-3 p.m. Register: 863-7252.

Lesh Lecture, 7:30 p.m., 312 Keller Conference Center. Richard E. Lucier, Johns Hopkins, on "The Genome Data Base: A Tool and Model for Storing, Integrating and Disseminating Scientific Data."

Dancers of the Feld Ballet are shown in CIRCA costumes. The Feld Ballets/NY will perform at 8 p.m. Friday, April 19, in Eisenhower Auditorium.

Six Feminist Scholars Lecture Series "Gender and Representation," 8 p.m., HUB Gallery. Hortense Spillers, Cornell, on "In the Flesh: A Situation for Feminist Inquiry."

School of Music, 8 p.m., Recital Hall. Centre Dimensions, University Jazz Ensemble.

Thursday, April 18

Bach's Lunch, 12:10 p.m., Eisenhower Chapel. Penn State Horn Ensemble.

Friday, April 19

■ **Geog. Coffee Hour, 4 p.m., 319 Walker.** Allan Rogers on "Industrial Restructuring: The Case of the Italian Steel Industry."

Center for the Performing Arts, 8 p.m., Eisenhower Aud. Feld Ballets/NY.

URTC, 8 p.m., Pavilion Theatre, through April 27. "The Children's Hour."

School of Music, 8 p.m., Schwab Aud. Penn State Concert Choir, Chamber Singers, Penn State Philharmonic.

Saturday, April 20

Shaver's Creek, Wildflower Walk, 10 a.m.-noon; Low Impact Lawn Care, 1-3 p.m. Call 863-2000.

Blue-White Football Game, 1 p.m., Beaver Stadium.

Sunday, April 21

Shaver's Creek, The Winged Hunters, 1-2:30 p.m. Call 863-2000.

School of Music, 2 p.m., Schwab Aud. Penn State Singing Lions.

Carnegie Hall Film Series, 7 p.m., The Maltese Falcon (1941); 9 p.m., Local Hero (1983), 108 Warrick. Free.

Conferences

Continuing Education

Keller Building

April 18. Pa. Bar Institute: Taxes Affecting Descendants Estates. Shirley Hendrick, chair; Jeri Milson, coordinator.

April 18-19. Women Business Owners Conference. Shirley Hendrick, chair; Kathy Karchner, coordinator.

Seminars

Thursday, April 11

Forest Resources, 11:10 a.m., conference room. Land and Water Research. Dr. Thomas McLain, Virginia Tech, on "Strength and Reliability in Wood Products."

Aerospace Engineering Computational Fluid Dynamics, 1:25 p.m., 118 Sackett. Dr. Jaroslav Sobieski, NASA Langley Research Center, on "A System Approach to Aircraft Optimization."

Graduate Program in Ecology, 3:45 p.m., 8 Mueller. Doug Cottom on "Habitat Selection by White-Tailed Deer."

Computer Science, 4 p.m., 325 Whitmore. Ray Strong, IBM Almaden Research Center, on "New Latency Bounds for Atomic Broadcasts."

Gerontology Colloquium, 4-5 p.m., 106 Mitchell. Susan Puhl on "Exercise and Bone Mineral in Older Women."

Mueller Lectures, 8 p.m., 102 Forum. Dr. H. Rohrer, IBM Research Lab, Zurich, on "Science, Part of the Future." Also 11 a.m., 55 Osmond, "Science and Technology on the Molecular Scale."

Friday, April 12

Agromony, 3:35 p.m., 107 Ag Science/Industries. Douglas Miller on "GIS as an Integrative Tool in Earth Systems Science."

Monday, April 15

Center on Aging and Health in Rural America, 3:30 p.m., 101 Kern. Dr. Jeffrey A. Alexander, Univ. of Michigan School of Public Health, on "Organizational and Strategic Dilemmas of Rural Hospitals."

Entomology, 3:45 p.m., 204 Patterson. James Slavicek, USDA-ARS.

Tuesday, April 16

Geosciences Colloquium, 3:45 p.m., 112 Walker. RayNae Dreier, Univ. of Tennessee, on "Hydrogeologic Characterization of the DOE Y-12 Plant Area Using Core Borehole

Geophysics and West Bay Multi-Port Measuring Systems."

Condensed Matter Physics, 4 p.m., 339 Davey. Gary Monkey on "The Magnetocatalytic Effect?"

Biology, 4 p.m., 8 Mueller. Ian Baldwin, SUNY Buffalo, on "Nicotine, Nitrogen and Nicotiana: An Examination of the Carbon-Nutrient Theory."

Wednesday, April 17

Engineering Science and Mechanics, 3:35-4:30 p.m., 315 Hammond. Dr. Robert Pangborn on "Protection of Materials for Space Application: Hydrogen Management."

Graduate Program in Ecology Seminar Series, 3:45 p.m., 8 Mueller. Dennis Wenger on "Stream Corridor Width as an Environmental Variable Influencing the Demographics of the White-footed Mouse, *Peromyscus leucopus* (Rodentia)."

Condensed Matter Physics, 4 p.m., 339 Davey. Dr. Scott Renn, Cornell.

Thursday, April 18

Combustion and Propulsion, 9 a.m., 501 Keller. Dr. Julian M. Tishkoff, Air Force Office of Scientific Research, on "AFOSR Supported Research in Turbulent Combustion."

Graduate Program in Ecology Seminar Series, 11 a.m., 105 Ferguson. O. James Reichman, NSF, on "NSF Programs in the Division of Biological Sciences and Resources." Also 3:45 p.m., 8 Mueller, "Concepts of Food Caching Behavior: Analytical Models and Empirical Studies."

Gerontology Center Colloquium, 4-5 p.m., 106 Mitchell. Cheryl Achterberg on "Does Age Make a Difference in Consumer Reaction to Nutrition Education Print Materials: A Cognitive Perspective."

Meteorology Colloquium, 4 p.m., 262 Willard. Joseph Sengmiller, NOAA Geophysical Fluid Dynamics Lab, on "The Use of Nonlinear Viscosities in Geophysical Models."

Computer Science, 4 p.m., 325 Whitmore. Dexter Kozen, Cornell, on "A Completeness Theorem for Kleene Algebra."

History Colloquium, 4 p.m., Memorial Lounge Eisenhower Chapel. Dr. James M. Donovan on "Gender and the Death Penalty in France, 1825-1913."

Mechanical Engineering, 4 p.m., 103 Mech. Engr. Dr. Ferdinand Freudenstein, Columbia, on "Recent Developments in the Design of Mechanisms, Mechanical Components and Systems."

Friday, April 19

Agromony, 3:35 p.m., 107 Ag Science/Industries. John Lemmon on "Evaluating Nitrate Leaching Losses from Non-Manured and Manured Nitrogen Management Systems Using Zero-Tension Lysimeters."

Awards

Two receive equal opportunity award

Catherine Lyons and Deborah F. Atwater, directors of the Center for Minority Graduate Opportunities and Faculty Development, have been named 1991 winners of the University's Equal Opportunity Award.

The award, which consists of a certificate and a \$1,500 check, was presented at the Awards Convocation April 7.

Created in 1988 by the University, the award is designed to recognize a faculty or staff member who promotes the concept of equal opportunity through affirmative action and contributes to enhancing the educational environment of the University through improving cross-cultural understanding.

Established in 1987 as one of the first of its kind in the nation, the Center for Minority Graduate Opportunities and Faculty Development has risen to national prominence under the inspired and dedicated leadership of Drs. Lyons and Atwater.

Dr. Atwater, senior faculty mentor and associate professor of speech communication, has been a member of the Penn State faculty for 18 years.

As senior faculty mentor, she has initiated many activities to meet the special needs of minority faculty members at Penn State. With the help of her advisory board, she has created a series of faculty development workshops offered each semester in small group settings and led by senior faculty mentors. She also has organized "ice-breaker" socials to introduce new

Catherine Lyons

minority faculty to administrators and other people of color faculty members.

Dr. Atwater earned her bachelor of science degree with distinction in secondary education in 1970 and her master's degree in rhetoric and public address in 1972, both from Penn State. She received her doctorate in intercultural communication from State University of New York, Buffalo, in 1979.

Currently, she is president of the Forum on Black Affairs and the Eastern Communication Association.

Dr. Lyons, an affiliate professor of agriculture and extension education, has been a member of the Penn State faculty for nearly three years.

Deborah F. Atwater

She has played a major role in the recruitment, retention and professional development of minority graduate students. She has developed an array of graduate student support activities that includes dissertation seminars, group participation in seminars and support to participate in professional conferences.

Dr. Lyons earned her bachelor's degree in home economics with an emphasis in early childhood education from South Carolina State College, Orangeburg, S.C., in 1970. She received her master's degree in supervision and administration from Bank Street College of Education in 1975 and her doctorate in agriculture and extension education from Penn State in 1988.

Robert Morgan gets adult student award

Robert T. Morgan of State College and formerly of Beech Lake was honored as Penn State's Outstanding Adult Student at the University's Awards Convocation April 7.

Mr. Morgan returned to Penn State after an interruption of 18 years and is pursuing both an undergraduate degree in biology and a graduate degree in the intercollege graduate program in ecology.

The award is given to undergraduate students who began or resumed study after the age of 21 and who serve as role models for other adult students; who demonstrate initiative in overcoming obstacles; who achieve academic excellence; and whose goals reflect the values and ideals of higher education.

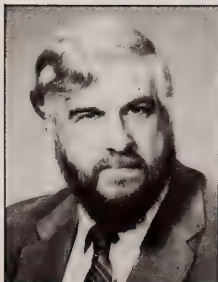

One of his nominators said this award was developed for Bob Morgan. "Bob's history should be an inspiration to anyone thinking about returning to college."

Mr. Morgan withdrew from Penn State at University Park in 1966 after one year of study, then worked in California for a few years. He then became a carpenter in Northeastern Pennsylvania and completed the restoration of an 1830s farmhouse.

Living in the country rekindled his interests in biology and ecology, and in 1985, he, his wife and daughter sold the farmhouse and moved to State College so he could resume his studies and fulfill his goal of graduate school.

Being a student at age 42 with little financial support has not been easy.

"Having to work as a teaching assistant while simultaneously studying for two degrees as well as doing thesis research places a heavy burden on his time. However, he maintains both high grades and excellent relations with faculty and students," writes a former professor.

Robert T. Morgan

Wolgemuth cited for administrative excellence

Carl H. Wolgemuth, associate dean for undergraduate studies in the College of Engineering, is the 1991 recipient of the John E. Wilkinson Award for Administrative Excellence.

The Wilkinson Award was established in 1970 by friends of Mr. Wilkinson, a lifelong Centre County businessman. Now supported by Mr. Wilkinson, the award is presented annually to a member of the Penn State staff whose performance methods and achievement exemplify administrative excellence.

The award, presented at the Awards Convocation April 7, carries a \$500 stipend.

Dr. Wolgemuth was appointed associate dean in the College of Engineering in 1984 after serving for 21 years in the Mechanical Engineering Department.

He joined the University faculty in 1963 as assistant professor of mechanical engineering and was promoted to associate professor in 1966 and professor in 1976. He also has served as acting

Carl H. Wolgemuth

department head of the Department of Mechanical Engineering from 1983 to 1984 and the college's associate dean for administration and planning from 1987 to 1988.

"Dr. Wolgemuth is a caring and people-oriented leader who approaches each new issue and the people involved with understanding and respect," says a University administrator. "He is a thoughtful, objective and honest person who works tirelessly on issues that have potential to directly affect students, and it matters little whether it affects many or only one."

During his years at Penn State, Dr. Wolgemuth has worked to establish the Engineering Cooperative Education Program, which provides students opportunities to alternately work and attend college; the Minority in Engineering Program, which has been successful in helping the college to recruit and retain minority students; and the Women in Engineering Program, which has helped to increase enrollment of women engineering students.

His degrees are a bachelor's in mechanical engineering from Penn State in 1956 and a master's and doctorate in mechanical engineering, both from Ohio State University.

Awards

Dr. Farrell receives Barash Award for Human Services

Patricia Farrell, associate professor of leisure studies in the College of Health and Human Development, is the 1991 recipient of the Barash Award for Human Services.

The award, which consists of a certificate and a \$1,000 stipend, was presented at the University Awards Convocation April 7.

The family of the late Sy Barash created the annual award in 1975. It recognizes a full-time member of the Penn State faculty, staff or student body who has contributed most, apart from regular duties, to human causes, public service activities and organizations or welfare of fellow humans.

Dr. Farrell, a State College native, has worked with a wide range of community organizations. A member of the Centre County Community Foundation's Board of Governors, she

has served as organization president since 1989.

In 1988 she was the regional fundraising chair for the Girl Scouts of America and in 1989 was a member of the steering committee which worked to bring the Pittsburgh Symphony to the Centre Region for its summer home.

She has worked with governmental agencies, including the Pennsylvania Department of Public Welfare, the State College Human Relations Council, Centre Region Parks and Recreation Board, which she chaired for two years, the Pennsylvania Community Education Advisory Council, Comprehensive Employment Training Act Advisory Board for Centre County, University advisory committee to the National Park Service, consultant to the Mifflin County Planning Commission, statewide recreation advisory committee and the

Community-University forum.

Dr. Farrell has served as board president, vice president and chair of the sidewalk art sale and show for the Central Pennsylvania Festival of the Arts and is co-chair of the art in public places committee.

She earned bachelor of science and doctor of education degrees from Penn State and a master of education degree from the University of Minnesota. Prior to joining the University faculty in 1967, she served as assistant director of public recreation in Harrisburg, program director of the Student Union at Northern Illinois University and assistant professor at the University of New Hampshire.

Dr. Farrell served for nearly three years as Penn State's affirmative action officer before rejoining the faculty in 1975.

Patricia Farrell

Dr. Cole is honored with the McKay Donkin Award

Herbert Cole Jr., professor and head of the Department of Plant Pathology in the College of Agriculture, has received the 1991 McKay Donkin Award.

The award recognizes the full-time faculty or staff member or retiree who has contributed the most to the economic, physical, mental or social welfare of the faculty of the University. Established in 1969 in honor of the late McKay Donkin, who served as vice president for finance and treasurer of the University from 1957 to 1968, it consists of a certificate and a \$500 check.

Dr. Cole was named to the University faculty in 1957, after receiving his doctoral degree in plant pathology and biochemistry from Penn State. He became an associate professor in 1962 and a professor in 1969. He was named

department head in September, 1987 after serving as interim head from January, 1986.

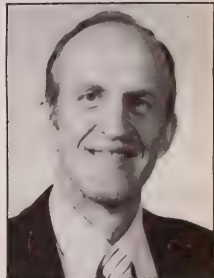

"Dr. Cole has been a key player throughout the history of our Department. As a member from its inception in 1963, Dr. Cole has served as teacher and mentor to graduate students and colleagues, and leader within the faculty. As department head, he functions as a leader from our midst choosing to facilitate our mutual goals and to assist faculty in pathology," writes a colleague.

He has been a member of the University Faculty Senate for many years and during the 1986-87 academic year, he served as its chairman. While serving in the Senate, Dr. Cole has participated in the Senate Rules Committee, chaired the Research and

Academic and Physical Plant committees and served on Senate Council.

Dr. Cole often has represented the faculty on search and selection committees for very important positions within the University community. Notably, he served on the search committees that resulted in the appointments of President Bryce Jordan and Provost William Richardson.

He has provided faculty perspective on a wide variety of other University committees, including the Penn State Press, Advisory Committee for the Institute for Policy Research, Administrative Committee on Research, Ben Franklin Task Force, University Biosafety Committee and the President's committee to develop research awards, including the Faculty Scholar Medals.

Herbert Cole Jr.

Ann Peters wins J. Ira Coble award

Ann Peters, head secretary in the Department of Finance, has received the 1990 J. Ira Coble Memorial Award.

Ms. Peters, a Small College staff member for 17 years, was selected for the honor from nominees named by Penn State county extension offices statewide. The Coble Award, presented at the Pennsylvania Farm Show, recognizes persons for their outstanding contributions to the 4-H program.

A resident of Pennsylvania Furnace, Ms. Peters has been active in 4-H for more than 25 years.

C.R. Rao, holder of the Eberly Family Chair in Statistics and director of the Center for Multivariate Analysis, has received honorary doctor of science degrees from Colorado State University and Adam Mickiewicz University, Poznan, Poland. He also was honored with a special medal from Tadeusz Kotarbinski Pedagogical College, Zielona Gora, Poland.

Colorado State University honored Dr. Rao for his "contributions to such areas of theory and applications as estimation, multivariate analysis, and

characterization of probability distributions."

Adam Mickiewicz University presented him with an honorary doctor of science degree during convocation exercises. Tadeusz Kotarbinski Pedagogical College presented him with a special medal for his "valuable contributions to the development of many branches of mathematical statistics and linear algebra."

During his visit to the college, Dr. Rao gave seminars on "Emerging Technologies of the Third Millennium" and "Quantification of Uncertainty and

Creation of New Knowledge." While in Poland, he also gave a seminar titled "Robust Inference in Linear Models at Pownan's Agricultural Academy."

Dr. Rao considered one of the founders of modern statistics, has played an important role in developing many important theorems and tools. Two of his most famous contributions to mathematical statistics include the Cramer-Rao Inequality and the Rao-Blackwell Theorem, both fundamental results taught in statistical inference courses.

From three institutions Dr. Rao receives honorary degrees and medal

Penn Staters

Robert E. Graves, professor of agricultural engineering, presented a paper on dairy housing in Pennsylvania at the Section IV Meeting of the Commission of International Agricultural Engineering on Energy and Emissions from Agriculture in Hungary. He also presented a poster, "Recycled Newspaper as Livestock Bedding," at the Agricultural Engineering '90 Conference in Berlin, Germany.

Marguerite Graves, lecturer in math at the Penn State Allentown Campus, has been elected president of the Pennsylvania State Mathematics Association of Two-Year Colleges. The Association held its 40th annual meeting recently in Pittsburgh.

John Gutierrez, professor of Spanish, Italian and Portuguese and a specialist in foreign language study, has been invited to serve as consultant to the Spanish government-sponsored program for high school teachers in Madrid, Spain. The program,

commemorating the quinquennial of the discovery of America, will be held in July.

William J. Kraemer, director of research in the Center for Sports Medicine, presented a keynote speech, "Resistance Training: A Training Paradigm to Develop Neural and Hypertrophy Factors in Elite Young Athletes," at the Third Biennial Elite Coaches Seminar in Canberra, Australia. He also was a keynote speaker at the national meeting of the Australian Strength and Conditioning Association.

Gerald Lauchle, professor of acoustics, has received a \$75,000 grant from the Ford Motor Co. for research in automotive heater and air conditioning systems noise control.

James Levin, staff associate for program development and analysis, Division of Undergraduate Studies (DUS), and assistant professor of education, and **John H. Wyckoff**,

assistant director, DUS, have been selected to receive funding from the National Academic Advising Association's Research Support Program for their proposal "Attitudes Towards Mathematics and Their Relations to Persistence and Success in Advising."

Guy E. Rindone, professor emeritus of materials science, presented an invited paper, "Gradient Index Glasses of Macro Dimensions and Large Delta N," at the Fourth International Otto Schott Colloquium at the Friedrich Schiller University in Jena, Germany.

Jiri Tichy, United Technologies professor of acoustics and chairman of the Graduate Program in Acoustics, has received a \$75,000 grant from the Ford Motor Co. for research in active noise control in vehicles. The work is in collaboration with the Applied Acoustics Research Co. of State College.

Bookshelf

John C. McWilliams, assistant professor of American history at the Penn State DuBois Campus, is the author of *The Protectors: Harry J. Anslinger and the Federal Bureau of Narcotics, 1930-1962*, published by the University of Delaware Press.

In his book, Dr. McWilliams explores both the public and private lives of the former head of the Federal Bureau of Narcotics.

"The fact that Anslinger survived more than 30 years as commissioner merits a biography, and its content is as important and relevant to the general public as it is to academics," said Dr. McWilliams, who originally began the book as his doctoral dissertation.

A 1915 graduate of Penn State, Mr. Anslinger enjoyed a 32-year tenure as head of the Narcotics Bureau that was exceeded only by the FBI's J. Edgar Hoover.

In addition to examining Mr. Anslinger's role as the nation's first drug czar, *The Protectors* also looks at peripheral activities not directly related to the enforcement of federal narcotics laws. A fervent anti-communist, the commissioner's drug policies had an impact on foreign policy.

Promotions

Staff Exempt

Sara W. Allerio, to administrative assistant in Office of the President.
Patricia M. Alters, to administrative assistant in Agriculture.
D.E. Auker, to administrative assistant in C&S-Telecommunications.
Kathy F. Bailey, to proposal and accounting assistant in Research and Graduate School.
Scott M. Bitner, to applications programmer/analyst in Corporate Controller's Office.
Hermine M. Boyle, to supervisor, LLRML in Engineering.
Caroline E. Brown, to clinical nurse educator at Hershey.
Terri L. Cravener, to senior research aide in Agriculture.
Linda R. Dean, to administrative head nurse at Hershey.
Patricia A. Ellenberger, to administrative aide in Undergraduate Education.
Thomas Ginechik, to producer-director, program productions in Continuing Education.
Billie G. Hackney, to shift supervisor, bibliographic in University Libraries.
Lois Hampton, to assistant manager, Allotons in Housing and Food Services.
Beth A. Hayes, to administrative aide in C&S-Management Services.
Robert A. Hirlinger, to manager, engineering network in Engineering.
Diana L. Hohman, to systems analyst at Hershey.
Steven R. Kress, to chief designer in

University Press.
Judith Leece, to coordinator, learning support services at the Penn State York Campus.
Ina K. Lubin, to assistant director, continuing education at the Penn State Wilkes-Barre Campus.
Donna J. Neideigh, to supervisor, payroll in Corporate Controller's Office.
Lissa B. Olbeter, to grants and contracts officer at Hershey.
Richard A. Peters, to advanced engineering aide in Applied Research Lab.
Cynthia Reighard, to clinical nurse educator at Hershey.
Nancy G. Runtun, to clinical nurse educator and affiliate clinical instructor in School of Nursing at Hershey.
Karen M. Sampsel, to administrative aide in Academic Services.
Robert A. Smith, to advanced engineering aide in Applied Research Lab.
Bryan L. Sones, to advanced engineering aide in Applied Research Lab.
Gregory E. Swope, to assistant manager, flight and pre-hospital services at Hershey.
June E. Watson, to administrative assistant at Hershey.

Staff Non-Exempt

Nancy J. Cake, to coordinator, billing and quality assurance at Hershey.
Roy F. Hurd, to engineering aide in Applied Research Lab.

Nancy R. Kaufhold, to administrative assistant at the Penn State Delaware County Campus.
Geraldine M. Maurer, to licensed practical nurse/medicines at Hershey.
Sandra W. McBride, to administrative aide in Research and Graduate School.
Elizabeth A. Renik, to respiratory therapist at Hershey.
Neil B. Russler, to assistant engineering aide in Applied Research Lab.
Christopher A. Sills, to assistant engineering aide in Applied Research Lab.
Kathleen M. Simon, to program aide at Hershey.
Joanne L. Weaver, to respiratory therapist at Hershey.
Anne M. Wilkinson, to clinical head nurse at Hershey.
George A. Yesenosky, to respiratory therapist at Hershey.

Clerical

Connie L. Boob, to secretary B in Eberly College of Science.
Margaret R. Bule, to secretary A at the Penn State Osgood Campus.
Debra J. Clemmer, to accounting clerk in Research and Graduate School.
Lorri L. Bryan, to secretary B in Research and Graduate School.
Patti A. Daugherty, to accounting clerk in C&S-Telecommunications.
Shari A. Dillon, to secretary B in Division of Development and University Relations.

Teresa A. Drane, to secretary B at Hershey.
Carole M. Dudis, to medical receptionist in Intercollegiate Athletics.
Denise L. Herr, to clerk typist A in Research and Graduate School.
Teresa A. Homan, to technical secretary C in Applied Research Lab.
Annette L. Keller, to secretary C in Liberal Arts.
Wendy M. Kutchner, to clerk records A at the Penn State Osgood Campus.
Lois J. Rader, to secretary C in Continuing Education.
Eileen S. Rockey, to secretary B in Agriculture.
Lisa J. Sharkey, to accounting clerk in Engineering.
Rebecca L. Sutton, to clerk accounting A in Eberly College of Science.
Jennifer Wellar, to secretary B in Engineering.

Technical Service

John S. Andrus, to power plant worker in Office of Physical Plant.
Timothy S. Bowmaster, to instrument maker C in Eberly College of Science.
Donna G. Campbell, to maintenance worker utility at the Penn State Delaware County Campus.
John W. Hazzard, to stock truck driver in Office of Physical Plant.
Audrey A. Schreckengost, to maintenance worker utility at the Penn State New Kensington Campus.

Honey bees Parasitic mites threaten state honey bee industry

Pennsylvania's honey bees are under attack from a parasite that is wreaking havoc in the state's honey bee industry, according to two University researchers.

"In a survey of Pennsylvania beekeepers and honey bee colonies, we found widespread evidence of tracheal mite infestation," **Edwin G. Rajotte**, assistant professor of entomology, said.

First discovered in the United States in 1984, the tracheal mite has "spread like wildfire," **Maryann Tomasko**, instructor of entomology and research associate, said. The microscopic parasite has caused some beekeepers losses of 50 percent or more of their honey bee colonies in a single winter. Normal losses following winter run about 10 percent, she added.

The mite is a threat to honey production and pollination of crops nationwide, because it debilitates and eventually kills the bees it infests. The value of the crops pollinated by honey bees exceeds \$20 billion nationally.

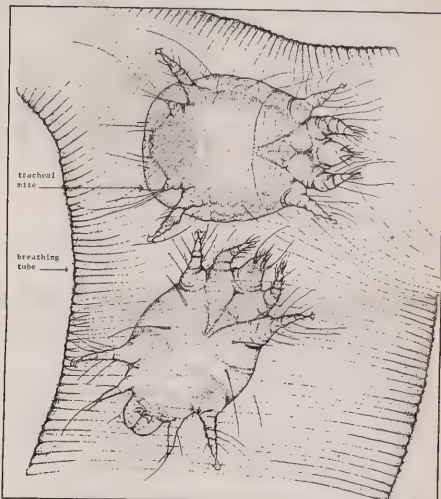

In Pennsylvania, there are approximately 8,000 registered beekeepers and about 75,000 honey bee

colonies, Ms. Tomasko said. The industry produced \$1.4 million worth of honey in 1988, and it also provided pollination services for a wide variety of fruits and crops in Pennsylvania and elsewhere. Approximately 6,000 Pennsylvania honey bee colonies are used for pollination purposes and honey production outside the state, she noted.

To ensure the survival of the state's honey bee industry, the researchers conducted a survey of tracheal mite infestation in 1988-89, with funding from the Pennsylvania Department of Agriculture (PDA).

The tracheal mite is a tiny, insect-like creature similar to a spider. It enters the breathing tubes, or trachea, through holes along the side of the honey bee's body which are used for breathing. It attaches itself to the wall of the breathing tubes and takes nutrients from the bee's blood, Dr. Rajotte explained.

"The mites debilitate bees and, because bees live together in colonies, the mites are able to spread easily through the colony. They are present in

The drawing by Chris Jung shows an enlargement of two tracheal mites inside a breathing tube, or trachea, of a honey bee.

the colony year round, but are most devastating in winter, when no new bees are being produced," he said.

Current methods for detecting the presence of mites are time-consuming. Since the mites spread rapidly, quick diagnosis is essential to save a colony, Ms. Tomasko said.

The researchers are attempting to develop a more efficient method of diagnosing and treating the problem. They have, so far, been able to speed up the detection procedure for the parasite, as well as pinpoint the best time to treat an infestation, Ms. Tomasko said.

They have put their findings into a computerized expert system called "Bee Aware," which now is available from the Department of Entomology by calling 863-0604.

"Bee Aware" explains the researchers' new sequential sampling method, which looks at bees one-by-one, rather than involving a sample of 50 honey bees to determine if a colony is infested.

The sequential method, in combination with a decision-making chart developed by the researchers, enables a faster diagnosis to be made, Ms. Tomasko explained.

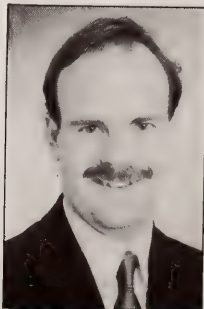

If a diagnosis confirms the presence of tracheal mites, there is only one treatment available: menthol.

When menthol crystals are placed in a honey bee colony, they vaporize, creating a gas that acts as a fumigant. The gas kills the mites. Timing of the menthol treatment also is crucial, since applying it at the wrong time can be ineffective or harm the honey.

The optimum time for applying menthol is in mid-September, Ms. Tomasko said.

The next phase of their research, which also is funded by PDA, will involve incorporating their data and climatic data to create climatic maps of Pennsylvania to aid state beekeepers.

Focus on the arts

Bracken lecture

Author John Brinkerhoff Jackson will present "The Future of the American Landscape" at 8 p.m. Tuesday, April 16, in Schwab Auditorium at University Park.

Mr. Jackson's lecture, last in the Department of Landscape Architecture's 1990-91 Bracken Lecture Series, will address ways in which Americans are using the outdoors for recreation and social interaction and will examine current perceptions of the experience of nature.

Mr. Jackson, widely known as a highly perceptive observer and cultural geographer of American landscapes, is the 1991 Bracken Fellow, an award presented annually by the Landscape Architecture Department to honor a distinguished individual.

A graduate of Harvard University, he has taught at both Harvard and the University of California at Berkeley.

Giovanni Battista Piranesi, an 18th-century artist known for his reconstructions of ancient Rome, is the subject of a lecture by Robert Enggass at 8 p.m. Tuesday, April 16, in 112 Walker Building.

Visiting lecturer

Robert Enggass, Callaway professor of art emeritus at the University of Georgia and former Penn State professor, will present "Piranesi and the 18th-Century Avant-garde" at 8 p.m. Tuesday, April 16, in 112 Walker Building at University Park.

The lecture will focus on Giovanni Battista Piranesi (1720-78), best known for his highly dramatic engravings of Roman ruins and reconstructions of ancient Rome.

A member of the Penn State Department of Art History faculty from 1958-65 and 1966-71, Dr. Enggass is an internationally recognized scholar in Italian Renaissance and Baroque art and architecture.

The lecture is free and open to the public.

Combined concert

The Penn State Trombone Choir and University Brass, directed by Mark Lusk, assistant professor of low brass, will perform Gabriel Faure's Requiem at 8 p.m. Tuesday, April 16, in the School of Music Recital Hall at University Park.

Small groups of musicians will begin playing in the hallways and entrances to the building at 7:30 p.m.

Soloists for the performance will be June Miller, organ; Suzanne Roy, soprano; Richard Davis, baritone; and Lisa Bontrager, horn. All are School of Music faculty members.

Included in the Requiem are readings of "The Story of Leaves" by Donald Hall, "Song of Simeon" by T.S. Eliot, "Death Shall Have no Dominion" by Dylan Thomas and selections from the Book of Revelations. Readers are Brian Winston, dean of the School of Communications, and James Moeser, dean of the College of Arts and Architecture.

Jazz concert

George Gershwin's classic "Rhapsody in Blue" will headline the spring concert of the University's main jazz band, Centre Dimensions, at 8 p.m. Wednesday, April 17, in the School of Music Recital Hall at University Park.

Pianist Timothy Shafer will join the band in the performance of the original Paul Whiteman arrangement of one of Gershwin's most famous works. In the second half of the program, the band will perform several pieces written by members of the group.

Centre Dimensions is directed by Dan Yoder, associate professor of saxophone and director of jazz studies.

Odyssey on WPSU

In 16th-century France, two women poets addressed their poems to "the Ladies of Lyons," establishing a relationship between poet and writer that was "so intimate and mysterious that you have to call it communion," says Christine Clark-Evans on the next episode of "Odyssey Through Literature."

Poets Louise Labe and Pernet Du Guillet wrote poems for other women who then became "the companion to that text, read that text, and, as the Renaissance view of influence is expressed, 'digested' that text, and then wrote another one." The result, says Dr. Clark-Evans, was a precursor of modern feminist intertextuality: a circle of women poets and readers who guided each other to greater and greater achievements through exchanging what they had written.

"Odyssey Through Literature" is produced by the Department of Comparative Literature in the audio-production studios of WPSU-TV. It airs Wednesdays at 12:30 p.m. on WPSU, 91.1 FM.

Mozart's Requiem

To celebrate the 200th anniversary of Mozart's death, the Penn State Concert Choir will perform one of his greatest masterpieces, the Requiem, at 8 p.m. Friday, April 19, in Schwab Auditorium at University Park.

The 72-voice Concert Choir and four student soloists will be joined by members of the Penn State Philharmonic.

Soloists for the Requiem are soprano Juliette Leon, senior voice major; mezzo-soprano Lisa Itkin, graduate music education major; tenor Alex Hill, graduate conducting major; and bass Thomas Serene, senior economics major.

Also on the program will be selections from the Concert Choir and Chamber Singers' spring Canadian tour repertoire. The Concert Choir and Chamber Singers are directed by Douglas Miller and Alex Hill.

Tickets for the concert are available from the Eisenhower Ticket Center and at the door the evening of the performance. Adult tickets are \$5 and student tickets \$3.

'The Children's Hour'

The University Resident Theatre Company's production of Lillian Hellman's classic "The Children's Hour" opens at 8 p.m. April 19 and will run through April 27 in the Pavilion Theatre at University Park.

In "The Children's Hour," the quiet of a small boarding school is shattered when a spoiled young girl starts at nothing to get her own way. Using sharp-edged lies and innuendos, she unleashes hidden fear and tension. Deceit and rumors grow to frightening stature, threatening to ruin the lives of the two headmistresses of the school.

URTC's production of "The Children's Hour" is directed by Manuel Duque.

Matinee performances will be at 2 p.m. April 20 and 27. Student previews are 8 p.m. April 17 and 18.

Due to its subject matter, the play is suggested for mature audiences only. For ticket information, call (814) 863-0255.

Feld Ballets/NY

Eliot Feld, noted by many critics as one of the 20th century's finest choreographers, brings his 20-member Feld Ballets/NY to University Park's Eisenhower Auditorium at 8 p.m. Friday, April 19.

The ballet, presented by the Center for the Performing Arts, will showcase Mr. Feld's imaginative range and renowned knowledge of music. The evening will include the first performance of Feld's "Common Ground" since its recent New York premiere.

Founded in 1974, Feld Ballets/NY (until last year known as The Feld Ballet) is famous for blending classical ballet with modern and folk steps to create highly original stage inventions.

The Eisenhower performance is scheduled to include four Feld-choreographed dances. "Ah Scarlati," created last year, opens the staging with 16 dancers moving in an ornately neo-roccoco motif to eight keyboard sonatas by Domenico Scarlati.

University choir

The Penn State University Choir will present its spring concert at 8 p.m. Saturday, April 20, at Grace Lutheran Church in State College.

The program will include double-choir works by Jakob Handl, Schutz and Gabriel and selections by Mozart, Clausen and Ramirez. The group also will sing arrangements of sacred and American folk melodies.

The University Choir is conducted by Daniel Dauner, assistant professor of music education, with assistant conductor Russell Shelley.

Philadelphia Orchestra

The acclaimed Philadelphia Orchestra, conducted by Yuri Temirkanov, will appear in concert at 8 p.m. Friday, April 26, in Eisenhower Auditorium at University Park.

The evening's program, presented by the Center for the Performing Arts, will feature Borodin's Overture to Prince Igor, Tchaikovsky's Serenade in C major for String Orchestra, Op. 48, and Sibelius' Symphony No. 2 in D major, Op. 43.

Often cited as one of the country's finest orchestras, the Philadelphia Orchestra has been in the musical vanguard for more than 70 years.

As part of the free lecture series Artistic Viewpoints, Doug Meyer, associate professor of music, will discuss the evening's program at 7 p.m. in the Greenroom of Eisenhower Auditorium prior to the performance.

Faculty member seeks books for state prison library

A donation of more than 300 books to a state prison has been named the "Penn State Collection" in honor of the University's contribution to the educational needs of the inmate population.

Ted L. Alleman, instructor of sociology and administration of justice, delivered the books to the State Correctional Institution at Greensburg last summer and is seeking more books to add to the collection.

The books, half dealing with social and ethnic minority issues and the remainder covering social sciences and humanities topics, were donated to Mr. Alleman by Helen Hacker, a retired sociology professor from New York City who had learned about Mr. Alleman's work in educating inmates through a newspaper article.

"This was a genuine act of kindness," Mr. Alleman said.

F. Daniel McGregor, director of education at the State Correctional Institution at Greensburg, said the books have enabled the institution to establish a college reference section in its library. The institution offers associate degree programs in business and liberal arts in cooperation with Westmoreland County Community College.

"Our library budget is tight," Mr. McGregor said. "State budget constraints have impacted on the library." The "Penn State Collection" is having a positive affect on the institution, he added. More books are welcome, since the institution is expanding.

Mr. Alleman is collecting books for donation to the State Correctional Institution at Greensburg. The institution is most interested in college-level texts in business, liberal arts and the social sciences and also will take other types of books.

Mr. McGregor pointed out that all donations of books must be approved by Superintendent Fredric A. Rosemeyer. The books are then screened before being placed in the library.

To donate books, drop them off in Room 918 Oswald Tower at University Park weekdays from 8 a.m. to 5 p.m. from now until the end of Spring Semester. Mr. Alleman will deliver the books to the institution this summer.

Lecture scheduled

Barbara Smith, writer, teacher, activist and co-founder of Kitchen Table: Women of Color Press, will discuss "In The Life: The Courage of Lesbians and Gay Men of Color," at 8 p.m. Thursday, April 11, in the HUB Assembly Room at University Park.

A founding member of the Black feminist Combahee River Collective, Ms. Smith is co-author of *All the Women Are White, All the Blacks Are Men, But Some of Us Are Brave*, which won the Outstanding Women of Color Award for feminist literature from the National Institute for Women of Color in 1982.

Bookshelf

Alan A. Block, professor of administration of justice, is author of *Perspectives on Organizing Crime*, published by Kluwer Academic Publishers.

Subtitled "Essays in Opposition," his work critiques historical, sociological and empirical errors made in traditional accounts of organized crime. Among the topics are European drug traffickers working not only in Europe, but also in Asia and the Middle East in the period between the two World Wars; the consequences of organized crime's influence on environmentally hazardous waste disposal, and political assassinations as examples of state-sponsored organized crime.

Other chapters concentrate on ambiguities in organized crime control such as the protection of organized crime's off-shore financial interests by the U.S. Internal Revenue Service and the contradictions in America's war on drugs.

Daniel Walden, professor of American studies, is editor of the fall 1990 volume of *Studies in American Jewish Literature*, published by Kent State University Press.

Subtitled "American Jewish Poets: The Roots and the Stems," it includes a section on the poems of Roald Hoffmann and an essay on Milton Kessler, both of whom have read their poetry at Penn State.

The section on Dr. Hoffmann includes an essay by **John Haag**, associate professor of English, and one by **Emily Grosholz**, associate professor of philosophy.

Dr. Hoffmann is a Nobel Prize-winning chemist and author of two books of poetry, *The Metanist State* (1987) and *Gaps and Verges* (1990). He earned a doctorate in chemical physics from Harvard University, and in 1981 he shared the Nobel Prize in Chemistry with Kenichi Fukui of Japan.

Mr. Kessler has taught poetry in Hawaii, Japan, Belgium and England, and was on the faculty of Haifa and Beerseba universities in Israel. He has published five collections of poems including *Sailing Too Far* and *The Grand Concourse*.

Old Main open house

The Lion Ambassadors will host the 1991 Old Main open house from 9 a.m. to 4 p.m. Wednesday, April 17.

The open house offers an opportunity for faculty staff students and the State College community to tour the University's oldest administration building.

Tour guests will be led through Old Main from the bottom to the top and will learn about the functions of several offices including the Office of the

President, the Alumni Association and the Office of University Development.

Participants will be able to view the land grant frescoes painted by Henry Varman Poor and the "Lemon" slide show illustrating the University's more traditional past. A highlight of the tour will be a chance to see University Park Campus and the Nittany Valley from the Old Main Bell Tower, weather permitting. The Bell Tower is only open to the public a few times a year.

Aging issues to be teleconference topic

Issues related to aging will be the topic of an upcoming teleconference, "Caring for Older Adults: Turning Research into Practice for the Health Care Professional," sponsored by the College of Health and Human Development at 2 p.m. Wednesday, April 17.

Speakers include Health and Human Development faculty members who conduct research in four key areas: the quality of long-term care; foot problems experienced by diabetics; hearing impairments in older adults; and the evaluation of services and programs for the elderly.

Participating researchers are:
— **Michael A. Smyer**, professor of human development and associate dean for research and graduate studies. He studies the quality of health-related interventions, particularly long-term care for older adults.

— **Peter Cavanagh**, professor of locomotion studies and director of the Center for Locomotion Studies. He is co-director of the Diabetic Foot Clinic, a research and treatment facility for diabetics

who have foot complications.

— **Thomas A. Frank**, professor of audiology, whose research focuses on hearing loss, particularly in the elderly.

— **Daniel J. Lago**, assistant director for outreach and Commonwealth affairs for the Gerontology Center. He specializes in evaluating services and programs for the elderly.

The teleconference will feature two presentations followed by a panel discussion, with opportunities for viewers to call in questions for the panel members. **Sara Parks**, associate dean for the Commonwealth Educational System in the College of Health and Human Development, will moderate the panel discussion.

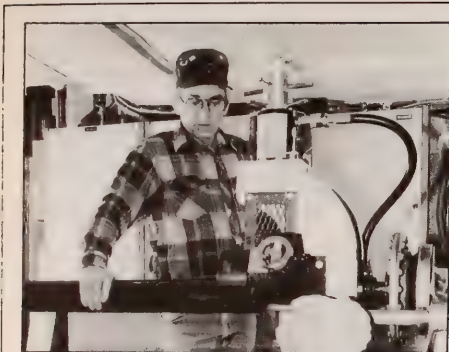

The teleconference is free. In Pennsylvania, many of the University's Commonwealth Campuses will serve as down-link sites.

To register and to obtain satellite down-link information, contact **Ginny Adams**, coordinator of the teleconference, at (814) 863-7252.

Combustion Laboratory

Alan Scaroni, right, director of the Combustion Laboratory, explains a research project that would create a safer and cheaper way to dispose of sewage sludge to U.S. Sen. **Arlen Specter** during a tour of the lab in the Academic Activities Building at University Park. Sen. Specter announced he would use his position on the Senate Appropriations Committee to secure \$1.3 million in funding for the project. (Photo: Greg Grieco)

Penn State People

Willard Rearick

A member of the Office of Physical Plant staff for 19 years, Willard Rearick has spent the last two years as a plumbing fitter, grade 3. He was photographed in Pattee Library, where he and his partner, Dave Walker, are running new water lines for an air conditioning system. A resident of Sky Top, he has served as a janitor and maintenance worker at the University. His biggest satisfaction is surveying his work when the job has been completed. (Photo: Greg Grieco)

Convocation

Continued from page 1.

After construction, the ongoing operation of the new facility will positively influence the Central Pennsylvania economy in two ways, according to Dr. Erickson.

"First, it will keep local residents and their expenditures here in the region," he said. "For instance, University Park students with a permanent residence outside of the region may choose to stay here for a center-related activity on the weekend rather than going home.

"Second, the center will attract outside

visitors and their entertainment dollars from outside of Central Pennsylvania."

That economic impact would come from such activities as increased restaurant and night club business, hotel and motel lodging, retail shopping, automobile-related expenditures and support activities such as the printing of tickets and the packaging of concessions.

"Clearly, Penn State's proposed Academic/Athletic Convocation and Events Center has the potential to provide considerable benefits to the Central Pennsylvania region and to the state as a whole," Dr. Erickson added.

Child Care

Continued from page 1.

beginning for both the University and the community."

According to Ms. Shiffer, the core component of "Connections for Kids," will be a call-in service for parents where specially trained people have information about all legally operated child care services in the area. They will provide a listing of child care options and information on how best to choose among them.

"Working together with organizations that do child care referrals, the University

Lesh Lecture

The University Libraries' 1991 Lesh Lecture will be held at 7:30 p.m. Wednesday, April 17, in 312 Keller Conference Center at University Park.

Richard E. Lucier, director of the Laboratory of Applied Research and Academic Information of the William H. Welch Medical Library at Johns Hopkins University, will discuss "The Genome Data Base: A Tool and Model for Storing, Integrating, and Disseminating Scientific Data." The Genome Data Base consists of mapping data crucial to the work of the Human Genome Project which is an international biological science initiative.

The Lesh Lecture is made possible through the private support of Dorothy Lesh.

For further information, contact Salvatore Meringolo, University Libraries, ES05 Pattee Library, University Park.

Faculty/Staff Alert

Health coverage

"Faculty and staff members with children are reminded that dependent children are covered under the University's health insurance program until the age of 19, unless they are full-time students. Those who are full-time students continue to be covered until age 23.

Therefore, it may be desirable to seek other health insurance coverage in advance for dependent children approaching age 19 or 23, as applicable.

The University does offer the opportunity to continue the hospital/surgical/major medical plan or Healthpass when a dependent child reaches age 23 or is no longer a full-time student. An individual also may elect to convert the group plan to an individual policy through the University's insurance carrier. If continuation of coverage is desired, information and application forms may be obtained from the Employee Benefits Division, 205 Rider Building (865-1473).

Obituary

Philip L. Conaway, stockroom clerk, Applied Research Laboratory, from July 25, 1951, until his retirement June 9, 1984, died March 3. He was 61.

News in Brief

Media Fair

The Division of Media and Learning Resources is sponsoring the Fourth Annual Media Fair Thursday, April 11, from 10 a.m. to 3 p.m. in the Hetzel Union Building Ballroom at University Park.

Media Fair '91, an exposition of exhibits and demonstrations of instructional media for efficient, effective teaching, goes beyond movie projectors and overhead transparencies to show University faculty and staff the powerful options available through University departments and commercial vendors.

Seminar on rural hospitals

Jeffrey A. Alexander, associate professor of health services management and policy, University of Michigan School of Public Health, will discuss

"Organizational and Strategic Dilemmas of Rural Hospitals" at 3:30 p.m. Monday, April 15, in 101 Kern Building at University Park. The seminar is sponsored by the Center on Aging and Health in Rural America.

Brown bag luncheon

Thomas S. Magner, former associate dean and professor emeritus of research in the College of the Liberal Arts and member of the Yugoslavia Academy of Sciences, will discuss "Yugoslavia: Will it Last?" at noon Wednesday, April 17, in Room 124 Sparks Building at University Park. The lecture is a Slavic Center Brown Bag Luncheon Seminar.

Fulbright Scholar reception

The University Office of International Programs invites all former Fulbright Scholars to the annual Fulbright Scholar Reception from 3:30 to 5 p.m. Thursday, April 18, in 222 Boucke Building, University Park. Call 865-7681 if you cannot attend.

Round Table on Law and Semiotics

The Fifth International Round Table on Law and Semiotics will be held April 18-21 at the Sheraton-Berkshire in Reading, Pa.

General topic for the round table, sponsored by the Center for Semiotic Research in Law, Government, Economics, is "Law and the Human Sciences."

History colloquium

James M. Donovan, assistant professor of history at the Penn State Mont Alto Campus, will discuss "Gender and the Death Penalty in France, 1825-1913" at 4 p.m. Thursday, April 18, in the Memorial Lounge of Eisenhower Chapel at University Park. The colloquium is sponsored by the Department of History.

Visiting scholar to speak

Ruben Schindler, professor and former dean of the School of Social Work at Bar-Ilan University in Israel will discuss "Integrating Ethiopian Jews into Israeli Society: Economic, Racial, Cultural and Religious Challenges" at 3:45 p.m. Monday, April 22, in the Eisenhower Chapel Memorial Lounge at University Park.

His visit is being hosted by the Social Work Program and the Department of Sociology, with co-sponsorship by the University Office of International Programs, the Black Studies Program, the departments of History, Philosophy and Religious Studies, and Penn State Hillel.

Partings

Robert L. Kabel, professor of chemical engineering, has retired after 27 years service.

Dr. Kabel joined the Chemical Engineering faculty in 1963. Previously, he was a bioastronautics program officer for the U.S. Air Force Space Systems Division, Los Angeles.

A chemical engineering graduate of the University of Illinois, Dr. Kabel earned his Ph.D. in 1961 at the University of Washington. While earning his degrees and since coming to Penn State, his summers were filled with work as a research and design engineer for Exxon, Chevron, Sun Oil, and Conoco.

Dr. Kabel was the recipient of five fellowships during his Penn State career: NASA-ASEE, Fluid physics, Stanford University; the Royal Norwegian Council for Scientific and Industrial Research; Technical University of Norway; NATO Advanced Study Institute, Belgium; AICHE and Erskine Fellowship, University of Canterbury, New Zealand.

A recipient of the U.S. Air Force Commendation Medal for Meritorious Achievement in 1963, Dr. Kabel also was awarded the College of Engineering Outstanding Teaching Award, the Amoco Foundation Outstanding Teaching Award, the Western Electric Fund Award for Excellence in Instruction, the CMA National Catalyst Award for Excellence in Chemical Teaching and the Premier Teaching Award for the College of Engineering.

"Instruction in Scaleup," a paper written by Dr. Kabel, was recognized by the Corcoran Award for the most outstanding article in *Chemical Engineering Education* in 1988.

Robert L. Kabel

In retirement, he plans to remain professionally active. He intends to complete the instructional package for "Scaleup." Admitting that the professional activities are his most important activities in retirement, he and his wife, Barbara, also plan to travel to Antarctica, Western Australia, and African Veldt.

Joseph A. Pewanick, driver and service attendant for the Office of Business Services, has retired after 28 years service. Mr. Pewanick began working at the University in 1962 as a roofer in the sheet metal shop. After two years, he moved to the housing department as a maintenance worker.

Since 1965, he has worked as a driver and service attendant, responsible for

maintaining University cars, picking up visiting professors from the airport, taking football players to the stadium and driving students to Stone Valley for recreational classes.

Mr. Pewanick plans to pursue his hobbies of carpentry and woodworking. He also enjoys fishing, reading and hiking. He and his wife live in Hawk Run and have two daughters.

Paul D. Simkins, professor of geography, has retired with emeritus status after 31 years service.

He received three degrees in geography: A.B. and M.A. from the University of Missouri and Ph.D. from the University of Wisconsin, before joining the University faculty in 1959 as an assistant professor in the Geography Department.

Dr. Simkins received the College of Earth and Mineral Sciences Wilson Award for Outstanding Teaching in 1974 and recently was honored by the Pennsylvania Geographical Society with its Distinguished Teaching Award. He has been involved with undergraduate advising throughout his tenure and since 1986 has been the primary undergraduate adviser for the department's students.

His research has focused on population studies, particularly internal migration, and has included studies of migration, agricultural colonization and frontier settlement in the Philippines, and fertility/mortality patterns in the United States.

He is a member of the Association of American Geographers, the Conference of Latin American Geographers and the Population Association of America.

Mary S. Shore, respiratory therapy clinical specialist at Hershey, from Sept. 10, 1980, until Feb. 9.

Peter J. Swiderski, maintenance worker, general B at Berks Campus, from Feb. 9, 1981, until Feb. 23.

John R. Tice, mechanic/experimental and maintenance B, Agriculture, from Oct. 1, 1973, until March 2.

Charles C. Walter, maintenance worker general A at Mohr Alto Campus, from Jan. 20, 1981, until March 2.

Glady W. Baney, janitorial worker, Office of the Physical Plant, from July 5, 1977, until March 2.

George R. Atticks, maintenance worker, general B at Penn State Harrisburg, from June 18, 1979, until March 0.

Clarence A. Brockman, associate vice president for administration and operations, at Hershey, from Feb. 1, 1973, until April 1.

Helen A. Brouse, senior clerk, registration counter, Academic Services, from Sept. 6, 1978, until April 1.

Ruth L. Kresge, clerk A, interlibrary loan, University Libraries, from Sept. 1, 1976, until April 1.

Esther G. Zettle, clerk A, University Libraries, from Aug. 21, 1974, until April 1.

Edward S. Beck, coordinator, personal counseling program, and affiliate assistant professor of psychology at Penn State Harrisburg, from Nov. 13, 1972, until March 30.

Frank J. Fallo, residence hall worker, utility, Housing and Food Services, from March 2, 1981, until March 30.

New software system plays a key role in SPEC program

An information explosion is occurring in the Office of Human Resources.

Nearly 6,500 employees provided the project team for the Staff Position Evaluation and Compensation (SPEC) program with Position Information Questionnaires (PIQs). Now that data must be processed.

Fortunately, the SPEC project team has a powerful new tool at its disposal for managing this critical data and making it useful to the people who will be designing the University's new job grading and salary program.

The new tool is a software system developed by the University's consultant's William M. Mercer, Inc., and customized for use in the unique Penn State environment.

According to Rachel Miller, manager of salary administration and classification, the system will serve two essential functions in the SPEC project. First, it will gather, capture, store, analyze and integrate the huge volume of data generated from the PIQ. Second, it will facilitate the project team's decision-making process by using modern data management and statistical

SPEC program update

The SPEC program entered a new phase in late November 1990, with the mailing of more than 7,200 Position Information Questionnaires (PIQs) to all Penn State staff members. Following the distribution of the PIQs, informational sessions were held.

As of April 1, 6,400 questionnaires, representing a response of 89 percent, had been returned. The SPEC project team is pleased with this return.

"We are particularly pleased with the attendance at the meetings and the rate of PIQ return because the involvement

of staff members is critical to the success of the project," Rachel Miller, manager of salary administration and classification, said.

"We anticipate that all staff members will want to have input to the new program and we encourage those who have not yet returned their PIQ to do so. The information the PIQs provide about the work of Penn State staff members will help to ensure that our salary program decisions are made on a sound basis."

techniques to make sense of the array of PIQ data.

"It's important to note that the computer system is first and foremost a tool," Ms. Miller said. "It will help us organize the information we need to design a new salary management program, but it will not replace the human element. The critical

decisions will continue to be made by knowledgeable professionals, exercising their good judgment."

She said the system allows the SPEC project team to examine and compare the responses of employees in the same job titles to identify common responses and those that vary in an effort to verify

appropriate classification.

Through statistical processes, it enables the project team to establish an integrated common response for jobs that are genuinely similar. In addition, it facilitates comparisons across a variety of jobs, so that they may be tested for internal consistency in job evaluation decision-making.

When the SPEC project is completed, Ms. Miller added, the computer system will incorporate competitive pay information from the marketplace, the Penn State salary structure and employee information in one integrated data base. Eventually, use of the computer will enable the Human Resources staff to link the decisions they make in job evaluation with other elements of the SPEC program.

"I like to think of the computer system as a better filing cabinet," noted Greg Ross, Mercer compensation consultant, said. "It brings speed, quick access to data, and organization to the process. But the essential process remains the same. Designing and using a salary management program is a highly human endeavor, one that is as much art as science. Nothing should replace the human factor."

In the physical sciences

Nobel laureate will present Marker lectures

Nobel laureate Murray Gell-Mann, Robert Andrews Millikan professor of theoretical physics at the California Institute of Technology, will give the 1991 Russell Marker Lectures in the Physical Sciences April 16-18 at University Park.

The three-lecture series, titled "Plectics-Simplicity and Complexity and the Description of Nature," is sponsored by the Eberly College of Science and is free to the public.

The schedule includes: "Simplicity and Complexity," 8 p.m. Tuesday, April 16, 117 Osmond Laboratory; "Complex Adaptive Systems," 4 p.m. Wednesday, April 17, S-5 Osmond Laboratory; "Quantum Mechanics in the Light of Quantum Cosmology," 11 a.m. Thursday, April 18, S-5 Osmond Laboratory.

Dr. Gell-Mann is one of the most eminent theoretical physicists of the 20th century. His contributions to physics have been deep and far-reaching. His work has revolutionized the field of elementary particle physics. His interests and activities are not restricted to physics but cover a wide range of fields.

In recognition of his efforts to preserve and protect the global environment,

Murray Gell-Mann

particularly the rain forest, he was inducted as a member of the United Nations Environment Program Roll of Honor for Environmental Achievement, The Global 500, in 1986.

Dr. Gell-Mann entered Yale University

at the age of 15, earning a bachelor's degree in physics in 1948. He went on to earn a doctorate in physics at the age of 21 at the Massachusetts Institute of Technology and has since received honorary doctorates from eight universities, including Yale University and the University of Cambridge, England.

He was elected to the National Academy of Sciences in 1960 and the American Academy of Arts and Sciences in 1964. He also is a Fellow of the American Physical Society and a foreign member of the Royal Society of London.

The Marker Lectures were established in 1984 through a gift from Russell Marker, professor emeritus of chemistry, whose pioneering synthetic methods revolutionized the steroid hormone industry and opened the door to the current era of hormone therapies, including the birth control pill.

The Marker endowment also allows the Eberly College of Science to present annual Marker Lectures in astronomy, the chemical sciences, evolutionary biology, genetic engineering, and the mathematical sciences.

Stanford dean will give first talk in Muan lecture series

W. Gary Ernst, dean of the School of Earth Sciences, Stanford University, will give the inaugural lecture of the "Arnulf I. Muan Distinguished Lecture Series" Monday, April 15. The lecture, titled "Geologic Hazards Along the Pacific Rim: Earthquakes, Landslides and Volcanic Eruptions," is scheduled 4 p.m. in the Nittany Lion Inn Assembly Room.

Dr. Ernst has had a particularly distinguished career in research, teaching and academic administration. His research has included studies in petrology, plate tectonics, and geochemistry, phase equilibria in chain silicates, and the tectonophysics of the circum-pacific and alpine convergent plates.

The series honors Arnulf Muan who served the College of Earth and Mineral Sciences as a member of the faculty and administration for nearly 40 years until his death in December 1990.

Dr. Muan held joint appointments in the departments of Geoscience and Material Science and Engineering, and was internationally known for his work on the behavior of materials at high temperatures.

Staff Vacancies

The following vacancies for positions classified as staff exempt or staff nonexempt have been listed with the University Employment Division for filling. The brief statements for each vacancy are illustrative. They are not complete position descriptions. **APPLY BY CALLING THE EMPLOYMENT DIVISION, 465-4004 (NETWORK LINE 433-0304).** Applications for these staff vacancies will be accepted until April 18. **DO NOT CONTACT THE AREA THAT HAS THE VACANCY.** Applications for staff vacancies are considered in accordance with Fair Employment practices (PS-1) and in compliance with the University's Affirmative Action Compliance Program, without regard to race, color, religion, national origin, handicap or age (as

provided by law) sex, or status as a disabled or Vietnam era veteran

■01433, Assistant Financial Aid Coordinator, Academic Services, Student Aid, University Park Campus - Responsible to the coordinator, Guaranteed Student Loan Program, for administrative assistance with the operations of the loan program, including assisting students with financial aid matters, resolving exception reports, and coordinating the flow of student applications. Excellent oral and written communication skills are required. Requires bachelor's degree, or equivalent, plus one to two years of effective experience in an area applicable to aid administration. **STAFF GRADE 5.**

■01434, Systems Programmer

Coordinator, Applied Research Laboratory, ARL Administration, University Park Campus - Responsible for assisting the coordinator, Management Information Systems, in developing and installing a comprehensive administrative system. Requires bachelor's degree, or equivalent, in management information systems, computer science or related field, plus one to two years of effective experience in database applications. A working knowledge of ORACLE, SQL, YAK hardware and VMS based systems is preferred. U.S. citizenship required. This is a fixed-term position funded through June 30, 1992. **STAFF GRADE 6.**

■01435, Director of the National Cable Television Center and Museum, Commonwealth Educational System,

University Park Campus - Responsible to the senior vice president and dean of CES for directing, supervising, and conducting the affairs of the national center, with overall responsibility for its operation and the direction of its development. Requires master's degree, or equivalent, and a minimum of three years of effective experience. Substantial background and experience in the cable industry, including management responsibilities. This is a fixed-term position funded through June 30, 1992, with excellent possibility of re-funding for two additional years. **STAFF GRADE 8.**

Hershey

For the following position vacancies, apply directly to The Milton S. Hershey

Medical Center. Attach resume with cover letter indicating the position vacancy code and forward to the Department of Human Resources, Hershey, or call the Hershey bid line at (717) 531-8531 by April 18.

■17363, Psychiatric Social Worker II, Department of Psychiatry, Division of Child Psychiatry - Responsible to the unit director, Department of Psychiatry, for the provision of the psychiatric social work services within the unit and serve as part of the mental health team in providing counseling for mentally and emotionally disturbed patients, and their families. Requires a master of social work degree from an accredited college or university or equivalency and at least one to two years of effective experience. **STAFF GRADE 6.**

Campaign to raise convocation center funds announced

The University has launched a campaign to raise \$20 million in private funds to help construct the proposed new Academic/Athletic Convocation and Events Center.

The funds will be added to the \$33.8 million that the state legislature has authorized for the project, which is expected to cost \$50-55 million.

"The Convocation Center is a facility that Penn State has needed for many years and will be used for commencements, professional conferences, student/parent gatherings, large-scale entertainment events, intercollegiate athletics and many other purposes," President Thomas said.

The center also will have a significant economic impact. According to a study by University researchers, construction alone will generate \$78 million in additional spending statewide. Once in full operation, the center is expected to host more than 200 events annually that will attract about 1.25 million spectators. It will result in 500 permanent jobs and boost the local economy by some \$24 million annually.

Edward R. Hintz, a Penn State alumnus and president of the New York investment firm of Hintz, Holman and Hecksher, is chairing a volunteer committee that will provide leadership for soliciting gifts nationwide.

"The Convocation Center is an exciting project that will appeal to a broad range of our alumni and friends," Mr. Hintz said.

Announcing the campaign to raise private funds for the proposed Academic/Athletic Convocation and Events Center are, from left, Marlan U. Coppersmith, president of the University's Board of Trustees; Steve A. Garban, senior vice president for finance and operations; Edward R. Hintz, campaign committee chair, and President Thomas. (Photo: Scott Johnson)

"We believe that the facility will leave a positive imprint on the University for many decades to come."

Mr. Hintz noted that the campaign already has received about \$3 million in advance commitments, mostly from

benefactors in Centre and adjacent counties. The general solicitation phase will continue through Dec. 31, 1992.

The Division of Development and University Relations, led by Senior Vice President G. David Gearhart, will provide

staff support for the campaign. "Dave Gearhart and his staff have a solid track record of success in fund raising for Penn State, and their help will be invaluable to us," Mr. Hintz said.

Governor Robert Casey already has released \$16.8 million of the state's commitment and it is anticipated that the remaining authorization will be made available at the appropriate time. Steve A. Garban, senior vice president for finance and operations, said that the next step will be for the state's Department of General Services to retain an architectural firm to design the structure.

"Once the architect is appointed, we will be able to plan a timetable for construction," Mr. Garban said. "Obviously, we want to get the center up and running as soon as possible."

The fund-raising campaign will be organized on a regional basis. Regional leaders are:

Western Pennsylvania: **Dr. Robert Capretto**, a Pittsburgh-area dentist.

Midwest: **Joseph F. Frederick Jr.**, senior vice president, Hilton Hotel Corp., Chicago.

Harrisburg: **Harris Freedman**, president of Camp Hill-based Freedman and Co. State College: **Sidney Freedman**, real estate developer.

Northeastern Pennsylvania: **Michael**

University's Leonhard center will be dedicated on April 23

The University's Leonhard Center for Innovation and Enhancement of Engineering Education will be dedicated at an inaugural ceremony at 2 p.m. Tuesday, April 23, in Kern Graduate Auditorium at University Park.

The Leonhard Center, the first of its kind in the world, concentrates resources to promote new approaches in the development and delivery of engineering curricula. It was established in 1990 with a \$4 million deferred gift from William E. Leonhard and his wife, Wyllis Leonhard.

"The Leonhard Center is providing the educational excellence needed to maintain the American traditions of invention and entrepreneurial spirit. Through the Leonhard Center, Penn State and its College of Engineering will shape the look of engineering education for the decades to come," President Thomas said.

The Leonhard Center will focus on identifying the needs of the students and of the marketplace; developing curriculum innovations; teaching methods and pioneer programs; implementing and testing innovations and programs, and integrating successes into the curriculum.

"The Leonhard Center mission is nothing less than a major overhaul of engineering education through the improvement of the quality and relevancy of undergraduate student experiences," John A. Brighton, dean of the College of Engineering, said.

Founder Leonhard of Pasadena, CA; President Thomas; Dean Brighton and Associate Dean Carl Wolgemuth, acting director of the Leonhard Center, will take part in the ceremony.

The Leonhard Center Advisory Board, made up of corporate leaders from

Dick Gregory speaks to students in Kern Building at University Park on Sunday, April 14. The activist, comedian and nutritionist was the guest speaker at the Penn State NAACP Chapter's Fourth Annual Achievement Awards Banquet. (Photo: Greg Grieco)

Focus on Diversity

Women's issues highlighted

Women's conference

"Tapping Your Creative Powers," a conference focusing on women's issues, will be held Saturday, April 20, at the Penn State York Campus. The day-long conference is designed to encourage leadership in women, provide a forum for women's concerns and inform women of opportunities to develop and grow.

Keynote speaker is Hilda Lee Dail, Ph.D., an international human resources consultant, psychotherapist and career counselor who specializes in creativity and problem solving.

Registration for "Tapping Your Creative Powers" is \$20 through April 12 and includes lunch. To register or for more information, call (717) 771-4045.

WISE Forum

"Preparing for a Scientific/Technical Career: Life as a Female Graduate Student or Post-Doc" will be the focus of a brown bag lunch and discussion from noon to 1 p.m. Tuesday, April 23.

in 12 Sparks at University Park.

It is sponsored by WISE Forum (Women in the Sciences and Engineering). The public is invited.

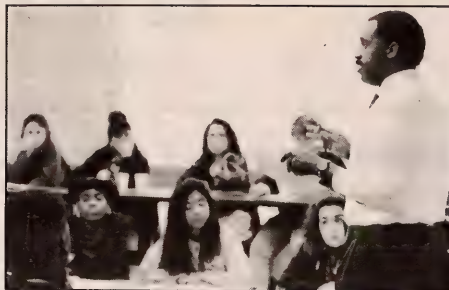

For more information, please contact Sharon J. Luck, Women in Engineering Program, 101 Hammond, 865-7138.

Professional Women at Penn State

An "Open Agenda" program is planned for the next meeting of Professional Women at Penn State at 11:45 a.m. Tuesday, April 30, in the Frizzell Room, Eisenhower Chapel at University Park.

The program, which begins at 12:10 p.m., will consist of impromptu discussions on topics brought to the meeting by the participants.

Professional Women at Penn State is a grass-roots group coordinated by University women in which participants can develop and maintain a communications network and serve as a resource for other Penn State women. The group welcomes attendance from all classifications at the University.

Minority high school students visit

Bruce Ellis, coordinator of minority affairs and minority student programs at The Smear College of Business Administration, speaks to minority high school students from Baltimore, Philadelphia, Pittsburgh and New York City who visited the University Park Campus. The visit was to provide the prospective students a chance to gain a more comprehensive view of Penn State and to meet faculty, students and administrators as they decide whether to enroll at the University. As part of the program, organized by the Office of Minority Admissions and Community Affairs, the students toured campus for four days and attended a financial aid workshop, an academic guidance session and student socials. (Photo: Greg Grieco)

Altoona develops cultural diversity seminar

In a special effort to further develop the quality of life in the community, the Penn State Altoona Campus has developed a three-hour participatory seminar on cultural diversity.

During the month of April, the seminar will be provided on five mornings to approximately 45 participants at each session, or a total of about 250 individuals—business, religious, and civic leaders; media representatives; and municipal employees and leaders in the school districts in this area.

The purpose of this seminar is to provide individuals with the opportunity to

examine societal beliefs and attitudes that foster such biases as racism, sexism, homophobia, and religious intolerance." Jimmy Duplass, campus executive officer, said.

"The seminar focuses on racism, but that is used as a metaphor; the ideas and issues raised apply to any prejudices that individuals might hold."

The seminar opens with two scenarios by the Unity Players, an interactive, improvisational group of Altoona Campus students. Unity Players use role playing to encourage comments from the audience on

its intellectual and emotional reactions to the roles the Players have assumed.

Following the Unity Players presentation, the seminar participants divide into small groups to discuss and solve a hypothetical problem. Later, as the participants see similarities and differences in the solutions each group has found to the same hypothetical problem, societal beliefs and attitudes are clarified.

Altoona Campus staff members who developed the seminar include Charles Clark, chairman; Mary Jo Borden, Harriet Gaston, Dick Hatch, Rob Loeb, Joe Reasy, and Jennifer Russell.

Diversity Opportunities Calendar

Friday, April 19

Exercise and Sports Science, noon to 1 p.m., 108 White Building. Faculty/staff workshop in African dance with Myrna Munchus-Bullock; drum music by Don Berinato of the "Earthtones."

Paul Robeson Cultural Center, 8 a.m. to 5 p.m., Robeson Center Gallery. Photographic exhibit: "Women of Courage," through May 8.

Paul Robeson Cultural Center, 11:30 a.m., Robeson Center. Community luncheon.

Women in Engineering, all day through April 20. Women's conference/reunion for alumnae, faculty and students. For information, contact Sharon Jadnak, 865-3342.

Saturday, April 20

Office of Minority Faculty Development, 9 to 11 a.m., 101 Kern. Discussion on issues related to promotion and tenure led by Vice Provost Grace Hampton; attendance limited to those who participated in a previous promotion and tenure workshop. For information, contact Leah Witzig, 863-1663.

Wednesday, April 24

Asian-American Student Coalition, 7:30 p.m., 301 Hetzel Union Building. William Fletcher and Dee Williams, Philadelphia Department of Human Relations, on "Racial Relations Between the African-American and Asian-American Communities."

Summer program

Hands-on science and math activities and close contact with engineering students and professionals are the focus of a week-long camp for 7th to 9th grade minority students this summer at the University.

"See The Future," a pre-college science and technology adventure, will be held July 14-19 at University Park.

The free program, which includes supervised lodging and meals in University residence halls, is designed to introduce minority students to higher education opportunities and possible careers in engineering, science and energy. Students must provide transportation to and from campus.

The deadline for applications is May 17. For more information, contact John R. Vincents at (800) 321-6789 or (814) 863-2133.

Bluford honored with engineering award

Gaston S. Bluford Jr., 1964 aerospace engineering alumnae colonel, U.S. Air Force, and astronaut, is the recipient of the distinguished 1991 Black Engineer of the Year Award. The annual award is sponsored by U.S. Black Engineer Magazine and several corporations.

"Guy Bluford is a superb example of an engineer who has excelled in his professional as well as in his personal and public life," John Brighton, dean of the College of Engineering, said. "He is a proven engineer, a natural leader and a gifted communicator who is consistently willing to share his talents and experience with those around him, especially our nation's young people. He is a man admired and valued by all who are privileged to know and work with him."

As the 1987 commencement speaker for the College, Mr. Bluford told 825 engineering graduates that "the dream is alive" in America's space program. "I hope to see many of you contribute to that dream."

"I encourage as many kids as I can to consider math and sciences."

The first African American in space (Aug. 30, 1983), Mr. Bluford has been assigned to two shuttle space missions and currently is scheduled to fly a third mission this year. He has logged an impressive 314 hours in space. He is second of three engineering alumnus in space.

He is a member of the College of Engineering Minority Engineering Program external advisory board and was named a Penn State Distinguished Alumnus in 1983.

Stanford professor to present Marker lectures

Richard N. Zare, Marguerite Blake Wilbur professor of chemistry at Stanford University, will present the 1991 Russell Marker Lectures in the Chemical Sciences April 22-25 at University Park. The four-lecture series, titled "Reactive Scattering Processes," is sponsored by the Eberly College of Science and is free to the public.

The schedule includes: "Studies of the H+H₂ Reaction Family," 8 p.m. Monday, April 22, 112 Chambers Building; "Studies of Ion-Molecule Reactions," 8 p.m. Tuesday, April 23, 117 Osmond Laboratory; "Dependence of Reactivity on Impact Parameter," 4 p.m. Wednesday, April 24, 5-5 Osmond Laboratory, and "Molecular Photoionization Dynamics," 12:15 p.m. Thursday, April 25, 5-5 Osmond Laboratory.

Dr. Zare is considered a world leader in using lasers to investigate the dynamics of chemical reactions and to study molecular spectroscopy. An experimentalist and a theorist, his work spans gas-phase reactions and spectroscopy, processes on surfaces, and applications of lasers to problems in

Richard N. Zare

chemical analysis.

In 1983, he received the National Medal of Science "for his seminal contributions to molecular spectroscopy, photochemistry,

and chemical reaction dynamics, especially for his incisive theoretical methods and the development of the experimental technique of laser-induced fluorescence." The University of Arizona presented him with an honorary doctor of science degree in 1990.

An elected member of the National Academy of Sciences and the American Academy of Arts and Sciences since 1976, Dr. Zare also is a Fellow of the American Association for the Advancement of Science, a Fellow of the American Physical Society, a member of the American Chemical Society, and a member of the Chemical Society of London. He currently is a member of the National Academy of Sciences' Government-University-Industry Research Roundtable.

Dr. Zare joined the Stanford University faculty in 1977 and was the Shell distinguished professor of chemistry from 1980-1985 and a Stanford University fellow from 1984-1986. He was named the Marguerite Blake Wilbur professor of chemistry in 1987.

MA; **Raymond A. Bowers**, chairman, Lewis C. Bowers & Sons, Princeton, NJ; **Harvey F. Brush**, vice president (retired), Bechtel Group, San Francisco, CA; **Edward B. Bryant**, vice president & general manager, Libby-Owens-Ford Company, Toledo, OH; **Glen F. Chatfield**, managing partner, Chatfield Engineering, Bradford Woods, PA; **James E. Donnelly Jr.**, vice president (retired), General Electric, Ponte Vedra, FL; **J. Lee Everett**, chairman of the board (retired), Philadelphia Electric, Wayne, PA; **Frank Gabron**, chairman of the board, Helix Technology Corp., Hollis, NH; **Herbert C. Redmond**, president GTE Laboratories, Waltham, MA; **Walter L. Robb**, senior vice president, General Electric, Schenectady, NY; **Charles R. Schneider**, president, Baker Industries, Inc., Parsippany, NJ; and **Donald L. Watson**, executive director, New Jersey Turnpike Authority, New Brunswick, NJ; Dr. Brighton and Dr. Wolgemuth are ex-officio members.

of State College, president of the Barish Group and president of Penn State's Board of Trustees; **William A. Gettig** of Spring Mills, president of Gettig Technologies Inc.; **Harold J. Hein** of New York City, president of Mid-City Press; **David B. Lee** of State College, president of Peoples National Bank of Central Pennsylvania;

Ralph J. Papa of State College, president and chief executive officer of Mellon Bank Central; **Bruce Parkhill**, Penn State head men's basketball coach; **Joseph V. Paterno**, Penn State head football coach; **Charles C. Pearson Jr.** of State College, president and chief executive officer of United Federal Bank; **Frederick A. Pechter** of Altoona, chairman and chief executive officer of Altoona Pipe and Steel Supply Co.; **Rene Portland**, Penn State head women's basketball coach; **Charles Rider** of State College, chairman and president of Rider Auto Inc.

William J. Rossman of Altoona, president and chief executive officer of

Mid-State Bank; **L.J. Rowell Jr.** of Philadelphia, president and chief operating officer of Provident Mutual Life Insurance Co.; **William A. Schreyer** of New York, chairman and chief executive officer of Merrill Lynch and Co. Inc.; **Edward J. Shaffer Jr.**, a Penn State undergraduate and member of the University's Board of Trustees; **Philip H. Sieg** of State College, chairman of the Sieg Financial Group; **James I. Tarman**, Penn State director of athletics; **Ray S. Walker** of Bigler, founder of Bradford Cold Co.;

Quentin E. Wood of Oil City, chairman of the board of Quaker State Oil Co. and member of the Penn State Board of Trustees, will serve as the committee's Trustee liaison.

Carpooler

Robin would like to carpool from Belleville to University Park. Her work hours are 8 a.m. to 5 p.m. Call 865-0513.

Bookshelf

J. Madison Davis, professor of English at Penn State Erie, The Behrend College, is the author of *Samsian* Len.

Part of the *Starmont House Reader's Guide* series to science fiction authors, the book is an overview of the fiction of Poland's premier living writer, analyzing his recurrent themes and biographical influences. Called a literary movement in himself, Mr. Lem ranges from humor to philosophy to adventure to postmodernism, yet his works have been required reading in Polish and Soviet schools and have been sold on the black market because of paper quotas.

E. Willard Miller, professor of geography and associate dean for resident instruction emeritus, College of Earth and Mineral Sciences, and **Ruby M. Miller**, associate librarian, retired, Pattee Library, have prepared a 42-volume bibliography on the *Third World*. 17 volumes on Latin America, 11 on Africa and 14 on Asia, published by Vance Bibliographies, Monticello, Ill.

The bibliography of approximately 13,000 references consists of books, government publications and journal articles. The references stress foreign relations, government and politics, economic development, natural resources and social conditions.

Jan S. Prybyla, professor of economics, is the author of *Reform in China and Other Socialist Economies* published for the American Enterprise Institute by the American Enterprise Institute Press, Washington, D.C.

The book is a collection of essays published over nearly 20 years in journals, periodicals, and as chapters in books dealing with the economic transformation of the socialist economies of China, Eastern Europe, and the Soviet Union, with comparative developments in the market economies of Taiwan and Hong Kong.

Economic reform is examined in a broader context of the political, philosophical, and ethical issues involved in the transition from central administrative command planning to the market system.

Jason J. Spielvogel, associate professor of history, is the author of the textbook *Western Civilization*, published by West Publishing Co.

"The American approach to history traditionally has focused on the achievements of Western European males," Dr. Spielvogel says. "This is admittedly a distorted view, which I've tried to correct by integrating into my text the history of women and various social and ethnically underrepresented groups."

"The text traces the history of women throughout every stage of Western civilization, chapter by chapter, instead of isolating it from general history and thus diluting its significance."

Dr. Spielvogel said he tried to write a text "that explains Western civilization without either trumpeting its superiority or insinuating its guilt."

Leonhard

Continued from page 1.

throughout the country, which will meet for two days prior to the ceremony, also will be present. Michael A. Brunner, IE '55, president of AT&T Federal Systems, chairs the board.

The dedication will follow the 25th annual Honorary Engineering Lecture, given this year by MIT President Charles Vest. His lecture, "Universities, The Public, and The Government: The State of the Partnership," begins at 1 p.m. Both events are free and open to the public.

Besides Mr. Brunner, members of the advisory board are:

Donald M. Alstadt, chairman of the board and co., Lord Corporation, Erie, PA; **Eugene M. Bard**, president, BARD, Rao & Athanas Consulting Engineers, Inc., Boston.

Campaign

Continued from page 1.

Hudacek, an attorney from Plymouth.

Philadelphia: **Robert Klein**, chairman and chief executive officer of S. Springs Water Co.

New York City: **Arthur J. Nagle**, chairman of Vestar Capital Partners Inc.

Washington, D.C.: **Raymond N. Shibley**, attorney.

State College: **John T. Walizer Jr.**, insurance agent.

Mr. Hintz's committee includes these alternate members, who will provide leadership and support for the total fundraising effort:

H. Jesse Arnette of San Francisco, an attorney and University trustee; **Peter Deines**, professor of geochemistry and chairperson of the University Faculty Senate; **Galen E. Dreibibis** of State College; **Robert E. Eberly** of Untiontown, chairman of the board of Eberly and Meade; **Marian U. Coppersmith** of Fredman

Awards

Robert Goerder will receive Mitchell award

Robert L. Goerder

Robert L. Goerder will receive the 1991 Philip Mitchell Alumni Service Award from the Penn State Alumni Association at an awards luncheon April 19 at the Nittany Lion Inn at University Park.

Established in 1980 by Elizabeth and Philip P. Mitchell, the award recognizes an alumnus or alumna who has contributed a significant amount of time, talent and/or resources to the University. Mr. Goerder is being recognized for his volunteer work as coordinator of international programs and tours.

Jyung-ock Choe, president of the Penn State Club of Korea, says Mr. Goerder's tireless volunteer service,

which has contributed significantly to promoting relations between the University and the international clubs for a long period of time, is regarded as a pattern to others and deserves special recognition.

In 1970 Mr. Goerder became the field director of the Alumni Association after having taught at the Industrial College of the Armed Forces in Washington, D.C. and retiring as an Air Force colonel after nearly 30 years of service.

Under his direction, the number of active Penn State clubs grew to 150 across the country. He also initiated the international clubs and student alumni programs such as the Lion Ambassadors.

Although he retired from Penn State in 1983, he has coordinated the Alumni Association's travel program since 1984.

A 1939 graduate in arts and letters, Mr. Goerder received a master's degree in international relations from Georgetown University.

As recipient of the Philip Philip Mitchell Award, he will receive a certificate and his name will be added to a plaque on display in the Alumni Lounge in Old Main. He also will name the purpose of a cash gift to the University made by Mr. and Mrs. Mitchell.

Two alumni honored by Arts and Architecture

Two University alumni have been selected for the 1991 Alumni Achievement Award given by the Arts and Architecture/Performing Arts Constituent Society.

The award honors alumni who have distinguished themselves in their profession. Alumni selected are music educator **O. Richard Bundy** of State College and architect **Wilson F. Pollock** of Newton, Mass.

Dr. Bundy is an assistant professor of music education at Penn State. As associate director of bands, he directs the Concert White Band and is responsible for the football halftime shows by the Marching Blue Band. He also is principal conductor of the State College Municipal Band.

A professional trombonist, he received his bachelor's in music education from Penn State, a master's

from the University of Michigan and a doctorate from Penn State.

Mr. Pollock is co-founder and president of Architecture Design Development (ADD), a 60-person firm with offices in Cambridge, Mass., and Washington, D.C. Founded in 1971, the firm offers full service architectural, interior design and feasibility/master planning services to private corporations, public agencies and institutions.

Mr. Pollock has been the master planner of research and development/office parks and designer of commercial development and corporate headquarters buildings, banks, housing and waterfront projects.

A registered architect in 14 states, he received his bachelor's in architecture from Penn State and his master's in architecture from Columbia University.

O. Richard Bundy

Wilson F. Pollock

Dr. Simkovich named McFarland award winner

George Simkovich, professor of metallurgy, has received the 1991 David Ford McFarland Award for Achievement in Metallurgy. The award, established in 1948, is presented annually by the Penn State Chapter of the American Society for Metals International.

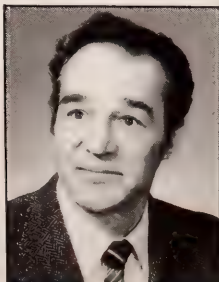

Dr. Simkovich will deliver the McFarland Award lecture at 11 a.m., Saturday, April 20, in Room 112 Walker Building at University Park. His address is titled, "High Temperature Corrosion." The award presentation will be made that evening at the annual McFarland Dinner.

Dr. Simkovich will be honored for his career achievements in metallurgy, particularly his work in the development of alloys with oxidation-resistance under high-temperature conditions. He also has

conducted extensive research in collaboration with Professor Frank F. Aplan on the effects in a range of processes.

Dr. Simkovich received B.S., M.S. and Ph.D. degrees in metallurgy from Penn State and has been a member of the faculty since 1964. He was awarded the Wilson Outstanding Teaching Award of the College of Earth and Mineral Sciences in 1984.

The McFarland Award recognizes outstanding achievements by Penn State metallurgy alumni. The award was established to honor Dr. David P. McFarland, professor and head of the Department of Metallurgy from 1920 to 1945. This is the first time in the 43-year history of the award that the presentation has been made to a Penn State faculty member.

George Simkovich

Graduate nominees are award winners

The University's two nominees for the Master's Scholar Award and the Annual Dissertation Award of the Northeastern Association of Graduate Schools have been named winners of the 1991 competition.

Kenneth M. Mash, who received an M.A. in political science in August, 1990, won the Master's Scholar Award in the social and behavioral sciences for his master's essay, "The Limits of Judicial Power: Yonkers Revisited."

J. Adin Mann, who received the Ph.D. in the Intercollege Graduate Degree Program in Acoustics in May, 1988, and is now on the faculty of Iowa State University, received the Annual Dissertation Award for his dissertation, "Acoustic Intensity: Energy Transfer, Wave Properties, and Applications."

University seeks to reach its initial recycling goal

After 17 months since the start of the University Park recycling program, Penn State is continuing to seek ways to reduce the total amount of waste produced by faculty, staff and students.

The program got off to a marvelous start, spurred on by the 20th anniversary of Earth Day, the accompanying program in Centre County and the statewide deadlines for municipal recycling," Phil Melnick, manager of support operations for the Office of Physical Plant and coordinator of the recycling program, said.

Since March 1990, a total of 1,135 tons of waste, including 207 tons of containers and 931 tons of paper, has been collected, according to Melnick.

"While we appreciate the support and

enthusiasm of those who have been participating, we have not reached our initial goal of recycling 25 percent or more of the University's waste," he added.

"Currently, only 20 percent of the waste is being recycled. Since the total amount of waste continues to grow, we still need to increase the amount of recycling."

A recent survey of University Park academic buildings show that 20 percent of the University's employees are not participating in the program.

"A committee is studying ways to reduce the amount of waste generated, including purchasing policies that promote the use of materials with recycled content and that can also be recycled later," Mr. Melnick said. "They also are reviewing strategies

such as promoting increased use of non-paper technology like EMail or whether colored paper should continue to be made available through the Penn State Bookstore, General Stores or the University's copy centers."

The committee requests that you send waste reduction comments or suggestions to Mr. Melnick by calling the Recycling Hotline at 865-8000, or sending an E-Mail message to PRM1@PSUADMIN.

Meanwhile, several measures to bolster participation in the recycling program will be taken in the next several weeks. Beginning April 22, Physical Plant will notify those employees who are not recycling about the need to comply with the University's recycling policy.

Those who are not in compliance with the policy will be encouraged to participate.

Waste and recycling remain serious issues that affect every employee at the University as the total amount of waste grows and the number of landfills shrinks, according to the Penn State recycling coordinator.

"It's not a problem that can be resolved overnight or in a few months," Mr. Melnick noted. "Preserving our earth and its resources will require a long-term commitment by each employee to do his or her part in order to have a truly effective impact on the situation."

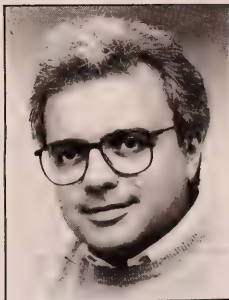

Alumni Fellow Finestra to visit in School of Communications

Carmen Finestra, television writer/producer, will receive the Alumni Fellow award and meet with faculty members, administrators and students April 22-27 as the guest of the School of Communications.

The Alumni Fellow award, presented by the Penn State Alumni Association, is administered in cooperation with the academic units.

Mr. Finestra has been writing for film and television since 1976. For five seasons, he was supervising producer of "The Cosby Show." He also helped to create the series "A Different World." His other credits include "Carol & Company," "Chico and the Man," "Angie," "Good Times" and several variety specials that starred such comedians as Steve Martin, Martin Mull, Steve Allen and Andy Kaufman.

He has won three Writers' Guild of America Awards, and he has been nominated for three Emmys, a Humanitas Prize and an NAACP Image Award. In 1987, he received a Peabody Award, along with the other "Cosby Show" writers, for

Carmen Finestra

outstanding achievement in television.

A native of Harrisburg, he is a 1971 graduate of Penn State.

Executive development research effort

The University has joined eight other major universities in a new research effort to explore executive development.

The Penn State Executive Programs, an arm of The Smeal College of Business Administration, joins counterparts from Columbia University, London Business School, Northwestern University, Cornell University, University of Southern California, University of Virginia, University of North Carolina and Massachusetts Institute of Technology as charter members of the International Consortium of Executive Development Research.

The consortium will look for innovative ways to develop business leadership in today's complex global economy. Among

potential topics for study are a search for "best practices" in executive development among top companies, new approaches to creating the "internationally minded" executive, ways to create adaptive organizations, the impact of culture and language on leadership effectiveness and new approaches to university-based executive education.

Albert A. Vicare, assistant dean for executive education with The Smeal College, serves as Penn State's representative to the organization.

In the future, the consortium plans to include representatives from the corporate community as well as from other academic institutions.

Obituaries

James W. Sampsell, former assistant coordinator for contract grants, Commonwealth Educational System, died March 27. He was 47.

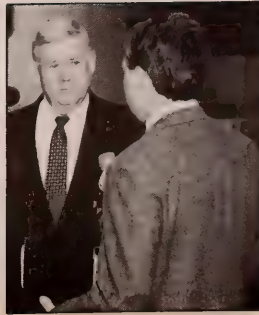

A graduate of Williamsport Area Community College with an associate

degree, he joined the University staff Feb. 1, 1964. He retired Nov. 1, 1990, on disability.

Elizabeth K. Swartz, clerk typist, College of Agriculture, from Sept. 29, 1966, until her retirement Jan. 1, 1979, died March 6. She was 74.

Pennsylvania Career Day

U.S. Rep. John P. Murtha talks to a reporter at the opening of the University's first ever Pennsylvania Career Day on Thursday, April 11, at University Park. Some 2,000 students and recent college graduates attended the event in which 430 employers from across the state participated. (Photos: Greg Grieco)

Focus on the arts

Shakespeare Festival

Shakespeare lovers may warm up their summer at the Stratford Shakespeare Festival, when they join the Department of English in an excursion to Stratford, Ontario, from Friday, July 26 to Monday, July 29.

Participants can enjoy the following performances: Friday evening, "The Carousel" in the Festival Theatre or "Timon of Athens" in Patterson; Saturday afternoon, "School for Wives" in Avon; Saturday evening, "Hamlet" in Festival Theatre; Sunday afternoon, "Twelfth Night" in Avon or "Much Ado About Nothing" in Festival Theatre.

Two pricing plans are available. Plan A includes tickets to see three plays, lodging in Stratford rooming houses, and roundtrip transportation in University vans for \$220. Plan B includes tickets to see four plays, lodging and transportation for \$260.

For each reservation, a \$30 per person downpayment is required. Make checks payable to Sanford Schwartz and send them to him in the Department of English, University Park, Pa. 16802. For further information, contact Dr. Schwartz at (814) 867-3031 or 865-1651.

Architecture symposium

A symposium, "Cynicism/Kynicism and the Retreat from Meaning in Post-Modern Architecture," will be held Friday, April 19, in 101 Kern Building at University Park.

Sponsored by the Department of Architecture and the Institute for the Arts and Humanistic Studies, the symposium consists of a morning session beginning at 10 a.m. and an afternoon session beginning at 2 p.m. Presentations will be made by architects Diane Lewis, Alberto Perez Gomez, Kay Beynon Jones and Dan Hoffman.

A reception will follow Friday's events. Further activities will take place at 9 a.m. Saturday, April 20, in the Architecture Unit C Gallery.

For more information, call Donald Kunze at (814) 865-1750 or Arthur Anderson at (814) 863-0188.

Featured author

Marcia Bonta, author of the newly released *Women in the Field, America's Pioneering Women Naturalists* (University of Texas Press, 1991) and *Appalachian Spring* (University of Pittsburgh Press, 1991), will discuss and sign her books at the Penn State Bookstore on Campus from noon to 2 p.m. Friday, April 19.

Director of the Juniata Valley Audubon Society and a member of the Pennsylvania Outdoor Writers Association and the Outdoor Writers Association of America, Ms. Bonta began writing about nature and her life on a Pennsylvania mountaintop farm near Tyrore in 1973.

The Bookstore is offering a 20-percent

Penn State Internationale Dancers Kunjan Raval (left) and Vinaya Menon are shown performing an Indian dance. The dance troupe will present its annual spring concert at 7:30 p.m. Saturday, April 27, in Eisenhower Auditorium.

discount on both books during the booksigning session.

The arts on Channel 3

Opera Stories, airing at 9 p.m. Saturday, April 20, features "Tosca" by Puccini. Filmed in Rome, the opera stars Eva Marton, Ingvar Wixell and Giacomo Aragall and is conducted by Daniel Oren.

Innovation, airing at 7:30 p.m. Tuesday, April 23, continues to look at kinetic art in "The Artist as Scientist, Part II." This second episode profiles several kinetic artists at work and examines sound sculpture, interactive art, and theatrical art which tells a dramatic story through ingenious engineering.

The world stands in awe of Wolfgang Amadeus Mozart, the legendary composer who created long symphonies in his head and committed entire operas to paper without corrections. *The Mozart Mystique* with Peter Ustinov, airing at 8 p.m. Wednesday, April 24, traces the short, but illustrious life of the musical giant. Some of Mozart's greatest music is featured including the overture to "The Marriage of Figaro," "Symphony No. 40," and the famous Requiem.

Singing Lions

The Singing Lions, the University's traveling show choir, will perform "A Celebration of American Music" at 2 p.m. Sunday, April 21, in Schwab Auditorium at University Park.

Featured in the program will be "A Tribute to Cole Porter" in honor of the 100th anniversary of his birth this year. Also included will be a jazz medley, a Broadway medley, an Americana medley and a patriotic salute.

"Come And Go With Me," a special medley of '50s and '60s music, has been put together by keyboard accompanist Jeff Rezer and choreographed by group

member Avon Chandler.

Graduating seniors will be featured in a solo spotlight session. Returning alumni will join the Singing Lions onstage for a Penn State medley and Billy Joel's "Everybody Has a Dream."

Admission to the show is \$4 for adults and \$2 for students and will be charged at the door.

Brown bag lunches

Two members of the Department of English will present lectures as part of the Comparative Literature brown bag luncheon series.

Carla Mulford, associate professor of English, will discuss "Caritas and Commerce: Benjamin Franklin's Narrative of the Late Massacres" at 12:15 p.m. Monday, April 22, in 101 Kern Building at University Park.

David Charny, assistant professor of English, will speak about "The Literature of Science: How Scientists Read and Write Scientific Discourse" at 12:15 p.m. Monday, April 29, in 101 Kern.

Those interested in attending only the

lecture should arrive before 12:45 p.m. Coffee and tea will be provided to accompany a brown bag lunch.

Concert band

The Penn State Concert Band will present its 15th annual spring concert at 6:30 p.m. Monday, April 22, in the Hetzel Union Building Ballroom at University Park.

The program will feature Darius Milhaud's *Suite Française*, based on French folk tunes, and "Fantasies on a Theme by Haydn" by American composer Norman Dello Joio.

The band also will perform Von Suppe's classic transcription of *Light Cavalry Overture*, the contemporary works *Second Suite* by Robert Jager and "Compendium" by Leland Forsblad, Fillmore's "Circus Bee" march and Percy Grainger's "Irish Tune from County Derry."

Jazz combos

The four University Combos from the jazz studies program will perform in concert at 8 p.m. Monday, April 22, in the School of Music Recital Hall at University Park.

Each combo will perform a 20-minute program of music arranged by group members specifically for this performance. The music ranges from jazz standards to original compositions.

German-American lecture

The first German-American cultural lecture named after AEG-Westinghouse in Pittsburgh in recognition for its support of the Chair in Anglo-German Literary and Cultural Relations will be held at 4 p.m. Tuesday, April 23, in W342 Pattee Library (Rare Books Room) at University Park.

Frank Trommler of the University of Pennsylvania will speak on "Inventing the Enemy: German-American Cultural Relations 1900-1917." His lecture will provide insights into the machinations of inventing the other nation, heretofore a friendly though distant partner in world

See 'Arts' on Page 8.

The arts at

Wilkes-Barre Campus

The poetry of women, the working class and the resistance movement will be topics of the Eighth Annual Hayfield Poetry Festival. "The World is How We Say It: Poetry and Cultural Diversity" will be held at the Penn State Wilkes-Barre Campus from 8:30 a.m. to 5 p.m. Saturday, April 20.

Topics are "Images of Women in Poetry," "Images of Resistance in Poetry" and "Working Class Poetry."

Penn State-Behrend

The Penn State-Behrend Concert Choir presents its annual spring concert at 4 p.m. Sunday, April 21, in the Reed Building Wintergarten.

The 29-member student choir will sing selections from several centuries ranging from medieval chants to madrigals and sea chanteys. Tickets for the concert are \$2 and can be obtained by calling (814) 898-6289.

April 18 - 28

Special Events

Thursday, April 18
 Bach's Lunch, 12:10 p.m., Eisenhower Chapel.
 Penn State Horn Ensemble.

Friday, April 19

■ Geog. Coffee Hour, 4 p.m., 319 Walker.
 Allan Rodgers on "Industrial Restructuring:
 The Case of the Italian Steel Industry."
 Center for the Performing Arts, 8 p.m.,
 Eisenhower Aud. Feld Ballets/N.Y.
 URTIC, 8 p.m., Pavilion Theatre, through April
 27. "The Children's Hour."
 School of Music, 8 p.m., Schwab Aud. Penn
 State Concert Choir, Chamber Singers, Penn
 State Philharmonic.

Saturday, April 20
 74th Little International Livestock Exposition,
 Ag Arena.

Shaver's Creek, Wildflower Walk, 10 a.m.-
 noon; Low Impact Lawn Care, 1-3 p.m. Call
 863-2000.

Blue-White Football Game, 1 p.m., Beaver
 Stadium.

Sunday, April 21

Shaver's Creek, The Winged Hunters, 1-2:30
 p.m. Call 863-2000.

School of Music, 2 p.m., Schwab Aud. Penn
 State Singing Lions.

Carnegie Hall Film Series, 7 p.m., *The Maltese
 Falcon* (1941); 9 p.m., *Local Hero* (1983), 108
 Wartik. Free.

Monday, April 22

Comp. Lit. Luncheon, 12:15 p.m., 101 Kern.
 Carla Mulford on "Caritas and Commerce:
 Benjamin Franklin's Narrative of the Late
 Massacres."

■ Talk, 3:45 p.m., Eisenhower Chapel.
 Memorial Lounge. Dr. Ruben Schindler,
 Bar-Ilan Univ. on "Integrating Ethiopian
 Jews into Israeli Society: Economic, Racial,
 Cultural and Religious Challenges."

School of Music, 6:30 p.m., HUB Ballroom.

Penn State Concert White Band.

College of Ag Distinguished Lecture Series, 8
 p.m., 101 Ag Sciences/Industries. Dr.
 Vernon W. Rutten, Univ. of Minn., on
 "Constraints on Agricultural Development:
 Into the 21st Century. Also lectures on April
 23, 8 p.m.; April 24, 11 a.m.

■ German Dept., film, 8 p.m., 108 Wartik.
Kolberg (1941).

Tuesday, April 23

■ AEG-Westinghouse Cultural Lecture, 4
 p.m., W342 Pattee (Rare Books Room).
 Frank Trommer, Univ. of Pa., on "Inventing
 the Enemy: German-American Cultural
 Relations 1900-17."

■ Art of Interpreting, 8 p.m., 112 Walker.
 Anthony Cutler on "The Significance of
 Byzantine Art."

Wednesday, April 24

School of Music, 8 p.m., Recital Hall. Penn
 State Symphonic Wind Ensemble.

Thursday, April 25

Bach's Lunch, 12:10 p.m., Eisenhower Chapel.
 Mozart Chamber Orchestra.

School of Music, 8 p.m., Recital Hall. Da Ponte
 Trio, with guest pianist Marylene Dove.

Friday, April 26

■ Penn State Ukrainian Club/Dept. of Slavic
 Languages, memorial service on 5th anniversary
 of Chernobyl disaster, 3 p.m., Eisenhower
 Chapel.

Geog. Coffee Hour, 4 p.m., 319 Walker. Roger
 Downs on "Sesame Street" Does

The Philadelphia Orchestra, conducted by Yuri Temirkanov, will present a concert at 8 p.m. Friday, April 26, in Eisenhower Auditorium.

Geography: A Big Birds' Eye View of Our
 Discipline

Shaver's Creek, 7:30-9 p.m., Pa. Folklore. Call
 863-2000.

School of Music, 8 p.m., Recital Hall.
 Saxophobia Quartet.

Center for the Performing Arts, 8 p.m.,
 Eisenhower Aud. Philadelphia Orchestra.

Saturday, April 27

Shaver's Creek, 8-11 a.m., Warbler Walk; Trail
 Stewards, 1-4 p.m. Call 863-2000.

66th Penn State Dairy Exposition, 8:30 a.m., Ag
 Arena.

School of Music, 8 p.m., Schwab Aud. Penn
 State Glee Club.

Sunday, April 28
 Sy Barash Regatta, 10 a.m.-5 p.m., Bald Eagle
 State Park.

Shaver's Creek, 2-4 p.m., Honey Factory. Call
 863-2000.

Center for the Performing Arts, 3 p.m.,
 Schwab. Chestnut Brass Co.

Carnegie Hall Film Series, 7 p.m., *Meet Me in
 St. Louis* (1944); 9 p.m., *Frenzy* (1972), 108
 Wartik. Free.

School of Music, faculty recital, 8 p.m., Recital
 Hall. Timothy Shafer, piano.

Conferences

Continuing Education

Keller Building

April 22-25, Pupyl Transportation Supervisors

Course: Jerri Milson, coordinator.
 Sherri Hendrick, chair; Jerri Milson, coordinator

April 24, High School Yearbook Seminar.
 Jerri Milson, coordinator.

April 24-26, Educational Secretaries
 Conference. Sherri Hendrick, chair; Kathy
 Karchner, coordinator.

April 27, Zoning Law and Administration.
 Jack Sinclair, coordinator.

Seminars

Thursday, April 18

Combustion and Propulsion, 9 a.m., 501
 Keller. Dr. Julian M. Tishkoff, Air Force
 Office of Scientific Research, on "AFOSR
 Supported Research in Turbulent
 Combustion."

Graduate Program in Ecology Seminar Series.

11 a.m., 105 Ferguson. O. James Reichenman,
 NSF, on "NSF Programs in the Division of
 Biological Sciences and Resources"; 3:45
 p.m., 8 Mueller, "Concepts of Food Caching
 Behavior: Analytical Models and Empirical
 Studies."

Gerontology Center Colloquia, 4-5 p.m., 106
 Mitchell. Cheryl Achterberg on "Does Age
 Make a Difference in Consumer Reaction to
 Nutrition Education Print Materials: A
 Cognitive Perspective."

Computer Science, 4 p.m., 325 Whitmore.
 Dexter Kozen, Cornell, on "A Completeness
 Theorem for Kleene Algebras."

■ History Colloquium, 4 p.m., Memorial
 Lounge Eisenhower Chapel. Dr. James M.
 Donovan on "Gender and the Death Penalty
 in France, 1825-1913."

Mechanical Engineering, 4 p.m., 103 Mech.
 Engr. Dr. Ferdinand Freudenstein,
 Columbia, on "Recent Developments in the
 Design of Mechanisms, Mechanical
 Components and Systems."

Friday, April 19

Agronomy, 3:35 p.m., 107 Ag
 Science/Industries. John Jemison on
 "Evaluating Nitrate Leaching Losses from
 Non-Manured and Manured Nitrogen
 Management Systems Using Zero-Tension
 Lysimeters."

Monday, April 22

Entomology, 3:35-4:45 p.m., 204 Patterson.
 Tim Friedlander, Univ. of Md., on
 "Identification of Genes Useful for
 Phylogeny Reconstruction in Lepidoptera."

Computer Science Colloquium, 4 p.m., 325
 Whitmore. Rafael H. Saavedra-Barrera,
 UC/Berkeley, on "CPU Performance
 Characterization Using an Abstract Machine
 Model."

EPF, 4 p.m., 319 Davey. Dr. Mark Strikman,
 Urbana, Ill., on "Probing QCD and Nuclear
 Structure in Quasi-Elastic Scattering of
 Neutrons."

Tuesday, April 23

School of Forest Resources, 11:10 a.m.
 Conference Room, Land/Water Research.
 Dr. Marc Abrams on "Fire and the
 Development of Oak Forest in Eastern
 North America."

Chemical Engineering, 2:45 p.m., 140 Fenske.
 Phillip E. Savage, Univ. of Mich., on
 "Reaction Pathways in Lubricant
 Degradation."

Ceosciences Colloquium, 3:45 p.m., 112
 Walker. Craig Kocheil, Bucknell, on

"Paleoclimatology of Fluvial Systems."
 Condensed Matter Physics, 4 p.m., 339 Davey.
 Mark Kiel.

Wednesday, April 24

Combustion and Propulsion, 9 a.m., 501
 Keller. Dr. Alan C. Eckbreth, United
 Technologies Research Center, on "Multi-
 Color Multiple Species CARS Techniques for
 Propulsion Applications."

Engineering Science and Mechanics, 3:35-4:30
 p.m., 315 Hammond. Dr. Eugene Wilusz,
 Army Natick RDE Center, on "Permeation
 Behavior of Protective Barriers in Chemical
 Warfare."

Thursday, April 25

Physics Colloquium, 3:30 p.m., 55 Osmond.
 Dr. Michael Turner, Univ. of Chicago, on
 "Formation of the Structure in the
 Universe."

Graduate Program in Ecology, 3:45 p.m., 8
 Mueller. Joseph Miller on "Landscape
 Patterns and Biotic Community
 Characteristics."

Friday, April 26

Agronomy, 3:35 p.m., 107 Ag
 Science/Industries. Laura Lengnick on
 "Seasonal Nitrogen Dynamics in a Corn
 Cropping Sequence Supplied with Organic
 and Inorganic Nitrogen Sources."

EPF, 4 p.m., 339 Davey. Dr. Steve Errede,
 Univ. of Ill., on "Recent Results from CDF."

 24-May 9

■ Reflects an international perspective

Focus on the arts

Continued from Page 6.

politics, as an enemy. It also reflects the politicization of the concept of culture as an important ingredient of international confrontations.

Odyssey on WPSU

The literary establishment is unwilling to give horror writer Stephen King the respect that he deserves, argues **Jim Smith** on the next episode of "Odyssey Through Literature," and greets Dr. Smith's scholarly analyses of King with "contemptuous derision or downright academic snobbery."

Talking with guest host Tom Beebe, Dr. Smith, a professor of English and American studies at the Penn State Gontz Campus, defends his right to teach and study King's works as literature.

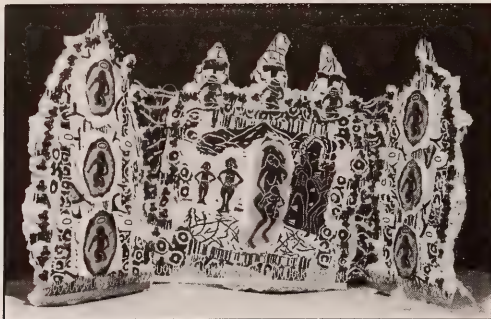

"Odyssey Through Literature" is produced by the Department of Comparative Literature in the audio-production studios of WPSU-TV. It airs Wednesdays at 12:30 p.m. on WPSU, 91.1 FM.

Wind ensemble

The Penn State Symphonic Wind Ensemble will perform its final concert of the year at 8 p.m. Wednesday, April 24, in the Recital Hall of the Music Building at University Park.

Joining conductor Smith Toulson will be Ned C. Deihl, conductor of both the Blue Band and Symphonic Blue Band, who will conduct a performance of Norman Delo Joto's "Variations on a Medieval Tune," a set of variations on the melody "In Dulci Jubilo."

The Symphonic Wind Ensemble will present trombonist Bruce Tychinski, winner of this year's Phi Mu Alpha

Craig Anzelcowlitz' book/triptych/collage is one of several of his mixed-media artworks on display in the "Bearing the Child God" exhibit opening April 25 in Zoller Gallery.

Concerto Competition, who will perform two movements from Launy Groendahl's "Concerto for Trombone."

The ensemble also will perform two works by Pennsylvania composers: "Masquerade" by Vincent Persichetti, and "From a Dark Millennium" by Joseph Schwaninger. Also on the program will be Reinhold Gliere's "Russian Sailor's Dance" and William Schuman's "When Jesus Wept."

Mixed-media works

An exhibition of mixed-media works by MFA degree candidates Bruce Fair and Craig Anzelcowlitz opens April 25 and runs through May 9 in Zoller Gallery at University Park.

Mr. Fair's portion of the exhibit is titled "Facing Center: A Jury of Your Peers" and incorporates paintings and drawings in a variety of media. Mr. Anzelcowlitz uses printmaking, papermaking, painting, collaging and writing to remove known images, objects or concepts from their original context.

Zoller Gallery, located in the Visual Arts Building, is open 9 a.m. to 5 p.m. Monday through Friday, 11 a.m. to 4:30 p.m. Saturday and noon to 4 p.m. Sunday.

Mozart orchestra

Penn State's Mozart Chamber Orchestra will perform in concert at 12:10 p.m. Thursday, April 25, in Eisenhower Chapel at University Park. The 20-minute concert is part of the Bach's Lunch Concert Series sponsored by the School of Music and the University Lutheran Parish.

The orchestra will perform a work by Johann Christian Bach, a son of J.S. Bach.

DaPonte String Trio

The DaPonte String Trio of Philadelphia, with guest pianist Marylene Dosse, will

perform in concert at 8 p.m. Thursday, April 25, in the School of Music Recital Hall at University Park.

The DaPonte Trio opens the program with Beethoven's String Trio opus 9, no. 1. Ms. Dosse will join the group to perform Piano Quartet opus 60 by Brahms and Schumann's Piano Quartet opus 47.

Ice Rhythms

Ice skating magic returns to the Ice Pavilion for the annual presentation of Ice Rhythms at 7:30 p.m. Friday, April 26, and Saturday, April 27.

This year, the program includes visiting national and international figure skating competitors. Eric Larson, 1991 Senior Men's U.S. Olympic Festival Champion and 1991 Senior Men's national and international competitor, and Kara Paxton and Brad Cox, who won the 1991 Junior Pairs National Bronze Medal and competed in the 1991 U.S. Olympic Festival, are feature performers.

The program also includes solo and group presentations by area professionals and skaters from student and public programs. It is directed by Dena Yeagley, director of ice skating at the University.

Advance tickets are available through April 25 at the Ice Pavilion or by mail for \$3.50 for students and children and \$5 for adults. Tickets purchased on April 26 and 27 will be \$4.50 and \$6. For more information, call (814) 865-4102.

Saxophobia to perform

Saxophobia, a saxophone quartet from the School of Music, will perform in concert at 8 p.m. Friday, April 26, in the Recital Hall of the Music Building at University Park.

The program will include a wide variety of music from the Baroque Scarlatti to a jazz piece by Phil Woods.

Several arrangements by members of the group also will be featured.

'Celebrate the Nations'

The Penn State Internationale Dancers will present "Celebrate the Nations" as the theme for the group's 13th annual spring concert at 7:30 p.m. Saturday, April 27, in Eisenhower Auditorium at University Park.

A dozen nations will be represented through dance, music and song during the two-hour concert. Highlights include the premiere of a Slovak dance suite, complete with hand-embroidered costumes made for the ensemble in Kosice, Slovakia, and a spoof on the French aristocracy of the 1800s and the infamous dancing salons of that era.

Other nations to be featured are India, China, Israel, Poland, Egypt, Bulgaria, Yugoslavia, the Ukraine, Greece and the United States.

Guest artists "Kavouriakia," a Greek band, will perform music from the Rebettika style of the early 20th century.

After the concert, the public is invited to meet the ensemble in Room 133 White Building. Light refreshments and dancing will be provided.

The Penn State Internationale Dancers is a 30-member ensemble sponsored by the Department of Exercise and Sport Science in the College of Health and Human Development. Elizabeth Hanley, assistant professor of exercise and sport science, is founder and director of the ensemble.

Tickets are available from Eisenhower Box Office (8:30 a.m. to 4:30 p.m. Monday through Saturday, 863-0255). General admission is \$6 and student tickets are \$5. For more information, contact Elizabeth Hanley at 863-3467.

Blue and White Concert

The Penn State Glee Club presents its 103rd annual spring Blue and White Concert at 8 p.m. Saturday, April 27, in Schwab Auditorium at University Park.

The Glee Club will premiere Bruce Trinkle's arrangements of the Irish folk song "The Lass of Aughrim" and "Wedding Chorus" from the opera "Beatrice et Benedict" by Hector Berlioz. Mr. Trinkle, associate professor of music, is the director of the group.

Also included in the program will be sacred selections by William Boyce, William Billings, John Taverer and Gregg Smith, along with Italian folk songs, American sea shanties and spirituals, Penn State songs and a "Whistling Medley" by Anthony Walts.

The Glee Club will be joined by the Penn State Women's Chorus to perform Mozart's "Ave Verum," written in 1791 and considered his most perfect short choral work. The two groups also will perform "The Best of All Possible Worlds" from Leonard Bernstein's "Candide."

Marcia Bonita will discuss and sign her recent books as the featured author of the Penn State Bookstore from noon to 2 p.m. Friday, April 19.

Appointments

Robert J. Bresler

Robert J. Bresler, professor of public policy at Penn State Harrisburg, has been appointed head of the Division of Public Affairs.

In his new position, Dr. Bresler will be responsible for the public affairs graduate and doctoral programs as well as the undergraduate programs in public policy and criminal justice. He also will oversee the activities of the College's Institute for State and Regional Affairs.

Dr. Bresler's diversified background includes his position as national affairs editor for the magazine *USA Today*. He is the author of four books on American government and has written many articles and essays on the subject.

Cathy Eck has been named wellness coordinator for Penn State Erie, The Behrend College.

She will oversee a project funded by the Department of Education to provide alcohol, drug and wellness programs for Penn State-Behrend students, faculty and staff.

She has a strong background in planning and program development. Recently, she returned from a three-year project in the Njombe District of Tanzania, where she worked in a wide range of community development projects.

The recipient of a master's degree in international studies from Johns Hopkins University, she is president of the Erie Tanzania Project, which provides support

Cathy Eck

for educational and economic betterment in the East African country.

Cazella H. Goodall has been named director of constituent relations in the Division of Development and University Relations.

She is responsible for the direction and coordination of relations with the University's philanthropic benefactors, including recognition events, pledge reminders, Mount Nittany Society and donor lists.

Mrs. Goodall had been serving in the College of Health and Human Development as coordinator of the Otis Media Project, where she was responsible for public relations, staff organization and constituent relations.

She is a 1970 graduate of Wilson College and was employed by Chase Manhattan Bank as an assistant treasurer and also by Marine Midland Bank.

She is active in many civic and community service organizations in Centre County. She is past president of the Centre County Law League and past president of the Childbirth Education Association.

Debbie P. Jackson has joined the staff of Penn State Harrisburg as a student support counselor.

In this capacity, she is responsible for developing, coordinating and implementing service oriented programming. She also

Debbie P. Jackson

provides assistance to minority, adult, disabled, international and other student populations.

Mrs. Jackson holds a B.S. in business administration/management from Kutztown University, where she was the founder and president of Delta Alpha Phi Sorority, and member of the Student Government Board.

She is a member of the Pennsylvania College Personnel Association and American College Personnel Association.

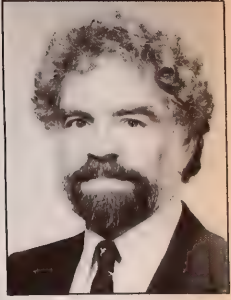

Ann Saxton, coordinator of workshops and special programs in the Office of Continuing Education at the Penn State Wilkes-Barre Campus, has been named area representative for continuing education at the campus.

She will be responsible for linking education and training resources of the University to area organizations.

A graduate of East Stroudsburg University with a B.S. degree in elementary education, she is a member of the National University Continuing Education Association, the Continuing Education Association of Pennsylvania, and the Luzerne County Council on Adult Higher Education.

Robert A. Schlegel, professor of molecular and cell biology, has been named head of the Department of Molecular and Cell Biology.

Dr. Schlegel succeeds **Jean Brenchley**,

Robert A. Schlegel

professor of microbiology, who stepped down as department head in 1987.

Reginald Deering, professor of biophysics, served as acting head from 1987 to 1989, and **Robert Bensch**, professor of biochemistry, was acting head from 1989 until Dr. Schlegel's appointment.

Prior to joining the University faculty as an assistant professor in 1976, Dr. Schlegel held postdoctoral positions at the Water and Eliza Hall Institute of Medical Research in Melbourne, Australia, and at the University of Utah. He earned a bachelor's degree in chemistry at the University of Iowa and master's and doctoral degrees in biochemistry and molecular biology at Harvard University.

He served as chair of the Eberly College of Science's Molecular and Cell Biology program from 1989 to 1990. Honored with the International Union Against Cancer Travel Award in 1988, he was an American Heart Association Established Investigator from 1983 to 1988 and a Jane Coffin Childs Postdoctoral Fellow from 1971 to 1974.

A council member of the International Cell Cycle Society and the International Society for the Use of Resealed Erythrocytes as Carriers and Bioreactors, Dr. Schlegel also is a member of the American Society for Cell Biology and the American Heart Association's Basic Science Council.

Noted agricultural economist to open lecture series

Vernon Ruttan, Regents' professor of economics and agricultural economics at the University of Minnesota, will be the premier lecturer in the College of Agriculture Distinguished Lecture Series, April 22-24, at University Park.

The series is designed to bring to Penn State a world-class scientist to interact with our faculty, staff and students, and the community." **Lamartine F. Hood**, dean of the College of Agriculture, said. Dr. Ruttan is a highly respected agricultural economist,

scientist and educator who will bring significant prestige to the series."

Dr. Ruttan says the world is completing one of the most dramatic transitions in the history of agriculture.

"Prior to this century, almost all the increase in food production was obtained by bringing new land into production. By the first decade of the next century, almost all increases in world food production must come from higher yields and more

intensive cultivation of areas already used for agricultural production."

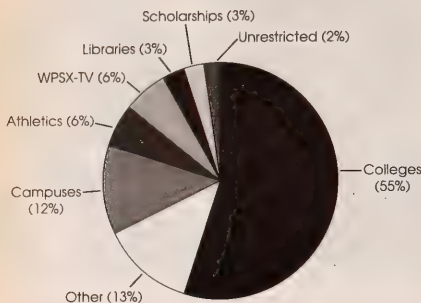

Dr. Ruttan says, as we move into the second decade of the 21st century, conventional technology will be inadequate to sustain the expected increase in food demand. But to take advantage of scientific advances in microbiology and biochemistry, we must reorganize the way we do agricultural research.

He will address these and other topics in three lectures to be held in 101 Agricultural

Sciences and Industries Building. At 8 p.m. April 22, he will present "Constraints on Agricultural Development: Into the 21st Century." April 23 at 8 p.m. he will discuss "Induced Technical and Institutional Innovation." His final lecture, at 11 a.m. April 24, is titled "Ethical Responsibility in Agricultural Research."

Admission is free. Informal receptions will follow the evening lectures, which are open to public.

Penn State 1989-90 Faculty and Staff Annual Giving by designation

This chart shows how faculty/staff contributions to the 1989-90 Faculty and Staff Campaign were distributed, based on employee designations. The 1990-91 campaign materials were mailed to University Park faculty and staff the week of March 18. Faculty and staff members are reminded to return responses as soon as possible. The campaign runs through May.

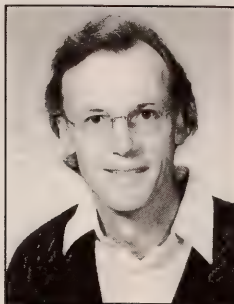

Pattishall award recipient will deliver honorary lecture

Alexander von Eye, professor of human development, will deliver an honorary lecture, "Asymmetry in Correlation and Symmetry in Regression" at 8 p.m. Thursday, April 25, in the HUB Assembly Room at University Park.

Dr. von Eye is a 1991 recipient of the Evan G. and Helen G. Pattishall Outstanding Research Achievement Award from the College of Health and Human Development. The award recognizes a college faculty member for outstanding research contributions occurring or culminating within the past several years.

A methodologist, Dr. von Eye is internationally regarded for his work in developing, refining, and applying methodologies in developmental research, and for his research in adult development and aging.

He has published six scholarly books on statistical methods for developmental research. He focuses particularly on the use of categorical variables—variables that describe individuals using distinct categories rather than continuous scales. (Interest profiles and psychiatric diagnoses are examples of categories.) Dr. von Eye has been a faculty member in the Department of Human Development and Family Studies since 1985. Previously,

Alexander von Eye

he was an assistant professor and research scientist at the University of Trier, Germany.

The research award was endowed by Evan G. Pattishall Jr., dean emeritus of the former College of Human Development, and his wife, Helen, a 1985 graduate of the college.

News in Brief

Risk Theory Seminar

Top researchers in insurance from Europe and across the United States will gather at Penn State for the 1991 Risk Theory Seminar, April 19-21.

It will be the first time in the seminar's 26-year history that the event will be held at the University. A program of the American Risk and Insurance Association, the exclusive seminar brings together some 35 insurance experts who qualify for participation by successfully defending a paper before their peers.

The 1991 Risk Theory Seminar is coordinated by Arnold F. Shapiro, holder of the Robert G. Schwartz Fellowship of Business Administration and a faculty member in The Smeal College of Business Administration.

Livestock exposition

The 74th Little International Livestock Exposition will be held Saturday, April 20, at the Ag Arena, across from Beaver Stadium at University Park. The free event is sponsored by the Block and Bridle Club.

The event, nicknamed the "Little I," gives students a chance to compete for awards and display their skills at grooming, preparing and showing beef cattle, sheep, swine and horses. All the animals in the show are from livestock herds maintained at Penn State.

This year's Little I is dedicated to Keith Bryan, instructor in dairy and animal science, in recognition of his outstanding service to the Block and Bridle Club and other student activities.

Lecture on China

Daniel Southerland, *Washington Post* correspondent assigned to Beijing from 1985 to 1990, will give a lecture titled "Tiananmen and China Through a U.S. Reporter's Eyes" at 7:30 p.m. Monday, April 22, in Room 101 of the Kern Graduate Commons at University Park.

While in China with the *Post*, Mr. Southerland was bureau chief with the responsibility for coverage of China, Hong Kong, and Taiwan.

His lecture is sponsored by the Center for East Asian Studies and the student-run East Asian Studies Society. For further information, contact the Center at 865-1698 or 863-0970.

Sigma Xi initiation

Sigma Xi, The Scientific Research Society, will hold its spring initiation ceremony at 3:30 p.m. Wednesday, April 24, in the Assembly Room of the Nittany Lion Inn at University Park. The ceremony will mark the first time that undergraduates have been admitted to the Penn State Chapter.

Sigma Xi Distinguished Lecturer

Melvin Kranzberg will give the initiation address, "Technology is the Answer, But That's Not the Question." A reception will follow in the Fireside Lounge. All Sigma Xi members are invited.

Dairy exposition

The 60th Penn State Dairy Exposition will be held Saturday, April 27, beginning at 8:30 a.m., in the Ag Arena at University Park.

Sponsored by Penn State's Dairy Science Club, the day-long event gives students practical experience fitting and showing university dairy cattle. More than 60 students drew their cows by lottery last month and have spent the last few weeks preparing their animals for the competition.

This year's expo is dedicated to Dieter Krieg, editor and publisher of *Farmshine*, a weekly newspaper that devotes much attention to dairy issues in Pennsylvania. Mr. Krieg, a Penn State dairy science graduate, was chosen in recognition of his support of the Commonwealth's dairy industry and Penn State's dairy programs.

Pattie Library hours

Normal hours for Pattie Library at University Park have been extended for final exam week as follows:

Friday, May 3: Reserve and East

Pattie (floors 1-4) will remain open until midnight; Saturday, May 4: All areas that are normally open on Saturday will open at 8 a.m. Reserve and East Pattie (floors 1-4) will remain open until midnight; Sunday, May 5: All areas that are normally open on Sunday will open at 9 a.m. Reserve and East Pattie (floors 1-4) will remain open until 2 a.m.

Monday, May 6 through Thursday, May 9: Reserve and East Pattie (floors 1-4) will remain open until 2 a.m.; Friday, May 10: Reserve and East Pattie (floors 1-4) will remain open until midnight; Saturday, May 11: All areas that are normally open on Saturday will open at 8 a.m. and close at 5 p.m.

For further information, regarding Pattie's normal hours of service, please call 865-3063.

UTS final exam hours

The Spring Semester final exam period runs from Monday, May 6, through Saturday, May 11. University Testing Service will be open to receive work from 8 a.m. to 5 p.m. on Monday through Friday. On Saturday, May 11, hours will be 9 a.m. until 1 p.m.

Please submit recording rosters before finals, if possible. Recording rosters submitted during finals receive a lower work priority than jobs on answer sheets.

Space flight research

Penn State/Soviet study shows space flight selectively depresses the immune system

Exposure to near weightlessness in space has differing effects on T-cells, depending on the cells' location in the body, a Penn State/Soviet team has concluded.

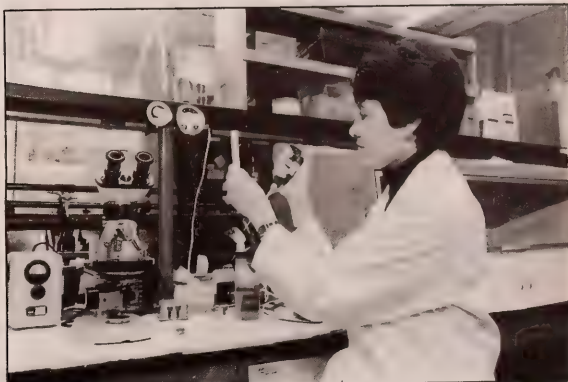

T-cells are the white blood cells that are the immune system's "search and destroyers."

European researchers had previously reported that space travel decreased one aspect of human immunity because microgravity depressed the rate at which T-cells taken from astronauts' blood multiplied. However, a Penn State/Soviet team did not find a similar effect in T-cells taken from the lymph nodes of five rats flown for two weeks aboard the Soviet Biosatellite Cosmos 2044 mission.

The Penn State/Soviet study was the first to examine microgravity effects on the immune system using lymph nodes. The Penn States were **Andrea Mastro**, professor of microbiology and cell biology, and **Patricia Nash**, research technician. The Soviets included two teams from the Soviet Academy of Medical Sciences in Moscow, **Irena Konstantinova** and **Andre Lesnyak**, Institute of Biomedical Problems, and **Boris Fuchs** and **Alexander Rakhmilovich**, Institute of Human Morphology.

The results have been accepted for publication in the *Journal of Applied Physiology*.

Dr. Mastro noted that less than 1 percent of the T-cells circulate in the blood. Most T-cells

Andrea Mastro (Photo: Greg Grileco)

reside in the lymph nodes and spleen. A team of Soviet researchers examined spleens from Cosmos 2044 rats and found effects similar to those found in T-cells taken from human blood.

She believes that all of the blood, spleen and lymph node data taken together indicate that microgravity has an effect on the immune system. However, "there's no answer yet to the question of how far reaching that effect is, or how important it would be in the very stressful situation that spaceflight represents," she said.

Dr. Mastro speculated that the difference observed in tissue-based cells versus those circulating in the blood could signal the ability of the immune system to adapt to spaceflight.

"It could mean that if we had looked at the lymph nodes after a shorter period of exposure to microgravity, we would have seen an effect," she added.

Dr. Mastro also is associate director of the University's Center for Cell Research, a NASA

Center for the Commercial Development of Space. She noted that eventually the immune system's response to microgravity might be used as a model for aging and the lowered immunity suffered by some cancer patients and those with AIDS.

"As people age, aspects of their immune response decrease very much like the effects seen in space," the University researcher said. "Some of the other effects of space, including bone loss and muscle atrophy, are also very similar to aging. So we may be able to think of space as a way to get a 'fast peek' at aging."

In cooperation with industry, Center for Cell Research scientists investigate whether the biological changes caused by microgravity mimic earth-based medical conditions closely enough to be used to evaluate potential new therapies.

— Barbara A. Hale

"As people age, aspects of their immune response decrease very much like the effects seen in space. Some of the other effects of space, including bone loss and muscle atrophy, are also very similar to aging. So we may be able to think of space as a way to get a 'fast peek' at aging."— Andrea Mastro

Staff Vacancies

The following vacancies for positions classified as staff exempt or staff nonexempt have been listed with the University Employment Division for filling. The brief statements for each vacancy are illustrative. They are not complete position descriptions. APPLY BY CALLING THE EMPLOYMENT DIVISION, 863-0304 (NETWORK LINE 433-0004). Applications for these staff vacancies will be accepted until April 25. DO NOT CONTACT THE AREA THAT HAS THE VACANCY. Applicants for staff vacancies are considered in accordance with Fair Employment practices (FEI) and in compliance with the University's Affirmative Action Compliance Program without regard to race, color, religion, national origin, handicap or age (as provided by law), sex, or status as a disabled or Vietnam era veteran.

***01439. Journals Manager, Senior Vice President for Research and Dean of the Graduate School, University Park Campus** - Responsible to the director, University Press, for the general administration, editing and production, subscription, and marketing activities associated with management and operation for the Press. Requires bachelor's degree or equivalent, plus one to two years of effective experience in journal, magazine, or book publishing. STAFF GRADE 6.

***01440. Contracts and Proposals Specialist, Senior Vice President for Research and Dean of the Graduate**

School, Sponsored Programs and Contracts Office, University Park Campus - Responsible to the associate director for meeting the requirements of the University and the various Federal agencies with respect to the preparation and submission of proposals. Requires bachelor's degree, or equivalent, in business with some accounting training plus over four years up to and including seven years of effective experience. Familiarity with University and governmental accounting procedures and policies desirable but not required. STAFF GRADE 8.

***01441. Group Supervisor, Health and Human Development, Human Development and Family Studies, University Park Campus** - Responsibilities include planning and supervising activities for preschool children, ages 2 1/2-4, planning and coordinating a parent involvement program supervising University preprogram students and classroom assistants. Requires bachelor's degree in early childhood education, child development or appropriate field and at least two years' relevant experience. A master's degree is preferred. STAFF GRADE 5.

***01442. Assistant Director of Business Services, Ogonic Campus, Business Services** - Responsible to the director of business services for providing administrative and operational support in all aspects of the Business Services operations. Requires bachelor's degree, or

equivalent, in administration of justice, engineering, business administration, or related field plus one to two years of effective experience. STAFF GRADE 6.

***01443. Administrative Assistant, Behrend College, Plastics Technical Center** - Responsible to the director, Plastics Technical Center, for monitoring instructional and research budgets, assisting in grant proposals, providing liaison between the Center and clients, and general office management for the Center. Requires associate degree, or equivalent to two years of college, plus two to four years of effective experience in office management, budget coordination etc. This is a fixed-term position funded for six months. STAFF GRADE 5.

Hershey

For the following position vacancies, apply directly to The Milton S. Hershey Medical Center. Attach resume with cover letter indicating the position, vacancy code and forward to the Department of Human Resources, Hershey or call the Hershey bid line at (717) 531-8531 by April 25.

***17375. Emergency Medical Services Coordinator, Department of Emergency Medical Services** - Responsible to the assistant manager of pre-hospital and light services, for the coordination of public relations programs for Life Lion, continuing education and training of light team and pre-hospital

providers. Requires a bachelor's degree or equivalency plus one to two years of effective experience. Certification as a paramedic or health professional in advanced cardiac life support and pediatric advanced life support required. STAFF GRADE 5.

***19915. Clinical Head Nurse, Department of Nursing/Pediatrics** - Responsible to the nursing manager and/or the assistant director of nursing services for performing a variety of nursing duties, as well as providing leadership to nurse clinicians and other patient care personnel. Requires a registered nurse with a current license to practice professional nursing in Pennsylvania, plus one to two years of effective nursing experience. BSN preferred. STAFF NONEXEMPT, GRADE 5.

***19973. Clinical Head Nurse, Department of Nursing/Obstetrics** - Responsible to the nursing manager and/or the assistant director of nursing services for performing a variety of nursing duties, as well as providing leadership to nurse clinicians and other patient care personnel. Requires a registered nurse with a current license to practice professional nursing in Pennsylvania, plus one to two years of effective nursing experience. BSN preferred. STAFF NONEXEMPT, GRADE 5.

***17383. Psychiatric Social Worker II, Department of Inpatient Psychiatry, Division of Geriatric Psychiatry** - Responsible to the unit director, Department of Psychiatry, for provision of the psychiatric social work services within the unit and serves as part of the mental health team in providing counseling for mentally and emotionally disturbed patients and their families. Requires a master of social work degree from an accredited college or university or equivalency plus 1-2 years of effective experience. STAFF GRADE 6.

***17385. Medical Social Worker II, Department of Social Services** - Responsible to the social services coordinator for providing inpatient and outpatient medical social services practical help, and emotional support to patients and their families. Requires a master of social work degree from an accredited college or university, or equivalency plus 1-2 years of effective experience. STAFF GRADE 6.

***17386. Hospital Mortician, Department of Anatomic Pathology** - Responsible to the chief, Mortuary Services and Surgical Pathology Laboratory, and handling details associated with patients' deaths. Two years of college plus successful completion of a program offered by a certified school of mortuary science, a Pennsylvania State Funeral Director's License, plus 1 to 2 years effective experience required. STAFF GRADE 6.

Bookshelf

Alan A. Block, professor of administration of justice, is the author of *Masters of Paradise: Organized Crime and the Internal Revenue Service in The Bahamas*, published by Transaction Publishers, Rutgers University, New Brunswick, N.J.

Masters of Paradise is the story of organized crime's penetration of the islands and the corruption of its high officials during the time The Bahamas became politically independent of Great Britain.

It describes secret U.S. Internal Revenue Service operations aimed at American criminals involved in Bahamian-based tax scams and similar crimes.

"The main links in international cocaine traffic were forged in the Bahamas in the 1960s and 1970s in full view of American law enforcement officials," Dr. Block says. "Because the IRS failed to act decisively then, drug-smuggling has grown enormously with the help of a sophisticated financial infrastructure."

Masters of Paradise discusses Operation Tradewinds and Project Haven, secret IRS investigations designed to gather information on American criminal activities in the Bahamas.

Undeclared War: Twilight Zone of Constitutional Power, by **Edward Keynes**, professor of political science, has been re-issued in a

paperback edition

"After only three days of debate, the Congress voted reluctantly to authorize President Bush to use military force to carry out U.N. Security Council Resolution 678," Dr. Keynes says. "Caught between constituency pressure and a sense of duty to support the president, both Democratic and Republican leaders left their cohorts free to 'vote their conscience.'"

However, long before the Congress voted to support the president, Americans were entitled to a debate of the foreign policy decisions leading to war, he adds.

Since 1979, Dr. Keynes says, every American president has evaded the requirements of the War Powers Act of

1973 by labeling the troops as "a peace-keeping force."

In *Undeclared War*, he thoroughly analyzes all the legal challenges to President Johnson's conduct of the Vietnam War in light of British constitutional history, the framing of the American Constitution, and judicial decisions from 1800 through the Korean War.

He contends that the Supreme Court has led the nation into the "twilight zone of concurrent power" - encouraging the legislature and the executive to fuse their separate powers of war and defense into a national war power whose only standard is the extraconstitutional one of success on the battlefield."

INTERCOM is published weekly during the academic year and every other week during the summer. It is an internal communications medium published for the faculty and staff of Penn State by the Office of Public Information, Room 312, Old Main, Phone 865-7517.

Senate expresses 'displeasure' over travel changes

In a unanimous vote taken April 10, the University Faculty Senate approved a resolution expressing its "displeasure and disappointment over the recently announced changes in University travel policy."

The Senate Council measure, presented by Philip A. Klein, liberal arts Senator, states, in part: "(The Senate urges that all policies pressuring faculty, staff or graduate students to use selected travel agencies within any campus area be rescinded forthwith until the travel policy can be rescinded with Faculty Senate participation."

Dr. Klein noted that all faculty members are interested in "maximizing the travel we get for our travel dollars, but it is not clear that lower fares are obtained through the two preferred travel agencies (Omega World Travel and Center for Travel).

"The case for new travel restrictions has not been made convincingly to the faculty. My basic economics tells me that monopolies stifle competition," Dr. Klein, professor of economics, said.

During the 1990-91 academic year, the Senate has been concerned with changes and proposed changes in travel policies. On

Jan. 22, Senators passed a resolution opposing "any University policy that would mandate the use of preferred travel agencies by faculty and staff traveling on University business."

As a result, Travel Services withdrew its proposal insisting on faculty/staff use of mandated travel agencies. In its place, Travel Services announced a plan to implement a direct-billing system and to limit the use of cash advances for travel to faculty/staff using the preferred agencies. Faculty/staff using other travel agencies do not receive reimbursement for travel until they return from their trip.

"It is clear that Travel Services, despite all the protests and the debate in the Senate, has no intention of giving up its general approach, which is to favor two travel agencies. Their most recent policy revisions (announced March 6) are contrary to the spirit and intent of the Senate's resolution," the Senate Council report states.

In other action:

— the Senate approved legislation to modify policies governing enrollment of high school students in credit courses.

Among other things, the revised policy eliminates the need for the applicant to specify that the content of the coursework is not available at the student's high school.

— the Committee on Commonwealth Campuses/Continuing Education reported on retention and retention of minority students at campuses other than University Park. The committee found that campuses in rural locations with relatively small minority populations are able to recruit minority students at a level equal to or greater than that of the general population. Availability of campus housing impacts on the success of recruiting minority students, the committee found.

— the Committee on Faculty Affairs' report on note-taking services, which recommended the University administration develop a policy statement on the educational objectives of note-taking and the legal parameters of note-taking in an educational setting, was approved.

— the Committee on Student Life reported on the Commonwealth Educational System Enhancement Fund and provided a written report on Ernest L. Boyer's *Campus Life: In Search of Community*.

— James Smith announced election results for the 1991-92 Senate.

Senate officers: **James Smith**, liberal arts, Penn State Ogonitz Campus, chairperson-elect; **Robert Pangborn**, engineering, secretary.

Faculty Advisory Committee to the President: **Donald Rung**, science.

Faculty Rights and Responsibilities: University Park faculty — **Judd Arnold** and **Deborah Atwater**, liberal arts; **Gary Fosmire**, health and human development (alternate); non-University Park faculty — **Cara-Lynne Schengrand**, biochemistry, Hershey; deans — **John Brighton**, engineering; **Anne Petersen**, health and human development (alternate).

Standing Joint Committee on Tenure: **Louis F. Geschwindner**, engineering; **Kevin J.H. Berland**, liberal arts (alternate).

University Promotion and Tenure Review Committee: **Gerard A. Hauser**, liberal arts; **Robert J. Heinsohn**, engineering; **Shirley Marchalonis**, liberal arts; **Peter A. Throver**, earth and mineral sciences.

Sculptures dedicated

Internationally renowned artist-philosopher Frederick Franck speaks at dedication ceremonies on Friday, April 19, for three of his outdoor sculptures installed at University Park. Two of the sculptures are at Eisenhower Chapel and the third is at the Materials Research Laboratory. See story and photo on page 4. (Photo: Greg Grieco)

Research Initiation Grants are awarded to faculty members

Twenty-one faculty members have been awarded one-year Research Initiation Grants. The awards were made from the program which was established to encourage and support research and other creative work by new faculty.

Faculty members awarded grants and the grant titles are: **Kevin D. Alloway**, assistant professor of neuroscience and anatomy, "Thalamocortical Interactions in the Rat"; **Ali Borhan**, assistant professor of chemical engineering, "Evolution of Microstructure in Melt Processing of Bimetallic Composite Materials"; **Altai H. Carim**, assistant professor of ceramic science and engineering, "Advanced Specimen Preparation Techniques for Transmission Electron Microscopy (TEM)"; **Ying-Ying Chien**, assistant professor of comparative literature and women's studies, "Metamorphoses of the 'New Women': Western Feminism and Modern Chinese Literature"; **Robin Ciardullo**, assistant professor of astronomy, "CCD Photometry

See "Research" on page 2.

Focus on Diversity

Diversity Opportunities Calendar

Friday, April 26

Paul Robeson Cultural Center, 8 a.m. to 5 p.m., Robeson Center Gallery. Photographic exhibit: "Women of Courage," through May 8.

Men of Color of Central Pennsylvania, 5:30 p.m., Days Inn Hotel. Monthly social. For information, contact Aaron Singleton, 865-7517.

Tuesday, April 30

Professional Women at Penn State, 11:45 a.m. to 1 p.m., Frizzell Room, Eisenhower Chapel. Brown bag lunch meeting.

Wednesday, May 1

International Programs, 3:30 p.m., 222 Boucke. Reception for international exchange students and education abroad participants.

Thursday, May 2

Women of Color, noon, Nittany Lion Inn. Monthly luncheon meeting. For information, contact Vicki Gong, 865-7517.

'Conscious, Concerned and Committed'

Taking part in "Conscious, Concerned and Committed," an open forum at University Park sponsored by the Black Caucus, are, from left, Grace Hampton, vice provost; Cynthia Baldwin, president of the Penn State Alumni Association; and Cecile Springer, member of the University's Board of Trustees. (Photo: Greg Grieco)

Paintings donated to Robeson center

Three pastel paintings have been donated to the Paul Robeson Cultural Center by artist Shirley Bernreuter.

Ms. Bernreuter is a Penn State class of 1933 graduate. State College resident and wife of Robert Bernreuter, Penn State vice president for student affairs emeritus who retired in 1966.

The untitled paintings are portraits of Black American/African-American former Penn State students.

Lawrence W. Young, Paul Robeson Cultural Center director, said the paintings will be displayed permanently in the center's gallery along with paintings by nationally known Penn State-connected artists Robert Wilder, John Biggers, Richard Mayhew and Murray DePillars.

Photo: Greg Grieco

Art collection

A collection of African-American art by artists Jenae Williams, Gathoni Kamau, Bruce Fair, Leah Finch, Susan Lashley, Darrel Johnson, Beverly McIver, and Dori Lemeh is on display through May 12 in Pattee Library's African-American Studies Room.

WPSX-TV program

For decades, there has been a controversy over who actually discovered the North Pole. It was widely believed that Robert Peary, a white admiral, made the historic discovery. However, recent findings indicate that Matthew Henson, the Black American explorer who accompanied Peary's expedition, got there first.

On Tony Brown's Journal, airing at 11:30 a.m. Sunday, April 18, Allen Counter,

The exhibit includes works of various artistic styles, with paintings and sculptures made from acrylic, graphite, pastel, mixed media, watercolor, metal, and oil. Portraits of black women in black and green cloth; a detailed pencil, pen and ink map of Africa, and a gold metal abstract sculpture are just a few of the works on display.

author of *North Pole Legacy: Black and White and Eskimo*, addresses the controversy.

Faculty/Staff Alert

Holiday schedule

The Memorial Day Holiday will be observed officially by the University on Monday, May 27. Independence Day falls on Thursday, July 4. Classes will not be in session on either of those days.

Research

Continued from page 1.

of Planetary Nebulae Nuclei with Penn State's Black Moonborn Telescope".

Premal Desai, assistant professor of electrical engineering, "Adaptive Trajectory Control of Robot Manipulators"; **Bertrand D. Eardly**, assistant professor of science, "Estimating the Genetic Structure in Diverse Natural Populations of *Rhizobium*";

Gregory K. Farber, assistant professor of chemistry/molecular and cell biology, "Evaluating the Laue Method of Data Collection Using Firefly Luciferase"; **Charles Fisher**, assistant professor of biology, "Ecological Physiology and Growth of *Teuconia vermiculata*, a Hydrothermal-

Vent Tube-Worm"; **Jawaid Haidar**, associate professor of architecture, "Children's Museums: An Inquiry into Issues in Architectural Design"; **William E. Higgins**, assistant professor of electrical and computer engineering/bioengineering, "Automatic Generation of Image Segmentation Processes for 3-D Medical Images"; **Patricia Lyons Johnson**, assistant professor of anthropology and women's studies, "Nutrition and Fertility Among the Gaij of Papua New Guinea"; **Nirmalya Kumar**, assistant professor of marketing, "The Nature of Reseller Commitment: Its Antecedents and Consequences"; **Jonathan Lynch**, assistant professor of plant nutrition, "Photosynthetic Nitrogen Use Efficiency in Wild Beans"; **Romolo Martemucci**, associate professor

of architecture, "Biagio Rossetti: Modern Architectures First Urbanist"; **Peter K. Rogan**, assistant professor of pediatrics, "Mechanism of Genomic Rearrangement in the Prader-Willi Syndrome"; **Peggy Seiden**, associate librarian, "Developing an Infrastructure for Cataloging Information Resources Available Through National Networks"; **Barbara A. Shaw**, assistant professor of engineering science and mechanics, "An Environmentally Safe Biofueling Control Method Utilizing Surface Shear Waves Generated by Piezoelectric SAW Devices"; **Mark Stonking**, assistant professor of anthropology, "Molecular Genetic Variation in Amerindian Populations"; **S. Thomopoulos**, associate professor of electrical engineering, "Direct Adaptive

Robust Control: A Novel Specification-Based Design Approach"; and **Hanna Van Campen**, assistant professor of veterinary science, "Endothelial Cell Resistance to Injury by Endotoxins".

Partings

Clara A. Packer, guest room attendant at the Nittany Lion Inn, from Dec. 1, 1966, until March 30.

James A. Dean, maintenance and repairman at the Nittany Lion Inn, from April 24, 1955, until March 30.

Willard E. Reearick, plumber-fitter, Office of the Physical Plant, from Aug. 21, 1972, until April 20.

Harvard professor will give Chemerda lectures

Richard C. Lewontin, Alexander Agassiz professor of zoology at Harvard University, will give the 1991 Chemerda Lectures in Science April 29 through May 1 at University Park. The four-lecture series, titled "Contingency and Necessity in Evolutionary Change," is sponsored by the Eberly College of Science and is free to the public.

The schedule: "The Ambiguity of Proteins," 8 p.m., Monday, April 29, 112 Buckhout Laboratory; "Breaking the Impasse with DNA," 4 p.m., Tuesday, April 30, 8 Mueller Laboratory; "Studying the Diversity of Evolutionary Scenarios," 4 p.m., Wednesday, May 1, 8 Mueller Laboratory; and "Biology as a Social Weapon," 8 p.m., Wednesday, May 1, 105 Forum Building.

Dr. Lewontin is well known for his work in three areas, including classical population genetics, molecular population genetics, and the philosophy of science and its social implications. His 1974 book, *The Genetic Basis of Evolutionary Change*, was an inspiration for a generation of evolutionary geneticists and is now considered a classic in illustrating the depth of evolutionary thought.

He has spearheaded the effort to understand evolution by examination of "variation" among individuals in DNA sequence.

Dr. Lewontin has been a Fellow of the American Academy of Arts and Sciences since 1965 and a member of the American Eugenics Society's board of directors since 1966. From 1968 to 1971, he was a

member of the National Academy of Sciences. He served as president of the American Society of Naturalists from 1982 to 1983 and as president of the Society for the Study of Evolution from 1969 to 1970. In 1980, he was a visiting professor at the College de France.

He holds a bachelor's degree from Harvard and master's and doctoral degrees in zoology from Columbia University. The University of Paris presented him with an honorary doctorate of science degree in 1983.

The Chemerda Lectures in Science are named in honor of John M. Chemerda, a member of Penn State's class of 1935. The lectures are supported by a grant from Merck & Co. Inc., made in connection with an award conferred upon Mr. Chemerda by Merck's board of directors.

Richard C. Lewontin

News in Brief

Seminar on rural hospitals

John Seavey, associate professor of health management and policy, University of New Hampshire, will speak on "Small Rural Hospitals and the Elderly" at 2 p.m. Wednesday, May 1, in E101 Henderson Building at University Park. His presentation is sponsored by the Center on Aging and Health in Rural America and the Center for Health Policy Research.

Open house

The Center for Academic Computing invites interested faculty and staff to an open house at the Computer Building at University Park from 9 a.m. to 4 p.m. Wednesday, May 1.

The open house features two new initiatives: The CBEL-Teaching and Learning Technologies Group in newly-renovated quarters, and the opening of the Center's new Workstation Evaluation Laboratory.

CBEL staff will be demonstrating some of the latest teaching and learning products and capabilities, including interactive videodisk, HyperCard, ToolBook, and multi-media productions.

Speech and hearing screenings

To aid in prevention of communication disorders, the Speech and Hearing Clinic will be holding free speech, language and hearing screenings from 1 to 7 p.m. Friday, May 3, and from 9 a.m. to 5 p.m. Saturday, May 4. The screenings are being co-sponsored by the Pennsylvania Department of Health's Hearing and Speech Program and the State College Kiwanis Club in honor of Better Speech and Hearing Month.

The speech and language screenings will be conducted for preschool children and the hearing screenings will be conducted for children birth to 21 years of age. Appointments can be made by calling the Clinic at (614) 865-5414.

For further information, contact Patti

Hergenreder, project coordinator, at (614) 863-2017.

First DUS scholarships

For the first time in its eighteen-year history, the Division of Undergraduate Studies (DUS) has recognized its leading students with scholarships. **Stacey Bronstein** and **Christopher Mahdik**, University Park Campus; and **Susan Kapalko** and **David Knighton**, Worthington Scranton Campus, have each received a \$250 award and a certificate of recognition.

The 1990-91 DUS scholarships were made possible by a gift from *La Vie*, the Penn State yearbook.

Candidates for the scholarships were full-time sophomores enrolled in the division who spent at least one semester in DUS during their freshman year. The recipients were selected on the basis of their academic achievement and leadership in Penn State and community activities.

Healthpass chairman

John E. Madewell, chairman of the Department of Radiology at the Hershey Medical Center, has succeeded **John A. Waldhausen** as chairman of the Healthpass Inc.

As board chairman, Dr. Madewell will provide administrative direction to the various business activities of Healthpass Inc.

Research subjects sought

George Havenith, visiting scholar from the Netherlands, is investigating the effects of age and fitness on the physiological reactions to work in the heat.

He needs several subjects - males and females between the ages of 30 and 75, from unfit to fit, lean to obese - to participate in an experiment. Participants will receive a free physical examination and undergo a graded exercise test to determine their cardiovascular condition.

In addition to the physical, participants will visit Noll Lab at University twice: for a two-hour heat exposure test and a half-hour underwater-weighing procedure.

For more information, call Noll Lab at 863-0045 or W. Larry Kenney at 863-1672.

Preschoolers sought

Preschoolers between the ages of 2 and 5 and their parents are needed to participate in a consumer taste test of American cheese slices. The test will be held at the Department of Food Science at University Park and will only take about 20 minutes to complete.

Both parent and child will receive a coupon for a free ice cream cone at the Creamery. If interested, please call Sally Zimmerman at 863-7783 between 10 a.m. and 2 p.m. Monday through Friday.

Summer ideas for school-agers

The Summer School-age Child Care Program listing is now available. The publication includes information on child care, summer camps, park and special training programs on the University Park Campus and in surrounding areas.

The listing is available by calling: Child Care Program Services, 865-5886.

IPO report

The Intellectual Property Office reports that a New York federal court recently held that research proposals submitted to federal agencies can be obtained by third parties and that such proposals could constitute "prior art" and bar or invalidate a future patent.

The New York case, litigated between DuPont and Cetus, involves the revolutionary polymerase chain reaction (PCR) recombinant DNA technology. DuPont claimed that a NSF grant proposal was a "public document," as it was available to the public under the

Freedom of Information Act. The Court agreed.

According to IPO, the case points out the need to adequately identify and protect confidential or potentially patentable invention disclosures contained in government research proposals. The IPO can assist in enabling faculty to identify potentially patentable inventions in grant proposals and to obtain the greatest protection for this information currently available under applicable federal regulations and statutes.

Dow Jones databases

Now available to members of the University community from the publishers of *The Wall Street Journal* are the Dow Jones News/Retrieval databases.

The databases consist of business and world news; company and industry information; stock market quotes, statistics and commentaries; and other services. A dedicated microcomputer with online access to this new service has been set up in the General Reference Section of Pattee Library. There is no fee for searching these files.

Other databases on Dow Jones News/Retrieval provide access to comprehensive current and historical market data.

For more information, contact Christine Avery at 863-7451.

DuBois gets NSF grant

The Penn State DuBois Campus is implementing a National Science Foundation matching grant of nearly \$13,500 to incorporate Geographic Information Systems (GIS) into the wildlife technology program.

The project was funded through the foundation's Instrumentation and Laboratory Improvement (ILL) program and will be directed by **H. Glenn Hughes**, associate professor of wildlife technology.

Focus on the arts

Outdoor sculptures

Three outdoor sculptures by an internationally renowned artist-philosopher were dedicated on Friday, April 19, at the Eisenhower Chapel and the Materials Research Laboratory at University Park.

The sculptures are by Frederick Franck, internationally recognized for his work and author of some 20 books, including the best-selling *The Zen of Seeing*. A former associate of Albert Schweitzer in Africa, he also served as the official artist for Vatican II.

Two sculptures, "Death and Transfiguration" and "Hiroshima: The Unkillable Humans," are installed at the chapel, and the third, "Seven Generations," is at the Materials Research Laboratory.

The artwork was obtained through a gift from Helen Boyle and Mary Boyle of Oil City. Friends of the sculptor, under the direction of Rustum Roy, founding director of MRL.

Cancellation

Joseph Brodsky, Russian emigre poet and winner of the Nobel Prize for literature in 1987, will not read his poetry April 26, as previously scheduled, due to an illness in his family.

The Arts on Channel 3

A new WPSX-TV/Palmer Museum of Art Artworks production "The Machines of Leonardo da Vinci," hosted by Tom Foral, will air at 10:30 p.m. Friday, April 26, and at 2:30 p.m. Sunday, April 28, on WPSX-TV. Featuring models which have been built using only da Vinci's notebooks and sketches, the program focuses on the artist's aesthetic as well as mechanical genius.

No one who has seen a work by artist Richard Haas forgets it. Haas is the architectural painter whose mammoth illusionary murals cause double-takes in cities all over the world. **Painting the Town**, airing at 9 p.m. Tuesday, April 10 profiles the artist behind these grand impressions and explores the effect this art has on the people who see it.

Chestnut Brass

The Chestnut Brass Company, a five-member brass ensemble will perform at 3 p.m. Sunday, April 28, in Schwab Auditorium at University Park.

The performance, sponsored by the Center for the Performing Arts and Peoples National Bank, is part of the Wide-Eyed Wanderers series designed especially for children.

Chestnut Brass is acclaimed internationally as the only ensemble to use both historical and modern brass instruments. The ensemble plays sackbuts, valve trombones, trumpets and many others, while telling the story of brass instruments.

Tickets are \$5 for adults and \$3 for students and can be purchased at the Eisenhower Auditorium Ticket Center

'Death and Transfiguration' (Photo: Greg Grieco)

Pianist to perform

Pianist Timothy Shaler will perform at 8 p.m. Sunday, April 28, in the School of Music Recital Hall at University Park.

The program will include Liszt's Sonata in B minor, two sonatas by Domenico Scarlatti and Sergei Prokofiev's Sonata No. 7 in B flat.

Mr. Shaler, a member of the University piano faculty since 1980, is an active recitalist.

Percussion ensemble

The Penn State Percussion Ensemble will perform in concert at 8 p.m. Tuesday, April 30, in the School of Music Recital Hall at University Park.

The 12-member ensemble, directed by John Rack of the School of Music, faculty will be joined by guest artist Mike Shepherd to perform "Stick Games" by James Riley.

The program features an early work for percussion titled "Pulse," written by Henry Cowell in 1939 for John Cage's Percussion Group. Also on the program is Cage's "Third Consequences." Mallet percussion will be featured in Hovhannes' "October Mountain," Prelude and Dance by LoFreschi and Bossa Pequeno by Fraxer.

Byzantine art

Anthony Cutler, research professor of art history, will present "The Significants of Byzantine Art" at 8 p.m. Tuesday, April 30, in 112 Walker Building at University Park.

The lecture is last in "The Art of Interpreting" series organized by Dr. Cutler and sponsored by the Department of Art History and the Institute for the Arts and Humanistic Studies.

Dr. Cutler has been named resident in art history at the American Academy in Rome for the spring of 1992. He is a fellow of the Society of Antiquaries, London, and of the Institute for the Arts and Humanistic Studies.

Odyssey on WPSX

On "A Public Conversation," the next episode of "Odyssey Through Literature," special critic Ivan Illich argues that a radio interview is not a conversation, but an act of prostitution.

Technically, this is intellectual intercourse of two people locked into this lonely studio with a glass window separating us from the listeners, and a machine which looks through the keyhole seeing how they do it," he says.

"Odyssey Through Literature" is produced by the Department of

Comparative Literature in the audio-production studios of WPSX-TV. It airs Wednesdays at 12:30 p.m. on WPSU, 91.1 FM.

Concert of new music

The School of Music presents a concert of new music by student composers at 8 p.m. Wednesday, May 1, in the Music Building Recital Hall at University Park.

The program includes works for chorus, string quartet, mixed chamber ensemble, piano and organ and will be performed by various ensembles and soloists.

Bach's Lunch

Ten students from the voice studios of Richard Davis and Richard Kennedy of the School of Music will perform in concert at 12:10 p.m. Thursday, May 2, in Eisenhower Chapel at University Park.

The 20-minute concert is last in the Bach's Lunch Concert Series sponsored by the School of Music and the University Lutheran Parish.

The program will include arias and duets from operas by Buzel, Mozart, Rossini and Thomas.

'Construction ball'

Hard hats and work gloves are optional attire for an evening of dining and dancing at the Under Construction Ball sponsored by the Friends of the Palmer Museum of Art at 7 p.m. Friday, May 10, in Holuba Hall at University Park.

Throughout the evening, a wide variety of donated items will be auctioned to raise money for educational programs and artistic events at the Palmer Museum. A sample of items to be auctioned includes a weekend cruise on the Chesapeake Bay and a stay in a vacation home in Naples, Fla. A

Lana Raup and Cathy Zangrilli are the chairpersons for the ball. Tickets are \$100 per person and include cocktails, dinner, dancing and a contribution to the museum. For tickets, please call (814) 865-7672.

See more arts on page 6.

The arts at...

Beaver Campus

The Penn State Beaver Campus Library is currently hosting "Ethnic Images in Advertising," a traveling exhibit co-sponsored by The Balch Institute for Ethnic Studies and The Anti-Defamation League of B'nai B'rith.

The exhibit is comprised of ethnic images employed by the American advertising industry to sell products during the past century. Samples of magazine ads, trade cards, product labels, movie posters and songsheet covers are featured.

"Ethnic Images in Advertising" will be on exhibit in the Beaver Campus library through May 3.

April 29. Well Control Refresher Course
Stanley Supon, chair; Norm Lathbury,
coordinator

April 29-May 2. Elements of Mine Electrical
Systems. Jeffery Kohler, chair, Barb
Impellitteri, coordinator.

April 29-May 3. Police Supervisors In-Service
Training. Ed Donovan, chair, Kathy
Karchner, coordinator.

April 30-May 2. Motor Fleet Maintenance
Management. Kent Addis, coordinator.
May 3-5. Diesel Equipment in Underground
Coal Mining. R.V. Ramani, chair; Norm
Lathbury, coordinator.

May 3-5. Postmaster Development Seminar.
Jeri Milsom, coordinator.

Seminars

Thursday, April 25

Physics Colloquium, 3:30 p.m., 55 Osmond.
Dr. Michael Turner, Univ. of Chicago, on
"Formation of the Structure in the
Universe."

Graduate Program in Ecology, 3:45 p.m., 8
Mueller. Joseph Miller on "Landscape
Patterns and Biotic Community
Characteristics."

Friday, April 26

Electrical and Computer Engineering, 2 p.m.,
123 Electrical Engineering. H.L. Grubin,
Scientific Research Associates Inc., on
"Numerical Experiments on Semiconductor
Devices and Structures."

Agronomy, 3:35 p.m., 107 Ag
Science/Industries. Laura Lengnick on
"Seasonal Nitrogen Dynamics in a Corn
Cropping Sequence Supplied with Organic
and Inorganic Nitrogen Sources."

EIF, 4 p.m., 339 Davey. Dr. Steve Fricke,
Univ. of Ill., on "Recent Results from CDF."
Monday, April 29

Entomology, 3:35-4:45 p.m., 204 Patterson.
Fred Walters.
Chemedra Lectures in Science, 8 p.m., 112
Buckhart. Dr. Richard C. Levontin,
Harvard, on "The Ambiguity of Proteins."

Also 4 p.m., April 30, 8 Mueller; 4 p.m., May
1, 8 Mueller; 8 p.m., May 2, 105 Forum.

Tuesday, April 30

Physics Colloquium, 3:30 p.m., 55 Osmond.
Dietmar Seyverich, MIT, on "Silicon Ceramics
with a Dash of Boron."

Geosciences Colloquium, 3:45 p.m., 112
Walker. Ross Stein, USGS, Menlo Park, on
"Blind Faults in Surface Faults."

Condensed Matter Lectures, 4 p.m., 339 Davey.
Dr. Steve Rossnagel, IBM, on "High-Density
Plasmas, ECRs, Helicon and Magnetrons"

Wednesday, May 1

CAHRA seminar, 2 p.m., E101 Henderson. Dr.
John Scavay, Univ. of New Hampshire, on
"Small Rural Hospitals and the Elderly."
Engineering Science and Mechanics, 3:35-4:30
p.m., 315 Hammond. Dr. Nicolaus Row,
Ingénierie, Tests on Environment Spatial,
France, on "A Method for Updating Finite
Element Models."

pre-service teachers.

College Bowl Club team will compete in championship

A University team is heading for a national championship in Chicago on April 26, but instead of a contest of might, this team will be joined in a battle of the minds.

Now ranked nationally in the top 10, Penn State's College Bowl Club team defeated Moravian, Georgetown, George Washington, Maryland and Johns Hopkins to become regional champion.

"The variety sport of the mind that enjoyed TV popularity in the 1950s and 1960s, College Bowl is still alive and well at colleges and universities across the country, and especially at Penn State," said J. David Grebos, assistant director for programs in the Office of Union Programs and Operations. He also is club adviser.

The team has finished in the top four

regionally for the past several seasons, but is particularly strong this year," he added. "Once questions focused on trivia, but now they are quite academic and require a broad knowledge of science, humanities and the arts."

For example, the question "If a knight is on chlorine, where could he land next?" requires knowledge of chess and the periodic table of the elements. (The knight could land on helium, nitrogen, arsenic, tellurium or xenon.) All questions are screened through the Association of College Unions International, which sponsors the national bowl program.

Team members **Blaine Lankford**, a senior in molecular and cell biology and president of the club, **Nainan Koover**, a

graduate student in computer science, **Peter Stone**, a sophomore in political science, and **Michael Fomire**, a junior in physics, must face defending champions from the University of Minnesota. They also will compete against the University of Virginia, whose team they have already beaten this season. Williams, Cornell, Penn, Georgia State, Michigan, Illinois, Wisconsin, Rice, Utah, Northeast Missouri State, Washington University of St. Louis, Oregon, and Stanford.

The competition consists of two types of questions. Individual test questions, such as "Vibrations of the uvula produce what sound?" require speed and often are answered before the examiner finishes the

question. (Vibrations of the uvula produce snoring.)

All team members can contribute to the more complex team questions such as "What is the sum of the beginning of the 'Hundred Years' War and the discovery of radioactivity, multiplied by the eruption of Krakatau?" (The 'Hundred Years' War began in 1337, radioactivity was discovered in 1896 and the volcano on Krakatau in Indonesia erupted in 1883. The answer is 6,087,739.)

"With all the attention on Penn State's power in sports, it's nice to know that our Brain Team is also a national powerhouse and soon may be Number One," Mr. Grebos noted.

Obituaries

Thomas R. Caldwell Sr., 44, senior systems analyst-technical support, Computer and Information Systems-Management Services, died April 10.

He graduated from Williamsport High School and received an associate degree from Williamsport Area Community

College and a bachelor's degree from Penn State in 1984.

He joined the University staff July 19, 1976.

Betty A. Carter, medical technologist, University Health Services, from Oct. 1, 1964, until her retirement Oct. 1, 1981, died March 7. She was 73.

J. Herbert Zimmers, agronomy technician, Department of Agronomy, from May 1, 1954, until March 1, 1970, died March 13 at the age of 86.

Marie B. General, clerk, accounting, College of Engineering, from Sept. 15, 1958, until her retirement Jan. 4, 1986, died March 17 at the age of 65.

William W. Rhoades, vending machine services, Housing and Food Services, from March 19, 1958, until his retirement April 1, 1979, died March 21. He was 73.

Rilla M. Keller, stenographer, Physical Education and Athletics, from Feb. 14, 1920, until her retirement Nov. 1, 1956, died March 25 at the age of 94.

Focus on the arts

Pattee exhibits

Lending Services Gallery

An exhibition titled "From Conscious Structure to Unconscious Structure" by Rachael Phelps is on display in Pattee Library's Lending Services Gallery through May 26.

The exhibition represents the progression of the artist's work throughout the past year.

East Corridor Gallery

The exhibition "Layers" is on display in the East Corridor Gallery through May 24.

It is a compilation of works by State College Area Senior High School students in the Master Studio Art class and by their fine art instructor, Robert Placky.

Rare Books Room

The University Libraries' Rare Books Room announces upcoming exhibits: May 3-31, "Texts in Classical Latin: Selections from the Leonard S. and Barbara Lock Goodman Collection;" June 10-July 1, "Marbled and Decorated Papers," and July 8-Aug. 15, "History of Rhetoric and Rhetoric Textbooks."

'Art to Go'

The Palmer Museum of Art and Peoples National Bank of Central Pennsylvania are collaborating in an outreach project to bring art from the Museum's permanent collection to the public.

Each month, a different piece from the Museum's collection will be displayed at the bank's Calder Way and Allen Street branch in State College.

The first piece, on display beginning May 1, is a Tz'u Chou jar by a potter from the early Ming Dynasty (1368-1644). The jar takes its name from the Tz'u Chou region of China, one of several which produced a gray or buff stoneware popular with the merchant class of the time.

The public is invited to view a new piece each month.

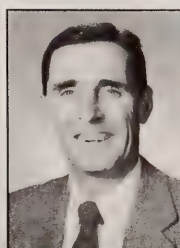

Chamber music workshop

The music of Beethoven, Brahms, Mozart and others will fill the air June 12 to 16 during the sixteenth annual Chamber Music Workshop in the Music Building at University Park.

The workshop will feature a series of lecture-performances by the Alard String Quartet. Workshop participants also will engage in freeloading evening sessions.

Information about program content may be obtained by calling the Alard String Quartet Office at (814) 238-3909. Anyone interested in registering for the conference should contact Kent Addis, 863-1740.

25-year award recipients

Observing 25 years of service at the University are, from left, Beverly Fisher, secretary A in the Department of Architecture; Sandee Greene, programmer, IRIS Program Office, Computer and Information Systems/Management Services; James W. Lundy, director of

business and marketing, Center for Cell Research, Eberly College of Science; Kenneth A. McGeary, director of continuing education at the Penn State Allentown Campus; Lloyd Niemann, manager, Utility Systems Engineering, Office of Physical Plant.

Focus on Research

Appalachian Mountains

Researchers find the once majestic Appalachian range topped the Rockies

Easterners may finally have a suitable retort to snide remarks comparing the Appalachians' puny height to that of the Rockies, according to two University researchers.

The ancient Appalachians were higher than the modern Rockies, closer in stature to the central Andes.

The researchers have roughly calculated that, during the middle Permian Period, 260 million years ago, the average height above sea level of the Appalachians in the central Atlantic region was 14,000 feet. The highest portion of the Rockies is only about 14,000 feet, while the central Andes are mostly above 13,000 feet, with peaks reaching to 16,500 feet.

The problem with the Appalachian Mountain chain is that over the past 260 million years, the mountains have eroded, leaving rounded remains of once majestic peaks. The Rocky Mountains as known today are much younger, created by an event only 5 million years ago.

Rudy L. Slingerland, professor of geology and Kevin P. Furlong, associate professor of geosciences, have taken two models previously used by other researchers and linked them to estimate the height of the Appalachians.

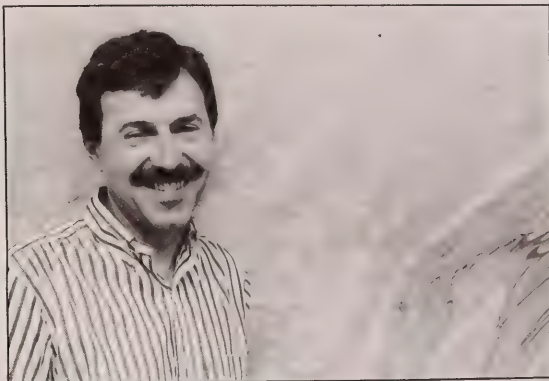

Dr. Slingerland explains that it is not possible to simply determine the erosion rate of a mountain at a kilometer per million years, for example, and multiply by 260 million years to discover the original mountain height.

"Mountains are like icebergs, floating in the denser mantle with large portions below sea level," he says.

"As material erodes off the top, the mountain becomes more buoyant and rises. As the Appalachians erode, the whole chain slowly rises."

The Appalachian Mountains were created by the African continent colliding with the North American continent, beginning in the Pennsylvanian Period 320 million years ago, when all the Earth's continents came together to form one large super continent — Pangea. The mountains formed when the edge of Africa thrust horizontally over the edge of North America, locally thickening the lithosphere — the rigid outer shell of the Earth.

The Himalayan Mountains, the tallest range in the world, were formed by a later, but similar continental collision.

The geologic map of Pennsylvania shown behind Rudy L. Slingerland illustrates the process of thickening of rocks and folding that created the Appalachian Mountains. (Photo: Greg Grieco)

The first requirement for estimating the past height of the Appalachians is to determine how much material was in the mountains.

"When the lithosphere thickened, the excess crust or load sank until the weight of the mountain and the buoyancy force of the mantle were equal, in the same way the ice on a frozen lake will bend to support an automobile," Dr. Slingerland says. "A cone of depression, like a moat, formed around the mountains. Material eroding off the mountains filled this basin."

Those sediments are still preserved on the western side of the Appalachians in Pennsylvania, he says.

"We can measure the thickness of sediments of a particular age and determine how big the depression was at any time in the past. Because the depression's size is proportional to the size of the load, we can then estimate the thickness of the crust at that time and place."

"We also know that it took high temperatures to form the anthracite coal fields in the eastern portion of Pennsylvania," he adds. "We know that it would have taken at least 5.6 miles of overburden above the coal fields to produce the temperatures necessary to make anthracite."

Knowing how much material was in the mountains does not indicate the shape of the mountains or how much, as in icebergs, is above sea level.

According to Dr. Slingerland, the type of mountain building that took place in the Appalachians is analogous to the building of a wedge of snow or soil in front of a bulldozer blade. As the bulldozer moves forward, material entering the toe builds up until it reaches a critical slope. Once the slope is reached, the material falling off the slope is equal to the material entering the toe.

"In the case of mountains, the balance is between erosion off the top and material entering the mountain through crustal thickening. The mountain wedge will grow until the rate of erosion is equal to the rate of crustal thickening. This is the equilibrium height and the highest that the mountains will ever get."

Combining the amount of material that was in the mountains with the geometry of the mountain determined from the wedge model, the researchers can calculate the equilibrium height of the mountains. Because the necessary values are not always precise, they used a Monte Carlo simulation, which provides a range of solutions, rather than a single solution.

"Assuming a dry climate and shallow basal slope of the accretionary wedge, the most probable width and cross-sectional average height of the central Appalachians are 160 miles and 14,000 feet, respectively," they concluded.

— Andrea Elyse Messer

Staff Vacancies

The following vacancies for positions classified as staff exempt or staff nonexempt have been listed with the University Employment Division for filling. The brief statements for each vacancy are illustrative. They are not complete position descriptions. APPLY BY CALLING THE EMPLOYMENT DIVISION, 863-0304 (NETWORK LINE 433-0304). Applications for these staff vacancies will be accepted until May 2. DO NOT CONTACT THE AREA THAT HAS THE VACANCY. Applications for staff vacancies are considered in accordance with Fair Employment Practices (FPE) and in compliance with the University's Alternative Action Compliance Program without regard to race, color, religion, national origin, handicap or age (as provided by law), sex, or status as a disabled or Vietnam era veteran.

***01400. Research Programmer, Computer and Information Systems, Center for Academic Computing, University Park Campus** - Responsible to the manager of numerically intensive computing for code optimization and development and application software support. Requires bachelor's degree or equivalent in computer science or related discipline and two to three years of effective experience in computationally oriented research. A master's degree in these disciplines is preferred. A strong background in computational modeling

familiarity with VM/CMS and UNIX is desired. Familiarity with one or more of the following also is desired: Fortran, C programming techniques in vector and parallel processing. Experience in programming optimization for supercomputers, mainframes, and workstations desirable. **STAFF GRADE 3**

***01451. Coordinator, Sports Nutrition Program, Interscholastic Athletics, University Park Campus** - Responsible for the development of a comprehensive program of sports nutrition in the Center for Sports Medicine. Collaborate with team physicians, and provide educational services and nutritional counseling for the 28 men's and women's varsity sports teams. Requires bachelor's degree, or equivalent, and registered dietitian plus one to two years of effective experience in sports nutrition counseling to men and women athletes. A master's degree is preferred. **STAFF GRADE 3**

***01452. Senior Drafter, Electromechanical, Applied Research Laboratory, ARL Operations, University Park Campus** - Responsible to the supervisor, Design and Drafting, for the accurate performance of a variety of drafting operations on all types of drawings for electronic, electrochemical, mechanical, hydraulic and acoustic equipment and devices, and for checking the drawings of drafter, electro-mechanical. Requires associate

degree, or equivalent, in electromechanical drafting with one to two years of effective experience. U.S. citizenship required. **STAFF GRADE 4**

***01453. Assistant Manager, Food Services, Housing and Food Services, University Park Campus** - Responsible to manager of food services for assisting in supervising the overall operation of a food service unit which will include daily operations of technical service and student employees. Maintain high standards of food preparation, service and sanitation. Must operate within budget and food cost allotments while supervising all food preparations and services in the unit. Requires bachelor's degree, or equivalent plus one to two years of effective experience. **STAFF GRADE 5**

***01454. Administrative Aide, Arts and Architecture, Department of Theatre Arts, University Park Campus** - Responsible to the head, Department of Theatre Arts, for handling a wide range of administrative responsibilities relating to the academic and production programs of the Department of Theatre Arts. Requires bachelor's degree, or equivalent, plus one to two years of effective experience in administration. Experience in theatre administration preferred. Excellence in communication and interpersonal skills required. **STAFF GRADE 3**

***01455. Writer-Editor, University Arts Services, Center for the Performing Arts, University Park Campus** - Responsible for writing copy for brochures, print ads, newsletters, and radio and television scripts, for producing radio and television sports with contracted talent, and for participating in creative campaigns for marketing campaigns. Requires bachelor's degree, or equivalent, in journalism or related field and one to two years experience in writing for publication. Excellent communication and organizational skills are required. Familiarity with word processing essential. **STAFF GRADE 5**

Hershey

For the following position vacancies apply directly to The Milton S. Hershey Medical Center. Attach resume with cover letter indicating the position vacancy code and forward to the Department of Human Resources, Hershey, or call the Hershey bid line at (717) 531-8531 by May 2.

***17381. Recreational Therapist, Department of Nursing Psychiatry, Division of Geriatric Psychiatry** - Responsible to chief, Psychiatric Inpatient Unit, for the organization and conduct of a therapeutic recreational program in the unit to facilitate and complement the total psychotherapeutic treatment

program for patients with emotional disorders. Requires a bachelor's degree in recreational therapy or equivalency plus 12 years of effective experience. **STAFF GRADE 6**

***14702. Reimbursement Analyst, Department of University Physicians Professional Billing** - Responsible to the assistant director for reimbursement for developing and maintaining a proficiency in third party reimbursement as it relates to physician billing. Requires a bachelor's degree or equivalent in business administration or related field with 1-2 years of effective experience in physician third party reimbursement and automated billing procedures. Proficiency with Symphony or Lotus spreadsheets and excellent PC skills desired. **STAFF GRADE 6**

***17394. Coordinator Medical Record Services, Department of Medical Records** - Responsible to the manager, Medical Record Services, for the day-to-day coordinating of the Medical Records Department second shift to include supervising and overseeing the work flow. Requires graduation from an approved medical record technician program or equivalency plus one to two years of effective experience including supervisory experience in a medical record department. **STAFF GRADE 5**

Survey research also governed by federal regulations

University faculty members are reminded that survey research is a form of human subjects research that also is governed by federal regulations.

The Human Subjects Institutional Review Board (IRB), made up of faculty, staff, and community representatives, has been approved by the Office for Protection from Research Risks at the National Institutes of Health to review all University research proposals for compliance with federal regulations on the use of human subjects.

The Office for Regulatory Compliance, formerly the Office for the Protection of Human Subjects, coordinates IRB activities and provides letters of assurance for all

human subject research approved by the IRB.

While regulations governing survey research are somewhat less restrictive than those that govern riskier forms of human subject involvement, there are several basic requirements that survey research methods must fulfill in order to honor the rights of the subjects involved.

According to the Office for Regulatory Compliance, the first factor to be considered in survey research is subject anonymity.

While anonymity is not required for all types of survey research, anonymous surveys are capable of delving into subject

areas that may otherwise be considered by the IRB to be unwarranted invasions of personal privacy.

A second consideration of survey research is informed consent of the subjects.

The Office for Regulatory Compliance recommends that surveys should always include a cover letter or introductory paragraph that outlines: the purpose of the research; the name of the researcher and a means of contacting that individual; how and when the results of the research will be made available to the participants; and a statement informing all potential subjects that their participation is voluntary and that

they are free to deny answers to any and all questions.

The Office for Regulatory Compliance, located in 115 Kern Building at University Park, can provide advice and submissions forms for researchers requesting IRB approval for the use of human subjects in any University project.

Carpooler

Sharon needs a ride from Penns Valley to University Park. Her work hours are 8 a.m. to 5 p.m. Call 863-0618 or 349-8843.

INTERCOM is published weekly during the academic year and every other week during the summer. It is an internal communications medium published for the faculty and staff of Penn State by the Office of Public Information, Room 312, Old Main, Phone 865-7917.

Volume 20, Number 31

Almost 7,550 will receive degrees at commencement

Almost 7,550 students will receive degrees at the 1991 spring commencement exercises at the University's campuses.

According to estimates, the total includes 5,898 baccalaureate degrees, 742 associate degrees and 907 advanced degrees, 69 of which are medical degrees from the Milton S. Hershey Medical Center.

At University Park, about 5,300 students will receive baccalaureate degrees. 41 will receive associate degrees, 572 will receive master's degrees, and 178 will receive doctoral degrees.

Each of University Park's colleges and the Graduate School will conduct individual ceremonies on Saturday, May 18 and Sunday, May 19. Commencement speakers will include distinguished business, academic and government leaders. They are:

-- **Sen. Cacao Fattah**, senator of Pennsylvania's 7th Senatorial District in Philadelphia, College of Education.

Mr. Fattah is a first term State Senator and has served six years in the State House of Representatives. He is Democratic chair of the Senate Education Committee and member of the Finance, Housing and Urban Affairs committees.

See Page 3 for a schedule of commencements.

-- **Steven B. Fink**, assistant of Lexicon Communications Corporation, for the College of the Liberal Arts.

Mr. Fink is one of the nation's leading authorities on crises management. Author of *Crisis Management: Planning for the Inevitable*, he served on the crises management team for former Gov. Dick Thornburg during the Three Mile Island incident.

-- **Richard E. Grubb**, senior vice president and dean of the Commonwealth Educational System, for the College of Agriculture.

Dr. Grubb began his career at Penn State in 1961 and was named senior vice president for administration in 1979. He served as Pennsylvania Secretary of Agriculture from 1985 to 1987. He was named to his present position in 1989.

-- **David R. Jones**, assistant managing editor and editor of the national edition of the New York Times, for the School of Communications.

A Penn State Distinguished Alumnus and

an Alumni Fellow of the School of Communication. Mr. Jones is responsible for monitoring New York metropolitan news, sports and special projects for the Times, where he has worked for almost 30 years.

-- **George B. Kleindorfer**, professor of quantitative business analysis, The Smeal College of Business Administration.

Dr. Kleindorfer, whose research and teaching range from management simulation and math to the environment and public policy, also teaches courses in the philosophy of science and the humanities. This spring, he received the 1991 Penn State Teaching Fellow Award.

-- **Thomas D. Larson**, head of the Federal Highway Administration, for the College of Engineering.

Dr. Larson was appointed administrator in 1989 and is responsible for overall management, including the Federal Aid Highway Program. A former Penn State faculty member, he served as Pennsylvania

Secretary of Transportation from 1979 to 1987.

-- **Shirley M. Malcom**, head of the Directorate for Education and Human Resources Programs of the American Association for the Advancement of Science, for the College of Science.

Dr. Malcom was named head of the directorate in 1989 after serving as program head for the AAS Office of Opportunities in Science from 1979 to 1989. She is responsible for AAS programs in education, activities for underrepresented groups and public understanding of science and technology.

-- **Lowell L. Manfull**, professor of theater arts, for the College of Arts and Architecture.

Dr. Manfull, a producer, director, writer and actor for more than 40 years, has taught courses from dramatic criticism and literature to theory and playwrighting. He has served as artistic coordinator for the Department of Theatre Arts and coordinator of graduate studies and as a judge for national and regional collegiate auditions.

-- **William C. Richardson**, president of

See 'Commencement' on page 3.

Groundbreaking ceremonies held for museum expansion

President Thomas, presiding at groundbreaking ceremonies April 23 for the expansion of the Palmer Museum of Art, announced the successful completion of the campaign to raise private support for the project.

Following a \$2 million lead gift from James R. and Barbara R. Palmer of State College in 1986, more than 140 donors contributed nearly \$5.7 million to the project.

The expansion, designed by Charles W. Moore, recent winner of the Grand Gold Award from the American Institute of Architects, will be completed by the winter of 1992 and open in the spring of 1993. Included in the expansion will be nine new galleries to house the permanent collection of the museum and traveling exhibitions, a new auditorium, expanded lobby and public spaces and a state-of-the-art climate control system to protect the collection.

"The support we have received from alumni, friends, and corporations from the outset of this project has been quite gratifying," Kahren Arbitman, museum director, said. "Finally, it is time to turn years of planning into something concrete. I

cannot wait to be surrounded by chain-link fence and huge pieces of construction equipment."

James Moeser, dean of the College of Arts and Architecture, noted the expansion had helped to give the museum an exceptionally bright future. "For the last five years we have been dreaming, planning and working for this day," he said. "With this excellent expansion of the Palmer Museum of Art, we are on the way to national prominence."

Marian U. Coppersmith-Fredman, president of the University's Board of Trustees, and James and Barbara Palmer also participated in the groundbreaking. The shovel used to turn the first spade of earth was a handmade Centre County antique shovel from the collection of Roy C. Buck, professor emeritus and noted expert on Centre County antiques.

The architectural firm working in conjunction with Moore was Arbones, King and Associates of Stony Creek, Conn. The principals of the firm are Glen Arbones, Richard King and Sandra Vlock.

See other private giving stories on page 9.

James Moeser, dean of the College of Arts and Architecture, speaks at groundbreaking ceremonies for the expansion of the Palmer Museum of Art. With him are, from left, Barbara and James Palmer, who provided a \$2 million lead gift for the project, Kahren Arbitman, museum director; President Thomas, and Marian U. Coppersmith-Fredman, president of the University's Board of Trustees. (Photo: Greg Grieco)

Focus on Diversity

By Women of Color

Award recipients are announced

The Central Pennsylvania Women of Color has announced the 1991 recipients of its Achievement Awards.

Vicki Fong, manager of the news bureau in the Department of Public Information, received the Humanitarian Achievement Award. **Izetta Denson**, entrepreneur and owner of Izetta's Hair Styling Salon in State College, received the Professional Achievement Award.

Ms. Fong has served as coordinator of the Women of Color for two years and a member of the Equal Opportunity Planning

Committee and several other University committees and subcommittees on diversity and gender issues. Currently, she also is the adviser for the Asian American Student Coalition.

Ms. Denson has been in business for more than 13 years. Prior to that, she was manager of the Regis salon in State College for five years. She attended the Empire Beauty School and the South Hills Business School and holds a teaching certificate for hairstyling with the Commonwealth of Pennsylvania.

WPSX to present Jewish humor program

Great Performances will present an encore presentation of "The World of Jewish Humor," airing at 10 p.m. Friday, May 3. The program looks at Jewish humor in all its forms, from vaudeville and the Marx Brothers through the Catskills, the Golden Age of television, and "Saturday Night Live." Milton Berle, Neil Simon, Carl Reiner, Joan Rivers, Jackie Mason, and Billy Crystal are featured in the program.

Thirty-five years ago, Rock 'n' Roll grew out of the Black musical experience called

Rhythm 'n' Blues. To many, the father of R&B is Charles Brown, legendary musician, songwriter and vocal stylist. He inspired the careers of Ray Charles, Fats Domino and Little Richard, and was "shadowed" by some of the biggest white singers of his day.

On *Tony Brown's Journal*, airing at 11:30 a.m. Sunday, May 5, Charles Brown shares his musical genius and hidden memories at the piano with a live studio audience in Atlanta.

Diversity Calendar

Thursday, May 9

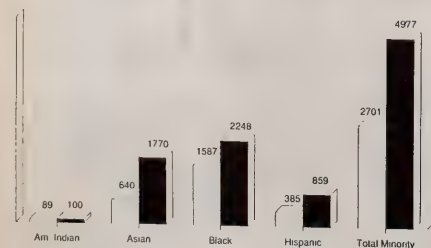

American Association of University Women, 6:30 p.m., Centre Hills Country Club. The 75th Anniversary Dinner and Honors Gala. Speaker will be Mary Purcell.

Lecture series

Mary Purcell, president of the International Federation of University Women, will speak on "Women's Role in a Changing Society" at 2:30 p.m. Thursday, May 9, in the International Lounge, 222 Boucke Building at University Park.

Her talk is part of the International Lecture Series.

MINORITY ENROLLMENT COMPARISON 1982 to 1990

1982 1990

Source: Budget and Resource Analysis

News in Brief

Phi Beta Kappa banquet

France Cordova, head of the Department of Astronomy, will deliver the Phi Beta Kappa address at the annual initiation banquet, at 7 p.m. May 17 at the Day's Inn-Penn State.

Carol Gay, president of Lambda chapter, will conduct the initiation ceremony.

All University faculty and staff who are members of Phi Beta Kappa are invited to attend the banquet and to participate in the activities of Lambda Chapter. Reservations may be made with Holly Shoemaker in 129 Sparks Building.

Officers for 1991-92, recently elected by Lambda Chapter, are **Arthur Goldschmidt**, president; **Marilyn Keat**, secretary; **Gabriele Michels**, treasurer; **Catherine Carter**, historian; **Judy Kelly** and **Phil Klein**, directors.

Workshops for secretaries

Helping secretaries take charge of multiple challenges will be the focus of two workshops at University Park in May and June.

The workshops, titled "Managing Conflict, Stress and Communication Challenges: Secretary in Charge Programs," will be held May 8 and June 4 at the Keller Conference Center.

Participants will focus on various techniques designed to help keep an office running smoothly, such as communicating successfully, resolving conflicts and maintaining interpersonal relationships. Topics also will include coping with stress, communicating under stress and pressure, coping with conflict successfully, developing negotiation skills and action planning.

Anyone interested in registering should contact Donna Ricketts, conference coordinator, at (814) 863-1743.

Supreme Court opinions

United States Supreme Court Opinions, in full text, are now available in electronic format to the University Libraries within eight hours of their release through the U.S. Government Printing Office's newly inaugurated Project Hermes Bulletin Board.

Depository libraries, of which the University Libraries is one, may use the Bulletin Board at no charge, but must pay the cost of the direct dial telephone call. Access to the Bulletin Board is free

to patrons and, for an added convenience to users, the opinions are available in ASCII format and can be downloaded to a disk and/or printed. This service is available in the Documents Section on the second floor of Central Pattee.

Basic skills conference

A nationally known educator who developed the study-group approach to achieving academic gains among minority and underprepared college students will be a keynote speaker at the Penn State Basic Skills and Learning Support Services Conference, May 13 and 14 at the Ramada Hotel in Altoona.

Uri Treisman, director of the Dana Center for Mathematics and Science Education at the University of California at Berkeley, will give a workshop, "New Trends in Basic Skills Programming in Mathematics and Science," from 1 to 3 p.m. Monday, May 13.

For more information on the conference schedule and fees, contact Brenda S. Townsend, Basic Skills Program, 208 Boucke Building, University Park, or call (814) 863-3740.

Waynick Memorial Lecture

Louis J. Lanzetta, of AT&T Bell Laboratories, will present the eighth annual Arthur H. Waynick Memorial Lecture, sponsored by the Communications and Space Science Laboratory, at 8 p.m. May 11 in Walker Building at University Park. He will discuss "Impacts of Solar-Terrestrial Activity on Technological Systems."

Dr. Lanzetta, an investigator on several NASA missions, was chairman of NASA's Space and Earth Science Advisory Committee and presently is chairman of the Space Studies Board of the National Research Council.

NSF grant

John I. McCool, assistant professor of industrial engineering at Penn State Great Valley, has received an equipment grant from the National Science Foundation for the acquisition of a state-of-the-art profile measurement system.

The fully computerized system, valued at \$50,000, permits the measurement of roughness topography to the millionth of an inch and is crucial to investigations of friction and wear in precision components such as bearings and gears.

Obituaries

Dorothy I. Lewis, counter attendant, Housing and Food Services, from Sept. 7, 1958, until her retirement April 3, 1971, died April 5 at the age of 84.

Gerald L. Garbrick, manager, Building Trades and Landscape, Office of the Physical Plant, from Aug. 15, 1955, until

his retirement, June 30, 1990, died April 4. He was 58.

Paul E. Rider, mechanic, experimental and maintenance, College of Engineering, from Oct. 1, 1947, until his retirement Jan. 8, 1982, died April 15 at the age of 65.

Thomas J. Donovan, flight instructor, Business Services, from Aug. 1, 1962, until his retirement Sept. 1, 1977, died March 25 at the age of 76.

Schedule of commencements

Following is a schedule of commencements at the University's campuses:

Allentown: No commencement.

Altoona: No commencement.

Convocation at 1 p.m. May 11, Community Arts Center.

Beaver: 7:30 p.m. May 17, Laboratory Classroom Building, A. Fred Kerst, president, Calgon Corp.

Berks: 8 p.m. May 16, Student Center Auditorium, Howard O. Beaver, retired chairman of the board, Carpenter Technology Corp.

Delaware County: 7 p.m. May 16, Library Learning Center, Theodore E. Kifer, interim dean, College of the Liberal Arts.

DuBois: 2 p.m. May 17, Multi-Purpose Building, Donald T. Hartman, campus executive officer.

Penn State Erie, The Behrend College: Noon May 18, Reed Lawn, Barry Weller, associate professor of economics.

Fayette: 10:30 a.m. May 18, J. Lewis

Williams Building Auditorium, Robert E. Eberly Sr.

Great Valley: 7 p.m. May 20, Rooms 107, 108, Lt. Gov. Mark Singel.

Penn State Harrisburg: 9:30 a.m. May 18, Founders Hall of the Milton Hershey School, State Rep. Peter C. Wambach.

Hazleton: 7 p.m. May 17, Physical Education Building, David Wagner, president of the Hazleton Educational Council.

Hershey: 1 p.m. May 19, Founders Hall of the Milton Hershey School, Barbara J. Culliton, deputy editor of Nature and visiting professor at Johns Hopkins University.

Mckeesport: 10 a.m. May 18, First Evangelical Free Church, McKeesport, State Sen. Albert Belan.

Mont Alto: 11 a.m. May 18, Campus lawn, Kathleen Woods, doctoral student at the Hershey Medical Center.

New Kensington: 7 p.m. May 16, Forum Theatre, Sen. Melissa Hart.

Ogontz: noon, May 17, Athletic Field, Larry Kane, WCAU news anchor.

Pennsylvania College of Technology: 2 p.m. May 18, Gymnasium, former University President Bruce Jordan.

Schuylkill: 7:30 p.m. May 16, Student Community Center, Michael Swank, cardiothoracic surgeon and former campus student.

Shenango: 7:30 p.m. May 17, Auditorium, Cecile Springer, University Trustee.

University Park, May 17: 4:30 p.m., University Scholars Medals Ceremony, Eisenhower Auditorium. 8 p.m., ROTC Commissioning, Eisenhower Auditorium.

University Park, May 18: 9:30 a.m., College of Health and Human Development, William Richardson, Recreation Building. 12:30 p.m., College of Earth and Mineral Science, William A. Schreyer, Eisenhower Auditorium.

1 p.m., College of Arts and Architecture, Lowell Manfull, Schwab Auditorium.

1 p.m., College of Engineering, Thomas Larson, Recreation Building. 3 p.m., Embury College of Science, Shirley M. Malcom, Eisenhower Auditorium.

4:30 p.m., Smear College of Business, George B. Kleindorfer, Recreation Building.

7:30 p.m., Graduate School, Luther S. Williams, Eisenhower Auditorium.

Sunday, May 19: 1 p.m., College of Education, Sen. Chaka Fattah, Eisenhower Auditorium. 1 p.m., College of the Liberal Arts, Steven B. Fink, Recreation Building.

3:30 p.m., School of Communications, David Jones, Eisenhower Auditorium. **Wilkes-Barre:** 6 p.m. May 17, Hayfield House south lawn, Al Boscov, president, Boscov's Department Store.

Worthington Scranton: 7 p.m. May 17, Multi-Purpose Building, Randy Kritikausky, president of Ecologia (Ecologists Linked for Organizing Grassroots Initiatives and Action). **York:** 8 p.m. May 10, Gymnasium, York Mayor William J. Althaus.

Commencement

Continued from page 1.

Johns Hopkins University and former executive vice president and provost of Penn State, for the College of Health and Human Development.

Frequently called on as a consultant and

leader in health policies studies, Dr. Richardson is a member of the Institute of Medicine of the National Academy of Sciences. He co-chairs the Commission on the Future of the Health Professions for the Pew Charitable Survey of the National Research Council-Institute of Medicine.

-- **William A. Schreyer**, chairman and chief executive officer of Merrill Lynch and

Co. Inc. and vice president of the University Board of Trustees, for the College of Earth and Mineral Science.

A 1948 Penn State graduate in commerce and finance and a Distinguished Alumnus, Mr. Schreyer became president of Merrill Lynch and Co. Inc. in 1982, chief executive officer in 1984 and chairman in 1985.

-- **Luther S. Williams**, assistant director

for education and human resources of the National Science Foundation, The Graduate School.

A biologist, Dr. Williams has taught at Purdue, Massachusetts Institute of Technology, University of Colorado and Washington University, where he also served as dean of the graduate School of Arts and Sciences.

Search committee appointed for Graduate School, research post

President Thomas has announced the names of a 13-member search committee charged with forwarding candidates to fill the position of senior vice president for research and dean of the Graduate School.

The committee will recommend individuals to President Thomas to fill the position currently held by Charles L. Hosler. The committee membership includes faculty, staff and students of the University.

Eva J. Pell, professor of plant pathology, has been appointed chairman of the committee, Dr. Thomas said.

Other committee members are:

Eunice N. Askov, professor of education; **Stephen J. Benkovic**, Evan Pugh professor of chemistry; **France A. Cordova**, head of the Department of Astronomy; **C. McCollister Everts**, senior vice president for health affairs and dean of the College of Medicine; **L.R. Hetteche**, director,

Applied Research Laboratory; **Dawn P.**

Jackson, graduate student at Penn State Harrisburg;

Stephen A. Newcomb, graduate student at University Park; **Robert W. Ott**,

professor of art education; **Daniel W. Pfaff**, associate dean of the School of Communications; **Rodney J. Reed**, dean,

College of Education; **Stanley H. Rosen**, Evan Pugh professor of philosophy;

Michael Sanyer, professor of human development and associate dean for research and graduate studies, College of Health and Human Development.

The search committee will advertise the search for a new senior vice president for research and dean of the Graduate School, and receive and screen applications and nominations. The committee will submit a list of candidates to the president and participate in the final interview schedule. The name of the top candidate must be forwarded by President Thomas to the Board of Trustees for approval.

Leonhard Center dedication

President Thomas, left, greets William E. Leonhard at the dedication of the Leonhard Center for Innovation and Enhancement of Engineering Education April 23 at University Park. The Leonhard Center, the first of its kind in the nation, concentrates resources to promote new approaches in the development and delivery of engineering curricula. (Photo: Greg Grieco)

Highlight on undergraduate education

University Scholars return as faculty members

Opportunities to work on research projects as undergraduates, meet with distinguished scholars and enroll in honors-level classes led three members of the first class of University Scholars to return to Penn State as faculty members.

"The University Scholars Program gave me a set of opportunities most students don't have," **Gregory K. Farber**, assistant professor of chemistry, said. "The Scholars Program breaks down the barriers that prevent students from taking advantage of opportunities to get into laboratories and to talk with visiting scholars."

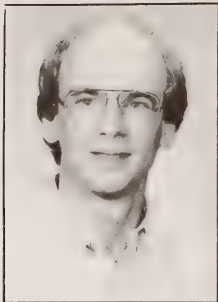

Dr. Farber was invited to join the university-wide honors program as a freshman in 1980, the inaugural year for the University Scholars Program. He became a faculty member in the Eberly College of Science in July 1990.

Wayne R. Curtis, assistant professor of chemical engineering, and **Robert D. Richards**, assistant professor of communications, also members of the first class of University Scholars, have since become University faculty members, as well.

All three credit their experiences in the University Scholars Program with leading them toward academic careers.

Launched in 1980 to enhance academic opportunities for outstanding students, the University Scholars Program set high standards for its members.

Selection to the program is based on faculty evaluation of student applications to the program. In addition to an excellent high school grade-point average and scholastic aptitude test score of at least 1,300, reviewers consider an original essay and other signs of

Gregory K. Farber

distinctive intellectual promise.

Currently, 1,500 undergraduates are members of the program.

"I found the University Scholars Program a very worthwhile experience, with its opportunities for smaller classes and more instructor contact time," Dr. Richards said. "Participating in the program's activities greatly enhanced my undergraduate experience."

Dr. Curtis added that his involvement in research projects while a Penn State student inspired him to invite undergraduate students to work in his laboratory. He supervises two undergraduate and six honors students who are working with him in the design of bioreactors for plant tissue culture.

"The high point of my day is working with undergraduates in the lab," Dr. Curtis said.

He sponsors a summer National

Wayne R. Curtis

Science Foundation program in undergraduate research aimed at minority and women students interested in research in chemical engineering. The participating students spend nine weeks on a research project.

Dr. Farber also has an undergraduate student working in his lab, where he conducts research on protein crystallography. He plans to include more undergraduates in his lab.

As a University Scholar, Dr. Richards researched and wrote a thesis on deregulation of the broadcasting industry. He also worked as a radio news director during and after his college career. Now, he enjoys teaching honors courses for current University Scholars. "It's a great chance to work one-on-one with students."

Dr. Farber earned a bachelor of science degree in chemistry from Penn

Robert D. Richards

State in 1984 and a Ph.D. in physical chemistry from Massachusetts Institute of Technology in 1988.

Dr. Richards was the first University Scholar to complete an integrated undergraduate and graduate degree program. He earned both bachelor and master of arts degrees in speech communication from Penn State in 1983. He earned a juris doctorate from American University in 1987 and joined the Penn State faculty in August 1988.

Dr. Curtis earned a bachelor of science degree in chemical engineering from Penn State in 1984 and a Ph.D. in chemical engineering from Purdue University in 1988. He joined the University faculty in January 1989 and has a joint appointment with the Department of Chemical Engineering and the Biotechnology Institute.

—Deborah A. Benedetti

Fund to assist in enriching undergraduate instruction

The new fund for the Improvement of Undergraduate Instruction will assist faculty members in enriching their undergraduate instruction.

One-page proposals for funding to cover resources, materials and events for individual course enhancement are being solicited for the fund, which was proposed by the Society of Teaching Award Recipients at the University. The society is comprised of recipients of the Altherton, Lindback and Teaching Fellow awards. The fund is supported by the society and the provost.

The committee that developed the concept consists of members **John Buck**, assistant professor of English; **James Eisenstein**, professor of political science

The Fund for the Improvement of Undergraduate Instruction has been created at the suggestion of the Society of Teaching Award Recipients at the University.

and director, Center for the Study of Science Policy; **Robert L. Kabel**, professor emeritus of chemical engineering; **Neil A. Mercado**, assistant professor of biology, Penn State Ogontz Campus; **Mayellen Weimer**, research associate, Center for the Study of Higher Education; and **Beno Weiss**, professor of Italian.

Awards will range from \$100 to \$1,000 for the 1991 summer and fall semesters.

Funding may be used for films, guest speakers, material duplication, field trips, videos, in-class telephone interviews, audio-visual materials (audio cassettes, maps, slides, transparencies), field and laboratory equipment, computer

software and other types of activities designed to improve instruction.

Instructors on continuing and fixed-term appointments and tenure-track faculty members at all University locations are eligible to submit proposals. Proposal forms are available from directors of academic affairs, associate deans and the associate dean for undergraduate education.

Deadline for submitting proposals is June 3. Proposals should be sent to: **Jerry B. Covert**, Associate Dean for Undergraduate Education, 207 Old Main, University Park (863-7035). They will be reviewed by a faculty selection committee, and awards will be announced June 17.

University warms up for employee health/fitness day

Cross America for Health

As the week of May 11-17 nears, faculty and staff at all locations should be making plans to join in the University's annual celebration of National Employee Health and Fitness Day. Last year, close to 1,000 participants reported more than 3,700 exercise miles for a single day, exceeding the goal of crossing America.

This year, faculty, staff and their families will be encouraged to report exercise miles for the day (May 15) or the entire week as we attempt to accumulate enough miles to, once again, traverse the continent. To be included, it will not be necessary to participate in any organized activity or program. However, various opportunities for exercise will be available at many University locations.

Informal activities

- coworkers can form an informal lunchtime walking group to log miles during the week.
- Families can designate an evening or two for a walk, bicycle ride, or other activity.
- Regular exercisers can "adopt" a non-exercising

friend or coworker to share a vigorous walk once or twice during the week.

Organized activities

At University Park, the Department of Recreational Sports will conduct free activities over the lunch hour on National Employee Health and Fitness Day (May 15): noontime walk, 12:15 to 12:45 p.m., meet at Recreation Building; aerobics, 12:10 to 12:50 p.m., Intramural Building; and aerobics, 12:10 to 12:50 p.m., White Building.

Organized activities are being planned at many campuses and the Hershey Medical Center. Flyers containing individual "report cards" and details of Cross America for Health have been distributed. Additional copies are available by calling the Faculty/Staff Health Promotion Office at (814) 865-3085.

Wellness Walk kicks off week

Penn State and Centre County will be introduced to the sport of volkswalking during the weekend of May 11 and 12. Thanks to the Susquehanna Rovers

Volkswalking Club, the Employee Wellness Coalition of Centre County and the Faculty/Staff Health Promotion Program, the entire community will be able to begin the week with a hearty 10K "Wellness Walk."

This event is free to those who wish to participate without receipt of an award of IVV credit. Volkswalking is a family-oriented activity and parents often carry infants or push them in strollers. In addition, joggers and other groups are welcome.

For additional information, Wellness Walk flyers are available at all University locations: Intramural, White, and Recreation buildings; and the Natatorium, or by calling the Faculty/Staff Health Promotion Office at (814) 865-3085.

Family Fitness

On Friday, May 3, a lunchtime mini-lecture sponsored by the Faculty/Staff Health Promotion Program and the Health Education Department will focus on enhancing total family health by making physical activity a part of family life.

The program will take place from 12:10 to 12:50 p.m. in Room 307 Hetzel Union Building at University Park. For information, call 865-3085.

Historic Old Willow returns

The historic Old Willow has returned with the planting of a new tree at the original site on the Mall at University Park.

Considered Penn State's oldest living tradition, the original Old Willow was planted in 1850 on the Mall between Old Main and College Avenue by Professor William G. Waring, first superintendent of grounds, according to local legend.

In 1923, the tree finally was

destroyed in a storm, but two years earlier, in 1921, the University planted a cutting besides the original tree to assure a successor.

However, when the third generation of the willow died in 1977, the replacement cutting did not grow. It was replaced in 1986 but vandals tore it out in 1989.

The return of Old Willow has been supported by University Trustee and alumnus Ben Novak.

Parting

W. Robert Fortney, associate professor of floriculture, has retired after 24 years service.

Dr. Fortney was responsible for educational programs in greenhouse and flower production as well as plant analysis, soil testing and energy conservation. He served as coordinator for the department's trial gardens from 1982 until his retirement and was coordinator for the International Seedsmen's Field Day, an event which attracts participants from 10 countries. He also has served as horticulture consultant to the National Association on Standard

Medical Vocabulary.

Dr. Fortney currently is an All-America Selections Budding Plant and Flower Judge and an All-America Selections Rose Judge. He is a member of the American Horticulture Society.

He earned his bachelor of science in floriculture and his master of science in plant breeding and genetics at the University of Illinois in 1949 and 1951, respectively. In 1958 he earned his doctorate in horticulture and genetics at Purdue University.

Before joining the University faculty, he was an instructor of horticulture at Purdue University and an associate professor of horticulture at West Virginia University.

New parking ticket system being field-tested

The Parking Office currently is field testing a new system for writing parking

tickets that will save time and money, according to **Bruce N. Kline**, manager of

Robert A. Henry, community service officer with the Department of University Safety, uses a computer to generate a parking ticket. (Photo: Greg Grieco)

University parking.

Six University police officers are using the hand-held computer units to generate parking tickets, which resemble cash register receipts. The new type of tickets are very different from the handwritten forms used previously. The new tickets are legally valid and should not be ignored, Mr. Kline emphasized.

The computer units also enable officers to find out other information about vehicles by checking license numbers.

The computer units drastically cut the amount of time needed to process a parking ticket -- from eight person-hours per day to one-half hour per day.

The University is serving as a beta testing site for the equipment, which is manufactured by Cardinal Tracking Inc. of Louisville, Texas.

"We are evaluating the software and hope to make a decision soon about the equipment," Mr. Kline said. "In the meantime, we want faculty and staff members to be aware of the new ticket-writing system."

Retirement bill being considered

Senate Bill 405 is commonly referred to as the Melloy bill. In its early form it was intended to add 10% to the total number of years of service applicable toward retirement in the State Employees' Retirement System provided an employee:

1. Has at least 10 years of credited service.
2. Is at least 55 years of age.
3. Retires between Feb. 1, 1991, and Sept. 30, 1991.

This bill has been modified several times and may again be modified.

The Office of Human Resources is in contact with the Office of Governmental Affairs to track the status of this bill. If the bill becomes law the Office of Human Resources will inform faculty and staff of its provisions and identify steps necessary to obtain a retirement estimate.

Focus on the arts

Outdoor photos

Winning photographs from hundreds of entries by professional photographers, members of the Outdoor Writers Association of America (OWAA), are on exhibit at Kern Gallery at University Park through May.

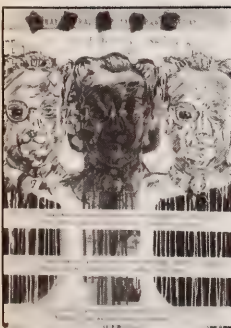

The exhibit is one of six traveling photo exhibits that appear throughout the year at nature centers, universities, museums, festivals, art galleries, libraries, conferences, etc.

A variety of color and black-and-white photos—from the covert glance of a grizzly bear cub resting on its mother's back to the shivering of a robin caught in a blizzard—represent the best of outdoor photography. Nikon Inc. of Garden City, N.Y., funds the OWAA Photography Competition and the traveling exhibits.

OWAA has more than 1,900 professional photographers, writers, editors, artists and others who communicate the outdoor experience. Headquarters of the non-profit association are in the Cato Office Center, State College.

The arts on Channel 3

"The End of a Sentence," written by noted American playwright Richard Nelson, is a portrait of a well-meaning 42-year-old

An exhibit of artworks by State College Area Senior High School students is on display in Pattee Library through May 24.

English professor at an upstate New York college whose plan to inspire his apathetic students and friends backfires in the worst possible way. The one-hour drama starring Edward Herrmann will premiere on American Playhouse at 9 p.m. Friday, May 3, on WPSX-TV.

The story is delivered in monologue fashion with Mr. Herrmann relating his experiences while sitting at a bar at Grand Central Station, lounging in his university office and working in his kitchen at home.

When Tchaikovsky conducted the opening night concert at Carnegie Hall on May 5, 1891, he ushered in a century of stellar performances at what has become one of the world's greatest concert halls. This spring, 100 years to the day, Zubin Mehta and James Levine will together conduct the Hall's afternoon and evening Centennial Gala Concerts which will feature an impressive "Who's Who" of classical music artists.

Share in the festivities when WPSX-TV airs *Carnegie Hall: Live at 100!* The Gala Celebration from 7 to 11 p.m. Sunday, May 5.

1991-92 arts events

The Center for the Performing Arts, written and announced its 1991-92 season.

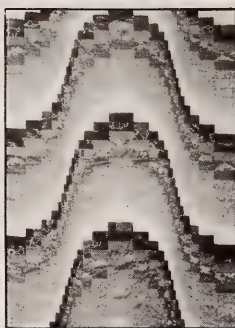

The season opens in September and runs through April, offering a variety of entertainment in 31 productions. The events, most of which are staged in Eisenhower Auditorium are grouped into seven series ranging from jazz to opera, ballet to Broadway-style musicals. Season subscriptions are now available.

The German Youth Orchestra, joined by leading cellist Yo-Yo Ma, will open the "MasterWorks" series Friday, Sept. 27. Mexico's past and present come alive in the sizzling, vibrant dances of Amalia Hernandez's Ballet Folklórico de Mexico on Friday, Oct. 25, as part of the "Bright Lights" series.

Ray Charles, who single-handedly transformed modern American music by deftly blending many of its genres, will perform one show only Saturday, Oct. 12, as part of the "Cool Heat" series.

In the "Intimate Excursions" series housed at Schwab Auditorium, the Bartok String Quartet will give a two-part performance of Bela Bartok's complete quartet cycle on Friday, Jan. 17 and Saturday, Jan. 18.

On Wednesday, Oct. 23, the Acting

"Indigo Integrals," a quilt by Eileen Thompson Lehner will be on display in the HUB from May 6 to June 2.

Company will present Athol Fugard's drama, "Blood Knot." Direct from a triumphant Broadway revival, the Tony award-winning "Gypsy" will be staged Friday, Sept. 20.

"Barnum" rolls into town for two shows on Saturday, Feb. 29. Andrew Lloyd Webber's feline phenomenon "CATS" will make an encore appearance at Eisenhower next spring. The dates for the two performances will be announced.

The center will continue to offer its Artistic Viewpoints lecture series, usually featuring performing artists discussing their work prior to selected shows.

Outdoor concert

The Penn State Campus Band will present a "Concert in the Park" at 6 p.m. Thursday, May 2, in Fisher Plaza outside Kern Graduate Building at University Park.

Highlight of the program will be G.F. Handel's "The Royal Fireworks Music." The program also will include Claude T. Smith's "Eternal Father Strong to Save," a work dedicated to the U.S. Navy band, ballet music from "Prince Igor," "Funny Girl Overture" and the march "The Purple Pageant."

Brad Townsend, graduate assistant with the Penn State Blue Band and doctoral

candidate in music education, is the conductor.

HUB exhibit

An exhibit by the late artist Tim Mark is on display through June 2 in the HUB Browning Art Gallery at University Park.

"Twelve Paintings by Tim Mark" is the first exhibit of Mr. Mark's paintings. Most of the subjects are taken from natural scenes in Ridley Creek State Park near his home in Glenholden. The paintings follow an impressionist style, modeled on the work of Andrew Wyeth and Claude Monet.

Most of the paintings in the collection were created by Mr. Mark after being diagnosed as having cancerous melanoma in 1987. He died on June 15, 1990, at the age of 42, after battling the fatal disease for three years. Although doctors told him he had only a year to live, Mark continued to paint and to refine his art until his death.

He lived each of his days believing that, "We have to do the best we can with the cards that are dealt to us."

He studied art at the Hussian School of Art in Philadelphia, and graduated from Penn State in 1982 with a B.A. degree in marketing research.

The University exhibit of "Twelve Paintings" is the last in an 18-month tour that included nine other University campuses.

Quilt exhibit

Centre Pieces, the local chapter of the National Quilt Association, will exhibit its quilts from May 6 to June 2 in the HUB Formal Art Gallery and the HUB Art Alley Cases at University Park.

The Centre County chapter, which began in 1983 with five members, has grown to its current size of 90 members. Its purpose is "not only to keep alive the long tradition of quilting in this country, but also to encourage quilters to experiment and discover their own personal sense of design," according to Becky Shirer, chairperson of the exhibit.

The exhibit will include a reception from 1 to 9 p.m. Tuesday, May 7, in the HUB Formal Art Gallery, and a quilting demonstration by several members from 10 a.m. to 3 p.m. Wednesday, May 15, in the HUB Browning Art Gallery. Both events are free to the public.

Engineering graduate programs are ranked nationally

The University's graduate programs in engineering were listed among the top 25 programs in the nation by a U.S. News and World Report survey.

The College of Engineering was tied for seventh among public schools and 12th overall nationally among the top 25 schools of engineering in the April 29 issue *America's Best Graduate Schools*.

In addition, material and metallurgical engineers ranked Penn State as third among

the top schools in that field. Ranked first and second were Massachusetts Institute of Technology and University of California at Berkeley, respectively, in this new survey category.

"We are delighted to have the strength and quality of the College of Engineering graduate and research programs recognized by this ranking," John Brighton, dean of the college, said. "It is, however, only one measure of our performance. More

important indicators are the growing number of graduate students who choose to study here and the high level of support that we consistently receive from private industry and government for our research programs."

Carnegie Mellon University, which was ranked 10th, was the only other Pennsylvania school in the overall survey. MIT headed the list, followed by Stanford University (2) and University of

Illinois at Urbana (3), California Institute of Technology (4) and University of Michigan (5).

The engineering schools were ranked using two reputational surveys as well as statistical data that measure important educational attributes of postgraduate education — student selectivity, faculty resources and research activity.

Focus on Drugs and Alcohol

1990-1991

The following information is presented in compliance with the Higher Education Act of 1965 as amended by the Drug-Free Schools and Communities Act of 1989.

Today's challenge

University community joins national effort to address drug and alcohol problems

Alcohol and other drugs are traditional and easy to obtain on college campuses. In a university setting, education and learning are especially impaired by alcohol and other drug abuse, whether it is within the student or faculty and staff population.

Historically, in higher education, more attention has focused on student drug and alcohol abuse than that of the faculty and staff. During the 1980s, many institutions of higher education responded to the growing problems of alcohol and other drug abuse among students by increasing disciplinary sanctions and educational programs. An Inter-Association Task Force on Alcohol and other Substance Abuse Issues was established, which was responsible for the inception of National Collegiate Alcohol Awareness Week and a model campus alcohol policy.

In 1986, Congress passed the Drug-Free Schools and Communities Act "to establish, implement and expand programs of drug abuse education and prevention for students enrolled in colleges and universities." Shortly thereafter, the Drug-Free Workplace Act of 1988 became the first legislation to call attention to employee drug use on college campuses. The Drug-Free Workplace Act required employers receiving funds from federal agencies, which included virtually all colleges and universities, to adopt policies and programs aimed at preventing illicit drug use in the workplace.

In 1990, an amendment to the Drug-Free Schools and Communities Act extended its previous requirements. Under the new amendment, education and prevention programs were required to address alcohol along with other drugs and to be aimed at faculty and staff, as well as students. This reinforced the notion that abuse of any substance by any segment of the campus community threatens the educational integrity and productivity of an institution.

Penn State has a history of commitment to alcohol and drug education. A Task Force on

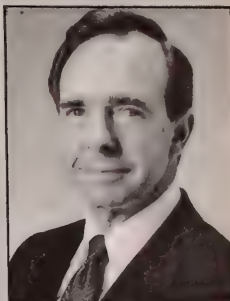

Ordering information

Additional copies of this publication are available by calling the Faculty/Staff Health Promotion Office at (814) 865-3085. A similar publication, *Drug Prevention '91*, has been distributed to all University students. Any faculty or staff member who would like a copy of the student publication may call the Office of Health Promotion and Education at (814) 865-0461.

Alcohol was formed in 1986 and was instrumental in establishing many of the programs which currently exist for students. In early 1990, a University-wide Task Force on the Prevention of Alcohol and other Drug Abuse was appointed to assist in the development of an action plan for the elimination of substance abuse by University students, faculty and staff.

The task force includes students, faculty and staff representatives from the Office of Health Promotion and Education, Human Resources, the Office of Conduct Standards, University Safety, Counseling and Psychological Services, Residence Life, Office of Greek Life, local alcohol and drug education/treatment agencies, and related academic programs.

The purpose of this publication is to provide faculty and staff with practical information about programs, resources and health issues, as well as the legal aspects of alcohol and other drug use. It is hoped that it will be a valuable reference for all members of the Penn State community as we work together toward the elimination of alcohol and other drug problems.

President Thomas

To the University Community:

Drug and alcohol abuse on college campuses is widespread. This trend is having adverse effects on students, faculty and staff nationwide. Drug abuse is draining — financially, emotionally and academically.

Through the Drug-Free Workplace Act of 1988, the Drug-Free Schools and Communities Act of 1986 and amendments to both acts, the federal government has called on institutions of higher education to become active participants in the national campaign against drugs. Penn State is committed to providing a living, learning and working environment that is free from substance abuse. Your input and involvement are central to the achievement of this goal.

President Thomas

University policies on drugs and alcohol

Possession/use/distribution of alcoholic beverages (AD-18)

The use, possession and distribution of alcoholic beverages are prohibited upon the property of The Pennsylvania State University unless specifically authorized. Where such use, possession and distribution are permitted, strict compliance with the laws of the Commonwealth of Pennsylvania is required. The laws of the Commonwealth of Pennsylvania are published as the "Liquor Code," PL90, April 12, 1951, and the Liquor

Control Board Regulations. The possession and use of alcohol beverages, subject to the laws of the Commonwealth, is permitted by persons twenty-one (21) years of age or older in a facility licensed by the Pennsylvania Liquor Control Board, and in individual housing units (rooms, apartments and houses) owned by The Pennsylvania State University. This policy applies to all locations of The Pennsylvania State University.

This is only a summary of AD-18. Consult the Personnel Policy Manual for additional information.

Educational and research areas

The Pennsylvania State University specifically prohibits the use, possession and dispensing of alcoholic beverages in classrooms, lecture halls, laboratories, libraries, research areas or within buildings, arenas or areas where athletic events, lectures or concerts are held, during such events or activities. Permission will not be granted to use or possess alcoholic beverages in a facility which is being used for one of the above functions at the time of the request.

Areas open to the public

The Pennsylvania State University prohibits the possession and use of alcoholic beverages in areas open to the public, including areas of buildings open to the public, except: the use of alcoholic beverages, subject to the laws of the Commonwealth, may be permitted at University-sponsored activities in areas designated by, and with the prior approval of, the appropriate senior executive responsible for the area of the request.

Private or closed areas

The possession and use of alcoholic beverages are prohibited in conference rooms, offices, office reception rooms, closed buildings and areas of buildings not open to the public or from which the public has been excluded, except: the use of alcoholic beverages, subject to the laws of the Commonwealth, may be permitted in a specific private or closed areas designated by, and with the prior approval of, the vice president, dean or executive officer.

University policy

The University prohibits the unlawful possession, use, manufacture, or distribution of alcohol or controlled substances by students, faculty and staff in buildings, facilities, grounds, or property controlled by the University, or used as part of University activities.

Detailed information about the University's drug and alcohol policies may be found in the Personnel Policy Manual and Policies and Rules for Students, as indicated below.

**Personnel Policy Manual
(Administrative Section)

beverages containing alcohol**

Violation of these policies will result in the imposition of disciplinary sanctions up to and including expulsion or termination of employment, and referral for prosecution by the appropriate law enforcement agency.

Excerpts of the Administrative Policies are provided here.

A drug-free workplace...

(AD-33)

Policy

It is the policy of The Pennsylvania State University that the unlawful manufacture, distribution, dispensation, possession, or use of a controlled substance, or property owned, leased or controlled by the University and used in the performance of University services is prohibited.

As a condition of University employment, every employee shall abide by the terms of this policy and he or

she shall notify his or her supervisor of any criminal drug conviction for a violation occurring in the University workplace no later than five (5) days after such conviction.

Violation of policies

Any employee found in violation of these prohibitions shall be subject to disciplinary action, including dismissal, and may be required to participate in a drug abuse assistance or drug rehabilitation program.

least 90 days in prison, not to exceed three years and fined at least \$5,000 but not more than \$250,000, or both.

Special sentencing provisions for possession of crack cocaine:

Mandatory at least five years in prison, not to exceed 20 years and fined up to \$250,000, or both if: (a) first conviction and the amount of crack possessed exceeds 5 grams; (b) second crack conviction and the amount of crack possessed exceeds 3 grams; (c) third or subsequent crack conviction and the amount of crack possessed exceeds 1 gram.

21 U.S.C. 844(a)

Civil fine of up to \$10,000: pending adoption of final regulations.

21 U.S.C. 853(a)(2) and 881(a)(7): Forfeitures

Forfeiture of personal and real property used to possess or to facilitate possession of a controlled substance if that offense is punishable by more than one year imprisonment (see special sentencing provisions re crack)

21 U.S.C. 881(a)(4): Forfeitures

Forfeiture of vehicles, boats, aircraft or any other conveyance used to transport or conceal a controlled substance

21 U.S.C. 853(a) Prohibited Acts C

Denial of federal benefits, such as student loans, grants, contracts, and professional and commercial licenses, up to one year for first offense, up to five years for second and subsequent offenses.

18 U.S.C. — Firearms

18 U.S.C. 922(g): Unlawful Acts

Ineligible to receive or purchase a firearm

Miscellaneous:

Revocation of certain federal licenses and benefits, e.g. pilot licenses, public housing tenancy, etc. are vested within the authorities of individual federal agencies.

Pennsylvania Penalties and Sanctions

Pennsylvania penalties and sanctions for illegal possession and distribution of controlled substances are outlined in the Controlled Substance, Drug, Device and Cosmetic Act. All controlled substances are listed in Section 4 (Schedules of Controlled Substances). Section 13a (Prohibited Acts; Penalties) describes 35 prohibited acts. Penalties for violations are listed in 13b-h. Some examples of prohibited acts and penalties are presented on Page A-4.

Legal sanctions

Illicit drugs

Sanctions upon conviction for possession, distribution, or manufacture of controlled substances range from fines to probation to imprisonment. Amounts of fines, terms of probation or years of imprisonment are generally contingent upon the circumstances and the amounts of drugs in possession, sale, distribution or manufacture.

Federal penalties

Federal penalties and sanctions for illegal possession of controlled substances are outlined in 21 U.S.C. (U.S. Code), which deals with food and drugs. Several sanctions are outlined below

21 U.S.C. 844(a): Penalties for simple possession

First conviction: Up to one year imprisonment and fined at least \$1,000 but not more than \$10,000, or both.
After one prior drug conviction: At least 15 days in prison, not to exceed two years and fined at least \$2,500 but not more than \$250,000, or both.
After two or more prior convictions: At

Continued on Page A-4.

Drugs at a glance ♦ Drugs at a glance

Faculty, staff and students should be aware of the health risks that have been associated with the use/abuse of illicit drugs and alcohol. A list of some of the health risks follows, however, it is not intended to be all inclusive. Further information may be obtained from the Campus Health Services, Office of Health Promotion and Education or Faculty/Staff Health Promotion Office.

Drug Effects Risks Depressants

Alcohol Slower reaction time, drowsiness, slurred speech, personality changes
 High risk for accidents; excess use can cause cirrhosis, heart disease and cancer, birth defects if used during pregnancy, physical and psychological addiction, and death from overdose.

Barbiturates/tranquilizers (downs, ludes, reds, yellow jackets, purple hearts) Drowsiness, stupor, dullness, slurred speech, drunk appearance. Occasionally, overstimulation, hallucination, insomnia, rage.
 Tolerance, death from overdose, birth defects when used during pregnancy, unconsciousness, physical and psychological addiction, increased danger when mixed with alcohol, tranquilizers or antihistamines.

Stimulants

Amphetamines (pep pills, ups, crank, speed, crystal, ice, meth, black beauties) Aggressive behavior, giggling, silliness, rapid speech, confused thinking, no appetite, extreme fatigue (after use) dry mouth, shakiness.
 Death from overdose, delusions/paranoia/bizarre behavior even when not using, frightening hallucinations, weight loss, malnutrition, and physical and psychological addiction. Injection can cause complications leading to death. Extreme depression can lead to suicide.

Cocaine/crack/ice (coke, flake, toot, C, rock) Raised blood pressure, feel no pain, superior attitude, indestructible feeling, hyperactive, masks fatigue, sweating, pupil dilation. Crack — short periods of euphoria followed by extreme depression.
 Unexpected heart attack or stroke, weight loss, extreme depression, suicide, paranoia, insomnia, nervousness. High doses can cause seizures and respiratory failure. Strong psychological addiction can occur rapidly, use during pregnancy can cause low birth weight and brain damage to fetus or cause the uterus to separate from the uterine wall.

Tobacco Central nervous system stimulant, irritation of lung tissue, constriction of blood vessels, increased blood pressure and heart rate, impaired sense of taste.
 Physical and psychological dependence, cancer, heart disease, emphysema. Smokeless tobacco can cause gum inflammation and disease, and dental problems.

"Look alikes" (pills and capsules containing legal stimulants, chiefly caffeine, phenylpropanolamine) Nervousness, loss of appetite, increased blood pressure and heart rate.
 High doses can cause nausea, anxiety, insomnia, dizziness and tremors.

Hallucinogens

Marijuana (pot, grass, weed, MJ, smoke) Sleepiness, wandering mind, lack of coordination, craving for sweets, increased appetite, dry mouth. Time and space distortion.
 Unpleasant panic attack or paranoia; 1 joint approximately equal to 5 cigarettes in cancer-causing potential. Use during pregnancy can lead to low birth weight and brain damage to fetus; temporary sperm irregularities have occurred in users; ability to operate cars and heavy machinery impaired, psychological addiction may occur.

Drug Effects Risks

LSD (acid, trips, blotter, windowpane) Feelings of detachment, sensory distortion, changes in perception/mood/thought, hallucinations (usually at higher doses), rapidly alternating laughing and crying while using, drunken state, incoherent speech, pupil dilation, cold hands and feet.
 Very unpleasant/terrifying emotional experiences. "Flashbacks" or brief recurrence days or months later of a portion (usually unpleasant) of a trip. Psychotic breaks, usually lasting a few days (can be indefinite) have occurred, as well as psychological addiction.

Ecstasy (MDMA, ADAM, XTC) Dilated pupils, dry mouth, nervousness, physical tension, mild hallucinations.
 Tolerance can build leading to overdose. Liver damage, heart problems, possible brain damage, and psychosis (with heavy use).

Mushrooms (psilocybin, shrooms) Rise in body temperature, elevated pulse rate and blood pressure, enlarged pupils, nausea, drowsiness, numbness, synesthesia ("cross-over" among the senses).
 "Bad trips," ability to operate machinery and cars can be impaired, psychotic breaks (rarely).

Narcotics

Heroin (junk, horse, H, smack) Stupor, drowsiness, drunk appearance, lack of coordination, confusion, excessive itching.
Morphine (M)
Codaine (schoolboy)
Cough medicine (containing codeine and opium juice)
 Death from overdose, AIDS and hepatitis from using unsterile needles. Physical and psychological addiction common. Pregnancy complications and birth defects have occurred.

Anabolic steroids

Synthetic testosterone Reduced body fat, improved endurance, faster muscle healing time, increased muscle mass and strength, lowered tolerance to pain, increased aggressiveness.
 For men: decreased sperm production, atrophy of testes, impotence, severe acne, early baldness. For women: growth of facial and body hair, menstrual irregularities, enlargement of clitoris, deepening voice. For both men and women: high blood pressure, heart disease, liver damage, "steroid psychosis."

Toll-free hotlines

Legal sanctions

Continued from Page A-2.

Misdemeanors

13(a)12: Misrepresentation

It is unlawful for any person to acquire or obtain possession of a controlled substance by misrepresentation, fraud, forgery, deception, or subterfuge.

Penalty: imprisonment for one year, fine of \$5,000, or both.

13(a)16: Possession

It is unlawful for a person to knowingly or intentionally possess a controlled or counterfeit substance unless he is registered under the act or obtains it by use of a valid prescription.

Penalty: imprisonment for one year, a fine of \$5,000, or both in the case of a first offense; imprisonment for three years or fine of \$25,000, or both for second offense.

13(a)31: Possession and distribution of a small amount of marijuana (30 grams marijuana or 8 grams hashish)

It is unlawful for a person to possess a small amount of marijuana for personal use; to possess it with the intent to distribute it; or to distribute it.

Penalty: imprisonment for one year, a fine of \$500, or both.

13(a)32 and 33: Use and delivery of paraphernalia

It is unlawful for a person to use, to deliver, or to possess with the intent of using or delivering paraphernalia (such as grow kits, pipes, needles, and roach clips) to grow, conceal or ingest drugs.

Penalty: imprisonment up to one year, a fine of \$25,000, or both.

Felonies

13(a)30: Delivery

It is unlawful for a person to manufacture, deliver or possess with intent to manufacture or deliver a controlled substance by a person not registered under this act.

Penalty: In the case of most opiates, imprisonment for 15 years, a fine of \$250,000, or both; in the case of most hallucinogens, imprisonment for five years, a fine of \$15,000, or both; in the case of most drugs available, illegally, under prescription, imprisonment for three years, a fine of \$10,000 or both.

Alcohol

The laws of Pennsylvania concerning the possession or distribution of alcoholic beverages are part of 18 PA C.S. (Pennsylvania Crimes Code). Examples of violations and their respective sanctions are as listed below.

18 PA C.S. 6308: Purchase, consumption, possession or transportation of liquor or malt or brewed beverages

A person commits a summary offense if he, being less than 21 years of age, attempts to purchase, purchases, consumes, possesses or knowingly and intentionally transports any (alcoholic) liquor, or malt beverages within the Commonwealth.

Penalty: maximum penalty 90 days imprisonment; additional penalty for subsequent violation is \$500 fine; police are required to notify parents; immediate suspension of operator's license for 90 days; one year license suspension for subsequent offenses.

18 PA C.S. 6309 (a): Representing that minor is of age

A person is guilty of a misdemeanor of the third degree if he knowingly, willfully, and falsely represents to any licensed dealer, or other person, any minor to be of full age, for the purpose of inducing any such licensed dealer or other person to sell or furnish any intoxicating liquors to a minor.

Penalty: maximum penalty one year imprisonment; minimum penalty \$500 fine; no suspended sentences; immediate suspension of operator's license for 90 days; one year license suspension for subsequent offenses.

18 PA C.S. 6310.1(a): Selling or furnishing liquor or malt or brewed beverages to minors

A person commits a misdemeanor of the third degree if he intentionally and knowingly sells or intentionally and knowingly furnishes, or purchases with the intent to sell or furnish, any liquor or malt beverages to a person who is less than 21 years of age.

Penalty: maximum penalty one year imprisonment; minimum penalty \$1,000 for first violation; \$2,500 fine for subsequent violations; no suspended sentences.

18 PA C.S. 6310.6: Definitions

"Furnish" means to supply, give or provide to, or allow a minor to possess on premises or property owned or controlled by the person charged.

18 PA C.S. 5505: Public Drunkenness

A person is guilty of a summary offense if he appears in any public place manifestly under the influence of alcohol to the degree that he may endanger himself or other persons or property, or annoy persons in his vicinity.

Penalty: maximum penalty 300 fine or up to 90 days imprisonment, or both.

Driving under the influence

Pennsylvania laws concerning driving under the influence are part of 75 PA C.S. (Pennsylvania Vehicle Code), Subchapter B (Serious Traffic Offenses). Section 3731 describes violations and penalties.

75 PA C.S. 3731: Driving under the influence of alcohol or controlled substance

A driver is considered legally intoxicated in Pennsylvania if he or she is under the influence of alcohol, a controlled substance, or a combination of both, to a degree which makes the person incapable of safe driving; or when his or her blood-alcohol content (BAC) is 0.10 percent or greater. Driving under the influence is a misdemeanor of the second degree.

Penalties: Maximum penalty is two years imprisonment or \$5,000 fine, or both, plus automatic one year driver's license suspension. Penalties for first offense include

a minimum fine of \$300, minimum of 48 hours imprisonment, attendance at alcohol safety driving course, counseling as required, supervision on parole for up to two years and one year suspension of driver's license.

Other alcohol-related violations involving vehicles

Refusal to take a breathalyzer or chemical tests:

Anyone who operates a motor vehicle in Pennsylvania is deemed to have given consent to one or more chemical tests (or breath or blood alcohol) for the purpose of determining blood alcohol content, if the police officer has reasonable grounds to believe the person has been driving under the influence. If a person is placed under arrest for violation of the DUI law and refuses to submit to a test, his/her driver's license will be suspended for one year.

Consumption of alcoholic beverages by a driver:

A driver is guilty of a summary offense if he/she consumes any alcoholic beverage in a vehicle in operation on a Pennsylvania highway.

Local open container laws

While there is no state law prohibiting open containers of alcohol in public, many local governments have enacted such ordinances. For example, the State College Borough Open Container Ordinance makes it unlawful to possess an open container of alcohol in a public parking lot or garage, on a public street or sidewalk, or in an alley or park, except for persons within a motor vehicle. Violations result in fines ranging from \$25 to \$300.

Many other local governments have enacted special ordinances. It is suggested that you be familiar with those in your area.

NOTE: Additional information on legal sanctions pertinent to alcohol and controlled substances may be obtained from local police departments or the nearest Pennsylvania State Police barracks.

Drug and alcohol treatment resources for faculty and staff

Any employee may obtain confidential advice related to alcohol and other drug abuse problems by contacting the following:

Office of Human Resources:

Faculty/Staff Health Promotion program:
 (814) 865-3085

Employee Relations Division: (814) 865-1412

- Campus Health Services
- Human Resources representatives
- Directors of Business Services

Community resources

A variety of services is available in most communities to assist people with drug and alcohol problems. These range from crisis intervention and self-help programs to individual counseling services or in-patient residential programs. Often, drug and alcohol services are listed in the human services section of the local telephone directory. The white pages usually provide local phone numbers for Alcoholics Anonymous, Narcotics Anonymous, Al-Anon and other self-help programs. Several toll-free numbers which provide assistance and information are listed on Page A-3. An annotated listing of drug and alcohol services in the Central

Pennsylvania region may be obtained by calling the Faculty/Staff Health Promotion office at (814) 865-3085.

Insurance coverage for drug and alcohol treatment

University faculty and staff who are eligible for health care benefits may receive reimbursement for some of the costs of certain types of drug and alcohol treatment. Both Healthpass and Plan A provide some coverage for detoxification in an approved facility. In addition, some reimbursement for outpatient counseling may be available. Before enrolling services, one should consult the employee benefits literature and clarify specific questions through the Employee Benefits Division of the Office of Human Resources at (814) 865-1473.

Drug awareness training for supervisors

Since fall 1989, almost 300 administrators, human resources representatives and supervisors from all University locations have participated in the Office of Human Resources' Drug Awareness Training Program. The purpose of the program is to provide faculty and staff in supervisory positions with an orientation to the

University's policies and procedures related to drug and alcohol use at work and an overview of interrelated health concerns.

Coordinated by the Faculty/Staff Health Promotion Office and Human Resource Development Center, the half-day seminar includes practical information about commonly used drugs, work-related signs of abuse, and resources available for assistance in dealing with such problems.

Nancy Sessano, coordinator of Faculty/Staff Health Promotion, provides an overview of legislative requirements, as well as workplace health and safety issues associated with alcohol and other drugs. Bob Maney, manager of employee relations, guides participants in effective use of University employee relations services for intervention with employees. A visual display of various drugs and paraphernalia is presented by Officer Mike Teeters as he discusses the roles of the supervisor and police services in the legal aspects of drug use on campus.

The next sessions of the Drug Awareness Training Program will be held in Fall 1991. For information, consult the Fall 1991 Human Resource Development Center course schedule, which will be distributed in August, or call HRDC at (814) 865-3410.

University Park Calendar

May 2 -
May 5

Special Events

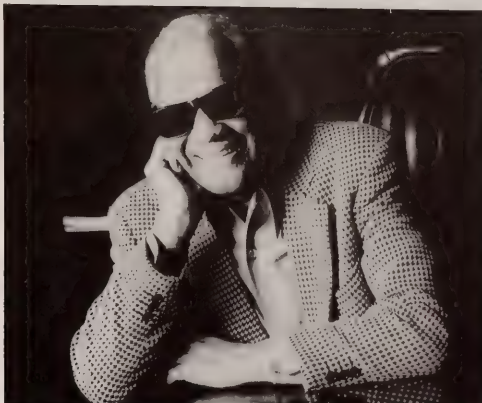

Thursday, May 2
Bach's Lunch, 12:10 p.m., Eisenhower Chapel.
Voice students of Richard Davis and Richard Kennedy.
Eta Sigma Phi inaugural initiation, 5:30 p.m.,
Women's Studies Lounge, ground floor,
Sparks.
Friday, May 3
Classes end 9:30 p.m.
Sunday, May 5
Shaver's Creek, Wild Edibles and Medicinal
Plants, 1-3 p.m. Call 863-2000.
Thursday, May 9
■ International Lecture Series, 2:30-4 p.m., 222
Boucke. Mary Purcell, International
Federation of University Women, on
"Women's Role in a Changing Society."
Saturday, May 11
Shaver's Creek, Forest Friends, 1-2 p.m. Call
863-2000.
Arthur H. Waynick Memorial Lecture, 8 p.m.,
Walker. Louis J. Lanzetta, AT&T Bell
Labs, on "Impacts of Solar-Terrestrial
Activity on Technological Systems."
Sunday, May 12
Shaver's Creek, Wildflower Walk, 1-2:30 p.m.
Call 863-2000.
Thursday, May 16
Trustees meet at University Park, through May
17.
Saturday, May 18
Commencement, through May 19.
Sunday, May 19
Shaver's Creek, Endangered Species, 1-2:30
p.m. Call 863-2000.

Public Radio

WPSU-FM 91.1
"All Things Considered," Monday-Friday, 5-
6:30 p.m. Saturday and Sunday, 5-6 p.m.;
Morning Edition, Monday-Friday, 6-8 a.m.;
Weekend Edition, Saturday and Sunday, 11
a.m.-1 p.m. "Odyssey Through Literature,"
12:30 p.m. Wednesdays, with S. Leonard
Rubinstein.

Conferences

Continuing Education
Keller Building
May 6-8. Turbulence Models for
Computational Fluid Mechanics. Frank
Schmidt, chair; Barb Impellitteri,
coordinator.
May 6-10. Simulation of Subsurface Flow and
Contaminant Transport by Finite Element
and Analytical Methods. Gour-Tsyh Yeh,
chair; Barb Impellitteri, coordinator.
May 6-12. Police Executive Development
Institute. James Harner, chair; Kathy
Karchner, coordinator.
May 7-10. Mammalian Cell Culture Methods.
Jim Shillens, chair; Kent Addis, coordinator.
May 8. Managing Conflict, Stress, and
Communication Challenges: Secretary in
Charge Program. Anila Shmukler,
instructor; Donna Ricketts, coordinator.

Roy Charles will perform in concert at University Park on Oct. 12 as part of the 1991-92 Coal Heat jazz series presented by the Center for the Performing Arts.

May 9-10. Overview of the Coal Mining
Industry. Robert Franz, chair; Norm
Lathbury, coordinator.
May 9-10. Symposium on Multilayer Ceramic
Reliability. Joseph Dougherty, chair; Donna
Ricketts, coordinator.
May 9-12. Aquatic Institute. Tom Griffiths,
chair; Jerri Milsom, coordinator.
May 10-12. Adult Golf. Jeff Mowrer, chair;
Jerri Milsom, coordinator.

Seminars

Thursday, May 2
Physics Colloquium, 3:30 p.m., S5 Osmond.
Dr. Moses H.W. Chan on "The Effect of
Disorder and Random Impurity on a
Superfluid and Liquid-Vapor Transition."
Computer Science Colloquium, 4 p.m., 325
Whitmore. J.N. Hooker, Carnegie Mellon,
on "Resolution vs. Cutting Plane Solution of
Integer Problems: Some Computational
Experience."
■ Meteorology and Earth System Science
Center, 4 p.m., 111 Kern. Richard A. Anthes,
Univ. Corp. for Atmospheric Research, on
"Global Change - Toward an
Unprecedented Climate in the Lifetime of
our Children."
Friday, May 3
Agronomy, 3:35 p.m., 107 Ag
Science/Industries. John Pollack on
"Pedogeomorphology of the P. Piedmont."
Architecture Lecture Series, 8 p.m., 112
Walker. Steven Holl, N.Y. architect, on
"The Theoretical Ground."
Sunday, May 6
Entomology, 3:45-4:45 p.m., 204 Patterson.
William F. Ravilin, VPI and SU
Tuesday, May 7
Forest Resources, 11:10 a.m., Conference
Room, Land/Water Research. Dr. Stephen
Fairweather on "Cable Logging Research in
Northern Pa."
Condensed Matter Physics, 4 p.m., 339 Davey.

Dr. Bill Gadzuk, NIST, on "Electron
Femtochemistry at Surfaces."
Thursday, May 9
Physics Colloquium, 3:30 p.m., S5 Osmond.
Dr. A.M. Polyakov, Princeton, on
"Perspectives of String Theory."
Friday, May 10
Physics Colloquium, 11 a.m., S5 Osmond.
Walter Kohn, Univ. of Calif., on "Electronic
Structure from a Density Standpoint."
Tuesday, May 14
Condensed Matter Physics, 4 p.m., 339 Davey
Dr. Jan Ma.

Exhibits

HUB Galleries
Formal Gallery/Art Alley Cases:
Centre Pieces, quilt exhibit by local chapter,
National Quilt Association, May 6-June 2.
Browsing Gallery:
"Twelve Paintings by Tim Mark," through
June 2.
Kern Gallery
Marlee Erwin, watercolors, "Essentially Iris,"
through May 3.
Outdoor Writers Association of America,
photographs, through May 31.
Pattee Library
African-American Studies Room:
Collection of African-American art by artists
Jenae Williams, Gathoni Kamau, Bruce Fair,
Leah Finch, Susan Lashley, Darrel Johnson,
Beverly Melver and Don Lemch, through
May 12.
Rare Books Room:
Facts in Classical Latin. Selections from the
Leonard S. and Barbara Lark Goodman
Collection, through May 31.
Zoller Gallery
Master of Fine Arts Thesis Exhibition, through
May 9.

■ Reflects an international perspective

Faculty/Staff Alerts

Managed Care

All faculty and staff members in University
Medical Plans A and B administered by
Prudential are reminded that Managed Care
was implemented on Jan. 1, 1991. The
purpose of Managed Care is to evaluate
prior to admission all inpatient
hospitalizations and nonemergency, elective
surgical procedures that an employee or
covered dependent may require.

It is the employee's responsibility to
initiate a toll-free call to The Prudential
Insurance Co. (800-251-7277) before being
admitted to a hospital. Support specialists at
Prudential will evaluate the proposed
treatment and, if approved, will authorize
the confinement for a specific number of
days.

If surgery is proposed, a second surgical
opinion may be required before inpatient
hospital admission. Should a confinement
be extended, the employee must first
obtain approval by the support specialist.
Emergency inpatient hospital admissions
must be precertified within two days of
confinement.

Failure to follow precertification
requirements will result in a reduction of
benefits. Hospital charges will be
considered at 80 percent if precertification
steps are not taken. If a second surgical
opinion was required and not obtained, the
surgical benefit will be reduced by at least
50 percent. Also, charges for additional
days of confinement which are not
approved will not be payable. The
maximum penalty for not following
precertification procedures is \$5,000 per
calendar year.

Questions regarding Managed Care may
be referred to the Employee Benefits
Division (865-1473).

Wellness Wake Up

The Office of Faculty/Staff
Health Promotion and the Recreational
Sports Fitness Program will again
offer the early morning health and
fitness program "Wellness Wake Up." This
program for early risers will meet Monday
through Friday from 6:30 to 7:30 a.m. in
Recreation Building beginning May 13th.
Wellness Wake Up provides a supportive
and educational atmosphere for the
beginning exerciser as well as the regular
participant. Over 50 faculty and staff to
date have enjoyed exercising before the
workday begins.

Participants in the program receive pre-
and post-fitness assessments, assistance in
developing individualized exercise
programs, and supervision in activities such
as aerobics, weight training, stationary
cycling, walking, and running. The program
also includes an educational component
addressing such topics as cholesterol
awareness, weight control, stress
management, and healthy back exercises.

The cost for the Intervention and Summer
sessions is \$50 and enrollment will be
limited to the first 100 participants.
Registration forms and further information
may be obtained by calling Patti Kenney at
865-5401 or Nancy Sassano at 865-3085.

Bookshelf

Anthony Cutler, research professor of art history, served as art history editor for the recently published *Oxford Dictionary of Byzantium*, compiled at Dumbarton Oaks, the Harvard University Center for Byzantine Studies in Washington, D.C.

The *Oxford Dictionary of Byzantium* is a three-volume work of approximately 5,000 entries combining the contributions of 127 scholars from 17 countries.

The dictionary breaks through traditional perceptions and offers the first comprehensive study of the Byzantine world.

"Byzantium is not just the story of emperors and priests. The dictionary gives equal time to the common person with his or her everyday interests," said Dr. Cutler, who also is a Fellow of the University's Institute for the Arts and Humanistic Studies.

While there are entries for every emperor, the dictionary also discusses contraceptives, sexual mores, attitudes toward women, kitchen utensils, farm equipment, taxes and popular music. There is even an entry on bread, which deals with it not only as food, but also as an important symbol in Byzantine religion.

"Byzantine art as represented by icons, mosaics and ivories seems to us stiff, lifeless and hierarchal, yet to the Byzantines it was lively and representational," Dr. Cutler added.

The dictionary received both outright grants and matching federal funds from the National Endowment for the Humanities. Other major benefactors were Andrew W. Mellon Foundation, Dumbarton Oaks, Getty Grant Program of the J. Paul Getty Trust and Samuel H. Kress Foundation. Other funding came from Menil Foundation, Gordon Fund, Capt. Nicholas Kulukundis and Helen McKagen.

Lynn Carbon Gorell, assistant professor of Spanish, and Michael Finnemann, of Augustana College, are co-authors of the first process-oriented, reading-to-write text for Spanish composition courses.

The text departs from traditional grammar reviews often used in advanced composition classes in its use of readings as models for compositional analysis. It emphasizes five writing styles: description, narration, report, opinion/persuasion and argumentation.

The book, *De Lector a escritor, desarrollo de la comunicacion escrita*, designed for third-year college and university courses, is published by Heinle and Heinle.

Robert E. Griffin, instructional specialist in The Small College of Business Administration, is the author of *Harvard Graphics: Creating Effective Visual Presentations*.

Published by Course Technology Inc. of Cambridge, Mass., the text is designed to teach students to make presentations through the use of effective graphics.

Example of textile art from the Byzantine world

Peter H. Hahn, assistant professor of history at Penn State Erie, The Behrend College, is author of *United States, Great Britain and Egypt, 1945-1956: Strategy and Diplomacy in the Early Cold War*, published by the University of North Carolina Press.

Dr. Hahn's book is the first comprehensive scholarly account of the strategic relations between the United States, Britain and Egypt during the Cold War period. He illustrates how the United States sought to establish stability in Egypt and the Middle East to preserve Western interests, to deny Soviet access to regional resources and to prevent the outbreak of war.

Using recently declassified American and British political and military documents, Dr. Hahn gives a comprehensive view of how individuals as well as domestic and international issues affected policy developments, how U.S. officials advanced their interests in Egypt, and how the U.S. growing influence and commitment to Middle East security paralleled Britain's decline in power in the region.

The Department of Art History announces the publication of *All the World's a Stage: Art and Pageantry in the Renaissance and Baroque, Papers in Art*

History from The Pennsylvania State University, Volume VI (University Park, 1990, 620 pages, two volumes in slipcase).

This publication of the seminal research of 15 scholars, edited by **Barbara Wisch** and Susan Scott Munshower, was made possible by the endowment established for the papers in art history by Jack and Mary Louise Krumrine and a grant from the Office of the Vice President for Research at the University.

In addition to a detailed introduction, Dr. Wisch contributed an article titled "The Roman Church Triumphant: Pilgrimage, Penance and Processions Celebrating the Holy Year of 1375."

Donna Pequet, associate professor of geography, is co-editor with Duane F. Marble, professor of geography at Ohio State University, of *Introductory Readings in Geographic Information Systems*, published by Taylor and Francis Ltd. (London, New York, Philadelphia).

The book brings together for the first time a balanced collection of significant papers in the rapidly expanding field of geographical information systems (GIS). Geographic information systems are designed to store, manipulate, analyze, and display large volumes of spatial data derived from maps, satellite imagery and other sources.

Introductory Readings in GIS is intended to provide supplementary reference materials for students and for practicing professionals. The book has special significance because the existing GIS literature is widely scattered in journals and technical reports of numerous disciplines.

Science Education in the United States: Issues, Crises and Priorities, published by the Pennsylvania Academy of Science, describes the state of science education in the United States and evaluates and analyzes the present crisis while searching for solutions to this pervasive problem.

Shyamal K. Majumdar, professor of biology, Lafayette College, and Leonard M. Rosenfeld, professor of physiology, Jefferson Medical College, and Penn State's **Peter A. Rubba**, associate professor of science education and science, technology and society; **E. Willard Miller**, professor emeritus of geography, and **Robert F. Schmalz**, professor of geology, are editors of this compendium of 45 chapters written by knowledgeable and well-known professional scientists, science educators, and policy makers.

The book is divided into sections covering the state of science education, primary and secondary science education, postsecondary science education, the roles of government, professional societies and industry in science education, a broad view of science education, special programs and critical issues. The final chapter consists of the editors' reflections on science education.

Other University contributors include **Robert L. Shrigley**, professor of education; **Rosalyn Gates**, doctoral candidate in curriculum and instruction; **Rustum Roy**, Evan Pugh professor of the solid state; **Charles L. Hosler**, acting executive vice president and provost; **Del Sweeney**, special assistant to the executive vice president and provost, and **Leonard J. Waks**, professor of science, technology and society.

Frank J. Swetz, professor of mathematics and education, and **Jefferson S. Hartzler**, chair of Mathematical Sciences and Computer Sciences, at Penn State Harrisburg, are the authors of *Mathematics Modeling in the Secondary School Curriculum*, published by the National Council of Teachers.

The book is designed to use models to explain mathematical equations.

Written for secondary education teachers, it is based upon a type of math used in industry, and makes use of situations problems such as the design of a parking lot and the marketing of a concert to explain complex equations.

Private Giving to Penn State

Carnegie Corp. awards grant

The Carnegie Corporation of New York has awarded the College of Health and Human Development a grant of \$493,000 for a study of the problems and opportunities of adolescence.

The unique and comprehensive effort will be known as the PRIDE Project, an acronym for Policy, Research and Intervention for Development in Early adolescence. PRIDE is designed to help parents, professionals and groups that serve youth develop the most beneficial programs for youngsters.

"As we learn more about how younger teen-agers feel, learn, interact and behave in different circumstances, our knowledge can guide future research, policy and programs," Dean Anne C. Petersen, project director, said.

The Carnegie Corporation founded the Carnegie Council on Adolescent Development in 1986. The council's goal is to generate public and private interest in measures that prevent damaging problems in adolescence and promote healthier adolescent development. "The problems of adolescence center on a fateful time when poorly informed decisions have lifelong consequences,"

David A. Hamburg, Carnegie Corporation president, said. "The tortuous passage from childhood to adulthood requires our attention, our understanding, and a new level of thoughtful commitment."

The Penn State team includes experts in a number of academic disciplines that have some impact on adolescence, including those in nursing, health education, human development, nutrition, exercise physiology, family studies, pediatrics, psychology, sociology, education, communication and the media, and marketing.

The grant is the second Carnegie has awarded to the college within the year. The first was a planning grant of \$110,000 last November to prepare for this full-scale research project.

"No other university has the number of outstanding researchers with expertise in early adolescence as we have at Penn State," Dean Petersen said. "This project will bring the considerable talents of these scholars to bear on the very real needs of young people here and across the nation."

Smart Call

President Thomas, left, and G. David Gearhart, senior vice president for development and university relations, receive instructions on the new, up-to-date telemarketing system, Smart Call, which will enable the Telefund program, part of the Annual Fund for Academic Excellence, to contact more people and make better quality calls. According to Daniel P. Sattig, director of Annual Giving, Telefund this year will raise \$1.8 million from 36,000 gifts. (Photo: Greg Grieco)

Couple pledges \$50,000 to aid first-year MBAs

A Malvern, Pa., couple has pledged \$50,000 in support of graduate business students at the University.

The Jeff and Cindy King Master of Business Administration Fellowship will provide \$5,000 to academically promising first-year MBAs in The Smeal College of Business Administration.

Mr. King, a University alumnus with a bachelor's degree in marketing, is the president of NPI, a real estate investment, property management and development business based in Wayne,

Pa. The firm was founded in 1971 by Mr. King and fellow Penn Stater Brian R. Keller.

Today, NPI manages 3,700 apartment and townhouse dwelling units throughout the Delaware Valley, with holdings valued at \$160 million.

While at Penn State, Mr. King was a member of Phi Kappa Sigma, the American Marketing Association, and played third base for the freshman baseball team. He is a member of the Penn State Alumni Association.

Cindy McCormick King attended Sullins College, Va., and has contributed to NPI's success by assisting with marketing. The Kings' daughter, Julie, is pursuing studies in the College of Health and Human Development.

The Penn State MBA program was ranked eighth nationally among public universities in U.S. News and World Report's most recent poll of business schools.

Gift aids students in Engineering and Health/Human Dev.

Longtime Penn State benefactor Marie Underhill Noll has given \$100,000 for endowments in the colleges of Engineering and Health and Human Development.

Mrs. Noll designated \$50,000 to establish a fellowship for academically promising graduate students in engineering.

The remainder of the gift will endow an undergraduate research program in exercise and sport science. The program aims to expose students to a research environment and stimulate their interest in graduate education and advanced research. Both endowments will be named to honor the donor.

Mrs. Noll of Ithaca, N.Y., is a Cornell University graduate and retired high school teacher. Her husband, A. Robert Noll, earned a bachelor's degree in electrical engineering from Penn State in 1929. He was director of patents for IBM Corp. for many years and died in 1968.

The Noll Laboratory for Human Performance Research, located in the College of Health and Human Development, is named in his honor. Mrs. Noll has continued her husband's interest in Penn State by making numerous gifts for programs in health and human performance and engineering.

Population Issues Research Center receives grant Mellon Foundation awards \$300,000

The Andrew W. Mellon Foundation of New York has given \$300,000 to the Population Issues Research Center as the result of a national competition.

Mellon made the new awards to six universities that had the best faculty and record of achievement in international demographic research and training, according to Dennis Hogan, director of the center and professor of sociology. There are now 10 universities participating in

Mellon-sponsored demographic research.

The \$300,000 will be used for research and training in demography, which is the science of the vital processes of populations — births, deaths, migrations, and marriages. In making the award to Penn State, Mellon cited the collaboration between the University's strong Anthropology Department and the Population Issues Research Center.

"We are pleased that the Mellon

Foundation, which is known for its broad support of scientific research, has recognized our program for its emphasis on how the individual is affected by key cultural and social institutions," Dr. Hogan said.

The center is one of four in the University's Institute for Policy Research and Evaluation. Faculty, as members of the interdisciplinary institute, study international population issues.

Promotions

Staff Exempt

Cazella H. Goodall, to director of constituent relations in Division of Development and University Relations.
Thelma Greco, to assistant to the director, students at Penn State New Kensington Campus.
Donald G. Grimm, to test facilities supervisor, electronic in Applied Research Lab.
Nancy J. Hensal, to manager, employee benefits division in Office of Human Resources.
Julie A. Martinez, to student insurance assistant in Student Services.
Rachel E. Murgas, to financial analyst in Engineering.
Beth A. Patterson, to assistant extension agent in Agriculture.
Teresa F. Robinson, to construction cost specialist in Office of Physical Plant.
Gerald Spates, to minority student and special programs at Penn State Erie, The

Behrend College.
Margaret E. Triplett, to area representative at Penn State Fayette Campus.
Charles H. Wedlake, to test facilities supervisor, mechanic in Applied Research Lab.

Staff Non-Exempt

Ellen M. Cake, to surgical head nurse at Hershey.
Mary Beth Elensky, to senior research technician at Hershey.
Kathleen L. Gonze, to research technician at Hershey.
Scott T. Kramer, to senior research technician at Hershey.
Daniel K. Lucas, to assistant engineering aide in Applied Research Lab.
Samuel A. Martella, to engineering aide in Applied Research Lab.
Mary C. North, to senior research technician at Hershey.

Susan M. Osman, to human resources assistant in Engineering.
Roxanne M. Rishel, to assistant engineering aide in Applied Research Lab.
Cheryl A. Schaner, to senior aeromedical committee specialist at Hershey.
Margaret M. Weeter, to respiratory therapy clinical specialist at Hershey.

Clerical

Kristy K. Catalano, to secretary B in Continuing Education.
Barbara B. Gummo, to accounting clerk in Health and Human Development.
Sandra L. Hillard, to technical secretary B in Applied Research Lab.
Susan E. Houser, to clerk A, Interlibrary Lending in University Libraries.
Mithoo A. Kalra, to secretary B at Hershey.
June M. Kochan, to clerk, bookstore A at Penn State Berks Campus.

Lisa Ludwig, to secretary C in Office of the President.
Donna L. McClain, to accounting clerk in Corporate Controller's Office.
Sandra P. Peters, to clerk typist A in University Safety.
Michelle A. Schwalm, to senior medical transcription at Hershey.
Hope F. Struble, to secretary C in Science.
Lisa D. Zettie, to records team leader in Academic Services.

Technical Service

Barry J. Auman, to mechanic (experimental and maintenance) in Science.
Tracy J. Bastress, to utility worker at Hershey.
Ronald B. Kolb, to food preparer A at Penn State Hazleton Campus.
Louis W. Zimmerman, to lab maintenance technician in Science.

Penn Staters

Frederick de Armas, professor of Spanish and comparative literature, presented a paper at a session on invisibility and chaired another session on Spanish Golden Age drama at the 12th International Conference on the Fantastic in the Arts.

Jude Cassidy, associate professor of psychology, has received the Boyd R. McCandless Young Scientist Award from the American Psychological Association. The award recognizes outstanding young scientists who have made significant contributions to developmental psychology in the early years of their careers.

David P. Christy, associate professor of management science, presented a seminar on research methods at the University of Helsinki, Finland.

Mary Gage, Australian playwright and Theatre Department faculty member, has been awarded a Creativity Fellowship by the Alden B. Dow Creativity Center at the Northwood Institute in Midland, Mich.

Elizabeth Hanley, assistant professor of exercise and sport science, delivered an invited paper titled "Sport for All and the Arts" to the British Olympic Academy at Sheffield University in Sheffield, England.

Rangachar Kasturi, associate professor and acting director of Computer Engineering, presented an invited talk titled "Techniques for Line Drawing Interpretation: An Overview" at the

International Workshop on Machine Vision Applications in Tokyo, Japan.

Gary H. Koopmann, professor of mechanical engineering, and **John S. Lamanuca**, associate professor of mechanical engineering, have been awarded a \$318,658 renewal to their research contract with the U.S. Office of Naval Research. The contract, extended until December 1992, supports their study "A Strategy for Designing Quiet Piping Systems Using Composites with Actively Controlled Material Properties."

Manfred Kroger, professor of food science, has been invited to serve on the new Academic Science Advisory Council of the International Dairy Foods Association, which will address product safety, nutrition and health and product quality.

Robert Lima, professor of Spanish and comparative literature, read his poetry on the fantastic and participated on a panel of creative writers from England, Canada and the United States at the 12th International Conference on the Fantastic in the Arts.

Barnes W. McCormick, Boeing professor of aerospace engineering, has been appointed the U.S. national coordinator of the Flight Mechanics Panel of AGARD, an aerospace advisory group to NATO, by the Department of Defense.

Londa Schiebinger, assistant professor of history and women's studies, has

received a Guggenheim Fellowship for her work on the politics of 18th-century natural history. Her book *The Mind Has No Sex? Women in the Origins of Modern Science* was published by Harvard Press in 1989.

Michael A. Smyer, associate dean for research and graduate studies in the College of Health and Human Development, has been named chair of the American Psychological Association Task Force on Psychopharmacology. The task force is charged with making recommendations about whether psychologists should be permitted to prescribe certain kinds of drugs.

Adam J. Sorkin, associate professor of English at the Penn State Delaware County Campus, has been elected recorder of the American Culture Association for a four-year term of office beginning this year.

Roger Sweeting, associate professor of physical education at Penn State Erie, The Behrend College, has been appointed to a three-year term as a member of the Exercise Science and Wellness Task Force of the National Association for Sport and Physical Education.

Eric R. White, director, Division of Undergraduate Studies, and affiliate assistant professor of education, has been elected president-elect of the Association of Deans and Directors of University Colleges and Undergraduate Studies.

Smeal College, IBM join in new partnership

The Smeal College of Business Administration and IBM have joined in a new partnership. A major feature of the program is the installation of an IBM AS/400 computer in the Center for Academic Computing.

Valued at more than \$850,000, the mid-sized information processor will be used in the creation of an innovative computer-assisted advising system for students of the Smeal College, as well as for instructional purposes.

"The educational benefit of this partnership to our students will be enormous," Dean **J.D. Hammond** said. "The ability for them to use the AS/400 for guidance in selecting courses, business majors and careers will add significantly to their ability to make decisions."

"The computer also will enhance our course offerings in all academic areas. I can think of no better example of the positive value of a strong link between our business school and a leader in the corporate community such as IBM."

The University's proposal to become an IBM partner was developed by **David P. Christy**, associate professor of management science. Dr. Christy also is head of a committee conducting a top-to-bottom review of the University's MBA program.

IBM University Partners Program was created in 1989 and now involves a dozen American institutions. The AS/400 is designed for companies and organizations with heavy data-processing requirements. Typical applications are for accounting, invoice control and records management.

Intelligent sprinklers save fruit crops from frost damage

An experimental artificial intelligence (AI) system can protect fruit crops from frost and heat damage, deliver fertilizer and fungicides and save water, according to a team of University researchers.

"The purpose of the system is to automatically control irrigation to protect fruit from heat and cold and to deliver various chemicals in appropriate doses," **Paul Heinemann**, assistant professor of agricultural engineering, says.

Sprinkling crops with water to protect against spring frosts and summer heat is a standard procedure. In spring, the freezing water keeps the buds, blossoms and fruit from chilling below 32° Fahrenheit; in summer, the evaporating water cools the fruit.

Routine practice is to turn the water on when the

Researchers Barbara Goulart, Charles T. Morrow (standing) and Paul Heinemann are shown with some of the sprinkler equipment used in testing methods of protecting strawberries from frost and heat damage. The research is conducted at the Russell E. Larson Agricultural Research Center. (Photos: Greg Grieco)

temperature rises above or falls below a certain level and leave it on until temperatures are more favorable.

The research team, which includes Dr. Heinemann, **Charles T. Morrow**, professor of agricultural engineering, **Barbara Goulart**, assistant professor of horticulture, and **Timothy Stombaugh**, agricultural engineering graduate assistant, tested the artificial intelligence system against frost on strawberries last spring.

"During one frost last spring, the AI system reduced strawberry crop damage to 1 or 2 percent, while the unsprinkled field showed approximately 50 percent damage," Dr. Heinemann says. "At the same time, the system can potentially use 50 percent less water than a manually controlled system."

"A human manager would look at variables like temperature, rate of temperature drop and wind speed and decide whether or not to turn on the sprinklers. The artificial intelligence system does the same thing. The computer reads the air temperature, dew point, wind speed and blossom temperature, passes it through a rule-based system and decides either to turn on the water or continue to monitor the situation."

Rule-based systems work by asking a series of questions in the same way experts make decisions. For example, the system might determine if air temperature, blossom temperature and wind speed are below certain levels. If the answers to these questions is yes, then the system would turn on the water.

In reality, the decision process is more complicated.

For example, if the wind speed is too high, watering would do more damage than freezing. Consequently, the rule base must be carefully constructed to take into account all possible combinations of variables.

"After the system decides to turn on the water, the next question is how much?" Dr. Heinemann says.

Unlike manually controlled irrigation systems, the computerized system can carefully regulate water use, pulsing the spray to apply the least amount of water possible.

The artificial intelligence system can plug the various temperature and wind speed variables into an equation and determine how long it will take the water to freeze or evaporate. The system can be timed to start up just before the last water evaporates or freezes.

"When water is used to cool fruit in the summer, there is an increased chance of disease. Fungicide can be placed in the irrigation water to eliminate this problem and minimize the amounts of chemicals needed," he adds.

"The normal method used to apply fungicide, or other chemicals, is to drive through the field and spray. With this method, large portions of the fungicide never make it to the plants. Application through the same irrigation system used for frost and heat protection delivers a larger percentage of the chemical exactly where it is needed."

He notes that other chemicals such as fertilizers and insecticides also can be applied via the irrigation system.

Staff Vacancies

The following vacancies for positions classified as staff exempt or staff nonexempt have been listed with the University Employment Division for filling. The brief statements for each vacancy are illustrative. They are not complete position descriptions. **APPLY BY CALLING THE EMPLOYMENT DIVISION, 863-0304 (NETWORK LINE 433-0304).** Applications for these staff vacancies will be accepted until May 9. **DO NOT CONTACT THE AREA THAT HAS THE VACANCY.** Applications for staff vacancies are considered in accordance with Fair Employment Practices (PS-1) and in compliance with the University's Affirmative Action Compliance Program, without regard to race, color, religion, national origin, handicap or age (as disabled by law), sex, or status as a disabled or Vietnam era veteran.

■01460, Assistant to the Director of Student Programs and Services (Athletics and Recreation), Altoona Campus, Student Programs and Services—Responsible to the director of student programs and services for the development, conduct, coordination, scheduling, administration, promotion

and evaluation of intercollegiate intramural, recreation and personal fitness activities. Requires bachelor's degree, or equivalent, in recreation and parks or related field of study plus two to three years of effective experience. WOI and first aid certification helpful. This is a fixed-term position funded from Aug. 1, 1991, through May 31, 1992. NOTE: working hours for this position are noon to 9 p.m. **STAFF GRADE 0**

■01461, Police Service Officer, Altoona Campus, Police Services—Responsible to the supervisor, Police and Safety Services, for carrying out the functions of protection of life and property, preservation of peace and good order of the community, enforcement of laws, public safety, investigative work and other related duties. Requires associate degree, or equivalent, in academic credits and one to two years of effective law enforcement experience. Requires satisfactory completion of the Pennsylvania Municipal Police Officer Training Program or its equivalent. **STAFF GRADE 5.**

■01462, Student Activities Assistant, Altoona Campus, Student Programs and Services—Responsible to the

assistant director of student programs and services for a variety of responsibilities in the areas of campus activities and events. Requires bachelor's degree, or equivalent, in a student services related area plus one to two years of effective experience in student activities and/or theatre production, etc. NOTE: working hours for this position are noon to 9 p.m. **STAFF GRADE 5.**

■01463, Supervisor, Food Services, Housing and Food Services, Berks Campus—Responsible to the manager, Housing and Food Services, Commonwealth Campuses, for all phases of a specific dining commons operation. Requires bachelor's degree, or equivalent, plus one to two years of effective experience. NOTE: supervisor-in-training position—applicant must be open to relocate to any Commonwealth Campus location. **STAFF GRADE 5.**

Hershey

For the following position vacancies, apply directly to The Milton S. Hershey Medical Center. Attach resume with cover letter indicating the position vacancy code and forward to the

Department of Human Resources, Hershey, or call the Hershey bid line at (717) 531-8531 by May 9.

■1911, Administrative Head Nurse, Department of Nursing/Medical Services, Hershey Medical Center—Responsible to the nursing manager, assigned nursing unit, for assistance in handling the day-to-day administration of the assigned nursing unit; assume responsibility in her/his absence. Requires bachelor's degree in nursing from an accredited school of nursing plus 1-2 years of effective experience and current license to practice as a registered nurse by the Pennsylvania State Board of

In addition, there are a number of positions that, because of the frequency with which they become vacant, are still available after employees in the work unit have been considered. Some such positions are available on a fairly regular basis. They are not announced each time they are open. Instead, they are announced periodically so a pool of interested candidates can be developed. Applications for such positions may be made at any time, and you are welcome to make your interest known to the Employment Division for further consideration when such vacancies occur. These positions are:

Position title
01424, Assistant Research Engineer
01425, Assistant Research Engineer
01426, Research Engineer

Internal candidates sought for new position

A search and screening committee has been formed to seek internal candidates for a new position, undergraduate fellowships coordinator, according to **C. Gregory Knight**, vice provost and dean for undergraduate education.

Nancy L. Herron, administrative fellow in the Office of the President, will chair the committee. Members include **Jerry B. Covert**, associate dean for undergraduate education; **Anna Griswald**, director of financial aid; **Gerard A. Hauser**, director of the University Scholars Program; **Robert N. Pangborn**, professor of engineering mechanics; **Joseph E. Schall**, instructor in the College of Earth and Mineral Sciences; **M. Joan Schumacher**, graduate student financial resources director; **Elizabeth Smith**, professor of art history; and **Rebecca A. Young**, staff support assistant to the vice provost and deans/administrative and personnel services.

The coordinator will be responsible to the vice provost and dean for undergraduate education for directing the Undergraduate Fellowships Office which will be housed in Willard Building and will work closely with the University Scholars Program.

Primary duties include promotion within the university community of activities related to the identification, recruitment, nurturing, and formal application by Penn State undergraduate students to nationally recognized award-granting programs.

The position is a three-year, half-time appointment concurrent with the academic year. Candidates should hold a tenure track faculty, standing staff, or administrative position and should have strong interest in undergraduate students and the advising/mentoring process. Previous experience working with awards, prizes, and fellowship applications is desirable as is

directing students in communication, writing, critical thinking, and interviewing skills.

The position is available on or before Aug. 15. The search and screening committee will begin reviewing applications on June 1.

Applicants should submit a letter of application, a current curriculum vitae, and arrange for three letters of recommendation to Nancy L. Herron, chair, Search and Screening Committee for Coordinator of Undergraduate Fellowships, 207 Old Main, The Pennsylvania State University, University Park, PA 16802.

Carpooler

Lisa and Shirley are looking for one or two riders from the Redwood-Milroy area to University Park. Work hours are 7:30 a.m. to 4:30 p.m. Call 863-3250.

Vice provost to speak

Grace Hampton, vice provost, will be the featured speaker at the spring banquet of the Penn State Chapter of Educational Office Personnel at 6 p.m. Wednesday, May 15, at the Holiday Inn, State College.

Presentation of the sixth annual Outstanding Office Personnel Award will be made at the banquet. FSEOP established the award to give recognition to University staff who have provided exceptional meritorious service on behalf of Penn State.

In addition, the installation of newly elected officers will be held.

The Penn State Chapter of Educational Office Personnel is a professional organization whose membership consists of faculty, staff, staff-nonexempt, clerical and technical services.

For information, call Sharon Rolley, president, or Lois Summers, membership chair, at 863-2211.

INTERCOM is published weekly during the academic year and every other week during the summer. It is an internal communications medium published for the faculty and staff of Penn State by the Office of Public Information, Room 312, Old Main, Phone 865-7517.

University ranks fourth in Guggenheim Fellowships

Penn State ranks fourth among U.S. universities and colleges in the number of Guggenheim Fellowships received by faculty for 1991-92.

Awards recently were announced for three University faculty members: **Londa Schiebinger**, assistant professor of history and women's studies; **Christopher Uhl**, associate professor of biology, and **Joseph J. Villafranca**, Evan Pugh professor of chemistry and director of the Center for Biomolecular Structure and Function. They are among 143 scientists, artists, and scholars chosen nationwide as winners of the John Simon Guggenheim Memorial Foundation's 67th annual Fellowship competition. Guggenheim Fellows are named on the basis of unusually distinguished achievement in the past and exceptional promise for future accomplishment.

"This prestigious honor demonstrates the excellent quality of our faculty in the liberal arts and the sciences," Charles Hosler, acting executive vice president and provost of the University, said. In fourth place, Penn State joins nine other universities and colleges that each had

Londa Schiebinger

three fellowship recipients: University of Pennsylvania, University of Illinois at Urbana-Champaign, Johns Hopkins University, Barnard College, Vanderbilt University, Stanford University, New York

Joseph J. Villafranca

University, University of Chicago and Northwestern University.

The top rank went to University of California at Los Angeles, with seven fellowships, followed by Harvard and

Princeton universities, each with five, and Yale University with four fellowships.

Dr. Schiebinger's award will enable her to pursue archival research in England, France and Germany related to her project on the politics of 18th-century natural history.

She received the University's Roy C. Buck Award for her article "The Anatomy of Difference: Race and Sex in 18th-Century Science," which appeared in *Eighteenth Century Studies*. She is author of the book *The Mind Has No Sex? Women in the Origins of Modern Science*, published by Harvard University Press in 1989.

She is a specialist in early modern European history, particularly the history of science, intellectual and social history, and women's history.

Dr. Uhl will receive support to explore issues of rational land use in the Amazon region. He is a specialist in the study of rain forest ecology and has worked in South America's Amazon basin for 17 years.

His previous awards include Fulbright Foundation and McArthur Foundation. See 'Guggenheim' on Page 6.

Site of Mateer Building at University Park is dedicated

Leaders of the national hospitality industry joined University officials and friends of A. Laura Mateer on Saturday, May 4, at a dedication of the site for the Mateer Building at University Park.

Named for Mrs. Mateer and her late husband, Martin C. "Matty" Mateer, the building will house the School of Hotel, Restaurant, and Institutional Management.

"Our space needs at the University Park Campus are many and serious," President Thomas said. "It is encouraging to know that the needs of HRIM will be - in the not too distant future - met. We are deeply grateful to Laura Mateer, and it is an honor to dedicate this site for a building that will bear the Mateer name."

Joining Dr. Thomas in the dedication were Marian U. Coppersmith Fredman, president of the Board of Trustees, Stuart H. Mann, the school's acting director, and Gary J. Budge, chairman of the school's alumni fund-raising committee.

The Mateer Building will be a \$5.0 million, state-of-the-art facility that will support the growth and application of technology in hospitality and food service. It will include a research and teaching kitchen, hospitality information systems

laboratory, production kitchen, dining room, technology research and instruction center, resource/learning center and media demonstration auditorium.

It also will house classrooms and offices for faculty and administrators. Construction is slated to begin in the fall.

"The Mateer Building will stand as a symbol of Laura's continuing friendship and support for the program that Matty helped to start," Anne C. Petersen, dean of the college, said.

Mrs. Mateer, who lives in Fort Lauderdale, Fla., has given more than \$1.5 million to the school's building fund. She and Mr. Mateer, who died in 1971, were longtime State College residents. As manager and part owner of the Corner Room restaurant and State College Hotel for nearly 50 years, he was instrumental in establishing Penn State's curriculum in hospitality management, the nation's fourth oldest, in 1937. Mrs. Mateer, an Altoona native, was made an honorary alumna of Penn State in 1989.

Additional financial support for the building has come from alumni and friends of the school, and from the University

Taking part in dedication of the site for the Mateer Building at University Park are, from left, Stuart H. Mann, acting director of the School of Hotel, Restaurant, and Institutional Management; Anne C. Petersen, dean of the College of Health and Human Development, President Thomas; Marian U. Coppersmith Fredman, president of the Board of Trustees; A. Laura Mateer, and Gary J. Budge, chairman of the school's alumni fund-raising committee. (Photo Dave Shelly)

Focus on Diversity

Minority scholars to participate in summer program

Twelve outstanding minority scholars, specializing in subjects from Australian Black contemporary performing arts to Chinese statecraft thought, will participate this summer in the University's fourth annual Scholars in Residence program.

The scholars will teach summer courses at University Park, Allentown, Ogoniz, DuBois, Delaware County and Penn State Harrisburg.

The program is designed to provide opportunities for minority scholars to spend time at Penn State and become familiar with the University's activities and programs while increasing cultural diversity.

"We take great pride in having these respected scholars teach and perform research on our campuses this summer," Nancy Tischler, director of the Office of Summer Sessions, said. "We hope they will enjoy interaction with our students, intellectual exchange with our faculty, discover our rich academic resources and experience the cultural and natural beauty of summer in Pennsylvania."

The scholars are **Ron-Guey Chu**, St. Lawrence University; **Alexander G. Gonzalez**, State University of New York at Cortland; **Oliver St. Clair Headley**, University of the West Indies; **Melvin L. Heard**, University of Illinois, Chicago; **Rufus Sylvester Lynch**, Supreme Court of Pennsylvania;

Arthur D. Martinez, Western New Mexico University; **Amayora Nora**, University of Illinois, Chicago; **Laura I. Rendon**, North Carolina State University; **Susan T. Samples**, Mt. Saint Mary's College; **Justine Saunders**, Australian actress; **Luz Maria Umptierre-Herrera**, Western Kentucky University, and **Hollie Walker Jr.**, Memphis State University.

Dr. Chu, a visiting assistant professor of religious studies at St. Lawrence University since 1989, will teach oriental philosophy and eastern religions at the Penn State Ogoniz Campus. His research interests include Chinese statecraft.

Dr. Gonzalez, assistant professor of English, State University of New York at Cortland, has research interests in Irish fiction in the age of Joyce. He will teach a

course in contemporary Irish women poets at the Penn State DuBois Campus.

Dr. St. Clair Headley, University of West Indies' reader of solar energy, has a doctorate in inorganic chemistry from University College, London. He will teach an introduction to chemistry course and study solar energy at Penn State Harrisburg.

Dr. Heard, associate professor of mathematics and assistant dean of University of Illinois, Chicago's College of Liberal Arts and Sciences, has research interests in viscoelastic fluids and dynamical systems. He will teach a course on the Kato method for nonlinear differential equations at University Park.

Dr. Lynch, director of the court management of the Pennsylvania Supreme Court, has a doctorate in social work from the University of Pennsylvania. He will teach an introduction to social work and

social welfare course at the Penn State Delaware County Campus.

Dr. Martinez, Western New Mexico University professor of political science, has published numerous articles on international law, methods of philosophy of education, and the experience contributions and the status of Chicanos in the United States. He plans to teach a course at the Penn State Allentown Campus.

Dr. Nora, University of Illinois at Chicago assistant professor higher education, conducted extensive research and has delivered numerous presentations on retention of people of color in higher education. He will teach a minority retention in higher education course at University Park.

Dr. Rendon, associate professor of higher education at North Carolina State University, has given numerous presentations on improving the retention of

'We take great pride in having these respected scholars teach and perform research on our campuses this summer.'

— Nancy Tischler

Black-Americans/African-Americans, Native American Indians and Hispanics in community and four-year colleges. At University Park, she will team-teach a minorities in higher education course with Dr. Nora.

Dr. Samples, Mount St. Mary's College associate professor of language and literature, has interests in studying the Arthurian legend in medieval German tradition and the female figure in German literature. She will teach a comparative literature course at University Park.

Mrs. Saunders, an actress who has performed in numerous Australian plays, television programs and films, will lecture in courses in Australian studies, Black/Aboriginal programs, women's studies and theater performance at University Park.

Dr. Umptierre-Herrera, Western Kentucky University department head and professor of modern languages and intercultural studies, will teach a women's studies course, conduct a poetry reading and deliver two workshop presentations to the Women's Studies Program faculty at University Park.

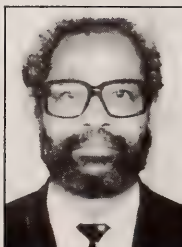

Dr. Walker, associate professor of health at Memphis State University, will teach two courses on health issues impacting minorities at University Park. His research interests include aging, health appraisals and minorities majoring in health.

'Women Forging the Future' is conference theme

Washington Post columnist Judy Mann and Dorothy Jones, president of the National Association of Commissions for Women, will be the featured speakers at the 1991 'Women Forging the Future' Conference June 8 at University Park Campus. The conference is sponsored by the Pennsylvania Commission for Women.

"The conference goals are to focus attention on public policy affecting emerging and established women leaders in Pennsylvania, to demonstrate to participants an action-oriented approach to leadership, emphasizing skill-building and information, and to encourage informal networking around specific areas of interest to women, and to showcase women leaders in Pennsylvania," Mary DuPuis, chair of

the Penn State Commission for Women, a co-sponsor of the conference, says.

Events include workshops and open caucuses for networking. Workshop themes are political empowerment, personal development, educational reform, social change and economic development.

Caucus topics are women in higher education administration, women in politics, issues for women of color, union women issues, sexual harassment, caregivers for the elderly, gender-fair education, volunteerism and substance abuse/AIDS.

In addition to her *Washington Post* column "A Mann for All Seasons," Ms. Mann also has written for many magazines, including *Ms.*, *Working Woman* and *Reader's Digest*. She has won many newspaper awards, including the Mass Media Award from the

American Association of University Women.

In 1989, Ms. Jones was elected president of the National Association of Commissions for Women, an organization that unites 210 state, county and local women's commissions and deals with the concerns of women and their families through legislative action and testimony at public hearings. Previously, she was a board member of the National Committee on Pay Equity.

The fee is \$50 per person for all sessions and lunch. A limited number of scholarships based on financial need are available. Deadline for registration is May 24. For more information, contact the Pennsylvania Commission for Women at (717) 787-8128.

Diversity Opportunities Calendar

Thursday, May 23

Commission for Women, meeting, 1:30 to 3:30 p.m., 256 Hammond Building. For information, contact Lynn Ryan, 863-1683.

Thursday, May 28

Professional Women at Penn State, 11:45 a.m. to noon, Eisenhower Chapel Frizzell Room. Panel discussion on balances in life. For information, contact Cheryl Stroud, 863-3198.

Diversity workshop will focus on transportation employees

Transportation employees in the community and on campus will be the target audience for the sixth in a series of cultural diversity workshops aimed at creating a more hospitable environment for people of diverse ethnic and racial backgrounds.

The workshop will be held from 9 a.m. to 3:30 p.m. Tuesday, June 25, in the State College Borough Council Room, second floor of the Borough Building, 118 South Fraser Street, State College.

According to workshop leader, W. Terrell Jones, special assistant to the provost for underrepresented groups, the goal of the workshops is to help participants understand cross-cultural differences and provide new and better insights into dealing with people from a culturally diverse perspective.

Dr. Jones said that particularly in the transportation area—ranging from new and used car dealers, bus and taxi drivers, to bus and airport employees—cultural differences can pose problems for both the service provider and persons from another

culture. Time schedules, traffic laws, exchange of money, and language barriers are just some of the factors that can affect how client and provider react to one another.

Participants in the one-day workshop will be welcomed by Mayor Arnold Addison. The workshop is offered free to participants and includes a light diet lunch. Up to 25 persons can be accommodated on a first come, first served basis.

Interested persons from the community should call the State College Area Chamber of Commerce at 237-7644. University employees wishing to take part should call University Relations at 865-2501. Those who cannot be accommodated will receive early notification about future workshops. Deadline for registration is June 14.

The workshops are planned and co-sponsored by the Office of University Relations and the State College Area Chamber of Commerce. To date, more than 90 persons in the community and on campus have participated.

Women's conference

The Seventh Annual Luzerne County Women's Conference will be held from 8:30 a.m. to 4:30 p.m. Saturday, June 1, at the Penn State Wilkes-Barre Campus.

This year's theme is "We, the Women of the World," and Elizabeth Dodson Gray, environmentalist, futurist, teacher, theologian, author and mother of two children, will be the guest speaker.

Among the sponsors are all the higher education institutions in the Wyoming Valley.

To register, contact Melissa Noderer, Wilkes-Barre Campus, (717) 675-9124 or (800) 426-2358.

Value of cultural diversity emphasized

For the third consecutive year, more than 25,000 incoming University freshmen and their families will participate in orientation programs developed to emphasize the value of cultural diversity.

Beginning May 23, the University will conduct 50-minute orientation workshops

for approximately 10,000 students entering one of the University's 22 campuses this summer and fall and approximately 15,000 parents, guardians and other family members.

The diversity workshop is part of a day-long program of academic testing and counseling activities for groups of students and their families held throughout the summer at Penn State locations across the Commonwealth.

The workshops are one of numerous cultural diversity initiatives conducted by the University, including a cultural diversity course requirement for all entering students, beginning this summer.

WPSX-TV program

On Dec. 30, 1935, an epoch in America's history began when a young African-American contralto named Marian Anderson from Philadelphia stunned New York City concertgoers from the stage of Town Hall. In the years that followed, her exceptional voice and unshakable dignity broke through the barriers of racial prejudice, transforming her from singer to symbol to national treasure.

Marian Anderson, a one-hour documentary premiering at 2:30 p.m. Sunday, May 25, on WPSX-TV Channel 3, celebrates the life, career and musical legacy of this remarkable woman, who through the sheer power of her personal character and extraordinary talent made enormous contributions to the course of civil rights.

In a rare interview, Marian Anderson, who celebrated her 89th birthday this year, reminisces about the people, events and influences that shaped her personal and musical development.

Exchange program

Two University of Khartoum, Sudan, professors are visiting Penn State through May 22 as guests of the College of Education. The scholars, Abdel Bagi A.G. Babiker (left), faculty education dean, and Ahmed El Zohair, director of extramural studies, are here to facilitate an exchange program between the two universities. Last fall, the College of Education was awarded a University Affiliations Award from the U.S. Information Agency's Bureau of Educational and Cultural Affairs to initiate exchange program. (Photo: Greg Griesco)

Carpooler

Elizabeth would like to carpool from Philadelphia to University Park. Work hours are 5 a.m. to 1:30 p.m. Call 342-2478 (after 4 p.m.)

Awards

Wilkes-Barre CEO receives Fulbright award for 1991

William A. Pearman, campus executive officer at the Penn State Wilkes-Barre Campus, has received a Fulbright Scholarship for the 1991 Seminar for Administrators in International Education being held in Germany this spring.

A group of approximately 22 American Fulbright grant recipients will visit institutions of higher education in Bonn, Kiel, Hamburg, Berlin and in the Rostock/Baltic area "to study and observe educational developments and international education in the Federal Republic of Germany."

In addition to Dr. Pearman, only one other Pennsylvanian—an administrator from the University of Pittsburgh—is in the group.

The Fulbright program selects scholars to participate on the basis of academic and professional qualifications, as well as their ability and willingness to share ideas and experiences with people of other nationalities and ways of life.

Smeal College honors three for their service to students

Charles H. Smith, Patricia O. Mutzeck and Carol M. Fischer have been recognized for their service to students in The Smeal College of Business Administration.

Dr. Smith, KPMG Peat Marwick professor of accounting, received the Fred Brand Jr. Outstanding Teacher Award; Ms. Mutzeck, academic adviser, received the Fred Brand Jr. Outstanding Advisor Award; and Ms. Fischer, a doctoral candidate in accounting and management information systems, received the Fred Brand Jr. Outstanding Graduate Student Teacher Award.

The Brand awards were established in 1979 through the support of Fred Brand Jr. of Pittsburgh, a 1932 Penn State graduate who went on to a highly successful career in the insurance industry.

Dr. Smith, who is chairman of the Department of Accounting and MIS, was cited for his ability to personalize televised instruction, for his commitment to teaching and for the impact he has had on accounting studies at the University.

A member of the University faculty since 1987, he previously held positions at the University of Illinois at Champaign-Urbana, Arizona State University, the University of Texas at Austin and the University of Washington. He holds a bachelor's degree from the University of Cape Town, South Africa, and master's and doctoral degrees from Penn State.

Ms. Mutzeck was recognized for her ability to communicate with students and to help them adapt to the environment of a major university. She holds a bachelor's degree in French from Penn State, a master's degree in French and linguistics from Georgetown University and a Pennsylvania teaching certificate.

Ms. Fischer was cited as a top-quality teacher and all-around educator with a sensitivity to the needs of students. She earned a bachelor's degree in accounting from St. Bonaventure University and an MBA from the State University of New York at Buffalo. She has been an assistant professor at St. Bonaventure and an instructor at Daemen College.

Ceramic scientist receives Young Investigator Award

Altat H. Carim, assistant professor of ceramic science and engineering in the Department of Materials Science and Engineering, has received the 1991 Young Investigator Award of the Office of Naval Research.

He is one of 15 scientists from a field of 316 applicants to receive the award, which provides research funding for three years to assist young scientists in establishing research programs in potentially important areas of investigation.

Dr. Carim's research focuses on the interactions of ceramics and metals in joined surfaces and composite materials. His award-winning proposal concerned the fabrication and characterization of dilute ceramic transitional composites.

A graduate of MIT and Stanford universities, he joined the University faculty in 1990 following post-doctoral work at the Philips Research Laboratories, The Netherlands, and two years on the faculty of the University of New Mexico.

Outstanding Engineering Alumni named

Inventors, entrepreneurs and corporate leaders are among the 12 engineering graduates who received the 1991 Outstanding Engineering Alumni Awards from the College of Engineering for career achievements and contributions to the engineering profession.

The 1991 Outstanding Engineering Alumni are:
— **Fred Breidenbach**, a 1968 industrial engineering graduate and vice president and general manager of GE Aerospace, Government Electronic Systems Division, Moorestown, N.J. The GE Government Electronic Systems Division is the prime contractor for the U.S. Navy's AEGIS defense system and a world leader in the development of advanced, radar-based weapon systems.

— **Arthur B. Carroll**, a 1958 graduate of electrical engineering and president of Carroll Touch Inc., Georgetown, Texas. He is an inventor, entrepreneur and pioneer in computer applications, engineering and technology, and founded Carroll Touch, the world's leading manufacturer of infrared touch input systems in 1973.

— **Edward Edgerley**, president of SITEX Environmental Inc., Kirkwood, Mo., is a 1952 civil engineering graduate. A registered professional engineer in six states and a diplomat of the American Academy of Environmental Engineers, Dr.

Edgerley is the author of more than 30 technical publications and holds two patents in wastewater treatment technology.

— **Kenneth Gible** is the president of Besier Gible Norden, Consulting Engineers Inc., Old Saybrook, Conn. Mr. Gible, a 1961 architectural engineering graduate, recently was chosen as the structural engineer of record for the new Palmer Museum of Art addition.

— **Herbert C. Graves**, a 1950 industrial engineering graduate, is the president and CEO for Standard Steel. Standard Steel, based in Burnham, is the largest private employer in Central Pennsylvania, with 1,800 employees and annual sales of approximately \$250 million.

— **John R. Green**, vice president, technology sales and licensing for Mobil Research and Development Corp., is a 1969 chemical engineering graduate. Mr. Green is responsible for Mobil's worldwide catalyst and licensing business.

— **Felix Kittinski** is a 1949 civil engineering graduate residing in Harrisburg. He is president and chief engineer for F.T. Kittinski & Associates, which he founded in 1959.

— **Richard S. Lashley**, a 1949 mechanical engineering graduate, retired in 1990 from West Penn Power Co. as president. Mr. Lashley has been

active in community and business affairs in Southwest Pennsylvania.

— **John Pursley**, an entrepreneur from Lock Haven, is a 1941 chemical engineering graduate. Mr. Pursley is known for the development of an elegant, patented, high pressure, high temperature fluorination process for the continuous synthesis of chlorine pentafluoride.

— **C. Frederick Sears** is a 1969 nuclear engineering graduate and vice president of nuclear and environmental engineering for Northeast Utilities. Mr. Sears is a leader in the safe operation of nuclear reactors within the nuclear utility industry.

— **Samuel Shuman**, chairman of the board of Julian Speer Co., Columbus, Ohio, is a 1950 mechanical engineering graduate. Julian Speer, a mechanical contracting company, employs 300 people and records annual sales of \$32 million.

— **Lloyd Thomas**, a 1961 agricultural engineering graduate from Broomall, is the head of engineering staff for Northeast National Technical Center Soil Conservation Service in the U.S. Department of Agriculture. Mr. Thomas, with a distinguished career in conservation and land use and 32 years of government service, has served the Soil Conservation Service at all levels.

Awards

Four engineering faculty honored for teaching and research

Four College of Engineering faculty members, **J. Larry Duda**, professor and head of chemical engineering; **James S. Vrentas**, Dow professor of chemical engineering; **Alfred J. Engel**, professor of chemical engineering; and **Stephen R. Turns**, professor of mechanical engineering, have received 1991 Premier Research and Teaching Awards from the Penn State Engineering Society (PSES) and the College of Engineering.

Drs. Duda and Vrentas, who have worked as a research team since graduate school, shared the Premier Research Award. Both completed their master's and doctoral degrees in

chemical engineering at the University of Delaware and began their professional careers at Dow Chemical Co. as research engineers.

They are internationally recognized for research contributions in molecular diffusion in polymer systems and have jointly published 49 scholarly papers in this area. They were awarded the Charles M.A. Stine Materials Engineering and Sciences Award by the American Institute of Chemical Engineers in 1989.

Drs. Engel and Turns each received Premier Teaching Awards.

Dr. Engel, who retires at the end of

the Spring Semester, has ranked among the top four instructors in the department by student evaluations for 32 years. A past recipient of Outstanding Advising and Service awards, he has canceled only one class in 34 years of teaching.

Dr. Engel has developed four new courses, revised two others and developed FORTRAN programs for several design courses, as well as writing a catalysis laboratory manual. He also has helped incorporate computers into the chemical engineering core curriculum.

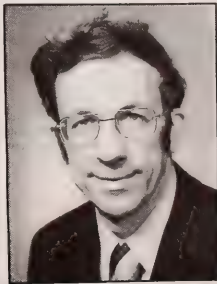

Dr. Turns has developed or revised

six courses and written a textbook, as well as extensive laboratory and other teaching materials. He also has worked on science and engineering education for precollege students, as an advisory board member for a new public television program on space science for grades 4-6 and as the developer of a videotape for use in State College High School calculus classes.

A recipient of a 1985 Outstanding Teaching Award, he is an active researcher in the areas of combustion, combustion engines and optical diagnostics.

J. Larry Duda

James S. Vrentas

Alfred J. Engel

Stephen R. Turns

LA Alumni Society presents seven awards

Seven faculty members have been recognized for their outstanding contributions to the University by the College of the Liberal Arts Alumni Society.

— **Henry W. Johnstone Jr.**, professor emeritus of philosophy, received the Emeritus Distinction Award. Dr. Johnstone retired in 1984, but continues to participate in national and international conferences, publish regularly in prestigious journals, tutor graduate students and contribute to the editing of two Penn State journals.

— **Christiane F. Makward**, associate professor of French and women's studies, received the Distinguished Teaching Award for her dedication to teaching and advising students, as well as her commitment to cultural diversity in her teaching and research on 20th-century Francophone women writers.

— **Carla J. Mulford**, assistant professor of English, received the Roy C. Buck Fund award for her proposed study "Benjamin Franklin and the Discourse of Empire: The Writings on Native Americans."

— **Londa L. Schiebinger**, assistant professor of history and women's studies, received the Roy C. Buck Award for her paper titled "The Anatomy of Difference: Race and Sex in Eighteenth-Century Science," which appeared in *Eighteenth Century Studies*.

— **Marlene Soulsby**, assistant professor of German and humanities at the Penn State Worthington Scranton Campus, received the outstanding Faculty Adviser Award for her student advising in the liberal arts, arts and architecture and in the campus honors and University Honors Programs, as well as her concern for students.

— **John M. Stevens**, professor of public administration, received the Distinction in the Social Sciences Award. He is widely recognized for his work in information systems and strategic management and has made major contributions to the graduate program in public administration by introducing new or totally refocused courses.

— **Vickie L. Ziegler**, associate professor of German, received the Class of 1933 Award for Outstanding Contributions in the Field of Humanities for her inspirational teaching in German language and literature, which includes European history and culture, and for her contributions to the Medieval Studies Program and its conferences, as well as other programs that have brought national and international scholars to the University.

Perez Award presented

Paul K. April, instructor in general engineering at the Penn State Altoona Campus, is the second recipient of the College of Engineering Lawrence Perez Memorial Student Advocate Award.

The award, established in the memory of Lawrence Perez, recognizes outstanding advocacy by a faculty member on behalf of students.

Mr. April is the faculty adviser to all aerospace engineering students at the Altoona Campus and is the campus representative for the College of Engineering.

He joined the Altoona Campus faculty in 1985 after retiring from the U.S. Air Force as a lieutenant colonel. He holds a bachelor's degree from Penn State and a master's degree from the University of Tennessee, both in aerospace engineering. He also holds a Penn State bachelor of arts degree.

Highlight on Undergraduate Education Student research presented at national conference

The University sent a record 35 undergraduates to present research at the fifth annual National Conference on Undergraduate Research held at the California Institute of Technology this spring.

Students in all academic departments and at all campuses compete to present their work at the conference, so the range of topics is unusually broad and the quality is very high. Max King, coordinator of the University Scholars Program, said,

Penn State student researchers were from the University Park Campus and Penn State Erie. The Behrend College. Their topics ranged from "Memory and Architecture Design of a Living Environment for the Elderly" in Architecture, "Corporate Codes of Conduct in Business Law to Jazz for the Music Educator" in Music Education

The majority were in the sciences and engineering with topics ranging from "The Effects of Black Widow Spider Venom on Biological Membranes" in Molecular and Cell Biology, "Starburst Galaxies and the Hard X-Ray Background" in Astronomy and Astrophysics, to "Teichers and Asteroids for Artificial Gravity: Assist to Mars" in Aerospace Engineering.

"Most of the students who attended the conference were members of the University Scholars Program who were reporting the findings of their senior honors theses," Dr. Gerald Hauser, director, said. "In addition, several of our students made presentations based on projects arranged independently with supervising faculty, an option that is now available to students at all campuses through the Research Opportunities for Undergraduates Program."

Dr. Hauser, Dr. King, Norman Freed, associate dean for resident instruction in the Eberly College of Science, and Nancy Brown, editor of *Research/Penn State*, attended the student presentations and met with faculty and administrators from other colleges and universities to exchange ideas on undergraduate research.

"One of the most exciting things about this conference is that students begin to make the transition from being a student to being a professional," Dr. King said. "I heard students refer to themselves as chemists or historians instead of a chemistry or history major. It's also an excellent time for students who plan to go on to graduate school to make contacts with faculty at other universities."

This year with financial support from the Office of the Vice Provost and Dean

for Undergraduate Education, the University Scholars Program, the colleges and individual departments, Penn State was able to send more than double the number who went last year.

Undergraduates at more than 250 colleges and universities presented research abstracts to about 1,100 students, faculty and professionals nationwide. All abstracts will be published in the conference proceedings. Some students have already had or will have their research published as a co-author with their faculty thesis adviser or mentor.

The National Conference on Undergraduate Research was established in 1987 to promote awareness of undergraduate research, scholarship and creative activity in all fields of study.

Spring commencement exercises

Approximately 7,550 students are expected to receive degrees at the 1991 spring commencement exercises at the University campuses.

At University Park, each of the colleges and the Graduate School will conduct individual ceremonies on Saturday, May 18, and Sunday, May

19. Among the speakers is Sen. **Chaka Fattah**, senator of Pennsylvania's 7th Senatorial District in Philadelphia, who will speak at the College of Education ceremonies.

A complete schedule of ceremonies and speakers is in the May 2 issue of *Intercom*.

Guggenheim

Continued from Page 1

awards and research support from the National Science Foundation, National Geographic Society and World Wildlife Fund. He is a member of the Ecological Society of America and the Botanical Society of America.

Dr. Villafraña will collaborate with David Eisenberg, University of California at

Los Angeles, to determine the protein crystal structure of the enzyme glutamine synthetase. This enzyme is important in maintaining the proper level of one of the neurotransmitters in brain tissue that help to maintain normal brain functions.

His lab at Penn State has studied the mechanism of this complex regulatory enzyme since 1975, and has advanced the knowledge of how metal ions trigger other chemical reactions in the brain. Significant

Obituaries

Barbara J. Robinson, secretary A, College of the Liberal Arts, since July 15, 1974, died April 13 at the age of 47.

Evelyn E. Cooper, food preparer, Housing and Food Services, from Sept. 21, 1969, until her retirement May 25, 1980, died April 20. She was 76.

advances in the physical nature of enzyme regulation also have come from these studies.

Dr. Villafraña serves on numerous national committees for organizations such as the American Society of Biochemistry and Molecular Biology, American Chemical Society, Protein Society, and National Science Foundation.

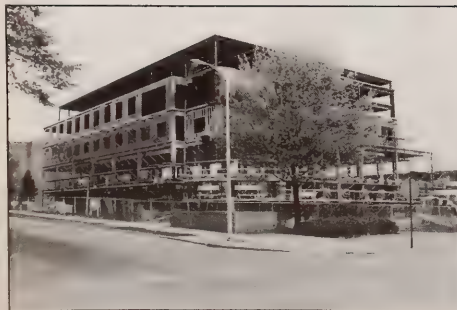

He is on the editorial board of several journals.

Planning Studies

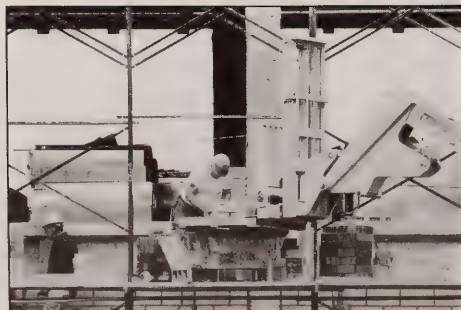

A \$700,000 contract has been awarded to Continuing Education's Planning Studies unit by the Commission on Dietetic Registration of the American Dietetic Association. The award will be used by Continuing Education and the Center for Applied Behavioral Sciences to develop a self-assessment system for dietitians.

Project Director Wayne D. Smutz, acting director of Planning Studies, said the 18-month project will team faculty and staff of the Center for Applied Behavioral Sciences and College of Education with Continuing Education personnel.

Activities planned for the project, scheduled to begin this month, include developing five self-assessment instruments, administrative procedures, a scoring process, and a method for reporting results to participants.

New classroom building

Construction continues on a five-story, 95,000-square-foot classroom and office building at the intersection of Pollock and Shortlidge roads at University Park. The \$11,220,000 structure is scheduled for completion in May 1992. (Photos: Greg Grieco)

University Park Calendar

A one-hour documentary on the life, career and musical legacy of Marlon Anderson will premier at 2:30 p.m. Sunday, May 25, on WPSX-TV. See the story on Page 3.

May 16 – June 2

Special Events

- Thursday, May 16**
Trustees meet at University Park, through May 17.
- Saturday, May 18**
Commencement, through May 19
- Sunday, May 19**
Shaver's Creek, Endangered Species, 1-2:30 p.m.
Call 863-2000.
- Thursday, May 23**
Commission for Women, meeting, 1:30-3:30 p.m., 256 Hammond.
- Saturday, May 25**
Shaver's Creek, A Day in the Life of a Pioneer, 1-3:30 p.m. Call 863-2000.
- Sunday, May 26**
Shaver's Creek, Swampsearchers, 1-2:30 p.m.
Call 863-2000.
- Monday, May 27**
Memorial Day observed. No classes
- Tuesday, May 28**
Professional Women at Penn State, brown bag lunch, 11:45 a.m., Frizzell Room, Eisenhower Chapel. Carol Hermann on "A Woman's Perspective of Administration"
- Saturday, June 1**
Shaver's Creek, Summer Camp-out for Single Parent Families, 5 p.m.-midnight, through June 2. Call 863-2000.
- Sunday, June 2**
Shaver's Creek, Winged Hunters, 1-2:30 p.m.
Call 863-2000.

Public Radio

- WPSX-FM 91.1**
"All Things Considered," Monday-Friday, 5-6:30 p.m.; Saturday and Sunday, 5-6 p.m.; Morning

Edition, Monday-Friday, 6-8 a.m.; Weekend Edition, Saturday and Sunday, 11 a.m.-1 p.m.
"Odyssey Through Literature," 12:30 p.m. Wednesdays, with S. Leonard Rubinstein

Focus on the arts

Odyssey on WPSX

Adolf Hitler was an idealist, one who used power for some higher cause — in his case, we recognize his cause as evil, but he did not.

This idea forms the kernel of S. Leonard Rubinstein's discussion with **Jackson L. Spielvogel**, associate professor of history, on the "Odyssey Through Literature" program "Idealists," on May 22.

Dr. Spielvogel, author of a popular book on the history of Nazi Germany, argues that teaching the history of the Nazi era has a crucial purpose. "That kind of thing can happen again," he says about the Holocaust, "and therefore it becomes very important to me, as a teacher, to get across some points that will be helpful to students."

On "Jefferson in Transylvania," the

May 29 episode of *Odyssey*, Eniko Molnar Basa of the Library of Congress introduces host Rubinstein to the book *Journey in North America*, published in 1834 by the Hungarian writer Sandor Boloni Farkas.

Anyone writing a political theory of Transylvania would have to take into account the impact of Farkas' book, Ms. Basa says. "He quotes the Declaration of Independence in the book in its entirety," she explains, "and he says in his travel diary that he feels that his book is really just a framework for the Declaration of Independence."

"Odyssey Through Literature" is produced by the Department of Comparative Literature in the audio-production studios of WPSX-TV. It airs Wednesdays at 12:30 p.m. on WPSX, 91.1 FM.

The arts on Channel 3

The Metropolitan Opera's striking new production of Giuseppe Verdi's 1859 masterpiece "A Masked Ball" (Un Ballo in Maschera), long regarded as the supreme Italian opera and Verdi's great love poem, will be the first Metropolitan Opera television production to be presented on *Great Performances* airing at 8 p.m. Wednesday, May 22, on WPSX-TV. Staged and designed by Piero Faggioni and conducted by James Levine, the production features Aprile Millo, Harolyn Blackwell, Florence Quivar, Luciano Pavarotti and Leo Nucci.

The 1991 *National Memorial Day Concert*, a stirring musical salute to Operation Desert Storm and the soldiers who gave their lives in the cause of freedom, will air at 7:30 p.m. Sunday, May 26.

The 90-minute broadcast event, featuring Dixie Vermeiren, Osie Davis, Ruby Dee and other distinguished guest artists performing with the National Symphony Orchestra, will present a

succession of popular works honoring millions of brave Americans from the front lines to the home front.

Woven throughout the live production, which also marks the 50th anniversary of the USO, is the renewed sense of pride and patriotism sweeping the nation

'Fiber Medley'

"Fiber Medley of Two Traditions," a fiber exhibit with framed pieces by Marinda Strelavsky, is on display in Pattee Library's West Lobby Gallery through June 15.

Her work encompasses a traditional form of quilting, the Log Cabin, with a Victorian theme. She applies a tree-stump piecing technique with the Log Cabin as a basis, then incorporates a variety of embellishments such as metallic threads, acrylic painting and photographs to achieve a Victorian theme.

A member of the Fibers Guild of Pittsburgh Center for the Arts, Strelavsky has been working in fiber for five years.

Bookshelf

Ashok D. Belegundu, associate professor of mechanical engineering, is co-author of *Introduction to Finite Elements in Engineering*, published by Prentice Hall.

The textbook covers all aspects of finite element theory development, problem formulation and computer analysis and includes a BASIC and FORTRAN disk.

Geared to senior-year undergraduate and first-year graduate students, the book emphasizes the modeling of engineering problems, specification of boundary conditions and handling of temperature effects. It also is intended as a tool for practicing engineers.

Clouds in a Glass of Beer. Simple Experiments in Atmospheric Physics, a popular science book by **Craig F. Bohren**, distinguished professor of meteorology, has been translated and published in Japanese.

The translation was done by Akimasa Sumi, College of Science, Department of Earth Science, Tokyo University, and the Japanese edition was published by Maruzen Co. Ltd.

The book explores many fascinating aspects of the atmosphere, including colors of the sea and sky, rainbows, dewdrops, the green flash and clouds.

Dr. Bohren received the Louis J. Battan Author's Award of the Council of the American Meteorological Society in 1989 for *Clouds in a Glass of Beer*.

Gary W. Gallagher, head of the Department of History, is editor of *Struggle for the Shenandoah: Essays on the 1864 Valley Campaign*, published by the Kent State University Press.

The collection of essays examines why Virginia's Shenandoah Valley in the Civil War was transformed from battlefield to wasteland, with special emphasis on the late summer and fall of 1864. During that time the armies of Jubal A. Early and Philip H. Sheridan waged their bitter struggle amid immense military and political stakes.

The authors question the relative importance of operations in the Shenandoah and the respective performances of Early and Sheridan, often departing from conventional views and sometimes disagreeing with one another.

Dr. Gallagher has published several books on the Civil War including *Antietam: Essays on the 1862 Maryland Campaign*, published by Kent State University Press in 1989.

Gennady Gildenblat, associate professor of electrical engineering, is the co-editor of *Advanced MOS Device Physics*, an overview of recent research in metal oxide semiconductor (MOS).

The book, a collection of papers by leaders in the field, discusses device physics topics in MOS technology. The authors emphasize physical description, modeling and technological implications,

Bookstore joins in international book project

The Penn State Bookstore on Campus is participating in the "Bridge of Knowledge—Books, National Association of College Stores International Book Donation Program," an international effort to gather and donate books and other educational materials to countries overseas.

"Here is a way to share some of America's literary wealth in a very practical sense with the many thousands overseas for whom democracy means a new opportunity (and often a new freedom) to read," **William McVicker**, bookstore manager, said.

"Books are among the greatest of all

needs in the countries recovering from totalitarian rule. The Bookstore fully supports the effort and commitment of all those participating in this program. All the members of this community can make a difference."

Members of the University community are encouraged to bring

as well as the reliability of small-geometry MOSFETs.

Dr. Gildenblat also contributed a chapter on "Low-Temperature CMOS."

The book is geared toward semiconductor engineers and researchers involved in MOS technology development, as well as researchers and students in corresponding disciplines.

Volume 18 of a VLSI Electronics: Microstructure Series, is published by Academic Press, Harcourt Brace Jovanovich.

H.K. Henisch, professor of physics and professor of the history of photography, is the author of *Periodic Precipitation*, published by Pergamon Press.

Containing illustrations, worked examples, graphs and tables, the book deals with periodic precipitation (also known as Liesegang Ring formation) in terms of mathematical models and their logical consequences, and is entirely concerned with microcomputer analysis and software development.

Three distinctive periodic precipitation mechanisms are included: binary diffusion-reaction; solubility modulation, and competitive particle growth.

The book provides didactic illustrations of a valuable investigational procedure, in the form of hypothetical experimentation by microcomputer. The development of appropriate software is described and the resulting programs are available separately on disk.

Martha Kolln, associate professor of English, is author of *Rhetorical Grammar: Grammatical Choices, Rhetorical Effects*, a text that helps students to understand the structure of language and how to use it in their writing.

The book helps student writers identify grammatical choices and understand what those choices can do. Designed to complement a primary rhetoric text or reader, it shows the connection between writing and grammar without dwelling

on the rigid grammatical rules often taught in junior high school.

Professor Kolln shows how grammar is important to the context of composition through explanations and exercises that also can be used as self-study.

Martin L. Lasater, research associate in the Center for East Asian Studies, is the author of *A Step Toward Democracy: The December 1989 Elections in Taiwan, Republic of China*, published by the University Press of America for the American Enterprise Institute of Washington, D.C., which sponsored the study.

The book places the December 1989 elections in the context of the evolving democracy on Taiwan. In addition to analyzing the campaigns and results of the national, provincial and local electoral contests, Mr. Lasater projects what democracy on Taiwan might mean for U.S. interests in the future, particularly as these relate to Sino-American relations.

William B. McCarthy, associate professor of English at the Penn State DuBois Campus, is the author of *The Ballad Matrix: Personality, Milieu, and the Oral Tradition*, published by Indiana University Press.

The *Ballad Matrix* examines one of the largest collections of songs gathered during the golden age of ballad collecting in Scotland (1780 to 1830). The collected repertoire of Agnes Lyle of Kilbarchan, William Motherwell's most prolific informant, is unusually large for the period, consisting of 22 full texts, some with tunes, and a number of additional fragments.

The songs reveal how Lyle relied on the traditional narrative techniques of ballad singing. They demonstrate on every level the non-literary patterns of thought and expression which the oral-formulaic approach has taught scholars to look for in folk poetry.

their outdated editions or books for which they have no further need to the Penn State Bookstore. Arrangements can be made to pick up quantities of books to be donated from offices on campus by calling 863-3250.

A specially designated book bin is located near the book buyback counter for the deposit of donations. Also, bookplates are available if the donor chooses to identify the source of the contribution. More information also is available on flyers at the donation site.

For more information about the program or to make arrangements to pick up books, contact Elizabeth Wilson at 863-3250.

Leonard Mustazza, associate professor of English at the Penn State Ozguz Campus, is the author of *Forever Pursuing Genesis*, published by Bucknell University Press.

The volume explores "The Myth of Eden in the Novels of Kurt Vonnegut."

Dr. Mustazza holds B.A. and M.A. degrees from Herbert H. Lehman College of the City University of New York and a Ph.D. from the State University of New York at Stony Brook.

Anne C. Petersen, dean of the College of Health and Human Development, is co-editor with Kathleen R. Gibson, of the University of Texas Health Science Center, Houston, of *Brain Maturation and Cognitive Development: Comparative and Cross-Cultural Perspectives*, published by Aldine De Gruyter.

The book focuses on the way that social and physical environments—including child-rearing and educational strategies—may affect the biological development of the brain from infancy through adolescence. Conversely, the volume also identifies how brain development may influence behavior. Comparisons are drawn across cultures, as well as between humans and other animals.

Several University faculty and graduate students contributed chapters to the book:

● **Julia Graber**, graduate student in psychology, and Dr. Petersen, "Cognitive Changes at Adolescence: Biological Perspectives."

● **Robert Plomin**, distinguished professor of human development, "Brain, Behavior and Developmental Genetics."

● **Charles Super**, professor and head of the Department of Human Development and Family Studies, "Developmental Transitions of Cognitive Functioning in Rural Kenya and Metropolitan America."

Appointments

Randall M. German, Robert Hunt professor of materials engineering at Rensselaer Polytechnic Institute in Troy, N.Y., was named to the Brush Chair in Materials in the College of Engineering.

Known for developing high performance materials, Dr. German holds six patents for materials and/or ceramic powder processing techniques. He also is technical director of Xform Inc., an RPI incubator company formed to develop one of his patents.

Dr. German began his career in 1968 as a materials scientist in the powder metallurgy division of Battelle Columbus Laboratories, Columbus, Ohio. He has been a member of the technical staff at Sandia National Laboratories, Livermore, Calif.; director of research and development for Mott Metallurgical Corp., Farmington, Conn., and director of research for J.M. Ney Co., Bloomfield, Conn. He joined the RPI faculty in 1980 and was named to his current position in 1985.

The author of four books, including a textbook on various aspects of materials science, he is a fellow of the Society of ASM International and a member of the Metallurgical Society of AIME, American Powder Metallurgy Institute, American Ceramic Society, the Materials Research Society and International Team for the Science of Interfacing.

Dr. German received a B.S. in materials science from San Jose State University in 1968; an M.S. in metallurgical engineering from Ohio State University in 1971, and a

Randall M. German

Ph.D. in materials science from the University of California at Davis in 1975.

The Brush Chair was endowed with a gift from engineering executive Harvey F. Brush, of San Francisco, to encourage interdisciplinary research in material analysis and application.

Mr. Brush, a 1943 graduate of the College of Engineering, retired in 1986 as the executive vice president of Bechtel Group Inc., the parent of Bechtel Corp., the world's largest engineering construction company. He also has served as a trustee

and director of the Bechtel Foundation and remains active as a consultant to Bechtel.

Ina K. Lubin, area representative for continuing education at the Penn State Wilkes-Barre Campus, has been named assistant director of continuing education.

A member of the campus staff since 1983, she has served as area representative for continuing education since 1985. In her new role she will be responsible for assisting with management and leadership of the Continuing Education unit as well as continuing to provide linkage with numerous local organizations.

Ms. Lubin is a graduate of Michigan State University with a B.A. degree in education and received an M.S. in public administration from Maryland College.

Her professional memberships include the National University Continuing Education Association, the Continuing Education Association of Pennsylvania and the Luzerne County Council on Adult Higher Education.

Jane Agnelly has been named financial officer at the Penn State Berks Campus.

A 1981 graduate of Wayne State University in Detroit, Mich., she earned a master's degree in business administration at the University of Pittsburgh and is a certified public accountant.

Ms. Agnelly had been assistant administrator at the Rest Haven Home in Schuylkill County.

questions we face today, they will answer themselves and we'll have no choice."

Other conference sponsors are Bell of Pennsylvania, Bloomsburg University, Bucknell University, Central Susquehanna Intermediate Unit, Commonwealth Bank & Trust Co., Geisinger Foundation, Lycoming College, Pennsylvania Power & Light Co., SEDA-Council of Governments, West Branch Manufacturers Association, and West Penn Power Co.

For further information on the conference, contact Dr. Martin at 114 Kern Building, University Park, 865-6331.

Conference on Central Pennsylvania scheduled

The University is among a number of organizations, businesses, and higher education institutions in Central Pennsylvania sponsoring a conference, "Shaping the Future in Central Pennsylvania," June 23-25 at Bucknell University in Lewisburg.

Kenneth Martin, rural economic development specialist in the Office of Sponsored Programs, Technology Transfer, and Industrial Liaison, is serving as a member of the conference steering committee.

"Today, our region has opportunities, and challenges, that we have not had

before," Dr. Martin said. "This is the time to act on them, as we move into the 21st century."

The conference will focus on five broad categories of issues, including environment, education, societal change, economic development, and government.

"The concerns of our families and neighbors," Dr. Martin said, "fall within the issues categories we've chosen: the impact of new technology, the need to balance economic growth with environmental quality, the education of our children and their children."

"If we don't begin to answer the

governments, to the international community, and to industry.

Candidates should have academic credentials appropriate for appointment as a tenured professor with an accomplished record of research; a broad understanding of academic institutions; executive experience and proven leadership capacity; understanding and support for the University's multiple missions and its commitment to cultural diversity; commitment to the fostering of interdisciplinary research; evidence of experience in fiscal management, and the

ability to attract human and financial resources to the University.

The search committee will review applications and nominations beginning June 24, and will continue to receive them until a candidate is selected. Nominations and applications, accompanied by a resume or equivalent information, and the names, addresses and phone numbers of four referees, should be mailed to: Eva Pell, chair, Search Committee, Senior Vice President and Dean of the Graduate School, 201-I Old Main, University Park, PA 16802.

News in Brief

Weight Watchers at WORK

The Weight Watchers at WORK Program at University Park will continue through summer, with a 10-week session from July 11-Aug. 13. New members are welcome.

During June, each of the two groups will meet weekly (Tuesday or Wednesday) from 11:45 a.m. to 1 p.m. in rooms 310 and 317 Hetzel Union Building. In July and August meetings will continue at the Paul Robeson Cultural Center auditorium.

Interested staff and faculty may obtain pre-registration forms by calling the Faculty/Staff Health Promotion Office or may register in person on June 4 or June 5 from 11:45 a.m. to 1 p.m. at the Hetzel Union Building.

The regular meetings for the session will begin on June 11 and 12. The cost of the 10-week program is \$85, which must be pre-paid. For additional information or pre-registration forms, call the Faculty/Staff Health Promotion Office at 865-3085.

Riteon summer hours

From now through Aug. 10, complete diagnostic and treatment care will be available in the Outpatient Department of Riteon Health Center from 8 a.m. to 6 p.m. Monday through Friday. No appointment is necessary.

For students seeking urgent medical care on Saturdays, a physician will see patients from 1 to 5 p.m. These hours also apply for Memorial Day and Independence Day. Women will continue to be seen by appointment from 8 a.m. to 5 p.m. in the Women's Health Department.

Around-the-clock emergency care will be provided by the Penn State University Ambulance Service. For information after hours, call 865-6550.

Professional Women

Carol Hermann, vice president for administration, will discuss "A Woman's Perspective of Administration" at a brown bag lunch meeting of Professional Women at Penn State on 11:45 a.m. Tuesday, May 28, in the Frizzell Room in Eisenhower Chapel at University Park.

Professional Women at Penn State is a grass-roots group coordinated by University women in which participants can develop and maintain a communications network and serve as a resource for other Penn State women. The group welcomes attendance from all classifications at the University.

Lyme disease research

University researchers are seeking ticks for a study of Lyme disease in Pennsylvania.

Take the tick, dead or alive, to the Penn State Cooperative Extension office in your county. Extension staff will send the tick and information about where and how it was found to Steven Jacobs for identification and analysis.

Nominations sought for senior vice president

The University invites applications and nominations for the position of senior vice president for research and dean of the Graduate School.

The senior vice president reports to the Office of the President and will work with the executive vice president and provost of the University and the faculty to establish an administrator policy on research and graduate study. As a senior academic officer, the senior vice president will participate in the formulation of academic and fiscal policy for the University and will represent the University's research and graduate study interests to federal and state

Partings

George Crowther, director of safety and security at the Hershey Medical Center, has retired after 23 years of service.

Mr. Crowther came to the Medical Center after working for the Pennsylvania State Police from 1952 until 1967, where he reached the rank of sergeant in the Planning and Research Division.

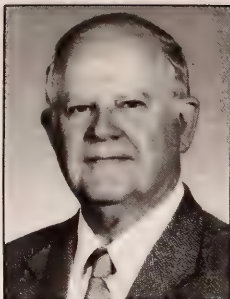

While in the State Police, he was one of the first three troopers selected to attend the Northwestern University Traffic Institute. He also served with the U.S. Marine Corps during World War II and the Korean War.

For the future, Mr. Crowther plans to relax and spend some quality time at home. He and his wife plan to travel, remain active in their church, and become involved with volunteering.

"As much as I will enjoy retirement, I will miss the loyalty of the security department, and all the personal friendships I have developed over the years," he said. "I also will miss the challenge of new security problems I would face if I stayed here, but then retirement will be a challenge all its own."

Barbara A. Peck, residence hall worker in Housing and Food Services, has retired after 22 years of service.

Ms. Peck plans to travel and work with arts and crafts. She and her husband reside in Howard and have two children. Her daughter Melissa graduated from Penn State in 1986.

George Crowther

Jerry H. Reyburn, professor of 4-H and youth development, has retired with emeritus status after 25 years service.

Dr. Reyburn taught extension methods and organization, recreation and camping, leadership and environmental education. He was the first person in the United States to develop programs in orienteering and archery and helped 4-H make the transition to leisure education programs.

In 1986 Dr. Reyburn received a Fulbright Fellowship to Sweden where he served as a member of the Swedish 4-H National staff. In 1987, he directed a study to determine the factors that influence young adults to

Jerry H. Reyburn

pursue studies in agriculture and the sciences.

He is a member of the National Association of Extension 4-H Agents, the Society of American Forestry, the Association of Interpretive Naturalists, the International Tropical Forestry Association, the National Archery Association and the American Camping Association.

Dr. Reyburn earned his bachelor of science in forestry in 1957, his master of science in conservation in 1964 and his doctor of philosophy in environmental interpretation in 1974 at Purdue University. Prior to joining the University faculty, he

served as a captain in the United States Air Force and worked for the United States Forest Service and the Indiana Extension Service.

The College of Agriculture is starting a 4-H Camping Program Award to enable underprivileged children to attend 4-H resident camps and provide counselor training programs and camp counselor opportunities to youth at risk. The initial fund for the award has been contributed by Dr. Reyburn's friends and associates in honor of his retirement.

Judith K. Weigel, secretary A. Hershey Medical Center, from July 28, 1980, until March 30.

Eleanor M. Brunner, nurse clinician, Hershey Medical Center, from Oct. 1, 1970, until April 1.

Gloria J. Steyers, accounting clerk, Corporate Controller's Office, from Nov. 1, 1980, until April 6.

Shirley M. Walker, records team leader, Academic Services, from June 13, 1955, until Oct. 31, 1987; from Dec. 1, 1958, until Dec. 31, 1958; and from Feb. 1, 1972, until April 16.

Michael E. Werner, business manager, University, Art Services, from Nov. 27, 1978, until April 20.

Bertha M. Ford, nutrition adviser, Agriculture, from April 1, 1981, until May 1.

Shirley R. Keller, secretary B. Agriculture, from July 1, 1975, until May 9.

Faculty/Staff Alerts

Memorial Day hours

The Penn State Information and Directory Assistance hours for Memorial Day, May 27, are 8:30 a.m. to 4:30 p.m.

We will resume normal hours of 7:30 a.m. to 11 p.m. on Tuesday, May 28.

Management Services' moves

Offices in Management Services' Department of Computer and Information Systems are being relocated within Charles Building and Shields Building.

The move, effective May 23, involves the following relocations:

IBIS Program Office, Room 3 Shields Building; Security Office, Room 28 Shields Building; Database Administration, Room 31 Shields Building; IBIS Training Office, Room 25 Charles Building; Information Center, Room 25 Charles Building; and Data Administration, Room 25 Charles Building.

All phone numbers listed in the University's phone directory will remain the same.

Chain letters

Once again the Inter-Office mail system has been flooded with chain letters.

Mail Services would like to remind the University community that the mailing of

chain letters puts an undue strain on the entire University mail system. You should also be reminded that University Policy AD-13 dictates that supplies and services owned, leased, or operated by the University be used only in the conduct of University programs and activities.

In addition to University policy, Federal Mail Fraud Laws prohibit the sending of chain letters. Mail Services requests that the University community refrain from succumbing to such a waste of time, labor, and University materials.

Employee health cost

National employee health experts from the fields of prevention, health promotion, and health care management will speak at a local conference addressing strategies for controlling the skyrocketing costs of employee health benefits.

The one-day conference, titled "Prevention, Health Promotion, and Managed Care: Integrated Approaches to Employee Health Cost Control for the '90s and Beyond," will be held from 9 a.m. to 5 p.m. May 22 at the Holiday Inn Penn State.

The event is co-sponsored by Penn State's Center for Worksites Health

Enhancement (CWHE) and the Employee Wellness Coalition of Centre County (EWCCC). To register, or for more information on the conference, contact the Center for Worksites Health Enhancement at (814) 863-2237. The public is invited to attend.

Car rental

Effective May 1, the Big Ten Universities have entered into a new car rental contract with The Hertz Corporation. Hertz has been named the sole supplier of rental cars to the Big Ten.

Hertz has agreed to provide corporate rates, or promotional rates if lower, to include free Loss Damage Waiver for both business and personal use at participating locations in the Continental United States, Alaska and Hawaii.

Corporate rentals returned to the renting city will include unlimited mileage. For rentals not returned to the renting city, the appropriate corporate rate, plus a one-way charge of \$2.00 per mile driven, will apply. There will be no drop charges.

Liability protection is provided for bodily injury or death up to a limit of \$100,000 for each person and up to a limit of \$300,000 for each accident, and up to a limit of \$25,000 for property damage.

There will be no added charges for renter under the age of 25 provided the renter possesses an acceptable and valid major credit card and an applicable Big Ten Group CDP-ID number. The minimum age to rent a Hertz vehicle is 21. However, between 12:01 a.m. Friday and 3 p.m. Sunday in the New York pool, the minimum age is 25.

Hertz has agreed to provide "fee waived" annual membership into the Hertz #1 Club Gold Service for any faculty or staff member of the Big Ten.

Penn State's new Big Ten CDP-ID number is 271435 and should be used when booking rental cars with Hertz.

Complete rate information, Hertz #1 Club Gold Service applications and ID stickers will be available in Travel Services at University Park and Hershey. Omega World Travel and Centre For Travel have been given the new contract information for use in booking University travel.

Volume purchasing allows the Big Ten to negotiate this type of contract. Therefore, travelers are strongly urged to choose Hertz in order to receive the best rates and provide volume that allows the Big Ten to continually improve its car rental contract. For information, contact Travel Services at 865-0395.

Music

The best mood music is familiar music

People seeking relaxation therapy through music should try music they like, not precategorized mood music, University researchers suggest.

"While not likely to greatly affect heart rate or respiration, music can unquestionably induce a more relaxed mood," says Valerie N. Stratton, assistant professor of psychology, and Annette H. Zalanowski, assistant professor of music, both at the Penn State Altoona Campus.

"Our studies show that the most important factor in relaxation was a liking for the music," Dr. Stratton says. "Individual preferences must thus be considered when using music to aid relaxation; precategorized soothing music may not always be soothing."

Ms. Zalanowski adds, "As a therapeutic tool, precategorized music is risky, since people react to music in a highly individualized manner. Using so-called sedative music to facilitate relaxation would be useless if the subject has always disliked that kind of music. The subject might even become more tense than without music."

Music for relaxation therapy also should be culturally familiar, Dr. Stratton notes. "Music from an outside culture, even if it is intended to be happy or stirring, can actually depress a person."

One test by Dr. Stratton and Ms. Zalanowski had 36 college freshmen and sophomores rate their level of relaxation after 15 minutes of listening to one of five types of music — ranging from Mozart and Haydn to "easy listening" — or sitting in silence. Subjects also rated the pleasurable quality of the experience, the ability to empty the mind and how well they liked the music.

"No single type of music was most effective in aiding relaxation, and no significant differences were found between soothing and stimulating music," the researchers report.

"Subjects varied in the degree of relaxation they experienced, and the single factor most

Annette H. Zalanowski (left) and Valerie N. Stratton of the Penn State Altoona Campus review data for their research project on the effects of music on relaxation therapy.

closely related to relaxation was how much they liked the music. No single type of music was found to lead to significantly more relaxation; however, atonal music produced significantly less relaxation," they note.

The students who liked the music comparatively more reported greater success at clearing their minds and more pleasure in the total experience.

A second study tested 48 college students, who were divided into six groups. The first two groups listened to culturally familiar music, such as Aaron Copland's "Appalachian Spring" and Beethoven's Symphony No. 3.

Two other groups listened to musical

selections from India, and the fifth group listened to a recording of seventh-century Slavic music. For the sixth group, there was no music. While listening to the music, students had four minutes to tell a story based on the painting "Snap the Whip" by Winslow Homer. The study analyzes the correlation between the music and the respective happiness or sadness of the story.

"The results seem to indicate that cultural learning and experience are more important in determining mood responses to music than inherent qualities of the music itself," the researchers conclude. — Paul A. Blaum

Staff Vacancies

The following vacancies for positions classified as staff exempt or staff nonexempt have been held by the University Employment Division for filling. The brief statements for each vacancy are illustrative. They are not complete position descriptions. APPLY BY CALLING THE EMPLOYMENT DIVISION, 863-0304 (NETWORK LINE 433-0304). Applicants for these staff vacancies will be accepted until May 23. DO NOT CONTACT THE AREA THAT HAS THE VACANCY. Applications for staff vacancies are considered on an ongoing basis. Fair Employment practices (EEO) and in compliance with the University's Affirmative Action Compliance Program without regard to race, color, religion, national origin, handicap or age, as provided by law, are or status as a disabled or Vietnam era veteran.

■01474, Writer-Editor, Division of Development and University Relations, Public Information, University Park Campus—Responsible to the manager of internal communications for covering a variety of writing assignments for Intercom and to the Director of the Manager to provide public relations services to Colleges of the University as assigned. Requires bachelor's degree or equivalent in journalism or liberal arts plus one to two years of effective experience in a writing position. Must have a specialized knowledge of communications media and how they function and the ability to write well, fast and accurately to edit copy and lay out a tabloid newspaper. STAFF GRADE 6.

■01475, Programmer/Analyst B, Vice President for Business and Operations, Management and Systems Engineering, University Park Campus—Apply modern structured design and programming techniques to design and develop new programs and modify and maintain existing programs for business applications. Requires bachelor's degree, or equivalent in a computer related field and one to two years of effective experience in programming and systems design. Experience with VM CMS, COBOL, SQL and CSP is desirable. The ability to communicate orally and in writing also is required. This is a fixed term position funded through June 30, 1992, with good possibility of re-funding. STAFF GRADE 6.

■01476, Construction Quality Representative, Office of Physical Plant, Facilities Planning and University Architect, Hershey Medical Center—Responsible to the project manager, Contract Administration, for the inspection of construction projects and day-to-day related coordination and monitoring of work being performed by prime contractors and their sub-contractors at the Hershey Medical Center. Requires associate degree, or equivalent, plus two to four years of effective hospital electrical construction experience at a supervisory level. This is a fixed term position funded for 18 months from date of hire. STAFF GRADE 6.

■01477, Assistant Supervisor, Stone Valley Recreation Area, Auxiliary Recreation Services, University Park Campus—Responsible to the supervisor, Stone Valley, for assisting in the coordination of staffing, scheduling, maintenance and operation of auxiliary services at Stone Valley. Requires bachelor's degree or equivalent, preferably in recreation and parks with one year in park administration, plus up to one year of effective experience in waterfront operations. Employee must possess certification as a Red Cross sailing instructor, and in water safety and first aid or be willing to complete training within six months on the job. This is a fixed term position funded through June 30, 1992, with probability of re-funding. STAFF GRADE 4.

■01478, Police Service Officer, University Park Campus—Responsible to the Police Services supervisor for the protection of life and property, preservation of peace and good order of the community, enforcement of laws, public safety investigative work and other related duties. Requires an associate degree, or equivalent, in academic credits plus one to two years of effective law enforcement experience. Similar combinations of education and experience may satisfy the above requirements. Active pursuit of a baccalaureate degree in social sciences is desirable. Individual must be able to work any day or night shifts and be able to pass a medical examination. This position requires physical fitness and psychological tests. STAFF GRADE 5.

■01479, Director of Student Programs and Services, Mont Alto, Student Programs and Services—Responsible to the Campus Executive Officer for the overall organization and administration of student programs and services at the Campus, including counseling, student life, student health, religious affairs, career development, placement, student financial aid, cultural programming, special programs and services, and residential life. Requires master's degree, or equivalent, in student personnel or related field plus four to five years of effective experience. STAFF GRADE 9.

■01480, Admissions Counselor, Schuylkill Campus, Admissions—Responsible to the director of student programs and services with respect to the entire admissions process, including the counseling and interviewing of prospective students, decision making regarding the admission of students, organizing, conducting and implementing recruiting and admissions programs, liaison operations with various colleges and campuses regarding articulation of students and programs and recruitment of potential students. Requires bachelor's degree, or equivalent, plus one to two years of effective experience in an academic environment. STAFF GRADE 6.

■01481, Admissions Counselor II, Commonwealth Educational System, McKeesport Campus—Responsible to the Campus admissions officer and the director of student programs and services for organizing, conducting and implementing recruiting and admissions programs aimed at minority and non-traditional populations. Requires master's degree, or equivalent, in counseling, student personnel services, higher education, or related areas plus one to two years of effective experience. STAFF GRADE 6.

■01486, System Support Specialist—Engineering and Technology, Behrend College, Science, Engineering and Technology—Responsible to the head Division of Science, Engineering and Technology, for the day-to-day operations of the SE&T networked engineering workstation lab, Micro/VAX lab and other divisional computer facilities. Requires bachelor's degree or equivalent in computer science, engineering, or engineering technology,

plus two to three years of effective experience in computer hardware and software application, including working with UNIX. STAFF GRADE 7.

Hershey

For the following position vacancies, apply directly to The Milton S. Hershey Medical Center. Attach resume with cover letter indicating the position vacancy of choice and forward to the Department of Human Resources, Hershey, or call the Hershey bid line at (717) 531-8531 by May 23.

■17419, Assistant Coordinator, Children's Miracle Network Telethon, Department of Planning and Health Services Advancement—Responsible to the coordinator, Children's Miracle Network Telethon, for the coordination of telethon special events, recruitment and management of volunteers, and overseeing telethon allocation monitoring. Requires a bachelor's degree or equivalency plus one to two years of effective experience in public relations or promotional activity. Strong organizational and accounting skills are desirable. STAFF GRADE 6.

■17430, Assistant Director for Local Area Network, Center for Information Technology—Responsible to the chief information officer for planning and directing the establishment and maintenance of Local Area Network (LAN) communications and associated hardware/software facilities. Requires a bachelor's degree or equivalent in computer science, plus five to seven years of effective experience, which should include experience in a supervisory capacity involving both operating systems and data communications. STAFF GRADE 8.

■19122, Clinical Nurse Specialist/CNPP Oncology, Department of Pediatrics and the Department of Nursing—Responsible to the hematologist/oncologist for all clinical and medical aspects and to the assistant director of nursing, Maternal and Child Health, for nursing care and administrative aspects. Also responsible for managing and providing care for the child with neoplastic disease. Requires a master's degree in one of the nursing clinical specialties, areas plus one to two years of effective experience and licensed

by the State Board of Nursing as a nurse practitioner. Demonstrated experience in pediatric hematology/oncology. STAFF EXEMPT, GRADE 7.

■19123, Clinical Nurse Specialist, Department of Nursing Services—Responsible to the director of nursing and/or assistant director of nursing for providing nursing expertise within inpatient clinical specialty. Functions in inpatient, outpatient and/or community settings. Requires a master's degree in nursing plus one to two years of effective clinical experience in area of expertise, and current licensure by Pennsylvania State Board of Nursing. Certification in diabetes is desirable. STAFF EXEMPT, GRADE 7.

■19125, Nurse Manager 5 Medical/Surgical, Department of Nursing—Responsible to the assistant hospital director/director of nursing services or the assistant director of nursing services as designated for the operation of the patient care unit. Requires a bachelor's degree in nursing or equivalency plus three to four years of effective experience and be licensed to practice as a registered nurse by the Pennsylvania State Board of Nursing. Master of science degree preferred. STAFF EXEMPT, GRADE 7.

■19122, Biostatistician, Center for Biostatistics and Epidemiology—Responsible to the director, Center for Biostatistics and Epidemiology, for computerized data management and statistical analysis programming in support of the biomedical and biostatistical research activities of the center. Requires a bachelor's degree or equivalency in mathematics or statistics plus one to two years of effective experience. STAFF GRADE 5.

■17446, Recreational Therapist, Department of Nursing/Psychiatry, Division of Child Psychiatry—Responsible to the chief, Psychiatric Inpatient Unit, for the organization and conduct of a therapeutic recreational program in the Psychiatry Inpatient Unit to facilitate and complement the total psychotherapeutic treatment program for patients with emotional disorders. Requires a bachelor's degree in recreational therapy or equivalency, plus one to two years of effective experience. STAFF GRADE 6.

INTERCOM is published weekly during the academic year and every other week during the summer. It is an internal communications medium published for the faculty and staff of Penn State by the Office of Public Information, Room 312, Old Main, Phone 865-7517.

Volume 20, Number 33

Dr. Brighton named executive vice president and provost

John A. Brighton, dean of the College of Engineering and professor of mechanical engineering, has been named executive vice president and provost, effective July 1.

His appointment was approved May 17 by the University's Board of Trustees, upon recommendation by President Thomas.

"Dr. Brighton enjoys a national and international reputation as a scholar and administrator, and has earned the broad respect of his colleagues across the Penn State community," Dr. Thomas said.

"He has developed a fine record in the quality recruitment of faculty and graduate students, in fostering increased activity in research, in improving the undergraduate curriculum, in advancing the position of women and minorities in engineering, and in supporting a successful development program in his college.

"I look forward eagerly to the opportunity to work with him in advancing the future of this University."

Dr. Brighton will succeed Charles L. Hosler Jr., who fills the post on an interim basis.

John A. Brighton

Since 1988, Dr. Brighton has been serving as dean of the College of Engineering, one of the nation's largest with 8,573 students. The college's graduate

program recently was ranked 12th among U.S. engineering schools by U.S. News and World Report.

As dean, he has led the efforts in five main areas: recruiting 63 new faculty in more than two years; increasing graduate student enrollment from 900 to 1,200; recruiting women and minority students and faculty; improving undergraduate programs; and increasing research development.

Prior to this position, he had been director of the School of Mechanical Engineering at Georgia Institute of Technology from 1982 to 1988.

Dr. Brighton also served as chair of the Department of Mechanical Engineering at Michigan State University from 1977 to 1982, and as assistant, associate and full professor of mechanical engineering at Penn State from 1965 to 1977. He was a member of the original team that pioneered the development of the Penn State heat-assist pump, now an International Historic Mechanical Engineering Landmark designated by the American Society of

Mechanical Engineering.

His degrees are a bachelor's, master's and doctoral in mechanical engineering from Purdue University.

Among his accomplishments are serving as an active member and Fellow of the American Society of Mechanical Engineers and an active member and Fellow of the American Society of Engineering Education, including chair of the Task Force on Faculty Pipeline of its Engineering Deans Council.

He also is a member of the National Science Foundation Advisory Committee for Engineering and a member of the Data Review Board for Clinical Trials of the Heart Assist Program for the National Institutes of Health.

Honors include the Centennial Medal for Outstanding Contributions in Bioengineering from ASME and being named to *Who's Who in Engineering* and *Who's Who in America*.

An acting dean has been appointed. See the story on Page 9.

Board approves expansion of the nondiscrimination policy

The Board of Trustees at its May 17 meeting approved expansion of the University's nondiscrimination policy to further emphasize "that all persons shall have equal access to programs, facilities, admission and employment."

The resolution approved by the Board follows a University-wide discussion of the policy, which was brought into question shortly after the September arrival of President Thomas. The expansion of the policy was urged by the University Faculty Senate, the Commission for Women and the Commission on Racial/Ethnic Diversity, among others.

The expanded version of the nondiscrimination policy provides for equal access "without regard to personal characteristics not related to ability, performance or qualifications as determined by University policy or by state or federal authorities."

In addition to the groups and characteristics that were specifically cited in the previous policy, the new version indicates the University is committed to ensuring discrimination does not occur based on an individual's ancestry or sexual orientation.

The resolution adopted by the Board of Trustees reads:

"Whereas, The University is committed to creating a community in which a diverse student and employee population can study and work in an atmosphere of tolerance, civility and respect for the rights and sensibilities of each individual, regardless of personal characteristics and beliefs,

Resolved, That the Board of Trustees approves revision of the University's nondiscrimination policy as follows:

Resolved, That the Board of Trustees hereby affirms the University's policy of nondiscrimination in all of its education programs or activities as required by law. The Board further affirms the University's policy of maintaining programs of affirmative action in recruitment, hiring and promotion as required by law. The officers of the University are directed to review periodically all programs of affirmative action to ensure compliance with this policy and applicable law.

Resolved, That the Pennsylvania State University is committed to the policy that all persons shall have equal access to programs, facilities, admission and

See 'Nondiscrimination' on Page 2.

At University Park

New building will be dedicated

State and federal officials are expected to join President Thomas and College of Agriculture Dean Lamartine Hood for tomorrow's formal dedication of the new Agricultural Sciences and Industries Building at University Park. The ceremony will be held at 11 a.m. on the front patio of the building facing Shortlidge Road.

"With the completion of this building, we have enhanced instructional and research facilities for virtually every academic unit in the College," Dean Hood said.

The 524 million structure is the centerpiece of a \$42 million College of Agriculture facility improvement program, funded jointly by the state and federal governments and the university. Other components of the program are new dairy and poultry research centers, new and renovated greenhouses and remodeled swine research facilities.

"These enhanced facilities will help us to attract and educate more top-notch undergraduate and graduate students," James Starling, associate dean for administration, said. "And many of our faculty for the first time will have appropriate laboratory resources to support

a first-rate research and education program."

Ag Sciences and Industries becomes the new base of operations for the Agronomy Department, The Entomology, Dairy and Animal Science, and Veterinary Science departments also occupy space in the six-story edifice, which is connected to Henning Building by a covered walkway.

Construction began in early 1989. The 150,000-square-foot building contains a 202-seat auditorium/classroom; one intermediate and two small classrooms; two computer-equipped classrooms; an undergraduate learning center; five teaching laboratories; 40 large and 35 small research labs; more than 145 offices for faculty, staff and graduate students; laboratory animal holding rooms and support facilities; 7 conference rooms; specialized space for the Land Analysis Lab in agronomy and the Expert Systems Lab in entomology; and several other facilities.

See photos of the new Agricultural Sciences and Industries Building on Page 5.

Focus on Diversity

In Pittsburgh's Hill District

Show highlights Wylie Avenue

It was the only street in America that began at a church and ended at a jail...Wylie Avenue, in Pittsburgh's Hill District. A Pennsylvania Public Television Network special recalls the Hill when it represented the heart and soul of Black life in Pittsburgh, much the same as Harlem did in New York. *Wylie Avenue Days* airs at 2 p.m. Sunday, June 2, on WPXS-TV, Channel 3.

The long, gone corner of Wylie and Fullerton (now, the Civic Arena's parking lot) was dubbed "Crossroads of the World" by disc jockey Mary Dee. There you might

have bumped into Cab Calloway, or Count Basie, members of the Pittsburgh Crawfords and Homestead Grays, two of the best Black baseball teams in the country, or "digitarians," number kings who served as the area's unofficial banks.

The program recalls it all...the clubs like the Hurricane and Crawford Grill where the music attracted both Blacks and Whites, the church picnics and family businesses such as Goode's Pharmacy that were all a part of life in this unique neighborhood. The era is brought back by personal memories, old photos and rare movies.

Goode's Pharmacy was a successful Wylie Avenue business.

Diversity Opportunities Calendar

Friday, May 31

Men of Color, 5:30 p.m., Days Inn Hotel, Monthly Happy/Social hour.

Saturday, June 1

Wyoming Valley Women's Network, 11:45 to 1 p.m., Penn State Wilkes-Barre Campus. Seventh annual Luzerne County Women's Conference. Approximately 60 workshops will be conducted. For more information, contact Melissa Norderer at (717) 675-9114.

Thursday, June 6

Women of Color, noon to 1 p.m., Hotel State College. Luncheon meeting. For reservations, call 865-1878. For more information, contact Vicki Fong at 865-7517 or 238-1221.

Tuesday, June 11

Men of Color, noon to 1 p.m., Nittany Lion Inn. General lunch meeting. For more information, contact Aaron Singleton at 865-7517.

International workshop is scheduled

"Youth and Social Change" is the subject of an international workshop to be held June 24-30 at University Park.

The workshop is sponsored by the Center for the Study of Child and Adolescent Development, the International Society for the Study of Behavioral Development, and Division 7 (Developmental Psychology) of the American Psychological Association.

To enable young scholars to participate

in the workshop, fellowships have been allocated to young European and North American scholars interested in studying relations between adolescent development and social change.

Funds from the Johann Jacobs Foundation, the College of Health and Human Development, and the International Society for the Study of Behavioral Development support the workshop.

Philadelphia minority students are honored for achievements

Philadelphia minority high school sophomores and juniors were honored for their achievement in math and science and encouraged to attend college on Thursday, May 23, in Philadelphia.

Approximately 100 students, representing all high schools in the Philadelphia School District, attended the University's Fourth Annual Awards Convocation and Luncheon. Several outstanding minority students received Penn State scholarships.

The guest speaker was Sharon L. Haynie, senior research chemist in the E.I. DuPont de Nemours & Co.'s biomaterials group and fields department.

"This program supports the efforts of the high schools' mathematics and science departments to encourage broad participation by diverse groups into the mathematical and physical science fields," said Henry McCoullum, Eberly College of Science minority programs director and organizer of the convocation. "This is the fourth year of our program with the School District of Philadelphia to encourage students to maintain academic excellence and pursue higher education in these fields."

Taking part were several Philadelphia School District officials, including

Constance E. Clayton, superintendent; Harold Kessler, curriculum support director; and Curtis Howard, curriculum coordinator.

University officials included Howard Wray III, assistant dean for undergraduate education and academic assistance programs; Gary Kelsey, director of minority admissions and community relations; Mr. McCoullum; Max King, assistant director of the University Scholars Program, and several coordinators of minority programs.

"This is a unique program, because we're offering scholarships to students as early as 10th grade," said Mr. King, who noted that seven scholarships were given last year.

All students invited received an award. At least two students were nominated by teachers and counselors from each high school in the school district.

"While we want to encourage all of the students to go to college, we hope that this activity will make many students aware of the resources available at Penn State," Mr. McCoullum added.

The event was sponsored by the Eberly College of Science, University Scholars Program, College of the Liberal Arts, College of Engineering, The Smell College of Business Administration and the Office of Undergraduate Admissions.

To Native American Indians

Fellowships are being offered

The University is offering graduate fellowships to Native American Indian students interested in doctoral level training in special education.

The deadline for submitting applications is July 15 for fall semester 1991, and Nov. 15 for spring semester 1992. It is expected, pending budget approval, that participants in the program receive a monthly stipend of approximately \$800, remission of tuition, and textbook, dependency and relocation allowances.

The American Indian Leadership Training program is newly established through a grant from the U.S. Department of Education and offers a specific course of study designed to prepare students for positions in higher education.

Seminars focusing on American Indian education and special education are conducted in conjunction with the nationally known Native American Leadership Training Program on campus.

It is expected that program participants will develop supervisory skills in personnel training; conceptualize, design, implement and disseminate at least one major research study dealing with American Indian special education, and acquire the skills necessary for quality teacher training.

Participants who complete the program receive a Ph.D. in special education. Program graduates will be qualified for several employment opportunities, including university level positions, special education program coordinator and consultant, special education program developer and special education positions within the Bureau of Indian Affairs.

Anna Cajal, professor of special education, is director of the program. Applications are now being accepted. For more information, contact Dr. Cajal at 226B Moore Building, University Park, PA 16802, or call the program office at (814) 863-2284.

Nondiscrimination

Continued from Page 1.

employment without regard to personal characteristics not related to ability, performance or qualifications as determined by University policy or by state or federal authorities. The Pennsylvania State University does not discriminate against any person because of age, ancestry, color, disability or handicap, national origin, race, religious creed, sex, sexual orientation or veteran status."

From the Trustee Docket

Board election

Six incumbents and one new member were elected to the Board of Trustees in elections held May 16 at University Park.

All will serve three-year terms beginning July 1.

Re-elected by Penn State alumni were:
 - **Donald M. Cook Jr.**, '52 and '60s, president of Renaissance Management Resources Group, a consulting firm, and chief operating officer of SEMCOR Inc., an engineering and management services firm, both in New Jersey, and a trustee since 1985.

- **Marian U. Coppersmith Fredman**, '53, president of the Barash Group and publisher of *Town and Gown* and *Witers and Wlms* magazines, and a trustee since 1976. She currently is president of the Board of Trustees.

- **Ben Novak**, '65, founder and senior partner of the law firm of Novak, Stover and McCarthy, with offices in State College and Bellefonte, and a trustee since 1988.

Re-elected by agricultural society delegates were:

- **Guy F. Donaldson**, partner in a 338-acre fruit farm in the Gettysburg area, and

a trustee since 1988.

- **Obie Snider**, '50, managing partner of the 1,250-acre Singing Brook Farms, Imber, and a trustee since 1979.

Elected by industrial society delegates were:

- **Quentin E. Wood**, '48, former chief executive officer and current chairman of the board of Quaker State Corp., and a trustee since 1976.

- **Richard A. Zimmerman**, '53, chairman and chief executive officer of Hershey Foods Corp., who replaces Gilbert A. Wetzel.

Mr. Cook previously was president of RCA Service Co. He retired from RCA Corp. after 27 years of service, then joined Renaissance Management Resources Group and SEMCOR Inc. He earned a B.S. degree in recreation and parks in 1952 and an M.Ed. in counselor education in 1960, both from Penn State.

Mrs. Coppersmith Fredman is a 1953 graduate of Penn State. In 1991, she was elected president of the Board of Trustees, after serving three years as vice president. She is a trustee representative and past-president of the University Renaissance Scholarship Fund, which honored her in

1990. She also was named a Distinguished Daughter of Pennsylvania in 1990.

Mr. Novak, a practicing attorney since 1970, earned a B.A. degree in economics from Penn State in 1965 and received his J.D. from Georgetown University in 1968. He serves as solicitor of several Central Pennsylvania municipalities and is a member of the U.S. Board of Trustees in Bankruptcy.

Mr. Donaldson is vice president of the Pennsylvania Farmers' Association (PFA). Since 1983, he has been farming in partnership with his sons and also operates a retail farm market. He has been president of the Adams County Farmers' Association and a member of the PFA state board of directors.

Mr. Snider, a 1950 dairy husbandry graduate of Penn State, owns a crop and dairy farm in partnership with his son. He has served as a director of the College of Agriculture Alumni Association. In 1980, he was named Penn State's Outstanding Dairy Alumnus, and in 1984, he was designated an Honorary County Agent. He was president of the Board of Trustees from 1985-87. In 1991, he was named to the Penn State National Development

Council.

Mr. Wood, a 1948 graduate of Penn State with a B.S. degree in petroleum and natural gas engineering, joined Quaker State as a petroleum engineer in 1948. He has served as a member of the Penn State Alumni Council, the Mount Nittany Society and Phi Kappa Alpha Fraternity. In 1991, he was named to the Penn State National Development Council.

Mr. Zimmerman, a 1953 graduate of Penn State with a B.A. degree in commerce, began working for Hershey Foods as an administrative assistant in 1958. In 1976, he became president and chief operating officer of HERCO. He is a board member of HERCO, the Hershey Trust Co., the Milton Hershey School, the Pennsylvania Business Roundtable and the Pennsylvania Chamber of Business and Industry.

The Board of Trustees has 32 members: five ex officio, nine elected by alumni, 12 elected by delegates of agricultural and industrial societies and six appointed by the governor. Ex officio members include the governor, University president and state secretaries of agriculture, education and environmental resources.

Knight report

The Board of Trustees has adopted a resolution supporting the recent report issued by the Knight Foundation's Commission on Intercollegiate Athletics.

The Knight report, and the resolution adopted by the Board, express concern

about excessive zeal to win and abusive practices at some institutions.

President Emeritus Jordan and J. Lloyd Huck, past president of the Board of Trustees, served on the Commission.

Mr. Huck, who remains on the Board of Trustees, presented a report on the Commission's activities and its final report, "Keeping Faith With the Student-Athlete."

"In forming this Commission in October 1989, the Trustees of the Knight Foundation expressed concern that abuses in athletics had reached proportions threatening the integrity of higher education," he said.

Mr. Huck told the Board that most of the recommendations of the Knight Commission fit comfortably into the

philosophy and practices Penn State already has in place.

"The Knight Commission recommendations would, if embraced nationally, significantly change the status quo at some institutions. At others, such as Penn State, they serve as a reminder of the values we have already been putting into practice."

Parking garage

The Board of Trustees has approved final plans and authorized the University to obtain bids and award contracts for a new parking garage at University Park.

The five-level, 286,000-square-foot structure will be located east of Eisenhower Auditorium, on a portion of the existing parking lot, and will be accessible from Shortlidge Road and Bigler Road.

It will include 821 parking spaces - 525 more spaces than are currently available at the site - and about 20,000 square feet of office space for the Department of University Safety, which will release space in Grange Building for academic purposes.

The garage will be reserved for University faculty and staff use during the daytime on weekdays and for events parking on evenings and weekends.

The architect for the project is Ewing, Cole, Cherry, Parsky of Philadelphia, and the total budget is \$9,781,250. Construction is scheduled to begin this summer with occupancy slated for late summer 1992.

The new garage is part of a five-year University parking development plan prepared by the University Parking Committee consisting of faculty, staff and student representatives. The new structures are funded by faculty/staff parking registration fees.

In other action, Trustees:

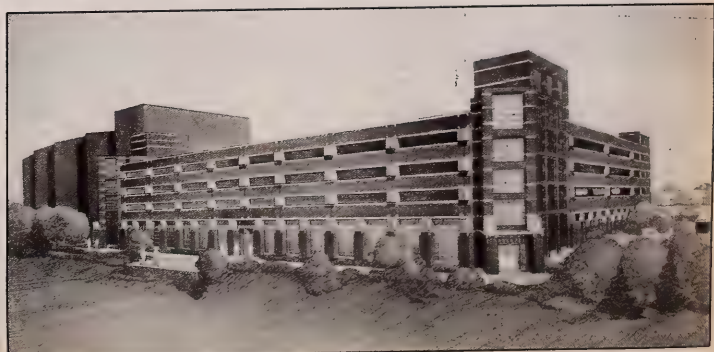

- Approved renaming the Mechanical Engineering Laboratory on Burrows Road at University Park as the Louis E. Reber Building, after the founder and first dean of the College of Engineering. Dean Reber, who served from 1895-1907, was

instrumental in the establishment of the engineering program and its facilities.

- Approved naming three residence halls being built at Penn State Erie, The Behrend College, as Tigress Hall, Porcupine Hall and Tiffany Hall. The names were selected to commemorate the people and ships of

historical significance to the Battle of Lake Erie in the War of 1812.

- Approved naming a residence hall under construction at the Beaver Campus as Lions Court, in honor of the Penn State mascot.

Artist's illustration of proposed parking garage at University Park.

From the Trustee Docket

Private gift support

Despite the recession, war in the Gulf, and without the helpful context of a major fundraising campaign, Penn State is heading toward one of its best years ever for private gift support.

The University expects to raise about \$60 million this year, Penn State Trustee Quentin Wood said in a report to the Board at its May 17 meeting.

"If that occurs, we will have accomplished an extraordinary feat," added Mr. Wood, who is the Board's liaison to Penn State's National Development Council, its top volunteer fundraising leadership group.

"As of April 30, Penn State had raised \$51.5 million for the 10 months of the current fiscal year," he said. "That compares favorably to the \$54.2 million raised by the

same point last year - Penn State's best fund year ever."

In 1989-90, the sixth and final year of the comprehensive fundraising effort called The Campaign for Penn State, the University raised \$62.4 million. In 1988-89, it raised \$55.2 million, and in 1987-88, \$50.3 million.

Through April 30 of this year, Mr. Wood said, gifts to Penn State are up in four of the five major categories:

- alumni giving, \$13.5 million, compared with \$10.8 million at the same point last year;
 - friends' giving, \$7.2 million, compared with \$6.9 million last year;
 - foundation giving, \$7.9 million, compared with \$5.5 million last year;
 - organization giving, \$5.7 million, compared with \$4.9 million.
- Because of the recession, corporate giving

has declined sharply, to \$17.2 million as of April 30, compared with \$26.2 million by the same date last year.

"The pattern for corporate giving is like this at colleges and universities across the nation," Mr. Wood said.

Noting that last year's corporate giving totals to Penn State were bolstered significantly by a \$6.6 million gift from IBM, he said, "nothing on that scale has occurred this year."

Interim budget

The Board of Trustees has approved an interim maintenance operating budget for the fiscal year beginning July 1.

The interim budget was approved at the level of the adjusted 1990-91 budget of \$1,257,957,000 for all divisions, including

the Hershey Medical Center and all auxiliary enterprises.

"Since we are not yet sure what the state appropriation will be for the University, a final budget is not available for the Board's approval," Steve A. Garban, senior vice president for finance and operations, said.

"Thus, the University will need an approved interim budget to enable it to operate into the new fiscal year, which starts July 1. The Board is not scheduled to meet again until after that date."

The interim budget was approved with the recommendation that no action be taken at this time on changes in tuition, salaries and wages, staff benefits or other necessary expense increases.

A final budget will be submitted at the July 12 Board of Trustees meeting, if and when the state appropriation is clarified.

Program changes

The Board of Trustees has approved a number of changes in academic units and graduate and undergraduate programs.

The Institutional Engineering Advisory Services will now be known as the Penn State Facilities Engineering Institute, Department of Architectural Engineering, College of Engineering. The program was established in 1947 in response to the state's request that Penn State provide engineering and advisory services, particularly with respect to fossil fuel procurement.

The Board approved a name change for the major in labor studies in the College of the Liberal Arts to the major in labor and industrial relations. The new name more accurately describes the present program because of the program's emphasis on the institutional relationship between

employees, employers and their respective organizations.

Also approved were:

- Change in name from the Division of Science, Engineering and Technology to the School of Science, Engineering and Technology at Penn State Harrisburg. The name change will increase regional and national recognition of Penn State Harrisburg's role in engineering technology and will help in the recruitment of students and faculty.

- A proposal to divide the Division of Science, Engineering and Technology into the Division of Science and the School of Engineering and Engineering Technology at Penn State Erie, The Behrend College. The change is intended to provide more effective administration and was recommended by evaluators from the Accrediting Board of Engineering and Technology.

- Establishment of the School of Engineering Technology and Commonwealth Engineering to replace the Department of General Engineering, College of Engineering. The new school will provide a single, centralized academic home for all associate degree programs in engineering technology.

Changes in undergraduate programs are:

- Addition of a major in associate degree in science in occupational therapy in the College of Education.
- Addition of a minor in mushroom science and technology in the College of Agriculture.
- Addition of a new option in golf management in the major of leisure studies in the College of Health and Human Development.
- Dropping of a major in associate degree in arts in labor studies in the College of the Liberal Arts.

- Dropping of an option in industrial and union organization in the labor and industrial relations major in the College of the Liberal Arts.

- Dropping of an option in public sector and policy in the labor and industrial relations major in the College of the Liberal Arts.

Changes in graduate programs are:

- Addition of a master of arts degree in music theory and history in the School of Music.

- Addition of the master of education degree, master of science degree, doctor of education degree and doctor of philosophy degree in instructional systems in the College of Education.

- Addition of doctor of philosophy degree in architectural engineering in the College of Engineering.

Board of Trustees receives report on faculty development

Universities and individual faculty members are jointly responsible for a faculty member's personal growth, The Task Force on Faculty Development concludes.

In a report to the Board of Trustees, **John J. Cahir** said, "The members of the task force believe that faculty development is a shared responsibility."

"Historically, universities have expected faculty members to bear the brunt of responsibility for their own professional and personal growth. This philosophy is outdated. Faculty now face a huge and growing knowledge base, a shifting society and increased student expectations, and a rapidly changing model of a large research university."

Dr. Cahir, professor of meteorology and associate dean for resident instruction in the College of Earth and Mineral Sciences, chaired the task force, which was appointed by the executive vice president and provost and the chairperson of the University Faculty Senate.

"We know that some departments and

colleges are already doing the kinds of things that help faculty members to fulfill their missions of teaching, research and service," Dr. Cahir said. "We looked at ways to provide this type of assistance to all faculty members."

The task force addressed five areas of concern: progress toward equity in faculty salaries, policies and procedures for determining faculty workloads, faculty development and research initiation programs, climate and expectations for research and teaching involvement, and equitable application of tenure and promotion guidelines.

During deliberations, task force members dealt with growth and renewal in terms of a whole-person, lifecycle approach, Dr. Cahir said.

Seventeen recommendations are grouped into three areas: improving the climate for personal development, upgrading the value of teaching, and providing for personal development.

Another climate-related recommendation

suggests that the Commonwealth Educational System encourage more faculty interaction through mentoring programs and funding for visiting professors and faculty exchanges.

Recommendations dealing with teaching emphasize that "teaching and research are essential and complementary elements of the faculty role," Dr. Cahir said. "As the University advances faculty development, it must find ways to value and assess teaching more effectively, to foster outstanding instruction along with scholarship, and, as a research university, strengthen the ties between teaching and research."

"The recommendations, which were approved unanimously by the task force members, are designed to help faculty members move up through the ranks in their fields," he said.

In addition to Dr. Cahir, other task force members were **Deborah F. Atwater**, senior faculty mentor and director, Minority Faculty Development; **Robert A. Bernoff**, professor of science and general

chemistry, Penn State Ogontz Campus; **Joseph S. DiGregorio**, associate dean for Commonwealth Educational System (CES) and Continuing Education, College of Engineering; **Louise E. Hoffman**, associate professor of humanities and history, Penn State Harrisburg; **Ronald R. Keiper**, director of academic affairs, Penn State Mont Alto Campus.

Theodore E. Kiffer, interim dean, College of the Liberal Arts; **Manfred Kroger**, professor of food science; **Roland E. Larson**, professor of mathematics, Penn State Erie, The Behrend College; **John J. Romano**, campus executive officer, Penn State York Campus; **Jack P. Royer**, associate dean for undergraduate education, **Suzanne Striedick**, associate librarian; and **Roger Zellner**, associate professor of art, Penn State Altoona Campus.

Michael J. Doors, senior planning analyst, Office of Planning and Analysis, and **Del Sweeney**, senior project associate, Office of the President, served as staff for the task force.

Agricultural Sciences and Industries Building

The College of Agriculture's new Agricultural Sciences and Industries Building being dedicated May 31 has a large paved and landscaped entrance, shown at the right. The six-story brick building also has a covered walkway connecting it with Henning Building, shown at the left. Costing \$24 million, the 150,000-square-foot building contains a 202-seat auditorium/classroom, shown below. The photo at the lower right is of the rear entrance.

Focus on the arts

Centre Stage tickets

Single tickets for the 1991 season of Pennsylvania Centre Stage went on sale Tuesday, May 28, at the Eisenhower Auditorium Ticket Center at University Park.

Centre Stage, now in its sixth season, will produce the inspiring drama "Driving Miss Daisy," June 19 through July 6; the zany Off-Broadway musical hit "Nunsense," July 3 through July 20, and the powerful three-character play "Orphans," July 17 through Aug. 3. All evening shows are at 8 p.m. Matinees begin at 2 p.m.

Tickets for "Driving Miss Daisy" and "Orphans" are \$17 for adults and \$14 for students/children. Previews and matinees are \$13 and \$10. "Nunsense" tickets are \$19 and \$16, with previews and matinees \$15 and \$12. For tickets, phone (814) 863-0255 between 8:30 a.m. and 4:30 p.m., Monday through Saturday.

Butterfly chairs

Art and industry form new relationships in "Metamorphosis of a Butterfly," an exhibition of butterfly chairs that opens June 1 and continues through June 30 in Zoller Gallery at University Park.

Cuest curator David Robinson, an industrial designer in New York City, invited 26 artists from around the country to participate in the exhibition. Artists were given an historic form, the butterfly chair, and were allowed to manipulate it as they wished.

The exhibition involves a variety of artists including designers, sculptors, painters and mixed-media artists from Pennsylvania, Maryland, New Jersey, Connecticut, Ohio, New York, Tennessee, Oklahoma, Louisiana, Texas, Colorado and California. Each artist was given a butterfly chair and several months to work on it.

Chairs in the exhibition are surface decorated, used as elements of an environment and in some cases no longer resemble a chair at all.

A reception for the artists will be held from 7 to 9 p.m. Saturday, June 1, in Zoller Gallery.

The exhibition and reception are free and open to the public. Zoller Gallery is located in the Visual Arts Building. Gallery hours for the summer are 10 a.m. to 4 p.m. Monday through Friday; 11 a.m. to 4:30 p.m. Saturday, and noon to 4 p.m. Sunday.

The arts on Channel 3

His name is legendary in the annals of the American legal system from the late 19th century through the early decades of the 20th century. He is Clarence Darrow, and for the first time his life as a man, as

Music at Penn's Woods

Season subscriptions and single performance tickets for Music at Penn's Woods, the summer orchestral and chamber music festival at University Park, go on sale Monday, June 3, at the Eisenhower Auditorium Ticket Center.

Four Saturday concerts will be given at 7:30 p.m. June 29 and July 6, 13 and 20 in Schwab Auditorium.

Featured works will include Stravinsky's Firebird Suite 1919; Dvorak's Symphony No. 8 in G major, Op. 88; Mozart's Symphony No. 29 in A, K. 201; Shumann's Symphony No. 3; and Brahms' Symphony No. 4.

In addition to the Saturday concerts, free chamber music recitals will be performed at 3 p.m. Sundays, June 30 and July 7 and 14; 7:30 p.m. Thursday,

July 4, and 7:30 p.m. Wednesdays, July 10 and 17, in the School of Music Recital Hall.

The first 100 students who purchase Penn's Woods tickets will receive a pair of neon sunglasses. The sunglasses will be distributed at the ticket center at the time of ticket purchase.

Season subscriptions are \$18 for adults and \$12 for students. Single ticket prices are \$6 for adults and \$4 for students. To order tickets, call Eisenhower Auditorium Ticket Center at (814) 863-0255 Monday through Saturday, 8:30 a.m. to 4:30 p.m. Music at Penn's Woods is sponsored by the School of Music in the College of Arts and Architecture and the Office of Summer Sessions.

well as a public figure, will be dramatized in a two-hour biographical film, titled "Darrow," which will premiere on American Playhouse on 9 p.m. Friday, June 7, on WPSX-TV.

The political and personal intrigue, corruption and lust that toppled the glory of vain-glorious Rome will unfold on Masterpiece Theatre when "I, Claudius" encores on WPSX-TV at 9 p.m. June 9-Aug. 25. Episode one is a two-hour presentation.

Based on Robert Graves' best-selling novels about dirty work in ancient Rome, the critically acclaimed series lavishly depicts the orgiastic society of the all-powerful Claudians, the family whose business was ruling the world.

'Driving Miss Daisy'

"Driving Miss Daisy," Alfred Uhry's Pulitzer Prize-winning play about an elderly Southern widow and her driver, will open the Pennsylvania Centre Stage 1991 season Wednesday, June 19, and run through Saturday, July 6, at the Pavilion Theatre at University Park.

After 72-year-old Daisy backs her brand-new Packard through the neighbor's garage, her son insists on hiring a chauffeur. Resenting her loss of independence, Daisy refuses to cooperate with the new driver, an African American/Black American man named Hoke. But Hoke's patience and gentle humor eventually thaw her frosty indifference.

During their 25-year companionship, Daisy and Hoke learn to transcend differences in race, religion and social class and come to depend on one another. It's a story of lasting friendship

and the bonds that connect people to each other.

"Driving Miss Daisy" will be presented at 8 p.m. June 19-22, 27-29, July 2, 3, 5 and 6. Preview performances are June 19 and 20. Saturday matinees are at 2 p.m. June 22 and 29 and July 6.

Tickets for evening performances are \$17 for adults and \$14 for students and children. Tickets for matinees and preview performances are \$13 for adults and \$10 for students and children. For more information, call the Eisenhower Auditorium Ticket Center, open 8:30 a.m. to 4:30 p.m. Monday through Saturday, at (814) 863-0255.

Seminar scheduled

A Seminar in Feminist Literary Criticism, sponsored by the Department of English and the Office of Summer Sessions, will be held June 24-28 at University Park.

Faculty members and graduate students from more than 30 colleges and universities have registered for the 50 places at the seminar, which will be led by Professor Elizabeth Abel of the Department of English at the University of California, Berkeley, and Professor Madelon Sprengnether of the Department of English at the University of Minnesota.

Two public lectures are being offered in conjunction with the seminar. Professor Sprengnether will speak Monday, June 24, and Professor Abel will speak Wednesday, June 26. Both presentations are scheduled for 8 p.m. in 101 Kern Building.

The summer seminar is the first of a planned series of seminars in literary criticism and theory. Each summer's

seminar will explore a different set of issues about or approaches to literature.

Summer art classes

A series of five courses for children and teens is being offered from 9 to 11 a.m. Thursdays, beginning June 27 and ending Aug. 1, in the professional art studios at University Park.

Courses are taught by seniors in art education prior to their student-teaching experiences in the public schools. Each course is assigned three teachers, allowing personal attention to all students enrolled. The courses also are supervised by three University instructors and are supplemented with field trips, visits by professional artists, and gallery, museum and arts festival activities.

"Modern Art for Modern Minds" is a course for six- and seven-year-olds. Children from eight to 10 years old may choose "Art for Aspiring Artists" or "Nature, Painting and Artworks." The course for 10- to 14-year-olds is "Art in Today's World," in which students develop artworks from social and cultural events and issues in today's world. Teens and advanced students will produce a body of works in a special studio session.

Tuition consists of a materials fee of \$16.50 for children and \$18.50 for teens and advanced students.

Register on a first-come first-served basis by calling (814) 865-6570 weekdays 9 a.m. to 4 p.m.

Shakespeare Festival

There are still openings for the Department of English's excursion to Stratford, Ontario, for the Stratford Shakespeare Festival from Friday, July 26, to Monday, July 29.

Participants can enjoy the following performances: Friday evening, "The Carousel" in the Festival Theatre or "Timon of Athens" in Patterson; Saturday afternoon, "School for Wives" in Avon; Saturday evening, "Hamlet" in Festival Theatre; Sunday afternoon, "Twelfth Night" in Avon or "Much Ado About Nothing" in Festival Theatre.

Two pricing plans are available. Plan A includes tickets to see three plays, lodging in Stratford rooming houses, and roundtrip transportation in University vans for \$220. Plan B includes tickets to see four plays, lodging and transportation for \$260.

For each reservation, a \$30 per person down payment is required. Make checks payable to Sanford Schwartz and send them to him in the Department of English, University Park, Pa. 16802. For further information, contact Dr. Schwartz at (814) 867-3031 or 865-1651.

Bookshelf

Thomas G. Bowers, assistant professor of psychology at Penn State Harrisburg, is co-author with George A. Clum, of Virginia Polytechnic Institute and State University, of *Is Behavior Therapy Better than Placebo Treatments: Results or Artifact?*, published by the American Psychological Association.

"Most psychotherapists agree that the personal relationship between therapist and client is the most critical factor during treatment of the client," Dr. Bowers says. "Furthermore, techniques such as generic counseling, which we will call placebos, are certainly better than no treatment at all, and in fact, can themselves be considered treatments." Nevertheless, through placebo-

controlled psychotherapy research, cognitive behavioral methods and social skills training can be demonstrated to produce results beyond those of psychological placebos, he notes.

Theresa J. Devine, assistant professor of economics, is the senior author of *Empirical Labor Economics*, published by Oxford. Nicholas Kiefer, professor of economics at Cornell University, is the co-author.

The book is the first to coordinate and make accessible a large and scattered literature on modern applied economics for labor market research. It examines sequential, random and stochastic search models of the labor market, as well as stochastic models, and treats underlying economic theory and econometric methods as needed. It also looks at

structural search models, studies directed at particular policy questions such as the effect of underemployment benefits on unemployment duration, and simple descriptive studies.

Emily R. Grosholz, associate professor of philosophy, is author of *Cartesian Method and the Problem of Reduction*, published by Clarendon Press.

Dr. Grosholz examines how Descartes was able to relate certain complex items and methods in mathematics, physics and metaphysics into simpler elements by using the Cartesian method of organizing knowledge. However, the method narrowed these areas of knowledge. The book examines in detail the impact of Descartes' method on his scientific and philosophical enterprises as evidenced in his writings.

John T. Harwood of the Department of English and the Center for Academic Computing is the editor of *The Early Essays and Ethics of Robert Boyle*, published by Southern Illinois University Press.

Although Robert Boyle (1627-1691) was one of the major figures of the early Royal Society, only half of his voluminous writings focus on natural philosophy. His earliest interests were in ethics and rhetoric.

This volume of previously unpublished manuscripts appears in the tercentenary of Boyle's death and sheds new light on his intellectual origins and development. The edition thus makes accessible the intellectual and religious origins of Boyle's ideas and connects his earliest ethical discourse with his later religious and philosophical writings.

News in Brief

Temporary parking disruption

On Friday, May 31, parking areas Blue G Triangle and Blue G Circle along McKean Road at University Park will be closed to all vehicle parking. These areas will be used for bus unloading for the American Region's Mathematics League. Alternate parking areas should be used.

Cordes lecture

Sam Cordes, professor and head of the Department of Agricultural Economics at the University of Nebraska, will speak on "The Changing Rural Economy: Implications for Rural Health Research and Policy" at 11 a.m. June 7 in 101 East Human Development Building at University Park. Dr. Cordes also is research reviews editor of the *Journal of Rural Health*.

The seminar is co-sponsored by the Center for Health Policy Research, Center on Aging and Health in Rural America, Department of Agricultural Economics and Rural Sociology, and

Department of Health Policy and Administration.

Stadium painting

Once again, painting operations are under way at Beaver Stadium. This year, a different type of paint and protective screening process will be used to eliminate any over-spraying which has occurred in the past. The new type of paint should dry within 40 yards of spraying operations.

In the event the spray in dry form does come in contact with cars, removing it from car finishes can be accomplished by washing the vehicle and therefore, is not expected to be a problem.

If you have any questions, contact Amy Olenick at 865-4402 or Denny Smith at 863-3310.

Film found

A roll of 34-exposure, 35 millimeter "Kodachrome Kod 100" film was found near the outdoor track at University Park and turned in at the Land and

Water Building. To claim the film, call Michelle or Diane at 863-0291.

Penn College groundbreaking

Pennsylvania College of Technology conducted groundbreaking ceremonies May 10 for a new aviation center which will address emerging needs and future trends of the aviation industry.

When completed, the Kathryn Wentzel Lumley Aviation Center, located at the Williamsport-Lycoming County Airport in Montoursville, will provide the potential to double, and possibly triple, enrollment in the College's aviation and avionics programs. The advanced-tech, 53,000-gross-square-foot facility also will feature advanced laboratories to enhance the programs' instructional capabilities.

Mrs. Lumley, of Jersey Shore R.D. 2, is a member of the College's Board of Trustees. Her longstanding ties to the institution include service on the Board for 13 years, with two terms as chairperson.

Faculty/Staff Alerts

Telephone number change

Effective June 6, the telephone number for Allentown Campus will change to (215) 285-5000. You may reach people directly by dialing (215) 285 plus the last four digits of their new direct inward dial number.

Department moves

The Department of Agricultural and Extension Education has moved from Armsby Building to Agricultural Administration Building. The new mailing address is 323 AG Administration Building.

Although many office phone numbers have changed, the main office phone number remains the same (865- 1688).

PTI offices move

The administrative offices of the Pennsylvania Transportation Institute of the Intercollege Research Programs are moving to Research Office Building at University Park, effective June 10. The new address of the Institute will be 201 Research Office Building. Telephone numbers will remain the same as those listed in the current Faculty/Staff directory.

Noon hour courses

The Human Resource Development Center and Continuing Education are offering the following 3-credit courses for University employees during this summer:

Management 100 and Management Information Systems will meet from 11:45 a.m. to 1 p.m. Monday, Tuesday, Wednesday and Thursday for 8 weeks.

The courses are part of the Business Management and Business Administration Certificate Programs offered through Continuing Education. An academic counselor is available to help with course selection.

For information, contact the Human Resource Development Center at (814) 865-3410 or the Continuing Education Office at (814) 865-3443.

New address

The Penn State Allentown Campus has received a new address and zip code from the post office. The new address is: Penn State Allentown Campus, Academic Building, 8400 Mohr Lane, Fogelsville, PA 18051-9999.

Federal Express address change

Federal Express in State College has changed its address from 1300 Benner Pike to 2175 Fox Hill Road, adjacent to University Park Airport.

There is an advantage to this change in that it permits a later cut-off time of 7 p.m. for the University community to get express packages out. All University staff are reminded that a completed EXPRESS AND PARCEL MAIL FORM must accompany any shipment that is dropped off at the Federal Express station.

For further information concerning this matter, call Mail Services at 865-9171.

Obituaries

Richard R. Nelson, Evan Pugh professor emeritus of plant pathology, died April 28 at the age of 64.

An international authority on the genetics of plant pathogenic fungi, disease resistance in plants, and parasitic fitness of fungal plant pathogens, he played a key role in leading plant pathologists and the corn seed industry in halting the 1969-71 epidemic of southern corn leaf blight, which threatened world food supplies.

He received his bachelor of arts degree from Augsburg College in Minneapolis, Minn., and his Ph.D. from the University of Minnesota in 1954. He joined the U.S. Department of Agriculture as a plant pathologist in 1955. He came to Penn State as professor of plant pathology in 1960 and was appointed an Evan Pugh Professor in 1974.

He was a member of the American Phytopathological Society, Mycological Society of America, Genetics Society of America, the Elisha Mitchell Scientific Society and the Society of Sigma Xi. Among his honors were designation as a Fellow of the American Phytopathological Society.

Over the years, his research was supported by the U.S. Department of Agriculture, the National Science Foundation, the National Institutes of Health and the Rockefeller Foundation.

His family has included the Richard R. Nelson Fund for Graduate Education in the Department of Plant Pathology. Contributions may be made payable to the R.R. Nelson Fund, The Pennsylvania State University, and sent to 230 Agricultural Administration Building, University Park, PA 16802.

Alex Black, professor emeritus of animal nutrition and former associate director of the Agricultural Experiment Station, died May 2 at the age of 84.

Dr. Black, a graduate of the University of Kentucky, came to Penn State in 1929 as assistant in animal nutrition, and earned his master's degree in 1933.

In 1936 he received his doctoral degree from the University of Rochester. He became professor of animal nutrition in 1940 and was named assistant director of the Pennsylvania Agricultural Experiment Station in 1953, and promoted to associate director in 1960. He retired Sept. 1, 1969.

Dr. Black was a member of Sigma Xi, scientific research society; Alpha Chi Sigma, professional chemistry fraternity; Gamma Sigma Delta, honor society for agriculture; Pi My Epsilon, professional mathematics fraternity; Phi Lambda Upsilon, chemistry recognition society; and the New York Academy of Sciences.

He was active in the American Society of Animal Science and the American Institute of Nutrition.

He had been active in the recent Campaign for Penn State. He and his wife recently established an endowment at Penn State to support the Alex and Jessie C. Black Award for Excellence in Research in the College of Agriculture, providing a \$1,000 cash award and a plaque for the recipient.

Memorial contributions may be made to the Alex and Jessie C. Black Award for Excellence in Research, Director of Development, College of Agriculture, 230 Agricultural Administration Building, University Park, Pa. 16802.

Jill L. McElroy, patient care secretary, Hershey Medical Center, since Dec. 2, 1974, died April 14. She was 42.

Howard E. Sager, residence hall worker, Housing and Food Services, from Jan. 1, 1949, until his retirement Jan. 1, 1974, died April 21. He was 80.

Theodore S. Polansky, retired assistant professor of fuel science in the College of Earth and Mineral Sciences, died April 29 at the age of 84. He joined the faculty July 1, 1941, and retired July 1, 1972.

C. Ruth Porter, secretary, Housing and Food Services, from Aug. 1, 1927, until her retirement June 1, 1964, died May 3. She was 87.

Agnes R. Shively, catering attendant, Housing and Food Services, from March 25, 1958, until April 16, 1977, died May 6 at the age of 76.

Alvin W. Beck, mail and stockroom clerk, College of the Liberal Arts, from April 1, 1963, until his retirement Sept. 1, 1978, died May 8. He was 78.

Parting

Evelyn E. Bailey, residence hall worker, Housing and Food Services, from Dec. 1, 1961, until May 1.

Leave of Absence

Judith R. Vicary, associate professor of health education, to examine and develop new methodologies for conducting research in employee assistance programs and worksite substance abuse.

Appointments

Marvin E. Goldberg has been appointed the first Irving and Irene Bard university endowed professor of business administration.

Currently a visiting professor at Virginia Tech, Dr. Goldberg has held a position with McGill University, Montreal, Canada since 1970. He will become a member of the marketing faculty in the Smeal College of Business Administration this fall.

At the undergraduate, graduate and executive levels, his instructional interests are in consumer behavior, advertising management, marketing research and social psychology. Recent publications have explored various factors contributing to advertising effectiveness and he has been particularly interested in the effects of advertising upon children.

Dr. Goldberg's research interests include marketing topics of social concern, such as cigarette smoking, unhealthy diets, alcohol abuse, unsafe sexual practices, environmental issues and the special needs of the young and the elderly.

He holds a bachelor's degree in political science and sociology from McGill University, a master's in sociology from Columbia and a doctoral degree in marketing from the University of Illinois.

He has been a visiting faculty member at the University of North Carolina, Stanford University and the University of Florida. He has served on the editorial boards of the *Journal of Consumer Research* and *Psychology and Marketing* and has been active with the Association for Consumer Research.

The Irving and Irene Bard professorship was established in 1987 through a \$259,000 endowment from Penn State alumnus Richard H. Bard of Denver, Colo., chief executive officer of Computerland International. The professorship honors his late parents and was established to support research, teaching and service.

Mr. Bard is a member of The Smeal College's Board of Visitors, an executive-level advisory group. He was recently appointed to the National Development Council.

Raymond Jones has been appointed benefits assistant in the Office of Human

Resources.

A 1990 graduate of Penn State with a B.A. degree in economics, he previously had been employed at Atlantic Financial Savings, F.A., Philadelphia.

While at the University, he served as treasurer of the Black Caucus and was a member of Police Services Student Auxiliary.

John R. Kaiser has been appointed chief of the Commonwealth Educational System (CES) Libraries.

Mr. Kaiser began his career at Penn State in 1964 as an acquisitions librarian and later became chief of the Acquisitions Department. Preceding his recent appointment, he served as coordinator for Collection Development for 14 years.

A graduate of Penn State, he holds two master's degrees, an M.A. in French/romance languages and literature from Penn State and an M.L.S. from Columbia University. Mr. Kaiser, a member of the American Library Association (ALA), serves as vice-chair/chair-elect of the Western European Specialists Section in the Association of College and Research Libraries Division. He also participates on the Research and Planning Committee of this section and on the discussion group, Chief Collection Development Officers of Large Research Libraries in ALA's Association for Library Collections and Technical Services. He is a member of the American Association of Australian Literary Studies.

His most recent publications include *Peter Porter: A Bibliography 1954-1980* and *Tony Harrison: A Bibliography 1957-1987*, covering the works of these contemporary figures of modern poetry.

Ronald R. Keiper has been appointed director of academic affairs at the Penn State Mont Alto Campus.

Dr. Keiper, who has served as acting DAA since January 1990, has been a Biology Department faculty member for more than 20 years and, in January 1990, was one of 29 faculty members named Distinguished Professor.

He has received the Lindback and AMOCO awards for outstanding teaching

and the C.I. Noll Award of the Eberly College of Science. In 1986, he was one of six faculty members nationwide recognized by the American Association of Higher Education and the Carnegie Foundation for "making a difference" in higher education.

Dr. Keiper's research program, much of which has centered on the feral ponies of Assateague Island, has resulted in more than 30 publications.

At the University, he has served on promotion and tenure committees at all levels of review, and in the University Faculty Senate, of which he's been a member since 1986.

At Penn State Mont Alto, he's served on a number of committees and as chair of the Mont Alto Campus Faculty Association. He helped found and is a charter member of the local chapter of Alpha Sigma Lambda, the national honor society for adult learners in continuing education, and helped develop the *Adventures in Learning* Program, which brings middle school students to the campus for a taste of college life.

Richard E. Tressler, professor of materials science and engineering and director of the Center for Advanced Materials, has been appointed head of the Department of Materials Science and Engineering.

He succeeds Michael M. Coleman, professor of polymer science, who is returning to full-time teaching and research following six years as department head.

Dr. Tressler, a member of the University faculty since 1972, is founding director of the Center for Advanced Materials, which was established in 1986. He will continue as an adviser to the center and an active project leader.

He received his M.S. in ceramics from the Massachusetts Institute of Technology in 1964 and his Ph.D. in ceramic science from Penn State in 1967.

Prior to joining the University faculty, he served in the U.S. Air Force and was a National Science Foundation Post-doctoral Fellow in Physics at the University of Essex, England.

He currently serves as vice president of the American Ceramic Society and recently was elected treasurer of the society. A

Fellow of the society, he has received its Howard Little Memorial Award and Professional Achievement in Ceramic Engineering Award.

The author of more than 130 technical papers in scientific and engineering literature, Dr. Tressler also has co-edited five books. He is a member of several editorial boards for research journals and has served on numerous national committees, including the Materials Research Advisory Committee of the National Science Foundation.

Carl Wolgemuth, associate dean for undergraduate studies and professor of mechanical engineering, has been named acting dean of the College of Engineering. He replaces John A. Brighton who has been appointed executive vice president and provost.

Dr. Wolgemuth was named associate dean in the College of Engineering in 1984 after serving for 21 years in the Mechanical Engineering Department.

During his years at Penn State, Wolgemuth has worked to establish the Engineering Cooperative Education Program, which provides students opportunities to alternately work and attend college; the Minority in Engineering Program, which has been successful in helping the college to recruit and retain minority students; and the Women in Engineering Program, which has helped to increase enrollment of women engineering students.

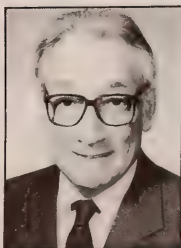

He is a member of the American Society of Mechanical Engineers, the American Society for Engineering Education, Sigma Xi and a fellow of the Society of Automotive Engineers. He received the 1991 John E. Wilkinson Award for Administrative Excellence.

Dr. Wolgemuth also is serving as acting director of the Leonhard Center for Innovation and Enhancement of Engineering Education and headed the search committee for a permanent director.

John D. Mitchell, professor of electrical engineering, will serve as acting associate dean for undergraduate studies. A search committee for a permanent dean will be headed by **George J. McMurtry**, associate dean for administration and planning.

Raymond Jones

John R. Kaiser

Ronald R. Keiper

Richard E. Tressler

Carl Wolgemuth

Staff Vacancies

The following vacancies for positions classified as staff exempt or staff nonexempt have been listed with the University Employment Division for filling. The brief statements for each vacancy are illustrative. They are not complete position descriptions. APPLY BY CALLING THE EMPLOYMENT DIVISION, 863-0304 NETWORK LINE 433-0304. Applications for these staff vacancies will be accepted until June 6. DO NOT CONTACT THE AREA THAT HAS THE VACANCY. Applications for staff vacancies are considered in accordance with Fair Employment practices (PS-1) and in compliance with the University's Affirmative Action Compliance Program. without regard to race, color, religion, national origin, handicap or age (as provided by law), sex, or status as a disabled or Vietnam era veteran.

■01503, **Executive Housekeeper, Nittany Lion Inn, University Park Campus** – Responsible to the associate manager for the hotel, for supervision of employees to assure proper cleanliness, upkeep and maintenance of hotel, and for appropriate recordkeeping of inventory and employee records. Requires high school, or equivalent, plus one to two years of effective experience. STAFF GRADE 4.

■01504, **Director of Undergraduate Studies Coordinator – Eberly College of Science, Undergraduate Education, University Park Campus** – Responsible for the coordination of programs and services of the Division of Undergraduate Studies in the Eberly College of Science. Administratively responsible to the associate dean for resident instruction. Professionally responsible for administering these programs and services according to procedural guidelines and policies of the Division of Undergraduate Studies. Requires master's degree, or equivalent, preferably in the biological, mathematical or physical sciences, plus one to two years of effective experience in college level academic advising. STAFF GRADE 7.

■01505, **Administrative Assistant, Eberly College of Science, Center for Research, University Park Campus** – Responsible for efficient overall operation of office. Supervise clerical staff; prepare and monitor budgets; assist with five- and seven-year budget plans. Requires bachelor's degree, or equivalent, preferably in business administration, plus one to two years of effective experience, including accounting. Administrative applications and supervision. STAFF GRADE 6.

■01506, **Coordinator for Public Information and Public, Arts and Development, University Park Campus** – Responsible to the director of development, College of Arts and Sciences, for the long- and short-range planning, development and management of the College's major impact publications and recruitment brochures and the coordination of scheduling and production timetables.

Requires bachelor's degree, or equivalent, in journalism or English or related field plus at least two years of effective experience. STAFF GRADE 6.

■01507, **Foreign Student Advisor, President's Office, Office of International Programs, University Park Campus** – Responsible to the director for international students for a broad range of counseling and advising to international students. Requires master's degree, or equivalent, in student personnel, counseling, or related field plus two to three years of effective experience, some of which is in international educational experience. International work, study or living experience plus computer literacy highly desirable. Knowledge of immigration procedures and regulations required. STAFF GRADE 7.

■01508, **Research Aide, Earth and Mineral Sciences, Materials Science and Engineering, University Park Campus** – Maintain, repair and modify electronic and mechanical equipment used in research and instruction. Assist faculty and staff with laboratory projects. Maintain research areas in safe and orderly condition. Requires associate degree, or equivalent, in electronics plus one to two years of effective experience. STAFF GRADE 4.

■01509, **Assistant to the Director, Health and Human Development, Center for Location Studies, University Park Campus** – Responsible to the director for the planning and management of administrative and operational activities of the Center. Requires bachelor's degree in business, health administration or related social science field (master's preferred) with two to four years of effective experience. Strong writing and communications skills are essential. Experience in research administration, proposal writing and contract negotiation desired. University knowledge helpful. STAFF GRADE 7.

■01510, **Architect, Office of Physical Plant, Facilities Planning, University Park Campus** – Responsible to the manager, Facilities Planning, for conceptual design and development of preliminary program plans for construction projects and for the development and preparation of background materials for the presentation of proposals for projects. Requires bachelor's degree in architecture, or equivalent, plus two to three years of effective experience in architectural design, including a working knowledge of structural and mechanical systems. Professional architecture registration is required. STAFF GRADE 7.

■01511, **Director of University Relations, Ogontz Campus, University Relations** – Responsible to the campus executive officer for organizing and conducting a comprehensive University relations program for the entire campus, including Continuing Education, Office of Information and Relations, Gifts and Endowments, Alumni and community activities. Requires bachelor's

degree, or equivalent, plus two to four years of effective experience preferably involving newspaper and/or journalistic writing and public relations. Relevant experience in higher education is desirable. STAFF GRADE 8.

■01512, **Coordinator, Residence Life, Behrend College** – Responsible to the associate dean of student services for providing assistance with supervision and administration of the Residence Life Program serving 1,100 students. Requires bachelor's degree, or equivalent, plus at least one to two years of effective experience, or a master's degree, or equivalent, in student personnel or related field with three to six months of residence hall experience and a demonstrated commitment to the application of student development principles to residence life practice. This is a full-time, ten-month, live-in position. STAFF GRADE 6.

Hershey

For the following position vacancies, apply directly to The Milton S. Hershey Medical Center. Attach resume with cover letter indicating the position vacancy code and forward to the Department of Human Resources, Hershey, or call the Hershey bid line at (717) 531-8533 by June 6.

■7429, **Infection Control Analyst, Department of Quality Services** – Responsible to the director, Quality Services, for supervision and coordination of infection control programs in all sections of the University Hospital to include checking for infection and summarizing and preparing reports on such infections. Requires bachelor's degree of science in nursing or equivalency and registered professional nurse currently licensed by the Pennsylvania Board of Nurse Examiners, plus one to two years of effective experience in the area of infectious disease or related area. STAFF GRADE 6.

■7454, **Section Supervisor, Department of Clinical Laboratories** – Responsible to the respective chief technologist for the proper and efficient supervision of assigned areas of responsibilities. Requires bachelor's degree in Medical Technology MT (ASCP), and/or equivalency, plus 3-4 years of effective experience. STAFF GRADE 6.

■7468, **Director, Capital Planning, Office of Associate Vice President for Administration and Operation** – Responsible to the associate vice president for administration for the development and management of a capital budget planning process for renovations and new building programs at the Hershey Medical Center. Requires bachelor's degree in business administration, or finance, or equivalent with 5-7 years of effective experience to include capital planning, budgeting and facilities management. MBA preferred. STAFF GRADE 9.

■7334, **Information System Coordinator, Department of Nursing, Division of Operating Room** – Responsible to the director of the operating room, assistant director of nursing, for the efficient operation of the operating room computer system, monitoring information system projects, providing training to users and monitoring interface between department systems and mainframe systems. Requires bachelor's degree or equivalency in business, computer science or related field plus 2-4 years of effective experience. STAFF GRADE 7.

■7441, **Supervisor, Surgery Research Animal Lab, Department of Surgery, Division of Cardiothoracic Surgery** – Responsible to a research assistant for the day-to-day operation of the experimental animal phase of the L.H.A. and T.A.H. research programs and other research in cardiothoracic surgery. Requires a bachelor's degree in biology or equivalency plus 1-2 years of effective experience. STAFF GRADE 6.

■7449, **Computer Operator, Department of Information Systems** – Responsible to the manager of information systems for monitoring and controlling electronic computers on established routines and for assisting department staff members as required. This is third shift, midnight to 6 a.m., alternating weekends position. Requires two years of college or equivalent with one to two years of experience in data processing. STAFF GRADE 4.

■6655, **Clinical Nurse Educator/Operating Room, Department of Nursing Education** – Responsible to the assistant director of nursing, Nursing Education, for the design, implementation, and evaluation of orientation, basic and advanced education programs and specialized courses for all levels of nursing personnel. Requires master's degree in nursing plus 1-2 years of effective clinical experience in area of expertise; and current licensure by Pennsylvania State Board of Nursing. Certification in specialty areas is desirable. STAFF EXEMPT, GRADE 7.

■7419, **Nurse Anesthetist, Department of Anesthesiology** – Administratively responsible to the chairman of the Department of Anesthesiology and professionally responsible to a designated anesthesiologist to administer anesthesia, and to provide pre-operative, operative, and post-operative care to patients. Requires graduate of accredited school of nursing plus graduation from an accredited school of nurse anesthesia and certification by the State of Pennsylvania, in addition, one to two years of effective experience is required. STAFF EXEMPT, GRADE 6.

■7332, **Clinical Head Nurse, Nursing 6 Medical-Surgical, CT Surgery Service** – Responsible to the nursing manager and/or the assistant director of nursing services for performing a variety of nursing duties, as well as providing

leadership to nurse clinicians and other patient care personnel. Requires registered nurse with a current license to practice professional nursing in Pennsylvania, plus one to two years of effective nursing experience. Bachelor of science in nursing preferred. STAFF NONEXEMPT, GRADE 5.

■7139, **Clinical Head Nurse, Nursing 6 Medical-Surgical, Vascular Surgery Service** – Responsible to the nursing manager and/or the assistant director of nursing services for performing a variety of nursing duties, as well as providing leadership to nurse clinicians and other patient care personnel. Requires registered nurse with a current license to practice professional nursing in Pennsylvania, plus one to two years of effective nursing experience. Bachelor of science in nursing preferred. STAFF NONEXEMPT, GRADE 5.

■7133, **Clinical Head Nurse, Nursing 5 Medical-Surgical, Neurosurgery, Neurology, SCI Service** – Responsible to the nursing manager and/or the assistant director of nursing services for performing a variety of nursing duties, as well as providing leadership to nurse clinicians and other patient care personnel. Requires registered nurse with a current license to practice professional nursing in Pennsylvania, plus one to two years of effective nursing experience. Bachelor of science in nursing preferred. STAFF NONEXEMPT, GRADE 5.

■7135, **Clinical Head Nurse, Nursing 3 Medical-Surgical** – Responsible to the nursing manager and/or the assistant director of nursing services for performing a variety of nursing duties, as well as providing leadership to nurse clinicians and other patient care personnel. Requires registered nurse with a current license to practice professional nursing in Pennsylvania, plus one to two years of effective nursing experience. Bachelor of science in nursing preferred. STAFF NONEXEMPT, GRADE 5.

■7130, **Clinical Head Nurse, Nursing Adult Critical Care** – Responsible to the nursing manager and/or the assistant director of nursing services for performing a variety of nursing duties, as well as providing leadership to nurse clinicians and other patient care personnel. Requires registered nurse with a current license to practice professional nursing in Pennsylvania, plus one to two years of effective nursing experience. Bachelor of science in nursing preferred. STAFF NONEXEMPT, GRADE 5.

■7420, **Coordinator, Emergency Department, Department of Emergency Services** – Responsible to the manager, Emergency Services, for the supervision of clinical personnel assigned to the Emergency Care Unit registration desk. Also responsible for providing statistical and other similar periodic administrative reports. Requires an associate degree or equivalency, plus one to two years of effective experience. Previous supervisory experience preferred. STAFF GRADE 4.

Insects, diseases — not air pollution — are cause of forest decline in the Black Forest

The claim that air pollution is ruining the famed Black Forest of Germany is unfounded, a University plant pathologist says.

Contrary to German surveys linking air pollution to yellowing of leaves and defoliations of trees in the Black Forest, close-up inspections suggest other causes for these problems, **John M. Skelly**, professor of plant pathology in the College of Agriculture, says.

The misdiagnosis of air pollution as the cause of the forest's problems had an impact on the Clean Air Act Amendments of 1990, he adds.

"In the Clean Air Act debates that have occurred in Congress, some of the evidence cited by experts to show the damaging effects of air pollution is from surveys done in the Black Forest. This misinformation should not be used to drive public policy on clean air, since it is basically misleading concerning causes of change in tree health.

"In my travels through the Black Forest, I did not find the forest in declining health. I did see some sick trees, but, in general, the trees I saw were healthy," he

says. "When I found sick trees, the explanations for their conditions were not related to air pollution."

Dr. Skelly spent August through December 1989 at the Albert Ludwigs University in Freiburg. While on sabbatical leave, he evaluated the health of the Black Forest, located in the Southwest corner of the country. He looked at Norway spruce, Silver fir and European beech, traveling thousands of miles on forest roads.

He presented a research paper on his findings, "On the Importance of Etiological Accuracy during Surveys to Determine Forest Condition," at the Global Warming — A Call for International Coordination conference, held in April 1990.

It is based on his observations of the Black Forest and forests in the Eastern United States.

In the Black Forest, surveys are conducted using binoculars, he says. From a distance, it is easy to overlook other factors contributing to yellowing leaves and defoliations.

The most overlooked culprits are insects and diseases, he says. Other causes of sick trees are old

John M. Skelly

logging wounds, which greatly stress a tree, the presence of fungi and lightning damage.

"Looking at a forest through binoculars to determine what is causing any observed changes in health is no more accurate than a physician using binoculars to make a diagnosis of a patient's health," Dr. Skelly says.

He did not find evidence that acid rain or its precursors, sulfur dioxide and nitrogen dioxide, are affecting the Black Forest. Rather, in working with his German colleagues, he learned that magnesium deficiency, due to previous poor forest management, is stressing some trees on a site-specific basis.

Magnesium deficiency dates to the 11th century, when monks used the wood from Black Forest beeches as a fuel to extract silver ore. While they did replant beeches, they removed most of the forest litter and small branches for other uses, never replacing nutrients in the soil.

In the last 300 years, the faster-growing Norway spruce has been planted. It requires more magnesium than the beech, Skelly explains. This development, coupled with a severe drought in Germany in 1983 and 1984, has led to a decline in health in some trees.

"With good moisture levels in the recent period from 1986, the Black Forest has begun rebounding," he adds.

Dr. Skelly is a member of a group of University researchers who are studying the effects of air pollution on trees and plants.

— Deborah A. Benedetti

In the photo at left, a large Silver fir in the Black Forest of Germany shows signs of needle loss at its crown (top). The crown condition of this tree has been attributed to air pollution, but the real culprit is the wound on the tree's trunk (photo at right), John M. Skelly says. He took the photographs in 1989 while conducting research in the Black Forest.

Nobel laureate Lipscomb will present colloquium

Nobel laureate William N. Lipscomb, Abbott and James Lawrence professor emeritus of chemistry at Harvard University, will present a colloquium lecture titled "Structure and Function of Allosteric Enzymes," at 11 a.m. Wednesday, June 12, in Room 111 Wartik Laboratory at University Park. It is sponsored by the Eberly College of Science.

Dr. Lipscomb's work, for which he received the 1976 Nobel Prize in Chemistry, ranges from first principles of chemical bonding in boron-containing compounds to the full three-dimensional structure of complex macromolecular proteins.

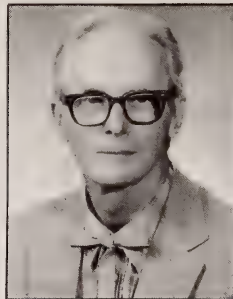

In recent years, one of his primary focuses has been the allosteric enzyme aspartate transcarbamylase (ATCase), which catalyzes the first unique step in the biosynthesis of CTP, a key building block of DNA.

A member of the National Academy of

Science and the American Academy of Arts and Sciences, Dr. Lipscomb was honored with the 1973 Peter Debye Award in Physical Chemistry from the American Chemical Society. He is the recipient of 10 honorary degrees from universities and colleges throughout the United States.

He has been on the editorial boards of numerous national and international scientific journals, serving as associate editor of the *Journal of Chemical Physics* and the *Journal of American Chemical Society*. Currently, he serves on the scientific advisory boards of the Robert A. Welch Foundation and NOVA and Gensia pharmaceutical corporations.

A graduate of the University of Kentucky with a bachelor's degree in chemistry, Dr. Lipscomb earned his doctoral degree at the California Institute of Technology. He was named Abbott and James Lawrence professor of chemistry at Harvard in 1971.

William N. Lipscomb

CES dean search committee named

President Thomas has announced the names of a 14-member search committee charged with forwarding candidates to fill the position of senior vice president and dean for the Commonwealth Educational System.

The committee, which will recommend individuals to President Thomas to fill the position currently held by Richard E. Grubb, is chaired by **Anne C. Petersen**, dean of the College of Health and Human Development.

Other committee members are: **James D. Gallagher**, campus executive officer, Penn State Worthington Scranton Campus; **Barbara Garrison**, professor and head, Department of Chemistry; **Gregory L. Geoffroy**, dean, Eberly College of Science; **Bernard L. Guss**, associate professor of general engineering, Penn State New Kensington Campus; **Wayne R. Hager**, professor and head, School of Engineering Technology and Commonwealth Engineering; **Greg Lalle**, undergraduate student; **Wayne D. Lammie**, campus executive officer, Penn State Schuylkill Campus;

Peter P. Rebane, associate professor of history, Penn State Ogonitz Campus; **August H. Simonsen**, associate professor of environmental sciences, Penn State McKeesport Campus; **Gayle L. Smith**, associate professor of English, Worthington Scranton Campus; **James B. Stewart**, vice provost; **Kenneth A. Thigpen**, associate professor of English and comparative literature; **Sara Lou Whilden**, associate librarian, Penn State Delaware County Campus.

The search committee will advertise the search and receive and screen applications and nominations. The committee will submit a list of candidates to the president and participate in the final interview schedule. The name of the top candidate must be forwarded by President Thomas to the Board of Trustees for approval.

Carpooler

Lisa and Shirley would like to carpool from Milroy to University Park. Their work hours are 7:30 a.m. to 4:30 p.m. Call **Lisa** at 863-3250.

Biomedical research support grants are awarded

Eleven Biomedical Research Support Grant awards, ranging from \$4,000 to \$10,000, have been made to faculty members from funds provided to the University by the Department of Health and Human Services.

The awards are made to faculty members from all campuses with research interests in the life and health-related sciences (except for the Hershey Medical Center which offers a separately funded program).

Forty proposals were received and reviewed by a faculty committee appointed by Charles L. Hosler, senior vice president for research and dean of the Graduate School.

Faculty members awarded grants and the proposal titles are:

Barbara Brumner, assistant professor of psychology, "Impact of Social Support and Locus of Control on Perceived Illness Intrusiveness and Quality of Life;" **Andrew G. Clark**, associate professor of biology, "Alternative Splicing of the MLC-ALK Gene in Insects;" **Peter A. Farrell**, associate professor of applied physiology, "Use of a Rat Model to Study Exercise Training Induced Reproductive Dysfunction with

Forty proposals for Biomedical Research Support Grants were received and reviewed by a faculty committee. Eleven awards were made.

Emphasis on the Anterior Pituitary Gonadotrope;" **Patricia Lyons Johnson**, assistant professor of anthropology, "Child Nutritional Status and Fetal Loss in a Natural Fertility Population, The Gainj of Papua New Guinea;" **Juliette T.J. Lecomte**, assistant professor of chemistry, "Probing Electrostatic Interactions in Proteins: pKa of Histidine Residues in Myoglobin;" **B. Tracy Niscon**, assistant professor of molecular and cell biology, "The Role of Sigma54-dependent Regulators in Eubacterial Signal

Transduction;" **Allen T. Phillips**, professor of biochemistry, "Analysis of the Pathway for Ergothioneine Degradation;" **Ronald D. Porter**, associate professor of microbiology and molecular genetics, "Genetic Analysis of SSB-1 Protein Function;"

Mark Stoneking, assistant professor of anthropology, "A Test of the Heterozygote Advantage Hypothesis for Cystic Fibrosis;" **James S. Ultman**, professor of chemical engineering, "A Laser-Induced Fluorescence Analyzer for Measurement of Respiratory Formaldehyde Absorption;" **James W. Wood**, associate professor of anthropology and senior research associate, Population Issues Research Center (PIRC); **George C. Kephart**, assistant professor of sociology and research associate, PIRC; **Anne V. Buchanan**, research associate, Department of Anthropology and PIRC; **Gillian R. Bentley**, research associate, PIRC; and **Kenneth M. Weiss**, professor of anthropology and senior research scientist, PIRC and Graduate Program in Genetics, "The Demography and Genetic Epidemiology of Fetal Loss in the Amish and Mennonites of Mifflin County, Pa."

INTERCOM is published weekly during the academic year and every other week during the summer. It is an internal communications medium published for the faculty and staff of Penn State by the Office of Public Information, Room 312, Old Main, Phone 865-7517.

President Thomas announces delay in salary planning and program allocations for 1991-92

In response to uncertainty regarding the 1991-92 state appropriation, President Thomas has announced a temporary delay in salary planning and program allocations for the upcoming academic year.

"Generally speaking, at about this time of year, deans and unit heads are given an estimate of salary increases likely for the next fiscal year," Dr. Thomas explained. "We are going to delay temporarily that process this year."

"We are doing this because the budget scenarios we have looked at show that an improvement in the zero appropriation increase suggested by the Governor would be very helpful in addressing our most critical salary and program needs. I am optimistic that by delaying temporarily our decision on salaries and program allocations, we may be better able to serve both needs."

Dr. Thomas explained that the Commonwealth's fiscal dilemma, combined with the need to address the difficult issue of increasing taxes, make the budget

situation more uncertain than in recent years.

The Pennsylvania Association of Colleges and Universities (PACU), which represents all sectors of higher education in Pennsylvania, is working to support a tax increase that is adequate to address the state's current fiscal difficulties in a way that would enable the Commonwealth to provide adequate funding to higher education. Dr. Thomas and University of Pennsylvania President Sheldon Hackney are co-chairing a statewide Committee of Presidents that is supporting this effort for PACU. Pennsylvania currently ranks 47th in the nation in terms of appropriation per full-time-student to public higher education.

"We continue to work diligently to persuade the General Assembly and the Governor to increase Penn State's appropriation but, at this time, we do not know the result of our efforts," Dr. Thomas said.

Specifically, he said that the University will delay recommendations usually made for July implementation on general salary increases for faculty, exempt and non-

exempt staff, and clerical employees. This action will apply to both standing and fixed-term employees at Penn State. In instances where contractual salary increase commitments have been agreed to by Penn State, the University will proceed according to those contracts.

"It is our expectation that the final University budget for 1991-92 will enable us to proceed with a salary increase plan for the coming academic year," the president said. "It is still our hope to be in the position to take a budget to the Board of Trustees at its meeting in July."

"This is obviously a difficult year for the state of Pennsylvania," Dr. Thomas added. "The Commonwealth's fiscal concerns are having an impact at every level, including here at the University. We are confident, however, that Penn State will continue its move forward into the 1990s as an even stronger university."

Six faculty receive Presidential Young Investigator award

Six faculty members have been named to receive Presidential Young Investigator awards by the National Science Foundation.

Recipients of the award are **Andrew R. Buchman**, assistant professor of molecular and cell biology; **Charles R. Fisher**, assistant professor of biology; **Joseph C. Hall**, assistant professor of molecular and cell biology, and **Paul S. Weiss**, assistant professor of chemistry, all in the Eberly College of Science; **Sanjay Joshi**, assistant professor of industrial and management systems engineering, College of Engineering, and **Merrilee J. Mayo**, assistant professor of materials science and engineering, College of Earth and Mineral Sciences.

The awards, which fund research by faculty members near the beginning of their careers, are intended to help outstanding young Ph.D. scientists who might otherwise pursue non-teaching careers.

Each young investigator can receive up to \$100,000 per year for five years

See 'Six faculty' on Page 4.

Dr. Skomra named CEO at Shenango Campus

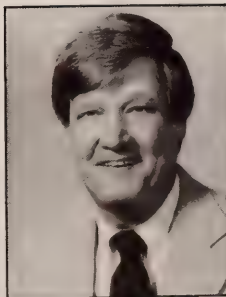

Albert N. Skomra has been named campus executive officer at the Penn State Shenango Campus in Sharon, effective Aug. 15.

Dr. Skomra, associate professor of English at the Penn State Fayette Campus who has served in a number of University administrative positions, was named to the position by President Thomas.

"Dr. Skomra has a broad understanding of the Commonwealth Educational System, and I am pleased he has accepted this leadership position," Dr. Thomas said.

Richard E. Grubb, senior vice president and dean of the Commonwealth Educational System, agreed. "Al Skomra's knowledge of the Commonwealth Educational System and his work with other Penn State campuses help make him uniquely qualified to become the new CEO of the Shenango Campus."

Dr. Skomra served as acting campus executive officer at the Fayette Campus from 1984 to 1985. He was responsible for the overall administration of the campus, including planning, developing and implementing the campus budget and strategic planning process, as well as

Albert N. Skomra

academic programs, student services and physical operations.

As associate head of the University's Department of English for the Commonwealth Educational System from 1985 to 1987, he was responsible for the teaching assignments and personnel matters for English Department faculty at all Commonwealth Campuses.

Most recently, Dr. Skomra has concentrated on teaching English, composition, humanities and poetry at Fayette and serves as chair of the Academic Affairs Committee for the Fayette Campus Senate.

Before joining the University faculty in 1966, Dr. Skomra taught high school and served as the executive administrator for the Uniontown Nursing and Convalescent Center.

Dr. Skomra, a graduate of St. Vincent College with a bachelor's degree in economics and English, received a doctorate in English, education and psychology in 1975 and a master's degree in educational administration and English, both from West Virginia University. He also has done graduate work in marketing and personnel management.

An authority on the literature and lore of coal mining in Southwest Pennsylvania, he is the co-author of *Patch'Work Voices: The Culture and Lore of a Mining People*, with University faculty members Dennis F. Brestensky and Evelyn A. Hovanec. He also has written a number of papers and articles on coal mining in the region.

Awards

Four Earth and Mineral Sciences faculty honored

Four faculty members have been honored by the College of Earth and Mineral Sciences for their distinguished contributions to EMS academic and research programs.

The 1991 Wilson Outstanding Teaching Award was presented to **Earl K. Graham**, professor of geophysics, and **Peter A. Thrower**, professor of materials science. The 1991 Wilson Research Award was awarded jointly to **Michael M. Coleman** and **Paul C. Painter**, professors of polymer science.

The faculty awards program is supported by the bequests of Matthew J. Wilson Jr., 18 mining engineering,

and his wife Anne Coghlan Wilson. The Wilson Teaching Awards have been given annually since 1969 to recognize faculty members whose teaching is considered outstanding by EMS students. Since 1989, a Wilson Award also has been given to honor significant research achievement.

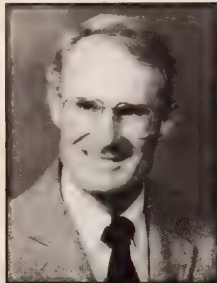

Dr. Graham was praised by students for his teaching of geophysics courses and the introductory science course "Planet Earth." A member of the college's high temperature/pressure research group since 1971, Dr. Graham carries out research in EMS and the Materials Research Laboratory.

Dr. Thrower was recognized for the outstanding design and teaching of the general course "Materials in Today's World," for which he wrote the text, and for his introductory course in materials science and engineering. Dr. Thrower has broad research interests in carbon and graphite materials and electron microscopy, and has been editor-in-chief of the international journal *Carbon* for the past eight years.

Drs. Coleman and Painter were honored for pioneering research in the thermodynamics of polymer blends that has far-reaching implications for technological application in designed

materials. Their collaborative efforts have included development of the theory of interactions in mixtures of polymers, experimental measurements of the quantity and strength of specific intermolecular interactions, and successful correlations with macroscopic phase relationships of polymer mixtures.

Their work and that of their students has been comprehensively published in some 25 papers, culminating in the recent publication of the book *Specific Interactions and the Miscibility of Polymer Blends: Practical Guides for Predicting and Designing Miscible Polymer Mixtures*.

Penn State Continuing Education National association presents 10 awards

Penn State Continuing Education has received 10 major awards from the National University Continuing Education Association. It was the most garnered by any of the 400 colleges and universities which are members of the association.

"This brings to more than 50 the number of national and regional awards won by Penn State Continuing Education over the last few years," James H. Ryan, vice president for continuing education, said. "The awards are an affirmation of Penn State's national leadership in the field of continuing education."

Winners include:

— An award for non-traditional programming for the development of a telecommunications program in acoustics. The program is a series of credit courses leading to a master's degree in acoustics developed by the College of Engineering for the U.S. Navy. Persons involved in the program include **Alan Stuart**, senior research associate in the Applied Research Laboratory; **Joseph DiGregorio**, associate dean of the College of Engineering; **Frank Wilson** of Media and Learning Resources, and **Kathy Karchner**, conference

coordinator.

— An award for non-traditional programming for development of an economic development partnership program with Ingersoll-Rand. Persons involved included **Dr. DiGregorio**, **James Campbell**, regional director of continuing education, and **Tom Vineski**, Penn State Wilkes-Barre Campus continuing education.

— An Individual Service Award to **Donna Queoney**, director of research and external relations for continuing education, recognizing "outstanding leadership in the organization and administration of continuing professional education."

— Creative conference program awards to: **Elwood Shafer**, professor of tourism, for a workshop on Enhancing Rural Economies Through Amenity Resources, and **Charles Garoian**, assistant director of the Palmer Museum of Art, for a workshop on Contemporary Realist Watercolors.

— Two faculty service awards for work with the Keller Conference Center to: **Alan Stuart**, senior research associate in the Applied Research Laboratory,

for his years of work on the acoustics programs, and **Paul Mazza**, State College attorney, for more than 20 years of service in developing yearly tax conferences and various conferences for attorneys throughout the state.

— Two distinguished course awards to Independent Learning for development of the courses:

"Wildlife Ecology and Management" (Agriculture 5185) written by **Margaret Brittingham**, assistant professor of wildlife resources, and **Luise Davis**, research associate, assisted by **Anita Colyer**, instructional publications designer;

"African Art History" (Art History 297), authored by **Constance Kirker**, a faculty member at the Penn State Delaware County Campus.

— A marketing award to the Continuing Education Department of Public Information and Publications for a series of publications promoting Penn State's summer sport camps. Involved in the publications were **Chet Gnat**, **LaVerne Maginnis**, **Randy Baldini**, and **Andy Pelkac**, of the department, and **Gretl Collins**, designer at University Publications.

Awards

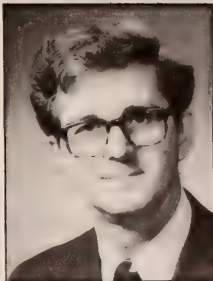

Science educator earns national award

Robert Shrigley, professor of education, has received the 1991 Award for Distinguished Contributions to Science Education from the National Association for Research in Science Teaching (NARST).

This is the highest recognition that NARST bestows, and the award is given annually to the individual who has made the most distinguished contributions to science education through research.

Dr. Shrigley came to Penn State in 1966 as an instructor and graduate assistant, earning a D.Ed. degree in elementary education in 1968. He received a B.S. in elementary education and a master's of education in school administration from Ohio University.

Previous awards include a Certificate of Meritorious Service from Ohio University for his work at Advance Teacher's College, Nigeria, 1964; and Visiting Scholar in Curriculum and Instruction, University of Texas, 1985.

Robert Shrigley

He currently serves on review boards for the National Association for Biology Teachers and the *Journal in Research in Science Teaching*.

Award honors X-ray diffraction research

Deane K. Smith, professor of mineralogy in the Department of Geosciences, has been selected as recipient of the third Charles S. Barrett Award of the Denver X-Ray Conference, the highest award given in the field of X-ray diffraction.

Dr. Smith also has received the unusual honor of having a newly discovered mineral named for him. "Deansmithite" is an exceedingly rare mercury chromate sulphide that was found in association with cinabar near the long-abandoned Clear Creek mercury mine, New Idria District, Calif.

The mineral and its name were recently approved by the Commission on New Minerals and Mineral Names, International Mineralogical Association.

Dr. Smith is founding editor of *Powder Diffraction*, an international journal of materials characterization, and served for five years as chairman of the International Centre for Diffraction

Deane K. Smith

Data. He is a Fellow of the Geological Society of America and of the Mineralogical Society of America.

Dr. Roy is honored

Rustum Roy, Evan Pugh professor of the solid state, has been honored by three scientific organizations in Japan.

Dr. Roy was elected a Foreign Associate of the Engineering Academy of Japan and was elected an honorary member of the Ceramic Society of Japan.

He also received the International Award of the Japan Fine Ceramics Association—a consortium of 100 leading companies in the field.

Dr. Roy, who has been a member of the U.S. National Academy of Engineering since 1973, is a foreign member of the Royal Swedish Academy of Engineering Sciences and the Indian National Science Academy.

New Ag research award is presented

Gary W. Petersen, professor of soil genesis and morphology and co-director of the Office for Remote Sensing of Earth Resources at the Environmental Research Institute, has won the first Alex and Jessie C. Black Award for Excellence in Research in the College of Agriculture. He received a commemorative plaque and \$1,000.

Dr. Petersen's research interests have been primarily in soil interpretations, land use, geographic information systems and remote sensing.

He is a Fellow of the American Society of Agronomy and the Soil Science Society of America.

He was the recipient of the Gamma Sigma Delta Awards for Outstanding Teacher and for Outstanding Researcher in the College of Agriculture, and the Teaching Award and Research Award of the Northeastern Branch of the American Society of Agronomy.

Dr. Black, who had a long and distinguished career in research, teaching and administration at Penn State, retired in 1969. The Blacks established an endowment with the interest income to be used for the research award.

Four receive engineering service awards

Four individuals have received the 1991 College of Engineering Service Awards from the Penn State Engineering Society (PSSES) and the College of Engineering.

Thomas E. Daubert, professor of chemical engineering, is the recipient of the Faculty Service Award. In addition to carrying out a highly successful research program, Dr. Daubert has served as chairman of the chemical engineering undergraduate curriculum committee for 20 years.

Among his service activities are membership on the University Faculty Senate since 1972, the development of a transition plan for Commonwealth Campus students coming to the University Park Campus and coordination of accreditation reviews.

Three engineering staff members, **Valerie J. Kelley**, **Gez Stonebraker** and **Brenda J. Wagner**, were awarded 1991 Support Staff Awards.

Ms. Kelley is a secretary for the Engine

Combustion Laboratory in the Department of Mechanical Engineering. In addition to working with three faculty members and approximately 40 graduate and undergraduate students, her duties include maintenance of budget information for approximately 20 grants and the supervision part-time and clerical personnel.

Ms. Stonebraker, a 25-year veteran of the college, is an administrative aide for Carl H. Woigumuth, engineering associate dean for undergraduate studies. In that position, she provides aid and advice to students and works with engineering academic departments, Commonwealth Campuses and external agencies.

Ms. Wagner is the administrative aide for the Industrial and Management Systems Engineering Department. She supervises clerical staff, coordinates budgets, represents the department on various committees and acts as liaison between faculty and clerical staff.

Hazleton Campus instructor named Teacher of the Year

Judith O'Donnell, instructor in English at the Penn State Hazleton Campus, has been named Teacher of the Year.

The annual award is presented to a campus faculty member in recognition of outstanding teaching. The faculty member is elected by the campus student body.

Mrs. O'Donnell joined the University faculty in 1980 as an English instructor. She is coordinator of the women's studies program at the campus.

She also is a member of the Academic Advising Center, chairs the Committee on Advising and Instruction, and participates in the annual Freshman Testing and Counseling program.

Mrs. O'Donnell holds a B.S. degree in secondary education and English and an M.A. in English from Bloomsburg University.

Private Giving to Penn State

National Development Council officers named

William A. Schreyer, chairman and chief executive officer of Merrill Lynch and Co., has been elected chairman of the University's National Development Council.

Mr. Schreyer had served as chairman of The Campaign for Penn State, a six-year effort that concluded last year and raised \$352 million for academic programs.

The council advises the University on major fund-raising initiatives and helps to secure gifts from alumni, friends,

corporations, foundations and other private sources.

Edward R. Hintz, president of the Wall Street investment firm of Hintz, Holman and Hecksher, was elected council vice chairman. He currently heads the University's drive to raise \$20 million in private support for a new academic/athletic convocation and events center and formerly served as vice chairman of The Campaign for Penn State.

Robert E. Eberly, chairman of the

board of Eberly and Mead of Uniontown, was elected treasurer. He formerly served as treasurer of The Campaign for Penn State.

All three officers are Penn State alumni.

Two other alumni, **H. Jesse Arnette** of San Francisco and **Floyd Fischer** of State College, were elected council members. Mr. Arnette is a partner in the law firm of Arnette and Hastie and a University trustee. Mr. Fischer is vice president emeritus of continuing education.

Two receive Sloan grants

The Alfred P. Sloan Foundation of New York has made grants to two faculty members to support research projects in math and in molecular biology.

Linda Vigilant, a postdoctoral fellow in the Department of Anthropology, has received \$80,500 to further her studies in the relatively new field of molecular anthropology.

Ranee Kathryn Brylinski, associate professor of mathematics, received \$25,000 for her work on the geometry of nilpotent orbits, a topic with applications in both math and physics.

The Alfred P. Sloan Foundation is the 22nd largest in the United States. It has assets of more than \$622 million and distributed \$17.25 million last year.

Museum of Art store receives \$100,000 pledge

The Friends of the Palmer Museum of Art have pledged \$100,000 for the construction of the new museum store that will be part of the addition to the Palmer Museum.

"The Friends wanted to make a visible contribution to this addition, and the store will be in a central location near the

entrance," Catherine Zangrilli, president of the group, said of the pledge, which is part of the \$5.4 million raised for the \$5.6 million addition.

The all-volunteer support group includes approximately 500 memberships, covering individuals, families and students predominantly

from the Central Pennsylvania area.

The group supports youth programming through the Central Intermediate Unit, provides funds for permanent collection acquisition and conducts weekend trips and foreign tours for members and friends.

Six faculty

Continued from Page 1.

through a combination of federal and matching private funds. Each award consists of an annual base NSF grant of \$25,000, plus an additional amount up to \$37,500 of matching funds from the private sector.

The six University researchers were among 220 academic scientists and engineers who received awards this year. To date, the FYI program has identified 1,476 faculty members who have demonstrated outstanding potential as science researchers and educators.

Dr. Buchman's area of research interest is in molecular genetics. He received his bachelor's degree from the Massachusetts Institute of Technology in 1977 and his doctorate in 1986 from Stanford University, where he also did a postdoctoral fellowship. He joined the University faculty in 1989 and teaches courses in general biochemistry and molecular and cell biology.

Dr. Fisher joined the faculty in 1990 as an assistant professor after serving three years at the University of California, Santa Barbara, as an assistant research biologist. He received his B.S. in biology from Michigan State University in 1976 and his M.A. and Ph.D. in biological sciences from the University of California. His main area of interest is in biological oceanography, and he has participated in 23 oceanographic cruises, four to hydrothermal vent sites.

Dr. Hall's major area of interest is in male reproductive biology and contraception. He received a B.S. in biology from Roanoke College in 1977, an M.S. in molecular biology from Old Dominion University in 1979 and a Ph.D. in chemistry/enzymology from Kent State University in 1985.

Dr. Weiss' research interests are in surface chemistry and physics, specifically low temperature scanning tunneling microscopy and novel techniques for imaging. He received his S.B. and S.M. in physical chemistry from the Massachusetts Institute of Technology in 1980 and

his Ph.D. in physical chemistry from the University of California, Berkeley, in 1986. He joined the faculty in 1989.

Dr. Joshi received his B.S. in production engineering from the University of Bombay, India, in 1981, his M.S. in industrial engineering from the State University of New York at Buffalo in 1983 and his Ph.D. in industrial engineering from Purdue University in 1987. He joined the faculty in 1987. His areas of interest include computer-aided manufacturing with an emphasis on automated process planning, artificial intelligence and industrial automation.

Dr. Mayo received her bachelor's degree from Brown University in 1982 and her M.S. and Ph.D. in materials science and engineering from Stanford University in 1984 and 1988 respectively. From 1988 to 1990, when she joined the faculty, she was a member of the technical staff at Sandia National Laboratories, Albuquerque. Her research is in superplasticity of ceramics.

INTERCOM is published weekly during the academic year and every other week during the summer. It is an internal communications medium published for the faculty and staff of Penn State by the Department of Public Information, 312 Old Main, Phone 865-7517.

University ranks third in defense contract funding

The University ranks third among U.S. colleges and universities in defense contracts and universities in defense contracts, according to recently released U.S. Department of Defense figures.

In fiscal 1990, the University received \$61.6 million in defense contract funds, an increase of nearly \$8 million over the \$53.9 million received in fiscal 1989 when Penn State was ranked fourth among universities and colleges.

First place went to Massachusetts Institute of Technology, \$455.1 million, and second to Johns Hopkins University, \$373.9 million.

Penn State ranks seventh overall among universities and non-profit organizations, up from last year's eighth overall ranking.

"The University's achievement reflects the world-class quality of research conducted by its faculty, undergraduate and graduate students, and staff," Charles Hosler, acting executive vice president and provost, said.

"The research is a critical element in the

See "Defense" on Page 3.

To meet new graduation requirement Wide range of diversity courses is available

Freshman students enrolling this summer will have a choice of 88 courses plus all Education Abroad experiences to meet the University's new cultural diversity graduation requirement.

"The wide range of cultural diversity courses available to students will enable them to broaden their understanding and knowledge of other cultures, which is the intent of the policy," Jerry B. Covert, associate dean for undergraduate education, said.

"Many universities have similar policies requiring students to take cultural diversity courses, but Penn State is the only university offering a flexible approach for both students and faculty members," he added.

The University's policy, approved by the University Faculty Senate in March 1990, requires that all baccalaureate degree students take either three credits of cultural diversity focused courses or 12 credits of cultural diversity enhanced courses. The legislation takes effect this summer.

The requirement for associate degree students, which becomes effective in 1992,

is either three credits of cultural diversity focused courses or six credits of cultural diversity enhanced courses.

Diversity focused courses must focus on race, ethnicity, religion, gender, sexual orientation and/or global perspectives, while diversity enhanced courses must devote at least 25 percent of their content to these issues, Dr. Covert explained.

"It is encouraging to me that the implementation of the cultural diversity graduation requirement has gone so smoothly," he said.

The courses - 50 diversity focused and 32 diversity enhanced - were approved by the Senate Committee on Curricular Affairs. In addition to the courses, all Education Abroad Programs can be used to satisfy the requirement, Dr. Covert said.

"The course approval process is an ongoing one, and we expect that more courses will be approved for Spring Semester 1992," he added.

The Office of Undergraduate Education is providing funding to the colleges for course development and faculty development to enable the colleges to

For a list of the diversity-related courses available this summer, see Page 2.

develop new courses and adjust to any shifts in enrollment due to the requirement.

The University's Instructional Development Program has held workshops and conferences for faculty members to assist them in developing new courses and with integrating cultural diversity into existing courses. More workshops are planned.

To help students select cultural diversity focused and enhanced courses, the Office of Undergraduate Education is preparing a publication listing a 200+ word description of each course. It will be available in July, Dr. Covert said.

Hershey Medical Center's South Addition dedicated

The Hershey Medical Center has reached a milestone in its \$214 million building and expansion program, one of the largest health science-related construction projects undertaken in Pennsylvania.

On June 4, the South Addition was dedicated, and on June 8, the first patients occupied rooms in the new addition.

On June 29, patients now located at University Hospital Rehabilitation Center for Children and Adults will have their breakfast at the Elizabethtown facility and lunch at the Medical Center.

Participants in the June 4 dedication ceremonies included Gov. Robert P. Casey, President Thomas, Marian U. Coppersmith, president of the Board of Trustees; C. McColister Everts, vice president for health affairs and dean of the College of Medicine; and Allan C. Anderson, vice president and chief operating officer of the Medical Center and director of University Hospital.

The activation of the South Addition expands the hospital's bed capacity from 344 to 453 and is another step toward the eventual expansion of licensed inpatient capacity at the Medical Center to 500 beds.

Artist's rendering of the South Addition

The \$41.5 million South Addition project was funded primarily by a \$35.6 million appropriation from the Commonwealth of

Pennsylvania. Other funding came from the University.

The South Addition provides for the relocation of the 60-year-old rehabilitation

facility, formerly known as Elizabethtown Hospital, which Penn State has managed under an agreement with the Commonwealth since 1982.

In addition to the relocation of rehabilitation services, the South Addition provides for expanded child and geriatric psychiatric programs, as well as enlarged medical, surgical and pediatric services.

Specific components of the addition are:

- 36-bed rehabilitation units (18-bed pediatric, 18-bed adult)

- Outpatient rehabilitation
- Expanded physical therapy services
- Expanded 16-bed child psychiatry unit
- New 14-bed inpatient geriatric psychiatry unit

- 16-bed adult medical intensive care unit

- Centralized 20-bed medical intermediate care unit

- Outpatient surgical center with four operating rooms

- Enlarged 30-bed neonatal intensive care unit (NICU)

- 12-bed pediatric intensive care unit
- Expanded pediatric intermediate care units.

Focus on Diversity

Diversity focused courses available for Summer Session

Following is a list of three-credit diversity focused courses available for Summer Session 1991. Any one of these courses could be used to fulfill the cultural diversity graduation requirement for baccalaureate degree students.

Rape and Sexual Violence. Women and the Criminal Justice System: Arts of Africa, Oceania and Indian America; Evolving Status of Blacks in the Twentieth Century; Interdisciplinary Perspectives: The African American Woman; Afro-American Religion; The Life and Thought of Martin Luther King Jr.; Contemporary Black Rhetoric; Masterpieces of Literature from Africa; Masterpieces of Literature from Asia;

Literatures of the New World; The Forms of World Literature: A Global Perspective; The Theme of Identity in World Literature: Race, Gender and Other Issues of Diversity; Myths and Mythologies; Jewish Literature: An International Perspective; Classical Mythology; Black American Literature; Women Writers: Black American

Writers; Women Writers and Their Worlds;

France and the French-Speaking World; Gender and Geography; Sexual Identity Over the Lifespan; Family Development; Jewish Civilization; Italian Culture and Civilization; Women, Minorities and Employment;

Introduction to Non-Western Music; Cultural Aspects of Food; Global Food Strategies: Problems and Prospects for Reducing World Hunger; Oriental Philosophy; Psychology of Women; Introduction to World Religions; Introduction to the Religions of the Jewish and Christian Foundations; Comparative Religion;

Introduction to Hinduism; Introduction to Buddhism; Early Judaism; Studies in Comparative Religion; Hindu Studies; Buddhist Studies; Jewish Studies; Russian Culture and Civilization; Women in Russian Literature; Introduction to Women in Science, Technology and Engineering; Iberian Civilization; Ibero-American

Civilization; Gender Roles in Communication;

Cross-Cultural Communication; Women and Theatre; Ukrainian Culture and Civilization; Introduction to Women's Studies; Introduction to Women, the Humanities and the Arts; Feminist Theory.

Following is a list of three-credit diversity enhanced courses available for Summer Session 1991.

Baccalaureate degree students may opt to take 12 credits, or four courses, from this list to fulfill the cultural diversity graduation requirement.

Archaeoastronomy; Tropical Field Ecology; Masterpieces of Western Literature Through the Renaissance; Masterpieces of Western Literature Since the Renaissance; Greek Civilization; Classical Archaeology - Ancient Greece; Classical Archaeology - Ancient Rome; Understanding Literature: The Great Traditions in American Literature; Cultural Tradition in French Culture; Urban Social Issues: Structures, Problems and Policies;

Introduction to Human Development and Family Studies; International Business Operations; Introduction to Applied Linguistics; Advanced Human Resource Management; Principles of Marketing; Evolution of Jazz; Philosophy of Science; Social and Political Philosophy; The Foundations of Soviet Political Life; Introduction to Developmental Psychology;

Social Psychology; Industrial Psychology; Personnel Testing and Interviewing; New Testament; Critical Issues in Science, Technology and Society; The Art of the Theatre; Theatre History II: From 1700 to Present; Theatre History; American Theatre.

In addition, three three-credit courses can be offered as either diversity focused or diversity enhanced courses, depending on the preferences of a particular campus and its faculty members.

The courses are: American Literature to 1865; American Literature from 1865; The American Novel: 1900-1945.

Advanced degree fellowships being offered

The College of Education is offering advanced degree fellowships for Native American Indian students participating in the American Indian Leadership Program.

Graduate degrees are in educational administration, educational theory and policy, curriculum and instruction, adult education, school psychology, special education, counselor education, counseling psychology, educational psychology, secondary education, elementary education, mathematics education and higher education. Preference will go to those who apply for doctoral degrees.

The American Indian Leadership

Program, which is celebrating 20 years of operation, has a distinguished record of service to Native American Indians nationwide. As of summer 1990, 32 participants have earned master's degrees. It has been successful in placing both men and women in important leadership positions.

Ninety-five percent of the program's graduates have returned to contribute to Native American Indian education as college presidents, professors, administrators and teachers. The American Indian Leadership Program has a graduate rate of 84 percent, compared to the national

average of a 50 percent completion rate for Indian students in graduate school.

Awards provide a monthly stipend of between \$800 to \$1,000, plus a grant-in-aid for tuition remission. Specific requirements and amounts of awards vary by department and by sponsor.

The deadline for submitting applications for spring semester 1992, which begins Jan. 10, 1992, is Nov. 2. For more information, write to L.A. Napier, American Indian Leadership Program, Penn State, 320 Rackley Building, University Park, PA 16802, or call the program office at (814) 865-1489.

Program focuses on Shaw neighborhood

Twelve blocks from downtown Washington, D.C., a 120-block inner-city neighborhood named Shaw is only a short walk from some of the most fashionable addresses in the nation's capital.

Infant mortality there is three times higher than anywhere else in the industrialized world. It is a neighborhood inhabited by large numbers of single-parent families, high school dropouts, unemployed Black males, and crack dealers.

It was not always so. Shaw was once a vibrant center of African-American culture. "Throwaway People," airing at 10 p.m. Tuesday, June 25, on *Frontline* on WPSX-TV, examines what has happened to Shaw and why this once proud and successful Black community is now home to what sociologists call the black underclass.

"Jon Hendricks: The Freddie Sessions," airing at 10:30 p.m. Friday, June 21, is a tribute to "vocalase," a vocal style that sets lyrics to instrumental solos. Jon Hendricks, a master of the form, is joined by Bobby McFerrin, Al Jarreau, and George Benson to record Hendricks's version of Miles Davis's 1959 composition "Freddie Freeloader." Throughout the recording sessions, Hendricks talks about his career, the history of jazz, the beginnings of vocalase, his efforts to help the careers of other jazz singers, and the state of jazz today.

Diversity Opportunities Calendar

Friday, June 14

Commission for Women, meeting, 10 a.m. to noon, 256 Hammond. For information, contact Lynn Ryan at 865-1683.

Wednesday, June 19

Office of Summer Sessions, 3 to 5 p.m., Paul Robeson Cultural Center; Presentation by Summer Scholars in Residence: Hollie Walker Jr. and Arthur Martinez.

Tuesday, June 25

Professional Women at Penn State, 11:45 a.m. to 1 p.m., Eisenhower Chapel's Frizzell Room. Panel discussion titled "Balances in Life." For more information, contact Cheryl Stroud at 863-3198.

Wednesday, June 26

Office of Summer Sessions, 3 to 5 p.m., Robeson Center; Presentation by Summer Scholars in Residence: Alexander Gonzalez.

New videotape

Audio-Visual Services recently acquired a new videotape titled *The Road to Brown* (51207-VH).

The program profiles black attorney Charles Hamilton Houston, who led the fight against segregation/Jim Crow in the years prior to the Brown v. Board of Education decision. It provides insights into the origins of the civil rights movement and traces the history of the legal battle to overturn the "separate but equal" concept in America.

The video is available at no charge to University faculty and staff for classroom use. At University Park, call 865-0913 to make arrangements for a preview showing. At a Commonwealth Campus, contact the campus instructional services specialists for more information.

Obituaries

Maria G. Carden, clerk records A, Penn State Ogonitz Campus, since March 1, 1987, died May 17 at the age of 56.

Mildred L. Treworgy, associate librarian, University Libraries, from July 1, 1962, until her retirement Jan. 5, 1973, died May 17 at the age of 80.

New academic building is dedicated at York

Dedication ceremonies were held Thursday, June 6, for a new academic building at the Penn State York Campus. The dedication culminated a successful campaign that raised more than \$2.1 million in the community.

"The dedication of our new building this week is evidence of the continuing partnership between the York Campus and the York community," John J. Romano, campus executive officer, said. "Dedication marks the completion of the structure, but just the beginning of the future educational opportunities available for the York community and region."

The new building will include two mainframe laboratories connected with the University's mainframe computers, one

personal computing classroom, a consultant's office and appropriate support facilities. In addition to the new computer facilities, the first floor of the building includes two critically needed lecture/classrooms, both able to accommodate 35 students, along with a student study and vending machine area.

The second floor includes 25 single, two double and four triple faculty offices which eliminate a long-standing need to improve the working environment for full-time faculty. There also will be a faculty lounge and a student/waiting area. A basement includes areas for mechanical and electrical equipment, with several areas left unfurnished for future development.

A new campus bookstore is attached to

the building and shares the entrance and vestibule areas. The new store covers 3,500 square feet, in comparison to the former facility included in the Main Classroom Building. The bookstore portion of the new structure was funded by the University's bookstores and was not financed by funds raised in the community.

This is the third successful fund-raising effort the Penn State York Campus has conducted in the community in the past 25 years. The last project, a \$750,000 campaign for the construction of a Student Center, was from 1974-76, with dedication of the center in 1977.

University officials attending the dedication ceremonies included Marian U. Coppensmith Fredman, president of the

Board of Trustees; Richard E. Grubb, senior vice president and dean, Commonwealth Educational System, and G. David Gearhart, senior vice president for development and university relations.

Local dignitaries included state Sen. Michael Bortner; state Reps. Steven R. Nickol, Gregory M. Snyder and Stephen H. Stetler; York County Commissioners Lorraine B. Hovis (president) and George M. Trout; York City Council Members Donald T. Murphy and William Lee Smallwood; Dick B. Carver, president of the York County Industrial Development Corp. and William J. Conn, Spring Garden Township manager.

Defense

Continued from Page 1

education of our undergraduate and graduate students, and simultaneously provides future benefits to the general public through the creation of new products and processes," he added.

The top rankings are in the following order: Massachusetts Institute of Technology, \$455.1 million; Aerospace Corp., \$416.2 million; Mitre Corp., \$407.2 million; Johns Hopkins University, \$373.9 million; Rand Corp., \$79.3 million; IIT Research Institute, \$63.4 million; Penn State, \$61.6 million; and Institute for Defense Analyses, \$60 million.

Other Pennsylvania universities receiving more than \$5 million in contracts are Carnegie Mellon University, \$57.2 million;

University of Pittsburgh, \$9.6 million; and University of Pennsylvania, \$7.4 million.

Appointment

Allison E. Jones has joined the Continuing Education office at Penn State Great Valley as an area representative.

Prior to her appointment, she was director of continuing education at Harcum Junior College in Bryn Mawr and a writing center specialist and assistant project director of self-help skills of Cheyney University.

Ms. Jones holds a B.A. in English and an M.S. in adult and continuing education from Cheyney

Five projects funded by endowment

Five faculty members have received funding for projects through the United Federal Bank Endowment for the Enhancement of Undergraduate Instruction. Jerry B. Covert, associate dean for undergraduate education, said the purpose of the endowment is to enrich undergraduate instruction and to encourage the development of a diversity of academic interests among undergraduate students.

"This year, special priority was given to projects related to the integration of cultural diversity into the undergraduate curriculum," Dr. Covert said.

Faculty members submitting successful proposals were:

Glenda Laws, assistant professor of geography, "Illustrating Diversity in the Undergraduate Curriculum."

Francis R. McKenna, associate professor of education administration, policy, foundations and comparative international education, "Educational Theory and Policy 115."

Emma S. Rocco, associate professor of music, "Black Voices in the Arts: Music, Drama, Dance and Literature."

Londa Schiebinger, assistant professor of history and women's studies, to develop three new courses in women's science: The History of Women in Science, The History of Women in Europe, and The History of Feminist Thought."

Phillip E. Stebbins, associate professor of history, "Diversity Integration in History 3."

News in Brief

University cited

The University has been cited as a national leader in the application of media in distance education in the book *The Learning Industry: Education for Adult Workers*, published by The Carnegie Foundation for the Advancement of Teaching.

The author, Nell P. Eurich, cited examples of technological accomplishments, including PENpages, an information network between the College of Agriculture and all the Cooperative Extension offices throughout the state, and PENN*LINK, which reaches 750 educational organizations through the Pennsylvania Department of Education with various services and databases.

Also cited were an award-winning telecommunications program in acoustics, which offers a series of credit courses leading to a master's degree developed by the College of Engineering for the U.S. Navy, and a two-way video connection between the University Park Campus and the

Hershey Medical Center, which enables faculty to jointly teach advanced courses in bioengineering and food sciences.

Professional women

"Balances in Life" will be the topic of a panel discussion at the next meeting of Professional Women at Penn State at 11:45 a.m. Tuesday, June 25, 1991, in the Frizzell Room of Eisenhower Chapel, with an opportunity for informal networking.

The panel, consisting of Ann Ard, Karen Horne, Grace Hampton, Linda Maxson, and Theresa Peters, will interact with meeting participants in defining and prioritizing individual challenges toward balancing all facets of life.

Professional Women at Penn State is a grass-roots group coordinated by University women in which participants can develop and maintain a communications network and serve as a resource for other Penn State women. Attendance by all University classifications, male and female, is welcome.

Law enforcement courses

Law enforcement personnel across the country will be able to earn college-level credits next fall thanks to a new linkage between Penn State Continuing Education and the Law Enforcement Television Network (LETN).

Courses from the nationally accredited Administration of Justice program will be carried over LETN, which began broadcasting in 1989. The network is a private satellite television company providing news, training, and information to an audience of 2,250 law enforcement agencies in the United States.

Penn State will be the first academic institution to offer courses for credit over LETN, according to Edwin J. Donovan, assistant professor of administration of justice. Four courses will be offered for academic credit over a three-year period, beginning in Fall 1991. Topics already selected include supervision of police personnel, violent crime, and an introduction to computer usage in the criminal justice system.

Founders Room

The Founders Room at University Park will reopen on Wednesday, June 12th, for the Summer Session. Operating hours are French Breakfast 7:30 a.m. - 10 a.m. and lunch 11:30 a.m. - 2 p.m. Reservations will be accepted for breakfast meetings for any size group. Reservations can be made by calling 863-7623 x.m. - 5 p.m. Call at least two days in advance.

Mediation training

The Center for Conflict Management is offering basic mediation training on June 21 and 22 at University Park Campus to staff, faculty and students. The intensive two-day program will include training in mediating intercultural disputes.

Participants must attend the full program and will receive a mediator's manual and a certificate for completing the training. Registration is limited to 25 applicants.

For more information, contact the Center for Conflict Management, 101 Bouckee Building, at 863-2918.

Search committee for Engineering dean named

A search committee has been appointed to identify candidates for the position of dean of the College of Engineering. **George J. McMurtry**, associate dean for administration and planning and professor of electrical engineering, will chair the committee.

Other committee members are **Craig A. Bernecker**, assistant professor of architectural engineering; **John D. Burke**, associate provost, Penn State Erie, The Behrend College; **Nancy M. Cline**, dean of the University Libraries; **Daniel C. Davis**, associate professor of engineering, science

and mechanics. **Ronald W. Ewing**, Penn State Engineering Society; **Frederick H. Gaige**, campus executive officer, Penn State Berks Campus; **Grace Hampton**, vice provost; **L. Raymond Hetche**, director of the Applied Research Lab and professor of engineering research;

Mary Jane Irwin, professor of computer science; **Iam-Choon Khoo**, professor of civil engineering; **Walter P. Kilarski**, associate professor of civil engineering; **Edward H. Klevans**, professor and head of nuclear engineering; **Anil K. Kulkarni**, associate professor of mechanical

engineering; **Harvey B. Manbeck**, professor of agricultural engineering; **Daniel K. McLaughlin**, professor and head of aerospace engineering; **Deborah J. Medeiros**, associate professor of industrial engineering;

Allan D. Pierce, professor of acoustics and mechanical engineering; **Richard A. Queequey**, professor of engineering mechanics; **Sandra Scrivener**, graduate student; **Jerry F. Shoup**, associate professor of engineering; **JoAnn Stephens**, director of the Engineering Advising Center; **John M. Tarbell**, professor of chemical

engineering; **Patricia Waniewski**, undergraduate student and **Mervin L. Weed**, professor of general engineering.

The search committee will begin to review applications in mid-July and continue to receive them until a candidate is selected. Nominations and applications accompanied by a resume and the names of four references should be submitted to George J. McMurtry, chair, College of Engineering Dean Search Committee, Room 201 Old Main, University Park.

CES dean applications, nominations sought

The University invites applications and nominations for the position of senior vice president and dean for the Commonwealth Educational System (CES).

As the University officer with administrative responsibility for CES, the senior vice president and dean reports to the Office of the President through the executive vice president and provost and works closely with both the president and the executive vice president and provost of the University.

Candidates should have a strong administrative background and academic credentials appropriate for appointment at a senior professorial level; a broad understanding of complex academic institutions; executive experience and proven leadership capacity; understanding and support for the University's multiple missions and its commitment to cultural diversity, and evidence of experience in fiscal management.

The Search Committee will review

applications and nominations beginning July 15 and will continue to receive them until a candidate is selected. Nominations and applications, accompanied by a resume or equivalent information, and the names, addresses and phone numbers of four references, should be mailed to: Anne C. Petersen, chair, Search Committee, Senior Vice President and Dean, CES, 201-1 Old Main, University Park, PA 16802.

Animal care rules

Regulations governing the care and use of vertebrate animals are steadily increasing and it is crucial that all University personnel be aware of the need for approval by the Institutional Animal Care and Use Committee or "IACUC" for the use of any vertebrate animal in a University funded activity.

The regulations involving the use of vertebrate animals are not restricted to the use of animals in research, but include the use of vertebrates in teaching, training, and promotional activities. Often overlooked is the fact that included in the definition of "vertebrate animals" are fish, poultry, and reptiles.

Individuals planning the use of a vertebrate animal in a University project must keep in mind that federal regulations governing the IACUC forbid the committee to approve any project without allowing a full week for consideration of the project by all committee members. Thus, any project involving animals should be a well planned event with ample forethought given to the care and use of the animals.

The Office for Regulatory Compliance, formerly the Office for the Protection of Human Subjects in 115 Kern, now coordinates IACUC reviews by providing forms and information. Submissions, formerly received by the Central Biological Lab, should now be submitted to ORC

Faculty/Staff Alerts

Telephone directories

It's time again for the update of the Penn State *Directory*. Information for the 1991-92 edition has been circulated. If you received incomplete information for your area, please photocopy additional pertinent pages and include them with the material you return to the Department of Publications by June 17.

The information on pages 81 through 169 in the 1990-91 *Faculty/Staff Directory* (individual listings) is generated by payroll records. Changes to that information should be handled through your human resources

representative or the Payroll Office. The Department of Publications cannot make changes to that material.

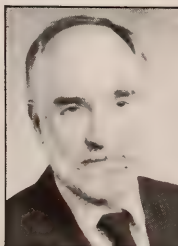

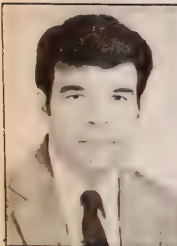

Adjunct Listing Forms are used to list individuals who do not appear on the University payroll records. This includes: adjunct professors, research associates, postdoctoral researchers; part-time or wage payroll employees; USDA, U.S. Pasture Lab, U.S. Forest Service, and other federal or state employees; military and associated civilian personnel; and religious leaders at Eisenhower Chapel.

Blank forms are available, upon request,

from your human resources representative or the Office of Systems and Procedures, 202 William Street Building. Completed Adjunct Listing forms should be sent to the Department of Publications, Suite A, Barbara Building, no later than June 28. If you already have submitted an adjunct form to Publications, the department has it on file.

All departmental revisions are due to Publications by June 17, as are quantity orders. That information has been circulated to each area's *Directories* contact person.

25 year award recipients

Observing 25 years of service in the College of Agriculture are, from left, Ronald L. Hostetter, extension agent, Cambria County; Roslyn G. Levine, research assistant in the Department of Plant Pathology; Felix L. Lukeziec, professor of plant pathology; Paul E.

Nelson, professor of plant pathology; Gary W. Petersen, professor of soil genesis and morphology.

Awards

Teaching, research and advising honored

Fifteen College of Engineering faculty members have received awards for outstanding teaching, research and advising from the Penn State Engineering Society (PSES).

Outstanding Research Awards for notable contributions in research, were presented to **Nirmal K. Bose**, professor of electrical engineering; **John A. Frangos**, du Pont assistant professor of chemical engineering; **H. Thomas Hahn**, professor of engineering science and mechanics; **Gary H. Koopmann**, professor of mechanical engineering, and **Harvey B. Manbeck**, professor of agricultural engineering. Outstanding Teaching Award recipients are **Thomas B. Brown**, assistant professor of architectural engineering; **Lee D. Coraor**, assistant professor of electrical engineering; **Wieslaw Grebski**, assistant professor of engineering, Penn

State Hazleton Campus; **H. Joseph Sommer III**, associate professor of mechanical engineering; and **Samuel Zabc**, instructor in engineering, Penn State McKeesport Campus.

Recipients of Outstanding Advising Awards, for faculty who have shown outstanding dedication to advising students or student groups, are **E. Emory Ensore Jr.**, professor of industrial engineering; **Louis F. Geschwindner**, associate professor of architectural engineering; **Franklin P. Platts Jr.**, assistant professor of engineering, Penn State Schuylkill Campus; **Domenic A. Santavica**, professor of mechanical engineering, and **Merwin L. Weed**, professor of engineering, Penn State McKeesport Campus.

Schuylkill Campus presents four awards

Four Penn State Schuylkill Campus faculty members have been honored for teaching, advising, service and research during the 1990-91 academic year.

Paul W. Miller, instructor in music, received the Schuylkill Campus Faculty Advisor Award. The recipient of this award is selected annually by students. It is presented to a faculty member whose work with the students is beyond the ordinary.

Thomas H. Eberlein, assistant professor of chemistry, was selected by students to receive the 1990-91 Schuylkill Teaching Award.

The 1990-91 Faculty Research Award was presented to **Charles Cantalupo**, associate professor of English. The recipient is chosen by the Schuylkill Campus Research Committee.

Franklin Platts, associate professor of engineering, received the 1991 Outstanding Advising Award in the College of Engineering.

DuBois foundation names 'Educator of the Year'

David R. Schlow, assistant professor of economics at the Penn State DuBois Campus, has received the "Educator of the Year Award" from the DuBois Educational Foundation (DEF), the campus advisory board. The award is accompanied by a \$500 check.

Dr. Schlow earned his undergraduate degree in mathematics at Penn State, his master's degree in economics at University of Oregon and a Ph.D. in economics at Penn State. He has a wide variety of interests in the field of economics, including labor and industrial relations. He has taught in California, Iowa, at the Shenango and University Park campuses, and for the last four years at DuBois.

One of the most noted aspects of Dr. Schlow's contributions to the campus and University is the fact that he offers such a wide variety of courses, including introductory macro- and micro-economics, quantitative business analysis, statistics, labor and industrial relations, an elective in the social sciences, and senior seminars on defense spending.

Shenango math instructor gets teaching award

James Brenneis, instructor in mathematics, has received the 1990-91 Shenango Campus Teaching Award.

Mr. Brenneis, a student at Penn State Shenango Campus for two years, received his B.S. and M.S. in mathematics at Youngstown State University.

A full-time instructor at Penn State Shenango since 1988, Mr. Brenneis has taught part-time since 1981. He was a math tutor in the campus' learning center from 1981 to 1988.

Mr. Brenneis is a member of the Mathematical Association of America and the American Mathematical Society.

The teaching award, first given in 1984 by the campus advisory board, carries a cash award of \$300 and a commemorative plaque.

Distinguished Service awards

Frank Gabron, chairman of Helix Technology Corp. of Hollis, N.H., and **Roland Gehman**, president of MGS Inc., of Stevens, Pa., have received the College of Engineering's 1991 Distinguished Service Award.

Mr. Gabron, who holds a master's degree in mechanical engineering from Penn State, has served the college and the Department of Mechanical Engineering as a member and later as chair of the mechanical engineering division of the College of Engineering Industrial and Professional Advisory Committee (IPAC).

Currently the Keen professor for entrepreneurship in engineering, he has endowed undergraduate scholarships in electrical and mechanical engineering and has arranged a major equipment grant. He was named an Engineering Outstanding Alumnus in 1987 and a Penn State Alumni Fellow in 1989.

Mr. Gehman, a 1959 agricultural engineering graduate, has been a supporter and promoter of the Agricultural Engineering Department since he was an undergraduate student. He has fabricated special equipment for mushroom development for engineering research programs and has made manufacturing facilities and funding available for an energy conservation study.

Ogontz secretary is honored

The Outstanding Office Personnel Award winner recipient for 1991-92 is **Lillian Ross**, secretary to the director of continuing education at the Penn State Ogontz Campus.

Finalists were **Wanda J. Nyman**, administrative aide, Agricultural Engineering Department, and **Brenda J. Wagner**, administrative aide, Department of Industrial and Management Systems Engineering.

The award is sponsored by the Penn State Chapter of Educational Office Personnel, a professional organization whose membership consists of faculty, staff, staff non-exempt, clerical and technical services. The Penn State Chapter is affiliated with the Pennsylvania Association of Educational Secretaries and the National Association of Educational Office Personnel.

Lillian Ross

Berks Campus faculty and staff receive awards

Three faculty and staff members at the Penn State Berks Campus have been honored with awards.

Daniel B. Litvin, professor of physics, has received the Outstanding Teaching Award, which recognizes excellence in teaching among campus faculty members.

Anna M. Donahue, instructor in French, has received the Outstanding Part-Time Teaching Award.

Sharon Davis, counselor, has received the Outstanding Service Award, which recognizes faculty and staff members' contributions made beyond the scope of the individual's normal affiliation with the campus.

Focus on the arts

The arts on Channel 3

One of the greatest "whodunits" in Renaissance art history is unraveled in *The Feast of the Gods*, a 30-minute program that uses shrewd detective work, brilliant deductions and, of course, the use of a magnifying glass to bring to life the mystery of a 16th-century masterpiece. The program, produced by the National Gallery of Art, Washington, D.C., airs at 2:30 p.m. Sunday, June 16, on WFSX-TV.

David Hockney's colorful vision of Mozart's "The Magic Flute" ("Die Zauberflöte") will be telecast at 8 p.m. Wednesday, June 19, as part of *The Metropolitan Opera Presents series*. The opera will be sung in German with English subtitles.

The latest edition of *Artworks*, "The Sava River: A New History," featuring the work of Helen Mayer Harrison and Newton Harrison, airs at 10:30 p.m.

Munday, June 24. The program reveals how canals, railroads, factories, and a nuclear plant have taken their toll on the Sava River floodplain, the second largest alluvial wetland remaining in Europe.

Film festival

A five-day Middle East film festival, titled "The Other Side of the Coin — Films from the Middle East," will be held at University Park beginning Monday, June 17. The School of Communications and Office of Summer Sessions are sponsoring the event, which includes discussions led by two guest speakers.

The five films will be shown beginning at 8 p.m. in Eisenhower Auditorium. Scheduled films are: "The Puppeteer," from Egypt on June 17; "A Door to the Sky," from Morocco on June 18; "Omar Gattalo," from Algeria on June 19; "Summer of Aviya," from Israel on June 20, and "Night of the Jackal," from Syria on June 21.

Alia Arasoughly, a film lecturer at Northwestern University and a documentary filmmaker, will attend the films on June 17 and 18. She is an expert on the Algerian cinema and will curate the Arab part of the program.

John Katz, professor of film at York University, will attend the films on June 19 and 20, will curate the Israeli film. He is a noted expert on documentary film, image ethics and representation of Jews in films.

"These films were specially chosen exactly because they are not about the current political situation in the Middle East," Brian Winston, dean of the School of Communications, said. "The Middle East contains people who have joys and sorrows as any other humans. These films show that they will help us understand that the Middle East is not just a crisis spot, but is a place where people live, love, laugh and cry."

Odyssey on WPSU

"A book that delights children and frightens adults" — Jonathan Swift's

Poet Eve Merriam

Gulliver's Travels — is the topic of the next Odyssey Through Literature program.

English guest Heinz Kosok, professor of English Literature at the University of Wuppertal in Germany, "Part of the greatness of *Gulliver's Travels* is that it is left to the reader. You're not finished when you have read the book. You have to go on making your own decisions."

On the June 26 episode, Michael Nayan, associate professor of Slavic, says Russian poet Marina Tsvetaya writes suicide poetry that also is love poetry.

"Essentially, it's love poetry," he explains, contrasting Tsvetaya's poems with those of Sylvia Plath.

If so, retorts host Leonard Rubinstein, the poet was "truly depressed."

"To seek suffering for the sake of art seems to me horrible," he says. "I appreciate art as a transformation of inescapable suffering."

"Odyssey Through Literature" is produced by the Department of Comparative Literature in the audio-production studios of WFSX-TV. It airs Wednesdays at 12:30 p.m. on WFSU, 91.1 FM.

Poetry program

Eve Merriam, award winning writer of poetry for children, will appear at Scholw Public Library in State College at 7 p.m. June 19. She will present a program open to the public for children and adults, followed by an autograph session.

Ms. Merriam is the author of more than 50 books, including *Blackberry Ink*, *Chortles*, *You Be Good and I'll Be Night*, *Mommies at Work*, and *A Poem for a Pickle*. She is the winner of the Yale Younger Poets Prize and the National Council of Teachers of English Award for excellence in children's poetry.

Ms. Merriam's appearance is funded through a grant from the Office of Summer Sessions, and is co-sponsored by the College of Education.

Music recital

Evelynn Ellis, clarinet, and Jill Olson, piano, will present a recital of music for clarinet and piano at 3 p.m. Sunday, June 23, in the Music Building Recital Hall at University Park.

Ms. Ellis, a University graduate with a master's degree in clarinet, is an academic adviser in the College of Health and Human Development. Ms. Olson is a graduate of the University of Wisconsin and currently teaches piano in the State College area.

The duo will perform a delightful mix of works from Great Britain and France. The recital is the beginning of a study of British clarinet pieces which will continue over the next five years.

The program will open with a playful piece by Darius Milhaud, the Duo Concertant. It will be followed by the Sonata for Clarinet and Piano by Charles Stanford, one of Britain's leading composers. The second part of the program opens with Gerald Finzi's Five Bagatelles. The program will conclude with a French masterpiece, the Sonata for Clarinet and Piano by Carl Saint-Saens. The recital is free to the public.

Criticism seminar

A five-day seminar on feminist literary criticism, sponsored by the Department of English and the Office of Summer Sessions, will be held June 24 to 28 at University Park.

Faculty members and graduate students from more than 30 colleges and universities will attend the seminar, which will be led by nationally known feminist critics Elizabeth Abel of the Department of English at the University of California, Berkeley, and Madelon Sprengnether of the Department of English at the University of Minnesota. Both will give public lectures.

Ms. Sprengnether, author of *The Spectral Mother: Freud, Feminism, and Psychoanalysis* and co-editor of *The Mother Tongue: Essays in Feminist Psychoanalytic Interpretation*, will discuss "Undoing Oedipus: Revisionary Biography and Psychoanalytic Theory" at 8 p.m. Monday, June 24, in Room 101 Kern Building.

Ms. Abel will speak on "Reading White, Reading Black: Race and the Politics of Feminist Criticism" at 8 p.m. Wednesday, June 26, in 101 Kern. She is the author of *Virginia Woolf and the Fictions of Psychoanalysis*, editor of *Writing and Sexual Difference* and co-editor of *The Signs Reader*.

This summer's seminar is the first of a planned series of seminars in literary criticism and theory. For more information, contact Wendell Harris at 863-2342.

Music at Penn's Woods

Music at Penn's Woods opens its sixth season with a concert at 7:30 p.m.

Saturday, June 29, in Schwab Auditorium at University Park.

Douglas E. Meyer will conduct the 55-piece orchestra performing Dvorak's Serenade for Strings, Mozart's Violin Concerto No. 4 and Stravinsky's Firebird Suite 1919.

Dr. Meyer, associate professor of music, is entering his third year as director of Music at Penn's Woods.

"There will be a wide variety of music literature, ranging from classical to modern," he said. "We're also celebrating the 150th anniversary of Dvorak's birth, as well as doing the most spectacular piece we've performed to date — Stravinsky's Firebird Suite."

Guest violinist Rafael Durian, who will be the featured soloist in Mozart's Violin Concerto No. 4, has been concertmaster of the Cleveland Orchestra and the New York Philharmonic.

The final piece, Stravinsky's Firebird Suite, often is considered the earliest of the composer's great works. The orchestra will include members of the Escher Quartet of Kansas City, Mo. This season marks the quartet's third year to perform with Music at Penn's Woods. The quartet members also are members of the Kansas City Symphony Orchestra.

Music at Penn's Woods also offers a chamber music series. The first week's recitals are at 3 p.m. Sunday, June 30, and at 7:30 p.m. Thursday, July 4, in the Music Building Recital Hall. Admission is free.

A program of the School of Music in the College of Arts and Architecture and co-sponsored in part by the Office of Summer Sessions, Music at Penn's Woods unites gifted musicians from colleges and universities across the country for a month-long residency at Penn State.

Tickets to Saturday's concert are \$6 for adults and \$4 for students and senior citizens, and they are available at the Eisenhower Auditorium Ticket Center. To charge tickets, call (814) 863-0255 Monday through Saturday, 8:30 a.m. to 4:30 p.m.

'Nunsense'

"Nunsense," a non-stop hit in New York and Boston for more than five years and winner of Best Off-Broadway Musical, is the second show of the 1991 Pennsylvania Centre Stage season.

The show opens Wednesday, July 3, and runs through Saturday, July 20, at the Playhouse at University Park.

Served a batch of bad vichyssoise, 52 Little Sisters of Hoboken drop dead. The five remaining nuns stage a variety show to raise funds to bury their sisters. Light-hearted skits and songs about religious life create a show that keeps audiences in stitches.

"Nunsense" plays at 8 p.m. July 5, 6, 10-13 and 17-20. Preview performances are July 3 and 4. Tickets are available at Eisenhower Auditorium Ticket Center.

University Park Calendar

June 13 –
June 30

Special Events

Friday, June 14
Commission for Women meeting, 10 a.m. – noon, 256 Hammond.

Saturday, June 15
Shaver's Creek, Bird Breakfast, 8-10 a.m. Call 863-2000.

Sunday, June 16
Shaver's Creek, Household Hazardous Waste, 1-2:30 p.m. Call 863-2000.

Monday, June 17
"The Other Side of the Coin" – Films from the Middle East, Communications and Summer Sessions, 8 p.m. nightly.
Evening Aud "The Puppeteer" (Egypt), June 17; "A Door to the Sky" (Morocco), June 18; "Omar Gatlato" (Algeria), June 19; "Summer of Aviya" (Israel), June 20; "Night of the Jackal" (Syria), June 21.

Tuesday, June 18
Summer Sessions, music at noon, Fisher Plaza; bowling "diversions," 7-9 and 9-11 p.m., Rec Hall.

Wednesday, June 19
Summer Sessions, summer scholars, 3-5 p.m., Paul Robeson Cultural Center; HUB lawn film, 9 p.m.

Thursday, June 20
Summer Sessions, music at noon, Fisher Plaza; summer seminar, 3:30 p.m., Nittany Lion Inn.

Friday, June 21
Summer Sessions, ice cream "diversions," 7-8 p.m., Creamery/Pavilion.

Sunday, June 23
Music recital, 3 p.m., Music Building Recital Hall. Evelyn Ellis, clarinet, and Jill Olson, piano.

Monday, June 24
■ International Journalists' Symposium, Summer Sessions, 9:30 a.m. and 1:30 p.m., Assembly Room, Nittany Lion Inn.
Lecture on feminist literary criticism, 8 p.m., 101 Kern. Madelon Sprengnether, Univ. of Minn., on "Undoing Oedipus: Revisionary Biography and Psychoanalytic Theory."

Tuesday, June 25
Registration deadline for six-week session.

Evelyn Ellis, clarinetist, will present a recital of 3 p.m. Sunday, June 23, in the Music Building Recital Hall. She will be accompanied by Jill Olson, pianist.

Professional Women at Penn State, brown bag lunch, 11:45 a.m., Frizell Room, Eisenhower Chapel. Panel: "Balances in Life."
Summer Sessions, music at noon, Fisher Plaza.

Wednesday, June 26
Classes begin for six-week session.
Lecture on feminist literary criticism, 8 p.m., 101 Kern. Elizabeth Abel, UC-Berkeley, on "Reading White, Reading Black Race and the Politics of Feminist Criticism."
Summer Sessions, summer scholars, 3-5 p.m., Paul Robeson Cultural Center; HUB lawn film, 9 p.m.

Thursday, June 27
Summer Sessions, music at noon, Fisher Plaza; summer seminar, 3:30 p.m., Nittany Lion Inn.

Friday, June 28
Summer Sessions, ice cream "diversions," 7-8 p.m., Creamery/Pavilion; jam, 9 p.m.-1 a.m.

Saturday, June 29
Music at Penn's Woods, 7:30 p.m., Schwab Aud. Douglas E. Meyer, conductor.

Sunday, June 30
Shaver's Creek, Nature Crafts, 1-2:30 p.m. Call

863-2000
Music at Penn's Woods, chamber music series, 3 p.m., Music Building Recital Hall

June 16-21. Summer Seminar on Philately
Kent Addis, coordinator.

June 16-22 and 23-29. Computer Fiderhosted Week 1 and Week 2 Barb Impeditter, coordinator.

June 16-20. Graduate Minority Health Careers Institute. Daniel Trevino, chair; Donna Ricketts, coordinator.

■ June 17-28. International Play Therapy Conference. Louise Gaerney, chair; Kathy Karchner, coordinator.

■ June 17-21 and 24-28. International Center for Diffraction Data Clinic Week 1 and Week II Earle Ryba, chair; Norm Lathbury, coordinator.

June 18-20. State Farm Insurance Summer Institute. Jerri Milson, coordinator.

June 20-22. Child Relationship Enhancement Family Therapy. Louise Gaerney, chair; Kathy Karchner, coordinator.

June 21-22. Pa State School Bus Road-F-O Kent Addis, coordinator.

June 23-28. Renaissance in Engineering Education Workshop. John Vincent, chair; Donna Ricketts, coordinator.

June 22-19. Minority Health Careers Institute. Daniel Trevino, chair; Donna Ricketts, coordinator.

June 23-Aug. 10. Minority Research Apprentice Program. Daniel Trevino, chair; Donna Ricketts, coordinator.

June 24-27. Sound and Recording Workshop Peter Kiefer, chair; Jack Sinclair, coordinator.

June 24-28. Adventure Programming. Bob Ricketts, chair; Jerri Milson, coordinator.

June 24-28. Seminar in Feminist Literacy

Criticism Wendell Harris, chair; Chuck Herd, coordinator.

June 25-28. Interpretation Methods and Scale-Up Strategies. Kent Addis, coordinator.

June 26-28. Professional Staff Development. Donna Ricketts, coordinator.

■ June 28-30. Sweet Addies Harmony International. Pete Kiefer, chair; Kent Addis, coordinator.

June 28-30. Arbitration Institute. Gilbert Call, chair; Chuck Herd, coordinator.

June 29-30. Bridges to the Future. Marie Sevor, chair; Chuck Herd, coordinator.

June 29-30. Piano Teachers Workshop at Penn's Woods. Russell Bloom, chair; Donna Ricketts, coordinator.

June 30-July 6. Warning Fiderhosted Week II Peter Kiefer, chair; Jack Sinclair, coordinator.

Exhibits

National Cable TV Center/Museum
40 years of cable/television exhibit, through June 10

Pattee Library
East Corridor Gallery:
"Where's Reality?," photo collages by Stan Miller, through July 5

Penn State Room:
"IRB: 100, John R. Bracken and the Development of Landscape Architecture at Penn State," through Sept. 30

Rare Books Room:
"Marbled and Decorated Papers," through July 1

Zoller Gallery
"Metamorphosis of a Butterfly," sponsored by Pa Council on the Arts and Office of Summer Sessions, through June 30.

Focus on the arts

Pattee exhibits

Two new exhibits are now on display in Pattee Library:
"IRB: 100, John R. Bracken and the Development of Landscape Architecture at Penn State" is on display in Pattee Library's Penn State Room through Sept. 30.
An exhibit of photo collages titled "Where is Reality?" by Stan Miller is on display in Pattee's East Corridor Gallery through July 5.

The Bracken exhibit traces the career of Dr. Bracken, who enrolled at Penn State in 1910 and became one of the first graduates of the landscape architecture program. After 10 years in private practice, he returned to Penn State and in 1926 became head of the program. Within three years, the University was a charter member of the Federation of Professional Schools in Landscape Architecture, and his students were competing for the prestigious American Academy in Rome design fellowship.

Featured in the exhibit are examples of Dr. Bracken's designs for what is now the president's home on Kennard Road in Boalsburg and the Memorial Football Field in State College. Central to the development of the exhibit was a history of the Landscape Architecture Department as recorded by Dr. Bracken and transcribed and edited by W. Young. The exhibit, which includes Dr. Bracken's papers, is drawn from the collections of the University Archives/Penn State Room in Pattee

Library.
Mr. Miller's photo collages have been influenced by Surrealism and by world affairs.
He has worked in photography since he was a University photography student from 1977-82. His works of landscapes and historic structures have been displayed in Pattee and his collages have been displayed in the International Postcard Exhibition in Chambers Building.

Bookshelf

Stephen J. Cimbala, professor of political science at the Penn State Delaware County Campus, is the author of *Strategy After Deterrence*, published by Praeger.

The book examines how American and NATO military priorities will have to change now that the tangible threat to Europe has been removed by political and economic changes in Eastern Europe and the Soviet Union.

Dr. Cimbala looks at the structure and effectiveness of deterrence as a military strategy and explores available options. He also analyzes the relationship between conventional and nuclear weapons and reviews the likely course of future conflicts and alternatives to deterrence as a military strategy.

J. Lowen Shearer, professor emeritus of mechanical engineering, and **Bohdan T. Kulakowski**, associate professor of mechanical engineering, are co-authors of a new textbook, *Dynamic Modeling and Control of Engineering Systems*.

The book covers the fundamentals of mathematical modeling and control in engineering systems, focusing on the role of energy storage. It describes the dynamics of mechanical, electrical,

thermal, fluid and mixed systems by using Across-type and Through-type variables throughout.

Designed for students in mechanical engineering and related fields, the book stresses simple and useful models. It was developed from a course for senior-level mechanical engineering students.

The book is published by Macmillan Publishing Co., Riverside, N.J.

Patrick T. Terrenzini is co-author with Ernest T. Pascarella, of the University of Illinois, Chicago, of *How College Affects Students*, published by Jossey-Bass Inc.

The book synthesizes 20 years of empirical research and distills more than 2,600 studies to present virtually all that is known about how students grow and change as a consequence of attending college.

In an easy-to-use format for reference and study, the authors organize and interpret this exhaustive compilation of major educational outcomes, including learning, critical thinking and decision making, values and attitudes, education and career attainment.

They show how administrators and faculty can shape the educational and

interpersonal settings and events of their campus in ways that will engage students more fully in their college experience and help achieve their institution's educational goals.

They illustrate how instruction, orientation, residence units, and faculty recruitment and reward processes can be redesigned to reflect an institution's investment in student learning in all areas. And they highlight where the research points to ways for change and success.

William G. Tierney, associate professor of education and senior research associate in the Center for the Study of Higher Education, is editor of *Assessing Academic Climates and Cultures, New Directions for Institutional Research*, published by Jossey-Bass Inc.

Institutions have unique histories, symbols, and myths that create particular climates and cultures for the participants, Dr. Tierney says. These climates and cultures, in turn, influence decisions and actions that ultimately determine the organizations' effectiveness.

This volume of *New Directions for Institutional Research* discusses the

theoretical constructs, measurement instruments, interpretations, and applications of data and information about institutional cultures and values in management actions.

Beno Weiss, professor of Spanish, is the editor of a scholarly edition of two short novels of Maria de Zayas y Sotomayor, a 17th-century Spanish writer.

Titled *El castigo de la miseria. La inocencia castigada (The Punishment of Avarice. Innocence Punished)*, the book contains an introduction analyzing the novels and demonstrating why the collection from which they come is known as the "Spanish Decameron."

Dr. Weiss studies the Baroque artistry of Zayas y Sotomayor and also shows how this long-neglected feminist writer satirizes the customs of the men of her times.

The book, which also contains a bibliography of critical studies of the novelist's work, has been published in the *Clasicos Albatros* collection of Ediciones Albatros/Hispanofolia of Valencia, Spain, and is designed for use by students and specialists of Spain's Golden Age literature.

Penn Staters

Richard Alden, assistant professor of architecture, has had a colored pencil drawing titled "Kitchen Table" accepted for exhibit in the East Coast Artists Invitational national juried art exhibition.

Ram B. Bhagat, senior research associate, IRP, and associate professor of engineering mechanics, presented a paper, "Damping of Metal Matrix Composites: Experimental Results and Analysis," at the American Society for Testing and Materials International Symposium on MSD: Mechanics and Mechanisms of Material Dumping in Baltimore.

Diane V. Brown, regional director of the western region, Penn State Cooperative Extension, was elected secretary of the extension section of the American Home Economics Association.

Elsworth Buskirk, director of the Noll Laboratory for Human Performance Research, has received the Regional Service Award from the Mid-Atlantic chapter of the American College of Sports Medicine.

Gregory L. Geoffroy, professor of chemistry and dean of the Eberly College of Science, gave an invited plenary lecture titled "New Addition

and Cycloaddition Reactions with a Chiral and Highly Nucleophilic Manganese Acetylide Complex" at the 1991 International Chemical Conference on Synthetic Chemistry in Taipei, Taiwan. He also lectured at the National Taiwan University.

Terry R. Haggerty, associate professor of exercise and sport science in the College of Health and Human Development, has been appointed one of three computer advisers to the 1991 International Summer Special Olympic Games.

William Klein, assistant professor of management at Penn State Erie, The Behrend College, presented a paper on "The Logic of Business Ethics" at the International Association of Business and Society in Utah.

Samuel A. McClintock, assistant professor of engineering at Penn State Harrisburg, has won second prize honors for a paper, "Effects of Temperature and Mean Cell Residence Time on Biological Nutrient Removal Processes," in competition conducted by the Water Pollution Control Federation.

James Moeser, dean of the College of Arts and Architecture, has been invited to perform in the first biennial Irving S.

Gilmore International Keyboard Festival April 27-May 5 in Kalamazoo, Mich. The festival offers two concert series with artists in solo recital, concerto and chamber performances at major concert halls in Kalamazoo, Battle Creek, Lansing, Grand Rapids and Sturgis.

Robert E. Newnham, Alcoa professor of solid state science, has received the John Jeppson Medal and Award of the American Ceramic Society for "distinguished, creative, and inspiring contributions to ceramic science, technology, and education in the area of electronic ceramic materials."

Robert A. Novack, assistant professor of business logistics, has been appointed chairman of the Academic Council of the American Society for Transportation and Logistics.

Anne C. Petersen, dean of the College of Health and Human Development, has been invited to serve on a major European study group on adolescence, "Psychosocial Problems of Youth in a Changing Europe," established by the Academia Europaea, the European equivalent of the National Academy of Science.

Marshall W. Raffel, professor of health policy and administration in the College

of Health and Human Development, was an invited lecturer at the Slovak Institute of Postgraduate Medical and Pharmaceutical Education in Bratislava, the Czech and Slovak Federal Republic (formerly Czechoslovakia).

David Roth, associate professor of engineering at Penn State Erie, The Behrend College, presented a paper on "FEA in Engineering Technology Program to Help Meet the Needs of Concurrent Engineering" at the ANSYS Fifth International Conference.

Spiro Stefanou, associate professor of agricultural economics, received a three-year appointment as associate editor of the *American Journal of Agricultural Economics*.

Judith Van Herik, associate professor of religious studies, presented an invited paper titled "From Women's Words about Body to Freud's Words about Psyche: Notes on Disembedding Psyche from Flesh" to a seminar on "Body and Difference" at the Inter-University Post-graduate Center, Dubrovnik, Yugoslavia.

John O. Yocum, senior research associate in agronomy, received the Extension, Education and Research Award from the Mid-Atlantic Soybean Association.

Partings

Clarence A. Brockman has retired as associate vice president emeritus for administration and operations at the Hershey Medical Center.

Since 1973, Mr. Brockman has overseen 23 major additions and significant expansion projects, and more than 1,500 renovation projects. The Medical Center grew from 1.2 million square feet of space to more than 2.5 million.

The job has changed for Mr. Brockman over the years as the institution has grown. Before his departure, he was responsible for all business and administration services, physical plant, materials management, and safety and security. He coordinated legal and insurance affairs and served as the Medical Center's affirmative action officer. More than 230 employees reported to him through the five major areas.

One of the greatest challenges he faced was the acquisition of federal money from Health and Welfare for the clinical science addition. "We made repeated trips to Washington to lobby for these funds," he said. In an 1982, the 50,582-square-foot addition was completed.

"I'm also proud of the fact that, as the Medical Center grew in size and stature, University Park recognized our ability to administer ourselves, and our autonomy grew, especially in such areas as purchasing and human resources," he said. "And I take great satisfaction in having been a part of the development of this campus, watching buildings come on-line in the right order. Our ability to grow and expand makes our campus unique."

In retirement, he plans to stay in Hershey, and "I'm about 18 years behind in fishing." He also plans to complete the restoration of a 1929 Model A Ford in his garage and to complete some unfinished projects in his basement woodworking shop.

Jacqueline A. Fossati, senior control clerk in information systems, has retired after 21 years service at the Hershey Medical Center.

Ms. Fossati, who worked part time for two years before starting as a full-time keypunch operator in September 1969.

Clarence A. Brockman

started her career in the three-person Information Systems Department in a room above the Hershey Library.

When the department grew to five people, it was relocated to a farmhouse. "It was really an experience," said Ms. Fossati, who worked in the farmhouse's kitchen. "The cows were right outside the kitchen door, and you could smell the lilac blooming."

As the Medical Center grew, so did Information Systems. The 46-person department is now housed in the University Communications Building. Ms. Fossati is spending her newly found free time with her first granddaughter, 7-month-old Cheba, as well as working in her yard and on many craft projects.

Mina M. Thompson, secretary to the assistant director and director of the Commonwealth Educational System, has retired after 20 years service. Ms. Thompson began working for the University in 1971.

She and her husband, John Thompson, have a daughter, Mina L. Sommerville, who graduated from Penn State, and a son, John L. Thompson III, who attended Penn State for three years.

In retirement, Ms. Thompson and her

Jacqueline A. Fossati

husband plan to visit their daughter in Germany and will continue to live in Bellefonte.

E.A. (Al) Vasyan, professor of humanities and founding chairman of the Department of Humanities at the Hershey Medical Center, has retired after 23 years service.

Professor Vasyan, an Episcopal pastor, had served as chaplain to medical students and executive director of The William Temple Foundation (for Humanistic Studies) at The University of Texas Medical Branch in Galveston. He gave up a Danforth Fellowship to Yale University to chair the nation's first humanities department at a medical school in Hershey.

In 1971, the Department of Humanities received the first National Endowment for the Humanities grant to a medical school. The grant enabled the department to expand to a faculty of six and add literature and political science to the curriculum. A Public Health Service grant to the department in 1978 led to the formation of The Center for Humanistic Medicine in 1979.

An honors graduate of Denison University, Professor Vasyan received his B.D. cum laude from Episcopal Theological School in Cambridge, Mass., and studied at

E.A. (Al) Vasyan

the University of Southampton, England, the University of Chicago, and Harvard University. He was honored with a Doctor of Humane Letters degree from the Medical University of South Carolina in Charleston.

Professor Vasyan is a past president and charter and founding member of the Society for Health and Human Values, the leading professional organization for humanities faculty in medical education.

His future plans include returning to some form of ministry within the Christian church. He and his wife, Shirley, enjoy traveling and plan a future trip to Italy to pursue their interest in Renaissance art. He also hopes to spend more time on cabinetry in his woodworking shop.

Richard H. Herman, professor/department head, mathematics, Eberly College of Science, from Aug. 15, 1972, until May 11, 1976.

Frances M. Grove, food service worker, Housing and Food Services, from Sept. 1, 1976, until May 15.

Kathryn L. Green, central processing aide at Hershey, from March 13, 1974, until June 1.

New institute for justice education is established

Continuity Education, in partnership with the College of the Liberal Arts, is establishing an Institute for Continuing Justice Education and Research.

Daniel Maier-Katkin, professor and head of the Department of Administration of Justice, is acting director of the Institute. Staff members include **Edwin J. Donovan**, **James R. Horner**, and **John Sullivan**, assistant professors of administration of justice, and **Ted L. Altman**, lecturer. An 11-member national advisory board, representing all segments of the justice profession, has been named to offer technical assistance and guidance to the Institute.

The creation of the Institute as part of

Penn State Continuing Education gives us the opportunity to establish a permanent base from which to expand the highly successful courses we already offer both within and outside the Commonwealth," James H. Ryan, vice president for continuing education, said. "We also look forward to expanding our research activities and to setting up cooperative international programs. We anticipate that our planning in these areas will be greatly assisted by the Advisory Board."

Board members include: **Benjamin F. Brooks**, major, Pennsylvania State Police; **John C. Graham**, director, Domestic Relations Section, Court of Common Pleas, Westmoreland County; **Alfred W. Jacobs**,

chairman, Pennsylvania Board of Probation and Parole; **Dennis M. Luther**, warden, Federal Correctional Institute, McKean; **Tom McKenney**, supervisory officer, U.S. Board of Probation and Parole.

Also, **Ross F. Mirmelstein**, director of operations, National Sheriff's Association; **Barry K. Robinson**, attorney; **Louis A. Tyska**, corporate director, International Security, Revlon Inc.; **Don F. Walker**, president, Business Risks International; **Mary J. Wamsley**, Lakewood, Colo., police sergeant and director, International Association of Women Police; and **Beatrice A. Weaver**, Metro-Dade, Fla., police department.

Two of the best-known academic

programs which will now be handled out of the Institute are POLEX, Police Executive Development, and POSIT, Police Supervisory In-Service Training.

POLEX, which was developed in 1971 and now claims more than 1,500 graduates representing administrators in agencies from Vermont to Colorado, is a 75-hour, three-credit program offered twice yearly at University Park's Keller Conference Center and delivered by contract to interested agencies and training centers.

POSIT, designed primarily for first-line supervisors, is a one-week seminar that has attracted more than 1,200 participants.

Private Giving to Penn State

The Smeals donate Dr. Popp's books and papers to Libraries

Nearly 13 tons of books and papers collected by the late Henry W. Popp, Penn State professor of botany, have been donated to the University Libraries by his daughter and her husband, **Mary Jean and Frank Smeal** of Runsom, N.J.

Calling it a "vast personal collection," Charles Mann, chief of the Libraries' Rare Books and Special Collections, said the collection reflects Dr. Popp's broad and eclectic interests — botanical texts from the 16th century, books on medicine, Centre County history, Africa, Abraham Lincoln, and other general materials.

"A lot of the strongest material is what you would expect: botanical texts and materials, including a copy of Gerard's *Herbal*, published in London in 1586," Mr. Mann said. Most of the important books in the collection have been catalogued and are available in the Rare Books Room in Pattee Library, but much more is still in storage awaiting processing.

"We probably still have some discoveries to make," Mr. Mann added. For example, he recently opened a carton and found the original papers of a Centre County group that, between 1850 and

1890, was organized to catch horse thieves.

Valued at approximately \$57,000, the donation is the latest of many by the Smeals to what Mrs. Smeal has called "our family's school." Their largest gift was \$10 million to the Smeal College of Business Administration in 1989.

The Smeals both received bachelor's degrees from Penn State in 1942 — she in arts and letters and he in economics. After a 38-year career on Wall Street, Mr. Smeal is a limited partner with the investment firm of Goldman, Sachs & Co.

Dr. Popp, an Army veteran of World War I, obtained his bachelor's and master's degrees from Penn State in 1917 and 1922. After earning a doctorate from the University of Chicago in 1926, he joined Penn State's faculty as an assistant professor of botany. He became a professor in 1937 and served as head of the Department of Botany from 1950 until his retirement in 1958.

A co-author of what was at one time the world's best-selling college-level botany textbook, Dr. Popp died in State College in 1989 at the age of 96.

Ag engineering laboratory is established

Penn State alumnus **Harvey Corson** and his wife, **Dorothy**, of Muncy have given \$150,000 to establish an agricultural engineering laboratory at the University.

The Corson Laboratory in Electronics Instrumentation will provide instruction in developing and using state-of-the-art electronic components in agricultural machinery, food processing systems and structural control systems.

"We need to give our students additional training in electronics instrumentation, which is becoming increasingly important in all facets of agricultural engineering," said Dennis Buffington, head of the Department of Agricultural and Biological Engineering.

"The new laboratory, which replaces a facility developed in the 1940s, is helping us to provide that education," he added. "We're grateful to the Corsons for their generosity."

The Corson Laboratory is a teaching laboratory for undergraduate and graduate students in agricultural engineering, agricultural systems management and technology, and other students enrolled in service courses. The gift is being used for major building renovations and equipment purchases.

Mr. Corson earned a bachelor's degree in agricultural engineering from Penn State in 1936.

Graduate acoustics program gets grant

The Hewlett-Packard Co. has given a \$74,810 equipment grant to the Graduate Program in Acoustics.

The grant includes Hewlett-Packard Spectrum/Network Analyzers and Laser Jet III printers. The equipment will give students and faculty the opportunity to do research on state-of-the-art equipment. It also will be used

for laboratory demonstrations and instruction in underwater acoustics, vibration, noise control and acoustic signal processing.

The University's Acoustics Program is the largest department of its kind in the United States and enjoys a national and international reputation for leadership in research and education.

Promotions

Staff Exempt

William C. Ahlberg to checker/senior designer in Applied Research Lab.
Susan E. Ditty to research support assistant at Hershey.

David F. Dreese to advanced engineering aide in Applied Research Lab.

Leroy B. Eckley to checker/senior designer in Applied Research Lab.

Todd Fetterolf to designer, electro/mechanical in Applied Research Lab.

Robert J. Grove to advanced engineering aide in Applied Research Lab.

Cynthia J. Jones to development officer in Division of Development and University Relations.

Sandra M. Litzberger to program aide at Penn State Allentown Campus.

Joyce M. Matthews to assistant director, student programs and services at Penn State Mont Alto Campus.

Kathleen O. Meyer to reimbursement analyst at Hershey.

Rachel E. Murgas to financial analyst in Commonwealth Educational System.

Betty L. Nimbberger to acquisition budget analyst in University Libraries.

Charles A. Smith to administrative computing service officer in C&IS-Management Services.

Sharon L. Walczak to assistant to the

director, education in Office of the President.

Staff Non-Exempt

Daniel N. Ariola to computer tomography radiologist at Hershey.

Paula J. Beam to licensed practical nurse/medicine at Hershey.

Pamela R. Frisco to data and professional fees coordinator at Hershey.

Maria I. Hartel to research technician at Hershey.

Russell G. Knee to engineering aide in Applied Research Lab.

Lynne C. Pletcher to senior research technician at Hershey.

Susan E. Prout to licensed practical nurse/medicine at Hershey.

James C. Stine to engineering aide in Applied Research Lab.

Angelika D. Taraschi to patient account assistant at Hershey.

George A. Yesenosky to shift supervisor at Hershey.

Clerical

Elizabeth A. Benner to employee benefits clerk in Office of Human Resources.

Theresa M. Books to secretary C in Eberly College of Science.

Martha R. Bowman to secretary in Corporate Controller's Office.

Susan J. Bracken to senior clerk, Lending Services in University Libraries.

Bonnie L. Burris to secretary A in Corporate Controller's Office.

Freda W. Davis to secretary B at Penn State Erie, The Behrend College.

Karen A. Ewing to accounting clerk in Housing and Food Services.

Kim J. Gutshall to clerk, insurance team at Hershey.

Janice M. Keith to secretary A in Division of Development and University Relations.

Kathy A. Long to purchasing clerk at Hershey.

Loretta R. Marley to secretary A in Earth and Mineral Sciences.

Carol Oakes to secretary C at Penn State Ogontz Campus.

Mary D. Pelipsek to technical secretary A in Applied Research Lab.

Barbara A. Reed to medical transcriptionist/clerk typist at Hershey.

Lorraine P. Ritter to secretary B in Research and Graduate School.

Scott A. Smith to auditing clerk in Nittany Lion Inn.

Donna N. Stewart to room clerk in Nittany Lion Inn.

Sandra J. Stover to employee benefits clerk in Office of Human Resources.

Wende I. Stuck to secretary C in Engineering.

Mary A. Sundquist to clerk A in Earth and Mineral Sciences.

Judy A. Tice to clerk A in C&IS-Telecommunications.

Pamela S. Whayland to clerk, coding and abstracting at Hershey.

Tonya L. Wian to senior clerk in Education.

Technical Service

Brook L. Boyer to residence hall preventive maintenance worker in Housing and Food Services.

Dennis S. Burris to offset press operator multi-head in Office of Business Services.

James I. Burket to maintenance mechanic, repairs in Nittany Lion Inn.

Scott J. Caldwell to maintenance mechanic B at Penn State York Campus.

Thomas D. Harris to mechanic A, Waste Water Treatment Plant in Office of Physical Plant.

Stanley J. Kaluzny to utility meter technician A in Office of Physical Plant.

Barry W. McKinley to experimental machinist in Applied Research Lab.

Bryan F. Stehle to maintenance mechanic B at Penn State York Campus.

William L. Wittmer to area facilities maintenance mechanic in Office of Physical Plant.

Gradient Refractive Index Glass

New manufacturing process could revolutionize the glass industry

Thinner eyeglasses, less complicated and smaller photographic lenses and more carrying capacity for fiber optic connections may all be possible if ISOTEC Limited Partnership's process for manufacturing GRIN glass is commercialized, according to Guy E. Rindone, professor emeritus of materials science.

He has worked as a special consultant to the Tucson, Ariz., firm in helping to develop a glass that can be reliably and repeatably manufactured, and can bend, join, divide, direct and guide light beams in a predictable manner.

GRIN glass, or gradient refractive index glass, has been manufactured previously, but only through special chemical and heat treatments that are expensive, time-consuming, and produce only thin layers, Dr. Rindone says.

The ISOTEC process is a manufacturing process, not a post-process treatment.

"The new technology would remove current limitations on the design of traditional optical products such as cameras, leading to fewer lens elements, greater miniaturization and improved zoom lens systems. We could also manufacture multifocal eyeglasses that are thinner and lighter," he says.

In the telecommunications industry, GRIN glass would dramatically increase the carrying capacity of fiber optic cable and enhance optical computing

systems. Where once only one signal could be carried, up to 50 laser signals could occupy a fiber optic cable if a GRIN lens-based frequency multiplexer were used.

Glasses with different refractive indexes, the degree to which light is bent as it passes through the glass, can be manufactured by varying the content of heavy metals such as lead. However, simply placing increasingly greater refractive index glasses atop one another to gradually bend light, for instance, does not work. When the light hits the interface between the two pieces of glass, it is bent or refracted at a sharp angle, and some is reflected backwards. This layering method, by itself, produces light that travels in a stair-step pattern rather than in a smooth gradient.

According to Dr. Rindone, the interfaces between layers must be removed, leaving a gradual gradient rather than a sharp division.

"I have been involved with ISOTEC in developing the technique for fusing the different layers of glass and in designing the molds that hold the layers that are fused," he says.

He also has helped with determining the times and temperatures needed in the manufacturing process and in developing glasses used to make the layers.

Because different wavelengths of light are slowed and consequently refracted differently by glasses of different refractive index, careful planning is necessary

to design GRIN glass implements. A lens that acts as a prism, separating the colors of light, or a lens that concentrated light from large areas into a single focus could be manufactured, depending on the gradients incorporated.

ISOTEC's original research was in designing concentrators for solar collectors.

Dr. Rindone says an important aspect of the ISOTEC process is that the GRIN glass object is initially designed by computer using programs developed by Richard Blankenbecler, director of the Stanford Linear Accelerator Center and a consultant to ISOTEC.

"The profile of the gradient index is computed and the exact pathway the light will take is delineated," Dr. Rindone says. "Then, after selecting glasses having the appropriate indexes of refraction, the order and thickness of the layers and the time and temperatures needed to produce the smooth gradient are determined before actual manufacturing begins."

He presented the results of this research at the fourth International Otto Schott Colloquium at the Friedrich Schiller University in Jena, Germany. His co-authors were Dr. Blankenbecler and James J. Hagerty and David N. Pulsifer, ISOTEC.

— A'ndrea Elyse Messer

These photographs provided by ISOTEC illustrate the ability of GRIN glass to bend light beams. The photograph on the left shows a piece of GRIN glass (about the size of a

quarter) bending a light beam. In the second photograph, a piece of GRIN glass breaks light beams into their respective frequencies.

Staff Vacancies

The following vacancies for positions located at staff current or staff noncurrent have been listed with the University Employment Division for filling. The brief statements for each vacancy are illustrative. They are not complete position descriptions. **APPLY BY CALLING THE EMPLOYMENT DIVISION, 863-0304 (NETWORK LINE 433-0304).** Applications for these staff vacancies will be accepted until **June 20, DO NOT CONTACT THE AREA THAT HAS THE VACANCY.** Applications for staff vacancies are considered in accordance with Fair Employment practices (FES) and in compliance with the University's Alternative Action Compliance Program, without regard to race, color, religion, national origin, handicap or age (as provided by law), sex, or status as a disabled or Vietnam era veteran.

■01532, Financial Officer, Corporate Controller, University Park Campus - Responsible to the director, financial officers, and to the vice president for business and operations for primary assistance in financial matters and procedures within the limits of delegated authority, responsibility and accountability. Requires bachelor's degree or equivalent in accounting plus over four up to and including six years of effective experience in an institutional setting. A thorough knowledge of automated accounting systems such as IBIS and the Auxiliary Accounting System is desirable as well as excellent analytical/EDP financial systems experience. **STAFF GRADE 8**

■01533, Supervisor, Library Services, Applied Research Laboratory, ARL Administration, University Park Campus - Responsible to the assistant director, Planning, Operations and Administration, for the management of the library, preparation and monitoring of budgets and supervision of staff. Requires bachelor's degree, or equivalent, in library science or related field plus two to four years of effective experience in academic research or technical libraries and working knowledge of using systems resources. U.S. citizenship required. **STAFF GRADE 7**

■01534, Administrative Assistant, Eberly College of Science, Center for Cell Research, University Park Campus - Responsible for efficient overall

operation of office. Supervise clerical staff, prepare and monitor budgets, assist with five- and seven-year budget plans development, collect and maintain data for Sponsor Tracking System and subcontract reports. Requires bachelor's degree, or equivalent, preferably in business administration plus one to two years of effective experience including accounting, microcomputer applications and supervision. This is a **fixed-term position funded through June 30, 1992, with excellent probability of re-funding.** This is a re-announcement. Previous applicants must re-apply. **STAFF GRADE 6**

■01535, Senior Diversity Planning Assistant, Office of the President, Vice Provost, University Park Campus - Responsible to the vice provost for continuous monitoring of institutional research, planning, and analysis associated with the University's goal of promoting and enhancing cultural diversity. Requires bachelor's degree, or equivalent, in higher education or other educational field, public administration, or field related to policy analysis, plus two to three years of effective experience in higher education or cultural diversity planning activity. Excellent writing skills and a basic understanding of statistical techniques are essential. Master's degree or equivalent, and from one to two years of effective experience is preferred. **STAFF GRADE 7**

■01536, Project Manager, Office of Physical Plant, University Park Campus - Responsible to the director, Project Management, for the overall project development and management functions for University renovations, alterations and major maintenance projects. Requires bachelor's degree in architecture or engineering, or equivalent, plus four to five years of effective experience with increasing responsibility in major institutional and/or commercial project and construction administration. Registration as an architect or professional engineer preferred. **STAFF GRADE 8**

■01537, Supervisor, Food Services, Housing and Food Services, Altoona Campus - Responsible to the manager Housing and Food Services - Commonwealth Campuses, for all phases of a specific dining commons operation. Requires bachelor's degree, or equivalent,

plus one to two years of effective experience. **STAFF GRADE 5**

■01538, Assistant to the Director of Community Relations, Community Relations, Penn State Harrisburg - Responsible to the director of community relations for implementing public information, publications, special events, and alumni affairs activities as part of a comprehensive university relations program for the entire campus. Requires bachelor's degree in journalism, or equivalent, plus over one and up to two years of effective experience. This is a **fixed-term position funded from July 1, 1991, through June 30, 1992. Position may be renewed depending upon availability of funding.** **STAFF GRADE 6**

■01539, Area Representative, Penn State Great Valley, Continuing Education - Responsible for the functions of development, organization, delivery, and administration of Continuing Education programs and services within an assigned geographic district. Must assume administrative responsibility for planning, scheduling, staffing and conducting evening school class operations, workshops, conferences and contracting services with clientele organizations. Requires bachelor's degree and two to three years of effective experience in business, industry, or education with special emphasis on marketing and client management. **STAFF GRADE 7**

■01540, Representative, Delaware County Campus, Continuing Education - Responsible to the assistant director of continuing education for providing the University function of Continuing Education in an assigned service area. Assume administrative responsibility as assigned for planning, scheduling, staffing, conducting evening school class operations, workshops, conferences, and contracting services with clientele organizations. Requires bachelor's degree, or equivalent, plus two to three years of effective experience in business, industry or education. **STAFF GRADE 7**

Hershey

For the following position vacancies, apply directly to The Milton S. Hershey Medical Center. Attach resume with cover letter indicating the position vacancy code and forward to the

Department of Human Resources Hershey, or call the Hershey bid line at (717) 531-8531 by June 20.

■17505, Health/Science Writer, Department of Public Relations - Responsible to the director, Public Relations, for writing articles and informational material for the Public Relations Department with emphasis on in-depth science and health care articles. Requires a bachelor's degree or equivalency in journalism or related field plus one to two years effective experience as a working journalist or public relations practitioner in the areas of science, medicine and health care. Experience with computer word processing equipment desirable. **STAFF GRADE 6**

■17510, Assistant Manager, Department of Clinical Nutrition - Responsible to the manager, Clinical Nutrition, for assistance in staff supervision and education, program development, patient care and research. Requires a master's degree in nutrition or equivalent, and registered dietitian plus two to three years of effective experience. **STAFF GRADE 7**

■17507, Chaplain, Department of Pastoral Services - Responsible to the coordinator, Hospital Chaplaincy Program, for providing chaplaincy services to patients and their relatives in the University Hospital, including emotional and spiritual support and religious services. Requires a master of divinity degree or equivalency, fellow or eligibility for certification as a fellow in College of Chaplains, ordination or equivalent licensure by the candidate's own church body, plus 1-2 years of effective experience as a parish pastor. **STAFF GRADE 6**

■15062, Clinical head Nurse, Department of Nursing/Medical Intermediate Care Unit - Responsible to the nursing manager and/or the assistant director of nursing services for performing a variety of nursing duties, as well as providing leadership to nurse clinicians and other patient care personnel. Requires registered nurse with a current license to practice professional nursing in Pennsylvania, plus one to two years of effective nursing experience. Bachelor of science in nursing preferred. **STAFF NONEXEMPT, GRADE 5**

■14928, Clinical Head Nurse, Department of Nursing/Medical Intensive Care Unit - Responsible to the nursing manager and/or the assistant director of nursing services for performing a variety of nursing duties, as well as providing leadership to nurse clinicians and other patient care personnel. Requires registered nurse with a current license to practice professional nursing in Pennsylvania, plus one to two years of effective nursing experience. Bachelor of science in nursing preferred. **STAFF NONEXEMPT, GRADE 5**

■15015, Clinical Head Nurse, Department of Nursing/Pediatrics - Responsible to the nursing manager and/or the assistant director of nursing services for performing a variety of nursing duties, as well as providing leadership to nurse clinicians and other patient care personnel. Requires registered nurse with a current license to practice professional nursing in Pennsylvania, plus one to two years of effective nursing experience. Bachelor of science in nursing preferred. **STAFF NONEXEMPT, GRADE 5**

■15009, 15008, Clinical Head Nurse (two positions available) Department of Nursing/Pediatric Intermediate Care Unit - Responsible to the nursing manager and/or the assistant director of nursing services for performing a variety of nursing duties, as well as providing leadership to nurse clinicians and other patient care personnel. Requires registered nurse with a current license to practice professional nursing in Pennsylvania, plus one to two years of effective nursing experience. Bachelor of science in nursing preferred. **STAFF NONEXEMPT, GRADE 5**

■15002, Clinical Head Nurse, Department of Nursing/Pediatric Intensive Care Unit - Responsible to the nursing manager and/or the assistant director of nursing services for performing a variety of nursing duties, as well as providing leadership to nurse clinicians and other patient care personnel. Requires registered nurse with a current license to practice professional nursing in Pennsylvania, plus one to two years of effective nursing experience. Bachelor of science in nursing preferred. **STAFF NONEXEMPT, GRADE 5**

INTERCOM is published weekly during the academic year and every other week during the summer. It is an internal communications medium published for the faculty and staff of Penn State by the Office of Public Information, Room 312, Old Main, Phone 865-7517.

Two key Graduate School appointments are announced

Two key appointments in the Graduate School have been announced by **Charles L. Hosler Jr.**, acting executive vice president and provost, and senior vice president for research and dean of the Graduate School.

Barbara M. Shannon, distinguished professor of nutrition, has been appointed associate dean. She will succeed **Howard B. Palmer**, who will retire June 30.

William D. Taylor, associate dean for research and graduate education in the Eberly College of Science, has been named director of Intercollege Research Programs. He will succeed **Richard L. McCarl**, who also will retire June 30.

Dr. Shannon's research focuses on the study of psychosocial factors that influence eating behavior. She has coauthored a college textbook, *Nutrition: An Inquiry into the Issues*, and has written more than 50 articles and publications.

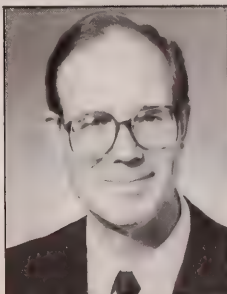

Dr. Shannon joined the University in 1971 as an assistant professor and was named associate professor in 1977, professor in 1983 and distinguished professor in 1990.

Among her professional achievements, she will serve as the 1991-92 president of the Society for Nutrition Education and has

Barbara M. Shannon

been president and executive board member of the Pennsylvania Nutrition Council; and editor, associate editor and a member of the editorial board of the *Journal of Nutrition Education*. She also is an active member of the American Institute of Nutrition and the American Dietetic

William D. Taylor

Association.

Dr. Shannon has served on numerous college and departmental committees, the University Faculty Senate and the Graduate Council.

Her degrees are a B.S. from University of Tennessee, M.S. from University of Illinois

and a Ph.D. from Purdue University.

A specialist in the study of radiation effects, Dr. Taylor also is a professor of biophysics and acting director of the Biotechnology Institute. He is primarily interested in organisms' molecular level responses to radiation and chemicals that sometimes lead to cancer.

He earned his bachelor's and doctoral degrees from Manchester University in England, and joined the University faculty in 1963 as assistant professor of biophysics.

He was named associate professor in 1966 and professor in 1971. He served as head of the Department of Biophysics from 1971 to 1975 and, from 1975 to 1983, was associate head of the Department of Molecular and Cell Biology.

Dr. Taylor has served on numerous college, department, Graduate School and Faculty Senate committees. He was chair of the Faculty Senate in 1972-73.

He is a member of the Radiation Research Society, Biophysical Society, American Society for Photobiology, American Society of Biological Chemists, American Society for Microbiology and the American Association for the Advancement of Science.

CEO at Altoona is appointed to head South Florida campus

James A. Duplass, campus executive officer at the Penn State Altoona Campus, has announced his resignation, effective Aug. 19, to become dean and executive officer of the Fort Myers Campus of the University of South Florida.

Dr. Duplass has made tremendous contributions to the Penn State Altoona Campus which have benefitted the entire University. Richard E. Grubb, senior vice president and dean of the Commonwealth Educational System, said,

"During his eight-year tenure, the campus has progressed in all areas required for a high institution of higher education. In addition, he has made significant university-wide contributions."

The University of South Florida's Fort Myers Campus is an upper division (junior and senior students) and graduate institution offering bachelor's degrees in business fields, nursing, education, and social sciences; an M.B.A., and a master's degree in education.

Task force will study faculty/staff benefits

President Thomas and Peter Deines, chair of the University Faculty Senate, jointly have appointed a task force to study and make recommendations regarding certain elements of the faculty/staff benefits program.

In view of escalating costs, growing complexities of benefits, and an interest in promoting health and overall well-being of faculty and staff at Penn State, the task force is charged as follows:

To recommend goals, broad timelines and potential strategies or approaches to reach the recommended goals of a benefit program for the year 2000. The task force is asked to focus on the benefits of health, dental and vision care as well as life insurance.

Members of the task force include **Robert W. Bernholz**, professor of biochemistry, Eberly College of Science; **Ruth C. DeShong**, secretary B, Penn State Altoona Campus; **Marilyn Eastridge**, assistant professor of exercise and sports science, College of Health and Human Development; **George W. Franz**, associate professor of history and American studies, Penn State Delaware County Campus;

The task force on faculty/staff benefits has been asked to recommend goals, broad timelines and potential strategies on approaches to reach recommended goals of a benefit program for the year 2000.

Elmore R. Hunter, County Extension Agent, Philadelphia County; **Kathryn J. Martin**, administrative assistant, Hershey Medical Center.

Barbara M. Merrill, administrative assistant, College of Engineering; **Robin C. Rager**, instructor, associate director of health education, College of Health and Human Development; **Robert A. Schlegel**, head, Molecular and Cell Biology/professor of microbiology, Eberly College of Science; **Daniel L. Trevino**, associate professor of applied physiology and director of minority programs, College of Health and Human Development; **J. Randall Woolridge**, professor of finance, The Smell College of

Business Administration, and **Wayne W. Zolko**, associate university auditor, Corporate Controller's Office.

Billie S. Willis and staff in the Office of Human Resources have agreed to serve as resource persons and provide staff support. Faculty and staff members who have concerns about the specific benefits indicated are encouraged to address them to **William F. Batcheiler**, 205 Ruder Building, University Park, PA.

Dr. Willis has indicated that the task force plans to meet over the summer and through the end of the calendar year and several recommendations advanced by January 1992.

Focus on Diversity

Five chosen to serve on coordinating council

Five University women have been chosen to serve on the Coordinating Council of Professional Women at Penn State, effective July 1.

Professional Women at Penn State is a grass-roots group whose participants develop and maintain a communications network and serve as a resource for other Penn State women. The group's Coordinating Council is composed of 10 volunteers who serve two-year terms, five of which expire each June.

The new Coordinating Council members include **Tineke J. Cunningham**, career counselor, Career Development and

Placement Services; **Jackie R. Esposito**, assistant archivist for records management, Pattee Library; **Lisa S. Wandel**, assistant director of food services, Housing and Food Services; **Sherry F. Walk**, secretary B, President's Office/University Office of International Programs; and **Tonya L. Wian**, senior library clerk, College of Education Library.

They will join **Lisa Davis**, research coordinator, Department of Meteorology; **Candace Davison**, reactor supervisor/nuclear education specialist, College of Engineering; **Marcia Haluga**, past chair of Professional Women at Penn State and

assistant to the associate dean for research, College of Earth and Mineral Sciences; **Barbara K. Kennedy**, chair of Professional Women at Penn State and dean's assistant for communications, Eberly College of Science; and **Cheryl Stroud**, research associate, Department of Dairy and Animal Science, whose terms continue through the 1991-1992 fiscal year.

For more information about Professional Women at Penn State, contact Barbara K. Kennedy, 228 Pond Laboratory, University Park, 863-4682.

Penn State Summer Sessions, 3 to 5 p.m., Paul Robeson Cultural Center. Presentation by Collins Aribenbuwa and Cyril Griffith. **Wednesday, July 10**
Penn State Summer Sessions, 3 to 5 p.m., Paul Robeson Cultural Center. Presentation by Summer Scholar in Residence program scholars Justine Saunders and Luz Maria Umperio-Herrera.

Gospel music featured on WPSX program

The soul-stirring, hand-clapping jubilation of gospel music will be performed by well-known artists on *Make A Joyful Noise*, 1990.

This music special, airing at 2:30 p.m. Saturday, June 29, on WPSX-TV, features several western Pennsylvania ensembles performing the many styles of gospel music. In addition, host Christopher Moore is joined by the Rev. Richard Allen Farmer, a noted musicologist who contributes entertaining and informative commentary.

Performers this year include: Alpha, an ensemble whose music is a unique blend of jazz and gospel; Eva Driver, a soloist whose

voice is powerful and lifting as she sings "It's In My Heart" and "Amazing Grace"; and One Accord, a talented group who sings contemporary upbeat tunes like "Victory" and the slow spiritual "It's So Sweet."

In *Movers/On Lyons*, *The Faithkeeper*, airing at 9 p.m. Wednesday, July 3, Bill Moyers talks with Oren Lyons, one of the most prominent Native American leaders in the international environmental movement. As faithkeeper of the Turtle Clan of the Onondaga Nation, Lyons is an activist, scholar and philosopher.

Colloquia scheduled at Robeson Center

The Office of Summer Sessions and the Paul Robeson Cultural Center are sponsoring a series of colloquia featuring faculty in the Summer Scholars in Residence program, University faculty and members of the University community.

The series will be held on Wednesdays from 3 to 5 p.m. at the Robeson Center on the University Park Campus. The presentations are:

-- July 3, **Collins Aribenbuwa**, assistant professor of health education, and **Cyril Griffith**, associate professor of history, both at Penn State;

-- July 10, **Justine Saunders**, Australian actress, and **Luz Maria Umperio-Herrera** of Western Kentucky University;

-- July 17, **Oliver St. Clair Headley** of the University of the West Indies, and **Melvin Heard** of the University of Illinois at Chicago;

-- July 24, **Ron-Guey Chu**, St. Lawrence University, and **Winston Richards**, associate professor of mathematics at Penn State Harrisburg;

-- July 31, **James Stewart**, Penn State vice provost.

College cited by DOE for summer program

The College of Earth and Mineral Sciences has received a grant and special plaque from the U.S. Department of Energy in recognition of its successful development of an innovative summer program to interest women and minority students in science.

Since 1988, the EMS Summer Institute held at University Park and Wallops Island, Va. has been a popular introduction to some out-of-the-ordinary science topics for 10th and 11th graders from George Westinghouse High School, Perry Traditional Academy, and the Secondary Saturday Science Academy in Pittsburgh.

The EMS program consists of a marine

science field program for 11th graders and an energy program that introduces 10th graders to oil drilling and the work of petroleum engineers, and to some ways technology is addressing environmental issues associated with coal.

The DOE Program is designed to "recognize and support exemplary programs that focus on assisting economically disadvantaged and minority students to prepare for science and mathematics programs," according to Melva G. Wray, director of DOE's Office of Minority Economic Impact.

Scholars in Residence

Taking part in a reception for the University's Scholars in Residence are, from left, Robert E. Dunham, vice president and vice provost, President Thomas, and Rufus S. Lynch, director of court management, Supreme Court of Pennsylvania. Dr. Lynch is teaching at the Penn State Delaware County Campus. (Photo: Greg Grieco)

Four proposals selected for Agriculture's research grants

Four proposals submitted to the College of Agriculture's Intercollege Research Grants Program have been selected for funding. The program allows faculty from the College of Agriculture to pursue research projects with co-investigators from other administrative units.

Of 34 proposals received, the following were funded:

"Rural Tourism and Its Potential for Economic Development in Natural Resource Areas," **Albert Luloff** and **Kenneth Martin**, Agricultural Economics and Rural Sociology; **Mary Saylor**, Agricultural and Extension Education; and **Alan Graefe** and **Richard Gitelson**, Leisure Studies.

"Molecular Basis of Glandular Trichome Resistance: Towards Environmentally Compatible Pest Management," **Diana Cox-Foster** and **Ralph Mumma**, Entomology; **Richard Craig**, Horticulture; and **June Medford**, Biology.

"Efficiency of Plant Root Systems: A Quantitative Approach," **Jonathan Lynch**, Horticulture; **Roger Koide**, Biology; and **A.G. Jabllok**, Mechanical Engineering. "Root Reactor Design for Scaled-Up Production of Pharmaceutical Proteins," **Paul Walker**, Agricultural and Biological Engineering; **Hector Flores**, Plant Pathology and the Biotechnology Institute; and **Wayne Curtis**, Chemical Engineering.

Two Administrative Fellows appointed for 1991-92

Appointment of two Administrative Fellows for 1991-92 has been announced by the Office of the President and the Commission for Women.

Silvia G. Cabrera, director of administrative services, Office of University Development, will serve under the mentorship of Steve A. Garban, senior vice president for finance and operations.

Catherine G. Lyons, director of the Center for Minority Graduate Opportunities and Faculty Development, will serve under the mentorship of John A. Brighton, executive vice president and provost of the University.

Ms. Cabrera joined the staff in 1988 as assistant director of administrative services in University Development. She was promoted to her present position in December, 1989.

She is a graduate of the University of Arizona with a degree in accounting. Prior to joining the University, she served as an internal auditor for Phelps Dodge Corporation, Douglas, Ariz., and was employed by several banks in Houston.

Silvia G. Cabrera

Dr. Lyons earned her bachelor's degree in home economics from South Carolina State College, Orangeburg, S.C., in 1970. She received her master's degree in

Catherine G. Lyons

education from Bank Street College of Education in 1975 and her doctorate in agricultural and extension education from Penn State in 1988.

An affiliate professor of agricultural and extension education, she has been a member of the University faculty for three years. She is a member of the Association of Agricultural and Extension Education, Phi Delta Kappa, Black Early Childhood Educators, and African-American Educators.

The Administrative Fellows Program is designed to provide an opportunity to enhance the administrative talents and qualifications of women and minorities by involving them in mentorship experiences with top-level administrators at the University.

The program provides opportunities for Fellows to participate in a wide range of decision-making processes, learning activities, and program management, so that they are better equipped to handle the challenges of higher education administration. The Fellows Program also will help create a pool of qualified women and minorities for potential administrative vacancies, both inside and outside the Penn State community.

Los Angeles Times reporter wins award

Thomas B. Rosenstiel, a reporter with the *Los Angeles Times*, was named the winner of the 1991 Lowell Mellett Award for outstanding media criticism during judging at University Park.

The \$1,000 award recognizes outstanding contributions to the improvement of print and broadcast journalism through responsible analysis or critical evaluation. It has been administered by the School of Communications since 1984.

Special citations were presented to Robert F. Keeler for his book *Newsday: A Candid History of the Respectable Tabloid*; Fred Friendly and the public television/Columbia University seminars on media and society for "The Other Side of the News" series, specifically the programs titled "The Boston Hoax - the Police, the Press and the Public" and "Television and Terrorists: Who Calls the Shots?"; and to KVUE-TV in Austin, Texas, for a series of "Truth Tests"

applied to candidates' commercials in a number of state political races.

"Mr. Rosenstiel is a gifted and unconventional media critic who consistently illuminates the influence of the press on politics," the judges said. They lauded Mr. Rosenstiel's "awareness of social and technological trends which provide a context for his insightful analyses on society."

The award was presented to Mr. Rosenstiel specifically for his articles on the role that media played in the overthrow of

Communist governments in Central Europe, for explaining the technological changes in the television industry that have turned anchors into living network logos at the scene of far-flung news events, and for his revealing articles on the pattern of media coverage in the early days of the Iraq-Kuwait crisis.

The Mellett Award, now in its 12th year, is named in honor of the distinguished Scripps-Howard editor and syndicated columnist who died in 1960.

Statement on President Thomas's compensation

Following is a statement from Board of Trustees President Marian U. Coppersmith Freedman:

In 1982, in a public meeting the Penn State Board of Trustees adopted a resolution that established current procedures to be followed in setting compensation for University senior executives. These have been followed since that time.

The Board authorized the president of the Board to determine within budgetary limits of the University compensation for the president of the University, the provost, the senior vice president for administration (this position was eliminated in 1989), the senior vice president for finance and operations, and the provost and dean of The Milton S. Eisenhower Medical Center (currently the senior vice president and dean of The Milton S. Eisenhower Medical Center).

The Board required the president of the Board of Trustees to consult with and receive the recommendation of the president of the University (except with respect to his or her compensation), the

vice president of the Board of Trustees, the chairperson of the Committee on Finance of the Board, and the immediate past president of the Board where that person is still a member of the Board. However, the decision with respect to compensation rests solely with the president of the Board acting in an administrative capacity.

These procedures were established in concert with a long-standing and carefully thought-out Board policy to respect the confidentiality of salaries in a manner that complies with legal requirements applicable to Penn State, including the Commonwealth's Sunshine Law. They are the procedures that were followed when Penn State President Joab Thomas was hired in September 1990.

Dr. Thomas, concerned about the recent discussions in the press regarding compensation for University presidents, has sought and received my approval to release the particulars of his personal compensation package with the University. This decision is consistent with current policy regarding the

confidentiality of salaries since it is a voluntary action on the part of Dr. Thomas. In concert with the procedures established by the Board, I authorized this after consulting with Mr. William A. Schreyer (vice president of the Board), Mr. Edward P. Junker (chairperson of the Committee on Finance), and Mr. J. Lloyd Huck (immediate past president of the Board).

The details of President Thomas's compensation package with the University follow: Dr. Thomas's annual salary is \$200,004. In addition, he, like his predecessors, is asked to live in the University's President's Residence and is provided an automobile. He participates in all the normal health and insurance benefits of the University. Regarding his retirement program, he participates in the Teachers Insurance and Annuity Association and College Retirement Equities Fund (TIAA-CREF) retirement programs. These plans are available to all Penn State employees as an alternative to the State Retirement System.

TIAA and CREF are non-profit

insurance and annuity companies whose membership is limited exclusively to employees of colleges and universities and related institutions. TIAA is a legal reserve life insurance and annuity company and returns a fixed annuity. Its companion CREF was established to provide benefits based on money market and common stock investments. Retirement income from membership in TIAA-CREF is determined by the amount of money that has been contributed to the account by the employee and the University, the age at retirement, and the performance of the TIAA-CREF investments. Therefore, there is no rule of thumb for calculating too far in advance the amount of the TIAA-CREF benefit that an individual might receive at the time of retirement.

Dr. Thomas contributes 5 percent of salary and the University contributes up to 15 percent of salary to TIAA-CREF, subject to Internal Revenue Code limitations. The University does not provide Dr. Thomas with any additional pension benefits.

Focus on the arts

The arts on Channel 3

The award-winning series *Antarctic Masters* returns to WFSX-TV for its sixth season of documentaries profiling the lives and achievements of some of our country's most influential cultural figures.

The series begins at 9 p.m. Monday, July 1, with "Helen Hayes, First Lady of the American Theatre." The program offers a loving tribute to the legendary actress once known as "the triple threat" for her work on stage, screen, and radio.

"Is there, in fact, a crisis in the arts?" This pivotal question is put to a panel of six experts by moderator Susan Strimberg, special correspondent for National Public Radio, in *Crisis in the Arts: Politics, Censorship and Money*, airing at 10 p.m. Monday, July 1.

Evening At Pop features the distinctive theater music of Leonard Bernstein on "Bernstein's Broadway," a showcase of songs from the late maestro's musicals airing at 8 p.m. Sunday, July 7.

'Diversions'

The Office of Summer Seasons is sponsoring semester-long "Diversions" activities at University Park.

The Music at Noon will be held at Fisher Plaza on the following dates:

Tuesday, July 2: Passport; Tuesday, July 16: Gordon Law; Thursday, July 18: Bruce Young; Tuesday, July 23: Richard Victor Quintet; Thursday, July 25: Pastor; Tuesday, July 30: Gordon Law; Thursday, Aug. 1: Chris Byrne; and Tuesday, Aug. 6: Bruce Young.

Ice cream "Divisions" will be held at the Creamery/Pavilion from 7 to 8 p.m. The cost is 50 cents with a coupon and \$1 without a coupon.

In addition, music will be provided on the following days with the listed musicians: Friday, June 28: Gordon Law; Friday, July 19: World Famous Little German Band; Friday, July 20: Gordon Law; and Friday, Aug. 2: Bavarian Stompers.

Bowling "Divisions" will be held at the Penn State Bowling Lanes located in Recreation Building from 7 to 9 p.m. or 9 to 11 p.m. The cost is \$1 with coupon and \$2 without a coupon, which includes games and shoes. Bowling will be held on Tuesday, July 23 and Tuesday, July 23.

Ice skating "Divisions" will be held from 8 to 11 p.m. Thursday, July 18, at the Penn State Ice Rink. The cost is \$1 with a coupon and \$2 without a coupon, which includes skate rental. For more information or assistance, please contact the Summer Sessions office at 863-4174.

Odyssey on WPSU

What fascinates Europeans about American literature is the subject of the next Odyssey Through Literature program, "A World Elsewhere."

Guest Peter Nicolson, a professor of English in Germany who has written critical works on such American authors Hemingway and Faulkner, says, "American

'Three Chrysanthemums and Butterfly,' a Chinese brush painting by Annette McHugh, is on display in Paffee Library.

authors, both in the 19th and the 20th centuries, have found it difficult to actually take hold imaginatively of the new continent, to possess the new continent."

"Cultures need other perspectives, like mirrors, in which to examine themselves," says John Balaban, a poet and professor of English at Penn State, on the July 11 "Odyssey Through Literature" program, "A Woman Alone on the Road."

Professor Balaban and host Leonard Rubinstein examine *Poets of Bulgaria*, an anthology of translations and adaptations of the works of 24 Bulgarian poets, all but two of whom are still living.

"Odyssey Through Literature" is produced by the Department of Comparative Literature in the audio-production studios of WPSU-TV. It airs Wednesdays at 12:30 p.m. on WPSU, 91.1 FM.

Aboriginal art

"Karnta," a collection of Australian aboriginal women's art, is on exhibit until June 30 in Kern Galleries and from July 1 to 13 in Spruce Cottage at University Park.

The exhibit includes traditional and modern work in natural materials such as batik fabrics, paintings on bark, sand and canvas as well as baskets, bags and necklaces, and is sponsored by the Australian government and brought to the University by the Australian-New Zealand Studies Center.

"Australian aboriginal women's art is becoming recognized internationally as a significant art form," Hugh Compston, acting associate director of the Australian-New Zealand Studies Center, said. "Many of the paintings, fabrics and decorative items in this collection reflect symbols and myths from the 'Dreamtime,' a time long ago when the gods stalked the Earth."

The exhibit of women's art was organized by the Association of Northern and Central Australian Aboriginal Artists, which represents 20 art centers throughout

Western Australia, the Northern Territory and South Australia. The association was formed to ensure that the control of aboriginal arts remains with aboriginal people and to preserve the autonomy of existing community crafts centers.

For more information, contact Hugh Compston at (814) 863-1603.

Chinese brush paintings

"Birds, Rocks and Flowers," by Annette McHugh is on display in Paffee Library's West Lobby Gallery through July 15.

The exhibit features paintings by the artist in the centuries-old technique of ink on rice paper, used in traditional Chinese brush paintings.

Ms. McHugh majored in business education at Indiana University of Pennsylvania and began her formal study of art in 1980. Since then, her paintings have appeared in several juried shows throughout Central Pennsylvania and exhibited at the Chambers, Kern and the Hietzel Union Building Browning galleries. She is a member of the Art Alliance of Central Pennsylvania.

Fred Waring group

Members of the Fred Waring Elderhostel group who are attending a music and choreography workshop at University Park will perform a free concert at the conclusion of their session at 6:30 p.m. Friday, July 5, in Keller Building auditorium.

The group will sing a medley of old favorites. The public is invited.

Music at Penn's Woods

Guest conductor Peter Luckner will conduct the second concert of the 1991 Music at Penn's Woods festival at 7:30 p.m. Saturday, July 6, in Schwab Auditorium at University Park.

The program will include Bach's Concerto for Violin and Oboe, Dvorak's Symphony No. 8 in G, Op. 88 and Mozart's Symphony No. 29 in A. K. 201. Marthe DeVries, violin, and Barry Kroeker, oboe, are featured soloists in the Bach concerto.

Ms. DeVries is a member of the Kansas City Symphony Orchestra. Mr. Kroeker performs with the Pennsylvania Quintet, Penn State's resident wind quintet chamber ensemble. Both are members of the Music at Penn's Woods faculty.

Chief conductor of the Konzertensemble Salzburg, Mr. Luckner regularly guest conducts in Germany, the United States and Spain. He founded the Merck Chamber Orchestra of Darmstadt, Germany, and served as principal conductor for eight years.

In addition to the Saturday evening concert, free chamber recitals will be given at 3 p.m. Sunday, July 7, and 7:30 p.m. Wednesday, July 10, in the School of Music Recital Hall. Music at Penn's Woods, a program of the School of Music, is co-sponsored by the Office of Summer Sessions.

Tickets for Saturday's concert are \$6 for adults and \$4 for students. For more information, call Eisenhower Auditorium Ticket Center, open 8:30 a.m. to 4:30 p.m., Monday through Saturday, at (814) 863-0255.

Students to perform

Two groups from the Penn's Woods Institute will perform Saturday, July 6, at University Park.

Piano and organ students from the institute will perform at 10 a.m. and the institute orchestra will perform at 2 p.m. in the School of Music Recital Hall. The Penn's Woods Institute, composed of 35 outstanding high school musicians, is the latest addition to the Music at Penn's Woods faculty. Douglas Meyer, associate professor of music at Penn State and director of music at Penn's Woods, will conduct the orchestra.

The students, selected in a competitive process, represent Pennsylvania and surrounding states. During their week-long residency, students receive private instruction from the Music at Penn's Woods faculty, comprised of University instructors and other professional musicians. Students also attend music theory and history classes. Both concerts are open to the public.

Festival of the arts

The 1991 Central Pennsylvania Festival of the Arts is offering a wide range of activities and exhibitions in downtown State College and on the University Park Campus from Wednesday, July 10, through Sunday, July 14.

This year's festival will feature a juried sidewalk sale of 325 visual artists selected from the United States and 40 visual artists selected from Central Pennsylvania. Sidewalk sales will begin on Thursday, July 11, and will continue through Sunday, July 14.

The Arts Festival will offer the Crafts National 25 exhibit at the Zoller Gallery and Images '91 exhibit at the HUB Formal Gallery. Both exhibits will be open to the public for the entire month of July.

A special exhibit of original children's work from the Republic of Armenia in the Soviet Union, combined with the annual K-12 student exhibit, will be held at St. Andrew's Church.

In its continuing effort to foster art opportunities for persons with sight loss, the festival will offer the "Festival Eyes" program, Thursday through Saturday, July 11-13. Visually impaired visitors will be able to take guided tours of participating artists' booths with trained volunteers, ensuring that those with special needs benefit from the Festival.

Children and Youth Day, Wednesday, July 10, will feature workshops, performances and hands-on activities that relate to the theme: Creative Hands.

The performing arts program will feature more than 100 presentations on four stages

See 'Arts' on page 5.

Special Events

Thursday, June 27
Summer Sessions: music at noon, Fisher Plaza;
summer seminar, 3:30 p.m., Nittany Lion Inn

Friday, June 28
Summer Sessions, ice cream "diversions," 7-8
p.m., Creamery/Pavilion, jam, 9 p.m.-1 a.m.

Saturday, June 29
Music at Penn's Woods, 7:30 p.m., Schwab
Aud., Douglas E. Meyer, conductor.

Sunday, June 30
Shaver's Creek Nature Crafts, 1-2:30 p.m. Call
863-2000

Music at Penn's Woods: chamber music series,
3 p.m., Music Building Recital Hall.

Tuesday, July 2
Summer Sessions, music at noon, Fisher Plaza;
bowling "diversions," 7-9 and 9-11 p.m., Rec
Hall.

Wednesday, July 3
Summer Sessions, summer scholars, 3-5 p.m.,
Paul Robeson Cultural Center; HUB lawn film,
9 p.m.

Fireworks/stadium area (rain date July 4).

Thursday, July 4
Independence Day Holiday--no classes.
Music at Penn's Woods, 7:30 p.m., Recital
Hall.

Friday, July 5
Fred Waring Elderhostel concert, 6:30 p.m.,
Keller Aud.

Music at Penn's Woods, 7:30 p.m., Schwab
Aud.

Sunday, July 7
Music at Penn's Woods, 3 p.m., Music Building
Recital Hall

Tuesday, July 9
Summer Sessions, music at noon, Fisher Plaza;
architecture lecture, 4 p.m., 112 Walker.

Wednesday, July 10
Central PA Festival of the Arts, Children's
Day, Sidewalk Sales, through July 14.

Summer Sessions, summer scholars, 3-5 p.m.,
Paul Robeson Cultural Center; Music at Penn's

Guest conductor Peter Luckner will direct the second concert of the 1991 Music at Penn's Woods festival of 7:30 p.m. Saturday, July 6, in Schwab Auditorium.

Woods, 7:30 p.m., Music Building Recital Hall;
HUB lawn film, 9 p.m.

Thursday, July 11
Trustees meet at Schuylkill Campus, through
July 12.

10th annual Penn State Conference on Rhetoric
and Composition, through July 13.

Saturday, July 13
Music at Penn's Woods, 7:30 p.m., Schwab
Aud.

Sunday, July 14
Music at Penn's Woods, 3 p.m., Music Building
Recital Hall.

Public Radio

WPSU-FM 91.1
"All Things Considered," Monday-Friday, 5-
6:30 p.m.; Saturday and Sunday, 5-6 p.m.;
Morning Edition, Monday-Friday, 6-8 a.m.;
Weekend Edition, Saturday and Sunday, 11
a.m.-1 p.m. "Odyssey Through Literature,"

12:30 p.m. Wednesdays, with S. Leonard
Rubinstein, "Perspectives," 6:30 p.m. p.m.
Wednesdays, with Jeff Ballou, "Creative
License," 12:30 p.m. Thursdays, with Asa
Berlin and Pam Saulner

July 10-13. Rhetoric and Composition, John

Harwood, chair, Chuck Herd, coordinator

July 11-13. Minority Advanced Placement
Program, Dan Trevino, chair, Donna Ricketts,
coordinator

Exhibits

Kern Galleries

■ **Kernitz:** a collection of Australian
diagonal women's art through June '90, and
from July 1-13 in Spruce Cottage

National Cable TV Center/Museum
40 years of cable television exhibit, through
June 30

Pattee Library
East Corridor Gallery:
"Where is Reality?", photo collages by Stan
Miller, through July 5.

Lending Services Gallery:
Ted Heine, "Psychic Paintings," through July
15

Penn State Room:

■ **JRB:** 100 John R. Bracken and the
Development of Landscape Architecture at
Penn State, through Sept. 30.

Rare Books Room:

■ **"Marbled and Decorated Papers,"** through July
15

West Lobby Gallery:

Annette McHugh, "Birds, Rocks and Flowers,"
through July 15.

Zoller Gallery:

■ **"Metamorphosis of a Butterfly,"** sponsored by
Pa. Council on the Arts and Office of Summer
Sessions, through June 30

Arts cont.

over the course of the five-day festival.
These events include: Chick Street Man, July
10; Helicon, July 11; Bell of
Pennsylvania Yellow Pages Jazz Mania, July
12; Penn State Reunion Bands from the
70s and 80s, July 13; and Jazz Legends,
July 14.

A special 25th anniversary gala, titled
"Paint the Town," will take place on
Sunday, June 30, at the Toftrees Resort in
State College.

The Central Pennsylvania Festival of the
Arts annually attracts more than 200,000
visitors during the five days of programs
and exhibitions.

Pattee exhibit

On display in Pattee Library's Lending
Services Gallery is an exhibition of acrylic
paintings titled "Psychic Paintings" by Ted

Heine. The works will be on display
through July 15.

Of the works, the artist remarks, "The
paintings were made in a state of psychic
automaticism. They have become maps of
the inner mind with the function of
bringing the inner mind to the outside
world."

HUB lawn films

The Hetzel Union Building is sponsoring
films for the summer semesters.

The films each begin at 9 p.m. on
Wednesdays: July 3, "Witches of Eastwick,"
July 10, "Who Framed Roger Rabbit?," July
17, "Outrageous Fortune," July 24, "Dirty
Rotten Scoundrels," and July 31, "The
Dream Team."

In case of rain, the films will be shown in
the HUB Assembly Room.

Biotechnology Institute receives grant

The Biotechnology Institute has been
awarded a five-year \$450,000 Training
Grant by the National Institutes of Health.

The award, which becomes effective July
1, will provide stipends, tuition and an
institutional allowance for three graduate
students the first year and six students per
year for the remaining four years of the
grant.

In making the award, NIH emphasized
the importance of multidisciplinary training
with the goal of producing a new cadre of
scientists capable of crossing traditional
academic boundaries.

The training grant will be administered
through the Biotechnology Institute which
will sponsor biotechnology seminars,
workshops, special courses and events for
the graduate student trainees.

In keeping with the interdisciplinary
nature of the grant, 33 faculty members

from 14 graduate programs participated in
the training grant proposal.

The training grant proposal steering
committee is composed of Jean Brencley,
professor of molecular and cell biology/
biotechnology, as principal investigator; and
Alfred Carlson, assistant professor of
chemical engineering; Hector Flores,
associate professor of plant pathology;
Allen Phillips, professor of biotechnology;
Jack Shannon, professor of plant
physiology, and David Tu, professor of
biotechnology.

The colleges of Agriculture, Engineering
and Science will support the training grant.

"The prestige of the training grant, the
additional stipends and the expertise here at
Penn State will allow us to recruit highly
talented students for this program," Dr.
Brencley said.

Symposium in molecular biology to be held July 24-26

The Tenth Summer Symposium in Molecular Biology, titled "Molecular Interactions in Plant Development," will be held July 24-26 at University Park. The symposium will focus on recent discoveries in plant genetics and molecular and cell biology and will address key questions about plant maturation processes, including how molecular events allow plants to respond to genetic and environmental signals.

Jeff Schell, director of the Department of Genetic Principles of Plant Breeding at the Max Planck Institute, Germany, will give the keynote address. The Thomas J. Watson Jr. Lecture in Molecular Biology, at 2:30 p.m. Wednesday, July 14, at 2:30 p.m. in Schwab Auditorium. His lecture will examine "Genes Involved in the Commitment of Plant Cells to Differentiation."

In addition to Schell, 16 scientists from universities and public and private sector research organizations in the United States, Germany, and England will speak at this year's symposium.

The 1991 Summer Symposium in Molecular Biology is supported by the Eberly College of Science and its departments, the Biotechnology Institute and Bioprocessing Resource Center, the Office of the Senior Vice President for Research and the Dean of the Graduate School, the College of Agriculture and its departments, and departments at the Milton S. Eisenhower Medical Center. This year's co-chairs are **Donald A. Bryant**, associate professor of molecular and cell biology, **Teh-hui Kao**, assistant professor of molecular and cell biology, and **June Medford**, assistant professor of biology.

Industry sponsors include Hershey Foods

Jeff Schell

Corporation, IBM Corporation, PPG Industries Inc., Schering Plough Research, Dekalb Plant Genetics, and SmithKline Beecham Pharmaceuticals.

Penn State's Faculty of the Summer Symposium in Molecular Biology has organized this symposium since 1982 to provide a forum for information and technology transfer and to establish collaborative research goals among university scientists, public and private sector research institutions, and industry. The keynote address is open to the public free of charge; only paid registered participants will be admitted to the remaining symposium sessions and events. For information, please contact Beverly LaPorte, symposium coordinator, in 329 South Frear Laboratory, University Park, Pa. 16802, or phone (814) 863-3696.

Annual rhetoric conference set for July 10-13

The 10th annual Penn State Conference on Rhetoric and Composition will be held Wednesday, July 10, through Saturday, July 13, at University Park.

Each year, the conference draws scholars and teachers from across the country for workshops, seminars and lectures, including a special seminar this year on "New Ideas for the Writing Classroom" and a symposium on the "History and Theory of Rhetoric."

The following lectures by nationally recognized scholars are open to the public.

Peter Elbow, professor of English at the University of Massachusetts, will give the keynote address, "Judging Versus Liking," at 10:30 a.m., Wednesday, July 10, in 104 Keller Conference Center.

Author of numerous essays on writing, literature and teaching, he won theaddock Award in 1985 for "The Shifting Relationships Between Speech and Writing." Among his recent essays is "The Pleasures of Voice in the Literary Essay."

Explorations in the Prose of Gretel Ehrlich and Richard Selzer."

John Schilt, professor of English at the University of Maryland, will speak on "The Writer's Foucault in Always a Fiction: When Critical Theory Travels to Composition," on Thursday, July 11, at 8:30 a.m. in 104 Keller. He has written on rhetoric, non-canonical literature, literary and composition theory, and women's studies. His latest work is the essay "Deconstructing Didion: Poststructuralist Rhetorical Theory in the Composition Class."

Linda Brodkey, professor of English at the University of Texas at Austin, will speak on "Making a Federal Case out of Differences," on Thursday, July 11, at 3:30 p.m. in 104 Keller. Author of *The Language in Metaphor*, she has written on adult literacy, composition and textual analysis.

James J. Murphy, professor of speech at the University of California-Davis, will

discuss "Old Rhetorics for the New," at 4:15 p.m. Friday, July 12, in 112 Kern Graduate Center. A specialist on the history of rhetoric, he has written articles, including "Implications of the Renaissance of Rhetoric in English Departments."

For more information, contact John T. Harwood at 865-4764.

Parting

Emma L. Bressler, food preparer in Housing and Food Services, has retired after 23 years of service.

Ms. Bressler first served on the maintenance staff cleaning offices and classrooms. Since 1965, she has been responsible for preparing meals for Redifer dining commons in South Halls.

During retirement, she plans to garden, take a trip to Canada and finish building her family's new home in Mont Alto.

Obituaries

Byron H. Ginter, 51, associate extension agent and county extension director for Huntingdon County, died May 14.

He joined Penn State Cooperative Extension in 1968 and served as assistant county agent in Cumberland County before being assigned to Huntingdon County. He was involved in county 4-H programs and dairy nutrition.

A native of St. Mary's, he earned a bachelor of science degree in agricultural and biological science from Penn State in 1963 and did graduate work in agricultural education at the University.

Joseph E. Shick, county extension agent for Lawrence County, died May 14. He was 55.

He was responsible for livestock programs for beef, sheep and swine production and for marketing programs for adults and youth, as well as handling agronomy projects.

In 1957, after earning a bachelor of science degree in animal science from Penn State, he was appointed assistant

Westmoreland County agent. He was later transferred to Lawrence County and was promoted to associate county agent in 1962. He was promoted to county agent in 1970.

Marshall R. Spayd, extension agent in Huntingdon County, died May 14. He was 53.

A specialist in solid waste management for Huntingdon, Fulton and Bedford counties, he also was responsible for conducting educational community development programs for youth and adults in those counties.

Mr. Spayd received a bachelor of science degree in music education from Penn State in 1962 and a master's degree in education in 1965.

Prior to joining Penn State Cooperative Extension as a 4-H agent, he taught music for 16 years in the Mount Union and Central Fulton school districts.

Staff Vacancies

■19229, Poison Information Specialist, Department of Emergency Services—Responsible to the coordinator, Poison Center, for providing information, making patient assessments and treatment recommendations pertaining to poisoning and toxicology to medical and nonmedical persons. RN with current FA License or B.S. degree in pharmacy plus up to 1 year of effective experience in emergency or critical care nursing or poison center experience required. Within 2 years of eligibility, must successfully complete the AAFCC certification examination for specialist in poison information. STAFF NONEXEMPT, GRADE 4.

■19905, Clinical Head Nurse, Department of Nursing Services—Responsible to the nursing manager and/or the assistant director of nursing services for performing a variety of nursing duties, as well as providing leadership to nurse clinicians and other patient care personnel. Requires a registered nurse with a current license to practice professional nursing in Pennsylvania, plus one to two years of effective nursing experience. BSN preferred. STAFF NONEXEMPT, GRADE 5.

News in Brief

Child care facilities

The summer 1991 edition of the *State College Area Child Care Facilities* listing is now available. Updated each semester, this publication includes information on about 30 different facilities which provide childcare in the immediate vicinity of the University Park Campus. Information includes hours of service, ages served, cost, enrollment size, and services provided.

The pamphlet, produced by the Graduate Student Association (GSA), is available free of charge. GSA, located in 111B Kern Building at University Park, is open Monday through Friday from 9 a.m. to 5 p.m. (including noon to 1 p.m.). 865-4211.

Summer Sessions seminars

The Office of Summer Sessions is sponsoring Summer Sessions at the Nittany Lion Inn, Fireside Lounge. A reception will be held at 3:30 p.m. prior to the talk at 4 p.m. on each scheduled day.

The dates, speakers and topics are: July 18, **Richard Robinett**, assistant professor of physics, "Physics of the Superconducting Super Collider"; July 25, **David Bressoud**, professor of mathematics, "Factoring Large Numbers: What Can We Do and Why Do We Care?"; and Aug. 1, **William Dunson**, professor of biology, "Ecotoxicology and the National Ecological Debt: Effects of Acid Rain and Strip Mines on Aquatic Life."

Focus on Research

Intercom
June 27, 1991

AIDS may pose a threat to the future of Native American Indians

Cultural practices that may expose a major portion of the Native American Indian population to AIDS and the HIV virus may also limit prevention measures, according to a University study.

The objective of the study, conducted by L.A. Napier, assistant professor of education, and G. Mike Charleston, associate professor of education, was to determine the best way to get AIDS prevention knowledge to American Indian out-of-school youths.

The study is titled "An Indian Plan for Addressing AIDS Education for Out-of-School and College-Aged Indian Youth for the Centers for Disease Control and the Indian Health Service."

"The study reveals that Acquired Immunodeficiency Syndrome is on the increase among American Indians, that cultural practices may contribute to that increase, and that Indian versus non-Indian cultural pressures and high numbers of school drop-outs make implementing preventative education programs especially difficult," Dr. Napier said.

According to the study, 56 percent of Native American Indian males with AIDS and 70 percent of the females were under age 35 in 1989. By comparison, only 21 percent of all U.S. diagnosed AIDS cases have been people between the ages 20 to 29.

"The spread of AIDS may become prominent among young Native American Indians, because they make up the largest segment of the Indian population," she noted.

As America's smallest minority group, Native American Indians comprise 0.8 percent of the U.S. population, according to the 1990 U.S. Census. But about 64 percent of the Indian population consists of individuals under age 30. Of the total U.S. population, 50 percent is under age 30.

In November 1989, only 150 American Indian AIDS cases were reported, but the number was up nearly 90 percent over the 80 cases reported in October of the previous year. As of April 1991, about 248 American Indian AIDS cases have been reported.

The study suggests that preventive education programs can be effective in helping reduce the potential of an epidemic. But most preventive education programs are based in schools, and high school drop-out rates exceed 50 percent on some American Indian reservations.

"Because of extreme poverty and the fact that adolescent Indians have to deal with non-Indian and Indian value systems in addition to the normal adolescence process, life can get tough really fast and tough at a young age," Dr. Charleston, a member of the Choctaw Nation of Oklahoma, said. "That may be why the American Indian population has the largest

L.A. Napier (left) and G. Mike Charleston

(Photo: Greg Grieco)

number of high school-aged youth out of school of all groups in the United States."

Previous studies have shown that young American Indians have higher patterns of early sexual activity and drug abuse than other youths. In addition, cultural practices may make young Indians more vulnerable to AIDS.

"Health officials say more than 4 percent of Indian adolescents in grades seven to 12 have tried heroin compared to less than 1 percent of non-Indian youth," Dr. Napier, a member of the Cherokee Nation of Oklahoma, said.

"This high level of substance abuse places this population at much greater risk of AIDS from injection and from unsafe sexual behaviors while under the influence of alcohol and drugs than the same-aged group in the general population."

In addition, common Indian practices such as tattooing and ear piercing, not discussing human sexuality openly in the family and participating in traditional ceremonies, such as the Sun Dance that may involve skin punctures, place Indians even more at risk of contracting AIDS.

The researchers have outlined a number of ways to implement preventive education programs that draw

on the strengths of a local reservation's cultural and social structures. Those recommendations have been presented to the Centers for Disease Control and the Indian Health Service.

Some of their recommendations include establishing a nationwide American Indian AIDS advisory council with each member serving a geographical region, and selecting local advisory groups comprised of elders, students, health workers, educators, traditional medicine healers, tribal officials and members of the target group.

Other recommendations include involving Indian media in the dissemination of AIDS information; establishing anonymous HIV/AIDS testing sites; giving attention to cultural considerations in the writing of AIDS prevention literature; providing the means to effectively support AIDS victims; anonymously distributing recommended condoms with nonoxynol-9 lubricant spermicide; and dealing with the discrimination of AIDS-infected individuals.

"These are methods that can best enable American Indians to work with the Centers for Disease Control and the Indian Health Service to develop programs that address problems specific to American Indians," Dr. Napier said.

— Aaron Singleton

Staff Vacancies

The following vacancies for positions classified as staff exempt or staff nonexempt have been listed with the University Employment Division for filling. The brief statements for each vacancy are illustrative. They are not complete position descriptions. **APPLY BY CALLING THE EMPLOYMENT DIVISION, 863-0304 (NETWORK LINE 433-0304).** Applications for these staff vacancies will be accepted until July 5. **DO NOT CONTACT THE AREA THAT HAS THE VACANCY.** Applications for staff vacancies are considered in accordance with Fair Employment practices (FEPS-1) and in compliance with the University's Affirmative Action Compliance Program without regard to race, color, religion, national origin, handicap or age (as disabled or Vietnam era veteran).

■01558, Director of Student Information Systems, Academic Services, University Registrar, University Park Campus—Responsible to the university registrar for the design and implementation of all computer and information systems for the Office of the University Registrar. Requires master's degree or equivalent in management or computer science plus five to ten years of effective experience in managing information systems. A particular knowledge of current technologies applicable to the maintenance of academic records. This position requires exceptional ability to effectively communicate with both technical and non-technical audiences. **STAFF GRADE 6.**

■01559, Assistant Director, Housing and Food Services, University Park Campus—Responsible to the director of Housing and Food Services, CES for the management and supervision of residence halls and food services operations at Altoona, Berrend Beaver, Berks, Hanaford, Hazleton, Mt. Export, and Mount Alto Campuses. Requires bachelor's degree or equivalent in hotel food management or institutional management plus five to ten years of effective experience. Note: 60 percent travel required. This position is based at University Park. **STAFF GRADE 8.**

■01560, Supervisor, Central Control System, Office of Physical Plant,

Maintenance and Operation, University Park Campus—Responsible to the manager, Mechanical and Electrical Trades and Second Shift Operations, for the supervision of the Central Control System operation. Requires bachelor's degree or equivalent in engineering with two to four years of effective experience in operating and maintaining a central control system involving heating, ventilation, refrigeration, air conditioning, design construction and supervision. **STAFF GRADE 7.**

■01561, Food and Beverage Service Supervisor, Nittany Lion Inn, University Park Campus—Responsible to the food and beverage manager for overall supervision and management of the main dining room at the Nittany Lion Inn. Requires associate degree or equivalent, in food service field plus two to three years of effective experience in supervision in a successful food service operation. **STAFF GRADE 6.**

■01562, Technical Illustrator, Applied Research Laboratory, ARL Administration, University Park Campus—Responsible to the manager, Communications Support Services, for conceiving, designing and illustrating various artwork and charts for use in technical publications, reports, brochures and presentations. Requires bachelor's degree or equivalent in art, engineering, graphics or related field plus one to two years of effective experience, including working knowledge of computer illustration and graphics, preferably with Macintosh computers and illustrating software such as MacDraw, ADOBE ILLUSTRATOR and PAGEMAKE. U.S. citizenship required. **STAFF GRADE 5.**

■01563, Programmer/Analyst A, Vice President for Business and Operations, Management and Systems Engineering, University Park Campus—Responsible to the Manager, Systems Engineering for the design, development and implementation of innovative data processing systems. Requires bachelor's degree, or equivalent, in a computer-related field plus two to four years of effective experience in computer programming and systems design. Ability to communicate orally and in writing is required. This is a fixed-term position funded through June 30, 1992. **STAFF GRADE 7.**

■01564, Research Project Associate (Instructional Designer), CES-CE, Planning Studies, University Park Campus—Responsible to acting director, Planning Studies, for planning, coordinating and conducting research and development activities related to continuing professional education. Requires master's degree, or equivalent, in the social sciences or education, excellent interpersonal, research, and writing skills, and two to four years of effective experience. This is a fixed-term position funded through June 30, 1992. **STAFF GRADE 7.**

■01565, Athletic Concessions Supervisor, Intercollegiate Athletics, University Park Campus—Responsible to the building coordinator and concessions manager for the supervision and coordination of athletic concession activities. Requires associate degree or equivalent, plus over two years of effective experience. This is a fixed-term position funded through January 31, 1992. **STAFF GRADE 5.**

■01566, Administrative Assistant, School of Business Administration, Penn State Harrisburg—Responsible to the director of the School of Business Administration for providing administrative services to faculty and students. Requires bachelor's degree or equivalent, plus one to two years of administrative experience, preferably in an academic environment. **STAFF GRADE 6.**

■01567, Assistant to the Director of Student Programs and Services, CES, Student Programs and Services, Berks Campus—Responsible to the director of student programs and services for the implementation and coordination of the student activities program. Requires bachelor's degree or equivalent, plus one to two years of effective experience or master's degree in student personnel administration, counseling, or related field plus one year of related experience. **STAFF GRADE 6.**

■01568, Microcomputer Systems Consultant, Computer and Information Systems, Center for Academic Computing, University Park Campus—Responsible to the manager, Education and Publications, for scheduling, organizing, and supervising computer training for students. Requires bachelor's degree or equivalent in

computer science, instructional design information systems, or equivalent, and one to two years of effective experience, as well as strong background in user support, computer documentation, and instructional design, and excellent communication skills, including the ability to communicate technical information to non-technical audiences and demonstrated organizational abilities. **STAFF GRADE 6.**

■01569, Development Assistant, Division of Development and Engineering, University Park Campus—Responsible to the director of development, College of Engineering, for assistance in the organization and implementation of fund-raising programs and related activities in the College of Engineering. Requires bachelor's degree or equivalent, plus one to two years of effective experience in public relations, fund raising, or related field. Proficiency in verbal and written communication skills is highly desirable. Willingness to travel is essential. This is a fixed-term position funded through June 30, 1992. **STAFF GRADE 6.**

Hershey

For the following position vacancies apply directly to The Milton S. Hershey Medical Center. Attach resume with cover letter indicating the position vacancy code and forward to the Department of Human Resources. Hershey, Pa. call the Hershey bid line at (717) 531-8531 by July 5.

■17555, Flight Paramedic, Medical Flight Services—Responsible to chief flight nurse for assessing and implementing the care of a designated group of patients. Requires a high school graduate plus completion of a two-year paramedic program and certification at a Paramedic II by the State of Pennsylvania, plus 9-12 months of effective experience. **STAFF GRADE 3.**

■17559, Manager, Volunteer Services, Department of Volunteer Services—Responsible to the hospital director for the overall development and administration of Volunteer Services. Requires a bachelor's degree or equivalent in social science or health care administration, plus 2 to 3 years of effective experience in working with a

hospital volunteer program. **STAFF GRADE 6.**

■17562, Assistant Director, Planning and Health Services Advancements—Responsible to the director of planning and health services advancement for various marketing and outreach activities to include marketing communications, special events and promotions, and oversight for the Children's Miracle Network, Television and the Center for Health Promotion. Requires a bachelor's degree or equivalent in business marketing, communications or a related field, plus 4-5 years of effective experience. A master's degree preferred. **STAFF GRADE 8.**

■17562, Chief of Security, Department of Safety and Security—Responsible to the director, Safety and Security, for directing all security activities within the College of Medicine and University Hospital. Requires a bachelor's degree in police administration/ law enforcement, police science, criminology or equivalent plus at least 4 years of effective experience with at least 2 years of supervisory experience. Previous formal security law enforcement training preferred. **STAFF GRADE 7.**

■17570, Security Supervisor, Department of Safety and Security—Responsible to the Chief of Security for overseeing the Medical Center security functions, covering a 24-hour time period. Requires a bachelor's degree in a security related field or equivalent plus two to four years of effective experience with at least one year of supervisory experience. **STAFF GRADE 6.**

■19179, Flight Nurse (Staff Nurse), Department of Medical Flight Services—Responsible to the manager, Flight Services, for assessing the needs of critically ill and injured patients, rapid recognition and clinically accurate intervention of life threatening emergencies prior to and during aeromedical transport. R.N. with current license to practice professional nursing in PA plus 1-2 years recent effective R.N. experience in emergency department or critical care unit plus certification in nursing specialty (CCRN or CEN) required. Health Professional status in PA, PALS, ACLS, previous flight experience preferred. **STAFF NONEXEMPT GRADE 4.**

See "Vacancies" on page 6

INTERCOM is published weekly during the academic year and every other week during the summer. It is an internal communications medium published for the faculty and staff of Penn State by the Office of Public Information, Room 312, Old Main, Phone 865-7517.

Nittany Lion Inn addition

Construction continues on an addition and renovations to the Nittany Lion Inn at University Park. The expansion, which will provide space for 136 more guest rooms, also will include a 500-seat ballroom and an enclosed dining pavilion. (Photo: Greg Grieco)

Projects selected for Faculty Technology Initiative Programs

A major classroom technology project requested by a team of faculty and the College of Earth and Mineral Sciences administration was one of six information technology projects selected for the Faculty Technology Initiative Programs by the CBEL Advisory Committee and the CBEL Teaching and Learning Technologies Group within the Center for Academic Computing.

The EMS project targets the classroom and use of information technology by faculty to enhance the delivery of instruction. The lead member of the faculty team is **Alistair B. Fraser**, professor of meteorology.

Other awards included a new project that combines enhancement of instruction with research on glossing of literary texts read in a foreign language. **James N. Davis** and **Mary Ann Lyman-Hager**, of the French Department, submitted the proposal for this computerized glossing project. It received the loan of a PS/270 portable system with the full academic bundle of software and a printer—provided by IBM. The award also included funds for release time.

Jon Nese, assistant professor of environmental science at the Penn State Beaver Campus, also received the loan of

an IBM PS/2 70 workstation and academic software bundle for his proposal on the use of "Real-time Meteorological Data in the Classroom." One of the goals of the project is to develop a collection of weather maps for use at a number of University campuses.

Two other projects were selected for CBEL support and for recommendation to the Apple Computer Development Program. **Peggy Seiden**, librarian at the New Kensington Campus, and **Mary Ellen Litzinger**, librarian at University Park, will be collaborating on a computer-based Business Information Consultant Project. Also selected is a continuation project by **William A. Jester**, professor of nuclear engineering, on the "Writing of Technical Laboratory Reports."

A proposal for a software search for a Biochemistry 001 project was accepted from **Walter W. Karakawa**, associate professor of biochemistry.

CBEL received a total of 15 faculty proposals for integration of information technology into the teaching and learning environment in the Spring, 1991 proposal cycle. Faculty members are encouraged to contact CBEL for consultation on ideas for information technology integration for the Fall, 1991 program.

Institutional advancement programs are judged best

For the third time in five years, the University's "institutional advancement" programs — fund raising, public relations, alumni relations, student recruitment and publications — have been judged best in North America by the Council for Advancement and Support of Education (CASE).

CASE's "grand gold" award for overall top performance will be presented to **G. David Gearhart**, senior vice president for development and university relations, during CASE's annual assembly July 15 in Montreal. CASE, which represents more than 1,800 colleges and universities throughout the U.S. and Canada, gave the same top award to Penn State in 1987 and 1988.

"We are delighted to see such recognition accorded our advancement team," President Thomas said. "The leadership of the University's Division of

Development and University Relations, the Office of Undergraduate Admissions and other related units has been instrumental in attracting the resources and public support that have helped to move the University into the ranks of the nation's best."

In addition to the overall grand gold, Penn State won two grand gold medals in CASE's four major categories, as follows:

- Overall Student Recruitment Programs, submitted by **Scott F. Healy**, assistant vice president and director of admissions; and **Mark J. Meckstroth**, campus liaison, Office of Undergraduate Admissions.

- Overall Institutional Relations Programs, submitted by **Roger L. Williams**, assistant vice president and executive director of University relations; **Karen A. Rugh**, director of University relations; and **William M. Mahon III**, director of public information.

The University also won a major award

in the educational fundraising category: a CASE/USX Achievement in Mobilizing Support Award for "standards for excellence in total development effort."

The entry was submitted by **Bradford E. Choate**, associate vice president for development and university relations.

The Department of Publications, directed by University Editor **Jeffrey T. Hermann**, won five awards:

- A gold medal in "individual fund-raising special constituency publications," submitted by **Gynthia B. Hall**, manager of marketing and advertising, and **Marilyn Shobaken**, art editor, for a brochure positioning the Philadelphia-area campuses for a major gifts campaign;

- A gold medal in "visual design in print," submitted by **Rick Villastigro**, designer, and **Catherine Grigor**, production coordinator, for the A.E. Bye Exhibition Book prepared for the Palmer

Museum of Art. They also won a silver medal in the same category for the A.E. Bye Exhibition Poster.

- A bronze medal in the "designer of the year" category, won by **Lawrence A. Krezso**, graphic designer.

- A bronze medal in "individual alumni relations publications," submitted by **Gretl Collins**, designer, and **Mary Beth Carlin**, production coordinator, for a keepsake for alumni returning for the 50th reunion.

Other awards won by University offices:

- A gold medal in "periodical staff writing," submitted by **Nancy Marie Brown**, editor, *Research Penn State*, for the December 1990 and March 1991 issues of the magazine. She also won a silver medal

- in "special interest magazines" for the March 1991 issue of *Research Penn State*.
- A silver medal in "special interest magazines," submitted by **Tina M. Hay**.

See 'Awards' on Page 3.

Focus on Diversity

Applied Research Laboratory participates in GEM program

The Applied Research Laboratory's membership in the National Consortium for Graduate Degrees for Minorities in Engineering (GEM), is paying major dividends.

Les Johnson, ARL's first GEM fellow, has just joined the laboratory as a research assistant in the Manufacturing Science Department.

Mr. Johnson, a graduate of the University of Pennsylvania, served an internship at ARL last summer while a master's degree candidate in mechanical engineering at Penn.

ARL joined the GEM consortium, a nonprofit organization of corporations and universities who share concerns about equal opportunity, in 1989.

For 15 years GEM has worked to increase the number of ethnic minority students entering graduate engineering studies and completing advanced degrees. One of the consortium's strategies is to send the GEM fellows to member employers' worksites for summer

internships which give the fellows practical engineering experience and financial support during their graduate studies.

In the program, employers individually assign interns to supervisors, who are experienced engineers and scientists. The supervisors, picked according to their interest and commitment to the program, offer guidance, support, and assistance throughout the fellows' assignments.

Penn State participates in all three of the consortium's advanced degree programs: master's in engineering, doctorate in engineering, and doctorate in natural science. As a member employer of the consortium, ARL offers summer internships to GEM fellows in these programs.

This summer, two new GEM fellows are interning at ARL. **Cassandra Gentry**, is working with **Thomas Hughes**, research associate, in the Power and Mechanical Systems Department, and **Wanda Thompson**, is working with **Ronald Gibson**, research engineer, in the Systems Analysis and Simulation Department.

Current and former National Consortium for Graduate Degrees for Minorities in Engineering (GEM) fellows at the Applied Research Laboratory are, from left, Wanda Thompson, Cassandra Gentry, and Les Johnson.

News in Brief

University Park blood drives

Blood drives at University Park will be held from 11 a.m. to 5 p.m. Tuesday, July 16, in the HUB Ballroom, and from 10 a.m. to 4 p.m. Wednesday, July 17, in Room 101 Kern Building.

To pre-register for the HUB drive, call the Red Cross at 237-2713. For Kern, call the Graduate Student Association office at 865-4211.

Weight Room orientation

The Recreational Sports Fitness Program is offering weight room orientations for employees at University Park who are interested in learning to use the weight rooms on campus. Each orientation session is scheduled one-on-one at the employee's convenience. To receive a registration form or more information, call the Recreational Sports Office at 865-5401.

IDP seminars

The Instructional Development Program (IDP) has scheduled the following seminars on instructional improvement for graduate teaching assistants, interested faculty, staff, and students: From 7 to 8:15 p.m. Tuesday, July 18, in Room 314 Boucke Building, "Measurement (Testing) and Evaluation (Grading)" addresses the issues of constructing and grading exams. From 7 to 8:15 p.m. Monday, July 22, in Room 109 Boucke, "Encouraging Critical in Problem Solving Classes" provides

suggestions on how to move beyond a "monkey see, monkey do" approach and begin to teach students how to think critically.

Registration forms can be obtained from department offices, the IDP office in 401 Grange Building, or the HUB and Kern desks. Registration also is possible by telephone, at 863-2599.

"Capitalizing on Culture"

Diane Buck Briscoe, assistant professor of adult education at the University of South Florida, will discuss "Capitalizing on Culture: Implications for Learning in the 21st Century" at noon Friday, July 19, in Room 101 Kern Building at University Park.

Her presentation, sponsored by the Adult Education Program and the Summer Sessions Office, will provide highlights of research findings on cultural approaches to learning.

Summer meetings

A series of summer meetings on lasers and materials processing at Penn State is being held at University Park.

Purpose of the meetings is to foster communication and collaboration between various groups conducting research, or having interest, in lasers and materials processing.

At 3:30 p.m. Thursday, July 25, in Room 112 Walker Building, Seyoon Bang will discuss "Multiple Reflection Effects in Laser Cutting." Henry E.

Watson will provide an "Overview of Applied Research Laboratory Laser Research," and Paul E. Denney will give a tour of the Applied Research Laboratory Laser Facility.

At 3:30 p.m. Tuesday, Aug. 20, in Room 112 Walker, speakers will be Subhansu Roy, "3-D Conduction Model for Laser Scribing," and Kamlesh Mundra, "Laser Vaporization of Metals and Alloys."

Microsoft demonstration

Jeff James of the Microsoft Corporation will demonstrate some of the finer features of the Microsoft Windows 3.0 operating environment from 1:15 to 4 p.m. Thursday, July 25, in the HUB Assembly Hall at University Park. The demonstration is sponsored by Management Services' Administrative Training and Support Center.

Nursing scholarships

Undergraduate freshman or sophomore nursing majors may still apply for two- and three-year nursing scholarships with the Army ROTC program. The deadline has been extended to Aug. 1.

For more information, contact Captain Anzuresleviz at University Park (814) 863-0368. Army ROTC scholarships pay tuition up to \$3,750 per semester; a flat rate of \$225 per semester for books; reimburses fees up to \$350 per year, and pays the student \$100 (tax free) per school month up to \$1,000 per year.

WPSX-TV program

Roots: A Pennsylvania Story, airing at 10 p.m. Friday, July 12, on WPSX-TV, with repeat broadcasts at 2:30 p.m. Saturday, July 13, and 1 p.m. Monday, July 15, documents the 51st reunion of an African American family from Huntingdon, Pa.—a predominantly white, rural town.

Family members from across the United States travel to Huntingdon once a year to visit, picnic, attend church together and update family records. The 60-minute documentary, produced by WPSX-TV's Rural America Documentary Unit (RADOC), captures all the laughter and love of this annual event.

Diversity Calendar

Monday, July 15

Paul Robeson Cultural Center, 8 a.m. to 9 a.m., Paul Robeson Cultural Center. Open forum with Dr. James B. Stewart, vice provost for underrepresented groups. Free coffee and doughnuts will be served.

Wednesday, July 17

Penn State Summer Sessions, 3 to 5 p.m., Paul Robeson Cultural Center. Presentation by Dr. Oliver St. Clair Headley and Dr. Melvin Hears.

Penn State Harrisburg, noon to 1 p.m., the Downtown Center. Lecture titled, "Social Conflict: The Ethnic Dimension," by Dr. Clem E. Gilpen.

Wednesday, July 24

Penn State Harrisburg, noon to 1 p.m., the Downtown Center. Lecture titled, "The Impact of Pennsylvania's Latino Population on the Public Education System," by Dr. Ray N. Melecio.

Appointments

Mark C. Borger

Annette M. Cremo

Kenneth M. Cutler

Michael E. Hall

Mark C. Borger and Annette M. Cremo have been named area representatives for continuing education at Penn State Harrisburg.

Mr. Borger, former marketing representative and channel manager for True Temper Hardware, will have responsibilities in the areas of business and economic development.

He holds a B.A. from Penn State and is a member of the International Association of Business Communicators, the American Society for Training and Development and the Association of Incentive Marketing.

Ms. Cremo, a former independent educational consultant, will be responsible for representing the College in the areas of training and development and community-based programs.

A specialist in program development administration and training, she holds a bachelor of social sciences degree and master's of education in training and development from Penn State.

Ms. Cremo is president-elect of the American Society for Training and Development, a governing board member of the Pennsylvania Coalition for Adult Literacy and a member and former president of Delta Tau Kappa, national social science honor society.

Kenneth M. Cutler, assistant athletic director and director of athletic development at Virginia Commonwealth University in Richmond, has been named director of development for athletics at Penn State.

He will be a member of the University Development staff, a position comparable to that of other fund-raising professionals serving the University's academic colleges and the Milton S. Eisenhower Medical Center.

One of his immediate priorities will be to work with the development and athletic staffs on the current campaign to raise \$20 million in private funds to help build a new academic/athletic convocation and events center at University Park. The facility, expected to seat more than 16,000, has a price tag of \$50-\$55 million. The state legislature has already authorized \$33.8 million for the project.

A native of Brooklyn, N.Y., Mr. Cutler has a bachelor's degree in communications/mass media from Queens College in New York and a master's degree in sports administration from Ohio State University. Prior to joining VCU, he was director of public relations and director of marketing for the Richmond Braves baseball team.

Private contributions to the University's intercollegiate athletic programs totaled about \$4.4 million last year, the second-

highest total ever. The department oversees 28 intercollegiate sports for men and women and has one of the largest intramural sports programs of any university.

Michael E. Hall has been named assistant director for counseling in Career Development and Placement Services (CDPS). In this capacity, he will be responsible for the planning and management of career counseling activities for the University's centralized Career Development and Placement Services.

For the past two years, Mr. Hall has served as a graduate assistant counselor with CDPS. Previously, he was a teaching assistant in the Department of Counselor Education, Counseling Psychology and Rehabilitation Services Education. Mr. Hall served for eight years as a school psychologist with the Columbus, Ohio Public Schools.

Mr. Hall holds an M.Ed. degree in school psychology from Bowling Green University and a B.A. in psychology from Ohio Wesleyan University. Presently he is working toward completion of a Ph.D. in counseling psychology at Penn State.

Carl Mitcham, associate professor of philosophy and science, technology, and

science, has been appointed director of the Science, Technology, and Society Program.

The Penn State STS Program, one of the first three in the United States, was established on an experimental basis in 1969 and became a part of the College of Engineering last year. Today it is one of the most broadly focused programs in the country, encompassing technological perspectives, as well as social science.

Dr. Mitcham, an internationally recognized scholar in the philosophy of technology, has focused his recent research on ethical issues, including professional engineering ethics. He currently is completing a study of engineering ethics codes from outside the United States and has developed a class on engineering ethics. Since coming to Penn State, he has helped develop a Peace and Conflict Studies component in the STS Program and chairs a community/university advisory committee overseeing that effort.

Dr. Mitcham came to Penn State as an STS visiting professor in 1989 and acted as interim director of the program from 1990-91. Prior to that, he was a visiting scholar at the University of Puerto Rico. Mayaguez. He has held several academic positions, including that of associate professor of humanities from 1982-89 at the Polytechnic University (Brooklyn).

International conference is scheduled

An international conference on "Democracy in Mainland China and Taiwan: Prospects for Unification," sponsored by the Center for East Asian Studies, will be held July 16-18 at the Ahterton Hilton Hotel in State College.

Participants will include well-known scholars, business executives and government officials from the People's Republic of China, Republic of China on Taiwan, Korea, Japan, Germany and the United States.

Keynote speeches will be given by James R. Lilley, who recently completed his assignment as U.S. Ambassador to China, and Mou-shih Ding, who is Taiwan's ranking diplomat in the United States.

Mr. Lilley's speech, "The United States and China: The Past Two Years and the Next Two Years," will be given at noon Tuesday, July 16, in the Ahterton Hilton. Dr. Ding will speak on "Constitutional Reform and the Mainland China Policy at the Republic of China" at 6:30 p.m. Wednesday, July 17, in the Nittany Lion Inn at University Park.

Both lectures are free to the public, but reservations are required through the Center for East Asian Studies. For further information or to make reservations for the keynote addresses, please contact Parris Chang at (814) 865-1698 or Martin Lasater at (814) 863-0790 by Friday, July 12.

Awards

Continued from Page 1.

assistant to the dean for communications, College of Health and Human Development, for Health and Human Development Research.

— A bronze medal in "student involvement programs and projects," submitted by **Sharon Mortensen**, assistant director, Campus Life Assistance Center, for a student counselors program.

Carpooler

Rita is looking for a ride from McAlvey's Fort to University Park. Work hours are 8 a.m. to 5 p.m. Call 865-0423.

School accredited

The School of Nursing has been re-accredited by the National League for Nursing.

The school received continuing full accreditation for eight years for both its undergraduate and graduate programs.

"We are pleased to have this vote of confidence from the NLN," President Thomas said. "It represents the league's highest form of accreditation over the maximum time period permitted."

NLN accreditation involves an intensive self-study by the school, with site visitors examining all aspects of the nursing program and of University life at all locations, including Commonwealth Campuses.

Focus on the arts

'Art to Go' exhibit

In continuation of the successful collaboration between Peoples National Bank and the Palmer Museum of Art, July's "Art to Go" exhibition in the lobby of the Calder Way and Allen Street branch will present Maurice Brazil Prendergast's painting "Children in the Park, Twilight," 1908.

Since its arrival at the Palmer Museum of Art through the generosity of Eugene Prendergast, sister-in-law of the artist, "Children in the Park, Twilight" remains a primary example of America's involvement with turn-of-the-century European styles.

The public is invited to view this small oil on panel through the month of July. "Art to Go," conceived by the Friends of the Palmer Museum of Art, allows the museum to better expose its collection to the community while its new wing is under construction.

'Nonsense'

As part of Pennsylvania Centre Stage's production of "Nonsense," the "Little Sisters of Hoboken" will sponsor free bingo games prior to each performance (weather permitting) in the courtyard outside The Playhouse at University Park Campus.

The games will begin at 7:15 p.m. before evening performances and at 1:15 p.m. before Saturday matinees, and will run approximately 30 minutes. Winners will receive prizes.

Lemonade and cake—Angel Food and Devil's Food—will be available for a donation during intermission.

In addition to refreshments, the nuns will be selling "Nonsense" t-shirts during intermission.

"Nonsense," a musical by Dan Goggin, runs through July 20 at The Playhouse Theatre. For tickets, call Eisenhower Auditorium Ticket Center at (814) 863-0255 Monday through Saturday, 8:30 a.m. to 4:30 p.m.

The arts on Channel 3

"Andre's Mother," the award-winning provocative drama by Terrence McNally about denial and acceptance following the death of a young man to AIDS, will have an encore broadcast on American Playhouse at 9 p.m. Friday, July 12, on WPSX-TV.

The drama stars Haviland Morris, Sylvia Sidney, Richard Thomas and Sada Thompson. It was directed by Deborah Reinisch, and co-produced by Ms. Reinisch and Sarah Green.

The band that has been introducing audiences to the magic of traditional Irish music for more than 25 years joins guest star actor Burgess Meredith for an evening of Celtic melodies when "The Chieftains and Burgess Meredith" star in *Evening At Pops* at 8 p.m. Sunday, July 21.

Backed by the Boston Pops Orchestra, the Chieftains play selections from their scores to the films "Treasure Island" and "Tristan and Isolde," then go it alone on the romping "Drowsy Maggie," and are joined

Michael Dennis will present "Recent Work" at 4 p.m. July 18 in 112 Walker Building.

by tap dancer Jean Butler and Boston Symphony Orchestra hornplayer Richard Sebring for the humorous "Planxty Mozart" ("Here's Mozart").

Music at Penn's Woods

William Henry Curry, resident conductor of the New Orleans Symphony, will conduct the Music at Penn's Woods concert at 7:30 p.m. Saturday, July 13, in Schwab Auditorium at University Park.

Music at Penn's Woods, a program of the School of Music, is supported in part by the Office of Summer Sessions. Penn's Woods unites gifted professional and student musicians from colleges and universities across the country for a month-long residency.

The third concert of the season features the Penn's Woods Philharmonic performing Rameau's *Les Indes Galantes* Suite No. 1, Stravinsky's *Concerto in E Flat* "Dumbarton Oaks" and Schumann's *Symphony No. 3* "Rhenish."

Stravinsky's "Dumbarton Oaks" features faculty members Eleanor Duncan, Armstrong, flute; Daryl Duran, bassoon; Smith Toulson, clarinet; and Lisa J. Bontrager, horn. All are members of the Pennsylvania Quintet, the University's resident faculty wind quintet.

Carol Kreuscher and Robert Trehy will be the guest soloists at the final Music at Penn's Woods concert at 7:30 p.m. Saturday, July 20, in Schwab Auditorium. Douglas E. Meyer, music director of Penn's Woods, again will lead the 55-piece orchestra in a program featuring Brahms *Symphony No. 4* and Mahler's "Des Knaben Wunderhorn."

Penn's Woods also offers a free chamber music series that allows student musicians from the philharmonic to perform in small ensembles. The final chamber recitals are at 3 p.m. Sunday, July 14, and 7:30 p.m. Wednesday, July 17, in the School of Music Recital Hall.

To reserve tickets, call the Eisenhower Auditorium Ticket Center at (814) 863-0255 Monday through Saturday, 8:30 a.m. to 4:30 p.m.

Architect to lecture

Michael Dennis, professor of architecture at Cornell University, will present "Recent Work" at 4 p.m. Thursday, July 18, in 112 Walker Building at University Park. The lecture is part of "The Campus and the City" series sponsored by the Office of Summer Sessions and the Department of Architecture.

Mr. Dennis is principal of Michael Dennis and Associates in Boston. He has taught at Harvard University and has been a visiting professor at Yale University, the University of Virginia, Rice University, Princeton University, the University of Kentucky and Columbia University.

The lecture is free and open to the public.

Featured authors

Lurene Franz and Gary Gallagher are featured authors at the Penn State Bookstore on Campus from noon to 2 p.m. Friday, July 12.

Ms. Franz, executive director of the Pennsylvania Local Arts Network (PLAN), will sign and discuss the book *Pennsylvania Arts Festivals* — "a guide to community arts festivals for visual and performing artists and arts festivals enthusiasts." The book is published by PLAN, State College, Pennsylvania.

Ms. Franz will be available to discuss the theory and research behind this publication. She also will introduce another book produced by the same organization, *Directory of Consultants 1991*, which was published with assistance from The Pennsylvania Council on the Arts and The Pittsburgh Cultural Trust.

Dr. Gallagher, associate professor of history, will sign and discuss his latest book *Struggle for the Shenandoah* (Kent State University Press, 1991). He is the author of *Fighting for the Confederacy* (University of North Carolina Press, 1989) and *Anleitung: Essays on the 1862 Maryland Campaign* (Kent State University Press, 1989). These books also will be available at the book-signing event.

A display of Arts Festival posters from the permanent collection of the Central Pennsylvania Festival of the Arts also is on exhibit at the Penn State Bookstore on Campus until July 19th.

Odyssey on WPSU

Ukrainian poet Lina Kostenko and her translator, Michael Naydan, associate professor of Slavic languages, join host Leonard Rubinstein on the next episode of "Odyssey Through Literature."

"A lot of people from the Ukraine say that the language is songlike, sweet to the ear, melodious," says Kostenko. "But I write in a different language. I write in that Ukrainian language which has a dramatic quality, which contains the entire essence of the soul."

On the July 24 program, Professor Rubinstein describes his guest Janusz Glowacki, "a Polish author and playwright who has been condemned to freedom."

He spoke with Glowacki shortly after the playwright left Poland in 1983, when for the first time he had the freedom to write with honesty about Poland, its government, and socialism. Their discussion centers on Glowacki's play, "Cinders," which deals with dreams of freedom under oppression, alluding to the fairy tale of Cinderella, from which comes the play's title.

"Odyssey Through Literature" is produced by the Department of Comparative Literature in the audio-production studios of WPSX-TV. It airs Wednesdays at 12:30 p.m. on WPSU, 91.1 FM.

Fred Waring's chorus

Young singers and dancers from across America will participate in the sixth annual Fred Waring's U.S. Chorus at 3 and 8 p.m. Saturday, July 20, in Eisenhower Auditorium at University Park. The shows mark the return of the magic, color and song that typified the work of Distinguished Penn State Alumnus and master showman Fred Waring.

"Count Your Blessings," this year's theme, will include songs of friendship, love and the environment. Many of Waring's original chorus arrangements culled from the Waring Collection also will be included in the program.

Auditions for the young talent takes place throughout the year, then when the performers arrive on campus they have just one week to learn and rehearse the show under the guidance of artistic director Virginia Waring, and the staff of creative professionals assembled to help stage and direct the show.

While the chorus members are rehearsing, Charles Gudeman, senior producer at WPSX-TV, is readying his production team of camera operators, sound technicians and engineers to capture the spirit of the event for a special edited broadcast on Channel 3, and other public television stations nationwide this fall and winter.

Both performances have reserved seating. Call the Eisenhower box office Monday through Saturday 8:30 a.m. to 4:30 p.m. at (814) 863-2688. Tickets also may be purchased at the door.

Zoller crafts exhibit

Crafts National 25, a juried exhibition featuring contemporary crafts, is on display until July 28 in Zoller Gallery at University Park.

The exhibition, cosponsored by the Central Pennsylvania Festival of the Arts, the Pennsylvania Council on the Arts and the School of Visual Arts, contains a variety of works in metal, fiber, wood, ceramics, glass, handmade paper and mixed media including such items as precious stones, neoprene, concrete and halogen.

The exhibition is free and open to the public. Zoller Gallery is located in the Visual Arts Building. Summer hours are 10 a.m. to 4 p.m. Monday through Friday; 11 a.m. to 4:30 p.m. Saturday, and noon to 4 p.m. Sunday.

University Park Calendar

July 11 --
July 28

Special Events

Thursday, July 11
Trustees meet at Schuylkill Campus, through July 12.

10th annual Penn State Conference on Rhetoric and Composition, through July 13.

Saturday, July 13
Music at Penn's Woods, 7:30 p.m., Schwab Aud.

Sunday, July 14
Music at Penn's Woods, 3 p.m., Music Building Recital Hall.

Tuesday, July 16
Shaver's Creek, Day Camp III Adventure Camp, through July 20. Call 863-2000.
Campus Blood Drive, 11 a.m.-5 p.m., HUB Ballroom.

Summer Sessions, music at noon, Fisher Plaza.
Wednesday, July 17
Campus Blood Drive, 10 a.m.-4 p.m., 101 Kern.

Summer Sessions, summer scholars, 3-5 p.m., Paul Robeson Cultural Center; Music at Penn's Woods, 7:30 p.m., Recital Hall; HUB lawn film, 9 p.m.

Thursday, July 18
Summer Sessions, music at noon, Fisher Plaza; summer seminar, 3:30 p.m., Nittany Lion Inn; Architecture lecture, 4 p.m., 112 Walker; ice skating "diversions," 8-11 p.m., ice rink.

Friday, July 19
Presentation, noon-1 p.m., 101 Kern. Diane Buck Briscoe, Univ. of S. Florida, on "Capitalizing on Culture: Implications for Learning in the 21st Century."

Summer Sessions, ice cream "diversions," 7-8 p.m., Creamery/Pavilion; jam, 9 p.m.-1 a.m., Friday, July 20.

Fred Waring's U.S. Chorus, 3 and 8 p.m., Eisenhower Aud.
Music at Penn's Woods, 7:30 p.m., Schwab Aud.

Shaver's Creek, Owl Prowl, 8-10 p.m. Call 863-2000.

Sunday, July 21
Shaver's Creek, High Ropes Adventure, 9 a.m.-4 p.m. Call 863-2000.

Monday, July 22
IDP seminar, 8:15 a.m., 109 Boucke.

"Encouraging Critical Thinking in Problem Solving Classes." Registration, 863-2599.

Tuesday, July 23
Shaver's Creek, Day Camp IV Adventure Camp, through July 27. Call 863-2000.

Summer Sessions, music at noon, Fisher Plaza; Architecture lecture, 4 p.m., 112 Walker; bowling "diversions," 7-9 p.m. or 9-11 p.m., Rec Hall.

Wednesday, July 24
Summer Symposium in Molecular Biology, "Molecular Interactions in Plant Development," through July 26. Thomas J. Watson Jr. Lecture in Molecular Biology, 2:30 p.m., Schwab Aud. Jeff Schell, Max Planck Institute, Germany, on "Genes Involved in the Commitment of Plant Cells to Differentiation."

Summer Sessions, summer scholars, 3-5 p.m., Robeson Cultural Center; HUB lawn film, 9 p.m.

Thursday, July 25
Summer Sessions, music at noon, Fisher Plaza; Summer seminar, 3:30 p.m., Nittany Lion Inn;

Fred Waring's U.S. Chorus will perform at 3 and 8 p.m. Saturday, July 20, in Eisenhower Auditorium.

Summer meetings on lasers and materials processing at Penn State, 3:30 p.m., 112 Walker.

Demonstration of Microsoft Windows 3.0, 1:15-4 p.m., HUB Assembly Hall. Jeff James, Microsoft Corp.

Friday, July 26
Summer Sessions, ice cream "diversions," 7-8 p.m., Creamery/Pavilion.

Saturday, July 27
Shaver's Creek, Forge-on to the Iron Furnace, 1:30-3 p.m., Call 863-2000.

Sunday, July 28
Shaver's Creek, Environmental Games for Kids, 1:20-3 p.m., Call 863-2000.

Public Radio

WPSU-FM 91.1
"All Things Considered" Monday-Friday, 5-6:30 p.m.; Saturday and Sunday, 5-6 p.m.; Morning Edition, Monday-Friday, 6-8 a.m.; Weekend Edition, Saturday and Sunday, 11 a.m.-1 p.m. "Odyssey Through Literature," 12:30 p.m. Wednesdays, with S. Leonard Rubenstein. "Perspectives," 6:30 p.m. Wednesdays, with Jeff Ballou. "Creative License," 12:30 p.m. Thursdays.

Conferences

Continuing Education
Keller Building
July 14-18. Alumni College. Diane Ryan, chair; Donna Ricketts, coordinator.
July 14-18. School Food Service Institute. Frederick DeMico, chair; Norm Lathbury, coordinator.
July 14-19. Second Mile Summer Challenge for Boys. Bob Ricketts, chair; Jerri Milsom, coordinator.
July 14-19. See the Future. John Vincenti, chair; Donna Ricketts, coordinator.

July 14-19. Mathematics and Computing Summer Program for Mathematically Talented Middle-School Students. M. Kathleen Heid, chair; Donna Ricketts, coordinator.

July 14-19. Waves in Fluids. Gary Koopmann, chair; Norm Lathbury, coordinator.

July 14-20, 21-27, and July 28-Aug. 3. Elderhostel Programs. Barb Impellitteri, coordinator.

July 15-19. Developing a Preschool Practicum in Home Economics. Cynthia Sovich, chair; Donna Ricketts, coordinator.

July 15-19. Building Heating Systems. James Myert, chair; Norm Lathbury, coordinator.

July 17-19. Women's Club Summer Conference. Louise Guernsey, chair; Bill Sterner, coordinator.

July 18-31. Soviet Science Camp. Jerri Milsom, coordinator.

July 21-26. Second Mile Summer Challenge for Boys and Girls. Bob Ricketts, chair; Jerri Milsom, coordinator.

July 21-26. Communication Workers of America District II. Richard Hindle, chair; Chuck Herd, coordinator.

July 21-Aug. 3. Ms. Wizz It. Vasundara Varadan

chair; Kathy Karchner, coordinator.
July 22-25. Play Therapy. Louise Guernsey, chair; Kathy Karchner, coordinator.
July 22-26. Earth Systems Science. Eric Barron, chair; Jack Sinclair, coordinator.
July 22-26. Curriculum and Evaluation for Home Economics Preschool Practicum Programs. Cynthia Sovich, chair; Donna Ricketts, coordinator.
July 22-26. Central Boiler Plant Operation. James Myers, chair; Norm Lathbury, coordinator.
July 22-26. Enter 2000. John Vincenti, chair; Donna Ricketts, coordinator.
July 23-26. Tenth Summer Symposium in Molecular Biology. Richard Frisque, chair; Chuck Herd, coordinator.
July 23-Aug. 15. Japanese Summer Study Program. Masume Assaf, chair; Norm Lathbury, coordinator.
July 28-Aug. 2. High School Publications Workshop. R. Thomas Berner, chair; Bill Sterner, coordinator.
July 28-Aug. 2. High School Publications Advisers. John Rippey, chair; Bill Sterner, coordinator.
July 28-Aug. 2. Hispanics in Teaching. James Nolan, chair; Donna Ricketts, coordinator.
July 28-Aug. 2. Second Mile Summer Challenge for Boys and Girls II. Bob Ricketts, chair; Jerri Milsom, coordinator.

Exhibits

Pattee Library
Lending Services Gallery:
Ted Heine, "Psychic Paintings," through July 15.
Penn State Room:
"JRB: 100, John R. Bracken and the Development of Landscape Architecture at Penn State," through Sept. 30.
Rare Books Room:
"History of Rhetoric and Rhetoric Textbooks," through Aug. 15.
West Lobby Gallery:
Annette McHugh, "Birds, Rocks and Flowers," through July 15.

■ Reflects an international perspective

Bookstore seeking books for program

The Penn State Bookstore on campus is participating in the International Book Bank Program.

Books received by the bookstore for the program will be housed in the IBB warehouse in Baltimore, Md., before being shipped overseas. To date, the bookstore has received 40 cartons of books contributed to the International Book Bank by students and faculty and staff, with more being donated each week.

The program known as "The Bridge of

Knowledge" has been underway since April, providing valuable educational materials to countries overseas. Besides textbooks, there is a need for classroom-related fiction, foreign-language books used in schools, books teaching English as a second language, reference books and children's books.

For more information about the International Book Donation Program, contact Elizabeth K. Wilson at the Penn State Bookstore.

Update on University's SPEC program

The Staff Position Evaluation and Compensation (SPEC) program continues its development through the summer months with the project team working on various aspects of a new job evaluation and compensation program. The work plan is progressing according to schedule.

Penn State has set high goals for the SPEC program which will: be equitable and free of gender, ethnic and racial bias; provide a framework for career growth and reward excellence; reflect the world of work as it exists today and recognize the essential value of jobs, and ensure that the University will be able to attract and retain first-rate individuals in the job markets and fields where it competes for employees.

As part of this effort, the categories of staff exempt, staff nonexempt and clerical are being combined into a single staff category in order to provide greater career mobility and job opportunity.

In addition, there will be a new job evaluation approach, based upon factors which actually give jobs value in the workplace of the 1990s. The structure will ensure that Penn State positions are evaluated equitably, both within the University and the larger marketplace.

This is a massive and complex undertaking. Accomplishing all of the objectives requires a logical, organized process. The following steps outline the process so that University faculty and staff can better understand and review the accomplishments and direction of the SPEC program.

Step One: Information Gathering

It has been 25 years since the inception of the original job evaluation plans. Much has changed in a quarter of a century. To ensure that the SPEC project team was working with current, valid information about jobs within the University and to facilitate comparisons among those jobs, the process began with data gathering.

The project actively sought the involvement of

employees and supervisors in the important task of providing accurate, up-to-date job information through the development and completion of the Position Information Questionnaire (PIQ). The PIQ recorded data on the various factors which give jobs value within the organization. These include such things as knowledge; experience; dexterity skills; judgment and problem solving; direction received; internal and external contacts; breadth of responsibility; organizational impact; and supervision of others.

Step Two: Response and Review

With a ninety percent response rate on the return of the PIQs, the data provided a wealth of information on which to build the new grade and salary structure. The use of the latest technology for integration and statistical modeling assists in making decision based on objective, measurable and qualifiable job information, as reported in the April 11, 1991 *Intercom*. At the same time, the continual involvement of professional compensation staff ensures that technology performs as it should and that unusual situations receive individual attention.

Step Three: Job Evaluation and Market Analysis

A major goal of the SPEC program is to have jobs paid equitably within the University and competitively in the marketplace. To accomplish this, two processes must occur. First, University positions must be compared to each other internally. Second, the jobs must be compared to similar jobs in other organizations with which the University competes for employees.

Internal position comparisons are being done by committees of classification analysts and human resources officers under the guidance of the consultants from Mercer, Inc. Using the information generated by the PIQs, these committees are arranging jobs in a University-wide hierarchy of positions.

At the same time, the SPEC project team and Mercer consultants are examining the way University jobs are

compensated in the external marketplace. Using nearly 50 different published surveys of pay practices in other organizations - universities, research organizations, service companies and local employers - average pay and salary ranges for positions similar to University positions are being identified.

Step Four: Job Grading

This summer the SPEC project team will establish a job grading structure by grouping jobs within the hierarchy of jobs developed in step three. A job grade represents a formal way of arranging positions so that those with similar value to the University can be identified and grouped together. The actual positions or job titles within the grade may vary, but each will have been determined based on the PIQ results and the work of the job evaluation committees to be similar in value. This structure will be tested and reviewed before finally being adopted.

Step Five: Pay Structure Development

Once the grade levels are established, the SPEC project team will draw again on market data. The University's management strategy for marketplace competitiveness will be determined and the pay ranges for each grade will be set. The grade range is the minimum and the maximum salary the University will pay for an individual performing a job falling within the job grade. Following executive approval, the new pay structure will be implemented.

Creating a pay program that properly integrates more than 2,000 jobs in a complex University environment is a challenge for Penn State. This structured approach, in which one step builds upon the results of the one before it, will take the SPEC program to a successful outcome. In addition, the process will remain workable after the new program is in place, helping the Office of Human Resources keep the pay program current and responsive to future changes in the world of work.

Faculty/Staff Alerts

Federal Express procedures

Some confusion has arisen when University departments have called Federal Express's 800 number requesting a pickup at their location. In order to alleviate this confusion, Federal Express has asked when University departments are asked for an account number, please give it if you have one, then verify correct room number, building name, phone number, zip code, and contact name.

If not using an account number, please give your building name and 16802 zip code, then verify room number, phone number and contact name. Each building is listed in Federal Express's data base, and this should help alleviate the confusion.

Off campus locations will use the same procedure, except for a 16001 or 16003 zip code, as well as a street address. Complying with this request will facilitate a fast response to a request.

If there are any further questions, please call Mail Services at 865-4051.

Automated mail sorting

The U.S. Postal Service, as well as University Mail Services, is moving towards sorting mail with automated

equipment. The benefit of automated equipment is to speed up the delivery of your mail.

In order to realize the benefits of this automated equipment, it is imperative to use proper addressing standards, and that your addresses are legible. The University Community can help by properly addressing all outgoing mail, and by letting your correspondents know what your proper return address is.

Please utilize the following address format for all outgoing and incoming mail: Name, Department Name or Firm (Optional), room number and building name, or street address, city, state, Zip + 4 code

The most important part of your address is the last two lines as shown in the above example. The building names or street addresses, and the Zip + 4 codes for all University offices are listed on the Bulletin Board in E-Mail under Zip + 4.

If your office would like more information concerning addressing standards and what is required, please contact Frank Sinclair at 865-4051.

Obituaries

Abram P. Snyder, retired associate professor of community development, died May 19. He was 70.

A 1942 graduate of Michigan State University, he also received his master's degree from Michigan State.

He served as associate professor of community development at Penn State from 1970 until his retirement in 1986. He supervised the department's practicum program and was known for his love of teaching and advising.

He remained active in the international community and conducted short-term assignments in Anchorage, Alaska; Islamabad, Pakistan; and Bahai, Brazil. In 1980, he was awarded the College of Human Development's first Evelyn R. Saubel Faculty Award.

Daniel R. Tershak, associate professor of microbiology, died May 15 at the age of 54.

A graduate of King's College, Wilkes-Barre, he received his master's degree in virology from Baylor University, Houston, Texas, in 1959. In 1962 he received his Ph.D. in microbiology-virology, was an instructor in microbiology from 1962 to 1963 and did post-doctoral work from 1963

to 1964 in virology, all at Yale University.

He joined the University faculty in 1964, teaching microbiology and molecular biology. He was acting head of the Department of Microbiology and Cell Biology from 1978 to 1979, and from 1979 to 1980 was program director of the microbiology and cell biology program and the Department of Microbiology, Cell Biology, Biochemistry and Biophysics.

Memorial contributions may be made to Daniel R. Tershak Memorial Scholarship Fund for Molecular and Cell Biology Undergraduate Students, Office of Gifts and Endowments, Old Main, Penn State University, University Park, PA 16802.

Irvin L. Wright, assistant professor of education, and research associate, Center for the Study of Higher Education, since Jan. 1, 1990, died May 15 at the age of 40.

John L. Fisher, technical specialist, College of Earth and Mineral Sciences, from July 1, 1953, until July 1, 1978, died May 17 at the age of 76.

Sara K. Ness, assistant director of undergraduate admissions, Academic Services, from Feb. 14, 1974, until her retirement Jan. 1, 1988, died June 1 at the age of 66.

Reforestation can help preserve pandas

Replanting clear-cut fir forests can help preserve panda habitats by ensuring bamboo regrowth, **Alan H. Taylor**, assistant professor of geography, said.

Only about 1,500 of the large furry, black-and-white giant pandas native to Southwestern China exist in the wild, according to Dr. Taylor. These animals are threatened by the effects of humans through agriculture and logging and the peculiar circumstances of their diet.

"Pandas are obligate bamboo eaters. They eat bamboo and nothing else, but, over the past 100 years, agriculture and now logging are shrinking the panda's habitats. Imbedded into the habitat problem is the unusual life cycle of bamboo."

Bamboo usually reproduces vegetatively, but about every 50 to 60 years, species of bamboo flower, set seed and die back. Entire areas become denuded of bamboo and it takes 15 to 20 years for bamboo to regrow to adult size from seed.

"In 1975 and 1976, three bamboo species flowered and died at the same time," he notes. "The Chinese found 138 pandas dead from starvation, perhaps 10 percent of the population, and the government established a series of natural panda reserves."

"Many of these reserves have been clear cut of trees, but bamboo continues to grow," he adds. "The bamboo understory prevents softwood seedlings from taking root and only a few hardwoods establish."

Dr. Taylor said the real problem occurs in recently

clear-cut areas when bamboo flowers and dies back.

"Without tree cover, we see a near extinction of bamboo seedlings due to high temperatures and moisture stress. Bamboo does not become established and panda habitat is lost."

However, he sees bamboo dieback as not just a problem, but as an opportunity to rehabilitate habitat.

"While a change in forest management practices from clearcutting to selective cutting will help in the future, bamboo diebacks also provide an opportunity for replanting softwood forests and rehabilitating habitat," he noted.

"Managers can plant conifer seedlings among the dead bamboo, especially on the gentle slopes favored by pandas, and the mixed forests will develop rapidly. The softwoods must be planted soon after the bamboo dieback, before bamboo or other ground covering species provide competition for the young trees."

Old, hollow softwood trees also are important to panda preservation. The females use the hollow trees as maternity dens to protect their immature offspring.

Providing sufficient habitat area for pandas is important because of the animals' dependence on bamboo. Without contiguous bamboo forests available, pandas cannot travel very far.

"Although pandas eat only bamboo, they have the stomach of a carnivore. This means that they only digest 12 to 23 percent of the dry plant matter they eat and must spend much of the day feeding. They also

apparently acquire only slightly more energy from bamboo than they use to forage and digest the plants."

With very little reserve energy available, pandas cannot go long without eating. Crossing large expanses of farmland to reach fresh bamboo stands after a dieback is unlikely.

In the past, when their bamboo died back, pandas could simply move to a new grazing area where a different one of the more than 20 species of bamboo was growing, but now they are confined by clearcut land and farmland.

In the event of dieback, pandas must either find remaining stands of bamboo, or, as in 1975 and 1976, die of starvation.

— **Andrea Elyse Messer**

Alan H. Taylor took this photograph of a giant panda in Southwestern China.

Dr. Taylor is shown in Southwestern China, where he has done research on reforestation.

Staff Vacancies

The following vacancies for positions classified as staff exempt or staff nonsenior have been listed with the University Employment Division for filling. The brief statements for each vacancy are illustrative. They are not complete position descriptions. APPLY BY CALLING THE EMPLOYMENT DIVISION, 863-0304 (NETWORK LINE 433-0304). Applications for these staff vacancies will be accepted until July 16. DO NOT CONTACT THE AGENCY THAT HAS THE VACANCY.

Applications for staff vacancies are considered in accordance with Fair Employment Practices (PS-1) and in compliance with the University's Affirmative Action Compliance Program without regard to race, color, religion, national origin, handicap or age (as provided by law), sex, or status as a disabled or Vietnam era veteran

■01580, Coordinator, Educational Opportunity Center, Undergraduate Education, Academic Assistance Programs, Allegheny County — Responsible to the director, Educational Opportunity Center, for recruitment activities and for general assistance in handling admissions and training matters for eligible participants. Requires bachelor's degree plus one to two years of effective experience in educational administration, counseling, social work, or related field. This is a fixed-term position available September 1, 1991 to August 30, 1992, with excellent probability of funding available for a three-year period. STAFF GRADE 0.

■01581, Coordinator, Educational Opportunity Center, Undergraduate Education, Academic Assistance Programs, Philadelphia County — Responsible to the director, Educational Opportunity Center, for recruitment activities and for general assistance in handling admissions and financial aid matters for eligible participants. Requires bachelor's degree plus one to two years of effective experience in educational administration, counseling, social work or related field. This is a fixed-term position available September 1, 1991 to August 30, 1992, with excellent probability of funding available for a three-year period. STAFF GRADE 0.

■01588, Administrative Aide, College of Agriculture, Veterinary Science — Develop, analyze, compare and summarize data for various departmental activities, administrative unit and

committee functions. Establish and maintain the departmental grant management program. Ensure preparation, expenditures and reporting systems deadlines are met and submitted in a timely manner. Requires bachelor's degree, or equivalent, with one to two years of effective experience or associate's degree, or equivalent, with two to three years effective experience in office management. STAFF GRADE 5.

■01589, Photographer/Videoographer, Applied Research Laboratory, ARL Administration, University Park Campus — Responsible to the manager, Communications Support Services, for producing photographic documentation for research projects and activities. Requires associate degree, or equivalent, in art-related studies, plus one to two years of effective experience in art or photography. Applicant must possess knowledge of darkroom procedures and still camera uses. U.S. citizenship required. STAFF GRADE 5.

■01590, Physician in Charge, Women's Health, Student Services, University Health Services, University Park Campus — Responsible to the director, Clinical Services' University Health Services, to serve as physician leader to provide gynecology and general medical services for students and to supervise nurses and mid-level practitioners in a growing, innovative Women's Health Department. Requires a doctor of medicine or doctor of osteopathy degree from an accredited school of medicine with board certification or board eligibility in obstetrics/gynecology, family practice or internal medicine plus four to five years of previous effective experience in adolescent/growing adult medicine. STAFF GRADE 10.

■01591, Associate Editor - Alumni Publications, Division of Development and University Relations, Alumni Association, University Park Campus — Responsible to the editor of alumni publications for acquiring, researching, editing and writing articles for various alumni publications; brochures, programs, solicitations, etc., and supervising part-time staff. Requires bachelor's degree, or equivalent, in journalism or related area plus one to two years of effective experience in writing, editing, proofreading, layout and design. This is a fixed-term position funded through June 30, 1992, with good possibility of re-funding. STAFF GRADE 0.

■01592, Assistant Accountant, Corporate Controller, University Park Campus — Responsible to the director of accounting operations for assistance in a wide variety of duties, working toward the overall goal of obtaining well-rounded experience in all areas within the Office of the Corporate Controller. Requires bachelor's degree, or equivalent, in accounting or related field and up to one year of effective experience. This is a trainee position. STAFF GRADE 5.

■01593, Admissions Counselor II - Alumni, Undergraduate Education, University Park Campus — Responsible to the associate director of undergraduate admissions in training and coordinating the student recruitment activities of alumni volunteers in assigned market areas. Requires bachelor's degree, or equivalent, plus two years related experience in educational administration or related field. Prefer admissions/alumni background. This is a fixed-term position available August 1, 1991, to June 10, 1992. STAFF GRADE 6.

■01594, Administrative Aide, Eberly College of Science, Chemistry, University Park Campus — Responsible to department head for coordinating administrative functions, supervise departmental clerical employees; oversee departmental personnel activities and records. Requires high school plus two years of a business or secretarial school, or equivalent, plus two to four years of effective experience in a position exhibiting independence, responsibility and supervisory skills. Excellent interpersonal skills. Demonstrated writing ability, organizational skills, and computer literacy preferred. STAFF GRADE 5.

■01595, Director, Talent Search, Undergraduate Education, Academic Assistance Programs, University Park Campus — Responsible to the assistant dean for academic assistance programs for the development of a comprehensive Talent Search Project within the Commonwealth of Pennsylvania. Requires master's degree and three to four years of effective experience involving the organization and direction of community groups and directing educational program development initiatives. Fund-raising experience and experience working with low-income high school or first-generation college students is preferred. This is a fixed-term

position available September 1, 1991, to August 30, 1992, with excellent probability of funding available for a three-year period. STAFF GRADE 8.

■01597, Admissions Officer, Ogontz Campus — Responsible to the director of student programs and services for planning, coordinating, directing and implementing the campus recruiting and admissions marketing and enrollment strategy plans; organize and carry out recruiting and admissions activities for the campus and University; counsel applicants and parents regarding University programs and admission procedures. Requires master's degree, or equivalent, in psychology, counseling or related field plus two to four years of effective experience in collegiate recruiting and admissions. STAFF GRADE 7.

■01598, Construction Cost Specialist, Office of Physical Plant, Hershey Medical Center — Responsible to the design and construction project manager for the control and cost management of Hershey Medical Center special projects budgets. Requires bachelor's degree, or equivalent, with one to two years of effective experience in field of cost control and estimating. STAFF GRADE 0.

■01600, Applications Programmer/Analyst, Office of Budget and Resource Analysis, University Park Campus — Responsible to a lead applications programmer/analyst for designing, coding, modifying and testing new and existing computer programs for the Integrated Business Information System needs. Requires bachelor's degree, or equivalent, in business or computer-related field, and from one to two years of effective experience in computer programming and systems design. Ability to communicate orally and in writing is required. This position is funded from Aug. 1, 1991, through June 10, 1992, with a good possibility of re-funding. STAFF GRADE 6.

■01602, Health Promotion Specialist, Office of Human Resources, University Park Campus — Responsible to the coordinator, Faculty/Staff Health Promotion, for assisting with the development and delivery of health promotion programs universitywide. Requires bachelor's degree, or equivalent, in health education or related field, with over one up to and including two years

of effective experience or a master's degree, or equivalent, in health education or related field, with up to one year of effective experience. Excellent verbal and written communication skills required. This is a fixed-term position funded through June 30, 1992. STAFF GRADE 6.

■01603, Information Technology Associate, Eberly College of Science, Statistics, University Park Campus — Responsible to the head, Department of Statistics, for administering departmental computing facilities. Requires bachelor's degree, or equivalent, in computer science, electrical engineering, or closely related discipline, plus two to three years of effective experience. Requires operating experience with appropriate hardware and software: UNIX, DOS, CIMS, IBM, SUN, networks, statistical packages and graphics. This is a fixed-term position funded for one year from date of employment with probable re-appointment. STAFF GRADE 7.

Hershey

For the following position vacancies, apply directly to The Milton S. Hershey Medical Center. Attach resume with cover letter indicating the position vacancy code and forward to the Department of Human Resources Hershey, or call the Hershey bid line at (717) 531-8531 by July 18.

■01528, Clinical Head Nurse, Outpatient Services/Family and Community Medicine — Responsible to the practice manager for providing leadership to patient care personnel with a designated practice site. Requires registered nurse with a current license to practice professional nursing in Pennsylvania, plus one to two years of effective nursing experience. Bachelor of science in nursing preferred. STAFF NONEXEMP, GRADE 3.

■01790, Coordinator, Geriatric Patient Rehabilitation Program, Department of Psychiatry, Division of Geriatric Psychiatry — Responsible to the director, Geriatric Psychiatry Services, for coordination and delivery of program services. Requires a bachelor's degree or equivalency, or registered nurse, plus 1.5 years of effective experience, preferably in the development and coordination of treatment programs in a geriatric, psychiatric setting. STAFF GRADE 7.

Board of Trustees approves 1991-92 operating budget

The Board of Trustees approved a 1991-92 total operating budget of \$137,042,000 for the University during its meeting July 12 at the Penn State Schuylkill Campus.

"Without an approved state appropriation at this point in time, we have a few more ambiguities to deal with this year than in any recent time at Penn State," President Thomas told the Board.

This budget will permit the University to continue its upward momentum, while being mindful of the need to keep tuition as low as possible."

The University's budget for 1991-92 was developed by estimating a final state appropriation with an approximately 4 percent increase. State officials did not take action on Penn State's appropriation prior to the Board meeting.

Tuition for undergraduate Pennsylvania residents will now become \$2,100 for one semester at the University Park Campus. Undergraduate out-of-state residents will pay \$4,550 for one semester of classes at the University Park Campus.

A tuition increase of 8.9 percent, while

lower than the figure for many comparable schools this year, is being coupled with some key cost containment efforts to provide an overall budget plan that keeps Penn State moving forward," Dr. Thomas said.

Noting that the commonwealth faces constrained economic conditions, Dr. Thomas said understanding remains the University's "single most serious problem."

"Even with the tuition increase approved here today, Penn State continues to have the lowest undergraduate tuition among Pennsylvania's public research universities," he said.

There is good news in the midst of these fiscal hardships, the Board was told. Cost containment has been a priority and has resulted in:

- A reallocation program of over \$52 million.

- A sophisticated volume purchasing program that saves \$8 million to \$10 million annually.

- An aggressive energy conservation program.

- Health care cost containment measures.
- A sophisticated strategic planning program, which applies limited resources to areas of highest need.

Some specific areas where cost containment has resulted in savings include a physical plant operation, which operates at two-thirds the cost of the national average, and a nationally ranked institutional advancement program that operates at half the cost of the national average.

A 4 percent increase in the University's Educational and General line item would result in an increase of \$7.7 million from the state for the Educational and General line item.

Penn State had originally requested an appropriation increase of 13.1 percent and was planning a tuition increase of 6 percent.

For 1991-92 Penn State will fund approximately \$7 million in unavoidable cost increases. This includes a \$4.7 million increase in health care insurance costs, social security base changes and growth in

the TIAA-CREF retirement base, grants-in-aid, the cost of maintaining and operating new or newly remodeled facilities, fuel and utility cost increases, and costs associated with other insurances and legal expenses.

"These unavoidable cost increases represent approximately 2.4 percent of the total proposed general funds budget increase for 1991-92 and 48 percent of our estimated appropriation increase," Dr. Thomas said.

The new budget calls for a basic salary increase allocation to academic and administrative units, with salary increases to be based on merit. The increases are predicated on receipt of the anticipated state appropriation.

The proposed salary increases and related benefits of \$17 million represent the largest expense change included in the new budget.

More than \$6 million in funds have been added to educational program needs in the new budget. This includes almost \$3 million for program needs in the academic

See 'Budget' on Page 4.

Promotions in academic rank are announced by University

The following promotions in academic rank are effective July 1:

To Professor

Bruce A. Albrecht, Meteorology
Archibald Allen, Classics
James O. Ballard III, Medicine
Jayanth R. Banavar, Physics and Materials Research
David Barnard, Humanities
Barry G. Baylen, Pediatrics
Melvin L. Billingsley, Pharmacology
Christopher J. Bise, Mining Engineering
Donald A. Bryant, Molecular and Cell Biology
Ranee Brylinski, Mathematics
Joseph Y. Cheung, Medicine and Cellular and Molecular Physiology

Ms Wiz Kids

Yarnel Shaw, left, and Shavaya Harris, both of Pittsburgh, examine owl pellets as part of the Ms Wiz program, a residential science and technology summer camp for fifth, sixth and seventh grade girls at University Park. It is intended to encourage promising female students to pursue scientific and technical careers. (Photo: Greg Greico).

Focus on Diversity

Allentown youths 'make choices'

Seventeen economically disadvantaged youths had the opportunity to examine their internal perceptions and begin to break down their barriers through the Making Choices program presented during the Educational Enrichment Program at the Penn State Allentown Campus.

The program, a partnership between the Lehigh Valley Private Industry Council and the campus, offered two weeks of information literacy and career orientation seminars during the weeks of July 8 and 15. The final week of the program will be held at the Lehigh County Vocational Technical School in August and will be a continuation of the Making Choices segment.

The 9th and 10th graders participating in the program have been selected by the Lehigh Valley Private Industry Council. They are students from the city of Allentown who are interested in attending college.

From July 8 to the 10th, the students participated in three full days of the Making Choices Program. From July 11 through 19 they spent the morning in a

summer youth writing program and the afternoon in a computer workshop.

The writing program focused on all phases of the writing process. Students were instructed in drafting, revising and editing their work and the work of their peers. The computer workshop covered an introduction to MSDOS and use of a word processing package. Students also were encouraged to develop their critical thinking skills by using software programs.

The program is a year-round commitment on the part of the students, the Penn State Allentown Campus, and the Lehigh Valley Private Industry Council. A mentoring program will be in place throughout the academic year for the students.

John V. Cooney, campus executive officer, said Penn State will offer admission to Penn State to students staying with the program until they graduate. "Any student entering the Educational Enrichment Program this summer, who comes back to Penn State every summer and graduates from high school, will be guaranteed admission to Penn State."

EMS Summer Experience

Lashonda Youngblood, left, and Autumn Cooley, from Westinghouse High School, Pittsburgh, work under the watchful eye of Scott Britton, research technologist, Combustion Laboratory, during the one-week program offered by the College of Earth and Mineral Sciences for tenth graders in the Pittsburgh School District. They were among 18 students who participated in this year's program at University Park. (Photo: Greg Grieco).

Campus offers Youth Enrichment Partnership

Thirty-four graders spent a week at the Penn State Allentown Campus in July as participants in the Youth Enrichment Partnership 2000.

Partnership 2000, supported by Meridian Bank, ALPO Petfoods Inc., and several Lehigh Valley community-based organizations, links at-risk youth with human and institutional resources to enhance their ability to succeed in school, the workplace, and the community.

John V. Cooney, campus executive officer, said the program was the result of a successful minority computer/tennis camp

that bought 28 students to the campus last summer.

The week-long Youth Enrichment Partnership 2000 included creative dramatics, nature study, recreational activities, and social outings as well as instruction in computers and tennis.

Fifteen students, selected by Casa Guadalupe and the Lehigh Valley Black Interfaith Coalition, attended the camp the week of July 8. Students attending the second week of the camp were selected by the Allentown School District. The students are from the Moser School.

Students also will achieve information literacy through reading, writing and computer use. A tutoring and mentoring program will provide support throughout the school year. Mr. Cooney points to the ongoing involvement in the student's life as an important part of the program. "The success of this partnership is directly tied to our year-round participation with the students through mentoring and tutoring," he said. "The fourth graders we will see this year will have the opportunity to participate in the partnership activities until they graduate from high school in the year 2000."

WPSX-TV program

American Masters presents "Sarah Vaughan: The Divine One" at 9 p.m. Monday, July 29, on WPSX-TV. Gifted with a voice that could have made her a candidate for grand opera, yet possessing a jazz musician's powers of invention and utter daring, Ms. Vaughan was one of the greatest singers of jazz and popular music this country has ever known.

From her childhood, Zion Baptist Church, in her native Newark, N.J., she developed an affinity for gospel music that had a lasting influence on her work.

Her first big break came when she won an amateur contest at Harlem's famed Apollo Theatre, and she went on to sing with the Earl Hines and Billy Eckstine bands in the 1940s, becoming immersed in the bebop music that further defined her unique vocal style.

Candidates sought

Candidates are currently being sought for the position of chairperson, Department of Humanities, College of Medicine, Hershey Medical Center.

Candidates should be nationally recognized scholars in the medical humanities with an outstanding record of research and teaching; a proven record of effective collaboration with clinicians and scientists in the design and implementation of humanities curricula in medical education.

The successful candidate will be expected to provide imaginative direction for current and future programs and promote the national and international stature of the department.

Please, direct applications to: Office of The Senior Vice President for Health Affairs and Dean, Hershey Medical Center, College of Medicine, P.O. Box 850, Hershey, Pa. 17033.

University plans to offer two new majors

The University will offer two new majors in women's studies and African/African American studies this fall. The Board of Trustees has been told.

The majors were among the new undergraduate majors and minors and new graduate programs announced in a session of the Committee on Educational Policy.

"The major in African/African American studies, administered through the Office of the Dean for Undergraduate Education, is designed to give students an integrated and critical understanding of the experiences and contributions of peoples of African descent," John Brighton, executive vice president and provost, said.

The new women's studies major in the College of the Liberal Arts is aimed at developing a broad understanding of the

study of women and women's perspectives in all areas of academic scholarship.

Each major will require a minimum of 124 credits for the bachelor of arts degree.

The focus of the women's studies major is on feminist analyses of women's lives; of women's social, cultural, and scientific contributions; and the structure of sex/gender system.

In the African/African American studies major, students are encouraged to research and evaluate the relationship between the political, social and economic developments in Africa and the African Diaspora. There will be two new options in the major: African American studies and African studies.

Also added will be minors in women's studies, African American studies, African studies and African Diaspora studies.

Diversity Calendar

Wednesday, July 31

Summer Scholars in Residence program, 3 to 5 p.m. Paul Robeson Cultural Center. Presentation by Dr. James Stewart. Refreshments will be served.

SUMMER HOURS AT THE PAUL ROBESON CULTURAL CENTER

Summer hours for the Paul Robeson Cultural Center are 8 a.m. to 5 p.m., Monday, Wednesday and Fridays and 8 a.m. to 8 p.m. Tuesday and Thursdays. Saturday hours are noon to 4 p.m. The center is closed Sundays. For more information, contact the center at 865-1779.

From the Trustee Docket

Building projects

The Board of Trustees has approved sketchy preliminary plans for the Applied Research Laboratory Building at University Park.

The three-story, 63,000-square-foot building will be the first of the planned West Campus buildings to be constructed west of North Atherton Street. It will be located adjacent to Research Building West on part of the White Course at the fifth and sixth holes, which will be relocated.

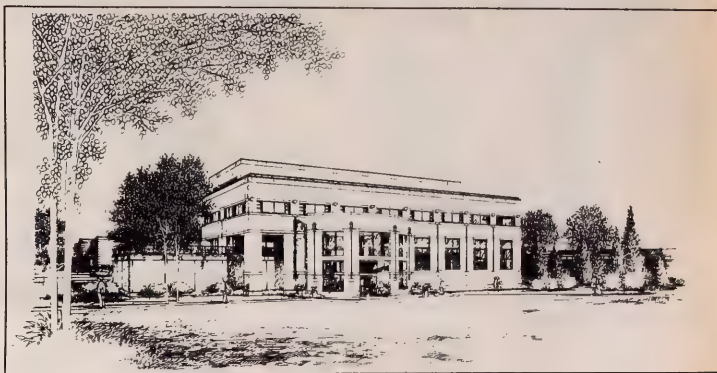

Projects to be housed in the new building include studies of marine composite materials; turbomachinery and instructional fluid dynamics; electro-optics; ocean acoustics and active vibration control; laser metrology; and dynamic response. The building also will include a 300-seat auditorium, conference rooms, a student study area, classroom space and a library.

Architect for the \$10 million project, which will be built with funds generated from the federal government, is The Kling-Lindquist Partnership Inc. of Philadelphia.

In other action, Trustees approved final plans and authorized the University to obtain bids and award contracts for expansion of the University Physicians Center at the Hershey Medical Center.

The facility will consolidate the remainder of the outpatient physician services, which are currently located in University Hospital. In addition, the building will provide space for outpatient diagnostic and support services.

The 139,000-square-foot building will have four floors plus a ground floor and large basement storage area. It will be connected to the Hospital East Addition by an enclosed pedestrian bridge. Program

Artist's illustration of ARL Building at University Park

areas will include suites for pediatrics, surgery, medicine, radiology, dialysis, neurophysiology, endoscopy, pharmacy, medical records and administrative and faculty offices.

Architect for the approximately \$19.3 million project, which will be built with borrowed funds to be repaid by revenues generated by the Medical Center, is Robert D. Lynn Associates of Philadelphia.

Approved naming the Ciletti Memorial Library, to be constructed at the Penn State Schuylkill Campus, in honor of former campus administrator Frederick M. Ciletti, who died in 1990.

Mr. Ciletti joined the Schuylkill Campus in 1951 as an English instructor and went on to serve as assistant director, dean of student affairs, and assistant director of resident instruction. He was named an associate professor of English in 1962.

In 1969, he became director of Commonwealth relations in the office of the vice president for public affairs at University Park. From 1975 until his retirement in 1985, he served as special assistant to the president for governmental affairs.

After retiring, Mr. Ciletti established the first endowed scholarship at Schuylkill

Campus. He was a native of Philadelphia and a 1949 graduate of the College of the Liberal Arts.

Approved the appointment of Burt Hill Kosar Rittelmann Associates, Butler, as architect for the proposed laboratory building at Penn State Erie, The Behrend College.

The approximately 50,000-square-foot building will provide space for instruction and research laboratories. It will be located on the western edge of the campus, near the Hammermill and Zurn buildings. The project budget is \$6 million, funded by the University and local fundraising activities.

PEPP moves

A University early intervention program, established to help motivate disadvantaged minority students to stay in school and set goals to attend college, has moved to a new home in the University, the Board of Trustees has been told.

In an informational report, Robert E. Dunham, vice president and vice provost, said executive operations of the McKeesport and Reading area components of the Penn State Educational Partnership Program have been moved from Office of the President to the College of Education. The Erie program is now based at Penn State Erie, The Behrend College.

Established in 1988 by the Office of the

President, the Penn State Educational Partnership Program has been quite successful from its initial base. But now it's time for it to move to the College of Education where it will grow and mature," said Dr. Dunham, who has served as executive administrator of the program.

Robert F. Nicely, professor of education and associate dean for continuing and commonwealth education and outreach programs in the College of Education, has taken over as head of the two PEPP programs.

"The College of Education was a natural fit for the program because of its focus on educational programs for youths from urban and disadvantaged backgrounds," Dr. Dunham added.

Working in partnership with Reading, McKeesport and Erie area school districts, Penn State is helping to increase the number of minority students who graduate from high school and pursue postsecondary education by conveying to students at risk and their parents the importance of education and teaching ways to increase academic skills. The program begins with students in the fifth grade.

"Our challenge is to help disadvantaged minority students aspire to develop family support and to coordinate school-community programs for maximum impact," Dr. Dunham said.

"Evaluations show that we are accomplishing our goals. Student participants have reported overall

improvements in their grades and a more positive attitude toward school. Parents have reported that they are happier because the students are getting better grades and showing more interest in continuing school after graduation. Even the teachers are seeing students demonstrate better discipline in their work and confidence in themselves."

Activities for students include the PEPP Academy, an after-school program which includes completing homework, nutritious snack, special activities programs and tutoring by Penn State students, and mentoring by business leaders.

PEPP activities for teachers include summer institutes in science and writing.

Program changes

The Board of Trustees has reviewed a number of new undergraduate majors and minors and new graduate programs as well as changes in several existing academic programs.

Changes in undergraduate programs include:

- Addition of a major in landscape

architecture (five-year) program in the College of Arts and Architecture.

- Addition of a major in marketing and international business in The Smeal College of Business Administration.

- Addition of a major in computer engineering technology at Penn State Harrisburg.

- Change in name from the minor in labor studies to the minor in labor and

industrial relations in the College of the Liberal Arts.

- Dropping of an option in general special education in the major in special education in the College of Education.

- Dropping of an option in vocational special education in the major in special education in the College of Education.

- Dropping of an option in young and/or severely handicapped in the major in

special education in the College of Education.

- Dropping of an option in preprofessional in the major in special education in the College of Education.

- Dropping of an option in literature in the major in English in the College of the Liberal Arts.

- Dropping of an option in writing in

See "Trustees" on Page 4.

25-year award recipients

Observing 25 years of service at the University are, from left, Doris Biekle, staff assistant, Division of Research, The Smeal College of Business Administration; Forrest W. Long, manager, Landscape and Janitorial Services, Office of Physical Plant; Jerry Olsen,

senior copier, University Libraries; Virginia A. Pletcher, clerk, accounting A, Department of Housing and Food Services; Smith C. Toulson, associate professor of music.

Budget

(Continued from Page 1)

colleges and schools. University libraries will receive almost \$600,000 in funds through this effort while more than \$600,000 will be added to undergraduate education initiatives for 1991-92.

The Board also approved, in the new budget, a modest 1 percent increase in general departmental allotments - the first in five years.

Leave of Absence

Thomas C. Coleman, director of continuing education, Penn State Beaver Campus, to complete doctoral studies in higher education, administration and policy studies, University of Pittsburgh.

Partings

Albert Miles, assistant professor of English and humanities at the Penn State Ogonitz Campus, has retired after 25 years service.

Dr. Miles is the only faculty member at Ogonitz to have received the campus Outstanding Teacher Award two times, once in 1979 and again this year.

Colleagues and students alike have noted his remarkable ability to stimulate creative ideas from those enrolled in his classes, and have applauded his "cracking enthusiasm."

In addition to his regular teaching assignments, Dr. Miles coached the campus' highly successful varsity tennis team for more than a decade. He was extremely active in campus affairs, serving as a representative to the Faculty Senate for many years and chairing a variety of committees.

Ralph J. Sabock, associate professor of physical education in the College of Health and Human Development, will retire June 30 after 22 years of service.

Dr. Sabock, a faculty member in the Department of Exercise and Sport Science, joined Penn State as an assistant professor in 1969 and was promoted to associate professor in 1974. A statewide and national advocate in sportsmanship and ethics, he wrote *Coaching: A Realistic Perspective*, a book that is now in its fourth edition and has been translated into Japanese.

Dr. Sabock was chosen for the Ethics and Sportsmanship Fellow award by the Institute of International Sport in 1989. He is a member of the American Association of Health, Physical Education, Recreation, and Dance; the Pennsylvania State Association for Health, Physical Education, Recreation, and Dance; the National Council of Secondary School Athletic Directors; and the National Association for Physical Education in Higher Education.

Before coming to Penn State, he was an instructor at the Ohio State University and a high school teacher and coach in Ohio. He holds doctoral and master's degrees in physical education from Ohio State, and a bachelor's in physical education from Muskingum College.

Marvin E. Rozen has retired as professor emeritus of economics after 33 years of service.

Dr. Rozen received his Ph.D. from the University of California, Berkeley, in 1958

Albert Miles

and joined the Economics Department as assistant professor that same year.

Dr. Rozen has published extensively in the areas of economic development, monetary economics, and labor economics. His latest research is a forthcoming book titled, *The Economics of Organizational Change: Workers, Jobs, Labor Markets, and Implicit Contracting*, to be published in the fall by the University of Michigan Press.

In what Dr. Rozen describes as his "indefinite sabbatical," he plans to remain in Boalsburg with his wife, Frieda, and continue to pursue his current research activities.

Barbara A. Rodrock, secretary to the campus executive officer at the Penn State Berks Campus, has retired after 24 years of service.

In prior to being named secretary to the CEO in 1973, Ms. Rodrock served as secretary to the business manager, regional director of the Penn State Foundation and the regional director for continuing education at Berks Campus.

Ms. Rodrock was recognized in 1990 by the Commission for Women as one of its Achieving Women. In 1986, she was a finalist for the Penn State Chapter of Educational Office Personnel for the Outstanding Office Employee Award. She has received the Berks Campus Outstanding Service Award, and chaired the campus'

Ralph J. Sabock

Secretarial Committee from 1978 to 1985. She was twice elected secretary of the campus People of Penn State (POPS) committee.

During her retirement, Ms. Rodrock plans to continue her volunteer work, work in her garden and visit family and friends. She also is planning to devote more time to a genealogical study of her family that she started some time ago, and may go to Ireland to trace records.

Ethel R. Gantz, tray assembler at Hershey, from Oct. 19, 1970, until May 3.

Margaret P. Lukens, stockroom clerk at Cat Hershey, from Sept. 21, 1970, until May 16.

Betty L. Olinger, lab attendant A at Hershey, from Feb. 22, 1971, until June 1.

Paul W. Houck, PENNTAP information coordinator, Agriculture, from Dec. 1, 1978, until June 20.

Lena P. McClellan, residence hall worker, Housing and Food Services, from Jan. 3, 1974, until June 29.

Jane J. Moyer, accounting clerk, Research and Graduate School, from April 25, 1974, until June 1.

Carol M. Ferraro, secretary C, Liberal Arts, from Nov. 1, 1956, until July 7, 1959; and from Dec. 8, 1983, until June 30.

Promotions

The following promotions for staff members in Penn State Cooperative Extension in the College of Agriculture are effective July 1:

To Senior Extension Agent

Kathy Jo Cook
Kathryn Hostetler
Ronald Hostetler
John H. Schwartz
James E. Welshans

To Extension Agent

James C. Cowden
Nashlie M. Ferry
William C. Kleiner
Joann Logan
Janet L. McDougall
Jeffrey Mizer
Gary Sheppard
Christine A. Tomassick

To Associate Extension Agent

H. Bruce Hollerick

Pamela L. Paletta

Nick T. Place

Russell D. Powell

Jeannine Richlin

Richard M. Rudowski

Donald E. Tanner

The Office of the Senior Vice President for Research and Dean of the Graduate School has announced the following promotions for the 1991-92 fiscal year:

To Senior Research Associate

Else Brevall, Materials Research Laboratory
Walter A. Yarbrough, Materials Research Laboratory
Qichang Xu, Materials Research Laboratory

To Senior Scientist

Barry E. Scheetz, Materials Research Laboratory

To Senior Research Assistant

Michael E. Crouse, Applied Research Laboratory
Raymond J. Dopkin, Applied Research Laboratory
Robert J. Ferlez, Applied Research Laboratory
Diane Knight, Materials Research Laboratory
William T. Kupinski, Applied Research Laboratory

To Research Engineer

Mary Jane Hovanec, Applied Research Laboratory

Faculty/Staff Alert

Benefits adds voice-mail

Faculty and staff are now able to contact the Employee Benefits Division at times other than normal business hours.

According to Billie S. Willis, assistant vice president for Human Resources, this enhancement in service is possible through the installation of an electronic message system, commonly referred to as voice-mail. Requests for forms and other benefits-related inquiries or messages may be made using the system during times that members of the benefits staff are not normally available.

The recorded message will ask the caller to leave his/her name, social security number, telephone number and a message. If forms are desired, the caller also should provide a mailing address.

Normal business hours are 8 a.m. until noon and 1 p.m. until 5 p.m., Monday through Friday. The voice-mail system will be available at all other times including the noon-hour, evenings, weekends and holidays. The system may be accessed by dialing the regular Employee Benefits Division telephone number, (814) 865-1473. Dr. Willis emphasized that during normal office hours all telephone calls will continue to be answered by the benefits staff.

Obituaries

Sara K. Ness, retired assistant director of undergraduate admissions, Academic Services, died June 1 at the age of 60.

Mrs. Ness was a 1946 graduate of Bucknell University with a bachelor of science degree in psychology and attended graduate school at Penn State, where she majored in clinical psychology. In 1948 and 1949 she was a psychologist at the Harrisburg Center of Penn State. At University Park, Mrs. Ness served in the Office of Undergraduate Admissions as admissions assistant from 1970-74.

admissions counselor from 1974-79, and as an assistant director from 1979 until her retirement in 1987.

Memorial contributions may be made to The Paterno Libraries Endowment, 1 Old Main, University Park, Pa. 16802.

Mary C. Lucas, group leader, salad maker, Housing and Food Services, from Jan. 10, 1962, until her retirement May 24, 1975, died May 22. She was 78.

Ruby M. Venturato, secretary, Intercollegiate Athletics, from Sept. 1, 1971, until her retirement April 19, 1989, died May 30. She was 62.

Appointments

Three new department heads have been named in the Eberly College of Science.

They are **Jerry Bona**, professor of mathematics, Department of Mathematics; **Mary Jane Irwin**, professor of computer science, Department of Computer Science; and **James Rosenberger**, associate professor of statistics, Department of Statistics.

Dr. Bona has served as acting head of mathematics since 1990. A 1966 graduate of Washington University in St. Louis, with a bachelor's degree in applied mathematics and computer science, he earned his doctoral degree in mathematics at Harvard University in 1972.

Prior to his appointment in 1986 as professor of mathematics at Penn State, he was on the faculty of the University of Chicago faculty for 14 years and served as a research fellow at the University of Essex Fluid Mechanics Research Institute.

He currently is a visiting professor at Université de Paris-Sud and at Ecole Normale Supérieure de Cachan. Recently, he was visiting professor at the University of Minnesota Institute for Mathematics and its Applications and research professor at the Penn State Applied Research Laboratory.

Dr. Bona currently serves on the Mathematics Association of America Committee on the Undergraduate Program in Mathematics, the Organizing Committee of the Three Rivers Applied Mathematics Colloquium, the American Association for the Advancement of Science Committee on Education, and the SIAM Committee on Committees and Appointments.

Dr. Irwin succeeds Dr. Joseph Lambert, associate professor of computer science and mathematics, who will be taking over at associate department head.

Prior to joining the University faculty as an assistant professor in 1977, she was a graduate research and graduate teaching assistant at the University of Illinois for five years. She earned her bachelor's degree in mathematics at Memphis State University and her master's and doctoral degrees in computer science at the University of Illinois at Urbana-Champaign.

Dr. Irwin is a senior member and distinguished lecturer of the Institute of

Electrical and Electronics Engineers (IEEE) Computer Society. She also is secretary treasurer of the Association for Computer Machinery (ACM) SIGARCH and a member of the board of directors of ACM SIGDA.

Since 1986 she has been on the advisory committee of the National Science Foundation Microelectronics and Information Processing Systems division, and since 1980 she has been an ACM Special Interest Groups conference advisor and a member of the Supercomputing Conferences Steering Committee and the Design Automation Conferences Executive Committee.

Dr. Rosenberger, who has been acting head of statistics since 1990, succeeds Dr. Thomas Hettmansperger, professor of statistics, who returned to full-time teaching and research.

A member of the University faculty since 1976, Dr. Rosenberger is supervisor of the Statistical Consulting, Practicum and founding director of the department's Statistical Consulting Center, which was established in 1982 to provide statistical assistance to researchers in other disciplines and to provide realistic examples of research collaboration for training graduate students in statistics.

He earned his bachelor's degree in mathematics at Eastern Mennonite College in 1968, his master's degree in mathematics at Polytechnic Institute of New York in 1972, and his doctoral degree in biometry at Cornell University in 1977.

Prior to joining the University faculty, he was a programmer and statistical assistant in the cardiovascular research department of New York University Medical Center and then a graduate assistant in the biometrics unit of Cornell University. In 1980, he held a National Cancer Institute Postdoctoral Fellowship at Harvard University and was a research fellow in Biostatistics at Harvard's School of Public Health.

Diane M. Enerson, director of the College Academic Tutor Program at The University of Chicago, has been appointed director of the Instructional Development Program, effective Aug. 1.

As IDP director, Dr. Enerson will provide University-wide leadership in supporting and encouraging faculty efforts in the maintenance and improvement of instructional quality.

The Instructional Development Program, a unit of the Office of Undergraduate Education, offers a number of programs including certificated teaching assistant preparation; curricular design consultation; formative assessment of teaching; new faculty orientation; research initiatives, and special initiatives, including collaborative projects with colleges, campuses, and departments.

Among its faculty development activities, IDP develops workshops, conferences and seminars for specific needs; provides consultation regarding personal professional development goals; creates opportunities for interested faculty to become IDP associates, and facilitates linkages among faculty with similar instructional interests.

Dr. Enerson, a graduate of Penn State with a B.S. degree, received an M.A. degree in special education from the University of Pittsburgh and a Ph.D. in educational psychology from The University of Chicago.

While in her present position at The University of Chicago, Dr. Enerson also served as learning and study skills consultant and director of teaching and learning resources.

She has published a handbook for beginning teachers which grew out of the activities of the Chicago Teaching Project. Her current major research interest is completion of a study on styles of teaching.

Prior to joining The University of Chicago staff, Dr. Enerson served as a learning disorders clinician at the Western Pennsylvania Hospital, Pittsburgh, and was a junior high science and mathematics teacher in Peoria, Ill.

Richard C. Nelson has been named head of the Department of Exercise and Sport Science. Dr. Nelson, who had been interim head of the department since last July, will serve a three-year term.

Dr. Nelson, a University faculty member since 1964, is professor of biomechanics. He also is founding director of the

Biomechanics Laboratory, a position he will continue to hold.

His research focuses on ways to improve athletic performance and reduce injury, including testing and evaluating sports equipment. Most recently he has been conducting biomechanical analyses of the movements of Olympic swimmers, divers, cross country skiers, and gymnasts, based on filming during competition at the Los Angeles, Calgary and Seoul games.

Dr. Nelson serves on the Medical Commission of the International Olympic Committee. He is past president of the International Society of Biomechanics, and is founding editor of the International Journal of Sport Biomechanics.

In 1977 the International Council of Sport Science, part of UNESCO, presented him with its Philip Noel Baker Research Prize for research contributions in sport biomechanics. He received the Citation Award from the American College of Sports Medicine in 1989.

Dr. Nelson holds a Ph.D. in exercise science from Michigan State University and an M.Ed. from the University of Houston. His undergraduate school, St. Olaf College, named him a Distinguished Alumnus in 1979.

Dehra Shafer, former assistant director of educational services at WPSC-TV, has been appointed acting director of its Center for Instructional Design and Integrated Technologies.

Ms. Shafer, who holds a master's degree in adult education from Penn State, has worked for WPSC-TV since 1986.

The Center's mission is to participate in education, research and public service through the design and distribution of media-based instructional materials developed in collaboration with others.

In her newest position with the Center, Ms. Shafer will continue to manage the adult literacy unit, including ongoing utilization of the video training and support series "On Your Own," a course series for adults in basic mathematics, reading, writing and grammar. She also will evaluate current and future higher education needs that can be met by various satellite, cable and video distribution systems.

University Park Calendar

July 25 --
August 11

Special Events

Thursday, July 25
Summer Sessions, music at noon, Fisher Plaza.
Summer seminar, 3:30 p.m., Nittany Lion Inn.
Summer meetings on lasers and materials processing at Penn State, 3:30 p.m., 112 Walker.

Demonstration of Microsoft Windows 3.0
1:15-4 p.m., HUB Assembly Hall. Jeff James
Microsoft Corp.

Friday, July 26
Summer Sessions, ice cream "diversions," 7-8 p.m., Creamery/Pavilion.

Saturday, July 27
Shaver's Creek, Forge-on to the Iron Furnace, 1:30-3 p.m., Call 863-2000.

Sunday, July 28
Shaver's Creek, Environmental Games for Kids, 1-2:30 p.m., Call 863-2000.

Tuesday, July 30
Shaver's Creek, Eco-Venture, through Aug. 3, 1-3:30 p.m., Call 863-2000.

Summer Sessions, music at noon, Fisher Plaza; architecture lecture, 4 p.m., 112 Walker.

Wednesday, July 31
Summer Sessions, summer scholars, 3-5 p.m., Roberson Cultural Center, HUB lawn film, 9 p.m.

Thursday, August 1
Summer Sessions, music at noon, Fisher Plaza; summer seminar, 3:30 p.m., Nittany Lion Inn.

Charles W. Moore, the internationally-acclaimed architect who designed the addition to the Palmer Museum of Art, will present his recent works at 4 p.m. Tuesday, July 23, in 112 Walker Building.

Friday, August 2
Summer Sessions, ice cream "diversions," 7-8 p.m., Creamery/Pavilion.

Tuesday, August 6
Summer Sessions, music at noon, Fisher Plaza; architecture lecture.

Saturday, August 10
Shaver's Creek, Astronomy for Amateurs, 8:30-10:30 p.m., Call 863-2000.

Public Radio

WPSU-FM 91.1

"All Things Considered," Mnday-Friday, 5-6:30 p.m., Saturday and Sunday, 5-6 p.m.
Morning Edition, Monday-Friday, 6-8 a.m., Weekend Edition, Saturday and Sunday, 11 a.m.-1 p.m.
"Odyssey Through Literature," 12:30 p.m. Wednesdays with 5 Leonard Rubinstein.
"Perspectives," 6:30 p.m. Wednesdays, with Jeff Ballou.
"Creative License," 12:30 p.m. Thursdays.

Conferences

Continuing Education

Keller Building
Technology Short Course: Barret McCormick, chair; Norm Lathbury, coordinator.
July 29-Aug. 2, Boller/HVAC Water Treatment. James Tomlinson, chair; Norm Lathbury, coordinator.

July 29-Aug. 2, Augmentative Communication. John Salvia, chair; Kathy Karchner, coordinator.

Aug. 2-4, Profiles in the Third Age. James Weeks, chair; Jack Sinclair, coordinator.

Aug. 4-9, Credit Union Management Institute. Shirley Hendrick, chair; Barb Impelitteri, coordinator.

Aug. 5-7, Water Work Operators Annual Conference. David Long, chair; Chuck Herd, coordinator.

Aug. 6-11, Society for the Study of Amphibians and Reptiles and the Herpetologists League. Linda Maxson, chair; Jack Sinclair, coordinator.

Exhibits

Pattee Library

Lending Services Gallery:
Chris Hughes' "Retropuzzle," through Aug. 29.
Penn State Room:
JRB, 100 John R. Bucken and the "Development of Landscape Architecture at Penn State," through Sept. 30.

Rare Books Room:
"History of Rhetoric and Rhetoric Textbooks," through Aug. 15.

Focus on the arts

'Palms and Fora'

Peter Magyar, head of the Department of Architecture, will present "Palms and Fora" at 4 p.m. Tuesday, July 30, in 112 Walker Building at University Park.

The lecture is part of "The Campus and the City" series sponsored by the Office of Summer Sessions and the Department of Architecture.

Professor Magyar has taught at Auburn University, Ahmadu Bello University in Nigeria, the Technical University of Budapest and as a visiting professor at Cincinnati University and the Royal Academy of Arts and Architecture in Copenhagen, Denmark. He also maintains an active design and consulting practice.

Art exhibit

"The Decade Show, 1982-1991 State College Alumni," organized by Robert Placke, fine art instructor at the State College Area Senior High School, is on display in Pattee Library's East Corridor gallery through July 31.

The exhibition includes art work produced by State College High School alumni from the years 1982 through 1991 who have continued their artistic careers at various universities and design schools. The 27 works on display represent several fields

of art study including architectural renderings, graphic design, photography, fine art, education, sculpture and industrial design.

Of the exhibition, Placke remarks, "The overall concept is to promote all fields of study of the arts, to showcase the State College School District and to provide a degree of ownership of the local talent."

Odyssey on WPSU

Comparative Literature graduate student Charles Kraszewski presents his translations of modern Polish and Czech poems on "Artificial Respiration," the next episode of "Odyssey Through Literature" on WPSU.

Mr. Kraszewski follows George Steiner's theory of translation, that the translator's aim is to recreate the original verse. The translation is a new poem: Not an equation but an equivalent.

"It is a betrayal of the translator's work if he tries to bring over the music of the original language," he says, adding that a successful translation should have the same effect on the person reading it in English as the original had in Polish or Czech.

On the Aug. 7 program, "The Mystery of Moral Indignation," host S. Leonard Rubinstein talks with J. Madison Davis, professor of English at Penn State Erie The

Behrend College, about his two mystery novels.

"The Murder of Fran Schind," says Rubinstein, reveals a fascination with the extremes of cruelty, with evil inside of everyone.

Its historical context "excuses the reader from any responsibility," but *Walt Rock*, Davis's second novel, speaks of "a current frightening phenomenon," the Ku Klux Klan. "You are not now excusing us from responsibility," says Rubinstein, "Is this some calculated plot on your part?"

"Odyssey Through Literature" is produced by the Comparative Literature Department in the audio-production studios of WPSU-TV. It airs Wednesdays at 12:30 p.m. on WPSU, 91.1 FM.

Porcelain on view

During the month of August, the Palmer Museum of Art's "Figure of a Dutch Girl" will be exhibited in the lobby of Peoples National Bank at the corner of Allen Street and Calder Way in State College.

The porcelain figure was created in China around 1735, during the Ch'ing Dynasty. As a prime example of export porcelain executed for trade between China and Europe, the dress reflects European fashion aesthetic while the facial features are Asian.

The piece is part of the bequest made to the museum in 1986 by Harold Tonkin, Penn State class of 1923, and his wife. Avid collectors of Chinese jade, ceramics and export porcelain since 1955, the Tonkins enriched the museum's permanent collection with art objects from the Han Dynasty (206 B.C.-220 A.D.) to the 20th century.

The public is invited to view this piece and a new one each month as part of "Art to Go" at Peoples National Bank. Conceived by the Friends of the Palmer Museum of Art, the "Art to Go" exhibition complements "The Permanent Collection from Floor to Ceiling," on view in the museum's second floor during construction of the new wing.

'Retropuzzle'

The exhibit, "Retropuzzle," by Chris Hughes is on display in Pattee Library's Lending Services Gallery through Aug. 29. Of his prints, he comments, "They reflect my interest in extreme and skewed angles and views. My art also speaks of abstraction, dissolution and transfiguration."

Mr. Hughes is a student at Penn State majoring in printmaking.

Bookshelf

Paul S. Greenlaw and Michael P. Hottenstein, professors of management, are co-authors of the second edition of their production management simulation text *Prosim*.

The book helps students understand business processes through models of corporate operation in which they are required to solve problems and make decisions in a dynamic business environment. Printed by Harper Collins Publishers, New York City, the 1991 edition replaces one which has been in print for more than 20 years.

The new edition incorporates up-to-date cost structures, numerous new analytical tools and an extended decision-making horizon.

Furthermore, the business simulations in *Prosim* may now be run with the assistance of a personal computer, rather than a mainframe, as with the first edition. Disks are provided with the algorithms and tools necessary for students to make decisions in operating their simulated company.

Rangachar Kasturi, associate professor and acting director of computer engineering, is co-author, with Mohan M. Trivedi of the University of Tennessee, of *Image Analysis Applications*, published by Marcel Dekker Inc.

Dr. Kasturi, who also wrote two chapters in the book, said that intelligent machines must be able to interpret images accurately in order to perform many useful functions. *Image Analysis Applications* demonstrates the successful employment of new methods designed to increase the visual sensory capabilities of computers.

It is a reference for computer, optical, laser, electrical and electronics engineers involved with computer and robot vision, digital image processing, pattern recognition and artificial intelligence, and for graduate-level students.

Dan W. Kennedy, institutional research coordinator in Division of Planning Studies, and **Ralph W. Smith**, assistant professor of leisure studies, are co-authors of the second edition of the textbook *Special Recreation: Opportunities for Persons with Disabilities*, published by William C. Brown. The book's third co-author is David R. Austin of Indiana University.

The textbook reflects a growing interest in providing services to meet the recreational needs of persons with disabilities. The authors use the term "special recreation" to describe freely chosen leisure activities, rather than recreation as therapy.

The new edition includes strategies for integrating people who have disabilities into recreational programs for people who do not have disabilities. The new edition also replaces terms such as "disabled persons," in which the disability describes the person, with "persons with disabilities," in which the focus is on the individual.

Linda Patterson Miller, associate professor of English at the Penn State Ogontz Campus, is the editor of *Letters from the Lost Generation*, Gerald and Sara Murphy and Friends, published by Rutgers University Press.

The collection of letters tells the story of one of the most famous literary "sets"

of the 20th century — Gerald and Sara Murphy at the center of a group comprised of Ernest Hemingway and his wives, F. Scott and Zelda Fitzgerald, John Dos Passos, Archibald MacLeish, Dorothy Parker, Alexander Woolcott, Robert Benchley, Philip Barry, and many others. They personify the jazz age and the lost generation.

The book contains nearly every extant letter between the Murphys and their friends during those decades. Most of them have never been published previously, and, of course, they have never been presented collectively.

Together, they constitute an epistolary "novel" of peculiar power and authenticity. This is a story about an era that had its own special flair, along with its later tragedies.

Michael J. Rovine, assistant professor of human development, and **Alexander von Eye**, professor of human development, are co-authors of *Applied Computational Statistics in Longitudinal Research*.

The book, published by Academic Press Inc., examines new statistical strategies in longitudinal research and shows how to implement those techniques on a computer. It is designed to be useful even for researchers who have only limited experience in computer programming.

The book can be used as a stand-alone or as a companion to the two-volume *Statistical Methods in Longitudinal Research*, of which Dr. von Eye is editor.

Longitudinal research, which makes use of repeated measurements over time, is especially useful in studying development and change. Applications

can be found in human development, psychology, sociology, medicine, education, engineering and other fields.

K. Warner Schaie, Even Pugh professor of human development and psychology, is co-editor of *Self-Directedness: Cause and Effects Throughout the Life Course*.

The book, published by Lawrence Erlbaum Associates, is the third in a series sponsored by the University's Gerontology Center. The other editors are Judith Rodin of Yale University and Carmi Schooler of the National Institute of Mental Health.

A person's self-directedness, or sense of control, is thought to play a role in determining whether that person will lead a long, healthy, effective, and fulfilling life, or surrender to ill health, loneliness, and withdrawal.

Chapters focus on such topics as career paths, the development of a sense of control in childhood and adolescence, control and health, and intellectual performance over the life course.

Martin S. Stabb, professor of Spanish and chair of the Latin American Studies Program, is the author of *Borges Revisited*, published by Twayne Co. of Boston.

Drawing on recent literary theory to reassess the Argentine writer's role in Western literature, Dr. Stabb discusses the Borges style and humor and interrelated texts. He covers Borges' metafictional tactics and traces his influence on Latin American and postmodernist writers Thomas Pynchon, John Barth, Gabriel Garcia Marquez, Carlos Fuentes and Julio Cortazar.

Penn Staters

Hans Baumgartner, assistant professor of marketing, presented the paper "An Investigation into the Validity of Self-Reported Measures of Exploratory Behavior Tendencies" at the European Marketing Association Conference in Dublin, Ireland.

Joseph S. DiGregorio, associate dean for commonwealth and continuing education and international programs, College of Engineering, has been elected director of the American Society of Engineering Education Engineering Technology Council.

T.P. Hettmanperger, professor of statistics in the Eberly College of Science, has returned from a six-month leave of absence to Switzerland, Finland, and Australia, where he presented a series of 10 lectures at the University of Bern's Institute for Mathematical Statistics, Switzerland; a

series of 12 lectures at the University of Oulu, Finland; an invited paper at the University of Tasmania's Department of Mathematics, and an invited colloquium talk at Latrobe University's Department of Statistics, Melbourne, Australia. He also served as the Sir Walter Scott Visiting Professor of Statistics at the University of New South Wales' Australian Graduate School of Management in Sydney.

Austin J. Jaffe, professor of business administration, led a seminar titled "Property Rights and the Role of Financing in Housing Markets" for the Institute of Economic Forecasting of the U.S.S.R. Academy of Sciences in Moscow and gave a speech, "Some Aspects of Property Rights and Housing Policies in Market Economies" to the Moscow City Council.

The National Endowment for the

Humanities has awarded a Humanities Summer Stipend to **Richard Kopley**, associate professor of English at the Penn State DuBois Campus, to support his research concerning essays and reviews written by Edgar Allan Poe.

Robert E. Newnham, professor of solid state science, has been elected an Academician of the International Academy of Ceramics for his "significant contributions to the advancement of ceramic science and technology."

Jerry C. Olson, the Charles and Lillian Binder Faculty Fellow, presented a working paper on the measurement of consumer knowledge structures at the European Marketing Association Conference in Dublin, Ireland.

C.R. Rao, holder of the Eberly Family Chair in Statistics and director of the

Center for Multivariate Analysis, has received an honorary doctor of science degree from the University of Hyderabad in India.

Frank Swetz, professor of mathematics and education at Penn State Harrisburg, gave a faculty seminar on "Textbooks in the Middle Ages and Today: Thoughts on the Function of the Textbook in Mathematics Education" at the Open University, Milton Keynes, England.

Roy F. Willis, professor of physics in the Eberly College of Science, has been elected a Fellow of the American Physical Society in his "contributions to surface physics, in particular the observation of surface electronic states, surface magnetic order and surface vibrations employing innovative developments in electron spectroscopic methods."

Private Giving to Penn State

Campaign for Hershey

Four Diamonds pledges \$500,000

The group that administers financial aid to the families of children with cancer at the Hershey Medical Center has pledged \$500,000 to the Campaign for Hershey.

The Campaign is an effort to raise \$10 million in private funds to help build and equip the new Biomedical Research Building now under construction adjacent to the College of Medicine. The pledge is directed toward the childhood cancer research area of the building.

The Four Diamonds Advisory Board fund-raising effort, chaired by Jane Rice, director of public relations for Utz Quality Foods Corp., has already secured more than \$160,000, including commitments from Mr. and Mrs. Kenneth Hatt of Hershey (\$60,000), the Hershey Bank (\$50,000), the Hershey-Palmyra Sertoma Club

(\$15,000), Nondas "Pete" Skindas of Lancaster (\$10,000), Utz Quality Foods of Hanover (\$10,000), Jane Rice of Hanover (\$6,000), and Mr. and Mrs. Curtis Walizer of Hershey (\$5,000).

"The members of this board are well aware of the need for expanded cancer research. Our pledge reflects this knowledge, and underscores the concern and dedication that we all share," said Nelson Sears, chairman of the Four Diamonds Advisory Board and program manager, WGAL-TV in Lancaster.

The Four Diamonds Fund, founded in 1972, aids families by funding social services, treatments, Child Life programs and cancer research. It has received nearly \$3 million since 1977 from an annual dance marathon sponsored by the Penn State Interfraternity

and Panhellenic council. The funds raised by the marathons now support about 350 families.

Approximately \$37 million of the cost of the 256,000-square-foot Biomedical Research Building will be underwritten through a bond issue and the use of financial reserves. No public funds will be used.

The seven-story building will contain laboratories for the departments of Anesthesia, Medicine, Microbiology and Immunology, Neuroscience and Anatomy, Ophthalmology, Pediatrics, Radiology and Surgery — which will include further work on organ transplantation. It also will contain the first new student space — seminar and activity rooms — to be constructed since the Medical Center was first built.

Whitaker Foundation aids heart research

The Whitaker Foundation has committed \$300,000 to the Campaign for Hershey to help in the construction of the heart research area in the new Biomedical Research Building at the Hershey Medical Center.

The foundation, which is a major national underwriter of biomedical research, has previously supported many research projects at the Medical Center, including work on the artificial heart. It also has been the primary sponsor of the Whitaker Summer Scholars Program, which brings area college students to the Medical Center to participate in scientific research projects.

Established by U.A. Whitaker in 1975, the foundation primarily seeks to support biomedical and engineering research. Mr. Whitaker was the founder

of Aircraft Marine Products Co., now known as AMP Inc.

"The Medical Center and the Whitaker Foundation have enjoyed a long and close relationship," C. McCollister Everts, senior vice president for health affairs and dean of the College of Medicine, said. "We are partners in many areas, and this new commitment is sincerely appreciated."

The \$46.3 million, 236,000-square-foot Biomedical Research Building is under construction next to the College of Medicine. Approximately \$37 million of the cost will be underwritten through a bond issue and the use of financial reserves. A campaign to raise \$10 million in private donations was announced in March, with more than \$5 million having been raised so far.

No public funds will be used.

"The Whitaker Foundation has long supported the important work being done at Hershey, and is pleased to be a part of this effort to enhance the research capabilities of the Medical Center," Miles Gibbons, president of the foundation, said.

The seven-story building will contain laboratories for the departments of Anesthesia, Medicine, Microbiology and Immunology, Neuroscience and Anatomy, Ophthalmology, Pediatrics, Radiology and Surgery. It also will contain the first new student space, seminar and activity rooms to be constructed since the Medical Center was first built in the late 1960s.

Alumna's estate aids diversity programs

A 1937 alumna was so concerned about bigotry on college campuses that she earmarked one-quarter of her estate for the establishment of programs in diversity at the University.

Reva Lincoln Messier, who died April 15, was a former member of the nutrition faculty at Ohio State University. In making her bequest, she said she had always wanted to do something for Penn State in appreciation for her "four wonderful years" there.

She also became concerned about what she saw as a growing pervasiveness of bigotry on American campuses, and decided that her bequest should provide opportunities for students to experience the values of diversity.

"Mrs. Messier's bequest is a wonderfully sensitive and fitting expression of support, and I am privileged to accept it on behalf of the University," President Thomas said.

Since the bequest is for a percentage of Mrs. Messier's estate, the final value of

the gift must be estimated, according to James A. Rhodes, director of the Office of Trusts, Estates and Endowments. He said the University estimates that it will receive approximately \$200,000, and perhaps as much as \$250,000.

Under the terms of the bequest, an endowment will be established "to provide opportunities for students to partake of the racial, ethnic and religious diversity of campus life and to explore differences in a non-confrontational way."

A native of Palmyra, N.Y., Mrs. Messier taught in Pennsylvania schools for four years after graduating from Penn State. She then received a master's degree from Cornell University in nutrition and biochemistry, and worked for six years at the University of Arizona as an extension nutritionist. From there, she joined the nutrition faculty at Ohio State. Her husband, the late Robert Louis Messier, was editor of *Clinical Abstracts* at Ohio State.

Pa. Restaurant Association

Mateer Building receives pledge

The Pennsylvania Restaurant Association has pledged \$100,000 from its members to help build the new quarters of the School of Hotel, Restaurant and Institutional Management.

The 35,000-square-foot Mateer Building will be adjacent to Keller Conference Center at University Park. It will house a computer center, technology center, dining room, production and research kitchens, classrooms, a multimedia resource center and administrative and faculty offices.

"It is very important for the PRA to maintain a strong relationship with the educational community to project a professional image for the industry and to all young adults considering a career in the food service industry," Nick Rillo, owner of Rillo's Restaurants of Camp Hill, Carlisle and Mechanicsburg, and chairman of the association's fund-raising effort, said. "We are proud to be

a part of such an important investment in the education of our industry's future managers."

Stuart Mann, acting director of the school, said the school has a long record of supplying quality employees to the hospitality industry.

"The restaurant association's pledge reflects an awareness that the University provides research and professional support and well-trained employees," he said. "The Mateer building is evidence of our commitment to meet the needs of the hospitality industry, both locally and around the Commonwealth. We believe that the training and research the school provides will help to build a stronger relationship between 'town and gown,' as well," he noted.

Construction costs are estimated at \$5.6 million and equipment is estimated to cost approximately \$1.4 million.

Staff Vacancies

The following vacancies for positions classified as staff exempt or staff nonexempt have been listed with the University Employment Division for filling. The brief statements for each vacancy are illustrative. They are not complete position descriptions. **APPLY BY CALLING THE EMPLOYMENT DIVISION, 863-0304 (NETWORK LINE) 8:30-0304.** Applications for these positions will be accepted until **AUGUST 1. DO NOT CONTACT THE AREA THAT HAS THE VACANCY.** Applications for staff vacancies are considered in accordance with Fair Employment practices (FE-1) and in compliance with the University's Alternative Action Compliance Program without regard to race, color, religion, national origin, handicap or age as provided by law, sex, or status as a disabled or Vietnam era veteran.

■01008, Director of Development and University Relations, Development and University Relations, School of Communications, University Park Campus - Responsible to the executive director of university development and working closely with the dean of the School of Communications for developing and conducting fund-raising programs and related activities for the School of Communications. Requires bachelor's degree, or equivalent, in marketing, communications or related field, plus four to five years of effective experience in major gift fund-raising in a nonprofit environment with evidence of skill in written and verbal communication. Travel required. **STAFF GRADE 9.**

■01613, Advising and Counseling Specialist, New Kensington Campus, Student Programs and Services - Responsible to the director of student programs and services for organizing and conducting a comprehensive student-centered career development and placement service and marketing program for the entire campus. Requires master's degree, or equivalent, in counseling or related field, plus one to two years of effective experience in counseling or a closely related area. This is a re-announcement. Previous bidders need not re-apply. **STAFF GRADE 7.**

■01617, Coordinator, Research and Ph.D.M.S. Programs, The Smear College of Business Administration, Division of Research, University Park Campus - Responsible to the associate dean for research for the administrative functions of the Division of Research; for external funding; administering contracts; grants and budgets; the supervision of staff; and for the coordination of Ph.D. M.S. services to the academic departments. Requires bachelor's degree in business administration, or equivalent, with three to four years of effective experience. Knowledge of computer and computer systems and writing skills and research experience is highly desirable. **STAFF GRADE 7.**

■01618, Assistant to the Dean, The Smear College of Business Administration, Office of the Dean, University Park Campus - Responsible to the dean for the management of all activities directly associated with the dean's administrative and executive

responsibilities, as well as the effective and efficient operation of the dean's office. Requires bachelor's degree in business administration, or equivalent with two to three years of experience. MBA desired. Strong interpersonal, management, and analytical writing skills required. Knowledge of Penn State administration and educational structure as well as computer and computer systems preferred. **STAFF GRADE 7.**

■01619, Admissions Counselor, Behrend College, Admissions - Responsible to the director of admissions for a variety of duties involving recruitment and admission of minority EOP and freshman students to the college and university. Requires bachelor's degree, or equivalent, plus one to two years of effective experience in college recruiting and admissions or other public contact experience requiring dealing with the public, public relations, marketing, etc. **STAFF GRADE 6.**

■01462, Student Activities Assistant, Altoona Campus, Student Programs and Services - Responsible for the onsite implementation of events and weekend activities of performing groups, speakers, theatre productions, films, and activities of student organizations. Requires bachelor's degree, or equivalent, in a student services related area plus one to two years of effective experience in student activities and/or theatre production, etc. Note: working hours for this position are from 9 p.m. to 5 p.m. This is a re-announcement. Previous bidders need not re-apply. **STAFF GRADE 5.**

■01621, Assistant Director of Development, Division of Development and University Relations, Hershey Medical Center - Responsible to the director of development for coordinating a variety of special events and projects, acting as primary liaison with outside groups, coordinating appeals and publicity, and contributing to various office projects and publications. Requires bachelor's degree, or equivalent, plus one to two years of development or related experience. Good oral and written communications skills are essential. This is a fixed-term position funded through June 30, 1992, with good possibility of re-funding. **STAFF GRADE 6.**

■01622, Special Waste Handling Assistant, University Safety, University Park Campus - Responsible to the laboratory safety and waste disposal specialist to coordinate and implement the scheduling, collection, transportation of chemical and biological materials and to communicate policies and procedures to the University community. Requires associate degree, or equivalent, with courses in biology, chemistry, microbiology, biochemistry or related field plus one to two years of effective experience in the handling and disposal of wastes, and experience in using computers and oral/written communication skills. A bachelor's degree is preferred. This is a fixed-term position funded through June 30, 1992, with a good possibility of re-funding. **STAFF GRADE 4.**

■01623, Assistant Financial Aid Coordinator, Academic Services,

Student Aid, University Park Campus - Responsible to the director of student aid services for assisting in designing, creating and maintaining client service procedures. Requires bachelor's degree or equivalent, plus one to two years of effective experience in an area applicable to aid administration. Excellent interpersonal skills are required. **STAFF GRADE 5.**

■01624, Senior Auditor - Computer Systems, Corporate Controller, University Park Campus - Responsible to audit manager. Computer Systems. for the analysis of systems and the development of computer programs to audit and evaluate the integrity of processing and reliability of controls in systems. Requires bachelor's degree or equivalent in accounting, computer science or related management field plus two to four years of effective experience in internal auditing or in financial or operational controls or administration. Experience with security software, mainframe operating systems, and/or at least one major mainframe programming language desired. Incumbent must be able to express himself/written, orally and in writing. **STAFF GRADE 7.**

■01625, Assistant Marketing Manager, Senior Vice President for Research and Dean of the Graduate School, University Press, University Park Campus - Responsible to the marketing manager. University Press, for assisting with the planning, development, sales, and implementation of marketing efforts of the University Press. Requires bachelor's degree or equivalent in marketing, journalism, or English plus one to two years of effective experience in scholarly publishing. **STAFF GRADE 5.**

■01627, Assistant to the Director of Student Programs and Services, Beaver Campus - Responsible to the director of student programs and services for the supervision and program direction of student activities, including day-to-day inspection of related facilities. Also provide support for the functions of financial aid and admissions. Requires master's degree, or equivalent, in student personnel or other related fields, plus one year of effective experience or bachelor's degree with two to three years of effective experience. **STAFF GRADE 6.**

■01628, Scene Shop Supervisor, Arts and Architecture, Department of Theatre Arts, University Park Campus - Responsible to the staff technical supervisor for supervising the day-to-day operation of the scene shop in the Theatre Arts Production Studio and for assisting in providing instruction to students in the use of all shop equipment in scenery construction, prop, and in theatrical rigging. Requires bachelor's degree in technical theatre and one year of effective experience in scenic studio and theatres. This is a fixed-term position funded through June 30, 1992, with possibility of re-funding. **STAFF GRADE 4.**

■01635, Classroom Assistant, (Assistant Group Supervisor, Health and Human Development, Human

Development and Family Studies, University Park Campus - Responsible for planning and supervising activities for pre-school children ages 2 1/2 - 4 planning and coordinating a parent involvement program, and overseeing and directing the work of university students. Requires bachelor's degree or equivalent, in early childhood education special education or human services field plus a minimum of three months of experience with young children or associate degree or equivalent plus one year of direct experience with infants, toddlers or young children. **STAFF GRADE 4.**

■01636, Senior Applications Software Designer/Programmer, CES, Management Systems, University Park Campus - Responsible to the assistant manager, applications development, for leadership of major data processing development projects. Requires bachelor's degree or equivalent in computer science, MIS or related field, plus two to three years of effective experience in computer programming, systems analysis, management information systems, and/or database control systems. Working knowledge of fourth generation development environment as well as experience in accounting financial management budgeting, or other administrative areas is desirable. **STAFF GRADE 7.**

■01637, Applications Systems Specialist, CES, Management Systems, University Park Campus - Responsible to the senior applications software designer/programmer for consulting with CES and CE personnel on automated systems development projects. Requires bachelor's degree or equivalent, in business or management information systems or related field and one to two years of effective experience in computer programming and analysis. Experience with fourth generation development environments and/or microcomputer development highly desirable. **STAFF GRADE 6.**

■01638, Human Resource Trainer, Office of Human Resources, Human Resource Development Center, University Park Campus - Responsible to the manager, Human Resource Development, for providing assistance in developing and implementing services relating to orientation and diversity. Requires bachelor's degree, or equivalent, plus one to two years of effective experience. This is a fixed-term position funded through June 30, 1992, **STAFF GRADE 6.**

■01629, Junior Engineering Aide, Applied Research Laboratory, University Park Campus - Responsible to the project engineer or designated senior engineering aide for assistance the fabrication, testing, installation, operation, and maintenance of non-standard electronic or mechanical parts, components, and equipment. Requires bachelor's degree, or equivalent, in electrical or mechanical engineering technology program and more than three months of effective experience. Position may require travel on field assignments including assignments abroad such as sea, U.S. citizenship required. **STAFF GRADE 3.**

■01630, Engineering Aide, Applied Research Laboratory, University Park Campus - Responsible to the project engineer or senior engineering aide for the record, design, fabrication, and construction of standard electronic or mechanical components and equipment. Requires associate degree, or equivalent, plus two to four years of effective experience in the design and fabrication of experimental equipment. Position may require travel on field assignments, including assignments aboard ships at sea. U.S. citizenship required. **STAFF GRADE 5.**

Hershey

For the following position vacancies apply directly to The Milton S. Hershey Medical Center. Attach resume with cover letter indicating the position, vacancy code and forward to the Department of Human Resources, Hershey, or call the Hershey bid line at (717) 531-6531 by August 1.

■7592, Histopathology Technology, Department of Anatomic Pathology - Responsible to the chief, Surgical Pathology Laboratory, for the performance of various procedures, techniques and processes utilized in the lab. Requires an associate degree and A.S.C.P. (H.T.) registration or equivalency and one to two years effective experience. **STAFF GRADE 4, NONEXEMPT, GRADE 4.**

■7618, Reimbursement Analyst, Department of University Physician Professional Billing - Responsible to the assistant director for reimbursement for developing and maintaining a proficient in third party reimbursement and audit and billing procedures. **STAFF GRADE 6.**

■1098, 1267, Clinical Head Nurse, 12 positions available Department of Nursing/Pediatric Inpatient Rehab Unit - Responsible to the nursing manager and/or the assistant director of nursing services for performing a variety of nursing duties, as well as providing leadership to nurse clinicians and other patient care personnel. Requires registered nurse with a current license to practice professional nursing in Pennsylvania, plus one to two years of effective nursing experience. Bachelor of science in nursing preferred. **STAFF NONEXEMPT, GRADE 5.**

■1268, 1269, Clinical Head Nurse, 12 positions available Department of Nursing/Pediatrics - Responsible to the nursing manager and/or the assistant director of nursing services for performing a variety of nursing duties, as well as providing leadership to nurse clinicians and other patient care personnel. Requires registered nurse with a current license to practice professional nursing in Pennsylvania, plus one to two years of effective nursing experience. Bachelor of science in nursing preferred. **STAFF NONEXEMPT, GRADE 5.**

Spin-offs make for excellent long-term investments

Firms that have been spun-off from parent companies provide unexpectedly high returns to investors in the long run, researchers in the Smeal College of Business Administration said.

"In contrast to investments in initial public offerings, which tend to perform well at first, but quickly falter, investments in spin-offs gain strength with age," James A. Miles, professor of finance, noted.

Dr. Miles studied spin-off investments with J. Randall Woolridge, professor of finance and the Goldman Sachs and Co. and Frank P. Smeal Endowed University Fellow, and graduate student Patrick J. Cusatis. The researchers examined portfolio returns for spin-off firms up to three years after their introduction.

The study is part of a major undertaking in the Smeal College to determine the effects of divestiture by spin-off, and has attracted attention from the national business press. Early results suggest the abnormal stock market performance of spin-offs derives from a variety of factors. These include reduced corporate overhead, increased operating efficiency, enhanced ability to attract capital, and improved incentives for management.

The researchers found 750 cases from

'The average spin-off outperformed the overall market by 35 percent when the S&P 500 Index was used, and by more than 40 percent when the Nasdaq Index was used.'
— James A. Miles

1965 through 1990 in which companies distributed the common shares of another corporation to their shareholders. Publicly available common stock price data was found for 146 of the 231 cases that met the study's criteria for pure spin-offs.

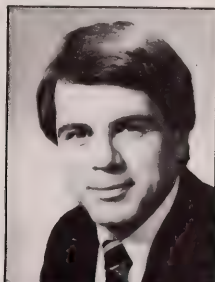

The stock distribution by the parent involved a wholly owned subsidiary.

● The spin-off met IRS conditions to be tax-exempt, which require that the parent and subsidiary have been together for at least five years and that the parent distributed at least 80 percent of the shares in the subsidiary.

● The spin-off firm had no prior trading of its common stock in the market and, thus, the distribution of shares was effectively a new issue of stock comparable to an initial public offering.

James A. Miles

J. Randall Woolridge

Overall, an average raw return in excess of 100 percent was found for spin-offs during the first three years. The figure represents a compounded mean annual return of 27 percent. The average return for the first year was 23 percent.

"To assure that these high returns were not caused by an up market, we subtracted the contemporaneous overall market return from the raw return for each of 36 months for each spin-off," Dr. Miles said. "The average spin-off outperformed the overall market by 35 percent when the S&P 500 Index was used, and by more than 40 percent when the Nasdaq Index was used."

As another test, each spin-off was matched with an existing firm of similar size in the same industry. The spin-offs outperformed their counterparts by an average of 24 percent over the entire three-year period.

Three-year compounded annual returns were essentially the same whether a monthly portfolio rebalancing or a buy-and-hold investment strategy was used. Both approaches indicate that the most favorable performance occurs between the first and second year of the investment.

"Interestingly, average returns are very near zero for the first three months

of the spin-off's life," Dr. Miles said. "This is possibly a result of selling pressure brought on by institutions whose investment objectives do not permit them to hold the spin-off shares."

More than three-fourths of the firms in the study were formed in the last 10 years, the researchers said.

"Management often attributes the need to spin-off to a bad fit between a parent and its subsidiary, regulatory pressures, or an undervaluing of the combined entity by the market," Dr. Woolridge said. "Such reasoning suggests that, over longer periods of time, operating performance of spin-off firms should improve and lead to higher levels of valuation."

That reasoning seems to be borne out by the researchers' findings of significantly positive excess returns even after adjustment for risk. Also important is that unlike returns associated with initial public offerings, the impressive performance of spin-offs is not due to initial underpricing.

"The excellent track records of investments in spin-offs help to explain their dramatic surge in popularity during the 1980s," Dr. Miles noted. "More and more corporations are considering them as a restructuring device for extracting maximum value from their assets."

— Gary W. Cramer

Annual Ag Progres Days are scheduled for Aug. 13-15

A wide range of programs from equine education to food safety to alternative agricultural practices will be featured at the 23rd annual Ag Progres Days sponsored by the College of Agriculture, Aug. 13-15.

Ag Progres Days is a fun-filled, educational event for the entire family. Lamarine F. Hood dean of the College of Agriculture, said, "Through numerous exhibits, farm machinery demonstrations and tours of Penn State's research areas, visitors will have the chance to see the important role agriculture plays in our society."

Ag Progres Days, held at the university's 1,500-acre Russell E. Larson Agricultural Research Center at Rock Springs near State College, will run from 9 a.m. to 5 p.m. on Tuesday and Thursday, Aug. 13 and 15, and from 9 a.m. to 8 p.m. on Wednesday, Aug. 14. This year's theme, "Ag Science Touches Your Life," will highlight many of the ways that agriculture directly or indirectly affects our daily lives.

Ag Progres Days is one of the largest outdoor showcases of agricultural research and technology in the East. More than 250 commercial exhibitors will show and demonstrate approximately \$20 million worth of agricultural equipment.

The event also features tours of research farms and conservation education areas; exhibits and presentations by University faculty members on topics such as sustainable agriculture, international agriculture, food safety, mushroom production and composting, nutrient management, forest management, and the conversion of forage to food and fiber

products; a working computer classroom; a museum full of antique home and farm implements; landscape, lawn, and garden advice; information on how to start a small business; and more.

New this year is an equine educational program. The program includes breed exhibitions, handling and training clinics, riding demonstrations, and horseshoeing and tack displays.

At 7 p.m. Wednesday, experts from across the nation will participate in a teleconference on the prevention and treatment of Lyme disease. The workshop will be broadcast on cable TV stations in Pennsylvania and by satellite to other states.

Bus tours to the research farms always have been a highlight of Ag Progres Days. A popular new addition three years ago—the special topics research tours—will return. Tuesday's tour will focus on ways to maximize corn and small grain production in an ecologically sound manner. On Wednesday, visitors will travel to the University Park Campus for a tour of dairy production facilities and forage pastures that are managed under an intensive rotational system. Thursday's tour will highlight the latest research on integrated vegetable production.

The special topics tours will run twice a day at 10 a.m. and 1:45 p.m. General research tours and soil and water conservation tours are scheduled throughout the day.

There also is plenty of food to eat, served by local agricultural and community service organizations.

Young visitors at Ag Progres Days

News in Brief

Bowlers wanted

Wednesday night Nighthawk Men's League would like to expand its team roster. There are openings for four-man teams as well as individual bowlers.

For more information, call Fred Weyandt, 865-3453, or Tim Benner, 863-1757.

Visiting scholars

Two scholars visiting the Eberly College of Science have completed research sabbaticals in the Department of

Statistics: Friedrich Pukelsheim, professor of statistics and holder of the Chair for Stochastics and Its Applications in the Institute of Mathematics at the University of Augsburg, Germany, and Hannu Oja, senior research associate in the Department of Applied Mathematics and Statistics at the University of Oulu, Finland.

Professor Pukelsheim, an expert in experimental design who has done extensive work on the theory of optimal design, visited the University to write a

15-chapter research monograph. Its tentative title is "Optimality Theory of Experimental Design in Linear Models."

Dr. Oja visited Penn State to study with Thomas P. Hettmansperger, professor of statistics. His research interests are in multivariate analysis, nonparametrics, and medical statistics.

Volunteers sought

The Lion Liaison Mentor Program is seeking volunteers for fall semester.

The program pairs new adult students with faculty staff or alumni for purposes of easing the transition of the adult learner back to school. This one-to-one interaction helps to strengthen their confidence in and aid adjustment

to the higher education environment.

The volunteer's responsibility would be to call or meet with a new student and get to know him/her by participating in a few activities throughout the semester.

For more information about Lion Liaison, call the Returning Adult Student Center at 863-3867.

Research subjects sought

Men and women are needed for a study at the Biomechanics Lab. The study involves isometric grip testing as well as isometric flexion and extension testing.

Participants must come in for four short sessions. If you are 25 to 45 years old, call 865-3445.

INTERCOM is published weekly during the academic year and every other week during the summer. It is an internal communications medium published for the faculty and staff of Penn State by the Office of Public Information, Room 312, Old Main, Phone 865-7517.

University receives record number of alumni gifts

Penn State received a record number of gifts from alumni in 1990-91, which helped boost total contributions from all sources to \$61.4 million -- the second-highest in the University's history.

Alumni made 66,510 gifts during the year ending June 30, 1991, a 12.5 percent increase over the previous year. Their gifts totaled \$15.9 million, 29 percent more than in 1989-90.

Despite a nationwide recession and the war in the Persian Gulf -- factors which seem to have discouraged philanthropy at many other institutions nationwide -- our alumni and friends have once again shown their dedication to Penn State," President Thomas said. "We are deeply grateful."

"We're especially pleased with the response to our Annual Fund for Academic Excellence," he added. "We launched this program last year to boost participation in annual giving, and our alumni met our challenge most generously."

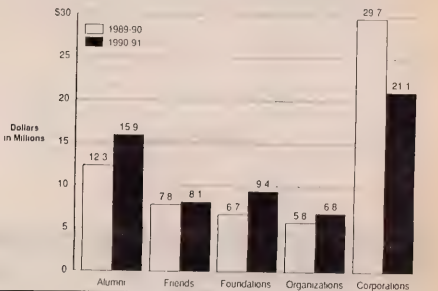

More than 54,000 alumni gave to the University in 1990-91, as compared with 46,000 the previous year. The increase in alumni participation is the largest in at least 10 years.

In other donor categories, gifts from foundations totaled \$9.4 million, a 42 percent increase from 1989-90. Individual non-alumni giving totaled \$6.1 million, up 3.9 percent. Corporate giving totaled \$21.1 million, down 29 percent from last year, and gifts from other organizations totaled \$6.8 million, a 17 percent increase from 1989-90.

"Corporate philanthropy decreased only because we had two exceptional gifts in 1989-90 that totaled \$9.1 million, noted G. David Gearhart, senior vice president for development and university relations. "If you don't include those two donations, then corporate giving actually increased in

See 'Gifts' on Page 3

Giving To Penn State By Donor Category
1989-90 vs. 1990-91

Fund on schedule

The Annual Fund for Academic Excellence, launched last August to increase the proportion of alumni who give to University programs to 20 percent by 1992, is right on schedule.

"The number of donors jumped 7,200, from 47,000 in 1989-90 to 54,700 last year, and is the largest one-year increase in the University's history," Dan Saffig, director of the Office of Annual Giving, said. "We're a little ahead of schedule, and hope to meet our goal of 20 percent alumni participation by this time next year."

He credited both alumni loyalty and some significant internal program adjustments for the improvements.

"Our alumni, aware of the state's fiscal problems, are trying to make up some of the shortfall in state funds," he said. "On our end, we've increased the use and efficiency of our telephone solicitations, and the Annual Fund for Academic Excellence now coordinates all annual donor appeals. This improves efficiency and gives us the ability to speak with one clear voice."

A preliminary analysis of this year's donor profiles reveals a surprisingly high level of support from younger graduates, as more than 80 percent of the new donors were found to be people who graduated within the last 10 years.

Commencement ceremonies to be held on Aug. 16

The University will grant degrees to 2,331 graduate and undergraduate students during summer commencement ceremonies on Friday, Aug. 16.

At the University Park Campus, 1,300 will receive bachelor's degrees, 373 will receive master's degrees and 177 will receive their doctorate. About 197 from all campuses are expected to receive associate degrees.

Heleen D. Wise, deputy chief of staff for programs and secretary to the cabinet of the Commonwealth of Pennsylvania, will speak at the baccalaureate and associate degree ceremonies at 1 p.m. in Recreation Building at University Park. President Joab Thomas will confer degrees.

Commencement ceremonies for the Graduate School will be held at 4 p.m. in Eisenhower Auditorium. John A. Brighton, executive vice president and provost, will be the speaker. Charles L. Hosler, senior vice president for research and dean of the graduate school, will preside.

Because Friday is a regular work day for faculty and staff, parking for commencement ceremonies at University Park will be limited.

Family and guests for the baccalaureate and associate degree ceremonies are asked to arrive early and park in lot 44 across from Beaver Stadium. A free shuttle bus will run from the parking lot and

Recreation Hall from 11:30 a.m. to 12:50 p.m. and return visitors to their cars from 2:30 p.m. to 3:30 p.m.

Family and guests for the graduate degree ceremonies are asked to park in lots Blue Circle A and 80, which are both at the corner of Bigler and Curtin Roads.

In addition to ceremonies at University Park, 45 undergraduates will receive bachelor's and 13 will receive master's degrees at Penn State Erie. The Behrend College, and 83 will receive bachelor's and 47 will receive master's degrees at Penn State Harrisburg. These students are invited to participate in fall commencement ceremonies at their campuses.

Penn State Erie breaks ground for new library

Ground was broken Wednesday, July 24, at Penn State Erie, The Behrend College, for an \$11 million library and academic building. The ground breaking calimnates 20 years of work on the part of University officials -- and in particular retired State Rep. Bennie Dombrowski -- to secure state funding for the much-needed facility.

"This truly is a major step toward fulfilling Penn State's mission in Northwestern Pennsylvania," John M. Lilley, provost and dean said. "The new

library and academic complex will allow Penn State-Behrend's students to begin catching up with our tremendous growth and to support the essential research and scholarship of our faculty and students."

"I cannot say enough about the commitment and dedication Bennie Dombrowski has shown for this project," Dr. Lilley added. "There would be no ground breaking at this time were it not for his efforts."

Since the College began 43 years ago,

the library has existed in temporary locations from what is now the College's Memorial Room, to the Studio Theatre, to Turnbull Hall, and finally its present location in the Reed Union Building.

The new 100,000-square-foot building will be located east of the Reed Building. In addition to housing the library, the new structure will contain classrooms and office space for faculty in the Division of Humanities and Social Sciences as well as

See 'Library' on Page 3

Focus on Diversity

Mont Alto Campus hosts program for minority students

Twenty-seven seventh- and eighth- graders from Waynesboro and Chambersburg participated in the first "Summer Adventures in Learning for Minority Students" at the Penn State Mont Alto Campus during the week of July 15.

According to **Ronald Keiper**, director of academic affairs, the program designed to introduce the students to the advantages of higher education, is funded through a Penn State Equal Opportunity Program Committee grant.

"Penn State is working very hard to increase the diversity of its students and its curriculum," Dr. Keiper said. "We, as a campus, also are committed to this."

The students attended classes in human physiology, art, and history, taught, respectively, by **Bernadette Stockslafer**, instructor of biology at Mont Alto; **Tom McFarland**, part-time faculty member, and **Tina Giles**, a teacher at Chambersburg Area Middle School. They participated in an informal sports program, led by Student Programs and Services staff. **Rodd Welker** and **Diane Andrews** honed study skills in

workshops conducted by **Norene Moskalski**, director of the campus Learning Center, and Learning Center staff member **Betty Jakum**; and created and presented academic projects.

On Friday, July 19, speakers talked to the students about the importance of higher education and the role that education has played in their careers. Speakers included **Dwight Davis**, assistant professor of medicine and a member of the cardiac care team at the Hershey Medical Center, **Michael Hardy**, director of human resources at Citicorp, Hagerstown, Md.; and **Barbara Thompson**, director of Penn State's Harrisburg Area Community Recruitment Center.

"Summer Adventures in Learning for Minority Students" stresses both content and academic skill and underscores the career and life advantages of higher education," Dr. Keiper said. "We hope to turn students on to the idea of higher education while they have the opportunity to prepare for college through their high school courses."

Bernadette Stockslafer, instructor of biology at Penn State Mont Alto, center, teaches students attending the "Summer Adventures in Learning for Minority Students" program the proper method for taking blood pressure.

News in Brief

Telephone number change

Effective immediately, the telephone number for Penn State Great Valley has been changed to (215) 648-3200. The new direct inward dial number to reach people directly is now (215) 648-3 plus the previous three-digit extension number.

International students

All new international students are invited to attend a special orientation program on Monday, Aug. 12, or Friday, Aug. 10, to help them begin their academic careers at Penn State. All departments and colleges are asked to encourage their new international students to attend the orientation program, which is conducted by the Office of International Students. Call 865-6348 for details.

Nutrition and aging symposium

A special one-day symposium on "Nutrition and Aging" will be held Wednesday, Aug. 14, in Room 209 Henderson Building South at University Park.

The symposium, sponsored by the Nutrition Department and the Office of Summer Sessions, is designed to provide a multidisciplinary approach to address critical issues in the aging process and the aged.

Speakers will include Harold Standstead, School of Medicine, University of Texas; Carol Dichter, program manager of nutrition science, Campbell Soup Co.; Pennsylvania Secretary of Aging, Linda Rhodes; Gary

Fosmire, associate professor of nutrition science, and Helen Guthrie, professor of nutrition, both at Penn State; James Connor, Hershey Medical Center, and Gordon Jensen, Geisinger Hospital.

Graduate student research forum

The fourth annual Graduate Student Research Forum will be held at the College of Medicine at the Hershey Medical Center during orientation week on Thursday, Aug. 22, and Friday, Aug. 23.

A keynote address will be given at 4 p.m. Thursday in the Lecture Room by Dr. Janet Robishaw, a 1983 graduate of the College of Medicine who currently is at the Sigfried and Janet Weis Center for Research in Danville.

The Research Forum, established to provide greater opportunity for faculty and students to present their research and exchange information and ideas, provides two formats. A poster presentation will be open in the Library on Thursday, while oral presentations will be given beginning at 9 a.m. Friday in Lecture Room C.

Volunteers needed

The Center for Locomotion Studies is actively seeking diabetic men and women between the ages of 40 and 70 who may have decreased sensation in their feet and legs to participate in a research project on falls and gait.

In addition to helping research on diabetes, volunteers will have their feet and legs examined for sensitivity, strength and flexibility.

If you are interested, call Mary Becker at the Center for Locomotion Studies at 865-1972.

Catalog available

The ninth edition of the "Films and Video for Mathematics and Physical Sciences" catalog is now available from Audio-Visual Services. More than 900 programs are listed in this reference source, and each title is available for classroom use at no charge to University faculty members.

Copies of the catalog are housed in 20 Willard Building and at Special Services Building off Fox Hill Road. To receive a catalog through campus mail, call 863-3103. At a Commonwealth Campus, contact the campus instructional services specialist.

Bike tour planned

The North Central Branch of the Central Pennsylvania Chapter of the National Multiple Sclerosis Society is seeking volunteers to assist with a one-day bike tour Sept. 29 in State College.

Volunteers are needed for a number of committees, including Starting Line, Signage, Rest Stops, Lunch, Sag Vehicle (drivers), Logistics, Hazard Teams.

Interested persons should contact Teresa K. Herman, Fund raising coordinator, at the North Central Branch, 581 Jefferson Lane, Williamsport, PA 17701-5340, telephone (717) 326-3751.

Obituaries

Irvin "Bobby" Wright, 40, assistant professor of education and research association at the Center for the Study of Higher Education, died May 15.

Dr. Wright, a member of the Chippewa-Cree Tribe, Rocky Boy's Reservation, Montana, joined the University faculty in January 1990 after serving as assistant professor and director of the Center for Native American Studies at Montana State University from 1986 to 1989. In addition, he had been director of the Montana Tribal College Development Program, Center for Bilingual Multicultural Education, at Montana State University, assistant professor.

A foremost scholar on American Indian education and the history of American Indian education in the United States, he had served as a Ford Foundation Postdoctoral Fellow and a Katrin Lamon Resident Scholar at the School of American Research.

His degrees were: Ed.D. in adult and higher education from Montana State University, M.A. in American studies and Native American studies from the State University of New York at Buffalo, and B.S. in business administration from the University of San Francisco.

John A. Lieb, retired associate professor at the Penn State Fayette Campus, died June 8. He joined Fayette Campus faculty July 1, 1966, and retired June 30, 1988.

Mary A. Corman, clerk typist A, College of Agriculture, since March 15, 1976, died June 15 at the age of 49.

More obituaries on Page 3.

New child care center opens on Penn State Harrisburg campus

A child care center opened on the campus of Penn State Harrisburg Aug. 1 in response to a growing need for child care services at the College.

"The College's staff and faculty as well as our large student body of adults 25 years of age and older have a need for a child care service," Ruth Leventhal, provost and dean, said. "The new facility is a dream fulfilled for many in our Penn State Harrisburg community."

The new center, Stepping Stone at Penn State Harrisburg, is located on the east side of campus and has the capacity to hold 55 toddler/preschool children and 12 infants. Openings will be offered first to the Penn State Harrisburg community. Additional spaces will be open to Middletown/Harrisburg area residents.

The center will be operated by Stepping Stone Inc., a Department of Welfare and Education-approved child care provider which has been in operation for ten years. Leeanne Gast has been named director of the center.

The new facility provides 2,450 square feet of space internally and 4,500 square feet of fenced area outside. The center will be open 7:30 a.m. to 9:30 p.m. Monday through Thursday and until 5:30 p.m. on Fridays. Full-time and part-time rates are available and drop-in and latch key care will be provided on a space-permitting basis.

Further information about the child care center can be obtained by calling Penn State Harrisburg's Business Services Office at (717) 948-0004.

New child care center at Penn State Harrisburg

Obituaries

Albert H. Boileau Jr., retired business manager at the Penn State Osgontz Campus, died June 23 at the age of 77.

Mr. Boileau joined the University staff in 1958 as assistant to the head, Building Maintenance, at University Park and transferred to Osgontz in 1960 in the dual capacity of business manager and supervisor of maintenance.

He was closely involved with the physical development of Osgontz, including construction of three major buildings.

Mortimer A. Schultz, professor emeritus of nuclear engineering, died June 29. He was 73.

A visiting associate professor at Penn State from 1962 to 1967, he became a full-time faculty member in 1968. He retired from Penn State Dec. 31, 1980.

He taught at the University of Pittsburgh's Graduate School of Public Health and guest lectured at the Massachusetts Institute of Technology, the University of Michigan, the University of California, the U.S. Naval Academy and

the University of New South Wales in Australia.

Before joining the University faculty, Mr. Schultz, an MIT graduate, spent 22 years at the Westinghouse Electric Corp., mostly in Pittsburgh, working in various research and administrative capacities.

His professional career provided material for over 50 technical articles and papers and many patents and patent disclosures. Until his death, he worked actively as a consultant, writing and publishing on the subject of the development of super-safe reactors.

John M. Warren Jr., professor of psychology, died July 4. He was 65.

He received a bachelor's degree in psychology in 1949 from the University of Wisconsin, his master's degree in psychology from the University of Wisconsin in 1950 and a doctorate in psychology from the University of Wisconsin in 1953.

He joined the University faculty in 1960 as an associate professor of psychology. In 1963 he was appointed director of the Animal Behavior Laboratory. In 1964 he was named professor of psychology and was a visiting professor at the University of

California, Berkeley. In 1972-73 he was the visiting scientist of animal behavior at Cambridge University, England. In 1975 he was a visiting professor at the University of Hawaii.

His written works appeared in numerous publications throughout his career.

Roe S. Cochran, associate professor of forestry marketing and utilization, died July 12. He was 65.

A graduate of Michigan State University with B.S. and M.S. degrees, he joined Penn State Cooperative Extension as an assistant professor in 1965. He conducted educational forest industry programs in Cameron, Clearfield, Elk, Forest, McKean, Potter, and Warren counties.

Prior to joining extension, Professor Cochran was employed by the Armstrong Forest Company and the Ohio Reclamation Association.

He was a member of the Society of American Foresters.

Sara T. Close, administrative secretary, Office of the Provost, from Dec. 29, 1952, until her retirement Jan. 1, 1976, died June 6 at the age of 75.

Gifts

(Continued from Page 1)

1990-91. In fact, we received some 3.5 percent more corporate gifts than the previous year."

Total giving from all sources in 1989-90 amounted to a record \$62.4 million. The University raised \$55.2 million in 1988-89 and \$50.3 million in 1987-88.

"All of the funds raised during those years were in the context of the Campaign for Penn State, a formal fund-raising effort," Dr. Gearhart said. "The year ending June 30 was the first since 1984 that we were not in a University-wide campaign, which makes the fine showing we had in 1990-91 even more gratifying."

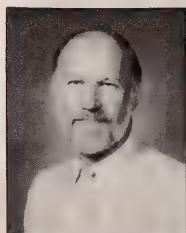

Library

(Continued from Page 1)

the College's Instructional Communication Center, which includes audio-visual services, a TV studio, and printing and copying services.

The library itself will have private study areas, a foreign language lab, two computer labs, and also will house the College's Learning Assistance Center.

25-year award recipients

Observing 25 years of service at the Applied Research Laboratory are, from left, John H. Beebe, assistant director of planning, operations and administration; Roger L. Kerlin, senior research associate; Richard D. Kowitz, supervisor, systems fabrication

and assembly; Gary R. McClintic, head, water tunnel operations; Edwin N. McGarvey, technical illustrator.

Awards

Liberal Arts Alumni Society presents awards

William M. Donovan and William Jaffe have been honored by the Liberal Arts Alumni Society.

Mr. Donovan, who received the Service to Society Award, is instructor in business administration at the Worthington Scranton Campus. Prior to joining the campus faculty in 1981, he served for 25 years with International Correspondence Schools, including six years as national advertising director.

His public and professional service activities over the past four decades include volunteer work with United Way, Chamber of Commerce, American Advertising Federation, YMCA, Family Service, Mental Health Association, and Cerebral Palsy.

The winner of the Silver Medal Award of the American Advertising Federation for contributions to the advertising professions, he served as advertising director for William W. Scranton in Mr. Scranton's successful campaign for governor of Pennsylvania in 1962.

Mr. Donovan, who attended Penn State in 1939-41, is a 1943 graduate of the University of Scranton and earned his MBA there in 1983.

William M. Donovan

Mr. Jaffe, who was involved in the establishment of the award concept for the Liberal Arts Alumni Society is a founding board member of the society. Active in the Penn State Alumni Association, he has served as a member of the Alumni Council and as president of the Cleveland Club and board member of the Washington Club.

William Jaffe

Mr. Jaffe also has served as president and board member of the Lion's Paw Alumni Association. In the recently concluded Campaign for Penn State, he was a member of the Capital Region Steering Committee and headed the Baltimore/Washington Area Campaign.

Pennsylvania College of Technology honors teaching

Three faculty members at the Pennsylvania College of Technology have received 1991 Distinguished Teaching Awards.

The highest level of College recognition for faculty, the "Master Teacher Award," was presented to Victor A. Michael Sr., associate professor of electronics. Mr. Michael joined the College faculty in 1978 as instructor of electronics. In 1983, he was promoted to associate professor.

A 1957 graduate of Bloomsburg University, with a bachelor of science degree in education, his work experience includes 19 years as a chief engineer, manager, and owner of several AM-FM radio stations, and various self-employment in electronics. He had two years of teaching experience prior to joining the Penn College faculty.

Two other College faculty members, Dennis F. Ringling, professor of forestry, and Doreen W. Shope, assistant professor of business administration, were honored with "Excellence in Teaching Awards."

Dr. Ringling joined the Penn College faculty in 1972 as an instructor of forestry. He was promoted to assistant professor in 1971, associate professor in 1981, and professor in 1987.

Dr. Ringling earned a bachelor of science degree in forest science and agricultural education and an M.Ed. in agricultural education from Penn State, and a D.Ed. in vocational education from Temple University. He has received development and leadership recognition by the Commonwealth of Pennsylvania for Exemplary Secondary Forestry Curriculum.

Ms. Shope joined the College in 1983. She holds a B.S. degree in business education and an M.Ed. in education, both from Bloomsburg University. Prior to her affiliation with Penn College, she completed 16 years of related teaching experience.

In addition to public recognition and the opportunity to work on special projects, the Distinguished Teaching honors include cash awards sponsored by the Penn College Foundation. The recipient of the Master Teacher Award receives \$1,000. The Excellence in Teaching Award honorees are each presented \$500.

Penn College names Alumnus of the Year

Thomas A. Zimmermann, assistant professor of psychology/human services at Pennsylvania College of Technology, has been named the College's 1991 Alumnus of the Year. He was cited for his exemplary contributions to the College, the community, and the nation.

A 1967 graduate of Penn College's predecessor, The Williamsport Area Community College, Mr. Zimmermann recently completed a tour of duty in Saudi Arabia, as the psychologist with

the 15th Fleet Hospital. He is a commander with the Williamsport Naval Reserve Center.

As a full-time College faculty member since 1984, he has contributed to program development, curriculum development, student recruitment and advising. Mr. Zimmermann has chaired the College Governance Student Affairs Committee, served as adviser to the Human Service Club, and adviser to the Peer Information and Referral Center.

After receiving an associate degree

from the College, he earned a bachelor's degree in psychology from Lycoming College, and a master's degree in psychology from Bucknell University. He then received a commission in the U.S. Naval Reserve, and served for three years as a clinical psychologist. For 10 years, prior to his association with the College, he worked in a variety of positions at the Divine Providence Hospital Mental Health Center, in Williamsport.

Graduate assistants receive awards

Eleven University graduate students have won Graduate Assistant Awards for Outstanding Teaching. 1991 is the second year for the awards, which carry a \$500 check.

The teaching assistants were selected on effectiveness of presentation, mastery of subject matter, clear and fair student evaluations, accessibility to and rapport with students.

Howard Palmer, senior associate dean of the Graduate School, says that the awards are a mark of appreciation for the quality of teaching represented by the students.

Award winners are: Terry L.

Burnworth, Department of Architecture; Alex E. Hill, School of Music; Kathryn M. Plank, Department of English; Margo E. Slavos, Graduate Program in Art History; Tai-Chung Lau, Graduate Program in Botany; Karen C. High, Graduate Program in Chemical Engineering;

Stacey P. Lowery, Department of Chemistry; Angela R. Strzelczyk, Department of Chemistry; Rebecca S. Bigler, Department of Psychology; Susanne M. Polley, Department of Economics; Timothy J. Rupert, Department of Accounting and Management Information Systems.

Dr. Jordan receives award

President Emeritus Jordan has received the 1991 College Service Award given by the Board of Directors of Pennsylvania College of Technology.

Rep. Alvin C. Bush, chairman of the board, presented the award during Penn College's annual commencement exercises, at which Dr. Jordan was the guest speaker.

Private Giving to Penn State

Trustees approve changes for endowment funds

The Board of Trustees has approved increasing the minimum dollar amounts needed to establish faculty and student-aid endowments. The increase will take effect July 1, 1992.

In a report to the board, Quentin Wood, Trustee liaison to the National Development Council, cited three reasons for raising endowment levels:

- comments from throughout the University community that current minimum levels are not high enough to provide adequate support.
- comparisons showing that Penn State's endowment minimums are low, compared with other public research universities.
- consensus that the conclusion of The Campaign for Penn State (a six-year effort that ended June 30, 1990) presents an

appropriate time for raising endowment minimums.

The University invests the principal of an endowment and uses a part of the investment return to support the academic program or award specified by the benefactor. Generally, the amount available for use in an academic year is equal to 5 percent of the endowment's principal. Thus, a \$100,000 endowment would provide \$5,000 in spendable income, with the remainder being added to the principal as a safeguard against inflation.

The proposal to raise minimum endowments had been endorsed earlier by the National Development Council and President Thomas, who had consulted with the academic leadership of the University.

Here are the new minimum

endowment levels, followed by current levels:

— Chairs: \$1.5 million (\$1 million); professorships: \$500,000 (\$250,000); faculty fellowships: \$250,000 (\$100,000); graduate fellowships: \$100,000 (\$50,000); academic excellence scholarships: \$50,000 (\$25,000); designated scholarships: \$25,000 (\$15,000); University endowed scholarships: \$15,000 (\$10,000); endowed awards: \$10,000 (\$5,000).

The new minimums will not apply to endowments established before the increase takes effect.

The University has more than 140 chairs, professorships and faculty fellowships, and about 1,100 graduate fellowships, scholarships and similar student-aid endowments.

Du Pont gift assists agricultural researcher

The E.I. Du Pont de Nemours Co. has donated more than \$300,000 worth of computers, video equipment, microelectrodes, and specialized computer software to support the research of James L. Frazier, head of the Department of Entomology in the College of Agriculture.

Dr. Frazier is studying how bugs test plants before devouring them. His research could lead to nontoxic feeding inhibitors, or even to genetically

engineered crops that produce a flavor only a bug would hate.

"An insect knows what it likes," he said, "and it has several ways of testing a plant to see if it's safe to eat and will provide nourishment."

Using the Du Pont gift, Dr. Frazier records the patterns of nerve impulses produced by the taste cells in a single hair. These impulses are the basis for the insect's decision to feed or not to feed.

He is working with colleague Frank Hanson, an entomologist on a year's

sabbatical leave from the University of Maryland.

Before coming to Penn State last year, Dr. Frazier was a senior research scientist with Du Pont, where he worked with a team of biologists and chemists for more than seven years to develop new products for major market crops, such as cotton, corn and soybeans.

To date, Du Pont has given more than \$5 million to various University programs.

Boeing gives \$250,000 to Delaware Campus

The Penn State Delaware County Campus has received a \$250,000 gift from Boeing Helicopters to support the campus' program in composite structures manufacturing.

The grant is intended as a lead gift toward the development of an advanced Technology Center at the campus.

The center would support the workforce training needs of local

companies, including Boeing Helicopters, which for many years has been spearheading the development of new composite materials in airframe construction.

HRB Systems' gift supports professorship

HRB Systems of State College, an E-Systems company, has given \$25,000 to the College of Engineering for continued support of the HRB Systems Professorship in Signal Processing. The professorship was established in 1986 and is funded annually by HRB Systems.

"Penn State is a leading engineering institution and we are proud to solidify our partnership with the College of Engineering through this professorship," Michael Keebaugh, HRB vice president and general manager, said.

HRB Systems specializes in designing, developing, installing and supporting signals intelligence and electronic warfare systems. E-Systems, headquartered in Dallas, Texas, is a worldwide developer and producer of electronic systems and products.

The Singer Professorship has allowed the holder, Nirmal K. Bose, to implement novel research in areas of image reconstruction and initial research in neural networks area.

Dr. Bose is founder and director of the Spatial and Temporal Signal Processing Center, which was created to conduct teaching and research in signal processing and related areas of communications and control. The center has nine engineering faculty members, as well as participants from the Applied Research Laboratory.

HRB Systems is a strong supporter of the College of Engineering and has made substantial contributions to the Engineering Excellence Scholarship Fund.

Bookshelf

Richard M. Lerner, professor of child and adolescent development, and Anne C. Petersen, dean of the College of Health and Human Development, are co-editors with Jeanne Brooks-Gunn of Educational Testing Service in Princeton, N.J., of *The Encyclopedia of Adolescence*, a two-volume set of books.

Adolescence has grown into a major field of study in the last decade, the editors note in the preface. Many colleges now teach courses on adolescence, and a rapidly increasing number of medical and social programs and policies are directed at adolescents. The increased interest in adolescence has created a need for a comprehensive collection of information on the subject.

The new reference book is the first such encyclopedia on adolescence and is intended to be useful to teachers, practitioners and researchers. It spans intellectual and emotional development, health-related issues, relationship issues and problems of adolescence. It also includes historical perspectives, with entries on adolescence in such eras as Colonial America and the 19th and 20th centuries.

Drs. Petersen and Lerner and more than two dozen faculty members and graduate students at the University are among the contributors to the encyclopedia.

Coaching: A Realistic Perspective by Ralph J. Sabock, associate professor of physical education, is now in its fourth edition.

The book was first published as *The Coach* by W.B. Saunders Publishers in 1973, and the latest edition was published by Collegiate Press. An earlier edition was translated into Japanese.

Intended for coaches and for people who are preparing for careers in coaching, the book analyzes the coaching profession, qualities of a good coach, and the roles of a head coach and an assistant coach. It also covers management issues such as off-season preparation and preseason staff organization.

Unlike most books on coaching, the book includes chapters on ethical values in coaching, the recruiting process, and the coach's family.

William G. Tierney, associate professor of education and senior research associate in the Center for the Study of Higher Education, is the editor of the book *Culture and Ideology in Higher Education: Advancing a Critical Agenda*, published by Praeger Publishers.

It consists of essays that invite the reader to rethink some of the most basic assumptions of higher education. The essays demonstrate that researchers often have concentrated on issues of effectiveness and efficiency in academe, rather than issues of social justice and democracy. A number of chapters deal with how those in power insert their ideas into academe. Other chapters uncover a politics of hope and of possibility.

Appointments

Dianne L. Common

Kjell Meling

Sharon M. Symanovich

Christine L. Templeton

J. James Wager

Dianne L. Common, dean of the faculty of professional studies, Lakehead University, Thunder Bay, Ontario, has been named head of the College of Education's Department of Curriculum and Instruction.

Dr. Common began her career in 1970 as a teacher and department head in the Kelsey School Division in Manitoba. She served in teaching and government positions for several years before being named assistant professor at the University of Manitoba in 1978. After almost ten additional years of teaching at not only the University of Manitoba, but also Simon Fraser University and the University of Lethbridge, she joined Lakehead University in 1987.

Dr. Common received a bachelor of arts in 1969, a bachelor of education in 1973, and a master of education in 1974, all from the University of Manitoba. In 1979, she received a Ph.D. in educational administration and curriculum studies from the University of Ottawa.

She is past president of the Canadian Association for Curriculum Studies, founder and managing editor of the *Journal of Educational Administration and Foundations* and member of the executive board of *The Alberta Journal of Educational Research*. Professional affiliations include the World Council for Curriculum Studies, Commonwealth Council for Educational Administration, Canadian Society for Study of Higher Education and the Canadian Society for the Study of Education.

Kjell Meling, director of academic affairs at the Penn State Altoona Campus, has been named acting campus executive officer, effective Aug. 19.

Dr. Meling joined the campus staff in 1978 after serving as dean and administrative head of Chatfield College, St. Martin, Ohio, as well as associate professor of English prior to that, he taught English at the University of Cincinnati. He served as interim associate dean for undergraduate education at University Park from August to December 1980.

A graduate of New York University, he received master's and doctoral degrees in English from the State University of New York at Binghamton. His publications are on the subject of Old English manuscript runes.

At Penn State, Dr. Meling has been active in the University Faculty Senate

serving on a number of Senate committees. He is a member of the Martin Luther King Jr. Day Planning Committee and chair of the Campus Affairs and Organization Committee of the Council of Directors of Academic Affairs. He recently served on the University Council on Enrollment Policies and Planning.

Christine L. Templeton has been appointed assistant to the dean for external relations and communications in the School of Communications.

Since 1986, Ms. Templeton served as assistant to the dean and human resources coordinator. She has more than 22 years of service to Penn State, including serving in positions in the College of the Liberal Arts and Intercollege Research Programs.

Sharon M. Symanovich has been appointed assistant to the dean and human resources coordinator. She formerly served as administrative assistant at the Pennsylvania Transportation Institute. She has been at Penn State since 1973 in various positions in Intercollege Research Programs and the College of Engineering. "We have appointed Sharon Symanovich to cover the personnel and administrative management functions of the school, given that we have about 90 faculty and staff," Brian Winston, dean of the school, said.

"Chris Templeton is now able to devote all of her time to directing and nurturing alumni and external relations programs, including liaison with our media industry constituents. I'm very happy that both of these appointees bring a wealth of experience and expertise to these positions which are critical to the well-being of the school."

J. James Wager, director of Student Information Systems, Office of the University Registrar, has been appointed University Registrar. He succeeds Warren R. Hafner, who has retired with emeritus status.

As University Registrar, Mr. Wager is responsible for maintaining an academic record for each student presently or formerly enrolled at the University's 22 locations. Some of his overall responsibilities include the management of transcript processing, developing and implementing student policies and procedures, scheduling all classroom

activities and final exams, student registration, enrollment controls, graduation, student ID cards, and collecting and maintaining all student academic records data included in the ISIS data base.

A 1971 Penn State graduate with a B.S. degree in management, Mr. Wager received a Master of Public Administration degree from the University in 1976.

He joined the University staff in 1974 as assistant coordinator of administrative services in the then College of Human Development, and from 1978 to 1983 was a senior system analyst with Management Services.

He then joined the Office of the University Registrar as director of Registration and Scheduling, and served in that capacity until 1987 when he became director of Student Information Systems.

Joyce Matthews has been appointed assistant director of student programs and services at the Penn State Mont Alto Campus.

Since August 1989, Ms. Matthews has served as administrative coordinator of residence life at University Park. Previously, she was employed as supervising coordinator of residence life at University Park; admissions counselor and residence hall director at Hagerstown Business College, and admissions counselor at Thomas Nelson Community College, Hampton, Va.

Ms. Matthews earned a bachelor of arts degree in public relations from Shippensburg University and a master's degree in counselor education with student personnel emphasis at Penn State.

Rangachar Kasturi, associate professor of electrical and computer engineering, has been named acting director of the computer engineering program in the Department of Electrical and Computer Engineering.

Dr. Kasturi joined the University faculty in 1982 as an assistant professor.

Previously, he was an engineer for Bharat Electronics Ltd. and Visvesvaraya Industrial and Technological Museum, India. From 1978 to 1982 he was an instructor and research assistant at Texas Tech University.

After completing his undergraduate work at Bangalore University, India, Dr. Kasturi earned an M.S. and Ph.D. in electrical engineering from Texas Tech University.

Dr. Kasturi, a recipient of IEEE's Outstanding Advising Award and system manager for the computer engineering research lab, is a senior member of the Institute of Electrical and Electronics Engineers.

Jacquelyn L. Kline has been named the 1991 College of Engineering Administrative Fellow.

The Engineering Administrative Fellows Program is designed to provide career development opportunities for long-term engineering staff members.

Ms. Kline, secretary to the head of Aerospace Engineering, will work under the mentorship of Michael M. Renschman, associate dean for graduate studies and research. They will work together to develop an individualized work plan within the graduate studies and research office. The appointment is from July 1 through Dec. 31.

To be eligible, candidates must have had three years of continuous service in the college in a full-time clerical or staff position and have demonstrated leadership, interpersonal and management abilities.

Jennifer Lukoff has been named director of university relations at the Penn State Osgontz Campus.

A 1984 graduate of Penn State, Ms. Lukoff has been active in the alumni society and currently serves as vice president of the Osgontz Campus Alumni Society.

Ms. Lukoff had been with SP5 Technologies in Jenkintown as corporate communications editor and industrial relations representative. She also has had experience as editor and managing editor for Montgomery Newspapers in Fort Washington.

Kathy DiMuccio has been named affirmative action specialist responsible for computer systems and data coordination in the Office of Affirmative Action.

A native of State College, she is a 1974 Penn State graduate with a B.S. degree in human development and a 1982 Control Data Institute graduate in computer programming and operations.

Prior to her appointment, Ms. DiMuccio was a systems manager for Medsurge Industries Inc., in Herndon, Va.

Focus on the arts

Art exhibition

An exhibition of works by Beverly McIver, Lisa Brown and Bruce Fair, master of fine degree candidates in the School of Visual Arts, is on view through Saturday, Aug. 10, in Zoller Gallery at University Park.

Ms. McIver's portion of the exhibition, titled "At Peace With Me," contains oil portraits and still lifes that use thick paint and small brush strokes to describe the subtleties of color change on different shapes.

"Household Imagery" is the title of Brown's portion of the exhibition. Ms. Brown uses objects, tools and materials of the home to create symbols for the female experience in her ceramic and mixed-media work.

Mr. Fair titled his portion of the exhibition "Facing Center: A Jury of Your Peers." The series of drawings and paintings expresses a concern with the perception of Black people by a media-conditioned public.

Zoller Gallery is located on the first floor of the Visual Arts Building, across the breezeway from the entrance to the Palmer Museum of Art. Gallery hours for the summer are 10 a.m. to 4 p.m. Monday through Friday; 11 a.m. to 4:30 p.m. Saturday, and noon to 4 p.m. Sunday.

The arts on Channel 3

"Yehudi Menuhin," airing at 9 p.m. Monday, Aug. 12, on *American Masters* on WPSU-TV, is a two-part look at the celebrated violinist who has become one of the world's great ambassadors of music. Since making his debut in Paris at the age of 11, Menuhin has never been absent from the international concert stage and is still performing and conducting at 72.

The profile, filmed in the United States, Europe, and the Far East, follows Menuhin

Work by Beverly McIver in an exhibition of master of fine arts degree candidates in the School of Visual Arts is on view through Aug. 10 in Zoller Gallery.

from his own music school in Europe to his appearances with the world's great orchestras.

Distant Harmony: Pavarotti in China, airing at 9:30 p.m. Wednesday, Aug. 14, chronicles the famed tenor's tour throughout the People's Republic of China.

Set in the beautiful countryside of Provence in the 1920s and 1930s, the acclaimed French film, *Jean de Florette*, airing at 9 p.m. Friday, Aug. 9, and at 1:30 p.m. Saturday, Aug. 10, spins a tale of treachery, greed, and revenge. Gerard Depardieu, Yves Montand, Daniel Auteuil, and Emmanuelle Beart star.

Textbook exhibit

The exhibit, "History of Rhetoric and Rhetoric Textbooks," is on display in the Rare Books Room in Pattee Library at University Park through Aug. 15 to commemorate the 10th annual Penn State Conference on Rhetoric and Composition.

The exhibit features textbooks on rhetoric and speech, including an early example from 1553 of a series of Latin exercises and verses for German students. Other items in the exhibit include compilations of rhetoricians' essays, early editions of basic writers on grammar and oratory, and editions of Aristotle and Cicero.

Many of these examples have been drawn from the Leonard S. and Barbara Lock Goodman Collection of Classical Latin Texts, a gift to the University Libraries.

Pattee exhibit

Artifacts of Penn State student customs and traditions are on view through the end of August in the main lobby of Pattee Library in an exhibit created by the University Archives in the Penn State Room. Memorabilia from the 1880s to the 1950s and photographs from as early as the 1860s symbolize the evolution of class and school spirit.

Among the pins, watch fobs, fraternity keys, hats, banners, cards and sweaters are some very special items. For example, on display are "Lion Coats," which were canvas jackets worn by seniors and decorated with signatures and messages from classmates.

Architecture designs

"Wall Portraits," a retrospective exhibition of wall designs by freshmen architecture students, will be on display Aug. 19

through Aug. 28 in the Architectural Gallery, 206 Engineering Unit C at University Park.

The exhibit includes work from four basic design projects completed last year by students of Richard Alden, assistant professor of architecture. Projects involved studying and designing walls in terms of materials, the use of color, pattern and texture and door, window and gateway conceptions.

'The Gate is open'

"The Gate is Open," an exhibit by Craig Yarnell, is on display in Pattee Library West Lobby Gallery at University Park through Aug. 15.

The exhibit includes black and white photography, moirés, screen manipulations and video graphic images. "As a designer understanding communication mediums is critical, whether it be FAX, MAC or 8mm," Mr. Yarnell says.

The arts at...

Wilkes-Barre Campus

The Arts at Hayfield seventh annual summer festival arts and crafts show will be held at the Penn State Wilkes-Barre Campus in Lehman from 11 a.m. to 6 p.m. Sunday, Aug. 25. There will be many displays of crafts, art work, and stoneware. Refreshments will be available.

Scheduled live entertainment includes "Just Us" folk group; magic tricks by Pat Ward; the "Stringy Blues Band," and the one-act play "Sojourner" performed by the Germantown Theatre Guild. There will be many children's activities, including the drawing of a fence mural, face-painting and an activity center.

For more information, call Arts at Hayfield, (717) 675-2171.

Staff Vacancies

The following vacancies for positions described in staff exempt or full nonexempt have been listed with the University Employment Division for filling. The brief statements for each vacancy are illustrative. They are not complete position descriptions. **APPLY BY CALLING THE EMPLOYMENT DIVISION, 863-0304 (NETWORK LINE 433-0304).** Applications for these staff vacancies will be accepted until **August 15, DO NOT CONTACT THE AREA THAT HAS THE VACANCY.** Applications for staff vacancies are considered in accordance with Fair Employment practices (PSS 1) and in compliance with the University's Affirmative Action Compliance Program, without regard to race, color, religion, national origin, handicap or age (as provided by law), sex, or status as a disabled or Vietnam era veteran as

■ **01654, Director of Federal and State Campus, Academic Services, Office of Student Aid, University Park Campus** - Responsible to the assistant vice president for student financial aid for supervising the Pell Grant, Guaranteed Student Loan, Federal Campus Award and, State Grant Programs. Requires master's degree, or equivalent, preferably in student personnel services; counselor education, higher education, business or public administration, plus three to four years of effective and recent experience in student personnel, student aid, or other related areas and excellent interpersonal skills. **STAFF GRADE 9**

■ **01658, Research Aide, College of Agriculture, Veterinary Science, University Park Campus** - Perform routine and specialized procedures in molecular biology and bacteriologic and virologic culture, immunologic assays, gel electrophoresis and blotting, protein and nucleic acid purification. Requires bachelor's degree, or equivalent, in life sciences, preferably molecular biology or biochemistry plus up to one year of effective experience. Medical technology background preferred. **STAFF GRADE 4**

■ **01659, Applications Programmer, College of Agriculture, Laboratory for Artificial Intelligence Applications, University Park Campus** - Responsible to the LAIA Manager for the development, modification and documentation of new and existing software toolkits for artificial intelligence in the College of Agriculture. Requires bachelor's degree, or equivalent, in science or business with up to two years of effective experience in programming IBM-PC, and Macintosh in the C language. This is a fixed-term position funded until June 30, 1992. **STAFF GRADE 5**

■ **01660, Food Service Supervisor, Housing and Food Services, University Park Campus** - Responsible to the manager HUB Eatery and/or assistant manager HUB Eatery for the supervision of kitchen personnel and operating any area open for business throughout the HUB Eatery. Requires bachelor's degree or equivalent, plus over one year of up to and including two years of effective experience. **STAFF GRADE 5**

■ **01661, Technical Theatre Specialist, Theatre Architecture, Department of Theatre Arts, University Park Campus**

- Responsible to the technical supervisor, Department of Theatre Arts for providing instruction to students in proper theatre construction techniques by practical application to production requirements. Requires bachelor's degree, or equivalent, in technical theatre or related field plus up to one year of effective experience. This is a fixed-term position funded through June 30, 1992, with possibility of renewal. **STAFF GRADE 4**

■ **01662, Nurse Practitioner/Physician Assistant, Student Services, University Health Services, University Park Campus** - Responsible to the director, Clinical Services, for assessment, physical examination, health history evaluation and health counseling in the Outpatient Department. Requires graduation from an accredited school of nursing in a general medicine program with a current registered nurse and nurse practitioner license in Pennsylvania, plus one to two years of effective experience or a bachelor of science degree plus graduation from a nationally certified physician assistant program with current licensure through the Pennsylvania Board of Medical Assistance, plus one year of effective experience. This is a fixed-term position funded through June 30, 1992, with possibility of re-funding. **STAFF GRADE 6**

■ **01663, Medical Assistant, Student Services, University Health Services, University Park Campus** - Responsible to the physician in charge of women's health services providing clinical support services in the Women's Health Department. Requires high school graduation, or equivalent, completion of certification as medical assisting assistant plus one to two years of effective experience. Experience in medical setting is desirable. This is a ten month, fixed-term position. **STAFF GRADE 2**

■ **01664, Grants and Contracts Assistant, Senior Vice President for Research and Dean of the Graduate School, Institute for Policy Research in Management, University Park Campus** - Responsible to the coordinator, Research and Administrative Services, for providing support in the area of grant and contract administration. Requires associate degree, or equivalent, and three to four years of effective experience in the administration of sponsored research efforts. This is a fixed-term position funded through June 30, 1992, with possibility of renewal. **STAFF GRADE 5**

■ **01665, Promotion Associate, CE, Institute for Policy Research in Management, University Park Campus** - Responsible to the head, Promotions, for gathering information and data writing, editing, and copyediting assignments. Requires bachelor's degree or equivalent in journalism, English or related field plus six to twelve months of effective experience. An associate degree with one to two years of additional professional experiences may be substituted for degree requirement. **STAFF GRADE 4**

■ **01666, Area Representative, CE, Continuing Education, Hershey Center** - Responsible to the director of continuing education, Hershey Center for the functions of client management development, organization, operation,

and administration of Continuing Education programs and services. Requires bachelor's degree, or equivalent, plus two to three years of effective experience in business, industry or education. This is a fixed-term position through June 30, 1992. **STAFF GRADE 7**

■ **01667, Area Representative, McKeesport Campus, Continuing Education** - Responsible to the director of continuing education for providing the University function of Continuing Education in an assigned service area, with special emphasis on minority clientele. Requires bachelor's degree, or equivalent, in education, business, or a related field, plus two to three years of effective experience in continuing higher education programming and administration, marketing, budgeting and supervision, with special emphasis on working with minority clientele. **STAFF GRADE 7**

■ **01671, Police Service Officer, Behrend College** - Responsible to the police service supervisor and manager, Police and Safety Services, for the protection of life and property, preservation of peace and good order of the community. Requires associate degree, or equivalent, in academic credits, plus one to two years of effective experience. Individuals must be able to pass a medical examination and have ACT 120 Certification. Requires physical fitness and psychological tests. **STAFF GRADE 5**

■ **01672, Executive Programs Administrative Manager, The Smal College of Business Administration, Executive Programs, University Park Campus** - Responsible to the director of executive programs for the design, development, and implementation of computerized and non-computerized systems for administrative and academic purposes within Executive Programs. Requires bachelor's degree, or equivalent, plus two to three years of effective experience in developing computer systems and/or computer management. Master's degree is preferred. This is a fixed-term position funded through June 30, 1992, with good possibility of refunding. **STAFF GRADE 7**

■ **01674, Assistant Chef, Nittany Lion Inn, University Park Campus** - Responsible to the chef for assisting with the efficient operation of the kitchen and related areas. Requires associate degree, or equivalent, from a culinary school or professional training in a hotel or restaurant plus three to four years of effective experience. **STAFF GRADE 5**

■ **01675, Programmer/Analyst, Computer and Information System, Center for Academic Computing, University Park Campus** - Responsible to the assistant director of education technology services to provide programming and analysis support in the computerization of instructional software and provide support for the operation of a computer training center. Requires bachelor's degree, or equivalent, in computer science or a related field plus two to two years of effective experience in designing and programming computer based applications for instructional purposes. **A**

strong background in math and science also is desired. **STAFF GRADE 6**

■ **01676, Industrial Engineer, Vice President for Business and Operations, Management and Systems Engineering, University Park Campus** - Responsible to the director of management and systems engineering for providing consulting services to the University administrative functions. Requires bachelor's degree in industrial engineering, or equivalent, plus two to four years of effective experience. **STAFF GRADE 7**

■ **01677, Assistant Coach - Women's Field Hockey, Intercollegiate Athletics, University Park Campus** - Responsible to the head coach for performing/assisting with a variety of administrative and coaching duties. Requires bachelor's degree, or equivalent, plus up to one year of effective field hockey coaching experience. **STAFF GRADE 5**

■ **01678, Assistant Strength Training Coach - Football, Intercollegiate Athletics, University Park Campus** - Responsible for providing assistance in the management and operation of assigned strength training facility. Requires bachelor's degree, or equivalent, in health education, exercise science, physical education, sports medicine, or related field and up to one year of effective experience in strength training to include competency in the operation and maintenance of a variety of strength training equipment. Master's degree or certification from the American College of Sports Medicine highly desirable. **STAFF GRADE 5**

■ **01679, Network Analyst, Office of Budget and Resource Analysis, University Park Campus** - Responsible to the associate director for decision support systems (DSS) for installation and operation of computer network systems, training of support staff, as well as hardware and software solutions for the office. Requires bachelor's degree, or equivalent, in computer science or related field plus two to three years of effective experience working with office networks and personal computers. Good oral and written communications essential. **STAFF GRADE 7**

■ **01680, Marketing Communications Account Specialist, Continuing Education, Public Information and Publications, University Park Campus** - Responsible to the director of Public Information and Publications, for working with program faculty, conference planners, and other specialists, including marketing analysts, writers, graphic designers, photographers, printers, and mailing coordinators. Requires bachelor's degree, or equivalent, in marketing, communications, journalism, English or related field, plus up to two years of effective experience in marketing communications, advertising or related area, including project management and editorial responsibilities. Also requires excellent writing and communications skills and knowledge of graphic design and printing industries. **STAFF GRADE 6**

■ **01681, Project and Data Specialist, Pennsylvania State Data Center, Penn State Harrisburg** - Responsible to the Harrisburg Office coordinator for performing a variety of activities.

Requires bachelor's degree, or equivalent, in planning and regional planning and up to one year of effective experience. Experience in computer applications, programming languages (FORTRAN, COBOL) and statistical software packages is highly desirable. The work site will be the Main Capitol Building in downtown Harrisburg. This is a fixed-term position funded through June 30, 1992, with excellent probability of refunding. **STAFF GRADE 4**

Hershey

For the following position vacancies, apply directly to The Milton S. Hershey Medical Center. Attach resume with cover letter indicating the position, vacancy code and forward to the Department of Human Resources, Hershey, or call the Hershey bid line at (717) 531-8531 by August 15.

■ **01250, Administrative Head Nurse, Department of Nursing/Outpatient Surgical Suite** - Responsible to nursing manager, O.R. Operating Room Complex for the implementation of the operating room schedule and coordination of activities with physicians and other departments. Requires bachelor of science degree in nursing from an accredited school of nursing plus one to two years of effective experience and currently licensed to practice as a registered nurse by the Pennsylvania State Board of Nursing. **STAFF EXEMPT, GRADE 6**

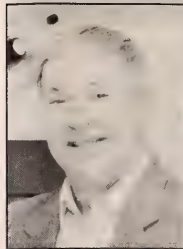

■ **01256, Nurse Manager, Department of Nursing/Operating Room** - Responsible to the assistant director, Nursing Services, O.R. Complex for evaluating, providing and improving nursing services for patients in the operating room. Requires bachelor of science degree in nursing from an accredited school of nursing plus three to four years of effective experience and currently licensed to practice as a registered nurse by the Pennsylvania State Board of Nursing. Operating Room management experience preferred. **STAFF EXEMPT, GRADE 7**

■ **01216, Clinical Nurse Specialist, Department of Pediatrics and Nursing** - Responsible to the chief, Division of Pediatric Critical Care Medicine, and assistant director, Maternal Health Nursing, for providing expertise and education in the care of critically ill children in the Pediatric Intensive and Intermediate Care Units. Requires master's degree in nursing or equivalent with licensure to practice nursing in Pennsylvania. One to two years of effective experience in pediatric critical care nursing. **STAFF EXEMPT, GRADE 7**

■ **01761, Staff Assistant, Office of the Associate Dean for Academic Affairs** - Responsible to the associate dean for academic affairs, for the performance of administrative duties with a variety of administrative duties. Requires a bachelor's degree in business, social science or related field, or the equivalent, plus one to two years of effective experience. **STAFF GRADE 5**

■ **01769, Biostatistics Specialist, Department of Safety and Security** - Responsible to the director, Safety and See 'Vacancies' on Page 9.

Partings

Edward Dreisbach

Warren R. Hafner

Robert H. Hamilton

Maryann Malasavage

Robert F. Neuhaud

Edward Dreisbach, associate professor of electrical engineering at the Penn State Wilkes-Barre Campus, has retired after 38 years of service.

He began teaching in 1953, the first year the associate degree program in electrical engineering was initiated. He was instrumental in helping find the location of the current campus in Lehman when Penn State Wilkes-Barre experienced a "boom" in enrollment and needed a larger area.

Professor Dreisbach was named Outstanding Advisor in the College of Engineering in 1986, and was chairman of the Electrical Engineering Technology program for 25 years.

He received his electrical engineering degree from Lehigh University in 1950. His plans for retirement include working as a consultant with CS & K Engineers and volunteering for Steamtown.

Warren R. Hafner has retired as University registrar emeritus after 34 years of service.

Mr. Hafner, a 1954 Penn State graduate with a B. A. degree in commerce, joined the University staff in 1957 as assistant to the registrar.

He served as assistant registrar, associate registrar, associate director of admissions,

and in 1971 was appointed director of the Division of Admissions, Records and Scheduling. He served in that capacity until 1979 when he was named University Registrar.

During his Penn State career—from 1957 to 1991—4,539,816 students were registered and there were 310,772 graduates. There were 19,265 students enrolled at all locations in Fall, 1957, compared with 70,978 in fall, 1990—a 268 percent increase.

In 1987, Mr. Hafner received the John E. Wilkinson Award for Administrative Excellence. Nominators noted that "his personal style of management emphasizes a sensitivity for the needs and feelings of the people who work with him and of those served by his office and systems."

In April, the University Faculty Senate cited Mr. Hafner's contributions to the University, noting "he has skillfully balanced a compassion for the well-being of students and the University's insistence on excellence."

Mr. Hafner, his wife, Betty, and their four children are Penn State graduates.

Robert H. Hamilton, professor of biology in the Eberly College of Science, has retired with emeritus rank after 30 years of service.

With the help of several postdoctoral

students and Ralph Mumma, Penn State distinguished professor of environmental quality, Dr. Hamilton pioneered the use of plant tissue cultures for the study of Pesticide metabolism in plants. His research resulted in over 60 publications, mainly in the area of metabolism of plant growth hormones and pesticides.

He is a member of the American Society of Plant Physiologists, the Japanese Society of Plant Physiologists, the International Association for Plant Growth Regulators, the American Institute of Biological Sciences, the Weed Society of America, the American Association for the Advancement of Science, and Sigma Xi.

Dr. Hamilton earned his bachelor's degree from the University of Illinois, master's degree from Rutgers University, and doctoral degree from Michigan State University. Prior to joining the University faculty in 1961, he was employed by the U.S. Department of Agriculture in East Lansing, Mich., and Raleigh, N.C.

He and his wife, Barbara, live in State College.

Maryann Malasavage, laboratory technician C at the Hershey Medical Center, has retired after more than 20 years of service.

When she began in October 1970, Ms. Malasavage worked the 3 to 11 p.m. shift

in the snackbar, which was eventually closed and replaced with machines. She then moved to the cafeteria.

Two years later, she took the position as a blood collector in the hospital lab and remained there until her retirement.

Currently, Ms. Malasavage is spending time with her three-month-old grandson, but says she and her husband plan to travel after his retirement.

Robert F. Neuhaud, coordinator, Office of Clinical Experiences, and affiliate associate professor of education in the College of Education, has retired after 25 years of service.

Dr. Neuhaud began his career in the College of Education in 1965 as an instructor of secondary education and supervisor of student teachers. In 1970, he was promoted to assistant professor and in 1973, to associate professor. He was appointed coordinator of the Office of Clinical Experiences in 1976.

Dr. Neuhaud's education includes study in engineering at Carnegie Mellon University, a B.S. in secondary education from Edinboro State College, an M.Ed. in counselor education from Penn State, and a D.Ed. in secondary education, also from Penn State. He taught in Corry Area Public Schools and Baldwin-Whitehall Public Schools.

Vacancies

(Continued from Page 8)

Security, for the development and implementation of a biological and laboratory safety program to ensure compliance with local, state and federal regulations. Requires bachelor's degree in biological science or equivalent, plus 2-4 years of effective experience in a laboratory environment, or master's degree in biological science, plus experience. Knowledge of laboratory safety procedures, biohazardous agents, chemical and biochemical carcinogens in relation to state and federal safety standards required. STAFF EXEMPT GRADE 6.

■17619, Data Coordinator, Medical Records—Responsible to the manager, Department of Medical Records, for developing and implementing continuing

programs for the dissemination of patient and statistical data. Requires a bachelor's degree in business administration and registered record administrator of RRA eligible and three (3) to six (6) months of effective experience or an accredited records technician with at least two years effective experience in a medical records department environment. Knowledge of the ICD Coding System as well as the ability to discern and understand coding and indexing information desirable. STAFF NONEXEMPT, GRADE 4.

■17635, Coordinator, Surgical Fees, Department of Surgery—Responsible to the director of administration/surgery, for overseeing and coordinating the professional fee billing and systems. Requires a bachelor's degree or equivalency in business plus 1-2 years of effective experience in supervisory capacity. This is a temporary double-fill position for approximately 1 year. STAFF GRADE 6.

Applications sought for associate VP

Applications and nominations are being sought for the position of associate vice president for program development in Continuing Education. The associate vice president reports directly to the vice president for continuing education and will provide senior level leadership and liaison for program development in continuing education.

The position will be responsible for the creation and coordination of a systematic program development process that includes academic colleges, campuses, and all continuing education delivery systems. The position will oversee the market research and marketing communication functions.

Candidates should have faculty rank and a strong academic record, with a demonstrated commitment to academic

service and outreach through continuing education. Experience in marketing research, program development, and marketing communications is essential.

David Mercer, director of Independent Learning, is serving as chair of the search committee. Other members include James Campbell, Joseph D'Gregorio, Madlyn Hanes, Margaret Hopli, W. LaMar Kopp, Robert Nicely, Kathleen Pavelko, Donna Ricketts, Matthew Rosenshine, Imita Ross-Gordon, Jack Royer, Wayne Smith, James Staudenmeier, James Stewart, and Kathryn Woodley.

Applications and nominations should be sent to: Search Committee for Associate Vice President for Program Development, 212 Keller, University Park, PA 16802.

Penn Staters

Leonard G. Austin, professor emeritus of fuels and mineral engineering, has received the Arthur E. Taggart Award of the Society for Mining, Metallurgy and Exploration, which recognizes papers that make a notable contribution to the science of mineral processing.

Z.T. Bieniawski, professor of mineral engineering, has been appointed to an Expert Task Group of the Strategic Highway Research Program.

Joseph H. Britton, professor emeritus of human development, has received the Distinguished Alumni Award from Albion College.

Peter R. Cavanagh, professor of locomotion studies, served as visiting professor in the Department of Medicine at the University of Manchester Medical School, Great Britain. He also presented papers at the autumn meeting of the British Diabetic Association in Newcastle and the British Orthopaedic Foot and Ankle Society in Liverpool.

Monty L. Christiansen, associate professor of recreation and parks, discussed vandalism perceptions and control strategies in the United States at an international conference on vandalism reduction in Glasgow, Scotland.

Carol A. Dwyer, affiliate assistant professor of education and instructional designer in the Computer Based Education Lab, presented a paper, "Exemplary Computer Based Software for the Macintosh," at the International Council for Educational Media, Berlin, Germany.

George W. Franz, assistant professor of history at the Penn State Delaware County Campus, has been appointed by Gov. Robert P. Casey as a member of the Brandywine Battlefield Park Commission.

Geoffrey Godbey, professor of leisure studies, has received the Jay B. Nash Scholar Award from the American Alliance of Leisure and Recreation for outstanding career achievement in recreation and leisure studies.

David J. Green, professor of ceramic science and engineering in the Department of Materials Science and Engineering, has been elected a Fellow of the American Ceramic Society.

William A. Hartman, associate professor of education, has received the 1991 Distinguished Service Award from the American Education Finance Association for "distinguished leadership and devoted service on the board of directors of the American Education Finance Association."

Kenneth Kuo, distinguished alumni professor of mechanical engineering, **Fan-Bill Cheung**, professor of mechanical engineering, and **Wen-Hsin Hsieh**, assistant professor of mechanical engineering, have been awarded the first of a two-year, \$154,606 NASA Marshall Space Flight Center contract. The NASA funded, Penn State Propulsion Engineering Research Center has awarded matching funds of \$77,304 to the research project.

Archie J. McDonnell, professor of civil engineering and director of the Environmental Resources Research Institute, has received the Karl M. Mason Medal from the Pennsylvania Association of Environmental Professionals for outstanding achievement in environmental management in Pennsylvania.

Robert E. Newnham, Alcoa professor of solid state science, has received the Centennial Award of the Ceramic Society of Japan for outstanding contributions to the international relationship between Japan and the United States.

Robert F. Nicely Jr., professor and associate dean for continuing and commonwealth education and outreach programs, has received a special award from the Pennsylvania Association for Supervision and Curriculum Development "for leadership at the Pennsylvania and national association levels."

Timothy C. Ovaert, assistant professor of mechanical engineering at Penn State, is the recipient of a \$5,000 National Science Foundation award which funds "Research Experience for Undergraduates," a program focusing on in-vitro friction and wear testing polymer composites.

R.V. Ramani, head of the Department of Mineral Engineering, has received the 1991 Howard N. Eavenson Award of the Society for Mining, Metallurgy and Exploration (SME) for his "distinguished contributions to the advancement of coal mining through research, innovation, and engineering education."

Asok Ray, professor of mechanical engineering, and **Marc Carpino**, assistant professor of mechanical engineering, have received a one-year, \$99,950 NASA Lewis Research Center grant for their research on extending the life of the space shuttle main engine by reducing the probability of fatigue damage through appropriate control actions.

Kanaga Sahadevan, radiation services technician, has received the American Nuclear Society's Best Technical Presentation in Reactor Operations and Control award.

P. Peter Rebane, associate professor of history at the Penn State Ogonitz Campus, has been appointed by Pennsylvania Governor Robert P. Casey to the Pennsylvania Heritage Affairs Commission which works with state and local government, non-profit organizations and professional associations, and the public-at-large to identify, conserve, and promote awareness of the varied cultural traditions that enrich the Commonwealth.

Andrew Scanlon, professor of civil engineering, has received the Canadian Society of Civil Engineering's P.L. Pringle award for his paper titled "Interpretation and Application of Core Test Data in Strength Evaluation of Existing Concrete Bridge Structures."

Donald A. Streitz, assistant professor of mechanical engineering at Penn State, has received a three-year, Whitaker Foundation grant of \$180,000. The focus of "Variable Gravity Systems for Locomotion Rehabilitation of the Elderly" is the development of a gait support system to promote the use of lower body muscles during rehabilitation and other situations.

Alfred Traverse, professor of palyngology in the Department of Geosciences, has been named recipient of the Paleobotanical Society International Medal for 1990-91 in recognition of his "outstanding contributions to paleobotany and palyngology."

Inyong Ham, FANUC professor of industrial engineering and director of the Manufacturing Research Center, served as the Russell Severance Springer Visiting Professor in the Department of Mechanical Engineering at the University of California, Berkeley.

Sabih Hayek, professor of engineering mechanics, and **Kon-Weil Wang**, assistant professor of mechanical engineering, have received a grant of \$25,000 from the General Motors Corporation to fund research on the noise and vibration of automobile engine drive chains.

Edward H. Klevans, professor and head of nuclear engineering, has been elected for a three-year term to the Executive Committee of the Education and Training Division of the American Nuclear Society.

James F. Campbell, regional director of Continuing Education at the Wilkes-Barre Campus, has been appointed to the National University Continuing Education Association's.

Chet Gnatt, director of Continuing Education Public Information and Publications, has been elected to serve a one-year term as chair of the National University Continuing Education Association's.

Gary W. Gallagher, professor and head of the Department of History, is this year's winner of the Founders Award, given by the Museum of the Confederacy for his book, *Fighting for the Confederacy: The Personal Recollections of General Edward Porter Alexander*. The biennial award recognizes outstanding scholarship and honors editing of primary sources.

Anne C. Petersen, dean of the College of Health and Human Development served as the 1991 visiting scholar in the University of Minnesota's adolescent health program, an interdisciplinary program based in the Department of Pediatrics.

Victor E. Sanvido, associate professor of architectural engineering, has received the American Society of Civil Engineers 1991 Thomas Fitch Rowland Prize which recognizes a paper, "Impact of Material Management on Productivity - A Case Study."

Victor Sparrow, assistant professor of acoustics, is one of twenty scientists nationwide chosen to attend a workshop on scientific visualization at the National Center for Supercomputing Applications in Champaign, IL, this summer.

Gerhard Barsch, professor of physics, has been elected a Fellow of the American Physical Society for his "experimental and theoretical studies on linear and nonlinear elastic properties, lattice dynamics, and phase transitions of a wide range of materials of interest to physics, geophysics, and electromechanical devices."

Deborah Hamilton, conflict management specialist in the Center for Conflict Management, presented an invited talk titled "Voluntary and Required Mediation as Part of the Disciplinary Process" at the Conference on Campus Mediation Programs in Waterloo, Ontario.

J. Cordell Hatch, professor of agricultural communications on assignment in Pakistan, has received the 1991 Distinguished Professional Award from the International Association of Agricultural Communicators in Education in recognition of his career-long professional and service contributions in the U.S. and worldwide.

John Kovach, assistant professor of sociology at the Penn State Delaware County Campus, was a member of a contingent of 65 academics from major research institutions who presented lectures at the University of Havana and the Cuban Pedagogical Institute in Havana, Cuba.

Herschel W. Leibowitz, Evan Pugh professor of psychology, has received an honorary Doctor of Science degree from the State University of New York for his contributions as a distinguished vision scientist.

Focus on Research

Researcher seeks alternative to fish oil for reducing heart disease and cancer risks

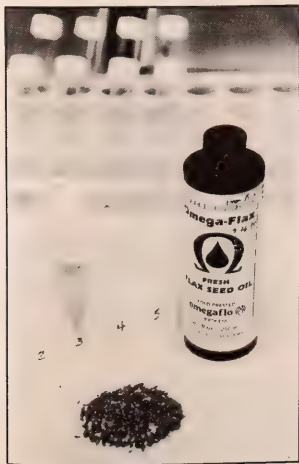

A University researcher is testing the effectiveness of flax and linseed oils to reduce the chances of getting coronary heart disease and the risks for some forms of cancer.

Yu-Yan Yeh, associate professor of nutrition in the College of Health and Human Development, said fish oil contains the Omega-3 fatty acid, which is effective in battling those two diseases. "But not everyone likes to eat fish oil or supplements."

Over the last 15 years, a number of researchers have discovered the benefits derived from fish oil and what they call "long chain Omega-3 fatty acids," Dr. Yeh said.

Research has shown that the longer chain Omega-3 is beneficial to health promotion and disease prevention. Dr. Yeh is trying to determine if vegetable oils can be substituted for fish oil.

"Vegetable oils contain shorter chain Omega-3 fatty acid which can be made into longer chain acids," he explains.

Dr. Yeh uses oil made from flax seeds in his research on oils that contain the Omega-3 fatty acid. (Photo: Greg Grieco)

Yu-Yan Yeh checks the artificial rearing system he developed for raising rats in a temperature controlled environment. (Photo: Greg Grieco)

He has determined that flax and linseed oils contain a high content of the shorter chain Omega-3 fatty acids and would be a good substitute for fish oil. He is testing flax and linseed oils on baby rats to determine if the oils will be able to increase the longer chain Omega-3 in the animal.

The three-year project is partially funded by the American Heart Association.

"I want to find a way to enrich the long chain Omega 3 in newborns, because these fatty acids are important for brain and visual development. Without enough, it has been demonstrated that the animal exhibits abnormal behavior and vision impairment," he said.

He has developed an artificial rearing system to use as a model for his study. The newborn rat babies are placed in cups that float in a temperature-controlled water bath.

"My pups-in-a-cup are fed from an infusion pump through a surgically implanted gastric tube. Their milk formulas contain different kinds and various amounts of fats.

The formula is mixed with either flax oil, linseed oil, fish oil or corn oil.

When the test rats had been on the formula for six days, he tested them and determined that the level of longer chain Omega-3 in blood, the liver and brain were enriched by the fish oil, flax oil and linseed oil, when compared with the group that was fed the formula containing corn oil.

"Clearly, the infants of mammal-like species like the rats are capable of converting the shorter chain to longer chain Omega-3. We now believe that vegetable oils such as flax and linseed oils may serve as a source of longer chain Omega-3," he said.

There is no direct evidence to suggest that a human infant cannot make the conversion.

"In humans, when their diet is absent of fish oil, but contains vegetable oil, we see a higher level of longer chain Omega-3 in brain and retina. This indicates that humans have the ability to make the longer chain Omega-3 from a shorter chain Omega-3."

Dr. Yeh is cautious and says that the benefits of Omega-3 rich vegetable oils for humans are yet to be established.

—Kimberley Yarnell

Two graduates scheduled to return as Alumni Fellows

William C. Clark and Philip J. Mercorella will return to Penn State in September as Alumni Fellows.

Mr. Clark of Mechanicsburg is president and chief executive officer of USAir Express, headquartered at the Harrisburg International Airport. Mr. Mercorella of Holland, Mich., is senior vice president for worldwide sales, marketing and distribution with Herman Miller Inc., Zeeland, Mich., a manufacturer and marketer of systems and furniture for office and health care facilities.

The two executives, graduates of The Smeal College of Business Administration will visit with students and faculty of the college Sept. 12-13 and be honored at a reception.

Mr. Clark, who earned a bachelor's degree in marketing in 1966, joined his father, the late L.W. "Roy" Clark in the airline business more than 25 years ago. Roy Clark was founder of Pennsylvania Commuter Airlines in State College in 1965. The air carrier became Allegheny Commuter in 1973 and was sold to USAir.

William C. Clark

Group in 1985.

Along with his mother, Mary Lois, and his wife, Lynn, William Clark created the

Philip J. Mercorella

L.W. "Roy" and Mary Lois Clark Faculty Teaching Fellowship in 1989 to support teaching excellence in The Smeal College.

Mr. Mercorella, who received an MBA from Penn State in 1966, was honored in 1983 with The Smeal College's Recognition and Return Award. He has served as president of Herman Miller-Canada and as president and chief executive officer of another Herman Miller company, Milcare Inc.

He is a member of the executive committee of Herman Miller Inc., vice chairman of the board for Milcare Inc., vice chairman of the board of Fairfield Inc. and director of Meridian Inc. and the Herman Miller Research Corp. He is a member of Pine Rest Foundation and director of the Pine Rest Christian Hospital.

Mr. Mercorella holds a bachelor's degree in management from St. Francis College, Brooklyn, N.Y.

The Alumni Fellow Award, presented by the Penn State Alumni Association, is administered in cooperation with the academic units. The Penn State Board of Trustees has designated the title of Alumni Fellow as permanent and lifelong.

EASY system receives national award

A new electronic approval system that will save the University \$850,000 a year by processing and tracking more than 2,000,000 forms annually has won first prize in a national competition.

Known as EASY, the system is part of Integrated Business Information System (IBIS), which was developed jointly by University staff in the Office of Computer and Information Systems and the Office of Finance and Operations.

"A major research university with 23 locations across the state generates a great deal of paperwork, with endless opportunities for duplication of effort and information," Steve A. Garban, senior vice president for finance and operations and treasurer, said.

"EASY not only significantly reduces the time involved in processing paper forms, but it also assures tighter controls on accuracy and on the approval process itself."

Edith Bender, administrative fellow in the Office of the Senior Vice President of Finance and Operations, submitted the program for the award. She and James

Wagner, vice president for business and operations, and Kenneth Babe, University controller, received the 1991 Cost Reduction Incentive Award of \$10,000 on behalf of the University at the National Association of College and University Business Officers' annual meeting in Nashville, July 22.

Penn State intends to use the award money to begin an incentive program for cost effectiveness in the University.

"Until now, Penn State's business offices relied on old data management systems, some dating back to the 1960s, and few were able to share information. Penn State is among the leaders in higher education to develop such an integrated system," Mr. Garban said.

EASY allows users to track the progress of business-related forms and to retrieve the information for later reference, analysis and reporting. Through on-line access, EASY saves labor by eliminating duplicate data entry, provides immediate electronic routing and insures the security of confidential data. It also has built-in flexibility for system changes.

Eberly College hosts Soviet students

One hundred twenty seven academically gifted high school juniors and seniors from the Soviet Union and 16 from Pennsylvania visited University Park July 7 through 31 as participants of the Penn State Youth Science Exchange, affiliated with the international group, People to People.

The program was hosted by the Eberly College of Science, the College of Engineering, and the Keller Conference Center, and is academically supported by Eberly College of Science and College of Engineering. During their three-week visit, the students attend daytime classes and laboratory sessions in the departments of Astronomy and Astrophysics, Computer Science, Physics, and Aerospace.

Engineering.

This is the second year that Penn State has been invited to participate in People to People and only the third time that Soviet students have traveled to the United States through the program. At the request of the Soviets, students from the U.S.A. were included in the program this year for the first time to increase opportunities for cultural interactions.

According to Richard Bunnell, director of continuing education in the Keller Conference Center, one of the reasons Penn State was asked to host the young scientists is because of the University's notable reputation in operating programs for high-school-aged students.

Faculty/Staff Alert

The Human Resource Development Center and Continuing Education are offering the following 3-credit courses for University employees Fall Semester 1991:

Economics 002 and Psychology 002 will meet from 12:10 to 1 p.m. Monday,

Wednesday and Friday; Management 341 will meet from 11:30 a.m. to 12:45 p.m. Tuesday and Thursday.

For information, contact the Human Resource Development Center at (614) 865-3410 or the Continuing Education Office at (814) 865-3443.

INTERCOM is published weekly during the academic year and every other week during the summer. It is an internal communications medium published for the faculty and staff of Penn State by the Office of Public Information, Room 312, Old Main. Phone 865-7517.
